THE MANCHESTER GUARDIAN ON DISARMAMENT

Report re Canada and Pacific Policy

Urges Universal League of Peoples—Opinions of More Men of Prominence Given in New York Paper.

London, Jan. 5.—(Canadian Associated Press)—The Manchester Guardian, discussing the signs now apparent that a reduction of naval armaments may become a live practical question, says: "How absurd is the idea of our building against an American navy has just been shown by the report, apparently well authenticated, that Canada is considering with the United States on common naval policy in the Pacific, Australia and New Zealand would adhere to it if given a chance."

The Guardian admits that it would be folly to deny that an emergency might arise in which Japan and the United States might be drawn against each and does not conceal its appreciation of certain possibilities of danger.

From this it argues that there is all the more reason, therefore, why the governments and peoples should get together in a universal league of peoples. New York, Jan. 5.—(Canadian Press)—Letters from prominent Canadians written in connection with the New York World's international disarmament campaign are published this morning by that paper.

Sir Vincent Meredith, president of the Bank of Montreal, says that "under existing world wide economic conditions there can be no question but that it is highly desirable that vast expenditures on armaments should cease and all countries work together to this end."

Sir H. Montague, president of the Merchants Bank of Canada is of the opinion that it is doubtful if the time has yet arrived for general disarmament, owing to the unsettled condition of affairs in Europe, but advocates an agreement by Great Britain, the United States and Japan with the object of "sleeping further capital expenditure."

Stephen Leacock, professor of McGill, says that rivalry in naval armament between Britain and the United States is a pathway to ruin. Such a course would betray both peoples and lead sooner or later to a conflict that would overwhelm both in disaster. "While there is still time, let us speak and act against such folly," he says.

Samuel Gompers, president of the American Federation of Labor, says: "I am for disarmament everywhere, but I am not hopeful of peace through disarmament alone, nor do I wish to see disarmament without the accompanying development of means and methods of settling the disagreement of nations by democratic practices through properly devised channels. The most effective road to disarmament would be ratification by the United States of the treaty of peace and the covenant of the league of nations."

That is Proposal of Government in Saskatchewan, Says Hon. Mr. Turgeon.

Prince Albert, Sask., Jan. 5.—That the government of Saskatchewan proposes to inaugurate an educational campaign for better observance of the laws with regard to the control of intoxicants is a statement by Hon. W. F. A. Turgeon, attorney-general. The campaign will be under the direction of the Rev. Dr. J. C. Nichol, of Saskatoon. Mr. Turgeon said that up to the present forcible repression had been the only instrument of enforcement. The government had considered the time opportune for a campaign to create a public spirit in favor of law observance.

SAYS NEW GREEK SLATE WAS PLANNED

Latest Report is That Venizelos Has Rejected Project.

Athens, Jan. 5.—Suggestion that former Premier Venizelos form a new state for dissident Greeks in the event of his losing the recent elections in Greece was rejected by him as "not Hellenic," says the chief editor of the newspaper Patris, who declares he broached the plan to the premier. The editor says: "It would appear from another Venizelist editor, however, that the general plan of M. Venizelos after the elections was to create the new state of Pontus, on the Black Sea, by which Constantinople would be located between two Grecias, and would eventually fall into the hands of the greater. It is a fact that this ambitious plan was being laid last August, one step in the scheme being the proposed landing of a Greek army in Pontus for an attack against Angora."

I., Jan. 5.—George Louder, wanted for the murder of Daniel Barry in Pictou, is in Prince county jail in Summerside awaiting the arrival of Detective Kennedy of Halifax and Chief of Police MacAuley of Pictou, who wired that they were coming for the prisoner. Louder was arrested at the home of James Grady, who is married to the prisoner's sister. When arrested, Louder said he did not know it was a murder charge, but believed it to be for assault committed in Summerside, when he became involved in a street row between returned soldiers and some young men who did not go to the front. He struck one of the latter.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hornbeam, "an obituary notice in one of the newspapers carried me back in thought many years, and called up incidents almost forgotten. Especially I recalled a hunting excursion with another youth to his home settlement. We bagged one partridge, I believe, and the cat got into the woods. When we were home to 'sit, there smiling girls welcomed us. There were dances—one in our house—and one that followed a 'newland frolic' where 'chin-music' set heavy boots going in fours and eights and jigs and breakdowns. My companion grew to manhood, married, raised a large family, and went to the west, where he too, has passed into silence. His family and his children are all in the west, with three of his brothers and one of his sisters. The west, owes us much, Hiram. It has got some of its best blood from our settlements. If I knew just where to find each old friend or acquaintance I could go shaking hands across the continent." "No could I," said Hiram. "Yes, sir—that's so. Any'thing most of the western settlers don't think they owe us nothing when we ask for a square deal law here. That's the way of the world—ain't it?—By Heil!"

SOUTH AFRICAN MARKET LOADED UP WITH FLOUR

Ottawa, Jan. 5.—(Canadian Press)—P. W. Canadian trade commissioner at Cape Town, reports that the South African market is flooded at present with imported flour. The government, he says, has from 15,000 to 20,000 tons of its flour purchased from Canada lying idle in its warehouses. The new season's flour promises well, with the result that there does not seem a possibility of any further shipments of flour or wheat being required from Canada for many months.

DE VALERA'S PRESENCE IN IRELAND
Dublin, Jan. 5.—Sixteen members of a party that ambushed a detachment of troops at Meelin in the northwestern part of Ireland, were killed, and the remainder were captured, with all their guns and ammunition, says a Dublin despatch to the Exchange Telegraph Company. It is said none of the troops were injured. The despatch is not clear as to whether the attempted ambush was a new incident, or one previously reported.

RUMORS IN DUBLIN.
Dublin, Jan. 5.—Two rumors spread rapidly through Dublin last night, one that a manifesto to the Irish people would be issued by Eamonn De Valera the other that De Valera had come to Dublin. Confirmation of either could not be obtained. It is believed that the means by which he landed in Ireland will be kept close secret.
De Valera's presence in Ireland has been generally taken to mean a marked acceleration of the efforts to find a basis of peace acceptable to both sides. Since his arrival, the Dal Eireann has not held a meeting, but one may be arranged soon. It is reported that orders have been received from London forbidding the crown forces to arrest De Valera. The tension prevailing in Dublin before Christmas has greatly relaxed.

PLANS FOR IRISH PARLIAMENTS

Reports That Are Heard in London—Rumors Also in Dublin.

London, Jan. 5.—Ulstermen are preparing to make the opening of the parliament for northern Ireland as picturesque and imposing as possible, endeavoring to obtain the consent of the king personally to open the first session, or to have the Prince of Wales do so if the king is unable to be present, says the London Times.

The newspapers add that starting the Ulster parliament is a fairly simple proposition but that the crux of the problem will be met in southern Ireland. However, it says the government has virtually decided upon a bold course. Final decision has not yet been taken, but, according to the Times, the government has practically resolved to reject the advice of cautious advisers to defer elections for the southern parliament until the results of the Ulster experiment are seen and bring the act into operation in both areas simultaneously, having elections for the two parliaments concurrently.

Apparently the government is prepared to run the risk of considerable Sinn Fein abstentions, the paper asserts, hoping to secure the vote of the moderate elements, including the old constitutionalists under the leadership of John Dillon.

M. P. Reported Arrested.
London, Jan. 5.—James J. Walsh, a Sinn Fein member of parliament for the city of Cork, who escaped from Mount Joy prison, Dublin, eighteen months ago was arrested early today. It is said in despatch received here. He had avoided attempt to arrest him since gaining his liberty, although as alderman of Cork, he had attended his civic duties regularly.

FUNERALS

The funeral of Charles Masters was held this afternoon from St. John's (Stone) church and was attended by many. Members of St. George's Society, of which Mr. Masters had been a late vice-president, attended in a body, and a full choir was present. The funeral service was read by Rev. Canon G. A. Kuhring. Interment was in Fernhill.

The funeral of John Merrick was held this morning from St. Peter's church. Requiem high mass was celebrated by Rev. Edward Scully, C. S. S. R. Interment was in the old Catholic cemetery. The St. John police force, headed by the chief, attended in a body, and the boys of grade VIII of St. Peter's school marched in line preceding the hearse. Many spiritual bouquets and beautiful floral offerings were received, among the latter a wreath of pink and white roses from the police force and one of crimson and white roses from a nephew in Boston. The pall-bearers were six police constables, Allan McInnis, John Sheehan, William Gibbs, Ralph Dykeman, John Linton and Andrew Duffy. Many people paid their last respects to the memory of a well known and popular policeman.

The funeral of Mary Irene Hachey, daughter of Mr. and Mrs. Arthur Hachey of 6 Short street, was held last evening at the residence of her son, Harry M. Baxter, 252 Waterloo street. This morning the body was taken to Loch Lomond and interred in the family lot there.

"THE LEAGUE WILL LIVE"
(Springfield Republican.)
The experience of the past five weeks at Geneva has revealed splendid possibilities for the Assembly of the League of Nations in furnishing a world forum for plain but sincere talk. In that body one nation can honestly say what it thinks of another nation; small nations can voice their grievances and even groups of great powers without having to apologize humbly for alleged insults to a neighbor's national honor.

This is an important advance over the abusive tirades of an irresponsible press or party politicians. It is a wholesome breeze compared with the euphemisms and circumlocutions of the conventional language of diplomacy. What another outstanding fact is that many of the leaders of the Assembly, before the adjournment on Saturday, paid the highest tributes to its work. These men were orators of Gallic temperament indulging in rhetoric, it will be said. Mr. Rowell, the Canadian delegate, however, had no obvious motive for glossing over the facts. His impressive statement challenges careful attention.

The first Assembly of the League of Nations has satisfied its friends and disappointed its enemies. Its most significant feature is the fact that for five weeks representatives from forty-one different nations have found it possible to co-operate on a great variety of matters and international concerns, and that as the Assembly progressed it has developed in an increasing measure a corporate consciousness, a sense of power and authority and the conviction that it serves a great purpose. That guarantee its future.

In the space of five weeks the Assembly has accomplished more business than any parliament of any one of the nations represented in the same space of time.

The League has become more truly a world organization by the admission of former enemy and neutral states. The League will live because humanity needs it.

With prominent delegates leaving Geneva it is to no profit, "killing the League" seems an eventuality somewhat more remote.

ST. JOHN'S GREATEST
MERCANTILE EVENT
STARTED TODAY

St. John's Greatest Mercantile Event which is Oak Hall's Annual January Sale starts this morning by opening day crowds are any criterion of success, then the Oak Hall sale this year will assuredly eclipse all its predecessors, because from the opening hour the Oak Hall sales staff have not had a minute to spare.

A trip through Oak Hall at this time and on examination of the red price tags certainly expresses one by the unusually big reductions that have been made and makes one realize quite as nothing else will, that here is a place where the dollar has come back to its own, a place where all kinds of opportunities are offered to practise real economy without making any undue sacrifice.

It is fully evident that Oak Hall are determined to make their Thirty-second Anniversary Sale the greatest in their history, the entire organization is keyed up to it. The reductions being prices down considerably below what new spring prices will be, and then there are many new lines that have been specially purchased at less than production costs and marked at a very narrow margin of profit. All these things tend to give the greatest values even offered and those who visited Oak Hall today proved this by the numerous purchases made.

St. John's Greatest Mercantile Event now getting its stride certainly will make Oak Hall the mecca for all shoppers tomorrow and throughout the week.

Those who took part in the Metropolitan Jazz Band concert at the Seaman's Institute last night were: Messrs. Jones, Wilson, Nicholson, Best, Collins, Allen, Harrey, Olden, Brooks, McCartney and Owens.

EXPLORERS OUT ON 16 QUESTS
Expeditions to North and South Poles Included in Number
Africa, Mexico and South America Share Honors With the Polar Regions in Quest for the Unknown.

New York, Dec. 28.—(Associated Press Correspondence)—Sixteen exploration expeditions are now in progress or in contemplation after four years of inactivity in this line of scientific research due to the great war. Most of these enterprises have been undertaken or projected since the armistice and they recall the fact that Mother Earth still has important biological, zoological, geological, ethnological and meteorological problems which are still unsolved. One of the most important of these enterprises is the British Antarctic Expedition, headed by Commander John Lachlan Cope, F. R. G. S., formerly of the British navy. It is financed for \$750,000, includes five ships, 125 men, several airplanes and extensive wireless apparatus. The undertaking is to require five years and its objects are the circumnavigation of the Antarctic Sea, a dash to the South Pole, the locating of new whaling grounds, and the discovery of supposedly rich gold, silver, coal and ruby fields.

To The North Pole.
Captain Roald Amundsen, who discovered the South Pole in 1911, left Nome, Alaska, last August in an attempt to reach the North Pole. His ship, the Maud, had already spent nineteen months in the Arctic, north of Asia and Europe, and had successfully made the Northeast Passage. He expected the Maud to be locked in the ice pack and to drift toward the Pole when the Arctic winter ended. In negotiating his way to the North Pole, he was accompanied by three sailors and an Eskimo cook.

The other interesting expeditions projected or now under way are as follows: Siberia—Captain Axel Landmark and Captain John Vatny, in a fifty-foot power boat are on a 4,000 mile voyage to the Kolyva river, using a primitive chart made in 1878 by Norkenski, a Swedish explorer on his voyage from Norway to Japan via the Arctic Ocean. Greenland—Knut Rasmussen, Danish explorer, who returned from the East coast late in 1919, after studying Eskimo tribes, is preparing for another expedition of five years' duration. Lange Koch, another Dane, is planning a scientific survey of North Greenland, his main purpose being to establish Danish sovereignty in that territory. Africa—Four expeditions are in progress, namely, the Mackie Ethnological Expedition to Central Africa for the purpose of studying the Bahima, one of the chief pastoral tribes of Ankole, a district west of Uganda; the British Na-

HEARTBURN LIVER TROUBLE
When the liver becomes torpid and inflamed, it cannot furnish sufficient bile to the bowels causing them to become constipated.
The stomach is also affected. In the case of heartburn there is a gnawing and burning pain in the stomach, attended by disturbed appetite, caused by great acidity. Whenever too much food is taken, it is liable to become extremely sour, vomiting often occurs; and what is thrown up, is sour and sometimes bitter.
Other liver trouble symptoms are pain under the right shoulder, yellowness of the skin and eyes, floating specks before the eyes, coated tongue, bad taste in the morning, foul breath, water brash, jaundice, constipation, etc.
Keep your liver active by using Milburn's Lax-Liver Pills and you will have no heartburn or other liver troubles. Being purely vegetable they do not grip, weaken or sicken like the old-fashioned purgatives generally used.
Mrs. Mary Strone, Glasnevin, Sask., writes:—"I have used Milburn's Lax-Liver Pills, and they have cleared me of heartburn and liver trouble. I don't think they can be beaten by any other medicine, and I can highly recommend them."

MacMillan, who was with Peary, plans to start next year to explore one of the richest fields in the Far North. He expects to establish a camp 700 miles south of Etah in Northwest Greenland, where his Crocker Land Expedition passed four winters. He will attempt to circumnavigate Baffin Land and penetrate 1,600 miles of its western coast.

Mexico—Professor Emelio O'donne, a famous Neapolitan seismologist, representing the Italian government, is now studying the earthquake situation in Mexico by means of his "inerviameter," an invention by which he is able to measure both motion and energy.

The Amazon Exploration of this great river is to be undertaken next year by a large party of American scientists, headed by Dr. Henry H. Rusby, of Columbia University. The party expected to leave early in January and to traverse more than 1,000 square miles of almost virgin land in the upper reaches of the river basin. Dr. Rusby was to be accompanied by Dr. David Starr Jordan, president of Leland Stanford University; Carl H. Eigenmann, of the University of Michigan, to study frogs and Dr. Edward Kromers, University of Wisconsin, and Professor A. H. Gill, Massachusetts Institute of Technology, to investigate seed and volatile oils.
Ecuador and Peru—Collections of flora and fauna are now being gathered for the Amazon Expedition of the University of New York by Captain Harold E. Anthony and George K. Cherrie.
Pacific Islands—Solving the origin of the Polynesian race is one of the objects of a survey of the Pacific Islands planned at a recent conference of the United States, Canada, England, Australia, New Zealand, Hawaii, Philippines and Japan. An expedition will be sent to the South Seas for this purpose by Yale, Harvard and other institutions.
China and Tibet—The third expedition, backed by a fund of \$250,000, is soon to start from Central Asia under leadership of Roy Chapman Andrews, associate curator of mammals in the American Museum of Natural History, New York. The Chinese government is expected to co-operate with this enterprise.

KISS CAUSES PANIC IN THE COURT ROOM
Murder Prisoner Salutes Wife of Slain Man
Sheriff Lands on Wade's Jaw and Wade's Wife Paints—Woman Kissed was the "Other One" in the Case.

Bridgport, Conn., Jan. 5.—Panic gripped the crowd at the George B. Nott murder trial here yesterday when Edward C. Wade, 28 years of age, milk peddler, on trial for the murder of Nott, leaned over as he was passing Mrs. Ethel Hutchins Nott, widow of the murdered man, and kissed her full upon the lips. With a piercing scream, Mrs. Nott staggered from the seat, just as Deputy Sheriff Frank Passanella landed with his fist on young Wade's jaw.
Wade's pretty young wife, sitting a few feet from Mrs. Nott, the "other woman in the case," screamed as she witnessed her husband's action, threw her arms to her face as she blood rushed in a crimson flood to her cheeks and then fainted into the arms of Wade's mother and another woman friend.
Wade smiled as the deputy sheriff rushed him to the basement of the court house when it appeared that the crowd was going to seize him. Mrs. Nott, who is also held on a charge of first degree murder in connection with her husband's death, went into hysterics following Wade's kiss. She threw her arms above her head and screamed wildly.
"Take her out," yelled the crowd and two deputies lifted her in their arms and rushed her from the court room. It was the second time during the day that the wife of the murdered man had been carried from the court room.

BOARDED CARONIA ON COAL SHOVEL
Woman Passenger Had Exciting Adventure at Halifax.
The Cunard liner Caronia, from Liverpool, reached New York on New Year's eve after a stormy passage. She will be laid up for two weeks and on January 15 will start on a Mediterranean cruise, her first of the kind since the end of the war.
Among those on New York on the Caronia, says a New York despatch was Miss Anna K. Woodman, a young girl, who told with much gusto of buying a drink in the Canadian port of Halifax in the few minutes she was there. Miss Woodman was almost left behind. When the warning whistle blew she said she was enjoying her drink, and was assured that it would blow away in Japan. An expedition of the big whistle was heard she hurried to the pier, to find the Caronia steaming out.

BWARE OF BRONCHITIS
Bronchitis is generally caused by neglecting a cold, or exposure to wet and raw winds. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is a raising of mucus, especially the first thing in the morning. This is at first white, but later becomes a greenish or yellowish color and is occasionally streaked with blood.
On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, thereby prevent it becoming chronic, and perhaps developing into some more serious lung trouble.
Mrs. Briece Culham, Sheffield, Ont., writes: "In December, 1919, I was very sick with bronchitis, and had to stay in the house all winter. One day I saw Dr. Wood's Norway Pine Syrup advertised, so I got a small bottle which helped me very much; I then got a 60c. size, and it completely relieved me. I cannot praise "Dr. Wood's" enough for what it did. Two of my neighbors are now using it for colds."
Don't accept a substitute for Dr. Wood's Norway Pine Syrup; the genuine is put up in a yellow wrapper; three blue trees the trade mark; price 85c. and 60c.; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

A GREAT BENEFICENCE.

In order that we may realize how very fortunate we are in Canada, despite business depression and unemployment, it is only necessary to make some comparisons, choosing either Europe or the far east for that purpose.

try are anxious to learn about infant hygiene.

The gain in this beneficent work is not all to those in whose midst it is carried on. The work of the League of Red Cross Societies is becoming world-wide.

"The members of the League agree to encourage and promote the establishment and co-operation of duly authorized voluntary national Red Cross organizations, having as purposes the improvement of health, the prevention of disease, and the mitigation of suffering throughout the world."

The two Leagues have done splendid work in co-operation in Central and Eastern Europe. That they will do much more in 1921 is as certain as that there is need of their joint effort in many directions.

Following the adoption of the home rule bill it is announced that the two parliaments in Ireland will be set up at an early date. The London Times hears that Ulster would like to have the King or the Prince of Wales open its parliament.

A falling off to the extent of \$18,378.80 in the receipts from sale of the harbor fisheries is an indication of a dull outlook for the fish market, which has been depressed for some time.

It would be interesting to know how much the gentleman who picked the pockets of the choir members, and then took a front pew in a Chicago church, has been given for his services.

There are 30,000 boy scouts in Poland, and at their head is General Haller, who is also the head of Poland's volunteer army and president of the Poland Red Cross.

Removal of the British embargo on Canadian cattle is expected in the near future. It should have been removed years ago, as Canadian cattle are not and have not been diseased.

Sale advertisements in the columns of the Times are very attractive, and show substantial reductions from former prices of many lines of goods.

THE PEPTIMIST

The peptimist is one who works with most exceeding vim, and sets example to the shirks who may keep tab on him. An enormous business in lobster fishing is carried on in Canada every winter, for it is winter when the season for the taking of the excellent food is at its height.

The ceremony was over, both had "I will" and the happy couple were receiving the clergyman's blessing.

First of all he said a few cheering words to the bride, which brought tears to her eyes; then he turned to the bridegroom and gave him a few words to let him out on the new path in life he had chosen.

A few months passed and the man met the clergyman again.

Overcoming his feelings, the man managed to gulp out:

"I thought you told me at my wedding I had come to the end of all my troubles?"

The clergyman smiled, his right hand was open upon his left in a position over his heart; he raised his right hand and lowered it again with delicate wrist work.

TURKS DENY STATEMENTS OF THE BRITISH PREMIER

Constantinople, Jan. 5.—Statements by Premier Lloyd George in the British House of Commons on Dec. 22, to the effect that the Turkish government had attempted to negotiate regarding the control of Constantinople, were denied here today by Grand Vizier Tewfik Pasha and Sefa Bey, foreign minister.

Mr. Lloyd George is reported to have asserted that the Turkish government had proposed that if a guarantee should be given that Constantinople should not be taken from the Turks, they would bear the loss of Smyrna and Thrace.

THE LATE CAPT. JAMES ADAMS

Of Capt. Adams, who, with James Terrell, K. C., of Halifax, was killed when a train struck Mr. Terrell's car at Bedford, near Halifax, on Saturday evening the Halifax Chronicle says:—

"Captain James Adams was about fifty-six years of age. He was born at Saltcoats, Scotland, but came to Canada at an early age, his father owning property near St. John, N. B. The elder Adams was also a well known follower of the sea, sailing out of St. John, N. B."

"Captain Adams' nautical career was long and notable. He first sailed with a number of ships, making several voyages to the Far East. In 1890 he joined the Western Union fleet of cable ships and for many years was first officer of the Minia under Captain De-Carteret. In 1916, when Captain De-Carteret went to England to superintend the equipping of the Lord Kelvin,

Captain Adams took command of the Minia, remaining through the war and until the end of 1919, when he became commander of the Lord Kelvin.

"He was a thorough seaman of the old sailing ship type and a capable engineer, successfully effecting important repairs in mid-ocean and maintaining the reputation of the Minia for almost super-excellent work during nearly forty years of service. From April, 1918, until the cessation of hostilities, Captain Adams was employed by the British Admiralty, working chiefly off the coast of England and in the Bay of Biscay, where he had a most excellent war record.

"Captain Adams' home was at Hampton, N. B. He is survived by his wife, a son, who is farming in the west, a married daughter in Saskatchewan, and an unmarried daughter, Margaret. Mrs. Adams was spending the Christmas holidays in the west. Miss Margaret Adams was visiting her father on the Lord Kelvin. When the accident occurred she

was spending the day with the Terrell family.

"Captain Adams was widely known and had a large circle of friends in the city. He was a member of the Halifax Club and of various other organizations, and all who knew him were deeply shocked when they learned of the fatality."

ITALY HAS A BREAD PROBLEM

Government Paying Enormous Sum to Keep Price to Consumer Down—Changed Conditions.

Rome, Dec. 15.—(A. B., by mail.)—The Italian government is facing an almost unsolvable problem in the question of the cost of the nation's bread. During and since the war the price of bread was kept down artificially, the government paying \$1,000,000,000 and even lately, \$1,250,000,000 yearly as the difference between the actual cost of the flour and the price paid by the consumer.

The price of a kilo (2 1/2 pounds) of ordinary bread used to be equivalent to nine cents, or of a finer quality 11 or 12 cents; now the price for the same quantity of inferior bread is 21 cents a kilo, and the Italian working classes utterly refuse to pay the balance, which would increase the cost to them to 40 cents or even half a dollar a kilo.

Italian workmen are now paid wages which compare favorably with the salaries doled out to officers in the army or heads of government departments and do not hesitate to pay large sums for wine, tobacco and luxuries for their table. A mason, blacksmith or cabinet-maker used to consider himself well paid with less than a dollar a day. Now they earn \$6.50, \$7 and \$8 a day, and look forward to having more in the future.

Friends of players on the hockey team of King's College, Windsor, were at the Digby boat last evening to meet them, as it was expected that the team would pass through St. John yesterday on its way to the United States. It was learned in Windsor, however, that there was no ice at Portland (Me.) and the team went by way of Yarmouth direct to Boston, where it has games scheduled with Harvard College and the Massachusetts Institute of Technology. The games in Boston probably will be played on artificial ice.

DRY SPOT IN THE HEBRIDES

Stornoway, Scotland, Dec. 16.—(A. P., by mail.)—The island of Lewis, the largest of the Outer Hebrides, has overwhelmingly voted "dry" in the prohibition poll taken here. For total abolition there were 720 votes; for no change, 140, and for limitation of drink licenses, 5. As a result, all licenses on the island will be annulled next May. Lewis is a rugged island which abounds in ancient Druidic structures and ruined old-time fortresses.

HAD FIGHT TO SAVE CANARIES FROM RATS

Philadelphia, Jan 5.—The first consignment of canaries since the war reached Philadelphia yesterday on the steamer Kerlew from Hamburg. The attendants told of a day and night battle to keep "cut-throat" rats away from the cages where the 2,000 birds, many of them rare bullfinches and goldfinches, were kept.

THE MARITIME NAVAL WORKS

To the Editor of The Times.

Sir—Kindly permit me space in your valuable paper as briefly as possible to reply to certain statements contained in an article which appeared in the St. John Standard of Monday Jan. 4, headed: "Maritime Naval Works Closed." The first intimation of any close down of the plant the employees had was the posting of a notice on Thursday Dec. 30th, p.m., and the plant closed at 4 p.m. Dec. 31. Particular reasons given for the close down, coming presumably from the management, are prohibitive wages, shorter work day than similar establishments, and the fact that this plant is the only "union shop" of its kind in the world (?). It is news to the employees of this plant, speaking generally, that their wages were any higher than wages paid some similar industries in our own city. Reference is also made to certain market conditions and the trend of events regarding working conditions possible in certain sections of the industrial world. The men of the Maritime Naval Plant were organized in the year 1912. Previous to organization, and more particularly during the past eight years of organization of the plant, our relations with the management have been, to say the least, agreeable. This has been attested to on more than one occasion by the management. Any matters of new working conditions were always discussed fully, frankly and openly between committees representing the organization and the company, and we stand prepared at present to follow the same plan of action, and have so notified the management. The policy of conciliation has always dominated the activities of our organization. We feel strongly that, in as much as we have been taken into confidence of the management in the past, it might be reasonable to expect that we should be given a fair hearing in the present situation. In conclusion we desire to again state that we are prepared to meet the management at present to follow the same plan of action along these lines we feel we are acting in the best interest not only of ourselves but the Maritime Naval Co., and the city generally. Thanking you Mr. Editor for your valuable space, I beg to remain, JAMES A. McEACHERN, Secretary, Nail Makers' Union No. 14199, St. John, N. B., Jan. 5.

Banks will extend credit to the man who has faith in himself and in his business. Sentiment is contagious. Talk panic and you foster panic. Talk optimism and you inspire optimism. Keep your head and you stand a good chance of keeping your business. Lose your head and you are in danger of losing your business. The year 1920 opened with a blaze of blarney and experience not justified by what manifestly lay ahead. The year 1921 is opening to the accompaniment of a funeral dirge not justified by the outlook. Last New Year saw us soaring farther and farther away from economic sanity. This New Year sees us moving steadily nearer and nearer economic sanity. In the horoscope last January were clearly discernible signs of coming trouble. The horoscope now contains many signs of coming stability. The wise business man looks not only to the conditions of the moment but tries to foresee the probable conditions of the morrow. HE CAN NOW EAT PORK AND BEANS

J. Murphy, Aged 76, Says He Knows From Experience Tanlac is Good For Old Folks, Too.

"You can tell them that Tanlac is the right medicine for old folks, too, for I have tried it and it has done me more good than anything else I ever took combined," was the statement made by John Murphy, of 46 Charlotte street, Halifax, while at Kinley's drug store, recently.

"For a long time I have been troubled with indigestion and took a great deal of medicine. Everything I would eat distressed me. Food felt like a lump in the pit of my stomach and caused me to bloat all up with gas. I felt sick at my stomach nearly all the time. I had no appetite and the more nourishing foods, like beans, fat meat and things cooked in grease, I could not eat at all.

"I also suffered with severe pains in the small of my back. I had frequent headaches and was terribly nervous all the time, and could never sleep well. Last August a friend of mine told me of the fine results he had gotten from Tanlac, so I started taking it, too, and it has done me a world of good.

"It gave me a great appetite and fixed my stomach up so I can eat three good meals a day, including pork and beans, and fatty foods that I would not dare eat before. I am no longer troubled with the pain in my back and I sleep better. I have taken the Laxative Tablets along with the Tanlac and have been helped wonderfully in every way I am still taking a dose or two a day and it keeps me in good trim. Tanlac will always get a good word from me."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro; by G. W. McKay, Beaver Harbor; C. V. Parsons, Highland; John F. Meagher, Debec; O. D. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnston, Clarendon Station, and by the leading druggists in every town.—(Adv't.)

WARD-BEVILLE.
Exmouth street Methodist church was the scene of an interesting event at half past six o'clock this morning, when Rev. G. F. Dawson united in marriage Miss Marguerite Farr Beville, youngest daughter of Mr. and Mrs. Joseph Beville of 95 L'Home avenue, to Norman J. Ward, son of Mr. and Mrs. James Ward of 17 Union street. The church was crowded with Christmas and New Year's decorations, forming an appropriate setting for the ceremony, which was witnessed by a large number of relatives and friends. The bride, who was given away by her father, was attired in a traveling suit of navy blue with hat to match and seal state and wore a corsage bouquet of roses. W. L. Beville, brother of the bride, and Arthur McL. Steele were ushers. During the service the wedding music was provided by the church organist, Miss M. Soudal. After the ceremony Mr. and Mrs. Ward left on a honeymoon trip to Montreal, Ottawa, Toronto and other upper Canadian cities, and upon their return will take up their residence at 27 Celebration street.

LEO F. DUFFY AND MISS E. C. DUSTON WED IN OTTAWA

The Ottawa Journal says:—
"Very quietly at the Blessed Sacrament church, Fourth avenue, Ottawa, on Monday, December 27, at 7-15 a. m., the wedding of Miss Evelyn C. Duston, daughter of Mrs. Susan Duston of 122 Douglas avenue, St. John, N. B., and the late Henry Duston, to Leo F. Duffy of St. John, N. B., was solemnized. Rev. J. A. O'Gorman officiated at nuptial mass. The bride wore a smart costume of navy blue with a seal cape and a black panne velvet hat with red trimmings. She was attended by Miss Daisy Luby, while the groom was supported by Frank A. Walpole.

"Following the ceremony, a wedding breakfast was served at the home of the bride's sister, Mrs. James H. Conlon, 132 Third avenue. Mr. and Mrs. Duffy left on a short honeymoon trip through the Province of Quebec, and on their return will take up their residence in Ottawa."

Mr. Duffy is a St. John boy who made a splendid record in the overseas service. He represented the New Brunswick command, G. W. V. A., at the Dominion convention in Vancouver, 1919, and in the fall of that year was appointed to the Dominion command, G. W. V. A., Ottawa, where he is assistant to the general secretary. His many friends in St. John will wish both him and his bride every happiness.

DISCUSS RAISING OF FALLS BRIDGE SEVEN FEET

(Continued from page 1)
falls, he said he had been through when there was eighteen feet there. The vessels having ninety-foot masts, of which he spoke, drew fifteen to sixteen feet, with an occasion seventeen feet. He said six new vessels controlled by St. John agencies drew about sixteen feet. When light, these vessels drew eight or nine feet and it was then that they would require ninety feet headroom.

Replying to Mr. Taylor, Mr. Cushing said that a vessel could ground on the reef if it was not kept in the channel, as there were boulders on both sides. He said that there were two mills of Stetson & Cutler, and one each of Murray & Gregory and Randolph & Baker above the falls, but he could not say what amount of lumber they shipped through the falls. He said that at least 90 per cent of the lumber shipped from St. John had been lightered to the vessels.

F. C. Beattie said he was anxious to see the railway bridge as high as the highway arch. He estimated that last year 70,000,000 feet of lumber had been lightered through the falls. He said that vessels with ninety feet spars would average 600 tons and draw fifteen or sixteen feet of water. He said the lightering charge was about \$2 a thousand; he remembered when it was twenty-five cents.

To Mr. Taylor Mr. Beattie said that ninety per cent of the lumber sent overseas was lightered, but if the bridge was raised less would need to be taken in scows through the falls.

Mr. Taylor asked if it was true that logs cost \$18 to \$20 delivered at up river points and \$45 delivered at St. John.

Mr. Beattie said he could not see that this had any bearing on the question. He said that within the last twenty years the tendency was to manufacture more at up river points and about six mills had gone out of business in the vicinity of the city.

Replying to the chairman he said that the danger point regarding water depth was not under the bridges but some distance above. Mr. Beattie said that there were excellent sites above the falls for manufacturing purposes.

R. C. Elkin, ship owner, said he would like to see the railway bridge raised, as the small vessels were being replaced by larger ones and the shippers were demanding vessels of larger capacities. The clearance under the highway bridge was ninety to ninety-one feet and about six mills had gone out of business in the vicinity of the city.

Replying to the chairman he said that the clearance at the entrance at the bridges across the falls had been a menace to business and he thought that the new bridge should be raised. He said that not only schooners but small steamers could be taken through the falls. Wharfage facilities in the harbor being limited, the space available above the falls, he thought should be utilized.

Mr. Taylor asked Mr. Smith if he had heard of a proposal to cut a canal into Marble Cove to provide a harbor above the falls.

He replied that he had not.

"Finish Courtenay Bay first," Mr. Carvell remarked.

Mr. Smith said a steamer drawing sixteen feet of water would be about 2,000 tons and he could not say the height of its masts.

Mr. Taylor said that the C. P. R. was not desirous of raising the bridge, as the piers had already been completed. The cost would be taken off the tops, which would practically have to be rebuilt. He said the C. P. R. estimate of the raising of the bridge seven feet was about \$165,000. Had this height been planned in the first place the location of the bridge would have been changed.

Mr. Draper said that the scheme to raise the bridge two feet was practicable but not desirable.

G. G. Hare, a city engineer, said that the approval of a city crossing Douglas avenue had been made by the city in August, but that the bridge plan had not been approved.

Mr. Fairburn submitted a detailed estimate of the cost of raising the bridge seven feet, amounting to \$165,000 and an additional \$22,000 costs for delay, etc., in the work. This provided for the construction of the subway, but did not provide for any increase in strength.

Mr. Draper said, and he said it would make a botch of the whole job. He would not accept any responsibility for the safety of such a bridge.

Mr. Draper said that he would have less objection and he would be willing to withdraw his statement that he would not accept responsibility for the bridge.

The mayor said that it was a question of feasibility, and he thought the question of expense should not enter into it, but if a greater clearance was possible he would like to see it provided.

It was pointed out to Mr. Cushing, in reply to a question that the centre of the highway bridge and that of the new railway bridge were in a line practically parallel to the shores of the river.

Mr. Carvell said that the commission would be governed chiefly by the engineering standpoint of the situation. He said that the matter of raising the bridge was practically in the hands of the public works department. He was not going to approve the plans for a week or two. He said if the bridge remained where it was or was raised two feet there would be no subway; if raised seven feet there might be a subway, but whatever plan was adopted he would be pleased to recommend that assistance be given by the railway board, which would amount to \$15,000.

If the applicants wished to go further in the matter of the bridge, he said, they would have to apply to the government to rescind the order approving the plans.

Introducing Our Pre-Stock Taking Sale of Furniture!

Unnecessary to say that a sale at Everett's means much to those desiring to buy Furniture, and for two reasons:

First: is that Everett's prices in the ordinary way are much nearer original cost than might be generally the case—hence a discount from the first price is attractive.

Secondly: that Everett has refrained from a planned system of sale featuring—hence this event will be novel so far as it concerns Everett's customers.

Stock taking finds many odd pieces that are minus the remaining pieces of a set and it is these that are mainly affected by the sale.

Practically all departments are included—bedroom, kitchen, dining room, living room—etc.; so those who want to add an odd piece here and there are fortunate because of this sale; so also are those about to start a new home.

A trip through the store is advisable—and no obligation entailed in the trip.
