EIGHT PAGES—ONE CENT

INCREASE IN PAY FOR I. C. R. MEN

Agreement Reached, It is Announced, at Moncton Conference

MORE THAN 900 BENEFIT

Yard Foremen, Yard Brakemen and Freight Service Employees Favorably Affected—Increase Ranges From Ten to Twenty Per Cent—Further Conference Next Week

(Special to Times)

Moncton, N. B., March 14.—There are many absentees among the members of the I. C. R. Board of Management. At the conclusion of a conference between a committee of the trainmen and the board of management last evening, it was stated that an agreement had been reached.

The increase of pay will affect more than 900 men on the system of government railways, and will date from January 1, 1911. The trainmen to whom the increase applies are yard foremen and yard brakemen, or men employed in the freight service.

The new schedule calls for an increase of 20 per cent for the class of trainmen referred to when working in the yards and an increase of ten per cent when out on the road. This, it is stated, is not quite as much as the original schedule submitted by the I. C. R. T. called for, but it is understood that, generally speaking, it is regarded as fairly satisfactory to the men.

There are some other minor matters yet to be settled and these will be dealt with at another conference between the committee representing the trainmen and the board of management, to be held in Moncton on March 22. Further consideration of less important details of schedule had to be deferred as Deputy Minister Campbell was compelled to leave last night for Ottawa.

ONE IN EVERY FIVE DEAD IN THE PLAGUE

Deaths in One City Alone Number Nearly 4,000

RATE OF 200 A DAY

Physicians' Researches Still Without Result in Matter of Preventive Treatment—The Epidemic is Having a Disastrous Effect on Trade in China

(Canadian Press)

Washington, Mar. 14.—Fully one-fifth of the population of the Northern Manchuria city of Puchiatien had perished from the ravages of the plague from the time of its outbreak to the end of January, according to reports from the United States consul at Harbin. The exact number was 2,402 in Puchiatien alone, while at Harbin the total had reached 81 including eighteen Europeans. Late in January three English doctors began work in Puchiatien and 600 Russian troops were sent there to assist in enforcing the quarantine and sanitary measures.

While the official figure of the deaths at Puchiatien show 144 perished daily during the week ended January 24, it is generally believed that about 200 persons were dying daily and that altogether nearly 4,000 had perished there or in the immediate vicinity.

The Russian authorities at Harbin are maintaining four laboratories in which the necessary bacteriological examinations are being made free of charge at two places in Harbin. No definite results have been determined as to the preventive treatment. Three European and two Chinese physicians have succumbed to the disease and several Russian assistants and attendants who had been previously inoculated have died of plague.

The epidemic is having a disastrous effect on trade. Many Chinese firms have closed their doors entirely. Among the Russians there is less fear.

Three witnesses, including the vice-president of the suspended institution, were examined. The investigation, it is said, may result in the indictment of two and possibly three directors on charges of forgery.

McFarlane is the favorite in the betting although Moran has many followers, who predict that he will give the Chicagoan a strong battle. Both men are in excellent condition. They will weigh in at 5 o'clock today at 135 pounds. The winner of tonight's battle will probably challenge the lightweight champion Al Volquet.

MUNROE'S TRIAL

New York, Mar. 14.—(Canadian Press)—The government rested its case yesterday after further testimony regarding the "Boo black trust" phase of the charges against George H. Munroe, formerly of Montreal. Judge Hough denied a motion for the dismissal of the indictment as a whole and withheld decision as to the dismissal of various counts.

Munroe has been on trial in the United States circuit court on an indictment alleging the use of the mails in a scheme to defraud. He obtained nearly \$1,000,000 of the sitting District Attorney Whitman. When court reconvened, Judge Hough dismissed one of the six indictments in the conspiracy indictment and three counts in other indictments. There were sixteen counts standing, each of which, in the event of conviction, carries a maximum penalty of five years' imprisonment and \$5,000 fine. Court adjourned until today when the defence will begin the presentation of its case.

Meanwhile the terrified couple escaped by their night clothes.

MARKET MISUNDERSTANDING
Apparently the decision of the market committee to strictly enforce the by-laws governing that institution, is being misunderstood by some of the country people for it is claimed that very few are now bringing in produce as they are under the impression that they will be compelled to pay a fee of \$5 before they will be allowed to sell their goods.
Clerk W. C. Dunham points out that this is not so as the only ones who are asked to pay \$5 fee are country traders who buy up goods around the country and then bring them here to retail them from the market. The farmer who brings in his own produce is not required to pay more than the usual tolls. This morning a farmer came in from Sussex and told the clerk he had not brought any produce as he understood he would have to pay the \$5 fee.

BUFFALO CHAMBER OF COMMERCE VOTES FOR THE COMMISSION
(Toronto World).
By a vote of 93 to 31, or more than ten to one, the Buffalo Chamber of Commerce has approved the proposal that the city should adopt the system of government by commission. It had previously been endorsed by 23 of the leading commercial associations, and so far as can be judged, is in high favor with the citizens. The commission charter bill now before the state legislature provides for a popular referendum before its adoption, and the action taken by the chamber of commerce will still further rally the electors to its support. Buffalo is the second largest city in the State of New York and the pioneer of its class in desiring government by commission. Although the experiment has actually tried its operation will provoke general interest all over the continent. Differing herein from other systems, the legislation and administration is in the hands of a mayor and four commissioners. Candidates are nominated by petition of at least three hundred electors and the two receiving the highest number of votes for mayor and the eight candidates leading the poll for commissioners will become the nominees to be finally voted upon. WEST SIDE COMPLAINT
Residents of the west side are bitter in complaints against the city allowing the erection of a coal pocket on the west side, alongside the ferry floats. For some time there have been mutterings of discontent, and the matter has been brought to the attention of the ferry committee on several occasions, but without much success as the committee claim they are powerless to remedy matters.
This morning a delegation of west side residents, headed by G. S. Mayes, called at the mayor's office to register a complaint, but his Worship was not in at the time and the matter will probably be brought to his attention later. It is understood that the mayor has written Messrs. Starr about the trouble and it is probable that the next sitting of the supreme court the grand jury will be asked to take action.
George McAvity returned to the city on the Atlantic express yesterday.

A CITIZENS' MOVEMENT

The movement in favor of the commission plan of government is not an attempt on the part of the board of trade to secure control of the city government without the trouble of serving at the council board.

A little clear thinking must convince any man who utters absurd such a statement as a statement as that referred to concerning the board of trade but for the fact that long endurance of the city council system has resulted in public apathy, and a certain degree of skepticism relative to all efforts to bring about a public interest in civic affairs.

It is perfectly obvious to any person who thinks about it that the Citizens' Committee which is conducting this campaign is not the board of trade. The representatives of labor are active in its work as are any of the merchants or professional men.

It is most unfortunate that petty prejudices have so much influence in St. John. One of the benefits of the commission plan of government is that it breaks down prejudice, arouses public spirit, and stimulates the people to take a more active personal interest in civic affairs.

The Times asserts without the slightest hesitation that the board of trade will not form any "late" or put up any ticket when the election of commissioners takes place. The "late" if there is any, will be formed by those who desire to get control of city affairs for their own purposes; and any such state will have to run the gamut of the double election, which invariably results in the election of a commission of competent men, representing the whole city.

It is instead of looking about for persons with concealed weapons the objectors to the commission plan would study the plan and learn what it has done in other cities, and how different it is from any partisan or clique movement, they would become its enthusiastic supporters.

COMMISSION GOVERNMENT

A correspondent writes to the Times: "On page 3, paragraph 4, of the pamphlet issued by the Citizens' Committee, are the words 'Pay the Mayor and Commissioners so elected sufficient salary to enable them to devote their entire time to the city's affairs.' In an editorial approving the Commission system you say, 'Give men, each giving his whole time, or as much of it as may be necessary; etc. I should like to know, sir, whether a commission will be compelled to drop all other business or businesses he may be engaged in, and devote his entire time to the city, or whether he will be allowed to give such time as he imagines necessary.'"

In all cities in the state of Illinois that have commission government the commissioners are required to give their whole time to the work. In Iowa the law does not state specifically that they must do so, but in effect this has been the result. Mr. Sherman of Cedar Rapids stated when he was in St. John that while he was a commissioner he turned over the salary he received to another man who looked after his business concerns, and all the commissioners found during the first two or three years that the days were really too short for all the tasks that had to be performed to get the commission plan in full operation. In all cities where the question has been debated it appears to have turned upon whether the most competent men could be secured by a hard and fast law, or by the Iowa method. The result in both cases has, however, given satisfactory commissions, for the reason that in either

FESTIVAL OF EMPIRE

Some Interesting Features of the All-British Exhibition Being Prepared in London

(Correspondence of Times).

London, March 3.—Not only will the Festival of Empire be a brilliant display by day, both in the Crystal Palace and in the grounds, but by night the place will be a palace of a myriad lights, a veritable fairyland of illuminations. In the palace will be 200 large inverted gas lamps, each from 1,500 to 2,000 candle power, while the main avenues in the grounds will be treated in much the same way. The type of high pressure gas lamps will be similar to those so successfully employed in the streets of London. Many miles of pipes and cables, and millions of gas jets and electric globes, will be used in the 250 acres of grounds, and upon the palaces and pavilions of Empire City.

How Battleships Are Built

A naval exhibition on model lines will be given in two large pavilions on the grand parade of the Crystal Palace, by the directors of the Thames Ironworks, the firm which built the largest battleship, H. M. S. Thunderer. This will include a de-

The Evening Chit-Chat

By RUTH CAMERON

"THERE was a young lady from Kent. Who always said just what she meant. Said friends, 'she's a dear, so unique, so sincere'— And they shunned her by common consent."

Why is it, I wonder that people who pride themselves on saying just what they mean, somehow seem to mean disagreeable things most of the time? Why is it that people who pride themselves on seeing clearly seem to see things much oftener than good points?

A little neighbor of mine put on her new gown for our inspection the other day, and awaited our admiration with all the extreme and enthusiasm of a young person who doesn't have pretty gowns often enough to conceal her pride and delight.

A blood relation of the lady from Kent, a person who prides herself on her sincerity and goes about rebuking the rest of the world for their lack of it, happened to be present.

"Yes, it's pretty, but there is something wrong with the sleeves," was her immediate comment.

My little neighbor's pretty rancidness gave place to a look of disappointment and anxiety as suddenly as if a cloud had hidden the sun.

And I did not suggest to the lady that she consult an oculist for those abnormally faw-seeing eyes of hers.

You say that if there was anything the matter with the gown it was well for its possessor to know about it that she might have the fault corrected.

Quite so.

But why need that have been the only thing the lady saw and the first thing she said?

Why might she not have noticed and remarked that the flimsy skirt was thoroughly excellent, that the color was most becoming and that the whole effect was thoroughly attractive, and then later have made the suggestion about the sleeves?

She would have done just as much good and caused less unhappiness.

One may see clearly and yet see kindly; one may say just what one means without being a kill-joy, if one will go about it in the proper spirit.

For I think one can be sincere and yet remember and live by Him's definition of the purpose of the tongue:

"God has given us our tongues wherewith we may say pleasant things to our neighbors."

IMPORTANT SPEECH

BY SIR EDWARD GREY

The Disarmament of Nations Pres. Taft's Arbitration Proposal Should Have Support

London, March 13.—Sir Edward Grey, the foreign secretary, leading the house of commons tonight in Premier Asquith's absence, made an important pronouncement on the government's naval policy. Reginald McKenna, first lord of the admiralty, in defense of his estimates against attacks from certain quarters, explained that in 1914 Great Britain would have thirty, and Germany twenty-one dreadnoughts—not, he said, an unreasonable margin. The size of the British navy, he added, practically was governed by that of Germany, and unless some change occurred in the German naval law, this year would be the highwater mark in the British estimates.

Secretary Grey, affirming Mr. McKenna's statements, emphasized the cordiality of Great Britain's foreign relations and his earnest desire that nothing should disturb these friendships, especially with Germany.

Although Great Britain has a strong navy, her army was small, and an agreement with Germany, needed careful handling. He was hopeful, however, that something might be done.

Any real limitation of armaments, he declared, would be a step toward making like individuals, to resort to law instead of force of arms. He referred to President Taft's arbitration speech as both courageous and pregnant with consequences, and said:

"I am glad to see that you do not go without response. We should be delighted to have such a proposal made to us. We should feel that it was meeting us on a generous and so far reaching in its possible consequences that it would require not only the signature of both governments, but the deliberate and decided sanction of parliament. That, I believe, would be given."

Sir Edward's speech was loudly cheered.

YORK LIBERALS IN CONVENTION THURSDAY

Fredrick, March 13.—A most enthusiastic meeting of representative Liberals of the county of York and adjacent parts of the province was held last evening, Donald Fraser in the chair, when the situation caused by the calling of a convention to meet on Thursday, the 14th of the month, was discussed, and it was resolved to call a convention of the party in the Y. M. C. A. hall at 1:30 Thursday afternoon to finally decide the question and to choose a candidate.

There was a unanimous sentiment to make a fight in spite of the brief period allowed by the government before election. The people of York are as ready to contend the Hazen government as those in other parts of the province have been, wherever there were by-elections.

What makes the chances of the Liberals better and stronger is the disagreement in the Tory party here. The nomination has been promised to so many men that there will be much displeasure if any particular one is preferred. Finner wants the choice and so does the McLeod party. Moreover, a medical doctor and bridge inspector, is apparently the choice here, but there is much opposition from Dr. Mullin's friends.

There were some splendid fighting speeches tonight from such men as N. W. Brown, Geo. F. Burden, Dr. Moore, J. D. McLeod, B. B. Burden, Mr. Linnick, George Upham, M. P. P.; J. E. Tweeddale, M. P. P.; R. W. McLeod, Reginald McKenna and Donald Fraser, the chairman.

NO TROUBLE AT ALL

"May I trouble you to pass the H. P.?" How many times in one day does this simple request go round the tables of those happy people who have been acquainted with the H. P. and know its distinctive good qualities.

It is a trouble to those who do not know the H. P. provided that they are not self-sacrificing to deny a man with a discriminating palate the pleasure of a glass of H. P. is the rich delicious. Its flavors are the refined expressions of choice Oriental fruits and spices and pure malt vinegar. Its name, borne out by the letters "H. P." and a picture of the British flag on the label, is worth remembering by every man and woman who desires to taste, for the first time, perfectly delicious.

BOWLING IN HIS SLEEP.

John Schultz of Winsted, Conn., is an expert bowler. One evening last week he rolled until late after he had retired and got to sleep he entered another match unknown to his wife, who was roused by a noise like "hard luck, stern boy" coming from her husband's room. She found him out of bed and throwing shoes down the floor. She was about to call the police thinking her husband's mind had become unbalanced, when he slipped and was delivering a shoe "down the alley." Both his feet went in the air and he landed so hard he awoke. "I thought I was bowling," he told his wife as he crawled back into bed.

IMITATION COUGH CURES

Is an Imitation Cough Medicine Good Enough for Your Children?

When you are sick and send for the doctor you don't want him to send a young medical student he has in his office. You would rather have the young fellow experiment on somebody else.

No more do you want imitations of the medicine you know to be of proven value in the cure of disease.

The remarkable success of Dr. Chase's Syrup of Licorice and Turpentine in the cure of croup, bronchitis and colds has proven to great a temptation to imitators. They expect you to take chances with their medicines because the price is a few cents.

Imitations are never so on merit, but depend on the name of the article they imitate. You don't have to be experiment on, and for this reason insist on seeing the portrait of Dr. A. W. Chase, M. D., on the wrapper. The Book author, on the bottle, is your guide.

As it is made of simple ingredients of proven value, it is well suited for a treatment for children. That it is effective in the cure of croup, bronchitis, whooping cough and the most severe coughs and colds is attested by its many years of continued success and enormous sales. 25 Retail Store, Chas. R. Watson, 109 King Street, Toronto.

DON'T BE BALD

Nearly Anyone May Secure a Splendid Growth of Hair.

I have a remedy that has a record of growing hair and curing baldness in 98 out of every 100 cases where used according to directions for a reasonable length of time. That may seem like a strange statement, it is, and I mean to prove it, and no one should doubt it until he has put his palms to an actual trial.

I am so certain of its value that I will cure baldness, prevent hair loss, stimulate the scalp, cure falling hair, and give you new hair, and I personally give my positive guarantee to refund every penny I paid for it in every instance where it does not give entire satisfaction to the user.

Revox '93' Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed, and does not grease or gum the hair. Two sizes, 50c. and \$1.00. With my guarantee back of it, you certainly take no risk. Sold only at my store—The Retail Store, Chas. R. Watson, 109 King Street.

THE MEXICAN SITUATION

New York, Mar. 11.—This swing of thousands of heavily armed soldiers to the Mexican frontier is exciting and picturesque, and naturally stirs the imagination. As far as it is for the purpose of discipline and practice, it should be very effective. It also helps to test the machinery which it is being effected is reassuring as to the good quality and condition of this one-quarter of the whole army, and as to the workings of the new methods which have been introduced since the Spanish-American war have been devised to witness the manoeuvres, and that there is nothing to conflict with the manoeuvre theory. That the place chosen for the demonstration is the Mexican border is very praiseworthy. This year's demonstration will be a salutary effect upon the conduct of the Mexican insurgents and gives them notice that no nonsense will be permitted. It also helps to stop aid and ammunition from crossing from Texas to Mexico. If President Diaz is well and continues well for three or four years or longer, all the better, if not, and through his death or disability, anything threatens the lives and property of Americans and of other nations in Mexico, the troops will be a first aid.

Outside of the manoeuvre proposition the navy is taking a hand by concentrating near the Mexican coast a fleet of warships of some importance. Thus far all this is police business, and plenty of good police are like an insurance fund. If you are well insured you rarely have a loss. It is part of wisdom to have the police and to have them on the right spot.

It is estimated that there are 75,000 American citizens and \$1,000,000,000 of property, that they and other American citizens own. A widespread revolution in Mexico would place the citizens and the property in great jeopardy. English, French, and to some extent German interests there are also large. The slow-burning insurance which has been going on in this country for a year or more, unlike former spasmodic risings of this character, has been increasing instead of being smothered out as has heretofore been done by the strong hand of Diaz. The real reason why the revolution is not ended is that over the thousand miles of border between the United States and Mexico, there has been a continual flow of arms, ammunition and men to give constantly renewed inflammation to the running sore. It is time for the United States government to stop all this and the action now taken will accomplish this promptly.

Howard, of Alberta, are brothers of the deceased, and he has four sons and five daughters living. Samuel Howard, formerly in newspaper work in St. John, but now of the Sydney Record, is a grandson.

EVERY DAY CLUB. Twenty-five men met last evening and perfected the organization of the Every Day Club as a total abstinence club, open only to members and such friends as members may introduce with a desire to have them join when they see for themselves what the club is and what it stands for. New members may join on any evening. It was decided last evening to make a vigorous effort to enlarge the membership, and it was stated that quite a number had already promised to come in. A smoker will be held a week from next Friday night, and admission will be by card.

STOLE HAM FOR THE SICK ONES AT HOME

Sailor, With Wife and Two Little Children, Was Able to Earn Only \$1.25 in Two Months. It was a bone-de "hard-luck" story that was told this morning in the police court by Judge Ritchie by Martin Lawson, ex-Johnson, a Swedish sailor, when he was brought before His Honor on a charge of stealing a ham from a vessel at Walker's wharf last evening. And the story was found to be true, as Policeman Godline visited the man's home in Adelaide street, and found conditions to be as he had described.

NEW BRUNSWICK'S OLDEST RESIDENT DEAD IN MELROSE. Benjamin Corrigan Had Been Postmaster There For Half a Century. Benjamin Corrigan, probably the oldest man in New Brunswick, died at his home in Melrose, N. B., yesterday, after an illness of only a few days. It is not known what Mr. Corrigan's exact age was, but he claimed that he had passed the century mark. He could probably claim the distinction of having been one of the oldest postmasters in the dominion, having held the position of post master in Melrose for more than fifty years.

PLEBESCITE MATTERS IN COMMITTEE TODAY. Aldermen to Hear Delegation From Citizens Regarding The Vote on Commission Plan. A special meeting of the bills and by-laws committee is being held this afternoon to arrange for a final draft of the bill granting exemptions to the White Candy Company, and to hear a delegation from the Citizens' Committee, regarding the bill for a plebiscite on commission. Members of the Citizens' Committee feel that unless there is some agreement reached regarding the way in which the three questions to be voted upon—commission, mayor and nine aldermen, and spending \$200,000 for a bridge across the harbor—there is likely to be confusion and misunderstanding when it comes to marking the ballots. While the bills as now drawn up provide for a vote for or against each measure it is felt that matters would be simplified greatly if the three schemes were put on the ballot singly and the voter asked to mark out that which he does not want to support.

SENT UP FOR TRIAL. Ernest Cannon, aged 45, a porter for the C. P. R. at West St. John, was this morning committed for trial by Judge Ritchie on a charge of stealing property held in care of the company on February 22 while at work in one of the sheds at Sand Point.

HOBBART, HOWE, aged 19, was allowed to go for the present on a charge of being the recipient of stolen goods. It was stated in evidence that a case of pipes had been broken into on the night of the 22nd, after it had been brought off a steamer, and about a dozen or more pipes valued at about twenty-five cents each, had been taken. Cannon, it was said, gave three pipes to young Howe, who was employed as checker.

EVIDENCE was given this morning by Robert Gray, chief fireman, Chas. W. Wood, freight inspector, and Thomas B. Scribner, C. P. R. detective.
