Winnipeg Under Martial Law

One Killed, Two Shot When R.N.W.M.P. Charge—Soldiers and Mounted Men Assailed With Missiles—Strike Leaders Arrested

WINNIPEG, June 21. — Winnipeg went under martial law at 3 o'clock this afternoon, when the Riot Act was read, but not before one man had been killed and two others wounded, by revolver shots fired in their defence by mounted troops. Mike Sokolowski, 552 Henry street, registered alien, was shot through the heart as it is claimed, he was crossing from one side of William avenue to the other, at the time the Royal Northwest Mounted Police made their charge. At the same time Robert C. Johnstone, 548 Ross avenue, a returned soldier, was shot through the left thigh, the bullet entering the right knee.

The other man injured was Jack Barrett, a young fellow, who was looking on and claims he had no other interests than that of a spectator. He is shot through the right thigh. Both men will recover.

The tragic events of this afternoon covered not more than half an hour. At half-past 2 perhaps twenty thousand persons were massed on Main street with their focus at the city hall. For the most part they appeared to be strikers, with among them several thousand returned soldiers, and they were congregated to witness or take part in the "massed silent parade" which it was announced last night at the meeting in the Market Square of returned soldiers, would be put on by returned soldiers at 1 o'clock this afternoon, as a last and final effort to break down the barriers the men claim have been erected against the propaganda of the general strike in Winnipeg.

On the whole this great mass was orderly. It contained many women, evidently of the strikers' families, but no children. Just before half-past two a small riot developed on Market street, just east of the city hall park, around a man who was drunk. Leaders of the crowd besought the men involved to quit, as they would spoil by their rowdiness the whole effect of the silent demonstration.

At twenty-five minutes past two a street car passing on Main street only made its way through the crowd amidst continual "booming" and with great difficulty, the trolley several times being pulled off the line. Evidently regarding the whole thing as a circus, a great stream of citizens in their automobiles passed at this critical moment up and down Main street, by no means adding to the good feeling of what was fast developing into an angry mob.

Sharp at half past two the word passed along and the crowd gathered in the wide thoroughfare of Main street on each of the car tracks—"Fall in."

At that very moment Portage avenue car No. 596 appeared from the north, about half full of passengers, mostly women and children.

As it reached Market street it was greeted by a rolling roar of boohing, its trolley was pulled off the

line, and some stones were thrown. Women and children got out of the car and dispersed among the crowd, so far as known unhurt. The conductor and motorman remained by their car, the trolley cord having been cut, it remaining a fixture at what immediately was to become a scene of battle.

Almost simultaneously with this instant the cry went out from the crowd. "Here comes the bloody soldiers," and around the corner of Main street from the south, opposite the Union Bank swept a single line of red-coated Royal North West Mounted Police. They covered the wide street from gutter to gutter, dividing as they passed the derelict car. Immediately an angry cry was heard from the mob and an occasional missile was thrown at the passing soldiers. A hundred yards behind this first rank came a second rank of khaki-clad horsemen.

The mob surged in on the flanks of the horsemen and a free throwing of bricks, bottles and any other available missile began, many of the horsemen being struck. They rode on, however, north several blocks, and then, after short interval, returned again with drawn truncheons, and dividing up into columns of four on each side of the street, sought to drive the mob back on to the sidewalks.

Except for the efforts of a lieutenant-colonel in uniform and on foot who mixed with the crowd, and sought to deter them from violence, but was lost in the throng, it had now become a passionate mob, determined on teaching the military a lesson. From alleyways nearby, bricks had been torn up and hurled at the backs of the horsemen. They cantered south again and were lost to sight around the corner of Main street.

Left thus to themselves a few minutes, the crowd proceeded to wreak vengeance on the street car. The conductor and motorman fled, but not before every bit of glass had been broken. The doors were smashed open and a few minutes later the car was set on fire, this only after unavailing efforts on the part of the crowd to overturn it.

In a short space of ten or twelve minutes, covered by this narrative, the mob was entirely out of hand and bent only on destruction.

The crowd was finally dispersed after the police drew their revolvers and started to shoot.

Ninety-one arrests were made on Saturday afternoon and evening as the result of the rioting. Among those apprehended were six women. All will appear in the police court. Several additional arrests have been made on information supplied by eye-witnesses.

In addition to this, in the course of the week, a score of Strike leaders were arrested and brought to the Stony Mountain penitentiary where they will remain until the date of their trial. If convicted, it is stated, the leaders will face deportation.

Registered aliens in Winnipeg who break their paroles and take part in forbidden meetings and commit any acts of a disorderly nature are being arrested and placed in an internment camp in Ontario. So far more than 20 have been rounded up by federal and city police and other arrests are likely to be made, it was officially announced last night. In two days last week 13 were gathered in, a number that gives some idea of the active work that has been started by the authorities. All are charged with various offences against enemy alien regulations.

Germans Will Sign Peace Treaty Under Protest

Signature To Document Will Probably Be Affixed Thursday. New Cabinet, Headed By Bauer, Had To Be Formed, As Scheidemann Cabinet Resigned

LONDON, June 23. — The German national assembly at Weimar has accepted the peace treaty. The signatures to the document will probably be affixed Thursday.

The Scheidemann Cabinet, which would not take the responsibility of signing, resigned at 2 o'clock on Friday morning. President Ebert will retain his office temporarily. The new cabinet formed is headed by Bauer, the former minister of labor. The other members are:

Minister of interior—Dr. Eduard David.
Minister of finance and vice-premier—Mathias Erzberger.
Minister of economics—Herr Weiser.
Minister of labor—Herr Schick.
Minister of treasury—Herr Meyer.
Minister of posts and telegraphs—Herr Giesberts.
Chief of the colonial office—Dr. Bell.
Minister of national defense—Gustave Noske.
Minister of food—Dr. Schmidt.
No appointment has been made to the ministry of justice.
Herr Meyer, the new head of the treasury department, is a native of Kaufbeuren, Bavaria.

PARIS, June 23.—In declaring its intention to accept and sign the peace treaty the government of the German republic has sent the following note to M. Clemenceau, president of the peace conference, through Dr. Von Haimhausen:

"The minister of foreign affairs has instructed me to communicate to you your excellency the following: It appears to the government of the German republic, in consternation at the last communication of the Allied and associated governments, that these governments have decided to wrest from Germany by force, acceptance of the peace conditions, even those which, without presenting any material significance, aim at divesting the German people of their honor.

"No act of violence can touch the honor of the German people. The German people, after frightful suffering in these last years, have no means of defending themselves by external action.

"The imperial government only too well understands that it faces the allies' terms. Exalted indignation carries away individuals and the community and tries to find vent, but if on assuming my heavy office, I may make a request, it is this: Do not allow the question of acceptance or rejection to become a party matter. Do not misjudge the advocates of rejection as Chauvinists pursuing selfish aims, or the advocates of acceptance as cowardly or traitors."

"Having expressed regret for the action of the democrats, Herr Bauer formally presented the new ministers and announced that the cabinet's general program would remain identical to that of the Scheidemann ministry."

Coming to the question of signing the treaty or not, Herr Bauer said:

"The imperial government only too well understands that it faces the allies' terms. Exalted indignation carries away individuals and the community and tries to find vent, but if on assuming my heavy office, I may make a request, it is this: Do not allow the question of acceptance or rejection to become a party matter. Do not misjudge the advocates of rejection as Chauvinists pursuing selfish aims, or the advocates of acceptance as cowardly or traitors."

Two Hundred Killed in Cyclone

FARGO, N.D., June 22.—Approximately two hundred persons were killed by a tornado that struck Fargo Falls, Minn., this afternoon and wiped out three blocks in the business section of the city.

PROHIBITION WILL CEASE WITH PEACE

OTTAWA, June 18. — That orders-in-council prohibiting the importation, manufacture and transportation of intoxicating liquor shall terminate with the signing of peace, was declared by the senate this afternoon.

"The sale" will not be permitted in prohibition provinces, but the ban on import and manufacture and transport will be removed. Temperance workers are greatly disappointed over the decision of the senate.

"Yielding to superior force, and without renouncing in the meantime its own view of the unbecoming of injustice of the peace conditions, the government of the German republic declares that it is ready to accept and sign the peace conditions imposed."

"Please accept, Mr. President, assurances of my high consideration. (Signed) VON HAIMHAUSEN."

German Premier Discusses Fate of Fatherland

WEIMAR, June 22.—In announcing the decision of the government to sign the peace terms, Premier Bauer said before the national assembly today:

"The Allied and associated powers cannot expect the German people to agree from inner conviction to a peace instrument whereby, without the populations being consulted, living members are severed from the German empire, German sovereignty permanently violated, and unbearable economic and financial burdens imposed upon the German people."

Herr Bauer continued:

"United in Distress."

"The distress of the land and of the people has brought us together. We cannot but refuse co-operation unless we desired to run the risk of leaving Germany to the pray of chaotic state, without government, hopeless of salvation. You will believe me when I say we are not here to stand for the interests of our own party, and still less to satisfy our ambitions."

"We are here for the sense of duty to save to save that which is saveable."

"Having expressed regret for the action of the democrats, Herr Bauer formally presented the new ministers and announced that the cabinet's general program would remain identical to that of the Scheidemann ministry."

Coming to the question of signing the treaty or not, Herr Bauer said:

"The imperial government only too well understands that it faces the allies' terms. Exalted indignation carries away individuals and the community and tries to find vent, but if on assuming my heavy office, I may make a request, it is this: Do not allow the question of acceptance or rejection to become a party matter. Do not misjudge the advocates of rejection as Chauvinists pursuing selfish aims, or the advocates of acceptance as cowardly or traitors."

Germans Sink Their Navy at Scapa Flow By Opening Sea Cocks

LONDON, June 21. — The German officers and sailors, forming the complements of the German ships interned at Scapa Flow, sank most of their fleet today. All the big ships, battleships and battle cruisers, excepting the Bader, and numerous smaller craft, were sunk, while others went ashore in a half-sunken condition.

Eighteen destroyers were beached by tugs, four still are afloat, while the remainder went under. The wholesale sinking of the German ships, which came to Scapa Flow to surrender under the terms of the armistice, was carefully arranged by the officers and crews. All explosives had been removed, and therefore the only means of destroying the fleet was by opening the sea cocks. The ships went slowly down with the German flag, which the crews had hoisted, showing at the mastsheads.

Crews Took to Boats

The crews, composed entirely of Germans, under the terms of the armistice, which did not permit of British guards aboard, took to the boats with the vessels began to sink. While making for the shore

the boats were challenged and called upon to surrender. Some of them ignored the summons and were fired upon, a few casualties resulting.

This stroke apparently was an entire surprise and the first news reached London through a correspondent who was informed by farmers in the neighborhood that they had seen the German ships sinking, with their flags aloft.

The German officers and crews have been made prisoners. None of the officials tonight would offer an opinion as to how they are to be dealt with. The admiralty at first denied the report but later confirmed it and issued an official statement.

Court Martial For Fleet's Loss

LONDON, June 23. — Admiral von Reuter, in command of the German fleet, scuttled and sunk in the Scapa Flow, will be court-martialed for having broken the armistice conditions, says the Daily Mail today. The newspaper adds that details of the trial of the admiral will be arranged by the allied council in Paris.

weakenings, void of the national sense of justice.

"On both sides are weighty reasons, which no responsible man can overlook. A decision must be taken. The time for reflection is past. The hour for action has arrived, and in it each of you bears a responsibility.

"The imperial government is conscious that despite all manifestations of confidence, it can, in the eyes of the nation and history only have one real justification, namely — to ruthlessly take a decision after the examination of the facts and a responsibility without an eye on party feelings."

Yielding to Force

Declaring that in signing the treaty under duress the government yields to force, in order to spare suffering Germany from a new war and disruption of national unity by further occupation, starvation for the women and children and retention of German prisoners, Herr Bauer continued:

"But the government expects in view of the stupendous burden thus assumed, that all military and civilian prisoners will be returned without interruption beginning July 1. At this solemn moment the government desires to express itself with absolute clearness in order to meet beforehand any possible reproaches that the conditions imposed exceed Germany's power to perform, and we, therefore, decline all responsibility for the consequences that may befall Germany, should her utmost endeavors prove the conditions impossible of fulfillment."

Will Not Admit Blame for War

"We furthermore lay the greatest emphasis on the declaration that we cannot accept and by our signature do not cover article 231, demanding that Germany confess herself the sole author of the war."

OVER 60 TRAMPLED TO DEATH IN PANIC AS PICTURE SHOW BURNS

SAN JUAN, Porto Rico, June 21.—Sixty bodies have been recovered from the ruin of a motion picture theatre at Mayaguez, destroyed by fire last night, according to latest reports. The injured number a hundred and fifty, many of whom may die.

Women and children were trampled or crushed to death in the panic that followed the alarm of fire. The frame theatre building was destroyed within 15 minutes.

That he is in favor of the tariff policy advocated by Sir Wilfrid Laurier, was a statement made by Dr. D. McKeen, opposition leader, in continuing the debate on the budget in commons on June 26. He further put himself on record as being entirely in accordance with the principles of the Liberal party on the tariff question and explained that in a recent speech, in which he made a reference to the tariff which has been the subject of much comment, he had used the word "protection" when he should have said "bounty."

He was in favor, he said, of encouraging industries which develop the natural resources of the country, by bounty or otherwise. Mr. McKeen said he stood by the McKeen amendment, both in its present form and in the more specific form in which it was moved earlier in the session. The amendment expressed in a compact way, he said, the attitude of the Liberal party at present. Mr. McKeen criticized the government in connection with expenditures, the cost of living and labor troubles. He once more expressed the opinion that a court should be established to deal with labor troubles.

Dr. W. D. Cowan, Regina, who opposed Mr. McKeen, said he would oppose the amendment because the government, in response to the demands of western members, had made tariff changes that will save the people \$5,000,000 dollars per annum.

A successful effort was made by the party whips on June 17 to induce members to limit their speeches on the budget to twenty minutes in order to reach a decision. As a result of the cutting down of the speeches, a score of members were heard before the house afterwards. Speeches included one by Fred Pardee, a former chief Liberal whip, who may be the only member elected as a Unionist east of the Great Lakes to vote for the McKeen amendment. Mr. Pardee declared himself in favor of free foodstuffs and clothing and urged that the duties on agricultural implements be reduced to the lowest possible point.

The supporters of the budget proposals at the morning and afternoon sittings of the house were J. McKeen, of King's, P.E.I.; Dr. E. T. Meyers, of Kamisley, Sask.; J. R. Wilson, Saskatoon, and E. W. Nesbitt, North Oxford, while J. F. Farwell and Dr. H. Deschambres, two Quebec members, favored the McKeen amendment.

At the evening sitting, critics of the budget included H. A. Fortier, LaBelle; J. A. Campbell, Nelson, Man.; Thos. MacSutt, Saltbours, Sask.; Levi Thompson, Qu'Appelle; W. H. White, Victoria, Alberta, all of whom indicated that they would support the McKeen amendment.

Members who stated that they would vote for the government's proposals included:

T. E. Simpson, West Algonia; Dr. S. F. Tolmie, Victoria, B.C.; H. S.

The debate on the budget concluded at 2:30 o'clock on Wednesday and the speaker put the question. The vote on the amendment was taken first, and 18 Unionists voted for it. They were as follows: (Consent) Clark, Malburg, Davis, Levi Thompson, Reid (of MacKenzie), Johnston, Douglas, Buchanan, J. C. Campbell, Fielding Pardee and MacSutt.

Two Liberals voted with the government, Messrs. McCrea, of Sherbrooke, and W. D. Haier, of North Waterloo.

The vote stood as follows: For the amendment 70. Against, 222. A government majority of 51. A vote was then taken on the main motion.

Messrs. Malburg, Knox and Douglas, who voted for the amendment, then voted in favor of the budget. No Liberals voted for it. W. F. Coakley, the Brandon Conservative protectionist, voted against the budget, as also did the following Unionists: (Consent) Clark, MacSutt, Thompson, Johnston, Reid, Campbell, Davis, Fielding Pardee and Buchanan.

The voting stood: For the budget 120. Against 70. A government majority 50.

Hon. W. S. Fielding declared himself in favor of the amendment. After warning the government of the danger of the exemption of the war bonds from taxation, these bonds were getting into the hands of the wealthy classes, he said, and they would find that after a time the poor man who paid the taxes would have a rich neighbor paying not a cent.

A. B. McCoig, of Kent, in speaking in support of the McMaster amendment, suggested the nationalization of cold storage plants as a method of reducing the high cost of living.

Supporters of the budget heard up to midnight included: H. C. Wright, of Battleford; J. H. Burnham, of Peterboro; R. H. Butts, Cape Breton South; R. C. Henders, McDonald, Man.; and W. A. Logie, of Northumberland.

Members who indicated that they would support the amendment included: J. F. Reid, of Mackenzie; S. W. Jacobs, Montreal; Albert Knox, Prince Albert; F. L. Davis, Neepawa, and J. A. Maharg, Maple Creek.

Mr. Enjer stated that he was opposed to the budget and entirely in sympathy with a large part of the amendment, although it went a little further than he would wish to go.

Mr. Burnham sharply criticized the position on the budget taken by the Liberal members of the government. Burnham added that he would send them to the senate or high positions. He considered Union government as absolutely impossible and a Unionist party impossible now that the war was over.

Mr. Reid of MacKenzie, said he was opposed both to the amendment and to the budget. He thought that it would have been just as easy for the minister of finance when he was making his tariff reduction of 2 1/2 per cent, to raise it to 5 per cent, and his 5 per cent, reduction to 10 per cent. This would have been acceptable to the west.

While the president of the privy council was making his speech in the house in defence of the Dominion Textile company, said Mr. Reid, a committee upstairs was discovering that the stock of this company had been greatly watered; that the company had made excessive profits; and that it had padded away a comfortable nest egg of a million dollars which did not appear on its balance sheet nor any other papers.

He expressed the view that no income tax could be collected on this sum. Another company, it had been discovered, was making a tidy profit of 72 per cent. By what reason, he asked, were companies such as this protected?

As far as the tariff on agricultural implements went, Mr. Reid advocated its complete removal. The Canadian farmer should not be penalized because these implements were manufactured in Canada. The Canadian manufacturer was able to compete in outside markets. Why could he not do it at home? He should come into open competition with American manufacturers.

Mr. Reid regretted that the government had not brought down a budget which western members would accept in full. On principle he was compelled to vote against it.

He would, therefore, vote for the amendment.

Sir Robert Borden presented the naturalization bill. The purpose of the bill is to consolidate the present Canadian naturalization acts and to incorporate therewith the provisions of the imperial act of 1914 as amended by the Imperial act 1918.

Provisions is made under the bill for revocation of certificates of naturalization granted in Canada, where such certificates have been obtained by fraud, where the holder has shown by act or speech to be disaffected or disloyal to His Majesty; where the holder during the war unlawfully traded with the enemy; where he has continued to reside abroad for not less than seven years and not maintained con-

CROP REPORTS

Telegraphic crop reports received by the Bureau of Statistics of the Provincial Department of Agriculture, show that the rains of the past week were fairly general all over the province. In the South Eastern districts the grasshopper has done a great amount of damage but with active co-operation of the Municipal Officials, the Provincial Department of Agriculture, and the field officers of the Dominion Entomological Branch, it is thought that the situation in this district is now under control. Reports received from south of Moose Jaw, Outlook and Eyebrow, also indicate serious damage by this pest, but energetic measures are being taken by the Department of Agriculture and with the help of the farmers in the district affected it is hoped that the damage will be reduced as far as possible. The work will be carried

greatly helped by the rainfall during the past week. In the South Western and South Central districts crops are reported as being the best since 1915, no damage of any kind being experienced. In the Central and Northern Districts the rain would appear to have come just in time to save the crop from being destroyed by high winds and drought. The outcrop would appear to have done some damage in almost all parts of the province but it is too early yet to make any estimate of damage.

To summarize the crop situation of the province, it would appear that the crops are much farther ahead than at the same period last year and prospects are generally favorable to a crop of at least equal to the average and in many parts better than they have been for several years.

Between sixty-five and seventy delegates will represent the Liberals of Saskatchewan at the National Liberal Convention which will be held in Ottawa early in August. Sixteen conventions have been called by Premier Martin in the sixteen federal constitutions in the province, to nominate delegates. Every convention will be open to all who care to attend. No delegates will be elected from the various polls and every elector who believes in a progressive policy and low tariff principles will be welcome. Premier Martin, Liberal leader for Saskatchewan, in calling these conventions, declares that the time has now arrived when Liberals of Saskatchewan and all who favour political action along progressive lines should join their forces for the purpose of making their influence felt on Canadian policy. He says that he has deemed it his duty before Union Government was formed to assist the government in power in everything that pertained to the carrying on of the war, and since the formation of Union Government he has endeavoured to co-operate in a all matters essential to the proper organization of the country and that this co-operation is still necessary in connection with demobilization and rehabilitation problems and this co-operation will be freely given.

He points out the great unrest existing in Canada as partly due to abnormal conditions, but due most of all to the fact that the cost of living has reached a point not before known in the history of the country, and no steps have been taken by the authorities to control the prices of the necessities of life. Premier Martin says he is confident that the Liberal party of Canada will adopt a low tariff platform at its convention in August. He says that the citizens of Canada are to-day the most highly taxed people in the world as far as indirect taxation on imports is concerned, the tariff per head in Canada being \$18.25, while in the United States it is only \$2.11 per head. Mr. Martin estimates the total amount paid by the average family in Canada in each year by reason of the tariff as approximately \$300. As agriculture is the basic industry of Canada, Premier Martin says that agricultural implements should be admitted free of duty. He says that the guiding principle in the making of tariffs should not be the creating of special privileges for a particular class, but should be the obtaining of revenue, and everyone in the country should be made to pay his share.

How to Control Locusts or Grasshoppers

It has been reported to the Department of Agriculture that grasshoppers have made their appearance in several parts of the province and are destroying large areas of the growing crop. Steps have been taken by the Department of Agriculture in co-operation with the Entomological Branch of the Dominion Department of Agriculture to destroy this pest. It is well, however, for all farmers to have a knowledge of this insect so that action may be taken before its activities have made destruction impossible and, therefore, the following information relating to the grasshopper should be carefully noted by all farmers.

The locusts, or grasshoppers as they are more generally spoken of, lay their eggs in late summer, the young locusts hatching about May of the following year. In their early life the chief habit of the locust is eating and growing until they become full grown, usually in the latter half of June or early in July when their attention is more directed towards mating and egg laying.

Methods of Control: Old pasture land or stubble land are known to attract locusts for the purpose of egg-laying and should, therefore, be ploughed to a depth of at least six inches after the eggs are deposited, either late in the fall or in the spring before May of the following year in order that as many eggs as possible will be buried deeply thus preventing the young from escaping to the surface. If the ploughing is done in the spring it is wise to follow this immediately by harrowing.

Methods of Destruction: In the Province of Manitoba a mixture known as the Criddle Mixture has been found to be of great value in controlling outbreaks of injurious locusts and in fact is the only practical measure which has been adopted in recent years in that province.

Owing to the high cost of bran in Saskatchewan the cheapness of the Criddle Mixture is an important factor. It is made by using 1 pound of Paris Green, or white arsenic, and 1 pound of salt to 15 gallons "by measure" of fresh horse droppings. Sufficient water should be added to the droppings to make a moist, but not sloppy, mash and the Paris Green and salt then be added and thoroughly mixed by means of a fork or rake. The mixture may be scattered lightly from a low barrel, box or tub, by means of a trowel or shingle in the infested fields chiefly where the insects are feeding.

The poisoned bait should be used in the infested areas early in the morning about the time the insects are beginning to move about after their night's rest. In treating large areas it is of the utmost importance that farmers in the infested district co-operate and apply the mixture at the same time.

Municipal Action Desirable: In some municipalities, where grasshoppers are destroying crops Municipal Officials are directing the farmers in the destruction of these pests and have purchased poison to be sold to farmers who require it. Statistics Branch, Department of Agriculture, Saskatchewan.

BAIL JUMPER TAKEN BACK TO BIGGAR

George Milne, the man who jumped his bail some time ago at Biggar, has been arrested at Wainwright by the provincial police of Alberta and will be taken to Biggar to face a charge of being in unlawful possession of 400 cases of intoxicating liquor.

Interesting Exhibit Staged at Western Exhibitions

An exhibit is to be staged at the western exhibitions this year, which has as its subject matter "Economic production through stock improvement". "Co-operative marketing", the "Canadian standard for eggs", and "Regulations as applied to export and inter-provincial shipments. This exhibit has been specially prepared by the Live Stock Branch of the Dominion Department of Agriculture, under the supervision of the Poultry Division, and will be shown at Calgary, June 28th, to July 5th, Edmonton, July 7th, to July 12th, Saskatoon, July 14th to July 19th, Brandon, July 21st to July 26th, at Regina, July 28th to August 2nd.

In calling the attention of producers and consumers in Western Canada to this exhibit, it might be well to point out the necessity for continuing the movement instituted during the war, of increasing the production of food products. This proved a large factor in the winning of the war, and it is just as important to-day as it was previous to the armistice being signed. Home consumption, and the export demand will absorb all eggs and poultry that can be produced and it is, therefore, urged upon poultry producers to do everything possible to carry their young stock to maturity in order that egg production next year may be increased,

and also that there may be a considerable increase in the quantity of live or dressed poultry to be marketed. In former years different phases of the poultry industry have been presented, but this year it was felt, in view of the possibilities Canada has for becoming established on the British market, and the great possibilities there are for increased economic production through stock improvement, and the importance of marketing the products co-operatively and under fixed standard grades, that all these features should be combined in the exhibit. The different subjects are dealt with in an attractive manner by means of illustrations in colour, electrically illuminated, and when interested producers and others view these illustrations they will have no difficulty in connecting the various subjects, and realizing the important bearing one has upon the other, and the whole upon the poultry industry of the country.

In addition to these features, attention is also directed to the consumptive side, and the different egg and poultry dishes modeled in wax and plaster give a good idea of the utility and attractiveness of these products for home consumption. A device has been provided in order that visitors to the exhibit may see for themselves the actual differences between good and bad eggs.

OUR ORGANISED GRAIN GROWERS

SWIFT CURRENT G.G. ASK FOR LOWER TARIFFS

SWIFT CURRENT, Sask. — That the Grain Growers of the Swift Current federal constituency are heart and soul behind the farmers' political organization, was clearly demonstrated when over four hundred delegates attended the convention called for the constituency to perfect organization. The keenest possible interest was taken by the delegates in the explanations made by Secretary Muselman and R. M. Johnson, of the central office, of the entry of the organized farmers into the political arena, and by vote and voice the delegates impressed all and sundry with their ready earnestness to become a leading factor in the political life of Canada.

Following the lead of the six other conventions no attempt was made here to nominate a candidate. In fact there was not the slightest hint that such a course should be adopted, and the motion that no candidate should be selected was unanimously passed without the slightest discussion. Probably the outstanding features of the convention was the decision to ask the locals in the constituency to submit names of prominent men who will be asked to allow their names to go to a convention of the constituency.

meeting with His Majesty's dominions, where, according to the law of the state at war with His Majesty, the holder remains a subject of that state; finally where the continuance of the certificate is not conducive to the public good. Provision is also made for the naturalization of persons who served with the British forces in the war.

Committee stage on the budget resolutions was completed on Thursday, and the finance bills based thereon were given first reading. There was one division and it came over the duties on agricultural implements. J. A. Maharg, Maple Creek, moved that the duty on plows should be reduced by two and a half per cent., to make it correspond with the duty on harrows, but his motion was lost by a vote of 58 to 40.

Sir Thomas White stated that legislation would be introduced at the present session providing for the importation of oleomargarine free of duty until September 1, 1920.

In connection with the resolution regarding the business profits war tax, D. D. McKenzie, leader of the opposition, asked why there should be a tax on business profits as well as on income. A business man's profits he said, constituted his income. Sir Thomas White replied that the business profits tax arose out of exceptional conditions due to the war. Great profits had been made as a result of the war and it was thought these should be taxed. A strong probability that divorce courts will be established in Canada was forthcoming in the commons

against. The measure was substantially carried in committee and it is expected that it will get a third reading this session. There is some doubt expressed as to the bill securing the approval of the senate, which now deals with divorce cases except for the maritime provinces and British Columbia.

The object aimed at by Mr. Niekle's bill is to establish divorce courts in provinces where they do not exist, by giving jurisdiction in such matters to the superior courts, and giving jurisdiction to the exchequer court on divorce matters for the Dominion. The latter proposal, he explained, would free Roman Catholic judges of Quebec from the necessity of hearing divorce cases.

In the division Friday, the Roman Catholic members of the house voted against the bill, which received the support of D. D. McKenzie, opposition leader, as well as the prime minister. Arguments advanced in favor of the bill, included the contention that while there should be no change in the grounds for which divorces are granted, they should be made possible for the poor as well as the rich.

At the conventions of Maple Creek and Weyburn also a candidate was not chosen. The conventions followed the same policy as at other similar meetings. J. B. Muselman declared that the present fiscal system is a Protectionist one.

on Friday, when, with the approval of Sir Robert Borden, W. F. Niekle's bill relating to divorce was given second reading. This stage was not reached without a fight. A. E. Frupp, of Ottawa, seconded by Mr. Melsaie, moved the six months' hoist for the bill. Mr. Frupp's amendment was voted down on a division of 35 to 68.

Are Here Told the Best Remedy for Their Troubles.

Present, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incidental to that change—loss of sleep, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Godden, 923 Napoleon St., Fremont, Ohio.

The Mill on the Floss

BY GEORGE ELIOT

"A situation!" said Mr. Deane, and then took his pinch of snuff with elaborate justice; to each nostril. Tom thought snuff-taking a most provoking habit.

"Why, let me see, how old are you?" said Mr. Deane, as he threw himself backward again.

"Sixteen—I mean, I am going in seventeen," said Tom, hoping his uncle noticed how much he had had.

"Let me see—your father had some notion of making you an engineer, I think?"

"But I don't, think I could get any money at that for a long while, could I?"

"That's true; but people don't get much money at anything, my boy, when they're only sixteen. You've had a good deal of schooling, however; I suppose you're pretty well up in accounts, eh? You understand book-keeping?"

"No," said Tom rather falteringly. "I was in practice. But Mr. Stelling says I write a good hand, uncle. That's my writing," added Tom, laying on the table a copy of the list he had made yesterday.

"Ah! that's good, that's good. But you see, the best hand in the world'll not get you a better place than a copying clerk, if you know nothing of book-keeping—nothing of accounts. And a copying clerk's a cheap article. But what have you been learning at school then?"

Mr. Deane had not occupied himself with methods of education, and had not precise conception of what went forward in expensive schools.

"We learned Latin," said Tom, pausing a little between each item, as if he were turning over the books in his school-desk to assist his memory.

WHEAT HEADED OUT ALREADY

The first wheat to head out this year and brought to a local news-

paper office is from the farm of J. E. Doser, thirteen miles north on Albert street. This office received a splendid sample of Red Bobs wheat well headed out and each head perfect in formation.

The wheat was sown on April 19, and there are ten acres, according to the statement of Mr. Doser, now headed out. He further claims that it was set back somewhat owing to the high winds and drought.

SASK. GOVT. WILL PAY COST OF PARIS GREEN FOR R.M.'S

Grasshopper Invasion Becoming So Serious That Everybody Must Take A Hold, Says Hon. C. A. Dunning.

The Saskatchewan government will pay the cost of Paris green or arsenic required by rural municipalities for the destruction of grasshoppers provided the municipalities furnish the other material used in preparing the poison bait, was the important announcement made Friday of last week by the Hon. Chas. A. Dunning, minister of agriculture.

"The grasshopper invasion has become so serious that everybody must take hold," said Mr. Dunning. "Grasshoppers are being found by men who were sure their fields were free from them." Affected areas include many districts from Caraduff in the south-east, to Saskatoon and points west. The field men of the department have been engaged in the work of destruction since our crop correspondents reported the prevalence of grasshoppers, and we have had the active and valued assistance of Dr. Cameron, Mr. McLaine and Mr. Criddle, of the Dominion entomological branch.

"While farmers generally are reported to be active in the destruction of grasshoppers, too many are indifferent. The grasshopper is an enemy which must be fought to save, not only this crop but next year's as well, and I feel sure that if farmers only appreciate this fact, they will not allow the grasshopper to get the upper hand very long. By supplying the necessary materials at cost and everybody working together, success must follow in this campaign against the grasshopper pest."

Recent reports indicate that the grasshoppers have worked their way as far north as Vanscoy, on the outskirts of Saskatoon. They are also reported south of Milestone and near Rouleau on the Soo line.

FATHER JAN WILL SUCCEED ABBOTT BRUNO

Rev. Father A. Jan O.M.I., rector of St. Paul's Catholic Church, Saskatoon, has been elevated to the office of administrator of the diocese of Prince Albert, succeeding Rev. DISASTROUS FIRE AT UNITY

UNITY, Sask. — The most disastrous fire in the history of this district on June 18 did damage to the extent of over \$40,000.

Starting in Norton's garage on Main street, it completely destroyed the building; P. E. Craig's chopping mill, postmaster's house, a new office and partially destroyed the new Odd Fellow's temple and two stores.

A SAD ACCIDENT

RAINTON, Sask. — A sad accident befell the Dick Olson home on Monday before last when their two-year old child found a small bottle of strychnine and innocently ate some of the contents. They were unable to save the child as it died before medical aid could be secured. The poison was a part of the season's supply of gopher bait.

MANITOBA TO CLOSE SHOPS

WINNIPEG. — Information has reached the Canadian Press, Limited, that the foreman who remained on duty in the Canadian Northern railway shops at Transcona have received two weeks' notice. It is understood the shops are to be closed and the work done hereafter in the Fort Rouge shops. Some 5,000 men are employed at Transcona.

\$1,000,000 LOSS

WINNIPEG. — It has been estimated that the loss resulting from the terrific wind and electric storm which swept the Winnipeg district Saturday, before last, at some times reaching a velocity of 84 miles an hour, will total more than a million dollars. No person was killed, but several were injured, none, it is believed, seriously.

SUICIDES THROUGH FEAR OF JAIL

ALBERTA HAVE TO SET LIMIT TO PRESCRIPTIONS FOR LIQUOR SUPPLY

EDMONTON. — A limit of 100 liquor prescriptions a week from any one physician has been set by the attorney general, pending a definite ruling to that effect from the council. Under the new scheme of serially numbering prescriptions the doctors are required to return their prescription book stubs to the department and since the new scheme has been in operation for only about two weeks, comparatively few returns have yet been made. In some of these cases, however, the blanks have been used up to such an extent and with such rapidity that the department has found it desirable to set a limit upon the number of prescriptions that will be accepted legitimately.
