HUGH A. ALLAN TALKS IN FAVOR OF THE TWO PORTS

He Argues That Both Halifax and St. John Will Benefit Under the Proposed Arrangement.

(Special to the star.) MONTEAL, Sept. 29.—Mr. Hugh A. Allan has given out the following interview to the Star: "It seems to me that the question of sentiment has largely entered into the discussion regarding our future. It is going to St. John this winter and the Expresses not going to Halifax. If looked at from a practical point of view it will be seen that really both ports benefit. The special connections of the C. P. R. with St. John are well known. Its dock facilities and its nearer rail connections to the west. A stop of an hour or two just inland and embark mails would be a big tax on the ships and a doubtful benefit, as passengers and cargo would naturally seek the real terminus of the line. "On the other hand, Halifax would gain, inasmuch as by our arrangements with the C. P. R., cargo will be landed at that port which otherwise would be handled in Halifax at all, apart from the fact that the turbiners would remain in the port for about a week instead of a few hours as last season. "The arrangement is a common sense one which does no injury to either St. John or Halifax, and which will diminish the risks and delays to such valuable ships of making two ports situated within 200 miles of each other instead of one, and offers a very severe winter. The C. P. R. will have the shortest railway connection, while our vessels will gain a corresponding advantage by touching at the nearest seaport to Liverpool. "Mr. Hugh A. Allan expressed his regret that there was an apparent wilful effort to misconstrue the common-sense motive which underlay the arrangement made between the two companies regarding their respective uses of the two ports for the big mail ships.

MR. SCAMMELL FINDS THAT MORE DREDGING IS NEEDED

And That the Ledge Complained of by Mr. Clark Has Not Been Touched Since It Was First Spoken of.

When is the site going to be ready to sink the first crib? This question is being asked by nearly every person in the city who is at all interested in the Sand Point affairs. The question is, however, yet to be answered. Mr. Mayes still claims that the site is all ready, and that all the trouble is that Mr. Clark is trying to gain time. Mr. Clark emphatically declares that the site is not ready, but that he is. Yesterday Mr. Mayes notified the board of works that all the cleaning up was finished and that Mr. Clark could sink his crib any time. This morning Mr. Scammell was taking soundings and found that the ledge which Mr. Clark had complained of before, and at which

NEARLY ONE HUNDRED LIVES WERE LOST IN GULF OF MEXICO STORM

Property Damage Will Amount to \$10,000,000—Vessels Carried Miles Inland on the Flood—Mobile Almost Swamped.

MOBILE, Ala., Sept. 29.—Between 75 and 100 lives lost, fully two-score vessels driven ashore or wrecked in various parts of the Gulf of Mexico, damage amounting to \$4,500,000 in the City of Mobile and to several millions at outside points is the record of the storm which swept over Mobile on Wednesday and Wednesday night. No accurate estimate of the number of the casualties can be made yet, and it is doubtful if it will be known for a week or more. Grave apprehension is being aroused in the situation in Gulfport, where it is thought many lives were lost. Reports from this point are meagre. It is declared by municipal officers that no lives were lost in Mobile, but all the deaths occurred in places within a radius of fifty miles of this place. The following boats were wrecked or driven ashore near Mobile: Barkentine Hornel, schooner Pendleton, of Pendleton Bros., of New York; barkentine Trojan, and Corrieterie; steamer Josephine; sloop Mimos; sloop Alive; steamer Dalshocota; schooner King of Avon; ship "Phon Uglan"; revenue launch Albert, and three tugs. Fishing smacks and small craft in great numbers were driven on shore and smashed. Three boats belonging to the United Fruit Company, the Helen, the Imperator and the Columbia, have not been heard from, but it is believed that they have ridden out the storm in safety. The storm made its appearance in the neighborhood of Mobile on Tuesday afternoon, when fitful winds began to blow and the barometer began to fall. The wind rose steadily. All through Wednesday and between 3 o'clock and 4 in the afternoon of that day blew 48 miles an hour. At 7:20 on Thursday morning it reached its greatest speed blowing from eastern quarter 35 miles an hour, the barometer falling to 28.4. A few minutes after 8 o'clock on Thursday morning the wind died down and the barometer began to rise. The total rainfall in Mobile during the storm was 6.88 inches. While the storm was at its height the water from the bay was driven in with great force on the city, the waves coming over the ends of the wharves six feet deep. Three blocks into the city, the flood was driven, filling every basement and store in that part of the city. While the storm was at its worst, it was impossible to do anything to save the boats, which were slowly driven ashore.

THE USE OF TELEPHONES IN FRENCH ARMY MANOEUVRES

PARIS, Sept. 29.—Never before have all the latest inventions, including wireless telegraphy, wireless telephony and military balloons, been brought into use to such an extent as during the recent French maneuvers. Balloons have taken a prominent part in defence and

CUBA'S INDEPENDENCE CAME TO AN END TODAY

Secretary Taft, on Behalf of the United States, Assumed Control, Though the Government is as Yet Only Provisional.

HAVANA, Sept. 29.—An American provisional government assumed possession of Cuba today when War Secretary Taft's proclamation declaring himself provisional governor of the island was formally issued. The proclamation was published in the Official Gazette and thousands of printed copies of the document were distributed in Havana and elsewhere. The terms of the proclamation caused general satisfaction especially on account of the moderate terms in which it was expressed, its statements that the provisional government of Cuba is undertaken only on account of the necessities of the situation and its promise that provisional government will be maintained purely for the purpose of restoring peace, order and public confidence until a permanent government is established. No one appears inclined to doubt the good intentions of President Roosevelt and his representatives and there is no apprehension of any serious trouble or resistance to the provisional government in any part of Cuba. While Governor Taft has not yet taken possession of the palace, this is only because ex-President Palma will not be ready to vacate the official residence until Monday and Mr. Taft desires to do whatever he can to suit the ex-President's convenience. No disturbance of any kind occurred last night. The business interests here are satisfied at the change of government. A striking feature of the provisional government is the fact that the Cuban flag has not been lowered. This establishes a precedent in provisional governments and protectorates.

TO CONSIDER RESOLUTION FOR NATIONALIZATION

Board of Trade Will Take Up This Question on Tuesday—W. F. Hatheway the Mover.

At the regular monthly meeting of the board of trade to be held on Tuesday afternoon next W. F. Hatheway will move the following resolution: Whereas the Transportation Committee's report recommends that St. John be declared in favor of the nationalization of the port and for the immediate provision of facilities by the government for the winter port trade, and further resolved that the Board of Trade urge the Common Council to lay before the government in November a schedule and plan of the harbor and city wharves, together with the cost of the same to date, with a view to the government taking over the same. "This matter has for some time been under consideration by the board, and the support of many of the members who feel that some definite step should be taken along the line of nationalization. It is hoped that the attendance at Tuesday's meeting will be large.

T. P. O'CONNOR IS VISITING AMERICA

Widely Known Journalist—Coming as Delegate to the United Irish League.

NEW YORK, Sept. 29.—T. P. O'Connor, member of the British Parliament and journalist, who now comes to this country as the special delegate of the Irish Parliamentary League to represent it at the convention of the United Irish League of America, to be held in Philadelphia on Tuesday and Wednesday next, is due today on the White Star liner Celtic. He will be accompanied by Mrs. O'Connor and will be met by the Hon. Edward Blake, M. P., formerly of the Canadian Parliament, who has been in Canada for some weeks, and a deputation of the municipal council of the United Irish League of this city. It is twenty-five years since Mr. O'Connor visited New York. When he addressed a meeting of the Irish National League at which over \$5,000 was subscribed to aid the movement conducted by the late Charles Stewart Parnell. Mr. O'Connor is well known in English and American literary circles, being owner and editor of a London society journal, "Mainly About People," generally known as "M. A. P."

THE FIRST PRIZE FIGHT SINCE THE EARTHQUAKE

San Francisco People Saw a Stubborn Bout in Which Eddie Hanlon Was Badly Beaten

SAN FRANCISCO, Calif., Sept. 29.—Dick Hyland of San Francisco won a clear cut decision over Eddie Hanlon last night at the Seattle Athletic Club. Referee Jack Welch stopped the contest at the end of 12th round, with Hanlon hanging helpless against the ropes and unable to defend himself against Hyland's punches. The fight throughout was stubbornly contested and replete with hard hitting and clever work by both lads. Hyland, however, landed the cleanest and more forceful blows and was never in distress. A tremendous crowd witnessed the contest which was the first exhibition of its kind given in this city since the earthquake. It was necessary to invoke the aid of the mounted police to maintain order outside the auditorium before the main event was called.

LORD MAYOR OF LONDON

LONDON, Sept. 29.—Sir William Trevelyan, an alderman of the City of London since 1876, was today elected Lord Mayor in succession to Walter Vaughan Morgan. Sir William Trevelyan was born in London January 12, 1843, and has been a member of the corporation of the City of London since 1890.

JUDGMENT GIVEN IN FAVOR OF MR. MYLES

In the Action for Damages Brought by Manford Day.

Judge Landry this morning delivered judgment for the defendant in the case of Day vs. Myles. This action was brought by Manford Day, who was injured last June by the falling of a beam from the roof of the house of Mr. Greaney, corner of Pitt and King streets east. The plaintiff claimed \$3,000 damages and sought to prove that the accident was due to negligence on the part of Mr. Myles. Judge Landry, in giving his decision this morning, stated that he had decided in favor of defendant, as the evidence had all gone to show that Mr. Myles had employed competent workmen, and that the material for staging was the best. The accident was an accident, pure and simple, and Mr. Myles had done all in his power to avoid just such a calamity.

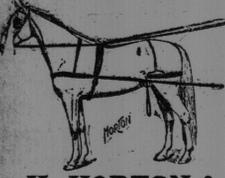

DELEGATION WILL NOT LEAVE UNTIL MONDAY

Mayor Sears received a despatch from the Minister of Railways this morning stating that Hon. Mr. Hyman, Minister of Public Works, would not be in Ottawa until Wednesday. The Board of Trade and civic representatives will therefore not leave for Ottawa until Monday. Miss Bruce, of 296 Duke street, has returned from New York and Boston, after several weeks' visit. Miss Irene Kilpatrick, of New York, will return home tonight by Calvin Austin, after spending some time in St. John.

THIS EVENING. "Human Hearts" in the Opera House.

BETTER TERMS' CONFERENCE MINISTERS IN SECULAR BUSINESS, NEGLECT WORK

Will be held in Room Which has Seen Famous Gatherings—Bale des Chateaux Railway Scandal. Ventilated There.

OTTAWA, Sept. 28.—The "better terms" conference, which is to take place in Ottawa during the week of October 8th, will be held in the Railway Committee Room of the Senate. Including the Federal representatives, about thirty will take part in the conference, a number which the committee room will accommodate comfortably. This particular room of the Senate, whose east window looks upon the statue of Sir John Macdonald, has been the scene of many famous gatherings of political import. Perhaps the most interesting of them, having regard to the prime object of the approaching gathering, was the famous enquiry of 1891 into the Bale des Chateaux Railway scandal, an investigation which threw a flood of light upon the methods by which were piled up those enormous additions to Quebec's public debt, which are largely responsible for the present demand for an increased provincial subsidy.

NEGLIGEE COAT SHIRTS For Easy Fit, Real Shirt Comfort and Full Value. You can't ever know how worth-while a right coat shirt really is till you buy the comfortable fitting kind—the kind that bears this brand—the brand of makers who care. Summer patterns ready now at each good shop. Demand the brand. Your dealer can supply you. ASK. 20

WASHED PRIEST FOND WITH WIFE. Abbe Supposedly Murdered, Whose Body a Hyena Was Employed to Find. Living With Former Nun. PARIS, Sept. 28.—Abbe Delarue, cure of Chateaux, who disappeared about two months ago and who was thought to have been assassinated, was today officially found to be alive and well, living in Brussels with a teacher, formerly a nun of the same town, with whom, it appears, he eloped. The Paris newspapers made great efforts to discover his body, one of them employing a hyena for the purpose. As late as yesterday the cure of the surrounding towns met at Chateaux and held a funeral service for the colleague whom they thought dead. The inhabitants of Chateaux are very indignant at the revelations and the Paris papers are full of details of the abbe's escapade.

NEWS OF SPORT

THE TURF

ON HALIFAX TRACK.

HALIFAX, N. S., Sept. 28.—That Halifax has a half-mile track to be proud of was well demonstrated today, when, despite heavy rain throughout the previous evening, the footing was in such good condition that Lady Bingen's three winning miles were paced in 1:54, 1:54, 1:54, and had it not been for the cool wind that prevailed it was probable that a second or more would have been clipped off her mark of 34.

THE RIFLE

ON HALIFAX TRACK.

HALIFAX, N. S., Sept. 28.—The St. John City Rifle Club will hold a spoon match on the Government rifle range this afternoon, at which all members are requested to be present. The executive hope to see a large attendance.

GOLF

MISS MABEL THOMSON IS CHAMPION.

TORONTO, Sept. 28.—The finals in the championship, first consolation and second consolation and interprovincial match, under the auspices of the Royal Canadian Golf Association, were played today. The games between Miss Thomson of St. John and Miss Phipps of Hamilton, for the Canadian championship was the event which attracted most interest, and carried the largest gallery. The scores of these players counted in the interprovincial match, Miss Thomson playing for Quebec and Miss Phipps for Ontario.

FOOTBALL

MISS Phipps' LINEUP.

A double header in the local football league will be played this afternoon on the Victoria grounds. The first game is between the Marathons and Carleton, commencing at 2:30; the second, between the Beavers and St. Peter's, will commence after the first is concluded.

Table with 2 columns: Player Name, Position. Includes Carleton, Marathons, Beavers, and St. Peter's players.

PILES

Are brought on by Constipation and Constipation is cured by a weak stomach.

HERNER'S DYSPEPSIA CURE

restores the stomach to its normal condition and cures Constipation and piles. Price 35c. and \$1.00 per bottle at all druggists.

YESTERDAY'S BALL GAMES

Fast Time in the Halifax Races

Miss Thomson is Still Golf Champion

Football Today

Coll. Carters, Harrington, Mahoney, Waters, Doherty, Daley, Corr, Linton. Quarters: Blizard, Thorne, McElchairs, Agar, Brown, Gribble, J. Malcolm, DesBrisay, Coates, Linton. Dr. Malcolm will referee the first game, and H. P. S. Paisley will officiate in the second match. Waters and Burpee, who are playing with St. Peter's this year, were formerly with Carleton. They are both strong players and intended playing with the Carleton-Fairville aggregation, but when that proposal fell through they signed with St. Peter's, not knowing that Carleton would enter a team.

VICTORIAS V. ROTHESEY.

There will be a lively football game today between Victorias and Rothesey on the Rothesey grounds, beginning at three this afternoon. Two backboards will take out supporters of the Victorias besides the large numbers who are expected to go by train. The line up of the teams will be as follows:

Table with 2 columns: Player Name, Position. Includes Victorias and Rothesey players.

THE RANGE

RIFLE MATCH TODAY.

The St. John City Rifle Club will hold a spoon match on the Government rifle range this afternoon, at which all members are requested to be present.

LORD STRATHCONA SPEAKS AT ABERDEEN

He Remarks on the Difference Between European Universities and Those of New World

LONDON, Sept. 28.—At the Aberdeen University celebration, speaking at the conference of degrees, Lord Strathcona said the universities of the new world had something to learn from those of Europe in the direction of more solid attainment and higher standards in certain departments of study. He had watched closely the growth of one of the greatest universities in Canada, and was convinced the universities on the other side of the Atlantic enjoyed a considerable advantage in the case of Scotchmen mainly from their readiness with which, unhampered by venerable traditions, they could adapt themselves to the practical needs of the constituencies they served. They made training for citizenship and public usefulness the basis of their educational activity, their reward was that they found their alumni in every walk of life. Some of the most notable benefactions lately received by American universities came from men desirous of connecting them still more with practical life. As an illustration, he referred to Sir Wm. Macdonald's gift to McGill University.

Principal Peterson in extending greetings from Canada, said, as all were aware the British dominions beyond the seas were administered by Scotchmen mainly from Aberdeen. (Laughter.) He also acknowledged his indebtedness for the kindly way Aberdeen had received the Canadian students. When Principal Peterson, who presented the address from McGill came forward, the band played the "Maple Leaf."

GEN. BOOTH'S SCHEME

Proposed Great Colony of Poor People From English Towns Condemned by Swedish Paper

LONDON, Sept. 28.—The Gothenburg (Sweden) Aftonblad says that the plan of General Booth to secure great stretches of land in Canada and Australia for the poor people from the great English towns, has created a sensation not only as an act of great philanthropic importance, but also from the fact that those who know something about the previous efforts of the "Aftonblad" in the same direction, put little faith in the ultimate outcome of such an undertaking. It has been proved before that in Africa and Australia, the worst element among them—those not fitted to solve the problems of the country. Most of these colonists deserted their homesteads and went to live in the towns, just as they did at home. It is the emigrants from Europe who have upheld the prestige of the fittest element of such a kind as the new world rather than the ruffians from the centre of London and other great cities. Would it not, concludes the Aftonblad, be good for the Swedish authorities to keep a keen eye on the emigration question of the Salvation Army, at least as far as our country is concerned.

LORD STRATHCONA'S WONDERFUL VITALITY

IN THE PUBLIC EYE.

MONTREAL, Q., Sept. 28.—Star's London cable says—Those who refer to the newspaper reports of the enthusiastic and overwhelming success of Lord Strathcona as Chancellor of the Exchequer, they say that the King expressed his and the Queen's appreciation with quite unusual warmth. One special cause of astonishment was the vitality with which Lord Strathcona went through the successive ordeals, while the other elderly participants fell in the process, and where the eager undergrads set the pace. Strathcona, despite his 55 years, marched with the best. Replying to today's inquiry, he says he is in excellent health.

HUNGARIAN PEASANTS SOLD ALL THEIR GESE

VIENNA, Sept. 28.—The Budapest newspapers give accounts of an amusing adventure which has befallen the famous Hungarian prima donna Franciszek Palko, who is an ardent motorist, and always drives herself.

She is well known in all the villages of the neighborhood of Pesth, as she frequently succeeds in killing a few dogs and poultry on her fast run. Her latest exploit was to run into a great flock of geese in the village of Szepesvelly. She did not stop to inquire as to the extent of the damage done, but the villagers, knowing that she must return the same way, barricaded the roadway. When she came back she was unable to pass, and the villagers produced 140 dead geese, the owners of which presented bills at four shillings each. They said she had killed them all.

THE NEPTUNE ROWING CLUB WILL HOLD A FANCY DRESS CARNIVAL

AT ST. ANDREW'S ROLLAWAY, Monday Evening, Oct. 8th

Forty Dollars in Prizes. \$5.00 for Best Ladies' Fancy Costume, \$5.00 for Best Ladies' Original Costume, \$5.00 for Best Gents' Fancy Costume, \$5.00 for Best Gents' Original Costume, \$10.00 for Best Ladies' or Gents' or both. Combination.

An extra prize of \$10.00 will be given at the discretion of the judges. This prize may be awarded as a prize of \$10.00 to two \$5.00 prizes.

All skaters must be costumed and masked or "made up."

SIR THOMAS SHAUGHNESSY  
OPTIMISTIC ABOUT THE WEST

OTTAWA, Sept. 28.—"Nothing is too good for the West." This statement was made to your correspondent by Sir Thomas Shaughnessy of the C. P. R. westward trip over the C. P. R. system. "Everything in the West is prospering, and I see no prospect of a change from this condition. The wheat crop is as large as that of last year and of an exceptionally high quality. The farmers have had ideal weather in which to gather it and begin the shipping operations. While it is going to be difficult to move the crop as rapidly as we desire, we shall be able to cope with the situation. The serious problem in the West for railway companies, lumbering industries and all other business is the scarcity of labor. However, there should be an improvement after the harvest rush is over."  
Speaking of the settlement of the West, Sir Thomas said: "To the end of August 55,000 more people entered the West through our gateways from the United States and Great Britain than went in up to the same time last year. The new settlers are of an excellent class. "I believe there should be no relaxation of efforts to attract people to this country. The expenditure of the Dominion is small in comparison with the enormous advantages to Canada resulting from the great additions to the agricultural population. Take 20,000 families settling in the country and it will each bring an average of a thousand dollars. Families from the United States would bring more. You would have no less than \$20,000,000 brought into the country by these people. It would be a great mistake to reduce the expenditure for immigration."  
"Are you likely to make reductions in western freight rates will compare favorably with those of any other country in the world. The farmer in Canada West enjoys much better rates than his competitor in the United States. It is true the C. P. R. is making a good profit but that profit comes from the rapid growth of the volume

of business. I think every one is pretty well satisfied with our rates."  
"We have every reason to be optimistic about the construction of the Georgian Bay canal by the government?"  
"It should be very sorry to see the government do such a stupid thing. Construction of part of the system might be undertaken with advantage, but the day of canal competition with railways has pretty well passed because the cost of transportation by the railways is being so much reduced."  
"What about C. P. R. extensions and improvements in the West?"  
"In spite of the scarcity of labor we hope our line to Edmonton to be completed next year. We are doubling our line between Winnipeg and Fort William, a distance of 45 miles, involving an expenditure of \$3,000,000. A hundred miles of this will be finished this fall, and we expect to build 200 miles more by next fall. It will take another two years to complete the work."  
"What about other railway building for the future?"  
"We are always making plans, but we have nothing of a concrete form yet."  
"Are you satisfied with your trans-Atlantic passenger business?"  
"I cannot help thinking the direct connection we are able to give passengers from London to Yokohama or vice versa, landing them at either destination 22 days, is bound to give a considerable impetus to the business of the C. P. R. route."  
"Have you plans for the improvement of your Pacific coast service?"  
"We have very good boats on the Pacific, but the tendency of course will be to put on larger or master vessels."  
"I intend to do so if we can use that port and the harbor improvements are provided. Of course our steamships now carry the mails, and the government has a voice in fixing the ports of call. We shall either run to St. John and land the mails with the consent of the government, or else at Halifax and go on to St. John afterward."

DISCLOSURES BEFORE  
INSURANCE COMMISSION

Editor of Insurance Magazine Paid For Suggesting Amalgamation of Two Companies

TORONTO, Sept. 23.—A remarkable similarity between the methods of absorption of the People's by the Home Life Company was disclosed before the insurance commission this morning in connection with the transfer of the business of the Toronto Life Co. to the Union Life. The insurance commission proposed that the proposal for the transaction emanated from McPhillips, editor of the Insurance Magazine, who suggested the amalgamation of the two first named companies and received a commission of \$2,500. The Union Life paid nothing for the business taken over beyond what was paid the controlling interest in the capital stock. The reorganization of the directors followed and the company ceased business. The minority shareholders appealed to the courts and have been given an option of taking 60 per cent. for their stock in cash or 80 per cent. in debentures.  
An investigation into the Woodmen of the World was practically concluded. Commissioner Kent suggested that the prospectus issued by the company contained statements which deceived the prospective candidates. Hearing was adjourned till Monday.  
With a complete stock on hand, the seller has the problem of disposing of it. If he is sagacious, he takes the quickest and best road to accomplish this. He advertises his goods—J. Walter Thompson, N. Y.

For Family Colds

A reliable cough and cold cure should be always in the house ready for use the moment the first symptoms appear. It is always easier, cheaper and better to check a cold in its very beginning.  
It is safer, too.  
Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in Canada and the United States to-day are newer without it.  
A doctor writes: "Shiloh's Consumption Cure is without doubt the best remedy for Coughs and Colds on the market. I have used it, and will lay it on other—L. Elmer, Newburg, Ont."  
If it does not cure, you get back all it cost you. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell.

SHILOH

CLOSING DAY OF  
WOODSTOCK FAIR

Being Children's Day the Attendance Was Big—Grand Parade of Stock

WOODSTOCK, N. B., Sept. 28.—The closing day of the fair dawned bright and clear. Being children's day great things were anticipated and the turnout was a record breaker. The special train from the north brought 1,000 carloads of excursionists. Many hundreds drove in from the surrounding country and the grounds were crowded. Early in the day the grand parade of stock was held followed by the special exercises in connection with the school exhibit. The function was held at the driving park where the grand stand with a seating capacity of 1,600, was not capable of holding half the children and adults. School Inspector Meagher presided and introduced Principal Richards as the first speaker. He was followed by Warden Bailey after which Solicitor General Jones made an eloquent address. Chairman Bayles of the school board then publicly presented Ralph Allingham with the Snowball silver medal and also gave the pupils who won prizes at St. John for Eloy work the awards coming to them. The 67th Regiment band played several patriotic selections and some choruses were rendered under the direction of Prof. Moore. The big education exhibit was certainly the feature of the fair, and much credit is due Inspector Meagher, President Raymond, Principals Richards and A. C. Calder for their services in working up the interest all over the county. This afternoon there was a grand programme of field sports under the direction of P. E. Estabrook, in which many of the visiting pupils carried off handsome awards donated by enterprising townfolk. The consensus of opinion is that this has been the best fair the local people have ever put on, and certainly from a financial standpoint it has been a great success. Among the heavy prize winners might be named Robert Kidner and Judson Briggs of Wakefield, Warren Bull and George Sharp of Northampton, and J. P. Harper of Jacksonville. The first named won about a hundred dollars.

The annual joint meeting of the quarterly and trustee boards of the parish church was held in the presence of a large attendance at the services in the church on Sunday next at the regular hours, 11 a. m. and 7 p. m. It was also decided to have the Sunday school rally held in the church at 2.30 p. m. The pastor will conduct both services on Sunday.

CLASSIFIED ADS.

SITUATIONS VACANT-FEMALE

ASTHYZATED BY GAS

MONTREAL, Sept. 28.—John Criley, 40 years of age, was asphyxiated by the gas in his room, 114 St. Louis street, last night.  
The victim, who was a foreman in the employ of the C. P. R. Steamship Co., had been out spending the evening and returned to his boarding house shortly before midnight. Before retiring he went to Mrs. Gregoire (the landlady's) room and said "Good-bye." Criley had never taken the trouble to say good night before. When Mrs. Gregoire went up stairs at 6.30 a. m. she found the place full of gas, which seemed to be coming from Criley's room. The door was forced and the man was found dead in bed. The body was removed to the morgue, where an inquest will be held tomorrow morning.  
To cure headache in ten minutes use Kumfort Headache Powder, 10 cents.

MEMBERS OF KING. PETER'S FAMILY QUARREL. Crown Prince Will Not be Seen With His Sister—The King is Not Hearing Much These Days.

BELGRADE, Sept. 23.—The tales of dissension in King Peter's family, published in the German newspapers, have, unfortunately, a foundation in fact. This is the main cause of the prince's antagonism to his father, who is closely attached to his daughter, and makes her his constant companion. The question of precedence decided by the king in favor of Princess Helen.

BRANDRAM HENDERSON, LTD. OTTAWA, Ont., Sept. 23.—J. R. Henderson, H. B. Strain, Charles H. Potts and James Heenan of Halifax have been incorporated as Brandram Henderson, Ltd., with a million and three-quarters capital and head office in Montreal. The company is given authority to take over the business of Henderson and Potts and of Brandram Brog, both paint makers, and to engage in paint manufacturing.

Business is like unto a clock. The store's face, the clerks are the hands, the key's advertising. Without a regular use of the key the whole running system becomes disordered, disorganized, rusty, useless.—H. M. Hill, Boston.

FOR SALE! Sloven, in first-class condition, (newly painted), or exchange for a light gear pull wagon. A. E. HAMILTON, Contractor, Brussels Street. Phone 1628.

FRESH MILK. Our milk and cream is cooled as soon as milked, by patent coolers, so that the animal heat is driven out at once, thereby improving the keeping qualities. Try some for whipping.

Sussex Milk & Cream Co. Phone 682 158 Pond St.

SMOOTHING THE WAY FOR A PEACEABLE SESSION. The relations with the royal family of Italy are no longer so cordial as they were last year. Queen Elena has not extended the invitation to King Peter's family to visit her at Rakonitz, which Princess Helen had hoped, and which it is reported, had been promised to her by her aunt. King Peter's deafness increases, and he is more despondent in manner.

CONSTANTINOPLE, Sept. 23.—The Sultan has sent Selim Mehmed, one of his secretaries, on a secret mission to the diplomatic chancelleries of several European powers. The object of the mission is to give information in connection with the question of succession to the throne. The envoy is to point out the great danger of supporting the candidature of either Ischid, the present sultan's oldest nephew, or Jusouff Izedin (eldest son of the Sultan Abdul Aziz), who are Libanians. He is also to point out that the candidature of Burhan Eddine, his majesty's third son, is alone desirable in order to prevent revolutionary complications.

EIGHTY YEARS OLD, BURNED TO DEATH

TORONTO, Sept. 28.—Mrs. Anne Irvin was burned to death in her cottage, Sullivan township, twelve miles from Owen Sound, early Wednesday morning. The fire was not noticed by the neighbors, and the charred skull and a few bones were all that was found among the smouldering ruins next morning. Mrs. Irvin was over 80 years of age and her husband died about fifteen years ago. She lived with her son, Andrew Irvin, on the homestead till eight years ago. She and her son's wife did not agree very well, so he built his mother a cottage on another part of the farm. News of the tragedy only leaked out today.

SULTAN'S SUBJECTS SEEK AID FROM THE KAISER

Berlin, Sept. 28.—Much attention is being bestowed here on a venerable Turk, seventy years of age, who is parading the street waiting for a favorable opportunity to present a petition to the Kaiser. His name is Hussein Aga, and he is a sawyer by trade. Some years ago he wished to build a sawmill at home, but as the mill would cost \$2,500 he was obliged to borrow. His first thoughts were of the Sultan, who is said to help needy persons like Hussein out of his privy purse. He wrote to the Padishah, but his petition fell into the hands of Izzet Bey, described as Controller of the Sultan's Prayer Carpets. Izzet Bey communicated to Hussein his personal readiness to lend the necessary money, and Hussein, overjoyed at the anxiety of this wicked world, agreed. Then began Hussein's downfall. Izzet Bey gradually possessed himself of all Hussein's belongings, including, of course, the sawmill. Hussein sought redress, but found none, and at last determined to come to Berlin. He had heard of the Kaiser's friendship for the Sultan, and even to his remote home the fame of Germany's ruler had penetrated. His petition to the Kaiser has been delivered, and Berlin is now waiting for developments.

If a business man will consider advertising as necessary to him as steam is to the engineer, and then study until he is able to compound it scientifically, he will find it a power which will make it unnecessary for him to economize.—Edith R. Gerry, Selge-Cooper Co., N. Y.

COMPANY SENTENCED

MONTREAL, Sept. 23.—At the opening of the criminal court this morning Judge Laverge pronounced sentence on the D. E. Martin Company, what at the March term pleaded guilty to public nuisance, sentence being deferred to enable the company to make certain improvements. The court condemned the company in a fine of \$1,000 and suspends sentence.

**McNAMARA BROS.,**  
65 Chesley Street.

**"ROD AND GUN" HUNTING NUMBER.**  
"A hunting we will get" is now the thought, if not the cry, of every sportsman longing for experiences and adventures in the cool woods. Just in the nick of time comes the "Rod and Gun" number, devoted primarily to hunting, of "Rod and Gun and Motor Sports in Canada," published by W. J. Taylor, at Woodstock, Ont., which gives the sportsman just the reading matter he wants, and increases his desire to be affixed.

This number ought to be the companion and friend of every hunter this fall. "Scientific Deer Hunting" by Dr. Franklin Hawley, and "In the Woods with Indian Guides," by Mr. C. C. Farr, would alone render any number notable, but there are a dozen hunting stories in addition, several fishing stories, and papers concerning all parts of Canada. The fine illustrated accounts of the qualification climb for the membership of the Alpine Club of Canada, and of the convention of the Ontario Fish and Game Protective Association add interest to an excellent number, and give a variety calculated to meet all tastes. Boating, automobile, sporting items, and trap shooting, are dealt with at generous length, and show how thoroughly this magazine fits the field of the representative Canadian man of sport and outdoor life. No sportsman should be without it, and its pages known to the world is one deserving of sympathy, encouragement and help of every Canadian.

If there is one fact about advertising that is well established, it is that its effect is cumulative.—Printers' Ink.

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (Ltd.) at St. John, New Brunswick, every afternoon, (except Sunday) at \$3.00 a year.

**ST. JOHN STAR.**  
ST. JOHN, N. B. SEPT. 29, 1906.

**SCHOOL BOOKS.**

The school book commission now hearing evidence in Toronto has succeeded in bringing out the fact, apparent long ago to every man and woman with children attending public schools, that the text books in common use are made to be destroyed. Evidence of expert printers and binders has shown that in the readers and certain other books the paper used is poorer than is called for under the contract. According to specifications paper containing twenty-five per cent. of rags to seventy-five per cent. of wood sulphide should be used, but tests have proven that the rags have been left out, and the result is a paper of much poorer quality. The publishers have in certain cases used wire for binding, and the other materials have been chosen with an eye to cheapness, and of course increased profits. The public pay the bills. Books which if properly bound and made of good material should last for years, go to pieces in six months, and the children are consigned because of the dishonesty of the manufacturers. It has been found that the paper in English text books stands the acid test perfectly, while the Canadian products turn yellow. The adoption of cheap materials has given the publishers at least thirty per cent. additional profit.

These same text books, or many of them are used in New Brunswick, and at this particular time of year there is complaint in every household over the expenditure necessary to properly equip the children for their studies. Few families in which there are two or three children attending school escape with less than ten dollars a year. In the lower grades the outlay is comparatively small, but as the pupil advances the cost increases, and by the time the high school is reached the amount required for all the books needed is enough to worry any parent. In this city, and considering the ordinary progress of pupils, the eighth grade may be taken as a fair average to show the expenditure. In this grade the books called for during the present school year, along with the prices, are as follows:

Todhunter's Algebra	75
Kennedy and O'Hearn's Arithmetic	15
Gage Reader No. 4	50
Melickjohn's Grammar	1.25
Gage Speller	30
Writing Copy-book	50
Robinson and Carruthers' Latin	1.00
Gage Geography	30
British and Canadian History	30
Gage Health Reader	30
Literature—Evangeline	35
Scribblers	50
Total	\$8.33

In addition to this there will be a small outlay for pencils, pens, ink, etc., but this is hardly worth considering. This amount, remember, is for one child only. The books purchased this year for Mary will not be good next summer for John, even if he follows his sister to grade eight. Some of them may be, but the majority will have gone to pieces, due to childish carelessness in the handling of cheap material. Many will have to be replaced, and meanwhile Mary has moved to another grade where a new supply will be required.

It is simply outrageous that such should be the case. The books are too dear, and the system under which they are supplied is about the worst possible. There are homes in St. John, as well as in most other places, in which whole cases of text books are stored away for absolutely no use, the children now attending school, because new publications have been adopted.

In the city of Hamilton such a grievance as this does not exist, while in Toronto the most remarkably creditable results have been attained through departmental ownership of text books. In Hamilton the books are all supplied by the school board. A fee of ten cents per month in the lower grades and twenty cents per month in the higher grades is charged each pupil, the maximum payment being thus two dollars per year. Under this system after keeping up the supply of new books and re-binding those that have become damaged, there remains an annual profit of between three thousand and four thousand dollars which is devoted to the general fund, thus reducing the assessment for school purposes.

In Toronto books are furnished absolutely free. J. L. Hughes, well known in St. John, has been giving the commission some facts on the working of the system. Mr. Hughes showed that since the introduction of free text books in 1892 the average annual expenditure had been \$181, which, divided among 20,834 pupils meant a cost per scholar of ten and three-quarter cents per annum. In addition to this, supplies which include manual training material, copy books, scribblers, slates, pencils, pens, ink, etc., amounted to thirteen and a half cents per pupil, so that the total annual cost is less than twenty-five cents. In St. John it is forty times as much. In all of these calculations allowance has been made for interest on the initial expenditure.

Members of the board of school trustees in this city are men and women of every cent may be spent to the best advantage, they can scarcely realize what sacrifices must be made in some homes in order that the thoughtless children shall be given a fair start in the world. If they could, it would not be long before a system similar to that in Hamilton or Toronto was adopted here.

### THE BOARD OF WORKS.

Ald. McGoldrick, complaining of Engineer Shewen's decision to have no more fooling with the board of works, says that if the communications which the board has already had with Mr. Shewen had been in writing it would have kept four stenographers busy. No doubt. Most citizens have held the opinion that the work of the board was all wind.

"It would have been better if the city had had nothing to do with the government and the government engineer, but had spent it own money."—Board of Works report.

No complaint can be made of the freedom with which the city is spending money.

Ald. McGoldrick—"If a public meeting was held the people of St. John would be found in favor of obtaining a dredge."

If Ald. McGoldrick is not afraid, let him call a public meeting and prove his words. There is a bare possibility that he may be wrong.

Ald. Baxter—"There seems to be a state of panic at the present time, perhaps due in part to press comments, giving the impression outside that the situation is in a muddle and the aldermen incapable of dealing with it."

True as gospel, and is this not the case?

Ald. McGoldrick has found light at last, as witness: "I want all the business put in the papers. The meetings of this board are going to be open. If they had been so last week the whole matter would have been settled now."

"Ald. Lewis is opposed to buying the Bothwell, which dredge he considers good material for a junk yard."

Many citizens will take a long chance and agree with Ald. Lewis in this opinion.

**TRAMPING ALONG THE TRAIL.**  
Gas, Ledy Peignot, in Recreation! What we trample on, and what do we see.

Tramping along the trail?  
Into the depths of the woodland and wold.  
Far from our home in the wind and the cold.  
Tramping along the trail.

Lo! it is pleasure, not hardship, to me  
Tramping along the trail!  
Work? Not a bit; but it's rattling good fun.  
Off with a cook and a guide and a gun—  
Tramping along the trail.

Who is there so care-free and happy as we  
Tramping along the trail!  
Marking our course by a blaze on a tree,  
Afar where the wandering winds are free—  
Tramping along the trail!

**MUST HAVE WORK.**  
"Yes, but if I do youah laundry work, ma'am, I must have an undarstandin' dat my husband collects de pay."

"But why can't you collect it yourself, Mandat?"  
"Yes, ma'am, I don't want to rob de 'ol' man of de only job he's eveh likely to get."

**A LONG SPOON.**  
Over the door of an inn at Woolwich on the Thames, according to Punch, hangs this tempting sign—"Try our famous 'Long Spoon' wine. Once drunk, always drunk."

**ONLY WHAT SHE WAS PAID FOR.**  
Missus—But, Kathi, that clock goes for a week; you must wind it up more than that.  
Maid—Yes, ma'am, but I won't, I am leaving home, and I won't do the new clock's work.

**TRUE POPULARITY.**  
"He's a popular poet."  
"Dear me! Why, I thought he hadn't written anything for years."  
"He hasn't; that's why he's so popular!"

**NEXT.**  
"The bustard has a pouch under his chin so capacious as to contain six or seven quarts of water. When suddenly attacked, and with no time for escape, he will turn on his enemies, a violent stream from his natural reservoir."—Woodstock Press.

### SATURDAY SERMONETTE.

#### CONSISTENCY.

The rarest and in the world is consistency. A great many people think they are consistent when they are only mulish. Because they took a certain position yesterday they stick to that when the conditions have changed and to be consistent they should change their position. Harold would have been consistent had he broken his oath.

We are continually contradicting ourselves. We are economical in some things and wasteful in others. We condemn others for doing certain things and we do worse things.

I cannot see the logic of condemning Rockefeller for doing on a larger scale what his detractors are doing in a smaller way. Monopolists drive the weak to the wall, close up all small factories and stores and yet I have not found the store that does not try to monopolize the trade. The old apple duman on one corner tries to drive all the trade from the old woman on the other corner.

Some churches preach brotherly love (toward the religious activity of) and yet some of them will do all they can to get up a "corner" in sinners by smiting them if they are rich to their own church when they rightfully belong to another.

One of the most inconsistent things I know about is to fine a man—or jail him—for getting drunk on licensed rum. License a man to do a certain thing and then punish the man who assists in that work! Why not license a man to get drunk? "Consistency thou art a jewel!"

Why do we rob ourselves in blackness when we profess to believe that our friends have gone to a land of brightness?

Why do we burden ourselves—buying expensive mourning because our friends have gone to heaven? And then why do we take it off after one year? "How have we forgotten our friend? Be consistent and if you put it on, put it on—to the end, or until you have forgotten a soul!"

A young widow coquetting and flirting for her second time with her first husband in mourning for her first husband is not a very bright level of consistency in that, is there?

Why cannot we be honest with ourselves and say that we dare not offend Mrs. Grundy. If we only had the courage to do what we believe is right; we would only wear mourning for those whose lives have gone into blackness.

How consistent the world is when it condemns the sin and perjury of a young girl who swears to love and be true to the old man she has married for money, and then stonies the girl who sells her body (perhaps for bread) who does not spare herself, for she makes no pledge.

"Consistency thou art a jewel!"  
THADDEUS.

**CHINESE SIGNBOARD FILLED WITH OPIUM.**  
Bangkok Customs Officials Discover an Ingenious Attempt at Smuggling.

**HONG KONG, Sept. 29.**—A Chinaman whose principal baggage consisted of a signboard of portonous size and weight arrived at Bangkok from Hong Kong recently.

Never before was such a signboard brought to Bangkok. The customs officers set around and admitted it, discussing it from every point of view. They even went so far as to bore a small hole in it.

This led them to obtain other tools with the result that it was found to be hollow wood, but constructed of thin boards back and front, cunningly joined to a square frame.

**BEGGING FUNDS FOR CANADIAN CHURCHES.**  
Bishop Montgomery and Rev. Mr. Mullins

Come to Canada to Find Out Needs.

**LONDON, Sept. 27.**—In order to stimulate the charity of British churches toward the religious activity of outlying parts of Canada, Bishop Montgomery, secretary of the Society for the Propagation of the Gospel, and the Colonial Continental Society, have been deputed to visit Canada and churches throughout the country, which the Canadian churches now leave untouched.

The ultimate object is to raise \$10,000 from the British religious public for the assistance of church work in the Northwest of Canada.

The means adopted will be a series of public meetings, advertising that "every day's paper proclaims Canada's superabundant prosperity. Canadian churches should remain dependent upon the already overburdened church of the people of the Mother Land."

**WORK AT DIFFERENT PROVINCIAL COAL MINES.**  
New Shafts and Railway Slidings Being Constructed—Coal Trade is Quiet.

The retail coal trade has been somewhat dull here during the past few days, but the dealers think that business will brighten up shortly. A number of changes have been made this fall at the different provincial coal mines. At Grand Lake a number of mine owners have sunk shafts, and a new railway siding is at present being built near Minto. The Minto Coal Co. has had a new track laid from their mines at River Hebert to Macan. This will enable the company to ship over the I. C. R. instead of by water, as has previously been done.

Advice received from New York this morning state that the coal trade there is quite dull, but with the advent of cooler weather a brisk business is anticipated. The prices at present prevailing here are: Scotch coal, \$6.50 to \$7.00; American hard coal, \$6.25 to \$6.50; soft coal, \$5.50 to \$7.00.

**EXHIBITION BUILDINGS BURNED.**  
BRADFORD, Ont., Sept. 28.—This morning fire destroyed the large exhibition building and grand stand owned by the Bradford Agricultural Society.

**MOVING PICTURES.**  
The Dominion Moving Picture Company, under the direction of Myer Cohen and Leonard J. Mack, both well known men in the province, having just successfully closed a tour, showing San Francisco earthquake pictures, will bring a return engagement at the St. John Opera House Monday evening, next. On Tuesday, the actual pictures, will be shown on Wednesday evening. The subjects will be of the utmost interest, such as "Around New York in 15 minutes," "From Christiania to the North Cape," "These will be the sight seeing parts of the programme." Travelling pictures are always interesting for one can sit in a comfortable orchestra chair and view the actual scenes in the shopping districts, the elevated railways, Dead Man's Curve at 14th street, Tiffany's jewelry store, Brooklyn bridge, the shopping districts, etc. The different places will be pointed out and explained by Mr. Leonard J. Mack, who appeared here before with the earthquake pictures. From Christiania to the North Cape is one of the prettiest travelling pictures ever seen.

The sensational part of the programme shows a picture entitled "The Black Hand," showing a Black Hand Canada, and this morning called upon Hon. Frank Oliver, Col. Lambie and General Howell, head of the Army Immigration business in this country.

They have just completed a month's tour among the seventeen thousand people they have settled in Western Canada, and this morning called upon Hon. Frank Oliver, Col. Lambie and General Howell, head of the Army Immigration business in this country.

ST. JOHN STAR. SATURDAY'S SPECIAL SUPPLEMENT.

ST. JOHN, N. B., SATURDAY, SEPTEMBER 29, 1906.

EASTERN TROUBLES NOT ENDED YET

Japan's Policy in Manchuria is Harshly Criticized.

The Japs are Finding that Strength Lies in Commerce—Unfair Treatment of Other Nations.

ST. PETERSBURG, Sept. 28.—Reports received here indicate that it is only a question of time before another war in the Far East occurs. In fact, ever since the conclusion of the Russo-Japanese war...

Much has been written and said concerning the commercial dishonesty of the Japanese. Much more could be written and said upon this subject. But if one half of the reports received here are true, the white race will wake up to discover that as a race it has been outwitted and outgeneralized by the yellow race.

In the treaty ports of the Far East millions of tons worth of piece-goods and other merchandise lie rotting in the godowns, while men who but 20 months ago were in a state of affluence now haunt the clubs and "dams" of the Japanese.

The contempt with which the Japanese military and ruling castes formerly regarded commerce has now vanished. They now recognize that trade provides these shrews of war of which they stand in so great a need during their first effort toward securing supremacy in the Far East.

A PARTY OF RUSSIAN CONVICTS STARTING FROM ST. PETERSBURG FOR SIBERIA

ST. PETERSBURG, Sept. 28.—The news that all the prisoners and even the military barracks in this city are crowded with prisoners, the authorities have found it necessary to deport an unusually large number of people to Siberia, in spite of the Czar's recent declaration that it was to be used only for criminals.

KING ALFONSO AND QUEEN VICTORIA AMONG THE ENTHUSIASTIC HUNTERS ON THE SCOTTISH MOORS.

The King in his element

Women shoot Grouse on Scottish Moors.

Lord Keith of Fyvie.

Now is the season for shooting on the Scottish moors and thousands of visitors of every class are enjoying this sport.

Grouse and other birds are more than usually plentiful this year and the guests at the different hunting lodges have no reason to complain of poor luck.

There are many ladies among the visitors and in former years one of the most enthusiastic was Princess Ena, now Queen Victoria of Spain.

She and King Alfonso have enjoyed many happy hours as guests of Lord Keith, of Fyvie, one of the finest hunting districts in all Scotland.

WILL HONOR THE MAN WHO DISCOVERED MAUVE

Sir William Perkin Coming to America to Receive Practical Recognition by Chemists.

LONDON, Sept. 28.—Sir William Perkin, F. R. S., accompanied by Lady Perkin and his daughters, have sailed for the United States to receive a public tribute from Americans for the great service which he has rendered to chemical industry and science.

A CORNER IN CHEESE

LONDON, Sept. 28.—"The Grocer," one of the representative trade papers of London, is authority for the statement that one result of the revelations concerning American preserved meats has been the organization of a corner in cheese.

WAYS THAT ARE DARK AND TRICKS THAT ARE VAIN

SHANGHAI, Sept. 28.—A correspondent of the "North China Herald" describes how the Kuangchi mandarin tested the virtue of his watchmen.

Dressing himself poorly to represent a thief, the mandarin left his yamen at night. At one gate the watchman refused to let him pass, so he gave him a bribe and was allowed to go through.

CLAIMS HE HAS FOUND THE CANCER BACILLUS

BERLIN, Sept. 28.—The "Lokalanzeiger" announces that Dr. Otto Schmidt of Cologne, claims to have discovered the cancer fungus.

The transmission of germs from fungus to animals has, the doctor says, produced immediate typical cancer. He believes that the bacillus is the same in human as in animal cancer, and that his discoveries are the first steps to a definite serum cure for cancer.

PICTURE OF THE RESIDENCE OF M. STOLYPIN WHICH WAS DESTROYED BY EXPLOSION.

ST. PETERSBURG, Sept. 28.—This is the first photograph published of the exterior of the villa of M. Stolypin, the prime minister, which was almost totally destroyed by revolutionists on the 25th of August.

The villa is situated on an island in the Alver Neva, about two miles from the winter palace. The photograph shows the terrible strength of the explosives used by the revolutionists.

PLAYED A JOKE ON THE GRAND DUKE

Paul of Russia is Now Living in Paris

And Recently a Fake Bomb Was Discovered in His Residence—Trouble Among His Servants.

(By Arthur W. L'Amoureux.) PARIS, Sept. 28.—There has just been a pretty commotion at the Villa des Lys, near Saint Cloud, where the Grand Duke Paul of Russia is staying. He took up his abode there a few weeks ago with a strong contingent of servants, half of whom hailed from his own country and half natives of France.

MARCONI WANTS TO CONTROL THE AIR

And at the Coming Conference it is Expected There Will be a Lively Time Over Wireless Work.

BERLIN, Sept. 28.—The international wireless congress in Berlin in October will be the scene of a bitter diplomatic struggle with Germany and England arrayed as chief antagonists.

The Germans expect the English government's delegates to make a strenuous fight against any regulations which seek to curtail the Marconi monopoly. The Germans will contend for the "open door" in the world of wireless communication, which, it is asserted here, the Marconi interests are determined to nullify.

## SEAMEN'S INSTITUTE A GREAT SUCCESS

Manager Gorbell Submits Exhaustive Report on the Work Done—Money Wanted for New Building

At the regular quarterly meeting of the Board of Management of the Seamen's Mission Society, held last evening, Manager Gorbell submitted his report. He attributed the wonderful popularity of the society to the great interest shown in the work by the prominent citizens, and to the fact that the glad hand was always extended to all who came. Reference was made to a recent visit to the rooms by Madison Edwards, manager of Vineyard Haven. Mr. Edwards asked the men present that evening what drew them to this building when it was so far out of the way and difficult of access. The answer was that there was a magnet in the shape of the hearty and homelike reception which they received.  
Mr. Gorbell mentioned that the following subscriptions have been pledged towards the new building fund: Lord Strathcona, \$1,000; Jas. F. Robertson, \$200; B. S. Clouston, \$100. In this connection Mr. Gorbell paid an eloquent tribute to the toilers of the sea, from Champlain and Jacques Cartier down. He did not mention them all individually, however, much to the relief of those present. Mr. Gorbell thought that all Canadians should be glad to aid such. The details of the work were given in great and interesting detail. Mr. Gorbell's tremendous industry if nothing more.

## EQUINE WAS NOT A GASTRONOMIC SUCCESS

Hence Hiram Alward, Wants His Money Back From Arthur Crandall, the Vendor

The case of Alward v. Crandall was begun before Justice Mason at Fairville yesterday afternoon. Both parties to the suit are great representatives of the plaintiff purchased from the defendant. He alleges that the defendant made false representations concerning the horse, hence the suit. A jury was empaneled consisting of Robert Lawson, James Mills and Wm. A. Reed. The evidence of Hiram Alward, of Strait Shore, the plaintiff in the case, occupied the morning session. He testified that he had purchased the horse upon Mr. Crandall's guarantee that the animal was a strong working horse and a good feeder. He found the horse to be a "dummy" and he took it back to his former owner, who refused to receive it. He left it in the latter's barn, however, and came away. He had paid \$70 cash and given a note for \$10. He was suing for the recovery of this amount.  
In the afternoon three other witnesses were examined, including the plaintiff's wife and son.  
The case was adjourned at 5 p. m. until Thursday. It is quite probable the case will take more than another day, as the plaintiff still has another witness to examine and the defendant will put several on the stand.

## GOVERNMENT WANTS TO AID STRICKEN TOWN

TORONTO, Sept. 28.—Lundy avenue park was sold today to the Dominion Park Co. of Montreal for \$150,000. The deal was put through by Fred Elphinstone, a contractor, and by H. A. Dorsey, president of the park company, who has been in the city since Monday. The park will be made an amusement resort, a sort of Coney Island, and an entrance fee is likely to be charged.  
A large amount of money will be spent in fitting it up. The Ontario government has instructed the Commission and Northern Ontario railway to convey free of charge all lumber and tools required in the rebuilding of Hallowbury, the new Ontario town which was recently practically destroyed by fire. The question of free conveyance of other material and general supplies needed for the same purpose will be decided upon later.

Human Hearts drew a large crowd at the Opera House last night. The scene is laid in Arkansas and the characters are typical westerners. The cast was strong and well balanced. Frank P. Woods gave a fine portrayal of the part of Tom Logan, the young blacksmith who, though innocent, is sentenced to life imprisonment for the murder of his father, James O'Neill as Frederick Amesdale, the murderer, made an excellent villain, being repeatedly hushed by the gallery. Baby Blanche as little Grace Logan was a wonder for so young a child. Frances Francis as Jeanette Logan, Confidence Jen, is a very clever actress, handling her rather difficult part in a very creditable manner. W. J. Thomas as Jimmy Logan, the foolish brother, and Mrs. Maurice as Samantha Logan, the blind mother, and W. J. Sully as Jim Mason, the tramp were also worthy of mention.  
OTTAWA, Sept. 28.—Civil service examinations will be held in St. John, Halifax and Charlottetown, November 21th.

## CITY WILL BUY DREDGE IF GOVERNMENT DOES NOT

Mayor Sears and T. H. Estabrooks Will Leave This Evening for Ottawa to Interview Hon. Mr. Hyman—Seriousness of the Situation Discussed by Members of the Board of Trade—Mr. Shewan Cuts Off Connection With Board of Works.

The board of works at a lengthy meeting yesterday afternoon discussed the serious situation at length. Representatives of the Board of Trade were also on hand. Mayor Sears and T. H. Estabrooks will leave this evening for Ottawa while the council meeting will be postponed until his workshop's return. The board was informed from soundings of Mr. Clark, confirmed by Director Cushing, that considerable work still remained to be done on the site of the first crib.  
The following were present at the meeting: Ald. McGoldrick, president; Ald. Lewis, Tilley, Holder, Sprout, McGoldrick, Christie, Bullock, Baxter, Rowan, Yawward, Engineer Peters, Mayor Sears, Director Cushing, H. B. Schofield and W. P. Hatheway.  
Ald. McGoldrick said that he had called the board together in regard to the dredging. "You are aware," he said, "that we were of the opinion that the site was ready yesterday, but upon soundings being taken by Mr. Clark the site was found a long distance off from being ready and the boulder which the contractor had found before still remained. The aldermen, he said, were striving to do their best for the city's interests, but were "hard up against the game." The committee of the board had seen so active, had been down so often to see Government Engineer Shewan that that gentleman had now sent the mayor a communication trying to get rid of them. In fact he would have nothing more to do with the board works, said the chairman, asked that in future any communications between the city and his office should be through the mayor.  
Ald. McGoldrick, continuing, said that the mayor was not a member of the board of works and therefore Mr. Shewan decisively cut off further communication. Notwithstanding all the criticism made of them, said the alderman, so energetic have they been that if the communication which they have now received from Mr. Shewan should have been in writing, it would it would have kept four stenographers busy copying it.  
It would have been better, said Ald. McGoldrick, if the city had had nothing to do with the government engineer, but had spent their own good money. As it is, the crib site is not ready and Sand Point won't be dragged unless we buy the dredge ourselves.  
Ald. McGoldrick said further that the city's representative, Captain Ferris, is now in Boston and read the communications from him in regard to the Boston dredge and the Bothwell. The latter, the harbor master wrote, is now doing good work and in the purchase price of \$22,000 there is a deposit of \$5,000 in length.  
Ald. Bullock—The government says there is nothing in their estimates which would permit their purchasing a dredge. Have anything in ours?  
Ald. McGoldrick—If a public meeting was held the people of St. John would be found in favor of obtaining a dredge.  
Ald. Bullock—We want a dredge, but we don't want to buy one.  
Ald. McGoldrick—Perhaps you could get one.  
Ald. Bullock—Yes.  
Ald. McGoldrick—Why didn't you say so long ago. You have been to the meetings before.  
Mayor Sears said that Engineer Shewan did not mean disrespect to the board. The engineer thought, and he agreed with him, that it would save trouble and annoyance to both parties if all communications were through the one channel. Mayor Sears spoke in favor of sending the delegation to the board. Besides the dredging there was the proposed change in the steamship sailings and other matters which would be so advisable to consult with the government about. Speaking again about Mr. Shewan, he said that the engineer was a painstaking official. Ald. McGoldrick said that he did not want to make any slur upon Mr. Shewan. It was impossible, however, to have any further communication between him and the board of works. The alderman said he hoped in future the blame for delays would be put on the right shoulders.  
Mayor Sears said there was no doubt that the board were indefatigable in their efforts.  
Ald. Bullock thought it would have been better if the delegation had gone last night. If it was possible for them to do anything the sooner they reached Ottawa the better it would be. There were other matters which might also be brought to the attention of the government, and he thought it the better for the city's interests the closer the council kept in touch with Ottawa, as we have no representatives in the government.  
Ald. Christie—We have two.  
Ald. McGoldrick—Oh, they are not in the game.  
Ald. Tilley favored a delegation. The Mayor contract came within eighty feet of Sand Point and the delegation might urge on the government to let the dredge do the work right up to Sand Point. The city dredge would probably be in the meantime have completed half the work.  
Ald. Lewis was opposed to buying good material for a junk yard. A proper dredge would cost \$75,000. He would not trust Capt. Ferris to make the purchase, but would consult through mechanics.  
Ald. McGoldrick—We would send experts to test the dredge before making a purchase.  
Ald. Baxter said that he favored a delegation and was sorry that Ald. McGoldrick did not feel that he could leave at this critical time. The delegation could see Hon. Mr. Hyman and straighten matters out. There seems, he said, to be a state of panic at the present time, perhaps due in part to

## CLOTHING FOR MEN AND WOMEN! Fashions and Prices Correct.

**MEN'S OVERCOATS—**  
Canadian Beaver and Frieze, \$6.50 to \$8.50

Walker, Toronto 25.00 John O'Regan 25.00 Emerson & Fisher 25.00 Manchester, Robertson, Allison, Ltd. 100.00 Total \$391.00

If reports can be taken as true, the Neptune Club carnival at St. Andrew's Rollway on Monday night, Oct. 8th, will be the biggest event of its kind held here in years. The club's friends have stood by them in former events, and they are doing the same this time, as they are determined to make the carnival a success, both artistically and financially. A number of lady friends of the club are preparing costumes, the cost of which will not be covered by the prizes offered, but the honor of winning a prize will be sufficient. There are also a number of combinations being made, and these are sure to prove both interesting and novel. Intending patrons will please remember that tickets can be procured from members of the club, none are on sale at the rink. Rev. A. B. Cohoe will preach at the morning service tomorrow in the Ludlow street Baptist Church, West End.

DEATHS.

J. N. HARVEY, Tailoring and Outfitter, Opera House Block.

DISASTROUS WRECK ON PENNSYLVANIA ROAD

Fast Express Trains Collide, Several Persons Killed and Many Others Injured.

PHILADELPHIA, Sept. 23.—The express train on the Pennsylvania railroad, which left New York at 7.30 a. m. today, ran into the rear of Trenton express for Philadelphia at Edgington, Pa., nineteen miles north of this city. A report is to the effect that four or five persons were killed and 15 or 20 injured.

The wrecked train was the Long Branch express for Philadelphia. It had stopped a few hundred yards north of the Edgington station to repair damage to the brakes, and while it was standing there the New York express crashed into the rear, the engine ploughing its way through the rear coach of the Long Branch train. The car next to the rear coach was crushed and the other coaches were crippled.

Two passengers were killed outright, one of them a woman, another died soon after being taken out of the wreck, and one or two others are reported dead. Nothing else can be learned positively regarding the number injured.

PHILADELPHIA, Pa., Sept. 23.—A special train with some of Philadelphia arrived at West Philadelphia station at 11.05 o'clock. The train was immediately transferred to the waiting ambulances and hurried to various hospitals in the vicinity.

HANDSOME PARLOR SUITS.

A visit to the furniture warehouses of Amland Bros., Ltd., Waterloo St., will amply repay those who are about to purchase a new parlor suite, as they have a beautiful assortment of the latest styles in parlor suits in ray silk, brocade silk and velours, and were all made on their own premises by skillful workmen. They also carry a beautiful selection of the chairs, bed lounges, Morris chairs, easy chairs, fancy odd pieces or furniture for the parlor. See adv.

COMMERCIAL.

ROYAL BANK ACTIVE THROUGH WEST. The Royal Bank of Canada, which recently started an invasion of the provinces of Manitoba, Saskatchewan and Alberta, opening a branch in Winnipeg, announced today that arrangements have been concluded by which the Royal Bank will at once erect a second branch bank in the town of Westmount.

The Royal was the first bank to locate in the Western suburb, and has chosen for its second branch the north-east corner of Sherbrook street and Victoria Avenue. A handsome building of Roman stone will be started at once which will cost in the neighborhood of \$25,000.

The building will be ready for occupation May 1 next.

Winnipeg Message: "Country stocks piling up and movement greatly hampered by car shortage. About 3,000,000 bushels on track between Winnipeg and Fort William. Bridge accident on the Canadian Northern near Fort Arthur has tied up that road for a week, but damage now repaired, and wheat will soon begin to move freely. Whole country is howling for cars.

OVER \$4,000,000 IN DIVIDENDS.

October will be a big month for dividends in Canada, and over \$4,000,000 will be paid out by the companies listed on the Montreal Exchange. The October dividends list follows:

Table with 2 columns: Company Name and Dividend Amount. Includes Halifax Tram, Sao Paulo, Toronto Railway, Winnipeg Electric, etc.

Semi-Annual Dividends.

Table with 2 columns: Company Name and Dividend Amount. Includes Canadian Pacific, Can. North-West Land, Western Bank, etc.

NEW YORK BANK STATEMENT.

Saturday, Sept. 23, 1906.—Reserves on all deposits inc. \$24,425,110; reserve on U. S. inc. \$1,612,525; loans inc. \$7,250,200; legal tenders inc. \$1,135,200; specie inc. \$2,790,000; deposits inc. \$10,907,200; circulation inc. \$488,300.

WALL STREET.

NEW YORK, Sept. 23.—Yesterday's late bulge in the stock market attracted heavy realizing sales this morning, and prices fell sharply throughout the list. There were running sales of 7,000 shares of United States steel at 45 1/2 and 45 3/4 compared with 46 last night. Great Northern, pfd., was carried down 4 points, Union Pac. 1/4, St. Paul and N. O. P. 1/4, Canadian Northern, Southern, pfd., 1/4, Pacific, St. Louis, Southern, pfd., 1/4, and U. S. Steel, pfd., and Penna. and Reading, St. Central, Railroad of Ontario, sold at an advance of 2. The market opened weak.

NEW YORK STOCK QUOTATIONS.

Table with 2 columns: Company Name and Stock Price. Includes Amalg. Copper, Am. Sugar Refr., Am. Smelt. and Refr., etc.

CHICAGO MARKET REPORT.

HONOR THE MEMORY OF THE PILGRIM FATHERS

Tercentenary of the Immigration to Holland Was Observed Last Eve in Rotterdam.

ROTTERDAM, Sept. 23.—In recognition of the Tercentenary of the immigration to Holland in 1602 of the Pilgrim Fathers, and the commencement of that pilgrimage which eventuated in the settlement of New England, a Regrettal Club of Boston, was unveiled last evening in the Reformed church at Delfshaven, a suburb of Rotterdam. The table commemorates the sailing from Rotterdam in the first Spoorwiel on July 22, 1602, of the pilgrim company and the generous hospitality extended to the pilgrims during the 14 years of their sojourn in Holland, preparatory to their setting out for New England. Rev. Dr. W. E. G. de Groot, N. Y., delivered the presentation address. M. Van Bentveld presented the tablet on behalf of Delfshaven.

NEARLY ONE HUNDRED LIVES WERE LOST IN THE GULF OF MEXICO STORM

(Continued from Page One.)

Tugs were sent out in a number of instances, but they were not able to accomplish much until the storm abated somewhat. The damage in the City of Mobile is enormous. It is contended by some that there is not a building in the city which has not been damaged. Some of the larger buildings suffered severely. Christ Episcopal church was damaged about \$40,000. The spire of St. Francis St. Baptist church was blown down and every other church building in the city sustained some loss. Houses suffered severely, the Belleville losing its kitchen, which was blown away, and the Cawthon losing many windows, through which the rain poured, damaging carpets and draperies to the extent of \$4,000.

The heaviest loss will fall on the merchants along the water front. Many, although warned of the coming of the tropical storm, made no effort to remove their goods. The damage to docks is \$300,000. Reports of damage to boats down the bay and in the Gulf are numerous. The British steamer Doris Brook is said to be so high on Dauphin Island that she cannot be walked around. The three Canadian masted schooner King of Aron is dismantled and ashore near the mouth of Dog River.

The ship Phor Uglan has been driven ashore in the lower part of the bay with all masts gone. The pilot boat Squire Harper was carried four miles inland. Seranton, Miss., is said to have suffered severely from the storm. Many houses are said to have been leveled and all the trees in the place have been blown down. No lives are reported lost. At Biloxi, bath houses and wharves were damaged and much of its fine shell road is destroyed.

The storm is known to have raged all along the north coast of the Gulf, but reports from that direction are lacking. Trains are running on the Mobile and Ohio and on the Nashville and the Louisville and Nashville, while those tracks skirt the bay, are in bad shape. That road last night had 2,000 men at work on its line, but the obstructions are so great that it will hardly be possible to open the line inside of a week.

HONG KONG, Sept. 23.—A strong gale raged throughout last night. The shipping and the inland trade had been warned of its arrival by a forecast of the observatory.

WASHINGTON, Sept. 23.—The Navy Department has received the following telegram from Captain Bicknell, commanding the Pensacola, dated September 22, and evidently delayed: "Severe cyclone last night. The sea covered the navy yard. The damage done ashore is great. Two hundred refugees at the hospital."

NEW ORLEANS, Sept. 23.—Housely the accounts of the 21st will be happy Thursday's storm in Mississippi became more serious today as the interrupted telegraphic communication with that state was resumed in every direction. Town after town in the interior wired here that buildings had been blown down, lives endangered and crops blown flat in the fields.

Simultaneously there arrived an enumeration of an almost unbroken line of wreckage of shipping on the Gulf Coast in the direction of Mobile. However, all reports of the situation ended abruptly at a point about fifty miles west of Mobile. In addition to the shipping wrecks on the coast, many vessels wrecked or stranded on the chain of islands out in the Gulf which form the Mississippi sound.

The little news which arrived from the Mississippi River Delta indicated that property damage reported here, but although the lower end of the Delta has been submerged as far as the eye could see, reports from the upper Delta, in the river reports that they passed floating household goods. No loss of life was reported in the Delta for several days before the details are learned about the fishing and oyster country in the lower Delta lands, New Orleans, Louisiana, the only places on the lower river having telegraphic communication with the coast next week.

POLICE COURT.

Acting Magistrate George A. Henderson had a few cases before him in the police station this morning that called for a little more than ordinary attention.

George Sydn, aged 19, and Salve Johnston, aged 18, absented themselves from a schooner in the harbor and enjoyed schooners in a few bars. They were, however, charged with desertion from their vessel, and the night in a police station cell with a plank instead of a bunk with chairs and quilts as they have on board ship, cured them of the idea of studying away from the ship. They willingly agreed to return to their vessel and not take another chance of leaving.

D. K. Jack, the Spanish consul, appeared in court with a sailor who gave his name as Manuel Garcia Iglea and posed as a Spaniard. He would not speak when spoken to, and by his actions could not even convince people that he looked like a good cigar. Mr. Jack explained to the court that Manuel came putting into his office and said that one, James Monde, the chief engineer of the Battle Liner, Lucia, had assaulted him on the voyage from Liverpool to St. John. Mr. Mun-Thomas of the Wm. Thomson Co., who is also the Norwegian consul, he said he thought that as Manuel had signed on the steamer papers as a British subject, the Spanish consul could not for protection, according to office, should investigate. Acting Magistrate Henderson thought that the Spanish consul had acted wisely, and that no case had been made out by the man with a name that sounded like a Spanish warrior. He decided that Manuel should return to the Battle Liner and resume his work at shoveling coal, not looking for trouble.

Mr. Munro, who was arrested for being on the street acknowledged that she was collecting money to buy coal for St. Peter's Church. It was shown that she had no authority for making such collections and she was remanded until further inquiry could be made regarding her actions.

The next case before the magistrate was also a foreign one, when Alphonse Wagner, a Parisian Frenchman arrested and laughed at James Brennan, proprietor of the Union Hotel, when village whose tracks skirt the bay, are in bad shape. That road last night had 2,000 men at work on its line, but the obstructions are so great that it will hardly be possible to open the line inside of a week.

HONG KONG, Sept. 23.—A strong gale raged throughout last night. The shipping and the inland trade had been warned of its arrival by a forecast of the observatory.

WASHINGTON, Sept. 23.—The Navy Department has received the following telegram from Captain Bicknell, commanding the Pensacola, dated September 22, and evidently delayed: "Severe cyclone last night. Monday, the first day of October, will be the twentieth anniversary of Sergt. George Baxter's connection with the St. John police force, he having joined on that date in 1886.

SERG. GEO. BAXTER.

When he joined the force there were five sergeants, each having his own division, while now there is only one sergeant in charge at night, going the rounds as often as possible.

MORE SCOTT ACT CASES AT FREDERICTON

FREDERICTON, N. B., Sept. 28.—Senator Thompson arrived home this evening from his European trip.

The police court was engaged this afternoon in hearing two Scott act cases, one against Roy Vesey and the other against W. H. Foster, both of North Lake. Inspector Rev. J. J. Colter being the prosecutor in each case.

Mrs. Leonard Campbell, of Dock St., wishes it understood that she is not the Mrs. Campbell mentioned in yesterday's Star in connection with police court matters.

Now is the time to buy peaches for preserving, as the peach crop is at its height. A. Goodwin will be handling Monday, one car of Ontario Grapes and Peaches. Give your order to your grocer early. Wholesale only. 28-29

We scientifically test eyes for lenses, we supply glasses to suit the eyes, we deal in the very best material only, and guarantee our work. D. Boyaner, Optician, 28 Dock street. Exclusively optical.

A free lecture by one of the most prominent lecturers of the Christian Science Denomination, Blewett Young, C. S. B., of Chicago, will be given in the Opera House, on Thursday evening, Oct. 4th.

Call at the Union Clothing Company, 25-28 Charlotte street (old M. A. building), they are showing one of the finest selection of winter apparel for men, youths and children.

Evening classes opening at the St. John Business College Monday, Oct. 1, will be very large, as more will be given by Rev. A. B. Cobbe last evening.

Ex S. S. St. John, City, a whole case of "Dent's" Gloves, ladies', misses', and men's sizes. In variety of styles. Especially worthy of mention are the ladies' new "Auto" gloves of softest English leather with gauntlet wrist. They are the best thing for street wear as well as for motorists. Also notice of sale of American filled muslin bed-room curtains for Monday. See advertisement of F. W. Daniel and Company inside pages.

The regular lectures of the Natural History Society of New Brunswick, will be resumed on Tuesday evening next at eight o'clock in the new quarters of the society, Union street. Outside of the regular business some time will be devoted to reminiscences of the field work carried on during the summer. There will be a meeting of council at 7.30 p. m.

An informal meeting of the executive of the Everyday Club, which is held in Bressels street Baptist church, was held with Rev. A. B. Cobbe last evening and it was decided to re-commence the club's winter meetings in a short time. A large and efficient committee will be appointed to prepare for the opening, which will be particularly interesting.

The Everyday Club is an organization started last winter to hold a weekly meeting to which all men were invited. It was nothing more than a free-and-easy gathering of adult males for music, song, occasional light supper and head-to-head talks on day-to-day problems. Men in all walks assembled on the Monday nights, and many a profitable session was held. A great deal of good was done among the under-classes—drinking men, street stragglers and such. It is intended to winter to enlarge the field of labor and make the influence of the organization felt in a wider sphere. Its motto is: "To Help Men to be Men."

PREFERENCE TO APPLY TO CANADIAN PORTS ONLY Resolution Suggested by St. John Was Unanimously Passed by Canadian Manufacturers.

It will be remembered that during the sittings of the tariff commission at St. John a number of those citizens who appeared, endeavored to forcibly impress upon the commissioners the wisdom of making the British preference apply only to British goods brought in British bottoms and landed at Canadian ports. Very little of this was heard in the West, but the ball was started rolling on the same representations were made elsewhere.

For some years a number of eastern manufacturers have been agreeing for this, but western men and especially Winnipeg manufacturers have been strong in their opposition to it. At the meeting of the Canadian Manufacturers Association which closed in Winnipeg a few days ago, a resolution on this subject was on the programme. A letter received today in St. John from Charles McDonald who is one of the delegates from this city, contains the information that the resolution passed unanimously and without discussion. The Winnipeg and other manufacturers have withdrawn all opposition, and the opinion of the association will, it is hoped, have strong influence with the government when tariff readjustment is considered at the coming session.

MAN WHO CAPTURED "THE WESTERN BOYS"

Former Detective Charles L. Bustin Here on a Visit

Recalls Some of His Experience Including the Arrest of a Notorious Gang of Pickpockets.

Charles L. Bustin of Watertown, Mass., arrived in the city yesterday, accompanied by his wife.

Mr. Bustin placed behind the bars one many St. John people, as he did some very clever detective work here, having served under Chief of Police Thomas Marshall.

Mr. Bustin placed behind the bars one of the most desperate gangs of robbers that ever came to the city. It was thirty years ago, when six persons, known as the "Western Boys" came here, after terrorizing the residents of several other cities.

That night Mr. Bustin saw his man in the Victoria hotel. He was joined by five others, and Mr. Bustin had the crowd together. There were the famous Creamer brothers, who were terrorists in the States, and a Wilson and his wife. The latter was disguised as a man, and wore a very neat little moustache.

The other members of the gang were soon before Magistrate Thomas Gilbert, and they all received heavy sentences. Mr. Bustin was presented with \$150 from the city and a set of pearl-handled revolvers from the government.

PRaised THE LORD WHEN THE PASTOR RESIGNED

Rev. Mr. Bamford to Sever His Connection With Ludlow St. Baptist Church

Last evening, at the close of the prayer meeting of the Ludlow street Baptist church, West End, the pastor, Rev. P. S. Bamford, announced that his resignation would be read at the close of tomorrow morning's service.

Mr. Bamford came out from the Shelburne place a year ago last spring, and has been the pastor of Ludlow St. Baptist church since April of last year.

This is only one of a number of changes among the Baptist ministers of this city. Revs. A. J. Prosser and R. W. Ferguson have already resigned, and will shortly be leaving St. John.

Rev. D. Long has stated that in all probability he will not remain very long in his present pastorate, and Revs. D. Hutchinson and Dr. McMaisters are comparatively newcomers in the city.

Rev. P. S. Bamford is now probably the senior Baptist pastor in St. John; although perhaps the youngest in years. The union of the churches which took place last year, has had more or less to do with changes in the Baptist pastorate elsewhere in New Brunswick, and it is possible that it may be partially the cause of some of the changes here.

A circumstance which brought smiles to many faces, but which was entirely unimportant, occurred last evening after Mr. Bamford announced his resignation. It was at the close of the meeting, and the audience rose and sang, "Praise God from whom all blessings flow."

Rev. Mr. Bamford in conversation with the Star stated that he was leaving the church because he had three openings before him, which will give him a much greater chance to do aggressive work. He said that he now expects to go to one of the larger cities of the New England states. He also has an invitation to the northern part of New Brunswick.

Mr. Bamford said he would like to suggest that now is the time for the two Carleton Baptist churches to get together and amalgamate. He said that it is well known fact that Carleton is over-churches, and now that both of the Baptist churches are losing their pastors it is an excellent opportunity to unite, as they could agree on getting a new minister, and it would be much better for both.

"Of course," said Mr. Bamford, "there is the spirit of narrowness which makes a serious barrier to spiritual progress in any church on the west side." He felt, however, that if this narrowness were done away with and the churches united much more could be done to advance the good in Carleton than has ever been done before.

A quiet wedding will take place in the West End this afternoon, when Mrs. Jane Stewart, widow of the late Robert Stewart, will be united in marriage to Oliver J. Emery of this city, travellor for the Barrie Publishing Co. The ceremony will be performed at five o'clock by Rev. F. S. Bamford and Mr. and Mrs. Emery will leave by the Calvin Austin on a trip to Boston. On their return they will reside on King street, West.

Raincoats. Rain or Shine Coats.

more correctly. Probably the handiest garment that has been introduced for many years. Useful for street wear stormy days or cool days and evenings; travelling; to wear over dress clothes to the theatre, party or other function.
