WOULD FORM JOHNSON WITH TARIFF "CLUB"

Georgia Senator Urges "Big Stick" for President's Use.

LIVELY DISCUSSION OVER THE AMENDMENT

Would Give Him Power to Enforce Countervailing Tariff Against Nations Refusing Reciprocity with States.

Washington, June 26.—Urgent desire to arm the president with a tariff "big stick" of one of stronger and greater proportions than provided in the amendment suggested by the finance committee majority, developed today in the Democratic caucus of the Senate on the tariff bill. Discussion of the proposed countervailing duty on wheat and flour, which the committee recommended, led to a general debate on retaliatory and countervailing tariff rates, and Senator Hoke Smith, of Georgia, urged the adoption of an amendment that would give the president power to enforce countervailing tariff rates on all commodities of commerce against any nation refusing to deal with the United States on a reciprocal tariff basis.

The amendment proposed would in many respects take the place of the maximum and minimum clause in the Payne-Aldrich tariff law, but Senator Smith advocated a provision that would be broader than that one that would give the president the authority at any time to interpose against any nation which might discriminate against the products of the United States the same tariff. Such a clause in the tariff bill, it was argued, would place the United States in a position to defend the country against any retaliatory action or attempt to shut off its foreign trade.

Discussion of the proposal was spirited, strong opposition developing at once. Among the senators who attacked the idea were Senators O'Gorman, Reed and Martin. The debate was waxing warm when the caucus was forced to recess for the afternoon session of the senate, and it was resumed tonight.

After the battle over free sugar and free wool had been won yesterday by the administration forces, senators opposed the schedule which would extend the time when the wool and sugar schedules are to become effective after the passage of the act.

Senator Russell has an amendment to extend the date of the sugar schedule until February 1, 1914, permitting sugar planters and refiners to get rid of this year's crop without the burden of the decreased tariff. This has been referred to the majority of the finance committee for consideration. The committee will recommend some form of amendment later to the caucus.

Other suggestions propose to suspend the operation of the sugar duties for three months after the passage of the bill and that the rates on manufacturers of wool be made effective ninety days after the date of enactment of the law.

THE USUAL WAR AMONG MEXICANS

Rebel Governor of Sonora State is Making it Decidedly Interesting for Federal Army Just at Present.

Douglas, Ariz., June 26.—Complete defeat of the Mexican federalists under General Ojeda with utter demoralization of the government forces, which are described as "flying in every direction" from Santa Rosa, was the news contained in a message received here tonight from Governor Pascuala of Sonora.

The governor's dispatch follows: "The forces under Generals Ojeda, Barron and Garcia, being attacked by the federalists, were routed completely, leaving thirty pieces of artillery and ammunition abandoned. Wounded and prisoners were deserted, falling into our hands. Generals Ojeda, Barron and Garcia, and Colonel Ochoa, with infantry, are pursuing the enemy to the south to prevent them from entering Guaymas."

Other suggestions propose to suspend the operation of the sugar duties for three months after the passage of the bill and that the rates on manufacturers of wool be made effective ninety days after the date of enactment of the law.

USE THE SERB'S CURE AS WARNING

Chief Medical Officer of Conservation Commission Draws Lesson from Experience with Dr. Friedmann's Remedy.

Ottawa, June 26.—Dr. C. A. Hodgetts, chief medical officer of the Conservation Commission who declined to sign the report to the Canadian Medical Association by the committee on the Friedmann treatment explained his position in a statement given to the Eastern Press today.

"At the time of Dr. Friedmann's first visit to Canada," he says, "it was stated by him that the exact nature and character of the treatment would be fully known to the medical profession, together with the laboratory methods for its production and its mode of administration. Having no reason at that time to doubt the honesty of the doctor's intentions, I consented to act on the committee selected to report on the case treated by him in Canada. It subsequently developed that Dr. Friedmann had decided to act contrary to this promise, and had institutionalized his treatment thereby removing it from the sphere of charitable remedies known to the medical profession. The action on the part of Dr. Friedmann, in my opinion, inhibits the committee of the association making any pronouncement whatsoever upon either the treatment or the results following its application.

"When a particular remedy or specific treatment is either institutionalized or has placed upon it the proprietary stamp of any country, it is then commercialized. And although a share of the profits may be given to charity, either by way of free distribution or gratuitous treatment of a class, as intimated by Dr. Friedmann, would be the case with his cure, these acts are but advertising methods designed to secure a market for the use thereof and hence spell profit to those financially interested.

"In view of this unfortunate transaction, I believe that the committee selected to report on the case treated by him in Canada, it subsequently developed that Dr. Friedmann had decided to act contrary to this promise, and had institutionalized his treatment thereby removing it from the sphere of charitable remedies known to the medical profession. The action on the part of Dr. Friedmann, in my opinion, inhibits the committee of the association making any pronouncement whatsoever upon either the treatment or the results following its application.

CITIZEN SOLDIERS ARE DOING EXCELLENT WORK

Camp Sussex Now in Full Swing—Yesterday a Time of Hard Work—Baking Bread for 3,500 Men—That "Row" in Camp—To Hold Sports on July 1st.

Sussex, N. B., June 26.—The citizen soldiers of Camp Sussex were hard at work again today and under the instruction of their officers gained another step toward efficiency. The regiments were up with gun fire this morning at six o'clock and marched to the parade grounds, where they drilled all day. Instruction in handling of rifles, bayonets and other drill was given, the regiments being split into companies for this purpose.

As the preliminary movements have been mastered more advanced work is being taken up, extended formations, drilling by signals and other movements being handled with much success. Soldiers appear to be everywhere about the parade and in answer to a whistle, or wave of the officer's hand, rush to their positions and repeat the movements until the commanding officers are satisfied the lessons are learned.

The 28th New Brunswick Dragoons, during the past two days, been engaged in infantry drill, awkward and other squads being made up to make the movements easily understood. The 28th is well up to strength, nearly 300 men being on its roll. This 30 men below the required strength, and those in command feel satisfied with the appearance of the men. Cavalry drill will be taken up by this regiment tomorrow, when, as one of the officers put it, "the fun will begin."

An Attractive Mesa Tent. The officers of the 28th Dragoons have put the finishing touches to their huge mess marquee and in the ante-room tent a piano has been installed. The interior of the main tent is very nicely decorated with flags and bunting and presents a clean and neat appearance. The men of the Dragoons are a healthy lot and will undoubtedly prove first class troopers. A Maxim gun mounted on the regulation carriage has been attached to this regiment and the squad in charge are busily engaged mastering the fine points of the weapon. It is a deadly looking instrument and will prove a great aid in war time.

The 8th Hussars, the other cavalry regiment in camp spent the day at Morrison's Field under command of Colonel MacDonagh. The regiment was engaged in a variety of manoeuvres successfully and is daily gaining in discipline and efficiency.

Montreal, June 26.—Jack Johnson, the negro pugilist, accompanied by his white wife, arrived in Montreal early this morning, having come through direct from Chicago. During the day he moved six times from houses where he had engaged rooms, in an effort to evade newspaper men, and the possibility of a clash with immigration officials. Tonight, however, he called at the Montreal Gazette office and made the following statement: "I will remain in Montreal until next Tuesday, when I am booked to sail for Europe. I intend going direct to St. Petersburg, where I have a contract to fight Sam Langford and Gunboat Smith. These fights will be pulled off some time in September." Johnson stated that the immigration authorities made no effort to stop him at the Canadian line. He claims there is \$25,000 due him in Toronto, and he came this way to collect it before leaving for Europe. He also says he does not forfeit his ball bond, as it is the custom here to have a court in Chicago next November. He declares he has no intention of forfeiting this ball bond, but will return to the windy city on the date set for the hearing on his appeal from the conviction in the white slave case.

Montreal, June 26.—Jack Johnson, the negro pugilist, accompanied by his white wife, arrived in Montreal early this morning, having come through direct from Chicago. Thought He Had Gone Fishing. Chicago, June 26.—As soon as agents of the Department of Justice received a report that Jack Johnson, the negro heavyweight pugilist, had been seen in Montreal, they began a search. At Johnson's home here it was stated that the pugilist had gone on a fishing trip to Cedar Lake, Ind. Charles P. Dewoody, department of justice special agent, at once investigated at Cedar Lake and was told that Johnson was not there.

"From the circumstances I think it not improbable that Johnson has come to Canada," said Mr. Dewoody. "However, he may be brought back, if there, although the crime is not extraditable as it is the custom of the Canadian police to expel aliens who are under conviction of crime."

Johnson is under \$15,000 bond pending an appeal from his recent sentence under the White Slave Act to serve one year in the Leavenworth penitentiary. His bond was reduced Monday from \$30,000 when the appeal was granted.

"If Johnson has fled the country he acted foolishly," said Benjamin C. Bachrach, the pugilist's attorney. "He was only two days ago we were together, Tuesday the bond reduced. I saw him Thursday night, and he said that, that would indicate he intended to flee."

How Johnson Got Away. Toronto, June 26.—Toronto friends of Jack Johnson admitted tonight that he had jumped his \$15,000 bail in Chicago and had passed through here last night on his way to Montreal, from whence he hopes to call on Francis. The story that he was accompanied by his white wife is not borne out by his friends here, but as the trip had been carefully arranged in advance, she may be travelling near him or have arranged to meet him. The getaway was carefully planned. To get across the border a fake baseball team of colored men was organized in Chicago. It was given out that this team was going to Buffalo to play and tickets were bought for the whole party over the Grand Trunk from Chicago to Buffalo. Johnson, partially disguised by a heavy moustache, travelled as one of the team. Johnson, however, got off the train at Hamilton, where he was met by friends in a high powered automobile and brought to Toronto where a state-room had been engaged on the C. P. R. Montreal. Johnson landed in Toronto twenty minutes before train time and managed to get aboard without being recognized.

"BOOSTERS" TRY HAND AT ROAD REPAIRING. Montreal, June 26.—Boosters to the number of about sixty tried their hand at road-making today, selecting the highway between Montreal and Shediac as the field of operation. Montreal road makers were joined by about forty of the citizens of Shediac and farmers along the road and much good work is reported to have been done. At Gilbert's Corner, a lunch hour, short speeches were made in the booming line for better roads by prominent citizens of Montreal and Shediac.

SERBS STILL EXPECT PEACE

Serbian Premier Reported to Have Secured Support for Proposal to Arbitrate Differences—Battle Small Affair.

Belgrade, June 26.—The Skupstina met in a secret session today. Premier Pachitch will announce the result of the deliberations at an open meeting tomorrow. It is understood, however, that the Premier has secured a majority for his arbitration policy and that he will shortly go to St. Petersburg to attend the proposed meeting of the Frontiers of the four Balkan states.

Sofia, June 26.—An official dispatch describes the fighting between the Serbians and the Bulgarians at Zhitovo as a small affair, in which only a few hundred were engaged.

The Crisis Ended. London, June 26.—A Belgrade despatch to the Times says that the crisis has been ended by the agreement of the ministers of war and justice to resume their work in the cabinet. It is understood the government is now preparing a report of its case for submission to the Russian government.

London, June 26.—Cromartin Sutherland-Leveson-Gower, fourth Duke of Sutherland, died tonight.

The Duke of Sutherland, who was born July 30, 1851, was with the exception of the Emperor of Russia, the largest land owner in Europe. His Scotch estates embraced nearly a million and a half acres. He owned 30,000 acres in Staffordshire and Shropshire and much landed property in other countries.

FIGHT OVER FORTUNE TO BE INTERESTING FOR WREN

Scandal May Develop Out of Suit Over Will of Late Sir John Murray Scott, Millionaire.

London, June 26.—Suggestions of possibly highly interesting developments were introduced today in the "fight for the millions," as the public call the suit over the will of the late Sir John Murray Scott, who left nearly \$5,000,000 to Lady Sackville, a relative of a former British minister at Washington.

The Right Hon. Frederick E. Smith, counsel for those who are trying to break the late Sir John Murray Scott's will, mentioned an alleged secret visit to the baronet's house by Lady Sackville, when she was seen at the drawer of a desk in his library. Major Arbutnot, a friend of Scott's, would, at a formal, testify that on his arrival to dine with Scott one evening he opened the door of the library and saw Lady Sackville and Miss Sackville just shutting a drawer of the writing desk. Major Arbutnot is said by counsel to have withdrawn, but while he was still in the hall, Lady Sackville opened the door a little and glanced around. Then she and her daughter left the house in what appeared to the Major a very hurried and unusual manner.

When Major Arbutnot later saw Sir John Murray Scott, he mentioned that he had seen Lady Sackville in the library. Scott immediately became intensely agitated and broke into a perspiration, ejaculating "My God, what a scandal!" Scott had no idea that Lady Sackville was in the house. He believed she was at her residence, 42 Grosvenor Park, Kent, at the time, according to Attorney Smith, who said that the Sackvilles were known among the Scott family under the nickname of "the Locusts," while in the servants' hall Lady Sackville was referred to as "the earthquake."

ALBERT CO. MINISTER INJURED IN RUNAWAY

Rev. Mr. Hopkins Thrown from Carriage—Two Ribs Broken and Fears of Internal Injuries are Entertained.

Moncton, June 26.—Rev. Mr. Hopkins, pastor of the Coverdale, Albert county, and Shediac group of Baptist churches, was injured in a runaway accident here tonight. While driving into town from Albert county, his horse took fright at a train and ran away. Rev. Mr. Hopkins was thrown out and the wagon smashed to pieces on top of him. He was picked up in a semi-conscious condition and taken to the hospital. It was found he had two ribs fractured and is suffering considerable pain, leaving doctors to fear he is injured internally. The extent of his injuries therefore cannot be ascertained at present.

NOVA SCOTIA MAN ON TRIAL FOR MURDER

Damaging Evidence Against John Wren, Charged with Killing Railroad Foreman in Keene, N. H.

Keene, N. H., June 26.—Testimony to show that J. Stewart Hamilton, the railroad construction foreman, had considerable money on his person on the night that he was murdered and that John H. Wren, later carried hero and displayed a big roll of paper money.

After one witness had told of seeing Hamilton start towards the spot where his body was found, James Madigan and George Anderson testified that on the same day Hamilton had shown them a roll of bills and said that he had more than \$300.

Moses J. Oetevy, of Hinsdale, testified that about 7 p. m. February 5, the date of the murder, Wren hired the witness to drive him to Brattleboro and displayed a big roll of paper money.

George and William Oetevy, sons of the witness, corroborated his testimony. It was said today that William C. Adams, the government witness, who yesterday attempted suicide by cutting his throat, would probably recover.

Schlitz Brown Bottle Is Making History

Two years ago, Schlitz adopted the Brown Bottle.

Scientists, world famous, had rendered opinions that beer exposed to light cannot remain pure.

One year ago, Schlitz corroborated its claims by reprinting such parts of these opinions as were pertinent.

Today, the last link in this long chain of incontrovertible evidence is complete.

We reproduce herewith in miniature the printed matter on covers or caution cards taken from cases of beer sold by brewers using the light bottle.

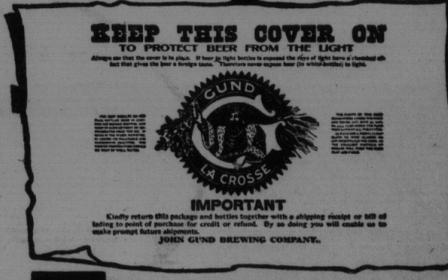

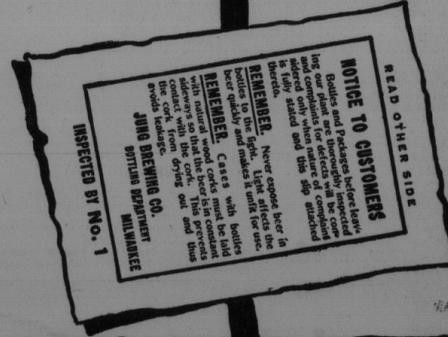

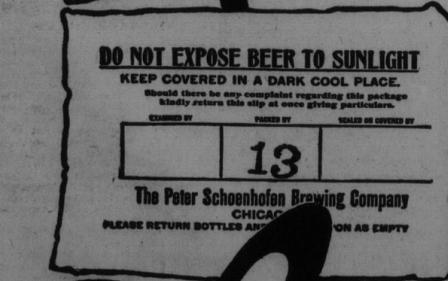

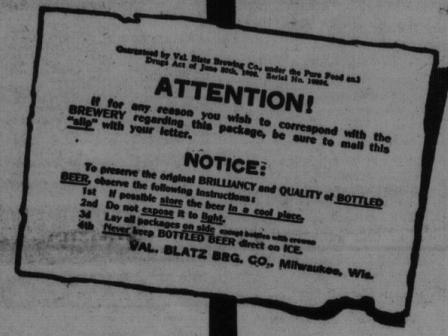

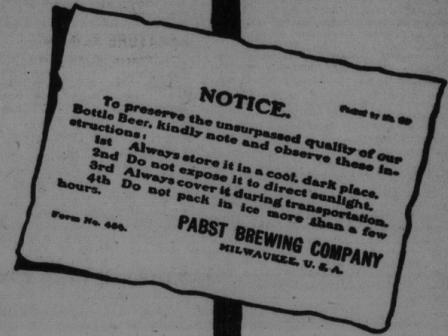

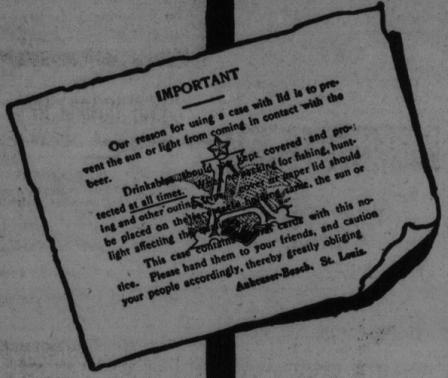

Read them.

They are self-explanatory. They are eloquent.

These competitors admit the weakness of their own product when exposed to light, by warning the public to "Keep the cover on."

THE SOLDIERS ARE DOING EXCELLENT WORK

Continued From Page One.
The Army Service Corps whose lines are situated at the upper end of the grounds near the railroad track and form a long row of broad ovens, spent a busy day in baking sufficient bread for 3,500 men. For the visitor this is one of the most interesting parts of the encampment and a great insight is given into the manner in which an army is fed. From the mixing tent to the ovens a large number of men are busily engaged in baking about 5,000 loaves a day. The ovens are of the usual military type and consist of a row of hollow brick arches in which a roaring wood fire is built. When the fire burns out the coals are removed and the dough placed in pans and then on the hot bricks where it is baked in a remarkably short time. This brand of bread is eaten by officers and men and is considered excellent.

With regard to the grand march past which was rumored, would be held on July 1st, Colonel Humphrey, D. O. C., when interviewed this afternoon, expressed himself as surprised to hear that such a statement should have been circulated as it was known that all the time was to be given to drill alone.

Captain T. Malcolm McAvity of the 62nd St. John Fusiliers has written Colonel Humphrey to the effect that the 62nd trophy cup now held by that regiment would be put up for competition again this year. The cup was won by the Fusiliers last season and the other regiments have determined that the trophy will, this year, go to the country.

Colonel Humphrey placed the arrangements in the hands of Captain Dawson, the staff orderly. It is understood that the sports will be enlarged upon considerably, and instead of ordinary contests mounted stunts will also be on the card. The programme includes horse races for officers, N.C.O.'s and troopers, besides jumping and other cavalry stunts. The ordinary field sports will also be carried out. The affair is slated for the

PROTESTS AGAINST TELEGRAPH'S INSULT

North End Resident Objects to Nasty Bit of Fiction in Yesterday's Issue of that Sheet.

The Telegraph has such a fine instinct for the dramatic, such a disinterested love for the ludicrous, that it treats the Penny Dreadfuls in the type of stories it publishes. Its austere indifference to the mere facts of a case, its generous disregard of probabilities have caused Baron Munchausen to turn over in his grave so many times that his weary bones have been worn to dust. When it is not demonstrating its patriotism by publishing unfounded stories about the roads of the province calculated to keep people from coming here on an auto tour, its fiction artists are weaving a thrilling tale of crime around a simple incident in the life of a law-abiding citizen.

A wonderful story of the Sherlock Holmes adventures of a Telegraph advertisement in recovering a bag of tools, alleged to have been stolen in the North End, appeared in Thursday's issue of that paper. The article inferentially accused the man who returned the tools of having stolen them.

The following letter shows this had no foundation outside the perverted imagination of a Telegraph fictionist:

To the Editor of The Standard:
Dear Sir: I should be very much obliged if you would contradict the article published in the Telegraph on Thursday accusing an innocent person of theft. A more outrageous or insulting article could not be printed, as it has no foundation, and is a pack of lies from beginning to end. The bag of tools was found by me on the corner of Adelaide and Metcalf streets on Sunday evening at 9:30 o'clock, and not knowing who owned it I kept it until advertised for, when I immediately returned the bag to its owner. Thinking that would be the end of the matter I was astounded on reading the article in Thursday's Telegraph, which I consider the most disgraceful thing I have ever seen in print.

Hoping you will publish this letter I am, yours faithfully,
E. LIGHTFOOT,
180 Metcalf street.

WILL EXPLORE THE NORTH OF CANADA

Norwegian Explorer in Ottawa Getting Information to Aid Him in Search for Traces of Andree.

Ottawa, June 26.—Christian Leden, a Norwegian explorer, is in Ottawa, today, preparing for a two-year journey in the northern Hudson bay region, where he will conduct an ethnographical study of the Eskimos and endeavor to secure traces of Prof. Andree, the Swedish explorer, whose only daughter of David Alfred Mackworth, of the Royal Monmouth, and only daughter of David Alfred Mackworth, the "British coal king," and head of the Cambrian combine, who is now in Canada, was arrested tonight at her residence and conveyed in her own motor car to the police station at Newport, charged with setting fire to a pillar box. Mrs. Mackworth, after spending four hours in a cell, was allowed out on bail furnished by her husband. She will be arraigned for examination tomorrow.

SET FIRE TO PILLAR BOX.

Cardiff, Wales, June 26.—Mrs. Mackworth, wife of Captain Humphrey Mackworth, of the Royal Monmouth, and only daughter of David Alfred Mackworth, the "British coal king," and head of the Cambrian combine, who is now in Canada, was arrested tonight at her residence and conveyed in her own motor car to the police station at Newport, charged with setting fire to a pillar box. Mrs. Mackworth, after spending four hours in a cell, was allowed out on bail furnished by her husband. She will be arraigned for examination tomorrow.

\$25,000 VERDICT UNJUST.

Waterville, Maine, June 26.—Fred Butler, aged 17, was drowned tonight in an unsuccessful attempt to save the life of his eight year old cousin, Eversett Hart. The younger boy was in the swimming hole in the Mosseauke stream when he shouted for help. Butler plunged to the rescue but became exhausted and both boys went under.

FINAL DAY FOR PONY CONTEST.

This is the last day for casting votes in the Nickel-Oak Hall Pony Contest. The boxes will be closed at 10 o'clock tonight. Under no circumstances whatever will any votes be accepted after that hour. The date of presentation and announcement of the winner will be made known in the papers early next week. The outfit will be presented to the successful contestant at Nickel Theatre.

NOT LIABLE FOR INCOME TAX.

Brantford, Ont., June 26.—Dominion officers are not liable for income tax. This is the judgment handed down by His Hon. Judge Hardy, in the appeal of S. W. Raymond, postmaster; J. C. Montgomery, assistant postmaster; A. E. Harley, customs house officer; M. J. Donahue, inland revenue officer, and Gordon Smith, Indian superintendent, against their assessment for income tax on the salaries paid them by the Dominion government.

Rothesay; C. A. Buck, New York; Wm. H. Suterix and wife, Cambridge; J. J. Saver, Montreal; W. J. Dickson, Halifax; H. B. Fleming, Moncton; G. R. Godfrey, Quincy, Mass.; E. S. Brodie, Gagetown; J. M. Tompkins, Florenceville; J. S. Taylor, Hamilton.

TEN MEN KILLED BY A PREMATURE BLAST

Kingston, Ont., June 26.—Latest reports from Parham say that ten Italians were killed in an explosion at the C. P. R. construction camp near Parham. A heavy blast, which was being prepared, was prematurely exploded.

Telephone message from Long Lake this afternoon stated that five of the bodies had been recovered. In all, it is understood ten were killed, and four were recovered. The bodies recovered will be held until Friday afternoon, when they will be viewed by a coroner's jury.

VICTORIA COUNTY COURT

Andover, N. B., June 26.—The June term of the Victoria County Court opened here on Tuesday, Judge Carleton presiding. There was no criminal docket.

Civil Docket.

Thibodeau vs. Price, Carter, K.C. for plaintiff, Kerton & Connell, K.C. for defendant. Verdict for plaintiff. \$100.

Craig vs. Habsbee & Corey, Carter, K.C. for plaintiff, Hartley for defendant. Verdict for plaintiff. \$100.

Nicholson vs. Stevenson, Elliott & Jones, K. C. for plaintiff, Carter, K.C. for defendant. Verdict for defendant. \$100.

Campbell vs. Tibbits and Demerchant vs. Tibbits, Carter, K. C. for plaintiff, and Carvell, K. C. for defendant, were postponed two weeks at request of Mr. Carvell.

Cote vs. Taylor, Kerton & Connell, K. C. for plaintiff. This case also postponed for two weeks.

ANOTHER AVIATOR KILLED.

Chalons-sur-Marne, France, June 26.—The French aviator, Maurice L. Foulquier, while testing a monoplane for the first time, fell from a height of 200 feet this evening and was killed. Foulquier had been accustomed to a biplane, and the accident is attributed to the fact that he failed to realize that a monoplane requires different methods in handling.

EMPRESS OF IRELAND MAKES A RECORD.

Quebec, June 26.—The Canadian Pacific Railway Company's steamer Empress of Ireland left here at 4:30 o'clock this afternoon for Liverpool with the largest number of passengers ever carried by a steamer from a Canadian port to Europe. She had 303 first, 330 second and 602 third, a total of 3,140.

CARD OF THANKS.

Mr. and Mrs. Captain C. H. Perry wish to thank their many friends for the kindness and sympathy shown them in their sad bereavement in the loss of their little girl, Hilda Perry. They also wish to thank the pupils of the Alexandra school for their kindness. Mrs. Perry wishes her friends to accept her thanks for their kindness to her during her illness, which lasted over three years.

MARRIED.

MURDER MYSTERY

MRS. KATHERINE MITCHELL WISWANT
OR GUY OZEA BRINKLEY

The mystery surrounding the murder in Savannah, Ga., of Dr. Guy O. Brinkley and the self-destruction of the young woman who killed him probably never will be explained. Both of the principals are dead and there were no eye-witnesses to what occurred between the physician and his young patient prior to the shooting and for several weeks before that while she had been under his care.

That the murder of Dr. Brinkley was premeditated appears to be the only certain thing in the tangled conflicting theories.

While we try to furnish the facts in the most condensed form consistent with clearness, when speaking of securities in this column, yet of necessity we are prevented by space limitations from treating them as fully as we would like. These little talks serve their function in introducing you to some certain security on our list, but they can not present ALL the facts.

Therefore, to properly judge whether any security we mention is just the one you want or not you should let us send you the complete information that we always have available, and which we would consider a pleasure to mail you on request.

We have reference now particularly to the Meritline No. 7 7 per cent Cumulative Preferred Stock, about which we have been speaking in this column for the past fortnight.

CLOSING LETTER ON MONTREAL EXCHANGE

(F. B. McCURDY & CO.)
Montreal, June 26.—There was little life to the market today, although not much weakening in price. London showed a good deal of uncertainty and apparently the European exchanges are waiting for some more definite assurance of an end to hostilities in the Balkans. The most pronounced advance in the local list was in Montreal Tramways, which jumped to 175. At the meeting of the directors of the Montreal Tramways, which took place this morning, the directors divided the stock on a 10 per cent dividend basis by declaring a dividend of 2 1/2 per cent for the quarter, payable the 1st of August. This is the first regular dividend declaration on the common stock of the Montreal Tramways and it is interesting to recall that the rate is precisely the same as was formerly paid on the common stock of the old Montreal Street Railway before the present crowd took control. An interim dividend of 5 per cent was declared in March last, payable May 1st, but this in no way indicated that the regular dividend would be when it came to be paid.

LAIDLAW & CO'S CLOSING STOCK LETTER

(J. C. MACKINTOSH & CO.)
New York, June 26.—The outbreak of hostilities between Bulgaria and Serbia did not disturb the foreign markets which were merely dull but not weak.

CLOSING COTTON LETTER FROM JUDSON & CO.

(J. C. MACKINTOSH & CO.)
New York, June 26.—Cotton opened steady as a decline of 1 to 5 points. After opening market continued steady with little change. The weather forecast said that dry warm weather would probably continue over the Southern States the next two or three days and perhaps longer. The proximity of no-tide day and uncertainty as to near months developments seemed to check selling on the decline. During the session sentiment seemed to be pretty much confused and trading was very quiet. Market was dull but steady during the afternoon. There appeared to be few orders around the ring, practically none from outside sources.

CLOSING LETTER ON COTTON MARKET

(F. B. McCURDY & CO.)
New York, June 26.—Yesterday's covering movement seemed to have exhausted the more pressing demand and the market today was quiet with prices somewhat reactionary, although support was sufficient to give it a steady undertone at a moderate setback from the closing figures of last night's. Cables were somewhat disappointing as to futures, and many thought they would have been more so had it not been for the sustaining influence of the demand for July-August by straddlers who had sold in the local market yesterday. The spot sales in Liverpool dropped to 6,000 bales, which is not a favorable feature. A favorable Habersham King review helped the setback, but selling was restricted by the fact that private conditions figures so far published are showing less than the expected improvement in the crop outlook since the end of last May. Rumors made the condition 81.8 per cent, were denied by President Taylor, who admitted that the report was out, but said they were not yet ready to make the figures public.
Weld & Co. reported a condition of 83.3 per cent, against their report of 84 per cent, last month, and the Government's June bureau of 79.1 per cent. Interest tomorrow morning will center on developments connected with July notices. The first notice day furnishes a fair test as to the character of the long interest, but shorts have until the end of the month in which to cover.

The "Paving Determinator's" Verdict.

THE "Paving Determinator" is an ingenious machine that was built by the department of Public Works of Detroit—to subject sample stretches of various street pavements to severe, actual-service tests. It imitates heavy trucks and steel-shod draught horses, reproducing, in faithful detail, every effect of this kind of traffic. This remarkable machine was recently used to test five varieties of street pavement—covering practically the entire range of present-day road coverings.
A report of the test says:
"When the test had been made under the direction of Mr. McCabe and officials of the department, on eight sections of pavement laid in a circular track, the concrete section, laid under the specifications of the Board of County Road Commissioners of Wayne County, Michigan, showed by far the best resistance to the severe test to which the pavements were put."

Guests Appreciate Efficiency
HOTEL Service is not merely a matter of courtesy. The smooth-running machinery, which produces in the guests that feeling of restfulness and security from noise and inconvenience, is a vital factor in the success of every hotel worthy of the name.
Guests appreciate hotel service, and continue to patronize those hotels which are successful in creating an involuntary impression of efficiency.
The importance of an Otis-Fensom Freight Elevator to the development of efficiency in hotel service is incalculable.
Baggage may be quickly and quietly transferred from the street to the bedroom or sample room upon arrival, and rushed to the porter's room when the time comes for departure.
Guests are enabled to save time and avoid inconvenience. Satisfaction on their part creates prestige and increased traffic.
An Otis-Fensom Freight Elevator may be installed at a moderate cost, and quickly pays for itself in the saving effected in time and labor alone.
Whatever YOUR requirements, we can supply an Elevator of any description—Electric, Hydraulic or Hand Power—calculated to meet your individual case.
Write for our free booklet, "Freight Elevators and Their Uses," containing interesting facts and illustrations. This booklet will tell you of more uses for a Freight Elevator than you ever dreamed possible. Write TODAY—don't put it off until another time—fill in this coupon and mail NOW, while the thought is fresh in your mind.

LIVE TOPICS OF SPORT AT HOME AND ABOARD

THE SAINTS DEFEAT THE F.M.A. TEAM

In a hotly contested game on the Marathon grounds last evening the St. Peters further strengthened their hold on first position in the City League by defeating the F. M. A. ball tossers, 7-6. The game was close and exciting throughout and was a very interesting exhibition for the large crowd which attended.

The F. M. A. scored three in the first whilst St. Peters were unable to bring a runner across the plate. They opened with two in the second, however, and the F. M. A. added one. In the fourth with three on bases and two down Manager Colohan sent "Johnnie" Dever in to bat and he made good with a two bagger, scoring all three men. No further scoring was done after the fourth and the game ended 7-6, in favor of St. Peters.

DAHLEN SAYS BROOKLYN WILL WIN THE FLAG

New York, June 26.—William Dahlen, who is receiving credit for the good work of the Brooklyn in the National League race this season, would not say much as a rule when asked to talk for publication. But under a vigorous cross-examination yesterday Bill quietly admitted that his team actually expects to win the pennant. When the season opened Dahlen declared that the Brooklyn would finish in the first division. Many sceptics laughed at this prophecy, but they ceased their laughing on one fine day. When the Dodgers started off with a rush and clung to the coat-tails of the Philadelphia, who still lead the race, the wisecracker declared that as soon as Dahlen's men went on their first Western trip they would tumble into the second division. One of the reasons for this forecast was the idea that Dahlen's pitchers would not last. Another was the supposed weakness in carrying out the principles of team play at the bat. Before the Western tour was half over it looked as if the wise men had done it out with keen setbacks in Chicago, Pittsburgh and Cincinnati, enough of them to force the team back to fourth position.

These defeats were due to misfortune over which we had no control," Rucker's discomfited thumb was a severe handicap, while Bob Flaher tried to stick it out at shortstop with a cracked finger and Ragan pitched in hard luck and Cutshaw was hobbling around on one foot. But these troubles have gone now and we are again playing fast ball. We have a grand stretch of games at home beginning next week and we will make both the Giants and the Philadelphia's hustle to keep in front of us. With a fair break we will win the pennant."

The Brooklyn have won six straight games including Saturday's conflict with the Giants. They have won four out of five games from McGraw's men, a feat that has filled the Dodgers with confidence. In the Philadelphia and the Philadelphia's hustle to keep in front of us. With a fair break we will win the pennant."

WEDDINGS.

Squires-Jardine.
Norton, N. B., June 26.—A very pretty wedding took place here at 4 p. m. yesterday, at the home of Mr. and Mrs. James Jardine, when their eldest daughter, Miss M. J. Squires, was united in marriage to Samuel Lang Squires, who is engaged in mercantile business at Waterford, Ontario. Mr. Squires is also vice-president and general manager of the Dominion Telephone Company. The ceremony was performed by Rev. Dr. Smith and Rev. Mr. Boyer. A large number of friends and relatives. The house was beautifully decorated for the occasion with potted plants and cut flowers, and the contracting parties stood beneath an arch of green foliage and white flowers. As the bride entered the drawing room, leaning on the arm of her father, Mendelssohn's Wedding March was played on the piano by Miss Helen Carson. The bride looked pretty in a gown of ivory satin trimmed with lace and white ribbons, and was attended by a maid in a white dress with a white sash. The bridegroom wore a tuxedo suit with a white shirt and a white bow tie. The ceremony was performed by Rev. Dr. Smith and Rev. Mr. Boyer. A large number of friends and relatives. OBITUARY.
John Moore.
John Moore, who was injured in the Canada Brush factory a few days ago, by having his skull fractured, died in the hospital yesterday afternoon. He was 65 years of age.

WAS WEAK AND RUN DOWN. NOT ABLE TO DO HER WORK.
Many women get run down, and are unable to look after their household duties, owing to their nervous system being unstrung. Day in and day out they have to go through the same routine of work, and their nervous system gets weaker and weaker. No wonder their work gets on the nerves and they become run down. When a woman gets into this state there is only one thing for her to do, and that is, to get something that will build up her system.

Had a Stroke of Paralysis
And Found a Cure in Dr. Chase's Nerve Food.

It is always better to prevent serious diseases of the nerves. There are many warnings, such as sleeplessness, irritability, headaches and nervous indigestion. Prostration, paralysis and locomotor ataxia only come when the nervous system is greatly exhausted. Even though your illness may not yet be very serious, there is a great satisfaction in knowing that Dr. Chase's Nerve Food will cure paralysis in its earlier stages.

Some Class, That Wedding.
"The Millionaire Wedding" drew
crowds to Temple Hall, last evening.
The millionaire groom was Clifton
Smith, and the millionaire's bride
was Miss Payne, both colored resi-
dents. The ceremony was unique, a
departure from the conventional June
wedding, and the entertainment, for
it was an entertainment, proved very
enjoyable.

Wedding Last Evening.
An interesting event took place at
302 Princess street last evening when
Rev. Wellington Camp, pastor of the
Leinster Street Baptist Church, united
in marriage Murdoch Lamb, of St.
John, and Miss Anna L. Dickson, of
St. John, though formerly of Hope-
well Cape, Albert County. The couple
were unattended, only their immedi-
ate friends witnessing the ceremony.
The bride wore a costume of pale
blue voile and white hat with Dresden
trimmings. Mr. and Mrs. Lamb will re-
side at 109 King street.

The Lancaster Sewerage Contract.
Yesterday afternoon the Lancaster
Sewerage Board signed a contract
with Murray Long for the expansion
of the sewerage system in Lancaster.
Members of the board are not worry-
ing about the criticism that has been
directed against them because they
turned down the lowest tenderer, be-
lieving that they can get better work
from a local man, and that the public
opinion in Lancaster will justify them
in giving the contract to one of their
own people. Coun. Long said yesterday
that the board did not look for any
opposition on the part of the Fairville
Board of Trade, and he believed the
criticism of their action would soon
be forgotten.

The New West Side Wharf.
A new departure was made in the
construction of the Connelly wharf at
Sand Point yesterday, when work was
started on the first section of the con-
crete superstructure. Immediately
south of the C. P. R. wharf a box had
been built over the cribwork for a
distance of about sixty feet and this
was filled with concrete. The contrac-
tors have everything in readiness for
rushing the work on the superstruc-
ture, and expect to have the whole
contract completed before the first of
December. Good progress is being
made with the cribwork which has
yet to be done, and all the cribs will
be sunk by the time they are ready to
go to work on the superstructure.

The Mill Strike.
A report which caused considerable
consternation was circulated about
the city yesterday to the effect that
the longshoremen of the port had
gone on strike in sympathy with the
millmen. As yet, however, there has
been no general strike of the long-
shoremen, though some of them yes-
terday refused to load a schooner at
one of the mills.

It is also reported that the mill
owners were likely to take their
men back at an increase of 15 cents
a day, but confirmation of this report
was not obtainable. Most of the
pondmen, fishermen and dead-enders
have secured work at other occupa-
tions, and many of the other mill-
men have obtained other jobs.

EVIDENCE OF AN INCENDIARY

Oil Soaked Paper and Rags, with Card of Burned Matches, Found in Rear of Exmouth Street Buildings—Dog Frightened Alleged "Firebug" off Job.

While officials and others are saying that the public is needlessly alarmed on the "firebug" stories that have been circulated about the city for the past few months the facts show that there is cause for considerable alarm and that, although the police have been fortunate in capturing two men charged with incendiarism there are cases coming to light which show that an incendiary, or more than one, is still at work.

The last man captured did not hesitate to inform the police that it was he who had set fire to the J. S. Gilbon and Co. woodshed on Flare street, and also that he set fire to six or seven other places which, at the time, were mentioned in the papers as being the work of an incendiary.

As for the Richard Sullivan and Co. fire the chief of the police states that this fire was no doubt the result of a defective motor, and he does not put much credence in the story that the place was broken into before the fire was discovered even though it was found by those first on the scene that the rear door of the Sullivan premises had been smashed open, and other doors were open after being left secure when the employees of the Sullivan establishment left for their homes earlier in the evening.

It was about one o'clock yesterday morning that Mr. and Mrs. Fred G. Bailey, who reside at 21 Richmond street, were awakened from their slumbers by the loud barking of a dog. The dog made such a noise that it not only awakened the Bailey family but it also awakened Charles Wilkins who resides in the same building. Mr. Bailey got out of bed and, taking a lamp, went to the rear of his house to investigate the trouble. It is stated that he has seen as if a person were running through the yard. Think-
ing nothing more of the matter, Mr. Bailey retired again and there was no more noise for the remainder of the morning.

When Mrs. Bailey had occasion to go out of the back entrance of her home about six o'clock she found, tucked away in a small place between the houses, a bundle of rags and paper and these smelled very much as if they had been saturated with oil. Alongside of the bundle was a card of matches that had the brimstone burned on it and also a card that had not been burned.

From all appearances a firebug had paid the premises a visit and had in-
tended setting fire to the building. It is supposed that he had just started in on his dastardly work when the watch dog became alarmed and made such a noise that the person was frightened away before he had properly got to work and he had not left the bundle of rags and paper behind.

It was only on last Sunday morning that fire caused some thousands of dollars damage on Exmouth street and the premises that were burned are only about a hundred yards from the place where the bundle of inflam-
mable material was found yesterday morning. The place where the bundle was found is off a large yard which several families residing in houses which join on the corner of Richmond street and Exmouth street, had gotten a good start like that of Sunday morning it is probable that the damage caused would have been heavy.

The police were not saying anything about this case but it is believed that they are working on it and that other than the material found they have very little evidence.

GRAIN INSPECTOR TO BE STATIONED HERE NEXT YEAR

Grain Commissioners, Here Yesterday, Interviewed by Members of Board of Trade Council, and Agree to Place Inspector Here—Will also Look After Shipments of Hay.

A matter of considerable importance to the port of St. John was considered yesterday at a conference between the Council of the Board of Trade and two members of the Dominion Grain Commission, when the need of having a grain inspector stationed at St. John during the season of winter navigation was discussed, and the commissioners acknowledged the force of the arguments presented to them by stating that they would have an inspector stationed here next winter.

In addition to inspecting all kinds of grain the inspector will inspect shipments of hay from this port.

From the provincial point of view the decision of the Grain Commission to have an official inspect hay shipments is of considerable importance, not only because the province is a large exporter of hay, but because in the past shippers have been obliged to settle many claims made against them on the ground that the hay shipments were not up to the quality they were supposed to be.

Last winter as a result of representations made to Hon. George E. Foster, Minister of Trade and Commerce, the Grain Commission sent an inspector to St. John for some time, but next winter an inspector will be stationed here as long as the season of navigation lasts.

The members of the Grain Commission who were in the city yesterday were Mr. Magill, the chairman, and Commissioner J. P. Jones. They were accompanied by their engineers, C. Howe. After the conference with the Council of the Board of Trade they were entertained at luncheon at the Union Club. In the afternoon they inspected the C. P. R. elevator on the West Side, and were then taken in automobiles to Courtenay wharf, where the harbor works in progress there.

To the Mayor and members of the Council of the Board of Trade the chairman of the Grain Commission expressed the view that everything possible should be done to improve the port facilities here, and place the port in a position to bid for the rapidly increasing grain trade of Canada. The members of the Council of the Board of Trade feel that the conference with the Grain Commissioners will be productive of good results.

also claim a 31st anniversary. In question have not been lodged in the jail continually for thirty-one years, but they have been in and out a great many times during that period, and the majority of times the charge against them has been intoxication.

When Mr. Clifford was appointed turnkey the sheriff was James F. Hard-
ing, and since that time the position has been held by Sheriff Sturdee, Sheriff Ritchie and now S. S. deForest is the sheriff.

During the 31 years that Turnkey Clifford has been in charge of the prisoners in the County Jail he has handled an almost uncountable number of prisoners, and it would fill a large sized volume to call of the different crimes that they have been imprisoned for. The cases have been various and embrace almost any crime from the small boy playing truant to the murderer. He has been a most efficient officer, and his duties during the long term of office and his friends will wish him many future years of good health.

Bad Sidewalk and Fence.
The police report that there is a dangerous hole in the Brussels street sidewalk and that the fence in front of the old foundry property there is also in a dangerous condition.

WILL STREET SALT LAKE HORSES FEET?

Teamsters have Requested S. M. Wetmore to Look into Matter of "Salting Streets"—A Traveller's Impression.

A gentleman arrived on the train about six o'clock last evening and took a cab for the Royal. As he swung into Market Square, shivering in the cool of the evening, he saw with surprise, the white surface of Prince William street.

"What has it been snowing here?" he remarked to the caddy.

"Not quite," said the caddy. "The city fathers have been sprinkling the street with talcum powder."

"You don't say so," exclaimed the visitor. "Is it the kind the ladies use to powder their noses? That's rather expensive, isn't it? And what's the idea?"

"Well, it looks like talcum powder and the idea is to keep the dust down," said the caddy.

However, the city sprinkled pure and unadulterated salt upon Prince William street, and though the effect looked like a snowstorm, the city authorities disclaim any responsibility for the cold weather that immediately followed the experiment. The City Commissioners no doubt had the best intentions in the world in salting the street, but it seems probable that whatever they do the tribe of kickers flourish as bravely as in the days of Ald. McDermick. Some of the teamsters thought the salt would have an injurious effect upon the hoofs of their horses, and asked S. M. Wetmore, secretary of the Society for the Prevention of Cruelty to Animals, to look into the matter.

RUSHING WORK ON VALLEY RAILWAY

Contractors Plan to have 100 Miles of Road Completed this Year—The Minto-Fredericton Line.

"The work on the Valley Railway is proceeding satisfactorily," said D. F. Maxwell, the provincial engineer who was in the city yesterday. "The contractors plan on having 100 miles of the road completed this year. About twelve miles of steel rails have been laid between Fredericton and Gagetown and the work on the Woodstock section is well advanced. The road between Centreville and Gagetown ought to be completed this year."

Members of the railway between Minto and Fredericton, Mr. Maxwell said, had been over the route the other day, and a gap of about six miles remained to be completed and that this would be finished by September 1st. The company was, he said, pushing forward the work of developing the coal mines around Minto.
