

RUSSIA, WITH NEW CABINET AND RE-FORMED ARMY, HOPEFUL; ITALY, AFTER BREAK WITH TURKEY, TO AD FORCING STRAITS

RUSSIANS ON NEW LINE WITH REAR GUARD ACTION OVER; FRENCH AIR RAID

London, June 28, 10.40 p.m.—Berlin reports the fall of the Galician town of Halicz, and says that the Austro-Germans have crossed the Dniester river, which means that the five days desperate rear-guard action by the Russians has ended in their retirement. However, the stubborn resistance of this flank of the forces of Grand Duke Nicholas, commander-in-chief of the Russian armies, has undoubtedly enabled him to reform his lines along the River Bug, virtually without interference.

The River San now takes the place of the Dniester as the scene of a sanguinary battle in the Russian effort to prevent the investment of Warsaw. Petrograd admits the retirement of the Russians to the River Gula Lips, which is some eighty miles from the front, and falls into the Dniester at Halicz, but military experts do not expect heavy fighting along that river. They express the opinion that the next serious battle probably will occur along the Zlota Lips river, which runs parallel to the Gula Lips further eastward, where the Russians would benefit by the railroad with which the Tarnopol line connects. These operations and plans, according to military men, confirm the theory that the Dniester forces were merely covering for the northern army.

CABINET RE-ORGANIZED; NATION UNITED

The re-organized Russian cabinet has returned to Petrograd, after a field conference with the Emperor and Grand Duke Nicholas. The Russian press devotes considerable attention to the re-constitution of the cabinet, the convocation of the Duma and the mobilization of industry for war purposes, one writer declaring that the pronouns "we" and "they," as applied to distinguish the government from the people, will now cease to exist.

General Polivanov, who has been designated as minister of war, was assistant minister of war during the re-organization of the army, following the Russo-Japanese war. He has the reputation of being an excellent soldier and organizer, and enjoys considerable popularity on account of his liberal views.

Through passes 5,000 feet in altitude the Italians have entered the Austrian territory south of Riva on the western side of Lake Garda. They are now within six miles of Riva, which is the only important town on this lake.

On the western front the only important actions, according to the brief French report, consisted in the repulse of German attacks on the Calonne trench and near Metzeral. On the other hand, Berlin claims that the French attacks at all points were repulsed.

The Munitions Bill will not become a law until next Thursday, the committee stage having been postponed at the request of David Lloyd George, minister of munitions, for further conference with the workers.

THIS MAN STARTED THE WAR, SAYS AUSTRIA

Wogo Tankoschich, the little man here shown, is charged with hatching the plot for the assassination of the Austrian Crown Prince and his wife, the demerit of which precipitated the present great strife in Europe. Tankoschich is now a major and is now in command of a committee of officers in the Serbian army.

The assassination occurred one year ago yesterday. The German pretext for the war has fallen to pieces in the light of the revelations of eleven months' war.

Declaration of War Against Turkey Likely to Be Followed by Despatch of Fleet to Straits

Bombardment on Lefty Peaks Successfully Carried On With Batteries Far Out of Sight—Papal Secretary of State Denies Categorical Serious Statements in Recent Interview Accredited to Pontiff.

Paris, June 28, 9.45 p.m.—Announcement was made at the French ministry of war today that according to the Italian press Italy has broken diplomatic relations with Turkey. Italy, it is added, will send troops to the Dardanelles.

ITALY'S FLEET LIKELY TO STRAITS.

Berlin, via London, June 28.—The Italian newspapers are jubilant, says the Overseas News Agency, over the announcement that Italy is to participate in the operations against the Dardanelles by sending a fleet, under the Duke of the Abruzzi, to release the larger British warships for important work elsewhere.

A declaration of war by Turkey is said to be considered imminent, and the Rome newspapers are quoted as expressing the belief that Italy's action will signify a new era in the politics of the Orient.

GERMANY FEARS BREAK WITH BALKANS.

Berlin, June 28, via London.—The visit of Chancellor Von Bethmann-Hollweg and Foreign Minister Von Jagow to Vienna was not caused by a change in the political situation, according to the Frankfurter Zeitung, but was made merely for the purpose of continuing the discussion of questions bearing on the efforts of the Entente powers to win over the Balkan states.

MONTENEGRINS WIN IN ALBANIA.

ITALIANS BOMBARD WITH PARABOLIC FIRE.

Udine, Italy, June 28, via Paris.—The Italian bombardment of Malborghetto continues. This is a concave phase has been repeated daily since the bombardment of the Austrian positions along the front of the Dolomites began on June 12. To understand its meaning one must realize that the struggle is occurring in the very heart of the mountainous region which rises between the Italians and Austrians like a titanic wall.

The work accomplished by the Italian in this region is described as a bombardment of the position which rises between the Italians and Austrians like a titanic wall.

When everything was ready the Austrians bombarded the road and made the Italian position untenable. The Italian garrisons then decided to bombard Malborghetto by the Dolomites and placed their batteries behind the mountains, where the Austrians could not see them.

Enthusiasm on the Italian side was indescribable.

The king shook hands with the officer directing the gunnery, and he was also warmly congratulated by the French officers.

PORTIONS OF INTERVIEW WITH THE POPE REVEALED.

Rome, June 28, via Paris, 3.55 p.m.—An interview published in the Corriere d'Italia this morning with Cardinal Tisserant, the papal secretary of state, arouses great interest in Rome, as it is entirely taken up with the interview obtained last week by Louis Latapie, a member of the staff of the Paris La Liberte, with Pope Benedict XV.

The secretary of state says: "M. Latapie invented entirely many grave assertions. You must remember that a phrase isolated from the context can represent faithfully a thought, or what is worse, it gives a meaning entirely false.

"For instance, take the quotation regarding hostages in Berlin. What confusion! The pontiff is made to mix the Jews of Galicia, the Austrian priests of Cremona and the Belgian prelates, all of which, according to M. Latapie, was never mentioned, as the Vatican could not condemn Russia on the sole affirmation of Austria-Hungary.

"The Pope was informed that Italy had taken some parish priests of the towns occupied as hostages, but the Bishop of Cremona informed him that they were being treated with every respect, and the pontiff furnishes them with funds for masses. The Pope knows all this perfectly. How, then, could he put them in a category with the Belgian and French hostages, or with the Jews of Russia.

"With regard to Gen. Von Bissing, the German governor of Belgium, neither the holy father nor the secretary of state ever received a letter or a communication from him directly or indirectly. Thus the Pope could not refer to such a letter, and he did not. The letter was born of the fervid imagination of M. Latapie.

Cardinal Gasparri denies that Pope Benedict said: "It was under the pontificate of Pius X." when asked by M. Latapie if it was necessary to inquire whether the neutrality of Belgium had been violated, but the secretary of state does not say what words the pontiff used.

POPE ENTIRELY NEUTRAL AFTER WAR DECLARED.

"But much graver is the confusion of M. Latapie when he speaks of the relations between the Holy See and Italy," continued Cardinal Gasparri. "The following are the facts: (Continued on page 8.)

U. S. REFUSES TO RECOGNIZE BELGIAN'S RIGHT TO DESTROY NEUTRAL VESSELS

Frye's Sinking Not Matter for Courts

Washington, June 28.—By agreement with the German foreign office the state department made public tonight the text of the note sent on June 24 by the United States, asking Germany to reconsider her refusal to settle by direct diplomatic negotiation, instead of by prize court proceedings, the claim presented on behalf of the captain and owners of the American ship William P. Frye, sunk with her cargo of wheat by the commerce raider Prinz Eitel Friedrich.

Under the terms of the 1864 treaty, prize court proceedings are unnecessary, and not binding upon the United States. Right to Destroy Ships Denied.

Aside from the question of how the indemnity should be paid, the United States to accept the contention that Germany has a right to stop the carrying of contraband by American ships, and the construction of the contraband and the ship carrying it.

While no mention of submarine warfare was made in either the 1864 or 1865 treaties, the present refusal of the United States to accept the contention that Germany has a right to stop the carrying of contraband by American ships, and the construction of the contraband and the ship carrying it.

If the government of the United States persists in insisting that Germany is not to be held responsible for the destruction of the contraband and the ship carrying it, the United States will not be bound by the provisions of article 19 of the treaty of 1795 between the United States and Prussia, which is continued in force by the treaty of 1828, justified the commander of the Prinz Eitel Friedrich in sinking the William P. Frye, although making the imperial German government liable for the damages suffered in consequence, and that each ship must be indemnified by the amount of indemnity to be paid, that question must be submitted to the German prize court for determination.

The government of the United States, on the other hand, does not find, in the treaty stipulations mentioned, any justification for the sinking of the Frye, and does not consider that the German prize court has any jurisdiction over the question of the amount of indemnity to be paid by the imperial German government on account of its admitted liability for the destruction of an American vessel on the high seas.

"For these reasons, even if it is assumed, as your excellency has done, that the cargo was contraband, your contention that the destruction of the vessel is justified by the provisions of article 18 does not seem to be well founded."

The note concludes by suggesting that the imperial German government "reconsider the subject," and "the government of the United States renews its former suggestion that an effort be made to settle this claim by direct diplomatic negotiations."

CANADIAN DEEDS OF BRAVERY WILL INSPIRE AN ILIAD

Officer Writing from Front Tells of the Gallant Stand of First and Third Battalions—Two Regiments Under "Dry Canteen"

London, June 28.—(Montreal Gazette Cable)—Major J. L. Newman, writing to an officer at Shoreham after the fighting of June 16 and 18, in which the First and Third Battalions were particularly engaged, says:

"One 'old box' wiped out eight men of my platoon. The third man following me was killed. It happened while coming up the communication trench, about fifty yards behind the line trench. Captain Morrison, of the Engineers was killed by his explosion. I thought my time had come. I felt as if I was in a vise with my hands being squeezed out of me. I was stunned, but escaped without even a scratch. They shelled the devil out of us, and I saw some awful sights. Our trench was full of killed and wounded, some torn to bits. It is wonderful how anyone emerged alive."

The description from British headquarters today of the recent actions is thus commented upon by the Evening Standard: "The Canadians have taken part in some of the most furious fighting of the war. They have not only done all that was expected of them, but much more. Their deeds of bravery would make any man an Iliad, which a Canadian poet may some day write."

The statement appearing in the Canadian papers of June 28, to the effect that every regiment of the Second Division had been transferred to France is not supported by the facts. The Montreal Gazette correspondent was at Shoreham on Sunday, and saw many battalions, and also conversed with the officers of the headquarters staff, none of whom entertain any idea of an immediate move.

A church parade to a service conducted in the Garrison church by Captain Hughes, under Colonel St. Pierre Hignault, the 4th Highlanders, and Captain the Rev. Gordon, of Winnipeg, was attended by several Canadian units yesterday.

Two battalions at Shoreham are being run under a "dry" regime, they being the 21st, under Colonel St. Pierre Hignault, and the 4th Highlanders, under Colonel Thompson. Captain the Rev. C. W. Gordon told the Gazette correspondent that he had seen nothing to confirm him of the advantages of a "wet" canteen.

FRENCH BARK SUNK WITH CARGO OF BARLEY.

London, June 28, 6.50 p.m.—The French bark Dumfriesshire, of 2,665 tons gross, which sailed from San Francisco, January 22, for Dublin with a cargo of barley, was sunk today by a German submarine.

The crew was landed at Milford Haven, Wales.

MORE BOMBS DROPPED AT FRIEDRICHSHAFEN

Paris, June 28.—The following official statement was issued tonight: "The day has been relatively calm on the whole front. There has been an artillery action to the north of Souchez, at Neuville and at Rodincourt. Arras has been bombed by heavy guns."

The enemy attacks against the town of Glinery were particularly desperate. In the course of our counter-attacks here we took prisoners belonging to the regiments of the Austrian Fourth Division.

"Thrown back to his point of departure, the enemy remained entirely passive the next day.

"The enemy's advance on Pomachoff, Bels and Kamionka (in Galicia, north of Lemberg), continues.

ROLLING MEN FOR WORK ON MUNITIONS

while the left, largely Socialist, sided. The feeling among members evidently rising high, the stormiest in parliament since the war began.

Accombray affirmed that he did not wish to criticize the leadership of the cabinet, but solely the cabinet. Premier Viviani admitted that the government had made mistakes, but that it always willing to correct them in any way to do so without delay. He stated that "not only members of the cabinet but every deputy has the duty to come and go and to observe the military organization" was read with great applause.

That is the very spirit of the policy," cried M. Bedouce.

Time for Pessimism.

Premier Viviani continued, frequently interrupted by frantic applause, urgency of action.

The present hour," he said, "is no time for pessimism. France goes to the very end. The task will be hard, and it may be painful, but we will go through. We have a valiant army, admirable leaders, and the nation's patience and confidence is inviolable. Let everyone be quiet, let us come to fight and some at home some duty it is to pronounce no word of discouragement."

The members of the chamber, who were listening to the peroration, fell into uncontrollable applause, and as the premier concluded, the cries pressing forward to congratulate him.

Accombray sought the floor again, and vociferous protest, deputies in parts of the chamber crying: "That's enough." He finally succeeded in shouting the words: "This government is a lie."

Go and say that in Berlin," called a voice from the gallery.

Great disorder followed, which the president of the chamber calmed. The majority of the deputies obviously in disagreement with M. Accombray, and the hostile interruptions ceased until he finally sat down.

Premier Viviani then arose and the chamber instantly became quiet. The premier expressed his regret that M. Accombray had not interpellated the government in the usual parliamentary manner.

Industry Thriving.

Paris, June 24.—The ministry of labor completed an inquiry into the effects of the war upon employment. In 1910 industrial and commercial companies employed 1,097,000 men in ordinary work, it was found that 65 per cent were employed in the month of April, 1915, remaining 35 per cent do not represent the actual unemployment, because 24 per cent of the total number or to the war is now with the colors; that actually only 11 per cent, including both sexes, were unemployed in April, as compared with 17 per cent in 1914, 32 per cent in October and 42 per cent in August.

The figures, together with statistics issued by other ministries, indicates continuous improvement in the industrial and commercial situation in France since the opening month of the war.

The cargo of the Neches was loaded at Rotterdam, and the steamer was on way to New York when she was seized.

The shippers maintain that the cargo of Belgian origin.

This is the second time that the shippers have been seized by the British authorities. Several weeks ago she was taken on a voyage from the United States to Holland, with 4,000 tons of iron, and the steamer was allowed to proceed, instead of having to journey to a neutral port, as the Netherlands Overseas said would take charge of it.

Evening Delay.

London, June 24.—With the object of avoiding undue detention of vessels with small portions of their cargo ordered to proceed to a neutral port.

General Skinner has proposed to the British government that such parcels should be unloaded at Kirkwall, in Scotland, and the steamer allowed to proceed, instead of having to journey to a neutral port, as the Netherlands Overseas said would take charge of it.

Reasons Given for the Removal of Passengers.

London, June 24, 9.26 p.m.—An agreement has been reached between the Danish and British governments relative to the supply of coal from the British Isles to Denmark, according to the exchange Telegraph's Copenhagen correspondent.

A special bureau, the correspondent says, will be established in Copenhagen to deal with coal coming from England and Scotland. Eight coal steamers are in Copenhagen today from England.

Irony.

"Lippincott's" the summer day, I went my way, and brought me to a stop straight before the open door of an ironmonger's shop.

And, at a whim, I said to him, "Oh, ironmonger, dear, tell me, I pray, why do you stay moping your iron here?"

Well, well, you see, he said to me, "I'm going my iron, for when I see many a lot, much coin I've got 'To pay my debts to men."

Oh, then," said I, "the while you ply your ironmonging trade, for ample fee, pray me to me 'The best iron you have made.'"

The iron you seek I mang last week," he said; "but more I'll get."

"There has been no important development along the entire front. In Carnia, mountain artillery was used with difficulty to a summit, and used effectively on the enemy's camp on the other side of Valle Piccola. In the theatre of operations bad weather continues.

RUSH SUPPLIES FOR ALLIES OUT OF NEW YORK

Bethlehem Steel Company Said to Be Delivering 35,000 Loaded Shells Every Day

LEE-METFORD RIFLES READY FOR EXPORT

Liberal Member in British House Recalls Premier Asquith's Statement That Allies Have Not Been Hampered for Lack of Equipment—Report That Belgian Harvest is Reserved for Civilians.

New York, June 28.—It was reported here today that several concerns making war supplies for the Allies had begun shipments nearly a month ahead of the schedule previously indicated.

Shrapnel shells and explosives have been going aboard vessels lying in Gravesend Bay, about three miles off shore, for about a week now. Every day huge lighters, flying a red flag, denoting that they carry explosives, are being sent down New York harbor, and as they pass out of the Narrows and head over into Gravesend Bay, the waiting steamers also haul up red flags to warn all shipping to keep away. Sometimes as many as three lighters are lying around the vessel, discharging shells and cases of cordite, dynamite, or melinite, into the holds. The ammunition now being delivered, it was said, was to be sent straight to France.

The Bethlehem Steel Company was today reported to have been sending out 35,000 loaded three-inch shrapnel shells for the British field artillery every day since last Monday. The Dupont Powder Company was also, it was said, delivering considerable shipments of new explosives, and it was understood that the Stevens Arms Company, whose plant was bought by the Westinghouse Electric Company for the purpose of turning out Lee-Metford rifles for the British army, was beginning to deliver guns for export.

PREMIER ASQUITH TAKEN TO TASK.

London, June 28.—Premier Asquith's authority for the statement in his speech at Newcastle, April 20, that neither Great Britain nor her Allies was hampered by a lack of munitions, was again demanded of the cabinet leader in the house of commons this morning, and his refusal to give information on the subject was met with the assertion that his statement was "absolutely without foundation."

Sir Arthur B. Markham, Liberal member for the Mansfield division of Nottinghamshire, who raised the point, angrily charged the premier with perverting the truth, attempted to heckle Mr. Asquith. Sir Arthur said the original statement was a slur upon Field Marshal Sir John French, who was in no way responsible for it.

Mr. Asquith's only reply was that Sir Arthur Markham was raising just the sort of point which would be most undesirable for both the interests of the army and the campaign to raise a larger army of volunteers, and that the premier refused to be drawn further. Sir Arthur blurted out: "Is it in the interests of the nation that the prime minister should make a statement which is absolutely without foundation?"

Cries of "Shame" and protestations of "It's the truth" led to great excitement.

BELGIAN HARVEST ONLY FOR CIVILIANS.

London, June 28.—Herbert C. Hoover, chairman of the American Commission for Relief in Belgium, has concluded an agreement with Gen. Von Bissing, military governor of Belgium, providing that the wheat and dry crops in the zone occupied by the Germans shall be reserved for the civilian population.

Aeroplane Over Jail Where German Prisoner Confined

Windsor, Ont., June 28.—The Sandwith Company's first Essex Funnels was mobilized early this morning, and was under arms for several hours, as the result of the appearance of an aeroplane over the Essex county jail, which William Lafter, the Detroit German under arrest in connection with last week's dynamiting outrages here, is confined. Scores of citizens declare that they would retain entirely from attacks on ships of any nationality primarily used for passenger traffic, while continuing to devote chiefly to the transportation of contraband.

The fact that Ambassador Gerard took occasion to predict informally the nature of the reply was regarded as significant in official quarters here, where it was pointed out that the ambassador's forecasts in the past had been conservative and consistent.

Ambassador Gerard understands the German official purpose to be to make concessions which will affect the use of the submarine as a

The three-year-old daughter of Edward Cobham, 31 Market Place, West End, suffered a severe face wound in being struck by a piece of shell from a No. 22 cartridge while she was near a fire in the rear of her home, on Thursday afternoon.

Dr. F. H. Neve, assisted by Dr. J. McCarthy, rendered medical aid to a piece of shell and other foreign matter were removed from the child's face.

The fire near which the children had been playing had been started by a child, their grandfather, who was carrying a roof. Whether the cartridge had been thrown into the blaze by one of the children or whether it had been a bullet from the shell, has not been ascertained. Fortunately, the bullet did not strike the child, the wound would probably have been more serious.

The case of the piece of shell struck on the left side of the face, near the nose, and caused a deep cut.

WEDDINGS

At the residence of Mr. and Mrs. T. H. Barker, Laticreville (N. B.), was the scene of an interesting event at 6:30 o'clock Wednesday evening, June 16, when their eldest daughter, Edith Earle, was united in marriage to Hollie Gardner Post of Plaster Rock (N. B.). The bride, who was given away by her father, looked charming in a dress of white with a fashionable bolero effect. She wore a Juliet cap with veil and orange blossoms and carried a shower bouquet of white carnations. The groom was supported by Mr. and Mrs. Barker. The wedding was a simple and charming affair. The bride and groom were accompanied by their parents and a few friends. The ceremony was performed by Rev. F. A. Corey on the lawn, under the shade of an apple tree just bursting into bloom.

55TH BATTALION 340 MEN SHORT

Camp Sussex, N. B., June 27.—The usual church parade took place this morning under command of Captain W. F. Woodbridge. The different denominational units paraded to their respective churches, the Roman Catholics under command of Lieutenant F. G. Croghan; Anglicans, Major J. B. McLeod; Methodists, Major W. J. Osborne; Presbyterians, Lieutenant W. H. Thompson; Baptists, Major F. H. Rowe. Captain Thomas presided in the Baptist Avenue Church. The Sussex band accompanied the parade from the grounds and on the return as well.

The song service held on the grounds at the close of the church service was a great success. The church choir assisted, led by a concert. Many of the old songs were sung as only the soldier can sing them. Sergeant Master and Mr. Perkins rendered instrumental solos. The service was conducted by Chaplain Thomas and prayer was offered by Rev. Mr. Macdonald. A great many people from the town were on the grounds.

Field officer for the day was Captain W. E. Forbes, and Lieutenant B. Smith was orderly officer. Mrs. Jones, wife of Major H. S. Jones and children, and Mrs. Donald, wife of Major C. J. Donald, were guests at the camp today.

Each day some revelation is given of the latent musical talent of the battalion. On Wednesday, an impressive concert was given by a newly formed month organ band of "D" Company. Other musical numbers were rendered and all who had the privilege of hearing it were delighted. The concert was first class in every particular.

The last report showed 840 recruits enlisted for service, so that 340 men are still needed. It will indicate a serious condition indeed if the gap in the ranks is allowed to remain. Four men were attested to "A" Company on Saturday, and three to "C".

The recruits have not been coming in very numerous during the last few days. Rumors have been current around the town for some days that there is a possibility that the battalion might be moved to Valcartier before very long. There is a very general feeling that such a step would make recruiting to full strength a very difficult matter.

The weather on Saturday morning was sufficiently fine to permit of bringing the grounds back to more normal conditions and enabled routine work to be done. In the afternoon the usual half holiday was given, but the enjoyment of the day was lessened by heavy thunderstorms. Officers for the day were, field Captain G. H. Campbell; orderly, Lieutenant W. H. Thompson; rationist, Lieutenant T. H. Campbell; and sergeant, Lieutenant J. B. McLeod.

The arrival of the Telegraph on Saturday was a matter of more than ordinary interest with its reproduction of the photograph of the Duke of Connaught and the commissioned officers of the battalion. The paper's enterprise was appreciated.

In the baseball contest this afternoon company "A" carried off before it, first defeating "C," and then defeating "D," in a game that was a real treat to the boys. Lieutenant Brooks acted as umpire with satisfaction to all.
