wish to lodge all the authority and power of the Society in a general council. In their opinion the Society should work not only for labor reform, but for the political classes, and they are struggling to turn the organization into an immense edgine with which to bring four radical changes in the condition of the workingmen of the manned to the same of the sa cobraged by this success, a motion was in troduced to remove the Cauncil to this city, by which it was lioped to secure a freer field of action, and also, it was charged, to place it beyond the power of attendance of queathed to her \$250,000 a year in land years ago discharged from the insane place it beyond the power of attendance of queathed to her \$250,000 a year in land certain members of the other faction. This motion was carried by a majority of three, the number of votes being fifty-seven.

Unfortunately however, the defeated party refused to submit. The British, Swiss, Spanish and Italian delegates at once called a meeting, at which measures were taken to form a European confederation, separate from the Marx and French Companying faction.

An improvement on the Cardiff Giant than the faction of the faction

munist faction. At this preliminary neet ing it was resolved to hold a general congress of the disaffected members in London. This Congress adjourned yesterday without definite action, although a majority of those recently by the death of a pet cat that she mother Mrs. Collardier on Parker street. present were in favor of seceding absolutely from the Society as at present managed, and a resolution was passed condemning the action of the neeting at the Hague. According to the meeting at the Hagus-According to the meet trustworthy sta-sistics, the total number of Internationals in the world does not exceed one hundred housand. The largest number are said thousand. The largest number are said to be in France, although the disfavor into which they have fallen in that country since the atrocities of the Paris insurr tion, causes them to conceal their reastrength. The number before 1870 was estimated at about forty thousand. In England there are eight thousand paying members, and in this country perhaps as many more). The rest are distributed among the different countries on the Euro

The "Sidonian" is discharging her cargo

The Bazaar at St. Malachi's Hall last evening was, as usual, very much crowded. The young ladies who fully understand their business were very attentive to the gentlemen, whether at the table, the wheel of fortune, the house that Jack built, or the refreshment tables, and as a natural consequence succeeded in coaxing a considerable amount of cash from their pockets. Although the sales last week were large the bazaar still

contains many articles of value and usefultime on she possessed full control of her faculties until her death, which occurred recently.

Professor Soret, in delivering a most interest ing report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palse of excellency unanimously decided in favor of Messas. J. M. Badollet & Co. This firm having carried of the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Sole prize by an authority of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department.
