## Awful Conflagration, AND TERRIFIC EXPLOSION IN NEW YORK CITY!!

200 BUILDINGS AND STORES BURNED! 20 OR 30 LIVES LOST!

NEW YORK, July 19, 1845.  
Messrs. ROBERTS & BEACH:  
Gentle: One of the most terrific fires that ever occurred in this city, broke out this morning about 3 o'clock, in a packing box maker's in New street, the flames from which communicated to an adjoining warehouse containing saltpetre, which exploded with three terrific shocks, at 1 1/4 to 4 o'clock, carrying away the building and two other warehouses in the vicinity, and spreading death in every direction among the firemen on the ground. The deaths are variously reported at twenty-five to fifty.

Some of the fire engines near the scene were shattered to atoms. The three explosions were accompanied by shocks resembling those of an earthquake, and so powerful as to shatter windows within a circuit of one mile. The doors of the American Exchange Bank in Wall street were burst open with a loud crash. The City Bank doors also burst, as well as the door of warehouses and buildings in the vicinity. Massive iron doors and window shutters were bent and twisted in every direction.

The streets or buildings every where in the vicinity bear marks of the explosion. The wounded firemen were taken into the Hotel in the vicinity and every attention paid to them. At the present writing—half past seven o'clock, it is impossible to say how many lives are lost, nor is it known how many may be in the ruins.

The explosion not only carried away three buildings, and shattered doors and windows, but it also carried flame and burning timber into the adjoining warehouses, and thus encouraged the flames raged with intense fury. The Mayor is on the ground, and the blowing up of warehouses has been decided upon as the only effectual mode of arresting the flames, which have got beyond the control of the Fire Department.

The buildings that stood on the following streets, are in ashes, with their valuable contents:  
NEW STREET—Both sides—From near Wall street to Exchange Place, and from the latter to Beaver street—thirty or forty stores—and contents valued at \$400,000.

ON BROADWAY.—The splendid hotel known as the Waverly House, (which lately escaped in the great fire of 1835, and about twelve warehouses adjoining—valued at 200,000.

BROAD STREET.—Both sides.—Wall street to Exchange Place, and Exchange Place to Beaver—loss \$600,000. Still burning, but will, it is believed, be arrested within the boundary named.

EXCHANGE PLACE.—From Broadway to Broad, and from Broad to William—valuable silk warehouses and dry goods stores—40 buildings in ruins—silk burning. Loss \$600,000.

BEAVER STREET.—A few buildings only are on fire here, and the firemen are working with the greatest energy to save the street. It will be almost a miracle if they succeed, for they are already fatigued and the morning is sultry.

The firemen deserve great praise for their successful efforts thus far. Looking at the origin of the calamity, it is greatly to their credit that they have accomplished so much, the flames being under their control.

It is believed now that it will not be necessary to blow up any buildings—thanks to the energy of the Fire Department and a good supply of Croton water. The Chief Engineer and the City Authorities, with the Mayor, are on the ground, exerting themselves with the greatest energy. The firemen are now trying to arrest the flames in the rear of the Mechanics' Bank.

much more damage.  
SUNDAY MORNING, July 20, 9 o'clock, A. M.  
FURTHER PARTICULARS.

We are indebted to Adams & Co's Express for the latest New York papers, containing accounts of the conflagration. We continue our account of this terrible fire—bringing the particulars up to 4 o'clock, P. M., Saturday.

Between William and Broad streets, on the South Side of South William street, the stores are all saved, except Nos. 33, 31 and 29, which are entirely burnt down.

10 O'CLOCK.—The large granite house of Robert Ray, Esq. No 15 Broadway, is destroyed. Three 4 story houses adjoining, 17, 19, 21, on the corner of Morris street, belonging to G. G. Howland, Esq., are also all destroyed, and the fire is progressing down Morris street.

11 O'CLOCK, A. M.—The Mayor has issued the following PROCLAMATION.  
G. GEN. SANDFORD is hereby requested forthwith to order out a company of Horse, and such force as he may deem necessary to protect the property of our citizens.

All Persons are requested to render assistance on this great public calamity.  
W. F. HAVEMEYER, Mayor.  
June 19, 1845.

Col. Bankhead has sent over a detachment of marines from Governor's Island, who, under the direction of the Chief of Police, were placed on guard over the property piled up in and around some of the most crowded portions of the City.

11 1/2 O'CLOCK.  
The fire on the east side of Broad street, towards Wall street, was checked by the substantial building No 15, occupied by William H. Franklin, auctioneer, on the westerly side by store No. 20, occupied by Tobias and Co. The fire, consequently, did not reach the new Custom House stores, 12 and 14 Broad street.

12 O'CLOCK.—We learn that it is pretty certain that the Insurance Companies will be able to pay all their losses. This is indeed good tidings.

All the houses on Marketfield street, comprising the whole of the street, from Broadway to Broad street, are all burnt. The houses on north side of Stone street to Whitehall street, are all down except the two nearest Whitehall street.

The fire extended on Broadway on the East side from the Waverly House to Market street, both corners of which were burnt. The row of houses on the south side of the Bowling Green is not burnt.

A Hasty Estimate of the Loss.—The loss is very great, certainly, greater than that suffered by all the fires since 1835, but we are confident far less than by that fearful calamity.

Number of Buildings (Estimated).—Broadway both sides and Whitehall street, 50. Exchange st, all stores and warehouses 20. Broad st, from public stores to Stone st. 60. Beaver street—Finest stores in the city, 25. New street, between Broadway and Broad street—mostly rear build- 15. ings, 10. Marketfield street, 10. Stone street, 10. 190.

We are informed by one of the officers of the Company that the National Fire Insurance Company have \$28,000, risks on the Fire District.

Williamsburg Fire Insurance Company, No. 74 Wall-street, we are informed remain with their full capital, the amount of their losses being very inconsiderable.

If we had language to express the admiration and respect which every citizen in New York feels this moment for the Firemen, it would be quite unnecessary. Their praises are in every mouth, and any particular mention of this or that company, where all did so nobly, would be invidious as well as superfluous.

Suffice it to say, that never did any body of men in a battle field show themselves more fearless of danger, more prompt, more skillful, more orderly, in the discharge of their duties. Wherever the fire raged hottest, there were the gallant fellows, their red shirts and faces glowing as if in emulation of the roaring flame, and their lives exposed to every wildest hazard of which it is possible to conceive.

It is indeed sad for us to be compelled to record the death of Mr. Cowdery, one of the members of Engine Company No. 22, whose engine itself was totally destroyed by the fire, and whose twisted iron skeleton was carried to its house on a dray. We did not learn what disposition had been made of the remains of young Cowdery—nor in fact, are we certain, although we believe, that they were recovered.

Several other firemen were more or less injured. Francis Platt, another member of 22, was blown by the explosion over two squares, and almost miraculously escaped, with a sprain (a severe one) of the ankle. He was carried on the roof.

Hugh Kelley, belonging to the same company, was considerably injured the head and breast, by the explosion—we believe not dangerously.

Timothy Waters, same company, slightly injured in cutting the door, and thus letting out some twenty or twenty-five of his companions, who otherwise would inevitably have perished.

Three fire companies from Newark, came over about 10 1/2 o'clock, and did gallant service throughout the war. They are Nos 3, 4 and 5. Thanks, gallant hearts!

Fire engine companies from Brooklyn, Newark and Williamsburg, repaired hither with their engines during the morning, and rendered valuable aid to our citizen firemen.

A chest of drawers thrown from a house in Greenwich street, just above Morris, fell upon the head of a lad, crushing his skull, and killing him almost instantly.

We regret being compelled to record a number of thefts committed by wretches on the property of the sufferers. Ten individuals we have heard of as being arrested for this infamous exaggeration of theft and robbery.

A fireman went into a Dutchman's on the corner of Pearl and Beaver streets and got some refreshments—going out—and not paying for it, and saying that the Company would settle. The Dutchman ran after him, and struck him with a knife or some other sharp instrument, laying his head open with a horrible gash. Several firemen then got together, entered the house and beat the Dutchman severely, who was at length rescued by the Policemen.

It is currently reported in Canada that nearly all the stock of the Toronto and Huron Railroad has been already taken up in London, and the most favorable disposition manifested towards the undertaking.

In connection with this line it is also said that a Charter has been recently obtained for a railroad from Boston to Ogdensburg; thus completely cutting off the route by the Erie Canal.

The Marquis of Exeter it is said, has received £35,000 for withdrawing his opposition to the branch line of the Midland Railway which is to pass through his property at Stamford.

It is said that Louis Philippe, in filling the vast galleries at Versailles with paintings and sculptures has expended upwards of eighty millions of francs—about £3,300,000 sterling!

AN ESSAY.  
ON MUSIC.—By HENRY ATKINSON.

In every nation, and in every age however dark or illiterate, the individuals composing the mass of mankind have ever been distinguished in the development of their mental as well as their physical powers, by certain peculiarities of a refined and dignified nature, which in their right application, elevate them (it may be by an invisible yet irresistible force) in the scale of society.

These characteristics although they are numerous and highly diversified in their natures; and susceptible of being tempered and modified to a great extent by human efforts; are but the developments of an inherent principle having its origin in the great author of nature, and which cannot be other, save regarded than as a boon bestowed upon man, by the due exercise of which he may contribute not only to his own, but also to the enjoyment of those by whom he is surrounded.

Dark and uninteresting indeed must have been the human mind had it been endowed with no higher qualities than those which minister solely to self preservation and animal gratifications, low indeed must have been the condition of man had his sources of enjoyment been confined to these alone; the present happy state of Society could never have existed—a blank leaf would have been presented in nature's volume.

Amongst those higher qualities of our nature is that through which we recognize and enjoy the sounds of Music; and which both for the sublime feelings it is capable of producing, and its utility stands preeminent. It is preeminent in sublimity because it awakens in the mind some of the most delightful emotions of which it is capable. Those persons in whom this principle presents a predominant development, and who have duly cultivated the faculty, on being seized by a combination of sounds, are at once transported to the regions of ecstasy—abstracted from every thing around them, their whole souls are absorbed by its charms. But these pleasures are not confined to a few, the principle which recognizes musical sounds is a universal principle, and consequently every one is susceptible of its influence in a greater or less degree. Nor are these pleasures enjoyed by the human race alone, but the whole of the animal world partakes in their blessings. Many of the beasts of the forest have been noted for their musical taste, while the vocal powers of the feathered tribe are familiar to every one. Instances have been recorded of the most insignificant animals becoming so excited by its influence, as to expire in a fit of ecstasy; and under what circumstances can we be more deeply impressed with the sublimity of Music, than in listening to the thrill notes of the warbling throng? But as the nature of music is so sublimed, so its influence is unlimited. It both elevates and soothes the affections. Go when your mind is embarrassed by the adversities of fortune, when your spirits are sunk into dependency, when there is sorrow in your heart and restlessness in your eye, listen to the sounds of music and your troubles are at once forgotten, the cloud which enveloped your mind is dispelled by its charms; and the anguish of your heart is replaced by joy.

Or go when you have a scowl upon your brow; when your soul is kindled with hatred and malice; when your lip is curled with some resentful indignant feeling, go touch the silver chord and it will as if by some magic art render the tumults of your breast hateful to you; the tempest of your heart will be at once soothed to a perfect calm.—(Music says Pope.)

"Music the sweetest grief can charm,  
And life's severest rage disarm,  
Music can soften pain to ease  
And make despair and madness please."  
Whoever despises Music says Martin Luther, I am displeased with him. Next to theology I give a place to Music, for thereby all anger is forgotten, the devil is driven away, and melancholy and many tribulations and evil thoughts are expelled. The ancient writings both sacred and profane are bound

with instances of its utility. The derangement of Saul yielded to the harp of David, and the hand of the Lord came upon Eliab as the Minister played.

In Egypt certain songs were legally ordained in the education of youth to promote virtue and morality. Polybius, assures us that Music was required to soften the manners of the Arcadians whose climate was heavy and impure, to which was attributed their vicious habits while the inhabitants of Cynoethe who neglected this science were the most barbarous in Greece. But music was not only regarded as essential to the promotion of virtue and morality by the ancients, but its medical powers were held in high esteem; it is said that diseases of various kinds were cured by its means. And even in modern times, where Music is cultivated to any extent, it is distinguished for its influence on the physical constitutions, especially when performed vocally, as it expands and strengthens the organs of the system and acts as a preventive of many diseases, to which the system is subject.

If it is a fact then, that a taste for Music and the knowledge of it is within the grasp of every one; and if such as we have stated be the natural effects of it, what shall we anticipate from a general initiation into its principles. If it enlivens prosperity or soothes sorrow, if it quickens the pulses of social happiness, if it can fill the vacancy of time which would otherwise be spent in vice or immorality, in a word if it can awaken all the finer feelings of the soul, why then limit its benign and blessed influence. It has been the chief delight of all former ages then let it be so in the present, let it gladden its mild light the honest hearth of poverty as well as the abodes of wealth.

Let Music swell the breast of every fair,  
Tis this that soothes their sorrows in despair,  
Tis Music's part to bid the tempest cease,  
Clear up the heart and fill the mind with peace,  
Then let it soar with healing on its wings,  
Not halt to pace till every being sings.

POTATOES.—A letter has been addressed to the editor of the Hartford Times, by Mr. W. Goddard, strongly recommending all persons interested in the potato crop to pull off the flowers as soon as they appear. Experience shows that flowers of the potato are produced at the expense of that organizable matter which gives it value to the tuber, and which is diminished in quantity in proportion to the number of flowers that have been fed. For flowers must exist and feed on something, and that something is what would if not removed by the flowers, descend beneath the ground and collect itself in the tubers. The more production of flowers is a loss, but the mischief is infinitely increased if the flowers are succeeded by the berries. The actual amount of loss produced by each truss of flowers is not ascertained; but it is probable that if the flowers abstract one ounce of organizable matter, the berries consume at least twice as much. A bunch of potato berries weigh half a pound. Suppose that each potato plant bears half a dozen bunches, that makes three pounds of worthless produce. An acre of potato ground carries about twenty thousand plants on an average, this gives sixty thousand pounds waste. But of this fifty-four thousand four hundred and twenty four pounds will be water, according to Mr. E. Sully's experiments, and only five thousand three hundred and twenty eight pounds, would according to his calculation, be the amount of the loss sustained, per acre by allowing the potato to flower and fruit.—[West Gardener.

The Symmetrical Proportion of the Human Foot.—In man, the foot ought to measure the one-sixth of his whole height; in woman, seven of her feet and a quarter (taking her own foot as the standard) are required to give her height. Hence, arise numberless beauties connected with both forms associated in our minds with the respective and individual character of the sexes; if the foot of the male be much under the one-sixth part of his height, the circumstance will give to his whole appearance an effeminate cast, his walk will appear (whether it be so or not) unsteady, vacillating and tottering like a column without a pediment; such incongruities never, so far as we have been able to observe, occur in the ancient Greek Statues, those divine models for the really are so) of the human form. On the other hand, if a woman's foot exceeds the one-seventh part of her height, this accident will give to her whole demeanour and walk a masculine character, which scarcely any artifice can subdue or soften. We say of such a person that the tread is masculine, coarse, and too firm: the eye skilled and chastened in the doctrine of human proportions, detects it almost immediately that is, if it really exceed considerably the due proportion, for very slight deviations from the standard will naturally escape observation.—[Dr. Cox's Lectures.

[Extract continued on our last Page]

## PUBLIC MEETING AT SAINT STEPHEN.

Pursuant to notice a Public Meeting of the Inhabitants of St. Stephen was held at the new School House on Tuesday the 10th July 1845 to consider the Legality and expediency of the Tax now being levied upon the parish for Building or purchasing a "Poor House" and other parish matters.

Mr. JOHN CAMPBELL being called to the Chair, and Mr. W. T. ROSE, nominated Secretary.

The Chairman stated the object of the meeting, and the manner in which the Assessment upon the parish for the present year had been ordered by the Justices of the County at the April Sessions, and requested the gentlemen present to enter into a discussion of the Question before the Meeting.

Mr. Campbell Esq. then addressed the Meeting and stated, That under an Act of the Assembly of 1786, the Overseers of the poor were empowered to purchase a "Poor House" but that the Justices alone without the action of the Overseers had no authority to order an assessment for that purpose. Mr. Campbell also stated that he was not aware of similar proceedings having been taken in any part of the province since the passing of the Act; and that when a poor House had been erected, an application had invariably been made to the Legislature and an Act passed for the purpose before an Assessment could be levied.

Mr. Peter Brown, informed the meeting that as one of the Overseers of the Poor (who were unanimous) he supposed that £150 would be sufficient for the support of the poor in this parish for the current year, and that he was informed, by Mr. Justice Rose shortly after the April Sessions that an order had been passed to assess £150 or £175 for the support of the poor—and a similar sum for the erection of a poor House. Mr. Brown also stated that the Overseers of the poor in this parish had taken no part in the proceedings and were not aware until after the order had been passed that steps were to be taken for the erection or purchase of a poor House.

James Fink Esq. stated that he had attended the Meeting of the Justices in Saint Stephen, preparatory to the April Session at which from the information they had received the Overseers of the poor they had resolved that the parish should be assessed £150 for the support of the poor—and that no action was made at the Meeting of the Justices of any Assessment being levied for the Erection or purchase of a poor House.

Mr. W. T. Rose stated that the Warrant issued by the Clerk of the peace, merely directed the gross sum of £250 or £300 to be assessed and paid over to the overseers without special mention for what purpose, other than for the support of the poor.

It was then moved by David Upton Esq. and seconded by J. Fink Esq. and unanimously Resolved, That the Warrant be annulled.

Resolved, I. That Wm. Porter and Alex. Campbell Esqs. be a Committee to examine the orders that had been passed by the Justices in Session regarding the assessment for the erection of a poor House.

Moved by W. Porter Esq. and seconded by A. Campbell Esq. and unanimously Resolved, II. That this meeting deem it expedient to assess the parish of St. Stephen for the erection of a poor House at present.

Moved by H. Eastman Esq. and seconded by A. Campbell Esq. and unanimously Resolved, III. That a Committee be appointed to ascertain the most economical and judicious mode of supporting the Poor in this Parish, and that in so doing the Overseers of the Poor be requested to co-operate with the Committee.

D. Upton, A. Campbell, } Committee.  
H. Eastman, J. Fink, }

Mr. MARR Esq. then called the attention of the Meeting to the subject of a public ship or "Hall up place" being reserved for the accommodation of the Public—when the Committee unanimously Resolved,

IV. That, in the opinion of this Meeting, it is expedient and necessary that a ship or Hall up place be formed at the public Landing Salt water, and that this meeting request the attention of the Justices to the subject and recommend the necessary steps be taken to accomplish this desirable object.

The meeting was then adjourned to Saturday 19th July at 4 o'clock, P. M.

JOHN CAMPBELL, Chairman.

At the adjourned meeting which was most numerously attended, Mr. John Campbell being again called to the chair, and Mr. James McBride, nominated Secretary. Alexander Campbell Esq. handed in the following report of the Committee appointed at the previous meeting.

St. Stephen July 19, 1845.

The Committee appointed at a Public Meeting held in the new School House, at the corner in this Parish on the 10th inst. to examine the proceedings under which a sum of £250 or £300 is attempted to be levied upon the Parish for the present year. Report. That they have examined the Record of the April Sessions at Saint Andrews, and the following entries Friday 11th April 1845—Present S. Abbott, W. Ker, J. Moore, J. P. Chisholm, P. Chisholm, D. A. J. Wilson, J. Allen, J. McNeil, J. L. D. D. Mowat and J. Snell, Esquires. That the Parish of St. Stephen assessed the sum of One Hundred and fifty Pounds for the support of the said Parish.

Sunday 12th April 1845—Present T.

Wyer, S. Abbott, J. Snell, D. A. Rose, W. Ker, J. Moore, C. R. Hatheway, Esquires.

Ordered—That the Sum of £150 be assessed on the parish of St. Stephen for the purpose of Purchasing a House for the reception of the poor of said parish, with the consent of the local Magistrates of that Parish.

One warrant of assessment has issued for £257 10s 0d being the amount of the above two orders with the annual per Centage for assessors and Collector, and that sum is now in course of collection.

W. PORTER, } COMMITTEE.  
A. CAMPBELL, }

It was then moved by Wm. Porter Esq. seconded by Alexander Campbell Esq., and unanimously Resolved,

I. That in the opinion of this meeting the attempt to assess and levy the sum of £150 upon the Parish of St. Stephen for purchasing a Poor House, is as illegal as it is, inexpedient and should be resisted by all fair and lawful means.

Moved by Mr. A. H. Thompson, seconded by Mr. John Mark's and unanimously Resolved,

II. That while we protest against the assessment for purchasing a Poor House, this meeting recommend the payment of the sum of £175 required for the support of the Poor as ordered by the General Sessions, and would respectfully suggest to the Magistrates of the Parish the propriety of causing the necessary steps to be taken to have that amount legally assessed and collected.

Resolved, That Alexander Campbell, Geo. S. Hill and Wm. Porter, Esqs. be a Committee to carry into effect the above resolution so far as can be done.

Moved, by Mr. Harrison Thomson, seconded by Mr. Mathew Hannan, and unanimously Resolved,

Resolved, III. That a Committee be chosen to solicit and collect subscriptions to raise the sum of five Guineas or more to defray the expenses of trying the Legality of the Poor House assessment and to retain Council for that purpose—but that no part of the subscription shall be taken up until it be ascertained that the collection of the said assessment will be continued.

Resolved, That Messrs. Thos. Hannan—Joseph H. Maxwell and James Porter be a Committee for the above purpose.

After some remarks from Mr. Robert Watson, David Upton Esq. and others, all tending to show the additional expenses that would be incurred by the Parish should a Poor House be erected—the Resolutions No. 2, and No. 4, passed at the former meeting were again read and unanimously adopted.

Moved by Mr. W. P. Libby and seconded by Mr. W. R. Buchanan and unanimously Resolved, That the proceedings of this meeting, be published in the Saint Andrews Standard.

JOHN CAMPBELL, Chairman.

For the Standard.

The Rev. Doctor Thomson, Rector of St. Stephen, having been hastily called to Europe, in consequence of the dangerous state of health of his Son;—his Parishioners through the Senior member of his flock, Samuel Abbot, Esq. presented him the following address on Thursday last, to which Rev. Doctor returned the accompanying Answer.

Yours &c. AMICUS.

St. Stephen, July 26, 1845.

To the Rev. SKEFFINGTON THOMSON, L.L.D. Rector of St. Stephen's Parish.

We the undersigned your Parishioners beg leave to avail ourselves of the parting moment to tender you this expression of our respect and affection—the ties which have connected you with us for nearly a quarter of a century as Rector and Pastor—as our Neighbour and Friend—cannot but call forth our most lively desires and earnest prayers for your welfare as you are about to cross the Atlantic and to be for a season separate from us.

We are sensible, Rev. Sir, that no eulogium of ours at this time can add to the high reputation you have so long sustained in this Province as a Clergyman, a Gentleman and a Scholar. We can only acknowledge with gratitude, a feeling sense of the many benefits we have derived from your labours among us both in and out of the Pulpit—your uniform kindness towards us in sickness and in health—the consolations you have by your ministrations afforded us from time to time under our afflictions and your able and indefatigable exertions for the promotion of our spiritual instruction and edification. We regret extremely, Rev. Sir, that your present call to your Father-land is in any way owing to circumstances of an afflicted nature and we will indulge the hope that you may find the object of your immediate solicitude in a better state of health than your fear now lead you to anticipate—and that it may please God yet to enable your Son to return here with you, to be a comfort to his Parents and friends—useful to the community and an ornament to his profession.

Allow us, Rev. Sir, to add the assurance that you carry with you our best feelings and sympathies and that we shall hope to witness your speedy and safe return to your family and to your pastoral care over us.

And may the blessing of Heaven accompany you—God grant you a short and pleasant passage to Europe and a happy greeting there with your kindred and friends.

(Signed)

Saml. Abbot, J. C. P., D. A. Rose, J. P. J. Maxwell, C. W. Josephus Moore, J. P. Joseph Connick, C. W. J. Grimmer, J. P. Tristram Moore, J. P. and 61 others.

(DR. THOMPSON'S ANSWER TO THE ADDRESS.)

To the Parishioners of St. Stephen, My Dear PARISHIONERS AND FRIENDS,

Your very kind Address is as unexpected as it is grateful to my feelings in this trying moment, which separates me from my dear flock, for the first time, during the space of nearly "a quarter of a century," that I have had the spiritual charge among you.—This expression of your affectional regard, is duly appreciated by me.—And it is a source of comfort to know that your prayers will arise to our common Father above, for me, during my voyage, and separation from you.—Be assured you will never be forgotten in my daily addresses to the throne of Grace.

I feel, my Dear friends, that I wished to be in all the relations of "Rector and Pastor of neighbour and friend," all that your kind address give me credit for having been, but I feel sadly conscious, that in too many instances, I have come far short of the measure of Pastoral duty among you, which I had traced out for myself.—As far as the feelings that ought to characterise the "Neighbour and friend" go, and the wish to cultivate these feelings, I have never been wanting; but this is all I can claim.

For my humble ministrations in the Congregation and among your families, when sickness visited them or death and sorrow overshadowed them, I can claim no other, or higher credit than that they were well meant, and never withheld, let the season or the weather be what it might.

My wish was and is to spend and be spent in the service of "Christ and his Church," and of you, that portion of his flock, committed to my charge.

I most sincerely thank you, for your kind sympathy with me, in the family affliction which calls me to my "Father Land," this is not the first time that my afflictions have been shared by your sympathy. It has pleased God at various times, to chastise my family by afflictions; and at such seasons the sympathies of you all, as expressed in a way never to be forgotten by myself or family, and of which we have ever retained a grateful sense.—I need your sympathy now, for it is indeed a hard trial, to be forced at my advanced age to leave my family and flock, and cross the Atlantic, with the impression on my mind that I shall be perhaps too late, to catch the last fleeting breath of a beloved son, whose return after a long and expensive course of studies I daily look for, in the full hope that he would have been "useful in this community," and not unworthy his honourable profession as a Physician. It may please God yet to give him to our prayers, but which while I would feign hope, I greatly fear.

I have one word to say to you beyond what your address would call for, but I am sure you will not think it out of place.

It is, that it adds to the distress of my separation from you, that it occurs at a time, when our own excellent Bishop, is about for the first time to visit us.—I am sure you will be prepared to pay him that attention which his high and holy office and his personal merits have a right to claim from you, and assist my representative, in more than compensating to his Lordships, and the Church for my absence.

Now my dear friends, to God's gracious mercy and protection, I commend you all, fervently praying that he may richly give you, of his Grace, both to will and to do, all his good pleasure; and that if we be permitted again to meet here below, we may re-establish an intercourse of love and mutual edification, but if this be denied us, that our blessed Redeemer may grant us the privilege of meeting in a happier world, to praise him who has loved us and washed us from our sins in his own blood and make us, Kings and Priests unto God and the Father for ever.

Your affectionate friend and Pastor, SKEFFINGTON THOMSON.

WEST INDIES.

Since our last publication we have received our usual files of West India papers from the several islands, and from Demerara.

TRINIDAD.—The favourable weather experienced in this Island during the last month has enabled the Planter to progress with his crop, which is now getting towards completion.—Business is dull, which is generally the case towards the end of the crop.

BARBADOS.—The operations of the Planter have been materially retarded in consequence of drought; copious rains had however fallen and the prospects had brightened.

DEMERARA.—At Demerara the weather in the early part of June was very unfavorable—it was very sickly, two Scotch Clergymen—Anderson and Watts, had died.

TOBAGO.—At Tobago the weather had been very unfavorable for the manufacture of Sugar.

DOMINICA.—We learn with regret that Fever has made its appearance among the Troops, (71st) and that one or two cases had already proved fatal.

All was quiet at St. Domingo.—Bermuda paper.

MELANCHOLY DISASTER.—A most melancholy disaster occurred on board the Ship Charlotte, Capt. Moran, on her passage from Belfast to this port, by which the Mate, and second Mate, and two seamen found a watery grave. On the 30th June, with a fine fair breeze and smooth water, three men were employed during the day on a stage painting the sides of the ship. About 5 o'clock in the afternoon, the Mate ordered a forth man on the stage to paint, which was however immediately countermanded by Capt. Moran, there being already as many men on it as it would safely bear. Shortly afterwards, the Mate voluntarily and wholly of his own accord, went on the stage, for what purpose is

not known, and in about 15 minute's time it broke in the centre, precipitating in a moment the Mate and the three others into the water. A boat with five men was instantly lowered and sent after them, and the ship, going at the rate of 7 knots at the time, with all sail set, the water still being smooth, was put about with all possible expedition, and every effort made to rescue the unfortunate men, but before the boat could reach them they had almost unhappily disappeared; some of them it is thought were unable to swim. Their names are as follows:—John M. Dickson, of St. John, Mate, leaving a wife and 5 children; Francis Mann, second Mate, son of Mr. Francis Mann, of this city; Ephraim Brown, seaman, of St. Martins; Charles Edwards, seaman, of Halifax. Capt. Moran, cautiously placed hand-ropes over the side of the ship, as safeguards for the men while at work, but they neglected to use them.—[St. John Observer.

Melancholy Accident.—It is with feelings of deep regret that we have to announce the death by drowning of Douglas Howard Peters, of Gagetown. It appears that on Tuesday afternoon, he, in company with his brother, Dr. H. Peters, was sailing in the Creek opposite his father's residence, when a sudden flow of wind upset the boat and precipitated them both into the water. Dr. Peters succeeded in holding on the boat, and was taken up almost insensible; his brother endeavored to swim for the shore, but unfortunately sunk before reaching it. He was a young man of much promise, and his sudden death will be long felt by his relatives and a large circle of friends, to whom he was endeared by many ties.—Nec Brunswick.

Great Stupidity and Humbug among the Post Office Authorities at Halifax, Nova Scotia.—The letters for St. John, sent to the United States. The Steamer Britannia, with the English Mails, arrived at Halifax, on Thursday last. The Eastern Mail arrived in St. John as usual, on Monday morning, from Halifax—when it was found that only a small portion of the English Mail had been sent through—and that the Post-office Authorities at Halifax had neglected to forward the Liverpool Mail Bag—but had sent it, through a mistake, from Halifax to Boston in the United States. Therefore, this correspondence in which the interests of our commerce are so much concerned, has not yet reached St. John:—by which piece of blundering and mismanagement, there cannot help following the most serious disappointments, and probably losses to parties engaged in the various branches of business throughout the Province.—[St. John Herald.

Among the passengers by the Britannia was the Right Rev. Dr. Walsh, Roman Catholic Bishop. His Lordship was most enthusiastically greeted by his flock—and on landing was driven to St. Mary's Chapel, where some proceedings took place connected with his resumption of authority in his diocese. From thence, after returning thanks for his safe arrival, and bestowing a blessing upon his congregation, the Bishop proceeded to his residence.—Halifax Times.

LATEST DATES.

Liverpool, July 4 Montreal, July 17

London, July 3 Quebec, July 17

Edinburgh, July 1 Halifax, July 16

Paris, July 1 New York, July 16

Toronto, July 17 Boston, July 16

THE GREAT WESTERN Steamship arrived at New York, early on the morning of the 21st inst., after a passage of 15-3-4 days from Liverpool, bringing 134 passengers.

A number of persons have dropped dead in the streets, and in their houses in New York, from drinking large quantities of cold water, during the hot weather.

SECRETARY OF THE PROVINCE.—It has been officially notified, that the Honourable John S. Saunders has been appointed Secretary of the Province—an appointment from the integrity of that gentleman, his knowledge of the duties required from his long public service, and from his affable and gentlemanly bearing to all, who may have business with him, are sufficient earnest, that this selection will give general satisfac-

tion throughout the Province, indeed this feeling has been already evinced in this section.

THE BAZAAR in aid of the funds for the purchase of an Organ for "All Saints Church" in this Town, was held in the Town Hall, on Wednesday last the 23d inst. The Hall was decorated for the occasion with the good taste and neatness of our townsmen—Bowers of evergreen interspersed with flowers, were formed round the room in each of which were placed the tables. At the head of the room opposite the entrance, at the extreme right and left, were full length figures of Her most gracious Majesty Queen Victoria, and Prince Albert tastefully decorated with roses, and in the centre on a crimson velvet cushion was a large gilt Crown formed with flowers and encircled in a wreath of roses intermixed with Thistles and Shamrocks which had a very pretty effect, and was universally admired. The tables were well filled with rare and in many cases elegant and costly articles. The Amateur Band who had kindly volunteered their services, played a number of favorite pieces of Music during the day and evening, in their usual style, and formed a grateful addition on the occasion. We noticed a number of ladies and gentlemen from the neighbouring towns of St. Stephen, St. George, Eastport and from cities of St. John and Fredericton who expressed themselves much pleased with the appearance of the Hall, and the arrangements generally. We are happy to add that upwards of £170 was received upon the occasion.

THE FISHERIES.—H. M. S. Scylla, Commander Sharpe, arrived off the harbour on Friday morning. She is last from St. John, and we understand has come round for the protection of the Fisheries in the Bay of Fundy. The recent order in Council admitting Foreigners to fish in the Bay of Fundy at three miles distance from the entrance of any Bay on the coast of New Brunswick and Nova Scotia leaves her little to do.

ST. STEPHEN.—A late and highly respectable meeting of the Freeholders was held in this parish a few days since, with reference to a Tax endeavored to be assessed by certain of the "powers that be," and from the unanimous and determined position adopted, by the people, its to be hoped a salutary check will be put to the arbitrary, extravagant and illegal proceedings, of those, who, for what motive is best known to themselves, endeavor to inflict a heavy and unjust Taxation upon the County.—Communicated.

THE WEATHER.—for the last week has been cold for the season, and a large quantity of rain has fallen, particularly during Sunday night and Monday morning last, which in many places beat down and broke the potatoe Stocks and injured the grain and hay crops—materially. Several fields of wheat in this neighborhood which had headed, are lodged, and we regret to say that considerable damage has been done to the crops generally.

THE CATHEDRAL.—Measures are in progress, for commencing the erection of the Cathedral, at the lower part of the City of Fredericton—near the site of Christ's Church. His lordship the Bishop has requested the aid of the St. John people.

Infringement on the Ladies Rights.—

Among the thousand, and one, Companies of the day, the London Times publishes a Prospectus of the "Patent Concentrated Tea Company." The advantages peculiar to the process for which this patent has been granted, are very numerous, the most prominent are:—I. The properties of the tea, are completely extracted; II. Its available quantity is augmented, and its virtues improved; III. The distinctive qualities of the Essence obtained are the retention of the identical flavour of the particular tea used; and a degree of strength secured before unknown. At this rate, a "drawing" of tea will become a matter of History.

CROTON MUTUAL INSURANCE CO.—We beg to direct attention to the advertisement of the Agent of this Company, in to days impression. The N. Y. Express in alluding to the losses of the Insurance Offices by the late great fire in New York, says:—We have great satisfaction in being able to state that the "Croton (Mutual) Insurance Co.," 35 Wall street, will not lose more than \$35,000 by the late conflagration, and having ample means, will honorably meet all demands against them with punctuality—leaving their original subscribed capital of over \$100,000, with a considerable amount of premium notes and funds still untouched and unimpaired—affording ample security to the community for the future.

This Company is well managed. The

officers have received considerable assistance in the smallness of the number of officers, and they will receive the full public.

It has been sized moon Calgen, or vital air.

To Septen is recour next.

L. Insurance Co.—We  
ion to the advertisement  
Company, in to days in-  
Y. Express in alluding to  
nsurance Offices by the  
New York, says:—We  
ion in being able to state  
Mutual Insurance Co.,  
ill not lose more than  
conflagration, and having  
morally meet all demands  
mutuality—leaving their  
capital of over \$100,000,  
amount of premium notes  
rushed and unimpaired  
urity to the community  
is well managed. The

officers have refused to take risks to a very  
considerable amount in consequence of the  
smallness of premiums and large sums re-  
quired on each risk by the applicants. We  
hope they will, as they deserve, continue to  
receive the favors of their friends and the  
public.

It has been computed, that two common  
sized mould Candles, consume as much ox-  
gen, or vital air, as an adult.

To CORRESPONDENTS.

every Tuesday and Friday, to meet the  
Steamer Portland, and will return as soon as  
the arrival of the Steamer is possible.

For freight or passage apply to  
JAMES McIL.  
St. Andrews, July 11, 1845.

N. B.—Consignees are particularly requested to  
pass their Entries on days of delivery, as soon as  
the Custom House is open.

## Notice in Bankruptcy.

In the matter of John W. Todd, and Seth  
B. Townsend, of the Parish of St. Ste-  
phen, in the County of Charlotte, Traders,  
against whom a fiat of Bankruptcy issued  
bearing date the twenty-second day of  
September 1843.

NOTICE is hereby given, that a Public  
Meeting of the Creditors of the said  
John W. Todd and Seth Townsend, will  
be held at the office of S. H. Whitlock,  
the Provisional Assignee, in St. Andrews  
in the said County, on Wednesday the  
Twentieth day of August next at noon, to  
take into consideration the expediency of  
selling the outstanding debts due to the  
said John W. Todd and Seth B. Townsend  
and all the interest of the estate of the Cre-  
ditors therein.

Given under my hand at Saint Andrews,  
the tenth day of July A. D. 1845.

H. HATCH,  
Commissioner of the Estate  
and Effects of Bankrupts for  
the County of Charlotte.

## NOTICE.

ALL PERSONS having legal Demands  
against the estate of ROBERT LIN-  
COLN, late of the parish of St. Patrick in the  
County of Charlotte, deceased, are request-  
ed to present the same to the Subscriber  
duly attested, within three months from the  
date hereof, and all those indebted to said  
Estate are requested to make immediate  
payment to

ALEXR. LINDSAY,  
Administrator.  
St. Andrews, 23d June, 1845.

## REMOVAL.

THE Subscriber thankful for past favours  
begs respectfully to intimate to his friends  
and the public generally, that he has removed  
to the house lately occupied by Capt. Mc-  
Gill, near the Church gate, in King Street,  
where he continues to carry on the Tailoring  
business in all its branches; and trusts by  
strict attention, to merit a share of public  
patronage.

THOMAS ALGAR.  
N. B.—A horse and wagon to hire, and  
to drive, if required.  
St. Andrews, June 3, 1845.

## St. Andrews Hotel.

WM. ROSS would respectfully  
inform his friends and the Public,  
that he has leased the Hotel lately occupied  
by L. L. Copeland which has undergone  
a thorough repair, and is now fitted up for  
the reception of Travellers and others. The  
situation is central being in the immediate  
vicinity of the Market Wharf. The man-  
ager pledges himself that no effort on his  
part shall be wanting to give satisfaction to  
all those who may favor this Establishment  
with their patronage, hopes to merit  
a continuance of that patronage so liberally  
bestowed upon him since his commence-  
ment.

N B.—An experienced Hostler and good  
Stabling for horses.  
Horses and carriages always on hand.

First Electric Newspaper Report.—The London Morning Chronicle exhibits one of the most beautiful triumphs of science in modern times. A railway meeting was held at Portsmouth, on Wednesday evening. At its conclusion, a brief report of the proceedings, describing the requisition calling the meeting, the resolutions, and an amendment proposed, the names of the speakers, the decisions of the meeting &c., was transmitted to London, a distance of ninety miles. The whole occupies a little over thirty lines of small type. Word after word was conveyed, over the ninety miles, instantaneously, and in little more than half an hour, the whole was written down, and ready for printing. This is the first report of the kind ever made, and is a magnificent triumph of science and art.

The Couch and Arms.—The New York Gazette tells the following capital story of a New York merchant, who, like many others in this world, had a great deal more money than brains.

A rich merchant of New York, who had made a retail business in the First Ward, went to London a short time since; and being desirous to astonish his old customers on his return determined to buy an English chariot. Accordingly he posted off to "Long Acre," where he examined a great variety, and selected a very handsome vehicle. The carriage maker, not knowing his customer, asked him what arms he would have on his carriage. "Oh," said the merchant, "I'll tell you about that tomorrow." In the meantime he examined the panels of several carriages in the Repository; and selected what he considered the handsomest arms, and directed the carriage maker to have a copy put on his carriage; the master of the Repository appeared very much surprised—stared, bowed very low, and complied with the request.

The merchant in the hope of avoiding the duty on the carriage, on his return to the United States, determined to use it a few times in London, and accordingly hired a pair of fine horses, and soon made his first appearance in Hyde Park. As may be supposed, he was stared at with wonder by the crowd; eye glasses were turned upon him, and the panels of his carriage door were the subjects of much whispering, remark, and speculation, for no one could tell who the strange nobleman was.

On his return from his second ride, two plainly dressed gentlemen followed the carriage in a cab, stopped opposite the merchants' lodgings, and pointedly introduced themselves. They presented the amount of the tax on the carriage, and the other left an invitation for the merchant to attend at the Herald office, to the astonishment of the son of Gotham, he learned for the first time, that he had assumed the arms of one of the Royal Dukes, and must pay the penalty; and further that he had made himself liable to a heavy tax for having assumed bearings on his carriage. It is almost unnecessary to add that the Ducal Arms were soon removed.

St. John's N. F. July 4.—The Rev. John McLennan, of Belfast, Prince Edward Island, arrived here a few weeks since, and during the period of his residence in this town, the congregation of St. Andrew's Church have enjoyed the benefit of his ministerial services. The reverend gentleman is eminently qualified for the high office of a Christian Pastor, by his zeal, ability, and scriptural soundness of doctrine. Being about to return to Prince Edward Island, a meeting of the congregation was held on Monday evening last, when a vote of thanks to him was unanimously passed for his voluntary exertions, and a suitable testimony of esteem was agreed on. The committee appointed to present the same had an interview with Mr. McLennan, on the 2nd instant, when Andrew Milroy, Esq., on their behalf, in the name of the congregation, assured him that they were all deeply sensible of his interested and able services in ministering to them the solemn offices of their religion, and in imparting to them instruction out of the sacred Oracles of God; and that it was their earnest hope that a good Providence would guide and bless him in whatever field of labour it might please the Almighty that he should occupy.

Mr. McLennan, in acknowledging this to them of their kindness, adverted to the circumstances which had mainly induced him to visit to this place. His desire had been very great to see and sympathize with the people and family of his late intimate and constant friend, the Rev. D. A. Fraser, and in the meantime to render such service as he was able to his bereaved flock. He expressed his high gratification he had received from his visit, and added that it would afford him more pleasure on any future occasion to be present in their difficulties, and to be instrumental, under God, in promoting the interests of the church of their fathers in this land.—Public Ledger.

We are informed that the congregation of St. Andrew's church have unanimously agreed on giving a call to the Rev. John McLennan, of Fredericton, N. B., to be their Pastor.—Ibid.

The contributions raised here for the relief of the sufferers by the recent fire at Quebec, amount to the sum of £2000, which, we understand, will be remitted by the Mail-packet to North America, which sails to-day for Halifax. Altogether, from various quarters in British North America and the continent, the amount raised for this humane and benevolent purpose will be very considerable.—Ibid.

Some fifteen bushels of blueberries, says the Boston Daily Mail, are now brought to this city daily over the Fitchburg railroad—which is about a berry apiece to each individual. Who says a railroad is not a feeder?

## SHERIFF'S SALES.

Real Estate of Daniel Graham 2nd August.  
Do. St. George Lime Company Aug 16  
Do. E. Dewolf, 6th Sept.

June 20, 1845.—26d.

The following Medicines are for sale by Henry McLeavy, St. Andrews.

## CONNEL'S MAGICAL PAIN EXTRACTOR.

The great healing value.—It seems hardly worth while that we should add our testimony to the overwhelming mass that has already been procured by that inestimable balm specific called Connel's Magical Pain Extractor, but we might as well say it cures anything we ever heard of for the rapid and thorough cure of the following complaints which have been tested in this city, viz: Burns, scalds, tender and sore feet, chilblains, wounds at length brought forth an ointment far superior to anything now in use. We advise every person to use this celebrated extract, as it not only effectually purifies the blood from all its morbid humors and unhealthy particles, but regulates the stomach, promotes digestion and gives increased strength and vigor. As an effectual alterative to the system, it is unequalled. Sold at 19 Tremont Row, only Price 50 cents per bottle. \$1 per dozen.

CURE FOR PILES.—For 5 years I was afflicted with the most distressing piles, and was cured by the use of the above mentioned medicine. I was greatly relieved upon the first use of the medicine, and after a few more applications, the piles entirely disappeared. My object entirely in making my case public, is hoping I may benefit the afflicted sufferer. L. E. THOMPSON, No. 4, Allison St.

ST. SINGULAR AND TRUE.—A lady called upon us the other day, and stated that her husband, son and herself, had been cured of rheumatism with the Indian Vegetable Extract and Liniment, sold by COMSTOCK & ROSS, 19 Tremont Row. She did not wish her name published, but gave us liberty to give it to any person afflicted, and have them call upon her and she would tell them the particulars.

It was a constitutional family complaint, and they have all been permanently cured with the above articles. This great remedy is worthy that the attention of the public, my 10 THE NAPLES HAIR DYE.—For some unaccountable reason, for the last one or two years, many young people, both male and female, have had the misfortune to have their hair turn permanent grey. We have been frequently applied to for something to turn the hair back to its natural color, which has induced us to go to much trouble and expense in order to furnish our customers and the public generally with a new and improved Hair Dye—one that is nearly effectual, and not the least injurious to the head or hair, for the moderate price of 50 cents per bottle. We have succeeded beyond our expectations. This article we offer to the public with great confidence. We say that it is the only tested one after time, before we could offer it for sale. This price is such that all can afford to use it, and its quality we believe to be superior to any ever before made.

COMSTOCK & ROSS 19 Tremont Row.

RHEUMATISM AND GOUT.—There are many things advertised and offered to the public for the cure of Rheumatism and Gout, that are of little or no account, they may relieve for a short time, but will not cure. We therefore feel it our duty for the benefit of the afflicted to say what we know of the *Heure's Nerve and Bone Liniment* and *Indian Vegetable Extract*, which is offered for that purpose. It is simply this, that it is the most extraordinary article we ever saw. To our certain knowledge, the following gentlemen have been cured some of them over 70 years of age, and had suffered intensely for years.

ESCHER DEXTER, Esq. No. 18 Crescent Place. REUBEN REP, Esq. 32 Elm street. DENNY PRATT, 44, Bridge street. GEN. JONAS HILL, Cambridgeport. MR. E. JEWELL, Chelsea.

MR. CHARLES E. FIELD, do. HORACE RICHARDSON, Esq. Melway. W. S. HOWARD, No. 6 Wesley street, East Boston. We could add many more, but think this quite enough to convince the afflicted what they had better try it. The above named persons procured it from the proprietors, COMSTOCK & ROSS, No. 19 Tremont Row.

## Kolmstock's Vermifuge.

This remedy for worms is one of the most extraordinary ever used. It effectually eradicates worms of all sorts, from children and adults.

THOUSANDS perish by worms without the real cause being known. Some other reason is assigned for their sickness, until too late to cure the real cause.

What should be done? The answer is plain. Give this vermifuge, which will be sure to do good, if they have no worms; and if they have, it will destroy and eradicate them with a certainty and precision truly astonishing.

It cannot harm the smallest infant or the strongest adult. There is no mercury, or mineral in it. Mercury is the basis of most worm remedies, and the remedy is sometimes worse than the disease. So never use lozenges, but rely upon this. Every person will be convinced on one trial, that is the most perfect cure ever invented. Remember and ask for Kolmstock's Vermifuge.

FRENCH DEPILATORY. This article, used for taking off superfluous hair from the face and neck, is sold at 50 cents per bottle.

All of the above valuable medicines are sold by COMSTOCK & ROSS, No. 19 Tremont Row—BOSTON.

## Salt! Salt! Salt!

ES BRUNSWICK, from Liverpool. 5000 BUSHELS of SALT, which will be sold cheap, from the Store, in quantities to suit purchasers.

Apply to F. A. BABCOCK, or W. WHITLOCK.

May, 1845.

## BLANKS For Sale at this Office.

## ALL MAY BE CURED!

BY HOLLOWAY'S OINTMENT.

## HOLLOWAY'S OINTMENT! FIFTY ULCERS CURED IN SIX WEEKS!

Extract of Letter from John Martin, Esq., "Chronicle" Office, Tobago, West Indies, February 4th, 1845.

Sir—I beg to inform you that the inhabitants of this island especially those who cannot afford to employ medical gentlemen, are very anxious of having your astonishing Medicines within their reach, from the immense benefits some of them have derived from their use, as they have been found here, in several cases, to cure Sores and Ulcers of the most malignant and desperate kind. One gentleman in this island, who had, I believe, about fifty running ulcers about his legs, arms, and body, who had tried all other Medicines before the arrival of yours, but all of which did him no good; but your cure did him in about six weeks, and he is now, by their means alone, quite restored to health and vigor.

(Signed) JOHN MARTIN, PILES, FISTULAS, AND BEARINGS-DOWN.

A remarkable Cure by these Pills and Ointment.—A half-pay lieutenant, lately residing at St. Helier's, Jersey, whose name by request is omitted, had for three years suffered from piles and fistula, besides a general bearing-down, of the most distressing nature. He had twice undergone an operation, but to no purpose, and at last gave himself up to despair. Yet, notwithstanding this complication of complaints, together with a debilitated constitution, he was completely cured of all his infirmities and restored to the full enjoyment of health by these justly renowned medicines, when every other means had failed.

## EXTRAORDINARY CURE IN THE WEST INDIES, OF TROPHY AND OTHER DREADFUL SKIN DISEASES.

By MR. LEWIS REEDON, of Georgetown on Demerara, writes under the above date—that Holloway's Pills and Ointment have cured him legs that no doctor could manage, ulcers and sores that were of the most dreadful description, as likewise leprosy, blotches, scales and other skin diseases of the most frightful nature, and that he cures effected thereon the whole population.

## CANCER BREAST—A WONDERFUL CURE.

Copy of a Letter from Richard Bull, Esq., Tutton, near Southampton, February 9th, 1845.

"To PROFESSOR HOLLOWAY. Sir,—The Lord has permitted to be wrought a wonderful cure of Cancer, or Abscesses, of twelve years' standing, in my wife's breast. In the latter part of the time, eleven wounds were open at once, the Faculty declared the case as past cure, several pieces of bone had come away, and I expected that my poor wife would soon have been taken from me. It was then that a friend recommended the use of your Pills and Ointment, which I at once resorted to, in the space of about three months, healed up the breast as soundly as ever it was in her life.

"I shall ever remain your most grateful and ever-true servant, (Signed) RICHARD BULL.

## Wheezing on the Chest and Shortness of Breath.

Copy of a Letter from Mr. J. Clegg, N. 1, Crompton place, Crompton street, Bristol & square, London, April 25th, 1845.

Sir—I beg to inform you that I believe I had been, for more than three years, one of the greatest sufferers in London with Chronic Asthma. For weeks together my breath was frequently short—that I was almost every moment of being choked with phlegm. I never went into a bed; very often indeed, I have been obliged to pass the night without being able to recline sufficiently to lay my head on a table, but I should be satisfied. No one thought I should live over the winter, nor did I expect it myself, but I am happy to say that I am now able to work from morning to night, and that I sleep as well as ever I did in my life, and this article (I may say) was effectually rubbing your invaluable Ointment twice a day into my chest, and taking ten of your Pills at bedtime, and ten again in the morning, for about three months.

(Signed) JEREMIAH CASEY, IN ALL DISEASES OF THE SKIN.

Bad Legs, Old Wounds, and Ulcers, Bad Breasts, Sore Nipples, Stoney and Ulcerated Cancri, Tumours, Swellings Gout Rheumatism and Lumbago, likewise in cases of Piles, the Pills in all the above cases, ought to be used with the Ointment; as by this means cures will be effected with a much greater certainty and in half the time that it would require by using the Ointment alone. The Ointment is proved to be a certain remedy for the bite of Mosquitoes, Sand-flies, Chigcoot Taws, and Coco-bay.

Burns, Scalds, Chilblains, Chapped Hands, and Lips, also Blisters and sores, will be immediately cured by the use of the Ointment.

THE PILLS are not only the surest remedy known when used with the Ointment, but as a General Medicine there is nothing equal to them. In nervous affections, as well as in all cases of general debility, or where there is a want of purity in the blood and fluids, they will insure HEALTH TO ALL.

N. B.—Directions for the Guidance of Patients are affixed to each Pot.

## THE STANDARD, IS PUBLISHED EVERY WEDNESDAY, BY A. W. SMITH.

At his Office in Saint Andrews, N. B. TERMS. 12s 6d per annum, if paid in advance. 15s, if not paid until the end of the year.

## ALL MAY BE CURED!

BY HOLLOWAY'S OINTMENT.

## HOLLOWAY'S OINTMENT! FIFTY ULCERS CURED IN SIX WEEKS!

Extract of Letter from John Martin, Esq., "Chronicle" Office, Tobago, West Indies, February 4th, 1845.

Sir—I beg to inform you that the inhabitants of this island especially those who cannot afford to employ medical gentlemen, are very anxious of having your astonishing Medicines within their reach, from the immense benefits some of them have derived from their use, as they have been found here, in several cases, to cure Sores and Ulcers of the most malignant and desperate kind. One gentleman in this island, who had, I believe, about fifty running ulcers about his legs, arms, and body, who had tried all other Medicines before the arrival of yours, but all of which did him no good; but your cure did him in about six weeks, and he is now, by their means alone, quite restored to health and vigor.

(Signed) JOHN MARTIN, PILES, FISTULAS, AND BEARINGS-DOWN.

A remarkable Cure by these Pills and Ointment.—A half-pay lieutenant, lately residing at St. Helier's, Jersey, whose name by request is omitted, had for three years suffered from piles and fistula, besides a general bearing-down, of the most distressing nature. He had twice undergone an operation, but to no purpose, and at last gave himself up to despair. Yet, notwithstanding this complication of complaints, together with a debilitated constitution, he was completely cured of all his infirmities and restored to the full enjoyment of health by these justly renowned medicines, when every other means had failed.

## EXTRAORDINARY CURE IN THE WEST INDIES, OF TROPHY AND OTHER DREADFUL SKIN DISEASES.

By MR. LEWIS REEDON, of Georgetown on Demerara, writes under the above date—that Holloway's Pills and Ointment have cured him legs that no doctor could manage, ulcers and sores that were of the most dreadful description, as likewise leprosy, blotches, scales and other skin diseases of the most frightful nature, and that he cures effected thereon the whole population.
