GAME OF ROUNDERS AT THE BARRACKS

In the neighborhood affected two-thirds of the people were unprotween the right and left half companies of No. 1 Company, R. C. R. I., on Carling's Heights last evening, and

resulted in a victory for the former team by a score of 37 to 33. Owing to the intricacies of the game many errors and far more amusing plays occurred than in any baseball game this season. The game must be seen to be thoroughly appreciated, and no other club can better show the ins and outs of it than that of Wolseley

Barracks. Sergt. Cockburn acted as referee, and a large number of the soldiers' civilian friends were on hand to see the game played, and were highly delighted by the amusement it afforded. Another game will be played this evening at 5:30 o'clock, when the opposing sides will be captained by Lieuts. Nagle and Uniacke.

WOULD USE **VOTING MACHINE**

Mayor Rumball Favors This Mode of Insuring Absolute Accuracy.

Lack of Funds is a Preventative—A New Automatic Recorder That Meets Most Exacting Demands.

After the last municipal election, dis satisfaction with the method in which it was conducted was rampant, and remarks about the value of a more perfect system were heard frequently. An Oshawa mentor is the latest claimant in this regard for the good will of the country's elections, municipal and otherwise. He has a voting machine that he considers to be the most accurate and durable of its kind yet produced. Mayor Rumball would like to see such a machine tried in London.

"I think it's a good thing," he said

today.

today. "The trouble is they're too expensive. I'd like to see them tried at the next municipal election; but ere's no appropriation for them, and I don't see how we can get them. If we could use such a machine there would be no chance for crooked work of any kind. I don't know about any saving to the city. I guess the cost of the machine would more than balance City Clerk Kingston said that they

would prevent fraud-that would be their great value-and incidentally save a little money. The advantages claimed for the ma-

chine by its inventor are perfect accuracy, simplicity of mechanism, durability and cheapness, it being calculated that with one voting machine as many votes can be recorded as at present in three polling booths. Therefore, he contends, the cost of the machine in practice will not exceed the expenditure for ballot boxes under the existing system.

It is built upon similar lines to other voting machines, to the extent that the voter records his preference for any number of candidates by simply pushing the button beneath the name of the respective candidate or candidates for whom he desires to vote. It is so constructed that by means

of a set screw the maximum number of candidates for whom the voter may record his vote can be varied at will to suit the election being held, but once the machine has been set at the maximum number to be voted for, and sealed, it cannot be changed until it is reopened, and the voter cannot vote for more than the proper number

Grand Lodge Accepts John H. Hinsey's Resignation-Prosecutions Likely to Follow Defalcations Re Endowment Fund.

Chicago, July 11.—The Supreme Lodge of the Knights of Pythias, now in session in Chicago, investigating the affairs of the endowment rank of the order, late last night accepted the resignation of John H. Hinsey, ex-president of the endowment rank, as a member of the board of control. Following this the supreme lodge adopted a resolution which instructed the supreme chancellor and board of control to prosecute civilly and criminally all persons liable for offenses committed against the endowment rank. This resolution passed by a unanimous vote, as did another which instructed the chancellor commander and board of control to proceed with a view toward expulsion against members of the order in their respective lodges, who might be found guilty of violating their obligations in

the handling of funds. How to replenish the funds the supreme lodge has not as yet decided. SAD TRAGEDY IN TORONTO

Brave Lad Loses His Life in Trying to Save a Companion.

Girl Treated Corns With Carbolic Acid and Death Soon Followed.

Toronto, July 11 .- A double drowning-a brave lad losing his life trying to rescue a small boy-took place at the island park yesterday. The scene of the accident was the long pond, where, owing to the recent dredging, there is a drop of from three to twelve feet near the bathing place. Walter Smith, of 11 Denison avenue, was in bathing, and suddenly fell into the hole. Ernest MacRae, aged 15, heard his cry and went to his rescue. The little fellow, when he came, grasped MacRae around the neck, choking him, and the two went down to death. MacRae came to the city on Tuesday from Tiverton, Ont., to learn the drug business. He

was the only son of a widow.

DIED ON A TRAIN.

Toronto, July 11.—The woman who died on the Muskoka express, from Muskoka Wharf, has been identified as Miss McGregor, for many years a domestic in the house of Mrs. Q. E. Thom, in this city. She had gone up to Muskoka to take charge of the children of a Mr. Campbell, and hav-ing taken ill, was on her way to Toronto, when she died. The conductor came round for the ticket before Barrie was reached, and the woman's peculiar posture led to an attempt to arouse her. It was found that she had been dead for some time, and the body was placed in charge of a Barrie undertaker.

GASOLINE EXPLO-SION.

Baliston, N. Y., July 11.-Mrs. Dunnellton, of Round Lake, was fatally burned by the explosion of a gasoline stove in her home. Mrs. Wilson, her daughter, was severely burned in trying to save the mother. The explosion set fire to the house, but the fire department extinguished the flames before much damage was done.

Removal of British Flags To Be Investigated-Buffalo Hotel Rates.

Toronto, July 11.-The removas of the festoon of British flags from the Ontario educational department exhibit at the Pan-American is to be inquired into. High School Inspector Seath has gone to Buffalo, and while there will have a talk with the officials regarding the removal of the flags. He says the matter is trifling, but that the department is anxious to hear what the

officials had to say about it.
Buffalo, N. Y., July 11.—A meeting
of the Buffalo Hotel Association was held to take action on the reports said to have been spread broadcast that the hotels of this city were charging Pan-American visitors extortionate rates. The Iroquois, New Tiffet, Genesee, Cheltenham, Grandall House, Castle Inn, the Stafford and the Man-sion House were represented. These reports were emphatically denied. A statement was prepared for the press, advising the traveling public that "First-class accommodation could be secured in any of the American plan hotels for from \$2 to \$4 per day, according to location of room. The prevailing European plan rates are from \$2 to \$5 per day for one person, and from \$3 to \$10 per day for two persons, according to the class of accommodation. The maximum rates as above stated, represent the best of accommodation to be had in the city. The hotels have accommodations for all patrons desiring first-class enter-tainment during the Pan-American

ROSEBERY ABOUT TO BE MARRIED

Duchess of Albany To Be the Late Liberal Leader's Bride.

Four Thousand Persons Attend the Guildhall Meeting—War Policy of the Government Indorsed.

LORD ROSEBERY TO WED. London, July 11 .- The Manchester Daily Dispatch says that her royal highness, the Duchess of Albany, will accompany King Edward on his approaching visit to Scotland, and that the betrothal of her royal highness to Lord Rosebery will be announced during their visit or immediately after the return of the royal party.

The Duchess of Albany was formerly Princess Helene Frederica Augusta. daughter of the Prince of Waldeck-Prymont. She was married in 1882 to the Duke of Albany, who died in 1884. Two children were the issue of this marriage.

Lord Rosebery was married in 1878 to Hannah, only daughter of the late Lord Rothschild. She died in 1890, leaving four children.

A \$2,500,000 FIRE. Sydney, N. S. W., July 11.-Horderus' department stores, consisting of an eight-story building, fronting on three streets, were practically destroyed by fire yesterday. The damage is estimated at over £500,000. The insurance amounts to £394,000, mostly

in local companies. TO OFFSET PRO-BOER DEMON-STRATION.

London, July 11.-There was a meeting at the Guildhall yesterday in support of the government's war policy. The idea originated on the stock exchange, and was intended as an offset to the recent pro-Boer gathering at Queen's Hall. The Lord Mayor, Frank Green, and the other city magnates did their utmost to assure its success, and the result was the great hall of the Guildhall, having a capacity of 4,000 persons, did not suffice to contain the crowd, which necessiated an overthrow meeting outside, where the pro-war enthusiasts made a demonstration of an even more pronounced character than that of the stock brokers within. Patriotic songs broke out at intervals, both within and without the building. The Brit-ish generals were cheered, and the names of Henry Labouchere and other Boer sympathizers were hissed and hooted. The lord mayor presided, surrounded by Conservative members of the House of Commons, bankers and others. A resolution expressing complete confidence in the South African policy of the government was adopted in the midst of great enthusiasm.

PROHIBITION CONVENTION

In Session at Toronto Discusses Electoral Action.

Dr. Mackay Complains of Unsatisfactory Working of License Law-Resolutions Adopted and Officers Chosen.

Toronto, July 10.—The provincial prohibition convention, called by the Ontario branch of the Dominion Alliance at the Pavilion yesterday, was attended by about 200 delegates, Rev. Dr. Mackay, of Woodstock, presided. Rev. Dr. Mackay criticised the enforcement of the lincense law in Ontario as unsatisfactory. He said there appeared to be not more than 5 per cent of the Ontario hotel keepers who observed the law, and there was more

Sunday liquor selling than ever. At the afternoon meeting of the convention, the report of the committee on electoral action was lengthy and led to a breezy discussion.

REPORT ON ELECTORAL ACTION. The most important change in the report was the elimination of a recommendation that prohibition conventions be held in every riding, with a view to securing prohibition candi-The report was adopted as amended as follows:
"That only prohibition can be ac-

cepted as a settlement of the liquor question. That, therefore, they can indorse the position of only such candidates as will support the declared policy of the enactment of the fullest measure of prohibition within the power of the legislature, as soon as the question of jurisdiction is deter-

Lack of sleep puts patients en the rack of torture or in the mad-house, or in the grave." Insomnia is a disease of our country and of our age. Where there is one man or woman with strong, healthy

nerves there are a dozen whose nervous systems are overwrought and unstrung. In vain they toss in beds of misery, longing for nature's great re-storer, restful sleep. In hours of temptation they resort to oplates and harcotics, which produce temporary pense to the human system. In all occupations and professions

there are times when a special draft is made upon nervous energy. Mothers, too, deprived of sleep and wornout by caring for their children and watching them through periods of sickness and disease, are left physical wrecks. THE ENDEAVORERS

Closing Sessions of the Convention at Cincinnati-Farewell Meetings.

Cincinnati, O., July 10.—Today being the last day of the International Christian Endeavor Convention, events have been crowded into each other, making it really the busiest day of the session, which lasted five days. There was not an hour from sunrise until the time for the farewell meeting tonight that was not marked for meetings and service. The Music Hall auditoriums were the

centers of most activity. The action of the local committee in dispensing with Auditorium Ohio and consolidating the meetings scheduled to occur there today with the two meetings in the Auditoriums Endeavor and Williston caused a revising of the entire programme as far as speakers were concerned. The usual quiet hour meetings usher-

ed in the day's programme. The Endeavorers then adjourned to the big auditoriums, where the first two big meetings of the day were conducted. They were devoted to a discussion of the twentieth anniversary session Secretary John Willis Baer, of Boston, presided in Endeavor Hall. After

the devotional exercises six ministers were given five minutes each on"Twen-Rev. Henry T. McEwen, of Amsterdam, New York, spoke on "The Spirit of Consecration," and General Secretary John Willis Baer, of Boston, on "The World's Christian Endeavor Un-

Ament, of Pekin, China, spoke of Christian Endeavor fellowship. Rev. Harland E. Freeman, of Sheridanville, Pa., then followed in an address on the subject of "It Is Interdenominational."

J. Campbell Morgan, of Baltimore, and Rev. Floyd W. Tompkins, of Philadel-phia, were the speakers. The Endeaverers assembled in groups from each of their states, and as the roll was called replied with short addresses on the purposes they have in view for the extension of Christian Endeavor during

WILL OF THE LATE ANDREW ALLAN

Number of Small Bequests to Charities-Carnegie Has Still \$280,000,000 to Give Away.

Montreal. July 10.-The will of the late Andrew Allan provides that the sum of \$500 shall be given to each of the following charities: The Montreal General Hospital, Ladies' Benevolent Society, the Mackay Institute for Deaf Mutes and the Montreal Sailors' Institute. Five hundred is also given to the session of St. Paul's Church, to be distributed among the poor of the church. One hundred dollars is given to two old and faithful servants— David Forth and Kate McGillivray. The balance of the estate is to be divided among the sons and daughters The executors are of the deceased. Hugh A. Allan, Andrew Allan, James RADWAY & Co., 7 St. Helena St. Montreal interests of the late Andrew Allan in ably remain as before his death. negie still has \$280,000,000 to give away in public benefactions. Carnegle is authority for this statement, which he made recently in Skibo Castle to a member of the New York Chamber of Commerce committee, who is now in this city, but wishes his name kept secret. Several members of the New York Chamber of Commerce delegation which went to England recently visited Carnegie in Skibo, and with them he discussed his gifts to the public. He remarked that in the future he meant to make other donations, more extensive even than heretofore, to public institutions. According to Carnegie he is still undecided in what manner to dispose of his wealth for the public good. He wishes the public to obtain the best results from his future benefactions, and for that reason has not formulated any philanthropic schemes. Carnegie admitted that free libraries and other educational institutions would obtain a portion of the millions, that the plans he had previously made should be fully adopted. He is considering the advisability of directing his wealth toward endowing and supporting art galleries, scientific

museums and similar institutions. Carnegie has given to libraries within a year \$11,219,500 of his easily-gotten wealth. In view of his quandary as to what to do with his surplus of \$280,-000,000, it is suggested that there are millions who might offer him a few suggestions on that point. Alameda, Cal., has just been offered \$35,000 for a public library.

Rheumatic Pains Cured by Nerviline This is the testimony of Mr. Benjamin Dillon, of Leeds, Ont., who says: "I feel Dillon, of Leeds, Ont., who says: "I feel it my duty to proclaim the marvelous value of Polson's Nerviline as an infailible cure for rheumatic pains; it cures them every time. A PILL FOR GENEROUS EATERS.—
There are many persons of healthy appetite and poor digestion who, after a hearty meal, are subject to much suffering. The food of which they have partaken lies like lead in their stomachs. Headache, depression, a smothering feeling follow. One so afflicted is unfit for busines or work of any kind. In this condition Parmelee's Vegetable Pills will bring relief. They will assist the assimilation of the allment, and used according to direction, will restore healthy digestion.

A Santa Barbara (Cal.) man has even of the world's city telephone systems.

A Santa Barbara (Cal.) man has over 1,000 turtles, with which he expects to stock a "turtle ranch" in that county. Backache, swelling of feet and ankles, puffing under eyes, frequent thirst, scanty, cloudy, highly colored urine, and all urinary troubles lead to Bright's disease, dropsy, diabetes, etc. Doan's Kidney Pills are a sure cure.

ADWAY'S

By their ANTI-BILIOUS properties they stimulate the liver in the secretion of the bile and its discharge through the biliary ducts. These Pills, in doses of from two to four, will quickly regulate the action of the liver and free the patient from these disorders. One or two of Radway's Pills taken daily by those subject to bilious pains and torpidity of the liver will keep the system regular and secure healthy digestion.

"I am 120 miles from the nearest drug store, and want you to send me a dozen boxes of your Pills. I have muscular rheumatism, and for nine months have been at Hot Springs. My liver and kidneys are affected. I find that your Pills do me more good than all the medicine. I have taken and the Springs combined. "Respectfully, W. JAMES." "Harqua Hala, Yuma County, Arizona." "Your Radway's Pills have worked wonderfully in my family. My children, when sick, have received instantaneous and complete relief by their use. Sudden colds, sore throat, I find I can quickly cure by the use of your Ready Relief and Pills. They should not be wanting in any well-kept home. That doubly serves what helps you once. Yours truly, DR. H. E. SCHNEIDER.

"For years I have been troubled with rheumatism and dyspepsia, and came to the conclusion to try your nills."

"For years I have been troubled with rheumatism and dyspepsia, and came to the conclusion to try your pills. I immediately found great relief from their use. I feel like a new man since I commenced taking them, and would not now be without them. The drowsy, sleepy feeling I used to have has entirely disappeared. The dyspepsia has leit me, and my rheumatism is gone entirely. I am satisfied if anyone so afflicted will give Radway's Pills a trial they will surely cure them, for I believe it all comes from the system being out of order—the liver not doing its work.

many centers in the United States there has been for some time past a kind of reaction against the kindergarten. A great deal of the adverse criticism is unjust, and perhaps as unfounded as have been the predictions of its most sanguine advocates. It is suffering from having previously been extravagantly overpraised. Though the kindergarten may have fallen short in some things, yet, ed developments. The next month his after allowing for failures, it has in many notable respects succeeded. No system of education will work automatically, and doubtless, as in everything else, any failure to reach anticipated results is due as much to the ing the house was larger than for preshortcomings and inexperience of teachers as to the system itself.

It has been urged that the work has been made so attractive that children regard their tasks as play; and that when children pass into the public schools they insist that the class room humiliated to the dust." shall be a place for pure entertainment. It is stated further that undue stress has been laid upon certain minor details of Froebel's plan, and competent psychologists go so far as to condemn some of his ideas.

But there is another side. The desirability of making study attractive teachers. Canadian Poetry.

The little volume entitled "Canadian Essays, Critical and Historical," by Dr. Thomas O'Hagan, and published by William Briggs, Toronto, is in a sense an interesting treatment of a timely subject. The work of 222 pages contains seven essays, three of which treat exclusively of different phases of Canadian literary effort, in prose and

poetry, and in Canadian oratory. "It is quite true," says Dr. O'Hagan. "that nothing can be added to the literary worth of an author by injudicious praise, nor will puffery give poet, novelist or historian a seat in the parquette of true merit, or a niche in the temple of permanent fame." We quite agree with this preamble, yet in the essays mentioned are discussed the works of sixty "well-known Canadian poets." "twenty-two French-Canadian authors, churchmen and statesmen," and "Canadian women writers." Such a showing would indicate that our comparatively young Dominion is congenial soil, a veritable hothouse for poetic germs. It would seem to disprove the truism that "excellence dwells among rocks hardly accessible, and a man must almost wear his heart out before he can reach her." To look with such a kindly eye upon the effusions of poetical aspirants and to indulge in such plauditory outpouring, cannot serve any legitimate purpose in connection with our national literature. A nation's literature, in fact, is a spontaneous development. It is a matter on which we need take no thought for the morrow. When the times are ripe, a literature of some sort will doubtless appear, and when it does come, it will to a large extent embody the ideas and life of the time, as Shakespeare was distinctly a poet of the Elizabethan era and Milton one of the chief spokesmen of Puritanism. In Canada there is an apparent lack of an inspiring theme. Hence it is too much to expect such a galaxy of poets as enumerated in the present volume. Shelley has defined poetry as "the record of the best and happiest moments of the appiest and best minds." Another writes to the effect that when a thought has caught the poet's imagination and been dwelt upon until its full signidcance is revealed, and there has clustered about it a wealth of happy fancy dustry, in uncomplaining

and aut illustration, and when the thought is touched, beautified and made effective by emotion, has been uttered with power to excite like emotion in reader and hearer, we have poetry. Judged by such standards, one can readily see that poetic power is such a rare gift that very few poets have ever manifested its presence in the highest degree.

Criticise adversely, if you must, and let the fittest survive. Dr. O'Hagan's book is written in an interesting style, and the poems by which he has illustrated his "criticisms" will also be found interesting, though they may not ran kamong the great efforts of British genius.

DOWIE'S DISCIPLES

Mobbed on Wednesday Night in Chicago-Fire Department Called Out to Disperse the Crowd.

Chicago, July 11 .- A crowd of Dowie's disciples, headed by Elder W. H. Piper, who went to Evanston to hold a meeting were mobbed last night, and the Dowleites and the became so demonstrative that Mayor Patton ordered out the fire department. A stream of water was directed among the followers of the "Christian Catholic Church" and the crowd surrounding them. During the time that the water was thrown into the crowd the Dowieites raised their voices in song and continued singing until the water was shut off.

Elder Piper and a number of Dowieites were arrested and taken to the court room of the Evanston station. Piper was charged with disorderly conduct and inciting a riot. Corporation Council Paden, of Evan-

ston, said: "The Dowieites were arrested, because they came here to preach, but because they blocked one of the streets with their meeting, and refused to move on when told to do so. They clearly violated a city ordinance." THOSE HURT.

Following is a list of those seriously hurt in the melee: Overseer J. G. Speicher, cut on shoulder; W. O. Demius, head cut; Elizabeth Van Horn, back injured, B. F. Morris, cut over eye; Caroline Hartman, cut over eye and shoulder sprained; F. A. Craves, face cut; O. C. Kibby, cut about head; Morris Van Powley's Liquified Ozone is oxygen in stable form; liquid; horn, badly cut from blows on head and body; Mrs. Jennie Plank, back and shoulder hurt. Many others were also

more or less hurt.

Piper and Speicher were put under bond, to insure their appearance July 15 before Justice Ely to answer charges of disorderly conduct and refusing to clear the streets.

"MARS ON THE BOX"

Sir William Harcourt's Clever Resume of the British Financial Situation.

London, July 11 .- Sir Wm. Harcourt's speech at the report stage of the finance bill was adroit and forcicoach could not get out. Those who had never expected to see taxes reimposed on food must first vote for sugar duties, and probably for the ultimate restoration of duties on all kinds of imported food. Sir Wm. Harcourt was in good form, and in thorough enjoyment of the political situation. He had provided, as Liberal chancellor of the exchequer, immense sources of increased revenue in the death and estate duties on socialistic lines. These had been swept into the war chest, and posterity had been left half century of Liberal finance counwas his sardonic comment, and there could be no reply from the government side. DOMINION

ALLIANCE.

President Dougall Speaks of Present Prospects.

Prohibition Still a Long Way Off-Resolution Favoring Government Control of Liquor Traffic Defeated-Officials Re-elected.

There was a satisfactory attendance at the annual meeting of the council of the Dominion Alliance, held in Richmond Hall yesterday. President J. R. Dougall, of Montreal, occupied the chair, and the meeting throughout was thoroughly harmonious. A resolution favoring a certain measure of government control of the liquor traffic was introduced, but the discussion upon the question was brief and good-natured, and the motion was

overwhelmingly defeated. President Dougall, in his opening remarks, likened the position of prohibitionists to that of a traveler who sets out to reach the far summit of a rosy mountain, and having reached it, as he thinks, finds that the real summit is far away. Still it was a good thing for them that they should always keep their eyes on the real point they were aiming at—the abstract delectable mountain of prohibition. They were liable perhaps to aim too high, and might be putting the cart before the horse in thinking that a temperance country would follow as the result of a prohibitory law. "We are going to get prohibition by having a temperance country," said the pres-"by having the people thoroughly educated and enthused for temperance. Prohibition without a temperance country would be a questionable gain and might be a disadvan-Continuing, he pointed out tage. that Canada had made some progress on temperance lines, and was, in fact, far in advance of all other countries

in that respect. PROVINCIAL LICENSE LAWS. The committee on resolutions brought in a report which contained the following among other para-graphs: "There is evidence on every side that the restrictions of the present liquor laws of Ontario are not being enforced, but are continuously and almost universally violated. Therefore, the alliance would call on the Ontario Government to see that its inspectors and commissioners take steps to secure the faithful observance of these restrictions."

Rev. Dr. Mackay and Mrs. Thornley said there was no doubt that the law was not enforced in Ontario. Messrs. Auger and J. R. Dougall contended that conditions were just as bad in Quebec. Mr. Sifton expressed a similar opinion as to Manitoba, and Mr. F. S. Spence said that some other provinces were much worse than On-As a consequence of these expres-

sions the resolution was amended so as to make its terms applicable to 'the various provincial governments' instead of only to the Ontario Government. Other clauses of the report recommended the establishment of anticigarette leagues in Sabbath and public schools, scientific temperance teaching in the schools; further effort on the part of ministers to assist in the temperance propaganda by sermons and lectures. The following officers were re-elect-

ed: Honorary president, Hon. A. Vidal; president, J. R. Dougall. Vicepresidents at large-J. J. Maclaren, Q.C., LL.D; Ontario, J. W. Flavelle and R. J. Fleming; Quebec, Major E. L. Bond and S. J. Carter; Nova Scotia, T. B. Flint, M.P., and Rev. Edwin Crowell; New Brunswick, Rev. Dr. McLeod and J. R. Woodburn; Prince Edward Island, J. K. Ross and president of alliance; Manitoba, W. R. Mulock and E. L. Taylor; Northwest Territories, F. Oliver, M.P., and F. J.

SABLE ISLAND TREES ARE GROWING FINELY.

Expedition of Which London Man Was a Member.

A dispatch from Ottawa says marine department has been notified was administrator at Orillia. that Col. Anderson, chief engineer of the department, who is on an official tour of inspection of coast lighthouses, recently returned to Nova Scotia from Sable Island. Col. Anderson found that the trees planted on the island this spring under the direction of Lieut.-Col. Gourdeau, deputy minister of marine, and Prof. Saunders, director of experimental farms, are doing splendidly and are likely to prove a success. The object aimed at-the prevention of the disintegration of the island—is likely to be achieved."

Considerable interest is taken by Londoners in the success of the tree-

planting venture on Sable Island, from the fact that Mr. W. E. Saunders, the enthusiastic naturalist of this city, was a member of the party which visited the island in May and set out the

Toronto's Big Exhibition.

The prize list for Toronto's great annual exposition and Industrial Fair, which this year will be held from Aug. 26 to Sept. 7, has come to hand. It is printed in yellow, shaded with green, and presents a very handsome appearance. Upwards of \$35,000 will be distributed in premiums, and \$30,000 will be spent in features and special attractions. The live stock classes have been rearranged in some instances and the premiums increased in others. A class for French-Canadian cattle has added. Copies of the prize list and all information desired can be had on addressing H. J. Hill, 82 King street east, foronto. Special efforts are being made to increase the excellence of the exhibition this year on account of the close proximity of the Pan-American.

CAUGHT AT LAST!

Joseph Levesque, Wanted in Montreal, Arrested in New York.

New York, July 11.—Joseph Levesque, 34 years old, for whom the Montreal authorities have been looking for the last ten years, was located and arrested yesterday by the Brooklyn police and Chief of Police Carpenter, of Montreal, and will be turned over to the Canadian officials as soon as the necessary formalities of extradition can be complied with. Levesque, prior to Dec. 1, 1891, was a trusted employe of the City District

Bank, of Montreal. While acting as chief bookkeeper, it is charged that he conspired with another employe, by falsifying the accounts, to rob the institution, and the two together managed to get away with upward of \$20, 000, disappearing on the date mentioned. Levesque's accomplice is still at large, and the police refuse to give his name.

IT IS A LIVER PILL.—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmelee's Vegetable Pills. Their operation, though gentle, is effective, and the most delicate can use them.

ALL SAINTS PASTOR TAKES A BRIDE

Mr. W. J. Spence and Miss Bella Lawson Married at Bride's Home.

On the evening of July 10, the home of Mr. and Mrs. Peter H. Lawson, Hamilton road, lot 6, con. 1, Westminster, was the scene of a very joyous event, when their eldest daughter, Bella, was united in marriage to Mr. W. J. Spence, the popular and efficient pastor of All Saints' Church, Lon-

The guests, numbering between 75 and 100, began to arrive about 7 o'clock. The lawn was beautifully and tastefully decorated, a unique and handsome arch gracing one corner, under which the happy couple took their places at 8 o'clock, when the ceremony began. The bride entered, leaning on the arm of her father, gowned in gray poplin, trim-med with white silk and carrying a spray of white roses. She was supported by Miss Margaret S. Lawson, ner cousin, who wore green silk organdie. Miss Grace Lawson, who was flower-sirl, carried a basket of roses and carnations, and was dressed in white organdie. The groom was sup-ported by Mr. W. W. Hodgins, divinity student, of Huron College, London.

The ceremony was performed by Rev. A. L. Beverly, rector of Christ Church, Forest, an uncle of the bride. At the conclusion of it, after congratulations a deputation representing the church of which Mr. Spence is pastor, pre-sented a congratulatory address, and a well-filled purse, after which the company sat down to a sumptuous wedding

The presents were numerous and costly, testifying to the popularity of the bride and the esteem in which she s held by her large circle of friends. Guests were present from Toronto, St. Thomas, Tyrconnell, London, Forest, and other places.

The happy young couple left for an extended trip to western cities.

Trustees Favor Idea of Having Male Assistants.

But Would Not Go About Getting Them as*Proposed—Motion Likly to Come Up Agaire

Many members of the board of education who voted against Trustee Evans' motion to appoint men to vacancies in the public school staffs, so that in time there may be assistant male principals in the schools, are quite in sympathy with the idea of the motion, but do not favor the scheme as proposed by Mr. Evans. It is probable that the subject will be brought up again, perhaps by the original mover, only with the suggestion sired end. The adoption of Trustee Evans' motion would have placed men under higher grade women teachers, which it was not deemed wise to do, and it would have meant additional expense. The \$250 or thereabouts that the lower rooms now cost in salary would not be sufficient for capable male teachers. A trustee said this morning that the motion, which would likely come before the board, would say that male teachers be appointed only when vacancies occur in the junior fouth grades. Thus, there would be no extra expense, as pienty of well-qualified teachers would be glad en-

ough to start on the \$500 that is paid, with the prospect of a principalship.

There appears to be no doubt in the minds of the majority of the trustees about the wisdom of such a move. Speaking of it this morning, the aforementioned trustee said: "It has come to be believed all over the states and here, too, that you can get better results, especially with boys, with a male teacher. That is, of course, in the higher classes. Women are too much out of sympathy with characteristics that would eventually be admirable

in the man.' The board of education in Toronto decided at its last meeting to fill all vacancies in the senior fourth classes in future by male teachers, a move that was made here some time ago. The comments upon the decision, made by the Toronto News, are applicable to the situation in London. that the move will meet with general approval, and adds: "Experience has shown that after a certain age boys require a more masculine moral and intellectual stimulant than a woman is usually able to give them. The whole secret of the matter, we believe, lies in the fact that women seldom understand or can place themselves in sympathy with the boys who are beginning to look forward to manhood. They fail utterly to gain their confidence, and their influence, where it produces results at all, tends to retard rather than assist the right development of character."

SCHOOL CHILDREN AND VACCINATION

Rule Causes Little Dissatisfaction in London-Michigan Court's Decision.

In view of the recent mild outbreak of smallpox in this city, and its effect on the public schools, a decision given by the supreme court of Michigan yesterday is interesting. The court passed upon the question of the right of a school board to exclude pupils from school if they are not vaccinated, the case having been brought by George R. Matthews against the Kalamazoo board of education. Matthews procured a mandamus from the circuit court compelling the board to permit his children to attend school, and the action of the circuit judge is sustained by the supreme court, which says that the rule of the board practically compels children to attend school, court says if the rule was that during the prevalence of smallpox in Kalamazoo the pupil could not attend school unless vaccinated, a different result would be reached, but as these epidemics never last very long the stand-ing rule of the board that no person unless vaccinated can attend school at any time is beyond the power of the board to prescribe.

In Ontario the provincial board of health is supreme in such matters, and may, within its discretion, enforce the vaccination. Local boards education are empowered under the law to rigidly enforce the rule. "The vaccination rule was firmly enforced in London during the recent outbreak of smallpox," said Dr. Eng-lish, chairman of the board of education, today, "and on the whole there was very little dissatisfaction. It is generally recognized that the rule is not an arbitrary measure, but a pub-lic safeguard. The rule is now a lic safeguard. The rule is now a standing one, and, regardless of any local outbreak of the malady, will be rigidly enforced in the future."

Muscular Strength.

There is this to be borne in mind in these days, when so many young men are giving so much attention to muscular development, in gymnastic and athletic exercises, that there cannot be permanent muscular strength where there is not blood strength.

Hood's Sarsaparilla gives blood strength, premotes digestion and assimilation, and builds up the whole system.

> "I don't think that the city should be put to any great expense to welcome the Duke and Duchess of York when they come here," Mayor Rumball said today. "They'll only be here for a short time, anyway, probably only a few hours, and I don't see the necessity of spending thousands of dollars for that time. If we constructed an arch or two and left it to the people to decorate the houses and buildings, I think that would do. The citizens may be trusted to make the city look beautiful."

"We won't do anything about it for some time yet, anyway, not till we hear definitely that they will be here, and how long they will stay. It's like-ly they will come in the morning and go away early in the afternoon. They can't stay very long."

We haven't thought of any of the particulars of the reception," his worship added. "October is a long way off. I don't suppose that we will touch it until this Old Boys' business is off our hands. Then I'll call a meeting. My own idea is to form a citizens' committee, and then let it prepare a suitable welcome. We shouldn't attempt too much, but it should, and will, be worthy of the city.

The Strike Situation.

Pittsburg, July 11 .- Surface indications point to the settlement of the strike in the mills of the American Sheet Steel Company and the American Steel Hoops Company at the conferences between the Amalgamated Association officials and steel combine representatives, which began today at the Hotel Lincoln in this city.

New York, July 11.-It was decided by R. M. Eastely, secretary of the National Civic Federation, who has been here for several days trying to arbitrate the strike of the machinists, that all attempts at settling the strike through the federation are useless. He has just left New York.

At the headquarters of the National Metal Trades Association it was said that it was now too late for arbitration, and that employers all over the country were getting all the men they wanted. Detroit Free Press: Union machin-

"You are very tired, Douglas," she said at last, parting the hair on his brow with her little fingers. "I forbid any more work tonight; I cannot have my property so badly taken care of."
She spoke with a wistful tenderness which went to his heart. He buried his which went to his heart. He buried his face in his hands for a moment.
"Douglas," she said, in a tone of acute pain, "do not; you pain me terribly. Dearest, for my sake."

He drew her down to him, and kissed her passionately.

"I want to make it impossible," she said, with a faint smile, very tremulous, for his altered appearance and grief touched her greatly.

"It is almost that now," he said, through his teeth. "Help me, Andree." She clasped his arm with both her hands; but he made no movement to return the caressing touch. To see her pleading eyes raised to his face, to hear for voice in its sweet entreaty, to know that all the devotion of her ardent nature was turned to him in his desolation, that the inexhaustible treasure of her love was poured at his feet, shook him to his very soul; but though he loved her at that moment with a stronger love than he had ever known for her before, that very love helped him to be strong now, and, for her sake, not to yield.

"It is you who are cruel, Douglas," came the pleading voice again. "Have you forgotten how to love me?"

Forgotten! Heaven knows he had never felt her so dear as now.

"Have you forgotten?" he answered, in a cold, hard tone, looking down at her with eyes full of sorrow and fierce love—"have you forgotten that I am a ruined, dishonored man? Have you forgotten that I am a ruined, dishonored man? Have you forgotten that I am a beggar, utterly penniless, without fortune, or position, or shelter to offer the woman who must give up all if she unites her life to mine?"

with a bright look passing like lightning over her face.

"Do you think your father or brother would consent to our union now, my darling?" he said, more calmly, but with infinite sadness. "Even if they would—l love you too well, Andree—I could not. I could not link your life to mine now. I am a dishonored man; but I cannot drag you down with me; I cannot be base enough to accept your generosity. My own love, consider that I am far removed from you; you must think of me so in future, Andree, as one infinitely beneath you. I cannot force myself to ask you to forget me; but I shall be content that it be so."

She raised her hand with an entreating gesture of pain.
"Do I grieve you, my child?" he said, with the same dreary sadness. "Heaven know I would give my life to ave you one moment's pang."

He turned from her as he spoke, and, sitting down by the table, hid his face to shut out her entreating eyes. She came and fell upon her knees by him, resting her head against his arm with a moan of anguish which made him shiver through all his frame. The twilight was drawing in now, one by one the lamps in the street were being lighted; the evening shadows lengthened, and again that terrible fight of love and duty was being fought in the agonized heart which had suffered so greatly, and which must suffer still.

being fought in the agonized heart which had suffered so greatly, and which must suffer still.

At length he turned to her, and raised her in his arms.

"No, my child—no, my darling, it must not be. I cannot, I dare not accept such a sacrifice. My happiness would be too dearly purchased at the price of yours. I could not answer you otherwise, Andree I must not. Let us part, now, dearest, while I have strength to let you go—my own love, who might have been more near, but could not be more dear."

"Douglas," she said, with sudden passion, turning her streaming eyes upon his face, and clasping her hands in supplication, as she crouched there at his side, "I ask it once again. But one thing makes life precious to me—your love. I cannot five without it. I do not plead for your sake; it is for my own—no other's, only my own. Douglas, if you tern from me I shall die."

He hesitated: the stern face softened, and she saw it. He was yielding.

"But one thing could part us," she went on: "if you cease to love me; but even then it could not alter my love for you. I cauld die, but I could not help loving you."

"Andree," he cried out, passionately, you. I could die, but I could not help loving you."
"Andree," he cried out, passionately, "you torture re!"

faith as hers.
"Oh, my child" he said, passionately,
"you try me beyond my strength. Be it
as you wish; but, Andree, if later you
wish to draw back, I shall never blame

wish to draw back, I shall never blame you."

"Oh, hush" she said, with her eyes smiling through their tears as she clung to him. "I am rich in your love, richer than the richest on earth, and so proud of you, my Douglas—my own Douglas, 'so tender and true,' that if you ever have to scold me in the future, when we are together never to part, it will be for my pride. Darling, how could you be so cruel—how could you give me up so lightly? You knew I was yours anywhere and everywhere; under any and all circumstances, I would rather"—and she raised her face in all its earnestness to his—"I would rather be your wife, and possess your love, than be the richest and greatest on earth. Douglas, do you believe me? Will you doubt me again."

In his arms now, held close to his beating heart, his eyes seeking hers and reading all the love she felt, she put up both little hands, and, clasping them over his neck, drew his face down to hers, saying, softly:

"Never to part again until the last."

"Never to part again until the last." "How did you come, love?" asked Douglas, at length, when they had talked a long time, and Douglas felt strengthened and comforted by the touch of her little hand, the light of her eyes, the ones of her soft voice, so faithful and true.

Is the sweetest season in human life, as it is in Nature generally. It is the time of promise. As the young girl draws near to that mysterious line "Where womanhood and girlhood meet," her whole destiny is in a measure being de-

termined. How often the sweet young girl, under the influence of the change, withers and droops ers and droops like some blighted bud. Nature generally needs some little help at this critical period, and this help in its best form is con-Prescription. It establishes regularity, and gives be vigor of pertit health womanly organs. It contains no alcohol, neither opi-

um, cocaine, nor other narcotic.

Miss Emma Lee, of Williford, Sharp Co., Ark., writes: "I was suffering severely and tried several doctors' remedies, but received only very little relief; therefore, I feel it my duty to write and les other sufferers know what your 'Favorite Prescription' and 'Golden Medical Discovery' and 'Pleasant Pellets,' have done for me. I took eight bottles of 'Pavorite Prescription' and 'Golden Medical Discovery' aix vials of the 'Pellets,' also one bottle of your 'Compound Extract of Smart-Weed.' As soon as I had taken the first bettle I could see that the medicine was helping me. I had discase of internal organs with broughtits and catarrh. I also used the local treatment you suggested."

The sluggish liver can be cured by the use of Dr. Pierce's Pleasant Pellets.

Looking up into his eyes, her own full of love and prayer, she pleaded.

For her happiness' sake—for her life's sake—she prayed him not to reject the entreaty; and though he begged her to forbear, and, in suffering keener than her own, he tried to steel his heart against the dear face, she pleaded still.

At last he yielded, turning to her a face drawn with pain and pallor even more than her own; but with eyes full of love, and glad for all their sorrow, rejoicing—how could he help it?—in such love and faith as hers.

Inight, it was decided to finish the season and not transfer the team.

STRUTHERS VS. IRISH NINE.

The Struthers team will visit Lucan Saturday afternoon and play the Irish Nine of that town. A large number are looking forward with much interest to the meeting of these two clubs. The Irish Nine will probably play a return date here in two weeks. Manager McCormick is receiving communications almost every day from outside towns, asking for dates.

FLYS.

The Carling Brewing and Malting Company's team were defeated last evening by the anchors on the latter's grounds, East London, by a score of 10 to 7. Batteries-Roberts and Baxter: Early and Buller.

The Druggists proved victorious over John H. Chapman & Co.'s team in an exciting game of ball last evening on Erie Flats. The score was: R. H. E.

Batteries-Breen and Cole: -Collins

A snapy game of ball was played at Springbank Tuesday night between the Hortons and London West Rattlers, which resulted in a score of 9 to 3 in favor of the Hortons. Batteries—Wilson and Carrothers; Beaton, Stewart and Daniel. Umpire, D. Carroll.

A game of ball was played on the Riverside grounds Tuesday evening between the Parisian Steam Laundry and the Woodbine Club, which resulted in an easy victory for the Wood-bines. Score, 13 to 6. Batteries—T. Burgess and H. Burgess; E. Hodgins and C. Garside.

YACHTING.

THE INVADOR CHOSEN. Toronto, July 11.-The judges appointed by the Royal Canadian Yacht Club to select the challenger for the Canada cup decided last night that no further trial races were necessary, and that the Invador, Commodore Gooderham's boat, will meet the American boat. The Invador will go to Lake Michigan shortly to prepare for the

CHALLENGER IMPROVING. Rothesay, Firth of Clyde, July 11 .-Another open water trial of the Shamrocks was started at about 11 o'clock yesterday off Bogany Point, Island of Bute. The challenger allowed the older boat to get well away to windward, and several lengths ahead, thus permitting her to get the first of the fresher off-shore wind. The Shamrock I maintained all her advantage to Kilchattan, but the challenger then pick ed up rapidly and passed the ex-chal-lenger clear to leeward after a clever

bit of sailing. In Kilchattan Bay the two Shamrocks had a couple of windward trials. of eight and seven miles respectively. The cup challenger finished the first race half a mile in the lead. In the second race she started to leeward, but worked out to windward and won by a mile. The wind freshened later to quite ten knots, and the water was white-capped. The challenger, however, continued to sail in good form. She easily outfooted the Shamrock I. in beating to windward, and was also faster in going free. But on that point of sailing the difference was less perceptible. Calculated on yesterday's match round a 30-mile course, the challenger would have beaten the older boat by about five minutes. The concluding feature of the day's triels was a reach home in a breeze, which submerged yacht's lee-rails. The challenger's form seemed to improve with the freshening wind. She did 71/2 miles in 34 minutes.

ENDED IN A DEAD CALM. Newport, R. I., July 11 .- The third race between the Constitution, Columbia and Independence came to an inglorious end late yesterday afternoon in a dead calm and the thickest kind of Atlantic fog. There was little time to form judgment of the relative speeds of the three boats, for in less than half an hour after the start the boats ran into the fog, and at no time after that could all three be seen at one time. A little over an hour after the start the Constitution withdrew and came back to the city. The Columbia and Independence stood on for the outer mark, which they rounded, with the Columbia about a mile in the lead. The wind, however, died down almost to a calm, and the leading boat could not finish, in the time limit. The race was therefore off, and will be sailed over to-day. At the time the Constitution withdrew she was leading the Independence by nearly two miles. The feature of the day was the magnificent navigation of Captain Charlie Barr, of the Columbia. In a for so thick that at times it was impossible to see from one of the finish lines to the other, he brought his boat sure and true to the outer mark, and rounded in splendid style. Another feature was the remarkably close start, only four seconds elapsing between the first and the last boat to cross. The Independence, the last boat to cross, was only seven seconds behind the

starting gun. LACROSSE.

THE OAR.

TOWNS SIGNS ARTICLES.

London, July 11.-Geo. Towns has signed the articles of agreement for the sculling race for the championship of the world. This means that the contest, about which there has been so much uncertainty, owing to the failure of the parties to come to a satisfactory agreement in the negotiations, will take place at Rat Portage, in the northwestern part of Ontario, on Sept. 4. The distance will be three miles, with a turn. The English oars-man will forward his money today. Towns and Sullivan leave for Amer ica on July 25, and the former will go into training on Canadian waters upon his arrival. Sullivan, who has Towns to be trained, is a well-known man in England, and was at one time champion. Towns was an Australian, as been in England several years. He at present holds the championship.

THE RIFLE.

THE CANADIANS AT BISLEY. Bisley Camp, July 11.—In the Golden Penny match, Capt. J. Spence, of the 48th Highlanders, Toronto, scored 35, and Lieut. J. M. Davison, of the Queen's Own Rifles, 34. The highest possible is 35. In the contest for the ladies' prize, open only to members of the National Rifle Association, nominated by lady members, Lieut. W. E. Moore, of the 74th Sussex Regiment, scored 35 points out of a possible 50. The distance was 1,000 yards. There are five prizes of \$25 each. In the association cup match, at 900 yards, with ten shots, Major MacDougal, of British Columbia, made 34 points. Gunner Fleming, of the 5th Royal Canadian Artillery, got 33 points in shooting for the J. H. Steward prize, at 200 yards, with several shots within a limit of one minute.

LAWN BOWLING. THE TORONTO TOURNAMENT.

cup competition at Toronto yesterday morning at the Dominion bowling tournament, Mitchell, S. A. Hodge (skip) beat Guelph, D. Macdonald (skip), by 23 to 12. In the consolation match M. J. McCarron, St. Catharines, won by default of his opponent.

The only out-of-town clubs left in the Walker cup competition in the Dominion bowling tournament are Kincardine and Weston, who play fo-morrow. The winner in this must play the Toronto Thistles for the finals. The Canada's rink plays the R. C. Y. C., and the winner must meet the Victorias in the semi-finals. In this evening's play London (Finchamp, skip) beat Canada (T. Reid, skip) by 20 to 18, and was in turn beaten by the Thistles (Martin, skip) by 23 to 17. The R. C. Y. C. (J. T. Johnston, skip) beat Mitchell (S. A. Hodges, skip) by 16 to 13. The London and Mitchell rinks are still in the association com petitions.

BRANTFORD BEATEN. Paris, Ont., July 11.-Three rinks of Brantford bowlers came up to try conclusions with the local club in a friendly game on the green here yesterday afternoon. They were defeated by 74 shots to 54.

LAWN TENNIS.

THE NIAGARA TOURNAMENT. Niagara-on-the-Lake, July 11. The Canadian tennis championship matches were continued here yesterday. The weather was perfect and a large number of spectators watched the play And the surprise of the day was the defeat of Larned and Hobart in the doubles by Clothier and Ogden. The

score is as follows: Men's singles, preliminary round— Irving Wright, Princeton, beat B. Glassco, Toronto 6-2, 6-2. First round-W. A. Larned, Summit, N. J. beat W. Kilmaster, Brantford, by default; Clarence Hobart, New York, beat Montgomery Ogden, Princeton, 3-6, 6-3, 6-1.

Handicap, singles, first round—W J. Clothier, Philadelphia (owe half 30) beat A. MacMaster, Toronto, 3-6, 6-1 Defaulted—J. Atkins, New York (owe 15), beat W. A. Larned, Summit (owe 30), 3-6, 7-5. Defaulted—Beals Wright, Harvard (owe 30), beat W. Schroder, Toledo (15), 6-2, 6-2. Championship doubles, preliminary round-W. J. Clothier, New York, and Montgomery Ogden beat W. -Ingersoll Chronicle: Point Edward carried the Crosgy bonus bylaw by a unique vote. There were 211 votes cast in favor and not a single vote against. Voters went from many distant points, including Stratford, Toronto, Hamilton, London, etc.

-The vaults in the inland revenue department of the custem house are to undergo some changes. They are to be strengthened with new iron doors of the combination class, and the old wooden shelves are to give way to iron racks for the heavy books used in the

-Sarnia Observer: About 15 London Old Boys met at the Chapman House last night, but owing to the illness of one of last year's officials it was decided to postpone the election of of-ficers until Friday night, when it is expected all the Old Boys will attend. The meeting is called for 8 o'clock at the Chapman House.

-A new time card will come into effect on the L. E. and D. R. R. on Monday next. Among the important changes are that the morning train from Sarnia will run through to Blenheim. The trains on the new extension will run between Blenheim and St. Thomas, connecting at these points with regular trains. There are no

changes on the Port Stanley division. -St. Thomas Times: H. Lancaster, of Omaha, Nebraska, publisher of the London Old Boys' Magazine, was in the city yesterday afternoon on his way to London. While here he took a group photograph of the following London old boys for his paper: Dr. Guest, W. Oke, Chas. Farmer, Harry Flowers, Chas. Regan and Robert Babcock. Mr. Lancaster will return here next week and spend several

days in the city. -The number of visitors at Springbank last night was probably the largest that has been seen this season, during weeks when there has been nothing but the regular attractions to draw people thither. The entertain-ment that is provided by the street railway company this week is excellent in many respects; but the turn that pleases most is done by the Rob-erts family. It is an act that is really delightful and deserves in every way the praise that is given it by those who have been at the park. It is put on by a family of four-parents and children-of whom the youngest, a little girl of 9 years, is the greatest The other features also are

pleasing. BEST SHOT IN DISTRICT.

The election of committees was laid over until next

CHARGED WITH ASSAULT.

Constable Wilson, of Strathroy, brought an old man named Geo. B. Shepherd to the jail here last evening. Shepherd was before Police Magistrate Noble, of Strathloy in the afternoon, charged with having assaulted Mary Sares on the 6th inst. by which she is alleged to have re-ceived bodily injuries. Shepherd was arrested on information sworn out by the latter, and sent for trial. He is 72 years of age, and married. When brought to the jail here he was in possession of a silver watch and two dollars in money.

McLEOD-MORAN.

Miss Julia Moran, daughter of the late John Moran, 418 Hill street, and Mr. John McLeod, an employe of the McLeod, Nolan Cigar Company, were married in St. Mary's Church yesterday morning. Miss Sadie Moran, sister of the bride, acted as bridesmaid, and Mr. Thomas Cahill supported the groom. The ceremony was performed by the Rev. John Durkin, of Memphis, Tenn., formerly of this city, and at its conclusion the happy couple repaired to the home of the bride, where a numper of relatives and friends of the contracting parties sat down to a dainty repast, the newly-wedded couple re-ceiving numerous congratulations. The couple were the recipients of many beautiful presents. Mr. and Mrs. Mc-Leod will reside at 105 Adelaide street. BREAK-TAYLOR.

A pretty wedding was solemnized at the home of Mrs. Taylor, Queen's avenue, on Wednesday at 2:30 p.m., when her eldest daughter, Jennie, was married to Mr. Daniel Break, of Toronto, at one time of this city. The offici-ating clergyman was the Rev. Mr.

McKenzie and the bridesmaid was Miss Olive Case, while Mr. Ed. Taylor, brother of the bride, supported the groom. Miss Mills, of London South, played the Wedding March. The bride and attendant were daintly gowned in white organdie and lace, and carried shower bouquets of white roses. Among the numerous presents were a handsome clock from the bride's former employers, and a piano from the bride's mother. About 30 guests were present, including some from St. Marys and Port Stanley. The bridal couple left by the evening train for

their future home in Toronto.

Quite an Improvement on the Old. "I have been compelled to stop drinking it," I said to the friend who asked me to strengthen up on a cup of her good coffee. "Well," she said, "that needn't bother you, for I have Postum Food Coffee here, which completely cured a friend of mine of sick headaches." I tried her coffee and it was very good, but when I tried to make it at home, I was disappointed. I soon found that I was not making

correctly, but by putting in two heaping teaspoofuls of Postum for each person and letting it boil twenty minutes, it was delicious. I had at that time been an invalid for several years, but did not know my trouble was caused by coffee drinking, of which I was very fond. I immediately began to feel better after leav-

ing off coffee and using Postum, and stuck to it. One day I met a lady who was troubled the same as I was, and whose appearance on the street really shocked me, for she was so emaciated. She exclaimed in surprise at my improved appearance, and wanted to know what I had been doing. She asked me if I had had a healer of some kind. I said, "Yes, I have allowed Postum Food Coffee to work the almost complete miracle of

curing me.' My husband has been absent in Georgia for some time, and has been in wretched health, having been in the hospital twice for indigestion. I wrote him to stop using coffee and try Postum, told him also just how to make it. Yesterday I received a letter from him in which he says, "I am feeling much better, thanks to you and Pos tum. I sleep better, eat better, and in fact, my dear, am quite an improvement on the old husband." Alice L. Gilson, 805 Park avenue, Salt Lake City, Utah.

GRAND TRUNK EARNINGS. Montreal, July 11.—The results of the enormous excursion traffic to and from Buffalo on July 1 (Dominion Day) is shown in the Grand Trunk Railway earnings for the week ending July 7, which, compared with the same period last year, shows an increase of \$30,641. The figures are: 1901, \$512,472; 1900, \$461,831.
