ON HIS KNEES

Deliberate Suicide of a Tramp Near Stratford.

Stratford, Ont., June 15 .- A tramp was struck by the train from Sarnia due here about 9 o'clock Monday night while a short distance west of Paul's, and so badly injured that he died yesterday morning. When seen by the engineer the man was kneeling in the middle of the track in praying attitude, but the train could not be stopped in time to prevent it running over him. His skull was badly fractured and one leg run over. The man was brought to the hospital here but nothing could be done for him. He was apparently about 33 years of age. There is no clue to his identity. Timothy O'Cornell, a farmer who resides in the vicinity where deceased was run over by the train, was driving some cattle to an adjoining field, when the unknown suicide called out

Key West, Fla., June 15.-The Britsh steamer Twickenham, captured off Kingston on June 10 by the auxiliary cruiser St. Louis, arrived here this morning in charge of a prize crew. She has on board 3,000 tons of coal and one passenger, supposed to be an employe of the Spanish Government.

REBEL ACTIVITY AT MANILA. London, June 15.—The Shanghai correspondent of the Daily Telegraph, forwarding advices he has received from Manila up to June 8, says: "On June 5 the insurgents forced the passage of the Zapote River and captured Las Pinas and Pariki. Since then, up to the time my advice left Manila, the fighting had been continuous, and the Spaniards were gradually being driven out. The fall of the city seems imminent before the arrival of the American forces. Manila is absolutely inrebel progress. But the Spaniards muzzles of the Spanish guns. Official suspect that the rebels are fighting verely from the incessant attacks and with the wounded.

The Berlin correspondent of the Times says: The Marine Politiche Correspondenz, which is often officially inspired, and other papers express the hope that some permanent result, such as the possession of a harbor, will be the outcome of the presence of the German squadron at the Philippines. The correspondent says: It would be a mistake to attach over-much importance to these effusions, but the presence of Admiral Von Dedritch's squadron there is plainly significant.

War department people now talk with contion. A railroad brought the men, baggage, guns, provisions, tents and ammunition to the side of the ships, but with all these advantages it has taken a whole week to get the expedition off. A very well-informed army officer says that the southern coast of Cuba is rough and difficult to approach at most points, and a good deal of the time the water is too rough for comfortable landing from vessels moored in the open road. The men. horses, baggage and provisions now on the transports must be lightered ashore unless the government expects to take a harbor well supplied with terminal facilities, which is not expected. STEAMER RAVENDALE'S EX-PERIENCE.

Cape Haytien, Hayti, June 14.—The British steamer Ravensdale arrived on Saturday at Port De Paix, after having tried successfully to run blockade at Guantanamo. Capt. Huke, her commander, informed the consular agent there that he bought a cargo of 800,000 tons of coal from New York for Nassau, and after discharging proceeded in ballast toward Guantanamo to take a cargo off the Cuban coast. The United States battleship Oregon, he said, fired across the bows of the Tribune from Washington says: The Ravensdale, but the latter kept on fourth army corps, Major-Gemeral running with increased speed toward

SPAIN'S NAVAL MISMANAGEMENT New York, June 15 .- A dispatch to the World from Gibraltar says: Admiral Camara says the fleet at Cadiz placed under his command is not strong enough. The second-class protected cruiser Lepanto, which is now at Cartaginia, is ordered to join his squadron. Marine Minister Aunon will visit Car-tagena and Ferrol before returning to Madrid, but merely for the purpose of delay. He has confessed that he is helpless to deal with the confusion, incompetence and corruption of the naval situation. When I left Cadiz last night there was a report in naval quarters that the battleship Pelayo, the armored cruiser Emperador Carlos IV., the torpedo boat destroyers Audaz, Osade and Prosperina, and the unarmored cruisers Ramido and Patriota will sail Friday under sealed orders. But it is fully believed that they will only go to the Canary Islands. The Pelayo, owing boiler defects, can only go under half-steam. The sailing of the fleet, if it is really carried out, will only be a mere device to satisfy popular clamor for action. The Alfonso XIII. must be left behind, her engines being wrong. There is no foundation for the exaggerated reports in Europe and America about Spain's reserve fleet.

When the minister of marine arrived here he only found ready the 'ironclads ers, two small unprotected cruisers, two cessa De Anturias, and the Dona Maria De Molina-can be ready for effective

service before late in autumn. There is great anxiety in Spanish ports in consequence of the rumons of the contemplated sending of American cruisers over here during the summer. Many ports offered to pay the cost of submarine defenses. Seven steamers have been chartered

by the government to start this week with supplies for Cuba.

SITUATION AT SANTIAGO. Washington, June 15. - Considering the fact that the marines' fight at Guantanamo last Saturday night was really the first engagement of the war inshore, Admiral Sampson's reference to the affair in his dispatches was remarkably brief. Hence. it is inferred that perhaps too much importance has been attached to it by the public. The action of Lieut.-Col. Huntingdon in removing his men to a more secure point than the exposed position occupied by them on the crest of the heights is taken here as an indication that no of-War fensive movement is to be attempted by the marine corps, but that it will cern about the handling of this force limit its operations to the defense of a when it shall reach its Cuban destina- small points in Guantanamo harbor to protect the coaling of the warships, and perhaps to serve as a cable station. He caused entrenchments to be thrown up on all des, and waited for the attack. London, June 15 .- The Daily Chronicle publishes an interview with Dr. Chauncey M. Depew with reference to his recent reported utterances to French newspaper men on the subject of an Anglo-American alliance, and the relations between France and the United States. In the course of the interview Mr. Depew explained that the presented his views, declaring that he did not say there never would be an Anglo-American alliance, but that what he did say was that a specific alliance was not necessary or possible, "bo cause it ought to have a constant an cordial co-operation." Mr. Depew said

also: "My statement regarding France and America was similarly colored." RELATIONS OF BRITAIN AND THE UNITED STATES.

London, June 15 .- In the House of Commons Mr. Douglas H. The parliamentary secretary for the foreign office, Mr. George N. Curzon, replied, saying her majesty's government would be glad to avail itself of an opporunity for improving the commercial relations between Great Brit-ain and the United States. But, he explained, Great Britain now enjoyed the most-favored-nation treatment in all matters of commerce and navigation, and the government had no ground for believing more favorable treatment would be accorded Great

Crisis in the French Cabinet-Scene of Confusion in the Chambers.

Paris, June 15 .- The Chamber of Deputies yesterday, by 295 to 272, passed a vote of confidence in the government. Later, however, the Meline ministry was defeated by a vote of 296 to 246, amid intense excitement and uproar. The house was crowded.

Premier Meline opened the proceed-ings by vehemently repudiating the statement that he was engaged in an anti-democratic policy, but he declared that the accession of socialism to had been able to make ends meet durpower would mean ruin for France.

Ex-Premier Bourgeois taunted M. Meline with being unwilling to cut himself free from the Rightists, and several Extreme Leftists continued their severe strictures of the premier's

'undemocratic policy." M. Ribot then delivered a warm eulogy of the premier, and proposed a grants, but recognizing the success of vote of confidence in the government. But its terms elicited loud protests from the Rightists, and excitement ensued. M. Meline, however, accepted the terms of the motion, whereupon M. LONDON LOSES. [Special to The Advertiser.] Hamilton, June 14.—Hamilton in a measure atoned for the fearful work of Monday by playing great ball yesterday, and administering a defeat to the Londons. Hamilton's work on the field was wonderful, particularly that of Dean, who was knocking down hits all through the game. The only error was made by Conwell, who failed to pick up the bail thrown to the plate, letting in the first run that London got. Hamilton began by batting out runs, a single by Hagerty, error by Keenan, double by Congalton and single by Phillips making three runs in the first. After the second inning no hits were made off Beal until the fifth, but in that and the three following innings eleven hits, including a two-bagger by Phillips and home runs by Elton and Baker, were made, and nine runs were added. London's hits off Baker were scattered, and in tight places the boy pitched remarkably well. In the ninth, however, London made things lively for a while. Howells got first on balls, and Saunders batted out a home run. Then Ruening got a two-base hit on a fly to right, which Strowger misjudged. A hit by Meara scored Ruening, but the next two went down and left Hamilton victorious by 12 to 4. Saunders, Grim-

Buffalo, June 15 .- A sensational move has been made in the crusade against public games of baseball in Buffalo on Sunday. It leaks out that Police Commissioners Rupp and Curtis have ran. been served with orders issued by the appellate division of the supreme court sitting at Rochester, requiring them to show cause why they ought not to be removed from office. The order was issued in proceedings instituted in lided in the seventh in trying to field that court by Lodovic H. Thus we see that from year to year the expenses of the honorable gentleman were going on by leaps and bounds. In the second place, orable friend from Annapolis (Mr. the reduction was accomplished by Mills) complained that there was not penses which properly belonged to the county, though it had been promised year and obliging us to pay them in the by the late government. I say that coming into power we had to provide for a large sum which was incurred for expenses of 1895-6 made by themselves and should have been paid in that year, but they were actually paid in the subsequent year, and it was by these means the honorable gentlemen was able to show an apparent reduction of expenses in 1895-6, which reduction was entirely visionary, which had no substantial reality and which could not possibly allow the figures of that year to be taken as a fair standard for comparison in future years. But the honorable gentleman himself knew that he could not continue that reduction, that while he had shown that his expenses for 1895-6 were a fraction under \$37, 000,000, he brought down in his first main estimates for 1896-7 an amount of \$38,306,586, clearly showing that at the very initiation of his financial work in 1896-7 the record which he presented for 1895-6 was a deceptive record and one that he could not possibly continue. So he increased his main estimates of that year to a figure which was enormously in excess of his total expenses the previous year. But that was not the whole story. The honorable gentleman then had supplement-ary estimates. We find when he came into office records of the supplementary estimates prepared by the honor-able gentleman to the enormous sum

Mr. Fielding-I am perfectly aware that my honorable friend did say that, I repeat that he brought down his main estimates amounting to \$38,308,-543, which, in themselves, were largely in excess of his expenses the previous year; then he has supplementary estimates of \$3,621,689 50, making his proposed expenses for that year chargeable only to income, irrespective of capital account, \$41,630,237 63. In addition to that his capital account estimates, main and supplementary, were large, but I do not need to dwell on Now the honorable gentleman wishes us to understand that these estimates had no existence; he stated that before; I say that the honorable gentleman cannot escape the consequence of these estimates because he used them to his political advantage. These estimates were printed for near ly every item, they were distributed Ottawa, June 14.—In the course of his among certain favored friends, they were placed in the hands of candidates on the stump and say this, that and for in the estimates; and while my honorable friend, sitting in his seat, one of those alarmist speeches dur-g the first session he was in opposi-to deal with it, he said: "I did not tion, but experience has shown that his neglect it, I did look after it, for it item to which he referred was in the estimates.

regards the expenditure on the civil service, I desire to point out that a large number of superannuations have taken place, and in some cases new officers have been appointed, while in others the offices have been abolished. No doubt, as time rolls on, we shall be able to do more in that direction. There is no part of the public expense in which the people expect greater saving to be made than in the civil service. I believe there are too many officers, and that hon. gentlemen opposite, when in power, yielaed too readily to pressure put on them to make appointments. It is much more easy to appoint officers than to remove them, and that has been the experience at the head of every department. My colleagues will be ready to tell the House the difficulties they have met with in attempting to rid the service of some men who are useless, but who have been retained in the service by an influence stronger almost than vested rights. He has political friends and relatives on both sides of politics who would tell you that if you removed that man you are possibly going to subject his family to destitution. I suppose these ministers are only hu-

man, and in many cases when they desired to get rid of officials they were obliged to retain them because of the hardship that would be inflicted on the officials and their families. I believe, sir, that as the days and years go on we shall be able to overcome that, and we shall be able to meet the expectations of the people for a reduction in the expenses of the civil IMMIGRATION AND AGRICUL-TURE.

We are expending more money on agriculture, but who will complain of Surely if there be any class of people in the whole Dominion who ought to receive encouragement from the Government it is the farmers of Canada, and my hon. friend the Minister of Agriculture, Mr. Fisher, has asked for liberal expenditures in

department, and the House, without distinction of party, granted him the money. We are spending money on immigration, and why not? The hon. gentleman, Mr. Foster, spent a great deal of money on immigration, but he and his Government sent the people out of the country, whereas we are spending money to bring the people here and to keep them here. The exodus, if not absolutely stopped-I suppose it will never stop altogetherbeen stemmed, and Canadians are having hope and faith in their country now and staying home. Mr. Sifton s bringing thousands of immigrants to the country to swell the population. We have been spending a large amount of money on militia, for we do not keep up an expensive staff as the Conservative Government did and forget to drill the men. We are spending money to open up the Yukon. We are spending money on the Intercolonial Railway, and who will blame us for

tion which was one of the terms of their entering into Confederation, and which, up to the present, has never been fully carried out. We are appropriating money for the plebiscite. Let Mr. Foster take any one of these items in detail, and if it is wrong let him challenge the vote of the House on it.
Why does not Mr. Foster do that?
Oh, no, he won't do that. Mr. Foster had the audacity at the earlier stage of the session—is the word audacity Parliamentary, Mr. Speaker?—

Mr. Foster-I won't challenge it. Mr. Fielding-He had the audacity to talk of the Crow's Nest Pass deal. Mr. Foster not only voted for the Crow's Nest Pass deal, but day after day, through the session, he manifested more interest in it than the man who introduced the bill. Day after day when the bill was not gone on with as fast as he wanted, he would rise in his place and say, "What are you going to do with this bill?" Mr. Foster was more interested in the Crow's Nest Pass bill than any other man in the House. He voted for it, he hustled it along, and now he comes back a year afterwards to talk about the Crow's Nest Pass deal.

CONSERVATIVE MISREPRESEN-TATION.

The chief organ of the Conservative party is willing to have the false statement go before the country, that for the services which the Commons in 1895-96 expended \$36,949,000 we propose to spend \$48,841,000. They take the capital services and the income services; they take them in the first estimates and they take them in the second estimates, and they manipulate them, and they take the payment of \$300,000 to Manitoba and they add it, even though if it had been paid it would not add one cent to the charges on Canada, and which was merely a matter of bookkeeping. They take the item on account of the Manitoba Parliament buildings, one-half of which does not enter into the public accounts at all, and which is credited back to Manitoba. They take all these items, income charges and capital charges; they dump them all into one account, and they say that over \$48,-000,000 is being expended by this Government upon services which, in the time of the Conservative Government, cost only \$36.949,000. The author of 236,575 that statement knew it was an infamous comparison to make when he undertook to roll up capital expenditures and income expenditures and everything of the kind and compare them with the expenditures which the Conservative Government had only remitted to capital account. That is on a par with what hon, gentlemen opposite have been doing right along.

A CHALLENGE TO MR. FOSTER. Let Mr. Foster go to the records of the House, and he will find that there are not more than two or three paltry items of four and five thousand dollars with reference to which he has had the courage to divide the House. If these expenditures are lavish, why does not the hon. gentieman (Mr. Foster) assert his responsibility to Parliament and to the country and challenge a division

Mr. Foster-After you had decimat-Mr. Fielding-Mr. Foster knows that we brought down our estimates at a have gone to the Maritime Provinces,

Mr. Foster-When did you go into them? Mr. Fielding-We went into Committee of Supply at a reasonably early period, and we have spent 27 days in supply, which is quite long enough. If the hon. gentleman (Mr. Foster), instead of wasting his time with such trumpery matters, had brought his site fondly hoped would bring mind to bear on this portion of the Government down was the Manitoba estimates and challenged what he school question. I believe that no government in the history of Canada ever had to deal with so many new and difficult questions as the Liberal Government has had to deal with during the twentythree months it has been in office. believe that hon, gentlemen opposite know that very well, and they engaged in fond anticipation that these difficulties will be too great for the Government to surmount. They thought, sir, that one session of Parliament would put an end to this Government, and I believe one distinguished member of the Opposition was good enough to give us a single session. Well, sir, we have been here for the second and third sessions; we have met attacks of hon. gentlemen opposite; we have had them fishing into the public accounts day after day, and week after week, with the sole result that on one subject they did endeavor to place the suspicion of corruption on a transaction with which this Government was connected, but this Government could not let them escape would be glad had they been allowed to escape, but this government insisted there should be strict investigation, and the result of that investigation into the Drummond county transaction was that members on that side of the House had to stand up and declare not only that there was no corruption, but that they had never charged corruption, and honorable gentlemen opposite instead of pressing the matter to a conclusion this session were ready to ask that it should not be gone on

Mr. Foster—My honorable friend is not quite fair. He should put in the words there, "this session." The Minister of Finance—Very well, his session: My honorable friend (Mr. Foster) thinks that by putting it off this session the public will forget the great outcry that was made by him and his friends as to alleged corruption last year. My honorable friend thinks that the public will forget that it has been proven beyond a doubt that there was not the shadow or shade of suspicion in connection with the Drummond County Railway. This Government have expended large sums of money, but they have expended them for useful purposes and for purposes of which the country does appreciate and will appreciate. sums of money have been expended in opening up the Yukon, and, though for the moment the work of the Gov-ernment has been checked by the foolish policy of honorable gentlemen opposite, yet the progress of Canada will continue in the meantime. In the Province of British Columbia we have the Crow's Nest Pass Railway. which the honorable gentleman (Mr. Foster) voted for and aftenwards attempted to condemn. "I was very much run down having been sick for several months. I had been trying different remedies which did me no good. I would have severe spells of coughing that would leave me prostrate. I was told that my lungs were affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done and my brother advised me to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. Quite a few changes in values and the quantity of the receipts have oc-curred on this market during the week the quantity of the receipts have occurred on this market during the week just closing, notable among which are the declines in the price of wheat and oats. The receipts of neither of these lines were heavier than usual, and the lines were heavier than usual, and the drops are entirely due to the general situation the world over. Other kinds of grain show very little change. Wheat closed at \$1 45 for poor and \$1 50 for good. Oats, 98c to \$1. Old Men and Kidney Disease. Aged persons troubled with weak back, impaired kidneys, pain in the back and base of abomen, scalding urine, with tendency to urinate often, especially at night, should use Dr. Chase's Kidney Liver Pills. You know the doctor's reputation, you know the value of his work, and that Dr. Chase would not risk his reputation on an unknown and untried remedy. Every druggist in Canada sells and recommends them.

Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convey the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigestion.

CUBAN CO-OPERATION. The first attack of the Spaniards was made at 8 o'clock, and the last o'clock in the morning. During the night the Spaniards attacked the camp of the marines on the snore, and the Marblehead, believing the Americans had been driven out, threw several shells into the place. The attack, however, was repulsed by the small detachment of marines in camp without trouble. The shells of the Marblehead

When the United States Have Captured Cuba.

the New York World-How Britain 11215 AT Sensational Washington Dispatch to Is Supposed to View the Situation.

WHEN CUBA IS CAPTURED. New York, June 15-A Washington dispatch to the World says: Great Britain, through its ambassador at Washington, has informed Secretary of State Day that when the United States captures Cuba, Spain will be forced to end the war. Great Britain looks on the situation in the light that Cuba is what both nations are fighting for, and when Spain has lost the island there will be nothing left for her on which to continue the struggle. Sir Julian Pauncefote has assured Secretary Day that the powers would not permit Spain to continue a hopeless war to the detriment of their commerce. Great Britain's assurances probably account found in all of the five continents, with for President McKinley's orders to a Presbyterian population of 23,000,-prepare an army to move on Hayana 000. York. She has 400 cases of pork, 125 bags of corn, 57 bales of tobacco, 1,000 bags of rice and 1,200 barrels and 1,800 bags of flour. The cargo seems much too large for one firm to handle in ordinary trade, and it is believed to be presented an address to the governordestined for transhipment to Cuba for the Spanish troops.

FROM SPANISH SOURCES. Havana, June 14-8 p.m.-This morning (Tuesday) two American cruisers and one dispatch boat opened fire against the batterles at the entrance to the harbor of Santiago de Cuba, discharging between 50 and 60 shots of different calibres. DEFENSES OF HAVANA. London, June 15.-H. J. Whigham, who has arrived at Kingston on the British cruiser Talbot, from Havana, where he was recently temporarily in custody on the charge of being a spy, "The garrison at Havana, says: cluding the volunteers, numbers 50,000 men, while recruits are enrolling daily. There is no prospect of starvation for some time to come. Large number's of Cubans are veering round towards Spain. The defenses of the town have been greatly strengthened since the war began. Two hundred guns have been mounted on the shore batteries. In short, Havana is now practically impregnable, provided the Spaniards make a good fight, and it is believed that the capture of the army will require at least 75,000 American troops.'

FAREWELL VISIT

Of Lord and Lady Aberdeen to the General Assembly.

Reception of Ministers-Report of the Committee on Applications Received-Delegates Nominated.

Montreal, June 15 .- The most interesting event in connection with yesterday's sederunt of the Presbyterian general assembly was the visit to the assembly of the goversor-general and Lady Aberdeen. As it was regarded as a farewell visit, great interest attached to the event. Their excellencies were escorted to the platform, where they were welcomed by the moderator, and a pleasant interchange of courtesies ensued. Their excellencies remained for some time listening to the debate before the assembly. Rev. Dr. Fletcher, on behalf of the

committee on the reception of ministers, recommended that leave be granted to receive as ministers: Presbytery of Toronto-Mr. Alex. McGillivray, from the Presbyterian Church in the United States, and Mr. Thos. W. Campbell, from the Reformed Exiscopal Church. Presbytery of Maitland-Mr. Colin Sin-Scotland. Presbytery of Winnipeg
—Mr. C. F. Jack, from the Church
of Scotland; Mr. James Niven, from terian Church in Queensland; Mr. Samuel G. Boyce, from the Presbyterian Church in Ireland; Mr. Thomas H Medd from the Presbyterian Church in the United States. Presbytery of Kamloops-Mr. John G. Duncan, from the United Presbyterian Church of Scotland. Licentiates, Presbytery Winnipeg-Mr. James Meban, from the Presbyterian Church in the United States, and Mr. Alex. Smith, from the same church. Other recommendations were: That

the application of the Presbytery of Lunenburg and Yarmouth, in behalf of Hoyt Fraser, be referred to the synod of the Maritime Provinces: that the application of the Presbytery of Toronto, in behalf of Mr. Matthew White, be laid aside for one year; that regarding the application of the Presbytery of Algoma, in behalf of Mr. B. K. Bashgeton, last year's decision be adhered to. That leave be granted to the Presbytery of Toronto to withdraw the application in behalf of Mr. E. M. C. Botterel. Adopted. An overture from British Columbia

anent reorganizing the home mission and augmentation committees was remitted to those committees. Rev. Dr. Warden read a letter from Rev. W. H. Roberts, general secretary the Pan-Presbyterian Alliance

The moderator, Dr. Torrance, general expressing appreciation of his services and regret at their excellencies' departure from Canada.

Lord Aberdeen, in reply, said that their interest in the address and wel-

come was increased by the fact that in no Presbyterian assembly could they feel as strangers, and certainly this was the case in regard to the church in Canada. During their stay in Canada they had had the benefit of partaking to a great extent of the ministrations of the Presbyterian Church, and the majority of the honorary chaplains had belonged to that church. THE SHRINERS. Dallas, Texas, June 15.-The Imperial Council of the Shriners completed its labors yesterday. The report of Su-Potentate McCaffery showed a membership of over 50,000 in North America. Finances are in splendid shape, and the outlook for the coming year is most encouraging. Buffalo, N. Y., captured the pilgrims for 1899, and for a year the camels will all be headed that way. Among the officers chosen was Mr. Henry Collins, of Toronto, Ont., first ceremonial master.

THE IRISH PRISONERS. London, June 15 .- The government has notified Mr. John Redmond, Parnellite member of parliament for Waterford, that in the coming revision of the sentences passed upon the Irish dynamiters implicated in the alleged conspiracy of 1883, when there were numerous explosions or attempts at explosions in London, Liverpool, Glasgow, Birmingham and elsewhere, life sentences will be regarded as twentyyear terms. This means that H. H. Wilson, Timothy Featherstone, Dalton, Terence McDermott and Flanagan will be liberated during the present year if their prison records are clean.

"If you find a four-leaved clover you can have whatever you wish for.' Then he began searching diligently with her, his round, rosy face bent close to the green turf, and they had a wonderful discourse. while, when it comes so soon to this tragic end. If men would only take the most common sense precautions against the en-croachments of ill-health, there would be fewer houses of mourning, and fewer women left alone almost helpless before the battle of life is half over. A man's liver and stomach are twin machines that work together, either to make or unmake. If they work wrong, they deplete and poison his blood. Impure and impoverpoison his blood. Impure and impover-ished blood mean sickness and death. If they work right, they purify and enrich the blood. A man whose blood is rich and pure, and whose liver is active cannot well be unhealthy. Headaches, biliousness, in-digestion and costiveness, which men generally disregard, are Nature's warnings that the twin mechanism, stomach and liver, is working against, instead of for him. Dr. Pierce's Golden Medical Discovery is the best medicine to use under these circumstances. It creates appetite, corrects all disorders of the digestion, invigorates the liver and fills the arteries with rich, red, healthy blood. As an invigorating, restorative tonic, it is far superior to all the malt extracts. It is the great bloodmaker and flesh-builder. It does not build sickly, flabby fat as cod liver oil does, but the firm, muscular tissues of health. "For the last nine years," writes William Miller, Esq., of 651 Mulberry Street, Reading, Pa., "I have been very poor in health. I suffered with a running sore leg. I tried many kinds of different medicines, and doctors without relief. Then I used three bottles of 'Golden Medical Discovery' and can say that I am entirely cured. I can now do as good a day's work as the next man." Unfailable—Dr. Pierce's Pleasant Pellets for constipation and biliousness.

ishly, being childishly pleased that The Average Is Good-Herds in Good Condition.

> At last night's meeting of the board of health, the medical health officer, Dr. Hutchinson, presented his semiannual dairy report, which is of much interest to householders. It was as follows:

The Chairman and Members of the Board of Health: Gentlemen,-I have the honor to lay before you a report of the inspection of herds, dairies, and the quality of milk supplied the city for the six months ending June of the board the herds, byres and surroundings have been classed according to merit, A, B and C. All milk giving a percentage of 4.00 and over is classed as No. 1 milk. That giving a per cent of 3.50 and under 4.00 is second-class, and all under 3.50 is third class. Considering the time of year, the average of all the milk was good. During the six months only two diseased cows were found, and the milk from them was not sold. Kanes Bros., Westminster, A; sell to

On March 2, The Advertiser printed a "Lost" advertisement of a pair of gold eyeglasses. Mr. Richard Coveney, who lives three miles west of Delaware, lost the glasses. After three months, The Advertiser has been instrumental in finding his glasses. One of its sub-scribers had read the advertisement at the time, and gave information that they were sold by a young man to a party living on Piccadilly street. The Advertiser had some trouble in finding Mr. Coveney's address, but finally from information left by the Delaware stagedriver, eventually discovered where to write. The glasses were to be returned to the City Hotel, and no address was taken at the time. Mr. Coveney called today and particulars were given him. He subsequently called with the glasses and thanked The Advertiser for its interest in the matter. It is gratifying to know that The Advertiser was the cause of their return, as other city pa-pers printed the same advertisement.

The officials had inspected 8,238 houses, compared with 7,300 last year. They found 1,838 closets unclean and 310 yards the same. These had been remedied, and the city was now in a good sanitary condition. The

cost of the inspection was \$118 91. Mr. Bowman and Mr. Blackwell were asked to secure samples of river water for analysis. The samples will be taken at various places between the city and Delaware. Mr. Macpherson said the health officer had been before the committee, and his attention called to the fact that cases of pupils sick from scarlet fever or kindred diseases had not been reported to him. It would seem that with this knowledge it would be his duty to bring the matter before the board of health. It might be that the cases complained of were not those of scar-

let fever at all. Dr. Hutchinson said it was only hear-say evidence before the school board committee. He found that nine cases out of ten reported as scarlet fever were something else. The fault lay as much with the parents as with the physicians. It was hard to keep physicians up to the mark, but generally they did very well. If the charges were true it a serious arraignment of the doctors, and they should be punished; but it was mostly hearsay evidence. When the doctors were heard they

Quarterly Meeting of the Methodist Woman's Foreign Missionary Society.

Auxiliaries Present Reports-Address es by Rev. Messrs. Fallis and Russell -Large Gatherings.

The Woman's Foreign Missionary Society of the Methodist Church, London district, held its quarterly meeting in the Centennial Methodist Church yesterday. The attendance was good, and the reports presented most gratifying, showing increases in nearly all sections. Mrs. (Rev.) Ford presided, and on the platform with her were seated Mrs. Evans, district organizer, Mrs. Dickson and Mrs. Belton.

After devotional exercises, the reports of the different auxiliaries were read, and were received with much enthusiasm by the members. They follow, briefly summarized:

The speaker said women were so well versed in their work that they needed no advice from him. He would, therefore, just say a few words of encouragement. The handsome sum of \$40,000 was raised by the Methodist women of Canada last year to try and make homes by educating heathen women and children. A missionary recitation by Miss Allen elicited well-merited applause.

Mrs. Evans, district organizer, announced that there were 19 auxiliaries in this district and all were flourishing. A supper was tendered those present by the choir of the church at the con-

CALLED A PASTOR

St. James' Presbyterian Church Tender a Call to Rev. Alex. J. McGillivray, of Guelph.

A fairly representative meeting of the members and adherents of St. James' Presbyterian Church was held last night to consider a call to Rev. Alexander J. McGillivray, of Guelph. Rev. J. G. Stuart, moderator, occupied the chair. After devotional exercises the usual form was read for presentation to presbytery, and on motion of Neil McNeil and Wm. Webster, the

made unanimous. Rev. M. Stuart said he was unaware, until late in the afternoon, whether or the call, awaiting the action of the General Assembly, as Mr. McGillivray was from the United States. He was glad to say a telegram had reached him stating that Mr. McGillivray had been accepted into the Canadian Pres-byterian Church. The speaker had used his utmost efforts to procure a special meeting of the presbytery on Friday, June 24, and if this were granted everything would be smooth sating.
