FIRE AND PANIC IN SCHOOL THREE SCORE CHILDREN PERISH

The Town of Collinwood, Ohio, Near Cleveland, Overtaken By Terrible Disaster This Morning.

FOUR HUNDRED PUPILS CUT OFF BY THE FLAMES

Doorways Become Chocked By Struggling Masses, Preventing Escape-Floors Crash Into Cellar, Precipitating Unfortunates Amongst the Fiery Debris-20 Bodies Found.

Cleveland, Ohio, March 4 .- In a fire which completely destroyed the common school building in Collinwood, a suburb, today, seventy-five children lost their lives.

The fire was started by an overheated furnace. The flames quickly spread, but a panic ensued when the building filled with smoke, and the 400

There were but two exits in the building that were available. One soon became choked with the children, who madly dashed for the open air. Those who fell in the doorway were trampled upon by those behind, and soon the doorway was impassable. The frightened and panic-stricken children turned to get out through the windows and any other means that could be found. Escape was cut off by the flames, which by this time had spread throughout the rooms. The building was of brick, yet this did not retard the progress of the fire.

CRASHED INTO CELLAR. .

In a few minutes the lower floor fell, precipitating scores of children to the basement, among the burning embers. The scene about the building was heart-rending. Quickly the news of the terrible catastrophe spread throughout the village and hundreds of parents were crowding about the building in search of their girls and boys.

TWENTY BODIES FOUND.

In a few minutes twenty bodies had been taken from the ruins. Plainly the writhing or stilled forms of dozens of others could be seen in the basement. Nearby factories dismissed their men and instructed them to assist in the rescue. They braved the fire and made heroic efforts to save those who were not dead.

It is reported that between fifty and seventy-five children were burned to death. Scores of others who escaped from the building were injured. The structure was burned to the ground. A force of men have been put to work in the debris searching for bodies.

SOME OF THE DEAD.

Among the known dead are: Edna Eahner, 12 years old; Bernie Schubert, 10 years old; Willie Weisbarth, 7 years old; -. Meyers, 6 years old; two Buschman girls, 10 and 12 years old; Hugh McIlraith, 10 years old; Thomas Thompson, 9 years old; Eddie Kehl, 11 years old; -. Roster, 10 years old; two Woodmeyer girls, 10 and 12 years, old; Harold Sanderson, 12 years old.

Missing: Lizzie Lyon, Emma Heinge, Peter Heninger.

Injured: Glen Barber, 10 years old; Mildred Schmidt, 10 years old. At 11:30 twenty-five bodies had been recovered from the ruins, and were taken to the shops of the Lake Shore and Michigan Southern Railway Company, where the company's physicians are attending the injured.

Practically every ambulance in the eastern part of Cleveland was called, as well as every available physician. Many children rescued are believed to be fatally injured, either by fire or by being trampled upon. Scores of children have been taken to the city hospitals.

Animal Belonging to Graves & Co. Smashed the Window of Burial of Shippy's Would-Be Nothing in the Rumor That Annual Drill Will Be Dispensed With Heintzman & Co., Piano Warerooms-Rev. Messrs. Garrett and Booth Have Close Call.

Suddenly frightened on Clarence street this morning, a horse owned by B. Graves & Co., and driven by Mr. John Twitchen, furnished a very exciting runaway on Dundas street, winding up its race by jumping into the plate glass window of the Heintzman & Co., piano warerooms, on the corner of Clarence street.

No person was injured, although two had narrow escapes. The horse was badly cut up, but not seriously hurt.

Mr. Twitchen was driving up Clarence street when the horse became frightened at something on the walk. It jumped sideways very suddenly and overturned the sleigh with Mr. Twitchen underneath.

The horse then pulled itself free from part of the sleigh, and on reaching Dundas street turned west, with only the shafts and the front bob. It ran almost to Richmond street when it was captured. MORE DAMAGE.

Assassin Causing Chicago Some Anxiety.

Chicago, March 4.-Lazarus Averbuch, the young Russian anarchist who attempted to assassinate Chief of Police Shippy and was himself slain, was one of the body of men who called upon Corporation Counsel Brundage several weeks ago to secure permission for the parade of the "unemployed." This permission was denied because it was believed it would bring about a clash between the "reds" and

the police. The disposition of the body of Averbuch is presenting a puzzling problem to the authorities. Despite his attitude of sworn enmity to society, there is no wish to deny him the ordinary privileges of the burial rite, provided it be performed with the utmost privacy. No friends have called to view the body, however, and unless his sister informs the undertaker today that she is financially able to bury the body it probably will be interred in the potters' field.

The police when they arrested the girl found in her possession a trifle over \$19, which is believed to be all she had, and it is thought that the county will be obliged to inter the body of Chief Shippy's would-be mur-

ANARCHISTS PLAN LONDON CAMP WILL BE HELD A "RED" FUNERAL COL. PETERS, D.O.C., SAYS SO

Because of the Big Celebration in Quebec

in August Next.

When interviewed by The Advertiser this morning in reference to the rumor which has been circulating to the effect that the military camps in Ontario and Quebec will be canceled this year owing to a large military demonstration in connection with the Quebec tercentenary, Col Peters, D. O. C. of No. 1 district, stated that he had heard nothing from headquarters in reference to such a possibility

"We are going ahead as usual with our preparations for our encampment," said the officer.

WOODSTOCK SOLDIERS.

It is said that the Twenty-Second Regiment of Woodstock may be one of the regiments to be taken to Quebec to take part in the tercentenary.

The Woodstock Ser inel-Review says: Will the Twenty-Second Regis ment, the Oxford Rifles, be one of the regiments to be taken to Quebec next August, to participate in the tercentenary of that historic city? It is believed by the officers of the regiment that it will be thus honored, and everybody hopes for the trip, for it would be one of the most enjoyable vacations which might be taken.

It is the intention of the militia department to take twenty-thousand of the Canadian militia to Quebec to assist in the celebration of the threehundredth anniversary of the founding of Quebec, which is being made ar. event of national importance. Whether or not they are able to carry out their wishes in the matter, depends upon the appropriation which is made for the purpose. They expect, however, to get enough to take the entire twenty thousand men to Quebec, and in that event, officers of the Twenty Second have no doubt that the local regiment will be included.

The celebration will last about a week in August. The troops present will take part in parades, etc., and will live under canvas during the stay,

Hon. Mr. Whitney informed the House that it had been the intention of the Government to take up the motion of Dr. Godfrey regarding the prevention of the spread of tuberculosis in connection with Mr. Downey's bill on the same subject. The latter was not prepared to move the second reading of his bill and the Premier proposed that Dr. Godfrey move his resolution and then leave its discussion over until Friday.

Dr. Godfrey stated that consumption every year caused one million deaths. or 3,000 a day. In Ontario, in ten years, there had been 30,000 deaths from this disease. Authorities state that it costs on an average \$365 to carry a patient from time of infection to the time of death, while a cure could be effected by modern methods for \$328. Since 1905 the Government had spent \$15,000 on sanatoria. He quoted statistics as to what had been done in other countries. In order to combat tuberculosis, the Government must be wise and the people willing, and this condition obtained in Ontario at the present time.

STORE NEWS TODAY.

The Great Question---What Are The New Styles in Ladies' Spring Suits?

ANSWERED, by the first showing in our Ready-to-Wear Department, a few of which are now on display in East Window.

We ask your particular attention to the high-class tailoring, also the great variety of styles we are showing at popular prices. The butterfly sleeve is one of the features which mark them with a stamp of newness, and make the garment of today differ so materially from the one of yesterday. The materials are Ranama, Venetian, taffeta cloth and broadcloth, in plain, also narrow and hairline stripes. Come, if only to satisfy yourself as to what the new and correct styles are for spring season, 1908.

Spring Suit of Taffeta Cloth, \$40.00

Silk lined, hip length, light gray, three large tucks over shoulder, giving the Gib son effect; collar and cuffs trimmed with applique; skirt full pleated. One of the nobby new styles. Suit \$40.00

Spring Suit of Venetian, \$22.50

A very attractive style, in navy and green Venetian, hip length, mercerized lining, strapped seams and trimmed with braid and buttons; skirt pleated. Suit \$22.50

Spring Suit of Panama, \$15.00

The "Prince Chap" style, in brown, navy and black, mercerized lining, skirt full pleated and neatly tailored. Suit \$15.00

We describe these three only to give you an idea of the range of prices. You'll find many other styles at various prices, and on all the tailoring and workmanship is backed up by the Smallman & Ingram guarantee of satisfaction.

The New Material For Drop Skirts

Lustrous enough to deceive the most careful observer as to its nature, and durable enough to outlast many skirts of the real taffeta silk, and without that harsh rustle, which has become so distasteful to the smartly-gowned woman.

If you have not tested the virtue of "Heatherbloom" Taffeta, for drop skirts, ask to see it at our Lining Department. We have yet to hear the first complaint from any who have given it a trial.

The available assets over the liabilities, as shown in the balance sheet, exclusive of the royal review fund, and the stores on hand, amount to \$152 07, as compared with \$378 41, shown by the statement for 1906. There were, however, unpaid accounts amounting to \$296 26, which were not shown in the statement of liabilities for 1906, which should have reduced the balance for that year to \$76 15. The council in their report recommend following the course adopted some few years ago by the Dominion.

At no stage did the Government refuse the Opposition documents or any information. The minister of marine and fisheries explained that all information demanded would be supplied; that the officials of his department were preparing it, and would submit it as soon as possible. He had already laid some of it on the table, and promised the remainder as soon as his staff could furnish it.

Some members of the Opposition de-" clined to accept the minister's pledge. They insulted him to his face, and refused to pass any item in his department until the papers were brought down. This breach of the amenities and spirit of hoodlumism were properly resented by the minister and the whole Liberal contingent. They insisted that public business must go on, and the Opposition led, not by Mr. Borden, but by Foster, Bennett, Taylor, Sproule and other unmannerly and truculent front-benchers, deliberately talked against time for three days.

Conservative Montreal Star heaps scorn and contempt upon the meetings, but claimed that his presobstructionists and upholds the Government. Here is what it says:

ANARCHY IN KENTUCKY.

For several weeks the state of Kentucky has been in a condition bordering on anarchy. In several sections the torch and bullet have been resorted to, and whole counties are being terrorized. What makes the situation particularly grave is the fact that blame cannot be laid at the door of foreigners unfamiliar with American institutions, but the trouble is confined to native Americans.

The struggle is unique, the opposing parties being two trusts-one the big tobacco trust and the other a trust of planters, formed for the purpose of securing higher prices for their product. As might be supposed, in this confest the planters are the amateurs, and the tobacco trust the trained and shrewd professional. The result Sproule, speaking from his seat in the has been that driven into a corner and House. LITERARY NOTES

American Magazine for March Ida Tarbell has some admirable pen pictures of Gov. Hughes, of New York. "The Psychology of the Yellow Journal" is a clever study of the part played by popular journalism in American life. Mr. Dunne and Mr. Steffens are both represented by characteristic articles.. Upton Sinclair's "The Metropolis," grows in interest, and there are a number of good short stories in the current number.

The March issue of the Busy Man's. Magazine is unusually instructive and interesting, and the illustrations are good. The story of the "Progress of a Canadian from Cadet to Rear-Admiral in His Majesty's Navy," is told in an attractive way. A clever sketch of "Tobogganing in Canada" will appeal Parliament had for holding-up public a special message to the Legislature considerably longer, and his ability to lovers of the great winter pastime. asking for more power to suppress while the fact that he can travel for a able contributions from leading writ-

> The Bohemian, published by The Outing Publishing Company, at Deposit, N. The name suggested must be original, never before used by a magazine, exactly fitted to its quality of contents, and should reach the office of the editors at Deposit before April 1.

In the March Century, Mr. Andrew Carnegie goes back to the beginning of his experiences with railway rates and rebates, in 1856, when he was secretary and telegraph operator under Thomas A. Scott, general superintendent of the Pittsburg division of the Pennsylvania Railway, and his presentation of present day conditions and needs comes with unquestioned authority. The story is dramatically told. Henry B. Hersey, U. S. weather oureau inspector, who has made many sky voyages, in this issue, protrays the fascinations and the practical value of aeronauties.

One of the best magazine stories of the month is "In the Land of Her Fathers' by William B. MacHarg, in "is tive, "The Meddlesome Old Gentleman," besides which there are a number of interesting complete stories. Twenty-eight beautifully printed portraits of as many handsome women of the stage, and a review of the new plays by Louis V. De Foe, complete the issue.

The two leading articles in the March St. Nicholas are devoted to intelligent dogs-Lida Rose McCabe's A TRIAL BY BREAD AND CHEESE "When Dog Is King," telling of the important part dogs plays in Alaska's life, and W. G. Fitzgerald relating interesting experiments and experiences Opposition would surely have been leagues a helping hand, and was not was superstitiously regarded as a daily new series of "For Very Little Folk" The Bear Family at Home, and Ass How the Circus Came to Visit Them."

> The March number of Scribner's Magazine opens with a paper of adventure by Arthur Ruhl, who crossed the Andes in winter, from the Chilean side to the Argentine foothills, about 150 miles. The Andes here arise to an appalling height, but Mr. Ruhl took the journey lightly, and tells his story of hardships, hazards and amusing incidents on the way, in a graphic manner. Charles M. Drinking Men Not Wanted

The above sign is now seen in many shops and offices in this city, because drinking men are unreliable. Competition is too keen and life is too strenuous for an employer to keep men on his pay roll whose nerves are unsteady and whose brains are not clear. Every line of business is beginning to close its doors to drinking men.

Drunkenness is a disease, and like most diseases, has its remedy. Orrine is the reliable treatment and is sold under a positive guarantee to effect a cure or your

Col. Gourdeau, deputy minister marine, made a statement as to the HARRIMAN KING OF delay in the presentation of the marine department returns to the House. He said the minister had urged him to see that returns were expeditiously made out, and had given him a free hand as to the employment of extra clerks, but the available space in the department was limited, and it had been impossible to make any better progress than had been made. However, as the responsible officer, he was prepared to accept his share of the blame for any delay which had occurred, and he announced for the second time, in a letter addressed to the minister, a desire for his retirement from the public service. Collingwood secured three goals before Midland got a look-in, and at half-time had eight against four, which caused much excitement work as to whether the home team would keep up the good work. In th second half Midland started scoring and it looked as if they had been toy ing with their opponents from the ap parently easy way that they tallied But the pace could not last long, and after scoring four goals Collingwood again took the game in hand, and be fore the end came added four more for short duration.

Visitors, Minus Switzer, Put Up goals to their previous eight, while Midland got in one more shot before time was up. The improved condition of the winners was very marked, and it was their staying powers added to their hard shooting and splendid rushes that won them the match. ment of the city.

The Decision. Judge Monck held that while the city had a right to make laws that were necessary for the good government of the city, the "obstructions" mentioned in the bylaw were meant to be on the street, not in the street. He thought that the obstructions were intended to mean material objects or articles that could be placed in the way to interfere with traffic. Judge Monck held that the municipal act gave the city no power to make bylaws regulating what should be done on a man's private property, so long, of course, as no public nuisance was committed. He quashed the conviction.

This means that crowds in the street caused by anything in a building may be dispersed by the police, but those causing the crowds to collect cannot be prosecuted.

Mr. Albert Hughes, the young man who it was feared for a time would lose both hands as the result of an accident he met with while working for a farmer west of the city, is slowly recovering at the Convalescent Home. It was found necessary to amputate one hand, but it is thought he will shortly have fairly good use of the other. To Dr. Hadley Williams he gives all the credit for this fact, the doctor having undertaken the case
