been installed in the vault of the local branch of the Canadian Bank of Commerce, at the corner of Colonge avenue and George street, has reopened under the management of Gen. W. Cheney. BRICKLAYERS MAY STRIKE Those of Berlin, Galt, Preston, Waterloo, May 31.—The bricklayers and masons of Galt, Preston, Waterloo and Berlin will strike on Wednesday if the wages are not raised from 35 cents per hour to 40 cents. This was decided upon at a meeting of the union here tonight, and it will be presented to the Berlin Builders' Society tomorrow. One hundred and fifty workers will be affected. The builders are willing to grant the request, but not until Aug. 1, but the men say not. Official Organizer Iazard addressed the men.

HER GEMS WERE SAFE

Fortune in Diamonds Left by Woman on News Stand. Kansas City, May 31.—A handbag containing a sack of diamonds was found among the books on the news stand at the Union depot by E. C. Witt, who did not examine its contents. A few minutes later the conductor on the Rock Island Golden State Limited telegraphed from Randolph Mo., that a woman on his train had lost a handbag in the depot. John Wallenstrom, depot master, answered that it had been found, and received this telegram from the owner: "Please send the handbag to Mrs. Ernest Milton White, Provident Building, Philadelphia. The bag lost contains \$26.40, a sack containing a dozen diamonds and other jewels, a bank book and valuable papers. Send the name of the finder, as I wish to reward him liberally."

MRS. ANNIS A HIT.

New York, May 31.—The debut on the vaudeville stage of Mrs. Wm. E. Annis, widow of the man who was slain by Capt. Peter C. Hains, jun., was applauded last night in a theatre at Rockaway Beach. She did a piano sketch with a singing and dancing team of men, and played as a request number the "Rosary," which she announced was the favorite of her husband. On insistent calls by the audience, Mrs. Annis appeared before the curtain and announced that the death of her husband made it necessary for her to earn a living for herself and her children, and that she felt that the stage afforded her a better opportunity than anything else.

LONDON STUDENTS.

Ven. Archdeacon Richardson left for Toronto yesterday to attend a meeting of the examiners for the preliminary and degree of B. D. as the representative of Huron College. Seven students, Messrs A. L. Charles, W. B. Hawkins, S. S. Hardy, H. F. Hutton, P. J. K. Law, W. H. Moore and John Morris have been writing at Huron College during the past fortnight under the archdeacon's supervision, and will pass a further examination next week before the bishop's chaplains. The bishop will hold an ordination in the Cathedral on the 23rd of June. The synod will meet on the following Tuesday, namely, June 15.

PAIR ROLLER SKATES FREE

To every Boy and Girl in London who will bring two of the following orders to the CIRCULATION DEPARTMENT OF THE LONDON ADVERTISER.

I hereby state that I have not taken The London Advertiser regularly for the past 30 days, and in consideration of The Advertiser furnishing a pair of Roller Skates free to

Boy's or Girl's Name. I order the London Advertiser and agree to pay for the same at the rate of 10 cents per week for at least twelve (12) weeks. Signed. Address. Start Paper.

Fatally Injured By Enraged Bull

Tillsonburg, May 31.—On Thursday Harvey McKenney, a prominent farmer of Bayham, residing near Cornish, was attacked by a bull, and is so severely injured that he cannot live. Mr. McKenney's son had left the animal in a yard while he went back to the barn. McKenney had in the meantime entered the yard, and it is supposed was attacked from behind, as no outcry was heard. Neighbors passing saw the man prostrate in the yard, with the enraged bull standing over him.

Wrecks Cars To Save a Baby

Medina, May 31.—New York Central fast freight train No. 97, westbound, was going through Medina at the rate of 35 miles an hour this evening when Engineer Flanagan saw a 3-year-old child sitting between the rails. Flanagan immediately applied the emergency brakes and brought the train to a standstill. The little one made no movement to get off the track until the train stopped. Three cars were so badly wrecked by the force of the emergency brakes that they had to be removed before the train could proceed.

CANADA DOING NICELY WITHOUT AMERICAN HELP

U. S. Tariff Not Likely to Have Much Effect on Dominion's Trade. Ottawa, May 31.—While but little consideration has been given as yet to the new American tariff, it can be asserted with safety that there will not be much of a disposition on the part of the Canadian Government to enter into a tariff war should the maximum United States tariff be directed against this country. At any rate, nothing in the way of meeting the United States increases by correspondingly high duties can be done before Parliament meets, and in the meantime any Canadian industries which are hit by changes in the United States tariff will have ample opportunity to make themselves heard.

ZEPPELIN'S AIRSHIP ENDS BIG TRIP BADLY

After Sailing 850 Miles in 37 Hours, Collides With Tree When Descending. Goepplingen, May 31.—After covering a distance of about 850 miles in 37 hours, Count Zeppelin's new airship, on its return trip from Bittorf to Friedrichshafen, came to grief in an open field near here today. In manoeuvring for a landing the airship came in contact with a tree, and its position tonight is very dangerous.

AMERICANS DECORATE DEAD HEROES' GRAVES

Memorial Day Widely Celebrated Throughout the United States. New York, May 31.—Under clear skies, and with weather conditions generally approaching perfection, New York city and its vicinity today paid tribute in even fuller measure than customary to both living and departed heroes of the civil war. Through throngs of spectators lining the course on Riverside Drive, the veterans of the Grand Army of the Republic marched in their annual Memorial Day parade up the shaded driveway to the soldiers' and sailors' monument, passing in review before Mayor McEllellan, and at the monument holding their memorial exercises.

EMBRO OLD BOYS

Met Last Night To Arrange For Reunion on Aug. 1, 2 and 3. There was a large attendance at the preliminary meeting of the Embro Old Boys' Association, which was held at the Fraser House last evening, and everything bids fair to make the coming reunion, an unbounded success. There are quite a number of Embro Old Boys employed in this city, and the executive committee expect that they will attend their native village on Aug. 1, 2 and 3.

PROVINCIAL COAL CONTRACTS

Average Price From 10 to 15 Cents Cheaper Than Last Year. Toronto, May 31.—The contracts for the supply of coal to the different provincial asylums for the insane, reformatories and prisons, have been let. Although the price per ton is not announced, Hon. W. J. Hanna stated today that about \$200,000 would be spent in coal alone. The average price per ton is from 10 to 15 cents cheaper this year than last. A large number of tenders were received, eight to nine for each institution.

CHINESE ACT AND MCGILL.

Ottawa, May 31.—The claim put forward in the press on behalf of McGill University that it was due to the success of one of its Chinese graduates, Mr. Peter Hing, and to a petition by the university, that the Government passed an order-in-council admitting Chinese students' free into Canada, was made the subject of inquiry at the trade and commerce department. Mr. P. C. T. O'Hara, the deputy minister, said: "While the department is pleased that McGill University has approved of the order-in-council, the fact is the university has really nothing to do with these changes in the Chinese act, as the order-in-council referred to, which was subsequently passed, was sent to council by this department in February. The communication from McGill reached the department on May 11, some days after the order-in-council had been passed and made public."

NEW LAKE CRUISER.

Montreal, Que., May 31.—The new Canadian Government cruiser Simcoo arrived here today from the Tyne, and is ready to be handed over to the authorities at once. She is for service on the lakes, and will proceed to Georgian Bay. She is designed to take on heavy guns, and can be made the most powerful boat of her kind on the lakes.

SMALLMAN & INGRAM LIMITED DUNDAS AND RICHMOND STREETS.

For Your Summer Outing or Seaside Suits

A splendid showing of pretty materials for your summer suit, light-weight, all-wool worsteds and serges, in navy and black grounds, with chalk-line stripes; also cream grounds with black stripes. The latest English styles for seaside wear, manufactured in England, guaranteed to stand sea water and sun, and as perfect washing materials as can be produced from all-wool yarns. Just nice time now to have your suit made before your vacation. SEE THESE IN DRESS GOODS SECTION.

- Stripe Panama 65c Navy and black ground, with chalk-line stripe, spaced about half an inch, dust resisters, very serviceable and all-wool. Specially adapted for outing suits, 44-inch, yard. 65c. Stripe Serge, 75c Navy and black ground with single thread of white, spaced about three-quarters of an inch, pretty style for outing suit or odd skirt, and very serviceable for wearing at the lakeside, 46-inch, yard. 75c. Navy Stripe, \$1 This one in navy only, medium weight, with single thread of white. Special quality for outing suits, 50-inch, yard. \$1.00 Cream Stripes 75c Fine serge with single threads of black, spaced three-quarters of an inch, nice smooth finish, very clean weaving for summer suits, tennis or seaside wear, 46-inch, yard. 75c. Cream Stripes, \$1 Two very smart styles in cream worsted, summer-weight, with black hair-line stripes, extra fine quality, smooth, close twill. Very stylish effects, 50-inch, yard. \$1.00

These styles will be seen at the lakeside and all fashionable summer resorts next month. Now showing in our Dress Goods Section, Richmond street.

"Priestley's" Black Resilda

BRIGHT, LIGHT, DUST-REPELLING. DOES NOT CREASE. Another big shipment just received. The newest weaves are among this lot, including the "RAJAH" and the new hair-line broken checks. We might say the demand these goods have created in England is almost sensational, and that the manufacturers of "RESILDA" have scored a great triumph with this new fabric, as it is being taken up the world over. This is our second stock already this season, and mostly all are new weaves, that have not been shown here before. The Shan-Tung and Rajah weaves are very smart styles. In fact, in this entire shipment it would be hard to pick one that would not please. Almost every new weave is shown in this material, both plain and fancy, in stripes, cords, diagonals, bayaderes, etc., all 44 inches wide. They have the appearance of a silk, and the softness of wool, never show a crease, and will not retain dust. If you are not familiar with this new and beautiful dress fabric, visit our Black Dress Goods Section, and ask to see "RESILDA." Prices \$1.00, \$1.25 and \$1.50 RICHMOND STREET ENTRANCE.

CADETS COMING HOME.

London, May 31.—The Canadian cadets from Toronto, Capt. Flood and Lieut. Haggarty, competed in the Princess of Wales' trophy competition here, the Empire Day match, on May 25, at the militia rifle ranges, but owing to the late arrival of the boys they were unfamiliar with the technical features of the ranges and very poor scores were made.

Palpitation of the Heart.

One of the first danger signals that announce something wrong with the heart is the irregular beat or violent throbbing. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or again, there may be a most violent beating, with flushings of the skin and visible pulsations of the arteries. The person may experience a smothering sensation, gasp for breath and feel as though about to die. In such cases the action of Miller's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the nerve centres, is beyond all question, marvellous. They give such prompt relief that no one need suffer.

PANIC OF SENTIMENT SAYS RAILWAY KING

Harriman Reviews the Financial Situation on Eve of Departure for Europe. New York, May 31.—On the eve of his departure for Europe to visit Paris and Vienna, and possibly some Austrian health resorts recommended to him by his physician, E. H. Harriman, the boy was the son of a temperance hotelkeeper, and 11 years old. He was vigorous of spirit, today analyzed the conditions which had made possible the panic of 1907, and gave his reasons for believing that whatever dangers had existed for a return of these con-

KILLED BY LIVE WIRE.

Ottawa, May 31.—Some wires which had blown down and were lying on the ground caused the death of Henry McAllister, at Kitt's Ferry, tonight. The boy was the son of a temperance hotelkeeper, and 11 years old. He was vigorous of spirit, today analyzed the conditions which had made possible the panic of 1907, and gave his reasons for believing that whatever dangers had existed for a return of these con-

Beats Jack Parker and Good Field in Woodbine Feature.

[Special to The Advertiser.] Woodbine Race Track, Toronto, May 31.—A bigger crowd than ever before for a week day was the order of the hour at the Woodbine this afternoon.

The general inclosure and the betting ring were crowded like on Saturday, while the members' stand presented an unusually attractive sight.

The entries in five of the seven events on the card were numerous and the scratches likewise. The track was fast.

First race, St. Simon purse, \$500 added for 3-year-olds and upward, 6 furlongs—Red River, 121 (Goldstein), 5 to 2, even and 2 to 1, 3 to 5 and 2 to 1 (Gilbert), 2 to 1, 3 to 5 and 2 to 1.

Second race, St. George's purse, \$500 added for 2-year-olds, 5 furlongs—Merrill, 108, Goldstein, 2 to 1, 3 to 5, and out, 1; Polls, 108, Rettig, 2 to 5 and out, 2; Dress Parade II, 115, Hartley, 15 to 1 and out, 3. Oppar also ran.

Third race, Albany Club, purse, \$500 added for 3-year-olds, 8 furlongs—Shore Lark, 144, McCarthy, 2 to 5, and out, 1; Fort Garry, 107, Mentry, 8 to 5, and out, 2; Valdyon, 107, Ross, 5 to 1, 6 to 1, and even, 3. Time, 1:15.5.

Fourth race, Seagram Cup, heavy-weight handicap, \$1,000 added, for 3-year-olds and upward, 1 1/2 miles—Direct, 119, Rettig, 7 to 1, 2 to 1, even, 1; Jack Parker, 112, Hartly, 3 to 1, even and 1 to 2; St. Elwood, 119, Musgrave, 4 to 1, 3 to 5 and 3 to 5, 3 time.

Fifth race, Tally-ho Steeplechase, selling, \$500 added, for 3-year-olds and upward, about 2 miles—Bobby, 137, Mahon, 2 to 1, even and 1 to 2; Dr. Koch, 145, Archibald, 5 to 1, 2 to 1, and even, 3. Time, 4:12.1-5.

REDS AND CUBS DIVIDED THE GAMES

Cincinnati Took the First 4 to 1, and Chicago the Second 3 to 2.

Cincinnati, May 31.—Timely hitting gave Cincinnati a well-earned victory over the Chicago in the morning game today. Errors by Downey and Bescher were responsible for the one run scored by Chicago. Score:

The first annual junior club championship meet for field and track athletics will be held next Saturday afternoon, June 5, at Queen's Park. Teams are being entered from the Y. M. C. A. Club, the St. John's A. C., and the Hiawatha A. C., and a good contest for the championship is sure to ensue.

A prominent feature of the June number of Rod and Gun published by W. J. Taylor, Woodstock, Ont., is the campaign against wolves in Northern Ontario, a matter in which Canadian sportsmen cannot help feeling interested.

The Canadian Magazine for June is unusually attractive. "A Fragment From a Tragedy," by Mrs. F. Wood, shows the tragic place that narcotics had in the life of the poet Coleridge.

THE WESTERN FAIR

Big Exhibition of 1909 Promises to Eclipse All Others.

This magnificent exhibition promises this year to eclipse all previous efforts. The attractions which are under contract are of the very highest order, and the best that money could procure.

There will be several large animal acts, Oisen's lions, leopards, bears, etc., Herbert's dogs and cats; Herzog's stallions, the best trained horses in the world; the Three Satyrs, in their great alligator act; the Dorden's castling acrobats, the Heras family, the wonderful acrobats, the Holmans, Pederson and the Three De Monies, in their comedy acts, and many others.

All information given on application to the secretary, A. M. Hunt, London, Ont.

Former Pt. Huron Boy Killed at Baseball. "Dead Ball" Cries Umpire, and Boy Drops on the Diamond.

Detroit, June 1.—Alfred Vollmar, 17 years old, of Ecorse, while playing yesterday afternoon in a game between the Sunday school teams of the Presbyterian Church of Ecorse and the Presbyterian Church of Trenton, was struck over the head by a pitched ball and died almost instantly.

Nothing has been left undone at the Askin Street Church that would tend to make matters more comfortable for the members attending the London Conference. The committees have been indefatigable in their efforts to beautify the arrangements completely up to date.

Added to this there is a book room, where all the latest publications, especially of religious works, will be on sale. A reading-room, where the members may spend their odd moments.

The funeral will be held Wednesday, with interment at Port Huron.

IT'S HARD TO RE-TIE THE MARITAL KNOT

Man Who Wants to Marry His Former Wife Has a Difficult Time.

Paris, May 31.—A curious divorce tangle has come up before the Paris courts. A rich West Indian planter was married in the Island of Haiti, and after a few years the couple were divorced. It was not long, however, before a reconciliation between the ex-husband and ex-wife took place, and they decided to make it up by remarriage.

But it so happened that the law of the country forbade the remarriage of divorced couples. The only recourse was for them, as French citizens, to have the ceremony performed at the French legation.

The French minister thought it a delicate matter, under these circumstances, to celebrate the marriage at the legation. When the time came he refused to allow the ceremony to be performed, on the plea that it would be a discourtesy to the Government to which he was accredited.

The would-be bridegroom of his former wife had thus quite unexpectedly raised a sort of diplomatic incident. He was told that the only solution was for him and his bride to hasten to France, where the wedding could take place without difficulty.

They did so. But the belated husband took up arms once more and desired to bring a suit for damages against the minister who had refused to perform the ceremony and had obliged him to go to all the expense of travelling to France to get married.

Administrative rules have further mixed the matter up. The hero today finds that he is suing the prefect of the department of the Seine, who has refused to appear, and has sent word that the case is outside the jurisdiction of the ordinary courts, and could, at most, be decided, only by an administrative council.

Russia Will Teach Soldier Farming. Also Lessen Number of Church Holidays in Effort to Increase the Harvests.

St. Petersburg, May 31.—The Russian Government is about to try to increase the harvests of the empire by two means. One is to teach improved methods of farming to the soldiers in the army, which absorbs about half a million young men as conscripts each year. The other is to induce the village priests to persuade the peasants to forego about a third of the ninety-three holy days in the year which the church recognizes; thus giving them more time to cultivate their farms.

GOVERNOR-GENERAL AS SEEN IN ENGLAND

Earl Grey Has Great Faith in
the Empire—Is a Man of
Enthusiasms.

Thorp Lee, in the London Daily Mail, writes as follows about Earl Grey, Governor-General of Canada:

An old politician who had lived his life in close touch with great events, and thereby gained wide and deep experience as a student of mankind, was once asked what quality seemed to him to be most necessary to a great man. He closed his wise old eyes for a few moments and thought. Then he opened them, and said, "Faith." The answer surprised several of the little knot of listeners grouped around him, but no one who has examined the characters of great men can doubt that it was profoundly true. All who have left their mark upon the world's history have had implicit unquestioning faith. Some believed in God, some in a cause, some in a country, some in themselves. But all believed with a fervent certainty in something. "Without faith ye can do nothing." That explains why our modern politicians get so little done. To the great man, however, another quality is indispen-

A SPEEDY CURE.

"When my skin had always been so clear and ruddy, I found it very mortifying to see pesty and pimply patches coming over my face," writes Mrs. S. T. Engerer, a well-known resident of Wheeling. "Great red blotches came on my chin, grew dry and scaled off. I think my stomach was at fault. Certainly my blood was poor because my lips were white and I had unpleasant fullness and ringing in the ears. "Noticing in the papers such strong recommendations for Ferreroze as a blood and strengthening medicine, I decided to use it. From the first tablet I took there was an improvement. I felt better and had such a good appetite, improved in color and the old rosy flush slowly returned to my cheeks. Finally the blotches began to leave and the skin grew soft and smooth. I have gained some in weight, look the picture of health and feel as if I had never been ill." There is no nourishing tonic so sure to build up and strengthen as Ferreroze. It contains concentrated vegetable extracts that supply every weakable system with the element it lacks. Health, vigor, happiness—these are the direct results of using Ferreroze regularly.

sible besides faith. That quality is enthusiasm.

In how few men are these qualities of faith and enthusiasm united? How timid our politicians are for the most part; with what hesitating voice do they speak—hedging, qualifying, always leaving a loophole for escape! Beside these a man like Earl Grey stands out an heroic figure, a giant, a real man among a collection of wax-work figures. He has faith and he has enthusiasm. He believes in the British Empire.

Most Popular Governor-General.

In England, before he went to Canada five years ago, there were some who estimated Lord Grey at his true worth. They saw what he had done for such causes as co-operation, garden cities, and public-house reform. They had heard of his unconventional rule in Rhodesia, where, as administrator, he was ready either to listen or to talk to all comers, and received them usually in an airy costume consisting of flannel shirt and trousers with a slouch hat. They knew he was a strong imperialist and at the same time a convinced social reformer, a combination equally desirable and rare. But it was left to Canada to bring out the greatness of the man who went in 1904 to be the Dominion's Governor-General; and it is Canada which has taught us over here in England to appreciate one of the finest Englishmen of our time.

Never has the sovereign's representative in the Dominion been more universally popular. He is liked because he "puts on no side." He is respected because he is a man of business with actual experience of affairs, and can meet Canadian business men upon their own ground. He is trusted and admired by reason of his sympathy (not mere lip sympathy) with every good work.

"I regard the British Empire," he said at Winnipeg recently, "as the most potent instrument that has ever been fashioned or conceived by man for spreading the blessings of equal rights and impartial justice, of Christian service and true chivalry all over the earth." We, in our sneering, cynical way, may smile at such enthusiasm. But the Canadians are a young and a healthier race. They recognize in Lord Grey the faith that can move mountains, as well as the simple honor and straightness which made the Archbishop of Quebec say of him that "no one could have set a finer example in the performance of Christian duty both in public and in private life."

And when Lord Grey looks forward to the day when Canada shall have proper representation in an imperial council, when he speaks of the approaching establishment of a system "under which the self-governing units of the world-embracing British Empire will have the attributes and privileges of a full and equal citizenship," then Canadians feel that at last they have among them a statesman, indeed.

A Student of Social Problems.

Curious to look back now and recall Albert Grey's first appearance in politics as a Liberal. It was in 1878 that he entered the House of Commons, but only to remain in it for a few minutes!

He and his Conservative opponent polled the same number of votes. As the returning officer refused to give a casting vote, they both presented themselves at the table in the House, and demanded to be sworn as M. P. However, a scrutiny was ordered, and the seat went to the Conservative. Two years later Mr Grey was elected without any doubt. Then he was twenty-nine, a young man who had done well at Oxford; who had married the great heiress, Miss Holford; who was heir to his uncle's peerage; who had the world most comfortably warmed for him without any effort of his own.

But warmth and comfort were not what he wanted. His energy demanded work, adventure, experience. At first he plunged into social questions at home. Now he would be presiding at a co-operative congress; now pushing a plan to beautify railway embankments; now lending his support to one of General Booth's schemes. One day he was granted a license for a public-house on his estate. Next day he found he could sell the property, if he chose for £10,000. The monstrous absurdity of it struck him. He became the untiring advocate of public-house trusts. For a time this occupied him; then he began to pine for a wider field. He found it through the agency of Cecil Rhodes. Rhodes wanted someone to help him in obtaining a charter for Rhodesia. Lord Grey had succeeded to the title in 1894, was just the man. Afterwards he became administrator, and a trustee under Rhodes' will.

When the Governor-Generalship of Canada was offered to him he was not particularly anxious to go. But it was a great opportunity, and as soon as he had accepted it he began to see what work for the empire he could do. The speech he made at a dinner given to celebrate his appointment simply sparkled with ideas. There was in it none of the solemn portentousness which is usual in pro-consular utterances. The Canadian very soon took to this modern Don Quixote, the unusual Englishman with the Irish eyes and none of the English stiffness. In five years he has made himself a great name. And now he is to retain his office for a further year instead of returning to England at the end of the present one.

MORE MAIL THIEVES

Two More Clerks Reported Implicated at the Capital.

Ottawa, May 31.—It was learned today on the best of authority that the postoffice people have detected two more young men in the act of robbing the mails in the local office.

The clerks were caught on Friday, but evidently as a result of the opinion being expressed by the deputy magistrate the authorities have not gone any further with the cases, for the present at any rate.

Whether the officials will be satisfied with discharging these youths or will insist on bringing them to trial remains to be seen.

BUFFALO PEOPLE HURT IN TRACTION CRASH

Lockport, May 31.—A three-car International Traction Company train jumped the rails on the steep grade of Gooding street. Ten Buffalo people were hurt, none fatally. The worse injured are: Harry Gurr, Fred Schuerer, John McMahon and Mrs. Catharine Bulger.

The forward car of the train, carrying 25 passengers, after leaving the rails, ran twenty feet along the edge of a 30-foot embankment, turned completely around and was torn from its trucks. The second car left the rails also. The injured were taken from the wreck of the first car.

The tracks were blocked for several hours, and thousands of excursionists, bound for Olcott Beach, were compelled to return to Buffalo.

BRITISH BIRTH RATE

Its Decrease Due to Recent Factory Legislation.

London, May 31.—Professor Karl Pearson expresses the view that factory legislation, promoted for the protection of women and children, is responsible for the decreasing birth rate. He instances the low birth rate at Bradford, where a mother has on the average one child in ten years, as against five sixty years ago. He maintains that it is because of the decreased number of children, owing to factory legislation, before the enactment of which a child contributed to the family maintenance from 5 years of age. In fifteen years, Professor Pearson thinks, England will be in a similar condition to France.

THE LOST HOLBEIN

No Chance Now of It Being Kept in England.

London, May 31.—Now that there is little hope of retaining in the country the Duke of Norfolk's great painting by Holbein, the portrait of Christiana of Denmark, the committee of the national art collections fund refuses to state the amount of the subscriptions made to purchase the picture, but they are far short of the requisite amount. There have been a large number of subscribers, but they gave small sums, none of them exceeding \$5,000. It is believed that the picture will go to America. The failure of the subscription is attributed mainly to the anger of rich men at the budget, disgust at the huge profit which the Colnaghis demand, and the double raised as to the Duke of Norfolk's right to sell the picture.

ONTARIO'S COAL CONTRACT

Toronto, May 31.—Contracts for coal have been awarded by the Provincial Government. The total amount is about \$200,000, and the cost is 10 to 15 cents per ton below the average. Among the contracts are the following: Hamilton Asylum, Tbos. Myles & Sons, Woodstock, McIntosh Coal Company.

WHEELS FELL ON HEAD.

Hamilton, May 31.—Albert Pearson died in the City Hospital this morning as the result of an accident at the International Harvester Works on Friday.

Two heavy iron wheels fell on his head, fracturing his skull. No hope was held out any time for his recovery.

CZAR MAY ABANDON VISIT TO ITALY

Dowager Empress to Report on the Feeling There.

Rome, May 31.—The chief reason for the long stay in Italy of the Dowager Empress of Russia is a desire to make a personal report from her own experience on the real situation in Italy, and the feeling of its people toward Russia and the person of the Emperor. This is preliminary to the visit which the Czar is about to pay to King Victor Emmanuel, which visit was projected shortly before the outbreak of the Russo-Japanese war, when the Socialists threatened to make it hot for the imperial visitor.

All apprehension, evidently, has not yet vanished at St. Petersburg, as notwithstanding the undoubted friendliness of Italians toward Russia after the heroic conduct of Russian sailors in the earthquake disaster at Messina, the Czar now proposes to meet the Italian sovereign in some Italian seaport on his way around Europe by sea. The King of Italy would like the visit of the Muscovite Emperor to take place in Rome, as the Savoy dynasty wishes to take every occasion to have confirmed before the world the eternity of the capital of United Italy.

With regard to the Czar, however, as he is not a Catholic sovereign, there is not the same reason for insisting, as in the case of the Emperor of Austria, that his visit must take place either in Rome or not at all. It is still on open question whether the Czar will pay his visit to Victor Emmanuel or not, not on consideration for the Vatican, but on grounds of personal safety.

GROcery STORES Hold Half Holiday

Every Wednesday, Commencing Tomorrow.

NINE MILES OF NEW MAINS PLAN OF COMMISSIONERS

Will Be Voted Upon by the People on July 26 Next—18-Inch and 12-Inch Pipe Included—The Streets That Will Be Affected.

The main extension scheme of the water commissioners covers a distance of 9,550 feet, or something over nine miles.

It embraces the whole of the city, and gives large feeder mains to the entire city.

Of this amount, 6,500 feet are for the big main from the wells to the present system.

Eighteen-Inch Main. It is an 18-inch main, running on Horton street, from Thames to Clarence, a distance of 2,450 feet, and Clarence street, from Horton to Central avenue, a distance of 4,400 feet.

Twelve-Inch Main. There will be 38,000 feet of 12-inch mains, distributed throughout the city as follows:

Richmond street, Central avenue to Victoria street, 5,000 feet. Central avenue, Richmond to Adelaide street, 4,500 feet.

Queen's avenue, Clarence street to Adelaide, 4,500 feet. Horton street, Clarence to Adelaide, 4,450 feet.

Ridout street, Carling to Grand avenue, 4,650 feet. William street, Central avenue to Nelson, 6,300 feet.

Rectory street, Nelson to Hamilton road, 300 feet.

The statistics as they now stand, however, show a very gratifying state of affairs, and it is more than likely that the addition of some members from Windsor districts, which are the two yet to be heard from, will increase the satisfactory nature of the report.

The missionary givings so far reported amount to \$51,945, and the amount contributed for all purposes, \$49,125.

There is a very substantial increase in membership also reported. The net increase for the districts so far reported is 514 members.

The reports of membership by districts is as follows:

Increase, Decrease.	
London	123
Stratford	102
Windsor	278
Goderich	33
Sarnia	107
Chatham	104
Wingham	70
Ridgeway	40,328
Strathroy	50
Windsor and St. Thomas yet to hear from.	

The missionary givings from the nine districts reporting were as follows:

London district	\$16,124
Stratford	7,222
Goderich	5,068
Wingham	5,009
Chatham	5,782
Exeter	4,081
Sarnia	3,598

DEATH OF MRS. M'GOWAN

A Former Granton Lady Died Suddenly.

The death occurred suddenly on May 31, 1909, at her residence, 11 Waller street, East Toronto, of Mrs. Jane McGowan, wife of the late James McGowan, of Granton, in the 83rd volume of the Ontario records.

Ottawa, June 1.—Three new agricultural experiment stations are to be located in Western Canada this summer, and G. F. O'Halloran, deputy minister of agriculture, leaves Ottawa today for the purpose of locating them.

Knowledge Judgment Caution

The service which a druggist gives demands all three. He must exercise judgment in buying and his knowledge in business is a peculiar business—important business. It calls for conscientiousness because it is so easy to deceive people in regard to quality.

W. T. STRONG DRUGGIST

SEEDING OPERATIONS ARE NEARLY FINISHED

Oats Appear To Be The Only Crop That Is Behind—The Situation Is Satisfactory.

Seeding operations are pretty well finished throughout the country now as far as oats are concerned.

As far as the season is concerned, it is really only oats that are in any way behind.

Otherwise, however, the prospects as far as they can be judged at this early date, are for a very good year.

In fruits this is especially the case. In almost every variety there is a prospect of a bumper crop if only nothing interferes to blight the present prospects.

On the whole, despite the gloomy forebodings of the past month, it is not likely that the country will suffer very seriously, if at all, from the late season.

BELASCO'S SHIFT AFFECTS DETROIT

By Quitting the Shuberts, He Diverts Attractions From Garrick Theater There.

Detroit, June 1.—The new Shubert interest in Detroit gives local importance to the defection of David Belasco from the Shubert syndicate circuit.

Belasco has been in the city for some time, but the announcement is made in New York that Belasco has made peace with the Klaw & Erlanger syndicate.

FRATERNAL INSURANCE

Before Rates Raised Should Be Inquired, Says Head of an Order.

Toronto, June 1.—"As the order has paid millions to the sick, the aged, and the widows and orphans, no compulsory measures should be enacted by the Dominion Parliament until a thorough investigation has been made through competent actuaries, and any table of rates should be computed from the experience of our own Canadian fraternal associations."

This is the way Grand Councilor E. T. Essery, K. C., of London, refers to the proposed Dominion Government legislation, saying that the order is his annual address to the Grand Council of the Canadian Order of Chosen Friends, which meets in Toronto tomorrow.

The grand councillor reports that during the two years just passed 4,043 and 4,675 new members were written down in 1907 and 1908, respectively. The surplus fund is \$815,440.08.

The grand recorder, Wm. F. Montague, of Hamilton, reports the total receipts in all departments for the two-year term were \$941,995.67, and the total expenditures \$903,739.18. The gain in all funds for the year 1907 was \$78,398.48, and \$88,555.63 for the year 1908.

Dr. J. H. Bell, of Kingston, reports that the death rate from tuberculosis has been reduced from 25 per cent prior to 1905 to 14 per cent in 1908.

NEW BOAT LAUNCHED

Collingwood, June 1.—The latest addition to the fleet of the Northern Navigation Company is the twin-screw steamer Waubic, which was launched at the yards of the Collingwood Shipbuilding Company here this morning.

It is 190 feet long, and has a large troung of people. Little Gladys MacDonald, daughter of Mr. C. MacDonald, controller of the Northern Navigation Company, broke the conventional bottle of wine across the bow as the steamer slipped from the ways.

The Waubic is the third steel vessel built at this yard for the Northern Navigation Company. The Huron and Ontario, being its predecessors, she will go into commission June 15, between Penetanguishene, Midland, Parry Sound and Point St. Barthelemy.

The matter has been hanging fire for some months, mainly because the city now will have to act at once on any alternative scheme it may have to advance.

REV. G. B. SAGE IS A DOCTOR OF DIVINITY

Takes Honors in Examinations at Toronto—Others Who Did Well.

Ven. Archdeacon Richardson, of St. Luke's Church, Broughdun, returned last night from Toronto where he has been representing Huron College on the board of examiners of the provincial synod.

Those who were successful from Huron College are: Rev. G. B. Sage, rector of St. George's Church, West London, obtained first-class standing in the examination for doctor of divinity.

Rev. C. K. Masters, late of Kingsville, passed the examination for bachelor of divinity, and at the preliminary examinations for the B. D. degree, Messrs. S. S. Hardy, A. L. Charles, W. H. Moore, John Morris, W. B. Hawkins and H. F. Hutton were successful, which may reasonably be expected this year, will be to make them light.

It is likely that John Morris will be appointed assistant rector at the Memorial Church, and S. S. Hardy assistant to Very Rev. Dean Davis.

MISS KIRKPATRICK WAS CRUELLY IMPOSED UPON

Had No Knowledge Whatever That Aubrey Ward Had Been Married Before.

In connection with the case of Aubrey Ward, who was convicted yesterday of bigamy and sentenced to one year in the Central Prison, Miss Mary Kirkpatrick, daughter of Mr. Kirkpatrick, 62 Marmora street, East London, has taken the following affidavit:

"I, Mary Kirkpatrick, of the city of London, county of Middlesex, do solemnly swear that on the 27th day of May, 1909, I was married to Aubrey Ward, who was sentenced by Francis Love, police magistrate, yesterday to one year in the Central Prison, I did not know that the said Ward had a wife living, and I sincerely believed at that time that he was an unmarried man.

"I had no knowledge that the said Ward had committed bigamy until he was arrested on the said charge."

This affidavit was signed before Mr. J. P. Faule, this morning.

RYAN MUST HANG

Attempt of Fratricide to Get a Last Moment Reprieve Fails.

North Bay, June 1.—A last attempt was made yesterday to save the life of Maurice Ryan, who is to pay the penalty on the scaffold on Thursday for the murder of his brother, Joseph Latchford, who sentenced Ryan, is presiding over the sitting of the non-jury high court, which opened here yesterday morning, and G. L. T. Bull, counsel for prisoner, sought and secured permission to make application for a reprieve, basing his appeal on the poverty of his client, who had no funds to procure necessary evidence in his behalf, and alleging that new evidence could be obtained corroborating that of witness Carswell tending to show that the murdered man was alive and well; that the minister of justice was absent and might grant a new trial if his personal attention could be obtained, and that the prisoner was represented by young and inexperienced counsel.

Judge Latchford refused the application, saying that the prisoner had been well defended. There had been ample time since conviction to take any necessary steps, and he could see no reason why a reprieve should be granted.

FINANCIAL AND COMMERCIAL

VEGETABLES WERE RATHER SCARCE

London Market Today Was Small, But Sales Were Brisk

EGG PRICES ARE LOWER

Only One Load of Oats Offered—Price Paid Was \$1.59—Other Quotations.

There was only a small market this morning, but the sales were somewhat brisker than in the past few days. The twenty-odd loads of hay that comprised that part of the market this morning sold very rapidly, though the price was considerably lower than it has been for some time. The highest price paid today was \$14, while a good part of the hay went at a much lower figure than that, some of it selling as low as \$12.

The low price offered for oats on Friday and Saturday has had a tendency to kill the market for the last two days. There were only one offered today. It brought \$1.59, but that was according to an agreement some days ago, and does not, therefore, represent the market price.

The heavy supply of eggs offered on Saturday has also depressed their market considerably, and the demand today was very slow, though the price remained about as during the past few days.

Vegetables Scarce. Even vegetables were somewhat scarce today. There were a few loads of potatoes that found a fairly ready sale, but other root vegetables are drawing to a close, and the prices have likely reached their lowest mark.

Potted plants and nursery stock were really the only commodities that were shown in any quantities, and they were in unfailing demand as usual.

Other prices on today's market were as follows:

Table with columns for Grain, Hides and Wool, Poultry, and Butter. Lists various items and their prices.

Butcher's Meats. Beef, per lb. 10 to 12. Pork, per lb. 10 to 12.

COTTON. New York, June 1. Cotton—Futures opened steady; June, 10.95 offered; July, 11.00.

GRAIN. Toronto. Toronto, June 1.—The grain markets are almost absolutely featureless today, and there is no such likelihood of any pronounced change this week.

Wheat. Quotations are lower and corn is off. Ontario wheat—No. 2 red, white or mixed, \$1.30 to \$1.35.

KING STREET PEOPLE AND THAT PAVEMENT
It Is Said That They Will Refuse to Pay for It in Its Present Condition.

There is going to be a battle over the King street pavement. Some of the residents have been securing legal advice since the repairs have been made, and they will refuse to pay for the pavement, as it now stands.

They claim that they paid for an asphalt pavement, and all they are getting out of it is a broken-stone road, and consequently, they are not bound to pay for asphalt.

Mr. J. H. McMechan is interested in the matter, and it was stated this morning, that he will refuse to pay the city the annual tax on the pavement when it is due, and the city will have to make him by a legal process.

WORLD-WIDE UNION OF METHODISTS
Sir R. Perks Urges Montreal to Form Branch.

Montreal, May 31.—Sir Robert W. Perks, M.P., was the host at an interesting luncheon tendered the Methodist ministers and laymen of Montreal on Saturday afternoon. Sir Robert, who is widely known for the interest he has displayed in the cause of Methodism, desired the opportunity of speaking to the representatives of the Methodist faith in Montreal, that he might make a most important suggestion to them.

After the luncheon, which was attended by over a hundred representatives, Sir Robert, in an interesting address, outlined his scheme. Briefly, he proposed that the Methodists of Montreal should form the first committee in America of the Worldwide Methodist exhortation. Sir Robert gave his reasons for making the suggestion, and pointed out the good work such a committee might accomplish in a young and growing country like Canada, which was so much before the eyes of the world today.

Continuing, he related the good work which these present King's men, who were men of high moral character, and decidedly of the type essential for the upbuilding of a growing nation as Canada is today regarded.

WIRELESS IN WARTIME HAS ENEMY POWERLESS
The Days of Cutting Wires and Destroying Service Are Over.

Paris, May 31.—At the time of the Boulanger crisis in 1889, M. Constans, minister of the Interior, proclaimed in a phrase which has become famous: "Boulanger has the army, it is true, but I have the telegraph."

In the recent postal crisis the disaffected government employees controlled the ordinary means of communication and could have overheard, stopped, or altered every government message sent over the wires, and could have sent out their own instructions instead. In fact "King" Faure dramatically sent the strike order to the wireless.

It appears that the government had sent elaborate sealed instructions to postal and military centres throughout the land to be opened in case of a strike. When the moment had come they had only to send out a "ord" or two from the Eiffel tower in all directions. "Open the wires," which he spoke from the tribune of a public hall, M. Clemenceau, the present minister of the Interior, thus paraphrases Constans' sentence in describing how he saved the situation.

QUAKER FOLK FOOT IT
Philadelphia, Pa., May 31.—Although the Philadelphia Rapid Transit Company brought men to this city yesterday during the night, they were not the places of its motormen and conductors who went on strike Saturday for higher wages and better working conditions, yet the street car service today was worse than at any time since the trouble began.

The company stated at 9:30 a.m. that only 25 per cent of its number of cars were in operation. Present John B. Parsons, of the company, and Charles O. Kruger, general manager, declare the company will win the struggle, filling the deserted places with new men. On the other hand, there is much joy in the ranks of the strikers over the demoralized situation they have brought about, and their leader, C. O. Pratt, chairman of the executive committee of the Amalgamated Association of Street and Electric Railway Employees, is equally confident that they will win.

The strike has seriously interfered with the observance of Memorial Day, thousands of people being forced to give up their visits to cemeteries or forego their pleasure trips to parks and other places.

Autumn of every description are being hired, and thousands of teamsters are earning money by carrying people at 5 and 10 cents a ride, according to distance. The strikers have a tremendous sympathy following, due in a large measure to the feeling stirred up by the action of the traction company in raising the rate of a fare a month ago from six rides for a quarter to 5 cents straight. Every car is carrying two policemen, and on some lines four of them are sent. "For two years I was completely laid up with back and could neither walk nor ride. I tried many medicines and the doctor's treatment did not help me. A friend told me about Dr. Chase's Kidney-Liver Pills and this medicine completely cured me. I have never had a lame back or kidney trouble since and my car has been the means of selling many boxes of Dr. Chase's Kidney-Liver Pills." never will be. The spirit of the age is not the spirit of the love of children. I have no use for women who hate their children. Unfortunately, we have such women as the Ontario aristocrats show, monsters who murder their offspring before birth.

ENGLAND HAS FEARS OF A FAMINE IN BEEF
Removal of Canadian Cattle Importation Restrictions Urged.

London, May 31.—Presiding at the annual meeting of the animal and meat trades section of the Liverpool Chamber of Commerce, recently, Mr. Walter Holland, the chairman, called attention to the decline of importations of cattle and meat, both fresh and frozen, in 1908—a decline of about 24,000 tons—with the result that the consumption per head of the population fell to 89 pounds, as compared with 94 pounds in 1907. He advocated the removal of the embargo upon the import of Canadian cattle for stores purposes—a question which, he said, was brought forward at the meeting of the Associated Chambers of Commerce in October, when, "owing to complete ignorance on the subject on the part of many present," a resolution was not carried. The theory still prevailed that the embargo assisted in the prevention of the introduction of disease into this country. "And," he added, "it is difficult for any Government to face the fact that, having loaned to Ireland a very large sum in order to encourage the agricultural interests, the introduction of pure Canadian stock into this country might interfere with the large trade, even in diseased animals, from Ireland." Mr. Holland said also that the impossibility of supplying a sufficiency of pure stock for dairy purposes would become more and more prominent when the pure milk bill came to be passed in the course of a few months. He declared that a beef famine was probable, and urged that the Government should open our ports and allow Argentine cattle to be slaughtered at the port of debarkation. The meeting unanimously decided to send a telegram to the president of the board of agriculture expressing much concern at the possibility of a beef famine owing to shortage in imports of American and Canadian cattle, and strongly urging the Government to remove at once the embargo on Argentine cattle for inspection at ports of debarkation. To point the urgency of the matter, the telegram added that the week's supply at the Birkenhead lairage was 800, as compared with 5,000 to 6,000 weekly three years ago. Another resolution called for the removal of the restrictions placed in 1893 by the board of agriculture on the importation of healthy Canadian cattle into the United Kingdom, for store purposes and objects other than slaughter.

Under the past week nine steamers landed cattle, sheep carcasses, pork and fresh beef at Liverpool from North and South American and colonial ports. The arrivals amounted to 1,813 cattle, 38,782 sheep and lamb carcasses, 275 hog carcasses, 29 hog carcasses, 35,375 quarters of beef, compared with the imports of the previous week the figures show an increase of 13,760 sheep and lamb carcasses, 25 hog carcasses and 1,680 quarters of beef, and a decrease of 240 cattle and 879 boxes of meat.

Is Your Back the Weakest Point?
DOES IT PLAY OUT FIRST WHEN YOU HAVE STEADY WORK TO DO.

Look for Other Indications That the Kidneys Are To Blame and Obtain Cure by Using Dr. Chase's Kidney-Liver Pills.

Many a man finds that his back is his weakest point and does not know why. He cannot do heavy work and even light work, if continuous, leads to aching back.

Under these circumstances you can be pretty sure that the kidneys are weak and disordered and that the back pains are really kidney pains.

Other symptoms are deposits in the urine after standing, pain and smarting when passing water, frequent desire to urinate, also headache, dizziness and harshness of the skin and palms in the limbs and body.

If an insurance company does these symptoms present they will not insure your life. Isn't this sufficient indication that there is danger ahead?

Backache soon disappears when Dr. Chase's Kidney-Liver Pills are used and kidney disease is thoroughly cured by this treatment.

You can find positive proof of this statement in almost every country in this country and here is a letter very much to the point.

Mr. George Tyrone, Newport, Leeds County, Ont., writes: "For two years I was completely laid up with back and could neither walk nor ride. I tried many medicines and the doctor's treatment did not help me. A friend told me about Dr. Chase's Kidney-Liver Pills and this medicine completely cured me. I have never had a lame back or kidney trouble since and my car has been the means of selling many boxes of Dr. Chase's Kidney-Liver Pills."
