Establishing the season's record, four finers docked at Quebee Monday, according to a dispatch from that port, with settlers for Canada. Local provincial immigration authorities advise this morning that a "few" of these are probably scheduled for the London district, owing to the fact that the customary announcement of their arrival has not as yet been forthcoming. "We received notice that two or three are on their way from Montreal for Western Ontario," said R. A. Finn today, "so it is hardly probable that any of this new batch is for any point in this district." Mr. Finn is acting today in the absence of John Farrell, local immigration representative of the Ontario department of agriculture.

It was inought, indeed, that the delegation will be recalled to London next week. None of the cabinet members would have anything to say for publication. Eamonn de Valera is regarded by the lister Unionists as a visionary, and the leeling in Unionist circles here is that he discussions among all the parties poncerned in the Irish settlement will be possible until he considerably modiles his position.

ELECTION MAY BE CALLED TO DECIDE IRISH QUESTION

London, July 19.—Irish negotiations appear to have reached a deadlock in so far as they concern a tripartite conference between Mr Lloyd George, the British prime minister; Eamonn De Valera, Irish Republican leader, and Sir James Craig, premier of Ulster. This developed late last night when Sir James, as he departed for Belfast, issued a statement on the subject of Continued on Page Nine.

While trying to avoid the pres-

The gasoline tank on their car was in need of repairs, and they both thought they were masters of the situation and could fix it without telling their troubles to the car doctor; so gathering their tools in their arms they (as the saying is), ambled forth.

The blow torch was made ready, the soldering iron heated and ap-plied to the part in need of repairs. Both mechanics were at-tending closely to their work, when "Pouf," it happened. ANTICIPATES NO DIFFICULTY IN MARKETING WHEAT

Ottawa, July 19. — Canadian Press.—Dr. Magill, secretary of the Winnipeg Grain Exchange, who was here yesterday, is of the opinion that there will be no difficulty in marketing the western wheat crop despite the United States tariff. Dr. Magill, intimated that English buyers are already in the market for vast quantities of Canadian grain, and that the United States will have to buy large quantities in any event. Indications at present are for a banner crop.

An average of 30,000 pounds of bread is baked in London every day for home consumption. Of this amount, 24,000 wilderness were fed according to the Bible story familiar to most people.

But ordinarily Divine Omnipotence pounds is baked every night in the chooses to work in less sensational or miraculous fashion, and in the supply-ing of this first human need, many must toil and sweat in sultry harvest fields, to co-operate in solving the local problem, the employers and the citizens as well. These will be dealt with at the next meeting. Depend on the Crops. "The attitude of the committee is very promising," advised T. D. McCullough, secretary of the council, today. "We held an encouraging meeting yesterday, and the problem, I believe, will be handled even better this season than last. We have different suggestions yet to discuss, but the general scheme enacted last year will no doubt prevail, that of the many workers reporting through the central committee." Asked his opinion of the probable situation the secretary reasoned that it depends to a very considerable degree upon the western crops. A bountiful yield from the prairies naturally means that its influence for good will be noticeable everywhere. No Reason for Alarm.

J. W. Cunliffe, chairman of the London Housing Commission, in company with F. B. Lavender, salesman of the above body, has concluded an inspection of houses constructed under direction of the commission on the Pine Lawn subdivision, and to their surprise discovered defects in 40 of the new buildings

FREE SHOWER BATHS.

These houses have been sold to citizens under the housing act, and the complaints are varied. The chief bone of contention is the fact that many roofs of the new houses leak, thereby providing the occupants with free shower bath accommodation. One dwelling on Madison avenue has no less than twelve defective spots on the roof which admit rain, while a nearby resident is blessed with defective eavestroughs which allow water

ROOF LEAKS ALL OVER.

At 116 Madison avenue, Chairman Cunliffe reports, that "the roof leaks all over; caused much damage to carpets and furniture; cellar flooded." On Pine Lawn avenue, he reports of one house, "Water comes through roof, and under windows, cellar flooded, and stucco in bad shape." At 109 Pine Lawn avenue there are "Three windows broken, leaks all over house, through roof and window, water in cellar, walls dirty." SHEDDING ITS STUCCO.

At 139 Pine Lawn avenue the report declares, "No top vent pipe, leakage from roof and windows, dirty walls, stucco coming off." The dwelling at 111 East street, has roof and windows leaking, water in cellar, and front window in bad condition, while an adjoining house is shedding its coat of stucco. The cellar is flooded at 859 Hamilton road, with "several bad leaks from roof spoiling furniture, stucco coming off, putty falling out of windows."

REPORT TO ARCHITECT. In the majority of the 40 houses reported as unsatisfactorily completed the cellars are flooded, causing much inconvenience to the owners. Particulars of each individual house are given in his report, with the above extracts selected therefrom. The clerk of the London Housing Commission has been instructed to give a copy of the report to Architect McBride, of the commission, who will deal with the complaints at once.

HYDE PARK, July 18.—Bee keepers of London Township predict not only larger yield of honey than for many ears, but a yield of unusually fine uality.

The season has been unusually favorable to honey production, and the heavy yield of white clover, which is to be seen in abundance even along the road-side and on lawns, as well as the basewood bloom, is taken as an indication that the honey will be of superior quality. Prices are much lower that in season has been unusually favor-

General Opinion Favors Conserving Empires Oil Resources For Ships.

Leary, staff correspondent, Canadian ress.)-With Premier Meighen of Canada in Edinburgh to receive the freedom of that city and Premiers Lloyd George of a resolution expressing the opinion that the oil resources of the Empire should, if possible, be conserved for naval fuel.

Nevertheless, the situation is far from being as promising as might be and while the press and the public here are showing wonderful optimism, difficulties in the way of settlement, having regard to the almost hopelessly antagonistic programs of the Sinn Fein and Ulster cause those best informed of the facts to be fearful of still another addition to the lengthy chapter of Irish tragedles.

of the consumers and distributing companies of this district.

"I consider that the price of fifty cents a thousand for gas is very fair." said J. B. Williams, secretary-treasurer of the company, today.

Mr. Williams stated that the company would now be in a position to go ahead and make repairs and improvements, which were financially an impossibility under the old conditions, and which were absolutely necessary for first-class service.

He believes that the public will receive better gas service now and that, although, they will be paying a little more for it, the prices do not compare with those which will prevail in Hamilton, Brantford and other cities in Western Ontario, where the price will mount as high as eighty-five cents a thousand.

STILL BE BOILED FIERCE RIOTS AS CONVICTS FIRE PRISON

Officials, Assisted by Citizens, Finally Succeed in Restoring Order.

PITTSEURG, July 18 .- Prisoners the Western Penitentiary here today broke all bounds of discipline, fired four buildings and for a time kept the institution in an uproar, while prison guards, deputy sheriffs and policemen, reinforced by armed citizens, battled to put down the disorders. Six convicts were shot and two others cut in the battle. Prison officials said three or four of the wounded would likely die.

"The outbreak, timed to start with the ringing of the first fire gong, began in the duning-room, where the convicts sought to detract the attention of guards from fires," prison officials said. Alarms sounded from four places in the institution almost simultaneously, when guards discovered the prisoners had fired the buildings with any material available.

Signal For Uproar.

Some six hundred prisoners had just taken their seats in the big dimin-room when one of them sent a soup bowl careening down one of the long tables. Instantly the room was in an uproar for at the same moment the fire gong sounded an alarm.

The guards in the dining-room tried to quell the outbreak, but the thoroughly maddened prisoners pelted them with tableware and cutlery, all the time shrieking and howling.

Meantime the guards in the dining-room had regained in part their control and forced some of the men back to their cells, but 200 or more dashed for the prison yard and when faced by other guards, backed into the building and ran for the top of a tier of cells. From this vantage point they pelted the guards, now reinforced by every available man in the prison, with bricks from the vantage point they pelted the fighting forces within the inclosure, and it was not long until the prisoners had been chased from the wall to their cells.

Within two hours the fire was under control, but not until a number of tution in an uproar, while prison guards, deputy sheriffs and policemen,

Within two hours the fire was under control, but not until a number of buildings had been destroyed with an estimated loss in excess of \$50,000.

John M. Egan, parole officer, after quiet had been restored, said that the outbreak was the result of a period of discontent among the 1.135 prisoners confined in the institution.

CHAIRMAN COMPLAINS TEST STILL DELAYED

No Explanation Has Been Received From Firms' Representatives.

ST. THOMAS, July 18.—The test promised by the La France fire motor truck, at the last meeting of the council, is still being delayed, complains Chairman Hill of the fire department.

Nor has any explanation reached Alderman Hill of the failure of the representatives of the truck to give an exhibition of the capabilities and capacity of the machine.

About thirteen thousand dollars are involved in the purchase of the truck. The council is divided on the recommandation of this and another machine by the fire department. The committee has seen the work of the other, the Kitchener truck, and, apparently, are familiar with its design and performance, but Chairman Hill would have a "tryout" at once of La France, so that a decision may be reached and, at a time, when the committee will, from memory, be able to make comparisons as to the work in detail of both metors.

Dysentery is one of the worst forms of bowel complaint, and hardly any other disease so quickly undermines the strength and brings about a condition of prostration and utter collaps that often terminates fatally.

To check the unnatural discharge without bringing on constipation y should use that grand old remedy with a reputation extending of 76 years, DR. FOWLER'S

Mr. G. H. McVagh, Mawer, Sask., writes: "About eight years ago I had a severe attack of dysentery. I was sick for three weeks. I weighed 154 pounds when I took sick and 125 when I got it stopped. I think I tried every medicine on the market, but did not find relief until I used Dr. Fowler's Extract of Wild Strawberry, and one bottle did it. I think there is nothing like it for diarrhoes or dysentery. I always keep some on hand, as a person does not know when he will need it." Mr. G. H. McVagh, Mawer, Sask.,

THE PROGRESS OF CHINA.

The Republic of China Government Bureau of Economic Information gives many interesting facts regarding that country in its latest bulletin. Considerable light is thrown on the industrial aspect of the country, and although textile fabrics figure promiinently in the reports, there are other manufactures which are of great importance. For example, the plaiting of straw is an old industry which already existed at Chefoo when the port was opened to foreign trade in 1862. This industry, under foreign impetus, has grown to such proportions that it is now the main source of income for a considerable part of the population of the central part of Shantung. It has also extended to other provinces, such as Chihli and Shansi; in fact, wherever wheat is grown straw braid

The Japanese are establishing a number of cotton file in Tsingtau. The International Spinning and Weaving Company has established three mills, and another, called the Great Japan Spinning and Weaving Company, has also been organized. Three other companies will also open mills. There is also a toweling manufacturing company at Chung Hua. The chief product of this company, however, is handkerchiefs, of which it turns out about 120,000 dozen annually. There are also factories turning out woolen quilts, shirts, socks, gloves, etc., all of good quality.

There are many other commodities in the manufacture of which the Chinese appear to be making steady progress. A great quantity of flour is exported nually, and recently 5,000 tons of flour paste were exported to France and Britain. Last March a con- of vivid green. Scott's capacity for taking pains is illustrated in his preparations for writing "Rokeby." For example, he visited a gentleman of his acquaintance and said that he wanted "a good robbers' cave, and an old church of the right sort." He found what he wanted in the ancient slate quarries of Brignall, and the ruined abbey of Egglestone. Here he noted down even the peculiar little flowers and herbs that grew around, so clause 3). OUR WOODLAND HERITAGE.

One of the loveliest of summer trips for tourists in Algonquin National Park is the one by canoe to Nominegan Camp on Smoke Lake. Leaving Cache Lake at headquarters, dotted with its beautiful islands so perfectly reflected in the dark waters, the party paddles up the Madawaska on a summer morning of this fight demonstrates this. Even the language of Dr. Fallis is identical with which the native farmers display in their spare time. very shallow, and it is necessary to go slowly among the lily pads and so avoid snags or rocks, and at times a beaver dam calls for much clearing before

The route then leads into White's Lake, where fishing parfles and picnickers dot the islands and placid waters. Across a woodland portage awaits the starry wonder of the Beaver Pond studded with water lilies -hundreds of them-so white and gently dreaming, it is a joy to put the paddle quietly among them, and steal across the black waters lest the white wonder of them be marred with aught but woodland voices.

Another portage with path through groups of great naples and fern beds here and there along the wayall varieties from the tiny sweet-scented to the magnificent fronds of the cinnamon and interrupted fern. Half-way across, the gurgling laughter of a brook comes through the trees, and the crossing of a woodland bridge reveals a stream winding its way over a bed of large stones covered with a growth of lush moss of vivid green. The end of the portage brings the party to Little Island Lake, a beautiful expanse of water dotted with small islands. The shore line of this lake is wooded, and the trees look as if they had been trimmed to a height of six or seven feet by some been trimmed to a height of six or seven feet by some winter meals.

THE TURNING OF THE YEAR. [Chicago Evening Post.]

Who, in blazing July, looks for signs of any season but summer! It is the red month of the year, standing singular in heat and in comfort, and yet up-standing in its field are the signs of three seasons—spring, summer and autumn. It is in this month that the fall sets its first signal in the land, the ban-ner's blazon being the goldenrod, a blos-som associated in the mind with the turning of the leaf and the early setting of the sun. Loosely, we say that the birds flock in the fall. Their flocking begins in July, when the grackles and the redwings, rallying by companies, begin their foraging in the fields. July claims a part of springs' May is the time of the mating of the so we are told. The cedar waywing and the goldfinch frequently refuse to mate, or to think of things domestic, until July is upon them. As for summer, its signs are everywhere in July.

Our tariff may hurt Canada some; out really not any more than it hurts us for the long pull, as Canada found out when we wanted to establish reciprocity arrangements with her under President Taft. But any hurt which omes from the tariff is more than made up by our new immigration law. which will turn the tide of new citizenry to Canadian climes. It would have been impossible for us to have done more to build up the Canadian Empire. But this will help us, too, for the greater, richer, more powerful Cahada, the greater, richer will be our profit from our neighbor. Under ordinary circumstances it would have been foolhardy to have shut out immigration, but our Government officials know that the world's leading melting pot has ceased to boil. During the war we have not been so very successful in making Americans; we have produced pro-this and pro-that, whereas the hope of cur future, politically and otherwise, is in making good Americans.

Herbst Goes His Way.

Herbst was taken out in the seventh after three successive hits had produced one run, and Ted Kaylor had just banged one down past first that was foul only by inches. Delotelle succeeded, and though he didn't allow a hit, a sacrifice fly and a double steal netted the Hurons two more runs. Herbst went fine except the bad spots in the third and seventh cantos, his worst fault being that his offerings were too near the centre of the plate. When he elected to try for the corners, he was pitching great ball.

The Hurons came down hard in the third. Horse started the attack with a three-bagger. Four clean singles followed, and four runs came in.

me elected to try in.

The was pitching great ball.

The Hurons came down hard in the third. Horse started the attack with a three-bagger. Four clean singles foliowed, and four runs came in.

This started the Tribe tapping on the Huron tepee, and Vandyke, who was passed to first gratis, and stole second, came in when Hooker missed Stutz's fly close to foul territory.

In the fourth they displayed enough good baseball and fight to get them a whole ball game, but one run was all that registered clearly. Schaefer picked this spot to start somethting by singling to left. Kuhn crammed one down to Kelly at third, who pegged for the play at second, but Worley dropped the throw. Malmquest's humped-up single to left scored Schaefer, and then Malmquest and Kuhn workyd a double steal which moved Bill to third. Briger Basen't guessing as smartly as Horne and whifted. Carmen couldn't get what he wanted, and slammed down a grounder at Buck Boyle, who elected to stop Kuhn coming home and succeeded. But Malmquest was on third when the play ended, and Carmen was on second. So that matters were not much better from Horne's standpoint than before, and were decidedly worse when he walked Vandyke. Herbst, however, popped a high foul out, and that closed the argument for the time.

Stutz reopened the discussion in the fifth by barely stretching a knock to centre into a double. Shay crashed down a hot one which Worley got near the edge of the grass, and on which the London runner was declared safe at first, much to Buck Boyle's annoyance. And then Schaefer sent one down to Watson. Watson thought he saw Stutz dashing madly home, but it was only an illusion, for Stutz was standing on third looking very wise, while the Huron infield looked rather foolish. Kuhn's single to centre came at a very oppèrtune moment, chasing two runners in. Kuhn was caught cold going into second, and then Malmquest sent down a choice which fell on Schaefer going into second, and then Malmquest sent down a choice which fell on Schaefer going into second, and t

Kaylor's sacrince by school greeted Delotelle, and then he walked Hooker. Kelly, named Owen, came in her on the front end of a perfectly-timed and executed double pilfer. Horne turned Shay, Schaefer and Kuhn back just like that in the seventh, and Delotelle retaliated in the Huron eighth. Maimquest upset this procedure in the London eighth by singling to right. Joe Briger whiffed, and Carmen was safe on a hard-hit grounder to third. Vandyke grounded out, advancing both runners, and Delotelle, after swinging idly at a couple, slammed a hard one down through third, which O. Kelly deflected out toward Hooker, and two runs came in.

The ninth brought Horne's generous side to the fore and the Tribe were mean enough to take advantage of it.

Conservative Candidate Elected — Liberals Will Have Fourteen Seats.

Calgary July 18 .- By Canadian Press. Calgary July 18.—By Canadian Fress.
The farmers have swept Alberta. At
10 o'cleck tonight it was apparent that
nominees indorsed officially by the
United Farmers of Alberta had been
elected to at least 36 out of the 61 seats

in the Legislature of the province.

This demonstration of their strength
involved the defeat of the Liberal Government, headed by Hon. Charles Stewart. The Liberal group in the next House will number not more than fif-teen, and perhaps less.

Labor elected four, and these can be

added afely to the voting strength of the forthcoming farmer administration. Four Independents. Four Independents also made their

way to the Legislature, including "Bob" Edwards, editor of the Calgary Eye-Opener, who ran second in Calgary, No stratght Conservative was elected.

Gen. J. S. Stewart, the winner in Lethbridge, is described as an Inde-pendent Conservative. Premier Stewart has six colleagues in his cabinet. Three of them were defeated by U. F. A. car didates and three were elected. Hon-Duncan Marshall went down in Olds, Hon. A. McLean was defeated in Taber, Hon. A. McLean was deteated in Turns, and Hon. George Smith in Kamrose. Hon. J. S. Boyle, attorney-general, was elected in Edmonton, but defeated by a farmer in Sturgeon. Hon. J. L. Cote won his fight in Grouard, and Hon. C. R. Mitchell in Bow Valley. H. W. Wood, president of the United Farmers of Alberta, was not a candidate, but he worked actively during the campaign on behalf of the farmer nominees.

behalf of the farmer nominees.

Hoadley Elected.

George Hoadley, a former Conservative provincial leader, who accepted a farmer nomination in Okotoss, was elected. Hon. C. S. Pringle, speaker in the last Legislature, was defeated in Red Cliffe.

Two wemen were elected out of eight nominees. Mrs. Nellie McClung, the well-known writer, went in with the Government ticket in Edmonton, and Mrs. Walter Parlby, a member of the last Legislature, was returned for Lacombe.

Edmonton returned five Liberal candidates in a field of 26. Calgary split its vote, sending back two Labor mentwo Independents and one Liberal. Medicine Hat elected a United Farmer man and a Labor candidate who ran on a joint ticket against the Liberals. more than \$100,000 a year, and more than 1,000 per cent per annum on their investment.

"Permit me to state the facts.

"Many years ago the Ontario Jockey Club purchased the Woodbine race course, when it was on the outskirts of the city, for \$150,000. Since that time the city has extended miles beyond the Woodbine, and with the growth of the city the value of the property has increased, so that today the Woodbine property is assessed by the city of Toronto at \$715,940, and the 1921 municipal taxes payable by the club amount to \$32,000. As the value of the property increased the shareholders of the jockey club considered they were justified in increasing the capital stock to correspond more nearly with the value of the land, and stock dividends were declared. Sir James Craig, the Ulster premier, on leaving for Belfast, made an important statement, which appears to forbid any hope of assembling a conference such as Premier Lloyd George proposed between himself, Mr. De Valera Beets, per bunch...

posed between himself, Mr. pe valeta and the Ulster premier.

The Ulster leader maintains that the Sinn Feiners themselves, by contesting the elections for the Northern Parliament on a platform of "no partition" on which they were roundly defeated, have recognized Ulster's claim to self-determination, and so far as his words have been interpreted, for the present he seems to wash his hands of any further participation in the peace negotiations.

WITHDRAWS SUPPORT.

LONDON, July' 18.—(By Canadian Associated Press.) — Colonel Arthur Shea, meber for the Finsbury division, London, has withdrawn his support from the Government, as he asserts that he disapproves entirely of the "cabinet's policy of negotiations with Eamonn de Valera, Irish republican leader, who is a fugitive from justice."

"The writer pointed out that the Ontario Government's revenue from the race courses for the year 1920, including the amusement tax, was nearly \$900,000, but that the Government had not seen fit thus far to donate one dollar of this sum to the breeding of any kind of horse."

Mr. Hendrie sald he traced the "vindictive censure" of Hon. Mr. Raney to a council at which Hon. Mr. Raney and other members of the cabinet, and race course representatives were present. At this time the suggestion to increase the percent us 10 per cent was thrown out, he said, adding: "This suggestion did not emanate from the race course representatives. The public can judge for themselves the source."

is, from Mr. de Valera's standpoint, absolutely essential to any possible negotiations.

Is Well Satisfied.

Just before taking the train tonight with his colleagues for Belfast, Sir James Craig, the Ulster premier, said:

"I return home well satisfied with the efforts being made toward peace, Mr. de Valera has broken his silence and cleared the ground by his statement to the press that he proposes to found his claim on recognition of the right of self-determination."

The Ulster premier contended that the people of Northern Ireland in the recent elections "determined" their own Parliament by an overwhelming major by Alberts and Steers,

500 to 600 lbs. 11 00 to 15 00 to 16 00 do, 80 to 9 lbs. 11 00 to 14 00 Heifers and steers,

500 to 600 lbs. 14 00 to 15 00 do, 400 to 500 lbs. 12 00 to 13 00

Parliament by an overwhelming majority, and that Mr. de Valera and his friends admitted the right of such self-determination on the part of Northern Ireland by the fact that they themselves stood as candidates for the Northern Parliament and submitted their policy of "no partition." This, in fact, was the only issue placed before the electorate, said Sir James, and "no partition" was rejected by the largest majority ever secured in any general election.

Make No Claim.

the electorate, said Sir James, and "no partition" was rejected by the largest majority ever secured in any general election.

Make No Claim.

"Such being the true facts," he continued. "it now only remains for Mr. de Valera and the British people to come to terms regarding the area outside of that of which I am prime minister. The people of Northern Ireland make no claim whatever to 'determine' the terms of settlement which Great Britain shall make with Southern Ireland.

"When this is accomplished I can promise cordial co-operation on equal terms with Southern Ireland in any matters affecting our common interests.

"Having reached the present stage, I return to Ireland to carry on the practical work of the Government. I feel that out interests are ably represented in the Imperial Parliament, and, of course, our services are available at any minute."

Will Be Resumed.

quarters that Mr. Wod is responsible more than any other one man for the development of the United Farmers of Alberta along the lines which it has taken, and that for this reason there rests upoh him a moral responsibility to continue in the official forefront of the movement in its new political status. Mr. Wood declined last night to make his own position clear. He had not been tendered the premiership, he remarked, and he would not go so farevn as to say that he was in the hands marked, and he would not go so far evn as to say that he was in the hands of the organization.

The name of Herbert Greenfield, vice-

president of the U. F. A., is mentioned prominently for the premiership, and that of George Hoadley, member-elect for Okotoks. Woman in Cabinet.

It is expected in Calgary that Alex. Ross, Labor members has elected for Calgary will find a place in a farmers' cabinet, presumably as the first minister of labor for the province. J. E. Brown-les, general counsel for the U. F. A., is helieved to be the most probable choice for attorney-general. Mrs. Walter Parlby, member-elect for Lacombe, may get a post in the administration. Most of the farmer members-elect are omparatively unknown in the public life of the province, outside of their ate districts, but at U. F. A. headquarters here there is no doubt that plenty of them are of considerable cali-bre. The election saw the virtual disappearance of the Conservative party from the Legislature. The twelve can-didates who ran on the straight party ticket were defeated, General J. S. ticket were defeated, General J. S. Stewart, victorious in Lethbridge in a contest with a labor opponent, is termed an important Conservative. A. F. Ewing, leader of the Provincial Conservative and the five sucvative party, ran next to the five suc-cessful Liberals in Edmonton City. The rumor that Hon. Charles Stewart might lead a farmers' government is

This is the season when she who would have a lily-white complexion should turn her thoughts to mercolized wax, the firm friend of the summer girl. Nothing so effectually overcomes the solling effects of sun, wind, dust and dirt. The wax literally absorbs the scorched, discolored, freckled, withered or coarsened cuticle, bringing forth a brand new skin, clear, soft and girlishly beautiful. It also unclogs the pores, removing blackheads and increasing the skin's breathing capacity. An ounce of mercolized wax, obtainable at any drug store, applied nightly like cold cream, and washed off mornings, will gradually improve the worst complexion.

When depressed by the heat and you want to freshen up for the afternoon or evening, bathe the face in a lotion made by dissolving an ounce of powdered saxolite in a half pint witch hazel. You'll find this more refreshing than an hour's rest. It is fine for smoothing out wrinkles, even the deeper ones.

OTTAWA, July 18.—Time, estimated by the department of labor at 161,910 working days, was lost during the month of June by 8,083 industrial workers in 44 strikes. This loss of time represents a slight gain over May when in 45 strikes, 8,238 workpeople lost 163,520 working days. During June, last year, 15,793 workers engaged in 66 strikes at an estimated loss of 185,732 working days.

days.

On June 1, this year, 27 strikes were in operation affecting 5,649 workers. During the month seventeen strikes commenced and 26 strikes, involving 5,943 workers were on record at the end of the month.

BRILLIANT FAREWELL TO GOVERNOR-GENERAL

QUEBEC, July 18 — (By Canadian Press.)—The banquet tendered this evening to His Excellency the Governor-General, the Duke of Devonshire, prior to his return to England on the expiry of his term of office by the prime minister and members of the executive council of the Province of Quebec, proved to be one of the most brilliant public city for some time.

PORT STANLEY, July 18.—The Oriental Order of Humiliation and Perfection, Mahomet Sanctorum, No. 14, of St. Thomas, held their second annual picnic on the Heights this afternoon. The majority of the male members wore their Turkish uniform, which looked very quaint and picturesque and had it not been for the same old incline railway, teeters, etc., the casual stroller might have imagined he was strolling in a public park of the Turkish capital. The picnickers, numbering 500, arrived at 2:15 and started off with a ball game on the diamond, married vs. single men, result, 8—3, to married men. A long list of sport were run off during the afternoon and by six o'clock all were ready for the good spread which the ladles of the Orietn had generously provided.

directors.

This is the latest upshot of the family struggle between Arthur Berthiaume, president and manager of La Presse, and his brothers, Eugene and Edouard, to obtain control of this, one of the most important of the French-Canadian newspapers in the Dominion. The latter two are at present out on bail on a charge of theft of \$80,000 and \$40,000, respectively, laid by Arthur Berthiaume. Each side of the quarrel has engaged the services of detectives, who are now, in considerable numbers, holding various floors of the La Presse building, while attempts are being made by one "army" to starve out the other.

Mr. Justice Loranger put an end to this state of affairs by giving orders that hostilities must be suspended at once, and that each side must call off the two staffs of disputing detectives. Counsel for each side agreed to this course this afternoon.

His lordship then agreed to hear both sides "tomorrow morning on the merits of their applications for writs of injunction."

PAINFULLY INJURED

Members of St. Thomas Lodge Alvin McDonald Breaks Bone in Arm by Fall in

DUART, July 18.—Alvin McDonald, a farmer living south of the village, broke one of the bones in his arm. While unloading wheat the triprope broke and he fell backwards from the load to the barn floor. Besides the broken bone he was bruised about the head and shoulders. He will be laid up for some time by the break. This is his second misfortune this summer, as he had to undergo an operation for appendicitis. A large auto overturned in the ditch at Clearville yesterday. The driver, in turning around, evidently overlooked the machine. Two passengers, who were in the car, had just alighted, or serious injury might have occurred.

This declaration was made in connection with applications by the Berthiaume brothers, through counsel, for the issue of cross-writs of injunction directed to the same end, viz., each party wants the other party barred from the control of La Presse newspaper, together with a court declaration that they, and not the others, are rightful directors.

GUELPH. July 18.—The Speed River claimed another victim this afternoon, when shortly after one o'clock, Thomas Sharp, 12-year-ôld son of Mr. and Mrs. Thomas Sharp, 214 Bishop street, Montreal, who had been visiting in Guelph with his mother, lost his life while in swimming just above Goldie's dam. The lad was in bathing with three comrades and after going out beyond his depth he was seized with cramps and sank to the bottom without even uttering a cry for help.

The body was removed from the water about five mnuites after the drowning by Fireman Wm. Sharpe, who had been been serviced in Halifax from the far north recently for examination and measurement by Dr. John Cameron eximple for the MacKennie Rivers in Canada's five five few preference and characteristi
