# Swanson Argues Topping Can Not Face Charge of Murder

# TO URGE THAT JURY **DECIDE ON SANITY** INSTEAD OF GUILT

D. A. J. Swanson, Counsel for Topping, Announces That He Will Plead Prisoner Incapable of Facing Murder Charge-Judge Grants Postponement When Grand Jury Brings True Bill.

DEFERRED UNTIL TOMORROW

The case of Clarence Topping may turn from a question of murder to one of sanity if D. A. J. Swanson, counsel for the defence, succeeds in the purpose which he announced this morning.

Mr. Swanson will urge that Topping, who has confessed to the murder of his sweetheart, Geraldine Durston, is insane, and therefore incapable of undergoing trial on the charge at present given the freedom

Justice Lennox has indicated disagreement with this argument, but will listen to evidence.

# **BOY IN THE HOME**

Church and "Y" Officials Endeavor To Show Value of Home Training.

Today the churches and the Y. M. C. A. are trying to direct special attention to the life of the boy in the home. In spite of counter attractions that are now drawing the boy, the home, nevertheless, is the institution which plays the biggest part in the development of his life. Much depends on the influence of the home: Every boy should realize that he has a real responsibility in the working of his home and this can only be attained by the strongest co-operation with all the members in the home. Tonight should be set aside as boys' night in the congregation had a balance on hand. The total receipts for the congregation had a balance on hand. The total receipts for the kiwanis Club at their noon luncheon tomorrow. Last evening he received a call from Toronto and had to take the bank. At the end of the previous year the bank balance was only \$572.91.

Reports of the progress made in the various branches resulted in much discussion concerning extension and new methods of work. Plans were made to enlarge the religious and social work of the church, and this development will probably include the formation of an adult class in the Sunday school as well as a home deof education is in receipt of a form letter from the Overseas Education League drawing attention to a tour which that institution is offering to teachers within the empire to visit France and England in the suppose. bers in the home. technical schools and collegiates, although both secondary schools, are considered by the department as en-tirely separate. The functions of each are clearly defined, and one cannot be converted to function as the other. The collegiates, in the wording of the act, are to be devoted to the teaching of an academic curriculum, and the technical schools to the furthering of the vocational education of those who for one reason or another had not had the advantages of a

secondary education.

These studies cannot be merged in any way, and on this account Dr Merchant stated emphatically that the idea of a "technical collegiate" must be abandoned at once.

He offered a suggestion which he thought might help in a measure to relieve the congestion at the collegiates, that domestic science and manual training, being vocational studies, could, if convenient, be transferred to the Technical School. In commenting on the expense of constructing a new collegiate unit, Dr. Merchant stated that before the need became more urgent, the crystallization of public opinion would demand the erection of a collegiate unit, and that although the cost would

If we get plenty of rain, we are safe. If not, we have poor crops. Last fall we had a great deal of rain, and the farmers know now there is enough moisture in the land to give them a good seed germination even without any spring rains.

Mr. Valiquette has another side of the Albertan and especially the Calgary side of the question to talk about, and that is the annual stampede held in the western city every July. "This stampede of ours is the finest show in the Dominion today," he says, "It is partically the only one of its kind in the country, where you can see the real men and women one of its kind in the country, where you can see the real men and women of the plains just as they are in their work-day life. Last year we had the Prince of Wales to present the prizes to the winners of the stampede. We had eighth avenue roped off from all traffic, and for four hours cowpunchers and cowgirls rode along that street. Competitors come from all parts of the States, and so do visitors. I think the Calagary stampede is just as well known and so do visitors. I think the Calgary stampede is just as well known
on the American side as over here.
I would like to suggest to all easterners that if they are thinking of taking a trip out west this year that cision before the board of education they should plan to be in Calgary on July 7 and the week following. ## Danny Leaves the Man-Bird To Explore and Has a Terrible Fright

By THORNTON W. BURGESS. The great man-bird was as well as ever. The broken wing had been mended. Danny Meadow Mouse didn't know how, but he did know that it was so. So once more he became used to the noise of the engine and began to enjoy flying. He wondered what kind of a place the great man-bird would pick out to spend the night in. He was sorry that he hadn't had a chance to say good-bye to Trader the Wood Rat, and to his good friend, Bob White. But you know that flight had been a great surprise to Danny and Nanny.

Late in the afternoon the great manbird came down to earth. The aviator had saved some of his lunch. and this he put just in front of the her babies. cupboard in which Danny and Nanny were living. "I suppose," said he, "that if I want to keep you I ought food, because he was already

THE MOUNTAIN PEAKS AND THE VALLEY ROAD. Suffer hardship with me as a good soldier of Christ Jesus .- II. Timothy ii., 3.

Remember that in this world every mountain top of privilege is girdled by the vales of lowly duty.

Remember that the transfiguration of the soul is but the preparation and encouragement for the sacrifice of the life.

Remember that we are not to tarry in the transitory radiance of Mount Hermon, but to press on to the enduring glory of Mount Zion, and that we can only arrive at the final and blessed resting place by the way of Mount Calvary.

Remember Peter's words in the full experience of the school of Christ.

For the spirit of Jesus was in him, and taught him what to say, when he wrote at the close of his life: "Beloved, think it not strange concerning the fiery trials which is to try you, as though some strange thing happened unto you." ### LOVER OF CHILDREN. London South's Case.

Student Points Out That Present School Has Long Since Served Its

Editor of The Advertiser:

Sir,-The one vital educational need of London at the present time is a new London south collegiate. For two years we have been struggling along, under protest, in makeshift quarters, long since discarded by the Victoria public school for the modern building which now houses them; but our ultimate capacity has been reached and something must be done, and done very quickly, to provide adequately for high school

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas On Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic 'acid stomach' is exceedingly dangerous and sufferers should do either one of two things. Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourcess or premature fermentation by courses or premature fermentation by Robertson and Kelterourness or premature fermentation by the use of a little Bisurated Magnesia tt their meals.

There is probably no better, safer or more reliable stomach antiacid than Bisurated Magnesia, and it is widely used for this purpose. It has no direct action on the stomach, and is not a ligestent. But a teaspoonful of the bowder or a couple of five-grain tablets aken in a little water with the food will neutralize the excess acidity which hav be present and prevent its further.

## MARKET SIDELIGHTS

sightly on the exchanges yesterday, officials of thromogration do not confirm current runors as to the probable injection of new capital and new personnell into the augmentation of the present official staff by the addition of some prominent United States steel men, while still others talk of the possibility of a prominent Canadian steel exceptive joining the Besco forces. The amalgamation of companies which is the British Empire Steel Corporation today was conceived at the height of an unprecedented steel boom, which has created many problems in the administration of the company. There are, however, Canadians both within and without the corporation who have had the vision necessary for the installation in Canada of a first-class factory in the world's steel trade. Sapital will some day come, but in the meantime Canada is loshing an advantage it might otherwise have.

The present outlook in the steel business all over America seems exceptionally promising, for the next few months at any rate.

POISONED BY CLOGGED DESIRE TO BRING LAD SOMETHING TO BRACE UP SYSTEM AND MAKE THEM FEEL BETTER.

The majority of people desire whiskey because they don't feel well. Some may look healthy, but one vital organ of their bodies is out of order. This organ is the liver, the body's filter! When it is out of order you often wake up feeling dull and tired, tongue coated, bad taste in your mouth, sallow complexion and unpleasant breath. You are bothered with such symptoms as poor digestion no appetite your stomach and.

Two constables found the lad with

with such symptoms as poor digestion, no appetite, sour stomach and gas, irregular movement of the bowels and that rundown, tired out, nervous and upset condition! Cften you have splitting headaches, catch cold easily and your system is too rundown to throw off the cold.

Better than whiskey. Take just a spoonful of Dr. Thacher's Liver and Blood Syrup after the next few meals. Notice the quick difference in the way you look, eat, sleep and feel. Let this wholesome prescription cleanse and tone your liver, put your stomach and system in condition and keep you feeling fine. It is pleasant to take and you will be lad, with a smaller companion, walking down Talbot street. They were searched and some toffee bars were taken from their pockets. On investigation it was found that Mr. Jury had sold the bars to the lads.

Under the act candy cannot be sold on the Sabbath unless the purchaser eats it on the premises where it is sold. Mr. Jury explained this to the boys, who immediately devoured one of the bars in his presence. Unknown to him, however, they disappeared out the front door of his establishment with the other bars. tion and keep you feeling fine. It is pleasant to take and you will be completely satisfied; otherwise druggists are authorized to return the small cost. Dr. Thacher's Liver and Blood Syrup is sold and recom-mended by B. A. his personal attention.

The question of building restrictions being put on the district was brought up by the secretary of the association, and after being put to a vote of the people, the general sentiment was found to be strongly in favor of the scheme, as outlined by the secretary, who pointed out the advantages which would accrue.

A general discussion ensued dur-ing the course of which many topics bearing on the welfare of the community were brought forward and decisions passed.

Yet, he was certain that this man was in some way the key to the mystery. There was no reason in the world why he should have given this warning. The cable had been thoroughly tested. Three days ago it was perfectly sound. The more he considered it the more positive he became that here was the clue. The man was perhaps the flend who had poured acid on the cable, having given the warning on purpose to turn suspicion from the real cause of the break.

If he were merely a crank he would brag over the whole camp of the advice he had given—advice the engineer had ignored. Derny put his
