#### Agent: H. RICHEY.

This is one of the largest and most successful of the Life Assurance Institutions of Great Britain.

"THE STANDARD" has acquired a marked character for liberal management, being the first institution which relieved Policies of Assurance from restrictive and unnecessary conditions, and gave such contracts increased value and stability

Thirty days of grace allowed for payment of Premiums, and Policies valid meantime

Forfeited Policies revived within thirteen months under certain conditions. Policies of five years duration unchallengeable on any ground connected with the original documents.

Policy holders permitted, without payment of extra premium, to join Militia, Yeomanry, and Volunteer Corps, and to perform any military duties required of them in peace or war in defence of their country.

Unconditional Policies, without any restriction as to residence, granted on lives of persons settled in life.

Surrender value of Policies ascertained by a fixed scale.

#### Preface.

In issuing the Second Edition of the HALIFAX CITY DIREC-TORY, the Publisher can confidently state, that he has spared no pains nor expense to make it thoroughly reliable and useful. With every wish to make it so, he has included as in the first edition that most useful appendage—a STREET DIREC-TORY. Owing to the defective numbering of the Streets, this was found to be a work of great trouble. To those unacquainted with the getting up of a Directory, it would seem incredible the difficulties to be overcome. Not only is there the correct spelling of names, the calling repeatedly for those who are out, wrong Nos., and houses not numbered, but the quantity of people who persistently refuse to give their names owing to a foolish dread of taxes, the utter indifference of some, and the rudeness of others—all these and more, the intelligent canvasser has to guard against and overcome. So if an error has crept in, the public will believe he has done his very

Considering DARTMOUTH an adjunct of Halifax, he has inserted a complete Alphabetical Directory of it, which will be found equally correct with its larger competitor.

In the lengthy sketch of Malifax City and of the gold Mines of Nova Scotia, the Publisher can only say that more correct and trustworthy information is not to be found.

In the Appendix will be found a mass of useful and general information, with details of Churches, Societies, Institutions, &c.; also, full information as to the Customs and Post Office personal process.

To his Subscribers and Advertisers, he can only return his best thanks for the hearty support accorded him, and trusts they will not be disappointed.

# insure against accidents

IN THE

# TRAVELERS

LIFE AND ACCIDENT INSURANCE CO. OF HARTFORD, CONN.

The TRAVELERS is the only Company in America issuing yearly General Accident Policies.

It has Cash Assets of \$1,743.648.89.

It has issued 219,189 General Accident Policies.

It insures against General accidents, by the month or year, to men of all trades, occupations, and professions.

It has paid \$1,602,832.23 in Benefits to policy-holders, for Death or Accidental Injury, averaging about SEVEN HUNDRED DOLLARS A DAY for the past seven years.

The TRAVELERS issues all forms of full LIFE and ENDOW-MENT Policies, at Low Cash Rates, without the complications or uncertainties of the note system. It sells insurance rather than future "dividends." Its contract is a plain one, its security is ample and unquestioned, and its rates of premium are exceedingly low.

#### HISTORICAL SKETCH

OF

### HALIFAX CITY AND COUNTY.

THE City of Halifax, the capital of the province of Nova Scotia, was founded in the year 1749, by the Lords of Trade, and was named, in compliment to George Montague, Earl of Halifax, then at the head of the Board. The scheme for the establishment of the town is said to have originated with the people of Massachusetts, who, in calling the attention of Government to the claims and encroachments of the French on the territory of Acadia, suggested the necessity as well as the great commercial advantage to be derived from such an undertak-A plan was accordingly submitted to Government in the autumn of 1748, and being warmly supported by Lord Halifax, advertisements soon appeared under the sanction of his Majesty's authority, holding out excellent inducements for emigration. The prospects appeared so inviting, that in a short time 1176 settlers, with their families, were found to volunteer, and the sum of £40,000 being appropriated by Parliament for the purpose, the expedition was placed under the command of Colonel the Honorable Edward Cornwallis, M.P., as Captain-General and Governor of Nova Scotia, and set sail for Chebucto Bay early in May 1749.

The fleet consisted of thirteen transports, carrying 2376 pssengers, men, women, and children, and a sloop of war, the *Sphinx*, with the Governor and his suite on board. The total number of males was 1545, of which above 500 were man-of-war sailors.

On or about the 21st of June, the Sphinz arrived in the harbor of Chebucto, and the Governor and suite soon after landed on George's Island.

On the 14th July the civil government was organized on board the Beaufort transport, and the following gentlemen sworn in councillors, viz: Colonel Paul Mascarine, Captain Edward Howe, Captain John Gorham, Benjamin Greene, John Salisbury, and Hugh Davidson. The formation of the Council was announced by a general salute by the ships in the harbor, and the day was devoted to amusement and festivity.

In the month of July, Mr. Bruce, a civil engineer, and Mr. Morris, a surveyor, were ordered to lay out the town, which was surveyed and the plan completed by the 14th September. The town was laid out

## A. RIDGEWAY & CO., Furniture of all Descriptions, cor Hurd's Lane.

in squares or blocks of 320 by 120 feet—the streets being from  $55\,$  to The width of Granville Street is but 55 feet. Each block contained sixteen town lots, 40 feet front and 60 feet deep, excepting the lots between Barrington and Argyle streets which are 72 feet deep—giving a larger space for St. Pauls Church and the Pa-The whole was divided into five divisions or wards. Buckingham street was at first fixed as the north, and Salter street as the South limit, but the north limit was subsequently extended to Jacob street. The settlers drew for the lots, and the names and number entered on a register kept for that purpose, still in existence, and known as the allotment book. The north and south suburbs were surveyed about the same time, and the German lots in the north laid off in the

On clearing the ground for settlement, a number of dead bodies were discovered among the trees, partly concealed beneath the underwood, which were supposed to have been the remains of soldiers of the Duke d'Anville's expedicion, which wintered in Chebucto in 1746.

On the 17th July the French deputies waited upon the Governor on board the Beaufort transport. They were again received by the Governor and Council on the 29th July, when they rendered their allegiance to the new Government, which was accepted. The Indians also had an audience on the 14th August, and treaties of peace between them and the colonists were drawn up and signed on the following day. These treaties do not appear to have been much respected, however, as the Indians continued to give the settlers considerable trouble; and several new companies of volunteers were raised in the following October to prevent their incursions. About this time nearly one thousand persons are said to have fallen victims to a fearful epidemic which swept over the country Laws, similar to those in force in the colony of Virginia, being found the most applicable to the circumstances of

From the year 1749, the defences of the town consisted of pallisades or pickets placed upright with block-houses, built of logs, at convenient distances. This fence extended from where St. Mary's Cathedral now stands to the beach, south of Fairbanks' wharf, and on the north along the line of Jacob Street to the harbour.

There were also block houses at Point Pleasant, Fort Massey, and various other points near the town.

The town of Dartmouth was commenced in August 1750, by 350 settlars, who arrived in the ship Albany. In the December following the first ferry was established, and John Connor appointed ferryman by order in Council.

Dartmouth and the vicinity of Halifax suffered considerably at this time from the depredations of the French and Indians, stimulated by French emissaries; and to prevent their incursions a militia force was formed, consisting of all the male inhabitants between the ages of six-

in the colony. In June 1763, 1500 of them embarked for Malagash harbor in Mahone Bay, where they afterwards built the town of Lunenburg. The remainder continued in Halifax, and were located in the North suburbs, called Dutchtown, Brunswick and Lockman Streets, now known as the north end, and were the first settlers of that part of the peninsula.

Notiwithstanding the advantages held out by the Government, and the fact that up to the fear 1757 the enormous sum of £560,000 sterling had been expended on the settlement, the people at that date were rapidly removing to the old colonies. The fisheries, one of the main inducements for emigration, being almost entirely neglected, and the population reduced to much less than half its original numbers, subsisted chiefly on the money expended by the army and navy, and were dependent on Boston for their provisions, and all other necessary supplies. Halifax was of incalculable importance, however, to Great Britain in a military point of view, and to its position as a military and naval station may be ascribed, in a great measure, the downfall of the French power in America

The fleets and troops under Lords Howe and Loudon, sent out for an attack on Louisburg, in 1757, made Halifax their rendezvous. After the siege, which lasted two months, the fleet and army returned to Halifax, and remained some time to refit. The country was sacked for provisions, and many of the sailors, being enriched by the campaign in Louisburg, procured their discharge and became settlers; and all the ammunition and stores, with a quantity of private property being removed to Halifax, the town once more began to assume a prosperous appearance.

Halifax was again the resort of the army and navy, under Wolf, during the following year, 1759; and in 1763 the town was enlivened by the presence of a large army and navy, and many gentlemen of standing made the place their home.

In December 1760, King George III. was proclaimed at Halifax with great ceremony.

Representative government was established in Nova Scotia in 1758. A great gale of wind, in 1769, caused much destruction of property and loss of life. The winter was remarkably severe, the barbour bethe snow on the ground, in March following, was in many places five feet days.

From 1770 to 1776 was a period of great public excitement; emissaries from the revolted colonies were numerous, and all meetings of a political nature were forbidden.

The Parliament, elected in 1770, sat for fourteen years without being dissolved.

After the close of the French war, the town declined in prosperity for a few years; but eventally it again became the depot of the troops and shipping, and a more prosperous era began to dawn. After the eyacuation of Boston, ten thousand soldiers, sailors, and loyalists who

#### A. BIDGEWAY & CO., Mahogony, Walnut, and Oak Coffins &c., cor Hurd's Lane.

arrived with the fleet, were quartered in the town. Many of the transports, being in a leaky condition, landed their people. house was crowded to excess. From the commencement of hostilities to the termination of the war, the town was thronged with troops and refugees from the revolted provinces, and the scarcity of provisions increased to an alarming extent, Beef was 2s. 6d. per pound, and

The loyalists soon distributed themselves throughout the Province, and the population again rapidly decreased. In 1783, however, great numbers of loyalists came from New York, and the population, thus augmented, was suddenly increased to double its former numbers; yet It is very remarkable that, in September 1791, within eight years after, the population had again so fallen off as scarcely to exceed five thousand. The greater part of the loyalists returned to the States, where they became founders of some of the great families.

In the year 1787, Nova Scotia was erected into a Bishop's See, and

Halifax made the residence of the Bishop.

On December 27, 1798, a tremendous hurricane visited the town, and swept away all the wharves, and damaged most of the shipping in the harbor. The loss of property was estimated at £100,000.

The lumber yard, ordnance yard, and King's wharf, were all commenced about the year 1784 or 1785; but the buildings now existing at these localities were not put up till a much later date.

Citadel Hill was cut down, and ramparts of earth constructed on the site by Prince Edward, when commander-in-chief of the garrison, a number of wooden fortifications by which the hill had been occupied having been removed for the purpose.

The Towers on George's Island, Point Pleasant, Eastern Battery, Meagher's Beach, and York Redoubt, were built about this time. He also established telegraph stations between Halifax and Annapolisthe first post being on the hill behind his own residence, on Bedford The Parade Ground was levelled and the wall built by him. Until the year 1780, the streets of the town were in a very rough condition, and from stumps of trees and rocks, impassable for carriages.

The first Government House was erected soon after the laying out of the town. The frame and the material were brought from Boston. The building was completed early in October. It was a small low building of one storey, and stood in the centre of the square, now occupied by the Province Building. It was surrounded by hogsheads of gravel and sand, on which small pieces of ordnance were mounted for its defence. This building was removed, and a more spacious and convenient residence put up about 1757 or '58, which in turn was pulled down shortly after the year 1798.

Saint Paul's Church, now probably the oldest building in the city, was built in 1750, at the expense of Government. The old German Church, in Brunswick Street, bears the date of 1761. It was erected by private subscription, as a Lutheran Church, and is now one of the few relics of the old German settlement.

A. RIDGEWAY & CO., Farnitare Dealers & Undertakers, 31 Brunswick St.,

A printing office seems to have been established as early as March 1756 by Isaac Curry, The first newspaper in Halifax appeared in January, 1763. It was published by Anthony Henry, edited by Capain Buckley, and called the Nova Scotia Chronicle, or Weekly Gazette. There was another printing office, in 1776, in Grafton Street, with a steeple and a hand holding a pen for a vane.

The first Court-house stood where Northup's Country Market now stands, at the corner of Buckingham and Argyle Streets. The buildng recently occupied by the Halifax Grammar School, at the corner of Sackville and Barrington Streets, is also a very old one. The Legislature held its sessions there about 1765. It has also been used as

There were numerous and well-kept houses of public entertainment t a very early period. A large three-storey building, called the Great Contiack, was erected previous to 1757, at the corner of Duke and Water Streets. It has been since known as Michael Bennett's Corner. There was also the Crown Coffeehouse, kept by William Fury, in 769, on the beach near the Dockyard, and the Jerusalem Coffeehouse estroyed by fire in 1837. The latter building stood on the site now ccupied by the warehouse of that name.

Between 1753 and 1780, public gardens and promenades were much vogue, of which Adlam's Garden, south of the citadel, near the resent Artillery Park, was the principal. The Artillery Park was hen kept on the grand Parade. The Parade was not levelled at that me, and the descent at the north-east corner was very abrupt. The rtillery Barracks stood in a line with the present Engine house. pring Gardens was another place of resort. The old Governor's ardens were south of Government House, now the residence of the ev. George M. Grant. About the year 1768, there were lamp-posts all the principal corners, the town being then lit with oil, at the ablic expense.

The first jail was situated in Hollis Street, at the foot of Salter

The Queen's Dockyard was first established in 1758. It was exnded and improved in 1769. The present wall was built in 1770; is date is inscribed on the gate, and is situated in the north end of B city. It now contains workshops, warehouses, and stores of rious descriptions, besides commodious residences for the officers and prkmen. It contains several war trophies, and it was at this place s Royal Highness the Prince of Wales first landed in Nova Scotia

After the return of His Royal Highness the Duke of Kent, and ween that period and 1840, the town of Halifax did not make such oid progress as many other towns on this continent. During the nerican war of 1812, several valuable prizes were taken into port, ich caused a considerable sum of money to circulate; but comparaely few buildings of any note were erected. The foundation-stone Mason Hall was laid by the Duke of Kent about 1800.

#### A. RIDGEWAY & CO., Mahogony, Walnut, and Oak Coffins &c., cor Hurd's Lane.

Provincial Building was erected between 1812 and 1820, and Dalhousie College about 1820. St. Paul's Church was enlarged about 1812. A crusty old Admiral removed, about this time, the principal Dockyard to Bermuda. The emancipation of the slaves in the West India colonies, in 1836, caused a serious interruption to the important trade carried on between Halifax and those islands. This was followed by Asiatic cholera, in 1834; this again by commercial regulations respecting the admission of Baltic timber into the British markets about 1837; and that was followed by the withdrawing of the troops during the trouble in Canada-all combined to cause a stagnation in trade, and to give a desolate appearance to the city. But within the last quarter of a century Halifax has made rapid progress, both in population and material wealth. A class of what was then considered commodious steamers, was placed upon the ferry between Halifax and About the year 1839 or 1840 the Cunard line of steamers was established, the Liverpool and Boston boats calling at Halifax on the way to and from Boston. A West India line, plying between Plymouth and the West India Islands, via Halifax, was also started but did not succeed. The Gas company was incorporated about the year 1840; and in 1842 the Gas was first lighted in the city.

About the same year the City act of incorporation was obtained from the legislature, since which time great improvements have been made in the general appearance and public institutions of the city Under the Act of Incorporation the city is divided into six wards each being represented in the City Council by three Aldermen-who with the Mayor and the Recorder, transact all the financial and civi A Stipendiary Magistrate was appointed by the Legislatur in 1865, who is judge in all cases before the Police Court.

In 1847 the Water Company was organized, and introduced a su ply of excellent water from the lakes, some five or six miles in th rear of the city; but these works have since been purchased by the Corporation, and placed under the control of commissioners, appointe

by the city government.

In 1869, 130,000 dols. were expended in laying pipes to connec Spruce Hill Lakes with the city. These lakes being more elevate than the lakes of the previous supply, give the advantage, in addition to a full supply of water for a city of 80,000 inhabitants, of a copie flow of water to the highest part of the citadel, or the most elevate buildings on the peninsula.

Halifax has suffered severely from fire on several occasions; at o time nearly three blocks were consumed, extending from Homs Barrington Street, and covering, what was then and is now, the fine public meetings of the space thus laid bare h Harmonic Hall since been covered with handsome freestone, granite, and brick stru tures, which are not surpassed by any on this continent. Treasurer's Office, with a commodious hotel. Latterly it was known as Hare's Building, and was occupied as shops and offices by persons engaged in various lines of business. After the fire the Government purchased the site, and erected a handsome edifice upon it, which has cost from twenty to thirty thousand pounds, and is expected to cost tain the Custom-house and Post-office.

Of the other public buildings now standing, the old Provincial Building is the chief. It is built of gray freestone, is one hundred and forty feet in length, seventy in width, and forty-two in height. On the ground flat are the offices of the Attorney-General, Receiver-General, Provincial-Secretary, Commissioner of Mines, and Superintendent of Education. On the second flat are the Halls and Committee Rooms of the two houses of the Provincial Parliament, and the Legislative Library. It is a building of fine architectural proportions, but by being placed in an unfavorable locality, is less imposing in appearance than, under other circumstances, it would be.

Besides the Province Building there are the Government House, the Admiralty House, Dalhousie College the Asylum for the Insane in Dartmouth (which has been greatly enlarged), the Wellington Barracks, the Court-house, the City and Provincial Hospital, the Penitentiary, the City Prison, and the City Market, which may be classed as public buildings, and some of them are very attractive and

During the year 1868 the British Government erected a Military Hospital in the Garrison field at a cost of 150,000 dols.

The Poor's Asylum, completed in 1869, is built of brick and granite, at a cost of 260,000 dols. It is situated on the South Common, west of the Provincial Hospital, and is the most imposing edifice in the city. The Blind Asylum, east of the Hospital, is a fine two-storey brick and stone building, now ready for occupation. Its origin is due to the philanthropy of the late William Murdoch, Esq., who bequeathed \$5000 towards the education of the blind in Nova Scotia.

The Halifax Club Building, the Temperance Hall, and the offices of several Banking and Insurance Companies are owned by the respective corporations bearing their names, and represent a very large accumulation of surplus capital. The Bank of Nova Scotia, in Hollis Street, was built in 1856-57, of freestone, and cost upwards of six

Till 1848 or 49 the only Hall for public meetings was the old Mason Hall, which then only contained the front room, where all the is now, the fine public meetings were held which could not get access to churches. The us laid bare h Harmonic Hall was built, and is now used as a stable in connection with Moir & Company's bakery on Grafton Street. Temperance Hall was built by a joint stock company in 1849-50; it was then fully capable of accomodating all that would turn out for lectures, concerts, &c., but it has become too small, and perhaps before another ten years passes may come to the same degradation which has befallen the Harmonic Hall, the idol of certain parties about 1840.

### A. BIDGEWAY & CO., Furniture of all descriptions, oor Hurd's Lane.

The Banking House belonging to the Union Bank was built in 1863, at a cost of about ten thousand pounds. The School in Barrington Street, built in 1864 by the Roman Catholics, and taught by the Christian Brothers, is a substantial brick and granite structure. The Richmond Schoolhouse, erected in 1868, and capable of occommodating 240 pupils; the Morris Street Schoolhouse, built in 1869 at a cost of about 26,000 dols., and having accommodation for 500 pupils; and the School house in Albro Street, erected in 1870, and capable of receiving 600 pupils, are all substantial edifices of brick and stone, erected to supply the increasing demand for school accommotion since the introduction of the Free School system. Some of the private business establishments and warehouses are such as will do credit to any city. Among these may be named the wholesale warehouses of Messrs Kenny, Doull & Miller, Duffus & Co., Power & Co., Burns & Murray, S. Howard & Sou, and many others in Hollis and Granville Streets, and the still more durable and commodious wharf warehouses of Cunard & Co., Collins' (now Seaton's,) and many others, with which the wharves are studded, from Pryor's wharf to the Dockyard, and which are annually filled with merchandise of various sorts, in which an extensive and Jucrative trade is carried on with Great Britain, the United States, British and Foreign West Indies, and the neighboring provinces.

Manufactures of every kind are yet comparatively in their infancy in Halifax. There are in the city and Dartmouth five or six iron foundries and machine shops, in some of which steam engines and other heavy machines are neatly constructed. W. Montgomery & Co. at Freshwater have been awarded the contract for building ten locomotives for the Intercolonial Railway. The machine shops of the Provincial Railway, at Richmond, comprise a number of commodious structures, and give employment to from one hundred to one hundred Besides these there are two or three tobacco factories, two pianoforte factories, several furniture factories, a powder mill, one or two nail factories, sawing and planing mills, sash factories, &c., all of which are doing an extensive business, and yielding a handsome return for capital invested. A sugar refinery has been erected on Granite wharf, and another is in course of erection in Dartmouth. large flour mill has been completed, in connexion with a bakery, occupying from Grafton to Argyle Streets. This bakery establishment is capable of working off one hundred barrels of flour per day.

There are several colleges and academies, and a number of private academies, schools, &c., in the city. The Free School system has lately been inaugurated in the Province, and 5000 children are now attending the Free Public schools in Halifax city.

In the year 1828 there were six newspapers published in Halifax; there are now 14—three daily, three tri-weekly, the six political journals; four are devoted to the interests of religious denominations and one to temperence; besides these, a journal of agriculture, and a journal of education, both monthly, are published under the man-

agement of the Provincial Boards appointed to these two departments.

There are now twenty-three places of worship in the city, including three in the course of erection. Six of these belong to the Presbyterians, five to the Episcopalians, three to the Roman Catholics, four to the Wesleyans, two to the Baptists, one to the Congregationalists, two to the colored population. principally Baptists and Methodists;

they are all generally well filled on each returning Sabbath.

From 1827 to 1830 the middle portion of the Saint Mary's Cathedral was erected, but it has been enlarged and almost romodelled since that time; a massive granite front is now in course of erection which, when completed, will render this by far the most expensive and endurable ecclesiastical structure in the province.

The Halifax Banking Company was organized in 1825, and is consequently the oldest Banking Company in the city. It was followed by the Bank of Nova Scotia and the Bank of British North America. There are now in all seven Commercial Banks, and two or three Savings Banks in the city. There are also Building Societies, four Public Libraries, three Reading Rooms, and several Benevoleut Societies of various descriptions and nationalities (of which the North British Society was the first established).

Since the opening up of railway communication with the interior of the Province, the city has increased rapidly in wealth. Since 1858, railways have been in operation from Halifax to Windsor, on the Bay of Fundy, and from Halifax to Truro, at the head of Cobequid Bay. The latter line is now continued to Pictou Harbor, in the Straits of Northumberland, where it has already attracted a large trade from the Gulf of St. Lawrence, besides bringing the coal mines of Picton county within easy reach of the city. The Windsor line of railroad county within easy reach of the city. has been extended to Annapolis, 120 miles from Halifax. The Intercolonial, European and North American Railroads are being rapidly pushed forward, and before the close of 1871 Halifax will be in uuroken communication with the United States, and with the Upper Provinces before the close of 1872. The discovery of gold in the Province, and the extensive investment of capital and employment of labor in the gold mines, has also to some extent aided the commerce of the city, by providing a new and valuable export with which to pay for goods purchased in Great Britain. For the last few years, the population of the city has been rapidly increasing; and when the projected lines of communication by rail and steamships with neighboring Provinces and the United States are completed, Halifax must come to be one of the foremost cities in population and wealth, as she is already one of the most important in geographical position, on the continent of America.

A. RIDGEWAY & CO., Furniture Dealers and Undertakers, cor Hurd's Lane.

### NOVA SCOTIA AND ITS GOLD MINES.

(REPRINTED FROM DIRECTORY OF 1869-70, WITH ADDITIONAL INFORMATION TO 1871.

BT way of introduction to " McAlpine's Nova Scotia Directory FOR 1868-69," there appeared a " Historical Sketch of Halifax." that brief sketch there is compressed a mass of historical information an array of carefully selected, clearly defined, and important facts, chronologically arranged and tersely expressed, which to the student of history would, without a moment's doubt, be considered worth infinitely more than the price of the Directory as a whole. Many subscribers to that number of the Directory-which is now out of date-still carefully preserve it, or at least the sketch referred to, as a

valuable and unquestionable work of reference.

In the present issue, the Publisher purposes directing the attention of the public in general and his patrons in particular to some of the localities in Nova Scotia which, taking Halifax as the centre point, might be supposed to commend themselves to the interest of the pleasure-seeking tourist, or the shrewd man of business. It is true that very fow of these pages can be afforded to so suggestive a topic. To the connoisseur in beautiful scenery, it may be safely said that Nova Scotia affords, in proportion to its area and facilities of access, a greater and more agreeable diversity than is to be found elsewhere on the continent of America, or perhaps the world. It has no Niagara; but those who have seen the Bay of Funday tide in its glory, will admit that it is not less grand than the world-renowned cataract, whilst it has the charm of uniqueness, and can be observed by the spectator without incurring any desperate adventures. of no such mountains as New Hampshire, Newfoundland, Scotland, Nova Scotia can boast Wales. Switzerland, and other similar resorts of the tourist; but it must be remembered that the charm of mountain, or hill scenery, does not depend upon the number of thousand feet which the spot under consideration may happen to be "above the level of the sea." Keeping this in view, the landscape painter, or the tourist in search of the picturesque, who turns his back upon the hills of Nova Scotia-especially of the Island of Cape Breton-may certainly "go farther and fare

But in picturesque coast scenery, Nova Scotia may boldly challenge the world. Gaspé, Percé and other localities about the lower St. Lawrence, and portions of the coast of the State of Maine, may vie with the Nova Scotian coast; but nothing else on this continent can equal, much less surpass it. But within the scope of this paper, it will be useless to attempt sketching, however briefly, the charming "bits" of scenery on the shores of the Bay of Fundy-more especiA. RII

ally of its Minas and Chiegnecto Arms; the garden-archipelago of Mahone Bay on the Atlantic coast; the still bolder and grander indentation of St. Margaret's Bay; the almost innumerable pictures painted by nature along the Islanded "inner passage," whereby one may "paddle his own canoe" nearly all the way from Halifax to the strait of Canso, regardless of the fuming of the Atlantic, a few thousand yards distant; the beautiful strait of Canso itself; or, possibly more charming than all, the views to be caught from almost every point of the magnificent Bras d'Or and its almost innumerable arms, inlets and outlets. Little do the thousands of people who, from the decks of ocean steamers, every year look out-it may be for days in succession-upon the-to them-low, dim, and uninteresting coast of Nova Scotia, think that a nearer acquaintance with that shore would present them with a continuous picture for hundreds of miles in extent, every view of which would have its special chaim!

Nor can the writer venture to do more than mention the embowered lakes-perfect gems of their class-which dot the Southern section of Nova Scotia, and which must be counted, not by units, but hy hundreds, if not by thousands. The least attractive of them, with its environs, would be worth many thousands of pounds in an English park. There is probably no country in the world, with the exception of the Hudson's Bay Territory, which so abounds in lakes as that section of Nova Scotia fronting upon the Atlantic; but in Nova Scotia, they not only comprise a sort of Paradise to the enthusiastic angler, but they present countless charming pictures to the tourist in search of the picturesque.

Few more attractive views are to be met with than can be seen in the environs of Halifax itself-particularly where they embrace any portion of the waters of the magnificent Chebacto Bay, inclusive of Halifax harhor proper, Bedford Basin, the North West Arm, and the South East Passage; but these views have so often been described that they must be familiar to the most of our readers, even to those who have never seen them with their own eyes. One thing may here be mentioned, however, relative to Halifax. It seems to have been determined to make it the great British military, as well as naval, depot of America. For many years past, immense sums have been expended annually on the fortifications of this place, and, judging from present indications, this is likely still to continue for many years to come. If Halifax is not already, it certainly soon will be, the most strongly fortified place in the world. To enumerate the principal works completed, under construction, or designed: there is, first and most important of all, Fort George, the Citadel of Halifax, which commands, not only the town and all the ground within the city limits, but the harbor, its shores, and all the adjacent country within the utmost range of the heaviest of Armstrong guns. On George's Island, nearly in the middle of the harbour, there is Fort Charotte. For three years past, this work has been undergoing reconstruction in accordance with the requirements of more modern warfare, and is not

### A. RIDGEWAY & CO., Hearse and Mourning Coaches, cor Hurd's Lane.

When completed, the whole island will be one fortress of redoutable character, commanded only by the citadel. posite George's Island, on the Eastern shore of the harbor, is Fort Clarence, more commonly known as the "Eastern Battery." Within the past few years, it has been entirely and most substantially rebuilt; and its guns can rake the whole surface of the harbour, from the Narrows to McNab's Island. Returning to the Western, or city side of the harbor, we find that fronting upon it and just on the very outskirts of the lower, or southern, part of the town, a tract of land has been purchased by the War Department upon which to erect another battery; but it is not commenced. Farther down the shore, about half way between Steel's Pond and Point Pleasant, and upon a comparatively elevated spur of a hill projecting towards the harbor, is Fort Ogilvie. This, like Fort Clarence has been enlarged and entirely and substantially rebuilt within the last few years. Directly in the rear of Fort Ogilvie, but upon more elevated ground, about midway between the harbor and the North West Arm, is the Prince of Wales' Tower, which has also been materially improved of late. A few yards distant south from the tower and at a slightly less elevation than its base, a new battery of a most formidable character has recently been completed, the guns of which will sweep the whole entrance of the harbor, Just below this and directly upon the shore are the Point Pleasant Battery, on the extreme southern point of the peninsula and city of Halifax; and the North West battery, commanding the entrance to the North West Arm. Another large new battery has just been completed, on the extreme north-western point of McNab's Island, farther down the harbour. Again, still further down, but on the western shore, York Redoubt is now been entirely rebuilt and enlarged for a more heavy armament. Mention need only be made of the Martello towers at Mauger's Beach and Sambro Island. It will thus be seen that from these numerous fortifications, a most terrific fire can be concentrated upon any given point of Halifax harbor, or its entrance. The hostile ship which attempts to enter the harbor will have the privilege of "running the gauntlet" in a way which cannot be indulged in anywhere else in the world. On the landward side, nature has provided ample defences for Halifax.

In directing the attention of the reader to those points of interest which may be visited in Nova Scotia, from Halifax as a central point of departure, the writer purposes restricting himself for the present to the Gold Mines of this fine Province. It may here be stated at the outset that the information here offered to the reader as to Gold Mines is mainly extracted from the products of the pen of P S. Hamilton, Esq. as shown in the various published letters in the London Times, Mining Journal, and other periodicals in the United Kingdom, the continent of Europe, the United States, and the Provinces of Canada, which have appeared with his name appended thereto; and from the official reports published by authority, and for which he was account-

able during the time he was Gold Commissioner and Chief Commissioner of Mines for the Province of Nova Scotia.

Well, then, without pretending to offer to the reader a report of a geological survey of Nova Scotia, be it known that the whole Atlantic coast of this Province belongs to a gold-bearing formation. In Nova Scotia, the rocks of the older silurian and auriferous formation embrace the whole Atlantic coast of the Province. At its western extreme, in Shelburne, Yarmouth, and Digby counties, this formation is not less than fifty miles in width; but going eastward it gradually narrows, until at Cape Canso, it comes almost to a point. In the interior of the Province, there is another and a newer geological formation, comprising the highest lands in the country, which is also goldbearing; but it has not as yet proved so productive-although it has not been so much explored—as the already mentioned coast range. Nearly all the gold mines that have been written and talked about are in this same coast range. This auriferous range, on which mining operations have been carried on, is, it is true, not more than three hundred miles in length, by an average width of say thirty miles, and is therefore as a whole, a small gold field compared with California, Columbia, Australia, or New Zealand, which have attracted so much of the world's attention of late years. But on the other hand, when we come to make comparisons of square miles with square miles, we shall find that, in no other country where gold mining operations are carried on, is there so large a proportion of auriferous surface as in the gold regions of Nova Scotia. And-which is still more importantwe find that in no other such country do the auriferous quartz lodes yield so large a per centage of gold as they do in Nova Scotia. So long ago as in 1863, it was shown in the official Annual Report of the Chief Gold Commissioner (Mr. Hamilton) that by carefully comparing the gold mining statistics of the countries above named, and by comparing the amount of gold produced with the labor and expense required to produce it. -which is the only reliable way to exhibit the paying properties of a single mine, or of a mining country,—the gold mines of Nova Scotia were by far the most profitable of any in the world. The operations in 1863 were of a very crude character, and most of the men engaged in mining were mere tyros in the business. Since then by more skilful manipulation and by deeper sinking, the productiveness of the Nova Scotia gold mines has, in comparison with the labor ex pended upon them, increased about three hundred per cout, thus placing them far before any other auriferous quar z mines in the world.

Before proceeding to refer to them more in detail, one or two further more general remarks may be made. Considering the great comparative productiveness of the Nova Scotia mines, the small aggregate results which they annually produce even yet, may surprise and be unexplainable to many a one. In fact, it would seem that the very propinquity of Nova Scotia to the great centres of the more civilized population of the world militates against the activity of mining enterprises here,—so true is it that "distance lends enchantment to the

### A. RIDGEWAY & CO., Coffins and Caskets of all descriptions, oor Hurd's Lane.

Again, when a man from Europe, Canada, or the United States, goes to the Australian colonies, or the Pacific coast, with mining purposes, it often happens that his exhausted means will not permit of his return, and he must therefore per force contribute to the swollen gold returns of the country in which he finds himself. As to Nova Scotia, his entrance and his exit are always easy and inexpensive. One other fact may here be mentioned incidentally. mining is an exciting business, and gold miners are an excitable peo-For example, a thousand men may be mining, with well established facilities for doing so, and with good profits, in a certain dis-A rumor reaches them that a rich vein has been struck by somebody, it may be in some wilderness, in some remote part of the Province. Upon this mere rumor, our well-doing miners, or a great part of them, are straightway off "on the wings of the wind," to battle with new difficulties in this new Dorado. Many of them probably find, of think they find, that their imaginations have deluded them, and return to their first love, or go farther in search of newer and richer gold fields. Thus there is an almost constant fluctuation in the actual productiveness of any given gold district, and a perpetual surging of the mining population from one such district to another. This same fact is notorious in all gold mining countries; and it often puzzles the uninitiated in their efforts to ascertain the relative value of gold

We will now give some brief account of the several districts of the Province, seriatim, proceeding from west to east. The most western point at which gold has been found is at Cranberry Head, the very western extreme of Nova Scotia. Its show of gold was not discouraging; but little has ever been done there in the way of mining.

Although gold has been discovered at several intermediate points, the next place where mining has been carried on is The Ovens, at the mouth of Luenburg harbor, and directly upon the sea shore, district is so called from a series of oven like caverns in the face of the seaward cliff; and it may be reached from Halifax, either by four or five hours' steaming, or a day's stage-coaching. This was among the earliest gold discoveries in Nova Scotia. So long ago as 1 62, a great concourse of people hurried to the spot, and a compact and not unsubstantial village of no mean extent immediately sprang up there. It embraced numerous hotels, shops and dwellings, but lacked the one essential edifice of a quartz crusher. In fact, it was at first supposed that the wealth of the Ovens district consisted in the sands of its shores; and when these ceased to be productive to the washer, the village collapsed. Mining has been recently recommenced here, with vigor and with fair prospects. Here, unlike most other districts, the auriferous veins are very narrow, although extremely numerous, and ramified throughout the enclosing rock.

Waverly is situated in and on both sides of the Shubenacadie valley, nearly due north from Halifax, whence it may be approached, via Dartmouth, by a charming drive of ten miles. The distance by rail-

way is a little greater. This district, like all others in the Province, and as shown above, has had its fluctuations. On the first discovery of gold there, there was a great rush to the hills of Waverly, then an years took the lead of all others. The mines of this district for down to the present time, produced the largest aggregate yield of gold of any in Nova Scotia, and have built up in their midst a picturesque little village, bathed by two connecting lakes, embosomed in green hills and dotted with pretty islets.

Proceeding northwardly from Waverley, by the main line of railway, for about ten miles, we reach Enfield Station, whence a road leads, on the one hand, eastward about three miles, to the heart of the Cldham Gold District; and, on the other hand, north-westward six miles, into that of Renfrew. Coaches ply between each of them and the Station, on the arrival of every train. In Oldham, as in most other mining districts of this Province, the discovery of gold was, in the first instance, accidental, being made, in this case, by a party of men who were out sporting among the poplar hills, barrens, and wild meadows of that vicinity. Mining was immediately commenced and for some time prosecuted with vigor; during this early period a small quantity of quartz was crushed which produced no less than one hundred ounces of gold to the ton. Then attention was drawn away from Oldham by brilliant accounts from other parts of the Province, and, for a time, it remained under a cloud. There has since been a revival there, however, and during the last two years the returns from this district as a whole have been more satisfactory than during any former period. It now comprises all the facilities for mining and crushing at a cheap rate.

Ground was first broken, with mining intent, in Renfrew, in the midst of a piece of heavily timbered forest which, however, is fast disappearing and exposing most literally the nakedness of the land. But beneath that rocky surface lies untold of wealth; and the wealth of the district requires only to be dug for or sought after to be found. From the very first discovery made in this district, Renfrew has continued to prosper-not, however, without the customary fluctuations, although it has not suffered from them in a marked degree. Even in this case, the writer may, as an illustration of these "customary fluctuations," mention this fact.-In 1865, Renfrew, one of the oldest districts in the Province, ranked as a gold producer the lowest among them all with one exception, which did not admit of a fair comparison. The Renfrew mines were by most persons declared to be "played out." But the product of the district for 1867 was nearly twelve times that of 1865, and placed it at the very head of the list; whilst in 1868, the official returns show that only one other district has produced a larger yield of gold!

Still farther down the railway to Shubenacadie Station, and across country eastward about six miles on a good common road, we may reach Gay's River Gold District. Here mining operations have, as

Returning by railway from Halifax, or say to the Windsor junction only, we may take the Windsor Branch line and follow it northward to Mount Uniacke Station, twenty six miles from Halifax and nineteen from Windsor. Here an express is ready on the arrival of every train to take the passengers to the centre of the Uniacke Gold District, three miles distant to the westward. Gold was first discovered here in 1866; bnt it was late in the season before any productive workings were opened. Still the prospects were so exceedingly promising that within three months after the discovery, there was already more ground under lease and license at Uniacke than in any other district in the Province. The result has fully justified the popular opinion. acke, although the youngest tried field in the Province, has proved to be one of the richest of them all. In fact some of the individual mines there have excelled all others yet worked. Somewhat within two years from the time gold was first discovered there in the midst of a heavily timbered forest, the visitor might see a bustling village, with its five effective steam quartz mills, public hall, well filled school, with the usual proportion of shops, inns, and dwellings-all rough indeed, but tidy and comfortable.

Return we now again to Halifax and, by coach, take the eastern shore road through Dartmouth. At six miles distant from town, we have the *Montague* mines on our left. This district has great advantages of situation; it offers good facilities for mining; its returns, although not so great as from some other mines, have been singularly equable from the very beginning and always such as would pay the proprietor well; yet from some cause, or another, certainly not attributable to the place itself, there is occasionally a collapse at the Montague mines.

A few miles further brings us to the Lawrencetown, on our right. The principal works here, thus far, are near the head of tidewater. This district, like Montague, already mentioned, and Tangier, of which hereafter, has been very unfortunate. Although each of the three has furnished good, nay handsome returns whenever work really has been done upon it in good faith; yet disputes and hitgation among proprietors, or the detected efforts of speculators, who have sought to inflate in order to deceive those whom they have intended to make purchasers, or the faet of much of the ground falling into the hands of men who had not means to work it—or rather all these together, have too frequently caused a suspension of work in these districts, and temporarily blasted their genutation.

Following the same road, which, by the bye affords an almost continuous series of beautiful sea-side views, for fifty-six miles from Hali-

fax, we find ourselves at Tangier, the oldest proclaimed Gold District in the Province. The chequered history of this district has already been referred to. Yet there is not the shadow of a doubt of what thousands have had personal evidence, i. e., that it is one of the richest gold districts in the country. In the northern part of this district, and about nine miles back from the shore, is the spot where gold was first discovered in Nova Scotia, in the Spring of 1860. Large quantities have since been extracted from the vicinity of the same spot.

To reach the more notable gold-bearing districts farther east, in the vicinity of the St. Mary's River and Country Harbor, it will be necessary to return again to Halifax. During the excitement of 1862, the second year of the history of these mining districts, two steamers plied twice a week each, between Halifax, The Ovens, Tangier, and St. Mary's; but they were not long in killing each other. If the passenger now wishes to make the water trip between any of these points, he must be content with a packet schooner. There are several land routes to the places last named; but the most generally approved just now is this: Take the railway train from Halifax to New Glasgow; thence a stage-coach proceeds by the most direct route to Sherbrooke and Wine Harbor. The former lies on both sides of the St. Mary's, twelve miles from its mouth and at the head of Navigation. Wine Harbor is just eastward of its mouth. This beautiful river, St. Mary's, is the largest in Nova Scotia, although, owing to its tides, the Shubenacadie is navigable to a greater distance. Stormont, can only be reached by private conveyance, striking off from the St. Mary's and

Sherbrooke mines lie around the beautiful village of the same name; but the principal works are upon the opposite, or western side of the river, and at about a mile and a half distant. The first discovery of gold, both here and at Wine Harbor, was made in the summer of 1861. During the remainder of that, and all of the following year, there used to be, about every month or two, a pretty general migration of miners back and forth between these two districts, according to the discouraging incidents, or brilliant prospects, which the superficial workings of each were supposed, from time to time, to exhibit. At length experience and deeper sinking taught these people that both were rich enough to make fortunes out of. Since about the close of 1863, Sherbrooke has continually improved as a gold producing district, until we find that at the close of the year, 1868, it was at the very top of the list. Works here to are carried on upon a more extensive scale than elsewhere, there being no less than ter quartz crushers in the district. There too are to be found the richest individual mines that have yet been discovered in Nova Scotia, except in Uniacke district.

Reference has already been made to Wine Harbor, bounding upon St. Mary's river on the east. For years there was a contest between this district and Sherbrooke, for the credit of producing the greatest quantity of gold, annually. Sometimes one, sometimes the other, was either the first or the second on the list. Of late Wine Harbor has

#### A. RIDGEWAY & 00., Furniture of all Descriptions, oor Hurd's Lane.

been distanced. This may be owing in a great degree to the fact that, for some years past a number of the proprietors have almost concentrated their efforts upon a large work which was not expected to be productive in itself; but which it is hoped will lead to important future results. That is, starting from near the water's edge, near highwater mark, there is a tunnel across the metals right into a lofty hill, thus providing for drainage, and cross-cutting all the quartz lodes previously sought for from the surface.

The shores of Isaac's Harbor, are the only part of Stormont district where much mining has ever been done. This place has never been so much the rage as some of the others named above, probably owing to its comparative inaccessibility; but a fair, profitable business in gold mining has been done there, from 1861, down to the present time.

The above named localities comprise all the best known and thoroughly tested Gold Districts of Nova Scotia. There are others which have not been so thoroughly tested and some of which are far from being easy of access as yet. Among the more notable of this class, mention may be made of Gold River, at the head of Mahone Bay, in Lunenburg County; Ekum-Sekum and Salmon River, on the Atlantic coast, eastward of Tangier; the rear of Upper Musquodoboit; the south Branch of Stewiacke; Killag and Fifteen Mile Stream, brances of the Sheet Harbor Rivers; Scraggy Lake; Canso; River Denys, in Inverness County; and Wagamatkook, in Victoria County. Doubtless there are many others yet to be discovered. Of the increasingly profitable character of Gold mining in Nova Scotia, there cannot be a doubt. One simple fact alone will settle this beyond all question. The first year when complete statistical returns were made up and published was 1863. The gold product of that year was equivalent to two hundred and ninety six dollars-\$296, per annum for every man employed in and about the mines. This proportion has gone on steadily increasing until, in 1867, it had attained the sum of seven hundred and sixty-five dollars, \$765, per man. 1868 shows some falling off in this respect owing to the number of miners, who, with that restlessness which is characteristic of them. left the older mines to make more rapid fortunes in some of the many

At the entrance to the Moseum in the New Provincial Building, there is a gilded Pyramid which was constructed for the Paris Exhibition of 1867 by P. S. Hamilton. Esq., then Commissioner of mines, intended to represent the whole quantity of gold extracted from the various mines of the Province from 1862 to 1866. The Pyramid is six feet high. Dr. Honneyman raised it upon a cube 16 inches, to represent the quantity from September, 1366, to 1868, and subsequently an addition of the same, a base of 15 inches added, to represent the quantity extracted from September, 1868, to January 1870.

The Representation will at once convey to the popular eye the extent of the volume of gold extracted; but the following extract from the

Report of the Hon. R. Robertson, Commissioner of mines, under date the 10th January, 1871, gives the official Statistics on the subject, and may, therefore be relied upon.

In a review of the gold mining for the year we find that Stormont, Wine Harbor and Sherbrooke, have each returned more gold than in the year 1869; and Tangier, Oldham and Montagu, more than in any year previous. The other districts show a dilling off. The increase in the whole over that of 1869 is 1998.04.11. There has not been that improvement in the appliances for amalgamating that I expected; in fact there has been no improvement. The flowered mercury, sulphites and pyrites, are all allowed to escape with the tailings, with whatever amount of gold they may happen to carry; and while this is the case gold mining cannot be carried on in any but the richest places. Every penny weight saved, and every dollar of expense reduced per ton, in mining and reducing, largely increases the breadth of ground that can be worked; and that this breadth will be increased here, as well as in Australia and other places, cannot be doubted, when we see the amount that has been obtained, and the yield per ton, namely, 230,460 tons, yielding 177,549.00.19, being within a fraction of 15 dwts. per ton, and at \$19 per ounce, amounts to \$3,373,431. Since the abrogation of the Reciprocity Treaty and especially within the past four years Halifax has made rapid progress in manufactories. Four carriage factories, four large boot and shoe factories, which employ a large number of men. The manufacture of furniture has called into operation A. Stephen & Son's establishment at Ellerhouse, in the County of Hants. Stephen and Son have their extensive warehouse in the old Saint Andrews Church, in Barrington street, which has been handsomly refitted for the purpose.

Barrack street which but a few years ago had only a collection of old wooden buildings, the resort of the depraved, within the past year has undergone a rapid change. A handsome brick church was built as a Mission Church by Edward Jost Esq., at his own expense. Then the Halifax Corporation's Fire Engine Company's building, a very fine structure with tower. This building has been followed by Taylor's

A. RIDGEWAY & CO., Furniture Dealers and Undertakers, cor Hurd's Lane.

boot and shoe factory. In a few years this street bids fair to become one of the fluest in the city.

The extension of Barrington street on the south, and Lockman street on the north and south is an improvement which reflects credit on the public spirit of citizens, if it was only straght. The old wooden erections on the Jacob's property which so long stood as an eyesore, have all been replaced by modern structures. Barrington street is sharing in the general improvements, Stephen & Son, and Gordon & Keith's furniture warehouses are now in the course of being finished, with many other improvements now in progress in that street, makes it appear that at no distant day this will be the first street in the city for the retail trade.

The census returns for the present year have not been officially published. It has been rumoured that Halifax population is not yet thirty thousand. If such be the case the city has not made much increase in population since 1861, as it then numbered about 26,000. A large number of new houses are in the course of construction, and the suburbs are rapidly filling up with delightful country residences.

# K. FERGUSON, Commission Merchant

No. 87 Upper Water Street, Head of Commercial Wharf,

Tenders his sincere thanks to his friends and customers for their liberal patronage during the six years he conducted the Auction Business in Halifax, N. S., and begs to inform them that he now occupies the commodious premises above named, expressly fitted up for the Auction and Commission business with Shelving, Counters, Tables, &c., &c., where he is prepared to receive Consignments and make Sales of every description of Merchandize.

Liberal arrangements made with persons having large lots of Merchandize to dispose of at Day or Evening Sales.

OUT-DOOR SALES ATTENDED TO WITH PROMPTNESS.
RETURNS PROMPTLY MADE.

HALIFAX. N. S.

Are now making superb Cottage Pianos, Seven Octaves, with Metallic Frames and Plates.

The manufacturers confidently recommend these as SUPERIOR INSTRUMENTS, being made of the very best materials, and put together on a new principle, which makes it impossible for them to give out in any way. They are fitted with the latest and most expensive French Double Check Action, and combine richness and power in tone with elegance in design and finish.

Persons residing out of Halifax can rely upon their orders receiving the most careful attention.

## NORTH END BAKERY & CONFECTIONERY,

39 BRUNSWICK STREET, 39

OPPOSITE GARRISON CHURCH,

HALIFAX, N. S.

#### FRANCIS M. PHELAN, PROPRIETOR,

Keeps constantly on hand a large supply of Pastry and Confectionery of the best description, either at Wholesale or Retail.

All kinds of Fruits in season. He also puts up Jams and Jellies of the most approved kinds. He also is prepared to supply Blanc Manges, Ratafias and Ice Creams at any or all seasons of the year. Wedding Cakes made up in the best style and at the shortest notice. Pic-Nic Parties supplied on the most reasonable terms. Dinner and Supper Parties attended to at the least remunerative profits. And as to the Baker'y Department it is too well known to render it necessary to make any remarks,—suffice it too say it defies competition.

67,000 dols. deposited at Ottawa for the benefit of Canadian Policyholders.

This Company transacts every description of Life Insurance on favorable terms.

Policies issued on the limited payment and Endowment Plans; and one half the Premium loaned at 5 per cent. per annum.

A special reduced Table of Premiums, applicable to Clergymen, has been adopted, copies of which can be had on application.

## The Acadia Coal Company

### NOVA SCOTIA.

The undersigned is prepared to contract for the sale of the above Company's superior

### STEAM, MANUFACTURING AND HOUSE COALS,

deliverable free on board vessel, at the Company's wharf, in Pictou Harbor, or at any Station on the Nova Scotia and Windsor and Annapolis Railways.

The Acadia Steam Coal is durable, free from Sulphur, makes no Clinker, and is not injurious to fire surfaces.

The House Coal burns with a bright flame, makes no soot, and but little ash, is entirely free from sulphur, and does not throw off unhealthy fumes while burning. Especially adapted for Cooking Stoves and Ranges, and can be used for broiling and toasting instead of charcoal.

Post Office Address,

### JESSE HOYT.

GENERAL AGENT.

STELLARTON,

PICTOU COUNTY, NOVA SCOTIA.

n Sulphur, surfaces.

makes no sulphur,

burning, nges, and charcoal.

N,

COTIA.

The wharf—900 feet long—extends to the channel, with 22 feet of water at low tide. It is near the mouth of the harbor and easily approached without the aid of a pilot or steam-tug. Ballast can be discharged at the wharf.

### ARTIFICIAL TEETH.

Entire, or parts of Sets, Plain Gum, Single, or Block Teeth, on Gold, Silver, or Vulcanite.

TEETH FILLED with Gold, Amalgam, or White Fillings.

TEETH REMOVED with or without Nitrous Oxide Gas, a safe and reliable agent, having been administered in this Office to over 2000 patients.

### SPECIAL NOTICE.

Many persons are constantly calling and desiring Dental operations at a reduced price, who actually require the services of a Dentist, but whose pecuniary circumstances will not permit their paying the usual fees for first class work. In order to Dental operations done at my Office, at the following cheap rates. In so doing, I desire to give every Patient satisfaction; and although the work at these prices will be done by the Students, every case shall be carefully looked after. Parties so desiring cheap work, will please state the fact when making engagements, and on completion of work the Cash will be required for services rendered.

FILLINGS from 50 cents to 1 dol. 50 cents.

SETS and PARTS of SETS, on Vulcanite, from 3 to 20 dols.

No Charge for removal of Teeth preparatory to inserting Sets.

Gratis for the Poor every day from 9 A. M. to 10, except Sundays; also for the Orphan's Home, Industrial Schools, Deaf and Dumb Institute, and all inmates of such Institutions, gratis as usual.

## APPENDIX.

## THE ROYAL FAMILY.

HER MOST EXCELLENT MAJESTY (ALEXANDRIA) VICTORIA, by the grace of God of the United Kingdom of Great Britain and Ireland, and of the colonies and dependencies thereof in Europe, Asia, Africa, America, and Australia, Queen, Defender of the Faith. Her Majesty was born at Kensington Palace, May 24, 1819; succeeded to the throne June 20, 1837, on the death of her uncle, King William IV.; was crowned June 28, 1838; and married Feb. 10, 1840, to His Royal Highness Prince Albert. Her Majesty is the only child of his late Royal Highness Edward Dake of Kent, son of King George III. The children of Her Majesty are:

Her Royal Highness Victoria Adelaide Mary Louisa, PRINCESS ROYAL OF ENGLAND AND PRUPSIA, born November 21, 1840, and married to His Royal Highness Frederick William of Prussia, January 25, 1858, and has issue four sons

His Noval Highness Albert-Edward Prince of Wales, born November 9, 1841; married March 10, 1863, Alexandra of Denmark (Princess of Wales), born Decemher 1, 1844, and has issue two sons and three daughters: Prince Albert-Victor-Christian Edward, born Jan. 8, 1864; Prince George-Frederick Earnest-Albert, born, June 3, 1865; Princess Louise-Victoria Alexandra Dagmar, born Feb. 20, 1867; Princess Victoria Alexandra Olga-Mary, born July 6, 1868; and Princess Mand-Charlotte-Mary-Victoria, born November 26, 1869.

Her Royal Highness Alice Maud Mary, born April 25, 1843; married to H.R.H. Prince Frederick-Louis of Hesse, July 1, 1862; and has issue one son and three daughters.

His Royal Highness Alfred-Earnest-Albert, Duke of Edinburgh, born August 6, 1844.

Her Royal Highness Helena-Augusta-Victoria, born May 25, 1846; married July 5, 1866, Prince Frederick Christian of Schleswig-Holstein, and has issue two

H.R.R. Louisa-Alberta, born March 18, 1848; married March 21, 1871, Marquis His Royal Highness Arthur-William-Patrick-Albert, born May 1, 1850.

His Royal Highness Leopold-George-Duncan-Albert, born April 7, 1853. Her Royal Highness Beatrice-Mary-Victoria Feodore, born April 14, 1857.

George Frederick William-Charles, K. G., DUKE OF CAMBRIDGE, cousin to Her Majesty, born March 26, 1819;

Augusta-Wilhelmina-Louisa, Duchess of Cambridge, neice of the Landgrave of Hesse and aunt to Her Majesty; born July 25, 1790; married in 1819, the late

George-Frederick Alexande-Charles-Earnest-Augustus, K.G., DUKE OF CUM-BERLAND, EX KING OF HANOVER, cousin to Her Majesty; born May 27, 1819; married Princess Frederica of Mccklenburg Strelitz, and has issue a son and two

Augusta Caroline Charlotte Elizabeth Mary Sophia Louisa, daughter of the late Duke of Cambridge, and cousin to Her Majesty; born July 19, 1822; married June

28, 1843, to Frederick Grand Duke of Mecklenburg Strelitz, and has a son. Mary-Adelaide-Wilhelmina-Elizabeth, daughter of the late Duke of Cambridge, and cousin to Her Majesty; born November 27, 1833; married June 12, 1866, Francis Paul, Prince of Teck, and has issue one son and one daughter. Leopold II., KING OF THE BELGIANS, maternal cousin of the Queen, born

April 9, 1835.

Superior Electro and Albata Plate, best value, &c., at M. S. BROWN & CO.'S, 108 Granville.

## DEPARTMENT OF ARMY AND MILITIA.

## Province of Nova Scotia, Ninth Military District.

The Province of Nova Scotia is divided into 19 Regimental Divisions, comprised within three Brigade Divisions—the boundaries of such Regimental Divisions are identical with the Electoral Divisions into which the Province is divided, with the following exception, viz: the City of Halifax and County of Halifax, each to form one Regimental Division. First Brigade Division consists of Ragimental Division of the city or Halifax and counties of Halifax, Hants, Colchester, Cumberland, Pictou, Antigonish, and Guysborough. Second Brigade Division consists of the Regimental Division's of King's, Annapolis, Digby, Yarmouth, Shelburne and Lunenburg. Third Brigade Division consists of the Regimental Divisions of Inverness, Victoria, Richmond, and Cape Breton.

Mails for the UNITED KINGDOM via the United States are made up to meet steamers leaving New York for Liverpool. Letters to be especially addressed "via New York." Letters 8 cents, newspapers 2 cents. Must be prepaid.

Mails for Newfoundland are made up once a month, in December, January, February, and March, and fortnightly in the other months, closing finally on Friday 10 a. m. of the week the steamer is due from New York. Letters 124 cents, newspapers 2 cents. Must be prepaid. Mails for Sr PIERRE and MIQUELON are forwarded via Sydney in summer; in winter are despatched from Halifax by French sailing packet fortnightly. Letters 121 cents, newspapers 2 cents. Must be prepaid.

Mails for BERMUDA and the BRITISH AND FOREIGN WEST INDIA ISLANDS are closed monthly, upon the arrival of every mail steamer from New York. Let-

ters 121 cents, newspapers 2 cents. Must be prepaid.

Mails for the United States by Allan steamers are made up every alternate week, upon the arrival of the steamers from England, closing half an hour previous to sailing for New York. Letters 6 cents. Letters weighing more than 1 oz, but under 11 oz, will be charged three rates of postage instead of four as formerly; but if exceeding 2 oz, but under 2 oz, five rates instead of six, and so on, adding one rate for every additional i oz. Newspapers 2 cents. Must be prepaid.

Mails for United States are made up daily via Amherst per steamer Carlotta for Portland once a week, and via Windsor and St. John per Empress twice a week during summer months, and by Boston and colonial steamers direct to Boston once a week. Mails for Ontario and Quebec are also sent by each of these routes except

the latter.

Gold and Silver Watches, Wholesale and Retail, at M. S. BROWN & CO.'S, 108 Granville.

Official letters addressed to the Provincial and Military Departments are exempt from prepayment.

Registered letters for the Provincial Public Department and the Military Departments, addressed to Halifax, can be sent without prepayment of postage or

REGISTRATION.—Letters for registry must be posted half an hour previous to the closing of the mail by which they are to be sent. The postage as well as the registration fee must be prepaid. The registration of a letter addressed to any place in Nova Scotia or the Dominion is 2 cents, to the United States 5 cents, to the United Kingdom 8 cents, to Australia and all other places, when passing through the United Kingdom, 25 cents. No registered letters forwarded between two way

Registration is applicable to all descriptions of letters and parcels, whether they contain articles of value or not. Registration is not an absolute guarantee against the mis-carriage or loss of a letter; but a registered letter can be traced when one the insecuring our loss of a letter, out a registered letter van be proven. A registered letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an un-registered letter. "Moreover the safety of an unregistered letter is dependent on the integrity of a post-office clerk during the whole time it remains in his custody, requently or hours, and even days; whilst a registered letter will almost in-frequently for hours, and even days; whilst a registered letter will almost in-yariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal." "If the consequences were limited to the mere risk of the loss of the money so sent, the senders of money in unregistered letters might reasonably urge, that if they choose to encounter the risk they should be free to do so; but higher considerations are involved in the question, and the chance of loss to the careless remitter is really but the smallest part of the evil associated with the practice." The attentive pernsal of the above remarks by those who are in the habit of sending money by mail in unregistered letter is stongly recommended, and it is further suggested that letters containing money should invariably be secured with wax, and not by the usual method, by mucilage, or self-scaling

Letters prepaid by stamp dropped into the box during the night, and up to 4 a.m., will be forwarded by the mails dispatched the same morning.

Tri-daily mail to and from Dartmouth, postage 3 cents. If unpaid, 5 cents. All letters are charged by weight, irrespective of distance, and a uniform rate of postage of 3 cents per i oz. has been established throughout the Dominion of Canada. The rates of postage mentioned all refer to a single letter. It it exceeds the 1 oz. it is charged double, and so on, according to weight. Ship letters, 5 cents.

## Principal Rates of Postage.

LETTERS.—On letters passing between any two places within the Dominion of Canada, a uniform rate (irrespective of distance) of 3 cents per } oz., if prepaid;

On letters between any place in the Dominion and any place in the United 6 cents per 1 oz., if prepaid;

10 cents do., if posted unpaid. On letters to or from the United Kingdom, in mails by Canada packets, to or from Quebec in summer, or Portland in winter; or by mail packet to or from Hali-

On letters to Prince Edward Island, if prepaid, 3 cents per 1 oz.; if posted unpaid, 5 cents per boz.

When the above rates are not paid in advance, by either the publisher at the office of posting, or by the subscriber at the office of delivery, the papers are to be

Canadian newspapers, addressed from the office of publication to subscribers in Canadana newspapers, addressed from the onice of publication to subscribers in the United Kingdom, the United States, Prince Edward Island, Bermuda, or Newfoundland, may be forwarded, on prepayment at the office in Canada where costed, at the above commuted rates, applicable to such papers within the

Publishers of newspapers in Canada may post such numbers of their papers addressed to parties within the Dominion who are not subscribers at a rate of one-half

Exchange papers passing between publishers in Canada, and between publishers in Canada and publishers in the United States, Prince Edward Island, Bermuda, and Newfoundland, are to pass free—one copy of each paper to each publisher.

Transient newspapers include all newspapers posted in Canada, other than Cana-Transient newspapers meriode an newspapers posted in Canada, other man Canada newspapers sent from the office of publication; and when addressed to any place within the Dominion, to the United Kingdom, to the United States, Prince Education of New York and New York. within the Dominion, to the Onited Ringdom, to the Onited States, 1 times ward Island, Bermuda, or Newfoundland, must be prepaid two cents each by post-

Newspapers coming into Canada will be subject to the following charges on delivery :-

If from the United Kingdom, by mail packet to Quebec, Halifax, or Portland, free on delivery.

By mails via the United States (New York), two cents each.

If from the United States, and posted by a publisher, one cent each. Transient papers two cents each, to be rated at the Canada frontier or exchange office receiv-

If from Prince Edward Island, Bermuda, or Newfoundland, when received by regular subscribers in Canada from the office of publication, the ordinary commuted rates applicable to Canada newspapers. Transient papers, two cents each.

The Canada postage rates on newspapers coming from or going to the United Kingdom and the United States will thus be the same as those charged in the United Kingdom and in the United States on newspapers there received from or sent to Canada.

Canada newsagents may post to regular subscribers in Canada British newspapers free, and the United States newspapers unpaid; such papers, in the latter case, must be duly rated two cents each for collection on delivery.

Books.—Book-packets can be forwarded by post from Canada to the United Kingdom, Bermuda, and British West Indies, and vice versa, at the following

By mail steam packets sailing from Halifax and Portland-For each packet weighing not more than 4 oz., 1 rate, 7 cents. Above 4 oz. and not exceeding 8 oz., 2 rates, 121 cents.

Superior Electro and Albata Plate, best value, &c., at M. S. BROWN & CO.'S, 108 Granville.

Above 8 oz. and not exceeding 12 oz., 3 rates, 19 cents. Above 12 oz. and not exceeding 1 lb., 4 rates, 25 cents. And so on, adding one rate of postage for every 4 oz.

Every book-packet must be without a cover, or in a cover open at both ends. It must not contain any writing whatever.

It must not contain any writing whatever.
It must not exceed 4 lbs. in weight, nor the size exceed 2 feet in length, or 1 foot in width or depth.

Must be prepaid by stamps.

PRINTED PAPERS, CIRCULARS, PRICES CURRENT, HAND BILLS, BOOKS, PAMPILETS.—The rate on printed matter of this description posted in Canada, and addressed to any place in Canada, Prince Edward Island, Newfoundland, or United States, will be one cent per ounce, to be prepaid by postage stamp; and a like rate will be payable on delivery when received from the United States, Prince Edward Island or Newfoundland.

PERIODICAL PURLICATIONS.—When posted in Canada for any place in Canada, Prince Edward Island, Nowfoundhand, or United States, the rate will be one cent per four ounces, to be prepaid by stamp.

A like rate will be payable on delivery in Canada, when received from the United States, Prince Edward Island, or Newfoundland.

Periodicals weighing less than one ounce per number, when posted in Canada for any place within the Dominion, Prince Edward Island, Newfoundland, or the United States, may, when put up singly, pass for one-half cent per number, to be prepaid by postage stamp.

As the postage rates on periodicals, other than newspapers, will be payable in advance, and as certain classes of such periodicals, printed and published in Canada, and sent from the office of publication to regular subscribers, have for some time past been exempted from postage, when exclusively devoted to the education of youth to temperance, agriculture, and science, or for other reasons; it has been ordered that all such special exemptions and privileges shall cease.

#### PARCEL POST.

The rate on parcel post, will be 12½ cents per 8 oz. that is to say:—On a parcel not exceeding 8 oz., 12½ cents. Over 8oz., and not exceeding 1 lb., 25 cents. Over 1 lb., and not exceeding 24 oz., 37½ cents. And so on to the limit of three pounds.

## BOOK AND NEWSPAPER MANUSCRIPT, AND OTHER MISCELLANEOUS MATTER.

On book and newspaper manuscript (meaning written articles intended for insertion in a newspaper or periodical), and addressed to the editor or publisher thereof, for insertion, printer's proof-sheet, whether corrected or not, maps, prints, drawings, engravings, music, whether printed or written, packages of seeds, cuttings, roots, scions or grafts, and botanical specimens, the rate will be one cent per ounce, when posted for any place in Canadaor the United States, and prepaid by postage stamp.

#### POSTAGE STAMPS.

To enable the public to prepay conveniently by postage stamps the foregoing rates, the following denominations of postage stamps for use throughout the Dominion have been prepared, and will be supplied to postmasters for sale:—

#### Explanation of Signals

Made at the Ship Staff at Citadel Hill, when Versels are seen from the Citadel or reported from an Outpost.

For I Square Rigged Vessel, 2 balls close up, one on the outer halliard and one on the inner halliard.

" 2 Do, 1 ball hoisted on the outer halliard, and 1 close up on inner halliard.

3 Do, 2 balls close up, one out and one in.

4 Do, 2 balls separated, and one close up on the inner halliard.

5 Do, a pendant of any colour on the outer halliard, and one ball close up

6 Do, a pendant under a ball close up on the outer halliard, and a ball at the

inner halliard close up.

7 Do, a pendant over a ball close up on the outer halliard, and a ball close up on the inner halliard.

#### J. R. JENNETT & CO., Newest Designs & Patterns at our Establishment, 154 Granville.

" 8 Do, a pendant under two balls close up on the outer halliard, with a ball close up on the inner halliard.

" 9 Do, a pendant between two balls close up on the outer halliard, with a ball close up on the inner halliard.

" 10 Do, a flag of any colour close up on the outer halliard, with a ball close up on the inner halliard.

The above balls, &c., are hoisted on the east or west yard arm, according to the quarter the vessel first appears in.

When Sailing Vessels are reported from an Outpost, the following signals are made on the lower yard, now used exclusively for sailing vessels, as repeats:

For a Square Rigged Vessel, two balls of a size, one at the outer, the other at the inner halliard, close up.

A Ship, a large ball at the end of the yard, with a small one at inner halliard. A Barque, a large do. at the end, with a small one dropped at inner halliard. A Brig, a small ball at the end of the yard, and a large one at inner halliard. A Brigantine, a cross close up at the outer halliard. Two or more do., a cross half hoisted.

A Topsail Schooner, a cross close up at the inner halliard.

The upper yard of the Ship Staff is used solely to designate Steam Vessels,

Two large balls close up, one at the outer and the other at inner halliard. E or W, a steamer reported in that quarter.

A small ball at the outer, and a large one at the inner halliard, a second class Packet or Merchant Steamer.

A large ball at the outer, and a small one at the inner halliard, a Man-of-War Steamer, or Royal Mail Steamer, or large Merchant Steamer Two lanterns, one red and the other white, are hoisted at night to denote a

Steamer reported.

The red lantern is always shown at the end of the yard arm, and the white one at the inner halliard, E or W, according to the quarter the Steamer is reported in.

Numbers are indicated the same as on the lower yard.

When the description of vessel is ascertained, the following descriptive colours will be hoisted at the masthead :-

A Union Jack—a Flag Ship. Man-of-War Screw Steamer, a white pendent with a blue ball in the centre, over the Union Jack.

Man-of-War Paddle Steamer, a white pendant with a blue ball in the centre, under the Union Jack.

A redFlag pierced white, Royal Mail Packet from England.

A blue and red Flag crossed white, do from Boston A white and blue Pendent, do from St John's, Nild

A white and red Pendant, do from Bermuda A blue Pendant-a Ship

A blue and white Pendant-a Barque

A red Pendant—a Brig

A red and white Pendant-a Brigantine

A white Pendant-a Sloop or Schooner

A blue and white Flag horizontally divided—a Foreign or Neutral Fleet A white and blue Flag vertically divided—a Foreign or Neutral Man-of-War

A blue Flag-a Foreign or Neutral Merchantman

A red Flag-an Enemy's Merchantman

A red, white and blue Flag, red next the mast-Enemy's Fleet

A blue, red and white Flag, red next the mast, under Steamer's signal, a French Man-of-War

American Flag (Stars and Stripes) under Steamer's signal, American Manof-War

When an English Packet arrives between evening and morning gun-fire, a red triangular flag will be kept flying at the mast head from seven till eight o'clock
