### An Era In Sunday-School Music. "Spiritual Songs for the Sunday School."

BY Rev. CHAS. S. ROBINSON, D.D.,

Author of "Songs for the Sanctuasy," etc. Send 25 cents to Scribner & Co., 743 Broad way, New-York, for a specimen copy of this new Sunday-school hymn and tune book, containing 200 quarto pages, beautifully bound in red cloth with cover linings. Issued in July last; second edition (90,000) now ready. It has been said of it that "It marks the high tide of reaction from the Mother Goose era of Sunday-school hymnology."

THE "EPISCOPAL REGISTER" Says it "contains many of the best hymns in the English language, with tunes appropriate from well-known composers. The book is beautifully gotten up."

## LIBRARY OF UNIVERSAL KNOWLEDGE.

Large Type Edition. A verbatim reprint of the last (1880) London edition of Chamber's. Encyclopædia, with coprous additions (about 15,000 t quest by American editors; the whole under one alphabet, with such illustrations as are necessary to educidate the text. Printed from new electrotype plates, brevier type, on superior paper, and Lound in 15 elegant octavo volumes of about 900 pages each. It will contain, compacte, about 10 per cent. more than Appleton's and 22 per cent. more than Johnson's Cyclopædia, and though in all resprects important to the general reader, it is far superior to either of them, its cost is but a fraction of their price. al reader, it is far superior to either of them, its cost is but a fraction of their price. Volumes I and II. are ready October I, and other volumes will follow at teast two each month, the entire work being completed by April, 1881, and probably sconer. Price per volume, in cloth, \$1; in half Russia, gilt October top, \$1.50; postage, per volume, 21 cents. It has been our custom in presonest received. In pursuance of this policy, on or before October 31 only we will receive orders with cash, for the set of 15 volumes complete for the nominal price of \$10 for the edition in cloth, and \$15 for the edition in half Russia, gilt top. The price during November will be advanced to \$10.50 and \$15.75, and a further advance will be made each month till the work is completed. It is not supposed that the mass of those who will in time become purchasers of the Encyclopedia will make payment in advance as they now have the opportunity to ao, though most of them dappay for their newspapers in advance as they now have the opportunity to ao, though most of them despuy for their newspapers and magazines's full year in advance—but the old, tried friends of the L terary Revolution, who know that the American Book Exchange always accomplishes what it under as common and as what it promises to do, will be glad to save \$5 by investing \$10 and get the earliest and consequently best printed copies of the largest and best Encyclopædia ever published in this country, even at ten times its cost. Volumes will be shipped as may be directed, as they are issued, or when the set is complet.

## CHAMBERS' ENCYCLOPAEDIA.

As a portion of the Library of Universal Knowledge, we issue Chamber's Encyclopædia separate ly, without the American additions, complete in 15 volumes 18300. In this style it is printed from new electrotype plates made from very clear nonpareil type. Price \$7.00 Acuse edition, cloth, \$7.50; Aldus edition (finer, heavier paper, wide margins), half \$7.00 Knasia, gilttop \$15. In this style 14 volumes are issued October 1, and volume 15 will be ready about October 35, completing the work. To those ordering during the mouth of October, the price of the 15 volumes complete, will be \$7 for the cloth, \$14 for the man massia, gilt top. During November the price will be advanced to \$7.25 and \$14.50 or the set

Volume I, will be ready in October, and other volumes will follow as rapidly as possible, the whole being completed by April, 18-1, and probably sooner. Price for the set of four volumes during October only, net, \$2.65 for the coth, \$4 for the half Russia, gilt top. The four volumes of American Additions will be found well-nigh indispensable by all owners of Chambers's, Appleton's, Johnson's and all other Cyclopædias except the large type edition of the Library of Universal Knowledge, from which it is compiled.

THURSDAY, NOVEMBER, 18, 1880.

T the recent Church Congress in Leicester, the Bishop of Truro remarked :- "Not ten years ago it was called unpractical, useless, utopian, oblivious of facts to make the Cathedral the home of clerical training." Three Cathedrals, and one of our quasi cathedrals—Lincoln, Truro, Ely, Leeds—have in that short time become and such houses, in the most real way.

Bishop Spalding has no church debt in his diocese of Colorado, U.S.

It is said that when Leo XIII. was elevated to the Pontificate, he wrote to Dr. Dollinger,-"Come back; there is a new Pope." The Doctor's reply is said to have been, -"Yes; but the old Papacy."

Lord Penzance has granted permission to the Persecution Company to signify Mr. Pelham Dale to the Court of Chancery as in contempt, for venturing to officiate at St. Vedast's in defiance of a The cases of Messrs. Enraght and Green have been adjourned to Nov. 20th. Lord Penzance is evidently puzzled to know how to deal with the latter especially.

At a recent Congregationalist service in Oswes try, it was pointed out by the preacher that non conformists are altering all their old nomenclature "The cause" is now "the church;" "the means" has become "the services; those who "sat under a stated minister" are now "the worshipers at such and such a church; "the pastor and deacons no longer refer to the "devout females" and "hand maids,"—they are all "the ladies of the congrega tion;" the long prayers have given place to two or three shorter ones with chants and anthems interspersed. The old puritanical objections to "steeple houses" have disappeared in favor of "gim-crack gothic spires." These things were mentioned by the speaker as healthy indications of a departure from the bigotry of their ancestors.

In order to have some consistency as well as some sentiment of dignity with regard to the operation of the new Burials Act, it is suggested that the clergy shall keep a communicant roll, and that no one who is not on that roll shall have the usual burial office used. There certainly ought to be some distinction of this kind made, as well here as

In answer to the statement that "it was in 1746 that Wesley may be said to have thrown overboard finally, the last of his High Church learnings," it has been shown that Wesley wrote in a public letter to Lord North, in the year 1775, when he was Church Congress which has given most offence seventy-two years of age, "I am a High Church- the nonconformists, was the Bishop of Liverpool's.

man, the son of a High Churchman." But a Dr-They consider that a churchman who makes such to Wesleyan ministers, as it only irritates!"

The first Cathedral restoration in the nineteenth century is claimed for the Cathedral of Christ Church, Oxford, where on Tuesday, Oct. 19th, being the Festival of St. Frideswide, the 709th anni versary of the consecration of the church, (the original St. Frideswide Monastery), was duly kept. There was an early celebration. The completion of the Cathedral just synchronized with this date—a reredos having just been put up over the altar, and the chapter house having just been restored to its primitive dimensions and beauty. The only Cathedrals which could at all challenge a claim to priority gainst Oxford would be Hereford, St Asaph and Chichester; but in none is the restoration so really complete as at Christ Church, where even all the windows, save some in the clerestory and transpets are filled with stained glass.

In a stirring article on the question, "Who is to win?" the Church Times remarks on the losses to Rome,—"Out of all possible comparison, the heaviest of those losses was John Henry Newman. a rare genious, outweighing in importance the total of all the other seceders. There are to be found shrewd thinkers among us, who having noted the Roman careers of Manning, Faber, Ward, and some few other conspicuous converts, and the ir reparable damage they have done to the best in terests of their new communion, say that we were well and timely rid of them, as they might have worked like mischief here, had they stayed with us.....But nothing seems at first sight capable of being said in depreciation of the gravity of New man's secession. Yet, we are very sure that it would not have been permitted save for the higher benefit of the Church of England: and webelieve the truth to be that his removal prevented, what till then, was possible, his installation, however unwilling, at the head of a sectional party......New man's presence would have left the Catholic Re vival a dcep, but narrow stream; his secession broke the banks, and spread it into a fertilizing

As to the great majority of those who have left us since 1851, the loss has been entirely their own. They have been, as a rule, the dullards and weaklings of the flock, and thinning them out has been as grateful to us as it is to our army to clean it of its non-effectives. We could spare a few more of the sort still; though we must do ourselves the justice to say that the modern clerical tool generally prefers the Broad Church ranks when he is not an hereditary Evangelical.

It has been clearly shown that hitherto the result of the Burial Act in England has been a gain to the Roman Catholic body there, and not to Protestant Dissenters. The Roman Catholics in a number of instances have had their Burial Services in the burying grounds of the Church of England in consequence of that Act.

Rigg requests that people would not "quote Wesley large admissions to Dissent puts himself out of court, and any attempt to lacture them becomes in his mouth an impertinence.

> It is proposed to restore the parish church of Stratford-on-Avon which contains the tomb of Shakespeare. About £20,000 will be required.

> Sir Bartle Frere has been appointed a member of Her Magisty's Indian Council in London, at a salary of \$30,000.

> The French Geographical Society has just been informed that a United States traveller, Dr. Lenz, arrived on the 19th, of August at Arouan, six days march from Timbuctoo. It was near there that Major Laing was assassinated in 1826.

> THE SUNDAY NEXT BEFORE ADVENT.

S Advent draws near, the church in her services introduces the subjects which belong rather to the approaching season than to Trinity.

The "Prophet that should come into the world," 'the Lord our Righteousness," understood to fulfil all the promises which had been given to the church and to complete the deliverance of mankind; and although by His death on the Cross, He secured the accomplishment of His undertaking; yet the actual accomplishment of the work which He came to do, in all its features and dimensions, still remains the subject of anxious expectation and of earnest prayer. Although the foundations of the kingdom of Satan are effectually loosened, and ts overthrow decreed, its downfall has not yet taken place. For the furtherance of that object and for the work of establishing and building up the church, of which He Himself had laid the foundation, that our Blessed Lord ordained a ministry, and gave an especial commission to His Apostles, and through them to their successors to disciple all nations by baptizing them, to feed them with the bread of life, to bless them in His name, to minister the word and the Sacrament of His Body and Blood, to reprove, rebuke, exhort, and to guide and direct the operations of the church. A work no less varied in its features than awful in its responsibilities; and in the performance of which the Christian Priesthood has peculiar rights advantages. But, in the mean time, Satan is continually laboring in his evil vocation, and is too effectually seconded by the corrupt affections and perverse reasonings of men. It is, therefore, so much the more necessary for the faithful servants of Jesus Christ to wait for His coming with power to establish His Kingdom on earth, and to destroy the face of the covering cast over all people, and the veil that is spread over all nations. It is still their dnty to pray for the more abundant effusion of the Holy Spirit, and the more rapid and extens sive enlargement of the elect of Christ's fold. After these ministrations of the Church have run the course allotted them by the Lord Jesus, we are assured that He will Himself take the work in hand and execute it completely to the utter discomfitura of all opponents; for we have His own recorded It is worthy of note that the speech at the promise,—"He which testifieth these things saith. to surely, I come quickly."

At the Lord's coming, the chief opponent, whose

ans. In the notice St. Paul gives of this remarkable personage, he also furnishes an answer to those who imagine the Apostles expected that the second coming of Christ would very soon take place, or that it was immediately "at hand," in the sense in which that phrase is usually understood. St. Paul besought the Thessalonians not to be "soon shaken in mind, or be troubled, neither by spirit, nor by word, nor by letter as from us, as that the day of Christ is at hand......For that day shall not come except there come a falling away first, and that Mon of Sin be revealed, the Son of Perdition." To any one who carefully studies St. Paul's description of this individual, it must be perfeetly clear that no such personage has yet appeared on the face of the earth. So terrible a development of impiety, so fearful a leader of true apostacy has neuer yet appeared to blacken the page of history. Many forms of error have arisen in the world, blasphemy and impiety have cursed the richest and the fairest lands of the earth and have converted the loveliest Paradise into the abode of fiends; but so monstrous a form of evil as that which St. Paul describes has never crossed the face of the universe as a blot upon God's Creation, since the day that the Prince of Fallen Angles "put at their request. to proof the high supremacy of Heaven, and defied he Omnipotent."

the portion of Scripture appointed for the Epistle, the restoration of the Jews to their own land, and that under the immediate protection of "The Lord our rightcousness." If the predictions of Holy Scripture mean anything at all, they unequivocal ly point out the return of the Israelitish people to their own land, and that in connection with the Second Advent.

#### THE GENERAL CONVENTION, U. S.

(Continued.)

THE SEVENTH DAY .- Reports were received. The report of the Missionary Bishop of Shaughai, was read by Bishop Stevens. Bishop Cotteril, of Edinburgh, also gave an address with reference to China. Bishop Stevens, of Pennsylvania, explained the kind of medical school to be established in Shanghai, and referred to the translation of the Prayer Book into Chinese. It was also announced that Dr. Henry Boone had arrived in China, and had entered on his work.

Bishop Lee gave an extensive account of the work in Mexico, which is regarded as extremely important, as opening the way for an extension of mission work into the Spanish and Portuguese countries of South America. The misfortune, however, of almost every reformation is to pass from one extreme to its opposite, and, in the estimation of most people, Bishop Riley has been no exception to general practice in this respect. Bishop Lee, however, spoke highly of him in almost every particular. He also said,—"There is one Bishop, the Rev. Dr. Riley, Bishop of the Valley of Mexico, two Bishops-elect, two other presbyters, a considerable number of catechists, lay readers, and evangelists, many of whom are candidates awaiting ordination.....There are, in the city of Mexico, two magnificent churches. which have come into the use and possession of those for whom our sympathy is asked. They were churches belonging to religious orders. When third annual convention. the revolution occurred in Mexico, the property of the religious orders was confiscated, and hundreds briefly on a multitude of subjects, that we are led bottom of the sea, and there, among myriads of

Sin, the Son of Perdition, particularly described by the government. Just as in common things, we begin the year with January, so in the holy seasons of our religion, we begin the year with Advent, and so we find that it stands first in our Prayer Book.

"Advent" means "coming;" and the season of Advent, which lasts for the four weeks next before Christmas, is so called because, during that time, our thoughts are turned upon the coming of the Lord.

"Solemn warning! Christ has come—Christ comes again! "Go ye out to meet Him!" And again the reminds us that Christ is really power and grace. Belleville-St. Thomas'-It is a pleasing feature o know that the tide has turned in the interest of this new and flourishing church. The whole aspect of the church, the edifice and the service, is all the heart could wish.

On the 3rd, being Thanksgiving Day, large congregations assembled in St. Thomas' at 10 a.m., and 7 p.m. Prayers were said by the rector, and a very earnest sermon preached by the nev. Mr. Echlin, of Bath. The organ, a very sweet-toned instrument, was presided over by by Professor Oldham, and the tion fund of the church amounted, during the day, to something over \$40. After the sermon, the Eucharistic office was proceeded with, when a large number partook of the blessed Sacrament. The Rev. W. Burke may well be congratulated, who, under Providence, has brought the church to its present condition. May he and his estimable family long be spared to work with earnestness, patience and zeal, among the united congregations of St. Paul's and St. Thomas'.

Others claimed that our senses brought their immediate reward—their enjoyment was all the reward they cared for. He (the Provost) thanked God for the good Mr. Knox-Little had done for souls during the two days just past.

Mr. Knox-Little replied feelingly that he had crossed the Atlantic, primarily, for rest and health, leaving a friend in charge of his large parish, and then to fulfil promises made last year, to clergymen in the United States. But on the pressing invitation of Mr. Darling, feeling it would be un-English to pass over his own countrymen in Canada, he had put off some of those engagements to come to Toronto. He would certainly return some day, but probably not till next Fall, to give a mission service, since it was represented thankful; how much more if to many.

He then shook hands all round, and so parted.

#### THE~CHURCH OF CANADA.

SIR,-The letter of Mr. Walter Darling, which appeared in your issue of the 4th inst., relates to a subject which attracted the notice of the Lower House most wondrous flights of oratory ever listened to, full he could do some good. Mr. has expressed, an interesting conversation arose, which showed that the inclination of the thought and opinion of the large majority of the members in attendance were strongly adverse to the Rev. Mr. Darling's vigorous declamation, and, as a matter of course, would also be so to your correspondent's plausible argument.

In his quotation from the address of the Most Reverend the Metropolitan, I think Mr. Walter Darling has somewhat strained the interpretation which should be placed on His Lordship's words, "The ecclesi-astical affairs of our Canadian Church," were, I apprehend, referred to in a colloquial manner, rather than in the people of God by true repentance, must be left fifteen of whom were married people who came from exact terms, and consequently no argument, having untold. To be comprehended aright, his fervent clo- other Christian bodies. They were divided into two any legal force, can properly be drawn from the extracted sentence.

The "Canadian Church," for all practical purposes, is free enough already. I venture to think there are but very few Churchmen who desire to increase the and tempered its strains, and, lest earth should be delivered an able sermon on our Liturgy to a crowded measure of her independence. Whether the tie which unites the "Canadian Church" with the Sce of Candisappointment vanity and unrest. It told of but one certainty for all—death. A descriptive title, as a matter of legal convenience the purpose of the present, i. c., the increasing St. George's on Thanksgiving Day. The choral parts had to be chosen by the Synod, and the one recommended, "The Church of England in Canada," very apptly expresses the purpose such title is intended to serve. Nevertheless, there was much force in Mr. Davidson's argument in favor of the statutory form, viz., "The United Church of England and Ireland in Canada." The only valid objection taken was a practical one. The title was too long and embraced too many words, and life is said to be too short to use words without profit. Some also urged that the recent separation of the Churches of England and Ireland affected, also, the status of our "Canadian Church," and destroyed the relationship which the series of addresses on Mission Life in Canada, in the earlier laws had preserved. This argument scarcely bears examination; for, if the "Canadian Church were the legitimate offspring of the "United Church of England and Ireland," she did not cease to be so because her parents had consented to a bill of divorcement, and had separated themselves from one another. The adoption of the old title. which has been crystallized in our statutes, would is officiating in the church here that has been vacant have tended to preserve an historical incident of some importance to the mother country and to ourselves, for the clergy and laity of "The Church of England in Canada" are largely recruited from people of the Irish race. #### THE HURON CONSTITUTION.

SIR,-In a letter which appeared in your last issue, the following "extraordinary" statement was made:-

"I think any unbiassed reader will admit that Mr. Harding has been fairly beaten in argument and fact The paragraph I have quoted is a fair sample. Ex uno by Mr. Smith, as any one will be that defends the disce omnes. idiosyncrasy of the Huron Constitution, because it is indefensible in theory, and not much less so in operation, and has brought disgrace upon the Episcopacy, and servility upon the clergy, driving lay members from Nov. 6th. 1880. the Church, and making others totally indifferent to it; destroying the voluntary spirit, as is evidenced by the decrease, in such a prosperous year as last year, RECIPROCITY IN MATTTERS ECLESIAS of Diocesan support, Widows and Orphans' Fund, and the Mission Fund. The divided surplus of last muted clergy, and this imaginary success will be days ago, after a short holiday, I read in your issue nual payment to the said A. M. shall cease, the year arising through the death of several of the commaintained this year if others likewise follow the of the 7th inst., a communication from the Rev. John course of all flesh.

I do not intend to take any part in this controver sy. I wish merely to correct the statements that, there was "a decrease, last year, of Diocesan support," &c., and that "the divided surplus arose through the death of several of the commuted clergy," &c.

To show how much the author of this "argument and fact "(!) errs through ignorance, I will refer to official documents. On page 64 of our last Synod Journal you may find the following statement:-

"The income of the past year, derived from the voluntary contributions of the Liocese, amounted to \$18.300. 25, an increase of \$1,490.79 over last year's income, and being the largest amount ever yet received since the formation of the Diocese.'

On the same page, under the head of "Mission Fund, you will find that there was a "large addition" this year to the Parochial Association and Mission Fund collections, the receipts showing a total increase of \$1,626.76, directly available for Missionary purposes.'

With reference to the Widows' and Orphans' Fund, there was a decrease, last year, of \$93.49; this small decrease having been occasioned by the fact that the weather was unfavorable on the days when the offertories were made. These statements from the audited accounts, which also appear on page 64 of the Synod Journal:—"This gratifying result of our which we are advocating. labors bespeak most surely a growing interest in the hearts of our people, and affords the more reason for gratitude to God, when we consider the unusual manent pastorate; but the voluntary system prevails weather that prevailed during the year, and especially during the winter, when the absence of sleighing and the impassable condition of the roads prevented the usual facilities that are afforded for business and commerce, &c."

With reference to the "divided surplus last year, arising through the death of the commuted clergy." your correspondent is again at fault.

The "divided surplus" amounted to about \$2,000. which was distributed amongst the missionary clergy of the Diocese, in accordance with the provisions made in Canon XXIX, viz., that "a priest over five years" standing should, in the discretion of the Standing Committee, receive at least \$800 per annum, if the funds will admit of it." How much of the amount thus distributed " arose through the death of several of the commuted clergy," your intelligent readers can ascertain for themselves by consulting the duly audited accounts of our Synod for the past two years.

In 1879 the amount carried to the Mission Fund from the Commutation Fund interest was \$3,816.96. In 1880, the amount from the same source to Mission received in 1880, only \$357.06.

Consider further that, in 1880, the salaries of missionaries in our Diocese amounted to \$1,820.22 more save others from a similar experiment.

Last year, the amount paid for this purpose was \$3,485.08, an excess of \$823.36 over the FENNINGS TAYLOR. pensions of the previous year.

Perhaps it is unnecessary to answer to answer statements so entirely at variance with truth, as I have shown the statements to be-that there was a decrease of Diocesan support in the Huron Diocese, during the past year. It is as foundationless and as false as are all the other statements in the paragraph above quoted. The organization of our Diocese is satisfactory, both in theory; and in operation, and your correspondents cannot pen a single sentence against it, without resorting to misrepresentations.

DEAR SIR,—When I returned to my parish, a few Gemley, in opposition to the scheme advocated by myself and the Rev. G. J. Low. I will be as brief as possible in my reply, as I prepose taking further acfirst express my unqualified approbation of Mr. Low's letter, containing, as it does, unanswerable arguments of denying, that the Fund was for the support and in favor of the scheme propounded, and with all due respect to Mr. Gemley, I, for my part, am still of the opinion that it is practicable, and, if adopted, would be beneficial.

The prediction that disastrous results would follow the centralization of funds, is not warranted by the facts which I obtain from other ecclesiastical bodies, which administer such funds satisfactorily and successfully.

The non-possumus objection is derogatory to the allowed by those who have a better acquaintance with her vast resources, in this respect, which are unsurpassed by those of any other denomination.

The first point I shall notice is in Mr. Smith's let ter, from which I make the following quotation. "Yes their cruel assailants have not suffered, but have retained their comparative abundance and given up nothing. It is the old story told over again of the poor man's lamb." I call this a simple perversion of my words, and also of the facts. My words were intended to set forth, and did set forth, the fact that the difference of opinion to which I alluded in a former letter, was amongst the clergy themselves; whom Mr. Smith regards as the subject of a cruel wrong and injustice. Some of the clergy thought it wrong some thought it right, and when the vote was taken, after a full and fair, and I may add, a fearless discussion, it appeared that a very large majority thought it right to discontinue the \$200 a year bonus to the senior clergy. Added to this the fact, that, in that majority, were several who had actually become annuitants, and you have the reason which I gave for objecting to the term robbery.

The next point I shall notice is one in which I admit that verbally Mr. Smith has me. The Bishop was the prime mover. Still, Mr. Smith will admit that the clergy, yes, several of the annuitanta, were very prominent in carrying a canon which they could have rejected, and which I believe they would have rejected had they thought it an act of robbery.

Mr. Smith's next paragraph is the chief point to which I wish to refer. In it he puts forward as a full proof of the assertion that the Commutation Fund belongs to the clergy and not to the church, the following quotation from the bond given to the Commuted clergy. "And when and as soon as such antation money, and all interest and proceeds thereon, upon such trusts for the support and maintenance of the clergy of the said church, within the said Diocetion in the matter at a more suitable time. I would se, or such other Dioceses as the said Diocese shall hereafter be divided into." I never denied, or thought maintenance of the clergy; but I do maintain that the Fund belongs to the church, whose duty it is to see that the clergy are supported and maintained. And now I ask who are the clergy to whom the church owes this duty? Mr. Smith's contention seems to be that the term "clergy" in this quotation includes only so many of the older men in the Diocese as will annually absorb the surplus interest of the Commutation Fund at the rate of \$200 or \$400 to each. The Synod of Huron, when it passed that "terrible" canon, thought that the term clergy, 48 administrative powers of the Church, and cannot be used in that same quotation, included the whole of the Diocese excepting those who, from other sources, were sufficiently "supported and maintained." Acting upon this broader and truer interpretation of the The Provincial Synod, at its last session, legislated Bond, the Synod decreed that the first charge upon who were past work, and that any balance left should sources. If the word senior were in the Bond, then "clergy," not senior clergy, whom the Synod, as the successor of the "church society," is bound to sup-

When Toronto, with its more posed to the admission, into this Diocese, of any cler-gymen for the purpose of occupying government rectories or prospersive parishes to the curely and archdeacon makes a raid upon its Episcopal and Archdeacon rectories, or prosperous parishes, to the exclusion of Fund, and insists upon that portion of it which came faithful men who have borne the burden and heat of the originally from the Commutation Fund, shall be di-In reference to Mr. Gemley's personal remarks, resistently call upon us to throw the corresponding portion to myself, and the superiority of my prospects Bond which he quotes, and in that grant from the crown which is the origin of the Commutation Fund. I am sorry that Mr. Tibbs in his anxiety to show the Diocese of Huron in the worst possible light, the usual Missionary Litany. The following report should find it necessary to make an assertion that is was presented by the Secretary-Treasurer, and read simply untrue. He charges the constitution of Huron by the Rev. A. H. Baldwin:not only with "bringing disgrace upon the Episcopacy servility upon the clergy, driving lay members from report that the Executive Committee have met twice the church, and making others totally indifferent to since the last Public Quarterly Meeting in July, and it," but with "destroying the voluntary spirit, as is have had two applications submitted to them, viz., either in taking work to their homes or in attending evidenced by the decrease in such a prosperous year one from the Rev. But the decrease in funds is a point that accompanied by the Bishop of Algoma's recommendacan only be settled by the Synod report. From the Synod Journal for the year 1880, I make the following quotations, which Mr. Tibbs will find on pages 64,

"The income of the past year from the voluntary contributions of the Diocese amounted to \$13,500.25 an increase of \$1,490.79 over last year's income, and being the largest amount ever yet received since the formation of the Diocese." "General Purposes Fund." "The amount received from annual subscriptions and parochial association collections was, \$6,175.71, being an increase of \$1,028.90 as compared with last year. "Mission Fund." "The amount received for this fund was \$3,619:87, being an increase of \$597.89 over last year." Widows' and Orphans' Fund." "Owing to the peculiarly unfavorable weather on the appointed Sundays in July and January. the quarterly collections show a decrease of \$93,49, as compared with last year." "Day of thanksgiving." These figures speak for themselves. Those must be wonderful glasses which enable a min to see in these figures an indication of the place for drawing the subscribers together and interdestruction of the voluntary spirit in the Diocese of esting them in the cause for which their gifts are solicit-Huron.

The remarks respecting the Bishop seeking additional clergy, have not very much weight. Huron ed, give very different results. It is not merely subis not the only Diocese which laments the lack of scriptions which are needed from the members of the men offering themselves for the work of the ministry. Any one who reads the charges delivered by Bishops, both in this country and in England, will find that this diocese to a sense of their capabilities of usefulness this lack is felt elsewhere. Some clergymen, it is true, have left this diocese. Very few, however, if any, have been drawn from it by superior attractions offered by forests and the obligation which lies upon them, to exert their powers in the promotion of the mission cause of the church, a great part, the most urgent part, of its work, offered by forests and the obligation which lies upon them, to exert their powers in the promotion of the mission cause of the church, a great part, the most urgent part, of its work, offered by forests and the obligation which lies upon them, to exert their powers in the promotion of the mission cause of the church, a great part, the most urgent part, of its work, offered by forests. offered by Toronto, or indeed by any diocese as such. CHAPTER V. (continued)

In the dusk of a showery evening Miss Lettice sat at the open window of the drawing-room. The soft patter of the rain upon the leaves made music without, and Beethoven made music within. Walter was at the piano, playing the Sonata in a flat. Miss Lettice's hands were idle, and her mind, as a rule so firmly under her control, had surrendered itself to the master-musician, to be borne on the tide of melody, hither and thither, and whithersoever he willed. When the solemn forceful chords of the funeral march had died out, and the air seemed empty, as though some presence had departed from it's Walter's voice broke the silence-

"Do you know, I fancy James does not like me as much as I like him.'

Miss Lettice felt a painful jar. Was there no purifying power in such passionate harmonies which could sweep, even for a moment, a man's soul clean from his egoism? Her tone was colder than usual as she replied-

"I think he likes you, but perhaps he hardly approves of you."

Walter was idly turning over the leaves of the music-book. The sudden tain rigidity of figure, showed that the may do the best we can with them, and content to leave it with him. They are ambitious to be as brave as a man at a fire or in a battle, to be as cool as a man in the midst of danger and excitement, to show the fortitude of a man in enduring as great physical pain as a man, to have as much physical strength as a man, to run as fast as a man, to do as much business as a man, and be as shrewd in a bargain as a man, to write like a man, and speak as correctly and as wisely as a man, and, in short, to copy everything from men that is noble and useful. And this is what is called manliness.

And, oh! what a difference there is between the fruits of mannishness and arises a brotherhood not only by His manliness in boys. And so I heard a kind-hearted girl complain that she had nothing of her own that that she had nothing of her own that gave in one day, and you see that she was mistaken.

She gave an hour of patient care to her little baby sister who was Eutting teeth. She gave string and a crooked pin and a great deal of advice to the little three year old brother who wanted to play fishing. She gave Ellen, the maid, the precious hour to go and visit her sick baby at home; for Ellen was a widow, and left her child with its grandmother while she worked to get bread for both. She could not have seen them very often, if our generous Mary had not offered to attend the door and look after the kitchen fire while she was

But this was not all that Mary gave She dressed herself neatly, and looked so bright and kind and obliging, that she gave her mother a thrill of pleasure whenever she caught sight of the young pleasant face. She wrote a letter to her father, who was absent on business in which she gave him all the news he wanted, in such a frank, artless way, that he thanked his daughter in his heart.
