

INTERESTING SUMMARY OF EUROPEAN INTELLIGENCE.

London, Friday Evening, June 2. It is only fifty-six hours since I sent you a letter, by the good ship Washington...

CONVICTION OF MITCHELL. On the 27th ult., in Dublin, Mr. Mitchell, convicted of treason upon the previous evening, was sentenced to fourteen years' transportation...

The European Times says—"When the verdict of guilty against Mr. Mitchell was delivered, a scene of great confusion ensued in the Court, but the tranquility of the city of Dublin was not materially disturbed."

On the following day, the 27th ult., Mr. Mitchell was brought up for sentence, and after some speeches equally defiant as his previous conduct, of all authority whatsoever, he was sentenced by the Court to fourteen years' transportation.

We forbear to touch here upon all the tender and affecting circumstances of the sudden parting of this unfortunate man with his wife, children, and confederates. The sternness of ambition yielded before the overpowering claims of nature; and hurried away as he was from the theatre of his crime, few can have felt more painfully than Mitchell, the deep anguish of seeing one's native land receding amid the growing waters.

This has been a stunning blow to the confederate party. A great clamour has been raised about the packing of the jury. By a vote of the Repeal Association, the wife and children of Mr. Mitchell are to be adopted by the people of Ireland, and their comfort and education provided for at the public expense...

The papers relative to the dismissal of Sir Henry Bulwer from Madrid, have been laid before Parliament, and the loss of the journals is, that Sir H. Bulwer gave no provocation whatever to the Spanish government; that there is no presentable charge or complaint against him; and that the pretence that the Narvaez Cabinet only wished the ambassador to quit Madrid to save him from assassination, is false and worthless.

CHARIOT OUTRIAGE. Some partial disturbances have taken place in London, at Bradford, Manchester, Leeds, and other places, instigated by the Chartists, which, in every case, have been almost instantly suppressed. A large assemblage of Chartists collected in Clerkenwell, in London, but at midnight they quietly dispersed.

RECAPITULATION OF REVEREND FATHER BIRMINGHAM. Dr. Kennedy has brought Father Birmingham on his knees, the following letter appearing in the Evening Post, the Government organ:—"Sir, I deeply regret having caused to be published in the Nation newspaper of the 22nd of April a letter by which I have incurred, and doubtless justly, the displeasure and severe censure of your Bishop. I now fully and entirely retract that letter, and I beg leave to express, through the medium of your respectable journal, these my sentiments of regret, and my retraction of the letter."

THE LATEST NEWS AT PARIS. Paris has been tranquil, although several ineffectual attempts have been made to create disturbances. The Executive Government have resolved to disband the Government workshops instituted by Louis Blanc. The Director of the Ouvriers, M. Thomas, has been removed from Paris. Blignault and Flotte, two of the most influential of the conspirators in the late insurrection, have been arrested.

THE MILANER AND THE AUSTRIANS. A letter from Trent says that a sharp contest between the regular troops of the Milanese, and some Austrian insurgents, assisted by irregular corps, had taken place near the Lake of Idro, in which the latter were victorious, having taken Caffara, a strong post called Castel Ladron, and repulsed the Italians as far as Rocca d'Anfo.

BATTLE BETWEEN DANES AND GERMANS. The Schleswig-Holstein Journal, under date of May 29th, announces that a collision had taken place between the Danes and the Germans, at Sanderstedt. Large numbers were slain, and were killed and wounded on both sides; and the Germans retreated, the Danes advancing after them. About 7,000 were engaged on each side. Reported that the Germans lost 1,000 men and 6 pieces of cannon.

PROCEEDINGS OF THE NATIONAL ASSEMBLY. On the evening of the 17th the Minister of the Interior unexpectedly announced to the Assembly the following measures:—"The dissolution of the republican guard, and its reorganization under the name of the Parisian Republican Guard—the putting down of all armed meetings, under the penalty of imprisonment for three months to two years—the expulsion from the French territory of Louis Philippe and his family, as well as that of Charles X.—A bill respecting the attributes of the Executive Government, by which the members of the Executive Government are not obliged to attend the meetings of the Assembly, nor to give explanations but when they think necessary—A clause in the same bill that the President of the National Assembly may order the hearing of the Repeal, but that the Executive Government alone can take military measures for the defence of the Assembly—A bill authorizing the State to resume the railways—A bill granting favours to the continuation of the Travaux Nationaux to the amount of between nine and ten millions of francs."

THE LATE ATTEMPTED SUICIDE OF MR. STEELE. At Bow Street, on Tuesday, this gentleman, who was charged at the station-house, on Wednesday evening last, with attempting to drown himself, by leaping from one of the recesses on Waterloo Bridge into the river, and whose examination at this court has since been postponed on account of his severe indisposition, attended this morning, and was brought before the magistrate as soon as the night charges had been disposed of. After evidence had been heard, Mr. Steele said he was sure his worship would most highly approve of the admirable exertions of the watermen, and he expressed the depth of his gratitude to the physicians, the surgeons, the governors, and, in truth, to every one connected with King's College Hospital, for the intensity of the sympathetic feeling which they evinced for him while he was the inmate of that establishment. Had he been an unfortunate brother of every one of them they could not have treated him with greater kindness. The magistrate adopted the course usually followed in such cases, and ordered the defendant to find bail. He must enter into his own recognisances for £100, and give two sureties in £50 each, to keep the peace and be of good behaviour for twelve months. Mr. Steele immediately provided the required recognisances—Dr. Farish, of No. 8, Lancaster Place, and Frederick Lucas, Esq., barrister-at-law, of Pembroke Square, Brompton. He was then liberated. Mr. Steele appears to have completely recovered from his illness, and indeed looks very well.

INSURRECTION IN THE WEST INDIA ISLANDS. An arrival from the French West Indies, Island of Martinique, states that on the 22nd of May, the slaves had risen and massacred about one hundred of the white inhabitants, including women and children, and also burned and destroyed their property to a great amount. The Fort of the Island and a French man-of-war in the harbour at the time did not interfere, nor call on the soldiers to stay the insurrection. At last the Island was more tranquil, but all business was suspended at Guadaloupe.

SPAIN IS QUIET—rather uneasy about this winter affair—and endeavoring to strengthen itself internally, by conciliating the Chartists from Constantinople, the latest advice are to the 19th ult. The cholera had broken out there with renewed vigor. From Egypt, the accounts of the health of Mehemet Ali are still that he cannot live long. His death will be the signal for intrigues on the part of the different European powers as Sir Stratford Canning has returned to his post at Constantinople.

THE MINISTERS excused themselves for announcing these measures without notice, on the plea of urgency. Several of the propositions were received with evident marks of disapprobation by the Assembly, particularly that which proposed to resume the railways, and that which contemplated the expulsion of Louis Philippe and family. The measure for suppressing the armed meetings of the clubs was received with cheers from all parts of the House. In announcing the bills for the continuance of the public works, the Minister stated that in Paris and throughout all the great towns of France, the number of workmen employed in the ateliers nationaux (national workshops) was daily increasing, and works carried on in them were of no public utility, so that the wages paid were in fact alms.

AMONG the projects introduced was one by M. Charbonnier for providing labour for the poor, the particular which, as we have already contemplated the expansion of Louis Philippe and family. The measure for suppressing the armed meetings of the clubs was received with cheers from all parts of the House. In announcing the bills for the continuance of the public works, the Minister stated that in Paris and throughout all the great towns of France, the number of workmen employed in the ateliers nationaux (national workshops) was daily increasing, and works carried on in them were of no public utility, so that the wages paid were in fact alms.

THERE was also a proposition for a bank for mortgages, or the substitution of the State for all mortgages, or persons who have let money on mortgage; and one for a national bank with branches in the departments.

THE Protestant Repeal Association are strong in condemning the prosecution of Mr. Mitchell. An address bearing the signature of Wm. Smith O'Brien has been submitted to the new Directory of the Confederation, advocating a direct resort to arms, and unanimously approved of.

LORD Cloncurry has sent a donation of £100 toward the fund raising for the support of Mrs. Mitchell. The United Irishman newspaper is extinct. The Crown has requested the printing materials. A new journal, or rather the United Irishman revived, is announced under the name of the Irish Felon.

THE Crown has yet taken no step for proceeding with new trials in the case of Messrs. Smith O'Brien and Meagher; but it is said they will be tried in the present term.

SINCE the conviction of Mitchell, Dublin has been quite tranquil. By a vote of the Repeal Association, the wife and children of Mr. Mitchell are to be adopted by the people of Ireland, and their comfort and education to be provided for at the public expense, out of a subscription to be raised for the purpose.
