### Knox Church

Services at 11 a. m. and 7 p. m.  
Sunday School and Bible classes at 9.45 a. m.

### Methodist Church

REV. C. L. POOLE, B. D., Pastor

Services at 11 a. m. and 7 p. m.  
10 a. m. Sunday School and Bible classes.

The Y. P. S. meets on Monday evening at 8 o'clock.

Prayer Service on Thursday evening at 8 o'clock.

### Millgrove Meth. Circuit

REV. F. J. FYDELL, B. A., Pastor

Rock Chapel—11 a. m. Flower Sunday. Children's service.

Glenwood—2.30 p. m.

Millgrove—7.30 p. m. "A Canadian's Task—Yesterday and Today."

Y. P. League, Millgrove, Monday 8 p. m. under Citizenship Dept.

### Greenville

Mrs. Carl of Hamilton is visiting friends here this week.

Mr. and Mrs. Gilbert motored to Orangeville over the week end.

Wilbert Griffith and James Clark spent a few days last week in Toronto.

Mr. R. Dow has gone to Ganauque after spending a few days here.

Mr. M. Bowman and two daughters of Hamilton, spent Sunday in the village.

Gladys M. Surerus and Herbert Gees were quietly married by Rev. Mullen of Christie on Wednesday morning.

### BE CAREFUL WHAT YOU SAY

In speaking of another's faults  
Pray don't forget your own;  
Remember, those with homes of glass  
Should never throw a stone.  
If we have nothing else to do  
But talk of those who sin,  
'Tis better we commence at home,  
And from that point begin.

We have no right to judge a man  
Until he's fairly tried;  
Should we not like his company,  
We know the world is wide,  
Some may have faults—and who has  
not—

The old as well as young,  
Perhaps we may for aught we know,  
Have fifty to their one.

I'll tell you of a better plan,  
And find it works quite well;  
To try my own defects to cure  
Before of others tell;  
And though I sometimes hope to be  
No worse than some I know  
My own shortcomings bid me let  
The faults of others go.

Then let us all when we commence  
To slander friend or foe  
Think of the harm one word may do  
To those we little know.  
Remember, curses, sometimes like  
Our chickens, "roost at home."  
Don't speak of others' faults until  
We have none of our own.

### Locals

Mr. Austin Tudor of Detroit, is spending his holidays at his home here.

Mr. and Mrs. Drummond of Brantford, were calling on friends in the village this week.

Mr. and Mrs. Sweeney and daughter Ida, of Hamilton, spent the week end at the home of Mr. and Mrs. J. Metzger.

All interested in lawn tennis and bowling are invited to attend a meeting in the Public Library, Tuesday evening, July 3rd.

Mrs. E. A. Slack will receive for the first time since coming to Waterdown, on Friday, July 6th, and will be at home in the Rectory from four to six.

Mr. John Kirk, Sr. underwent a serious operation at St. Joseph's Hospital, Hamilton, last Monday. His many friends here are hoping for his speedy recovery.

On Thursday, July 19th a Garden Party will be held on the old school grounds under the auspices of the Ladies Aid of the Methodist Church particulars of the program will be given later.

A Garden Party under the auspices of the Presbyterian Choir will be given at the Manse, Waterdown, on Wednesday, July 4th. Come and hear Flora and Sandy MacDonald the child entertainers, also other good Hamilton and local talent. Dr. J. O. McGregor will act as chairman. Admission 35c.

On Wednesday, June 27th, the Rev. E. A. Slack, Rector of Grace Church, Waterdown, united in the holy bonds of matrimony in Grace Church, Dorothea Shortreed, third daughter of Mr. and Mrs. Edward Haggard, to Edwin Alan Hammond, eldest son of Mr. and Mrs. A. E. Hammon, both of the city of Guelph.

### Millgrove

A jolly time was spent last Tuesday when the Delta Alpha class of girls picniced on the beautiful lawn at the home of Miss Eileen Pepper. The sports were in charge of Miss Luella Carey and Miss A. Markle, with the following results. Ball and Stake Race: Gladys Carey, first; Luell Carey, second. Nail Driving Contest: Vera Binkley, first; Sreida Robinson, second. Balloon Race: Vera Binkley, first; Nettie Douborough, second; Gladys Carey, third. 40 yard Dash: Miss Berry, first; Mildred Cummins and Nettie Douborough tied for second. Pail and Ball: Gladys Carey, first; Sreida Robinson, second. Corn Flake Contest: Gladys Carey and Mrs. G. Goodbrand, first; Nettie Douborough and Miss Berry, second. Obstacle Race: Miss Berry, first; Gladys Carey second. Dizzy Izzy Race: Miss Berry, first; Cora Binkley, second. The next class meeting will be held on July 9th at the home of Mrs. G. Goodbrand at 8 p. m.

A post-nuptial shower was held at the home of Mr. and Mrs. Cecil Cummins for Mr. and Mrs. Wallace Hutton, (nee Irma Vansickle).

Mrs. Byron Shuart is on the sick list.

Mrs. Wm. Flintoff is improving nicely after her recent operation.

### Base Ball

It looks at present that Manager Lovejoy has a real championship ball team for 1923. The boys are going fine. Nicholson, Forth and Shelton in out-field are hitting the ball on the nose with regular persistence. Herbie Slater on first base is playing the game that makes big league scouts sit up and take notice. Tommie McNamara at second and at bat is better than ever, while "Buster" Tuck at short has been the find of the season with his all round good work at the bat and in the field. Alton at third is another find; his snappy defecpe at the red hot corner is a treat to watch. Capt. Ribson behind the bat is improving every game and keeps his boys in a peppery condition at all times. The three pitchers, Arnold, Allen and Featherston, each of which have won their games, would take columns to tell their good qualities.

All the team requires now is the attendance of the public at their games. So Mr. and Mrs. and Miss Public please give your attendance on Saturday, June 30th to urge them on to victory against the powerful St. Mary's team of Hamilton.

### LEAGUE STANDING

### Wonderful Value for \$2

It is a source of constant wonder to publishers the world over how The Family Herald and Weekly Star of Montreal can be printed and mailed to any part of Canada for the small subscription price of \$2.

Some other papers may quote a lower subscription price but they do not contain one-fifth, nor in many cases not even one-tenth of the reading matter published each week by the Family Herald and Weekly Star. People everywhere are now selecting their reading material with greater discrimination than in the past. Instead of being loaded with a lot of second rate papers and magazines, they are now saving money by discarding the chaff and subscribing to the Family Herald and Weekly Star of Montreal—the one big all-round journal that provides in its seventy-two pages every week an ample volume and variety of reading to satisfy every member of the family.

In addition to being the best informed, most practical and helpful paper for farmers, the Family Herald and Weekly Star provides the best of serial and short stories, complete departments for women and young folks, powerful editorials on the most important topics of the day, a complete weekly digest of world news, in fact a veritable library of information, entertainment and inspiration. On account of its clean, wholesome and helpful character its phenomenal value and powerful influence for good, it is not too much to say that the Family Herald and Weekly Star of Montreal should be in every Canadian home.

The Waterdown Women's Institute entertained the Millgrove W. I. at the home of Mrs. Wm. Horning last Tuesday afternoon. Miss Powell a Government speaker, was present and delivered a very fine address which was much appreciated.

### CARD OF THANKS

Rev. R. Cordner wishes to thank his many kind friends for remembering him during his illness.

Issued Every Thursday morning from the office, Dundas Street, Waterdown

C. H. GREENE  
Editor and Publisher  
Member C. W. N. A.

Here and There

Saskatchewan's crop cost \$187,000,000 to produce last year. The proceeds amounted to \$287,000,000.

During the month of April and the first two weeks of May 300 claims were registered in the counties of Temiskaming and Abitibi, the gold field of the province of Quebec.

"Twenty marriage engagements are among the results of a round-the-world voyage of a C.P.R. liner." Mr. Beatty has a lot to answer for. —Ottawa Journal.

With a population which is over 70 per cent. rural Saskatchewan has a larger automobile registration than any other province. One in every 15 people owns a car.

One of the largest fish caught in the history of Lake Timagimi was recently caught by E. B. Hamlin who, with a small bass hook and light steel rod landed a salmon trout weighing 24 pounds and measuring three feet in length.

In 1920 there were cut in Canada 4,021,826 cords of pulpwood. This would, if piled four feet high and four feet wide, reach in a continuous line over 6,000 miles, or the distance from Vancouver to Halifax, and out over the Atlantic to Queens-town, Ireland.

Trees to the number of 10,000 were distributed among Saskatoon school children by the Parks Officials and Dominion Forestry Branch on the occasion of Arbor Day. Each child received one maple and one ash. Last year only 5,000 trees were distributed.

The Empress of France, of the Canadian Pacific fleet, now on the trans-Atlantic service between Hamburg, Southampton and Cherbourg to Quebec, holds the record for the fastest journey between Quebec and Liverpool, having crossed in 5 days, 22 hours and 38 minutes, just two hours less than the Empress of Britain.

General Sir Arthur Currie will unveil a memorial cairn at Sault Ste. Marie to Etienne Brule and his companion Grenoell, the coureurs de bois, who found the Sault and discovered Lake Superior in 1622. The unveiling will take place August 7th during Discovery Week, when the Ojibways will produce "Hiawatha" on two afternoons.

Notwithstanding that there will be an increase this year in Canadian Pacific steamship traffic on the St. Lawrence, with 17 more sailings than in 1922, Canadian Pacific officials report that ships are being well booked and that according to present indications the 1923 season will show improvement in ocean trade from both Montreal and Quebec.

Whales are reported early and plentiful this season and despatches from Victoria state that conditions surrounding the inauguration of the deep-sea hunt this year are the most promising in more than a decade. The demand for canned whale meat has become so pronounced that the prospective pack of the Victorian whalers is already disposed of. England will be the distributing market for canned whale meat this year.

A replica of an old time Hudson's Bay fort, such as once was the nucleus of the western posts of the great company, and which still exist in the far north, will be erected at the Calgary Exhibition grounds, July 9 to 14, as a part of the 1923 Stampede feature. Special arrangements are also being made to provide a commodious camping ground for the Old Timers who will attend with the old-fashioned chuck wagons and cowboy equipment.

Running on schedule the Canadian Pacific Steamship's liner "Empress of Canada," Captain A. J. Hailey, again demonstrated her right to the claim of "Queen of the Pacific." The Canadian vessel left Vancouver twenty-four hours behind the American liner "President McKinley" bound for Yokohama recently. The "Empress of Canada" docked about 3 A.M., and the "President McKinley" arrived at 8 A.M.

Two thousand Canadian Red Men are expected to participate in the Calgary stampede and to move on to Banff for their celebrations and pow-wow on the Indian Days, July 16th and 17th, during which the citizens of Banff will act as hosts. Pony racing, wrestling on horseback, shooting with the bow and arrow, tent-pitching and camp making contests are among the features,

New Lamp Facilitates Night Work

1 and 2, views of wires as illuminated by streamer lamp. 3, view of the engine in the same light. 4 and 5, the lamp.

IN the past interruptions to telegraph service caused by damage to outside wires could only, in the majority of cases, be rectified by daylight, when the damaged section could easily be located. There is no doubt this was a disadvantage which delayed the recovery of interrupted services. Where the trouble may have been anywhere along the line between points some 20 to 100 miles apart it was not possible to take care of the interruption especially at night. To overcome the disadvantage due to night interruptions to its wires, the Canadian Pacific Railway Telegraphs provided a special electric light and all the linemen on the System were equipped with it, enabling them to successfully take care of interruptions and do their work at night as well as by day. The special light is provided with its power from the locomotive dynamo turbines with which all Canadian Pacific locomotives are equipped.

The special light in itself is of simple construction, the power is derived from the dynamo turbine from the locomotive which provides electricity for the illumination of the headlights and cab lights. A headlight globe is used and an especially designed reflector throws a beam sufficiently strong to allow working operations at a distance of 600 feet. The conducting wire attached to a socket in the cab of the locomotive is of sufficient strength to enable the operator to work any place within two car lengths of the locomotive. There is also a semi-permanent stand to which the lamp can be attached for the convenience of men working at night on bridges or, in fact anywhere that requires a steady flow of light. The lamp can also be interchanged of globes to be used where there is a domestic current, but not with such good effect.

As there is so much that can affect the Telegraph System, such as fire aurora, lightning, snow, wind and rain, the advantage of being able to locate the source of trouble cannot be overestimated and time and time again, when the lines have been seriously damaged during the night, it has been found that the electric hand lamp, which is now used throughout the System, has been of great benefit. During the past winter when the service experienced a considerable number of interruptions the lamp was often used during snow and sleet storms and not in one instance is it known of its having failed to meet all services put upon it. There is no doubt that the perfection of this lamp has been a decided progressive step in telegraph maintenance at night.

The Standard of Comparison

## The Motor Car By Which All Others Are Judged

For over fourteen years McLaughlin-Buick has been "Canada's Standard Car." During this long time it has firmly established itself in the affections of Canadians from coast to coast until today it is recognized as the standard of comparison for all other automobiles.

And this recognition of sterling worth has been well merited. Everything that the highest engineering skill, the most efficient workmen and the best materials could give has been given to make it a car to be proud of, not only as regards dependability and durability, but also in appearance, finish and equipment.

The 1923 models are the finest models in every respect that McLaughlin-Buick ever built. A close inspection and test will more than prove it.

### HOW TO AVOID RICKETS

A Nutritional Disease Affecting  
Young Animals.

Sometimes Called "Bullnose" and  
"Snuffles" — Caused Largely by  
Unfavorable Conditions—Prevention  
and Treatment—Get Rid of  
Chronic Runt.

(Contributed by Ontario Department of  
Agriculture, Toronto)

The occurrence of this disease in young animals seems to be largely caused by unfavorable conditions of life, inducing impaired nutrition of the body. In particular there appears to be a lack of bone development, due to a deficiency of lime salts and other bone-forming elements in the body. Lack of exercise and close confinement in damp quarters are predisposing influences and are a cause of the disease occasionally in foals and calves.

In pigs the disease occurs generally soon after weaning time and particularly in litters born during the late fall and winter months. At this time, improper feeding of the young pigs associated with exposure to inclement weather and close confinement in cold damp quarters combine in accentuating the tendency towards faulty nutrition and ill-health, which are forerunners of Rickets. The feeding of young pigs excessively on corn and also keeping them exclusively on a sloppy diet of buttermilk is at times responsible. In some cases there appears to be an inherited tendency in litters, due possibly to errors in the management and feeding of the sow while pregnant, and after farrowing.

#### Symptoms.

In the case of calves and colts becoming affected with Rickets, they appear unthrifty and develop imperfectly. The bones of the legs become softened so that they gradually bend and become distorted, causing the animal to be bow-legged and enlarged at the joints, and otherwise unsightly shaped. They are prone to lie down a great deal of the time, and

in walking they move stumpy. The backbone also becomes crooked in some cases. Young pigs frequently become affected and, at first, appear to thrive poorly and have an abnormal appetite. This causes in them a craving for dirt and to keep picking up and chewing pieces of stick and bones. They soon begin to develop abnormally and disproportionately, while remaining stunted in growth. They become pot bellied and the head enlarges, giving it a bulging appearance, with the snout deformed, hence the name "Bullnose" being used. They may also breathe with a snuffling sound, while the head remains large. The skin often becomes thickened and cracked and gets discolored with dirt, giving a black sooty appearance to white pigs. Sooner or later, the bones of the legs begin to bend and they become deformed. This causes the legs to become badly bowed and makes them walk very stiff and awkward. The joints become enlarged and the pigs lie down a great deal of the time and, on rising, they keep resting on their knees. The lower ends of the ribs also become enlarged and seem to bend inwards under the body. At times many of the rickety pigs become troubled with piles and prolapse of the rectum, causing it to protrude as a red tumor-like mass behind. Finally they become miserably wasted and thin and remain worthless stunted mortals of no value.

#### Prevention and Treatment.

To prevent the occurrence of Rickets, one of the chief essentials is maintaining a proper mode of living for the mother while pregnant and for the young during early life. This entails rational dieting according to their needs, combined with comfortable living quarters and a reasonable amount of regular exercise and outdoor life in fine weather. In the case of colts being raised artificially on cows' milk, it should be diluted with about one-third water and sweetened with a little sugar. In the case of pigs they must receive suitable diet after being weaned. They should not be fed exclusively on dry corn, nor on chopped oats composed largely of the hulls, nor entirely on butter milk. In winter, young pigs should be given a clean, dry, warm, place to sleep in and the bedding should be changed daily. This is particularly essential in the case of late fall and winter litters.

The diet should be suitably balanced and consist of a mixture of ground oats free from hulls, corn meal, ground barley and shorts with a little salt, chalk and charcoal added from time to time. The feed should be given mixed with milk or water as a thick slop. A little ground oil cake or bone meal and skim milk is also good. As the pigs increase in size the diet can be gradually changed. They should be allowed plenty of range and pasture in summer. When young pigs are noticed showing a tendency of developing Rickets, the progress of the disease can often be arrested and a complete recovery obtained, if taken in time, by changing and supplementing their diet with tonics. The diet should be arranged as already described, with the addition of some digester—tankage and bone meal. To the drink can be added lime water and to the feed a tonic composed of sulphate of iron one part, bicarbonate of soda and charcoal four parts. These ingredients are mixed thoroughly together and a spoonful of the mixture added to the feed allowance of each pig once or twice a day. In cases of pronounced Rickets in pigs, where they become chronic runts, they are not worth treating and should be got rid of.—C. D. McGilvray, Principal, Ontario Veterinary College, Guelph.

The sow and the cow and the good laying hen  
Have proved the financial salvation  
of men.

#### The New Farm House and Trees.

When planning to build a farm house it is well to select a location near good trees, so that their shade may be used and enjoyed by the family every day during the summer. It takes so long to grow good trees that existing ones should be cherished and utilized to the fullest extent. If trees must be planted they should not be placed directly in front of the farm house, but should be put somewhat to each side so as to make a frame through which a view of a portion of the front is obtained.

#### Meerscham Houses.

Several houses in a Spanish town are built of meerscham, a coarse variety of which is mined in the neighborhood.

## AMATEUR Photographic Supplies Waterdown Service

Frequently we have been asked by customers to stock Films, etc. Realizing that a complete amateur service was needed in Waterdown we have secured the local agency of the Canadian Kodak Co., handling the full celebrated Eastman photograph line comprising the Brownie and Premo Kodaks, Films, Developing Paper, Solution and all Developing and Printing Apparatus, etc. We are also adding a Printing and Developing Department, and in this branch of the service can guarantee our patrons prompt and satisfactory work at City prices. We are sure that local Photo fans will appreciate our efforts to serve them.
