### Mary Pickford

The World's Greatest Star in the World's Best Story of Childhood

## "A Poor Little Rich Girl"

In Six Smashing Reels

A PICTURE THAT WILL LIVE IN YOUR MEMORY

World's Greatest Newspapers Acclaim Mary Pickford's "A Poor Little Rich Girl"

NEW YORK TELEGRAPH said:

"The production is a genuine credit to Mary Pickford, Maurice Tourneur and his authors, and the work of a well-chosen cast also deserves comment. The lavish settings, fine photography, lighting and tinting effects, combined with a story that is novel, full of humor and pathos and subtly instructive, make it one of Mary Pickford's best—perhaps the most satisfactory picture, every detail considered, in which she has ever appeared."

NEW YORK HERALD said:

"Needless to say, Gwen is a typical 'Little Mary' role, giving every opportunity for the Pickford pout, smiles, curls and cute mannerisms. Miss Pickford's playing of the appealing role has much charm, and the Aircraft Film Corporation evidently spared no pains to give it an artistic production."

NEW YORK EVENING SUN said:

"'Little Mary' Pickford is pre-eminently qualified to interpret sympathetically the woes of 'A Poor Little Rich Girl' and she did so to the entire satisfaction of her most ardent admirers yesterday at the Strand. The settings for the photoplay are elaborate. There are many amusing moments of real comedy in the picture. There seems to be no limit to the illusion of extreme youth which Miss Pickford is capable of producing and the 'Poor Little Rich Girl' no doubt will be better liked than any of Mary Pickford's recent pictures."

NEW YORK TIMES said:

"The fact that Mary Pickford acted the title role in the 'Poor Little Rich Girl' added to the interest of the translation into movie form of one of the most imaginative plays the American stage has produced."

We take pleasure in announcing that Next Tuesday, July 31st our first feature of the New Metro Wonderplays will be shown featuring the world's greatest, emotional actress MME. PETROVA in "MY MADONA" in five acts.

## Save the Horses for Farm Work

The average farmer has enough work for his horses right on the farm. He can ill spare them to pull a buggy or a phaeton. And his own time is valuable, too. With farm labor so scarce, he cannot afford to spend half a day or a day to drive a horse to town and back, when he can do it in an hour or two in a Ford.

### It Costs Less

A Ford car soon pays for itself in the time it saves the busy farmer, costs less to run than a horse. It doesn't eat its head off when idle.

Mr. S. M. Smith, of Holstein, Ont., says: "I can run my Ford more miles with less expense than a horse." His experience is typical of thousands of others.

Mr. W. A. Fallin, of Vermillion, Alberta, states that he has driven his Ford more than 13,000 miles over muddy roads, prairies and fields in every kind of weather. His entire maintenance expense for three years, outside of one set of rear tires, has been only \$3.35.

With the cost of running a Ford less than driving a horse, it doesn't seem good business to drive a horse to town and tire him out so that he is not fit for work on the farm the next day, now does it!

### Never Tired

That's the great beauty of a Ford! It never gets tired. It whisks you to town and back, or takes the children to school, or your

wife to visit a friend, 15 miles down the line, without any slowing up for breath or any urging with a whip. You don't have to say "gid-dap" to a Ford. And as for hills, well it scurries over them like a squirrel climbs a tree.

It is as easy to drive a Ford as to drive a horse. It is just the car for country service. Narrow roads or sharp turns do not bother it. It can turn completely around in a very little larger space than a horse and buggy. It is not afraid of a traction engine, a street car or train or another motor car. It never "shies." It stands without hitching.

The initial cost of a Ford is small—\$495 for the touring car. If you care to sell it at the end of one year, you will find many buyers who will offer you the first price, less \$125. Consider, therefore, how much pleasure you can have in a year for \$125; how many hours of tedious travel; and how much horseflesh you can save. Don't you think it is a good "buy"?

## Stumpage More Than Doubled

That in South and West to be \$4 and on the North Shore \$3 per Thousand, All Pieces be Sawn

From August first the stumpage on all N. B. crown lands tributary to the River St. John and the Bay of Fundy will be four dollars per thousand superficial feet, whether the lumber is spruce, fir, pine or hemlock. The rate on other crown lands will be three dollars per thousand, except in cases where the postage exceeds forty miles, when a reduction may be made by the minister; but in no case is the reduction to bring the rate lower than two dollars.

Stumpage is also increased on the Blue Bell tract and the order-in-council which not only reduced the rate but remitted the stumpage on that tract was ordered rescinded. The Royal Gazette of Wednesday gives the stumpage regulations and part of them are as follows:

As a protection to the government against lands being held under license for speculative purposes and not operated on, all licensees shall make such operations annually on the lands held by them under the license as to be deemed reasonable by the Minister of Lands and Mines shall have the power to call upon any licensee to cut to an amount equal to at least 10,000 superficial feet of lumber for each square mile of licensed land held by him and may require that such operation or cut shall be made on such blocks of timber lands held by the licensee as the Minister of Lands and Mines may determine or direct. Should the licensee prefer to pay the stumpage that would be due on such quantity of lumber at 10,000 superficial feet per mile instead of making the required operation or cut, he shall have the right to do so in any year on his notifying the Minister of Lands and Mines to that effect and obtaining his consent thereto, and such charge in lieu of stumpage shall be payable on or before the first day of August. On failure of the licensee to comply with any of the foregoing conditions the licensee shall be forfeited and the berths held under them shall become vacant and be open for application by any other person.

It is provided that in future operations trees shall be sawn down at the swell of the roots instead of being chopped down, and that the saw shall be used instead of the axe in cutting the tree into lengths. The trees shall be topped off as small as five inches in diameter and the lower limbs of every fallen tree shall be lopped off so that the top will lie flat on the ground to rot. Scalers will be instructed to scale any and all tops left in the woods up to five inches in diameter. No spruce or pine trees shall be used for skidding or building roads and if such are used will become a charge against the licensee.

The provisions of Chapter II, § George V., 1913, are now applicable to all Timber Licenses now in force, no licensee applied for, except so licensees who elect to renew their existing licenses which are in effect, if the licensee so desires, until 1st August, 1916, when they become utterly null and void. All licensees, whether new or renewed, are subject to the provisions of these regulations.

Saw mill licenses extend for a period of twenty years from 1st August, 1913, with a renewal of ten years as specified in above Act upon continued compliance with the said Act, with the Order-in-Council dated 10th July, 1913, providing for the payment of the bonus as set forth in said Act and these Regulations.

Pulp and paper licenses extend for a term of thirty years upon compliance with above Act, the Order-in-Council of 10th July, 1913, providing for the payment of bonus as set forth in said Act and these Regulations.

The stumpage payable on all logs, timber or other lumber, but or made upon Crown Lands under license, shall be as follows:  
For Spruce, Pine, Fir, and Hemlock saw logs, per M. superficial feet \$3.00 to \$4.00  
Hardwood Timber, up to the average of 14 inches square, per ton 1.10  
Hardwood Timber, above 14 inches, additional per inch, per ton 0.10  
Hardwood Logs, per M. superficial feet 1.25  
Pine Timber, up to 14 inches

## County Court Met On Tuesday

### Grand Jury Found no Bill Against Miss Williams--Petit Jury Disagreed-- One Civil Case

Northumberland County Court met Tuesday forenoon, Judge McLatchy presiding.

The following were chosen grand jury: Mayor C. J. Morrissey, foreman; Coun. John W. Vanderbeck, J. Mac P. O'Brien, Howard Wilton, H. H. Carvell, James D. Johnston, S. D. Heckbert, James Stables and D. Doyle. D. S. Croghan was excused, because his company was the plaintiff in one of the cases.

In his charge to the Grand Jury Judge McLatchy referred very feelingly to the late Hon. L. J. Tweedie, who was much in the public mind for some forty years. In him N. B. had lost one of its foremost sons, and the North Shore a most prominent citizen, leaving a loss that will long be felt. Mr. Tweedie was a man of strong feelings, a man who in the course of his public life made some enemies as all of us are likely to do, but he was, no less, a man of strong affections, and made many lasting friends. He was one of the most successful lawyers in the province, one who had a deep knowledge of human nature. He felt he had lost a personal friend. Mr. Tweedie was a strong friend of the North Shore—always ready to help and counsel. When Campbellton was blotted out, Mr. Tweedie was Governor of the province, and lent every assistance. Six months ago, when Restigouche county was being unfairly treated in the matter of the Patriotic Fund Assessment, Mr. Tweedie helped to have it remedied.

His Honor then referred to the year. Never in its history was it at a more critical stage and the end was not in sight. Northumberland county had nobly done its duty in the matter of enlistment and contributions.

There were two criminal charges: King vs. Williams, defendant charged with taking from her employers, Mr. and Mrs. Thomas J. Jardine, Blackville, \$185 in cash, a jewel case, lock and chain, and a piece of velvet. Miss Williams was an inmate of the house from April 5th to May 15th last. Other inmates were Mr. and Mrs. Jardine, son Hayward Jardine, daughter Gladys Jardine, and a girl from Halifax.

The latter was described by some as being simple. Dennis F. Sullivan slept in the house, also. Mr. Jardine, a blacksmith, whose wife kept a little store, was making more money than he spent, and gave his surplus to his son Hayward to buy a suit for him. Shortly before April 25th, when Hayward Jardine went

to the drive, the father and son went to Hayward's trunk to get some money for the latter to use for his trip. They found \$205 in a roll and Hayward took out \$20, leaving \$185, which was put in a box in the lid of the trunk. Besides this, there were 5 ten-dollar gold pieces and two ten-dollar bills. On April 28, Mr. Thomas Jardine opened the trunk and could not find the \$185, but the \$70 was untouched. Miss Williams left on the 5th of May, her month being up, and leaving her valise and trunk behind. She sent and got her valise. Mr. Jardine sent for Peter J. Young, J. P., and opened Miss Williams' trunk in presence of Mr. Young and Mrs. Jardine—found no money, but it is alleged, found several articles which Mrs. Jardine claimed belonged to her. Hence the charge.

The next criminal charge was King vs. Thomas Cantwell, charged with (1) attempting to break and enter J. D. Creaghan Co.'s store in Chatham on night of June 4th, and (2) damaging by light the same shop to the amount of about \$20.00. Witnesses, on preliminary trial, spoke of seeing Cantwell in or near the vestibule of the store shortly after the crash of glass was heard about midnight. Mrs. Bernhart had seen a man go up a cross street, then turn round and go down, and thought it was the prisoner.

The Grand Jury brought in following verdicts:

King vs. Williams—No Bill  
King vs. Campbell—True Bill  
Mr. Campbell, being put on trial, claimed that he, immediately after the crash, met a stranger, going up the cross street and lost sight of him. He, himself, was the man Mrs. Bernhart had seen going down, but he had not gone up.

The Petit Jury were: John H. Ashford, Hugh Drummond, Andrew McCabe, Edward Hickey, Geo. T. Bethune, John Johnstone, Charles Sobey, Chas. Smallwood, John Duhie, John Mullin, Wm. McGrath (Barnaby River) and John Irving (Chatham).

Civil Case  
There was one civil case: A. A. Clarke & Co. vs. John O'Brien (Newcastle), re Bill of Exchange.

The civil suit was won by the plaintiffs.

## Millerton Pulp Mill Busy

Now Producing Fifteen Tons of Pulp a Day

The pulp mill of the N. B. Sulphite Fiber Co. Ltd., at Millerton, N. B., is now working and we understand from the management that they can still give employment to a few more men, who were formerly in the employ of the N. B. & P. Co. at that place. The mill produces pulp at the rate of 15 tons daily.

TO TAKE COURSE  
Sergeants Allan Alexander and Daniel Jardine, of the Wireless Garrison, went to Aldershot, N. S., on Tuesday to take a six week's course in physical training and bayonet fighting.

## HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's step-sister told my husband if he did not do something for me I would not last long and told him to get your medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. LOWERY, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ills, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

### CHARGED WITH MURDER

The charge of murder was preferred against John O'Brien and Everett Carland in the St. John police court Tuesday, on information laid by Robert Harris, who deposed that he believes the defendants caused the death of his son Robert Harris, jr., by batting and striking him, causing injuries from which he died. The prisoners are plumbers, who have been on strike since May 1, and the victim was an apprentice plumber, who did not join the strikers. O'Brien and Carland, who are in jail on charge of intimidation, were witnesses at the coroner's inquest, but pleaded ignorance of the attack on Harris.

## Sewer Extension for Upper End of Town

(Continued from Page 3)

The vote on Ald. Durick's amendment was then taken, and resulted as follows:

Yea—Ald. Doyle, Durick, Sargeant.

Nay—Ald. Kingston, John Russell, P. Russell, Ritchie and Troy.

The motion was then put and was defeated without division.

Ald. Sargeant explained that when he had made his first motion he had fully intended to have water main changed from four inch to 6 inch.

Mr. Fish's second report was then taken up.

Ald. P. Russell moved, That the report be received and council authorized to go ahead and build the sewer. Seconded by Ald. John Russell.

Ald. Ritchie asked if Pleasant Street sewer was not overtaxed now, and would it not, if extended, need another outlet. He would like to have some information from Mr. Fish on this matter.

Ald. Doyle moved That Mr. Fish be heard on the matter. Seconded by Ald. Kingston and carried.

Mr. Fish said that, previous to his putting down the matter of water and sewerage on Jane Street with the railway authorities, as the Board of Trade and especially the Board of Health were negotiating with the railway in the matter. Therefore the Light and Water Committee had not written the railway since the last council meeting.

Ald. Durick did not think that Ald. John Russell, as chairman of a committee, had any right to disregard or countermand the instructions of the council.

On the Mayor's suggestion, Ald. Durick moved That the Town Clerk be authorized to write the C. G. R. on the matter.

The Mayor said that after consulting some of the Aldermen, he had waited on General Manager Hayes about a month ago and proposed to him that the C. G. R. put in water and sewerage on Jane Street, the town to remit all rates thereon until cost of construction was repaid. Mr. Hayes' last letter to him was to the effect that the further working out of the matter would be left to assistant manager Brown. He had not heard from Mr. Brown.

Ald. John Russell said that this was news to him. But the Board of Trade had dealt with the same matter some time ago, and had sent delegates to Moncton, backed up by a strong letter from the Board of Health, to interview the railway authorities. Consideration had been promised them, and that was why he felt that he town council should not, at this stage, take up the matter.

The Mayor said that no one alderman should put his conclusions before those of the committee.

Ald. Sargeant moved, seconded by Ald. Doyle, That the Light & Water Committee have an extension of time to write the C. G. R. about Jane Street water and sewerage.

Ald. Durick thought that the committee should keep on hammering for what they wanted.

Motion carried.  
Adjourned.

Mr. Fish—Yes.

Ald. Sargeant—What is the reason that the manhole at Street's Corner where Dr. Sproul now lives, half fills when there is a big run of water?

Mr. Fish said he did not know just where the trouble was. But he supposed that waste water must be getting into that sewer somewhere. He did not see that a larger outlet was needed.

The Mayor—There is sometimes three or four feet of water in the manhole near R. H. Armstrong's.

Mr. Fish said this would be due to a temporary block.

The motion that the council proceed to build the sewer under consideration was adopted, Ald. Ritchie voting nay.

Ald. Doyle moved That a donation of \$50 be granted the band for a concert once a week until October 1st.

This was seconded by Ald. John Russell and carried unanimously.

The Mayor said that Miss Craig had complained to him about the overflow of the spring in Mrs. Craig's field, which spring is claimed by the town, flooding her garden and sometimes her cellar. The water also interfered with the property of John Kingston, Sr. Could not that spring in Mrs. Craig's field, he asked Mr. Fish, be piped over to Brown's Brook?

Mr. Fish replied that the natural outlet for that water is the valley across the Manse property, thence back to the Orange Hall, and on down through the Davidson property. To take care of it would mean going on to private property. He presumed that, under the rights possessed by the old firewardens, the town could handle the water.

The Mayor recommended that a motion be passed authorizing the Public Works Committee to go with Mr. Fish and look into the matter.

Ald. P. Russell said that a wooden pipe of 8 or 9 inches used to run from that spring. It is now probably, filled up. Either a terra cotta pipe should be put in on the tank filled up. People should look after the water on their own property.

Ald. Sargeant understood that the town owns the right of way to that spring.

Ald. P. Russell disagreed with this view of the matter.

Ald. Doyle said that it was claimed some years ago that Kingston and Stables had stopped the drain from that spring. The town had no right, he thought, to look after the overflow on private property. But the town ought to help. A pipe to Brown's Brook would not solve the problem, as there are several springs in the vicinity.

Ald. Troy moved That the Public Works Committee confer with Mr. Fish re the Craig well and make a recommendation at next meeting. Seconded by Ald. Ritchie and carried.

Ald. Kingston disagreed with Ald. Doyle's statement about Kingston and Stables blocking the drain. Some years ago Ald. Doyle had sent men to make a drain through his (King-

Ald. Durick asked if the Light & Water Committee had had any reply from the C. G. R. authorities re water and sewerage on Jane Street.

Ald. John Russell said that he did not consider it wise for the Town to open up the matter of water and sewerage on Jane Street with the railway authorities, as the Board of Trade and especially the Board of Health were negotiating with the railway in the matter. Therefore the Light and Water Committee had not written the railway since the last council meeting.

The Story Of The Stairs

Every time you go up stairs you test your state of health—the condition of your blood.

Do you arrive at the top of the stairs breathless and distressed? Does your heart palpitate violently? Do you have a pain in your side? Perhaps you even have to stop half way up, too exhausted to go further without resting. These are untelling signs of anaemia. As soon as your blood becomes impoverished or impure the stair-case becomes an instrument of torture. When this is so you are unfit for work; your blood is watery and your nerves exhausted, you are losing the joy of an active life and paving the way for a further breakdown and decline. In this condition only one thing can save you. You must put new, rich, red blood into your veins without further delay and so build up your health anew. To get this new, rich blood give Dr. Williams' Pink Pills a fair trial, and they will give you new vitality, sound health, and the power to resist and throw off disease. For more than a generation this favorite medicine has been in use throughout the world and has made many thousands of weak, despondent men and women bright, active and strong.

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont. (adv't.)

RAIN OFF AT JACQUET RIVER

The Maritime express, No. 4, due in Moncton, at eight fifteen o'clock Saturday morning, was derailed near Jacquet River. The engine and 9 cars were off the track. The passengers were transferred and arrived in Newcastle that afternoon about one o'clock. No one is reported injured. The run-off caused all the trains from north to be late.

## PROTECTION OF CROPS

Crop protection means crop production. Canada loses over one hundred million dollars worth of her staple crops every year through the depredations of insect pests. A large portion of this loss could be prevented. As we cannot afford to lose the smallest portion of our grain and other food crops during the present critical period when the production of food is of supreme importance, the Dominion Department of Agriculture is making every effort to prevent, so far as possible, losses due to insect pests. Crop protection must go hand in hand with crop production.

Insect pests are not usually noticed or reported until they have caused considerable damage. Therefore it is urged that the closest watch be kept on all crops for the first appearance of any insect pests or damage. Immediately such damage is observed steps should be taken to control the outbreak in its incipient stage. If the pest or the method of control is unknown specimens of the insect and its injuries should be sent at once to the nearest of the following sources of expert assistance: The Agricultural Colleges, the Provincial Departments of Agriculture or their local District Representatives, or direct to the Dominion Entomologist, Department of Agriculture, Ottawa, for examination and advice in regard to control measures to be furnished without delay. Letters and packages up to 11 ounces in weight may be mailed to the Dominion Entomologist "Free," but postage will be required on letters or specimens sent to the other sources of advice mentioned.

Do not delay reporting insect outbreak or sending inquiries; delay may involve serious losses that could otherwise be prevented. Write immediately, or telegraph if the outbreak is serious. Clean farming, the securing of vigorous growth in young plants and good cultivation are the best protective measures against insect attack. Keep all crops constantly under supervision for the first appearance of insect pests. Keep all crops constantly under supervision for the first appearance of any damage in order that

it may be checked without delay. Increased crop production involves increased protection against pests.

## FINLAND DECLARES INDEPENDENCE

Helsinki, July 21—The bill whereby Finland seeks to wrest complete independence from Russia was adopted by the Diet amidst scenes of unexampled enthusiasm and solemnity.

A conflict with Russia is regarded as inevitable because of the faction of the Finnish Diet in adopting a bill granting independence to Finland. The Socialist members of Parliament assert that Petrograd has its hands too full with its own troubles to attempt repression.

The Diet rejected, 104 against 87, a proposal by M. Talas, member of the young Finnish party, that the law as prescribed by the constitution be submitted for Russia's approval or veto.

A final vote was taken on the resolution of M. Hornberg, member of the Swedish party, the import of which was that the Diet reserve the right to break the last bonds with Russia. The Hornberg resolution was defeated chiefly by the vote of the Socialists themselves, who stand for the policy, but object to following the initiative of the non-Socialist parties.

It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing Irezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of Irezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so softened that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

**Studebaker**

Before you buy any car  
Investigate the Canadian Built  
Studebaker Car

YOUR car is probably the second most important investment you will ever make. FIRST—comes your home. THEN—your car. Before you buy that car stop and think. Are you going to be completely satisfied with it? Is it sure to be the comfortable car you want? Motor car comfort has been a thing of slow development. It means more than the physical ease of a fireside chair.

**POWER** is the first factor of automobile comfort. No man can be thoroughly comfortable in his car if he has to be continually pushing pedals and pulling levers. You want a car that will climb the hills and pull through mud and sand without appreciable effort; a car that will take you anywhere with a minimum shifting of gears.

The Studebaker FOUR has full 40 Horse Power—the Studebaker SIX has full 50 Horse Power. Both cars are built in Studebaker factories at Walkerville, Ontario. They are probably the most powerful cars of their weight on the market today.

**ROADABILITY** is a point of automobile comfort. You want an easy driving car, one that does not jump and sway and make you work to hold it in the road. The perfect balance of the Studebaker chassis, the basic design of which has been continually improved and refined over a period of four years, makes the Studebaker car one of the most roadable cars in the world. A Studebaker car drives straight as an arrow and has no tendency to jump or sway.

**DEPENDABILITY** is another point of automobile comfort. Studebaker uses the best vanadium steel in its chassis construction. Studebaker uses drop forgings wherever possible to add strength and lightness.

The use of high grade materials and of skilled, experienced labor makes for the mechanical perfection of Studebaker cars—which in turn makes for unusual durability.

Studebaker brakes are oversized—the area of braking surface is very large. A slight pressure on a Studebaker brake will bring you to a gentle halt, a stronger pressure will stop you within a few feet.

Think how it will add to your comfort to know that yours is a durable car with thoroughly dependable brakes.

There will be no change in Studebaker models this year, but the increased cost of materials and labor may force Studebaker to make an advance in prices at any time without notice.

## Sewer Extension For Upper Part of Town

### Over-Expenditure for Sewers Discouraged by Majority Vote of Town Council.---- Subsidy for Band

Newcastle Town Council met in regular monthly session, Thursday evening, July 19th, Mayor Morrison in the chair; aldermen present: D. P. Doyle, W. L. Durick, F. Kingston, John Russell, P. Russell, J. H. Troy, and later, C. Sargeant.

Geo. Stables, chairman of the local Board of Health, and Wm. E. Fish, C. E., were also present.

Minutes of last meeting were read and confirmed.

Following communications were read:

Newcastle, July 18, 1917.

To the Mayor and Aldermen of the Town of Newcastle:

We, the undersigned, residents and house owners of Leddee St., claim that we have a right to a sewer on this street and its vicinity. We built our own houses without any inducements being held out to us, except, perhaps, that by our employers. We had to instal cesspools and the malodorous outside closets—menaces to health and decency—as long as it was possible—and now desire and deserve a safer, sweeter atmosphere. Our fathers have lived and died here, and while we are in favor of immigration and would gladly welcome all the people that the town may be made able to hold, we do not believe in giving fresh incomers special privileges to the detriment of those who have been here since the "long ago." We are peaceable and law-abiding citizens, but we want fair play, and we implore you, each one of you, to see that we get it. As your war cry and slogan was sewers at the last election, we trust and hope that the upper end of the coun-

try will not get all the leaves and fishes, but that we shall have a sewer in this end of the town, namely on Leddee Street.

We beg to remain yours very truly

Referred to Petitions Committee

Newcastle, July 17, 1917

To His Worship the Mayor and Aldermen of the Town of Newcastle, N. B.

Gentlemen:

For some time past, the Board of Health has been receiving complaints from citizens regarding sanitary conditions in different parts of the town.

Upon investigation, we find conditions very bad in some localities, especially on the upper end of Pleasant Street, Willow and Falconer streets; on Leddee street, and in the vicinity of the Railway Station.

We wrote the Railway authorities some time ago, asking that some action be taken to remedy conditions at the station, but as no move has yet been made in that direction, we would ask that your body also take the matter up and endeavor to have the Rail way discontinue the use of their cess pools which are a menace to the people living in the neighborhood.

The people living on the upper end of Pleasant Street, and on Willow and Falconer Streets have no means of disposal of their sewerage; and the same applies to the residents of Leddee Street. We would therefore urge on the council the advisability of providing these sections with sewerage at the earliest opportunity possible, as until this is done, there is no way of bettering the sanitary conditions which are now bad, and the health of the residents of these sections will continue to be endangered.

Trusting that your council will give these matters your earnest consideration, we are, Yours Truly,

(Sgd.) Geo. Stables, Chairman

Andrew McCabe  
J. H. Lindon  
R. Nicholson, M. D., Sec.

Board of Health.

This was referred to Petitions Committee to be reported upon as soon as possible, not later than next meeting.

Ald. Kingston said that, as one of

Ald. Kingston said that, as one of Light & Water Committee, he had asked Mr. W. E. Fish, C. E., to make a survey of the Pleasant Street extension and George Street sewers, Mr. Fish was present and he would ask that Mr. Fish be heard later in this matter.

Following bills were ordered paid:

Finance

Union Advocate \$2.33

Light & Water 14.00

T. McAvity & Sons 32.75

Sumner Co. 180.80

Can. Gen. Elec. Co. 227.55

The next order was unfinished business.

Re Mr. D. Piggott's petition for use of town hall two nights each week for the giving of music lessons, the Mayor said that the council chamber belonged to the Police Magistrate for the purpose of a court room. If Mr. Piggott were granted any room it would have to be the town hall.

Ald. Doyle said that if Mr. Piggott was anxious to have the Town Hall, of which little use was being made most of the time, and was willing to pay \$10 a week for its use two nights (the cost of heating and lighting being about \$4 a night), he would be willing that he should have it. Ald. Doyle moved to that effect. Seconded by Ald. P. Russell and carried.

It was resolved that Mr. Wm. E. Fish, C. E., be heard.

Mr. Fish, on being given the floor submitted the following reports in writing:

Light, Water and Sewerage com-

mittee, Corporation of Town of Newcastle, N. B.

Sir:—In reference to the cost of a sewer and water main extension along the street leading northerly from the residence of Mr. James Stables to the Railway Station, I find that, to reach a point 200 feet north of the west side of the road recently opened through the Dalton property, 1240 feet of sewer main will be required; also to extend the 4 inch main from its present northerly end in Sportsville to the north limit of the proposed sewer extension, 644 feet will be required.

The bottom of trench to be excavated will, I think, at some points, be in shell sandstone, and expense beyond cost of ordinary ditching. The cost of this 10 inch sewer completed, would, I estimate, be about \$1775.00. While the sewer trench is open, the water main can be trenched and so minimize cost.

Estimating 4 inch water main to cost \$90 per ton and that 6 1/2 tons will be required, we have for cost of main \$585.00; for laying and jointing \$175.00, making a total of \$760.00.

While I have estimated on an extension of the same sized main as is now in use, which for the purpose of house supply may be adequate, it is much too small for hydrant service and the question of putting down a pipe of at least 6 inch diameter might, under the circumstances, be advisable.

Estimated cost of sewer \$1775.00

Estimated cost of water main 760.00

Total cost \$2535.00

Yours respectfully,

(Sgd.) Wm. E. Fish, C. E.

19th July, 1917.

Light, Water and Sewerage Committee, Corporation of Town of Newcastle, N. B.

Sirs:—Relative to a proposed extension west and north of the present town sewer system from Willow Brook crossing of Pleasant and an estimated cost of same, I have, as requested by you, looked into the matter, and the following summary is herewith submitted for your consideration:

From the present westerly end of Pleasant Street sewer, which is close to the easterly side of Willow Brook, the extension proposed will begin and continue westerly to an intersection with the Marsh Road (so called) a distance of about 475 feet; thence from a point on this line, near the residence of Robert Kingley, an extension northerly to King's Highway will be some 375 feet; thence westerly along King's Highway to the residence of Haley Phinney 375 feet, making in all a distance of 1225 feet. The excavation will, I judge, be altogether in clay, sand and gravel. Adjacent the streets here referred to are some fourteen dwellings that will probably make connection as soon as the sewer main is laid. Vacant lots for some eight buildings are in proximity. I would advise for this extension a sewer pipe 10 inches in diameter, also four manholes. The estimated cost for pipe, excavation, and back filling of trench, manholes and T connexion I would place at \$1380.00.

Yours respectfully,

(Sgd.) Wm. E. Fish, C. E.

19th July, 1917

Ald. Kingston moved that the reports be received and contents noted and the town enquire into these matters as well as the cost of all other sewerage asked for.

Ald. Sargeant asked how much there had been appropriated for sewerage.

The Mayor—\$1200

Ald. Sargeant—How can we get the money, then, to build any more than what that \$1200 will pay for?

The Mayor said that the two sewers reported on could be built. If these sewers and others are built, as they should be, the money can be raised by issuing bonds, out of the proceeds of which could be paid any overexpenditure incurred.

Ald. Sargeant moved that Mr. Fish's reports be received and the council go ahead and put in the two sewers.

Ald. Kingston seconded this motion, but at Ald. Troy's suggestion the two reports were considered separately.

Ald. Sargeant then moved that sewerage and water be put in as described in Mr. Fish's report on sewerage and water from James Stables' property to a point on George Street 200 feet north of the west side of the lane recently opened through the Dalton Property.

This was seconded by Ald. Kingston.

Ald. Durick said that while Mr. Fish suggested a six inch water main instead of the 4 inch which now runs up part of George street, he had estimated on a four inch pipe and had given no estimate of the additional cost of a six inch pipe. While the Council seemed anxious to open up sewerage on this one street there are unsanitary conditions on other streets, especially on Leddee Street. He would like to have all the required sewerage put in together. It was a poor policy to put in the sewerage piecemeal. The whole could be put in at a cost which in ten or fifteen years would pay for itself.

Ald. Ritchie said that the whole question was whether the town could afford to do so much work

this year. He did not think the time was ripe. Under the circumstances, no more should be spent for sewerage than what is provided for in the appropriation. He would oppose the undertaking of any work not so provided for.

Ald. P. Russell opposed the putting of sewerage on George Street, because the town owned along part of that street a width of only 20 feet.

Ald. Kingston said that now, because of the question of the six inch water main, he wished to withdraw as seconder of the motion.

The Mayor said that he did not know how the seconder of a motion could withdraw.

Ald. Durick was in favor of water and sewerage on George Street to the station, but he would vote against putting in a water main of only four inches, because he thought a six-inch main was needed.

Ald. Durick moved, in amendment that the Council go ahead and put in the George Street sewerage and water, with a six inch water main instead of a four inch.

This was seconded by Ald. Doyle, who said it was of no use to extend a four inch pipe when a six inch main was needed. Make it all six inch.

Ald. John Russell wanted to know, before this report was dealt with, what was to be done with the other report and the petitions not yet reported on.

Ald. Ritchie again wanted to know where the money was to come from.

The Mayor said it could be taken out of the current account.

Ald. Ritchie did not think that would be wise—it would produce a deficit. He did not want an overdrawn account. There was no guarantee that the extra houses would be built on George Street.

The Mayor replied that the Council had Mr. Rive's letter that he would build three houses the first year.

Ald. Doyle said that the people now living on that street wanted sewerage. If Mr. Rive never built the houses, the people now living there had the right to sewerage.

The Mayor had no doubt that Mr. Rive would give all the bonded guarantee needed.

Ald. Sargeant understood that Mr. Rive has two of his proposed houses already bargained for.

Ald. Kingston thought it was only fair that sewerage that had been previously asked for should be considered.

THURSDAY JULY 26th, 1917

**PROGRESS OF THE WAR**

Owing to insubordination amongst the troops on their western front, the Russians have, during the past week lost all of Galicia they had captured since July first, and also the city of Tarnopol, which they had held for over a year.

Prince Lyoff has resigned the premiership of Russia, and is succeeded by the great and heroic friend of the Allies, Alexander F. Kerensky, who is reported to have been given full power to deal with the situation.

Several of the separate nationalities of Russia are seizing the chance of declaring their independence, and it would not be wise for us to build any great hopes on Russia's assistance for some time to come.

During the week, the Franco-German front remains about the same as it was.

The United States has commenced to draft its overseas forces.

Siam, an Asiatic State, with five million people of the yellow race has Austria, declared war upon Germany.

**LOGGIEVILLE**

Loggieville, July 24.—The death of Mr. George McIntyre occurred at his home here since our last writing. Mr. McIntyre was in his 77th year, and until his last illness, covering a period of about three weeks, enjoyed fairly good health, always being able to attend to his work. He won the high esteem of all those with whom he came in contact, was well-liked by his fellow workmen. Mr. McIntyre came to reside in this town many years ago. He was a stevedore by trade, and was well known along the Miramichi. He was a faithful supporter of the Roman Catholic church. He was predeceased by his wife about twenty four years. Mr. McIntyre leaves to mourn their loss one daughter, Mrs. A. O'Brien of this town, and four sons, George of Maine, Phil of Chatham, and John and David here. Sympathy is extended to the bereaved ones. The deceased had a host of friends in this town and vicinity. His funeral, which was held on Thursday morning, was very largely attended, people coming from far and near to be present at the last sad rites. Requiem Mass was celebrated by Rev. Fr. Martin, and interment was made in the church cemetery. The pallbearers were John Walls, Alex. Murdoch, Pat Doyle, Alex. J. Murdoch, James Percy and William Kelly, sr. Mr. McIntyre's death is keenly felt throughout our whole community, as his life in our midst was an exemplary one.

Mrs. James Loggie of Wishart's Point was in town this week.

Mr. Philip Loggie numbers with those on the sick list at present.

Knox church choir attended the anniversary service at the Oak Point Presbyterian church Sunday evening.

Mr. and Mrs. John Loggie are receiving congratulations over the arrival of a new member in their family circle.

Miss Emma Morrison of Douglastown, who has been the guest of her sister, Mrs. Babkir, has returned home.

Elroy Weeks is confined to his home with a sore foot.

Frank Godfrey of Black River has been added to the store staff of the A. & R. Loggie Co.

Miss Hazel Johnstone has returned from a visit to out-of-town relatives at Burt Church.

Rev. John Harris of St. John's church, Chatham, occupied the pulpit of Knox church at 3 p. m. on Sunday last, and preached a powerful sermon.

The many friends of Mrs. Phineas Harriman are glad to know that she is steadily regaining her health.

Mrs. J. B. McKennie is visiting relatives in Nova Scotia.

Mrs. William Hierarchy, sr., and Miss Bertie Dempsey are visiting New-Bandon relatives this week.

Frank Russell of Douglastown is visiting his father, Mell Russell, here.

**BAD YEAR FOR ELECTRICAL STORMS**

In the electrical storm Sunday afternoon accompanied by a tremendous downpour of rain, the flagpole on the Chatham Town Hall was struck and splintered and the town hall roof was also uprooted at Chatham and Douglastown. Much damage by lightning has been done the last few days all over the province.

### Serious Fire at Blackville Saturday

Residence of Simon Bean Badly Gutted—Social and Personal Notes

Blackville, July 24—A serious fire occurred at Mr. Simon Bean's residence on Saturday. About one o'clock an alarm was rung from the Chapel and the Presbyterian church. The people soon found that the fire was in the roof of the kitchen. The men and women went to work with a will. All the furniture was removed. Teams hauled water from the pond. They cut their way through the roof and also on the inside of the building. At one time it looked as there were little hopes of saving the building. There was a high wind blowing at the time. If the fire hadn't been stopped the surrounding buildings and residences would have been wiped out. The men and women deserve great praise for their efforts. Mr. Alfred Underhill met with a bad mishap. He kicked out a window and received a bad cut in his ankle. Dr. Beaton dressed the wound. Mr. J. Dale received some bad burns on his back from melted lead. He was up in the roof between the ceiling and the lead was put where the buildings were joined together. The heat was so intense that it melted and run down on his back. The building and furniture are insured.

Mr. and Mrs. Ernest Shields and son Gordon motored from Fredericton and spent Sunday at Mr. J. Dale's. He and his wife made a nice catch of trout Monday morning at the mill dam.

Mr. Moses Schaffer and family were out motoring Sunday in Mr. Bert Underhill's car.

Stanley Crawford arrived home Thursday from Bangor. Stanley says Canada is good enough for him.

Mark Sutherland was here Sunday in his car.

Mr. Robert Gillespie is confined to his home. There is little hope for his recovery.

Miss Helen Coughlan and Miss Harrigan of Nelson, were calling on friends last Wednesday. They returned by train that evening to their home.

Mr. Elwell and wife of Boston, are spending their summer holidays at Mr. George McIntyre's, Mrs. Elwell's father.

A child of Mrs. Walter Johnston found some fruitive tablets Sunday and ate them. It was thought at one time there was little hope of its recovery but the child is out of danger.

Misses R. and L. Stewart of Newcastle, have been visiting for the week-end at Mrs. Thos. McCarthy's. Three children of Mrs. J. Wetmore of Campbellton, Leslie, Nan and Alma, are visiting at their grandfather's Mr. R. Robertson.

Vincent McCarthy of the Wireless has been visiting at his home. Mr. Simon Bean arrived home from Boston Monday night. He came home to have the damage by fire on his residence adjusted.

Mr. Robert McLagan lost a valuable cow last week. The animal was sick only a couple of days.

### Weaver Sliding Social News

An Interesting Letter From Pte. George Veno, Telling of Midnight Raid

Weaver Sliding, July 23—Pte. Earle Weaver of the 236th Battalion, is home from Valenciennes on pass. Mrs. E. Fisher of Newcastle has been visiting her sister, Mrs. Henry Colford.

Miss Wilhelmina Simmons, who has been spending her vacation at her home here, returned to Fredericton on Monday evening.

Miss Greta Weaver had the misfortune to cut her head very badly. Mr. Joseph Simmons spent Saturday in Doaktown on business.

Misses Gracie, Myrtle and Vina Weaver, spent Sunday evening with Miss Gladys Veno.

Mr. Vincent Cashen had the misfortune to have his bicycle badly broken by lightning on Sunday last. Miss Gladys Veno and Miss Wilhelmina Simmons spent Wednesday and Thursday in Blackville.

Word was received here on Saturday evening that Pte. Herman Arbo of the 28th Battalion, had been wounded for the third time. We all hope that it is not serious.

Mr. Edward Hogan, who is working with John Simmons, spent the week-end at his home.

Mrs. Joseph Simmons and family, spent Friday with Mrs. John Simmons.

Mrs. Margaret Nolan spent Thursday afternoon and evening with her brother, Patrick Cashen.

Mr. James Hogan of Blackville, is paying a visit here to his brother John.

There was a train wreck on the track here a few days ago. The engine of a special train was off the track.

Mrs. James Nolan was the guest of her sister, Mrs. Joseph Simmons on Tuesday last.

The following letter has been received by Miss Gladys Veno:

France, June 28, 1917

My Dear Sister:

Just a few lines to let you know I am well, hoping you are the same. Well, Gladys, my old friend, Sandy Peterson, got killed the other night by a big shell. I tell you I am sorry about it, for he was a good friend of mine. We were together ever since I signed on, and it makes you feel bad when you lose a good friend like that. It is hard, but it is all in war.

Harry is well and all the boys from Upper Blackville.

Well, Gladys, I suppose you heard tell of the midnight raid. I was in it, and I tell you it was some sight. It came off June 8th. We were all lined up in the trench and the officers passed the word along eight minutes before we were to go, and I just thought of you and Martha, how you would be sleeping. Then the time was up and the big guns opened fire just like a big thunderstorm in Canada, and over we went. I thought little H—I broke out and we cleaned everything before us, just as we always do. I got a little wound in my right shoulder when I got to the front line, but I never stopped. The boys were all feeling fine when we got back. We lost a few, not many. I am all well now, I don't mind it. Well, I hope this will not make you feel bad, as I thought you would like to hear about that raid.

Well, Gladys, it is not so bad as I thought it would be, so don't worry about me, for we will not die until our time comes.

We are not afraid of the Germans

Mr. Jas. Crawford had the misfortune to lose the only cow he had. His boy was driving it home from pasture. It slipped on the road and broke its leg and had to be killed.

Mrs. Roderick Robertson, our post master's wife, is confined to her bed. She had a slight stroke of paralysis. While endeavoring to rise from her bed she fell against a dresser in her room and cut her head quite badly.

Edmund McDonald, son of Thos. McDonald, was suddenly attacked with appendicitis. He was taken to Chatham Hospital and operated on by Dr. John Beaton assisted by Dr. Loggie. At last report he was out of danger.

Mrs. Gordon McDonald was taken to Chatham Hospital Tuesday night with typhoid fever.

Miss McIntosh of Bathurst and Miss McEwen of Chatham are visiting at Mr. Albert Coughlan's.

Mr. and Mrs. McLagan received a box from their son Arnold who went to France in the Heavy Siege Battery. It contained a souvenir silver and gold spoon marked Arras, also two jewel boxes marked Arras, two aluminum rings made from the fuse of German shells, one marked On the Somme, 1915. His many friends wish him the good luck to come through this great war. He has been in some of the large battles.

Mr. Robert Ross has arrived home. He has been working with the Fraser Co. at Edmonston.

Mr. Charles Grady is home on a visit from Edmonston.

Mr. Cull Schofield is building a residence at the station.

Mr. Swithin is keeping up his record, shooting every day.

## Alleged Profits of The William Davies Company in 1916 on Bacon, as Indicated by Department of Labor to be Five Cents per Pound, Untrue: Actual Profits Two-Thirds of a Cent per Pound

THE statement issued by the Department of Labor concerning the business of The William Davies Company Limited has been given widespread circulation throughout the country and provoked public unrest.

Whatever the technical wording of the report was, the effect has been that the newspapers have published that "the profits on Bacon alone" of this Company "for 1916" were about "five millions of dollars." This interpretation of the official report is not surprising in view of certain statements that the Commissioner of the Cost of Living makes. The Commissioner is reported as saying that "There were two individual cases of profiteering in 1916 and that had these cases occurred since the passage of the cost of living Order-in-Council, he would consider it his duty to recommend that

For the last fiscal year ending March 27th, 1917, The William Davies Company bought and killed 1,043,000 head of Live Stock (Cattle, Hogs and Sheep). This, plus purchases of outside Meats, produced 160,000,000 pounds of Meats. The Company handled 6,550,000 pounds of Butter and Cheese, 5,630,000 dozens of Eggs, and manufactured 26,500,000 tins of Canned Goods.

The net profits on these were .68 cents (or two-thirds of a cent) per pound on meats, 1.04 cents on Butter and Cheese, 1.04 cents per dozen on Eggs, and .47 cents (or slightly less than one-half a cent) per tin on Canned Goods. These profits include profits on all By-Products derived from these accounts.

During the year the Company served at its retail stores 7,500,000 customers, the average purchase of each customer was 35c., and the net profit upon each sale was 5-8 of 1 cent.

The turnover of the Company from all its operations for the last fiscal year ending March 27th, 1917, was \$40,000,000. The net percentage of profit upon this turnover, after deducting war tax, was 1.69 per cent., or including war tax

### Respecting the Report of the Commissioner on the Cost of Living:-

Last Winter the Commissioner, under authority of Order-in-Council, required packers to submit statements under oath for some years back and up to December 31st, 1916, of incoming stocks of Meats and the cost of such, as well as statements of outgoing product and the selling value. This Company represented in writing at the time that the information as specifically required was not in accordance with Packing House Accounting methods, and invited the Commissioner to send an Officer to the Head Office of the Company to examine the books for any information desired, and to secure a viewpoint as to the best way of collecting data which would conform to the Government's requirements. The offer was declined, and there was nothing to do but fill in the information required as literally as we could determine it. For example, there was no recognition of the fact that a raw product may enter a factory under a specific classification and leave the factory as a finished product under some other classification.

We submitted a series of accurate figures based upon our interpretation of the official requirements which made no provision for charges of any description other than incoming freight and unloading charges to be included in the cost or to be deducted from the selling price. There was nothing in the report which could be read so as to determine a profit and loss statement. The very fact that with only a statement based upon cost of raw products and value of sales in Great Britain a Government Official has deduced "Large margins," "Profiteering," and "Criminality" if it had occurred since the passage of a recent Act, shows too dangerous a trifling and incapacity to be permitted to deal with any important situation. The statements of this Company have been treated by the author of this report as if the outgoing product was identical with the incoming product, and from the series of reports he has singled out two items—the Bacon and Egg reports—and from them deduced an erroneous "margin" which the newspapers have interpreted as profit.

The author of the inquiry shows a strange lack of even a fundamental knowledge of simple bookkeeping and a dangerous inability to co-ordinate figures. The following are specific and outstanding errors in the report:

The principal item that is causing excitement deals with cold storage Bacon. The term "cold-storage" is not defined, and the public is allowed to make its own definitions. As all Bacon in a packing house is under refrigeration it is really all cold-storage, and therefore this company's figures of cold storage Bacon represent the complete quantity of Bacon handled in its entire Plant, whether in freezers or in process of cure for immediate shipment. That some com-

The Company does not challenge either the legal or moral right of the Government to investigate business enterprises when public interests direct such an investigation should be made. If an investigation of the packing and meat business is ordered, the Company will place at the disposal of the Government not only the data it would be required to supply under Order-in-Council directing that inquiry be made, but will place the experience of its officers at the disposal of the investigating committee, if it is considered they can render any service which will be of value. The Company has not now—nor at any time during the fifty years of its operation—anything to conceal in method or practice of carrying on its business. It does, however, claim the right to conduct its export business without abusive comment from Government civil servants—especially when the conclusions drawn from the data asked for are improper and false.

One of Canada's chief export industries is the packing business. It is essential to the live stock industry, and, along with other export industries, it maintains the financial stability of this country, and should, providing it is on a sound basis, receive encouragement and not slanderous abuse. In view of the publicity given to the report of the Commissioner on the cost of living, the Company demands the same publicity in having an official Government investigation of this report to determine the truthfulness or untruthfulness of its conclusions. We do not seek public consideration as a company, but we do say that untruthful official statements, or statements the effect of which is to create an untruth,

As far as The William Davies Company is concerned this terminates all public statements of the Company, and it will pay no more attention to speculation and haphazard statements made either by newspapers or civil servants. The only further statement that will be made will be as an official investigation.

the facts be laid before the Attorney-General for consideration as to their criminality." The situation created by such erroneous and damaging statements is serious as emanating from a Government official, from whom one looks for not only accurate statements but correct conclusions.

The William Davies Company, being a private concern, has followed the practice of all private corporations, except when it made a bond issue in 1911, in that it has not published reports of its assets and liabilities or profit and loss. The present circumstance, however, in which a Government Official has led the public to false conclusions, makes it advisable for this Company, for both the public interest and its own interest, to publish particulars of its business as well as point out the error of the statement of the Government Official.

3.45 per cent. The William Davies Company has assets of \$13,385,000 of which \$3,865,000 is tied up in fixed investments.

To provide the necessary facilities for the increased volume of business the Company expended \$750,000 in buildings and equipment during the year.

Companies of other character present no more reasonable statement of profit and loss based upon the investments made in the business.

The William Davies Company offered to the Imperial authorities, as well as to the War Office Service (which represents the Imperial authorities in Canada) to place the output of its Factory with respect to Bacon supplies, Canned Beef and Pork and Beans at the service of the authorities, on the basis of cost plus an agreed percentage. These offers were successively declined as the authorities evidently desired to purchase in the open market, and on this basis The William Davies Company has secured War Office business by open competition with the

same basis as Bacon, and similar deductions must be made.

(Second)—The above margin is further reduced in that the author of this inquiry singled out the Bacon figures as an item in which the selling price shows an alleged improper advance over cost, but he did not give us credit for the statements of other products, of which figures were submitted the selling prices of which were under cost. The reason of this was that through failure to inquire the Department entirely overlooked the fact that product may come in as pork and, through the process of manufacture, go out as Bacon or, in another instance, enter the factory as beef and go out in the form of canned meats; for example: much of the product which came in as pork, and which was entered on the pork sheet submitted to the Commissioner—about which he makes no mention—was cured and left the factory in the form of Bacon, and was, therefore, entered on the outgoing side of the Bacon sheet—the result is that the Bacon sales are increased by this amount over the incoming stocks of Bacon, and, likewise, the sheet showing sales of pork is reduced by the amount that went out in the form of Bacon. If the Department takes one set of figures that show favorable to the Company they should take another set of figures that show unfavorable, as the principle in either case is the same, and failure to do so looks as if the author of the report was exercising more enthusiasm than sound judgment in his investigations.

(Third)—It is queried in the report, that "if the margin of 3.47 cents" alleged to have been made in 1915, "was satisfactory, why was it necessary to show increased margin in 1916?" Assuming again for the moment the soundness of the premises in asking such a question based on an erroneous "margin," it will be found that the increased margin is chiefly absorbed in increased ocean freight rates and war risk insurance in 1916, of which apparently the author of the report was in ignorance.

adversely affect the live stock industry of this country, which is so valuable and essential a wealth-producing power and, in the long run, are harmful to the very people that the statement seeks to benefit.

If the passing out of existence of a corporation such as The William Davies Company, or if nationalization of packing houses would materially and permanently reduce food prices, then in view of the present world tragedy it ought to be consummated without delay. The fact of the matter is, however, that with millions of people in Europe turning from producers into consumers because of the war, and the tremendous destruction of food products incident to war, there is no remedy for the high prices of food while such conditions last, except the remedy of thrift and increase of production.

Long before there was talk of a Food Controller in the United States or Canada, The William Davies Company urged the Government at Ottawa, in writing, to appoint a Food Controller with full power to do what he saw fit, as we realized at that time the upward tendency in the price of food commodities unless checked by official effort. At the most a great deal cannot be done in reducing food prices while currency is inflated and until the scale of prices of all kinds of commodities declines also. What can be done can only be done by a Food Controller. We wish to point out that nothing at all can be accomplished unless the data secured are accurately and clearly made and the deductions therefrom sound. Only public harm arises from dangerous incompetency in the haphazard collection and careless use of important figures.

## Combination Towns Are Needed

Farm Life Must Be Made More Attractive by  
Classifying of Land, Good Roads, Etc.

Speaking of the problem of increasing food production, in St. John recently, Mr. Adams, town planning expert, said it was useless to expect any great increase in the rural population until it had been demonstrated that farming was a paying business, and better social and educational facilities had been provided for the rural communities.

The first necessity was a proper classification of the lands of the country, and he pointed out that the province of New Brunswick had approached this matter in the most business-like way of any of the provinces, and he had been able to point to this province as an example for some of the others to follow.

The land needed to be classified into two great subdivisions, that suitable for cultivation and that for lumber. Then that suitable for cultivation needed to be classified again. Some would be suitable for mixed farming, some for sheep raising, some for fruit growing and some for market gardening. The next step was the teaching of more intensive farming, particularly in connection with the market gardening.

Next in order came the transportation question; here arose the necessity for good roads in the right place. A good road was no good unless it was in the place where it did most good to the most people, and the location was just as essential as the road bed itself.

Following these came the questions of better social facilities, education, co-operation and rural credits, and these would come naturally after the lands had been properly classified and the proper transportation facilities provided.

In dealing with the returned soldier problem Mr. Adams advocates the forming of combination rural and industrial towns. In these towns each soldier would be given a small holding where he could garden and at the same time find employment; and he believes that this would be the best way of dealing with the larger number of returned men, as the majority will not want to settle on farms. This scheme could be worked out in connection with towns and cities already established, or in some cases it might be necessary to establish new towns.

Mr. Adams believes that if the provincial governments would take hold

of this matter, get their lands properly classified and then provide proper roads in the right place, that an exodus from the cities to the farms would take place, because farming would be put on a business and paying basis and increased production become an established fact. Back yard gardening he classed as a temporary make-shift to be used until some plan of permanent improvement had been found, and in his opinion the remedy lay in placing farmers on land adapted for the particular line in which they were interested, and this could only be done by a classification of the lands.

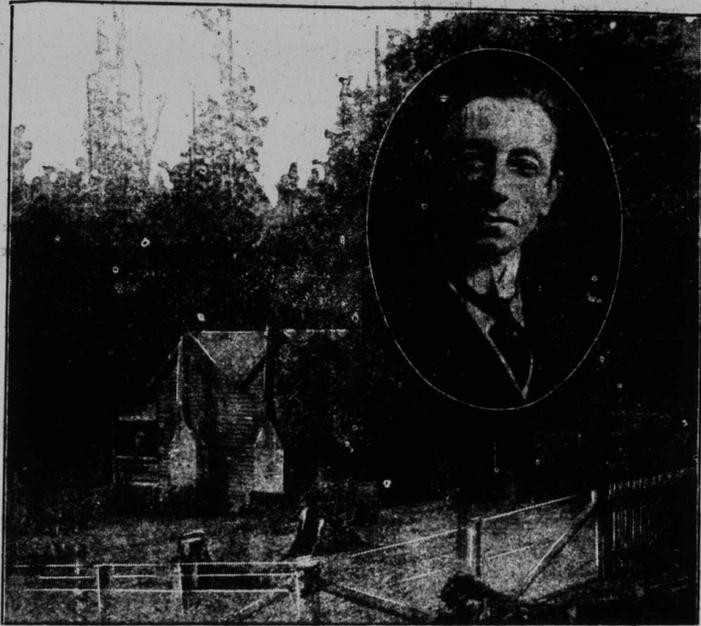

**A WORD FROM A CANADIAN SOLDIER**  
(Pte. Earl H. Dunphy to his mother)  
I've been asked by my mother, who is dear to me,  
To write a few lines, so she may plainly see  
That, though in a foreign land I roam,  
Still my thoughts are often with those at home.  
But before we go too far, I'd like to say  
A few words of a time, nearly three years away,  
When we were all home in civilian life,  
Never thinking of this fearful and bloody strife.

But Germany, that nation of guilt and crime,  
Was getting ready for war in her own good time,  
And so she thought while the world was asleep  
She would draw the dagger, and drive it deep,  
And thus she began her work of shame,  
Thinking she'd have victory to end the game,  
But there she failed, for as she murdered the weak,  
Old England woke up and we heard her speak.

Then in Canada we heard the call,  
For men that would fight, and win or fall  
And so they enlisted from far and near,  
And left their homes and loved ones dear.  
But many of us waited perhaps too long  
As our work was needed, and home ties strong.  
But while some were training, some fighting the foe,  
The message became plain that more must go.

So we signed up to do our share,  
And help our comrades the burden to bear,  
And some left family, and all left a friend,  
And came over to accomplish this one great end;  
To teach Germany that the robber will fail,  
And right over wrong will always prevail,  
When the war is over and she's lost the race,  
You'll be proud that we helped keep her in her place.  
Well, now I think I've said enough—

## A Poet From The Railway

Mr. C. J. Dennis and his home in the bush at Toolangi, Victoria, N.S.W.

The dangers of the Mediterranean route between Australia and England have induced a large number of Australians to pass through Canada, who otherwise might never have known this country, and have brought Australia into closer sympathy with the Dominion than ever before. Canadians also have learned to appreciate the Anzac, and the increasing trade between these two junior partners of the British Empire, as shown in the record traffic of the Canadian Australasian service, is one of the bright sides of this war. There are many points of common touch—both are vast countries anxious for greater population and both are on the whole still mainly agricultural. The comparative absence of cabled news from Australia in Canadian papers is, however, a handicap against the knowledge of each other's social problems and progress, and Australian authors and Canadian writers are in the Antipodes.

One poet of Australia is, however, making headway here and deserves to be even better known—so vivid a picture does he give of the Australian larrikin in the terse vernacular of Adelaide. "Doreen and the Sentimental Bloke," which in its own country has run into the hundreds thousands and has been put into a pocket edition for the soldiers in the trenches, threatens to rival even Robert Service (who like himself owes much to Kipling) in the affections of the Canadian reader, and though "The Moods of Ginger Mick," which has made a tremendous hit in Australia, has not yet been published in this country, stray copies pass from hand to hand and are greatly treasured. Ginger Mick is a peddler of rabbits who volunteers for the front and dies like a hero at Gallipoli. Dennis' "Backblock Ballads," descriptive of the people of the Australian bush and the settled country districts are classics.

Dennis wrote "Doreen" in the bush at Toolangi, Victoria, in a log cabin which he built himself after he had grown tired of being a Government official and a newspaper editor. Just as the early days of construc-

Fry the onion in the drippings of butter, but do not allow it to burn add the potatoes and the boiling water and cook until the potatoes are tender. Now add the corn, milk, seasonings and the cour moistened with one-half cupful of cold milk. Bring to boiling point and serve with crisp crackers.

**CATARRHAL DEAFNESS CANNOT BE CURED** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Drugists 75c.

MINARD'S KING OF PAIN LINIMENT

CANADIAN MUSIC AS VIEWED BY DR. VOGT

Former Head of Mendelssohn Choir Desired to See Big Permanent Orchestra in Toronto

The music-loving citizen of Toronto and of the country generally learned with very great regret that Dr. A. S. Vogt had discontinued his work as conductor of the Toronto Mendelssohn Choir. During its twenty years of active existence under his baton the choir appeared in seventy-eight concerts, sixty-two of which were given in Massey Music Hall, four in Carnegie Hall, New York, one in Symphony Hall, Boston, six in Elmwood Music Hall, Buffalo, two in Gray's Armory, Cleveland, and three in Orchestra Hall, Chicago.

Dr. Vogt was accorded one year's leave of absence in 1913-14 in order to visit the great music centres of Europe preparatory to the proposed but deferred visit of the Mendelssohn Choir to Great Britain and the continent.

Leaders Should Specialize In withdrawing from choral work, Dr. Vogt was influenced by a firm conviction that the musical life of Canada's larger cities had developed to a point which demanded concentration on the part of some of the city's prominent musicians along special lines of activity, rather than by a weakening of their influence through attention to a number of sometimes conflicting spheres of work.

The remarkable growth of the Toronto Conservatory of Music, with the marked expansion of its examinations throughout the Dominion, and the plans adopted by the musical director governing the public recitals of the institution, required, for their proper development Dr. Vogt's undivided attention.

It was his intention to take an active part in a serious movement to interest the citizens of Toronto in the local orchestral situation. In the opinion of many persons of music an effort worthy of the importance of the cause should result in the establishment of a permanent Symphony Orchestra in Toronto on a scale inviting comparison with the great orchestras of New York, Boston, Chicago, Minneapolis, rendering it unnecessary to seek American orchestral assistance for any of Canada's most important concerts.

Great National Body In giving up his connection with the Mendelssohn Choir, Dr. Vogt withdrew from a creation of his own which had brought great honor to himself and his native Province and Canada.

As a practical indication of the high artistic standing of the choir in Boston and New York it may be mentioned that when the organization was perfecting its plans for the proposed European tour of 1915, which was abandoned because of the war, amongst the propositions then laid before the choir was one from the Boston Symphony Orchestra for the co-operation as one of the choir in two concerts, for a performing fee of \$4,000.

Keep Children Well During Hot Weather

Every mother knows how fatal the hot summer months are to small children. Cholera, infantile, diarrhoea, dysentery and stomach troubles are fatal at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevents stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont. (4471)

MRS. GEORGE STABLES AT HOME

Mrs. George Stables was "At Home" for the first time since her marriage, on Tuesday afternoon July 24th, when many ladies called upon her. The drawing room was beautifully decorated with carnations and smilax, and the dining room in sweet peas and ferns. The bride, elegantly gowned in Royal Blue crepe de chene, silver trimmings, was assisted in receiving by her stepdaughter, Mrs. A. J. Ferguson, who was dressed in elegant brown satin, and Mrs. T. A. Bolmore (Production), dressed in moonlight satin de chene. Mrs. Robert Nicholson and Mrs. James Stables poured, and Mrs. Howard Williston served the iced. The young ladies assisting were Misses Helen Stables, Joan Morrison and Kathleen Moore. Mrs. Wm. Stables, husband, and Miss Mrs. Margaret Stables attended the do.

Womens' Institute Meetings

The July meeting of the Blackville Women's Institute was held in the Institute room Wednesday evening, July 18th, with a large attendance of members and visitors. Roll call was answered by a helpful household hint.

After the business part of the meeting was transacted, Mrs. Bert Underhill read a splendid paper entitled "The New English Woman." This paper dealt with the many changes that have come in the lives of all classes of women in England since the war began, telling of their grand spirit, their occupations, their efficiency and endurance all of which go to show that the women of England are doing their bit just as much as Tommy in the trenches. This paper was followed by an address by the Rev. Mr. Kochaly on "The Women and Children of Persia." Mr. Kochaly told not of the Christians in Persia but of the Mohammedans. He divided his discourse into three parts, the infant stage, the home life and the matrimonial stage. Altogether his address was very interesting and much appreciated by his hearers.

Votes of thanks were extended to Mrs. Underhill and Rev. Mr. Kochaly for their splendid addresses. At this meeting a resolution of sympathy to Mr. and Mrs. P. Donahoe and family on the loss of their eldest son on the field of honor was carried by a standing vote. The meeting closed with the National Anthem.

The August meeting will be held August 29th. Program: Roll call answered by a quotation from any author. Paper—Miss Lottie E. Underhill. Address—Mr. D. F. Forrester. Everyone welcome.
