

## BRITISH DRIVE CHECKED BY HEAVY RAIN A. L. SIFTON HAS RESIGNED PREMIERSHIP OF ALBERTA

### MARITIME LEADERS HAVE NOT YET JOINED UNION GOVERNMENT

#### BUT GENERAL IMPRESSION IS THAT CARVELL AND A. K. McLEAN WILL COME IN; FIRST CABINET MEETING HELD YESTERDAY

Ottawa, Oct. 12.—The union government held its first cabinet council this afternoon. Hon. N. W. Rowell, president of the privy council, presided. There was a full attendance. No official statement was made as to the business transacted, but it is understood that discussion was confined to a preliminary review of work to be taken in hand.

The maritime province Liberals remain outside the cabinet as yet. During the afternoon and evening the Chateau Laurier conferences were continued. The general impression prevails that Frank Carvell and A. K. McLean are likely to join the new government. Premier Murray is understood to be averse, on personal grounds, to coming to Ottawa.

There was an intimation during the evening that the western Liberals would issue a statement outlining their position. At 11 o'clock, however, Hon. J. A. Calder announced that this decision had been reconsidered and that no statement would be issued tonight.

#### WHAT ABOUT AN ELECTION?

It is believed that one of the first questions to be taken up will be that of deciding when an appeal should be made to the people. Conditions are now different from those which would have obtained in a straight party fight. Necessary readjustments may make it difficult to arrange for the appointment of returning officers and the issue of writs in time to have the voting in December, as was hoped. There is no reason to believe that the new government will not make every effort to secure the endorsement of the electors as early a date as possible.

### Revolution Against the War Spreads Rapidly in Germany

#### Economic Situation in Germany Is Very Serious; the German People Are Very Desirous of Peace

An Atlantic Port, Oct. 12.—After four years spent in the center of Europe's colossal struggle, Pleasant A. Stovall, United States minister to Switzerland, declared on his arrival today that the economic situation in Germany is acute, and that he believes the backbone of German resistance had been broken. Since the publication of President Wilson's reply to Pope Benedict's peace note, in which the president stated that the United States is waiting upon the German government and not upon the German people, the revolution against the war, Mr. Stovall said, has been spreading rapidly through Germany.

"The extent of this statement was for a long time not noticeable," he asserted, "but slowly and surely it is making deeper and deeper inroads on the German heart. It led to themselves, the German people would make peace tomorrow. As it is, forces are at work in Germany which will eventually compel the German government to make peace with the world."

"There is no doubt about economic straits in which Germany now finds itself. The situation is acute. Despite German, French and Italian influences, Mr. Stovall said, Swiss neutrality has been preserved, and a force of 250,000 men watches the borders constantly to prevent the passage of contraband. He added that Switzerland's exercise of broad sympathies for the wounded brought in from the three fronts was a notable chapter of history.

Mr. Stovall will go to Washington to consult with the government officials, and later to his home in Savannah.

Montreal, Oct. 12.—Fearing that there might be a riot at a meeting of the St. Mary's Labor club in a hall of the St. Mary's electoral division tonight, as trouble was promised if anything was said against Sir Wilfrid Laurier at the meeting, a squad of police stood on guard at the door.

It was stated that a "strong arm" party of Liberals was on hand to start a fight if their chief came in for adverse criticism, but nothing exciting occurred, except that two anti-conscriptionists, Alfred Cole and P. E. Monaghan, who are under arrest but are out on bail, were refused a hearing.

LOST LIFE IN FIRE  
Ipswich, N.S., Oct. 12.—Miss Robison, 27 years of age, lost her life in a fire which destroyed the dwelling house and bakery belonging to H. Therrien this morning.

### GERMANS DRIVEN OUT OF TRENCHES

#### Must Now Oppose British Attack More Than on Any Previous Time With Flesh and Blood Instead of Dugouts

London, Oct. 12 (via Reuters Ottawa Agency).—Reuters's correspondent at British headquarters in France cabled today: British and Anzacs today resumed the process of pushing the Germans off what remains of their foothold upon the great ridge system to the east of Ypres. The British on our left did not move today, but their artillery pounded the enemy. The weather is now improved and this afternoon there is a crisp breeze blowing and a blue sky. But when the troops went forward, conditions were miserable. Although the ground was heavy, it was better than for the last attack.

The Germans were again caught unexpectedly. They could hardly have anticipated that we should strike again so soon, or in such weather, but Field Marshal Haig, whom I saw yesterday looking well, and wearing an air of confidence, fully realized the value of time when the enemy is still staggering under the shock of previous blows.

"The scheme of today's battle seems fraught with the most interesting possibilities. More than this I must not say. We have driven the Germans practically off the whole depth of their defenses from the front over a width of several thousand yards. The result is that the German must now oppose us more than on any previous time since the battle of Ypres with flesh and blood, instead of dugouts, deep trenches and machine guns.

"They are now shoveling up and running wire with feverish haste in the rear, but the dominant ridge enables us to see and land, the workers' with the disturbing effect. The 'mill race' takes a month to construct and cannot be built in a week or two.

"A barrage, more terrific than heretofore, crawled ahead of our lads storming every yard it traveled. The enemy's artillery response was somewhat ragged. It is always dangerous to draw general conclusions from local problems, but many reports are cur-

### CAPELLE RETIRES; SOCIALISTS INSIST MICHAELIS GO

#### German Minister of Marine Who Made Attack on Socialist Members Resigns

### RESTS WITH KAISER

#### Socialists Say They Will Not Vote for Desired Credits Unless Chancellor Resigns

Amsterdam, Oct. 12.—Vice-Admiral von Capelle, the German minister of marine, has resigned, according to the Frankfurter Zeitung.

Vice-Admiral Eduard von Capelle was one of the directors in the ministry of marine before the war and had served as a captain in the navy in March, 1915, he succeeded Admiral von Stroz as imperial minister of the navy. Several times since then von Capelle has appeared before the Reichstag, with optimistic reports regarding the progress of the restricted submarine campaign, as late as August 26, 1917, denouncing the T-boats policy of his predecessor, Admiral Raeder.

Vice-Admiral von Capelle announced in the Reichstag that he had resigned. The Socialists and the newspaper have attacked the resignation of the vice-admiral for their statements.

London, Oct. 12.—A dispatch to the Exchange Telegraph company from Amsterdam says the Rhenish Westfaelische Zeitung declares it understands that the German Socialists have informed Chancellor Michaelis that they will not vote for the desired credits unless the government resigns.

The Socialists and their newspapers have attacked the resignation of the vice-admiral for their statements.

Michaelis Must Go  
London, Oct. 12.—A dispatch to the Exchange Telegraph company from Amsterdam says the Rhenish Westfaelische Zeitung declares it understands that the German Socialists have informed Chancellor Michaelis that they will not vote for the desired credits unless the government resigns.

### HON. A. L. SIFTON RESIGNS PREMIERSHIP

Edmonton, Oct. 12.—Hon. Arthur L. Sifton, premier of Alberta, telegraphed his resignation to Lieut.-Governor Brett from Ottawa tonight.

### BULLETINS

WILL BE OPPOSED  
Hamilton, Oct. 12.—Tonight's packed meeting of the Independent Labor party shattered the calculations of a political saw-off, so far as Major-General Newburn and T. J. Stewart being returned by acclamation for East and West Hamilton, respectively, at the coming election. Both ridings will be contested by labor candidates.

FLOCKING UP  
Victoria, Oct. 12.—On the eve of the proclamation calling out the first class under the Military Service act, one hundred men presented themselves for examination before the medical boards here today. Of these sixty were classified as A-2.

UNVARNISHED TRUTH  
Amsterdam, Oct. 12.—A Berlin dispatch received here says that at the meeting of the Reichstag today, George Lebebour, Socialist, was called to order for declaring that all must be convinced Chancellor Michaelis was absolutely incapable in his office, both as regards capacity and character.

DON'T LIKE SUB-LIFE  
London, Oct. 12.—Reliable reports received here by way of Holland indicate the growth of a strong disinclination on the part of the German seamen to serve on submarines. This news, the authenticity of which is not doubted, is to the effect that several seamen have been shot for refusing to perform U-boat duty. The shooting was said to have occurred prior to the mutiny in Wilhelmshaven.

ACTION DELAYED  
Dawson, Y.T., Oct. 12.—A special dispatch from Ottawa says that owing to the remoteness of the Yukon, strict regulations will not be effective here for several weeks after being put in force throughout Canada.

Toronto, Oct. 12.—Recalled to the stand at the resumed investigation here today into the profits made by the Wm. Davis Company, Limited, by the sale of bacon, E. C. Fox, the general manager, made the statement that he had made out the profits had been made out of war-time export trade and not out of the pockets of individual householders. This declaration was made by the official on Chairman Henderson asking for an explanation of an elaborate statement in regard to the cost of a hog converted into bacon.

It Should Be 60c a Pound  
According to Evidence of Some Witnesses

It should be 60c a pound according to evidence of some witnesses. The examination of witnesses today was mainly in connection with increased costs of the product, and it was shown that since the war began the retail price of the best bacon has risen rapidly from 26c to 56c a pound. At the same time, witnesses in the provision business maintained the yield to retailers was only seven per cent. They claimed that in order to make a reasonable profit, the price should be the selling price. It was also brought out that during the past two years there had been a great decrease in the sale of what is termed by retailers as luxuries.

At the morning session, J. T. Wardle, formerly chief clerk of the export department, declared that an auditor had told him to take care of the pickle that pork is cleared in, as it was worth 25c to 26c a pound.

He maintained that the man had also said, "The British government should know better than to pay that for salt water."

J. W. Cringan, the auditor, denied that he had made any such statement. Mr. Wardle reiterated his statement. He declared that Jas. Tetter, in charge of the Montreal cellar, had said that there was a loss of nearly \$200, because certain sales had been taken out of the "gross" cure before sufficient time had elapsed.

PAID \$30,000 DAMAGES  
Largest Sum Ever Paid in That Way by U. S. Railway.

Minot, N.D., Oct. 12.—Just before the \$100,000 damage suit Mrs. Sue Koeller vs. Soo Railway was called in the United States district court this afternoon, attorneys for the plaintiff agreed to accept \$30,000 offered by the attorneys for the railroad as settlement. This sum is the largest amount ever paid by the corporation in this state for settlement of an action of this kind. Mrs. Koeller sustained personal injuries in a wreck of the Soo coast train near Minot last November, when a broken axle sent three coaches into the ditch. The plaintiff, who had her spine hurt, causing paralysis, now resides in Minneapolis and is an invalid for life. A month ago the Soo offered her \$22,000, which she refused.

Mr. Koeller was formerly a resident of the district of Marquette, Mich.

FOR THE BIG LOANS  
Sir Thomas White is Now in Toronto.

Toronto, Oct. 12.—Sir Thomas White, minister of finance, was in the city today with representatives of twenty-five Canadian fraternal societies in connection with the new Canadian war loan. Sir Thomas solicited the co-operation and aid of the various societies in raising the required revenue. The fraternalists passed a resolution with representatives of the societies to urge all fraternal insurance societies to invest all available funds in the loan.

LIQUOR IN HIS POCKET  
Winnipeg, Oct. 12.—John Burke, a wine company's carter, was fined \$300 today for having liquor in his possession at a place other than a private house. Burke admitted he had liquor in his pocket when stopped by a detective.

RUSSIAN OFFICERS AT MONTREAL  
Montreal, Oct. 12.—Prince D. Gallitzine, commander of the Russian fleet, accompanied by Lieut. Werderskiy, is on a visit to this city.

### BRITISH ADVANCE CHECKED BY HEAVY RAINSTORM

#### JEERED COMMANDER Evidence of Letup in Discipline Among the Germans.

London, Oct. 12.—A dispatch from British headquarters to Reuters says that a prisoner from the 72nd German Infantry reserve, in describing the discipline of his corps, declared that before the last battle, a regimental commander addressed his troops with the warning that any who held back would be shot. The only answer was a general grunting, swelling into derisive laughter, upon which the commander rode away.

TOOK MILLIONS  
OUT OF EXPORT  
TRADE IN BACON

#### Flavelle's Manager Says the Profits Did Not Come Out of Individual Householder

### COST OF BACON

#### It Should Be 60c a Pound According to Evidence of Some Witnesses

Toronto, Oct. 12.—Recalled to the stand at the resumed investigation here today into the profits made by the Wm. Davis Company, Limited, by the sale of bacon, E. C. Fox, the general manager, made the statement that he had made out the profits had been made out of war-time export trade and not out of the pockets of individual householders. ### FIELD MARSHAL HAIG HAD TO CEASE OPERATIONS BEFORE ALL OBJECTIVES HAD BEEN ATTAINED; RUSSIANS ACTIVE AT RIGA

For the first time since he started his series of attacks against the German positions in Flanders, Field Marshal Haig has had to cease an operation before all the objectives set out for him were attained. It was not the German guns, however, that stopped the British. It was a more than usually heavy rainfall which started during the battle, and turned the already swampy region over which the men were supposed to pass into a veritable quagmire, from which they could not take themselves forward.

The drive, as has been customary in Haig's strategy, was started in the early hours of Friday morning, and extended from near the Houthout wood to below the Ypres-Menin road. At several points the British troops succeeded in gaining ground over fronts ranging up to a thousand yards, but here the rain intervened, and the fighting ceased for the day. During the forward movement the six-mile front the British captured in the aggregate about 600 prisoners.

The struggle was particularly bitter to the north of Poelcapelle and around Passchendaele. In the latter region the Germans apparently have massed their strongest array of troops, hopeful of being able to stay a further press forward by the British toward the Ostend-Lille railway.

GERMANS EXPECTED BATTLE  
The Germans were expecting the battle. For several hours prior to the signal for the British to attack, they laid down a heavy barrage fire all along the line, interposing the rain of steel and explosives with asphyxiating gas bombs.

Considerable artillery activity still prevails between the French and the Germans along the Chemin des Dames, in Champagne, and on the Ypres sector, but no important infantry engagements have taken place. Likewise, in the Austro-Italian theater, and in Macedonia, the big guns are doing all the work, except for reconnoitering and outpost encounters in the latter region.

GAIN AND LOSE GROUND  
Along the Pskoff road in the Riga sector, on the Russian front, the Russians again have been forced to give ground to the Germans under a heavy artillery fire. Further south, however, the Russians, in counter-attacks, have recaptured the trenches which the Germans took from them Wednesday.

UNOFFICIAL reports from Amsterdam are to the effect that Vice-Admiral von Capelle, the German minister of marine, has resigned. Since his exposure of the mutiny on board German battleships at Wilhelmshaven, von Capelle has been vituperated by the Independent Socialists and the Socialist newspapers generally.

### German Commerce Raider Deceived British Cruiser

#### Had Forged Clearance Papers and Guns Concealed by a Deck Load of Lumber

Honolulu, Oct. 12.—Details of how the famous German commerce raider Seeadler, which preyed on allied merchantmen in the South Pacific before meeting her fate on the reefs of Moeha Island, passed inspection of a British cruiser examining the disguised raider, were revealed here today by Captain Hador Smith, master of the American schooner R. C. Slide, one of the known victims of the German craft. After capture by the British and subsequent escape, the Seeadler put into Bremerhaven, a German port, and in December, 1915, fitted out as a motor schooner under command of Lieutenant von Luckner, and a crew of 65, half of whom, according to Captain Smith, spoke Norwegian.

With forged Norwegian clearance papers, and two four-inch guns concealed by a deck load of lumber, the vessel put to sea, encountered a British cruiser, passed inspection, mounted her guns, and proceeded to sink thirteen vessels in the Atlantic, two of them Britishers, Captain Smith said. The final capture in the Atlantic was the French bark on which 500 of the Seeadler's prisoners were put and sent to Rio de Janeiro. The Seeadler escaped her pursuers and rounded Cape Horn, immediately beginning a campaign of destruction in the South Pacific. Depredations of the Seeadler, a converted American vessel, were announced by the navy department on October 4th.

Montreal Women Are Worse  
Than the Peasurers in  
Street Corner Sessions;  
a Friend of a Friend  
Has the Goods

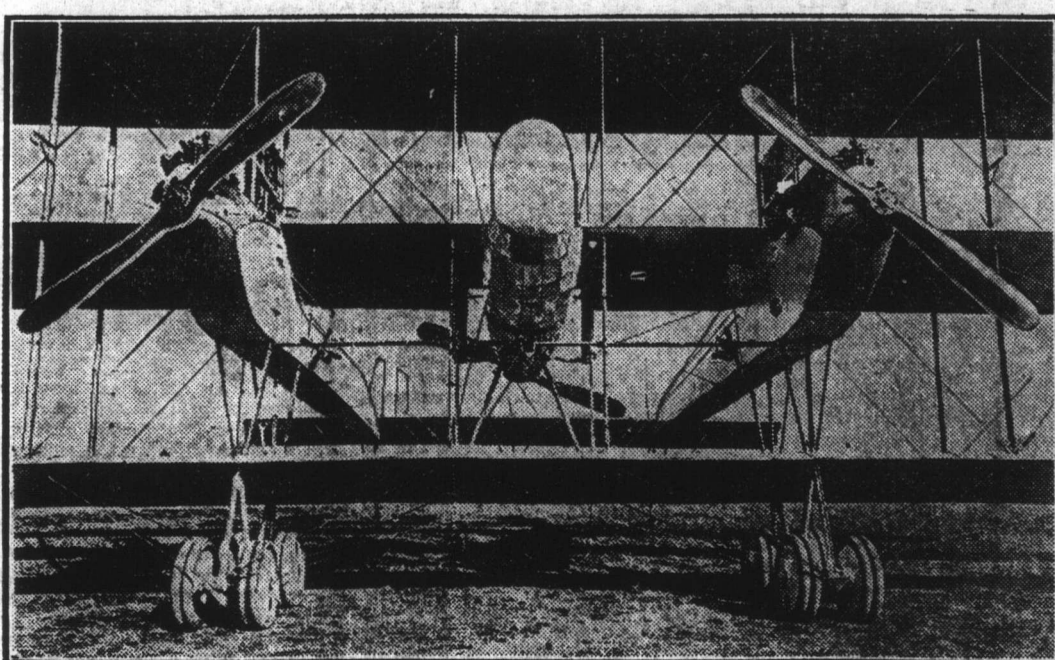

Montreal, Que., Oct. 12.—At a meeting in a school at the corner of Queen Mary road and Colbrook street tonight, called for the discussion of the high cost of living, Food Controller Hanna was denounced as a failure. It was suggested by Mrs. Hall of the university settlement, and Mrs. Rose Henderson, that if the manufacture of cheese for the soldiers was causing a lack of milk supply for children, as seemed to be the case, something should be substituted for cheese, and the babies saved from death. Mrs. Hall said that 80,000 had died in Canada in one year since the war started, and Mrs. Henderson said 600 died in this city of malnutrition or starvation toward the end of last August, and in the first weeks of September.

Rev. W. W. McQuinn announced that a friend of his had an invention which would soon put coal out of the market or cut the price of coal in half. He did not tell what the invention is.

### GOLD HAS RESIGNED Has Been Inspector Under Prohibition Act in Alberta.

Edmonton, Oct. 12.—W. F. Gold, who has occupied the position of inspector under the prohibition act for the past year, resigned his position today. Mr. Gold has been largely responsible for the successful administration of the act.

WINNIPEG CO. INCORPORATED  
Ottawa, Oct. 12.—McGaw, Dwyer, Ltd., Winnipeg, has been incorporated with a stock of \$100,000.

GIANT ITALIAN TRIPLANE, NOW IN U.S. CARRIES 25 PASSENGERS AT 90 MILES AN HOUR  
There is now in the United States one of the most powerful of the aerial instruments of the war, the great Italian Caproni triplane that can bear, besides its own weight, an added three tons. This permits it to carry 25 passengers easily. It has three engines which together generate 700 horsepower and are capable of driving the plane through the air at the rate of 90 miles an hour.

# INDIA WILL GET FAIR MEASURE OF SELF GOVERNMENT

But Ideal of Government Is Being Approached by Easy Stages

## CONFER WITH INDIANS

British Minister Will Go to India to Arrange for Some Plan

London, Oct. 12.—Plans formulated by the British government for granting a larger measure of self-government to the people of India were explained today by Edwin S. Montagu, secretary of state for India. Mr. Montagu, who is soon to start for India, said: "My journey to India is the direct outcome of the government's announcement in parliament that its policy in India is to develop a self-governing institution with a view to the progressive realization of representative government."

"Do not misunderstand me. This ideal of ours must be approached by easy stages. The man who thinks that home rule for India is a practical reality is either wholly ignorant of the situation or designedly mischievous. Steps toward responsible government will be taken at different rates by different parts of India. Great provinces will fit themselves for it at different times. But the great thing is that we are going ahead firmly on the path toward the end which we all, British and Indian alike, desire."

"The measures that we adopt must be adequate. They must show real progress. Wars' vast upheaval has stirred all peoples, not only in Russia, not only in western Europe, but in China and India as well. Everybody wants to be assured that the world, their own little world, as well as the big world, is a better world after the war. India, equally with the rest of the world, has a right to demand progress, and real progress."

"So we are adopting the direct and business-like method—and I am going to India to consult with the people there and bring back the results of my conferences and inquiries to be before parliament as the basis for a law which shall mean progress in its widest and best sense."

"We have set ourselves avowedly to the enormous task of improving the conditions and life of the people, to guarding them against famine and against war external and internal, so that they might live and learn and develop their great resources unhindered and in peace."

"One of the most striking evidences of our work in India is found in our irrigation enterprises, which have reclaimed literally thousands of square miles of desert. But it is still a country of poverty. The majority of the

VICTIM OF THE LONDON AIR RAID

An octogenarian, Mrs. Gardener, aged 87, was wounded in the arm, but displayed charming pluck, and was photographed later in the day. It takes more than a Gotha to shake her nerves. Our photo shows Mrs. Gardener.—London Daily Mirror photo.

people live on a few rupees a month, and it takes three rupees to make a dollar. Their country has vast resources awaiting development, but the people are still very poor. Only about ten per cent of the population can read and write.

"India's greatest terror, the spectre of famine, has practically disappeared owing to irrigation and the development of transport by railway, canal and river. A season of famine, which a generation ago meant hundreds of thousands of deaths, now means only discomfort and strain. As we have conquered famine, so we shall surmount the educational difficulties. "Electoral bodies have sprung up and there are in most provinces today councils which have power to pass resolutions and act in an advisory capacity, although they have little responsibility of real power. The members of these legislative units have begun to tire of a situation in which they are little more than debaters, and we shall be glad to provide food for this developing civic appetite."

India Is Worthy  
"Today the British people have begun to realize that India has proved herself worthy of a larger part in the Imperial plan. India is now assured of a place in all future Imperial conferences."

"Further steps toward responsible government will be taken as a result of my trip to India—steps which I trust will be convincing and satisfying to the great body of educated public opinion in that country."

**PURE MILK**

Creamery Milk is as desirable as delicious butter.

Carlyle Dairy aims at the finest to be had in dairy products. Every drop of milk entering their plant must be up to their test of purity and quality.

Consequently, the housewife using Carlyle Milk buys a quality that makes her a satisfied consumer.

**VON TIRPITZ IS A LITTLE PREVIOUS ON SUB VICTORY**

His Optimism Is Based on German Figures, Which in This Lie Readily

London, Oct. 12.—A high naval authority, discussing Admiral von Tirpitz's recent statement, with its grotesque confidence in U-boats, suggested that his optimism was based on German official figures, which were demonstrably wrong.

Submarine officers misled their superiors in reports, he explained. These probably enter as sunk many vessels which are torpedoed but reach port, and also exaggerated the size of the victims. Even if German officers tried to be accurate, the authority said, errors were inevitable, as submarines must submerge and make a quick getaway for their own safety.

Official German estimates of sinkings of enemy and neutral vessels since the beginning of unrestricted ruthlessness have just been received here. A little under a million tons a month is the totals alleged. As an actual fact the estimates are just 50 per cent, too high. This explains the extraordinary continuance of faith among the German people in the efficiency of U-boat warfare.

Deprecates Extreme Views  
Washington, Oct. 12.—A warning not to take things too much for granted one way or another in the submarine campaign is voiced by high naval officials. The Germans plan to starve England and France by unrestricted submarine warfare had failed, it was declared, but it was insisted that there was still a real job ahead of this country and the entente in dealing with the menace.

In every possible way the fight against the U-boat was being pushed, it was insisted, and magnificent results had been accomplished, but this did not mean that the menace had been sufficiently overcome to warrant any let up in the campaign of the destroyers and the efforts to supply more ships to take the place of lost tonnage. The views of high officials as obtained today may be summarized as follows:

The measures taken to meet the submarine issue are having effect. Last year no ships were conveyed, but now nearly every ship has a convoy. A year ago nearly all the naval authorities of foreign countries as well as of this country said that convoys would not do; that they would simply furnish more targets for the submarines. We have disproved that.

"It will not do, when things go bad, when sinkings increase, to lose our nerve, and say everything is going to pieces. We expect submarine losses to be lessened, but it is wrong to be either too optimistic or too pessimistic. Of course, we are going to win, but neither extreme of feeling is now justified. We will win because we have everything Germany has not, and our advantage will tell in the end."

Fluctuation in Sinkings  
"Submarine sinkings fluctuate. One week they may be way down, and it

**Pains Over Left Kidney**

Warned This Captain That the Kidneys Were Responsible for His Pains and Aches—Freed of Pain and Suffering by a Well-known Medicine.

Hereford, Que., Oct. 12.—Captain Peabody is well known all through this section, and his cure by use of Dr. Chase's Kidney-Liver Pills has aroused great interest in this great medicine.

The Captain had been suffering for a long time, and could never get any treatment to afford lasting relief until he began using Dr. Chase's Kidney-Liver Pills.

"For years I suffered from indigestion, rheumatism and neuralgia. Lightninglike pains would shoot all through my body, and I also had severe pains over my left kidney and through the hips. I doctor'd for years and tried all kinds of remedies but the only result was money spent without relief. At last I read in Dr. Chase's Almanac of his Kidney-Liver Pills and decided to try them. One box made such a change that I sent the five more. Before I had finished the pain in my kidney and hips had disappeared, and I was clear of the catarrh in my bladder, which had been the cause of my trouble. I still take these Pills occasionally to keep my bowels regular, and would not be without them, as I have them to thank for my cure."

Dr. Chase's Catarrh Powder and Linseed and Turpentine. The former cured me of catarrh in the bladder, which caused frequent headaches. I am completely cured of my bladder and breathe freely as when a boy. The Linseed and Turpentine proved of great benefit. A bad cough which bothered me continually for three winters. Last winter I took one bottle of the Linseed and Turpentine, and have not been bothered with a cough since."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers or Edmondson, Bates & Co., Limited, Toronto. Don't be talked into accepting anything said to be just as good, imitations and substitutes are disappoint.

# How Uncle Sam Will Dig Into Your Pocketbook

From the cradle to the grave most of man's activities will now be taxed under the new Revenue Bill, points out an Associated Press correspondent, since "baby's first dash of talcum powder under the 2% tax on cosmetics will help the government carry on the war, and after death, the Federal Collectors will be on hand to get the Inheritance Tax at advances on the present rate of from 1% on \$50,000.00 to 10% on \$1,000,000.00."

While Congressman Kitchin and Senator Simmons, respectively responsible for the Tax Revenue legislation in the House and Senate, express much satisfaction with it, the newspaper press in various sections of the country is commenting upon what it deems, to use the words of the New York Evening Sun, the law's serious "inequities," "obscurities," "incomprehensibilities," and "unworkabilities."

In THE LITERARY DIGEST for October 13th, a clear exposition of what the new taxation will cost individuals and corporations is given and the drift of public opinion upon it is shown. Other striking phases of the world's news are presented under these headings:

## We Need an Educated Citizenry

To influence our national policies at home and abroad—voters who can intelligently support or condemn the stand of their officials, according to its true merits. And here is a news-magazine helping to develop a citizen body educated in all our vital foreign and domestic affairs. THE LITERARY DIGEST affords

real education. It reports events and conditions just as they are, and just as they are viewed by all different parties. It leaves no room for uncertainty, prejudice, or misinformation. THE DIGEST gives all sides of every question, so that the citizen who reads it may be fully informed and able to pass sane, unprejudiced judgment.

**FRENCH CANADIANS COMING INTO LINE SATISFACTORILY**

Will Give a Good Account of Themselves Now That Situation Is Clear

Montreal, Oct. 11.—E. J. Tarte, president of the La Patrie Publishing company, told the win-the-war electorate

association of Westmount-St. Henri tonight, at a meeting in Victoria hall, Westmount, that, in his opinion, the French-Canadians were coming into line and he thought they would give a good account of themselves now that the situation had been made clear to them. He said he believed that his compatriots would not only give an excellent account of themselves in supporting a win-the-war candidate, but also would send a large number of recruits to the front under the provisions of the military service act. The selection of a candidate was deferred.

**N. ROMANOFF'S NEW HOME**  
Petrograd, Oct. 12.—Nicholas Romanoff, the former emperor of Russia, and his family have been transferred from Tobolsk, Siberia, to the Abolok monastery, 14 miles from Tobolsk. The transfer was made at the request of the former emperor.

SATURDAY, OCTOBER 13, 1917

**THE NEW GOVERNMENT**  
 It is a coalition government.  
 That is the principal thing about the changes made in the administration in Ottawa. We are three years behind time in making the change, but the change has come. At last we have been able to break through our partisan mold and place the welfare of the country before our prejudices.

With Stifton, Carvell, Rowell, Murray and the others in the cabinet, the Liberals are represented by their ablest leaders. It cannot be said that the administration is a makeshift affair, with a name tagged to it for the sake of appearance.

It is a strong government also. It is perhaps the strongest government since Laurier named his first government in 1896. It is a little top heavy with lawyers, at a time when business men are most needed, but they are mostly strong men. In retaining Meighen, Burrell and White, Sir Robert Borden has kept the ablest of the old administration. It is a bit of a disappointment and surprise that Dr. Michael Clark, who did most to bring the parties to the right frame of mind, is not included in the cabinet. He would add strength to it. However, he is no place seeker, and doubtless never thought of preference of this kind.

The weakness of it all is that there is no representative of labor. The result of the coalition will be to still the political turmoil, and get Canadians working in harmony. The government would be well advised to follow this decisive move by bringing on an election at once, and getting along with the business of the nation, unimpeded by the game of politics.

There will not be much of an election now, certainly very little election in Western Canada. There may be little local contests here and there, but they will not be of very great importance. The stinger in an election contest has been removed.

With a united public behind the coalition act, the enforcement of that important legislation will be made much easier.

At the outbreak of the war, when political strife was hushed for a time, the nation was prepared to give a general support to the government. It continued that general support until many suspected that the government was playing politics, and trying to make the war a Tory war.

The public, for the most part, is prepared, we take it, to give this new government the same sympathetic support that it gave at the beginning. The creation of a union administration upon what seems such fair terms, will be an inspiration to the Canadian people to do their part, as unselfishly as the party leaders who have joined that government have done theirs.

**COLLECT THE TAXES**  
 One point came out clearly at the meeting of the aldermen to discuss the financial situation at the city hall on Thursday night, and that is that the city revenue cannot be regarded as insufficient until the city makes a businesslike effort to collect what is owing it. The representatives have spent much of their time upon reducing the expenditure, which is praiseworthy. They have got it down to the minimum.

But what of the revenue? If the city would use as much pressure as an ordinary business concern in getting in the revenue, the situation would be very greatly improved. There is plenty of money in the city just now, and there never was as much money in the province as at the present time. If proper methods are used, surely the city can get sufficient revenue for its needs, without any serious difficulty.

**LABOR REPRESENTATION**  
 Is there to be no labor representation in the new union government? No names have yet been mentioned. The premier has made no statement. It will be a great mistake if the government has no labor representation in the new administration. Of the nine members just added, seven are lawyers, one is a farmer and head of a big farmers' organization, and the other member is a business man. But the largest class of our people is as yet without representation in the cabinet. That is a serious mistake. The Albertan is hopeful that labor representatives will soon be added to the government. It cannot be called a union government without them.

**CANDIDATE FOR COUNCIL**  
 Mrs. W. J. Gale has been nominated by the women ratepayers of South Calgary as a candidate for the city council, and is being urged to contest the city. She has not yet decided. It is doubtful if a woman more thoroughly qualified for such a position could be found in the city, and if she becomes a candidate she will certainly be elected.

She is a public spirited woman, who has been interested in many public undertakings. She was secretary of the Consumers' League when that organization took hold of the city market, and made it of such great service to the city.

She is president of the first woman's ratepayers' association in the city, which, in addition to being the first woman's organization, is also the liveliest ratepayers' association in the city.

Mrs. Gale is a cultured woman, an entertaining speaker, well informed and very bright. She would make a valuable member of the city council, and she should consent to be a candidate.

**CONSCRIPTION OF WEALTH**  
 The Monetary Times in the current issue continues to contemplate financial conditions after the war. It believes that peace will be followed by an extraordinary production of commodities in every direction. For some time every effort will be directed to the replacement of material which has been destroyed, and by the repair of the world's equipment which has been rundown.

The problem of the payment of the enormous national debts will be a very serious one at the close of the war. For instance, the national debt of the United Kingdom is over 3,000 millions sterling at the present time.

One way suggested is to leave the whole amount as a permanent funded debt—that is, to reckon only on providing the interest and a comparatively small annual sinking fund out of current taxation. Another suggestion is to pay off the whole or the greater part of the war debt at once by a levy on capital.

The difficulty of applying the method of a levy on capital is probably not so great as appears at first sight," says the Monetary Times. "Take, for instance, the case of the United Kingdom. The total capital wealth of the community may be estimated at about 24,000 millions sterling. To pay off a war debt of 3,000 millions sterling would therefore require a levy of one-eighth. Evidently this could not be raised in money, nor would it be necessary. Holders of war loans would pay their proportion in a simple way, by surrendering one-eighth of their scrip. Holders of other forms of property would be assessed for one-eighth of its value, and be called on to acquire and to surrender to the state the same amount of war loan scrip. To do this they would be obliged to realize a part of their property or to mortgage it. But there is no insuperable difficulty about that. In the case of property already mortgaged the holder of the property might be responsible for the whole levy, and might be allowed to raise a prior mortgage to cover it, and thereafter to deduct the proper proportion from the capital amount due to the previous mortgagee. Thus, a man having a property assessed at £80,000, encumbered with a mortgage for £40,000, would raise a prior mortgage of £10,000 and pay the levy on the whole property. But the capital amount of the old mortgage would be reduced from £40,000 to £35,000."

Now we have union government, there are some people who are not just satisfied with it. We should judge from the printed remarks of C. B. Reilly that he is not very much in favor of this new coalition government.

The new government, which is getting away to such a good start, will make a huge mistake unless it has some labor representatives.

What pleases most is the levying now in which the Calgary Herald now refers to "our own Arthur L." There is such a thing as conversation.

Von Capelle made his remarkable speech in the German reichstag on one day, and got his walking papers on the day following, which is remarkably speedy action.

The appointment of a Prince Edward Island member of parliament as controller of the mounted police is something that cannot well be explained or in any way understood.

The city is not a good employer. It underpays its staff. It works its employees long hours, and does not give any overtime, and it is meaner with the employees than the ordinary employer.

IF OUR MRS. BLOGGS COULD ONLY HAVE FIVE MINUTES WITH THE KAISER! —London Bystander.

the bylaw, and it is very doubtful how the vote will go. If an agreement could be made, then everything would be satisfactory.

**RETIRE FROM POLITICS**  
 Port Hope, Ont., Oct. 12.—At a convention of the Port Hope Liberal-Conservative association held here last night, C. J. Thomson, who represented Durham in the last parliament, definitely announced his intention of retiring from public life and stated that he would not seek re-election.  
 Col. R. A. Mulholland, mayor of Port Hope, is mentioned as his successor.

**CAMPAIGN OPENS FOR FLOTATION OF HUGE WAR LOAN**

Many Prominent Citizens Turn Out to Hear Sir Augustus Nanton Announce Policy of Flotation

**TO CANADIANS**  
 Purely a Domestic Loan; Only Canadian Subscribers and All Interest Goes to Patriotic Canadian Investors

The campaign for the big Dominion Victory war loan opened up in Calgary yesterday when Sir Augustus Nanton, chairman of the Dominion committee, addressed a large gathering of representative citizens. Sir Augustus was accompanied by The Hon. Edward Brown, of Manitoba, and the Hon. C. R. Mitchell, of Alberta.

The Calgary organization meeting opened at the Palliser yesterday afternoon at 8 o'clock with Mayor Costello in the chair, who promptly called on Sir Augustus Nanton to deliver his message to the local financiers.

Sir Augustus, in his address, dwelt on the point that the Victory war loan of £150,000,000 would be raised entirely by contributions from Canadian people and the interest paid on this huge loan would go to Canadian investors.

"The campaign for the flotation of the loan," stated Sir Augustus, "would be put on by the greatest organization in the history of Canada. For some three weeks thousands of Canadian canvassers will be sent throughout the Dominion, in every part of Canada will be approached and asked to do his bit."

"To form provincial committees, sub-provincial committees and then divide the sub-territory into districts, each district having a committee, who will have full charge of the campaign in that particular district and appoint the district canvassers."

**No Commission**  
 No man on any of the committees will receive a cent of commission. No bond is required for the committee for handling the debentures, and the only commissions paid out will go to the individual canvassers. This commission will be 1-2 of 1 per cent.

In conclusion, Sir Augustus stated: "It has been decided to divide the province in two parts. The southern portion extending from Red Deer to the boundary and the northern part from Red Deer to the north, including that city."

**The General Committee**  
 Several local financiers present discussed the organization and work from a patriotic standpoint and the following general committee was then selected: Wm. Connelley, Melville Hax, G. R. Marnock, Jethro; R. E. Welliver, Red Deer from Calgary; H. A. Howard, E. Taylor, Wm. Conacher, Thorburn Allan, E. D. Laurie, Wm. Toole, H. W. Wood, W. Berkshaw, P. Burns, P. L. Natemith, G. A. Hornbrook, H. Melvin, H. Middleton, R. Jackson, E. C. Costa, D. T. Drell, G. L. Peel, J. B. Sutherland, C. P. McQueen, R. A. Daker, W. Arden, A. McEwen. From this committee a temporary nominating committee was chosen, which later met and appointed the following local committees for the southern part of the province: Wm. Toole, chairman; G. R. Marnock, vice-chairman; Thorburn Allan, secretary; J. B. Sutherland, J. E. Costen, C. P. McQueen, E. D. Adams, H. Melvin, E. D. Costa, C. D. Tappell, M. Conacher, and E. Taylor are also members of the executive.

**VANCOUVER GRITS OPPOSE COALITION**  
 Pass Resolutions Reaffirming Allegiance to Sir Wilfrid Laurier  
 Vancouver, Oct. 12.—At the annual meeting of the Vancouver City and District Liberal Association here last night two resolutions were unanimously passed, one reaffirming allegiance to Sir Wilfrid Laurier and the other retaining to continue any coalition government led by Sir Robert Borden. The first reads: "That there is not now and never has been in the mind of any real, genuine and unqualified Liberal in this association or in this country, at any time a single doubt as to the distinguished leadership of the grand old Liberal party in this present campaign and we herein at this annual meeting now pledge our allegiance to Sir Wilfrid Laurier, greatest of Canadian statesmen, and our confidence that he may again soon and long conduct the government of Canada and unite a prosperous country, and so effectively help to win the war."  
 The other resolution emphasized that

**TO THE TAXPAYERS OF THE CITY OF CALGARY**

ONE WEEK FROM TODAY, viz., October 20, 1917, the period up to which time General Taxes will be accepted by the City and 10% discount thereon for prompt payment allowed, expires.

STOP FOR ONE MOMENT TO CONSIDER what this means to you from an economic and patriotic point of view.

STOP ANOTHER MOMENT AND CONSIDER the effect your meeting your obligations to the City will have on the credit and good name of our City.

STOP JUST ONE OTHER MOMENT and reflect upon the fact that if the City fails to collect its revenues that at least the efficiency of every department of the City, including its Schools, Hospitals, Waterworks System, etc., etc., must be seriously impaired.

STOP AGAIN AND CONSIDER the fact that the City has certain binding financial obligations to meet in the large financial centers of the world, and which can only be taken care of out of tax receipts, and if these are not met the effect it must have on the value of the property of each and every taxpayer of the City?

SERIOUSLY THINK OVER the foregoing and I am sure an honest and special effort will be made by every taxpayer to satisfy his or her obligations to the City on or before the 20th inst.

NOTE PARTICULARLY—1917 taxes will be accepted by the City and 10% discount allowed if paid on or before the above date regardless of any arrears outstanding.

KEEP CALGARY THE FOREMOST CITY IN WESTERN CANADA.  
 TAX COLLECTOR'S OFFICE OPEN EVERY NIGHT, OCTOBER 15th TO 20th, UNTIL 10 P.M.

**M. C. Costello**  
 Mayor.

The Liberals of greater Vancouver would not support any coalition of the Liberals and Conservatives "under Sir Robert Borden and Sir Thomas White."

**B. C. SHELL CONTRACTS**  
 Munition Employees Ask to Have Work Continued.

Victoria, Oct. 12.—Munition workers here have forwarded a petition to Sir Robert Borden praying for the letting of further shell contracts in this province, on the grounds that this kind of work should be provided for the dependents of those who have gone to the front and for returned soldiers. Within 30 days all shell contracts in the province will be completed and 2,000 men and women will be out of work.

**M.P. GETS HIS REWARD**  
 Ottawa, Oct. 12.—The appointment of Angus A. McLean, ex-M.P. for Queens, P.E.I., to be comptroller of the Royal Northwest Mounted Police from October 15th, to succeed Captain L. Bortecus, retired, is officially gazetted.

**BRITISH GOVT PAID 25 CENTS FOR SALT WATER**

Davies Meat Co. Auditor Thought Ignorance of the British Gov't Appalling

Toronto, Oct. 12.—"Take care of the pickle. It is worth 25 to 30 cents a pound. The British government should know more than to pay 25 to 30 cents a pound for salt water."

Toronto, Oct. 12.—W. L. Argue of the Toronto Star, was today elected to the board of directors at the closing session of the International Circulation Managers' association here today. I. H. Sears of Davenport, Iowa, was elected president and Washington was selected as the 1918 convention city.

**Your Home Is Not Complete Without A DAVENPORT**

A lounge is a necessary piece of furniture in the home; in fact, an article that cannot very well be done without. But a mere lounge involves the outline of a certain sun and is limited in the service it gives. On the other hand, for a little larger outlay you can secure a bed davenport that combines a lounge by day and by a simple change a bed by night.

Think what a convenience such a piece would be if, at any time you should require a spare bed on short notice. It would supply the want satisfactorily and could be turned back into a lounge when its task has been completed. Such a piece, while costing a little more than a lounge, is much more desirable because it is a greater convenience. Our assortment comprises the best examples of these pieces, namely, the "Kodav" Divanette and the "Daveno."

**Davenport**

"THE GIRL THAT HE LEFT BEHIND" GREAT INFLUENCE

Her Letters and Gifts of Fudge Are Biggest Prizes to Man in Khaki; Will Help Win War

The best moral influence that the soldier in camp or at the front has is the girl he left behind him. She stands between him and the temptations of the world, she inhabits his dreams and keeps his ideals and his thinking clear.

The treat that its lovers learn to expect from a cup of "SEAL BRAND" COFFEE, is always realized to the full for "Seal Brand" holds its aroma and flavour to the last spoonful in the air-tight can.

In 1/2, 1 and 2 pound tins. Whole-ground-pulverized—also fine ground for Percolators. Never sold in bulk.

CHASE & SANBORN, MONTREAL

BEAUTY CHATS

The Right Foods

It is the most logical thing in the world that one's looks, health and mental outlook should be the direct result of what one eats.

A woman's health, youth and looks depend principally upon what she eats.

Once the system is clear, the bowels free from collected impurities, and the stomach resolving only the foods it needs, in quantities such as it can easily handle, the skin will clear and firm.

The secret of beauty lies mostly in what foods are taken into the system.

PUBLIC SCHOOLS ARE BEING ASKED TO AID RED CROSS

Children Are Requested to Give Their Aid to the British Appeal

The following letter is being received in the public schools from Mrs. J. S. Dennis, president of the Calgary Red Cross society for the British Red Cross appeal next Thursday.

FIRST AID CLASS FOR MEN WILL BE OPENED SHORTLY

Owing to the great interest being taken in the work of the St. John Ambulance association, it has been found necessary to start another class for men in this work.

THE ECONOMY BASEMENT

Organize your districts immediately, so as to insure the best possible returns on Oct. 18, "our day."

## GIANTS CONFIDENT OF CAPTURING BIG GAME IN CHICAGO

Sallee or Perritt Will Do Flinging for New York; Doubtful Who Will Pitch for Sox

Chicago, Oct. 12.—The world series warfare between the Giants and the White Sox enters into the closing stage of the baseball campaign here tomorrow, when the two teams meet in the fifth contest of the series at Comiskey park. Each club has two victories notched in their bat battles and the club that wins two of the remaining three games to be played will bear off the honors of the series.

The Giants came down late today, whopper and confident. They had bowled over the American league champions twice at the Polo Grounds, and the New York pitchers had not allowed a run. The Giants were confident that they had the edge on their opponents and would decide the baseball supremacy by beating the White Sox on their own grounds, and then put over the fourth victory in New York next Monday. The Giants have faced the best of the Sox hurlers and say they do not fear them.

"We have beaten Goetts," said Charley Herson, the Giants second baseman and captain said tonight "and we can beat him and that same ball any time we cross against us."

The New York pitchers are in fine shape and have had plenty of rest. Sallee is regarded as McGraw's choice for Sox work tomorrow, but if the weather conditions could be close to the freezing point tonight—it is probable that "Poli" Perritt may be chosen.

McGraw has found though that the Sox do not take kindly to left handers and some of the Giants believe that the plan is to "southern" the Sox out of the series.

White Sox Not Discouraged  
The White Sox came home on a special train tonight not a whit discouraged by the upset in New York. They gave full credit to "Tuffy" Benton for his work in Wednesday's game, but could not understand why they did not make any progress against Schupp's fast curves. The Sox seemed to think that Benton always will be a hard proposition any time he starts, but believe that Sallee or Schupp will find themselves running to cover if they go against them again.

Eddie Crook tonight said that he was ready to work tomorrow if called on, and Reb Russell is fairly beginning Manager Rowland for a chance to face the Giants. Russell told everybody on the train that all through the National league season the New York club had its troubles whenever a good left hander showed any speed and curve.

The Sox agreed that the Giants looked like a smart and fast ball club on Thursday and that it was a team that would take a lot of beating once it was in its winning mood.

Manager Rowland said tonight that he had not made up his mind as to the pitcher for tomorrow's game. Joe Jackson insisted that the Sox batting slump was only of two days' duration and that the Sox back fence would come in for a bombardment once the club was under way.

It snowed here today and then rained and there was a constant threat of a storm tonight, though the weather man gave a cheering forecast of fair and cold. There was a winter nip to the air.

The members of the National commission sent word about the game would be played unless it rained or snowed or an unusually cold was prevented.

Seats for Saturday sold tonight at a high premium. Fifteen dollars was paid for a box seat and \$10 was asked by the speculators for a grandstand seat. Late tonight a long line of fans gathered at the gates of the unreserved stands. Fires were lit and men were wrapped in greatcoats and blankets.

**NEW RECORD MADE**  
New York, Oct. 12.—A new record of 52 feet 1 1/2 inches for throwing the 56-pound weight in unlimited run-and-follow style was made by Matt McGraw at the final outdoor games of the New York A. C. today. The best previous record of 40 feet 2 inches was made by John A. Flanagan in 1904.

**IRISH "AERIAL" WARFARE**  
The photo shows a novel contest pulled off by a quartet of soldier athletes at the military sports at Dublin when Lord Wimborne, the viceroy of Ireland, and Lady Wimborne attended the military tournament, which was held in Lansdowne road, Dublin.—London Daily Mirror photo.

## FIFTH WORLD SERIES GAME AT ALBERTAN BULLETIN BOARD

The fifth game of the world's series will be played at The Albertan ball grounds, at First street east and Eighth avenue, simultaneously with the effort of the New York Giants to add another game to their winning streak when they play the Sox at Chicago this afternoon. The game starts at 2 o'clock, Chicago time, and at 1 o'clock the words "Play ball" will be ticked off The Albertan wire at the bulletin board. The Albertan operator will be at the key at 12:15, when several preliminary announcements will be made.

## ST. ANDREW'S AND THE COUNTRY CLUB PLAY GOLF MATCH

Interesting Golf Event Will Take Place This Week; Four Teams in Contest

The St. Andrew's and the Calgary Country Golf clubs will play a match this week-end, there being four teams in the event. The A teams from each club will play St. Andrew's and the B teams will work out at the Country club course. The event promises to produce some interesting scores, as in the line-up of both clubs some of the record holders are included. The teams are as follows:  
St. Andrew's "A" Team—A. E. Crittenden, Robt. Whyte, H. D. Mann, W. I. Wainis, M. G. Constable, T. C. Rankin, W. Petrie, J. W. O'Brien, R. A. Morrison, G. H. Ross, W. Ballingall, J. B. V. Hill.  
Country Club "A" Team—C. W. Hale, F. P. Wilson, J. L. Bell, W. A. Ross, F. L. Cochran, A. M. McMann, A. L. Smith, A. C. Ruttle, C. R. Young, C. W. Rosenbich, D. L. Beck, F. G. Lewis.  
St. Andrew's "B" Team—M. Gosst, A. M. Sindal, Capt. T. G. Breck, Tom Martin, A. Hanna, J. F. Findlay, D. G. Campbell, O. M. Light, J. G. Patis, A. W. Ambrose, R. H. Bennett.

Grath at the final outdoor games of the New York A. C. today. The best previous record of 40 feet 2 inches was made by John A. Flanagan in 1904.

**NOTES ON THE GAME**  
Mr. Woodman and Mr. Rosboro acted as officials.  
The Sunalta boys have been training hard under Carl Scott. Their team is a credit to any league.  
Jones and Singleton played in great style for Sunalta, while Neveler, Anderson and Gibson starred for the Crescents.

**MIKE GIBBONS TOO STRONG FOR MANTELL**  
St. Paul Wonder Defeated Dayton Boy in Two Rounds

St. Paul, Minn., Oct. 12.—Mike Gibbons proved too strong for Frank Mantell, of Dayton, Ohio, tonight, and won a technical knockout when Referee Hughey McMahon stopped the bout in the third round to prevent further punishment. Gibbons won all the way and at no time did Mantell have a chance. The St. Paul phantom danced in, delivered a stiff right or left and danced away again, leaving Mantell practically helpless. The decision of the referee was popular with the crowd.  
Johnny Noye outpointed St. Pauler Yoakum and Carl Leonard beat Schauer in preliminary bouts.

**BROWN TAKES ACTION**  
Three-Fingered Mordecai Gets After Federal League.

Chicago, Oct. 12.—Mordecai Brown, the veteran three-fingered pitcher, has filed suit in Federal court here, it became known today, asking for the appointment of a receiver for the National American and defunct Federal league to compel payment of \$1,500 which he claims is still due him on his Federal league contract. L. Behrman, counsel for Brown, said tonight that when the Federal league signed a peace agreement with organized baseball, the league's assets were distributed among the clubs of the National and American leagues. Brown wants these assets collected and a receiver appointed for them. Chas. Weeghman, of the Chicago National league club, took over the Chicago franchise.

## CRESCENT JUNIORS WIN THIRD STRAIGHT RUGBY GAME

But They Had Some Difficulty in Defeating Game Sunalta Team

The Crescent Heights junior rugby boys won their third straight game yesterday when they defeated Sunalta by a 5-0 score. The game was by no means one-sided. The hours played hard from whistle to whistle, but they were unable to work in a score.  
In the first half of the game the ball was held up in center field, neither team gaining their yards more than twenty.  
In the third quarter the Crescents used their halves continually on backs and end runs. Several times they reached the Sunalta line but were unable to put the ball over.  
The Sunalta line held together in fine style. The beginning of the fourth quarter found the Crescents in possession of the ball within ten feet of the Sunalta goal. The winners bucked their way over on the second down for the only try of the game. The try was not converted. The game ended in mid-field with Sunalta in possession of the pigskin.  
The teams lined up as follows:  
Crescents—Neveler (capt.), Kronch, Wong, Livingstone; quarter, Adams; center, Allan; outside, Gibson and Davidson; inside, Anderson and Watts; inside, Messenger and Doll.  
Sunalta High—Backs, Singleton, Jones (capt.), Oulley, Shulman; quarter, Mann; center, Albforth; outside, St. Clair and McKay; middle, Gale and Anderson; inside, Fowler and Parks.

## C.C. JUNIORS WIN FROM ST. MARY'S HIGH SCHOOL TEAM

Score Was 25-0, But St. Mary's Made the Usual Gritty Fight

The Central Collegiate Juniors defeated the St. Mary's High school yesterday in the junior intercollegiate series by a score of 25 points to nil. Though St. Mary's was at the bottom of the heap, the team played a strong, hard game, as the team always does. They did not quit until the last whistle was blown.

The Central started the scoring in the very first quarter, when Dunkley went over for a try, which, with a rouse, counted six in the first division. A like score was made in the second quarter through a try by Bushfield which was converted. In the third quarter Central got a try and a goal by drop kick. In the last quarter the Central brought the total score up to 25, the last score being a try.

It was a good game. It was handled by James Spence and Kelly, and there was no trouble with it.

## FRANK GOTCH SICK

Ex-Champion Wrestler Ill With Kidney Disease. Chicago, Oct. 12.—Frank Gotch, for years world's champion wrestler, is seriously ill in this city. Gotch, accompanied by Mrs. Gotch, arrived yesterday from their home at Humboldt, Iowa, on their way to Hot Springs, Arkansas. He became suddenly ill, and went to a Chicago hospital for treatment. A few hours later hospital physicians said that on the surface, Gotch was suffering from a kidney complaint. A more thorough diagnosis will be made.

# R. D. Stark MERCHANT TAILOR

# SPORT NEWS

## ICE HOCKEY; CANADA'S SPORT OF THE FUTURE

What Is the Greatest Game? Few People Will Be Able to Agree on This Question, But the Ice Sport Has Bright Prospects in Dominion

Every athlete, every sportsman, every live youth and man is enthusiastic over some particular pastime. There is always someone who will be can shout and yell until his voice is entirely gone, and even then he will continue to give expression to his most fervent feelings by frantically waving his hands, throwing his cap into the air and acting in a manner which in the estimation of the "very sedate," places him in that class of questionable persons who are to be treated civilly, but whose company is to be avoided.

Which Is "The" Game? Of all the games, baseball, football, hockey and lacrosse, basketball, polo, rugby, tennis or golf, which would you choose as the supreme sport? The pastime in which you could find the supreme moment of enjoyment; the one in which you would be forgotten and every thought centered on one object; the game? This is indeed a difficult question to answer. In fact, no general answer is or could be given. The subject is such a comprehensive one. Its scope is almost unlimited, and the man or woman who attempts to say that "this" or "that" game is the only one will find that there are some very strong opponents to his particular view.

Sport is something which must combine a multitude of factors. Sensations and thrills are its very life; the more skill that is required, the more energy that must be exerted; the more spectacular the movement, the more will the game appeal to both its participants and especially to the fans. No one sport, however, can be said to possess all the elements, which if compiled, might be supposed to form the perfect game. It is thus easily explainable why no one sport holds supreme.

Then again it must be recalled that sport has to do essentially with people, and people are human. Their likes and dislikes cannot be accounted for, some delight in the invigorating walks over the links; to sit on the edge of the green while the long suffering caddy searches, frequently in vain, for the ball in a nearby bush; to sit again in the bleachers at a World Series game which to the uninitiated appears not only unending but equally boring. Then there are the great multitude of fans whose joys are realized in the bleachers at a World Series game which to the uninitiated appears not only unending but equally boring. Then there are the great multitude of fans whose joys are realized in the bleachers at a World Series game which to the uninitiated appears not only unending but equally boring.

It is ice hockey that could be termed the greatest of sports? Certainly from the spectacular point of view it has no rival in the world. It is a game which has a thousand thrills. Consider for a moment its players. The whirlwind star, O'Connell, Taylor exemplifies that combination of brain and brawn which is the delight of admiring fans. The mere mention of a few names such as Holmes, Roberts, Forryon, Kerr, Patrick, Lalonde, Ross, Phillips, Griffin, Irvine, Roy, and many others, and others is sufficient to recall to followers of the game the feats that these players are accustomed to perform.

It is strange that though lacrosse, Canada's national pastime its appeal to the fans is limited in comparison to hockey. There is that about the ice game with its darting puck and its fast moving players that attracts the most indifferent onlooker, rivets his attention and finally wins him as a life-long follower of the sport. There are few games which have this power. By far the majority must be witnessed a number of times, the rules must be mastered and the identity of the players learned before any enjoyment follows; but such is not the case with hockey.

Baseball a Thriller Speaking in terms of publicity there is possibly no game which is so widely followed both at home and abroad as the press as Uncle Sam's national pastime, baseball. Certainly throughout North America it reigns above all others as a summer sport. It is enthusiastically followed by the millions which inhabit the great centres of industry. The millionaire's son and the apprentice boy alike are eager to see the game and to enjoy the results as heralded in the newspaper. Nor is it youth alone that is thus subject to its attractions. Its alluring charm has completely taken advantage of the aged and infirm. There are those who are today as ardent advocates of the sport as their brothers. Baseball differs from hockey or football to a marked degree in that it is played in a mass. The movement is a continual thrill, an unending rush of players from spot to spot. With baseball there is the element of suspense, that second when there is "nobody out," and the bases are full; when the pitcher hesitates to let fly that last ball which will mean possibly a game won or lost. At such times the feeling is intense. Thousands of spectators are motionless with necks craned and eyes intent on the man in the box and his adversary at bat. These are the factors which mean life or death to a national game.

Soccer is Popular As baseball is the greatest of American games so is football the greatest English contest. To be impressed with the spectacle that a match presents one need only picture in the mind a small English town, with quaint surroundings of rural scenery. The soccer field has accommodation for 100,000 spectators, or possibly more. Whatever the number may be, one thing is assured, it will be taken to capacity. And then the play commences. Twenty-two men, the picked teams of two sides, are matched for the struggle, each player realizing that he is a unit, and that the success or failure of the team will depend just as much upon him as on his neighbor. It is here that one finds the personification of the spirit of unity; the development of that perfect combination that carries many a team to victory.

The score in soccer is never very large, two or three goals a side being almost the limit in a good match; and the excitement and feeling of the crowd is intense. The players dart from side to side, now from this end of the field and now to that; kicking, dodging, shooting; in fact, passing the ball with

as much skill as the baseballer controls it with the hands. It is truly an excellent game and as a test of endurance has few rivals. Numerous Others But what of the numerous other pastimes almost too numerous to mention? Consider for a moment, tennis, golf, basketball, rugby, cricket and, last but not least, the famous pastime polo. All these have their attractions and alluring charm for the sportsman, and who shall say that one of these ranks entirely supreme? True it is that each and every sportsman will have his preference; he will be able to distinguish factors which to him make this or that sport "the" pastime; but in the final analysis there are advantages and disadvantages to be found in all. No one, therefore, is likely to be so pronounced in his or her views as to say "this" is the greatest game; but it would not be going too far to predict that so far as Canada is concerned, ice hockey is the sport of the future.

## CONNAUGHT WINS FINALS IN PUBLIC SCHOOL CONTESTS

Seven Hundred Competitors From 19 Schools Take Part in 35 Events

Over 700 competitors from 19 schools competed before 2,000 spectators in the finals of the public school athletic meets yesterday afternoon in the horse show building.

Connaught school won the D. E. Black trophy for the championship of the city with 61 points. Haultain being second with 31 1-2 points.

The Individual Champions Barker Dickenson of Sunalta school, and Gordon Ross, of Practice school, tied for the boys' individual championship of the meet with 15 points each after a strenuous contest.

Program Run Off Quickly The 35 events were run off in four hours without any delays or other incidents to mar its success, and the thousands of youngsters made life one grand noise as they cheered and applauded their respective winners.

It was the largest meet ever held in the Dominion. During the afternoon a school nurse was in attendance, but fortunately she had nothing to do outside of one fainting spell. From every point of view the meet was a fitting climax to the remarkable series of meets held throughout the city during the past two weeks.

Boys' Special Class Standing broad jump—A. Chisholm (Connaught), 7 ft.; 2. A. McKinnay (Mount Royal); 3. A. Taylor (Victoria). Running broad jump—A. Chisholm (Connaught) and W. Lacey (Alexandra), tie, 12 ft. 8 1-2 in.; 3. P. Thompson (Haultain).

50 yards dash—L. Head (Connaught); 2. A. Buis (Ramsay); 3. R. Geffen (Central). Relay race—1. Central (R. Geffen, H. Olsen, C. Hillard, P. Crimigo); 2. Ramsay; 3. Haultain.

Boys' "A" Class Standing broad jump—J. MacKay (Haultain), 6 ft. 11 in.; 2. A. Bury (Central); 3. L. Corse (Mount Royal). Running broad jump—J. Landerson (Stanley Jones), 13 ft. 9 1-2 in.; 2. L. Corse (Mount Royal); 3. J. MacKay (Haultain).

50 yards dash—J. MacKay (Haultain); 2. Stanley Jones; 3. H. Kline (Stanley Jones). Relay race—1. Mount Royal (L. Corse, C. Walker, O. Benson, C. McLaren); 2. Stanley Jones; 3. Haultain.

Boys' "B" Class Standing broad jump—1. B. Dickenson (Sunalta), 7 ft. 4 in.; 2. A. Zeigler (Connaught); 3. A. McLennan (Victoria). Running broad jump—1. B. Dickenson (Sunalta), 14 ft. 4 in.; 2. A. Zeigler (Connaught); 3. I. MacKenzie (Connaught).

75 yards dash—1. B. Dickenson (Sunalta); 2. W. Jefferson (Central); 3. J. Wilson (Victoria). Relay race—1. Earl Grey (E. Blackie, T. Glasdale, G. Campbell, B. Gruburn); 2. Practice; 3. Mount Royal.

Boys' "D" Class Running broad jump—1. R. MacKenzie (Mount Royal), 15 ft. 5 1-2 in.; 2. G. Saunders (Haultain); 3. G. Rutlan (Haultain). Hop, step and jump—1. G. Rutlan (Haultain), 33 ft. 10 1-4 in.; 2. J. Forbes (Connaught); 3. R. MacKenzie (Mount Royal). 75 yards dash—1. G. Saunders

# THE BEST YET

That's what you'll say when you see these Belted Overcoats for Fall and Winter made by

# HART SCHAFFNER & MARX AND SOCIETY BRAND

Some of them have belts all round; others belts at the back—plaits, yokes, patch pockets. All of them are made of All Wool fabrics and are guaranteed to satisfy, or your money back.

## LADIES

We have just put into stock several model Top Coats, especially made for ladies. Your inspection invited.

## NEW FALL FURNISHINGS

You will find a striking exhibit of Fall Haberdashery—different ideas in SHIRTS, HATS, NECKWEAR, UNDERWEAR, and everything to give you satisfaction in STYLE, QUALITY and VALUE. You will be delighted with this service—there's none better.

The W. Diamond Clothing Co., Ltd. C. BENJAMIN, Manager The Home of Hart Schaffner & Marx and Society Brand Clothes. Burberry Coats. Florsheim Shoes Maclean Block 107 Eighth Avenue East

## HEADLIGHTS

Provincial Police Will Strictly Enforce Regulations. Edmonton, Oct. 12.—Representatives of the Coped Line Co. of Calgary gave a demonstration of auto lenses before the provincial police authorities here tonight. The Coped lens was found to comply with the headlight law in every respect and it was proved that it also gave increased road light. The government motor cars are being fitted with new lenses and a strict enforcement of the headlight law may soon be expected. It is understood that instructions to the police authorities will be issued by the deputy attorney-general's department in the next few days.

## BOWLING SEASON OPENS

The Woodbine Bowling alleys have reopened for the season and after a thorough renovation now present a

## ON WAY TO CALGARY

Winnipeg, Man., Oct. 12.—To hear complaints from the western bands of trade to all-rail rates from the east. D'Arcy Scott, vice-chairman of the board of railway commissioners, and S. J. McLean, member of the commission, passed through the city tonight on their way to Calgary to hold a session there on Monday. Sir Henry Drayton, chairman, did not accompany the party.

## Girls' "A" Class

Standing broad jump—1. F. Peel (Sunalta), 6 ft. 3 in.; 2. N. Smith (Connaught); 3. G. Jackson (Haultain). 50 yards dash—1. A. Malm (Connaught); 2. N. Smith (Connaught); 3. M. Evans (King George). Relay race—1. Ramsay (J. Laidlaw, B. Smith, D. Bloor, F. Kelly, R. McDonald, G. Wait); 2. Victoria; 3. Riversdale.

## Girls' "B" Class

Standing broad jump—1. M. Cooper (Connaught), 6 ft. 8 1/2 in.; 2. A. Park (Mount Royal); 3. G. Mossman (Alexandra) tie. 50 yards dash—1. H. Thompson (Connaught); 2. M. Stevenson (King George); 3. G. Irvine (Practice). Relay race—1. Connaught (M. Cooper, H. Thompson, C. Smith, D. Patrick, D. Gallagher, H. McNeil); 2. King George; 3. Mount Royal.

## Girls' "C" Class

Basket ball throw—1. D. MacKay (King George), 57.04; 2. V. Tennant (Stanley Jones); 3. F. Bridgen (Sunalta). 75 yards dash—1. A. Watson (Ramsay); 2. M. Jarrett (Sunalta); 3. I. Dickenson (Connaught). Relay race—1. Connaught (L. Fleet, K. Armstrong, M. Bell, I. Douglas, K. Hara, H. Campbell); 2. Sunalta; 3. Central.

## Girls' "D" Class

Basket ball throw—1. F. Mitchell (Haultain), 57.47; 2. G. Teeple (Victoria); 3. K. Hall (Practice). 75 yards dash—1. Gibbons (Connaught), M. Shoudice (Haultain), tie, 3. B. Wake (Central). Relay race—1. Central (G. Clarke, M. Barnum, A. Falls, B. Wake, F. Kelly, F. Christensen); 2. Sunalta; 3. Stanley Jones.

## Individual Champions

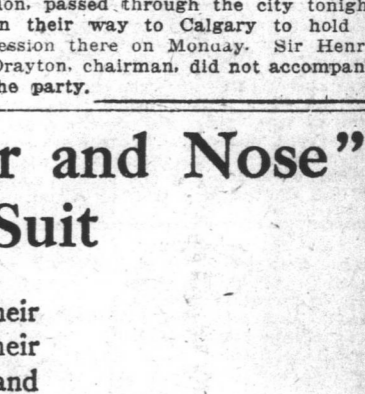

Barker Dickenson (Sunalta) and Gordon Ross (Practice) are tied for the Davidson championship with 15 points each, and will hold the cup six months each. Champions of Each Class Boys' special class—A. Chisholm (Connaught), 9 points. A class—J. MacKay (Haultain), 11 points. B. class—B. Dickenson (Sunalta), 15 points. C. class—G. Ross (Practice), 15 points. D. class—G. Saunders (Haultain), 8 points. Girls' special class—P. MacFarlane (Earl Grey), 8 points. A. class—N. Smith (Connaught), 6 points. B. class—M. Cooper (Connaught); H. Thompson (Connaught), tie, 5 points each. C. class—D. MacKay (King George); A. Watson (Ramsay), tie, 5 points. D. class—F. Mitchell (Haultain) 5 points.

## "The Eye, Ear and Nose" of a Suit

Doctors who specialize in their practice become expert in their particular specialty, and men and women seek them out when they are afflicted with the malady to which the doctor has devoted his study and experience. Thirty tailors contribute to the making of each individual suit; and each tailor is a specialist, having become expert in the making of his specialty. One man makes collars. Another makes pockets. A third makes linings. A fourth fits the lining. A fifth shapes the shoulders. A sixth sews in sleeves—so on. And thus the thirty specialists produce a Semi-ready Coat, and the Chief Examiner pronounces it good before there is sewn in the pocket the "Shield that Shields."

## Semi-ready Tailoring

### SUBSIDIZED BREAD NOW BEING SOLD THROUGH BRITAIN

#### British People Are Pleased With the Change and Do Not Worry About Economics

London, Oct. 12.—The Times says: "The subsidized 9-penny loaf is now on sale in all the bakers' shops and purchasers, particularly in the poorer districts, warmly welcomed the reduction of 2d a quarter or more on the price they have for many months been compelled to pay for their bread. It cannot be said that many customers gave a thought to the overthrow of economic doctrine represented in their saved pennies or to the £40,000,000 a year which it is estimated that the subsidy will cost the state if wheat prices remain at their present level. What they did realize was the reduction in cost meant something like a shilling a week—in some cases more—in the weekly bread bill. The economies involved they left to the theorists.

In ordinary times it is probable that no person would be more strongly opposed to a state subsidy to keep down food prices than the present food controller, but Lord Ridd and the government were faced with the fact that the quarter loaf at a shilling was causing serious unrest, and a subsidy offered the only means by which a reduction could be effected. The price of wheat is a matter over which the government could not exercise any full control. They had to pay the price, for expert opinion was against the idea that there has been "profiteering" in the sale of bread. In order to reduce the price of the loaf, therefore, it was necessary to go to the state for assistance. One view of the subsidy is that it gives back some of the excess profits, upon which taxation has laid a heavy hand, to the people who provide them. The tax is collected from employers and business operators, but in some measure at any rate it is collected from the consumer.

It is the present aim of the food controller to get the quarter loaf sold at 9d. We understand that there is no special desire that it shall be sold at a lower rate. It gives the baker too large a profit the price of flour might be slightly raised, and this would lessen the burden on the treasury. It is not questioned by bakers as a body that the arrangements made will give them a satisfactory return, and in fact there is some misgiving as to whether the margin allowed may not tempt some retailers to cut the selling price with a view to doing more business. In the current issue of the "Bakers' Record" it is declared to be highly probable that the exceptions to the maximum price will be many, while those who are courageous enough to exact a small additional sum for delivery are in doubt as to whether it will be universal.

The Spalding Co-operative society yesterday sold bread at 8 1/2d the quarter, giving no credit.

With regard to the danger that the cheaper loaf may lead to an increased consumption, retailers in the poorer districts agree that the reduction in price may lead to more bread being eaten. One baker yesterday said that, in his opinion, there was little doubt that bread tickets must come sooner or later. Food economy campaigns, he said, might do much to make the public realize the need for reducing, but there was always people who could unscrupulously exceed any voluntary ration; and it was not fair that they should be allowed to do so. If a bread consumption limit was necessary, then the best thing to do was to have a ticket system as soon as possible.

Posters being sent out by the ministry of food to circulate bear the following statement: "If you have not got a sugar card after December 30 the head of your household must apply for a sugar card before October 6."

**OLD SOLDIERS RETURNING**  
Petrograd Oct. 12.—The demobilization of superfluous troops attached to the Russian army has begun. The classes called for the years 1895-96, which include the men 43 to 44 years of age in the first to be relieved from duty. The men are being sent to their home villages in special trains, committees at the various towns on the way assisting in their return.

LLOYD GEORGE AT EISTEDDFOD

Mr. Lloyd George drew a moral from the Eisteddfod which he addressed at Birkenhead September 6. The first condition of the work of this ancient institution, he said, was that all differences should be sunk and thus it has a lesson for the tremendous hour of fate, the lesson of national unity in the greatest enterprise this country has ever embarked upon. The photo shows Mr. Lloyd George addressing the meeting.

### THE OLD SPIRIT STILL

(By C. David Stelling)

We had foregathered at the club—Carruthers, Heal-Kennedy and myself—for the first time in three years.

And for three whole hours we had talked each other's heads off. It was certainly an occasion. For a couple of years prior to the beginning of war, we had been practically inseparable. Then by some accident of fortune, we had drifted into different regiments. Heal-Kennedy went to Antwerp and later to Gallipoli (where he earned his first two wound-strips) and later still to the Somme (where he earned his third). Carruthers had spent eighteen soul-killing months on the coast, the English coast, mind you, before he had his chance transferred into the gunners and was now a captain, unwounded, but wearing the mauve-white-mauve ribbon that indicates conspicuous gallantry in the field. Myself, I had spent a few hum-drum months in the trenches and returned with an undistinguished injury, which crocked me permanently for active work, and left me with two stars and office work. So naturally we all disagreed most cordially and enthusiastically on every subject connected with the war that was alleged to be going on in Europe. We discussed the western front and the eastern, the current political crisis in Austria, the blockade, the strategic inferiority of Field Marshal Haig to Major Heal-Kennedy, Captain Carruthers, and Lieutenant—myself,

respectively, and a host of other topics, military, literary and political.

Finally we reached the subject of patriotism. We were all of us by way of being veterans; not "old contemptible blues" for by trade we were, in order of seniority, barrister, member of parliament and dramatic author, but we all of us dated back to August, 1914, and looked back with a sort of retrospective licking of the lips to the good old times, when drill and its concomitant inconveniences were joyously born because of the enthusiasm and feeling of high adventure that attached to those early days. Carruthers said that this sort of thing no longer existed. There was no glamor now in being made into a soldier. It was merely a machine-like process. The drill sergeants turned out men in the same mechanical way as the blue-cotton girls turned out munitions. And there was no more clan about a modern Tommy-in-the-making than there was about an undetonated Mills bomb. I was inclined to agree with him, knowing nothing at all about the subject, as I had been 12 months in an office.

Heal-Kennedy was eloquently opposed to this theory. And he, he protested, knew, or at any rate ought to know, considering that he'd spent the last few months assisting at the finishing process before his men went out in drafts to France. "The men were the same today as they had always been. Did we expect to hear them sing 'Rule Britannia' and beat big drums? (Fortissimo duet of "Heaven forbid.") Then what on earth did we think that we knew about it? And so on. It wasn't the people who did their job who "muffed." In the Boer war the "mufflers" were the people who stayed at home. Even though we did have conscription, that didn't mean that men were forced to go against their will, but only that they had in most cases waited until the unfairness and irregularities that were attendant upon the haphazard methods of the voluntary system—or rather unsystem—were abolished by some legal measure. (I have mentioned that H.C. was a lawyer.) And once they were in, they were every bit as keen soldiers as the men who had, like ourselves, been hawking out "Love Me and the World Is Mine" to the evident sympathetic delight of his companions. And before the whole battalion had passed through the gateway into the station square came the inevitable query, "Are we downhearted?" followed by the not less inevitable reply from a hundred voices: "No-o-o-o!"

The melody of familiar noises was as sweet music to my ears. I had not heard them since before I had left for France. It was the old spirit of the first and many subsequent expeditionary forces, expressing itself in the old familiar way. Perhaps it wasn't patriotism as the German understands the term. For these men who were leaving for the front did not go forth with their country's name on their lips. Here was no vaunting, no "Such boasting as the Gentiles use, Or lesser breeds without the law—" No clamant oar or high-sounding blasphemy, but the old undaunted, undaunted spirit was there, the spirit that let amateur soldiers of London town rout the "Invincible" Prussian Guard. The next morning I wired my apologies to Heal-Kennedy. He had been right after all.

**NO FRATERNIZING NOW**  
Petrograd, Oct. 11.—Austro-German troops are renewing their attempts to fraternize with the Russians, but so far every effort has met with failure, according to a statement issued by the war office, based on reports from the front. The general situation is quiet although some of the armies, as well as some of the Cossack units, still met with some suspicion toward the commanding staff. The question of peace is said to agitate the great mass of the Russian soldiers.

### "Let Me Help You Carry the Burden, Mother"

"If Canada fails us in October, we must curtail many of our activities."

Sir ARTHUR STANLEY,  
Chairman, Executive Committee,  
British Red Cross.

It now costs \$300,000.00 a week to carry on the work of the British Red Cross, or \$16,000,000.00 a year.

Every minute of the day and night it costs \$30 to minister to the sick and wounded and dying.

Last year Canada's magnificent contribution paid for the entire work of the British Red Cross for nearly seven weeks.

This year, in view of the greater need, it is earnestly and confidently hoped that Canada's contributions will be as great proportionately as the magnificent offering of last year.

Our trust is, that the Citizens of Canada will give generously to this noble cause on—

### "OUR DAY", OCTOBER 18th

<b>A Few Facts about British Red Cross Work.</b> The British Red Cross Society is the only institution which carries voluntary aid to the Sick and Wounded of the British forces on land and sea in every region of the War. It is work is therefore the concern of all classes of British subjects, whether living in the British Isles, in the Dominions and Colonies beyond the seas, or in foreign countries.	<b>IN GREAT BRITAIN</b> 57,000 Hospital Beds found in the United Kingdom. 30,000 of these provided with Nursing Staff. 2,000 Trained Nurses working at home and abroad. 7,500 V. A. D.'s helping in Army Hospitals.	\$220,000 spent on equipment of King George Hospital (1,850 beds) and \$130,000 a year contributed to cost of its maintenance. \$225,000 spent on building and equipping Netley Red Cross Hospital (1,000 beds); and \$625,000 spent on maintenance. \$175,000 spent for Orthopaedic Curative Workshops and Training Fund. \$185,000 for Facial Injury Hospitals.

**Oh! My! That Smells Good!**

And, madam, you should just smell the fragrance of crushed coffee after it is brewed. And the flavor of it! Well, you never tasted ground coffee with a flavor just like Red Rose Coffee. Coffee critics, those who have travelled far and wide and tasted coffees in various climes, tell us they have never tasted more delicious coffee. Some have even said—but we will refrain from printing such high praise. We prefer you to try Red Rose Crushed Coffee without revealing anything further as to its quality. We don't want to take all the edge off the surprise in store for you when you try it. And the same price it was three years ago.

**Red Rose Coffee**

**ANY KIND OF SHOES MADE-TO-ORDER**

**When You Leave Shoes Here**

To be repaired, you may have doubts as to our ability to make them serviceable again. Those doubts will disappear the instant you see the shoes we hand back to you. Our work should be called re-making rather than repairing. For we really do re-make old shoes into new ones, as a trial will prove.

### DRINKING FOUNTAIN COST 140 MILLIONS FOR NEW YORK

It Extends for 120 Miles and Is Known as Catskill Aqueduct

New York, Oct. 12.—A drinking fountain which has cost \$140,000,000 in money and eight years of labor, will come into the possession of this city tomorrow. It extends from the Catskill mountains, 120 miles away, and is known as the Catskill aqueduct. In celebration of its official acceptance as a municipal system which will supply water to millions of persons, a three-day festival is planned which is expected to rival the Hudson-Palton jubilation exercises here in 1909. Because of the engineering problems which had to be overcome in enabling the city to draw water from the Ashokan dam, 110 feet above tide level, the construction of the system has been described as a feat surpassing in accomplishment the building of the Panama canal. It is one of the few great undertakings which have been completed both within contract time and without being attended by any labor disturbances. The Catskill aqueduct creates four lakes in its course from the mountains to the city. It burrows under valleys, tunnels through high land, dives under rivers until it reached a depth of 1,114 feet below sea level, and flows through the solid rock of Manhattan Island. It is twice as long as the most famous water system of the days of Rome, and is three times the length of the Panama canal. The aqueduct will be capable of delivering five billion gallons of water a day.

### PROHIBITION HAS CLOSED UP ONE OF VANCOUVER JAILS

Action Alone Will Result in Saving of Nearly \$10,000 Every Year

Vancouver, Oct. 12.—One perfectly good set of cells with their locks, guards and other equipment, known as Ward VIII auxiliary jail, ceased to exist today as the result of the marked decrease in drunkenness since prohibition went into effect in this city October 1. With prohibition in effect less than two weeks, the police court lists have been so radically curtailed that at the meeting of the police commissioners Police Chief McAtee recommended that the jailers and guards at the Ward VIII be moved to police headquarters. This action will result in the saving of nearly \$10,000 yearly to the taxpayers.

### NEW TREATMENT THAT KNOCKS RHEUMATISM

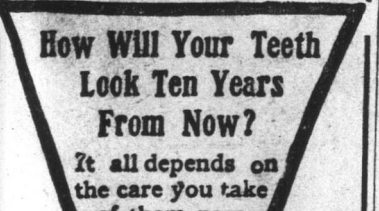

Up in Syracuse, N.Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Swelling, pain, stiffness, swelling just seem to melt away and vanish. The treatment first introduced by Mr. DeLano is so good that it overwants everybody who suffers from rheumatism or who has a friend so afflicted, to get a free 50c package from him to prove just what it will do in every case before a penny is spent. Mr. DeLano says: "To prove that the DeLano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 50c package free if you will just cut out this notice and send it with your name and address which I will pay postage and distribution expense to me personally." E. H. DeLano, 1441 Wood Bldg., Syracuse, N.Y. I can send only one Free Package to an address.

### WILSON MAY GO

Paris, Oct. 12.—The suggestion that President Wilson visit Europe is made by the Information in its leading editorial today. It says the allies need the president's counsel, that his influence would be powerful in establishing unity in regard to democratic ideals, and that such a visit would be of advantage also to America.

[L.S.]

## GEORGE the FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India.

To all to whom these presents shall come, or whom the same may in anywise concern—GREETING:  
A Proclamation calling out the men comprised in Class 1 as described by the Military Service Act, 1917.

*E. H. DeLano*  
The Deputy Minister of Justice, Canada

WHEREAS it is provided by our Militia Act of Canada, Revised Statutes of Canada, 1906, chapter 41, Section 69, that our Governor-General of Canada in Council may place our militia of Canada of any part thereof on active service anywhere in Canada, and also beyond for the defence thereof, at any time when it appears advisable so to do by reason of emergency;

And Whereas that part of our militia of Canada known as the Canadian Expeditionary Force is now engaged in active service overseas for the defence and security of Canada, the preservation of our Empire and of human liberty; and it is necessary owing to the exigencies of the war to provide re-enforcements for our said Expeditionary Force in addition to those whose inclination or circumstances have permitted them to volunteer;

And Whereas by reason of the large number of men who have already left agricultural and industrial pursuits in our Dominion of Canada in order to join our Expeditionary Force as volunteers, and by reason of the necessity of maintaining under these conditions the productiveness or output of agriculture and industry in our said Dominion, we have determined by and with the advice and consent of our Senate and House of Commons of Canada that it is expedient to secure the men so required, not by ballot as provided by our said Militia Act, but by selective draft; such re-enforcement, under the provisions of the Military Service Act, 1917, hereinafter referred to, not to exceed one hundred thousand men;

And Whereas it is accordingly enacted in and by the provisions of an Act of our Parliament of Canada, held in the 7th and 8th years of our reign, and known as the Military Service Act, 1917, that every one of our male subjects who comes within one of the classes described and intended by the said Act shall be liable to be called out on active service in our Canadian Expeditionary Force for the defence of Canada, either within or beyond Canada; and that his service shall be for the duration of the present war and demobilization after the conclusion of the war;

And Whereas the men who are under the provisions of the said last mentioned Act, liable to be called out, are comprised in six classes of which Class 1 is, by the provisions of the said Act, defined to consist of all our male subjects, ordinarily, or at any time since the 4th day of August, 1914, resident in Canada, who have attained the age of twenty years, who were born not earlier than the year 1883, and were on the 8th day of July, 1917, unmarried, or are widowers but have no child, and who are not within any of the following enumerated

#### EXCEPTIONS:—

1. Members of our regular, or reserve, or auxiliary forces, as defined by our Army Act.
2. Members of our military forces raised by the Governments of any of our other dominions or by our Government of India.
3. Men serving in our Royal Navy, or in our Royal Marines, or in our Naval Service of Canada, and members of our Canadian Expeditionary Force.
4. Men who have since August 4th, 1914, served in our Military or Naval Forces, or in those of our allies, in any theatre of actual war, and have been honourably discharged therefrom.
5. Clergy, including members of any recognized order of an exclusive religious character, and ministers of all religious denominations existing in Canada at the date of the passing of our said Military Service Act.
6. Those persons exempted from military service by Order in Council of August 13th, 1873, and by Order in Council of December 6th, 1893;

And Whereas it is moreover provided by our said Military Service Act that our Governor-General of Canada in Council may from time to time, by proclamation call out on active service any class of men in the said Act described, and that any within the class so called out shall, from the date of such proclamation, be deemed to be soldiers enlisted in the military service of Canada and subject to military law, save as in the said Act otherwise provided; and that the men so called out shall report and shall be placed on active service in the Canadian Expeditionary Force as may be set out in such proclamation or in regulations; but that they shall, until so placed on active service, be deemed to be on leave of absence without pay;

And Whereas it is also provided by the said Act that at any time before a date to be fixed by proclamation an application may be made, by or in respect of any man in the class to be called out, to one of our local tribunals, established in the manner provided by the said Act in the province in which such man ordinarily resides, for a certificate of exemption from service upon any of the following

#### GROUPS OF EXEMPTION:—

- (a) That it is expedient in the national interest that the man should, instead of being employed in military service, be engaged in other work in which he is habitually engaged;
  - (b) That it is expedient in the national interest that the man should, instead of being employed in military service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications;
  - (c) That it is expedient in the national interest that, instead of being employed in military service, he should continue to be educated or trained for any work for which he is then being educated or trained;
  - (d) That serious hardship would ensue, if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position;
  - (e) Ill health or infirmity;
  - (f) That he conscientiously objects to the undertaking of combatant service and is prohibited from so doing by the tenets and articles of faith, in effect on the sixth day of July, 1917, of any organized religious denomination existing and well recognized in Canada at such date, and to which he is in good faith belonging;
- And that if any of the grounds of such application be established, a certificate of exemption shall be granted to such man.

men hadn't come along, but it looked as if the raid was over. Traffic in the street below seemed normal, and the only evidence that something unusual had happened was the presence of groups of people, including a party of children, starting up into the heavens. There was a brilliant moon, but light, low-lying clouds. Some one in my party remarked of the shafts of artificial light that they 'stained against the moon.'

I decided to go to bed, but before I went to sleep there were further explosions: I stayed in my flat this time, I telephoned several newspaper offices to find out what was going on. From one came the answer: "Something is going on, and we rather think it is serious, but we have no reports yet." I wish I were permitted to specify localities; it would make the answer from that newspaper office very interesting. The second visit of the Germans was brief, and I went to bed and to sleep without knowing the nearness and extent of

of the danger. The next morning when I visited some of the places where the forty bombs had exploded I realized that I had been immediately in the path of the German planes, and that a bomb exploding at my corner would probably have killed everybody who happened to be standing at a window in the vicinity. The explosion carries with it a shower of shrapnel, which smashes window panes, and the broken bits of glass are as fatal as the shrapnel itself. The bomb that fell at the hospital entrance broke every window pane in the block, and there were literally hundreds of shrapnel scars on the stone and brick walls—bits ranging from an inch to six inches in depth and diameter.

REICHTAG HAS ADJOURNED  
Amsterdam, Oct. 12.—The German Reichstag according to a dispatch from Berlin, adjourned today until December 15.

BECAUSE OF MUTINY  
Activity of Germany Fleet in the Baltic is Explained.

London, Oct. 12.—The activity of the German fleet in the Baltic lately, when there were obvious opportunities for attacking Russia, was due to the mutinous outbreak in the German navy. The outbreak affected at least six important units of the fleet, putting them out of action. The authorities do not doubt the discipline and loyalty of the crews of other large ships. It was impossible to take stern measures on a large scale against the offenders because that would have increased the evil.

LAPOLLETTE TO APPEAR  
Washington, Oct. 12.—Senator Lapollette, of Wisconsin, today was invited by the senate committee investigating his alleged disloyal speech at St. Paul to appear next Tuesday before the committee for a hearing regarding assertions in his address.

KAISER AT SOFIA  
London, Oct. 12.—The German emperor has arrived at Sofia, according to a Central News dispatch from that city.

gating his alleged disloyal speech at St. Paul to appear next Tuesday before the committee for a hearing regarding assertions in his address.

NEW SWEDISH CABINET TO BE COMPOSED ONLY OF LIBERALS

M. Widen Will Not Have the Socialist Leader in His Government

London, Oct. 12.—M. Widen, who has been asked by King Gustave of Sweden to form a cabinet, will attempt to construct a ministry solely of Liberals, says the Stockholm correspondent of the Daily Mail.

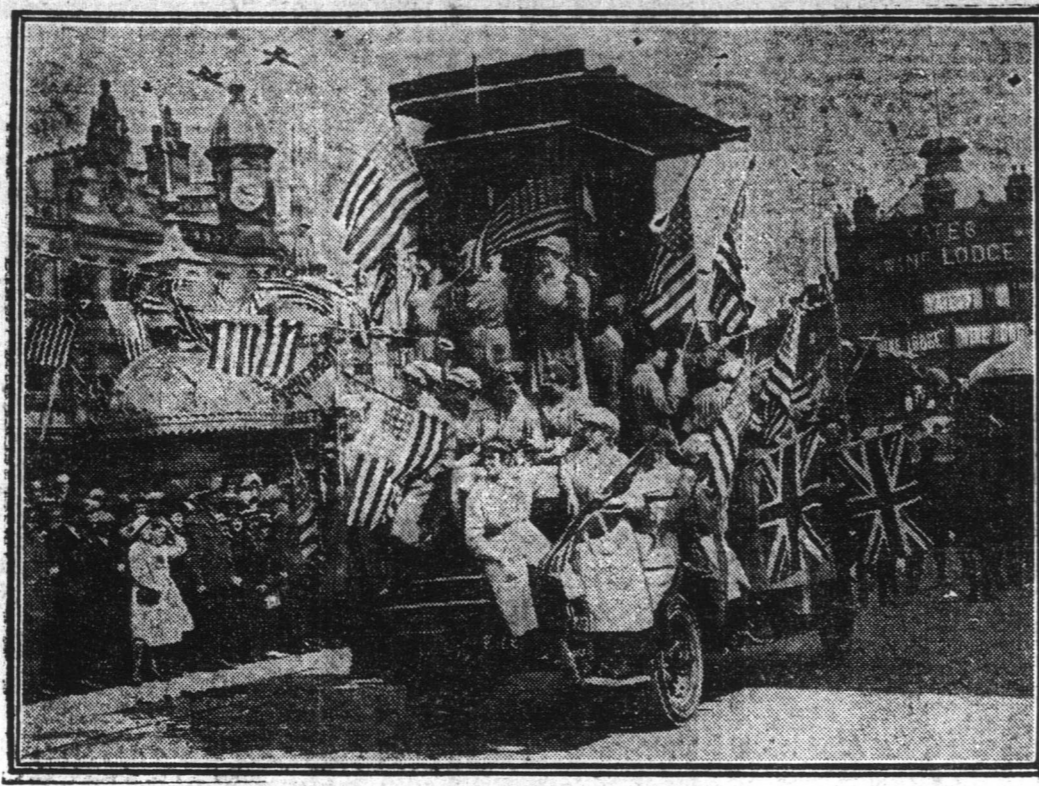

CREDIT GRANTS TO VETERANS FOR ARTIFICIAL LIMBS

Government Will Add to Pensions Received Special Fund for Soldiers

Oslo, Oct. 12.—The important announcement made by Secretary E. H. Haugen, of the military hospitals commission, that soldiers who incur disabilities requiring special appliances such as artificial limbs, crutches, rubber bands and belts, will be given a bill of credits in addition to their pensions.

ASK GOVERNMENT TO HELP

Washington, Oct. 12.—Reports that the Red Cross is considering informally asking the government to help them in some way to obtain money with which to maintain and enlarge their present plants and equipment to enable them to cope with the high tide of need, are regarded by officials here as forecasting a concerted move soon toward that end.

ANGLO-AMERICAN DAY AT BLACKPOOL; MUNITION GIRLS IN PROCESSION. Blackpool affirmed "its inflexible determination to continue the war to a victorious end" at a demonstration on Anglo-American day. Dr. Wallace Butterick delivered an address. Our photo shows munition girls wearing Old Glory and the Union Jack on a triumphal car.—London Daily Mirror photo.

CONCENTRATE UPON VICTORY, ADVICE OF BRITISH PREMIER

Everything Else Must Give Way at the Present Time, Says Lloyd George

London, Oct. 12.—Premier Lloyd George, addressing a delegation of insurance committees, who called today to urge a readjustment of health insurance and the establishment of a ministry of health, declared that all the nation's thoughts and energies were taken up by the terrible demand made in defense of liberty and freedom. He wished he could see the end, but the task which the nation had taken in hand must be accomplished.

NEW LEADER IN ONTARIO

Toronto, Oct. 12.—Rumor here is to the effect that Nelson Parliament, M.P.P. for Prince Edward, is the most likely choice to succeed W. Rowell, K.C., as leader of the Ontario Liberal Party.

U.S. CHIEF JUSTICE IS DEAD

Baltimore, Oct. 12.—Justice William Graham, chief justice of Nova Scotia, died suddenly today.

STRONG PEOPLE NEEDED

The need for people to be healthy is urgent. Those whom illness has put outside the ranks of robust men and women feel their position keenly. They are handicapped in every walk of life and weak men and nervous women need more earnestly than ever to put their health right and become active and strong.

MARKED CONTRAST BETWEEN THIS CRAFT AND THAT OF ITALIAN SHIP

Washington, Oct. 12.—According to dispatches, the Italian navy department has announced the capture of an Austrian torpedo boat destroyer in the Adriatic.

TROUBLE BEGAN IN NAVY MONTHS AGO

The Men in German Navy Had Reached Nervous Collapse

Amsterdam, Oct. 12.—According to some reports here, the discontent in the German navy began eight months ago and the men of the fleet had reached such a nervous state, owing to the prolonged high tension, that only a spark was needed to cause an explosion.

BAD FIRE AT FORT DE FRANCE

Fort de France, Martinique, Oct. 12.—Three provision depots and a quantity of construction material in the vicinity of the customs house here were destroyed last night by fire.

MISS KNIGHT
A postal censor in London, who was a witness in the trial of Lieut. Douglas Malcolm, charged and acquitted of the murder of Anton Bamberg, alias Count de Borch.

Mitchell SIXES
\$1850 F. O. B. Calgary 120-in. Wheelbase 40 h.p. Motor
\$2250 F. O. B. Calgary 127-in. Wheelbase 48 h.p. Motor

Two Model Cars Built in 19 Exclusive Styles With Many Special Features

The Mitchell fall line embraces two sizes of Sixes. It includes 19 new-style bodies—the largest line of like class in motordom. It embodies 31 wanted features which are rarely found in cars, countless new touches and many exclusive designs. It offers a wealth of surprises.

Two Under-Prices

There are two sizes, two prices. And both prices are below other cars of their size and class. Yet both cars are built to the standard of 100 per cent over-strength. That is twice our former margin of safety.

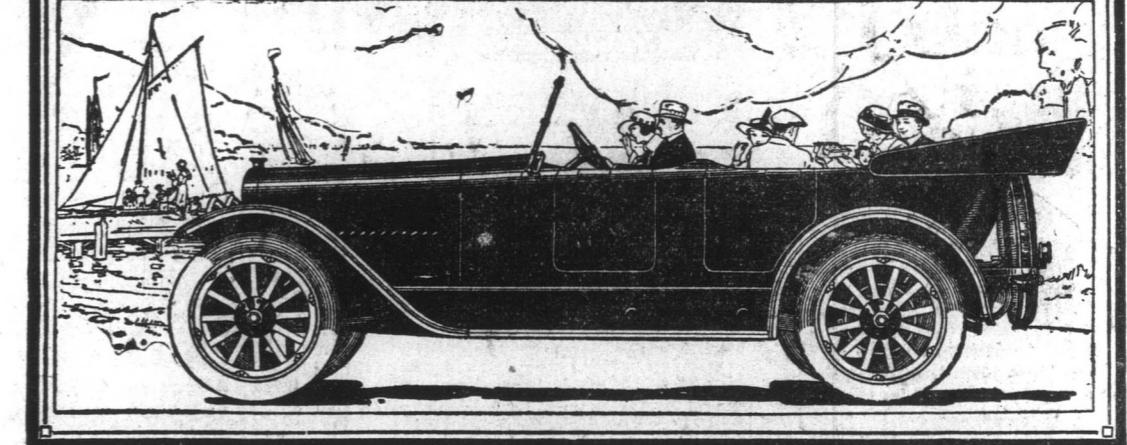

Year-Round Cars

We specialize in Year-Round types. That is, in Sedans and Coupes which are quickly changed from closed to open models. We build two types of Sedans and two of Coupes.

19 New Designs

We have our own body-building plant, our own expert designers. So our styles are exclusive, and they include 19 new-day models. All the savings made in this new body plant go into added luxuries, and their number will delight you.

CLERKS AT CITY HALL ASK OVERTIME FOR SPECIAL WORK

What Threatened to Become Small Insurrection Broke Out at City Hall Yesterday

NOT SETTLED YET

Commissioners Offer Extra Holidays in Lieu of Time, But Without Any Great Success

What threatened to be a small insurrection at the city hall broke out yesterday, and the end is not yet. It all came about over the working conditions of the clerks in the city assessor's department, and involves a principle of labor which is likely to come up again in different forms during the year.

Should a clerk in the employ of the city get overtime?

Last year, according to the story as told by the mayor himself, certain clerks in the city assessor's department were obliged to work overtime during the rush in receiving the tax payments on the last week preceding the last day of the discount.

This is not an unusual circumstance. But there may be too much of the good thing. Next week the same thing is on again, and orders have been given that the clerks shall remain on duty until 10 o'clock every night.

The clerks notified the assessor that they should receive pay for this overtime.

The commissioners replied that they could not have the overtime pay. That is a principle in employment which the city does not recognize with clerks.

The clerks were firm, and declined to work overtime unless overtime pay was promised.

The commissioners thought to compromise and agreed to give time off equal to the amount of overtime they put in.

The clerks were not very well pleased with that suggestion. It was rather getting to be an old story. They had the same promise last year, but they never got the time.

The commissioners then went one better and agreed to give time off at the rate of time and a half holiday to time worked overtime.

The clerks have not come to a decision in this matter. The mayor at the conclusion of his statement said that he hoped that the city assessor would be able to satisfy the clerks with this arrangement.

Commissioner Samis when questioned upon the situation had nothing to say.

Commissioner Graves corroborated the statement of the mayor. No person could say that the trouble had been removed.

But that is the way it stands now.

RECORD IN MOBILIZATION

Toronto, Oct. 12.—A new record was made in the mobilization center here today, 1,027 being medically examined. Of these, 103 attested.

CALGARY LIBERALS COMPLETE CABINET

Calgary Parliamentary Club Will Hold First Session on October 16

The Calgary Parliamentary club will hold their first public session in the public library on Tuesday next, Oct. 16, at 8 p.m. The club, while taking a parliamentary form, will include both federal and provincial forms. The reason for this is that it is intended to discuss questions which may come up from time to time in either the federal or provincial houses.

The club will be divided into three or more sections, Conservative, Liberal and Laborites, and may include any other independent party.

The Liberal section has been asked to form the first cabinet and have selected the following: Montrose Wright, railway and telephones; W. A. Spedden, public works; Mrs. A. A. Moore, education; A. J. Samis, municipal affairs; R. M. Edmondson, interior; Alexander Fisher, public health; J. E. Brownlee, agriculture and co-operative associations; Norman Hindley, commerce and finance; Robert Macleod, natural resources; A. Mahaffy, labor; Leo H. Miller, secretary of state; W. A. Macdonald, justice; J. E. Varley, minister of justice; Dr. Leslie Wright, whip; H. W. McLean. Possibly to this group will be added T. A. P. Frost as minister of militia.

AUTO CRASHES OFF BRIDGE AND TWO ARE INJURED

Macleod Trail Scene of Second Auto Accident; Howard of Youngstown and Balfour of Calgary Severely Injured

Another serious auto accident occurred on the Macleod trail last night, when an Overland roadster driven by R. J. Balfour of Calgary, crashed off the bridge north of Midnapore and buried its occupants out into the draw.

Mr. Howard of Youngstown, who was with Mr. Balfour in the car, was also severely injured in the crash. A call was sent in to the city police and the injured men, both unconscious, were removed to the Holy Cross hospital. Balfour is suffering from a broken leg and numerous flesh wounds, while Howard received a bad scalp wound and was severely shaken up. Captain Birch, who is attending both men, stated late last night that unless something unforeseen occurred both men would recover.

MORTIMER LIKELY CHARGED WITH MANSLAUGHTER

Jury at Inquest on Death of Mrs. Pope Asked for Investigation of Driver

At the inquest held last night on the tragic death of Mrs. Pope of Blackie, who was killed on Thursday night when a runaway horse jumped into the motor in which she was riding and crushed her to death, the jury brought in the following verdict: "That Laura L. Pope came to her death through the collision of a runaway horse with the automobile in which she was riding. And recommend that a further investigation be made as to the cause of the runaway horse, which caused the death of the said Laura L. Pope."

It was brought out at the inquest that the horse broke away from Mortimer after passing under the C.N.R. bridge and dashed on in its mad career for fully five miles before it crashed into the car. The jury also came to the conclusion from evidence given that Mortimer was not sober at the time of the runaway.

The provincial police state that Mortimer will likely be held on a charge of manslaughter.

CITY CAN OBTAIN ALL MONEY NEEDED

Commissioner Samis Optimistic on City's Financial Condition

Commissioner Samis, while appreciating the advice given the committee on financial survey by Mr. Toole on Thursday night, cannot agree with him. He believes that the present form of civic government is much superior to that suggested by the committee.

In reply to the statement of Mr. Toole that he had no confidence in the tax certificate scheme, Commissioner Samis said that this was the same criticism offered by the minister of municipalities and the minister of education. But he would remind them that the city is not borrowing money but is out collecting, and Mr. Samis added: "I am surprised that Mr. Toole should suggest that the city should borrow money at 10 per cent interest. For the city to guarantee those certificates would be to absolutely defeat the whole scheme. We can borrow all the money we want to without land certificates or anything else."

REAL OIL STRIKE AT PEACE RIVER

Ninety Feet of Oil at Bottom of the Well, 12 Miles From Town

Peace River, Alta., Oct. 12.—An authentic oil strike having been reported yesterday at the Peace River Oil company's well, 12 miles down the river from the village of Peace River, members of the board of trade and others today visited the well, going down by boat. Mr. Slack, superintendent in charge of drilling up to a baler down the well having been closed 24 hours and found 90 feet of oil in the well. This, he said, was raised 45 feet since the previous day. The present depth of the well is about 850 feet. The baling capacity is about 10 barrels per day. Pumping capacity will double this. When shot, the well is expected to exceed this. This is the statement as given out by the board of trade.

LABOR CANDIDATES IN OPPOSITION TO NEW GOVERNMENT

Independents Will Be in the Field in East and West Calgary, Says Alex. Ross, M.L.A.

LIBERALS DIVIDED

Ald. Adams Favors Union During War Time; C. B. Reilly Is Opposed; J. A. Irvine Is Undecided

Whether the Conservatives and Liberals unite on a win-the-war candidate or not there is sure to be an election in both East and West Calgary, because the Labor Representative League will likely run a candidate in West Calgary and the Non-Partisan League will run one in East Calgary, or vice versa. At least this is the opinion expressed by Alex. Ross, M.L.A., last night.

When asked his opinion of the union government, Mr. Ross said, "It is just what you might expect. In fact it is the logical thing for these parties to do. At the conclusion of the war there will have to be a day of reckoning for the vested interests. The demand is getting more insistent every day. It is only natural that the politicians should get together to plan some scheme to protect the interests which they represent."

"As to the new cabinet, I do not see any progressive men among the number. We can only judge what they will do by what they have done in the past. So that I cannot see that we can expect to get any improved legislation from them."

Oppose Union Government

"Then the labor men will not support the union government," suggested the reporter.

"Certainly not," replied Mr. Ross. He expected both ridings in Calgary would be contested by the labor representatives. The Labor Representative League will likely put a candidate in West Calgary and the Non-Partisan League will put a candidate in East Calgary or the other way about. Mr. Ross said, "We don't want a labor representative in the cabinet. What good could he do in such a branch as that?"

Liberal Favors It During War

"I have been opposed to union government all along, though I am in favor of a national government," said S. H. Adams, president of the Calgary Liberal association, yesterday. But he added, "Now that the union government is a fact I believe we should get behind it and support it during the period of the war. Of course, there should be a definite understanding that at the close of the war there will be an election. I take it that the present government intends to devote their whole attention to the winning of the war, and will not introduce any general legislation that can be postponed."

Mr. Adams suggests that the executives of the Conservative party, the Liberal party and the Labor Representative League hold a conference and see if they can get together and back the government. Then they might call conventions of their respective parties and make their recommendations. They might even suggest one or more candidates. If these conventions accept the recommendations and agree to endorse any one candidate, he would be the accepted candidate whom all would support. Or these conventions could appoint delegates to meet in a large non-partisan or inter-party convention which would select the joint candidate.

"Of course," Mr. Adams added, "further information from Ottawa may cause the Liberals and Conservatives in Calgary to either alter or modify any plans they now have in mind."

Liberal Candidate is Shy

John A. Irvine, the Liberal candidate for West Calgary, was shy about committing himself. Because he said that he had not definite news as to the whole personnel of the cabinet, and they had not declared their policy. But he had no hesitation in saying that he thought the government would have been strengthened if a good labor man had been included.

Mr. Reilly Opposed

C. B. Reilly, on the other hand, was very positive in his opposition to the union government. He would not only shake the dust off his feet but throw it into the water, he said.

"The new government is the heir, successor and assign of Borden, Rogers and White. It must accept the responsibility for the slack prosecution of the war by Canada during the year 1917; for the C.N.R. steal, and for depriving Canadian women of the right to vote. It must answer to the people of Canada for the Ross and other army scandals; for the shabby treatment of returned soldiers and of soldiers' dependents. It holds out no hope to labor, and the independent voter. We can not expect progressive and constructive legislation from a government made up of politicians taken from the least progressive element of the two old parties."

There seems to be quite a diversity of opinions among the Liberals generally. Some speak enthusiastically of the turn affairs have taken; others have nothing but words of condemnation for those who have as they deem it, gone back on their principles, while others again are puzzled to know just what to think. It is generally conceded that the silent vote will decide the election.

DARING ADVENTURE BY ITALIAN POET

Gabriele D'Annunzio Now Leading Most of Aerial Flights

Italian Headquarters, Oct. 12.—Gabriele D'Annunzio lately promoted to be a major, organized and directed the recent raid over Cattaro, which after Pola is the greatest Austrian stronghold in the Adriatic. No dangerous raid has occurred since the beginning of the war in which he has not taken part. This time he planned one of the most daring expeditions undertaken both because of the distance to be covered and the formidable defenses protecting Cattaro.

Two Big Bargains in Clothes FOR ONE WEEK

NOTICE—We have suits and overcoats at prices to suit all purses from \$11.50 up in all new styles and colors.

306 Eighth Ave East George McLeod Opposite Queen's Hotel

H. W. WOOD WILL SPEAK AT FORUM

The People's Forum has secured Mr. H. W. Wood as speaker for Sunday afternoon. Mr. Wood is very well known throughout the province as president of the United Farmers of Alberta, and as chairman of the Dominion Board of Agriculture his reputation is Dominion-wide.

He is recognized as one of the strongest minds of western Canada. As a speaker Mr. Wood is clear, lucid and forcible. His opinions are well-founded and backed by sound reasoning. His mind is of the practical type, exhibiting the solid qualities rather than the brilliant. Vigor and force characterize his utterances. He never indulges in oratorical flourish. Sincerity is written large in what he says and does, and asserts itself forcibly in his personality.

"The Truth and Democracy" is the subject of his address. Having imbibed deeply of the spirit of democracy, Mr. Wood should be an able expositor of the truth that lies in that great ideal towards which men turn as the goal of the future. The Forum meets at the Grand theater on Sunday afternoon at 3 o'clock.

PHILADELPHIA MAYOR MISBEHAVED

Philadelphia, Oct. 12.—The first stage of the First ward political murder trial ended yesterday when Mayor Thomas E. Smith, of this city, was held by Judge Brown of the municipal court on \$10,000 bail for the grand jury on six charges involving misbehavior in office, contempt of court in refusing to produce certain documentary evidence, conspiracy to violate the election law forbidding city employees from participating in politics, conspiracy to commit assault and battery, conspiracy to commit aggravated assault and conspiracy to commit murder.

# NEXT WEEK AT LOCAL THEATERS

## "THE RETREAT OF GERMANS AT THE BATTLE OF ARRAS"

Great Official War Films to  
Be Shown on the New  
Orpheum Bill Next  
Week

The important part played by the auto-  
mobiles in war is shown in the official  
government war picture taken under the  
auspices of the British government in  
Flanders. The "gasoline buggy" is used  
in all its varied forms from the speedy  
motorcycles that are used by couriers to  
the rattling lumbering tanks which strike  
terror into the heart of the Germans.

There are motor machines which bring  
the serviceable rapid-fires to the point  
where they are needed the most. There  
are heavy tractors which lumber through  
the muddy road of Flanders dragging be-  
hind them the heavy artillery that it  
would almost be impossible to move other-  
wise. The serviceability of the motor  
car is shown in these latest war films  
which are to be shown at the Orpheum  
next Monday, Tuesday and Wednesday,  
with the regular vaudeville bill.

## ORPHEUM BILL NEXT WEEK IS A RECORD BREAKER; WAR FILMS

There are the usual number of  
vaudeville celebrities engaged for the  
Orpheum next week, notwithstanding that  
the management has arranged for the  
inclusion of the great battle of  
Arras pictures to be shown as well.  
For instance, the girl whose name ap-  
pears in big type on the billing is the  
same Nan Halperin who recently  
had the electric light plants working  
overtime down in New York town to  
supply the juice which illuminated the  
signs along Broadway. She sings  
songs—so do lots of other people—but  
not in Nan Halperin's way, and her  
wonderful success during the few years  
she has been on the stage is one of the  
reasons the Orpheum management has  
secured her for a tour, and she will  
be here next week.

"Maggie Taylor—Waitress" sounds  
like a very ordinary person, but as  
presented by Jean Adair and her com-  
pany, she makes one of the most lov-  
able little characters who ever ap-  
peared in a playlet. There are all the  
elements which go to make up life—a  
little pathos and a little comedy—and  
presented by a remarkably good com-  
pany.

Song recitals are sometimes threat-  
ening to some people, but when a  
couple of young ladies who are blessed  
with lyric soprano voices arrange a  
program of solos and intersperse a  
number of duets, in which their voices  
blend most harmoniously, there is a  
combination that pleases everybody.  
This combination is found in Nellie and  
Sarah Kouns.

With the piano-acordion, Deiro—  
who has the temperament which is  
usually associated with those of Latin  
extraction—finds outlet for all his  
moods, and they are varying from grief  
to humor, and from burning passion,  
delirious joy. His skill as a player is  
wonderful, and his program pleasingly  
diversified.

Paul McCarty and Elsie Fay know  
what is wanted in vaudeville in the  
way of a skit, and in "Suicide Garden"  
they found exactly what was wanted to  
sustain the interest by a little plot,  
and an opportunity for them to use  
their musical talent, and seasoned with  
sufficiently humorous patter to prepare  
their audiences for the usual happy  
ending.

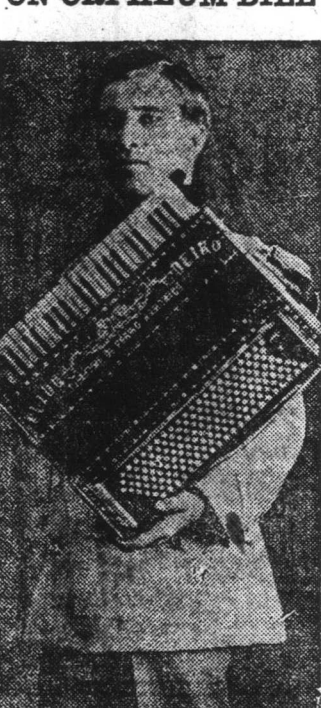

Training animals to go through  
movements is sufficiently difficult to  
tax most trainers, but in pictures of  
"The Hunt," which are posed by living  
models trained by William Edgrettu,  
the animals have been trained to a  
degree of perfection that causes them  
to remain perfectly motionless for as  
much as 60 seconds. "The Act Beau-  
tiful" has a number of these poses.

week's attractions in vaudeville.

### DAINTY VIVIAN MARTIN IN

### "LITTLE MISS OPTIMIST"

### AT THE ALLEN TODAY

Dainty Vivian Martin, the popular  
Little Paramount star, will be seen at  
the Allen for the last time today in  
her latest screen triumph, "Little Miss  
Optimist."

"Little Miss Optimist" was written  
especially for Miss Martin by Gardner  
Hunting, and was produced under the  
expert direction of Robert Thornby.  
Miss Martin scored such a success as  
the bricklayer's daughter in "A Kiss  
for Susie" that she is to be seen in  
this production again as a rather  
ragged and tattered character.

As "Little Miss Optimist" this time  
she is a "newbie," and known as Musie-  
Rosie or "Little Miss Optimist" for  
her wonderful facility of always look-  
ing on the bright side of everything.

In the cast supporting Miss Martin  
for this exceptionally clever picture  
are Charles West, Ernest Joy, Charles  
Gerald, Helen Gray and many others  
well known to picture fans.  
A current edition War Graphic will  
also be shown, rounding out a program  
par excellence.

## ROBINSON CRUSOE TO OPEN AT THE GRAND THEATER ON THURSDAY

In pursuance of his policy of present-  
ing something bigger, better and more  
entertaining each season, Mr. F. Stuart-  
Whyte will offer for the approval of the  
Canadian public this season the super-  
extravaganza and favorite English  
pantomime, "Robinson Crusoe," a  
musical piece equally as well known in  
England and America.

Mr. Whyte has prepared a produc-  
tion of this piece on a scale of grandeur  
comparable to former London and New  
York presentations of the same story,  
and never duplicated by a traveling  
organization.

Adjectives are feeble to describe the  
many brilliant features of this show.  
The press agent's favorites, "a glitter-  
ing galaxy of girls, giggles and gowns"  
and "a beauty brigade of dainty, dar-  
ling, dashing, dimpled, deliciously de-  
licious dresden-doll divinites," fail to  
do justice to this superb symphony of  
lights, laughter, love and lingerie and  
its carefully chosen cast and chorus.  
The initial presentation of this long-  
heralded attraction will be given at the  
Grand theater on Thursday and will  
continue to measure out joy to fabled  
theaters for the remainder of the  
week, with the usual matinee for the  
rest of the week.

## GEORGE BEBAN IN "LOST IN TRANSIT," SHOWING AT ALLEN FOR TWO DAYS

George Beban, star in Paramount pic-  
tures, will be seen at the Allen next  
Friday and Saturday in his latest offer-  
ing, "Lost in Transit," and is unques-  
tionably the greatest impersonator of  
Indian character parts on the screen,  
began his career at the early age of  
eight years.

Mr. Beban is an excellent musician,  
comedian, author and actor, in his first  
appearance before the public he was  
billed as the Boy Bartone of California.  
He toured the country in concerts and  
before he was out of his teens he was  
the star madrigal singer with Reed and  
Emerson's famous old minstrel troupe.

His next venture was in musical  
comedy in which he made a tremendous  
sensation with Marie Cahill in "Nancy  
Brown."

His remarkable dialect work  
brought him in touch with Weber and  
Fields and he became one of the stars  
of that famous organization. Later he  
played the principal comedy role in  
"Paranoid" and was starred in George  
M. Cohan's "The American Idea." When  
Weber and Fields gave their big jubilee  
in New York, Mr. Beban, was, of course,  
one of their principal stars.

Next, for five and a half years, Mr.  
Beban starred all over the United  
States and Canada, in "The Sign of the  
Cross," a miniature drama which he  
had written for himself. Then he was  
induced to write the sketch into a four-  
act play. This he did, and it also enjoyed  
a successful tour on the road. The  
next stop was to prepare it for the  
screen, and as "An Allen," it has be-  
come one of the marked successes of  
the screen world.

George Beban's later Paramount pic-  
tures, in the order of their appearance,  
were "Pasquale," "The Italian," "His  
Sweetheart," "The Bond Between" and  
"The Marcellini Millions." "Pasquale"  
was a wonderful characterization which  
added many new followers to the long  
list of those who have followed Mr.  
Beban's every picture.

In the photoplay, "The Bond Between,"  
Mr. Beban played an entirely different  
character from any he had yet attempted  
—an eccentric, lovable old French mu-  
sician. This also was received with  
great favor, although the Italian pic-  
tures continue to lead in popularity, and  
now "Lost in Transit," which was written  
especially for Mr. Beban by Kathryn Wil-  
liams, noted actress and authoress.

In "Lost in Transit" Mr. Beban plays  
the part of an Italian, and it is said to  
be the greatest work of this popular  
screen star.  
A special matinee will be given for the  
children next Saturday, and free tickets  
will be drawn as usual.

## "MOST FORWARD STEP IN MOTION PICTURES"

So the Critics Acclaim Rex  
Beach's Own Production  
of "The Barrier"

"The Barrier," which will be seen at  
the Regent theater soon, the photo-drama  
of Rex Beach's most powerful Alaskan  
romance, is unanimously declared by  
motion picture experts to be "the most revo-  
lutionary forward step yet taken in  
motion pictures." In this sincere inter-  
pretation of a great epic of primitive life the  
motion picture comes into its own as a  
medium of dramatic expression, and at  
last stands side by side with the spoken  
drama—an art and not a plaything—  
living, breathing entity and not a shadowy  
imitation.

In "The Barrier" you see life as it is—  
you forget that a picture is passing be-  
fore you—you lose all consciousness of its  
unnaturalness—you experience the same emo-  
tions, are stirred to the same depths, and  
lifted to the same heights, as if you stood  
in person among the scenes it so faith-  
fully reproduces.

Those who have followed the develop-  
ment of the motion picture will remem-  
ber the film production of "The Spoilers,"  
another of Mr. Beach's great Alaskan  
stories.

"The Spoilers" was the real pioneer  
of big pictures, now known as features;  
it won nation-wide popularity from the  
start and is still being exhibited with  
phenomenal success.

Mr. Beach has organized his own pro-  
ducing company, "The Rex Beach Pic-  
tures company," to screen "The Barrier"  
and his other novels.

Among the replies received to an ad-  
vertisement in a western paper for  
some one to take charge of a church  
choir and play the organ was this: "I  
noticed your advertisement for an  
organist and music teacher, either lady  
or gentleman. Having been both for  
several years, I offer you my services."

# AUTOMOBILES

## The Automobile Simplified

By FREDERICK C. GUERRICH, M. E.

AN intimate talk on the working units of the automobile, discussed in such a way that the layman can easily understand them. If in reading these articles there is anything not clear to you, ask Mr. Guerrich about it.

Make this your Automobile Correspondence School  
Copyright 1917 by Frederick C. Guerrich

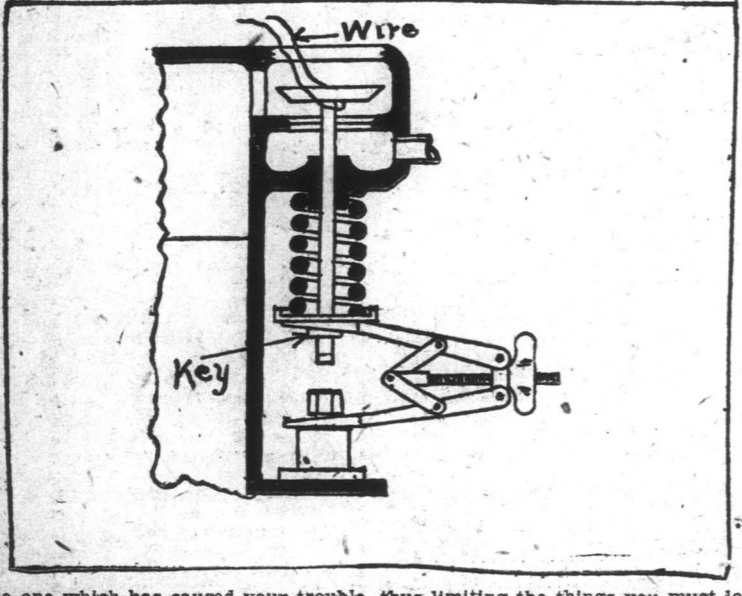

### LECTURE NO. 16

Many owners of automobiles do not derive the full pleasure from their cars because of a fear to take long trips lest something should go wrong and they be unable to determine what the trouble is. While the automobile of today is so nearly a perfect machine as to seldom give trouble on the road, nevertheless the man who feels that, if something did go wrong, he could locate the trouble and repair it, needs must get more pleasure from driving his car than the man who feels that he would be helpless.

The locating of trouble in the automobile engine is not nearly as difficult as many believe it to be. The man who knows the why and wherefore of the various parts, who thinks, and who will go about matters systematically, will find that he can almost instantly tell what made his engine stop, or what is causing it to misfire.

There are two kinds of trouble-hunters; one will take hold of a wire; replace a spark plug; turn a screw on the carburetor; exhaust himself or his battery cranking the engine; swear a little, and then send for a wiseman while the other, when the engine stops, will sit still a while, and, as the physician asks questions of his patient when diagnosing a case, will talk to himself, say: "Have I gasolene?" "Is my battery charged?" "She had no power on that last hill; she stopped with a popping in the carburetor," etc., the result being that he will often instantly, perhaps without getting out of the car, know what the trouble is, or, failing to get a clue from reasoning, will go about the hunting systematically.

To help you be of the latter type of trouble-hunter I am going to tell you of all the things which might go wrong, the reason therefor, show you how by a process of reasoning you can eliminate certain of these things as not

the one which has caused your trouble, thus limiting the things you must look for to a few, and the steps to take to further eliminate the possible causes of the trouble until the right one (or, rather, wrong one) is found.

In a previous lecture I told you that there were three things essential for the proper running of the engine: namely, proper compression, proper mixture and proper ignition.

The above is a short paragraph, yet it is one of the most important in this work as unless it be understood and constantly borne in mind, it will be impossible to have an engine run well, or to locate trouble when trouble, which is bound to come, comes.

In the following articles on trouble locating, I am going to take up the three essentials, one by one, and show you how they can go wrong; then I will try and show you how, by reasoning, or rather how, by a process of elimination, the one which has gone wrong can be determined upon; and finally I will show you the mechanical steps to take to locate the trouble, in the event of reasoning failing to give a clue.

### Valve Grinding

Question by S.R.F.: You have mentioned the great importance of having the valves ground. Can this be done by the ordinary owner, and, if so, how is it done?

Answer: Valve grinding is not a difficult job, and I think it would be well for every owner to know how to do it. Many will find it a recreation. I give the way to do this in a series of steps.

First—Get a new set of gaskets to put under the valve caps, also some grinding compound, such as, for example, Clover Leaf or Old Dutch, and a valve-spring lifter.

Second—Remove spark plugs, compression cocks and valve caps. Third—Scratch the carbon off one of the valves and note if it is numbered. If not, number the valves by making center-punch marks on them.

Fourth—Remove the valves as follows: With the valve-spring lifter press up the spring. As you do this the valve will probably also raise, if not, raise with a screwdriver. Insert a fine wire under the valve head, as shown in illustration. Force down the valve and remove the key. Let down the spring and remove the valve-spring tool. With the wire pull out the valve. Remove the spring. If you do this above, as given, you will find it comparatively easy, otherwise you may find getting the valve out a tedious task.

Fifth—Clean the carbon off all of the valves, but do not touch the valve seats. (The valve seat is the portion against which the valve rests in the cylinder.)

Sixth—Put a very thin coat of the compound on the valve, replace it, and with a screwdriver revolve the valve back and forth, raising it and giving it a half turn about every 10th oscillation. Periodically remove the valve and see if the little holes (pits) have disappeared. When they have disappeared, or a fine bright ring appears, the valve is properly ground.

Seventh—Reassemble the parts.

Hints: Always, when assembling, put a little graphite on threaded parts subject to heat, so as to keep the threads from fusing together.

A mixture of graphite and brown shellac placed on the threads of the valve caps will help to make them tight, but this must not be put on the spark-plug threads.

After grinding, the valves will usually require to be readjusted. When grinding or adjusting be sure that the valve lifter is fully down and not resting on any portion of the offset of the cam. If so, revolve the shaft by cranking a half-turn.

The valve adjusting should be checked up when the engine is hot, as the expansion may result in the valve not seating properly.

## REFINEMENTS IN NEW CAR MODELS

More Comfort and Improved Appearance Chief Features in 1918 Autos

Announcement of new model cars made so far this year show that the changes in the new over the old model are more in the way of refinements than anything else. Nothing radical in the way of mechanical changes has or is likely to be announced by any of the manufacturers.

A reading of the announcements and the new catalogues will show that perhaps an oiling system has been improved somewhat, a transmission is hung a little different from the motor has been lightened by the use of different metals. These are about the sum total of the mechanical changes. Body changes are in the way of refinements. Those already in use are perhaps made, a trifle longer, the upholstery may be deeper or have a different type applied in it that will tend for easier riding. Comfort of the owner and retaining of graceful lines are the two important things that the designer of today bears in mind.

Mechanically he knows that the car is right and in the great majority of cases the prospective buyer assumes this to be so when he looks at the car. If the lines meet his eye and it rides comfortably he is satisfied. Comfort and style are the points he is most interested in, power and mechanical excellence he takes for granted.

Several of the manufacturers have to date this season held economy gasoline tests with very gratifying results. Some of these tests have been conducted by the dealers and others by owners with the co-operation of the dealers. The mileage obtained in both cases from one gallon of gasoline has been more than gratifying.

It shows that owners are becoming better drivers and as a consequence can operate their machines at less cost. The cost of running a motor car today has more power than it will ever be called upon to deliver to the rear wheels or can possibly deliver. It is reserve power and the wise driver lets it remain as such.

It is only the man who is not familiar with motor cars or motor car operation that imagines he must be racing his motor every now and then, and must likewise take a run for a hill as though he were trying to get a start to buck an obstruction of some sort and needed momentum to carry him through.

Certainly it is good driving to get a bad start for a bad hill and it is done, but there is no sense in a racing start with a motor wide open and a clutch slipping. The delivery of but sufficient power to the rear wheels to afford momentum enough to meet the grade is all that is required. Besides, it is not necessary to take a hill at all on high speed. The factory built intermediate speeds into the transmission and they are for use when the occasion calls. Good drivers remember that they are to use the intermediate speeds and use them. They save on the fuel consumed as well as prevent undue strain on the mechanism of the car.

## VANCOUVER ISLAND TRAILS PLEASING TO AUTOMOBILE TOURISTS

Wide Scope of Natural Attractions Opened Up to Tourists

The Malahat Drive at Victoria, B.C., and over which so many Californians have enjoyed a spin on some of their trips to the coast is a scene of constant activity on summer week-end days. Stretching from the shady depths of Goldstream forest lands it climbs steadily from the borders of the mountain torrent and skirts rocky ledges, scales to the summit of those rolling hills which form unbroken barriers along the west shore of the Spanish Arm. The beauty of this drive is, perhaps, not surpassed on the Pacific coast. In the opinion of many travelers who visit Vancouver Island.

Opens Great Country. Until the completion of this highway, several summers ago, the island motorist was limited in regard to the excursions that he might take. Today, however, a field of activity has opened up that will remain inexhaustible for many years to come. One drive through those island ranges, with their great forests, their cliffs and valleys with foaming streams, is not sufficient to give to the lover of scenery all the realization of beauty that lavishly bestowed by nature's bounteous hand. Repeated excursions over that road must be taken before its full magnificence can be realized.

It is rare that tourists pass over the summits of those hills without giving full expression to the feelings of surprise and pleasure they experience. From the summit of the Malahat drive, where the motorist mounts the well-known loop, an unobstructed view is obtained. A scene such as might please the eye of any painter, on a clear summer's day stretches as far as the eye can see. For not one moment is the traveler's vision permitted to rest on objects that are not monotonous or desolation. The whole vision is one of beauty and attraction.

Picturesque View. Peering down, one sees a twelve hundred feet below, at the base of cliffs and rocky crags the sparkling fjord-like waters of the Saanich arm, that stretch at peaceful inland water, which winds its shores by the confines of rolling hills. Beyond those waters the tourist is presented with a scene of picturesque farming land. Green stretches of grain fields, with here and there a tinge of yellow appeared scattered over the landscape while expanses of pasture land are noted on their borders. Narrow lines receding in the distance speak to the observer of the roads and highways that have made possible the development of those areas, formerly the homes of unbroken forests.

Yet the eye may wander still further and see beyond that land the distant waters of the straits and the connecting channels to the Gulf of Georgia, where pass those well-known steamers, visible to

READY FOR WORK, THOUGH ON A QUIET ROAD. One of the armored cars which the British took to the aid of the Russians in Galicia. For fear you can't interpret the Russian pennant, the car is named Tarvisari. It is the body of a Ford motor armored car fitted to a Fiat tory. Owing to much severe fighting the squadrons ran short of the originals.

the motorist as he pauses at the summit of the mountain drive. It is a highway such as this, with its almost limitless course, through the borders of Vancouver Island that is drawing to these shores year by year ever increasing numbers of tourists from eastern Canada and the United States.

## AUTOS ARE POPULAR IN DAWSON DISTRICT

Range of Operations Being Enlarged Each Year; Motor Trucks Also

The range of operations of the automobile in the vicinity of Dawson, Yukon Territory, is being enlarged every season, and the volume of traffic handled by motor vehicles in this region is enlarging rapidly. With the remarkably successful introduction of the tractor in the hauling of wood up Hunker from the Klondike river last winter, and the gradual advent of the motor truck in this district, and the common use of the automobile, the big share of the traffic of the camp is now being handled by motor power.

As a result of the increased popularity and utility of the motor vehicle the roads surrounding Dawson are being constructed more and more with a view to adapting them to that style

of ability of the engine had not been immediately noticed no doubt much damage would have been done. The oil gauge on this particular car indicated that the proper amount was being fed to the engine but it was discovered that the gauge was misleading. It was necessary to go over the whole oiling system, and it was found that the gauge was always read "Full supply."

Model Eighty-Five

## A Matter of Choice

If you are a lover of six-cylinder performance, or if your choice is a car equipped with a tried and true four-cylinder engine, you will do well to look into the merits of the Overland Model Eighty-Five.

This is the popular model that is built in both motor designs—either a Four or a Six.

Both are big, comfortable cars. The Four has a

wheelbase of 112 inches—the Six 116 inches.

Both are beauties in appearance and in action. Cantilever rear springs and big, roomy seats afford solid riding comfort for five people.

If you have decided to invest in a moderately priced, real family car—one that will stand up under steady service—drop in and ask for a demonstration of this Model Eighty-Five.

### THE AUTO TROUBLE SOLVER

If you have any problems or wish any information about your automobile, write us and we will be pleased to answer you under this heading. ADDRESS: AUTOMOBILE EDITOR.

**Q.** I recently was told that by putting mercury ointment on the valve cover that they will be air tight. Will the mercury ointment do this and do any harm? I cannot get my valve caps tight, and if this would help I would like to use it.

**A.** The mercury ointment will do no harm, and you might try it. I am certain, however, that it will not be as efficient as a paste of shellac and graphite. I have tried it, and the result was not satisfactory.

**Q.** I have been advised that (—), when put into the gas tank, will give more power to the gasoline, and gives more mileage to the gallon of gas. Will it do this?

**A.** There are at present a great many chemical products, such as you mentioned, for which great claims are made. Those I have seen seem to be mostly camphor. The belief has existed for a long time that camphor will add to the power of gasoline, but as racers and manufacturers, who have undoubtedly investigated it by tests, neither use nor recommend it. It is safe to assume that there is nothing worth while to be gained by its use. It will do no harm as far as I can see, and you might try it.

**Q.** Are there any cars which have a pneumatic gear shift, or have there been any? Why was the electric gear shifter abandoned? The electric gear shifter has not been abandoned, as a number of cars will furnish it if requested, while it is standard equipment on the Premier.

**Q.** I have a 1916 (—) car, and cannot keep my battery charged. I have had it charged three times in less than three weeks. The battery man says the battery is in good shape. I do not drive nights, and use my self-starter very little, and so cannot understand why the battery does not stay charged. Any advice will be much appreciated.

**A.** Since you have a short circuit somewhere, or your automatic cut-out is stuck. Trace your wiring carefully, paying special attention to them near binding posts and terminals, and wrap with insulating tape all worn or oil-soaked parts. The automatic cut-out will be found on the back of the instrument board on the dash. Its points should be opened when the engine is idling.

**Q.** Why does the carburetor have to be changed when a car goes from sea level to a mountain, or is it only imagination?

**A.** At high altitudes the air pressure is less than at the lower altitudes, thus so that the auxiliary air valve will not open as far at lower altitudes. You can change the mixture. The spray at the nozzles will also decrease somewhat, and also there is less weight of air to the cubic foot of volume.

**Q.** I have a 1916 (—) car, which usually runs fine, but sometimes it has no power on hills and will sputter in the carburetor. It will also act this way when going fast. It does not always do it, and I will start out with the engine working fine and then for a while it will work badly and get all right again. Can you tell me what is the matter?

**A.** A number of things might cause the engine to act as you say, but it is more than likely that there is a partial obstruction in the fuel line. You may have a sticking valve; there may be an air leak between the carburetor and manifold, or manifold and cylinders, and there may be water in your gasoline tank or carburetor.

**Q.** I have a honey-comb radiator and there is a small leak near the bottom. How can this be repaired? Will red lead do?

**A.** The red lead will probably harden, crack and fall out very quickly. It would be best to have the radiator repaired by a radiator repair man, who has the proper tools. If no repair man is near, then try filling the entire cell where the leak is by pouring in lead.

**Q.** I have a 1917 (—) car. Sometimes when I try to stop the engine by throwing off the spark, it will run a little while and then suddenly knock badly and make a loud hissing sound and stop. It runs all right otherwise, and I never have trouble starting it. What is the trouble and how can I remedy it?

**A.** There undoubtedly is considerable carbon in your engine. Have it removed. The carbon will get white hot and ignite the gases after the spark is off. The knocking and hissing are due to the engine being driven backward.

**Q.** I recently was told that by putting mercury ointment on the valve cover that they will be air tight. Will the mercury ointment do this and do any harm? I cannot get my valve caps tight, and if this would help I would like to use it.

**A.** The mercury ointment will do no harm, and you might try it. I am certain, however, that it will not be as efficient as a paste of shellac and graphite. I have tried it, and the result was not satisfactory.

**Q.** I have been advised that (—), when put into the gas tank, will give more power to the gasoline, and gives more mileage to the gallon of gas. Will it do this?

**A.** There are at present a great many chemical products, such as you mentioned, for which great claims are made. Those I have seen seem to be mostly camphor. The belief has existed for a long time that camphor will add to the power of gasoline, but as racers and manufacturers, who have undoubtedly investigated it by tests, neither use nor recommend it. It is safe to assume that there is nothing worth while to be gained by its use. It will do no harm as far as I can see, and you might try it.

**Q.** Are there any cars which have a pneumatic gear shift, or have there been any? Why was the electric gear shifter abandoned? The electric gear shifter has not been abandoned, as a number of cars will furnish it if requested, while it is standard equipment on the Premier.

**Q.** I have a 1916 (—) car, and cannot keep my battery charged. I have had it charged three times in less than three weeks. The battery man says the battery is in good shape. I do not drive nights, and use my self-starter very little, and so cannot understand why the battery does not stay charged. Any advice will be much appreciated.

**A.** Since you have a short circuit somewhere, or your automatic cut-out is stuck. ### THEATERS

**"THE-ON-THE-SQUARE GIRL" FEATURING MOLLY KING AT THE EMPRESS**

"The On-the-Square Girl," which is to be featured at the Empress theater on Monday, Tuesday and Wednesday, 15th, 16th and 17th, has been greeted as a "great" picture. It is a beautiful little Molly King's best photoplay to date.

A certain class of society in every big city is called "fast" and this picture has to do with that highly interesting class. Everything from the cocktails to the immorality disguised under a thin covering of free thinking is introduced and everything is done in the lavish style without which the picture would fall in realism. In this particular set there is a man dissatisfied and his meeting with a girl on the outer edge and the tragedy of the girl's life form the substance of "The On-the-Square Girl."

The story in brief is as follows: Anne Blair (Molly King, modiste's model accepts "blindly" favors from Brockton (L. Rogers) in order to care for her sick mother. Taking advantage of her position, Brockton attacks. She stabs him and returns home to find a telegram from the sanitarium in the mountains saying her mother is dead. She journeys to the place to find certain letters concerning her birth, and half-crazed with grief and the thought that she has killed Brockton, she rushes out into the snow.

Richard Steele (Donald Hall) engaged to Inez Brockton (Aimee Dalmores), becomes disgusted with her house party and goes for a walk. He comes upon Anne, and taking her to a deserted cabin, cares for her for the night. Inez finds them in the morning and with a great show of false modesty denounces her fiancé and the sudden appearance of Brockton brings them to a head. Richard declares his love for Anne and she declares her love for him. Brockton after he has discovered the secret of Anne's birth, and the girl who was on-the-square, finds happiness with the man who played as straight as she.

The gown display and the snow scenes are particularly worthy of notice. The combination of such a display by one of New York's most fashionable modistes, a dramatic story of metropolitan society full of action and thrills, a star who is beautiful and talented, assures a picture that is well worth seeing.

### BIG MINSTREL SHOW WITH ENLARGED CHORUS AT THE PRINCESS TODAY

The Princess Girls' company is seen to great advantage in their new minstrel offering. The bill is full of good songs, new specialties, and a line of comedy that proves a "sure fire" hit at each performance. Miss Gladys Clifford, a new addition to the company, sings "She's the Daughter of Mother Macree," and the number meets with the warm approval of the audience. It is perhaps the best number of the show, although "Southern Gals," as sung by Mr. Evans in very well received. The dance by Pat McCulloch is a very new specialty, and Miss Eva Stuart presents a charming appearance as the interloper. The chorus has been enlarged and their work meets with the approval of the large audience which has greeted every showing of the present offering.

The photoplay program which is being shown in conjunction with the Princess Girls' offering is very entertaining. The new episode of "The Gray Ghost" is quite thrilling and entertaining. The Universal Screen Magazine is full of many items of interest, while the Topical Budget shows some of the very latest pictures from the set of war.

The new L-R-O comedy is a dandy. It is a real "rib-ticker" and well up to the L-R-O standard.

The bill as a whole is very enjoyable and the minstrel show should be seen by all as it certainly drives away dull care and affords many minutes of real enjoyment.

### Do Your Ears Ring With Head Noises?

Tells Simple, Harmless Way to Overcome This. Improves Hearing 100 Per Cent in Many Instances.

Thousands of people are constantly troubled with buzzing, ringing, rumbling or hissing noises in their head and ears, are hard of hearing and fear defective hearing might be certain deafness may be their lot.

Such cases, even though of long standing are not hopeless as a simple home prescription used daily has shown it possible in many instances to overcome the head and ear noises in less than ten days and to restore clear, distinct hearing in less than thirty.

Get from any druggist 1 oz. Parmitin (double strength) which costs about 30 cents. Take this home and add to it 1/2 pint of hot water and 4 oz. granulated sugar. Stir until dissolved and then take one tablespoonful four times a day.

Parmitin is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian tubes, and thus to equalize the air pressure on the drum, but to correct an excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

NOTE—While Parmitin is widely used in the treatment of catarrh people who suffer from head noises or defective hearing should be certain to get it in the special (double strength) form especially designed for treating such cases.

**WELL KNOWN LOCAL MAN TAKES OVER TIRE AGENCY**  
Geo. C. Lancaster who for the past 12 years has been prominently connected with the Western Commercial company, has taken over the local agency for the Fisk Rubber company, formerly held by Messrs. Alexander and McKinnon of the Jack Pine Fuel company. Mr. Lancaster has taken charge of the well equipped Fisk sales and service station at Seventh avenue and Third street west and motorists are assured that no effort will be spared to cater to their convenience.

### VETERANS' CONCERT SUNDAY NIGHT

Splendid Program Arranged for Weekly Event at the Grand

Some well known Calgary ladies will appear on the veterans' program tomorrow night (Sunday) in the Grand theater. Among those on the program are Mrs. J. Cowan, Miss Ivey Leason, Miss June Gibson, and Richard Jonathan along with the Veterans' band under the leadership of Frank Jennings.

The veterans have arranged for the service and during the evening the latest war news will be bulletined from the stage. The program follows: March "Veterans' band"; Miss June Gibson; selection, "Veterans' band"; song, Mr. Richard Jonathan; song, Miss Ivey Leason; quartet, Bandman Robinson, Clarke, Carvell and Kappel assisted by "Veterans' band"; song, Mrs. J. Cowan; selection, "Veterans' band"; song, Comrade Richard Jonathan; march, "Veterans' band"; God Save the King.

### OGDEN TO HAVE IMPROVED SERVICE

City Will Place Two Extra Street Cars on East Service

A short time ago the Ogden Local Improvement association presented a petition to the commissioners for better street car service on the Ogden line. Yesterday afternoon Supt. McCauley presented a statement to Commissioner Graves to the effect that he was arranging to add another car to this route. By this means there will be a trip every 40 minutes instead of once an hour. This does not mean that the expense will be doubled for it has been necessary to run an extra car at noon and another at night. These cars will not be necessary now, and one of the morning and evening specials for the benefit of the shop employes may be cut out also.

The New Car Route. It is proposed to run the cars in and out on Ninth avenue. The cars will turn south at Burns' corner and run down Second street to Ninth avenue, west to Center street and back east on Eighth avenue. The superintendent explains that the reason he does not run them via the First street west and Eighth avenue corner is because of the congested traffic at that point. The cars will not run on Burns avenue at all. But Mr. McCauley thinks the red line can take care of all the passengers on this route. Very few passengers are picked up between Burns plant and the cement works so

### BAKER'S COCOA IS PURE

Purity in cocoa means carefully selected, scrupulously cleaned cocoa beans, scientifically blended, skillfully roasted, and with the excess of fat removed, reduced to an extremely fine powder by a strictly mechanical process, no chemicals being used, the finished product containing no added mineral matter.

GREAT SUCCESS OF VOCATIONAL TRAINING IN ALTA.

Director of Technical Education Has Made a Decided Success of Training Returned Soldiers

INTERESTING CASES

Veterans Handicapped by Wounds Received at the Front Are Fitted for Various Careers

Long before the war, France, as one phase of her policy of national economy, provided for the vocational training of those who were disabled in civil life.

In Canada, when the Military Hospitals Commission was created, one of its first acts was to make provision for the vocational training of the partially disabled men as they return.

In Alberta, the Military Hospitals Commission and the provincial government, through the minister of education, arranged to have the work developed under the immediate direction of the provincial director of technical education.

In Alberta the work was started about a year ago and good results are being secured. It has been officially stated at Ottawa that Alberta is leading all the other provinces in the number of cases dealt with, in the development of the necessary administrative organization, in the variety and adequacy of the training offered and in making a systematic plan for securing suitable employment for those who have completed their courses.

Five hundred and fifty men have been returned for training by the vocational officer and his staff. The men continue to return at the same rate as in the month of July, twenty per week will be the average addition to this number for an indefinite period.

Training During Convalescence

Experience soon reveals the fact that it is in the interests of the men and conducive to a more rapid and satisfactory convalescence if mental and physical occupation be provided for them. Subject always to the approval of the medical officer in charge of the hospital, the men are urged but not compelled to take any other of the lines of instruction and occupation provided. For those looking forward to commercial or civil service positions, commercial or civil service instruction is given.

Vocational Training After Discharge

While the men are convalescing, any instruction that is provided is open to all. After the men are discharged, however, it is only those whose disability prevents their return to their former occupations who are entitled to vocational training under the regulations of the Military Hospitals Commission.

Those who are approved for full vocational courses after their discharge, receive from the Military Hospitals

RAILWAYS DISAPPEAR UNDER LONG BOMBARDMENT. The task of bridging the crater area is one of the most important which confronts our armies in the west. Here is an example of a station with its adjacent railway lines and sidings in a state of partial obliteration. It is the only task of the army railway builders to replace these lost lines as rapidly as possible.

commission maintenance for themselves and their dependents while taking their course and for one month after completion. The initial scale of maintenance adopted proved to be inadequate, so a more generous schedule was provided in April of this year.

At the present time the following courses are being offered to men who at the time of their discharge were unable, because of disability due to service, to return to their former occupation:

- A—At the Military Convalescent hospitals at Frank, Calgary and Edmonton: 1. Commercial course with special attention to the civil service. 2. Commercial course with special attention to stenography and typewriting. 3. Commercial course with special attention to the teaching profession.

To Remove First Signs of Old Age

"The infallible first sign of age is the sagging cheek muscles," says Mrs. Cavallari, whose fame as a beauty culturist is scarcely less than that of a songstress. "These are more difficult and serious to treat than wrinkles," she continues. "The sagging muscles indicate they have grown too weak to remain in place; they must be assisted and strengthened."

Remaining of Booster Week, Only Working Days

There's no time like today in The Albertan's Automobile Contest. Candidates who take advantage of the extra club votes each week have an "edge" on those who hope to flash to the front on the final week's work.

100,000 Extra Votes \$50.00 Special Prize

For each \$18 of subscription money turned in for the week ending next Tuesday. Answer—The candidate who collects the largest amount of subscription money for the three weeks ending Tuesday, October 23!

ARE YOU SATISFIED?

Are you satisfied with the work you have done in the contest up to the present time? The proper answer a wide-awake candidate should give to this question is, "No, I am not satisfied; had hoped to do better, but I am pleased."

In a few days—Saturday, Monday and Tuesday—the value of the extra vote clubs will increase again. This week each dollar in subscriptions, when counted in the \$18 clubs, gets 5,555 extra votes; next week each dollar included in the \$21 clubs earns 4,762 votes.

Do you see the advantages of early work? That's the way to get "in the autos" and improve your chances for the \$50 special prize.

START SUBSCRIPTIONS AT LATER DATE. New subscribers for The Albertan who are now taking another paper, may have their subscription term begin at a later date, if they wish to wait until the expiration of a payment they may have made for a former paper.

NEWSPAPER COUPONS. All newspaper coupons will be void after next Tuesday. However, candidates residing outside of Calgary will have the privilege of mailing their last coupons on Tuesday evening.

CANDIDATES IN THE CONTEST

Table listing candidates for the contest, including names, addresses, and vote counts. Includes sections for Grand Prizes, District Prizes, and Special Prizes.

EXTRA Club Votes

100,000 EXTRA VOTES, in addition to the regular schedule, will be given as follows, for both new and renewal subscription collections:

Table showing the voting schedule for the contest, including terms, carrier options, and vote counts.

THE DISTRICTS

District No. 1—All the territory included within the corporate limits of the city of Calgary.

Advertisement for the contest, including the address: Contest Department, Morning Albertan, 14 McDougall Block, Calgary, Phone M5848.

Vertical text on the right edge of the page, including 'RECO', 'CAT', and various small notices and advertisements.

If You Can Not Come to the Office

**TELEPHONE**

your "Want Ads" to The ALBERTAN Phone M2166

**Want Ad Rates**

One cent a word for each insertion, with a minimum charge of 25 cents for six consecutive insertions. The price of four; abbreviations, figures, initials, box numbers, etc., each count as one word. Births, marriages and death notices 50c each insertion.

Advertisers should specify in copy whether advertisement should be classified under male or female column, especially bookkeeping and stenography advertisements.

The Albertan will continue to out-let down advertisements on Tuesday of each week, mail sent to the Albertan Box Office, if Albertan Box Office required, add 10 cents to price of advertisement for box and postage.

MILERS WILL PAY TAX ON ALL WHEAT THEY PURCHASE

Grain Supervisors Issue a New Order; Elevators to Pay Wheat Tax

Winnipeg, Oct. 12.—The board of grain supervisors has today issued the following orders:

"That upon all wheat purchased by or for the flour mills in Canada between October 4, 1917, and August 31, 1918, both dates inclusive, there shall be paid by the purchaser to the board of grain supervisors for Canada the sum of two and one-half cents a bushel, and one cent of the wheat, leased on September 12, 1917, is amended accordingly.

"That the monies collected pursuant to this order shall be paid out of the fund provided for by order No. 9 of the board, and out of the said fund there shall be paid in addition to the carrying charges and administrative expenses of the board, the sum of one cent per bushel of wheat for the western inspection division, held by or for eastern millers in store east of Port Arthur during the closed season of navigation, in Canadian public or terminal elevators, or winter storage boats at eastern Canadian lake ports insofar as such wheat is held by or for such millers to satisfy their milling requirements.

"That upon street wheat owned by country elevators as at October 1, 1917, and purchased thereafter and carried by such elevators there shall be paid out of the fund carried under order No. 8 of the board, carrying charges at the rate of one-twenty-fifth of one cent a bushel per day from October 1, 1917, upon such wheat actually in such elevators on that date, and insofar as street wheat subsequently purchased in closed season in the western inspection division, such wheat is so purchased, cash ticket issued and wheat actually delivered to such elevator, until the date such wheat is unloaded, at a terminal elevator of mill in the western inspection division.

"This order is to be effective as of October 1, 1917. No payment will be made for carrying charges accruing after May 31, 1917.

"That upon wheat held by or for eastern millers, upon which carrying charges are to be paid pursuant to order No. 13 of the board, such carrying charges shall be paid from December 15, 1917, upon all such wheat which shall be actually in store by that date, and from actual date of delivery into store of all such wheat subsequently received in store. Such carrying charges shall be paid until such wheat is actually taken out of store, or until April 30, 1918, on all wheat in store on that date. No carrying charges shall be paid after that date.

"The carrying charges to be paid shall be as follows: (a) On wheat in Canadian public or terminal elevators, one-twenty-second of one cent per bushel per day. (b) On wheat stored in winter storage bins, one-twenty-fifth of one cent per bushel per day."

SCROFULA AND ALL HUMORS GIVE WAY

There are many things learned from experience and observation that the older generation should impress upon the younger. Among them is the fact that scrofula and other humors, which create eczema, are best most successfully treated with H. H. Sarsaparilla.

This great medicine is a peculiar combination of remarkably effective blood-purifying and health-giving roots, bark and herbs, which are gathered especially for the purpose of food's Sarsaparilla, has stood the test of forty years.

Get a bottle today—now—from your nearest drug store. Always keep it on hand.

FRANCE FURNISHED MOST OF FUNDS FOR GREAT WAR

Since Beginning 104 Billions Francs Raised and 98 Billions Came from French Savings

WHAT SHE IS DOING For a Year Has Been Producing Shells at the Rate of 250,000 Per Day

New York, Oct. 12.—France has for a year been producing 250,000 shells a day for the famous 75 guns as compared with 12,000 daily when the war began, Andre Tardieu, high French commissioner in the United States, said in a statement here today. His estimate of credits voted by France from August, 1914, until America entered the war was nearly \$2,000,000,000, he said, from the savings of the French people. Mr. Tardieu's statement reads:

"The beginning of the war we could turn out 12,000 shells a day for '75's. In the year past we have been producing at the rate of 250,000 shells a day. In 1914 we had only 300 heavy guns, in 1915 we had 1,000, in 1916 we had 2,000, and in 1917 we had 3,000. Besides we have had 1,000 more of our Russian, Rumanian and other allies.

"More than two-thirds and nearly three-fourths of the western front is still occupied by the French army, which has two million men in the field. In our opinion the amount raised by annual taxes reaches this year five and a half billion francs, which is the highest figure ever attained, even in time of peace, although twelve million French people are either mobilized for the army or the factories or kept in store on that date.

"The carrying charges to be paid shall be as follows: (a) On wheat in Canadian public or terminal elevators, one-twenty-second of one cent per bushel per day. (b) On wheat stored in winter storage bins, one-twenty-fifth of one cent per bushel per day."

CONFERENCE WILL INVOLVE INTO RUSSIA'S STRENGTH

General Alexieff Explains What Will Happen When Entente Nations Meet

Petrograd, Oct. 12.—Gen. Alexieff, former commander-in-chief of the Russian army, on his arrival at headquarters in Petrograd, today issued instructions as to his mission to the inter-allied conference to be held in London, which is the representative of the Moscow newspaper Burost that the conference would ascertain the great strength of the Entente nations and her attitude toward the other nations of the world. He said that the conference would be held in Petrograd, and that the Entente nations would be represented by the British, French, Italian, Japanese, and American governments. He said that the conference would be held in Petrograd, and that the Entente nations would be represented by the British, French, Italian, Japanese, and American governments.

STRUGGLE OVER THE MUD-LOCKED BATTLEFIELDS

A Dogged Fight Every Step Forward in the Latest Advance; the Hardest Struggle Yet

HIDEOUS MORASS Even Worse Than the Mudfields of the Somme, Yet British Make Big Advance at Points

British Front in France and Belgium Oct. 12.—The British have been fighting their way forward doggedly foot by foot, over the mud-locked battlefields of Ypres. They were still clinging with grim determination to the task of the offensive, and had made appreciable gains in the face of almost inconceivable difficulties.

The greatest advance appeared to be along the crest of the Passchendaele ridge, where the attacking troops had pushed forward to an extreme depth of 1,200 yards from the starting point.

It was reported several hours ago that observers had seen a small body of Haig's men at the crest, which has almost on the outskirts of the village of Passchendaele.

The three years of war has produced few such days of hardship. Not since the world conflict began, however, has there been a more wonderful display of courage by the British. From the start it has been a merciless struggle against the odds presented by the hideous morasses for which Flanders is famous.

Worse Than the Somme Not even the mudfields of the Somme battlefield presented such difficulties as have been encountered during the past few days in Flanders. Even the infantry, without equipment to carry, found it hard to make progress over these shell-pitted morasses, which sometimes drag man and beast down to death.

A week ago it often took a full 20 minutes for a man to wade across a few yards of mud. The mud was so deep and so sticky that it often took a full 20 minutes for a man to wade across a few yards of mud. The mud was so deep and so sticky that it often took a full 20 minutes for a man to wade across a few yards of mud.

It was over such ground that men from the British and overseas were fighting today. But their spirit was not broken by the handicap. Even the wounded who returned from the forward line were cheerful and full of life, though suffering from pain, tired and caked from head to foot with sticky mud. It was a revelation to see the smiles on their faces as they turned their backs on the dressing stations.

A striking instance of determination with which the men undertook today's work was seen on one section of the front.

The men from overseas were advancing over ground that was swept by machine gun fire. At the front, the men from overseas were advancing over ground that was swept by machine gun fire. At the front, the men from overseas were advancing over ground that was swept by machine gun fire.

Dr. Boyd Favours It Medicine Hat, Oct. 12.—Dr. Boyd, Member of Parliament for the federal constituency of Medicine Hat, today announced his intention to support union government.

Robert Rogers Did It Toronto, Oct. 12.—The Telegram says regarding union government: "Sir Robert Rogers has stated a steady course. Union of all parties to win the war was his motto. Sir Robert has tried to reach the glory of a great success. Sir Robert Rogers, the possessor of a fine physique, has been at the moment when Hon. Robert Rogers left the Borden government, and brought Sir Robert Rogers up with a reward turn."

Nourishes a Growth Edmonton, Oct. 12.—The United, under the heading, "Big Business Holds the Fort," says in part: "Frederic Borden is still premier and the men who said a few weeks ago that they would not enter a government of which he was the head have swallowed their objections and taken office under his leadership."

Funeral Wreaths Emory Floral Co. Limited OBITUARY POPE—Sudden death, near Calgary, on Oct. 11, 1917, of Mrs. J. P. Pope of Medicine Hat. The remains were removed to A. M. Shaver's mortuary, 1205-10 First Street East. Funeral services will be announced later. S187-258 SPIELMAN—In this city on Oct. 12, 1917, Mrs. S. Spielman, 524 First Avenue S.E. The funeral will take place from the family residence on Saturday afternoon at 2 o'clock. The services will be held at 2 o'clock, after which the remains will be interred in the Union cemetery, where the remains will be laid to rest. A. Shaver funeral director, 5187-258

WILL FINISH WAR VICTURES OF GERMANY

Not Merely the Military Caste That Have to Be Broken Up, But War Barons Have to Go

London, Oct. 12.—Discussing the possibility for permanent peace after the war, Lord Robert Cecil, minister of blockade, told the Associated Press today that the United States, Great Britain and France must find some way of exterminating the German war baron class which finds war a profitable business and spends its peace time energy in building war.

"The central power has been kept in the war so long," said Lord Robert, "not merely by the German military caste, but by the classes who get rich out of war—the victuaries of commerce and industry. The military caste of Germany we shall conquer by force of arms, but the commercial victuaries we must attack in their pockets and teach them that war is not a profitable business."

Cut Off Their Credit. "That is merely the business of the blockade, but a blockade by itself will not do anything. We must go further and cut off the overseas branches of the war barons in the Far East, South America and elsewhere. The American trading with the enemy act is admirably conceived for the purpose of cramping the business, but we must still be done. These victuaries cannot carry on without relations outside of Germany. The great source of their power has been their financial connections with neutrals. Without financial connections they lose credit, and without credit they are done."

"New York has enormous international financial strength, so has London, and so has Paris. I do not know exactly how this power can be applied to the question under consideration, but I am anxious that the matter should be confined in those centers. Surely our combined financial strength is sufficient to smother these international victuaries if we act together."

QUEBEC POWER COMPANY Montreal, Oct. 12.—Gross earnings of \$1,822,003 in the last financial year compared with \$1,731,732 in 1916, were reported at the annual general meeting of the Quebec Railway, Light, Heat and Power Company, Limited, held here yesterday.

so far as public opinion was concerned, and awaited the verdict of the people at the polls to be decided upon by the members by the harm it had done. "Whether the people of Canada will in the future support only a Liberal treasury to life-long principles as has been committed by the men calling themselves Liberals who have entered the Borden government, remains to be seen."

BENNETT WILL MEET TRADES AND LABOR COUNCIL ON OCT. 26

Several Questions on Late Session of Parliament He Would Explain

R. B. Bennett some time ago suggested to the Calgary Trades and Labor Congress that he would like to address them and explain his stand on several questions during the late session of parliament.

BRITISH ADVANCE CHECKED BY HEAVY RAINS

(Continued from page one)

PROGRESS ALONG WHOLE FRONT London, Oct. 12.—Progress was made along the entire front in Flanders, where Field Marshal Haig began another offensive Friday morning.

MADE SOME GAINS

London, Oct. 12.—A Reuter dispatch from headquarters reports progress in the Poeschelle and Paschendale regions of the Flanders front.

THE WORK OF AVIATORS

London, Oct. 12.—The official communication dealing with aviation, issued this evening says: "On Thursday every opportunity was taken by our airplanes to reconnoiter enemy positions and carry out artillery and photographic work during the interval of clear weather."

STILL IN FULL SWING

Berlin, Oct. 12, via London.—The supplementary report, issued this evening from general headquarters, follows: "On the Langemarck-Zonnebeke front in Flanders the battle is still in full swing."

BAD WEATHER EVERYWHERE

Paris, Oct. 12.—The report from the Italian war correspondent follows: "There was bad weather today on the whole front. We damaged enemy saps in the Travinio valley with a well-timed explosion."

CAPTURED NEW TRENCHES

Petrograd, Oct. 12.—By a counter-attack yesterday Russian troops captured the trenches lost south of the Pskov, the war office announced today.

WESTERN AND SOUTHWESTERN FRONTS

"Rumanian front: On Tuesday the enemy after artillery fire, attacked in the Bucac region and took several trenches, which were restored by counter-attacks."

CAUCASUS FRONT

In the Revanduz region we occupied a height 50 miles south of Urmia, driving out the Turks.

HOUSE TO LET

1804 CENTER ST. \$60.00 TOOLE, PEET & CO., LTD.
