Poetry.

Loving Echoes Praise, and the world will heed you;
Blame, and it heeds you not;
For a word of praise in the memory.
Never to be forgot;
Or, if chiding be remembered,
It is only for its sting,
But loving words, like songs of birds,
Are forever echoing.

Look for the fragrant roses, Not for the thorns and weeds, For the crimson sky, when night is nigh, And the golden sun recedes, Glistens the Starry Dipper, Sparkles the Milky Way, Through midnight trees, the Glimpses of dawning day.

Kisses, but not upbraidings,
The smile, but not the frown,
For the love must be deep that keep,
If harshness press it down;
Like the falling dews of summer, wrinkled lines.

Or the welcome autumn rain, Kind words may flow from the lips, and go To the skies of the heart again. fresh cheek against his hair. Praise, and your friend will hear you,

Praise, and your friend will hear you,
Blame, and he heeds you not;
For a word of praise in the memory stays,
Never to be forgot;
But if chiding be remembered,
It is only for a sting,
And loving words, like songs of birds,
Are forever echoing.

—Julia Man

Early Autumn. The country lanes are bright with bloom, And gentle airs come stealing through, Laden with native wild perfume Of balm and mint and honey dew, And o'er the summer's radiant flush Lies early autumn's dreamy hush.

In way side nooks the asters gleam, And frost-flowers dance above the sod, While, lapsing by, the silent stream Reflects the hue of golden-rod, That flower which lights a dusky day With something of the sun-god's ray.

The grapevine clambers o'er the hedge In golden festoons; sumacs burn Like torches on the distant ledge, Or light the lane at every turn, And ivy riots everywhere In blood-red banners on the air.

In purple mist of fragrant mint Borders the fences, drifting out Of fostering corners, and its tint, As half of cheer and half of doubt, Is like the dear delightful haze Which robes the hills these autumn days.

And strange wild growths are newly-met; Odd things but little prized of yore, Like some old jewel well reset, Take on a worth unseen before, As dock, in spring a graceless weed, Is brilliant in its autum seed

Pipe low their sad prophetic tune, Though airs pulse warm the leaves amid, As played around the heart of June; So minor strains break on the heart Foretelling age as years depart

The sweet old story of the year
Is spinning onward to its close,
Yet sounds as welcome on the ear
As in the time of opining rose.
May life for all as swiftly wane
As comes the autumn-time again?
—Dart Fairthorne in Harper's Bazar.

Select Ziterature.

Two Fair Conspirators.

"How do'I look, Prue, dear?" "Like a half-open rose-bud, Cherry. And Becoming! Oh, Prue, I never saw you ook so well in your life. I only wish I could have your photograph taken just as

"Only Aunt 'Stasia brooming the cat out of the pantry! Quick, Cherry, let's get the down her eyelids. At length she started up on her head but what's bought.

Tve had some loveyers since Nehemiah pink calico dresses off; she'll be up here bridge that spanned the trout brook at the

"Prue, I'm afraid we are doing wrong?" nesitated pretty Charity Lee. Her sister Prudence bit her lip; her amberbrown eyes flashed beneath their long, curl-

look like other girls? to want, once in a while to get our necks from under the harrow? We came to Aunt 'Stasia because we were friendless orphans, and had no other lative besides her, and she has made wretched drudges of us. We have washed and scrubbed and mended and made for her we've saved here the expense of a hired girl, and we've endured her scoldings and snubb-ings without a word. Uncle Johathan would take our part if he dared to, but he is in awe of his life of Aunt 'Stasia, and now that she has made up her mind to take city boarders, we shall be ground down worse than ever, and I've made up my mind that we will go somewhere and see something, with her leave or without!"

"It'll be without it," said Cherry, with a shrug of the shoulders. "I told you, Prue, that she would never consent to our going

to Cis Allen's party!"
"No matter," said Prue, calmly. "Were going. We've picked strawberries on the sly, and Uncle Jonathan has sold 'em for us when he took the June butter and spring chickens to town, and he has bought us these cambric dresses—I wish, by the way, they weren't so vivid a pink, but dear, old Uncle Jonathan did the best he could-and we've made them up at odd times; and we'll ave one delicious evening of being like other girls, if we never have another. And you shall dance the Virginia reel with Cal-

vin Harding." "Nonsense, Prue!" cried Cherry, turning pinker than the cambric dress which she was now folding away in the crippled bureau with the broken drawer handles which was all that Aunt 'Stasia allowed two girls in the way of ward robe accomodations.
"Let me see," said Prue. "We're to

ome up to bed at half past eight. Aunt 'Stasia don't like us to burn too much oil, and she's always glad to get us off early-" "Yes!" cried Cherry, clapping her hands.
"And we're to dress as softly as two little

shed and jump down on the carpenter bench by mistake; and its only half a mile to the Allen farmhouse if we go across the fields, past the grave-yard and the old quarry pit. And oh, Cherry! won't it be delightful to go to a real party and dance to real music, and us."

WEDNESDAY, OCTOBER 9, 1895.

The rooms already put in order for the city boarders had to be gone over again with broom and duster; chickens had to be picked and vegetables washed and prepared for a company breakfast; the silver was to be rubbed up, and the old Indian blue china dusted anew before the weary slaves were allowed to cease work. And finally, when at last Aunt 'Stasia had disappeared into her room, like an antiquated spider in its hole, Cherry danced up to where Uncle Jonathan

have received, they will scarcely desire to desire to desire to dwell under your roof. Perhaps the gentle with the rivers drawn in red paint, and that at tairly hissed rite out of his fur.

Tommy's face looked like a map of Europe with the rivers drawn in red paint, and that at tairly hissed rite out of his fur.

Tommy's face looked like a map of Europe with the rivers drawn in red paint, and that it fairly hissed rite out of his fur.

Tommy had to lay by the biggest part of that day with his face smeared over with mutton taller, but by night he got round again, and got to cutting up his pranks as bad as ever.

When we come to our ourselves, we managed to get out, and we agreed not to say on thing about it, but that boy Tommy met for several vears. He has been dying for us with a lantern, jest as we agreed, and

as hard at the empty chimney place as if it were full of blazing beech logs, and, taking his face between her two hands, kissed its

rinkled lines.

Come into the house, you young mixes, and
"The dresses are lovely, Uncle Jonathan!"

Come into the house, you young mixes, and
the farm and keep it in the name. He's awful deaf, though, except when you're a-talkoff that way." And he darted off a-whist-I'll let you know what I think of you!"

Frue drew herself up, whilst Cherry clung ing about something you don't want him to ling up the road. she whispered.

And Prue, leaning on his chair, laid her timidly to her arm.

"Is the carpenter bench all right?" she murmured in his ear.

"Is the carpenter bench all right?" she helpless and friendless. Mr. Allen has asked persons. He nodded, while a slow smile crept over me to become his wife, and Calvin Harding this long time, but that you never would to deceive your aunt this-a-way!" he added allow him to come to the house and plead shouted so loud that he nigh about blowed his cause. It is settled that we are both to be married on the same day next October, be married on the same day next October, "She hasn't asked us a question about it! She has taken it for granted we would bend end."

"Or," interrupted Andrew Allen, brave-"Wal, wal," said Uncle Jonathan, still ly, "we'll marry them to-morrow!" "I'm glad on't from the bottom of my staring at the soot incrusted bricks of the chimney, "it's only natural you should want heart," said Uncle Jonathan, still holding up to go once in a while. Gals can't be cooped his lantern like a single-eyed Cyclops. "Come here and kiss me, gals!" up like young chickens in a pen, and you've

But Aunt 'Stasia, without vouchsafing a worked like all possessed to help get ready for the boarders, that I'll allow!" single word, walked grimly back to the house. Just then the creaking of Aunt 'Stasia's shoes sounded a little nearer the bedroom door than usual. Prue and Cherry flew up so long, without price, was too much for her philosophy. Nor did it at all tend to console the narrow wooden stairs like frightened birds; Uncle Jonathan rose up and extin- her when Uncle Jonathan afterwards reguished the candle which still burned on the "It's all your own fault, Anastasia!" high mantle and the room was left in dark-

to summon a special session of the state legislature to make a law to meet the case. This lature to make a law to meet the case. This has now been done, and the prize fighters and all their aiders and abettors will be compelled to give the state of Texas a wide birth hereafter. Strange to say the people of Dallas did everything they could to prevent the governor from securing the legislation he desired, claiming that his action would deprive their town of hundreds of thousands of dollars, which the people would leave, who came to witness the cladiatorial contest. It is

lars, which the people would leave, who came to witness the gladiatorial contest. It is certainly putting things upon a pretty low basis when the people of a town clamor for the privilege of having a prize fight take place there solely on account of the money it will leave among them.

—For several months past Capt. J. R. Hall, of Middleton, has been opening up some of the iron leads on the areas he has leased in the Nictaux iron region. Recently he struck a very valuable lead of the finest grade of magnetic iron ore, showing as far as opened immense quantities of the mineral. It is about two miles south of Nictaux Falls, within a rod of the track of the Nova Sootia Central Railway, and favorably situated for draining, dumping refuse, etc. Several companies are negotiating for the purchase of the property, and there now seems every probability that it will be acquired by a large American concern and operated on an extensive scale. Should this be done it will add to the industries of the county one which will prove of great benefit to it, giving our enterprising and progressive neighbor, Middleton, a genuine mining boom. The captain has also discovered a manganese lead which dleton, a genuine mining boom. The captain has also discovered a manganese lead which

and speak in conferences was granted by a vote of 144 in favor of, to 3 opposed. The

Merry Wedding Bells.

WEDNESDAY, OCTOBER 9TH, 1895.

—ENGLAND appears just now to be experiencing another South Sea bubble, and the events which characterized the years immediately preceding the collapse of that disastrous scheme are being enacted over again. This time it is South Africa that is setting financial England wild, causing staid old bankers and conservative business men to lose their heads completely. Some South African mines have turned out to be perfect bonanzas and their stock has multiplied in value many fold. This created a sort of boon in South Africa mining stock, and recently all kinds of schemes have been floated, and stocks of this nature have multiplied many times over, until just now certain stocks which might have been bought at par a year ago are selling at thirty and forty times their face value. The mania is now at the highest point, and everything in the shape of mining stock which has the name of South Africa attached to it is eagerly bought up.

There seems little doubt that, as in all other instances, history will repeat itself, and repeated the proper series of the south of the proper series of the state of the state of the proper series of the seri

other instances, history will repeat itself, and the end of this craze will come, sconer or later, as it did on that other memorable occasion in 1720. Some of the schemes may prove profitable and render the investors good returns, but the great majority of them which have recently been floated appear to be rather visionary. It is to be hoped the end will not prove so disastrous as that of the famous South Sea scheme.

—China has yielded. This announcement though brief is comprehensive. Ever since the massacre of the English missionaries in China, some six or eight weeks ago, the HALL-BRINTON.

Dominion Atlantic Railway. Chinese government has been playing fast and loose with Lord Salisbury, openly promising to punish the perpetrators of the outrage, but really doing little to make good its words. Finally Lord Salisbury sent his ultimatum and backed it up with some eight or ten war ships. The sight of these advancing up one of the principal rivers of Chinabrought the Emperor and his advisers to a realization of the fact that the British government was in earnest, and that further vacillation in the matter would prove rather a risky business. So Lord Salisbury's terms were accepted uncouditionally. The governor or viceroy of the province where the massacre occurred has been degraded and banished for failing to protect the missionaries, and is rendered incapable of everagain holding office. This ought to have a wholesome effect upon other officials similarly situated. Now, after all those immediately concerned in the massacre are executed or otherwise sufficiently punished, the Chinese people ought to understand the risk they are running in murdering and outraging British subjects.

—The Governor of Texas has knocked out the world's champion pugilist in the first round. The sporting fraternity which had the management of the coming fight between Corbett and Fitzsimmons had all plans laid for the contest to take place at Dallas, Texas, while the governor of the state has all along declared that it should not, either there or at any other point within the borders of the state, and finding the law somewhat defective and uncertain, he has taken the trouble to summon a special session of the state legislature to make a law to meet the case. This This is what the Publishers' Circular, the

Dominion Atlantic Railway Changes.

has also discovered a manganese lead which a New York expert, who recently visited it, pronounced to be of a very high grade.

—The people of Labrador are now discarding dogs as beasts of burden and domesticating deer for this purpose. It is surprising that this was not done before as the dirt, the smell, the danger, the noise and the great difficulty of feeding the dogs would be obviated, while deer are gentle, clean, quiet, feed on the universally distributed moss, and being larger and stronger could travel much

further in a day. The present governor of Manitoba has for some time been educating the training of deer for use in sleighing in that province instead of horses.

—The Toronto Empire and Mail says: Probably no part of the country deserves more credit for progress during the last few years than the Province of Quebec. It seems to have entered upon a new era in the production of wealth. Quietly going about their business, dropping old industrial methods and adopting improvements, its people as a whole have greatly increased the proceeds of their labour.

—At the Michigan conference of the Methodist Episcopal church, held in Ann Arbor last month, the right of women to sit and speak in conferences was granted by a cover fourteen Barrels to the Tree.

Money for Annapolis Garrison Grounds.

Major Armstrong, of the militia department, came from St. John last Monday, says the Annapolis Spectator, and gave authority for the expending of about \$500 in repairing and preserving some portions of old Fort Anna, or what is commonly called the Annapolis garrison grounds.

This expenditure is largely under the control of the town, the town engineer, Mr. Uniacke, having been recommended by Mr. Mills, M. P., as a proper party with whom the department could consult as to what should be done. A party of laborers are now at work on the Sally port and Black hole, under the inspectorship of Mr. Lamont Roach. Mayor King did the agreeable to Major Armstrong, who is commonly called the Annapolis Spectator, and gave authority for the expending of about \$500 in repairing and preserving some portions of old Fort Anne, or what is commonly called the Annapolis Spectator, and gave authority for the expending of about \$500 in repairing and preserving some portions of old Fort Anne, or what is commonly called the Annapolis Garrison Grounds.

over Fourteen Barrels to the Tree.

Over Fourteen Barrels to the Tree.

We have lately received notice of an unprecedented yield of apples, and though the formation. The announcement of its adoption on September 14th, 1895, was received with applause.

—A valuable electoral atlas of the dominion, showing the boundary lines of the constituencies upon which the revision of the voters' lists for 1894 was based, has just been issued by the Queen's printer. Besides over two hundred maps of constituences, the book contains a handy digest of the last revision and will be of great service to political managers.

—In consequence of Wiggins' prophecy many people in Quebec were afraid to leave their homes during the prescribed period,

Death of Mrs. Phosbe James. Over Fourteen Barrels to the Tree.

the day fields of ice.

The great demand for apple barrels during the past week has completely exhausted the supply at all of the cooperages, and farmers desiring from twenty to fifty barrels a day are compelled to return home with from five to ten.

A night-blooming C.

— A night-blooming Cereus in Mr. H. A. Pratt's hot house, Kentville, burst into full bloom last Thursday at noon, a hitherto almost unheard of occurrence. The plant, as indicated by the name, is supposed to be in bloom only in the night time. —The Pominion Atlantic Ry. is exhibiting, in their office on Washington street, Boston, a most tempting display of Gravenstein apples from the "Land of Evangeline."
The exhibit attracts great attention and exiter year favorable comment.

-Amariah Neily, brother of Mrs. H. D.

—Amariah Neily, prother of Mrs. H. L. Woodbury, of Kingston Village, died at his home in Meadow Vale on Monday 30th ult. His remains were interred in Tremont Cemetery on Wednesday afternoon. Sermon was delivered by Rev. R. E. Gullison. LARGE APPLES.—Mr. John Saunders, of Clarence, sent to the MONITOR office last week two very large and handsome apples of the Fellowwater variety. The aggregate weight of the pair was 1 lb. 14½ ozs., and the largest of the two measured 13 inches in circumference.

CONVALESCENT.—The many friends of Miss CONVALENCENT.—The many friends of Miss Bessie Parker, daughter of J. G. H. Parker Esq., who has been dangerously ill for the past week, will be glad to learn that she has greatly improved during the past forty-eight hours and is now considered out of danger by the attending physicians.

—Annapolis Valley fruit captured nearly all the first prizes at the St. John exhibition, notwithstanding there were only two or three exhibitors from this side—A. V. and F. A. Parker, and A. L. Morse of Berwick and B. Chesley of Bridgetown and F. H. Willett of Tupperville, captured practically all the prizes—New Brunswick fruit wasn't in it.

standing strenuous exertions were made by the captain and crew of Dutch steamer Prince Mauritz. Some assistance was also rendered by the firemen of that place.

—On Tuesday last just before the steamer Yarmouth left Boston a laboring man named Patrick Barry came down the North side of Lewis wharf and as he reached the freight office was heard to say "Do you want to see a man die game!" The next thing he did was to draw a pistol from his pocket, place it to his head and pull the trigger. He died almost instantly. Barry had been drinking heavily.

heavily.

—During the late exhibition at St. John, the West End Hotel, under the proprietorship of Mr. J. V. B. Foster, came in for a large share of patronage, and its appointments gave every satisfaction to its numerous guests. Mr. Foster, who formerly lived at Hampton, has been in the hotel business in St. John some four years, and his many friends will be glad to know that his hostelry is meeting with public favor.

Symptomy Integral Online a serious

SERIOUSLY INJURED.—Quite a serious runaway accident occurred at Middleton on Thursday last, by which Mr. Philip Hilton was thrown from his waggon with great force against a tree, fracturing several of his ribs, one of which punctured his lung. The injured man was carried into the Middleton hotel, where Drs. Miller and Gow rendered medical assistance, when he was conveyed to his home.

—The annual road race of the Ramblers Club from Halifax to Bedford occurred on Saturday last, and the first prize was captured by our former townsman, Mr. Frank Hillis, for the third consecutive year. The distance is nine miles and was covered in the remarkable time of 26 minutes and 58 seconds, beating all previous records of the club. There were eighteen contestants in the race, and at the time the run was made a strong wind prevailed.

a strong wind prevailed.

—The G. T. R. has lately been trying a new style of locomotive fitted with patented devices, the most important of which are two cylinders, one 19 and the other 20 inches, and so arranged that the steam is used in the larger one after it has done its work in the smaller. When tested the engine drew 45 loaded cars from Brockville to Montreal, with a consumption of four and a half tons of coal. An ordinary engine hauling half that number of cars the same distance uses five tons of coal.

uses five tons of coal.

—Says Wednesday's Boston Post: "At noon yesterday the British steamers Halifaz and Yarmouth left their respective berths at Lewis' wharf, the former for Halifax and Charlotteown and the latter for Yarmouth. A friendly brush was indulged in by the two steamers on the way down the harbor, which must have been very exciting to the passengers and crews. From my point of observation I could not determine which had the advantage, and when they disappeared from view they appeared to be almost side by side."

by side."

—Moosemeat has been plenty in the market within the past few days, best cuts selling at 12c. and 14c. per lb. The carcasses were brought from Dalhousie by Messra. Frank Roddie and Chas. Connell, who were successful in "calling" in that vicinity. Mr. Thomas O'Berne, another well-known hunter living in that locality, also killed a fine animal back of Albany, while our local sportsmen, Messra. John Bath and Harry Miller, returned from a hunting expedition at Lake Alma with the carcass of a large caribou. The slaughter of moose thus far this season has been far beyond the average throughout the province, though it is to be regretted that many have succumbed to the fatal and nefarious practice of snaring.

—The Maritime Prohibition Convention

It consequence of Wiggins' prophecy many people in Quebec were afraid to leave their homes during the prescribed period, others took refuge in their cellars, others picked their apples to prevent loss by the storm, while some tied down all their loose property.

In the last race across the Atlantic the Majestic passed the Paris and the Campanio left the St. Louis away behind. The United States people may be able to build swifter yachts, but when it comes to the real business of quick coean transport they are not in the race with the ships that sail under the Juion Jack.

In the race with the ships that sail under the Juion Jack.

In the last race across the Atlantic the Majestic passed the Paris and the Campanio the tend to the family their deep sympathy.

Gold bearing quartz essaying \$11 to the ton has been discovered at Eatonyille, says the Cumberland Leader.

.—The St. John and Yarmouth exhibitions were attended by a large number of our residents, all of whom express themselves as greatly pleased with the many attractions on exhibit.

—A tunnel under the Clyde at Glasgow has just been finished, and will be open to traffic shortly. It is 16 feet in diameter and 700 feet long. It has been five years building. PROPERTY TRANSFER.—Mrs. L. C. Marshall, of Paradise, has sold her property, situate at the corner, to Mr. C. Jackson, manager of the lumbering business on the Paradise waters.

—Nova Scotia has on its roll a lawyer whose admission to the bar dates back to 1828. It is Mr. W. H. Keating, now living in California. The venerable gentleman is over 90 years of age, and is still in good health.

—The schr. Victor, belonging to Capt. Henry Morris, arrived in port on Thursday with a load of lime and ashes for fertilizing purposes, which found a ready market among our farmers. It will be seen by advertisement that the captain solicits a cargo of apples for Moncton and other likely ports. —Mrs. Ansley's large stock of fall and winter Millinery has arrived and will be open for inspection on Friday, Oct. 11. A large assortment of trimmed and untrimmed hats and bonnets, ostrich tips and fancy feathers, velvets and ribbons in great variety, with other novelties too numerous to mention.

—Arthur P. Dodge, of Middleton, and Aaron Wessel, of Victoriavale, returned on Saturday last from a hunting expedition to Queen's county. They were absent some seven days, and were successful in shooting a medium-sized bull moose. Mr. Dodge is greatly pleased with his good fortune, and will have the head mounted as a memento of the trip.

—Arthur V. Dimock, a young man preparing for the missionary field, is announced to deliver an address on the "Missions of the World" in the Baptist church next Sabbath evening. The address will be the more interesting because of the illustrations and map, 15½ x 7, which are used to assist and instruct the addience. No doubt the attendance will be large.

-The ordinance of baptism was adminis-—The ordinance of baptism was administered last Sabbath morning in the Baptist church. The platform and baptistry were beautifully decorated with flowers, and to the large congregation present the whole service was very impressive. In the evening a missionary conquest meeting was held. The addresses, recitations and music were all of a pleasing and instructive character.

in it.

Brig Nellie Pirkup. Groves, from New York, while lying in the roads at Port an Prince, Sept. 23, was discovered to be on fire, caused by an explosion on board, and she was burned to the water's edge, notwithstanding strenuous exertions were made by the captain and strenuous announces the sale of his farm, stock, farming utensils, and many other articles, on Wednesday next, Oct. 16th, commencing at one o'clock. This farm is one of the very best to be found in Annapolis county, and offers unsurpassed privileges to any person desirous of following the pursuit of agriculture for a livleihood. It now cuts upwards of fifty tons of hay a year, has an orchard annually yielding from 400 to 600 bbls. of apples, besides an acre of land studded with pear and plum trees and other small fruits.

Rev. S. Langille at Clementsvale The clerk of the Baptist church at Clem-ntsvale writes the Messenger and Visitor as

"A wonderful work of grace has been going on during the summer months in the Clements church. Rev. S. Langille came to the pastorate the first of May; soon the services were characterized by an increase in the pastorate the first of May; soon the services were characterized by an increase in numbers and spiritually. Special services were commenced the last week in June. On July the 7th in answer to prayer ten were baptized, and nearly every Sabbath since the ordinance has been administered to willing converts until Sept. 15 ten more were added, six at Victory in the afternoon, and at Clementsvale in the twilight of evening four young girls, the youngest only eight years old, making forty-eight in all since the work began. The most wonderful part of all is this work was going on in the busiest part of the season, when the people were gathering in the hay and grain, the house of God was filled almost every evening with willing worshippers and precious souls were gathered into the Kingdom."

To Sue the St. John Sun. Inspector Banks, of Halifax, has retained counsel to bring an action for damages against the St. John Sun for alleged libel. The Sun had the following editorial in reference to the Cornfoot liquor case tried this week in

the police court:

"Mr. J. T. Bulmer, of Halifax, the well-known leader of the third party in days not long gone by, is now the favorlic counsel engaged by the property of the season of the lease inspector press of the season of the lease inspector press of the season of the lease inspector in regard to his treatment of the large hotels, whose offences are overlooked by the officer of the law. Until the inspector treats all alike it appears that the lesser operators are to have the benefit of Mr. Bulmer's advice and assistance." Inspector Banks contends that he does not overlook any offences, but treats all alike. He has given his counsel instructions to sue the Sun for \$5,000 damages.

We often have occasion to publish fish

We often have occasion to publish fish stories, but it is only on rare occasions that a mink story gets honored with a place in these columns. The authenticity of this story is vouched by our informant. One day last week, Mr. James Grimm of Springfield, was standing by the mill dam when he espied a muskrat, he raised his gun and shot it, when up "bobbed serenely" a mink from almost under his feet and running up over his body took a header off his shoulder, and, presto! was gone. The shock of the sudden appearance of the furry and betailed apparition was so great for Mr. Grimm that he pulled the throttle and sent out a couple of blood-curdling yells that disturbed a prayer meeting at Nictaux. The mink is said to have been seen in the wake of the "flying bluenose" striking out for Yarmouth, en route to Boston.—Bridgewater Bulletin.

Immense Yield of Grain.

I noticed in your paper sometime past a few remarks in reference to the growth of grain by Arthur Morse. Those results showed a yield of seventy-one bushels per acre. Mr. Morse asked if any other grower in the county could show a larger yield. In reply to the same, I would state that John P. Morse, of Melvern Square, raised one hundred bushels of mixed grain, consisting of oats, barley and wheat from a piece of land containing a little less than one and one-quarter acres. This shows a yield of eighty bushels per acre or nine per acre more than that referred to. These results speak well for the culture and fertility of his farm. I might also state that he raised in all seven hundred and fifty bushels of mixed varieties. Your respectfully.

GEO. Morse.

Melvern Square, Oct. 7th, 1895.

Parliament Further Prorogued. Ottawa, Oct. 6.—Parliament has been further prorogued pro forms to November 19. This does not in the slightest degree affect the date of its meeting for the despatch of business

—A New Brunswicker who was in a Maine fish town last week had his attention directed to a load of small herring landing. He was informed that these fish would go into the factory and emerge as sardines, sea trout, brook trout, mackerel and herring. The label on the can marks the distinction.

Mr. Rupert Foster, after a short stay among his relatives, has returned to Boston.

among his relatives, has returned to Boston. He was accompanied by his wife and daughter, who will make that city their abode for Attorney-General Longley left for Ottawa last week to take part in the argument of the special case between the Dominion and the several provinces in regard to the ownership of fisheries and the control of inland fisheries.

ownership of fisheries and the control of inland fisheries.

Mr. W. H. Walker and daughter, Mrs. MacQuarrie, left Saturday on a short visit to friends in Haverhill and Lawrence, Mass. Miss M. E. Jefferson, who has been spending the summer with Mrs. MacQuarrie, accompanied them as far as Annapolis.

Miss Jessie Rumsey, one of our most esteemed young lady residents, took her departure for Boston on Saturday, where, health permitting, it is her intention to reside in the future. Her host of friends wish her every prosperity in her new home, though deeply regretting her removal from among them.

Among the arrivals of the past week are those of Mr. and Mrs. Charles Fay. of New

among them.

Among the arrivals of the past week are hose of Mr. and Mrs. Charles Fay, of New York, who reached here on Wednesday last, and who are at present staying at the Revere House. Mr. Fay has a large number of friends and acquaintances in the town and county who will extend to him and his better half a warm welcome, and will learn with pleasure that it is his intention to make Bridgetown his abiding place for several months of the year in future.

Vessel Struck by a Whale.

The barquentine Handa Isle, owned by dr. Daniel Ross, of Auckland, New Zearand, brother of Hon. William Ross, of this land, brother of Hon. William Ross, of this city, was struck by a whale about 200 miles off Sydney, N. S. W. The captain reported three planks, two top frames and some ceiling broken. Repairs had to be made at Sydney before proceeding. The collision occurred on August 24th, and this is what a Sydney paper says of it:

"The barquentine Handa Isle arrived from Mercury Bay to-day in a damaged condition. At noon on August 24 two immense whales approached the vessel. One dived under her and the other struck the vessel amidships with tremendous force. Several planks were stove in and smashed. Water began to make at the rate of a foot an hour,

egan to make at the rate of a foot an hour ad Captain Robinson then decided to throw began to make at the rate of a foot an hour, and Captain Robinson then decided to throw overboard the deck cargo of timber, with the view of raising the hole above the water line. The pumps were kept going throughout the afternoon and night, and the next day, the vessel being lightened, the water was got under and the breach stopped by pillows and hides. The water was then easily checked. The last seen of the whale was sinking, tail foremost, in a mass of blood. Had it not been that the vessel had a timber cargo, it is believed that she would have foundered. On the 28th the Handa Isle fell in with a heavy gale, but stood the test well, despite her crippled condition. The singular collision is not unprecedented. In the Pacific sea years ago a Sydney vessel, the King Oscar, bound from New Zealand, was charged by a whale, which struck her fair amidships and sank the vessel, the orew narrowly escaping. Many years ago also the American whaler Essex, while cruising off Pitcairn Island, was struck by a sperm whale and sank.

Fatal Burning Accident. Harry Chute obtained two quarts of oats from the Central Experimental Farm, Ottawa, which when harvested yielded 3½ bushels. He also boasts of raising a number of large pumpkins, one of which tipped the scales at 50 lbs.

Our grain crop this year has been quite large, about 1400 bushels have been harvested el and housed in good condition, the most of it being threshed by Mr. Z. Elliott. The most notable growers are Albert Mitchell, 235 bushels; E. B. Foster, 160; H. M. Foster, 115.

Clementsvale Items.

Mr. and Mrs. Joseph Potter are visiting friends at St. Mary's Bay.

Misses L. Laugille and H. Saunders, with their friends, attended the exhibition at St. John last week.

Mrs. Ambrose L. Banks, who has been visiting relatives here and at Clementsport, returned to her home at Inglisville on Monday.

Mrs. Dow D. Potter and Mrs. Prudence Chute, who have been visiting relatives in Lynn and Boston, returned home on Tuesday.

On Monday night Mrs. David Potter quiet-It is with mingled feelings of grief and

wonder, and after a short time she seemed to sleep and quietly passed away. Deep sympathy is felt for the bereaved and grief-stricken parents, who less than four weeks before buried their youngest child, and hopes are expressed that the remaining child may be spared to be a consolation to them.

Two less at home!
The charmed circle broken—the dear faces,
Missed day by day from their usual place,
But cleansed, saved, perfected by grace,
Two more in Heaven,
—Co

Centreville, Mr. A. G. Messenger returned home from

St. John Saturday.

Mr. Chas. Messenger leaves for a trip to Boston to-day.

rn military small-bore rifle, with armored bullet with a mantle of steel copper or nickel, is the result of a process of not here enter. The reduction in calibre er the limit has yet been reached. Italy and Roumania have adopted a calibre of no more than .256 inch, the American navy of no more than .256 inch, the American navy is about to be armed with a rifle of only .203inch calibre, and Kruka and Hebler have obtained ballistic results with a bullet of only ,198-inch calibre which are unapproached by projectiles of larger size. Practically now the armies of all civilized nations are armed that armies of all civilized nations are armed the remaining of the year for making manure and preparing it as plant food is in the fall and winter. The exposure of manure to the effects of winds, rains and sun leads to loss of the state of the s

In great measure our knowledge of the surgical results of this marked reduction of cal-ibre is based on theory, or the results of ex-The real value of the manure is not in the periments on the bodies of men and animals. periments on the bodies of men and animals.

At all times the character of a bullet wound depends on the weight, form, density and velocity of the projectile, and on the hardness or resistance of the part hit. The comparatively large, soft bullets of the older and arger bored rifles, moving at a relatively noderate velocity, produced wounds with the character of which most medical men are familiar. But the new rifles of reduced cal ibre, increased range, velocity and penetra-tion, with hard mantled bullets, introduce

The softer and larger-bore bullets produce wounds characterized by a broad zone of deritalized tissue about the point of entrance, with a wound canal lacerated by the easily great explosive action, an aperture of exit ure heap is where the heat is generated, and relatively little hemorrhage. In the case of direct hits the action of the new bullets may be summed up by saying that they produce learn are little to the learn in this condition. The large of the learn in the summed up to the relatively little than the requires according to the heap in this condition. soft parts, exert less explosive action, and is well decomposed the manure should be splinter and displace bones less, except at handled, the entire mass turned over, and

At long ranges, towards the end of their flight, these long, thin bullets tend to somerduce extensive splintering and comminution

uniformly shown than that of the old kind. It occurs chiefly in the skull and in connecprobable that experiments made on horses, whose bones are much stronger and more one of preparing available plant food. resistent than those of man, have given us exaggerated ideas of the effects of the small bullets on these tissues, but, even so, any way minimizing the horrors of war.

The Wanderings of Driftwod.

In September, 1892, the daughter of the lacksmith in Canna, an island of the

calm her terror, exhorting her to wait an explanation.

When writing to her son she told him of what had happened, and was greatly relieved on receiving a reply assuring her of his wellbeing, but was astonished to learn that he perfectly remembered how, when on a holiday, he had written as described on a piece of wood and had thrown it into the sea from a rock near Bilbao. We all know the power of ocean currents, and need not be surprised at this piece of wood having been carried six months; but the marvelous and, except for undoubted evidence, the incredible circumstance in this case is that this piece of wood, after its long drifting, should have been washed on the shore within 100 yards of where the writer's mother lived, and that it should be picked up by one of his own family and taken home. Had any novelist dared to picture a message delivered as this way by means of an ocean entered as the same of the same than for breeders of almost any other stock. where the writer's mother lived, and that it should be picked up by one of his own family and taken home. Had any novelist dared to picture a message delivered as this way by means of an ocean current, every reader, and certainly every critic, would have denounced the outrageous demand on faith. And yet the apparently impossible actually occurred in Canna.

Something New About Seidlitz Powders.

"I have brought up a number of children and have been a sort of amateur doctor for my friends and neighbors for years. I have taken a number of cases in hand that seemed quite bad, but I have never failed to bring them around into good condition by the use of a few simple medicines," writes an intelligent mother to an exchange. "Nine-tenths of the minor allments of life are due to injudicious eating and colds. Any of the first of the minor ailments of life are due to in-judicious eating and colds. Any of the first symptoms of illness brought about by these causes can be promptly checked if one has even a little knowledge of the healing art. An attack of indigestion accompanied by headache, a slight fever and distress in the region of the digestive organs should be re-lieved by a Seidlitz powder or some similar simple remedy.

lieved by a Scidlitz powder or some similar simple remedy.

"And, by the way, there is a fashion of using Scidlitz powders which I think is not commonly known, but will be found most satisfactory to those who use this medicine. The ordinary powder should be divided in half, half of the contents of the blue paper being put into one tumbler and half of the contents of the white paper in another. Fill the tumblers half full of water as hot as one can drink it. Stir the water so as to dissolve the powders; then pour the two together and drink. Used with hot water half of the powder is quite as effective as the whole would be if used with cold water, and the effect is much more agreeable and speedy. It is often the case that one's breakfast disagrees with one. Under such circumstances one-quarter of a powder taken in hot water as directed will often clear the head and relieve all unpleasant symptoms. It must be borne in mid that Scidlitz powders should as directed will often clear the head and re-lieve all unpleasant symptoms. It must be borne in mind that Scidlitz powders should never be taken without mixing. There are cases on record where some foolish or adven-turous persons have swallowed the contents of the tumblers separately, causing rupture of the stomach and almost immediate death. Judiciously used, a Scidlitz powder is one of the most valuable among the simple house-hold remedies and should be kept in the medicine closet of every family."

—Captain John R. Hire, of schooner Lillian, says: "I was suffering with inflammation of the chest, brought on by exposure at sea. Took a good supply of Puttner's Emulsion, which perfectly cured me. It has given me a new set of lungs."

There is virture in country houses, in gardens and orchards, in fields, streams and groves, in rustic recreation and plain manners, that neither cities nor universities eners, that neither cities nor universities eners, the manners of the stream of the s

—Impure blood is the cause of boils, pimples and other eruptions. Hood's Sarsaparilla purifies the blood, and cures these

Agricultural.

The most important work at this season is the management of the manure. It is the farm savings bank, and pays good interest if the manure is handled in a manner to prevent loss. No manure can be of service untion into the details of which we need | til all the ingredients are reduced by decomposition, and to spread coarse manure on the ground in the spring is to take the risk of a large portion of it remaining in the soil beyond the time when the crops may need it most. In early spring the manure cannot with weapons whose calibre is under .315
a large proportion of its plant food, and the inches or 8 mm.
addition of coarse material to the heap without handling the manure in a manner to de-

THE LIQUIDS. The most valuable portions of manure are the liquids. Enterprising farmers are careful to save this, and with suitable drains to carry it to the manure heap to be absorbed by the solid portions, but such is not the rule with the majority of farmers, who are careful to save the solids, but permit the liquids to flow away, some of them making ditches to carry off the black liquids which overflow the barn yards, instead of filling the barn yard with abundance of material for absorbing them. The centre of the man when the liquids are added to the heap they condition, but when the centre of the heap Their wounds offer the best possible conwhich will at once cause the materials to de

One of the advantages of manure is its even distribution over the soil. Manure spreaders do this work in an excellent mansault, and, by striking sideways, often proner, but when all absorbent material is first of bone. Indirect and ricochet hits with rendered fine the capacity of the solid matthese new and mantled bullets are especially | ter to absorb liquids is greatly increased and to be feared, as contact with any hard subto be feared, as contact with any hard substance is sure to split the mantle, and the loss of ammonia is likewise reduced to a minnaked and deformed bullet core then acts imum. If all bedding is cut, and all coarse like the hollow-point bullets of express rifles.

This is a factor which may cause protective works to lose much of their value when attacked by troops armed with these small cal- manure making—not simply adding materbre rifles.

The increased explosive action given to cious use of absorbents so as to save the valthe new bullets by increased velocity is more than counterbalanced by their lesser liability food, as well as reducing the manure to a to become deformed; hence their explosive action is, on the whole, less marked and less as possible. Frozen manure will not decompose, and the heat in the heap should be maintained uniformly. It may require stalks tion with the bones. In respect of this ac- a year to rot in the soil, but this is quickly tion on bones, especially long bones, it is accomplished in the heap. Keep in view th

Making Sheep Pay.

A wool grower of great experience writer the extensive fissuring and comminution to Farm News that if the American farmer are so severe that considerable actual experin making mutton sheep without taking regarding the new arm of small calibre as in any way minimizing the horrors of war. There are a great many farmers who keep their sheep well, and the returns from them show the effect of this, but there are entirely too many of them who use their sheep as grubbers and savers of waste, and these will gathering driftwood for fuel, when in a small bay, about 100 yards distant from her father's house, she picked up a piece of wood bearing the inscription cut with a knife, "Lachian Campbell, Bilbos, March 23, 1892." On taking it to her mother she bearing the property of 1892." On taking it to her mother she became much concerned, as this was the name of her own son, who was a boiler maker in Spain, and, as would be the case with most people, certainly with Highlanders, she could not get over the supersticious dread that this message from the sea was the harbinger of evil tidings from her son. The family of the proprietor did their best to calm her terror, exhorting her to wait an explanation. raising. It is often asserted that sheep will

The Household.

kind of companions if they are to grow

cularly bad, the children are forbidden the companionship. Very many times this pro-hibition amounts to absolutely nothing, for the forbidden friend is pretty sure to be on ment that seems unjust and therefore is the source of irritation, and often means more ed to. There is a much stronger element of justice among children than most people tion does not strike them as well taken, they are apt to let matters run on pretty much as they may, evading responsibility and punish-ment by declaring they cannot help it, for the children will come into their play and

train, they take upon themselves with this responsibility an obligation to do the very best for them their circumstances will allow, and this obligation can never be met by

portant, a strict watch over the mates of the A house that is too good to be opened for games and pleasures for the young will some day have a cloud hanging over it, caused by the wrong-doing of these same responsibilities. Nerves that are too sensitive to bear the noise and racket of children's company are very likely, in later years, to be torn

each other and a flush that suggested them to be guilty of trying to swindle the railroad proper place in the management of home af-

their studies whenever possible. Many children have their lives shortened greatly by

ing to hear a little one, as soon as it can say a few words, try to speak a piece which an unwise parent has tried to teach, but to me it is also very sad. I know a smart man whose little babe, of barely a year and a half, is made to stand up and speak pieces and to perform little tricks of courtesies like a trained dog. Upon every possible occasion this child is made to show off. The mother told me the little thing dared not disobey her papa, as he was very firm with her, and when he put her up in a chair and told her to speak a piece, he would punish her if she did not obey. Poor, foolish father, who prided himself on making his little child obey in such a matter. The child is very frail and delicate looking; she cannot talk much as yet, and BARBARA A. NEWCOMB.

Moncton, N. B., Sept. 21st, 1894.

C. Gates, Son. & Co. It seems to me positively wicked in that father, to force her little brain for his own

foolish pride. Time enough, dear mothers and fathers for brain work: don't let the little ones be forced to any kind of mental labor, not even their alphabet, before they are six years old; rather keep them back as much as possible, and do not allow mental growth to get ahead of the physical. They will turn out to be just as smart men and women, and better able to endure mental labor in after years. -

Ladies Journal. Make Children Happy.

Women should do their utmost to see that the childhood of their boys and girls should oe as happy as outward circumstances render ossible. Every mother should make a study in the art of creating happiness in her children. That art cannot be learned from dren. That are cannot be larger and a question:
books; it comes from the inspiration of a "What is the distance from the earth to its attainment. Happiness at all times is "a pearl not of the Indian, but of the empyrean ocean," but the mother who tries so o love "as to go to heaven every day" will be sure to bring it thence and impart it to

Tissue Paper for the Feet. Cold feet are a positive affliction which ome persons endure throughout the winter season. Many remedies are suggested; one practiced in Russia may be of benefit to some-body. This is to wrap the feet in tissue paper every morning before the shoes and stockings are put on. It is so simple as to be easily worth a trial.

—In the secrecy of the home God is de-termining the future of our land. The nation is there, in the children, in the plastic form to be moulded by the mothers. The mother has the alphabet in her child; how he will spell the character depends on her. God has intrusted to her the destiny of the world, and the eternal world will receive its fashion from the hidden tendency in the bosom of the mother.

A Good Thing to Know. Distressing vomiting may be relieved by applying to the stomach a hot plate or woolen pad brought from the oven.

Salad Dressing. — Three eggs beaten light, one tablespoonful of butter, one desertspoonful of mustard, one-half a saltspoon sertspoontul of mustard, one-half a saltspoonful of cayenne perper, one-half cupful of vinegar. Cook until it thickens.

by way of reply.
"Then you did fall in with some of the profession?" I persisted.
"Well, rather!" he quaintly replied. "And you didn't lose your money!
"Not as I knows on!"

"But did you beat the game?" He winked and chuckled some more, and then putting his mouth to my ear he whis-

pered:
"Pon't give it away, but I'm no John "No?" Then who are you?" "Old Green Goods himself; going over to Hoboken to meet a victim from Canada!"

Mr. Balkins was a very sick man. The physicians had abandoned all hopes of his recovery, and had been informed that his end was near, and he had made all prepar ations as cheerful as possible.

Mr. Balkins had a dog that had tried to

bite a hole in a bicycle wheel, and had two or three kinks put in his back. He did nothing but lie under the house and howl. It did not disturb Balkins. He simply felt sorry for the dog, and no thought of his neighbors entered his head.

Mr. Boggs, who lived next door, called to see Mr. Balkins, and was ushered into the sick room, where all talked in whispers. "Pretty sick, are you?" he inquired.

"Yes-very sick," gasped the dying man.
"That's too bad. Doctor gave you no "No-he says-I must go," "Um-hate to see you go," remarked
