CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. IX.

TORONTO, CANADA, SEPTEMBER 30, 1903

No. 35

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co. of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman - Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman - A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

TIMBER LIMIT FOR SALE

ONE HUNDRED AND FIFTY MILLION feet of good sound healthy timber. About 10 million white pine, 80 million cedar, balance hemlock. For particulars apply to P. J. GALLAGHER, Rossbery, B. C.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber business has felt the impetus of fine weather, and September closes with a very satisfactory volume of trade to its credit. The incoming month is expected to develop an increase in retail orders, as many yards are thought to be carrying light stocks. While higher prices for lumber are not anticipated, the opinion is becoming more general that there is not likely to be any material decline. It is not unusual to meet a person who predicts an early break in prices, but it is difficult to point to one manufacturer who is shading quotations. One of the strongest factors in the situation is the very light stock of unsold lumber in the mill yards. Even a moderate demand during the next six months will leave the supply of dry stock comparatively limited, and the mills will resume operations next spring under favorable conditions. Building operations throughout the province are active for this season of the year. The number of permits taken out in the city of Toronto this fall would almost indicate a boom, but it is safe to say that, with favorable labor conditions, the activity next year will be no less pronounced. The demand for houses is in excess of the supply, showing that the building movement is based on a sound foundation. The furniture and implement factories continue to be large buyers of hardwood lumber. The seller invariably makes the price, and if his lumber is of the quality required by the prospective purchaser, a deal usually results. Shingles seem to be in a less satisfactory condition. From some districts the report is heard that prices are a trifle easier and the demand none too brisk.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber has seldom been in a stronger position than it is to-day. Many

mills in Quebec and New Brunswick will be compelled to shut down at an early date on account of log shortage, and as the bulk of the lumber manufactured this season has already been placed under contract there is little danger of a decline in prices. The New York market is taking large quantities of lumber and lath. The high price of \$14.50 per thousand was recently paid for medium-sized spruce logs. This figure will compel the manufacturer to obtain a fancy price for his lumber in order to make a profit on the transaction. The manufacturers of pulp have this year been keen competitors in the log market and have no doubt been responsible for forcing prices to a higher basis than seems actually warranted by the demand for either pulp or lumber.

There is a little more life to the shingle market, but prices are not improved. Very few sales of extras for Boston delivery have been made at \$3.50, and it is probably within the mark to say that the range of sales is from \$3.35 to \$3.45.

MANITOBA AND BRITISH COLUMBIA.

The lumber situation in Manitoba and the Territories is said to be a little easier. The United States manufacturers have resorted to price-cutting, which has unsettled the market. The demand, however, shows no falling off, but is expected to expand during the next month. The British Columbia mills are experiencing an active local trade, building operations in Vancouver and Victoria being on a large scale. Shingles are still a drug on the market. At a meeting of the manufacturers held last week it was decided to again commence sawing shingles for the Canadian market. The shut-down has relieved the situation to some extent, but the over-production is still apparent.

During the month of August 177 timber licenses were issued by the British Columbia Government, 45 of these being renewals. The business is evidently once more becoming active, after a period of depression.

UNITED STATES.

Fears regarding the failure of the wheat, corn and cotton crops have been dispelled, and business conditions have improved to that extent. The decline in the prices of iron and steel, however, is taken to indicate a falling off in the demand, and as these commodities are looked upon as a fair barometer of trade, it is predicted by some that the general business of the country will experience a gradual restriction. This is not yet in evidence in lumber circles. The demand is steady and prices on the whole have been well maintained. In some sections a reduction in the price of certain kinds of lumber has been made; in others a corresponding advance has taken place. The great activity which prevails throughout the box trade is one of the most favorable features. Throughout the

Eastern States the demand for boxes is as great as ever known in the past. The scarcity of box lumber has become acute and has done a great deal towards strengthening the entire list. The fact that the Standard Oil Company have recently bought box lumber quite heavily is regarded as an indication that that corporation do not anticipate lower prices in the near future. Norway pine is also comparatively scarce and is being replaced to some extent by hemlock and yellow pine. The upper grades of white pine are irregular in price, certain dealers carrying a fair stock having in isolated cases resorted to the policy of shading prices in order to close sales. For inch No. 1 cuts the price at Buffalo is about \$40. The hemlock market is steady at about the prices that have ruled for the past month. The hardwood industry is in a most satisfactory condition. Opinions seem to favor a brisk demand throughout the fall and winter months. It is predicted that before spring the price of oak will have advanced \$5 per thousand, notwithstanding that for some time past almost incredible prices have been received for quarter-sawed stock. Maple, basswood and elm are among the best sellers of the lower-priced woods.

GREAT BRITAIN.

So many conflicting opinions are expressed regarding the British lumber market that it is most difficult to arrive at a conclusion as to the existing conditions and future course of prices. Representatives of shippers do not appear to be offering stock at any concession, while importers show little willingness to buy on account of the disparity which exists between the prices asked by shippers and those which can be obtained from dealers and consumers. Baltic deals are said to be somewhat lower in price, and it would probably be a mistake to become too sanguine as to the maintenance of present prices. Should consignment cargoes arrive this fall in any quantity the effect upon values might be serious. The building trade is accountable in a large measure for the present accumulation of stock in the hands of dealers, unfavorable weather having greatly interfered with outdoor work. Third and fourth quality pine deals are reported to be slightly easier, but the better qualities continue firm. The quantity of spruce deals arriving at the British ports is comparatively small, which has done much to sustain the market. A cargo was recently sold for delivery on the west coast of England at a price which is described as an exceedingly good one.

Sellers are already sounding the market in respect to next year's prices, although no contracts are likely to be closed until the financial situation becomes improved, unless, of course, shippers should make

some tempting offers. This they are not likely to do in the immediate future, as we are told that they are talking of higher prices for next year.

STOCKS AND PRICES.

The steamer Sardhana is loading deals at Montreal for Australia.

The Rathbun Company have a drive of 90,000 logs nearing Deseronto. They were cut in McClintock township, Haliburton county.

W. McPherson, of Menominee, Mich., who bought two million feet of white pine in the Georgian Bay district, is having the stock shipped to Marinette, Wis.

The Standard Oil Company last week purchased three million feet of No. 2 and 3 10-inch pine lumber at Duluth. It is to be shipped east for box-making.

The schooner J. V. Taylor cleared from Menominee, Mich., on September 27th, with some 300,000 feet of lumber for Dresden, Ont., shipped by the Ludington Lumber Company. This is the first cargo of lumber ever shipped from Menominee to a Canadian port.

In the Saginaw valley 16-inch cedar shingles are quoted at \$2.25 to \$2.40, and 18-inch at \$2.25 and \$3.25. At Tonawanda white pine extra clears are selling at \$3.50, a decrease of 25 cents from the figures quoted one month ago.

The New Brunswick Government will offer for sale at Fredericton on October 7th three square miles of timber limits on the east branch of the Sabbies River and Salmon Brook, and two square miles at the head of Pleasant Brook, a branch of the Gaspereau River. The respective applicants are J. H. Barry and the King Lumber Company.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to September 29th as furnished by the Supervisor of Cutters:—

	1901	1902	1903
Waney White Pine.....	1,153,666	1,815,920	1,618,020
White Pine.....	538,995	383,600	390,720
Red Pine.....	89,701	71,600	56,520
Oak.....	485,801	618,680	835,020
Elm.....	947,372	561,880	417,880
Ash.....	135,108	79,920	57,200
Basswood.....	464	160
Butternut.....	944
Tamarac.....	193	40
Birch and Maple.....	307,039	164,800	196,760

The last circular of Messrs. Churchill & Sim, London, England, says: "The importation of both pine and spruce deals has been most moderate, and this has checked the tendency to weakness which was observable in this market in July. For pine there may be said to be no appreciable change in quotations during the month, but for spruce there has been some recovery in the demand, and prices have moved a point in advance. For all Canadian hardwoods and for white pine timber the London market has been almost at a stand-still, and prices have sagged accordingly.

Messrs. S. P. Musson, Son & Company, in their last report, refer to the lumber market as follows: "The only arrival to report is the 'Corona' from Shelburne, N.S., with about 82,000 feet of white pine. Of this we placed 15,000 feet of the deck load, almost all second quality, at \$24.30, and 17,000 feet of the balance of deck load, which was rather better, at \$25.07 as it run. Of the 50,000 feet under deck, we sold 30,000 feet at \$27.43 and the balance at \$27 as it run. There has been no arrival of spruce and the demand for crop requirements will soon set in; the high prices of white pine should enhance value of spruce, and we anticipate full rates later on, and think shippers can safely take chance of market. No further arrivals of shingles have taken place and stocks are light, but we understand that about 1,500,000 cedar laying have been placed to arrive at \$2.30.

The reports of the secretaries of the Mississippi valley and the Wisconsin valley associations for the month of August have recently been issued. For both sections they show a falling off in the volume of lumber business as compared with the same month of last year. The decrease is small, however, and does not wipe out the balance on the other side of the books, made by the shipments of the previous months of the year. The shipments of the Wisconsin valley manufacturers show a falling off as compared with the corresponding eight months of 1902, but the increase in the volume of trade of the Mississippi valley manufactures is great enough to give a net increase for the two sections combined. August was a trying month. In all of the territory where white pine finds its best customers, it was the month when business affairs were unsettled by the uncertainty as to the crops. The harvesting of the small grains was about over, but threshing had not been completed and the actual yield was not known.

THE BOSTON MARKET.

There continues to be an improved tone in the market for spruce lumber at Boston. Prices are not yet advanced, but there is more disposition to scrutinize schedules, and to refuse to bid on those at all difficult to fill. Logs on the Kennebec river are now selling at \$14.50 per 1000 feet for medium size spruce, in the booms, which is said to be the highest price ever paid on that river, although the big spruce of the Penobscot have sold at \$15 to \$17 at Bangor lately. Here the quotations on lumber are: Ten and 12 in dimensions, \$21.9 in. and under, \$19; 12 in. random lengths, 10 feet and up, \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, \$17 to \$17.50; all other random, 9 in. and under, 10 feet and up, \$18 to \$18.50; 5 in. and up, merchantable boards, \$17; matched boards, \$18.50 to \$20; out spruce boards, \$13 to \$14; bundle furring, \$17.

Hemlock lumber is steady and unchanged: Boards, 12, 14 and 16 feet stock, \$15; random eastern, \$13.50 to \$14.50; Pennsylvania, No. 1, \$18.50 to \$19.50; No. 2, \$15 to \$16.50.

Western pine lumber is very quiet, but prices are firmly held at full quotations: Uppers, 1 to 2 in. \$84 to \$87; 2 1/2 to 3 in. \$92 to \$97; 4 in. \$96 to \$100; select, 1-in. \$76; 1 1/2 to 1 3/4 in. \$76 to \$78; 2-in. \$78; 2 1/2 to 3 in. \$84; 4-in. \$86; fine common, 1-in. \$67; 1 1/2 to 1 3/4 in. \$69; 2-in. \$72; 2 1/2 to 3 in. \$80; 4-in. \$82; barn boards, \$23 to \$33; coffin boards, \$28 to \$32.

There is a moderate demand for hard woods, especially for finish work. Prices are steady and unchanged:

Quartered oak, \$75 to \$83; plain oak, \$42 to \$45; common and rejects, \$20 to \$25; red oak, plain, \$43; white-wood, \$51 to \$53; sap, \$43 to \$48; common, \$38 to \$45; brown ash, \$41 to \$44; white ash, \$43 to \$46; maple, \$33 to \$37; end dried white maple, \$40; birch, \$27 to \$30; birch, 75 per cent. red, \$45 to \$50; northern elm, \$29 to \$31; Michigan elm, \$34 to \$37.

Clapboards are steady and unchanged: Extra, \$45; clear, \$43; second clear, \$40; extra No. 1, \$30.

Shingles are steady and unchanged. Extra cedar, \$3.35 to \$3.45; clear, \$2.90 to \$3.10; second clear, \$2.25 to \$2.40; extra No. 1, \$1.50 to \$1.75.

Laths are firm with sales being made at full quotations: One and five-eighths in., \$3.30 to \$3.40; 1 1/2 in., \$3.15 to \$3.25.

FIRES.

The shingle mill at McArthur's Mill-
Ont., owned by John Mather and James Casselman, was burned a few days ago.

Fire at Lion's Head, Ont., on September 26th completely destroyed the saw mill of Pedwell & Company. The loss is \$7,000, but there is an insurance of \$2,000.

BUSINESS NOTES.

Miller & McPherson, sash and door manufacturers, Russell, Ont., have dissolved, W. C. Miller continuing.

A. Lajoie, general store and lumber, L'Asne Au Poin, Que., is announced to have assigned to V. E. Paradis.

L. H. Swan & Company have leased the docks at Tonawanda, N. Y., formerly used by the defunct Muskoka Lumber Company.

McLeod & Atkinson, general store and lumber, Kouchibouguac, N.B., are said to be offering to compromise at 33 1/4 cents on the dollar.

The Buffalo Box Factory has been incorporated at Buffalo, N. Y., with a capital stock of \$125,000. The directors are James Fenton, S. E. Scroll, H. F. Sickler, J. B. Fenton and R. L. Newell.

The Canada Lumberman TORONTO, ONT.

SHIPPING MATTERS.

The steamer Laura has been fixed to load deals at Halifax, N. S., for the west coast of England at 35 shillings, and the schooner Canada has been chartered to carry lumber from St. John to Grenada. The steamer Ida sailed from Halifax last week for Cardiff, with deals.

The announcement comes from Montreal that the Canadian Railways will on October 1st make an advance of 20 cents per thousand feet on seasoned soft wood lumber destined for New York by rail and water over the barge route on the Hudson river.

There has been a rise in freight rates during the past month. The demand for vessels does not seem to have increased but owners are evidently greatly dissatisfied with the returns which have been received during the past season, and it is not improbable that a further advance in rates will take place.

TIMBER LIMIT TRANSACTIONS.

The timber areas in the vicinity of Botwoodville, Nfld., owned by C. T. Hillson,

of Amherst, N. S., are reported to have been sold to Baker & Company, of Boston, for \$250,000.

The British American Land Company, of Sherbrooke, Que., are offering for sale 1,792 acres of timber lands in the township of Dudswell and 1,400 acres in the township of Stoke.

A syndicate of American capitalists has purchased about 300 square miles of timber land on Bay de Chaleur and is building a large saw mill at Restigouche, Que. The American stockholders include F. S. Farr, of Minneapolis; W. A. Taft and Frank J. Saxe, of New York city, and James E. Marrett, of Portland, Me.

We are in the Market for:—

Rock Maple logs and planks
 Rock Elm Logs
 White Birch Logs
 White Oak Logs
