DOUGHTY TO RUN AS TEMPERANCE CANDIDATE

He Thinks Riverdale Conservatives Will Bring Out a Straight Party Candidate, But Says He Will Run on the Temperance Ticket if They Do.

C. J. Doughty came out in a flat-footed statement last evening, to the effect that he had not agreed to support Mr. Rowell. The public had misinterpreted his action in thinking that, and the inference to be gained from certain newspapers was not fair. He did not wish to discuss the affair at all, claiming that a full explanation was on the way, but fired up at the end to say that he had not agreed to support Rowell, altho, as far as the temperance end of his statement was concerned, it was correct.

What action the Ward One Association will take has not yet been decided. Late last evening D. J. LeRoy, one of the prominent workers, stated that nothing would be done until the executive met tonight in the Oddfellows' Hall. At that meeting the whole situation would be discussed and a decision made as to proper action.

Says He's a Liberal. He said in addition that since Doughty had adopted the platform which made temperance an issue in the present campaign, the man who stood behind it was a Liberal and not a Conservative.

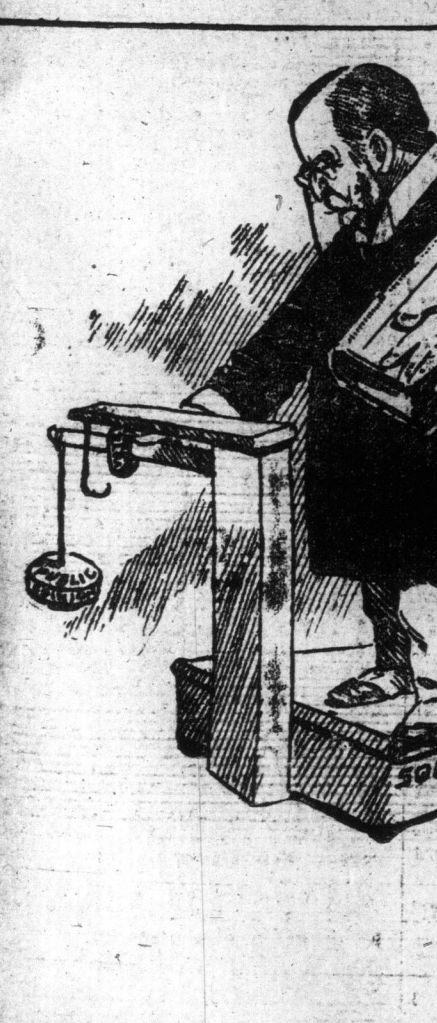

In the meantime, as far as the Liberal organization is concerned, matters are at a standstill. The convention called for Thursday evening has been postponed, and serious consideration will be given before the executive makes an announcement. Not only is the action of Doughty to be met, but the fact that at least two Liberals are out strong for nomination is also to be reckoned with.

Will Run Anyway. In a statement yesterday, Mr. Doughty took the ground that, altho he was a Conservative, he would not be deterred to run on temperance by that party. He included with this, tax reform, woman suffrage and labor matters. He was not pledging himself to Mr. Rowell, for he would go farther in abolition than he. He felt that the Conservatives would bring out a straight party man, but even so, he would run on a temperance ticket. His attitude was one of not caring what party he offended, but of maintaining a firm stand for temperance when appearing before the people.

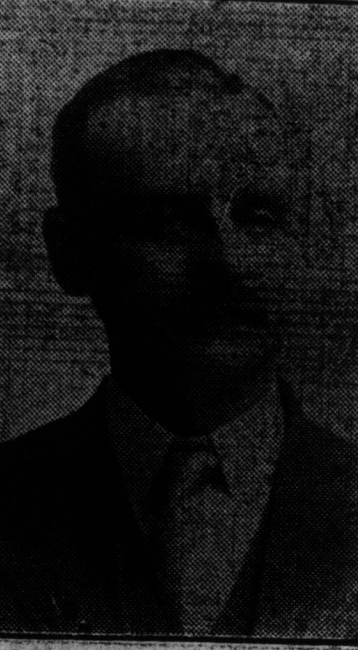

U.S. REVENUE CUTTER TO RESCUE KARLUK PARTY

Canadian Press Despatch. WASHINGTON, June 9.—The American revenue cutter Bear has been ordered to proceed from St. Michael's, Alaska, to Wrangel Island for the purpose of rescuing fifteen members of the crew of the Canadian steamer Karluk of the Stefansson Arctic expedition, who are marooned on that island. Captain Bartlett of the Karluk is at St. Michael's and will accompany the Bear on its rescue expedition.

WEIGHING IN!

He Intends to Run

Conservative Association. He expects the Riverdale Conservatives to choose another candidate after his announcement of the Rowell "abolish the bar" platform, but says if they do he will run on the temperance ticket.

ALL NATIONALISTS TAKING UP ARMS

Irish Volunteer Movement Spreading Like Prairie Fire is Statement of Redmond.

Canadian Press Despatch. DUBLIN, June 9.—John E. Redmond, leader of the Irish Nationalists, issued a statement tonight in which he emphatically denies the reports that the Irish volunteer movement is hostile to the objects of the Irish party and adds: "Up to two months ago I felt that the volunteer movement was somewhat premature, but the effect of Sir Edward Carson's threats upon public opinion in England, the house of commons and the government and the occurrence at Curragh Camp, and successful gun running in Ulster, virtually altered this position and the Irish party took steps about six weeks ago to inform their friends and supporters that in their opinion it was desirable to support the volunteer movement. As a result it has spread within the last six weeks like a prairie fire and all the Nationalists in Ireland shortly will be enrolled."

PROROGATION OF HOUSE LIKELY TO BE DELAYED

By a Staff Reporter. OTTAWA, June 9.—It is possible after all prorogation may not take place this week. A compromise regarding redistribution will be effected and that the bill will be introduced this session. The feeling is that after spending so much time on the question, and having settled every constituency, except two, namely, Russell and Richmond, it is a pity to have all their efforts go for naught. But, even if the redistribution bill is not introduced this session prorogation is not expected before Saturday.

CHURCH UNION NEGOTIATIONS UPHELD BY LARGE MAJORITY REV. DR. GRANT URGED DELAY

Final Decision Will Rest With Presbyterian Congregations by Terms of Resolution Adopted After Defeat of Minority Report—Discussion Was Acrimonious at Times.

By a Staff Reporter. WOODSTOCK, June 9.—By a vote of 285 to 109 a majority of the Presbyterian general assembly this afternoon adopted a resolution in favor of continuing for two more years negotiations with the Methodist and Congregational churches in the cause of church union. The motion embodied a request that the Methodists reappoint their union committee which was dissolved last year and demand a vote of the congregations. The minority report, which asked that the matter be shelved was defeated on a vote of 297 against 117 for. Another amendment, moved by Dr. McQueen of Edmonton, along substantially the same lines as the minority report, was defeated by a vote of 278 against, 114 for. Dr. A. S. Grant did not vote.

The discussion on the church union question was opened this morning by Dr. E. Scott of Montreal, who presented the minority report. He reviewed the history of the fight for union since it commenced twelve years ago. "We cannot see at the present time that organic union is right," he said. Alleges Official Influence. Rev. W. G. Brown of Red Deer renewed the fight in the afternoon by seconding the minority report. "If you want to unite the churches you will have to hold up the challenge of God because you will never be able to unite the churches on any intellectual basis," he said. "I believe that there will be a realignment of Christian work, but I do not believe it will come along the lines of church union."

He charged that the union committee was dominated by the higher officials of the church, and appealed to the rank and file of the church to defeat union and "stop the turmoil and confusion for the glory of the Presbyterian Church." "Adopt this easy way out and we will sing the doxology as we never sang it before," said Dr. Scott when (Continued on Page 5, Column 2.)

FEAR RIOT AT WESTMINSTER

Suffragettes Will Make Another Attempt Today to See Premier Asquith.

Canadian Press Despatch. LONDON, June 9.—King George and Queen Mary were able to enjoy the brilliant state ball at Buckingham Palace tonight as there was no interruption by suffragettes, thanks to the rigorous police precautions which had been taken.

There is every prospect, however, of a renewal of the oft-repeated scenes at Westminster tomorrow when Sylvia Pankhurst and other militant leaders will march with a bodyguard of their supporters to demand an interview with Premier Asquith. A great force of police has been detailed to keep order.

The general public no longer views the suffragette activities with its former tolerance and good humor, and the presence of the police is needed to protect the suffragettes themselves from the anger of the crowd. This was witnessed on two occasions in the City of London today when women selling the militant organ, "Suffragette," were hustled and mobbed and were finally obliged to escape in taxicabs.

WHERE WILL THEY SWIM?

Several thousand boys and girls in Parkdale and the York Loan district are without a swimming place since the "improvements" were made at Sunnyside. The old bathing houses have disappeared, it is against the law to cross the railway tracks to get to the water, and the young people of the west end evidently will have to go some place else to bathe unless the city provides a place at Sunnyside.

THE FARMERS' BANK EPISODE

The defeat of the Farmers' Bank relief bill in the senate has been the sensation of the season; and the outstanding feature in that defeat is the fact that ten government supporters led off in voting against the proposed relief, headed by an ex-Conservative prime minister—Sir Mackenzie Bowell—and including four members of the senate recently appointed to that body by the Borden government. While Liberals and their press are making a charge that the government were guilty of duplicity in that they passed the bill in the commons and asked a number of their supporters in the senate to defeat it, there is no direct evidence of any such thing being the case; but that the Conservative senators defeated the bill goes without questioning. It therefore, Sir Wilfrid Laurier is responsible for the defeat of the relief bill because his friends in the senate voted against it. It can be equally claimed that the Borden government is responsible for the defeat of the Farmers' Bank relief bill because ten of their supporters voted against it; in other words, the Conservative party had plenty of votes in the senate to carry the bill if they had seen fit to use them.

Perhaps the result would have been somewhat different had the Conservative leader in the senate succeeded in inducing the Liberals to vote first; but as this was contrary to the practice of that chamber, and as the Liberals were more than wary, the Conservatives were forced to vote first, and if there was any order out to defeat the measure, they had to vote quick and sure against it. In other words, they did, leaving it open for the Liberals, once they saw the bill substantially slaughtered, to turn in some of their votes in favor of the measure and still have it beaten. Politics is this kind of a game, and apparently the "old gentlemen" were very wise to the game and how to play the cards.

In a moment the senatorial vote is rehabilitated. Liberals denounced it in the first days of the Laurier administration as Conservative denouement a year ago, but now Liberal and Conservative senators united in branding the "excesses" of the chamber representing the people. In this respect, the senate's disavowal of the vote is the same and sound business of the state against the rapacity of the "mob." Ever after neither party can assail the senate and thus a big lot of Conservative campaign ammunition is "cut off."

Politicians are asking what effect all this will have upon the coming government supporter in the House who faithfully followed the government. Will he justify or unjustly get the impression that he is being double crossed? To protest even deeper into the matter, the senate's disavowal of the vote upon the heads of the members of the cabinet not in the remotest circle: in what condition does the vote in the senate?

The bill in the senate shows that ten Conservative senators voted to kill the bill, including Senators Cory, Laurier and Murphy, who were but recently appointed by the present government. The argument will, of course, be made, however unjustly, that duplicity was practiced by the powers that be, and that the bill from the House was never mere stage play. As matters have turned out, it would have been better for the government to have done nothing at all.

CRUSADE TO ABOLISH THE BAR HAS APPROVAL OF ASSEMBLY ACTIVE SUPPORT IS PLEDGED

John G. Kent

Presbyterians Are Asked to "Set Principle Before Party" in Elections in Ontario — Non-Suppression of Race Track Gambling is Deplored.

By a Staff Reporter. WOODSTOCK, Ont., June 9.—The following recommendations contained in the supplementary report of the committee of social service and evangelism were passed at the conclusion of tonight's session of the Presbyterian assembly.

The assembly instruct the board and its officers to co-operate with others in pressing for the complete suppression at the earliest possible date throughout Canada of the traffic in intoxicating beverages. Commend the social service council of Canada for the institution of a campaign of education and total abstinence in the coming winter in which the Rev. J. Patterson of Belfast is to take a leading part.

Instruct the board to endeavor to secure new activity on the part of the Dominion council of the Dominion alliance, and if it should be found necessary to co-operate with sister bodies in forming a new organization which will aggressively lead in efforts for the securing of Dominion-wide prohibition.

That the assembly express their gratification at the rapid advancement in temperance sentiment as shown by the present position of the question and urge all ministers and congregations throughout the Dominion to set principle before party and to vote by vote and influence in the support of this movement for the immediate abolition of the open bar.

Government Criticized. The assembly deeply regret that the Dominion government has not introduced in parliament, as urged by all the churches and the organized labor and agricultural forces in Canada, the

C.N.R. BILL GIVEN THIRD READING IN SENATE

Thirteen Liberals Aided Passage of Bond Guarantee Measure and Only One Conservative Was Vigorous in Denouncing Legislation.

By a Staff Reporter. OTTAWA, June 9.—The bill to give effect to the agreement which was entered into between the government and the C. N. R., whereby the government will guarantee the bond issue of that railway, which is necessary to raise funds to complete the system, and in return for which the government receives a forty-million dollar interest in the Mackenzie and Mann hundred million dollar enterprise, passed the senate today. The bill was given its third reading by a vote of 58 to 20. The majority was not so great as that by which it gave a second reading, it being then 41 to 7, and probably this is accounted for by the fact that Senator Choquette made a violent speech in condemnation of those Liberals who had voted with the government.

Thirteen Liberals voted in favor of the bill on third reading. They were Senators Borden (Liberal leader), Mitchell, David, Ross, of Moose Jaw; Murray, Frost, Thibaudeau, Edwards, Derbyshire, DeGhen, Young, Watson and Talbot. All the Conservative senators voted in favor of the measure except Senator Montplaisir. He is one of the "oldest members" of the upper house, having been appointed to the senate in 1881 by Sir John Macdonald.

Four Liberals who voted for the bill on the second reading, but voted against it on the third reading, were Senators Fleet, Beth, Desautels and Raitz. The analysis of the vote, therefore, in that 13 Liberals and 20 Conservatives voted for the bill on third reading, with 11 Liberals and one Conservative voting against it.

In the above estimate, Sir Lyman Melvin-Jones is counted as a Conservative. He has voted with the government.

STRAW HAT TIME

The fact that the Dineson Company have the most complete assortment of imported Straw Hats for men in Canada is sufficiently proved by the enormous increase there has been in their business this season over the business of former years.

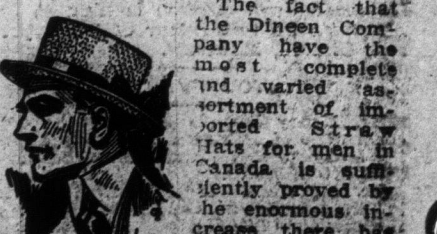

Of course Toronto is growing, and all successful businesses show an increase. But the hat business has been subjected to more competition and wider claims from retail hatmakers than ever in the history of the trade. Nevertheless the Dineson business has grown on all sides. They supply hats to customers they never had the pleasure of selling to before, and as well as those they have all their own old customers, who would never go to any other place for their hats. ST. ANDREW'S MISSION BECOMES A PARISH

That the Anglican mission of St. Andrew's has been raised to the dignity of parish by the lord bishop was announced to the congregation at the evening service, and Rev. R. Bryant, who has been in charge for three years, has been made rector. The church has been in contemplation for some time, as it had been felt that the elevation to the rank of a parish was necessary in consideration of the growth of the Anglican Church in that section. Rev. Mr. Bryant is a native of London, England, where he received his early education in the St. Mary Magdalene School, and he was also rector of the late Dr. Temple West and Dr. Richard Redhead. Later he attended King's College, London, and also Queen's College, St. John's, Newfoundland. He was ordained by the Bishop of Newfoundland, and labored for several years under the personal direction of the bishop, and he was also engaged in S. P. G. missionary work for some time. Before coming to St. Andrew's he was rector of St. Cyprian's Church, Montreal.

Peter's Adventures in Matrimony

By Leona Dalrymple
Author of the new novel, "Dance of the Green Van," awarded a prize of \$10,000 by the "New York Times" and "McClure" as judge.

The truth about "the girl in the hat" distinguishes this story from any other. Her character studies will not appear unfamiliar to the majority of readers, who will follow the fortunes of "Peter" with interest.

No. 92.
A Bane of Bundles.

Of course, I heartily appreciate the spirit in which Mary's people and mine shower us with gifts. But I must say I don't enjoy carrying bundles home every night of my life. Sometimes it's a loaf of bread, freshly baked, and, rather than hurt mother's feelings by rejecting it, I trot dutifully homeward with the loaf under my arm. Once Mary's mother sends me a basket of peaches, and once a watermelon, some of which conduce to the dignity of locomotion.

A few days ago a friend of Mr. Penfield's gave him a crate of Florida oranges, and, with his usual kindness, he telephoned me as soon as he got them.

When the Bag Burst.
"Stop at the house, Peter," he said, "and I'll give you the bag to take home. You'll like them. They're sweet and awfully good eating."

The bag was full of home-grown oranges. I struggled through, bowing and humping because my hands were so full I couldn't raise my hat to the women in the car. All at once the car lurched violently around a corner and I tumbled. Whether or not the bottom of the bag was forced open, I don't know, but by some heaven-forsaken fatality the bottom promptly left the bag, and the oranges began to roll wildly about in all directions.

Swearing inwardly, I watched them as they rolled about, and up the aisle and into front seats. Everybody looked at me with a mixture of surprise and pity. I ventured a sickly smile, though I had never before begun to return the oranges.

"Here's three," he waited a moment, then he said, "Wait a minute, Peter. If you haven't any more room in your pockets I'll put them in your hat."

"Well, Peter," he said good-naturedly, after he had laid his fruit crate one by one on my porch, "that was a mess for fair, wasn't it? You didn't look as if you were enjoying it. If you hadn't had so many other bundles, though, you'd have been all right. Keep your pretty busy carrying things back and forth, don't they? No wonder the fellows call you 'The Camel.'"

The Camel! I strode into the house in a towering rage.
"Mary," I burst forth indignantly, unloading oranges rapidly from my pockets, whence they proceeded to roll about the floor, "do you realize that I am the laughing stock of the universe? Do you realize that people call me 'The Camel' because I'm always the best of burdens from your house and mine out in the car tonight? Call your father up and tell him I'll carry up no more bundles home. I'll call up mother later."

I rebelled, but I still carry bundles. And they still call me "The Camel!"

MERMAIDS

By Michelson

It doesn't do to be too sure that there are no such creatures as mermaids. You may have a private opinion of certain men who claim to have seen them—generally near the equator, where the water is ladylike—but reserve your judgment. Something startling may happen to YOU. In fact, there are circumstances under which it is extremely difficult to say, offhand, whether certain creatures are mermaids or not.

You may be tremendously embarrassed and may have to beat a retreat before acquiring the knowledge that would fit you to make a cold, hard, scientific report.

Many a good man has been ducked, and many a foolish investigator, who wanted to settle this mermaid question, has regretted his rashness. When in doubt, RUN.

Day-a-Week Vacations

By LUCREZIA BORI
Prima Donna of the Metropolitan Opera Company, New York.

Special arrangements have been made with Senorita Lucrezia Bori, the famous prima donna-soprano, who has created a wonderful impression in Europe and New York on account of her remarkable beauty and artistic attainment, to write for this paper a series of articles on beauty. There is probably no authority her equal in giving the newest and most approved methods of attaining and preserving "the divine right of woman."

HOW is it possible for a woman with a growing family of children and a husband who is overworked earning money to support us to get away for the beauty vacation you write about? Leaving out the beauty, which I have long ceased to think about, won't you tell me how to get a vacation at all?

This is part of a letter sent to me. It will take me out of the straight line of beauty discourse to answer the laughing stock of the universe, but a bit to the happiness of every woman, and happiness is the greatest of all beautifiers.

Will you permit me to say that, in my opinion, Americans are too serious? They work too hard and they don't know how to play. When one has a large and growing family, for which the father has to earn money outside the home and the mother has to care for inside the home, then is the very time when the spirit of play should be cultivated. No woman in the world need a vacation so much as the busy mothers. They need it as much for the good of the family as for themselves.

Vacation does not necessarily mean travel into a far land, there to do nothing but loaf and change your clothes.

It means taking a play-spell. Rest means simply a change of action. "Vacations may be gained by letting go the reins of routine, if only for a day."

Advice to Girls

By ANNIE LAURIE

Dear Annie Laurie:
Every Sunday night when we girls go walking, two special boys follow us on the streets. We do not like them, but they insist on going with us. Would you go with them? We are both 16 years of age, and are high school students.

Do you think it proper for girls of 16 to get married?
I wonder if you girls really think I think what you say you think, when you write letters.

If you two girls do not like those two boys, keep away from where they are. Why should you go with them? Now, girls, you know well enough that you're only pretending about those boys; if you didn't want to see them you'd choose some other time besides the very hour they're sure to be out on that special street for your special walk.

Stay in the house a few evenings; you won't die or fade away like withered leaves or do anything else tragic and terrible, and what are your mothers doing that you think of marriage at 16?

Keep your brains for your studies. Don't fritter them away on a lot of silly nonsense about the boys. There's plenty of time for that later on.

Miss Laurie will welcome letters of inquiry on subjects of feminine interest from young women readers of this paper and will reply to them in these columns. They should be addressed to her, care this office.

"What of Phoebus?" she asked. "He is dead," answered the priest. "Then why talk to me of living?" was her reply.

Emeralda stood in the shadow of the gallows. The priest begged her to repent. "Repent, demon, or I'll denounce you," was her final answer.

The executioner made ready for his deed. Above and beyond his head Emeralda saw Phoebus, the man she loved. They had all died! She called to him and he turned away with a shrug of indifference and she fell senseless to the ground.

Emeralda met Capt. Phoebus in his letter. He had been in the city for twenty years and was a captain. He had been in the city for twenty years and was a captain. He had been in the city for twenty years and was a captain.

Secrets of Health and Happiness

How to Save and Improve Your Children's Eyesight

By DR. LEONARD KEENE HIRSBERG
A. B. M. A., M. D. (Johns Hopkins)

A YOUNGSTER'S eyes should receive attention the very minute it is born. This is because there is always a chance that they may harbor a few germs of the terrible disease known as ophthalmia neonatorum.

In adults, though they often make a lot of trouble, they seldom invade the eye, but in new-born babies this organ is their favorite abiding place.

In two days, or maybe three days, the baby's eyes grow red and begin to discharge a creamy pus. The upper lids swell and fall over the lower ones. By and by the infection extends to the eyeball and the child's sight is permanently impaired, if not entirely destroyed. A generation ago nearly half of the blind people in the world had lost their sight in this way in infancy.

Today it is possible to cure ophthalmia neonatorum before it has fairly set in. The method is very simple and consists solely of dropping two drops of a 1 per cent. watery solution of silver nitrate into each eye of the new born child. The silver nitrate is a powerful antiseptic, and it kills the germs instantly. In fact it is utterly harmless to the eye. This should be done immediately after the child is born.

Washing the Eyes.
The child's eyes need constant attention for several weeks after birth, but the services of a physician are not necessary. Perfect cleanliness is the end to be attained, and frequent washing is the means to that end. Instead of plain water, it is best to use a solution made by dropping a teaspoonful of boric acid (not common kitchen borax) into a cupful of water that has been boiled and then permitted to cool till lukewarm.

Before washing your baby's eyes cleanse your hands thoroughly with soap and warm water, and after that dip them in a basin containing a 5 per cent. solution of hydrogen in half a pint of water. Then tear off a bit of sterilized absorbent cotton, dip it into the boric acid solution and tenderly mop the baby's eyelids. Never touch a child's eyes with a rag. In the nursery, indeed, absorbent cotton should be used instead of towel and rags whenever it is possible.

In early infancy an infant's eyes are exposed to the twin dangers of neglect and codding. See to it that neither direct sunlight nor strong artificial light shines into your baby's eyes, and that he sleeps, but do not make the mistake of shading it too much. The eyes of all our children should be kept open and alert, and should be trained to bear the burden of exploring the world, the stars upon its eyes begin to grow serious. If it is of any use in your mind it will tackle the English alphabet and try to read an essay to master the art of reading. This spirit always pleases parents vastly, but it is well to discourage it, child and parent alike, can derive nothing but harm from

They Should be Exercising Their Lungs and Legs in the Parks.
Experienced persons to deal with the human eye. In ordinary cases the remedy is to wash the eyes with a solution of boric acid. The patient should be kept in a darkened room until the pain ceases.

Get Needed Glasses.
I sometimes believe that the kindergarten grows restless or sluggish in every city and town are the greatest of all enemies of Young America. They drag into the stuffy classroom youngsters who should be exercising their lungs and legs in the parks, and they put into practice questionable theories of education. Condensed to a mere subject for this sort of pedagogical vivisection, it is no wonder that many a child grows restless or sluggish in every city and town are the greatest of all enemies of Young America.

What "Sniffing" Is.
When dust irritates the eye, or some powerful mental impression stimulates the tear-making glands, tears flow in extraordinary quantity and the eyeballs are suffused. They come so fast, in fact, that the nasal ducts can't carry them all off, and they run down the cheeks. But, all the same, the ducts to their waste run down the nasal ducts to the nose.

Answers to Health Questions.
J. K. S.—My neck is of a brown color. Why is this? My face is pale and I'm thin.
S. G. S.—Can you increase the height by stretching the spine? What will build a thin person up?

Evidently you lead too quiet and too much of an indoor life. Your face should be brightened by getting out into the open air. Learn to swim, row, swim, fish, sail, dance, play tennis, sleep out of doors, if possible, gobble up as much meat and eggs, milk and cream, butter and green vegetables as you can. For your brown skin use borax water and tincture of green soap.

If you mean exercises, such as stretching by physical culture, trapeze performing, swimming, rowing, bicycle riding and the like, you must succeed a bit in adding to your height.

Fresh air, life in the open, rich, nutritious food, such as wheat, lettuce, vegetables, cream, carrots, asparagus, berries, eggs, meats, with lots of sleep.

The assembly declared that all offences against the honesty of the ballot should be put into the hands of an independent public prosecutor, and in case of conviction should be impartially and severely punished; that all receipts and expenditures of candidates and party executives should be published in all elections for dominion or provincial parliaments should be published; and that the whole system of party patronage in letting of contracts and making appointments to office should be abolished.

PRICE OF RAILS ADVANCES IN LONDON

LONDON, June 9.—Money was quiet and discount rates were easy today. The Bank of England secured most of the \$4,000,000 new gold offered in the open market.

Although the general settlement commenced on the stock exchange, business for the railway equipment shares, and prices again advanced, especially in foreign and home rails, with underground rails the feature. Oil shares and Krafts were active and advanced, and the whole market closed more content than for some days past.

American securities opened quiet and unchanged. Light covering advanced the leaders during the forenoon and later the entire list improved on New York buying. The closing was steady.

STOCKS SCARCE ON WALL STREET

NEW YORK, June 9.—The early rise was carried further during the morning, although the average gain was not great. The market was filled with reports that the decision in the freight rates case would be announced this week, and much of the buying, particularly for railway equipment shares, was based on this expectation. Scarcity of stocks was evident from the ease with which prices were advanced, despite the unusual volume of gold exports, which ordinarily might handicap bullish efforts. Purchasing orders came in from out of town points, with a good demand for the market. Bonds were steady.

Yacht Shamrock IV. First Trial Spin Athletic Olympic Definition Of An Amateur

SHAMROCK SLOW IN LIGHT BREEZE

New Challenger for America Cup Has First Trial Test With Old Boat.

SOUTHAMPTON, Eng., June 9.—The first actual racing test between Shamrock IV, Sir Thomas Lipton's new challenger for the America's Cup, and his older Shamrock, took place today over a 26-mile course. Shamrock IV finished ahead of the older boat, but the difference by no means represented the full measure of the challenger's superiority.

While the wind held true, favoring both yachts equally, Shamrock IV proved much the speedier craft, but nearing the finish, when she had a long lead, the wind almost deserted her, while the older boat, still holding a good breeze, rapidly closed the gap.

The course was from Hythe to Warner Lightship and return. At the start a light southeasterly breeze was blowing. It was a test to the lightship and thenceward work Shamrock IV showed marked superiority over her rival, rounding the lightship with a lead of nine minutes and forty seconds.

The return journey involved both running and reaching, and in each of which the challenger continued to increase her lead, while holding a good wind, although the gain was not so great as in the windward work. At one period of the race, in covering a four mile stretch with spinnaker set, the challenger gained nearly five minutes.

According to American measurements Shamrock IV gives the older Shamrock an allowance of four minutes and 23 seconds over a thirty mile course.

Fifteen Mile Race Motordrome Tonight

The races at the Motordrome tonight should provide another batch of thrills. The feature event will be the fifteen mile free-for-all, in which seven starters will fight it out. Carlake is favored for the long distance event, but Leonard and B. Barclay have the machines running well these days and the chances are a stiff battle. One of the others who may also break away is Jim Gardner. Given a nice warm night a good crowd should be on hand.

G. GOULDING WALKS FAST THREE MILES

Large Crowd See Interesting Contests at Central's Twilight Meet at Varsity.

The warm weather drew a large crowd of Central athletes to Varsity Stadium last night for Central's closed twilight meet. The first event was the three-mile walk with six starters. George Goulding was on scratch and walked a remarkable three miles, catching the last man with a mile to go. He seemed to revel in the hot weather and finished the three miles in 21:46, just eleven seconds behind his Canadian record, and if the Broadview track is in good shape on the 15th he should set up a new mark for the mile at the big three twilight meet.

The 300 yards was the popular event of the night with thirty entries. The final was run off in three heats. The final was a great race with Jack Tresidder on scratch and Harry Cook, his closest competitor, ten yards away. Cook got away to a good start, and at the two-twenty mark was right in the thick of the fray. Tresidder got into a pocket at the one hundred yard mark, and had to swing away out and into the coming strong wind. He was not able to catch Fred Welch who, with twenty-six yards, nested long enough to win by a yard. Harry Cook was third a couple of feet back. Tresidder's time was 32:4-4.

Sixteen pound shot had twelve entries and was won from scratch by Jim Gardner by 32 ft. 2 1/2 inches. The following is the summary:

300 yards dash—First heat—1, J. Gardner, 4 yards; 2, K. C. Burness, 10 yards. Time 34.2.

Second heat—1, F. Welch, 26 yards; 2, J. Tresidder, 31 yards. Time 34.1.

Third heat—1, H. Cook, 3 yards; 2, H. Fice, 12 yards. Time 34.1.

Final—1, F. Welch, 2; J. Tresidder, 3; H. Cook, Time 32.4.

Three mile walk—1, G. Goulding, 21:46; 2, J. Freeman, 22:00; 3, Charles Kelly, 1:59. Goulding's time, 21:46.

Sixteen pound shot—1, J. Gardner, 32 ft. 2 1/2 in.

It looks as if the twilight meet to be held by the three Y.M.C.A.'s at the new athletic field on Thursday, June 18, would be the big event of the season. Entries have already started to come in, and the best athletes of Toronto will be entered. All entries should be sent to T. W. Stafford, West End Y.M.C.A., before Tuesday, June 16.

Jones performed well with the ball, taking five wickets for seven runs. Appended are the scores:

Poley, bowled Reynolds et al.	6

CLOSE FINISHES AT MOTORDROME

Leonard Takes Free-for-All With B. Barclay Second Carlake's Pursuit Race.

A very fair crowd saw the Motordrome speed artists at work last night and every one of the races provided a series of thrills. The feature event was the five-mile pursuit race, in which Princess Carlake again demonstrated his wonderful ability to fight out to a finish. Engine trouble very nearly killed his chances, with the result that he lost a lot of distance, but his persistent plunging pulled him thru, and in the sprint he slipped over the line a winner by two feet.

The five-mile McCaffery Sweepstakes was won by Leonard, with B. Barclay second. Carlake had to do the other boys outgeneraled him in the final dash for the tape. Art Spencer won the half-mile bicycle race, and this boy certainly making them all look small this season. Doc Morton grabbed second place in the half-mile bicycle race, and the old boy came thru once more for the benefit of the fans. The results:

First heat—1, Spencer; 2, Wright; 3, Gross. Time 1:00 1/2-1.

Second heat—1, McMillan; 2, Deacon; 3, Rogers. Time 1:03 1/2.

Third heat—1, Wilson; 2, Watson. Time 1:04.

Fourth heat—1, Brown; 2, Brady; 3, Morton. Time 1:03 1/2.

Final—1, Spencer; 2, Morton; 3, Watson. Time 1:00 1/2-1.

Five-mile McCaffery Sweepstakes—1, Leonard; 2, Barclay; 3, Harding. Time 5:04 1/2-5.

Don Barclay, Time 3:04 1/2-5.

Second heat—1, B. Barclay; 2, Harding; 3, Barbeau. Time 3:52 1/2-5.

Final—1, B. Barclay; 2, Barclay; 3, Carlake. Time 3:52.

Four-mile invitation race—1, Joslin; 2, Barclay; 3, Harding. Time 4:04 1/2-5.

Five-mile Australian pursuit race—Carlake won by a terrific run on end, beating out Bob Barclay by about two feet in four minutes and nineteen seconds. Leonard and Barclay were the other starters. Each contestant started four hundred and ten yards apart, and as soon as the start was given they were off like a half-raised spring, with Barclay and Leonard to poor starts, Leonard leading Carlake by about half a lap. Carlake set out for Barclay, but when almost overtaking him his engine began to miss and he lost considerable ground. He finally got going again and on the last lap he had thirty yards to catch up. He opened his machine up and came thru, winning by two feet at the tape.

OLYMPIC AMATEUR MAY MIX WITH PROS

That is, If His Governing Union Vouches for His Standing—The Definition.

LYONS, France, June 9.—The definition of an amateur has been agreed upon by a committee of the International Amateur Athletic Federation. It follows closely the definition as prepared in the report of the special committee submitted to the federation congress held at Berlin in 1913 and embraces the following rules:

1. An amateur is one who competes only for the love of sport.
2. Competing for money or any other pecuniary reward in any sport considered as an athletic sport makes the competitor a professional in all sports considered as athletic sports.
3. In the event of an amateur competing with or against a professional in any sport, not for money and other pecuniary reward, then the member of the federation, to which the athlete belongs, shall be the judge of such competitor's status, according to its own rules, and its certificate as to the competitor's status shall be accepted by all other members of the federation.
4. In track and field athletic sports anyone who knowingly competes with or against a professional, thereby ceases to be an amateur.
5. One who teaches, trains or coaches in any sport for money or other pecuniary consideration is a professional, except, however, that so far as competition in any country, and there only, is concerned, as employee or representative of the state or a school or other educational institutions, who teaches, trains or coaches as an incident to his main vocation or employment, may or may not be considered a professional, as the member of the federation of the country or such a person shall decide.

Twelve regulations are also set down as an interpretation of the fundamental principle of the definition of which an athlete ceases to become an amateur. They prohibit an amateur from making any agreement in connection with the competition, in which he is to participate, which prohibits him from accepting certain kinds of prizes, or from selling, pawning or giving away his prizes, and provide for the manner in which he is to receive expenses.

The committee, which has not yet completed its labors, is composed of Dr. E. B. Ryan, who replaced J. Runge, Germany, as president; Lauri Pitkanen, Finland; Francis Betchel, France; Captain W. W. Hart, South Africa; G. A. Scotland, England; and Alfred J. Lill, U. S.

AMATEUR BASEBALL

The Estonia senior team of the Don Valley League will practice Wednesday night in preparation for their game Saturday with St. Joseph's. The way the big store boys are traveling is making the heart of Manager Murray, who is a conspicuous figure on the coaching line every Saturday.

The management wishes all players to attend this practice, especially the juniors, as the Spalding League is all ways away, and they will have to get down to work if they wish to make a creditable showing.

All signed players of Orchard F.C. are requested to turn out for practice at Technical School grounds at 7 p.m. Thursday. A business meeting of the team will be held after the practice at 8:30 p.m. at 24 Bancroft avenue (late Hudson avenue).

Leafs Drop Second Game To Ganzel's Hustlers, 3-1

UNABLE TO HIT IN PUNCHES LEAFS ARE DOWNED AGAIN

Hustlers Got to Hearn Early and Herche Had Kelley's Safe in Every Innings But One.

John Ganzel was real short of good pitching material when the International League clubs swung into line for the 1914 season but he must have gathered together a fine crop since that time if they are all like the two leaf fans have looked over. Hoff had it on the Kelley boys on Monday, and yesterday Herche came within an ace of smearing the poor Leafs with white stuff that you see on the outside of barns. Herche pitched real ball right up to the ninth, and the final count was 3 to 1 in favor of the Leafs.

Bunny Hearn was opposed to the young Rochester heaver, and the big fellow found that it was indeed a very warm afternoon. The Ganzelites touched him quite a time trying to keep them scattered. Messenger again showed his worth for the enemy by riding on to the center field fence and springing round the four bases for a homer.

About the most cheerful instance of the whole afternoon for the regulars was the sudden hidden-ball trick that Fisher pulled on "Germany" Joe Shultz. Joe couldn't forget that he had been out in the afternoon, and gave the Rochester coach at the third corner an awful pawing.

Bunny called into trouble right at the start, and before the first round was over two men were checked up for the Hustlers. Messenger stepped into one, and he snapped him a base. Priest hit over second, and Pipp got on base on a beautiful play on it. The ball was high and the Leafs' second-sacker jumped high enough to knock it down, but he caught it off the right-field fence that scored two. Fast fielding by Kroy cut Pipp off at second.

A double play helped Hearn out of a tight spot in the second. McMillan poked one into left for a corner, and then Williams laid down a bunt and beat it out while Bunny was chasing it down the line. Herche fanned, but Messenger hit to Hearn and was out at first, and Tim caught McMillan at the plate with a quick return.

Fisher pulled the old hidden-ball trick on Shultz in the fourth, after he had singled and was trying to steal second. Shultz was madder than two wet hens. Messenger came thru with his hammer in the fifth, and the score was 3 to 0 for the Ganzel men.

It was a tight pull in the ninth again to keep the Hustlers from getting any selves into the run column. Barrows and Shultz singled, and then Pipp hit to Hearn and Barrows was nipped at the plate. Shultz and Pipp pulled off the double-strike. Kroy pulled down McMillan's high one after a run, and then Williams walked purposely. It was a wise move for Herche, he called to Pipp and Pipp was tagged on the line.

The Leafs' chances were not many, and Herche kept them pretty well in hand through the sixth. Herche pitched better than that. Fitz opened with a single, but he forced him at second, and Pipp did likewise to Fisher, and all hopes died. Jordan opened the ninth with a three-base "blow" to right, and Kelly sent him home with a double to the same territory. O'Hara rolled out, and Sullivan, batting for Kroy, got on free. Money Piate was sent up for an error, but he walked purposely. It was a wise move for Herche, he called to Pipp and Pipp was tagged on the line.

Those details do a lucrative business in New York. He has not suffered a defeat.

Old Honus Wagner Hits Them For Large Total

PHILADELPHIA, June 9.—Honus Wagner, the veteran shortstop of the Pittsburgh National League team, today made his three thousandth hit in seventeen years of major league baseball. BISHOP PRAISES WORK OF CHURCH

Anglican Synod Opens Annual Meeting Under Auspicious Circumstances.

ENCOURAGING REPORTS

Hon. S. H. Blake Would Concentrate Mission Energies Nearer Home.

Moral and social reform, religious instruction in public schools and church extension in missionary and local work, were the keynote of the charge by the Right Rev. J. A. Sweeney, Bishop of Toronto, to clergy and lay delegates to the synod of the diocese, which convened in annual meeting yesterday morning in St. James' Parish Hall, Church and Adelaide streets.

The meeting yesterday was one of the most enthusiastic in years. Both clergy and laymen entered with vim into discussions of reports and devotional exercises. The synod assembled at 10.30 and attended holy communion in St. James' Cathedral immediately.

The bishop's charge covered a number of subjects, most of which, aside from routine reports, advocated reform in the church and an increase in its scope in moral and social reform.

Among those referred to in the obituary were: Rev. John Creighton, Rev. Henry Scoble, Canon Sprague, Rev. John Frederic, Rev. C. W. Cumberland, and Rev. S. T. Church and the Right Rev. Charles Scadding.

The work of the Anglican Church among the Jews was discussed extensively and a broader scope urged. Chaplaincy in moral and social reform teaching in schools, a pastoral on family prayer, comment on the prayer book revision and general church extension comprised the essential points in the remainder of the charge.

The bishop nominated the following on the committee on the state of the church: Bishop Reeves, Archdeacons Coadj. Warren, Ingle, Revs. Cayley, Dixon, De Low, Dr. A. J. Campbell, Raikes, Gorran and Mortimer.

Considerable applause greeted Mr. Blake's letter on missions. He described in detail the efforts of the church in that direction and told of the work already accomplished. He declared, however, that the synod should realize the importance of concentrating its efforts in regions and upon people where the most benefit should be derived.

The report of the board of management of the S. C. C. was as follows: Receipts on apportionment for our Own Missions, \$150,464.80; receipts from the Diocese of Toronto, \$32,549.63.

The day's session adjourned at 5.30 p.m. and a prayer meeting was held in the cathedral at 8 last night. Today's session will begin with a prayer meeting in the cathedral at 9.30 this morning.

Quotations for Fat Butchers Stock Unchanged at Stock Yards. VALUES OF HOGS STEADY. Easier Feeling in Stockers and Feeders on Slackening Demand.

Receipts of live stock at the Union Stock Yards were 62 cars—599 cattle, 1,884 hogs, 504 sheep and lambs and 416 calves.

The demand for feeders and stockers was not as good as it has been, and prices were easier, as will be seen by sales given.

Choice butchers' steers by the head sold at \$22.50 to \$23.50; stock and heifers at \$18 to \$22.50; common steers, \$12.50 to \$17.50; good, \$17 to \$22.50; medium and common, \$12 to \$17.

Receipts were moderate, prices remained steady. Heavy receipts of northwest hogs caused the market to remain about steady.
