Earl of Derby Says Result of Next Few Days' Efforts and Gen. Joffre, with Gen. Pelfe. Will Decide Issue.

ONDON, Dec. 6.—(12.10 a.m.)—The recruiting scheme of the Earl of Derby, director of recruiting, has not been as successful as had been hoped for, said James Henry Thomas, Labor member of parliament, addressing a meeting of railway workers at Longeaton tonight. Mr. Thomas said he discussed the matter with the Earl of Derby Saturday, and that the earl had expressed the opinion that his plan had not been as successful as he had anticipated or had a right to expect. Therefore, the earl declared that the supreme effort must be made in the next few days by thos who valued their freedom and were opposed to conscription.

Herein in part lies the importance of the Bible and its revelations to supplement the

Rev. J. George Miller of St. Mary's, Ont, preached in the Cowan Avenue Presbyterian Church in the morning, and reminded his hearers that in this day of world conflict men who in days of peace had become somewhat indifferent to God's message are turning ferent to God's message, are turning to His word for light. Material proserity, social preferment and luxurious living have shown themselves to be but the husks of life. In the midst of the clamant voices of the world men long for the living voice of the eternal. In this gespel they find the deepest needs of the soul satisfied. This book is the record of man's experience of God. It reflects the thoughts and emotions of men in all lifes varied experiences. It is the wor.d's greatest storehouse of religious knowledge, and in every age man tinds reflected has own religious aspirations. Men his own religious aspirations. Men are making this discovery in these oars when the very foundations of life are being tested. The word of God is a living message with life-giving power. To have real fellowship with Ohrist is to have the mind of Christ, and to have the mind of Christ is to feel the obligation to share the message and bessings of the guspel to those who are without Service, uncose who are without. Service, unpret to our generation the meaning of God's love in Christ, where the spirit of Christ is, absolutism and kalserism are doomed. In the course of one of a series of sermons on the second coming of Christ, Rev. Dr. Griffith Thomas yesterdy pointed out that this coming would be thru the Bane as the revenue We were assured of the coming event were assured of the coming event of such transcendent importance, he wiged a more reverent and deeper strdy of its great truths. in St. Mark's Church, in the even as, R.y. W. L. Armitage urged the study of the Bible as the in piratier in practical life in all its bearings. To the Bible we must turn for the interpretation of the perpexing and overwheming events of the present time. The Bible speaks of cruelties and we see cractics in the world, but there cruelties are only proof of man's departure from God the source of love. departure from God, the source of love.
The prevalence of sin and its gruesome consequences are only a proof of the need of the Saviour revealed in Bible. For the mysteries of this tile and the still greater myteries of

that to come the Bible is the only key? At the North Parkdale Methodist

Church, Rev. Dr. Speer said that while he always preached from the Bible, it was well sometimes to preach about the Bible, and this day, now known as Bible Sunday, was a fitting time to take a fresh estimate of the word of God: "In making the statement "The Scriptures must be fulfilled," he said, "Jesus Christ unquestionably referred not only to the Scriptures but to Himself, and it was necessary to go on thru the ages until God's projects were completed. One of the outstanding marvels of the world was the Bible itself. Here it is—a book that has had more enemies than anything else in the world's history. And men who have professed to believe in God have been its bitterest enemies. But here it stands. About 40 different persons figured in writing this book, and from first to last about 1000 years was the span within which it was compiled. All classes contributed to it, from the accupants of pulpits, as one of them his thione. From the unlettered fisherman to the educated scribe, all kinds of mental types were represented. PRETENTIOUS PROGRAM

Features at Sunday Recruiting Meeting at Hippodrome Occupied Over Eight Hours.

An eight and a half rour program given under the auspices of the Sportsmen's Patriotic Fund at the Hippodrome yesterday, was a great success. The house was filled from 2 o'clock in the afternoon until 10.30 n the evening, and the collection taken at the doors by the soldiers was

very generous one.
R. H. Greer, on behalf of the S.P.F., presented Lieut.-Col. R. K. Barker of the 95th Battalion with a marked cheque for \$12000 during the evening performance "This cheque," said Mr. Freer. "is from us to your battalion for instruments and other necessaries for

Miss Bessie Bonsall, contralto, who was with Sousa for some time, made a very good impression. The Adanac Quaret proved as popular as ever. Hambourg, 'cello, gave several selections. Band music was furnished by the 95th Battalion brass band and fife band. Jule drum and fife band. Jules Brazil, entertainer, gave some very pleasing selections. Max Floishman, the boy violinist, and his young sister. Jennie Flieshman, took the house by storm by marvelous playing. A physical drill given by the 95th Battalion in gymuits was very entertaining. Several good moving pictures, lent by the Universal Film Company, kept the house in excellent humor.

APPEALS FOR FUNDS FOR BRITISH SAILORS

Bishop Sweeny Points Out Needs At British and Foreign Sailors' Society Meeting.

Appeals for funds to provide the Eritish tar with the comforts of home ife while he is ashore were made at cesterday afternoon's meeting of the Ertish and Foreign Sailors' Society, at which Bishop Sweeny delivered a seron, in connection with the collection in Canada of the royal navy comforts fond of \$100,000. Rev. W. T. Graham, who occupied the chair, outlined the nature of the work which was carried on for the sailors at Halifax, Victoria and all the other important ports in the British Empire. On account of war conditions more money was needed he declared, to make the men from men-of-war comfortable when they were making a stay on shore, with from 500 to 2500 men at Halifax each day during the last year. Cards were distributed which Dr. Graham requested the audience to send to their friends at the front. Three thousand of these were donated by Mr. and Mrs. F. R. Featherstone. Slips were distributed requesting con-tributions for the royal navy comfort

fund, and an appeal was made to make the realization of the total of \$100,000 possible.

Bishop Sweeny's sermon was on the text: "Do justly, love mercy and valk humbly with thy God." He said that the text dealt with the require. ments of God, and with the common-place life between man and man Men were subject to the law of perset all example and personal influence, the bishop stated. TEN DISTINCT PERIODS REPRESENTED IN SONG

Costumed Concert for Mother's Pension Delights Audience at Technical School.

MANY UNIQUE FEATURES

Successful Event Was Conceived and Presented by Miss Hope Morgan.

From an artistic and educational standpoint the musical entertainment held in the new technical school on Saturday evening in aid of Mothers' Pensions has not been rivalled this season. This unique and successful affair was conceived and presented by Miss Hope Morgan, assisted by a number of Toronto's talented and wellknown artists, including Miss Grace Smith, P. Redfern Hollinshead, Harold Hollinshead and C. S. Swayne. The accuracy of the beautiful costumes, which represented ten distinct periods from 1815 to 1915, and the manner in which the music for each successive period was interpreted, did credit to Miss Morgan and her pupils. A pleas-ant incident of the evening was the presentation at the conclusion of the program of a large basket of sox for Canadian soldiers.

The opening number introduced Miss Elsle Keefer, artistically costumed in a green and silver empire fown of the 1815 period. "What Will You Do, Love?" by Samuel Lover, was weetly rendered accompanied by Mrs. H. S. Hutchinson, at the piano. Mrs. E. Freysong sang beautifully the eria "Casta Diva," from La Norma, ac-companied by Mrs. A. M. Blight. Mrs. Freyseng was exquisitely gowned to represent the period of 1825 in a costume of white and green satin and ostrich head dress. Full skirts, quaint flowered muslin and a coquettish poke bonnet was donned by Miss Marjorie Rogers, who was a fashion plate from 1835. With feeling and delightful ex-pression she sang "The Three Fish-ers," by Hallah.

Songs and Dances.

A favorite number was that interpreting the songs and dances of 1845, most effectively presented by Miss Grace Smith and Mrs. W. G. A. Lambe. Miss Miss Smith looked lovely in a priceless old costume and hair poudre, while Mrs. Lambe was also exquisitely gowned in satin, flower trimmed, and her hair in curl. Miss Jeannette Barclay, who is the possessor of a beautiful and very high soprano voice, gave the 1855 number, "The Carnival of Venice," costumed in blue tartan with

In a lovely pale yellow brocaded cosby Blockley, chosen for the 1865 per-iod. P. Redfern Hollinshead and Miss Kathleen McMurrich provided the delightful number interpreting the period of 1875, their songs being "Sperto Gentil," La Avonta, and "She Wandered Down the Mountain Side,"
the latter being delivered with dramatic ability. In quaint 1885 afternoon frock, dainty hat and parasol
Mrs. A. H. C. Proctor was much appreclated in her delightful singing of "Enchantress." C. S. Swayne, in crooning old darky songs from 1895, was enusiastically recalled, accompanying Ms cwn songs on the guitar. A new member of Toronto's musical world was heard to advantage in "Eleanore," when Harolu Redfern Hollinshead sung the 1905 period number. This remarkably effective and unique prograin was only brought to a close after Miss Hope Morgan, gowned in a fashionable 1915 creation, had delivered, in beautiful voice, "Depuis le jour," from Louise, winning repeated encores.

SHIP TONNAGE GAINS **DESPITE WAR LOSSES**

Three Hundred Thousand in Excess of Previous Year, According to Lloyds.

By a Staff Reporter.
OTTAWA, Dec. 5.—In spite of the losses incurred by the mercantile marine thru the war, the tonnage of vessels classed in Lloyds' register of shipping for the years 1914-15, just received here, was 300,000 tons in excess of the tonnage classed at the corresponding date in 1914.

At the same time the war and its

effect on the shipbuilding industry scund a predominant note thruout the report, and altho the actual vol-ume of tonnage in hand thruout the world is not materially different from what it was 12 months ago, it is differently distributed among the several shipbuilding countries.

British tonnage was still 2,500,000

and lasted until the liner sailed. The band on the ship started the concert with "I Did Not Raise My Boy To Be tons more than that of all other couna Soldier." When the music stopped tries combined, but the great demand to the shipbuilding services of the United Kingdom for the production of war vessels of various kinds has the band ashore struck up "Tell the Boys It Is Time to Come Home," a new peace anthem. From the side of the liner just forward of the saloon the liner just forward of the saloun party angplank there fluttered a giant poster done in brilliant colors. It showed struction of which has been greatly delayed, and in some cases entirely delayed, and in some cases entirely delayed, and in some cases entirely delayed. Sir Adam Beck's provincial hydro rad-lal scheme received the endorsation of the North Toronto Ratepayers' Associa-tion at a meeting held in the town hall on; Saturday evening, called primarily to discuss the "gap" at Farnham avenue on Upper Yonge street, the discussion taking a wide range, covering every phase of transportation from the Farnham avenue to the country of the country o

The chair was occupied by A. C. Thorne, president of the association, and grouped around the chairman were Ald. Maguire, Ald. Ramsden, Akl. Cameron, Ald. Ball, Ald. Risk and Ald. McBride. All. This idea was strongly opposed by Mr. Howe and later the ex-councillor took the plauform in a vigorous defence of the North Toronto sewer scheme, which Ald. Maguire declared was ready to be "scrapped" when the norther suburb was incorporated in the city limits.

The Assessment Act as at present administered in the northern part of the city came in for strong criticism, Ald. Ball, Messrs. Baker, Howe and others scoring the system. Mr. Baker cited his own case, where unimproved property assessed at \$300 under the former muni-cipality had jumped to more than \$1200 since incorporation.

cipality had jumped to more than \$1200 since incorporation.

Tackle Larger Scheme.

Having disposed of local matters the meeting tackled the larger scheme outlined by Sir Adam Beck and the Hydro lower Commission, in which the city will be asked at the approaching municipal elections to endorse a general bylaw to the amount of \$4,200,000, the city's share of the provincial scheme. The scheme in its entirety will cost approximately \$13,-734,156, the balance of the amount to be levied over all the cities and municipalities westerly to London and Sarnia. That portion within the city will be known as the Toronto Terminal River section and discussion centred around the city's share of the cost.

Ald: Maguire, dealing at some length with the proposed bylaw, declared that with 'he general provisions he was entirely in accord, and with the elimination of two or three clauses would give it his hearty support. The alderman took exception to the proposal to grant the Hydro Power Commission the right to use the city streets, charging that they were only now coming into possession of these with the lapse of the Toronto Street Railway franchise. He also maintained that arrangements must be made for a wheelage basis and objected to the 50-year franchise. If am going to ask the mayor to arrange a meeting with Sir Adam Beck in an endeavor to secure some modification of these clauses, and if we succeed I will do everything in my mover to secure the cover of the secure of the secure of the secure of the succeed I will do everything in my mover to secure the cover of the secure some modification of these clauses, and if we succeed I will do everything in my power to secure the passage of the bylaw. No Analogy Says Ald. Ball.

Ald. H. H. Ball, who spoke briefly, giving strong support to the proposed bylaw and pointing out that there was no analogy between the case of the Toronto ing strong support to the proposed bylaw and pointing out that there was no analogy between the case of the Toronto Street Railway and the Hydro-Electric lines in the occupation of the city streets. The former was privately owned, while as to the latter the citizens were retaining for all time the possession of their own streets. Whenever possible private right-of-way would be used, and many of the clauses now considered objectionable would be found to be, as in the case of the Hydro-Electric, in the best interests of the citizens. He favored a conference with Sir Adam as did Ald. Cameron and Ald Ramsden. In the mind of some of the aldermen the time for consideration of the provincial scheme in view of the Harris-Gaby-Couzens radial transportation plan, which will, it is said, be submitted on Wednesday, was not sufficient to allow for full discussion. Delay, however, in the submission to the raterbayers would hold over the entire western scheme for another year. Full time for discussion would be given after the first and second reading of the bylaw. Ald. Sam McBride also spoke.

GUELPH, Ont., Dec. 5 .- Never before n the history of live stock shows in the Dominion of Canada has there been seen under one roof such a galaxy of horses, cattle, sheep, swine and poultry as there was on exhibition in the buildings of the Ontario Provincial Winter Fair in this city Saturday. The big buildings are so full of the finest stock in the country that one wonders where the crowds of people who will attend this week will find room to move about, altho considerable additional accommodation was pro-

pied with stock of some kind, and as late as six o'clock Saturday night car-penters were busy building pens for swine and sheep, while many of the horses were being housed outside of the buildings in the hotel stables. The war has had a stimulating effect on the farmers of Ontario, for their motto seems to have been, "More live stock and better live stock." HUGE ANNUAL DEFICIT

Three Billion Dollars Per Annum Required to Pay Purchases Abroad.

By a Staff Reporter.' OTTAWA: Dec. 5.—Speaking before the Canadian Club here Saturday, on what Great Britain was doing to pay the cost of the war, and what Canada could do to assist her, Hon. R. H. Brand, financial representative in Canada of David Lloyd George, minister of munitions, urged the establishment in Canada of a credit system for the

mother country.

Mr. Brand said that the war was now costing Great Britain about one million dollars an hour, so that the total of Canada's domestic war loan would last just 110 hours, and he pointed out that if the present rate of expenditures was maintained, the motherland was confronted with an annual deficit of about three billion dollars to be met abroad out of capital assets. This, he maintained, constituted a drain so enormous that it could not long be supported. If the over-seas dominions, Canada Australia and New Zealand could arrange to advance credits for war purchases, the strain on the mother country would be greatly lessened as it would mean a great curtailment on the outflow of capital wealth of the country. Canada's favorable balance of trade this year would probably exceed \$200, 000.000 enabled Canada to give such

"I think," said Mr. Brand, "that the greatest contribution Canada can possibly make to the cause of the allies is to increase her surplus income, and loan it to Britain." He advocated the strictest national municipal and provincial economy.

Sir John Willison, Dr. A. S. Grant, Sergeant Wells and Corporal White were the speakers and each one emphasized the need of the empire at the present time

In urging the young men of the country to respond to the call for re-cruits Sir John called attention to the enquiries which are being made by the boys in the trenches regarding re-cruiting in Canada. "It is the glory of the country that we have sent tens of the country that we have sent tens of thousands to fight for the empire," he said. "But it is the double glory that they have acquitted themselves nobly. Their voices come to us from the transless asking no not to glocker in trenches asking us not to slacken in our resolve." Should Be Disgraced.

Sir John Willison regarded the efforts of people who have endeavored to amass money by opportunities af-forded by the war as despicable. "The man who is richer at the conclusion of the war than he was at the beginning should be disgraced," he said. In concluding he urged those who are unable to fight to give every dollar they

could to patriotic objects. "The old men like myself are ready to fight if need be," declared Dr. A. S. Grant, in a brief address, in which he made a direct appeal to the single men to do their duty. He maintained there to do their duty. He maintained there were a good many old men who could still account for a few Germans. He did not think that conscription would ever be needed in any of the British dominions, but he advocated some form of military training.

POLITICAL INTELLIGENCE

The Ottawa correspondent of The Toronto News is quite sweeping in his denial of the election rumors which again floated to the surface during the again floated to the surface during the past week. Other Conservative papers also inclined to the belief that parliament will be summoned early in the year and that an open rupture between the two political parties will be averted until that time at least. All admit, however, that negotiations have been solung on between Six Robert Rorbeen going on between Sir Robert Bor-den and Sir Wilfrid Laurier which have resulted in nothing definite. The premier wished the leader of the op-position to agree that the lifetime of the present parliament should be ex-tended by common consent until the

Liberals want another session of par-liament, but do not wish to go into it bound by any serious commitments. They will not definitely refuse to consider extending the present parlia-mentary term, but they want to be free to discuss it at their leisure when parliament assembles.

The Quebec wing is said to be

strong for an early election, but the probabilities are that after parliament meets the Liberals will agree to some reasonable extension of the parhamentary term. They may consent to the B.N.A. Act being so amended that the lifetime of this parliament will be automatically extended until October, 1917, and to some provision by which its life may be still further extended if both houses of the Dominion Parliament so decide three-fourths majority.

One matter in dispute and negotia tion between the political leaders re-lated to the vacancies now existing in the house of commons. So far as East Grey, East Hamilton, Prince and Restigouche are concerned the leaders find themselves in complete accord.

Those elections may all go by acclamation and without any change in the political complexion of the house. But a question arises first in regard to the two vacancies in Manitoba, caused by the resignations of Sir James Aikins

and W. H. Sharpe. The Liberals take the view that those two gentlemen, having resigned for purely party purposes in order to help out their fel-low-Conservatives in the Manitoba provincial field, are not entitled to be returned by acclamation. They say, however, that they have no objections to other Conservatives being returned in their stead.

In the case of Carleton and Kings, N.S., the Liberals take a somewhat similar position. They are willing to have the government fill the vacancies provided Messrs. Garland and Foster do not offer themselves for re-election. They argue that the Liberal party would stultify itself by going into a bi-nertisan agreement to return to bi-partisan agreement to return by acclamation to the house of commons two men who were practically ejected from the house by the prime minister.

One solution of the problem is to permit the four constituencies' named to remain unrepresented for the time at least.

There are some who contend, how-ever that the people of each riding should be allowed to decide for themselves as to who shall represent them in parliament. The Hamilton Herald even goes as far as to suggest that East Hamilton may not be content to have her by-election disposed of by any bi-partisan arrangement. The Herald intimates that the labor party may place a candidate in the field, especially if George Lynch-Staun K.C., is a government candidate.

Hon. Dr. Sproule having been called to the senate, the first duty of the house when it meets next month will be to elect a new speaker. The speaker the nominally elected by the house is, in fact, appointed by the government. Some think that Deputy Speaker Sevigny may go up higher, but it precedent is to be followed, the new speaker will not come from Quebec speaker will not come from Quebec. The general belief is that he will come from Ontario, and that his name is Richard Blain, M.P. for Peel. Mr. Blain passed thru here yesterday morning on his way home from Ottawa, but modestly disclaimed any knowledge of his appointment.

OTTAWA, Dec. 5.-That Canada, while profiting more and more from British purchases of Canadian produce and manufactures, continues to buy less and lass from the United Kingdom, is shown by a statement received by the trade and commerce department. A Century of Dress and Song on Saturday night was a very great success. It was organized by Miss Hope Morgan and Mrs. W. G. A. Lambe in aid of Mothers' Pensjons. The concert was given in the half of the new Technical School, Harbord street. The theatre is a very pretty one and the stage was beautified with groups of flowers and ferns in the alcoves, and was a very pretty background for the quaint Victorian gowns and bonnets worn by the singers, who were Miss Elsie Keefer, who sang one of Samuel Lover's songs, Mrs. E. Freyseng, who looked exceedingly well in white satin and emerald velvet with diamonds, Miss Marjorie Rogers. Mrs. Blight played some of the accompaniments in her usual masterly manner, also Miss Betty Burton. Mrs. Lambe, looking very handsome in her costume, sang the Kerry Dance. Miss Grace Smith was very dainty in a flowered gown and received lovely flowers. Miss Jeannette Barclay, Mrs. Hutchison, Mrs. A. H. C. Proctook Wiss Kathleen McMurfich. Mr. C. S. It would have been strange if the triple schedule, as turned out by the N.H.A. megnates, had pleased everybody concerned, and therefore no surprise was shown over one kick that comes from Ottawa on the Monday dates. Also about turning the rink over to the pros. on New Year's night. It seems that the Minto Skating Club have the rink engaged for every Monday night during the winter, and it is understood that they pay a nice big orice for it, too, while New Year's night has always been turned over to public skating to allow the skaters the privilege of skating the old year out and the new in. Mr. Dey in his own sweet way, has demanded that the Ottawa Club have the Monday night games switched, and President Quinn has also registered his demands, which are that the games will have to be played as scheduled.

Other important mintary regulation, giving an emisted soldier who has not been a continuous resident the privilege to play with his home town, a soldiers' team in the town or registered district where he is located or with any team in the town in which he is located, was also carried. The effects of this regulation are far reaching and affect' players all over the province. For instance, the 40th Battery entered at Toronto is composed entirely of outside men.

Without any reason being advanced the proposed "substitution" amendment moved by G. B. Dawson of Sarnia was withdrawn. His motion provided that each team be allowed two substitutes who could enter a game at the end of the second or third periods.

The meeting carried J. Ross Robertson's amendment allowing a junior player to the proper of this periods.

"The Victorias," said the report, "showed a s'ngular lack of loyalty in playing against the orders of the association."

According to the figures quoted by the secretary the O.H.A. starts the 1915-16 season with a bank balance of \$5014.

The presidential report of C. Farquinarson dealt largely with the Victoria-Meiric programment of the affairs which led up to the Winnipeg conference, he gave as his personal opinion that a governing body should govern circumstances and not allow conditions existing to influence in any particular their course of action. "As far as the O.H.A. is concerned I believe the C.A.H.A. will find this association one of their best and staunchest friends."

percentage of .320 with which Doyle led the National League in batting this year is the smallest ever made by a National League champion. John McGraw was asked to account for John McGraw was asked to account for this decline of National League hitting.
"I can't," he answered, "unless it was an off year all around. I'll tell you one thing, tho. There isn't a scientific left-handed hitter in the Nat'onal League, not one that I've seen. Doyle, Daubert, Carey, all the good left-handed hitters, yell the ball. Not one of them can give ill the bail. Not one of them can give the snap poke which will drive it past

McGraw might have added himself. He could hit to any field and wasn't always swinging his head off and pulling to right field.

Campbell kicked off for Ulster, who immediately pressed, G. Forsyth snooting behind when well placed. From the goal kick Old Country got down, Riddy forcing a corner, but Purdy cleared this nicely. A spell of very even play followed, both sides playing good football. A nice run and centre by Reid looked dangerous for Old Country, but Campbell fooled Scott and spoiled a good chance. Old Country now pressed heavily, and Riddy sent in a beauty, but McMurray made a splendid save at the expense of a corner. This Mac cleared easily and sent well forward to W. Forsyth, who worked well in to goal, but Colquhoun robbed him, as he was in the act of shooting. was in the act of shooting.

It was a very fast game, the ball going from end to end at lightning speed, but defences were in grand form, and the goaltes were seldom troubled. After another spell of very even play Old Country got down and from a nice pass from Riddy, Long opened the scoring for his side with a fine shot. Stung by this reverse Ulster played up in good style, but could not score, the Old Country defence being in such good form. It was very even from now until half time, which arrived with the score: Old Country 1, Ulster 9.

was called.

A combined Wychwood attack in the opening stages of the second half terminated in Sid George shooting into Lee's hands. The east end balves worked hard all the time, but their efforts were nullified by their forwards being dispossessed so easily by Turney and Wiison.

A nice run and cross by Clymer looked dangerous for Wychwood, but Turney rose to the occasion with a clever clearance. Curtiss dropped over a nice cross from Wyches' right, which after bobbing around Gerrards' penalty area, was trapped by Sid George, who bagged it into the net for Wychwood's second goal. Hamilton and Warkhurst on Gerrards' left wing combined nicely down the field several times, and gave Turney a busy afternoon looking after them. Walker scored Wychwood's third goal with a hard drive from the wing. Clymer and the latter gave Wilcox no chance with his finishing shot. The Woods followed this with a sharp attack at Gerrards' end, but time was called before any more damage was done. Five-mile open (professional)—Won but time was called before any more

Caps' weight stood them in good stain the first half for they were able to hold the Beaches mostly on the defensive. The Beach team was not as strong as they would oromarny have been, on account of the departure of several of their good men, who are now on active service. Several others decorated the sidelines on account of injuries. H. Ellis made a bad mistake for the Balmy Beach team when he dropped a ball behind his own line and a Capital player fell on the ball. Russell and Atterell did the booting for the Beach team. Caps had fully 20 pounds per man on the Balmy Beach team. They were able to make yards occasionally on bucks but the Beach team was generally able to hold well even with the disadvantage of weight. Gillespie of Caps scored for the only tally of the first quarter when he fell on the ball for a try. It was not converted and the score read at the end of the first quarter: Caps 5, Beaches 0.

Skating and Curling

The popularity of ice skating was exemplified to the limit on Saturday night when the Arena threw its doors open to the public. Except for a leaky pipe down the centre the ice was first-class. The jam was almost uncomfortable, but the skaters in thousands kept on the artificial ice from 8 to 11. The Arena band was there with some new music. music.

Peter Brown, superintendent of the Queen City Curling Club, produced a good sheet of ice, 3-46 of an inch thick for the joyful brithers of the besom on Saturday, and they as usual had the first thrill of play for an hour or so in the afternoon. Sixteen members responded to the hurry-up call, and there were two rink games of regulation standard four-a-side.

LOOKING BACK OVER LEAN BASEBALL YEAR

Major Leagues Lost Money in the Thousands-Detroit an Exception.

NEW YORK. Dec. 4.—There are a lot f people who are of the opinion that the cwners of baseball franchises in the major leagues, especially the National and American Leagues, coin more money each summer than is turned out by the United States mint.

There is no justification for such an epinion; nothing could be farther from the truth. There was a time when baseball was a good paying proposition, and that time may come again, but the last four years have been lean ones, and there will be more lean ones before there will be any fat ones. There are more clubs losing money than declaring dividends. wners of baseball franchises in the

clubs losing money than declaring dividends.

The season of 1914 was a sad one; the 1915 season wasn't much better. The rush of the Braves from last place to first in 1914 was the only thing that saved the National League that year. This dash enabled every club to pick up more money than would ordinarily go into the coffers, for it awakened a lot of bottled up enthusiasm.

From an art.stic standpoint the 1915 race of the National League was the best in its history. True, there have been closer finishes on one or two occasions, but never before were all eight clubs in the running for the pennant down to the last month of the season.

Four Clubs Make Money.

Yet with this even race but four of the clubs came thru on the right side of the ledger. These four were the eastern clubs. Baseball clubs in the west—with the exception of the Chicago White Sox. the Detroit Tigers and the St. Louis Federals—lost money.

The Phillies cleaned up \$71,000 as their

clubs. Baseball clubs in the west—with the exception of the Chicago White Sox, the Detroit Tigers and the St. Louis Federals—lost money.

The Phillies cleaned up \$71,000 as their share of the world's series. Of this amount one-fourth must be deducted, for under the National League rules one-fourth of the world's series money goes to the other seven clubs in the league. On the playing season the Phils made about \$25,000.

If the Phils had played the same game in 1908 as they did this year, the club would have earned about \$200,000. That is the difference in the years and the enthusiasm. Five years ago such a race as was shown this year would have had the "bugs" dippy, but this year it only attracted the fans in spots.

On each one of their three western trips the Phillies lost money. Not on one of the three trips did the club make chough money to pay the railroad fares and hotel bills—let alone salaries. The Phillies drew more people at home than any other Philladelphia National League team eyer did. They averaged 5000 persons a day during the week and had some excellent Saturday crowds. On two occasions during the year they had more than 16,000 paid adm'ssions—and the seats were sold out once previous to the world's series. This never occurred before in the history of the club.

Out of the world's series receipts also the Phillies had jo pay for special trains, which will further cut down the profits.

Out of the world's series receipts also the Phillies had to pay for special trains, which will further cut down the profits. The earnings will be trimmed to such an extent that no dividend will be declared this year. The reason for this is that the club lost heavily last season, and the profits of this year will go toward meeting the losses of last year and the nettes that must be met later.

Athletics Prop. \$50,000.

Brooklyn finished about \$20,000 ahead. This is the first time that Ebbets has piloted a money-maker in five years. The Cubs will do well to break even on the season. The Cardinals, Pirates and Reds lost anywhere from \$20,000 to \$40,000 on the season. If it hadn't been for the spurts of the clubs at different times durant the year, the lasses would have been ing the year, the losses would have bee in the American League.

Things are not much different in the American League, if they are as good. The Johnson circuit had its first race in six years, and the race then was between two clubs. of estimate for permission to close sections of West 143rd and West 144th streets at a meeting of the board yearerday. The petition was referred to the chief engineer.

Following the report of the chief engineer there will be a public hearing in city hall Dec. 23, where, under the law, objections may be made. Gilmore and bis associates hold options on a site between 142nd and 145th streets and Lenox avenue and the Harlem River. The location would be worthless unless that we street a referred to, which are paved, should be closed. The real estate owners who control the property have agreed to refund to the Federal League operators all money already paid down if it is found that the streets must be kept open.

if it is found that the streets must be kept open.

It is learned that organized baseball will make no effort to block the Federal League's plans for building a steel and concrete double tier cantilever grandstand. In other words, the local heads of organized baseball will not try to prevent the closing of the two streets mentioned. Magnates of the American and National Leagues are of the opinion that the expense of an invasion of Manhattan can serve no better purpose than to hasten the downfall of the outlaw circuit. Especially will this be so, it is pointed out, if the local owners are permitted to strengthen the Giants and Yankees into pennant contenders thruout the season of 1916. no fewer than four associations that are bidding for winter patronage. The meeting at Juarez opened this week, Havana is to open its gates Dec. 16, and both New Orleans and Tia Juana will launch long meetings New Year's Day.

Of this quartet of winter racing points Tia Juana is the latest to enter into the schedule. In fact, the meeting to begin Jan. 1 is the inaugural meeting of this Mexican course. Tia Juana is a little Mexican town within a short distance of San Diego, California, and long ago it was selected as an ideal racing poin for the cold weather months. From time to time it has been promised that racing would be conducted at Tia Juana, but at last it has become a reality and already there are several horses on the grounds, while many others have been booked for the long journey across the continent.

William Roche was busily engaged at Bowie signing up horses and jockeys for the season there and both of them obtained the assurances of many stables and riders. Today three carloads will leave Maryland and several others will follow before many days.

The racing will be conducted by the Lower California Jockey Club, of which J. W. Coffroth is the president. He has associated with him in the new venture a notable array of high-class racing officials, and he has just completed negotiations with C. H. Pettingill to officiate as presiding judge, who has for many years been a valued official of the New York racetrack and the new association is to be congratulated on obtaining his services.

WARM TRIBUTE PAID TO DR. TORRINGTOI

Members of Toronto College of Music Alumnae Honor Its V. Fran Head.

WHAT HE ACCOMPLISHED

Men and Women Prominent in Musical Circles of Toronto Present Testimonial.

Tribute of the very highest character was paid Dr. Torrington, dean of Toronto musicians, on Saturday evening when an invitation to the call of the newly-formed alumnae of the Toronto College of Music, the musical profession and pupils past and present gathered at the college to do henor to its veteran head, whose invaluable work laid the foun ations for the present standing of Toronto as one of the foremost musical cities on the continent.

The institution at Pembroke street was thrown open and a cordial welcome given the guests by M.s. Torrington and Mrs. Sullivan Mallon, president of the alumnae. Mrs. Irwin Simpson, the secretary, and Mrs. R. L. Brereton, representing the Philhar-monic Society, were on the receiving committee. The old historic hall in which so many of those assembled had gained knowledge and inspiration was brightened with flags and pennants, and the oil painting of Dr. Torrington. presented him some years ago, in which he is shown baton in hand attracted much attention, as did also the large portrait of the great Philharmonic of 1884 and other interesting souvenirs.

The presence of the leading figures in the musical world of Toronto and the generous character of their testimeny towards their confrere made the event of Saturday night outstanding and unequaled in many respects in the history of Toronto, the speakers without exception giving Dr. Torrington credit for the exceptional things he had accomplised along musical

Preceding the addresses a musical program was given, in which Mrs. Bon-sell Barron, Miss Wedman, J. D. Dickson and A. M. Gorrie took part. Mrs. Scott Raff as mistress of cere-monies made a delightful speech, in which she referred to her own days at the college and the benefit and kindness she and others had been the recipient of at the hands of Dr. Torrington. She also on benaff of those assembled presented the veteran doctor with a heautiful reading glass, handsomely mounted. Letters of regret at inability to be present were read or acknowledged from W. H. Hewlett, Augustus Bridle, Henry K. Gorden, W. H. J. Carnahan, Irene Gurney Evans and Clarence Lucas, a poetic tribute being read from H. Isabel Graham Graham.

He recognized that this would be a sacrifice, but he considered that the public work done hy Dr. Torrington together with its educational value, deserved that these things should be preserved in this way.
"I never knew anyone." said Dr.

Dr. Torrington on rising to respond, was received with clapping of hands and waving of handketchiefs and the singing of "He's a Jolly Good Fellow," and when these expressions of en thusiasm had subsided and the object of them all essayed to speak, his first words were not of himself but of the dear friend and sometime associate, Mr. Haslam, whose sad end a short time previous had pained him exceed-ingly. WHEAT TRADE EXCITED PRICES GAIN HEAVILY

Highest Quotations Yet Reached for This Year's Crop in Chicago Pit.

LARGE EXPORT BUYING

British Mills Reported to Be Doing Immense Business in Flour and Wheat.

CHICAGO, Dec. 5 -- Highest prices yet on the 1915 crop were reached Saturday in the wheat market here as the result of an excited advance. Buying on a huge scale, said to be partly ou orders from a toreign government, swept prices upward 6 1-8c above the low point of the day. The crose wabuo, ant at 116 5-8 for December an \$1.16 1-8 for May, 2 7-8 to 5 1-8 higher than yesterday's finish. Corn gained 3-8c net and oats 1-4 to 1-2c. In provisions the outcome varied from 2 1-2c accine to a rise of 22 1-2c. Closing quotations on wheat, which ver for all western and Pacific coast were varuably the tiptop for the sespoints. The equipment is of thoroughly sion, represented a jump of 10 to 15 1-80 this service. Through tickets to all the buying fever at the end of the day thing below the start, reading these apparent at the start, reading of street east, or write to R. L. Fairbairn, the Liverpool market to reflect yescerday's auvance in America had temper-arity a discouraging effect, and so did announcement that six easiern rail reads had put an embargo on export snipments of flour and that the congestion of freight handling facilities, threatened to extend to Galveston. Al bearish influences were speedily for gotten when seemingly endless orders to purchase came streaming into the pit. One of the largest nouses in the strade led the larging of wheat. Rumors spread that an unidentified European government was bargaining for large amounts of breadstufs and there were also reports that Canadian authoritie would only allow Canadian wheat to

go to Great Britain or her allies. Finiadelphia advices asserted that an immense ousiness with British mills was being done in both flour and wheat, supposed to be destined to a large exist to Italy. Closing of spreads, too, between Winnipeg and Chicago, was said to have formed a decluded element accelerating the advance of prices here.

Corn responded to the strength of

wheat, Ocherwise, tho, the tendency was down grade, chiefly owing to fine weather and because of the outlook for large receipts next week. Oats followed the action of cornexport transactions were noted

late in the session. Frovisions averaged higher despite a serback in the value of nogs. The buige in grain was largely responsible for lifting the provisions market.

LIVERPOOL, Dec. 4 .- There has been change in trane at Birkenhad this ast week, and p. ces are as last quotes, i.z., 16c to 10½c per pound, s.nking the offal, for medium quality Irish s.eers and ref.ers, with best sorts at 1.c. Confed beef is also unchanged at 13c per pound or the sides.

WINNIPEG GRAIN MARKET.

WINNIPEG, Dec. 4.-A culet-opening WINNIPEG, Dec. 4.—A culet opening today wound up in a most sensational bullish close, December up 2½ c at \$1.07½ bid, May up 2c at \$1.10%. Outs were dull and weak and closed ½ c to ½ c higher at 4½ c for December and 43c for May. No. a no them spo was \$1.10¾ at the close and No. 2 northern \$1.08¾.

Cash grain was steady with a good demining for all grades.

Canadian markets followed the American advance, the it hardly looked a bull. canadian markets followed the American advance, the it hardy looked a burgument in their case, the rise being attributed to the fact that the Canada overnment was no going to allow Canadian wheat to be sold other than to Great Britain and her allies.

Steel was lethargic at the outset, but hardened at the end. Pethlenem Steel opened down 10 points, but closed at 470, a loss of 5 points. United Fruit was weak thruout, declining 6½ to 144, and South Petto Rico Sugar lost 6 to 142. The bank statement furnished a distinct surprise, an estimated cash gain of considerable proportions being turned into a contraction of almost

\$7,000,000. The feature of the market for foreign exchange was a decline in re-mittances to Rome and other Italian points to the lowest rates ever record-ed. SMITH LABINE CLAIMS **AGAIN UNDER OPTION**

The Smith La Bine claims at Sesikinika are definitely under working option to Mr. Robert Livermore, manager of the Kerr Lake Mining Company at Cobalt. Mr. Livermore is looking over the property with the intention of immedialely commencing work. These claims, three in number, are remarkable for the number of small quartz veins, all showing free gold. They have been sampled from time-to time this summer usually with reassuring results, but some consideration of purchase or commission has always interposed to prevent a sale, and save for he work of the owners they have lain idle. There is no doubt that the entrance of a strong-commany into the field will make of Sesikinika an actual field, for there are several other sood prospects worthy of development. The Smith La Bine claims at Sesikinika

MINTYRE EXTENSION DOWN OVER EIGHT HUNDRED FT.

Col. Hay, who has returned from an in-Od. Hay, who has returned from an inspection of the Mgnllyre and McIntyre
Extension, states that the shaft on the
latter property is now down 870 feet.
Some minor difficulties have been met
or quicker progress would have been
made, but the shaft will be deepened to
1000 feet as rapidly as possible. At the
present level the ruel has better indications of value, but no ore will be taken
from the McIntyre Extension until the
shaft is down to the depth decided upon.

MUNROE CONSOLIDATED GETS RICHER WITH DEPTH

Superin endent G. Leyson of the Mun ne Consolidated Mines, writing from the camp on Dec. ist says: Excellent progress is being made. We are now down forty-one feet and the ore body down forty-one feet and the ore body widens and is richer with every shot. The sinking being pushed as rapidy as possible, and a depth of 60 feet is promised by Christmas. Some quartz samples were sent down by Mr. Leyson from the present level and these contain a function showing of free gold. P. S. Hairston thinks his mine will prove one show most important in Munroe Tewa-ship.

NEW YORK BANK STATEMENT.

NEW YORK, Dec. 4.—The statement of the actual condition of clearing house banks and trust companies for the week snows that they hold \$179,310,030 reserve in excess of legal requirements. This is a decrease of \$4,167,310 from last week.

Actual condition—Loans etc. increase.

Actual condition—Loans etc. increase. ings each closed with a net gain of a point. Steel of Canada opened 1-2 up at 41 and retained a quarter point advantage for the day. Iron also started off with an overnight gain of 1-2, but finished unchanged.

Business was scattered and generally featureless except for the stronger tone and evidence that the somewhat nervous feeling of Thursday had passed away. The liquidation of Friday morning was largely the result of calls for additional margin.

Power stocks were quiet, Montreal rising 1 point while Cedars and Laurellide reacted 1 point or thereabouts. Ames-Holden was 1-higher at 20, and the Steamship securities about steady. Hollinger went to a new high record price of \$28.50.

CARNEGIE TRUSTS TO UNLOAD STEEL BONDS

Proceeds Will Be Invested British Government Bonds.

LONDON, Dec. 5 .- The trustees of the Carnegic hero fund, the Carnegic trust or the Universities of Scotland; the Carnegic Dunfermline trust have decided sell at the current market prices the S. Steel Corporation bonds, held by trusts and invest the proceeds in ds of the British Government. It is bonds of the British Government. It is explained that this decision was taken with a view of meeting the desire of the government that American securities held in this country should be realized in order to overcome the adverse rate of exchange. The bonds amount to about \$25,000,000.

MONTREAL GRAIN MARKET.

MONTREAL, Dec. 5.—Export trade in grain Saturday war quieter, owing to the fact that the demand from foreign buyers was poorer and the brices bid were fully 6d lower than yesterday. Local trade in coarse grains was slow. Millfeed was active and firm.

case: Messina, \$3.25 to \$4 per case; half cases, \$2.75 to \$4 per case; lot Valencias, \$5 to \$5.25 per case; Poridas, \$3 to \$3.50 per case.

Peare—limported. \$1 to \$1.50 per smail and \$4 per large case; Canadian, Anjous, half-boxes, \$1.25 to \$1.50; full, \$2.75 to \$3.

ST. LAWRENCE MARKET WAS WELL SUPPLIED

As a Consequence, Business on Saturday Was Anything But Brisk.

SPRING CHICKENS FELL

Opened at Twenty Cents Per Pound, But Soon Dropped to Fifteen.

There was a large offering of produce n the St. Lawrence Saturday and business was not very brisk. Poultry was again rather a slow sale. Spring chickens, which commenced at 20c per lb., quickly declined to 18c, then 17c, 16c and large quantities going at 15c per lb., while some closed out at 14c and 13c. Ducks brought slightly better prices than the other fowl, the bulk selling around 18c per lb., some bringing 20c per lb., and a small number closing out below 18c. Geese conlinued to sell at from 14c to 16c per lb., while turkey, too, remained about stationary at 20c to 25c per lb. Eggs again varied greatly in prices, the top price being 75c per dozen, but this was an isolated case; a few going at 70c; more at 65c; the bulk at 60c, while large numbers closed out at 55c, while large numbers closed out at 55c, and a few went at 50c per dozen.

Potatees again brought a high price in the wagon section, Wess Welman of Elgin Mils being the fortunate possessor of some good ones, bringing in forty bags on Saturday, for which he obtained \$1.50 per bag. Thos. Gracey, Weston, is another lucky one, having splendid Cobblers, and also sold those he brought in at \$1.50 per bag.

Butter remained about stationary in price, also at 30c to 35c per lb., but was rather a slow sale.

There were only five loads of hay brought in Saturday, selling at unchanged quotations.

GOLD GOLD GOLD

Munroe Township has the most wonderful gold discovery on the American continent. This district will produce millions in gold. Less than six months ago a property, an undeveloped prospect, is now considered by conservative engineers to be one of the wonders of the age. Munroe and Beatty Townships are destined to become among the greatest gold-producing townships in Canare destined to become among the greatest good producing townships in Can-ada. I keep well posted on conditions in this district. I have opinions from good engineers. I have good undeveloped prospects for sale "at a bargain." I represent a syndicate who are developing one of the best prospects in the

district. They offer through me a small block of stock for development pur-Write or phone me for special information
