Winnipeg will vote on the Sunday street car question on December 9. Several cargoes of coal were unloaded at Fort William this week, some of which was steam coal for the railways.

Captain McAulay, of the provincial fisheries cruiser, reports to the dominion government that the waters of Georgian Bay are as "thick as water." This coincides with the report from other parts of the great lakes, and altogether this appears to be the best season for the herring fisherman for many years.

The Calgary & Edmonton Railway Company have lost their salt regarding mineral rights on their lands, and consequently received a grant of 6,400 acres of land per mile of road, from the dominion, but it was decided by the company to give the railway company the same amount of land as the company was in the same position as a private purchaser of the lands, and therefore the lands were subject to the government reserve of minerals.

A paper which in these days of keen competition has been able to sometimes the size in seven years to a remarkable degree, is this - it is exactly the claim made by the North-West Journal of Mining, in an article in its last issue. Circulation, it is claimed, has also increased seven-fold in the same period of time. Such remarkable progress is due, it is pointed out, to the promoters of the paper, who have been very much alive to the rapidly growing agricultural importance of this country. It is also no secret that the increasing influence of the western farmer that such progress could be possible to an agricultural paper which depends for its support entirely upon Manitoba and the Territories.

WINNIPEG, NOV. 15, 1902.

IMPORTING NURSERY STOCK.

The Jewell Nursery Co. of Lake City, Minnesota, is endeavoring to induce the Canadian government to agree to a plan to allow of the fumigation of nursery stock before leaving the nursery. The Jewell Nursery Co., which has been doing quite a large business in Western Canada, finds that its business is seriously interfered with by the Dominion law requiring that all nursery stock entering Canada must be fumigated as a preventive against the introduction of San Jose scale. The fumigation of the stock causes a considerable delay to shipments, which is a serious matter in the case of perishable goods like trees, shrubs, etc. This gear has often to be sent long distances out of their regular course to the fumigation station. The only fumigation station for Manitoba and the Territories is at Winnipeg. All stock from the states to the south must be stopped here and fumigated, thus causing a delay sometimes of several days. In the case of goods for Southern Manitoba points, the packages must be sent to Winnipeg for fumigation, and then back again to the point of destination. All this would be obviated and other advantages gained, if the stock could be fumigated at the nursery before it is shipped. The Jewell Nursery Co. proposes that a Dominion government official be sent to the nursery to superintend the work of fumigation, his expenses to be paid by the nursery company. Under this plan the stock could be sent direct to the purchaser, without the delay of being held for fumigation. It would obviate the necessity of unpacking and re-packing the stock in transit, which must always be more or less injurious to nursery stock, as the opening of the packages would have a tendency to dry out the stock.

The fumigation is very injurious to trees and shrubs after the buds have begun to expand, and it should therefore be done as early as possible in the spring. The trees when shipped from the nursery might be in good condition for fumigating, but by delay in transit they might be so far advanced by the time they reached the fumigation station here that they would be damaged or destroyed by the process. Shipments have frequently arrived here in a condition quite unfit for fumigation. Stock may also be received in a frozen condition, and in

this state it would be very injurious to have it unshipped for fumigation.

The plan proposed of having the stock fumigated at the nursery before it is packed for shipment, would be greatly in the interest of the purchasers here, who would receive the stock in shorter time and in better condition.

It is very desirable that everything possible should be done to encourage tree planting and fruit growing in our prairie country. Many of the varieties of fruits and ornamental trees and shrubs which are best adapted to this country, cannot be procured in the east. It is also the belief of experienced persons that stock procured from the states immediately to the south of us will stand our climate much better than stock brought from the moister and milder climate of the east. There is at present a great desire among our people to try and grow fruits, shrubs, trees, etc.

Montreal gentleman, who had had much to do with the municipal affairs of the commercial metropolis of the country, take the marine and fisheries department.

There is naturally some disappointment in Quebec that the big spending department has passed into the hands of an Ontario member. The people down there seem to think that their province had some special claim upon the department of public works. Certainly Quebec has usually had a big slice of the annual expenditures of this nature. Mr. Prefontaine, however, asserts that he preferred the department of marine and fisheries, and that the importance of this department will be increased by the placing of control of all harbors, wharves, etc., under this department. Mr. Prefontaine is, no doubt, well adapted to handle this department. One of the

ed by the authorities at an early stage in the movement, and were later sent back to their homes. The men were allowed to proceed on the march for some day's longer, but they were stopped at Minnedosa on Saturday last, and later they were shipped back to their homes. No doubt the cold weather which set in on Saturday had the effect of weakening the determination of many of the pilgrims to continue their march in search of "the new light." Certainly if they had been allowed to continue their tramp this week, they would have suffered very severely, and a number of fatalities would have resulted. It remains to be seen whether these people will remain at their homes and settle down to agricultural life again. With the return of another summer they may decide to start another pilgrimage.

It is possible that this peculiar

MANITOBA HARVEST SCENE.

Grain in Stack and Stock as Far as the Eye Can Reach.

It is greatly in the interest of the country that this desire should be encouraged. One of the greatest drawbacks in the way is the fumigation law.

The proposal of the Minnesota company to have the fumigating done at the nursery, under the supervision of a Canadian government official, and at the expense of the nursery company, seems a very reasonable proposition. It does not necessitate any change in the law, as the provisions for the enforcement of the act are left to the government, by order-in-council. It will certainly be greatly in the interest of importers of nursery stock here to have this proposal put into effect.

THE CABINET SHUFFLE.

The chief interest in political circles this week centres in the Federal cabinet changes, consequent upon the dropping out of Mr. Tarte, minister of public works. It is now announced that Hon. James Sutherland, of the marine and fisheries department, will step into Mr. Tarte's boots. Hon. Raymond Prefontaine, a prominent

leading questions to-day, is the improvement of the St. Lawrence route, and his large interests in Montreal will make him fully alive to the importance of this question. Montreal, more than any other place in Canada is interested in the improvement of the St. Lawrence. The new minister of marine and fisheries will no doubt do all he can for the development and improvement of the St. Lawrence. Regarding the tariff, it is worthy of note that Mr. Prefontaine holds somewhat similar views to those expressed by Mr. Tarte. The latter gentleman was forced out of office because he was somewhat demonstrative in asserting his protective doctrines. The new minister of marine is known to be a protectionist, though it is not to be expected that he will take the same stand. Mr. Tarte has done on the tariff question.

THE DOUKHOBORS.

The Doukhobor movement appears to have ended for the present, assisted by cold weather and official pressure. The women and children who went on parade, were forcibly detained

movement among these people has been partially prompted by some other motive than religious mania. It was perhaps partially intended to bring pressure upon the government to obtain their desires. They have been anxious to be relieved from entering for their land in the regular way, as they claimed it would be wrong to own or hold land as individuals. They are evidently led by a few agitators who possibly should be looked after. The Doukhobors should be firmly given to understand that they are free to leave the country whenever they wish to, but that while they remain here they must submit to the law of the land, and that they will not be permitted to make wandering vagrants of themselves.

The post office department has arranged for a mail to leave Athabasca Landing for Peace River, by way of Lesser Slave Lake, on the 15th Inst. Two more trips will be made this road during the coming winter, as well as two trips from Athabasca Landing to Fort Chipewyan, the dates of which will be announced later. The mails leave Peace River for Athabasca Landing every Tuesday, at 8 a.m. and are due at the latter place every Thursday at 4 p.m.

The First Wheat Shipment.

Regarding the item recently published in The Commercial about the first shipment of wheat from Manitoba, in 1870, to Steele Bros., seedsmen, Toronto, the following additional particulars are learned:

"There was a very serious failure of the spring wheat crop in the province of Ontario in 1870, the hardy Pike wheat, which had been the chief standby for many years was almost entirely destroyed by the blight and was no longer a profitable crop. The fame of the Red River Valley wheat was already spreading, and Steele's Seed Company, that R. C. Steele, now president of the Steele, Briggs Seed Co., of Toronto, and Winnipeg, go to Manitoba to offer a possible 5,000 bushels of her dries wheat for seed in Ontario.

The journey was made via St. Paul to Fisher's Landing, Minn., the end of the railway at that time. The through ticket for balance of the trip was by steamer to Winnipeg, while took two weeks to get across the prairie. When the river could freeze up before the wheat could be secured and brought down to the railway, Mr. Steele abandoned his steamer, taking him in a lumber wagon, and drove thirteen miles across the country to Grand Forks, North Dakota, where he got a team of stock in the evening, and reached Winnipeg at 12 o'clock the next night, the journey of 150 miles having occupied thirty hours.

Upon arriving known to the merchants of Winnipeg that the object of his visit was to secure some of their famous wheat, and to inquire if there was room for every assistance possible was rendered by the pushing business men of the town, captained by Mr. David Young, one of the members. When Steele and his team were anxious to have a hand in the first shipment of wheat from Manitoba, the outlook was not being any better, so far as it was known, an event to talk about in after years. The early close of navigation left little time for securing the wheat, and as threshing machines and farm teams were not to be had far between in Manitoba, in those days, the amount, 857 bushels,

was all the choice wheat that could be secured in time for the last steamer leaving Winnipeg before close of navigation, and within 48 hours after the steamer with this load, on board reached Fisher's Landing on the Red River, was the river over and navigation closed for the winter. From Fisher's Landing the team with their load rail to Duluth, where purchased 5,000 bushels of selected wheat purchased in Northern Minnesota. From Duluth, shipment was made by vessel to Sarnia, and thence by rail to Toronto.

Mr. Steele visited Manitoba again in 1871 and spent over two months driving through the prairie. That was a banner year both for quality and quantity of the Manitoba wheat crop, and when leaving Virden for the Territories and British Columbia after his return trip, he found that the wheat crop of Manitoba would average 12 bushels per acre. This was up to the east and published in the Toronto daily. The estimate was fully sustained by results of the threshings, subsequently gathered and published in bulletin form by the Manitoba government, and travellers of the Steele Briggs Seed Co. entered Manitoba almost with the construction train of the C. P. R., to examine the wheat crop in all parts of the great West ever since.

S. E. Briggs, the vice-president of this company, first visited Manitoba in 1871, while in transition through the settled portions of the province. He has visited Manitoba several times since, also the Territories and British Columbia, and the reports are thoroughly posted on the possibilities and requirements of this country in seeds, bullock plants and shrubs, and particularly in the case of J. M. Perkins, seed merchant, Winnipeg, in order that they may identify themselves still more closely with the requirements of the continent.

Ernest F. Crossland, who has been placed in charge of the new Winnipeg branch of the Steele, Briggs Co., has been most successful in the employ of the company, whose business was established thirty years ago, and their immense trade, which extends from Halifax to Victoria, and from Sandwich to the Yukon, as well as their extensive export business, is the very best evidence of their reliable

business methods. The establishment in Winnipeg of a branch such as we have, is a natural and progressive step in the development of this Western land.

Agriculture in the Far North.

Some 350 miles north of Edmonton, in the valley of the Peace River, a settlement has been made by the Hudson's Bay Co.'s trading post called Vernerill. Wheat, barley and oats are grown in this remote frontier settlement, and the Northern Co. has this year established a fifty-ton roller process flour mill at this point, which is now completed, and is the most northerly in the continent. There are two other similar power stone mills in the settlement, respectively by Lawrence Bros. and the Roman Catholic mission. Lawrence Bros. have a steam saw mill and the H. B. Co. have a grain mill. About half the grain crop is wheat, and the greater part of the other is barley. Wheat and barley were both good crops this year. Oats light crop. Cattle and horses are raised by the settlers, and find a ready market in the north country among the traders.

Profits of J. P. Morgan.

New York, Oct. 2.—Following are the profits made by J. P. Morgan in one year's operations in forming big combines:

Capitalization.	Profits.
U. S. Steel Corp.	\$1,304,000,000 \$39,340,100
Standard Oil Co.	1,000,000,000 4,500,000
Steamship combine ...	100,000,000
Harvesters' merger	65,000,000 5,500,000
Jouett's deal	52,000,000 5,000,000
U. S. reality	50,000,000
Monon purchase ...	5,568,000 350,000
Total.	\$2,052,568,000 \$42,190,000

His greatest profit was made in the promotion of the United States Steel Corporation, which he organized that put up \$25,000,000 to underwrite the stocks of the concern. This \$35,000,000 was paid out in the first instance, but the remainder was never called for. The members of the syndicate have received \$1,000,000 each, and a sum of \$20,000,000, which, with the next payment, to be made about Nov. 14, will

amount to \$66,500,000, or about 200 per cent on the actual investment.

J. M. Morgan, son, gets 20 per cent of this sum, which, with the stock he received and the \$10,000,000 cash paid out, makes him a man on the steel corporation about \$20,340,000.

His next largest profits were made in the Monon, which he organized for \$600,000. He bought 100,000 shares of L. and L. stock at \$12 a share and sold them at \$20, making a profit of \$150,000. He also received \$1,000,000 par value of the new stock, which was valued at \$17.50, thus making another \$1,495,000 profit. For the full 466,444 shares turned over to the public, the value of which was \$15,000,000, there was received \$10,000,000 in cash, \$500,000 in bonds, and \$1,000,000 in Atlantic Coast line stock. Paying the bonds at par and the stock at \$147.70 a share, it is clear that Mr. Morgan's gains on the Monon are approximately \$6,000,000, and probably more.

In the purchase of the Chicago, Indianapolis and Louisville, Mr. Morgan's genius was shown to better advantage than in any other of his deals for this railroad. He paid \$1,000,000 out of cash, and made a profit of \$500,000, which, according to Wall street, is a great financial achievement.

Mr. Morgan cleared in the Northern Securities combination \$4,500,000, and probably has another \$1,000,000 more legitimately. By his promptness at the time of the Northern Pacific purchase, says Wall street, he profited. Forty leading commanding houses were ready to close their doors, and the street was not ruined but for Mr. Morgan's action.

Mr. Morgan has received \$2,190,000, and the year is not yet over. It is known that there are several great combinations in progress, and that the year is ended if the condition of the money market warrants it. One of the most important great "combinations" is that between the Gould Holding company, the Forges Works merger, the proprieetary rights of the Indian Leather company and several others. In one or more of these, Mr. Morgan will play a prominent part.

Thomas Whiskiss, an Indian from Nelson river, is visiting Winnipeg. Among the curiosities displayed by the Indians on the north side is a small sheaf of wheat grown about seven hundred miles northeast of this city.

Dry Goods Trade Notes.

The United States cotton crop is turning out better than was expected and there has been a decline in the price of raw.

Woolens have advanced 5 per cent. in the United States and 10 per cent. at the new quotations. Business is not so good in this trade as at this time last year and collections are only fair.

Chiffon gowns for evening wear are noted with pointed shoulders and bands of ribbon in matching colors set into the chiffon. Zibeline applications are also seen on net gowns. Combinations of lace and fur are another of the effects in the making of the season. The ermine is the most desirable for this use, though a good deal is being done with the black broadtail.

There are the new shirtwaist designs all for buttonholes. The fashion is no longer for the plain button, but is rather for one fastening, but is rather for buttons to be used as ornaments. Entire new designs are shown in organza and gun metal buttons. These are very odd in design and are wholly unlike anything that has been shown. There is a decided novelty in many to recommend them. They are in various sizes.

There seems to be a great demand for face coverings says the Commercial Bulletin. The shape of the corset is decided: The straight front in not too exaggerated a form is here to stay. Now that there is less riving in the corsets, the interest in regard to forms, materials and trimmings seem more important. High priced corsets are growing in favor. One new edition of a corset of white silk stitched with black is ornamented with a flat bow-knot design done in narrow black velvet. A corset of pale yellow silk has a wide border of violet and white French lilles running over it in fan-fashion from the narrow point in front.

THE GROCERY TRADE.**The Current Situation.**

Messrs. Tees & Persson, agents for Hancock & Wood, of Paris, have received the following information from their firm: "When we issued our last report, we had the prospect of a total yield of about 170,000 tons of excellent quality generally, everything favored the growth crop. By the end of August about three-fifths of the crop had been securely housed, the quality of the lower and medium growth particularly, being distinctly above the average. The rains of August and heavy rain fall in almost all current districts, and although the weather recovered immediately and continued extremely favorable for drying purposes, to the very early window operations, the fruit exposed on the drying grounds and plants suffered to a considerable extent both in appearance and weight. In the district of Vosges, Alsace and Lorraine, where so much depends on the bloom, aroma and flavor, the effects of the rains have been particularly noticeable. The committee which assembled each year in Athenee on the 14th of August to estimate the total probable yield and fix the amount of retention accordingly, reckoned the total at about 155,000 tons and decided upon a maximum of 20 per cent., which is the maximum allowed by law; unofficial statistics, variously estimated the total at from 160,000 to 170,000 tons, but the rain will cause a considerable reduction. The fruit after this year, strange to say, weighs less than usual, so that a safe estimate to take will be about 160,000 tons, deducting 20 per cent., or 128,000 tons, which is available for export, or 10,000 tons more than total exports of 1901 crop. Prices opened moderately on the 18th of August, since when business has been very slow, and the market has been very heavy as holders and growers have very wisely continued to feed the demand at the decline which has gradually been established. Some speculators are trying to buy up, but it is evident prices would go on dropping continuously, entered into contracts at considerably below price ruling, but their dreams have not been realized.

Notwithstanding the very heavy exports, there is no lack of interest in the article on the part of various consuming markets, and it is evident that the extremely moderate price of currents coupled with generally fine qual-

ity, compared to the high cost of almost all other descriptions of dried fruits, will materially assist their consumption.

Grocery Trade Notes.

Japan tea has again advanced in price, this time 1c per pound.

Filberts advanced in price again last week at producing centres.

Canadian importers of figs are in some cases already sold out of new crop.

Cable advices on Sultana raisins have been very strong and prices have advanced 5s.

New York reported a second decline of 10c in refined sugar late last week, but this did not affect Canadian prices.

Jobbers in Eastern Canada have been importing canned tomatoes from Boston to fill orders for which Canadian stone cannot be had. They have been able to pay the duty on these and sell them at \$1.50 per dozen.

According to cable advices from Valencia, the tone of the market for Valencia raisins is strong, due to the scarcity of fruit, and prices have advanced 1s. 6d. There has been some demand for selected fruit and purchased direct have been made at this.

It is estimated that the total quantity of Valencia raisins imported into Canada this season has not been more than 200,000 boxes, while the annual consumption is 300,000 boxes. The importation is, therefore, the fruit will be a scarce article before the holiday season is at hand.

Another sugar was has been started in the United States, and it is said that all is well and in no trouble. They have cut prices in all parts of the country, and will make further cuts unless settlement is arrived at. What they are fighting about has not been given out.

Hardware Trade Notes.

Eastern advices note large shipments of hardware west in anticipation of the close of navigation.

The Unitec window glass trade is in a deteriorating condition owing to price cutting on the part of manufacturers. These cannot agree as to prices for anything else, and the trade was given an amicable turn which prevents the basis from reaching a normal basis. Notwithstanding this war, however, prices for window glass in the United States are high as compared with those prevailing in Canada.

Implement Trade Notes.

The Massey-Harris Co. contemplate the erection of a large track warehouse building in Winnipeg next year.

The Northern Thresher Company of Stillwater, in the act of purchasing the premises now occupied by the Minneapolis Threshing Machine Company, on Dec. 1. The latter company has moved quarters on Dufferin avenue, this month. Thos. Rooney becomes manager of the Northwest company on Dec. 1.

The belief is steadily becoming stronger in jobbing circles that next year is to see a considerable drop in the price of binder twine on this continent. Makers say that the cost of production is down, and that they will see the price put down next year even if it has to be at their own expense. The International Harvester Company is credited with this invention.

Dairy Trade Notes.

The summer session of the Innisfail, Alberta, creamery, closing Oct. 31, was a very successful one. The output for the season was only slightly less than 100,000 pounds. The season's operations appear to have been very satisfactory.

Labor Notes.

A women's protective union has been formed at Winnipeg. The object is to secure fair working women better wages and better hours.

The rates over the Pacific cable from all points in Canada to all points in Australia and New Zealand is two shillings and four pence a word, nearly one-third the charge made by the existing line of communication.

Colored Shoes.

Why the colored shoe should have been given the cold shoulder is difficult to see. There is no shoe so useful and so acceptable for summer wear as the tan, and there has been no general demand for the colored part of the public at the practical discontinuance of the same. The people certainly were not consulted in this regard, but it was probably largely patent for summer wear. In the United States there is a strong reversion in progress towards the tan shade, and in the stores of men and women's several shades are shown, and prospects point to a largely increased sale. In Canada the shoe manufacturer is still uppermost, and his ground and goes slow both from fear of the slackness of demand and the possible difficulty of securing an adequate supply of colored stock. MANITOBA.

W. H. Lavery & Son have opened a store at Nelson.

A. R. Garret intends opening a store at Manitou.

G. W. Brisbin has opened a harness shop at Portage.

W. H. Sautis has sold his implement business at Boisbœuf, Man., R. H. Gossman.

The brick work on the new wing of the asylum, at Selkirk, was finished last week.

E. C. Walton has purchased the grocery business of Jas. Dandy, at Melita.

Wm. A. Irving, hardware merchant, Austin, has assigned to C. H. Newton, of Winnipeg.

P. E. Metheral has erected a large addition to his store at Weyburn, Assiniboin, adding a general furnishing department.

E. Nicol & Son, Boisbœuf, Man., announce a closing out sale. They intend moving their business.

Heath & Sons have bought the butchering business of W. Dunford at Melita and will continue it.

Wm. McFarlane, flour and feed merchant, Winnipeg, is selling his stock at auction and leaving for California.

F. W. Handel, formerly proprietor of Maurice's restaurant, Winnipeg, has purchased the Ontario hotel business at \$36,000 Main street, from Robt. Adams.

The indications are that there will be more winter fishing this winter than usual. A large number of men and women are already gone north—Selkirk Record.

The Winnipeg city council will submit a by-law to the ratepayers on the day of civic elections, Dec. 9, to provide for a tax of \$20,000 on three suburban fire halls.

The Canadian Pacific Railway Company has not yet commenced to operate its new Waskada-Lyleton extension and the settlers are kicking. Machinery is required for operations which cannot operate until the road opens.

The Melita board of trade is making representations to the C. P. R. asking that a main line be built from Souris south to the various towns along the Souris branch. The supply of coal at present available at those points is inadequate to the requirements of the office.

E. W. Rugg, printer and publisher, Winnipeg, has bought the property known as the Brockville house on King street and will rebuild it so as to make a suitable printing office. It will then be occupied by his growing printing business. The Canadian Threshermen, which is shortly to commence publication here, will be printed in the office.

A new store which was just about completed at Eden, was burned with its contents on Tuesday. The store was owned by W. F. Wagner and was filled with its contents to the roof. It was insured for \$1,500. Rebuilding has already commenced. The cause of the fire was not determined. Most of the goods in the store were destroyed by water. Eden is a new town ten miles north of Neepawa, on the Canadian Northern.

On Monday evening a board of trade was formed at Camrose, composed of local citizens. The election of officers and council resulted as follows: President, Mr. Frank Williams; vice-president, John K. Graham; secretary, W. M. Firth; treasurer, T. J. Tal; T. T. Peacock, E. C. Compilin, R. Boyd Fisher, H. A. Alywin, Thomas Kernighan, C. H. Buettner, F. G. McArthur.

Notice is given in the Manitoba Gazette that application will be made for the incorporation of the old McMillan Co., of Westbourne, to take over the business of the D. McDonald Co. The parties seeking incorporation are: D. McDonald, Winnipeg; Arch. McMillan, Alex. McMillan, Malcolm McMillan, and W. McMillan, all of Westbourne. The capital stock of the company is \$150,000.

The C. R. Steele Furniture Co., Winnipeg, are preparing for a large extension of their business. The company has purchased the property in the rear of their present Main street. This property fronts on Fort street, 50 feet front by 120 feet deep. A four story warehouse will be erect-

ed on the property next year, thus extending their present building right through to Fort street. The present premises will also be remodeled, and a new front will be put in the building. In the intention, when the new building is ready, to add a general furnishing business. At present furniture only is handled.

ASSINIBOIA.

R. Haslem has bought the Queen's hotel at Moosomin from Mr. Cavagnagh.

John R. Riddell, livery and dry, Moose Jaw, has admitted Jas. Cline as partner. A hardware business is being erected by this firm.

J. E. Ehmam & Co. have opened a general store at Regina. Mr. Ehmam was in the same line at Regina some time ago, but his business through fire. Now he starts again.

The woolen mill property of the Western Canada Woolen Mills Company at Medicine Hat, has been purchased by a local company, who will be continuing the starting of some suitable industry.

The stock and fixtures of C. T. Ballay & Co., general merchants, South Arm, Assiniboin, were sold at public auction on Wednesday. One-half of the property, owned by the general agent, of Moose Jaw, who bought them at 7½ cents on the dollar. The remaining half was bought by W. M. P. Starr.

A telegram is to be awaited at Toronto to proceed to Medicine Hat and take evidence regarding the substantial value of the stock of the Western Canada Woolen Mills Company at that place, which is now in liquidation. The liquidators dispute an account of \$2,700.

ALBERTA.

L. Doherty is opening a general store at Wetaskiwin.

R. Fraser & Co., of Edmonton, intend erecting a new stationary saw mill at the site of the old 50 miles up the river front of that town. The bulk of the machinery is now on the ground and the will be forwarded at once. The mill will only be completed in the winter.

The directors of Alberta Railway and Coal Company issued their report and accounts for the year to June 30, in London last week, in anticipation of the meeting to be held on the 29th inst. The aggregate coal made during the year amounted to 148,630 tons, against a total of 171,636 tons sold during the previous year, and 148,630 tons against a total of 148,630 tons. The increase is due to the smaller amount taken by the Canadian Pacific Railway Company, by reason of that company taking a greater portion of their coal. The new market for coal which have recently been developed along the line of the Crow's Nest Pass Railway in Alberta. The general coal sales show a marked increase. The tonnage of the railway, apart from the carriage of the company's coal, show a decrease of 2,293, the gross returns having been \$168,192, against \$170,495 for the preceding year.

NORTHWESTERN ONTARIO.

Those Martin has opened in the general store business at La Vallee.

W. H. Hymer, general storekeeper in Fort William, has opened a general store at Hymer's Crossing.

D. L. Mather, of Rat Portage, has nine camps going this winter, employing 200 men taking out timber.

It is reported at Fort Arthur that McCallum is developing his power at Kakabeka Falls. These falls are about 22 miles from Port Arthur, going by the railway. The fall is 110 feet high and is capable of developing 50,000 horse power. The falls and land adjacent belong to the Clergue company.

A Port Arthur correspondent intimates that the Canadian Northern Railway has a leasehold interest in that town for a term of years for the location of coal docks there. The company has docks now on the river, above Fort William. Port Arthur is the terminus of a branch of the C. N. R. for the railway shop, etc., and people think that this should have included the docks as well.

THE COMMERCIAL**FINANCIAL****Winnipeg Bank Clearings.**

Returns for the Winnipeg clearing house for the week ending Thursday shows as follows:

Week ended Nov. 13, 1902	\$5,286.94
Corresponding week, 1901	4,946.139
Corresponding week, 1900	2,500.601

Financial Notes.

W. R. Miller bought a seat on the Montreal Stock Exchange last week for \$23,500.

A branch of the Dominion Bank at Selkirk, Man., is now open for business, with J. Grindale in charge.

The Lake of Woods Milling company's stock has been issued, and will be called for the first time at the Montreal Stock Exchange on Wednesday.

J. H. D. Benson, accountant of the Imperial Oil Co. at Strathcona, has been transferred to Edmonton. He was given a complimentary banquet by the business men of Strathcona.

The British Columbia government has floated a loan in London of one-half million dollars. The finance minister said that the loan will be repaid all that it recently borrowed from the open market to sustain rates.

The London cablegram says: The important point in the money market is the fact that the banks are willing to repay all that it recently borrowed from the open market to sustain rates.

The Montreal stock market was a very weak one on Monday of this week, and a good many selling orders devolved on the Canadian Pacific, which was largely sold, and the price eased off some cents.

Mr. Oliver Clark, formerly agent of the Bank of Hamilton at Vancouver, has been appointed manager of the branch lately opened in the grain exchange building, Winnipeg. Mr. Clark has agreed to leave his duties with the Bank of Hamilton.

W. Strickland, accountant of the Greenwood branch of the Bank of Montreal, is to be transferred to Rossland, where he will succeed the accountant of the bank at Greenwood.

The Union Bank branch at Arcole, Assiniboin, was closed Saturday morning last. All the papers were saved.

The accountant and junior clerk were rooming above, and their loss left all their personal effects.

Mr. George L. Jones, of the same son, property, valued at about \$100,000, with \$200 insurance. The bank opened again on Monday morning in the new sample room of the Metropolitan Hotel.

A cable dispatch on Thursday announced the decision of the privy council dismissing with costs the appeal of the western court of the Bank of the Imperial Bank of Canada, of the Bank of Hamilton in the Bauer case. It has engaged considerable attention in commercial circles, as a check for \$5 marked as good and then raised it to \$500 and discounted it with the Imperial Bank. The latest presentation of the claim was before the Bank of Hamilton and the Bank of Hamilton was discovered. When the forgery was discovered next day they demanded a refund, which was refused. The recovery of the money was commenced and carried through all the courts. The privy council has now affirmed the judgments in favor of the Bank of Hamilton.

Lake and Rail Freights.

The market is quiet, although there are some charters reported in wheat

D. C. G. Smith, of the Imperial Bank, paid 6 cents to 6 cents, and from Fort William to Montreal 6 1-2 cents to 6 3-4 cents. From Chicago through to the rates quoted are 5 cents to 1-1/2 cents per barrel. From Chicago to Buffalo the rates are 1 cent to 1-1/2 cents per barrel. Montreal Trade Bulletin.

Very heavy receipts of general merchandise are being unloaded at Fort William and Port Arthur. There is a slow demand for goods before the close of the week. Thousands of barrels of apples for the West have been unloaded this week.

INSURANCE**October Fire Losses.**

The Journal of Commerce and Commercial Bulletin, of New York, in its issue of the 1st inst., says:

"The fire loss in the United States and Canada for the month of October, as compiled from the carefully kept records of the Journal of Commerce and Commercial Bulletin, shows a total of \$305,300. The following comparative table will show the losses by months:

	1900	1901	1902
January	\$11,753.30	\$13,531.450	\$15,025.300
February	13,922.000	21,019.500	
March	13,349.000	15,054.500	14,466,600
April	13,600.000	14,954.000	13,924,000
May	15,749.000	22,380.500	14,866,250
June	21,100.000	15,950.000	10,745,000
July	16,600.000	13,700.000	10,275,000
August	10,288.250	9,344.000	7,455,500
September	2,100.000	4,265.300	9,945,000
October	13,007.000	14,700.000	10,250,000

Total \$142,520 \$155,265.250 \$145,067,700 "It will be seen that the reduction, as compared with October, 1901, is over \$5,000,000, and the first ten months of 1902 are over \$11,000,000 above the corresponding months of the preceding year. Taken together the outlook for the fire underwriters is much brighter than heretofore. They are receiving a larger number of higher risks and losses are far lighter than they were. The year 1902 is treating insurance companies quite well."

Prices a Year Ago.

Following were Winnipeg prices this date last year:

Wheat—No. 1 hard wheat closed 75¢ in store Fort William.

Flour—Wheat 100 lbs per sack; Patent, \$2; best bakers', \$1.50.

Baled Hay—\$8 to \$7 per ton on cars.

Liv. Stock—Cattle, 2¢ to 3¢; stockers, 1¢ to 1 1/2¢; sheep, head, sheep, 4¢; hogs, 6¢, packers' price.

Brandon Retail Grocers' Association.

A short time ago The Commercial recorded the formation at Brandon of an association of local grocery men under the name of The Brandon Retail Grocers' Protective Association. The printed constitution and by-laws of this body are now to hand and furnish full information concerning its aims and objects. These are briefly to promote a social feeling among the members; not to patronize such wholesale houses as do not retail business; to keep the public informed of the use of credit; to watch legislation; to protect against adulterated goods and false weights and measures; to shorten the day of labor; arbitration; and to procure legislation regulating peddling business.

The returns of immigrants coming into Canada during October show that arrivals from the United States during the last month were 1,611.

These are actual settlers, the majority of whom came in via Port Arthur. Some 1,000 European immigrants to enter Canada during the month were 1,455. The total number of settlers from the eastern provinces permanently located in the west during the month was 1,611. The total arrivals for the year were 5,511, the record of the same month last year being 5,191, of which 1,609 came from the United States. Thirty-one States of the union contributed to the actual settlers, by far the most part coming from Minnesota, the Dakotas, Iowa, Illinois, Wisconsin, Montana and Utah. Thirty municipalities are represented among the incomers from all parts of the globe.

THE BUSINESS SITUATION

Saturday, Nov. 15.

Business continues active throughout the west. The weather has every appearance of having settled down to winter conditions, and the cessation of field work on the part of farmers has turned attention to the marketing of grain, which goes out more extensively than ever. The railways and many country elevators appear to be about buried in wheat, and handling facilities are taxed to the utmost. Only three more weeks of navigation remain, and these are likely to be about the busiest our railways and elevators have ever had. Threshing still proceeds in districts where there is any to do. The weather is not yet too cold for outdoor work, and there is no let up in this. Railway construction is about over for the season, and the men are being moved to the bush. Wholesale trade is quite active in the city. There is a good sorting demand for winter lines, and spring orders still come in freely. The holiday trade promises to be the largest on record. Collections are about the only thing about which we hear grumbling in wholesale circles. These are not so good as they were expected to be at this time. Bank clearings at Winnipeg, while somewhat smaller than last week, are very much larger than in any previous year.

WINNIPEG MARKETS

Winnipeg, Nov. 15.

(All quotations, unless otherwise specified, are wholesale for such quantities as are usually taken by retail dealers, and are subject to the usual reductions on large quantities, and to cash discount.)

CURED MEATS.

Cured meat and lard are still in good demand at firm prices. We quote: Hams, sugar cured, 15½¢ lb.; breakfast bacon, bellies, 10½¢; backs, 14½¢; spiced ribs, short, 12½¢; long, 13½¢; smoked ham, 15½¢; ham, 12½¢; bacon, 25¢ lb.; ham, smoked or unsmoked, 18¢; dry salt, long clear, 11¢; dry salt bacon, 12½¢; lard, tierces, 11½¢; 50-lbs., 10½¢; 20-lb. pails, \$2.50; 10-lb. tins, 75¢; 2-lb. cans, 60¢; 1-lb. tins, 7.65¢; 3-lb. tins, 7.75¢. Barrel pork, heavy mess, \$2; pork sausage, sc.; bologna, 7½¢; pickled pig's feet, in kits, \$1.25; sausages, 40¢.

DRY GOODS.

The feature at present is spring trade winter goods. This is decidedly good. Travellers are booking good orders along all routes, and mail orders are also coming in freely. The prospect is good for an active holiday trade. Values hold firmly except in woolens, which show a tendency to advance. Cottons have weakened somewhat in United States ships along the line, owing to the expected return of crop, but so far Canadian markets show very little disposition to follow. Collections are good with the dry goods trade.

CLOTHING.

Clothing trade is now on a purely sorting basis. This demand is good for the season, and keeps shipping departments moderately busy. Winter lines are in most request, especially for fur and workingmen's clothing. Values hold steady.

FISH.

There is a good demand for fish of all kinds, and the market holds steadily. We quote as follows: Whitefish, 5½¢ per lb.; pickerel, 4½¢ per lb.; pike, 3½¢; trout, 1½¢; salmon, 12½¢; halibut, 11¢; cod, 7¢; haddock, 10¢; mackerel, 13¢; herrings, 1½¢ per dozen; Labrador herring, per barrel, \$4.25; salt mackerel, \$1.80; white fish, 10¢ per lb.; bonito, 11¢; white chicks, 18¢ per lb.; bonito fish, 5½¢ lb.; oysters, \$2 and \$2.25 per gallon.

FUEL.

The fuel situation displays much less tension than was the case a few weeks ago, and there is not the pressure from consumers for stocks that

there was up to the time of the settlement of the Pennsylvania strike. There is, however, but very little increase in the actual amount of either coal or wood on hand and a cold snap might easily bring the market sharply short of what it needs. Pennsylvania coal is arriving at Fort William in limited quantities, and it is doubtful if the present quantity of native coal before the close of navigation will be enough to meet the demand. Duluth could possibly help this market out. It is probable that in an event the demand for this coal is not met, we may see here this winter as many people have changed their heating apparatus to suit soil coal or wood. Wood should be plentiful after another snowfall.

GREEN FRUITS.

Apples have firm'd up a little and are quoted as follows: Red Delicious, 10¢; the new, 9½¢; Golden Delicious, 9½¢; a few red Roger, being all that are left of the Ontario varieties. These sell at 9¢ per basket. We quote: Winter apples, \$2.50 to \$3 per barrel f.o.b. Fort William. For 100 lbs. and for ten barrel lots a discount of 10¢ is allowed; box apples, \$1.50 to \$1.75; Tokay grapes, 3¢ per case; Malaga grapes, 2½¢; Thompson seedless, 10¢ to \$11 per barrel; pears, 6¢ per basket; Mexican oranges, \$5.00 per case, best to down to \$4.50 for 120-lb. lots; oranges, 63¢ to \$3.50 per bunch; bananas, 63¢ to \$3.50 per bunch. Vegetables: Spanish onions are selling at \$1.15 per crate; common onions, 1½¢ per dozen bunches; cabbage at 10¢ per lb.; red cabbage at 2¢ per lb.; sweet potatoes, fancy Bell brand, 6¢; ordinary, 5¢; carrots, 1½¢; turnips, 1½¢; radishes, 11½¢ per box of one dozen cartons; dates at 6¢ per lb.; Cal. apricots at 8½¢, and fancy large apricots at 11½¢. Honey is worth \$1.00 per case of fancy white comb, 1 lb.; 1-lb. jars, \$2.40 for white clover comb; \$2.40 for dark honey in case lots; and 12¢ per pound for strained in 60-lb. boxes. Apples are quoted at \$2.25 per gallon. New Ontario apple cider, per gallon, 35¢.

GROCERIES.

Since our last issue cannot corn has strengthened considerably and although local prices are unchanged from \$2 to \$2.10, it is doubtful if a cariot could be brought in to cost as much as the latter figure. The price at the factory gate, is confidently looked for before long. There are rarely none left in first hands and apparently packers have none to offer. Firms are still quoting at 10¢ per bushel, as we have heard of several thousand cases having been bought in the United States for this market. As a result, it is about 30¢ per case these will not bring the offered prices. Figures quoted here for limited quantities are now \$3.75, but apparently packers have very few to offer at present. New grain is now in and prices are given in our list. New table raisins are not yet in. Dates are somewhat higher, and new Halibut are quoted at 5½¢ to 6¢. Sultan raisins have arrived in small quantities from old figures. Valencia are also unchanged. Dried apples, which have been quoted here at 7½ cents per lb. and standard 9½¢ can now be bought at 4½ to 5¢. Nuts are also unchanged. Walnuts in the can and the price is somewhat higher. New walnuts have not yet arrived. Sugars have again declined to the extent of 10¢ and the price is now down to 12¢ per lb. The price of sugar has changed but was unexpected as the raw material is much firmer. Winnipeg prices for staple lines of groceries will be found on page 238.

HARDWARE.

The feature of the hardware market is a drop of 1½¢ in the price of manila rope, which is now quoted at 15¢ per pound. Sisal is quoted at 13¢. Other lines are unchanged. There is a steady outward movement of goods, especially for the Christmas trade. Prices at Winnipeg are given on an other page.

IMPLEMENTS.

About the most interesting feature of this trade is collection. Money is not coming as freely as it was expected to and there is some grumbling on the part of managers here.

Country agents are being instructed to hustle things a little harder, which will, perhaps, have the desired effect. In the meantime there is disappointment.

LUMBER.

Trade has picked up considerably and is regarded as a significant feature that mill agents are beginning to hunt for orders, something they have not done to any extent for years past. "We would like to think that they have caught up with their orders and are ready for more." There is some talk in local circles of a drop in prices but no actual reduction has yet been made.

PAINTS, OILS AND GLASS.

Turpentine is 4¢ per gallon higher hence, making the price \$5.00 for barrel. Linseed oil is unchanged. Coal oil has advanced 9½¢ all around. Makers of brushes have withdrawn their quotations and an advance is expected. Business is fairly good. Prices will be found on another page.

GRAIN AND PRODUCE.

WHEAT—General situation. Wheat has held firm this week and advanced 10¢ per bushel, which is the rule, but without any exciting features. The markets, while firm, have been steady and the advances made have been gradual, prices showing a gain at the expense of the buyers. Receipts in United States primary markets, which have been heavy of late, have been small this week. There has been a slight increase in exports from American ports. Crop reports from Argentina and the United States and India are favorable. Australian grain is quoted at 10¢ per bushel, the winter wheat districts of Europe they are only fair. The Russian crop, which is always a difficult one to estimate, owing to unreliable reports, is quoted at 15¢ per bushel at fifty to sixty million bushels greater than last year. The American visible supply increased last week, \$3,808,000 bushels, against an increase in the previous week of 2,200,000 bushels. The world's shipments were 10,835,000 bus. against 13,126,000 bus. the week previous and 9,500,000 bus. last summer. The world's wheat supply, according to Canadian streets, increased 3,510,000 bus. against an increase the previous week of 3,556,000 bus. and an increase last week of 3,800,000 bus.

Wheat Local Situation.—The most interesting feature of the wheat situation this week is the advance in wheat prices of 6 cents per bushel to Canadian Northern. Northern rail way points in Manitoba and Northern rail way points in Ontario. The latter did not take effect until Tuesday last. The reason given for this advance is alleged to be that the Canadian Northern Railway Company has given the grain dealers assurance that the wheat would be moved out before the close of navigation. The Canadian Northern Railway has been short of grain almost since the season opened, and a number of points on the company's lines have been blocked for days or even weeks at a time. The company is said to be arranging for a sufficient supply of cars to relieve the pressure and move out the grain before the close of navigation. Grain that can not be got out of cars before the close of navigation will have to be held over. The freight rate is 2 cents lower from Canadian Northern Rail way points than from Canadian Pacific points. The grain dealers of the Canadian Northern, it is understood, has arranged for certain Northern Pacific and Great Northern grain dealers to load into these cars will probably go to Duluth. The situation has not been very promising recently regarding the movement of grain. With the advent of the winter, and the fact that the frequent stopping of plowing and other work at the farm, a large increase in wheat deliveries is expected, with the possibility of a serious blockade resulting. Blocked cars are becoming more numerous at country points for some weeks, and the railways recently have not been handling as much wheat as has been handled in the past. An increase in deliveries would, therefore, lead to a very serious situation again, unless a much larger movement by rail can be made. Stocks at Fort William also continue to accumulate,

the shipments by water being less than at that port, and navigation should close with large stocks at lake ports there would be a complete blockade soon after the close of navigation. It is hoped these stocks will be largely reduced before the close of navigation. Manitoba has been generally firm this week and yesterday the market became quite strong. Prices at close of last week were 72½¢ to 75¢ per bushel at northern spot or delivery first half November. These prices were advanced ½¢ on Tuesday and held about the same until Thursday morning when 7½¢ was paid for 1 hard and 7½ for 1 northern spot or delivery up to 22nd inst. Yesterday a further advance of ½¢ took place early and in the forenoon, and has become the price and held to the end of the day, being the highest figure reached this season. Prices at close yesterday were: 1 hard, 73½¢; 1 northern, 71½¢; 2 hard, 70¢; 3 northern, 68¢; No. 4 wheat, 64¢; all in store. Fort William or Port Arthur. In store. Duluth sells at same price as Fort William, but high grades, but the low grades are about 10¢ less. A little business is being attempted in December delivery. There are sellers at 70½¢ to 72½¢ in store at present.

FOURTH Best Hungarian Patent is to-day worth £2.00 per sack of 98-lbs., delivered to the trade; Glenora and Glenora Bakers, £1.55; and XXXX at £1.25.

MILLFEED—Prices have advanced for both bran and shorts. Bran is quoted at 18¢ per ton in sacks and shorts at 16¢ per ton in sacks.

GROUND FEED—Prices are steady and unchanged. We quote: Oat chaff, 11½¢ per ton, delivered to the trade; barley chaff, 10½¢; rye chaff, 10½¢; oats, 11½¢; chop spleen, \$16 per ton, chop screenings, \$12; oil cake, \$27 per ton.

HOLLOWED OATS—The market is steady, and we quote now \$1.85 per sack of 80-lbs., for best brands. Standard and granulated oatmeal is worth \$2.50 per sack.

COUNTRY WHEAT—Farmers' deliveries have been large during the week, although the country roads are not in very good condition for hauling. A little more snow would make hauling and then deliveries would be freer. Probably the railway companies and elevator men are as well pleased to have the roads bad as they are unable to take out grain in the wheat now offering. The market has improved as compared with a week ago and the average price to farmers for wheat is 10¢ per bushel. The price of the grain trade in advancing prices at Canadian Northern points over those in force at corresponding Canadian Pacific points has created a decided interest in grain to farmers. At C. N. R. the freight rate points the ruling price for best wheat is 50¢ per bushel, while at similar C. N. R. points the price is 59¢ per bushel for farmers' grain.

OATS—Car shortage is interfering with trade to a considerable extent. The local feed demand is being met fairly well, but few cars are moving eastward, but the shipper is doing a little. Prices are firm as compared with a week ago. To-day No. 2 white oats are worth 28½¢ per bushel. On track No. 2 white oats are worth 26½¢ per bushel, and about 25½¢ is the price for feed white. At country points the price is 26¢ per bushel at central points. Oats are quoted at 25 to 26¢ being offered to farmers.

BARLEY—There is not much movement of barley and the business is almost all local. The price of Milled grades are worth 32 to 33¢ per bushel on track. Winnipeg, and feed grades 29 to 30¢.

FLAXSEED—Receipts are moderate, and the market steady at \$1.00 per bushel for carlots at country points.

SPLITZ—The market holds steady at 30¢ per bushel of 50 lbs. undressed here.

HAY—The market is easier at a discount of 10¢. Carlot sales have been and is yet holding out supplies but street deliveries are improving and as there is a large quantity of hay available in the market the easier. Dealers are paying \$16 to \$18 per ton for carlots on track. Loose hay is worth about \$5 to \$6.

VEGETABLES—There has been some demand for country vegetables for potatoes to ship east, and if cars could be had there would be more of

this business. Several cars have gone to the Sault this week. Potatoes are firm, but the market is quite changed. We quote: Potatoes, 30¢ per bushel; parsley, 20¢; cabbage, \$10 per ton; celery, 25 to 40¢ per dozen carrots; onions, 25¢ per dozen; turnips, 20¢ per bushel; lettuce, 30 to 40¢ per dozen bunches; mini, 15¢ per dozen; dressed onions, 50 to 90¢ per bushel; parsnips, 1 lb. per lb.; citron, 11¢ to 2¢ per lb.

POULTRY—The market is now fairly well supplied with dressed poultry, so far as local demand concerned, although there is plenty of room for expansion if the stocks could be had. Dressed chickens are lower at 9 to 10¢ per pound, turkeys and geese steady at 16¢, and turkeys at 12½¢.

GAME—Very little offering. From 15 to 20¢ per pound is being paid for ducks.

BUTTER—Creamery—the season is about over and receipts are light. Cream is taken at 25¢ per pound from city customers for choice stock, which is an advance of 2¢ per lb.

BUTTER—Dairy—Stocks are not very large and most of the holdings are in first grade. Very little butter is to be had. Jobbing houses are paying 14 to 15¢ no here for best grades. Seconds are worth 12 to 14¢ no.

CHEESE—The price is firm and from 13 to 13½¢ per pound is now being obtained from retail merchants for choice Ontario stock.

EGGGS—The regular market price for some eggs is now 10¢ per dozen, here, subject to candling.

DRESSED MEATS—An advance is predicted in the price to be had by some, although it is very difficult to ascertain without feature at present. Hogs are offering a little more freely, but are still comparatively scarce. The price is expected to remain lower. We quote: Beef, city dressed, 70¢ to 75¢ per pound; country stock, 1½¢ under these figures; mutton, 8 to 9¢; lamb, 10 to 11¢.

HIDES—Receipts are increasing and frozen hides are now beginning to come in. The market is unsettled, as some dealers appear to be holding to pay more than the actual situation warrants. Frozen hides are worth 8¢ per lb. less, the usual tare. Country hide, 8½ to 9¢ per pound delivered here for No. 2 quality. No. 2, No. 3, 4½¢. Better than this is frequently paid to certain sellers.

Wool—Sheep is over.

TALLOW—No. 1 tallow is worth 6¢ per pound delivered here and No. 2, 5¢. **SENECA**—Digging is over for the season and most lots are now being sent out. It is not believed that there is very much root left in the country. Although the outside markets have not advanced, better prices have been paid for Seneca roots here. Over 50¢ has been paid in some cases for lots to make up shipments, and all are around that figure for clean, dry roots.

LIVE STOCK—**CATTLE**—There is still a small export movement through the season for cattle over, and most districts are cleaned out. There is no change in prices, which hold at 4¢ per pound for choice export steers at a point of sale, and 3½¢ to 4¢ per pound for cattle from 3½ to 4¢, according to quality. Butchers' cattle are steady at 3 to 3½¢ delivered here, with more being paid for choice.

SHEEP—Receipts are moderate and the market steady at 3½¢ per pound off ears here. Lambs are steady at 4½ to 4¾¢ per pound.

HOGS—Live hogs are weaker, cool weather and better deliveries and we quote 9½¢ per pound for choice weight hogs. Heavy and undersized hogs are ¾¢ less than these figures.

MILK COWS—There are very few milkers to be had in this market and prices are held at \$30 to \$45 each for such as are to be had according to quality.

HORSES—There is a good demand for teams for the bush and prices are stiff. General purpose horses are also wanted.

Eastern shoe factories report a good volume of business and prospects are excellent.

A dispatch from St. Petersburg, on Thursday, said: A petition from the Doukhobors asking the Sultan of Turkey for permission to settle a section of the empire where they can cultivate gardens with their own hands and not be compelled to obey human laws, is published here.

British Columbia OFFICE OF THE COMMERCIAL

British Columbia Business Notes.

Vancouver, Nov. 15.

Bank managers interviewed declare that the trade of the province is on a satisfactory basis, and the volume generally speaking is greater than ever before. This is shown by bank clearings and customs returns and the statements of the retail merchants themselves. There has been a slight change in the weather this week, wet cold rains having been the order. Payments generally are reported as very fair, only one-half in the markets this week are in the flour and feed market. All other prices are maintained, lard and cured meats being the chief. American lard is unsalable in the local market as it costs more to lay it down here than it can be sold for.

Prices at Vancouver.

Vancouver, Nov. 15.

FEED—National Mills, chop, \$7 per ton; bran, \$8; shorts, \$5; cereal meal, \$5 per ton f.o.b. Vancouver, including duty paid on imported stuff.

WHEAT—Canadian wheat, \$9 per ton.

OATS—\$4 per ton.

FLOUR—Manitoba patent, per barrel, \$4.75; strong bakers', \$4.65; Enderby patents, \$4.70.

MEAT—Fraser River Valley, new \$2; straw per bushel, 66¢/bushel.

MEAL—Rolled oats, 90¢; sack, \$1.00; two 40lb. sacks, \$1.00; four 22½lb. sacks, \$1.00; ten 70lb. sacks, \$1.00; oatmeal in 10lb. sacks per 100lb., \$1.00; in 50lb. sacks, \$1.25 per 100lb.

LIVE STOCK—Steers, \$10 per 100lb.; sheep, 100lb., hoggs, \$8.50 per 100lb.

POULTRY—Turkeys, 30¢ per bushel.

DRESSED MEATS—Beef, \$2; mutton, 10½¢; veal, 10½¢.

CURED MEATS—Hams, 15¢; bacon, 20¢; long clear, 13¢.

LARD—Tins, 8½¢; pails, 13¢; tubs, 12½¢.

BUTTER—Local creamery, 25¢/lb.; Manitoban, 25¢/lb.; 20¢/lb.

EGGS—Fresh local, 4¢; Ontario, 3¢.

CHEESE—Ontario cheese, 15¢.

VEGETABLES—Potatoes, local, \$96/\$12 per bushel; onions, \$10 per ton; tomatoes, 25¢ per lb.

FISH—Flounders, 5¢; smelts, 5¢; sea bass, 4¢; whiting, 5¢; soles, 5¢; halibut, 6¢; salmon, 10¢; rock fish, 5¢; crabs, 9¢ per dozen; smoked salmon, 18¢; smoked halibut, 16¢.

GREEN FRUITS—Lemons, \$3.50/\$4.00; oranges, \$1.50; Ontario grapes, \$1.50 per basket of 10 lbs. 65¢; pears, \$0.75 per local; Oregon pears, \$1.50.

FRUIT—Peaches, 25¢; apricots, 25¢; cherries, 25¢; plums, 25¢; granulated, 4¢/lb.; extra C, 35¢; yellow, 35¢.

LEAVES—Burdock, 10¢; dandelion, 10¢; gal. kegs, 25¢; 5 gal. tins, 11.75 each; 1 gal. tins, 25¢; 10 gal. case of 10; 15 gal. tins, \$3.25 each.

HARDWARE—Bar iron, base, \$3.00.

Horse shoe nails, discount 50 and 10 per cent; horse shoes, kegs, 5¢; nail base price, 5¢; wire, 5¢; wire mesh, 5¢; Manila wire, 2¢; lead, 17½¢; putty, \$3.50; barbed wire, 45¢ per 100 lb.; glass, first break, 95¢ per 100 feet.

B. C. BUSINESS NOTES.

Diamond Bros. are establishing a general store at Goldfield.

Jas. Legg has succeeded to the bakery business of H. E. Maycock, at Chilliwack.

H. H. Lalonde and Geo. Chey have made an arrangement with Slemon City whereby they receive encouragement to erect a large sawmill at that point.

The Revelstoke Lumber Co. is erecting a large addition to its mills at the Big Eddy. The timber company, now in contemplation, when completed will make the Big Eddy mill one of the most important in British Columbia.

The inland revenue returns for Victoria division during the month of October show a fall of 20 per cent., \$914.38; mail, \$1,043.72; manufactured tobacco, \$2,127.75; raw leaf, \$432.20; cigars, \$962.42; methylated spirit, \$40.63; total, \$14,709.48.

Two new companies have

been incorporated in British Columbia:

The Rosella Hydraulic Mining & Development Company, Limited; capital, \$250,000. The Western Corporation, Limited; capital, \$10,000.

The following extra provincial companies have been registered. The Belcarra Coal, Pulp & Paper Company; capital, \$100,000. The head office of the company is at Tammisla, and the head office in British Columbia, at Victoria. The North Fork Placer Company; capital, \$75,000. The head office is at Spokane, and the local office at Erie.

Weather and Crops.

The coldest weather, which set in on Saturday last, has continued all this week. Fall plowing may be said to have come to a standstill since the frost all over the country, by reason of frost in the ground. More snow has fallen this week, but there is not enough frost to bind it, and snow continues to fall in some districts where the fall of snow was heaviest. Threshing is going on in districts where the work has not yet commenced, and in some cases many of the machines have finished for the season to-day, which will doubtless make sleighing.

Skipped Out.

W. J. Lawson, who has been running a fruit farm at Macgregor, Man., since last June, disappeared last Friday, leaving a number of creditors, principally Winnipeg wholesale houses in the lurch. Lawson bought the business of J. F. Potts at Macgregor, June 1, last, and since then has been gradually working accounts up until various wholesale fruit houses until the time of his disappearance had been over six months' run and numerous private bills. The worst part of his failure is the fact that before leaving he settled his debts and was forced to sell his stock to other parties, having them removed under cover of night. The exact destination of these loads has not yet been made known, but it is supposed that he is making his way to Prairie. What goods he left in the store were seized by the landlord for rent, and were sold at auction on Thursday. Lawson is a young man, and his early downfall is to be re-

gretted. It is the result of unsteadiness of habit. He lately had a course in gold core institute at Winnipeg, but the place does not seem to have helped him. His present whereabouts is unknown.

Movements of Business Men.

Geo. Wedlake, assistant manager of the Cockshutt Plow Co., of Brantford, Ont., was in Winnipeg on a business trip a few days ago. Mr. Wedlake has been in the west nearly four months, and is pleased to note the great advancement being made in the metropolis. Through the large increase in the population of the country, Brantford, his firm hopes to be able to take care of its western trade much better in the future.

C. H. Waterous, president and general manager of the Waterous Engine Works, Co., Brantford, Ont., was in Winnipeg for some days last week. Mr. Waterous visits this branch every year. He was well pleased with the results of his inspection this time and said what he hoped would be a westward connection of his company is becoming more important each year. The new building erected recently to serve as an office and warehouse is expected to do greatly increase the facilities for doing business.

At Thursday's meeting of the Ontario cabinet the proposals of a syndicate represented by J. F. Egan, of Rock Island, Illinois, and Judge U. G. of Chicago, plan to acquire agricultural lands in New Ontario, was accepted, and an agreement will be signed in a few days' time. The government will set apart 20,000 acres of crown land in fractional sections from time to time according to the needs of the company. The settlers will come in on the usual terms and the syndicate proposes to give preference to those who will pay them for the dues on the land, for erection of buildings, and for the purchase of stock. The agreement contains special safe guards as to the character of settlers to be brought in.

For Yourself —

You choose reliability and endurance when it comes to building —

Choose the Same For Your Customers

Then you are certain of harmonious conditions and ever increasing sales and prestige.

We make every conceivable need in SHEET METAL BUILDING MATERIALS.

Honest, capable goods that give the acme of artistic effect, as well as enduring reliability. With our lines in stock, you'll never have an apology to make to your customers.

Consider—these things count for much. Full stock kept at Winnipeg warerooms. P. O. Box 542.

MONTREAL.

WINNIPEG.

STATISTICAL WHEAT REPORT.

WHEAT IN CANADA.

Stocks of wheat in Canada at principal points of accumulation are reported as follows:

Montreal	23,000
Toronto	21,000
Depot Harbor, Ont.	61,000
Quebec	10,000
Kingston	55,000
Port William, Port Arthur and Kaslo	24,000
Winnipeg	240,000
Manitoba elevators	9,500,000

Total Nov. 1 12,663,000

Total previous week 12,500,000

Total year ago 8,200,000

BRADSTREET'S REPORT OF STOCKS

Total stocks in the United States and Canada east of the Rocky Mountains, as reported by Bradstreet's Nov. 1, were \$2,400,000 bushels, against \$2,615,000 bushels the previous week.

Total stocks in the United States and Canada west of the Rocky Mountains, according to Bradstreet's report.

Stocks of wheat at Pacific coast ports on Nov. 1 were 17,000,000 bushels.

The Chicago visible supply statement of stocks in the United States and Canada, east of the Rocky Mountains, for the week ending Nov. 1, showed no bushels, an increase of 13,886,000 for the week. A year ago the visible supply was 41,000,000 bushels, two years ago 40,200,000 bushels, three years ago 19,964,000 bushels, four years ago 31,973,000 bushels.

STOCKS OF OATS AND BARLEY.

The visible supply of oats in the United States and Canada east of the Rocky Mountains is 7,632,000 bushels, compared with 7,79,000 bushels a year ago. The visible supply of barley is 1,000,000 bushels, compared with 12,641,000 bushels a year ago, according to the Chicago statement.

WORLD'S WHEAT STOCKS.

Stocks of wheat in the United States and abroad for Europe Nov. 1 in each year for a series of years, were as follows—Bradstreet's report:

	Bushels.
1902	137,000,000
1903	160,000,000
1904	166,000,000
1905	159,000,000
1906	159,000,000
1907	111,000,000
1908	162,000,000
1909	76,988,113
Total	82,649,443

WHEAT MOVEMENT.

The following table gives the receipts of wheat at the four principal United States spring wheat markets, from the beginning of the crop movement, Aug. 1, 1902, to date, compared with the same period of last year:

	This Crop Last Crop.
Minneapolis	35,759,728
Milwaukee	34,453,204
Duluth	21,993,767
Chicago	20,311,308

The following table gives the receipts of wheat at the four principal United States spring wheat markets, from the beginning of the crop movement, July 1, 1902, to date, compared with the same period of last year:

	This Crop Last Crop.
Toledo	9,224,212
S. L. Louis	5,358,239
Pottsville	1,710,421
Kansas City	16,413,000

Total 48,553,571 35,921,616

GRAIN STOCKS AT LAKE PORTS.

Fort William.

Stocks of grain in C.P.R. elevators at Fort William on Monday, Nov. 10, were as follows:

Wheat—No. 1 hard, 49,000 bushels; No. 1 northern, 50,000 bushels; No. 2 northern, 15,000 bushels; No. 3 northern, 2,000 bushels; other grades, 84,500 bushels, making a total of 2,062,915 bushels.

Oats—No. 2 white, 70,542 bushels. Barley—None.

Receipts of wheat at Fort William during the week amounted to 1,451,820 bushels; and shipments to 1,043,730 bushels.

Receipts of wheat at Fort William, on Nov. 10 were: No. 1 hard, 1,000 bushels; No. 1 northern, 15,300 bushels; No. 2 northern, 281 bushels; other grades, 129,000 bushels; total, 172,655 bushels.

Oats—None. Barley—None.

Receipts at this elevator for the week totalled 39,014 bushels, and shipments, 21,800 bushels.

Stocks are grain in store at the Canadian Northern elevator at Port Arthur on Nov. 10 were as follows:

Wheat—No. 1 hard, 152,116 bush-

els; No. 1 northern, 210,824 bushels; No. 2 northern, 104,242 bushels; No. 3 northern, 26,124 bushels, no. 4, 15,429 bushels; feed, 6,408 bushels; rejected, 8,178 bushels; making a total of 522,363 bushels.

Oats—No. 2 white, 1,512 bushels feed, 1,605 bushels; total, 3,117 bushels.

Barley—1,295 bushels.

Receipts of wheat for the week were 434,767 bushels, shipped during the week, 471,965 bushels.

From these figures it will be seen that the three elevator plants received during the week 1,895,667 bushels of wheat and shipped 1,537,914 bushels. During the previous week receipts amounted to 1,895,667 bushels, and shipments to 1,752,453 bushels.

Winnipeg Grain Inspection.

During the week ending Nov. 7 there were inspected at Winnipeg 2,221 cars of grain, comprising the following:

Wheat—No. 1 hard, 887 cars; No. 1 northern, 682 cars; No. 2 northern, 308 cars; No. 3 northern, 173 cars; No. 4, 37 cars; rejected, No. 1, 16 cars; rejected, No. 2, 12 cars; no grade, 1 car; feed, 6 cars; canister, 2 cars; making a total of 2,130 cars.

Oats—Extra, No. 1, 30 cars; No. 1 white, 30 cars; No. 2 white, 14 cars; No. 3 white, 3 cars; 2 mixed, 3 cars; feed, 2 cars; rejected, 0 cars; total, 57 cars.

Barley—No. 3 extra, 1 car; No. 3, 0 cars; feed, 2 cars; rejected, 0 cars; total, 3 cars.

Flax—No. 1, 24 cars; No. 2, 4 cars; rejected, 1 car; total, 29 cars.

The total number of cars of grain inspected as above was 2,221, of which 1,908 cars were on the C. P. R. and 553 on the C. N. R. roads.

For the previous week the returns included 2,879 cars.

The foregoing figures bring the total inspection up to 1,908 cars for the week of September, the beginning of the crop year, up to 15,576 cars, which, converted in bushels, gives a total of 15,200 bushels exported to Nov. 7.

A year ago the total for the week was 2,492 cars, and two years ago, 741 cars.

Manitoba Wheat Stocks.

There were 2,758,933 bushels of wheat in store at Fort William and Port Arthur on Nov. 10, 1902. For the week the 2,125,007 bushels, and shipments 1,537,914 bushels. A year ago stocks in store at Fort William were 1,464,671 bushels. Stocks in store at Fort William, Port Arthur, Keewatin, Winnipeg and interior points are estimated approximately at 1,905,000 bushels, compared with 7,513,000 bushels a year ago. 3,000,000 bushels two years ago, 7,250,000 bushels three years ago, and 3,500,000 bushels four years ago.

Grain and Milling.

Excavation work has commenced on the foundations for a new flour mill at Medicine Hat, Assa.

J. S. Larke, Canadian trade commissioner to Australia reports that one million bushels of oats could be disposed of if they could be imported in Australia in four months' time.

The Dominion government announced on Tuesday that in order to facilitate the entry of grain on the Great Lakes navigation on the great rivers I will keep the upper lake light houses in commission until December 12. This will assist in securing an extension of the insurance season and may prolong the grain shipping season to that extent.

The Canadian Pacific Railway Company has issued a new tariff sheet quoting rates on wheat to Duluth, Minneapolis, etc., via the Soo line, from certain points in Manitoba and the territories only. From Grand Falls and points west to Duluth, the rate of 19 to 21 cents is quoted. From points on the Prince Albert branch to 20 to 21 cents. From points west to Estevan, 18 to 19 cents. These are the only points from which quotations have been made. It is understood that the rates shown apply only to foreign grain cars, which would otherwise return empty from the Canadian Pacific Railway points named. late western business items

Negotiations have been renewed between the town of Fort William and

The Ogilvie Flour Mills Co. for the erection of a flour mill at that place. The town of Grand Falls will be supplied with a mill there. This arrangement was not carried out, owing to the death of Mr. King.

The agreement, says a report, was that the town bought the land and built the mill there, on which to build mills and an elevator, work would be proceeded with by the company. Now the company failed to fulfil the agreement, the town will be granted \$25,000, and at the time received \$25,000, which was placed to the credit of the town in the bank by the company. Now the town will receive an extension of time, and will forfeit \$25,000 if they fail to fulfil the contract in that time, but they will be in possession of the site.

Toronto Wholesale Trade.

Special to The Commercial.

Toronto, Nov. 15.

Dry Goods.—Cold weather early in the week stimulated the demand, but mildness later checked the movement. Staples are firm. Blankets are scarce and dear. Sateens and linings are scarce.

Hardware—Good demand and prices generally are firm.

Groceries.—Trade is good. Refined sugars were 5¢ lower yesterday. Caned vegetables are firm. Stocks of domestic are excellent. Potatoes are down from 96¢ to 41¢. Ontario granulated beet sugar offers at \$3.78 per bag, and at \$3.75 in Montreal.

Toronto Grain and Produce.

Special to The Commercial.

Toronto, Nov. 15.

Deliveries of winter wheat were light. Red sold firmer at 98¢. Manitoba wheat is higher than a week ago. Flours—Wheat Barley is higher. Wheat is 1¢ higher.

Wheat—Offered for new, red and white, middle freights; spring wheat 61¢ east; white 61¢. Oats, 10¢ lower for No. 1 hard. 82¢ for No. 1 northern, and 80¢ for No. 2 northern, grinding in transit.

Oats—No. 2 white, Ontario, 32½¢ east.

Barley—No. 3 extra is quoted at 44¢ and No. 3 at 40¢ east or middle freight.

FLOUR—per cent, Ontario patents, \$2.67½ to \$2.72½, in bags, m.s., the freights. Manitoba are about 15 to 20¢ higher. Manitoba flour is steady at \$1.40 for Ogivie's Hungarian patents, and \$3.80 for Glenora, in can bags, buys immediate.

MISCELLANEOUS.—Shorts, 15¢ per ton, and bran \$1.35 per ton, middle freights. Manitoba feed, \$1.19 for cars of shorts and \$1.17 for bran. 10¢ per ton.

Carrots—\$1.00 for cars of bags, and \$4.10 in wood for carrots, Toronto.

Hay—Carrots on track, \$9 to \$9.25 per ton for No. 1 timothy.

Eggs—Duck eggs are laid, 18 to 18½ per dozen; seconds 15 to 15½.

Butter—Dairy, pound rolls 17 to 18¢; tubs and pails 16 to 17¢; medium 14 to 16¢; large tubs, choice, 19 to 20¢; prime 20 to 21¢.

Cheese—11½ to 12½¢ for job lots. Hides—Sc for No. 1 green cows: No. 1 steer, 70¢; lambskins, 10¢ for No. 1 and for No. 2; lambskins, 6¢ each; tallow, 6½ to 7¢.

Wool—Washed fleece, 14½¢; unwashed, 7½¢.

Bacon—\$2.25 per bushel for job lots of hand picked, and \$1.75 to \$1.90 for unpicked.

Apples—Evaporated, 6½ to 7¢.

Maple Syrup—per pint, imperial gallon, in bulk or gallon tins.

Honey—8 to 8½¢ per gallon in bulk; in frames, \$1.60 to \$1.75.

Potatoes—French beans, dressed, 50 to 70¢ per pair; ducks, 50 to 75¢; turkeys, 9 to 11¢ for young birds.

Potatoes—\$1.00 to \$1.25 per bag.

Montreal Grain and Produce.

Special to The Commercial.

Montreal, Nov. 15.

Bran is dearer for Manitoba. Cheese has advanced 3¢c. Creamery butter is 1½¢ higher. Hogs are 1½¢ lower.

Hops—Wet weight, \$8.50 to \$8.75 for best weights of abattoir stock; country killed, \$7.75 to \$8.

Potatoes—Carrots, 65¢ to 68¢ per bag for choice qualities.

Dr. Thomson has disposed of his drug business at Waskada to C. F. Hassfeld, of Manitou, formerly of Winnipeg.

Montreal Live Stock.

Special to The Commercial.

Montreal, Nov. 11.

At the East End abattoirs on Monday receipts were 600 cattle and 900 sheep and lambs.

A much milder feeling prevailed in the market for cattle and a slight advance in price took place. Good steers sold at 4½ to 4½¢; fairly good meat at 2½ to 3¢; and inferior at 2 to 2½¢ per lb.

A fair trade was done in sheep and prices ruled steady at 2½ to 3¢, and inferior at 3½¢.

There was no actual change in the market for live hogs, for which the demand was fair, and sales of good to choice lots were made at 7½¢ to 9¢ per lb.

THURSDAY'S MARKETS.

Montreal, Nov. 14.

At the East End abattoirs on Thursday receipts were 300 cattle and 400 sheep and lambs.

Cattle were firmer. Best, 4 to 4½¢; good, 3½ to 4¢; and inferior at 2 to 2½¢ per lb.

There was no actual change in the market for live hogs, for which the demand was fair, and sales of good to choice lots were made at 7½¢ to 9¢ per lb.

Toronto Live Stock Market.

Special to The Commercial.

Toronto, Nov. 12.

Receipts at the stock market yesterday included \$3 loads, 1,355 cattle, 1,650 sheep and lambs, and 147 hams. Shorter Cuts—The market was active. Prices were steady, and two loads of very fine beasts sold at \$5.10 per cwt.

Butchers' Cattle—There is a steady call for cattle, and prices for this class are firm. Choice picked cattle of medium weight are selling at \$4 to \$4.50 per cwt., and good loads are sent in at 7½¢ per cwt. Hogs are to medium loads sell at \$2.25 to \$3.00 and common hogs at \$2.50 to \$3.

Feeders and Stockers—Short—keepers are scarce and firms selling well. Selling prices are firm. Stockers are steady, with a smaller percentage of the rough, inferior grades.

Sleep and Lambs—There was a heavy run on the market yesterday, and everything was sold. Sheep were steady, and lambs were 25¢ higher at \$2.25 to \$3.75 per cwt.

Hogs—Run well, and prices for choice and prime hogs at \$3.50 for lights and fats, and \$3.75 for lights and fats, and \$4.50 for lights and fats, and \$5.00 for lights and fats.

FRIDAY'S MARKETS.

Toronto, Nov. 15.

Receipts at the stock yards yesterday were 92 cars, including 3,000 sheep and lambs, and 2,000 hogs.

There was a better demand for export cattle owing to later date of arrival, and more buyers offering who were quickly sold at firmer prices. The ruling figure was \$4.00 to \$4.45. Butchers' cattle were in better demand, and sold at \$3.75 to \$4.25 per cwt.

Feeders and stockers were in light receipt and good demand at unchanged prices. Sheep were in good demand at Tuesdays' market, and sold at \$2.25 to \$3.50 to \$3.75. Calves, \$3 to \$10 each. Hog sales at 7½¢ to 8¢.

Hogs and Hog Products.

Special to The Commercial.

Toronto, Nov. 15.

Hog products are in moderately active demand, and 1½¢ lower than a week ago. Sheep were 25¢ to 30¢ less at \$2.40 to \$2.50 per cwt.

Butchers' cattle were in better demand, and sold at \$3.75 to \$4.25 per cwt. Feeders and stockers were in light receipt and good demand at unchanged prices. Sheep were in good demand at Tuesdays' market, and sold at \$2.25 to \$3.50 to \$3.75. Calves, \$3 to \$10 each. Hogs at 7½¢ to 8¢.

Duluth Wheat.

Special to The Commercial.

Duluth, Nov. 15.

What is Bird's Eye Maple?
(Scientific Name)

"What is bird's eye maple?" That is a question which now seems to be baffling not only people who use furniture made of this particular wood, but even woodworkers themselves. In a recent number of a woodworkers' magazine there was an article published which stated that bird's-eye maple was not a peculiar maple, but simply ordinary maple cut in a certain way. In a recent issue of the New York Sun it is there stated that the authority of woodworkers, that bird's-eye and curly maple are cut only from logs of the rock maple tree, Acer saccharinum, in which a knot hole or a graft is produced by the sinuous course of the fibres. This tree is not at all the common hard maple. It is a hard maple, but is of a very grainy called. Men looking for bird's-eye maple go through the standing timber and pick out the bird's-eye maple trees, paying for them \$30 to \$40 thousand feet in the woods. Ordinarily, bird's-eye maple logs are worth only from \$6 to \$7 a thousand feet. It would be impossible to cut a piece of wood with eyes in it from a common hard maple log, and it would be equally impossible to cut a bird's-eye maple log, no matter how you cut it, so that it would not show the eyes.

The Manufacturers Association has issued a circular flatly denying the report published in certain party papers to the effect that the association was raising a fund to establish papers and for other political purposes.

WANTED TO BUY—All species of large birds (not to be cut to shoulder), White Crane, Swans and all rare birds

The wheat situation at Minto, Man., and the Canadian Northern Railway has become serious. The elevators have been blocked for some weeks.

It is said that the world cannot expect to see great general offering the wheat once in a century. The country seems to have outgrown that rule for certainly the great "Captains of Industry" have all the qualities of leadership and the roll of their names is long. The lives and works of them are described in the November Cesmopolitan—James R. Keen, the astute stratege, 10 Wall Street; Robert H. Coates has advanced the art of printing as far as Gutenberg himself did in his day; Winfield Scott Stratton, the carpenter, who uncovered the secret of the Colorado mountain; Tom Johnson, the singular compound of idealism and business, and Ferdinand William Roebeling, who can cross the continent by five different routes without losing sight of the wires by which he has bound the most distant communities together.

Winter has come in earnest at last, and there will be a big demand for **Underwear**. Merchants will require to watch their stocks closely to see that they do not run short. If you require to supplement your stocks in this line give us the favor of a trial order. We have the largest and finest lines of **Underwear** to be found anywhere in this country, and our prices are right. Orders by wire or mail will be promptly attended to.

Our Mr. S. C. Matthews and Mr. A. Talbot are now covering their usual routes in the West.

A strike at the mines of the Nova Scotia Coal and Steel Company is reported to have started and the miners gave the company notice that unless their demand for an average increase in wages of 10 per cent. was acceded to them they would strike Nov. 10.

Prof. James W. Robertson, Dominion commissioner of agriculture, returned to Ottawa on the 2d and after a four weeks' tour in British Columbia, the Northwest and Manitoba. He reports that agriculture is prospering greatly throughout the whole Dominion.

THE COMMERCIAL

Harry Kite Passes Away.

News of the sudden death of Harry Kite was received with regret by many friends among the commercial and business men of the west. The sad event took place at the Clarendon hotel, Winnipeg, on Saturday evening last, from heart failure. Mr. Kite had

and much of this time has been spent in the west. He was not only one of the most widely known, but one of the best liked of western travellers.

The remains were sent east to Hamilton where his widow, relatives and friends accompanied to the depot here by many friends. The pallbearers were: Alex. Munro, Chas. H. Ross, W. McMath, R. McLean, Robt. G. Lucas and El. Duncanson, all former Hamiltonians. Mr. McMath accompanies the body to Toronto, where a representative of the W. E. Sanford Co. will take charge in behalf of the firm. Services, beautiful floral tributes were also taken east, including those from commercial travellers.

The Commercial Men.

H. F. Murray, of the Redding Shoe Manufacturing Co., left Monday morning for Winnipeg from a trip in the west, and will remain in the city for the balance of the year. He has taken quarters in the Ashburn block. Main street. James L. Abbott, of the same company, was in the city this week, but went out later on a provincial trip.

There will be no voting at the Dominion Commercial Travellers' Association's meeting this year, a circumstance unique in the history of the organization. All the officers are elected by acclamation. They are as follows: President, J. Robinson, re-elected; vice-president, George Mann, re-elected; treasurer, Patterson, re-elected; P. J. Faradis, R. Booth, Jr., S. A. Agnew, dinner committee, L. O. Demers, Leesour, Beauchamp, Mann, Dwyer, Cote, MacLennan, Aspinwall, Patterson, the others, Patterson, Peter, Lafeyette, Gall and Evans. The annual meeting is being held to-night.

S. D. R. Fernie, western representative of the Hudson's Bay Trading Co. and dealer other lines of clothing, etc., returned on Tuesday from a flying trip to the east, in search of goods. Mr. Fernie and his wife have far exceeded any former year, and his trip east was to try and hasten the factories in supplying more goods. He found the factories every where rushed with business and unable to fill their orders. In almost every branch of

trade, he says, manufacturers are working to their utmost capacity and cannot then fill their orders.

Railway and Traffic Matters.

The C. P. R. is putting into force a system of superannuation for its old employees.

forty-three miles of railway grading from Grandview will be completed by the end of the month.

The C. P. R. freight office at Winnipeg has been removed into the old Temperance house building, opposite the depot.

The Canadian Northern Railway Company's new line between Winnipeg and North Dakota was formally opened on Wednesday.

The change in gauge of the branch railway from Lethbridge to Great Falls, Montana, is expected to be completed by the end of the year.

A wreck occurred on the Canadian Northern Railway near Fisher's Sliding on Thursday, in which the engine and twenty "flats" were ditched. No one was hurt.

The freight department of the C. P. R. reports that a heated car service will be put on from Calgary, taking in the C. & E. road, the Crow's Nest Pass and Kootenay points.

A very large order for steel rails has been placed by Mackenzie & Mann for the construction of a line in Germany. The order is said to call for 35,000 rails, enough for 350 miles of track, and is valued at something over a million dollars.

The Valdez, Copper River and Yukon Railway has been incorporated at Valdez to construct a line from Valdez, through the Copper river valley to Eagle City, about 100 miles from Dawson City. The proposed road will be about 400 miles in length.

It is said that the United States locomotive manufacturers are in favour of the plan to move the Kingston locomotive works to Montreal. The intention is to use the Canadian works largely for exports as wages and other expenses are lower in Canada than in the United States.

Surveys have been completed for the construction of the Alaska Central Railroad, from Resurrection Bay, on the southern coast of Alaska, to Fairbanks City, on the Yukon River. Construction will commence next year. The location surveys claim to have found large fields of hard coal.

The offices of the White Pass and Yukon Railway have been removed from Skagway, B. C., to Juneau, Wash. The attention of the Dominion minister of railways has been called thereto by the Vancouver board of trade, it being alleged that in a violent manner the companies of the Dominion.

Donald Cameron, railroad contractor, who has been working on the construction of the St. Laurent branch of the Canadian Northern, has returned and reports that 42 miles of that road, from the junction point with the old Hudson's Bay grade to Oak Point, on Lake Manitoba, has been completed. He leaves for Rainy River this week to take out ties.

It is reported that the C. P. R. has six closely constructed for four fast steamers to ply up the Atlantic ocean in connection with its trans-continental traffic. The board of the company was given power to do this at the recent annual meeting. The old Hudson's Bay grade is to be abandoned. It is also reported in this connection that the company will add two vessels to its Pacific fleet next year.

A new lake steamboat line, in which a number of Toronto gentlemen are interested, to be known as the Georgian Bay and Lake Superior Navigation Company, has been organized and expects to have steamers running for the next season of navigation. Collingwood is to be the headquarters. The company, it is said, has secured options on three practically new steamers, now trading on the Baltic Sea.

Owing to the drought, says the Melbourne correspondent of the London Times, it is estimated that Australia's exports for the ensuing year will not exceed £15,000,000. It will also be necessary to import £1,500,000 worth of foodstuffs.

THE LATE HARRY KITE.

returned only a few days previously from a provincial trip, and intended leaving for his home at Hamilton, Ont., but was detained through illness, which proved fatal. While indisposed he was not considered seriously ill until Saturday afternoon.

Mr. Kite was one of the best known of western travellers. He has been with the W. E. Sanford Manufacturing company for over twenty years.

To the Merchants of Western Ontario, Manitoba, North West Territories and British Columbia:

**WINNIPEG AGENCY :**

285 MARKET STREET

P. O. Box 240

Dear Sirs,

I have now in stock at my Warehouse, 285 Market Street, Winnipeg, the largest and most complete line of goods in the West, consisting of:-

Gloves, Mitts, Moccasins and Socks

I have four travellers now covering Western ground. If any of them should fail to reach you, by mailing order direct to Winnipeg you can feel assured of prompt shipment.

I remain,
Yours truly,

Lumber Trade Notes.

It is estimated that the hardwood lumber stock of the United States is five hundred million feet less than was a year ago. This is a shortage of about 10 per cent. Advances in prices are looked for.

According to Dominion government returns, importation of lumber from the United States into Manitoba have decreased largely within the past year. The Canadian and Northern Ontario mills have captured the trade, especially in shingles.

D. C. Cameron, head of the Rat Portage Lumber Company, stated in Winnipeg this week that work on the new mill at the Red River opposite Winnipeg will be continued throughout the winter with the expectation of having it ready for operation by spring.

Nat Keith, railway contractor, who has been engaged in the construction of the Canadian Northern Railway from Dauphin west, has received an important contract. During the coming winter he will take care of 300,000 ties for use on the railway. The work will be done along the C. N. R. line between Erwood and Crookston.

W. H. Cook, president of the Duluth, Virginia and Rainy Lake Railroad, has become a very large owner of standing timber in Northern Minnesota. His personal holdings are now over 1,000,000 acres, and with his business associates he holds 250,000,000 feet more, all tributary to this railroad. The road is to be built through to Kindersley.

The property of the MacLaren-Ross Lumber Co., in British Columbia, has been sold in three separate parcels two of which were brought in by J. C. Ross, formerly of the same firm. The third was secured by H. L. Jenkins, head of the H. L. Jenkins Lumber Company of Minneapolis. The total property is said to be 75,000,000 acres on which part of which there is a well equipped saw mill, with accessory buildings. The whole property sold for \$1,000,000.

The C. P. & N. P. Lumber Company at Wardner, British Columbia, has a paid up working capital of \$100,000, and owns 50,000 acres of timber land on the Kootenay river. It is now engaged in erecting a mill at Wardner, which, when completed, will cut 200,000 feet of lumber per year. The lumber company is composed of P. Lund and John Breckenridge, railroad contractors, formerly of Nelson, and Nelson Gordon and Alfred Daykin, owners of a Fort Steele. The company is now establishing several large logging camps along the Kootenay river, and will employ about two hundred men in the woods during the winter months.

A recent report to the crown lands department of Ontario indicates that the present is to be the best season that the Ontario Ontario lumber woods. There are 16,000 men in the woods between Mattawa and Sault Ste. Marie, 3,500 of which are in the vicinity of Sudbury alone. The forests of that territory were equally crowded. Many limits on which cutting has taken place for years are now yielding their portion over to the lumbermen. The lumbermen in connection with building operations. In Western Ontario it has been found necessary to import hundreds of French Canadians from as far east as Quebec, at rates from \$25 to \$35 per month and board, and many who are mere lads are paid from \$20 to \$22 a month.

Live Stock Trade Notes.

During the week ending Saturday last 2,902 head of cattle were shipped from Montreal to the old country.

The exports of live stock from the port of Montreal for the month of October were 5,896 head of cattle, and 7,197 sheep, and the total shipment for the month to date was 64,808 cattle and 38,561 sheep, which shows a decrease of 2,896 cattle, and a decrease of 2,854 sheep, as compared with the same date last year.

A wire from Regina on Monday said: Twenty-four head of grade cattle from the ranges near Regina are being brought here and fed for export. This week they were exhibited at the Guelph annual fair. It is an experiment to ascertain whether cattle fed on the ranges of the Territories

can be profitably finished here for the British market.

An exchange, summarizing the reports of the Chicago slaughter market, for the following year, states: "This proves that even in the mature beef cattle coming from this country a very small per cent, are in any way affected with tuberculosis. When cattle are kept in natural conditions and reasonable precautions taken in buying the bull free from tuberculosis, it may be said to be a cow disease; and it is said to be a cow disease, a dairy cow disease; in other words, a stable disease, decreasing and increasing in all parts of the world in proportion to the development of the stock in stability and in the stability in inverse proportion to the degree of pure air furnished by the ventilation."

The Chicago Drovers' Journal says: "The recent increase in the market value of fat cattle has caused a demand for stockers and feeders. This is the natural result of a bad break, for many feeder buyers have been compelled to pay prices proportionately too high. The prices for fat cattle have been expected for some time, and those who are in the feeding business have endeavored to hold back their cattle until they would be radically different by the time they had their cattle ready for market. The drift toward a lower level has finally been heard, and the probabilities are that both stockers and feeders will have to descend a good many points before country buyers will feel like taking hold freely."

McAllister & Watt's Stock.

McAllister & Watt's, wholesale dealers in paper and stationery, Winnipeg, are showing a fine range of goods for the holiday trade this year. This firm has not hitherto departed from staples in its catering to western trade, but this year it has been able to offer a splendid range of toys and fancy goods from the best markets in the world were placed in stock for the benefit of the many foreign customers of the house. A commercial representative was shown the samples of many of these lines a few days ago and found them to be such as will meet the taste and requirements of the most particular buyers. Nothing but the most reliable goods have been taken into this stock. A few of the leading lines are purses, wallets, pipes, kid gloves, umbrellas, organ-grangs, clocks, brushes, dolls, games, albums, fancy stationery, etc. Each of these lines is represented by a range covering all degrees of qual-

ity and cost so as to suit the varying tastes of buyers. In nearly every case there are specimens of goods easily recognized by the house, and which is noted for excellence of quality and low price. For instance, in these cases they have a line of fancy jars containing various kinds of preserves, which are remarkably low. In particular, they have a particularly pleasing display.

Besides this stock of holiday goods McAllister & Watt's are showing a line of art calendars which for finish and general excellence will compare with anything shown in this country. They are the most popular printed States facts calendar, and are about as attractive as calendars can be made.

The handling of these holiday lines has become necessary with McAllister & Watt's, after offering many years

of service to their customers all over the West, and the demand from these for other lines of stationery besides the staples in which the firm has concentrated attention in the past. The firm is greatly pleased with its success in handling wrapping paper, bags and other staple lines and its still making these its leaders, but fancy goods have been demanded by their trade and had to be supplied. In wrapping paper they have built up a large trade. The only difficulty is to get stock fast enough.

Tenders.

The provincial treasurer of Manitoba is offering \$8,400 of 4 per cent, drainage debentures for sale. Bids are to be sent in by Dec. 1. To the Department, Winnipeg.

The municipality of Glenwood, Man., is offering \$8,000 of 4½ per cent, de-

bentures for sale by tender. Bids must be in by December 1, to J. W. Brown, Esq., Mayor.

The general store business of F. W. Foster, carried on at Ashcroft and Clinton, B.C., is offered for sale as a going concern, by tender, by Dec. 31. Apply to Hugh Davidson, Ashcroft.

Tenders for the supply of 3,000 bushels of clean white feed oats, addressed to the chairman of the fire, water and light committee, Winnipeg, will be received up to 8:30 p.m. on Monday, Nov. 30th inst.

The United States leather market is steady and there are no special features. The strong feeling in hides makes leather men say that they make no profit and they are not accumulating any stocks at present.

It is reported that the United States steel corporation is to build 1,000,000 worth of new steel ships to fit on the great lakes. The vessels will be 20 in number and will be larger than anything now on the lakes. They will be built at Duluth, Minn., and will be carrying trade vessels capable of handling 130,000,000 bushels of wheat per season.

Advices from the east of recent date state that turkeys for the holiday trade will be scarce this year, probably because conditions killed off a number of the young birds and in some important districts the number in sight is not more than one-half the usual number. Large orders have already been placed for western account, especially from British Columbia, and there is also good demand from foreign places for Canadian turkeys.

**SAFES**

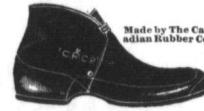

Built by the Goldie & McLoch Co., are thicker in the walls, and are more fire-proof than any other make.

THE CANADIAN RUBBER CO. OF MONTREAL

WINNIPEG BRANCH, P. O. Box 253.

Development at the Sault.

(From the Toronto Globe.)

The celebration at Sault Ste. Marie on the opening of the power canal of the L. & G. R. R. For the company brings into prominence the wonderful industrial development with which Mr. F. H. Clergue's name is associated. The Sault Ste. Marie enterprise has often declared that the advantages offered at the Soo cannot be duplicated in the world, and it has given many practical demonstrations that its development is in capable hands. The definite announcement that for the next ten years an average sum of \$30,000,000 will be spent in the development of the Soo industries shows a determination to take full advantage of the opportunities which have been supplied by the general state of the Soo development has often been told, but the remarkable manner in which each enterprise has opened up was far more than almost the interest of a romance. A power canal was the first enterprise, and after it was developed the problem of a market led to the establishment of sulphide-pulp factories. The requisite chemicals for producing sulphide pulp were sought in the ore deposits in the district, with results in extensive mining enterprises. Smelting, railway building, rolling mills, chemical works, and many industries necessary to a profitable disposal of by-products followed, every thing being undertaken on a massive scale, that fully attested the confidence of the investors. The enterprise on the American side, while some \$25,000,000 have been invested, are the growth of about eight years, and the site of these works, where some time ago no one turning out steel rails and structural material, was but a year ago virgin forest. The place has grown from a town of 1,000 to a city of approximately 12,000 inhabitants, and the pay roll is now about two and half millions a year and rapidly growing. The allied companies have invested \$11,700,000, an increasing army of men at Mr. Clergue's disposal.

After the first power canal had been established and turbines giving 20,

000 horsepower set up, the pulp mills followed in a successful series. The mills of the Pulp & Paper Company are the largest pulpmaking plant in the world, and they are now using 1,000 tons of dry pulp in a day. The need of machinery for producing dry pulp led to the establishment of the machine shop, which output of sulphide pulp is valued at a million a year. To make sulphide pulp, a higher grade, requires a supply of sulphite and to obtain it, experiments have been purchased. Chemical experiments not only solved the sulphite problem by treating this ore, but led to the establishment of a new department of metallurgical works. The nickel-steel product of the Gertrude mine being found too rich, the necessity for more iron arose, which led to the purchase of the Josphine mines were purchased. These are now in themselves extensive industries, and some of their output is shipped westward to the allied companies, down to steel rails, structural iron and machinery of various kinds. To obtain the alkali works were established and copper, the alkali and chemical works have been built. Railway development was necessary to keep the works supplied with raw materials, and to turn out the product of the iron mines, and now the extension of a line to James Bay is regarded as a project of the moment. There is also a plan to blast at the Soo a steel works and rolling mill, mechanical and sulphide pulp, reduction works, iron pots, machine tools, ships, steam and car works, while shipbuilding and other industries are in course of preparation. It is difficult to keep pace with this work, and it is proceeding rapidly along so many lines. It was recently announced that the allied companies had \$15,000,000 in their bank accounts, and the Manitoulin & North Shore Railway. The steamer line has four freighters of 2,500 tons burden, carrying ore between the lakes, and the Great Lakes, and the passenger and freight steamers, two of which run between Toledo, Ohio, and the Soo. Notwithstanding this great aggregation and an equally rapid development on the American

side, it is declared with the serious lack of authority that the serious works are but a beginning. Tube works, veneer and other factories, saw mills, shipyards, all will find their place in the future. In abundance nature has provided perpetual and immeasurable power. Judging by what has been accomplished within a few years, it would be but a question if Clergue's prediction of the growth of a city of 200,000 inhabitants.

CROP MOVEMENT AT TERMINALS

Inspector Gibbs' Statement of Grain Received and Shipped to Oct. 31.

According to the official records of Mr. F. Gibbs, inspector of grain at Fort William, the receipts and movements of this year's crop up to Oct. 31 at several elevators were as follows:

	Receipts.	Total.
Wheat—		
No. 1 hard	6,409,056.30	
No. 1 northern	3,005,143.30	
No. 2 northern	1,959,959	
No. 3	291,173	
No. 4	79,389.30	
Feed	1,419.00	
Dried	101,859.40	
No grade	89,847.40	
Total	10,821,207.50	
Oats—		
No. 1	39,317.62	
No. 2	35,532.12	
No. 3	2,215	
Rejected	1,136	
No grade	4,828.02	
Feed, white	11,040.10	
Total	86,005.00	
Barley—		
No. 3	2,406.42	
No. 4	1,531.35	
Rejected	1,136	
Total	7,130.12	
Flax—		
No. 1	11,022.04	
No. 2	682.12	
Total	12,365.16	

Of the total receipts of wheat up to Oct. 31, 1910, 20 bushels per elevator, 25,367.10 at the C. P. R. elevators; 2,000 bushels per elevator, 25,167.10 at the J. G. King Co.'s elevators; and 2,000 bushels at the Manitoulin & North Shore elevators. Of oilseed, the P. B. Co. paid 75,815.00 to J. G. King Co., 7,500.10, and the C. N. R. 3,685.18. The C. P. R. and C. N. R. got all the barley, the amount being

2,746.02 and 4,384.10 respectively; while the C. N. R. got all the flax, amounting to 12,533.16. Compared with last year the receipts show a large increase in the figures being as follows: 1909, \$229,532; 1910, \$389,220.

Shipments—

	Totals.
No. 1 hard	5,276,691.40
No. 2 northern	3,004,942.10
No. 3	1,500,000
No. 3 northern	167,837.10
No. 4	23,846.30
Feed	1,000.00
Rejected	12,681.40
Dried and scoured	127,935
Condensed	57,745.40
Total	8,819,041.30

	Totals.
No. 1	21,890.30
No. 2	75,781.22
No. 3	1,500.00
No. 2 mixed	1,568.04
Feed, white	19,431.20
Sample	5,745.40
Total	137,506.14

	Totals.
Burying	3,781.12
Feed	1,568.22
No grade	733.36
Total	5,881.32

	Totals.
Flax	1,018.02
No. 1	1,018.02

	Totals.
Wheat	1,018.02
There were shipped 6,849,753.20 bushels of wheat from the C. P. R. elevator; 307,747.50 from J. G. King & Co., and 1,661,585.30 from the C. N. R.	

Threshing is completed in the Pipestone district, Manitoba. The crop has averaged from 15 to 40 bushels per acre of wheat about 75 per cent. is going one hard.

A magazine thirty years old—The Christmas (December) number of The Delinester is also the thirtieth anniversary number. It has been modern writers and artists are humorously represented. The book contains over 230 pages, with 34 full-page illustrations, of which twenty are in two or more colors. The magazine for December, for which 723 tons of paper and six tons of ink have been used, may be understood from the fact that 91 presses running 14 hours a day, have been required to print it.

Canada Furniture Manufacturers Limited

Fancy Furniture

FOR

Christmas Presents

We are now mailing to our customers for distribution, copies of our little Catalogue of articles of furniture suitable for Christmas Presents. The booklet contains sixty-two cuts of various articles likely to attract the Christmas buyer to the Furniture Store. We shall be glad to hear from any one in the Furniture trade who would like some of these Catalogues for distribution. We believe that this is the first booklet descriptive of furniture which has ever been placed in the hands of the trade by a manufacturer in Canada for distribution to the public. A price list with a telegraphic code accompanies each consignment of Catalogues, and by the use of this code customers will be enabled to order goods by wire. We are doing our best to secure prompt delivery of these goods.

If our customers have not received copies of the new Catalogue of our Woodstock Factories' Case Goods No. 26, we shall be glad to hear from them. We have also recently mailed to the trade a new Catalogue of our American Rattan Factory Reed Chairs. Both these Catalogues should be in the hands of every Furniture Dealer.

Country hides are firmer at Chicago and some name $\frac{3}{4}$ cts as the price for Nov. 1st.

Montreal has been threatened with an oyster famine. Heavy storms over the oyster beds have made the catch light.

The Scottish coal miners have demanded an increase of $12\frac{1}{2}$ per cent in wages. About 70,000 miners are affected.

Navigational on Lake Winnipeg has practically closed for the season, the Highlander having returned to Selkirk from her last trip on the lake.

Newspaper completed at Steinbach. The yield is about as follows: Wheat, 35 bushels per acre; oats, 75; and barley, 40.

The crop all round Touchwood Hills, Assiniboia, have never been better nor have they ever been out in better shape. The yield will be somewhere about 35 bushels for wheat, and 80 bushels to the acre.

Potatoes are also a good crop.

The total sales of land made by the Manitoba land department for the ten months ending Oct. 31, amount to 270,122 acres, inclusive of provincial lands, and 1,000,000 acres of federal lands acquired by the government. These lands averaged a price of about \$3.65 an acre, or a total of \$885,170.

A civil service exam has been issued for placing the additional amount required as a grant to aid the Transvaal and Orange River Colony during the present financial year at \$40,000. The sum of \$10,000 is to be granted to a grant to the burghers: \$10,000,000 to British sufferers by fire, and \$15,000,000 is to be used for loans promised by the terms of surrender, to aid in resettling the colonies.

At the Pennsylvania anthracite collieries the work of resumption is now well advanced. In this case, although generally known as the number of collieries which are owned by independent operators the men are still on strike, but in all mines owned by the combined operators full staffs of men are employed and the output is daily increasing. Comments by onlookers in the mining region note with great satisfaction the complete lack of friction between the operators and men and each body seems to have learned a wholesome lesson of respect for the other. Each have expressed the hope that there will never again be such a struggle as that which they have just gone through. The eastern cities have already been well supplied with coal and the area under supply is rapidly spreading.

IMPORTANT SALE BY TENDER.

The business of F. V. Foster, General Merchant, Hardware, at Clinton, B.C., is offered for sale as a going concern by sealed tender received by me up to December 1st, 1902. The highest bid and tender will necessarily decide. For all information and particulars apply to Hugh Davidson Ashcroft, B.C. Dated the 3rd November, 1902.

PANTS**THE HOOVER MANUF G. CO. LTD.**
WINNIPEG.**Argentine Live Stock in Poor Shape.**

According to reports the Argentine pastoralists are having a hard time of it. Rainfall in that country has been insufficient to raise the crops and several frost come before the limited crops were matured. The limestone crop and wheat were seriously injured. Live stock in poor condition, many of the cattle emaciated, and so farmers and stock raisers are both in bad shape. According to this report the raising of the embargo by England would not do much good if the supply of fat cattle is short.

About 700,000 bushels of wheat were shipped from Fort William the first two days of this week.

An interesting experiment, the idea of a military officer, has been tried at Aldershot, England, by which it is hoped to render artillery impregnable against all kinds of bombardments.

An oil field has been discovered in New Brunswick, which is said to be one hundred miles long and which contains petroleum of the best quality. The field is mostly in Westmorland and Albert counties and is under crown land.

Bunker—I made a horrible break on the links yesterday. My caddie made me very angry and I yelled, "Get out!" at him.

Bunker—But surely that's excusable, isn't it?

Bunker—Oh, bless you, no! I should have said "Hoot awa!"—Philadelphia Press.

The first term of the Manitoba Dairy School will begin after New Year's, and is for young non-professionals. After it is completed, there will be a pro-
fessional course for cheese-makers.

John Thomson, undertaker, Winni-
peg, will next spring erect a four-
storey brick and stone block. Main
street entrance will be in the city hall, and
directly north of the Macpherson Fruit
Co's premises.

An oil well of unusual capacity has
been found on the Seaman Farm, Bas-
ileigh, about nine miles from Chat-
ton. Oil is great wealth, and we re-
quest that much difficulty was ex-
perienced in capping the well and the
ditches in the vicinity were flooded
with the fluid. The well is put at
a loss of \$10,000.

E. H. Rodgers, inspector of build-
ings, Winnipeg, reports that up to
Nov. 10, he had issued 826 building
permits for the erection and alteration
of 971 buildings. The earliest date ac-
cording to the name is 1895-560. In
1900, up to Oct. 10, 406 permits were
issued, for 617 buildings; cost, \$1,-
36,350. In 1901, 617 permits, for 782
buildings; cost, 1,740,900. Balance in
favor of 1902 over last, 200 per-
mits, 170 buildings, \$674,630.
