The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## OBSERVATIONS.

1st. The columns which have chiefly occupied our attention and time, as being a most important branch of the statistics of the province, are those of population, the clergy establishments, corn and saw-mills, factories and villages. The other columns are calculated partly from personal knowledge and partly from various sources of information that may be depended upon, and may be fairly considered as giving a correct general *aperçu* of the number of river craft, boats, artisans, &c. in the province.

2nd. Of the 39 protestant churches enumerated not above 25 are attached to parishes. The parishes that may hereafter be attached to the remainder are not at present laid out or defined.

3rd. Of the 191 Roman Catholic churches 4 are missionary churches; to which may be added 7 presbyteries used as chapels in as many parishes, and making up the complement of parishes in the province equal to 196, besides a few other projected parishes within the seigniories, and the site of churches fixed upon.

4th. Of the 20 convents, 6 only are extensive nunnery establishments in the towns. The remaining 14 are dispersed over the province for the education of females, and are generally governed by 2 or 3 nuns of the congregation.

5th. In the 10 enumerated colleges are comprised the extensive seminaries of Quebec, Montreal, Nicolet, M'Gill college, St. Hyacinthe, Chambly, and Ste. Anne's in the county of Kamouraska.

6th. With the exception of 3 breweries and 1 distillery in Quebec, 4 breweries and 1 distillery in Montreal, and a brewery at La Prairie, the others are minor establishments. The distilleries are chiefly for whiskey, and are most frequent in the townships.

7th. The number of ship yards will not appear surprising, when it is recollected that 39,900 tons of shipping were built in 1827.

8th. About 65 of the enumerated river craft navigate between Quebec and Montreal, 59 between Matane and Quebec, and about 113 are employed in the St. Lawrence and Gulf fisheries. Of the keel-boats, about 713 may be employed in the fisheries of the river and gulf; 150 are pilot boats. The number of flat boats, batteaux and canoes, is not estimated, but it is known to be considerable.

9th. Exclusive of the pot and pearlsh. factories enumerated, many of the inhabitants of the townships keep potash kettles for making salts: their number may average 150.

10th. With few exceptions, the Roman catholic parish churches are built of stone, averaging in length from 100 to 140 feet by 50 to 60 feet in breadth. The roofs are generally covered with tin, and surmounted by spires, many of them 2 and several 3. The new cathedral church of Montreal measures 255 feet in length by 134 in width within the walls. Its estimated cost exceeds 96,000/. The presbyteries are chiefly stone, and generally large and commodious. Two chapels, called Chapelles du Reposoir, are frequently appendages to the churches in the country. About one half of them are built of stone. Their total number exceeds 300.

11th. Of the number of schools enumerated, 74 are supported under the act of the 41st Geo. III., and 50 are parish schools under the superintendence of the curés.

12th. Branch pilots for and below the harbour of Quebec, 126. Branch pilots for and above the harbour of Quebec, 39.
