### APPEAL OF LABOR TO LONDON'S VOTERS

**J. D. Jacobs and Major  
Beattie Address Elect-  
ors--Public Owner-  
ship Theme for  
Discussion.**

LONDON, Oct. 22.—(Special.)—John D. Jacobs, the Labor candidate, and his friends are infusing life into the London by-election, and a number of people assembled at the city hall to-day to witness the nominations, although it was generally understood that the proceedings would be of a purely formal character. Both candidates had their papers filed with Charles H. Ivey, the returning officer, before the noon hour. Major Beattie's signers were all Conservatives. Mr. Jacobs had signers from all parties, some of them laboring men and others merchants.

At 2 o'clock Mr. Ivey announced the two nominations: "Thomas Beattie, retired merchant," and "John D. Jacobs, iron moulder," and declared the nominations closed. He briefly addressed the electors and urged them to have a clean election. He lamented that a present finger of scorn was pointed at this riding.

It was then decided to have a joint meeting and Major Beattie spoke. He regretted the cause of the by-election to wit: the ill-health of Hon. Mr. Eymann. He hoped that his health might soon be restored and that he would be able to return and take his place as one of the most respected citizens of London. He had made a first-class minister of public works, and he was, as they all knew, a highly respected business man.

**Sentiment Toward Labor.**  
There was, he continued, no burning question before the public. He was a fervent protectionist and in favor of clean economic government. He favored old age pensions and civil service reform. As to the Labor party, he had no quarrel with labor. All men who worked were his friends, and he included. He favored the eight-hour day and had introduced an eight-hour day bill in parliament.

A voice: Why don't you give it to your own employees?  
Mr. Beattie: I have none.  
A voice: How about the gas company?  
Mr. Beattie: I am only one of several shareholders on the gas company, but I did get the stokers reduced to eight hours a day.

Mr. Jacobs: Five and a half hours to the day for stokers.  
Major Beattie: I deny that. At any rate, they used to work ten.

**Children and Women Abused.**  
John D. Jacobs, the Labor candidate, is a forcible speaker. He took up the platform of the Canadian Labor party plank by plank, and a running discussion sprung up as to prevailing labor conditions in London. Mr. Jacobs claimed that a large number of children, who ought to be in school, were at hard labor. He himself rose at 6:30 a.m. and on his way to the foundry he saw many children hurrying to work.

Major Beattie questioned this and said that if any child could miss a day from school, Allan Studholme, M.L.A., assured him that child labor was very common in Toronto; it was winked at by the authorities.

A still more animated difference as to facts developed in discussing female labor. Mr. Jacobs claimed that many women worked in iron foundries where they could not dress modestly on account of the character of the work, and made the sweeping statement that women generally were paid less than men for the same work even though they performed it equally well.

Major Beattie denied that women were paid less than men and insisted upon it, although the audience plainly showed dissent.

The great hit of Mr. Jacobs' platform and speech was the declaration for public ownership of all public utilities, including railroads, telegraph, water and light. This elicited great applause.

**Public Ownership.**  
Major Beattie was asked if he favored government ownership, and replied that he thought that the G. T. P. should have been built by the government. He also expressed great horror of "watered stock," in reply to a question.

Alphonse Verville, the Labor M. P. from Montreal, made a breezy speech. He declared that the reforms demanded by the Canadian Labor party were favored by either political party, and that the man who was elected to the house as a straight party man was tied hand and foot by the party caucus. He had little faith in the recent wholesale conversions to public ownership. Neither party had given any encouragement to W. F. Maclean during the past 12 years. Now the politicians were getting behind him because the laboring men had organized to support him and this great principle for which he stood.

The labor men will hold all the meetings possible, but it is understood that there will be no Conservative meetings.

TWELVE PAGES—WEDNESDAY MORNING OCTOBER 23 1907—TWELVE PAGES

## HOW the Railways Serve the People and WHY

The Canadian Pacific express from Montreal was forty minutes late yesterday morning. Her passengers were delayed in consequence and some of them missed their connection here or will miss it at Detroit or at Chicago. Anyone leaving Montreal for California on this train is bound to be stalled a whole day in Chicago if it runs an hour late in Ontario! And so it is more or less at Toronto, at St. Thomas, at the Niagara River, at the Detroit River and a lot of other points. These travelers have no redress—not even an explanation.

One belated man appealed to the policeman at the station. From him he went to someone else; and to a third, who said he might telephone Mr. Foster. Who was Mr. Foster? The district passenger agent. Where was he or what was his number? "The line's busy," or "Mr. Foster's not up yet," or "He's out of town putting up bills for the Woodbridge fair special rates." That's all he got.

There was no executive man at the station; there never has been and there never will be as long as the Toronto public stand for Montreal (mis) management of Ontario's railway system.

The traffic of Ontario is so enormous that it is essential that it be handled from Toronto by men of the rank of vice-president, with executive power, power to do things then and there, to initiate, to spend money, to even order equipment when necessary.

"To blazes with Ontario, and let us go to the club for another Scotch and soda!" is the invariable attitude of Montreal railway chiefs toward this province. There are nights when this same C. P. express from Montreal has three private cars—some minister from Ottawa, a Canadian Northern magnate, a C. P. magnate, and these three heavy cars can make 100 full-rate passengers lose their connection at Toronto!

Here is a little further light on the situation:  
Editor World: Your traveler who says he has missed the train out of Toronto three times, by reason of the C.P.R. express being late, ought to be a little wiser.

I have learned the lesson, and what I do is this: When I leave Ottawa or Montreal for any point in Western Ontario or by the C.P. from Montreal, for that matter, I only buy my ticket to Toronto, and then I buy my ticket out of Toronto by whichever line gives the first service out.

I used to buy, say from Ottawa to Detroit by C.P., now I buy to Toronto by C.P. and when I get here, either the G.T. or C.P., whichever happens to suit my situation.

As for the so-called direct and quick service that the Ontario public are supposed to be getting between Toronto and New York—it is made up of delays and missed-connections. Why does not the New York Central come into Toronto? Because the Canadian Pacific has them under some kind of restraint not to come past Hamilton! Some day the Niagara River business may be livened up if there is a New York service from Rochester via Lewiston, St. Catharines, Hamilton, Toronto or Rochester, Buffalo, Toronto. But there will never be any improvement with the business of this province treated as a joke by the men in Montreal.

Most of the newspapers of Ontario are railway chloroformed. A thousand dollar advertisement in a Christmas number is a great sleep producer when public interests are concerned. The country editor, all newspapers, get transportation for advertising. Abolish this by law, as they have in the States, and the press will waken up. But here is an editor who is not "doped":

Editor World: I am publishing this week in full your letter from the Beamsville man begging for cars and also your comments in full. I am delighted with your stand in this matter, as it is right along the lines I have been fighting in The Independent for the past five years. I hope that the publication of your editorial in full in my paper will commend The World to the people of this community in such a way that you may have an increased circulation in this locality for your splendid journal.  
James A. Livingston,  
Editor Grimsby Independent.

**Grimsby, Oct. 21.**  
Did you ever see the list of Ontario newspapers that are in the railway job printing business? Part of the contract is absolute silence on railway grievances, open or round-about attack on everyone who takes the side of the public. Members of parliament or of the legislature are nearly all deaf to public grievances against railways.

Not one newspaper, not one member of the legislature, only two members of parliament between Toronto and Cornwall helped The World when it forced the Grand Trunk to reduce its rates to three cents a mile.

Here's a local grievance, just to hand:  
**PORT PERRY, Oct. 21.**—Editor World: In response to your inquiry in Saturday's World as to railway grievances in Ontario, the people in the County of Ontario, especially along the line of the Whity and Manilla line of the G.T.R., have every reason to make a kick and ask for fairer treatment than is being given them. In the first place, when this line was bonused by the different municipalities it was agreed upon by the G.T.R. Company that two regular daily trains should be run. Up to ten years ago this was carried out to fairly good satisfaction, considering the business done on a branch line such as this. However, about that time the G.T.R. claimed that this line was being run at a loss and they took off one train, moved their round house and headquarters to Lindsay. This move started the train from Lindsay at 6 a.m., passing thru here at 7:30 to Whity, back at 10 to Manilla Junction, down again at 11.30 and up from Whity in the evening at 7.30. The different municipalities, especially the Towns of Port Perry and Whity, made a great kick, and after about two years of this nonsense another train was put on from Lindsay at 11 a.m., following the noon train south about one and a half hours later, and returning in the evening at 5.30. As it now stands, there is no down train after 1.20 in the afternoon, and anyone wishing to go south after that must either drive or go afoot. Then, again, with the 10 a.m. train north, it only makes connections for Lindsay and east, and anyone wish-

OTTAWA, Oct. 22.—(Special.)—In reply to the Dominion government's communication expressing regrets to Japan, Sir Wilfrid has received the following reply from the British ambassador to Japan:  
"I have conveyed your message of Oct. 12 same day to Secretary of State for transmission to His Majesty the Emperor of Japan. Just received the following answer: 'His Majesty receives your message from Governor-General of Canada and Government of Canada with greatest gratification and notes with much satisfaction earnest intention of Governor-General and Government of Canada to promote cordial and friendly relations which exist between British Empire and Japan. Count Hayashi adds that Japanese Government deeply regrets unfortunate occurrence at Vancouver, but they have full confidence in the sincere action of Canadian authorities are taking in devising measures for future, and they have much satisfaction in hearing expression of regret conveyed by the Premier of Canada in the name of the Governor-General of Canada and Canadian Government, and assurances given that Canadian authorities will use all efforts to prevent recurrence of such regrettable events.'

Edward Hankey, Right Hand Man of Marconi, Passed Away at Glace Bay Towers.

GLACE BAY, N.S., Oct. 22.—(Special.)—The death took place to-day at the Marconi towers of Edward Hankey, of the engineers' staff, after an illness of about three weeks.  
A pathetic feature connected with his death was the receipt, a few minutes before his demise, of a wireless message from his mother and sister, who reside in London. They expressed sympathy and love. The message was at once conveyed to him, but he was unconscious and remained so until the end.

## YOUNG WOMAN'S HEROISM PREVENTS TRAIN WRECK

**Found Pile of Iron on Railway Track and Hurried Three Miles to Warn Officials—A Boy's Dangerous Ignorance.**

ST. CATHARINES, Oct. 22.—(Special.)—At 9:30 o'clock Sunday night a young woman rushed into the tower house on the west side of the canal at the Michigan Central Railway bridge, at Welland, and breathlessly told the men on duty that iron was piled on the westbound track that would wreck the train.

Fast express No. 3 was due. The depot was hurriedly called over the phone, as the express washers heard approaching, and the semaphore lights flashed against it just in the nick of time.

James Turner of Niagara Falls, yardmaster, and Gerrit Hill, clerk in depot, mounted a handcar and started for the spot, which came so near being the scene of a great railway wreck. They found two rail spreaders and a fish plate placed on the inside-rail in a manner that would almost assuredly have hurled the express into the deep ditch alongside the track with frightful results.

The obstruction was removed and the express proceeded on its journey. Miss Sweeney, a school teacher, residing three miles west of Welland, who gave the alarm, was walking to town when she discovered the iron piled on the tracks, and she says she removed seven pieces of iron as heavy as some could lift, before hastening to town to warn the railway men.

Officials at the M.C.R. will give out no information and attempt to discredit the story that trainwreckers were at such a filthy business, but nevertheless a force of detectives are in Welland to-day working on the matter, and railway men declare that the manner in which the obstruction was placed on the rails prove conclusively that it was the work of experts.

**An Arrest at Welland.**  
WELLAND, Oct. 22.—(Special.)—Edward Palmer, an English boy, aged 15 years, in the county jail arrested by Detective Monahan for placing a pile of rail plates and iron creepers on the M. C. R. tracks a mile west of here. A Chicago passenger train narrowly missed destruction Sunday night. The boy says he did not know his work would do any harm.

**REACHES TORONTO AT 10 O'CLOCK AND WAS HOMEWARD BOUND AN HOUR LATER.**  
Jimmy Reynolds, the 57-year-old "walking barber" of Port Hope, who left that town at 6 o'clock yesterday morning to tramp to the King Edward Hotel, Toronto, and then return, a distance of 128 miles, in 36 hours, completed one-half his trip well within time at 10:10 last night.

From the Woodbine, along Queen and King-streets to the hotel he was escorted by a big crowd, and responded to the plaudits by waving his hat almost continuously. His pace was speedy and many a young fellow had to exert himself to a half trot to keep up with him.

Ad. Church and "Canada First" McConnell were among those who escorted him in from the Don. A large number of women were at the hotel to see Reynolds come in. He was hurried upstairs with his

## BALLOON LANDED NEAR HAMILTON

**Flight From St. Louis, 610 Miles, in Gordon Bennett Contest.**

No. 3 balloon (United States), manned by Major Hersey of the weather bureau at Washington, D. C., and A. G. Abernethy, landed 12 miles south of Hamilton early last evening, after a day's flight across Western Ontario, which was watched by thousands of people.

After crossing Michigan, the balloon was seen in East Dover Township, four miles north of the mouth of the Thames River, yesterday afternoon. It then traveled west to Chatham, and was afterwards seen at Highgate, Ridgeway and Port Stanley. Coming east to Point Bruce promontory, the balloon was only 200 feet above terra firma, the ballast evidently giving out. At 6:13 p.m. it was reported at Caledonia and a few minutes later it landed.

The United States crossed the State of Illinois, thence across Lake Michigan and Lake St. Clair, in the middle of the night, when a change of wind carried it north into Canada, to the place of landing.

The distance from St. Louis to Hamilton, on an airline, is approximately 620 miles. Therefore the United States traveled about 610 miles, which is far ahead of the record made in the European race by Lieut. Lahm, whose balloon won the international cup by sailing from Paris to a point in England, 402 miles distant.

A second balloon is crossing Lake Huron and will probably land in this province.

trainers and given a bath, rub down and some light refreshments. After sick, which caused a delay of ten minutes.

Reynolds had the advantage of going with the wind on the return journey and he felt confident he would reach Port Hope well inside the time limit.

So great was the enthusiasm created by the old man's pluck, that huge crowds followed him on the return journey out to the city limits. Reynolds had two city policemen had difficulty in keeping a clear space for him to proceed.

Norway was reached at 12:03 a.m., where another crowd of about 200 was encountered. Reynolds said he was in good shape and was willing to bet any money he would win out. At 1:15 a.m. Reynolds was at the Half Way House and feeling fine.

## PANIC ON WALL ST. RUN ON LARGE TRUST CO.

**New York Financiers Trembled Under Greatest Strain in Recent Times—Doors Closed.**

NEW YORK, N.Y., Oct. 22.—Credit, the under-the-surface foundation of all business, trembled for a time to-day, and before confidence could be restored, New York's second largest financial institution had emptied its cash vaults under pressure of the biggest run experienced here in a generation; a stock exchange firm had failed for \$8,000,000; Wall-street's principal securities had settled from 35 to 38 a share; call money had risen to 75 per cent, and local bankers, unable to stem the tide of distrust, had been forced to appeal for relief to the secretary of the treasury at Washington.

All this was in the face of reassuring statements by the acting state department of banks that the suspected bank was solvent; declarations by prominent bankers that there was no true basis for alarm, and assurances from Washington that Secretary Cortelyou would not hesitate to act promptly in any situation where legitimate business was threatened.

Now that the first scare is over and the worst of the future discounted, it is believed that local bank affairs will soon readjust themselves and that the proposition by the ill-timed attempt of the Heinzes to corner copper will be found to have given way to a saner conduct of financial affairs.

Secretary of the Treasury Cortelyou reached New York from Washington at 9:30 o'clock to-night.  
Before leaving Washington late to-day, Mr. Cortelyou directed that \$6,000,000 be deposited with New York banks as soon as the necessary collateral had been furnished and at the same time he issued this statement:

**Run on Knickerbocker.**  
The Knickerbocker Trust Co., the storm centre to-day, paid out cash to depositors at the rate of \$4,444 a minute for three hours this morning, but then closed its doors. The directors, as they thought, fully prepared for a run, and caused to be announced in today's papers that \$8,000,000 in cash was on hand to meet all eventualities.  
At 9:30 o'clock a messenger withdrew their accounts, and an hour later hundreds were in line to take out their deposits at the main offices at 84th-street.

**Lasted Until 12:30.**  
The \$8,000,000 lasted until 12:30, when Vice-President Joseph T. Brown announced that the bank had no more cash available, and payments were suspended. Mr. Brown said that the bank would open to-morrow and payments be resumed at 10:30. The directors, as they thought, fully prepared for a run, and caused to be announced in today's papers that \$8,000,000 in cash was on hand to meet all eventualities.

At 9:30 o'clock a messenger withdrew their accounts, and an hour later hundreds were in line to take out their deposits at the main offices at 84th-street.

**Received No Positive Assurance.**  
This afternoon about 4 o'clock, having received no positive assurance of help from the Knickerbocker Trust Co., I conferred with the attorney-general, telling him that while its affairs were not hopeless, they were in so critical a condition that I thought he should be prepared to act at any time.

**Mayer & Co. Down.**  
NEW YORK, Oct. 22.—The assignment of the firm of Mayer & Co., broker and members of the New York Stock Exchange, which is estimated at \$6,000,000, was announced to-day. Although there had been rumors that the firm was in financial straits, it was said that its assets might be sufficient to meet its liabilities, and that the firm hoped to resume business, offers of aid having been received.

**Will Doors Stay Closed?**  
The Knickerbocker Trust Company is not without hope that it may still receive adequate aid from financial institutions. If it does not, it will not open its doors in the morning.

**IS IT INDIAN SUMMER?**  
The weather man does not exactly know whether it is or not, but these nice days are deserving of the credit of the title. Such weather encourages the purchase of the fall hat and the new felt styles in the famous Dineen specials are favorites, for the price is only \$2.50 and \$3 and the quality cannot be gained. IRON HAS ENTERED INTO SOUL OF OTTAWA CITY

Sir Wilfrid Laurier Has Taken Sides With G.T.R. and Sacrifices Beautiful Park.

OTTAWA, Oct. 22.—(Special.)—The iron has entered into the soul of the capital to-night. The dearly loved premier has blossomed forth as a corporationist and has ranged himself alongside the magnates of the Grand Trunk Railway against the city. It came about in this way. When Ottawa was born the most beautiful part of it, an immense rugged rock overlooking the Ottawa River was presented to the city by a public-spirited citizen and has since been known as Major's Hill Park. It is a delightful recreation on which the tired worker can view the landscape from a platform second only in Canada to the famous rock of Quebec. The Grand Trunk Railway has cast longing eyes on this spot, and with what argument it is easier to assume than to proclaim has enlisted the sympathy of Sir Wilfrid Laurier. Summoning all his eloquence he persuaded the city council that the Grand Trunk ought to have this site for a sumptuous hotel.

The council agreed amongst themselves that it would be a good thing to please the premier, but the pressure of public opinion was so overwhelmingly against it that the aldermen were forced to retract, and in conference with Sir Wilfrid Laurier, C. M. Hays, W. W. Wainwright and others to-day a civic deputation told the premier in plain terms that the will of the people was against this deprecation. The Grand Trunk officials replied, "No Major's Hill Park site, no hotel, and the premier acquiesced. He insisted that this site should be handed over to the railway corporation. The council is therefore, in a quandary. The people are enraged, but dare they face the premier's anger? We shall see how council acts. The Laurier-Grand Trunk party within it is strong.

ONE DAY TO CELEBRATE.

Veterans Want May 24th Officially Set Apart.

A deputation consisting of J. T. Hornbrook, president; Capt. George Morrison, Walter H. Blight and Major A. Gillies, members of the executive council of the Veterans' Militia Association, waited upon Hon. Dr. Fyne at the education department yesterday morning and urged a change in the ordering of the ceremonies for the celebration of Empire Day. At present in this city and throughout the province the schoolchildren celebrate the day and decorate statues and monuments on the afternoon of the 23rd, while the veterans observe the day on the 24th. And the veterans desire that legislation be passed changing the day of celebration to the 24th, in common with other portions of the empire, and in order that a joint celebration may be made.

THE WORLD'S HOME MAGAZINE FOR WOMEN EDITED BY LAURA E. McCULLY, B. A.

Turkeys for Thanksgiving.

Produce dealers say there will be plenty of turkeys for Thanksgiving Day this year. There is an abundant supply, and the price will probably be below 20c a pound, which is 5c lower than it was last year at this time.

Hallow'en Celebrations.

Many and varied are the suggestions in current publications as to how to spend the "witches' night." Some of the commonest ways are known to all of us, and others are more new than acceptable, but a few will find favor with all.

The society affair will, of course, take the form of a masquerade dance. This is a good old custom, of which the Alumni Association of University College is availing itself this year, and we hope to have a fine attendance on the night in question.

Another favorite way to spend Hallow'en is to give a euchre party. The tables will, of course, be of home manufacture, and the prizes of a suitable nature.

Perhaps the nicest way of all to spend Hallow'en is with a circle of intimate friends in some dear old farmhouse, where the red apples seem almost inexhaustible and the fatty tastes of home-baked cookies and merry game amuse the children.

The W.C.T.U.

On Thursday at 2 p.m., a School of Methods will be conducted by Mrs. Annie O. Rutherford, at Headquarters, 56 Elm-street, when all interested in W. C. T. U. work and especially the superintendents of departments are urged to be present.

LACE BEDSPREADS.

A display that will appeal irresistibly to womanhood occupies a window at Kay's store at 35 King-street west. It consists of an exhibit of lace bedspreads, the work of Connemara peasant girls.

A Play of the Week.

A great deal has been said pro and con, about the play "The Cowboy and the Lady," now being given at the Royal Alexandra by the stock company there. It is, in the first place, a play which neither makes nor could make any pretensions to being classical.

In the first place, it is very passably well played. Considering the play, whether the people suit the cast, or the cast suit the play, they weren't overdone, and that they managed to show a great deal of really laudable work.

The "Cowboy and the Lady" deals with western life as we are used to finding it in the magazine and in popular-fiction. It does not pretend to be particularly noble or inspiring, and isn't. Still it has an element of human interest, and some of the humor, despite the fact that the melodrama (for such it is) is exaggerated, often to the point of acting.

ENTITLED TO PARTICULARS

One ounce Fluid Extract Dandelion; One ounce Compound Salation; Four ounces Compound Syrup Sarsaparilla. Mix, and take a teaspoonful after meals and at bedtime, drinking plenty of water.

The above prescription has been found invaluable in the treatment of kidney, bladder and urinary troubles, and diseases arising therefrom, such as rheumatism, sciatica, lame back, and lumbago, and we feel that the public are entitled to particulars concerning it.

What Toronto Folks Wear

Of all the many autumn modes which fairly overwhelmed us a month ago, when millinery and tailoring openings were on and everybody was rushed off her feet in the attempt to find her sartorial affinities, practically one mode in dresses, one in coats and two in hats seem to have "caught on."

The popular coat take two very similar forms, both semi-fitting—one long, the other short. The long one is in military style and somewhat less than three-quarter length.

In hats a great many people have taken up the Welsh shapes, that look like modified "witches' hats" out of the fairy-tale, while others are wearing the mushroom, with upturned brim, either in front or at the side.

High collars are much more worn on the occasion of the annual shooting, than at other times, and are wearing in style and material, with long gloves and short sleeves, but high in the neck.

His Annual Holiday.

District Chief Villiers of the fire department has gone to the Sand Banks, Ottawa, and other points in Prince Edward County for his annual shooting. He is accompanied by his son, Robert William, and Mrs. Robert William Villiers.

WORLD'S DAILY FASHION HINT

These little coats are for winter wear. The plain cloth is navy blue with buttons and ornaments of black silk. A slightly curved panel in back and front gives a new effect.

Personal.

On the occasion of his early marriage to Miss K. MacPherson of St. Thomas, Mr. Ed. Pepper, city representative of the Niagara, St. Catharines & Toronto Railway, was yesterday the recipient of a handsome presentation made by the local railroad and steamship men.

Many happy returns of the day to Peter Closs. Born Oct. 23, 1846.

His Excellency Col. Sir George Sydenham Clarke, G.C.M.G., previous to his departure for India to take up his appointment as Governor of Bombay, signified his intention of joining the Imperial Service College Trust and accepting the position of a vice-president.

Mr. E. O. Manches, late advertising manager of the Salada Tea Company, has been elected to the position of president of the St. John's Episcopalian Church at the time of its formation, and will devote membership of that congregation.

Among those who gathered to do honor to the worthy couple and to testify to their sterling Christian character, which has always been characteristic of their home, were the following relatives and friends: Mr. and Mrs. Chas. O'Brien, Mr. and Mrs. Benjamin O'Brien, Mr. and Mrs. Daniel O'Brien, Mr. and Mrs. Robert O'Brien, Mr. and Mrs. Arnold O'Brien, Mr. and Mrs. James O'Brien, Mr. and Mrs. W. S. Armstrong, Mr. and Mrs. J. A. Armstrong, Mr. and Mrs. Rev. J. M. Scott, Mrs. A. E. Tupper, Master Harry Anderson, and Miss Spedie, Toronto; Miss Madill, Orillia.

During the early part of their wedded life they lived in Markham and Uxbridge, but moved to Toronto over 26 years ago.

Mr. O'Brien was born in Markham, Ont., his father being Nathaniel O'Brien and his grandfather William O'Brien, Greek and Japanese seave styles, with the Empire waist-line, the shoulders, and with less pronounced corners.

After a sumptuous repast and a program in which many interesting reminiscences of bygone days were related, and sincere felicitations expressed, the company dispersed at a late hour, cordially extending to their host and hostess their earnest hope that as the sun of their life is declining, brightening the pathway of others and finding their strength "in quietness and confidence."

Mr. O'Ryan P. McGregor will receive on Friday, the 25th, at her home, 175 Borden-street, and afterward on this fourth Friday of the month.

A BEAUTIFUL FACE. All the old methods of securing beauty and perfect complexion are replaced by the RUBBER COMPLEXION BULB.

Dixon, who have arrived in town and are at the Grange.

The University of Toronto Union dance will be held on Friday evening, Nov. 15, in the main building.

Mrs. Buchanan has sent out cards for an at home on Wednesday, Oct. 24, from 4:30 to 7 o'clock.

Alex. Laird, assistant general manager of the Bank of Commerce, accompanied by Mrs. Laird, son and daughter, returned home yesterday from a trip to Europe.

A notable wedding took place at St. James' Cathedral, Montreal, yesterday at 9 a.m., when the Rev. Canon Gauthier solemnized the marriage of Miss Juliette Rainville, eldest daughter of the Hon. H. A. Rainville, to Mr. Jerome L. Decarie, M. P., of Hochelaga. The bride, who was given away by her father, wore a white liberty satin with blond lace and a veil with a coronet of orange blossoms.

The St. James-square Presbyterian Church will hold its annual thanksgiving service in connection with the Women's Foreign Mission Society, this evening at 8 o'clock, when the Rev. Frank Russell of Tudore, India, will give an address.

The Chamberlain Chapters of the season will reassemble on Wednesday at the Canadian Institute, 100 College-street, when a paper, "Impressions of Jamaica," will be read by Mrs. R. E. A. Land, who spent last winter in the island.

Mrs. George Gibbons, who is paying a short visit to the parent home, en route to her new home in London, received with her mother at Cranleigh yesterday, when she also had three of her bridesmaids, Miss George, Miss Davidson and Miss Julia Gayley, with her, in their pretty wedding array.

Mr. Lissant Beardmore's concert on Saturday evening will be under the distinguished patronage of His Honor the Lieutenant-Governor and Lady Clark. Mr. and Mrs. Plunkett Magan leave on the 14th for Europe. They will be accompanied by Miss Almee Falconbridge, who will be abroad for three months.

Prof. and Mrs. Richard Davidson have moved from Walker-avenue to their new home at 98 Woodlawn-avenue.

Mrs. Henry Cawthra and Miss Cawthra, with Miss Howard, have returned from England.

The Hon. Alan B. Aylesworth is in town.

Major Ogilvie, Quebec, and Mrs. Ogilvie have arrived in town. Major Ogilvie will succeed Major Burstall, who leaves for Kingston next week.

Mrs. Ramsay Wright is going to Montreal to-day to spend ten days with Mrs. Grant.

Sympathy for Wife. Mrs. Nicholas Noble Receiving Many Friendly Letters.

The neighbors of Mrs. Noble, whose husband was a short time ago sentenced to serve six months in jail for assault on Dr. Eadie, seem greatly worked up over the matter. Letters of sympathy are received by the doctor, and Mrs. Noble is sending letters to the wife, who is in the great and noble work of that institution in the warfare against the white plague.

The National Jewish Hospital for Consumptives was founded, and is supported by the Hebrew people of this continent as a thank offering for the great blessings and liberties they enjoy the suffering poor, regardless of race or creed. Sickness and poverty are the only passports necessary to enter its portals.

The hospital has been established nearly eleven years, during which time upwards of 1400 patients have been treated, with 87 per cent. of cures. Last year they had 400 patients, including seven from Toronto, and only two deaths.

DEATH WAS ACCIDENTAL. BRANTFORD, Oct. 22.—The coroner's jury to enquire into the cause of the death of Despotovic, the fortune teller who was killed at Colborne at the G. T. R. crossing last week, brought in a verdict: "That the deceased came to his death purely accidentally, and we attach no blame to the Grand Trunk Railway Co. We would recommend that some steps be taken to place gates on that crossing."

BOY KILLED AT NORTH BAY. NORTH BAY, Ont., Oct. 22.—John Bell, aged 14 years, employed in the C. P. R. station here, while playing on the top of a box car to-day at noon, fell and was instantly killed. The wheels cut the body in two.

POWER INTERESTS BEHIND THE GLOBE.

The Globe has started out to burst the Beck power scheme for distribution of power by public ownership. It sets up a straw-paper argument, viz., that Mr. Wright of the local power monopoly says he can do it cheaper than the people.

The Globe is nothing but the organ of the power company, notwithstanding anything that Robert Jaffray may say to the contrary.

Inasmuch as Mr. Jaffray has not the manliness to admit his interest in connection with these power problems, nobody ought to take as honest the statement that his newspaper makes.

Liberals and Liberal newspapers, however, have a chance of forming an opinion of The Globe's conduct and the Liberals in the Ontario Legislature have a chance of declaring whether they are with The Globe or not.

ONCE FOR ALL.

High finance is rotten finance, and once for all the less Canadians have to do with it in any shape or form the better.

And yet, in spite of all the evidence of yesterday and for many days back, Robert Jaffray and The Toronto Globe, both professing to speak for the Liberals of Toronto and Canada, are moving heaven and earth to tie up Toronto and Ontario in the matter of electric energy forever to the biggest stock watering ring that is known in Canada to-day.

THE GLOBE'S RUINED POSE.

LIFE INSURANCE AND SPECULATIVE STOCKS.

The recent headlong tumble and continued fall of certain speculative stocks in which some Canadian life insurance companies are very deeply interested lend unusual emphasis to the pronouncement of the royal commission on the grave impropriety of investing policyholders' moneys in such co-called securities.

It cannot prove very exhilarating reading to policyholders of such companies to observe that Sao Paulo, which was quoted at 146 last year, is down to-day to 99; that Detroit United has fallen from 102 to 37; that Illinois Traction has passed its dividend; that Illinois Traction has fallen from 101 1/2 to 75, and Mexican Light and Power from 75 to 39, not to speak of others into which Canadian investors and speculators have plunged.

It may be profitable at this juncture to direct attention anew to the attitude of the commission towards investments in such speculative securities, as manifested in their report. Dealing, for instance, with the investments of the Sun Life Insurance Co. of Canada, they go at considerable length into the connection of the company with the Illinois Traction system and kindred schemes, declaring that:

It is manifest that the reason underlying this important change in the company's policy was that mortgage and municipal securities and the like did not offer sufficient opportunities for making large speculative profits.

On page 26 of the report is given a list of nearly 30 subsidiary companies of whose bond issue of \$18,760,000 the Sun Life owned the enormous sum of \$7,900,000—"investments so-called"—whose ledger value was put down as \$6,756,292.

This, of course, is in addition to the enormous holding of bonus stock, both preferred and common.

The royal commission, in dealing with these ventures, have certainly freed themselves from any possible imputation of neglecting to recall the companies to the danger they incur when hazarding their funds in speculation:

It is plain to your commissioners that the large interest of the assurance company in these various enterprises is greatly in excess of reasonable investment. Apart from any question of statutory power, it seems to your commissioners that to engage the funds of an insurance company in enterprises of this character to such an extent as necessarily to involve the directors of the insurance company in promotion, construction and management, is foreign to the purposes of an insurance company, and calculated to imperil its funds.

With almost prophetic vision the commission seemed to foresee the present crisis. On the same page (26) they say:

Mr. Macaulay, who, no doubt, voiced the company's policy in this respect, was apparently much alarmed at the suggestion that these securities should now be converted at a profit, as he claimed to be possible. He looked upon this suggestion as involving an awful sacrifice to policyholders.

How Mr. Macaulay proposed to prevent this "awful sacrifice" is indicated in the following excerpt from the evidence—page 2919.

Q: With these large views of yours, for the future of this traction scheme, you no doubt expect and intend to put large sums of money in it in addition to what you have put in?

A: My idea is that the Illinois Traction Company, as a field for investment, will be one into which money can be put with profit for about another couple of years. After that the field will be occupied and we will have to look elsewhere.

Q: Do you expect and intend to take part in the putting in of further money during these couple of years?

A: Unquestionably.

Q: And you expect and intend to take a large part.

A: Unquestionably.

Q: And bear a large additional expenditure.

A: Unquestionably.

What additions in the meantime have been made to such holdings are not yet public, but their enormous volume when the report was written and the present condition of the stock market lend very great weight to the conclusions arrived at by the commission:

That enterprises which are so favorably viewed by the management of this company may sometimes fail to answer the large expectation of profit entertained and may sometimes result in serious loss, is shown in the case of some similar enterprises in which the company engaged.

It must not, however, be supposed that the Sun Life is the only Canadian company trafficking with policyholders' money in speculative securities and now feeling the cold chills running down their backs as the ticker indicates further and further descends from par. The North American Life, at the end of 1905, had bonds of United States corporations \$569,000, and loans on United States securities \$277,300, "greatly exceeding" the limit for such investments. The Manufacturers' had, we notice, big blocks of Detroit, Mexican Light and Power and Sao Paulo. And so on till it becomes no wonder where the money to purchase \$300,000,000 of foreign tractions and power companies put on the Canadian market within the last ten years in large part came from.

We have no wish to become alarmists, but we do not hesitate to express the fear that if a strict accounting were at this present moment instituted by the insurance department into the affairs of some of the insurance companies, their boasted surplus would be found to have disappeared.

The events of the last few weeks in the financial world, it must be evident, emphasize as nothing else could do the soundness of the conclusions arrived at by the insurance commission. As to the powers of investment to be permitted to the companies, security and not speculation must be their first and last and only aim. And in view of what is happening and what may happen, the Dominion government and parliament should lose no time in giving effect to the recommendations of the commission.

By-the-by, now that Hon. Mr. Fielding is back from his Paris treaty-making trip, he might take up this subject of insurance. Perhaps he may even go so far as to get a live inspector of insurance, and even ask some of the companies to appoint some new officials, even new directors.

In the meantime, we would not, if we were insurance officials, continue to assume responsibility for that cartoon and special newspaper campaign that is still being carried on against the commission, its report, and in defence of high-finance methods for trust funds. It is time to become penitent. As for Mr. John R. Dougal of The Montreal Witness, he is beyond any remonstrance. When a truly good man goes wrong, he becomes hopeless.

SHOT BRAVE POLICEMAN.

NEW YORK, Oct. 22.—While patrolling his beat in the lower east side to-day, Eugene S. Sheehan, a policeman, was shot and instantly killed. William Morley, 24 years old, was arrested, charged with the crime. He gave the police a lively chase, and it was not until he had emptied a revolver at his pursuers that he was captured.

Sheehan had incurred the enmity of a gang of crooks in his precinct by making many arrests.

and Harry Sheinkman are all taking action against Moses Kohonowitz and Louis Yolls for breaking into and entering a room at 17 Bulwer-street, Toronto, and rented by the Sheinkmans from Kohonowitz. Damages are also claimed for wrongful conversion of a quantity of personal property belonging to the plaintiffs.

Interim Receiver Appointed. Thomas J. Smyth of Sault Ste. Marie has issued a writ against E. L. Kinsman, Toronto; John Brophy of Massey, and the Imperial Timber and Trading Co. of Vancouver, B.C., for balance of commission for sale of certain timber, the commission having been earned at Toronto, and also for an accounting of certain partnership profits. Upon application to Judge Anglin, the appointment was made of E. B. C. Clarkson as interim receiver until Oct. 28 of all moneys due from the defendants to Peter Ryan and assigned by Ryan to Smyth.

Trouble Over a Will. Margaret M. Down applied to Master-in-Chambers Cartwright for judgment to issue within one week for interest and costs unless in the meantime the defendant gives notice of a test.

**BEER\* BENEFITS THE WHOLE BODY**  
(NO OTHER FOOD-BEVERAGE DOES THAT MUCH)

**N**OT six people in a thousand (and those six have either diabetes or gouty tendencies) can get anything but real good from the use of good beer with their meals. Because that kind of beer (and no other kind is brewed in Ontario) benefits the whole body of the normal adult,—enriches the blood, vitalizes the stomach, makes kidneys and liver active, builds flesh and betters nerves.

**Beer Is Not A Mere Tonic**  
Good beer, drank with meals and at bedtime, is not merely a tonic—for a tonic simply gets one part of the system to work better for a while, by stimulating its activity, while beer, rightly used, does the whole system permanent good.

**Beer Builds Up Thin Folks**  
That is why good beer is such a notable flesh-builder, and why it is so effective in changing the too-white blood of anemic people into the red, strong, healthy blood of the vigorous. It has qualities that are very valuable to women, especially. It is distinctly NOT an intoxicant, nor a hurtful stimulant. Ask your doctor if beer wouldn't be good for you as an item of daily diet.

\*BEER is a term which covers lager, ale, porter and stout; and, in the practice of Ontario brewers, implies beverages made under most hygienic conditions from Ontario barley (the best in the world), hopped pure water.

**REDUCED THE ASSESSMENT ON YORK LOAN CO. LANDS**

**Substantial Cut of \$75,000 Made by Court of Revision Which Yesterday Concluded Its Labors.**  
The court of revision yesterday concluded its hearing of ward six appeals against assessment, thereby concluding the work for the whole city.

The National Trust Company, liquidator for the defunct York Loan Company, was represented by Frank Foucher and C. D. Scott, and succeeded in obtaining reductions amounting to more than \$75,000 in assessment on lands owned by the company.

After the assessment on seven lots on Roncesvalles-avenue, that had been raised from \$15 to \$30 a foot, had been reduced \$5 a foot, adjoining land owned by the Toronto Railway Company, likewise assessed at \$30 a foot, was also reduced to \$25.

No cut was made in the assessment of \$8 a foot on York Loan land on Indian-road, nor on land on Sunningwell-avenue, near Garden-avenue, placed on the rolls at \$6 a foot. These reductions were, however, allowed the company.

Sixteen acres on Indian-road, from \$2000 to \$1500 an acre; 1-1/2 acres of vacant land on Indian-road, from \$500 to \$1800 an acre.

On Glendale-avenue, six lots, reduced from \$5 to \$4 per foot.  
On Indian-road, 120 lots reduced from \$5 to \$2; 75 feet reduced from \$8 to \$4.  
On Algonquin-avenue, 605 feet reduced from \$8 to \$5; 100 feet reduced from \$12 to \$8.

On Wright-avenue, five lots reduced from \$8 to \$6.  
On Perth-avenue, seven lots reduced from \$12 to \$8.  
On Geoffrey-street, four lots reduced from \$8 to \$6.  
On Roncesvalles-avenue, three lots reduced from \$18 to \$15; one lot reduced from \$18 to \$12, and one reduced from \$14 to \$10.

On Algoma-avenue, nineteen lots reduced from \$8 to \$4.  
On Koke-avenue, ten lots reduced from \$6 to \$4.  
The business assessment on Puddy-brook was reduced from 75

**ONTARIO TOBACCO GRADES HIGH OPINION OF EXPERTS**

**Strange Anomaly of Government's Attempt to Find Foreign Market for a Product It Brands as Unfit for Its Use.**

As indicated in the preceding letter, it is proposed in this to consider the quality of tobacco produced in Ontario, in order to determine, as stated, whether, on account of quality, the government can find any justification under the indenture, charging a deliberate, systematic and persistent discouragement of its production.

Quality in this connection must be considered apart from all processes of curing, drying, sweating, bulking and the appliances necessary therefor.

This is because, in much of the leaf produced but not properly cured, dried or packed, before going into the hands of the manufacturer, which appears to be a fact, the government is responsible. Growers who have no assurance when planting, that they will find a market for their product at any fair price, or, in fact, any market at all, scarcely feel justified in going to the expense of erecting curing and drying barns, expending fuel for heat, or packing in hogheads, or even bestowing the labor upon the cultivation of the plant which it requires, in order to produce the best results. They have no market, simply and wholly because the government has placed its ban upon their product.

**Last Years Exports.**  
Of the 15,016,164 pounds of leaf imported from the United States last year, 10,000,000 pounds were white burley; much the larger portion, too, of the Ontario product consisted of white burley. The quality of the leaf, therefore, is of first importance in this connection. Is it as good as that of Kentucky and Ohio? Intrinsically, yes. The writer, who has often handled the white burley of Kentucky on the breaks of Cincinnati and Louisville, knows that Ontario produces the more luxuriant and larger leaf, and that in outward appearance at least, it is superior rather than inferior. The better testimony, however, is the former Canadian burley in the latter. He, if anyone, should be able to pass a sound and unbiased judgment upon the intrinsic quality of Ontario burley.

**Quality and Cultivation.**  
"The quality of tobacco," said he, "substantially, when it reaches the hands of the consumer, depends upon the manner in which it is cultivated—upon when it is planted and cut, and upon how it is cured, dried and bulked. It cannot be cut in the sun and cured like hay. It needs to be carefully cultivated, to be planted in season and cut when it has reached the proper development. It needs to be cured and dried by someone who is acquainted with the changes it undergoes in color, etc., while curing and bulking. The writer is a well known expert in this connection. Our Erie Company is presenting an object lesson in these things to the tobacco growers of this section."

Mr. Carr refers to the curing and drying barns and operations upon two farms near Ruthven, owned by the Fox Brothers, which the writer visited, and which are stockholders in the Erie Company.

**Not Normal Season.**  
"This has not been a normal season for tobacco growing, it has been very bad, necessitating late planting and probably premature gathering. Last year the crop was splendid and I can say that that, given the same treatment from start to finish, the Canadian burley is in no respect inferior to that of Kentucky.

"When the Canadian growers have sufficient confidence in a stable market for their product, and are able to handle it in large quantities, they will be more valuable than those of Kentucky, because they yield 50 per cent. more to the acre. Eight hundred pounds is the maximum per acre in Kentucky, and 1200 in Canada."

**Expert's Opinion.**  
On one of the farms near Ruthven, the writer found W. R. Abbott, from the Danville, Virginia, exchange warehouse, who was engaged in harvesting

**DEATHS IN THE CITY.**  
Deaths registered at the city hall yesterday: Wallace McKenzie, 8 months, enterocolitis. Leighton A. Williamson, 1 year, enteritis. Bloomfield, stillborn. Oliver James Sills, 20 years, typhoid fever. Maris Marks, 6 months, whooping cough. Morris Kraehner, 38 years, carbolic acid poisoning. George Batz, 7 years, diphtheria.

**Christmas in England.**  
Every year the hundreds of people who go home to the folks in the old country are, about this time, looking for big and fast steamers that will take them home in time for Christmas. It is a difficult matter sometimes to know which are the best boats, but this year the steamer seems to be already picked in the great Cunard Line Lunitania, which sails from New York on the 14th Dec. A. F. Webster, the general passenger agent for Ontario, reports doing a big business for this great and popular boat, and if bookings keep up at the present rate, says she will be filled up long time before sailing.

**Ellenson to a Jury.**  
"I have practically no acquaintance with the facts of the case, and I had better let it go to a jury," was the dictum of Magistrate Dunlop as he sent Moses Ellenson of Kingston to trial in yesterday morning's police court on a charge of defrauding Julius Blaineston of \$2000 in the purchase of scrap iron, in which business both were engaged.

Trust Co. Trouble Causes Another Break on Wall Street—Toronto Market Weak.

World Office Tuesday Evening, Oct. 22. Considerable selling occurred on the Toronto Stock Exchange today and under the impress of panicky conditions at New York during the afternoon, new low prices were made for several speculative stocks. Actual liquidation was not large in today's market, but the buying was smaller, and there was consequently a further congestion of holdings. Sao Paulo, General Electric, Twin City and Mackay each made lower prices during the late business, but other issues held about steady. The renewal of weakness in Sao Paulo may have been due to the rumor that the company needed more money, a happening which, it is needless to state, would be thoroughly unacceptable to the market under present conditions.

NEW YORK, Oct. 22.—The failure of Mayer & Co., a small stock exchange firm, was announced at 2:30 p.m. The National Bank of Commerce gives notice that it will no longer clear for the Knickerbocker Trust Company.

Phelps, Dodge & Co. were indicted in the coal lands frauds. Birmingham denies the reported recession in volume business there.

The Southern Railroad report shows earnings equal to 3 per cent. on common, and 10 per cent. on preferred.

Federal Mining & Smelting Co. shows surplus after dividends for year ending Aug. 31 of \$114,608.

Interboro-Metropolitan net earnings for year ended June 30, \$1,770,471, an increase of \$1,475,700.

Twenty-eight roads for the second week of October show average gross increase of 5.87 per cent.

Banks lost \$2,281,000 thru the sub-treasury since Friday.

London was the seller of about 50,000 shares, which is nearly the amount bought for foreign account on Monday, or perhaps a little less.

It is certainly a dangerous time to buy on margin when there is apprehension no money to loan—J. G. Marshall.

WASHINGTON.—Secretary Cortelyou has directed the deposit of New York City banks of \$6,000,000 United States deposits to-day, as soon as the required security has been given by the banks designated.

A meeting has been called of the presidents of all the banks of Greater New York, to be held at 3 p.m. at the office of some institution in the Borough of Manhattan.

All the doors of the Knickerbocker Trust Company at this time, 1:50 p.m., are closed, and no payments are being made. We believe that the institution has taken advantage of the five-day clause in all of its branches.

Charles Head & Co. to R. R. Bondgard. It seems to me the situation speaks for itself. The Knickerbocker Trust Company episode is a very serious matter. The company is no doubt solvent, but it had nearly \$50,000,000 deposits, and the rumor it will result in hoarding and increase the difficulty of meeting the situation on the part of the banking interests. What we are going thru with, while extremely disagreeable, is salutary, and will leave Wall-street in a much sounder condition than it has been in for years. As backed by the main force of the powers, the marketing of collateral that has been hanging over the market, and as the shortage is of considerable extent it may be forced to take the majority of

ing corporations. While we feel that stocks are tremendously cheap and that the investor is now afforded an extraordinary opportunity, the immediate course of prices must again depend upon exigencies of holders, upon practical effect of extreme declines recorded and upon developments in the banking situation.

A. O. Brown to J. Lorne Campbell: The market has been very excited with much heavier trading and very severe declines in all of the active stocks. The London market was much lower and there was heavy selling from that quarter and the continent. There are rumors of various financial institutions, and in view of the feeling of uneasiness and uncertainty regarding the banking situation the time does not appear propitious for the purchase of stocks.

NEW YORK, Oct. 22.—Money on call was excited, strong and higher. The highest 7 1/2 per cent., and lowest 6 per cent. The ruling rate was 4 1/2 to 5 per cent.; last loan 6 per cent.; no closing bid; offered at 2 1/2 per cent. Time loans were nominal; 60 days, 4 1/2 to 5 per cent. bid, and 50 days, 4 1/2 to 5 per cent. bid, with six months at 6 per cent. bid.

On Wall Street. Charles Head & Co. to R. R. Bondgard. Violent liquidation carried the transactions in the London market to the largest volume recorded in a long time and the severity of the decline was only exceeded by those which took place at the great liquidations in last August and last March. A severe blow to confidence, which had begun to re-establish itself yesterday, was given by the collapse in the London market for American issues before our opening. In sympathy with the fall of two or three points on the other side, prices here at the start showed average losses from last night of two to three points. Feeble rallies followed the early dealings, but are long forced liquidation began to carry the market downward again. A conspicuous feature of the weakness was Union Pacific, which sold off nearly nine points, Southern Railway lost six points, and there were declines of over eight points in Delaware and Hudson and Northern Reading. St. Paul over seven points.

In the afternoon advices of treasury relief induced large taking of profits by the bears. Final prices showed fair recoveries from the great panic, but the market closed with indications of lessening selling pressure.

Afternoon Sales. Marshall, Spader & Co. to J. B. Beatty. Cash money rate was quoted as high as 70 per cent. and sterling exchange declined. Such forecast of the situation as we are prepared to make to-night must be entirely subject to such developments as may transpire at the meeting of the financiers to be held this afternoon at 3 o'clock and the announcement expected for the Knickerbocker Trust Co. regarding its resumption of payment to depositors. Even tho a partial recovery of market for listed issues, which is a favorable outlook for tomorrow, the events of the past week will require time to mend in their effect on sentiment.

Edna Stoppant wired to J. L. Mitchell: The market to-day has ruled extremely weak, with many new low levels for the movements recorded in the railroad trust, while heavy liquidation was especially in evidence. London houses ended long of stocks yesterday, expecting better prices before our opening, but difficulties of a large local trust company, with subsequent suspension, after paying out some \$8,000,000 to depositors, entirely changed the respect of affairs. These stocks were thrown over and the continent also sold. Houses identified with J. P. Morgan & Co. took heavy amounts of listed issues, estimated at high as 150,000 shares, and this prevented what is usually regarded as a panic. But the losses in railroad stocks were almost the equivalent of a large panic conditions. Cotton and grain ruled weak and curb stocks and bonds showed general pressure. Copper meted at declined 1 1/4 cent on the loss exchange. Some of the industrial falls to duplicate low prices made previous to to-day and it seemed that the railroad trust, which has been forcing out railroad stocks held as collateral for loans, in order to be prepared as speedily and fully as possible for further banking troubles. Late in the session the failure of a stock exchange house was announced. The tense situation resulted in loaning of call money at as high a rate as 70 per cent., but Kuhn, Loeb & Co. are credited with renewing \$15,000,000 in call money at as high a rate as 70 per cent., to help affairs as much as possible. Secretary Cortelyou is expected here and will probably make a reassuring statement regarding the general financial position. More or less authentic reports credit the treasury with depositing \$10,000,000 here during the day. President Roosevelt in address to-day says he will continue to punish successful dishonesty during the remaining 16 months of his term, and that this is all there is to his policy regard-

Afternoon Sales. Marshall, Spader & Co. to J. B. Beatty. Cash money rate was quoted as high as 70 per cent. and sterling exchange declined. Such forecast of the situation as we are prepared to make to-night must be entirely subject to such developments as may transpire at the meeting of the financiers to be held this afternoon at 3 o'clock and the announcement expected for the Knickerbocker Trust Co. regarding its resumption of payment to depositors.

Edna Stoppant wired to J. L. Mitchell: The market to-day has ruled extremely weak, with many new low levels for the movements recorded in the railroad trust, while heavy liquidation was especially in evidence. London houses ended long of stocks yesterday, expecting better prices before our opening, but difficulties of a large local trust company, with subsequent suspension, after paying out some \$8,000,000 to depositors, entirely changed the respect of affairs.

NEW YORK, Oct. 22.—Money on call was excited, strong and higher. The highest 7 1/2 per cent., and lowest 6 per cent. The ruling rate was 4 1/2 to 5 per cent.; last loan 6 per cent.; no closing bid; offered at 2 1/2 per cent. Time loans were nominal; 60 days, 4 1/2 to 5 per cent. bid, and 50 days, 4 1/2 to 5 per cent. bid, with six months at 6 per cent. bid.

On Wall Street. Charles Head & Co. to R. R. Bondgard. Violent liquidation carried the transactions in the London market to the largest volume recorded in a long time and the severity of the decline was only exceeded by those which took place at the great liquidations in last August and last March. A severe blow to confidence, which had begun to re-establish itself yesterday, was given by the collapse in the London market for American issues before our opening.

In the afternoon advices of treasury relief induced large taking of profits by the bears. Final prices showed fair recoveries from the great panic, but the market closed with indications of lessening selling pressure.

NEW LOW LEVELS ARE MADE.

The Toronto stock market continues in a state of decided unrest. New low prices for some of the speculative issues were made to-day, despite the claim that quotations are ridiculously low, and that liquidation has run its course. The dealings in the market were quite large, but the support was held fairly intact during the early part of the day, and sales were not permitted to make any marked depression.

During the afternoon General Electric, Sao Paulo and Mackay common were forced thru their previous low levels, but shorts were not disposed to take advantage of the situation, and the market fell into dullness. Abnormal strength was shown in Bank of Commerce stock, and the strange part is that this does not coincide with the general opinion, even of investment issues. To-day's further decline in speculative stock is likely to produce further selling to-morrow, and the market is in no shape to take actual liquidation.

MURDER TRIAL AT QUEBEC. Demonte's Defence Will Be Justification. QUEBEC, Oct. 22.—The trial of Mattie Demonte began in the criminal court yesterday. A mixed jury was sworn and Mr. Belleau, son of ex-Coroner Belleau, was sworn as interpreter.

Demonte is accused of having wilfully murdered on Oct. 1, one of his fellow-countrymen named Carmono Gardi, in a boarding house at Hervey Junction, in the Parish of St. Remi du Lac Aux Sables.

Gardi was unknown in the locality. About 8 o'clock in the evening of Oct. 1 he went into the provincial police station, apparently to pass the night. There he was immediately met by the prisoner, in the large room used first as a common bedroom, the prisoner fired at him, killing him instantly.

Demonte was immediately arrested and delivered in the course of the night to the constables of the provincial police. The lawyers for the defence will try to prove that Demonte was justified in killing him.

GAVE HIMSELF UP. Deserter From A Battery Sentenced to Six Months. KINGSTON, Oct. 22.—(Special.)—An "A" Battery man named William Leary, who deserted from Petawawa in August, and who was charged with the theft of clothes, returned to Kingston and gave himself up. He was tried before Major Leslie and sentenced to six months in jail at hard labor.

MR. DOOLEY MEETS KIPLING. MONTREAL, Oct. 22.—Peter Dunn (Dugley) arrived in the city this morning from Chicago, his purpose being to meet Rudyard Kipling, who also arrived to-day from the west. Both gentlemen are guests of Sir William Van Horne, and are spending their time playing golf.

FLEAS THREATEN NEXT. LONDON, Oct. 21.—Sir Lauder Brunton, alluding to the danger of infection from rats and fleas at the School of Tropical Medicine, said it was a dangerous course to allow rat and flea infested districts to exist in the east end of London and Vancouver, places which are in daily danger of infection by plague from the far east.

Kinaston Disposed to Complain. KINGSTON, Oct. 22.—(Special.)—Citizens do not take kindly to the reduction in the weight of bread yesterday from a pound and one-half to a pound and one-quarter, the baker says there is less opposition to the reduction in weight than there would be to an equivalent increase in the price.

This Walker Makes Good. CINCINNATI, Oct. 22.—Dan O'Leary, a long distance walker, finished a 1000-mile walk at Norwood in 7 o'clock this morning. He walked one mile each hour for 1000 consecutive hours. He is nearly 65 years old, but has shown no signs of faltering.

Men Instead of Boys. The "red cap" boys at the union station are soon to be replaced with young men of twenty or thereabouts. The public have complained lately that the boys do not give satisfactory service unless they are sure of a good tip. The boys get from \$5 to \$10 a supreme court.

Now is the Time. To go duck shooting, but before you go it would be well to find out where they are most plentiful. "Haunts of Fish and Game," issued by the Grand Trunk Railway, will tell you where good sport is to be had. To secure a copy, write to J. D. McDonald, Station Ticket passenger agent, Union Station, Toronto, or call at ticket office, northwest corner King and Yonge-streets.

Striking Telegraphers Return. OMAHA, Neb., Oct. 22.—Three striking telegraphers, including the striking treasurer of the union here, returned to work to-day. Two returned yesterday.

SMALL SUMS OF MONEY should be invested as carefully as large amounts. Requirements of investors of small amounts receive our careful consideration. We invite correspondence. A. E. AMES & CO., Limited, 7 & 9 King St. East, Toronto.

## COURSE OF TRAINING FOR CITY'S MOTORMEN

Two Officials of the Company Who Are Government Examiners of New Hands.

The statement made by a motorman of the Street Railway Company at the inquest of Monday night, that he had not been called upon to pass any examination as to his qualifications for the work, has given rise to the question of whether or not the process of testing candidates is sufficiently thorough.

There are two appointees of the Ontario Government whose duties are supposed to be those of guarding the public interests. One is Superintendent Nix, and the other Inspector Hogg. Each, so it appears, exerts more or less supervision over the men who are being put thru their paces from the time they are given instruction in the car barns by the master mechanic to the period, usually about two weeks later, when the novice is given full charge of a motor.

## BISHOP ASKS FOR POLICE TO ENFORCE LIQUOR LAW

Indians in Moosonee Are Debauched by Alcohol in Patent Preparations.

The Right Rev. Dr. Holmes, Bishop of Moosonee, a diocese whose northern boundaries extend to the Arctic regions, called upon the premier and several members of the government yesterday, with the view of securing the appointment of more provincial police officers in that region, to bring about a better enforcement of the liquor law, as well as of sanitary regulations.

He says that in particular the town of Chapleau, where he resides, is growing very rapidly, and that owing to negligence in looking after sanitation, danger exists of epidemics. A great deal of trouble arises from the sale to the Eskimos, Ojibways, Crees and other Indians in that territory, not only of ordinary liquors, but also of extracts and other preparations containing alcohol.

"The situation," he said, "is grave, and requires immediate attention."

A Political "Plot." A story to the effect that it had been discovered that 200 Liberals had been "smuggled in" to membership in the second ward Conservative Association was ridiculed last night by Wm. Crawford, president of the association.

"There may be a few of them, but I know nothing about it," he said.

### NIAGARA POWER GETS IN TOO LATE TO FIGURE

Representatives Are Not Very Well Pleased—General York County News Items.

**DONLANDS, Oct. 22.**—The steam plow at Donlands is of much interest to the farmers of York and Scarborough, and they are over ready to see it work.

Today, with eight plows, it plowed over 15 acres. With a better water supply for the engine, double 12 acres could be turned over. It is working in a 100-acre field which is 12 miles long and the half mile trip in 20 minutes, the strip of eight furrows being 18 inches wide. The ground is half stubble and half sod and the plow goes thru it with remarkable ease. The field is almost free of stumps and bones, one hidden snag of green rot was encountered, and it tore thru that without stopping. The man who runs the plow has time to pick up any surface stones and throw them on the plow platform. The farmer visitors delight in the furrows rolling over and watch the furrows rolling over at the rear.

The main problem now is to keep the engine in driving order. It is accomplished by enlarging the steam tanks on the engine itself, by another on the plow platform, and by refilling the storage tank as it can be put off that it will rapidly water the engine or its tank wagon. In other words, to do the most work the engine must be able as nearly as possible to drink as it goes along. The engine tanks carry a good supply of coal; the spare coal is put in 100 pound boxes at the turn of the field and one can be picked up at the turn without any loss of time.

By taking the 9 a.m. train on the Canadian Northern Railway at the Union Station, Toronto, one can be put off at Valdyon Station at 3:30; can walk thru the field and see the plow work, and reach Donlands Station at 4:30. The train is in the city at 10:25—less than one and a half hours to go out and get a good sight of the engine and plow and return to the city. There is also a train on the C. N. R. from Valdyon at 5:15 in the afternoon. Among the visitors to-day was Mr. William Harris of the Harris Abattoir. He said that the Harris Abattoir is a great success. Passengers on the C. P. R. can get a good view of the plow from the windows on the south side of the train when between Donlands and viaduct No. 4 (over the main Don).

### TORONTO JUNCTION

Paving Gets Right Merrily on—Council Discusses Important Matters.

**TORONTO JUNCTION, Oct. 22.**—The mixer on the Dundas-street paving has been repaired and the work is once more going ahead rapidly. The concrete being laid along one side of the street has far as Bruce-street, and the street car tracks have been relaid for a considerable distance.

Work on the excavation for the new Salvation Army hall at South Keele-street was commenced to-day. The building will cost \$3000.

The harvest home festival of Mount Victoria Church will be held last night and was largely attended.

While proceeding along Davenport-road, about ten o'clock to-night, one of the drivers for the street car company was badly maulled by a passing cyclist, who seemingly without any provocation, struck him a sound drubbing, after which he regained his equilibrium, and washed the cyclist's face from his face. His injuries are not serious.

The work on the new Methodist Church at the corner of Annetts-street and High Park-avenue is progressing slowly these past few days on account of the iron work, which must be completed before the bricklayers can make much headway.

The Toronto Junction will soon be able to boast of having a full-fledged Y.M.C.A. A meeting of the building committee was held last night in Victoria Presbyterian Church.

The district executive of the E. W. League visited the Daviessville town last night and a pleasant evening was spent with the returned home-coming from his holiday trip.

A public meeting will be held two weeks from Friday, when the aims and objects of the association will be presented.

A stiff blaze broke out at 2 p.m. to-day in the Keele-street corporation yards, when a pile of new lumber, damaged to the extent of about \$40. The fire is believed to have been caused by boys lighting matches.

At the regular meeting of the town council to-night the chief topics of discussion were the laying of the railway tracks in connection with the paving of Dundas-street and the letting of the contract for street lighting, as the old contract expires in a few weeks.

A motion was brought forward to have a timekeeper appointed to superintend the workmen on the Dundas-street paving, and the disposal of the old material which is being removed from the street. Mayor Baird stated that the contractor is having it spread in West-ern-avenue from gutter to gutter, which he said was a non-sensical idea. Willoughby-avenue is another victim of the contractor's dump wagons, and the work was graded only two years ago it is now almost as high as before the grading.

The contract for street lighting in the Junction was renewed with the Stark Telephone Light & Power Co. for a period of three years at 9 cents per light per night.

**LEMONVILLE.**  
Stricken With Paralysis, Mrs. Phillips Passes Away Suddenly.

**LEMONVILLE, Oct. 22.**—Death came very suddenly to Mrs. Samuel Levesley of Whitehall, Ont., on Saturday morning. Deceased came on a visit to her brother-in-law, John Phillips, and also she had not been in the best of health for about a year, her end came very suddenly, being stricken by paralysis surviving only a few hours. The family has the sympathy of the community in their bereavement. The funeral took place yesterday. Mr. and Mrs. W. E. White of Stouffville visited his mother, Mrs. W. L. White, on Sunday.

In other words, to do the most work the engine must be able as nearly as possible to drink as it goes along. The engine tanks carry a good supply of coal; the spare coal is put in 100 pound boxes at the turn of the field and one can be picked up at the turn without any loss of time.

By taking the 9 a.m. train on the Canadian Northern Railway at the Union Station, Toronto, one can be put off at Valdyon Station at 3:30; can walk thru the field and see the plow work, and reach Donlands Station at 4:30. The train is in the city at 10:25—less than one and a half hours to go out and get a good sight of the engine and plow and return to the city. There is also a train on the C. N. R. from Valdyon at 5:15 in the afternoon. Among the visitors to-day was Mr. William Harris of the Harris Abattoir. He said that the Harris Abattoir is a great success. Passengers on the C. P. R. can get a good view of the plow from the windows on the south side of the train when between Donlands and viaduct No. 4 (over the main Don).

Paving Gets Right Merrily on—Council Discusses Important Matters.

**TORONTO JUNCTION, Oct. 22.**—The mixer on the Dundas-street paving has been repaired and the work is once more going ahead rapidly. The concrete being laid along one side of the street has far as Bruce-street, and the street car tracks have been relaid for a considerable distance.

Work on the excavation for the new Salvation Army hall at South Keele-street was commenced to-day. The building will cost \$3000.

The harvest home festival of Mount Victoria Church will be held last night and was largely attended.

While proceeding along Davenport-road, about ten o'clock to-night, one of the drivers for the street car company was badly maulled by a passing cyclist, who seemingly without any provocation, struck him a sound drubbing, after which he regained his equilibrium, and washed the cyclist's face from his face. His injuries are not serious.

The work on the new Methodist Church at the corner of Annetts-street and High Park-avenue is progressing slowly these past few days on account of the iron work, which must be completed before the bricklayers can make much headway.

The Toronto Junction will soon be able to boast of having a full-fledged Y.M.C.A. A meeting of the building committee was held last night in Victoria Presbyterian Church.

The district executive of the E. W. League visited the Daviessville town last night and a pleasant evening was spent with the returned home-coming from his holiday trip.

A public meeting will be held two weeks from Friday, when the aims and objects of the association will be presented.

A stiff blaze broke out at 2 p.m. to-day in the Keele-street corporation yards, when a pile of new lumber, damaged to the extent of about \$40. The fire is believed to have been caused by boys lighting matches.

At the regular meeting of the town council to-night the chief topics of discussion were the laying of the railway tracks in connection with the paving of Dundas-street and the letting of the contract for street lighting, as the old contract expires in a few weeks.

A motion was brought forward to have a timekeeper appointed to superintend the workmen on the Dundas-street paving, and the disposal of the old material which is being removed from the street. Mayor Baird stated that the contractor is having it spread in West-ern-avenue from gutter to gutter, which he said was a non-sensical idea. Willoughby-avenue is another victim of the contractor's dump wagons, and the work was graded only two years ago it is now almost as high as before the grading.

The contract for street lighting in the Junction was renewed with the Stark Telephone Light & Power Co. for a period of three years at 9 cents per light per night.

**LEMONVILLE.**  
Stricken With Paralysis, Mrs. Phillips Passes Away Suddenly.

**LEMONVILLE, Oct. 22.**—Death came very suddenly to Mrs. Samuel Levesley of Whitehall, Ont., on Saturday morning. ### NIAGARA POWER GETS IN TOO LATE TO FIGURE

Representatives Are Not Very Well Pleased—General York County News Items.

**DONLANDS, Oct. 22.**—The steam plow at Donlands is of much interest to the farmers of York and Scarborough, and they are over ready to see it work.

Today, with eight plows, it plowed over 15 acres. With a better water supply for the engine, double 12 acres could be turned over. It is working in a 100-acre field which is 12 miles long and the half mile trip in 20 minutes, the strip of eight furrows being 18 inches wide. The ground is half stubble and half sod and the plow goes thru it with remarkable ease. The field is almost free of stumps and bones, one hidden snag of green rot was encountered, and it tore thru that without stopping. The man who runs the plow has time to pick up any surface stones and throw them on the plow platform. The farmer visitors delight in the furrows rolling over and watch the furrows rolling over at the rear.

The main problem now is to keep the engine in driving order. It is accomplished by enlarging the steam tanks on the engine itself, by another on the plow platform, and by refilling the storage tank as it can be put off that it will rapidly water the engine or its tank wagon. In other words, to do the most work the engine must be able as nearly as possible to drink as it goes along. The engine tanks carry a good supply of coal; the spare coal is put in 100 pound boxes at the turn of the field and one can be picked up at the turn without any loss of time.

Men's Black Leather Hunting Coats, soft, pliable stock, in an even, medium weight, ball and socket fasteners, and made to button close up at the throat, soft corduroy-lined collar and moleskin body lining. Thursday ..... \$5.00

### See the Argument

Hats! That's the subject. When you consider that every man is judged by his clothes nowadays, what's the object in wearing a dingy hat. The price?

Not much of an object in that. See our \$2.00 hats.

Men's Derby and Soft Hats, Christy's English make, or the King brand, latest styles, and fine quality of fur felt, with best finish and trimmings, colors black, fawn and brown. Thursday ..... \$2.00

### "Pen Angle"

Ever wear it? Underwear, men's underwear, "Pen Angle" is the brand.

We handle it and recommend it. On sale in the Men's Store—and you have an argument in its favor right there.

"Pen Angle" Brand Natural Wool Underwear, double breast, medium full weight, guaranteed unshrinkable, sizes 34 to 42, per garment ..... \$1.00

Sizes 44 to 50, per garment, Thursday ..... \$1.25

### Men's "Victor" Boots

The new "Victor" Boot style V.P. is patterned after a New York custom bootmaker's model originated for young business men's and college men's wear.

Every detail of correct custom modeling is at once apparent in its features. Narrow slope-sole, swing forepart, flat tread sole and military heel are all characteristic of this season's newest fashions. The vamp is cut from finest quality patent colt leather of special selection. The dull calf upper is soft and flexible. Blucher cut. Every bit of leather in the soles, heels, toe-boxes and counters is oak-barked-tan—this means wear. The "Victor" price is \$4.00.

NOTE—The high cost of the patent colt leather used in style V.P. makes it a boot which should sell for a much higher price. Buy a pair for evening wear—you cannot do better.
