Coal Strike Still Goes On Peace Eludes Politicians

Gov. Odell's Proposition to Raise
Wages 5 p.c. and Recognize
Union Scorned.

**JOHN MARKLE PREDICTS
KILLING OF 150 STRIKERS**

"If you force us to needlessly antagonize these people it may start a 'scrap' and lead to the shooting down of a dozen or fifteen of these fellows. I assure you, we don't want to see that."—Lieut.-Col. Good to John Markle.

"A dozen or fifteen? You'll kill a hundred and fifty of them before you get away from here and before these men go back to work."—John Markle to Lieut.-Col. Good.

New York, Oct. 10.—After two days of conferences between the anthracite coal mine operators on one side, and the government Senator of New York and the Senate from Pennsylvania on the other, the strike of the United Mine Workers of America is apparently as far from a settlement as the day it was declared. Gov. Odell laid before the operators to-day the proposition that if they would concede to the miners an advance of five cents a ton in the price paid for mining coal he would promise that the miners would resume work. Being told further that the concession would carry with it recognition of the miners' union, the operators promptly refused to entertain the proposal and took their leave. Later in the day the Pennsylvania Senators departed from the city. John Mitchell, president United Mine Workers of America, announced his intention of leaving the city early to-morrow morning, his destination being Wilkes-Barre. Mr. Mitchell took no part in any of the conferences to-day.

Barren of Results.
To-day's conference between men of official positions and President Edgar and Chairman Thomas was absolutely barren of results. According to the statements made by the operators, the prospects of a settlement are no more promising than they were yesterday. There is nothing to suggest that negotiations will be resumed next Tuesday. As one of the coal presidents put it: "The incident is closed."

"The publicists," said this gentleman, "made a number of suggestions, of which we turned down. These included a 10 per cent increase in pay, a decrease of working hours, and recognition of the union as well as a number of other propositions which we regard as equally undatable. In fact, we found it impossible to agree with them, and said so. What their next step will be I cannot say. I believe they understand that we are not to be moved. I repeat, we will not meet them again. It is ridiculous, and is bound to result in further ill-feelings."

Another operator said: "It is not for us to consider mere matters of political expediency. We are so-called statesmen kept their hands off the strike, would have been settled long ago. We have taken a stand, and we will stand by it, and no amount of argument will budge us."

P. Morgan, who conferred with several of the operators during the day, would not discuss latest developments, but it was understood that he had not swerved from his purpose not to become a party to the controversy. Gov. Odell to-day declared that he was not a party to the controversy, and the result of the first meeting between Governor Odell and President Baer.

Find Solution at Once.
Mr. Baer was accompanied by E. B. Thomas, chairman of the Erie Railroad. The conference was opened by Senator Penrose, who said that the situation was becoming so serious that some solution must be found at once. He suggested that the operators should incline to some concessions.

If you mean that," said President Baer, "that we are to recognize the existence of a labor union, I will consider no such proposition." Gov. Odell was on his feet in an instant. "We are to understand that to kind of a conciliatory proposition will receive consideration at the hands of the operators?"

"I did not say that," answered Mr. Baer. "What I do say, and I reiterate it, is that we will not accept political advice, or allow the interference of politicians in this, our affair." Then it was that Gov. Odell made the statement quoted above.

Operators Against Public.
President Baer bowed to the Governor, and said: "Governor, I beg your pardon. No personal affront was intended, and we will listen to any suggestion you may have to make, but, again, I repeat that we must refuse to recognize the union, as represented by Mr. Mitchell."

"I believe," said the Governor, "that your position, from a public view, is absolutely untenable. If coal operators, railroad men and other business men can combine for mutual profit and protection, there is no reason why laboring men should not."

"What is the proposition?" said Mr. Baer.

"Just this," said Gov. Odell: "I am sure that the labor organization of which Mr. Mitchell is head desires him to be fair with the general public. If the operators will consent to give the men cents a ton increase, I will personally proceed to the miners, and I believe they will accept it. It is a fair proposition."

"Does this mean, Gov. Odell, that we are to recognize the Miners' Union?" Mr. Baer asked.

"It certainly does," answered the Governor, quickly, "and there is no reason why you should not."

Postponed Till Tuesday.

Mr. Baer and Mr. Thomas rose.

GO ON WHEN WE ARE LIVING
Time to Develop Our Industries When
We Are Prosperous, Says
Mr. Tarte.

THERE MUST BE NO EAST NOR WEST

**Minister of Public Works at Berlin
Advocates an All-Canadian
Policy.**

Berlin, Oct. 10.—(Special.)—Hon. J. Israel Tarte was honored in royal style by the citizens of this town to-night with a splendid banquet in the Walker House. Representative men in all stations of life were in attendance to the number of about a hundred. A considerable proportion of them being from neighboring towns and municipalities. The Minister of Public Works arrived in the town at 8 o'clock in the evening, and was escorted by a committee to the Banquet Hall. He expressed his regret to the committee at not being able to arrive earlier, and stated that he would do so to-morrow. Conspicuous among the decorations of the hall were magnificent specimens of beets hanging from the chandeliers, emblematic of the town's most prominent industry, the beet sugar factory. Mayor Eden, whose Conservative principles occasioned many a happy jest during the evening, presided. The guest of the banquet sat on his right, and S. J. Williams, one of the town's most prominent citizens, on his left.

Protect Sugar Beet.
After the toast of the King had been duly honored, Mayor Eden delivered an interesting address stating that, tho the Hon. Mr. Tarte had been criticized severely in some quarters in the past he could rest assured that he would receive no adverse criticism from the citizens of Berlin as long as he followed the policy advocated by him. He trusted that Hon. Mr. Tarte would continue to be as good a statesman in the future as he had proved to be in the past. In response to the toast of Berlin's manufacturing interests, S. J. Williams, ex-president of the Board of Trade was heard in a practical speech in which he attributed the success of the industries in Berlin to the National Policy. Berlin was the most prosperous town in Canada. The population consisted of Germans who meant prosperity wherever they lived; they were economical, hard working, attended to their own business and they found enough of that to keep them busy. It was just one year ago to-night that a committee of the citizens was in Bay City, Mich., investigating the beet root sugar industry, and the advancement made since then was a great tribute to the energy of the industry. He felt confident if sugar was protected by the National Policy, Great Britain would supply Great Britain with sugar as well as wheat.

Hon. Mr. Tarte Speaks.
The toast of the "Guest of the Evening" was then proposed, and was received in a most enthusiastic manner. The gathering joining heartily in singing "He's a Jolly Good Fellow." "He's a Daisy." "One of the very many clever men whom I have heard of in your Province," said Hon. Mr. Tarte, at the outset, "asked in a speech the other evening, 'what would be the result in our country if Canada had started housekeeping 20 years ago?' Certainly things would be different to-day. There are three million Canadians in the United States. When those brothers left us, they did so because we had no national industries in this country, and they crossed over the line in order to seek employment. Is it too late today for us to start housekeeping? By all means, we have abundant opportunity of everything capable of building up a nation." (Applause.)

Shipping Policy.
Hon. Mr. Tarte then referred to transportation as a question of business, and not as a question of politics. It would not be long before we would have a Canadian shipbuilding policy. It was not a national shame for us to have to admit that we were not in a position to build a ship. There are three million Canadians in the United States. When those brothers left us, they did so because we had no national industries in this country, and they crossed over the line in order to seek employment. Is it too late today for us to start housekeeping? By all means, we have abundant opportunity of everything capable of building up a nation." (Applause.)

Strong Canadian Tariff.
"Sir," he said, glancing at Mr. Williams, "you have said the prosperity of our industries was due to the National Policy; well, I was a National Policy man in my early days; call it what you like, National Policy or protection, it matters not so long as you get what you want. In my opinion we must have a strong Canadian tariff. (Applause.) I have studied the tariff question for 25 years of my life, and perhaps some of those criticizing me were not born when I was grappling with and discussing the Canadian tariff. I say nothing to-day about the tariff, but I am professing to know as much on constitutional history as any of those who are criticizing me, and I say it in my way as now. The Minister of Finance has a right to announce the tariff to ask my Liberal friends and I want to have been untrue to my later and party because I am short of cash. The Minister of Finance himself announced, and in view, to last several months, so we are proud to see that our countrymen are being promptly filled. Christie, Brown & Co., Limited, Toronto and Montreal."

Cabinet Views Coal Strike

Rates of Railways Reduced

**Nova Scotia Coal to be Put
Down at Montreal Free to
Municipalities.**

Ottawa, Oct. 10.—A meeting of the cabinet was held this afternoon, at which, among other things, the all-absorbing coal problem was discussed. There were present Sir Richard Cartwright, acting Premier; Hon. R. W. Crooks, Hon. James Sutherland, Hon. Clifford Sifton, Hon. Charles Plummer, and Hon. M. E. Bernier. The ministers are said to have fully realized the gravity of the situation, and have unanimously agreed that a material reduction in freight rates for Nova Scotia coal should be determined on the demands by which the State of Pennsylvania has also said that they were favorable to laying coal down in Montreal, free to municipalities.

C.P.R. and G.T.R. IN LINE.
Montreal, Oct. 10.—Traffic managers of the Canadian Pacific and Grand Trunk announced at the conclusion of the conference with civic officials this afternoon that a reduction of 33 1/2 per cent would be granted on fuel hauled to Montreal.

Civic Fuel Ready For All In Toronto Yards Monday

WHALLEY WAS MURDERED
Came to His Death at the Hands
of a Party or Parties
Unknown.

VERDICT OF CORONER'S JURY
New Feature of Evidence Was Production of Deceased's Envelope,
Torn to Pieces.

George Whalley was murdered. That is the verdict of the coroner's jury which has consumed three months investigating the mysterious death of the Evans warehouse employee. The closing chapter of the exhaustive hearing was written briefly:

That the said George Whalley came to his death at the hands of a party or parties unknown. He came to his death the afternoon of July 19, and seventy-five witnesses have been examined since then during a dozen sessions of the jury with a view of unravelling the singular circumstances surrounding the case. Detectives Slemin, Davis and other officers have devoted considerable attention to the affair. In spite of the energetic efforts of the authorities little evidence has been adduced to indicate the author of the murder, the well establishing the fact that death was not due to self-destruction or natural causes.

Chain of Mysteries.
Whalley's death came as one of a chain of sensational and mysterious events in the Front-street warehouse of Evans & Sons. The attention of the police was first called to the firm's place of business May 30, when a robber was discovered in the building looting the safe and trying to fire the warehouse. June 7 Edward Gean, an employee, was found dying in the basement. This was on Saturday afternoon. June 15 a fire of incendiary origin was discovered in the building. July 21 the body of George Whalley was found in the building near where Gean had died. He had evidently died Saturday afternoon. Each body bore no evidences of unnatural or violent death. The pockets of both men had been robbed. A chemical and microscopic analysis of Whalley's remains failed to indicate the presence of poison or the cause of death. Aug. 8 young Annett White, one of the employees, disappeared. He was the last man seen with Whalley or Gean.

Two weeks ago two employees of the warehouse were arrested on the charge of having robbed Gean's body. Both were acquitted by the examining magistrate. The same investigation developed the fact that small parcels had been going on in the warehouse for some time. There was a note in the warehouse, little evidence being secured showing who was responsible for the series of crimes. There were many suspicious circumstances pointing to some one connected with the place of business, knowing something about the crime.

New Feature of Evidence.
The three witnesses examined Friday evening, concluding the investigation were Detective Slemin, Manager Spencer of the firm, and Dr. Johnson. An entirely new feature bearing on the possibility of Whalley's murder has been brought out in the evidence of the detective. Several pieces of paper which he said he had picked up the day after Whalley's body was found near where the corpse was found, in the same room. These pieces of paper formed a part of an envelope similar to that in which the dead man's money was paid to him ten minutes before he is supposed to have died. They were found in the warehouse, and the body, tearing open the envelope and casting the pieces where they were found.

**Much Alarm Among People Not
Supplied, But Everything In-
dicates Immediate Relief.**

A serious panic undoubtedly exists in Toronto over the fuel situation. The energy of the entire city administration is being directed toward the establishing of civic fuel supplies. Some of this wood will come to arrive by Monday morning. Coal for the municipal wood yards will be in sight within another week at from seven to eight dollars per ton. The dry wood will cost at the civic yards from seven to nine dollars per ton. Orders were issued Friday for the public corporation yards to be put in immediate shape for the reception of these vast piles of fuel. In the meantime the local dealers have ceased quoting hard coal, while soft coal is held at from seven to ten per ton, with uncertain delivery, and dry hard wood at ten and eleven.

Spectre That Alarms Toronto
The spectre that alarms Toronto people is not the high price of fuel so much as their absolute inability to obtain wood or coal at any price. Aid Sheppard made the startling statement in the meeting of the Board of the city hall Friday afternoon that he had received a quantity of wood in the corridors of the city hall during the day beseeching him to tell them where they could buy fuel. They could buy it from him, they could keep their children from freezing. Some of these women carried children in their arms. The city treasurer asserts that more than one hundred women have called at his office daily desiring to know where they can purchase wood, coal or anything for fire purposes. In addition the "phone" is occupied all day with inquiries of this character. He says he is simply besieged in his office by people begging for fuel. This is not a paper mob, but crowds of respectable Toronto citizens with money to pay for anything they want. The majority of these people have little or nothing to cook the very food they desire to eat, much less prevent privations from cold.

Civic Fuel Monday.
This is the situation which confronts all Toronto to-day. It can possibly be mended by Monday, when the civic fuel begins to arrive, but not before.

In the face of this menacing situation there are members of the City Council who have the temerity to assert—and with boldness borne of sincerity—that the city officials are making a mistake to enter into competition with the local fuel dealers, and that the effort of the city to buy fuel is merely rushing up the price and preventing the wood and coal from being purchased through legitimate channels at reasonable prices.

Opposed to this view, Ald. Sheppard asserts that the city fuel dealers are holding up the city, and that they are withholding coal and wood, and exacting outrageous prices, from the public. He asserts that there is no telling what the limit is on the prices these owners of fuel will charge unless the city goes into the market and purchases the fuel at once.

Sheppard's Action Endorsed.
In the meantime the authorities have endorsed Ald. Sheppard's actions in purchasing a quantity of hard and soft wood, and the action of the other committees in the purchase of quantities of green standing wood.

DERRY LODGE SEEN BY ALEX. BALL

Mayor and Aldermen Hold a Secret Meeting to Discuss the Coal Situation.

Hamilton, Oct. 10.—Judge Harding, Grand Master, accompanied by B. Allen, D. G. M., Toronto, and William Robinson, D. D. G. M., Oakville, paid an official visit to Acacia Lodge, A. F. & A. M., this evening, and was given a warm welcome. A banquet followed the lodge meeting, and an enjoyable time was spent.

Another Visitor.
Derry Lodge, No. 2, Orange Young Britons, was visited this evening by Alex. Ball, Grand Master, Toronto, Black and Hornsby of Toronto. After the lodge meeting, an open meeting was held, with William Hoy in the chair.

Conference re Coal.
A conference took place this afternoon between the Mayor and Aldermen, regarding the coal situation. The meeting was private, and the Mayor declined to give out any information as to what took place.

Burglars Chased.
The residence of Rev. Mr. Hoffman, pastor of the German Lutheran Church, Hougham street, was broken into to-night by robbers. The preacher was in his study, and heard the intruders, and gave chase. One of them left his hat. The other was seen.

Liberal Club Re-opens.

The Vital Difference

between Laxatives and Purgatives cannot be too clearly understood. The former are GENTLE, the latter VIOLENT. A LAXATIVE takes the organs; a PURGATIVE takes the work out of nature's hands. And every time that nature fails to perform its proper functions it is less disposed to perform them.

Purgatives, therefore, are at best a necessary evil, like an emetic to relieve the stomach of undigested food.

IRON-OX TABLETS

are an ideal Laxative, strengthening instead of debilitating.

50 Tablets, 25 Cents

"Without Pain"

This has come to be so common a statement—and still is so uncommon a result in tooth extraction—that our methods are a grateful surprise when tried. By the application of a carefully prepared and harmless anesthetic to the gums, the nerve is desensitized temporarily—the tooth removed quickly and easily, and all bad after effects avoided by the anesthetic qualities of the drug employed.

Painless Extraction.....25c.

WANT SABBATH PRESERVED

Deputation Urges General Manager C.P.R. to Do What He Can to Minimize Labor on That Day.

HE WOULD AVOID SUNDAY WORK

If Possible, He Said, and Pointed Out That It Was in Company's Interests to Do So.

Montreal, Oct. 10.—General Manager McNicholl of the Canadian Pacific was today afternoon visited upon by a deputation representing the Lord's Day Alliance of Canada, the Trades and Labor Congress of Canada, and Christian Churches. The deputation included Archbishop Bland and Dr. Potts, Rev. J. G. Shearer and P. M. Draper, secretary of the Trades and Labor Congress, and Rev. J. D. Potts, who acted as spokesman, referred to the importance of the Sabbath, which numbered over 300 branches and represented the Christian opinion of Canada. They recognized the difficulties in the way of a transcontinental line, but hoped that Mr. McNicholl would do what was possible to minimize Sunday traffic and labor.

The deputation then presented a number of written requests for Mr. McNicholl's consideration, including a letter from the Lord's Day Alliance, a letter from the Trades and Labor Congress, and a letter from the Christian Churches. Mr. McNicholl, in reply, expressed his personal opposition to the Sabbath and said, as a member of the company, he was bound to support the company's policy. He said that the company's policy was to operate on Sunday, and that he was bound to support that policy. He said that the company's policy was to operate on Sunday, and that he was bound to support that policy.

General Manager McNicholl in reply expressed his personal opposition to the Sabbath and said, as a member of the company, he was bound to support the company's policy. He said that the company's policy was to operate on Sunday, and that he was bound to support that policy. He said that the company's policy was to operate on Sunday, and that he was bound to support that policy.

WILL SPY OUT THE LAND

Veterans Will Scout Members to Choose Free Sites.

An announcement having been made by the government that certificates for veterans' land grants would be issued within the next few days, a committee of the Veterans of 90 Association met on Friday night and decided to issue a circular setting forth that they intended to make arrangements for employing suitable men to spy out the land for the veterans. The committee decided that they would employ men to spy out the land for the veterans, and that they would issue a circular setting forth that they intended to make arrangements for employing suitable men to spy out the land for the veterans.

Service of Song.
A thanksgiving service of song was given in the lecture room of St. George's Church on Friday night. The program was conducted by the choir of the church, assisted by Mrs. Grace Farver, soprano; Miss Mabel Dalby and Miss Margaret, alto; and other local talent.

Trolley Hit a Mail Clerk.
D. J. Skelly, a railway mail clerk, while giving to the Union Station on Friday night was struck by a trolley. He was thrown to the ground and injured. He was taken to the hospital, and is now recovering.

Public Library Board.
The meeting of the Public Library Board on Friday night was held at the Public Library. The board discussed the purchase of new books, and the appointment of new staff. The board also discussed the purchase of new books, and the appointment of new staff.

Y.M.C.A. Basketball Team.
The Y.M.C.A. basketball team, which has been practicing for some time, will play a game on Friday night. The game will be played at the Y.M.C.A. gymnasium, and will be a contest between the Y.M.C.A. team and a local team.

Coronation Choir on Thanksgiving.
The famous Coronation Choir from Westminster Abbey will perform at the coronation of King George V. The choir will perform at the coronation, and will sing the national anthem.

Jessie Alexander's Numbers.
For her solo appearance in Canada this season, at the Massey Hall, Jessie Alexander will present a delightful program, almost entirely new, consisting of songs, recitations, and other musical numbers. Her selections will include "The Ballad of the White Horse," "The Ballad of the White Horse," and "The Ballad of the White Horse."

Semirich and Mascongl.
Two most notable musical events are shortly to take place at Massey Hall. The first is the appearance in recital of Madame Semirich, a Russian pianist, on Thursday evening, Oct. 23. The second is the appearance of the Mascongl, a Russian pianist, on Friday evening, Oct. 24.

Will Continue Publication.
The Toronto Western Congregational Association, which has been publishing a journal, will continue its publication. The journal will be published weekly, and will contain articles, news, and other information of interest to the congregation.

Death of Mrs. Ann Kent.
Mrs. Ann Kent, widow of the late Joseph Kent, died on Friday at her residence, 25 Carlton street. She was 59 years of age, and had been ill for some time. Her funeral will be held on Monday at 10 o'clock, and will be held at the funeral home of Mr. J. D. Jones.

Simply state which book you want, and address Dr. Shoop, Box 21, Racine, Wis.

My success is due to a lifetime of effort, in learning how to strengthen the inside nerves. It is this nerve power alone that operates the vital organs. No organ is weak when it has sufficient nerve power. I bring back the nerve power, and it is just like giving more steam to an engine that is weak.

My book will explain it all.

Every soul who reads this knows some sick friend. You know somebody who will never find another way to get well. Let me tell that friend my way.

ALWAYS BELIEVED TO BE MAD

One Innocent Victim of Maritoban School Teacher's Blood Thirst Passes Away.

THREE OTHERS AT POINT OF DEATH

Murderer Taken to Winnipeg Hospital, His Recovery is Considered Doubtful.

Altona, Man., Oct. 10.—One death has so far resulted from yesterday's terrible tragedy, Anna Kehler, aged eight years, the first victim of Henry Trow's revolver. She died this morning, after suffering terrible agony. Three others, John Hiebert, aged 46, Abraham Kempf, aged 46, and Helen Kempf, aged 46, are now in the hospital, and their recovery is considered doubtful.

Henry Trow, the murderer, was taken to Winnipeg by the afternoon train to receive attention in Winnipeg General Hospital. His recovery is considered doubtful. He is a man of 35 years of age, and has been considered a mentally deranged. He has frequently disappeared at long intervals.

There was no threat of lynching, as some reports stated. The people are nearly all Germans or Menonites, and while deeply shocked, they view the tragedy with natural solicitude and are quite content to allow the law to take its course.

Trow has made no statement whatever since he committed the terrible crime. He is a man of 35 years of age, and has been considered a mentally deranged. He has frequently disappeared at long intervals.

CONFERENCE MAN AT WORK

Said to Have Stolen \$2000 of His Friend's Money.

Windsor, Oct. 10.—Detectives Campen and Mahoney are seeking William Boyd, a notorious confidence man, who recently left Windsor for Chatham. At Chatham he met R. K. Hermon, a Winnipeg man, with whom he arranged to enter into a partnership. Hermon entrusted Boyd with a large sum of money, and since then Boyd has not been heard of. It is believed that he is in Chatham, and that he is working for the police.

It is said that Boyd got away with \$2000, and his description has been wired to all the large cities in Canada and the United States. The police are working hard to find him, and are hoping to catch him soon.

Boyd is a man of 35 years of age, and has been considered a mentally deranged. He has frequently disappeared at long intervals.

CONVOCAION AT McMASTER.

Address by Rev. J. D. Freeman and Presentation of Scholarships.

COLLISION AT OWEN SOUND.

Engine and Two Cars Ditched, Fireman and Yardman Hurt.

Owen Sound, Oct. 10.—A collision occurred about 3 o'clock this morning on the C.P.R., opposite the Imperial Cement Works, and Keenan Bros. Sawmill, an incoming freight train running into some cars which were being shunted by the yard engine. The freight engine was derailed, and two cars of coal for the cement works derailed. The freight engine was derailed, and two cars of coal for the cement works derailed.

REFINING CANADIAN NICKEL.

It would seem that Canadians have
in their hands several separate and dis-
tinct weapons for compelling the re-
fining of Canadian nickel ores in Can-
ada.

In the first place the Dominion charter
granted to the Canadian Copper Co. (now
included in the International Nickel Co.)
some years ago contained a clause
designed to render compulsory the
treatment of Canadian nickel ores in
this country. Unfortunately, as a con-
temporary points out, the then govern-
ment did not apparently know the differ-
ence between smelting and refining, and
so the proper terms were not used in
the compulsory clause. There is no
doubt, however, that the courts, stand-
ing between the government and the
company that the nickel should be re-
fined in Canada. The corrected draft
of this charter and the subsequent cor-
respondence with the head officials of
the company establish this fact. It is
therefore certain that the courts, if ap-
pealed to, would enforce the clear inten-
tion rather than the letter of the com-
pulsory clause, and instruct the com-
pany to refine its ore within the con-
fines of the Dominion.

In the second place, the Ontario pa-
tent for refining nickel ores in Canada,
which patent some months ago passed
into the hands of the International
Nickel Co., or nickel trust, which lapsed
non-payment of government fees. This
patent was taken out in 1901, and the
fee, which fell due some time since,
has for some reason or other never
been forwarded to Ottawa. Non-com-
pliance with the government regula-
tions nullifies the patent, and the re-
fining process covered by it may there-
fore now be employed by any other
nickel company operating in Canada.
No doubt the patent could be revived
by special act of parliament, but by
withholding such renewal parliament
might be able to throw the advantage
in the premises to other corporations
operating in the Sudbury district.

And, in the third and last place, it is
to be remembered that four years ago,
in the session of 1898, the Dominion
government took power to put an ex-
port duty on nickel ores and matte by
order-in-council, and that two years la-
ter the Ontario government passed a
measure having a similar effect. Neither
government has done anything in this di-
rection yet, except on paper, and the
constitutional right of the Ontario leg-
islature to pass such an act is to be
determined by the courts. But, leaving
the Ontario government's powers out of
the question, the Dominion government
evidently has the power to compel the
complete refining of the Sudbury ores in
Canada.

NEW TYPE OF LOBBYIST.

These days of legislative lobbying
have developed a new and unique type
of lobbyist. He has established him-
self at Washington, where he is known
as the "Christian Lobbyist," and his
object is to bring public opinion to
bear upon Congress as to the pro-
moral reforms. According to The New
York Post, he deserves the credit "of
having discovered, as it were, the lat-
ent power of the religious people in
the States, chiefly the membership
of the evangelical churches, and of
devising means of applying that power
to the wheels of current legislation,
with results which have been strik-
ing." Equipped with a national di-
rectory of men in all communities
upon whom he can depend for help,
he is able, at the right time, to bring
pressure to bear upon Congress. When
a measure in which he is interested
comes up in the House, he starts to
work, and soon the Congressman who
is "shaky" on any vital question
deluged with communications from his
own constituents. Thus, powerful
forces are quietly marshalled at par-
ticular crises, and already, it is claim-
ed, great results have been attained.
This lobbyist, who is backed by a
well-equipped bureau at Washington,
is credited with having kept Brigham
H. Roberts, the member from Utah,
out of Congress, with securing dis-
cussing divorce legislation, and with ac-
complishing a great deal more.

While the professional trade lobby-
ist and the professional railway lobby-
ist are systematically "working"
the individual legislator, the profes-
sional moral-reform lobbyist has a
right to claim his ends in the same
way, and he has this in his favor,
that, while the efforts of the other
lobbyists are directed against the peo-
ple, his efforts are concentrated to
secure the people's good.

CANADIAN PRODUCE FOR BRITAIN

Gratifying is the cubed information
that Lord Aberdeen and other promi-
nent home Britishers are forwarding
a project to import Canadian food pro-
ducts on a large scale. The report, if
well founded, indicates that a British
peer who has been Governor-General of
Canada can, if he chooses, even after
the expiration of his term, use his
prestige for the practical benefit of this
country. The news also shows that
at least some people in the Old Coun-
try are beginning to appreciate Cana-
da's food producing capacities.

Of the \$700,000,000 worth of fresh

food stuffs which Britain annually im-
ports, Canada now furnishes seven
per cent, and it is said to be the ex-
pectation of Lord Aberdeen and his
conferees by the utilization of cold
storage warehouses at English ports
and of distributing centres in the lead-
ing cities to increase this proportion
to thirty per cent.

Evidently the Mother Country is
learning something about Canada at
last. Some day she will perceive that
there is some truth behind the state-
ment that, as a United States official
has declared, Canada contains three-
fourths of the wheat producing land
of North America; and that, as Cana-
dians themselves maintain, the Do-
minion is the granary of the empire,
and fully equal to the task of single-
handed, feeding the teeming millions
of the British Isles.

The Aberdeen project includes the
importation of wheat, fish, live stock,
fruit, cheese, butter, eggs and poultry,
and, if successfully launched and car-
ried on, should directly benefit the
Canadian farmer and especially the
Ontario mixed farmer.

ONTARIO'S COAL PROBLEM AND TRANSPORTATION.

Editor World: The rude awakening
shock given to the people of Ontario
by the striking Pennsylvania miners
is an object lesson, which, may we
not hope, will be found pregnant with
far-reaching results for Canada. It
shows us a powerful adage thrown
upon our commercial conditions, the
result of political iniquities perpetrat-
ed against this Province during the
past quarter of a century.

Ontario without coal is a tragic
spectacle. With a grim foreboding, and
a keen sense of the danger which threat-
ens a free people, if, however, the
activeness of the situation, for the
present or future needs, strike or no
strike, shall direct the sober, intelli-
gent mind of Ontario, for the sake of
the present coal squeeze will have
proven a commercial blessing for
all Canada.

But why should this great Province
be in her present coal straits? Who
does the responsibility belong? Not
to the unfortunate miner, whose
attitude is but the incident, revealing
to us the fiction of our commercial
methods. Have we not yonder by the
sea, in which we have both an
inherent and commercial interest?
Have we not a mighty waterway flow-
ing on to that great treasure house
of nature, the granary of which pro-
ducts are brought to shore? Have we
not, as a Province, poured into that
commercial highway \$50,000,000, for
its improvement and construction of
great canals to facilitate commerce
and cheap transportation?

And, not a cargo of that precious com-
modity has entered the ports of On-
tario, for either domestic or industrial
consumption; and why is it thus? We
have in the past ignored, with
reckless defiance, the principle of
commercial economy in establishing
facilities of transportation. Adverse
railway conditions have been created,
and permitted to develop into a giant
drag-net, designed to operate
to destroy the commercial utility of
our great waterway to the sea. There-
fore, and notwithstanding the nature
of the commercial source
which Nova Scotia is for Ontario's
supply of coal, we are shut out from
the market by existing adverse con-
ditions. Thus, Ontario is forced to
seek in Pennsylvania, the unfortun-
ate and only other available source
of supply, and for so doing is punished
to the extent of 50 cents per ton
above the cost of duty.

These business methods are un-
just to the consumer, and, for their
existence, there is no palliation. However, this
giant drag-net, which is being adminis-
tered by thoughtless consent of the people,
they have no choice other than to
endure the punishment, or order a
change of medicine.

As an example of the hand-picked
methods of the Dominion government
in connection with the transpor-
tation of coal, the following facts in-
dicate the policy of the Dominion
government in connection with the
trans-shipment of coal from Ontario
points, is received at Suspension
Bridge.

From Duluth to Toronto,
84 miles, freight 60c per ton
Duty 55c per ton
From Bridge to interior rail
points in Ontario, freight,
and duty averages \$1.37 per ton
For the season of 1901, a maximum
rate was set upon the lakes there was
hailed from Buffalo and other Lake
Erie points to Lake Superior, by the
American system of water transpor-
tation, a 100-mile water-haul, 4,500-
100 tons of coal, at 35c per ton.
The same system hauled back from Lake
Superior, principally from Duluth to
Buffalo, 1,000 barrels of flour, at
12c per barrel.

The Ontario millers' export rate for
less than 500 tons of railroad to an
American seaport was 20 cents or
nearly 2-1/2 times the water-haul
from Duluth to Buffalo.

The foregoing facts sufficiently
demonstrate the value of the com-
mercial value of the U. S. marine, and
the water system of transportation,
of the value which a similar system
holds in its grasp for Ontario. A
value and system which no ear-
tling or political patchwork can
substitute or supply.

The solution of Ontario's coal prob-
lem involves the wider issue of the
economic transportation of her pro-
ducts from the farm to the factory to
the sea. This would our manufacturers
realize by such a system a two-fold
advantage from the sound commercial
policy of lower rates of transportation
and wider markets, the policy which
made Britain "mistress of the seas,"
and placed her exports in the world's
remotest markets.

When the coal that betches forth
from the tall chimneys in Ontario, is
of "the mined in Canada" brand, the
people all will join in that "business
is business, and Canada for Cana-
dians."

We have had much eloquent talk
about nation building. We are not
thirty-six years upon the job, and by
the record are self-convicted nation
builders. Why has a marine of 1-
211,000 tons existing in 1877 shrunk to
680,000 tons in 1900? Where is our
lake and river commerce and inland
marine? Where is our population?
Our resistance to, and failure to grasp
and utilize the greatest commercial force
which nature could bestow upon a
people for the unification of our coun-
try in commerce and sentiment, is
meeting with its reward in the com-
mercial struggle of the world.

These things do not point to a pro-
gress which the greatness of our coun-
try warrants, nor will we ever know
the value of our people. Are we to
live in bondage chains while the great
commonwealth of the world strikes
us down?

Then let Ontario wake,
And these shackles break,
Her battle cry must be
On to the sea!

"For of what avail,
Hath plow or sail,
Or land or life,
If Freedom fail?" J. H. Doyle,
Toronto, Oct. 10.

ROOSEVELT IN 1904.

Springfield Union: Under the new

congressional apportionment, the next
Republican national convention will
contain 68 more delegates than that
of 1900, or a total of 984, of which
number a majority, or 492 1-2, will
be necessary for nomination. Notwith-
standing the fact that the general pub-
lic knows that the recent State con-
ventions in a number of States have
pledged those States, so far as a pledge
is binding at the time, to Theodore
Roosevelt for the Presidency in 1904,
few probably realize that as matters
stand to-day President Roosevelt has
pledged to his candidacy all but 18 1-2
of the votes necessary to complete a
majority of the convention.

The 15 States which have declared for
Roosevelt in 1904, with the number
of delegates accorded to each in the
1904 convention, are as follows: Ala-
bama 22, Colorado 10, Connecticut 14,
Delaware 6, Iowa 24, Kansas 20,
Massachusetts 32, Minnesota 22, Mis-
souri 26, Montana 6, New Hampshire
8, New York 78, Pennsylvania 68,
Texas 32 and Washington 10, a total
of 394 delegates.

Not a single Republican State con-
vention has failed to approve Presi-
dent Roosevelt's administration in the
most emphatic terms, so that it is a
justifiable assertion that if the nomi-
nating convention were to be held now
he would be re-nominated by acclama-
tion. When the convention meets, a
single State convention has ever before
in our history pledged itself two years
in advance to a President's renoma-
ination, and fully equal to the present
demonstration is apparent.

Management.
It will be known that mismanage-
ment, either through inexperience or
incompetency, is the cause of the loss
of many a dollar. A father dies, leav-
ing to his wife and children all his
property. They have had no experi-
ence in handling large sums of money,
and in many cases, it is not long be-
fore the father's legacy is divided
down to a mere nothing. Such a
state of affairs would not come to pass
if the head of the household were to
leave his money to be received in the form
of an annual income, extending over
the term of years, and of the most
convenient ways of effecting this is
by purchasing a life insurance policy
from a reliable company.

Lightning does not strike water.
Prof. Trowbridge of Harvard An-
nounces Interesting Discovery.
Boston, Oct. 10.—Lightning does not
strike water, Professor J. Trowbridge
of Harvard declares. This discovery he
has made in his experiments with the
highest electromotive force ever used.
In his latest experiment he used a
cell he obtained a voltage of 6,000,000,
which force, he says, is at least com-
parable to lightning. This enabled him
to deduce his conclusions.

"I found that lightning does not
strike water," Professor Trowbridge
declared. "In the course of my experi-
ments on the effect of high tension or
high electromotive force. With my
latest battery I was able to obtain a
voltage of about seven feet long,
and found that instead of striking the
water, it struck the land. The length
increased in proportion to the ad-
jacent object in preference to striking
the liquid surface. A small piece of
wood, for example, would attract a
few inches in length, however, in-
variable will strike the water, but such a
small piece of wood, comparable to
lightning."

WHY MISS ANGLIN LEFT.

Chicago, Oct. 10.—Richard Mansfield
has written a letter telling why Miss
Anglin, the Canadian actress, left his
company, and apologizing for the
common place explanation given in
therefore. His reason is that she re-
ceived an offer of twice the sum he
could pay her and she accepted.

CARNEGIE'S WARM HEART.

London, Oct. 10.—Mr. Andrew Carneg-
ie's gifts of \$75,000 to Belfast and
\$25,000 to Liverpool, for the establish-
ment of libraries have been accepted
in writing by the acceptance of the
city of Belfast. Mr. Carnegie said this
was a great honor to him, and that his
heart was always warm toward Ireland.

FRIENDS IN CANADA.

New York, Oct. 10.—Charles W. Lewis
of the Lotus Club, and his wife, who
were in the city, he planned to export
himself, but the strike prevented him
and he took his life. Letters addressed
to friends in Canada were found in his
room.

PERSONALS.

Rev. Francis W. Walker left for his
new charge at Delaware, Mass., on Wed-
nesday. Prior to his departure the mon-
arch of the Lotus Club, and his wife, who
were in the city, he planned to export
himself, but the strike prevented him
and he took his life. Letters addressed
to friends in Canada were found in his
room.

HOPELESS CASES.

When the doctor leaves and says the
case is hopeless, what remains to be
done? Much, if you will listen to the
statements of men and women who were
once in hopeless cases, and who are
now perfectly cured, and who are try-
ing to cure others, by the use of Dr.
Pierce's Golden Medical Discovery.
Nothing is more certain than that
thousands of men and women with
dissipated livers, obstinate coughs,
hemorrhages, nervous prostration, im-
potency and night sweats, have been
restored to perfect health by the use
of the "Discovery." Will it cure you?

It has cured in ninety-eight cases
out of every hundred where it was given a fair and faith-
ful trial. By that record you have only
two chances in a hundred of failure and
ninety-eight chances of being restored
to perfect health. It is worth trying.

Abraham Freer, Esq., of Rockbridge, Green Co.,
N.Y., writes: "My wife had a severe attack of
pleurisy and lung trouble, the doctor gave her
up to die. She commenced taking Dr. Pierce's
Golden Medical Discovery and she began to
improve from the first dose. By the time she
had taken eight or ten bottles she was cured,
and it was the cause of a large amount of
good to this day. Dr. Pierce's Golden Medical
Discovery is the best medicine in the world for
lung troubles."

FREE. Dr. Pierce's Common Sense
Medical Advice containing over a thou-
sand large pages is sent free on receipt
of stamps to pay expense of stamps and
mailing only. Send 31 one-cent stamps
for the book in paper covers, or 50
cents for the cloth-bound volume. Ad-
dress Dr. R. V. Pierce, Buffalo, N. Y.

T. EATON CO. LIMITED

Men's Winter Furnishings

We cannot resist telling you of the splendid values
and wide assortment we are showing in Cardigan
Jackets; also for Monday we emphasize our Flannel
Shirts. Made in our own workrooms from reliable
materials, you run no risk about their wearing qualities.
To make your visit of economical interest we offer this
splendid line of seasonable underwear at a de-
cided reduction:

Men's Scotch Wool Underwear, shirts and
draws; double-breasted; ribbed skirt and cuffs;
sateen facings; soft finish; medium winter weight;
for medium size men only; regular price 50c each;
Monday 33c

Cardigan Jackets

Men's Cardigan Jackets, English
make, heavy quality, mo-
hair binding, cuffs to button,
black and seal brown, me-
dium men's sizes only 75

Men's Fine English Cardigan
Jackets, worsted finish, elastic
stitch, mohair binding, cuffs to
button, three pockets, dark brown
and black, small, medium, large
and extra large sizes 1.50

Men's Flannel Shirts, made
with collar attached or Silesia
neckband, yoke, pocket and
pearl buttons, double-stitched
seams, sizes 14 to 18 75

Men's Unshrinkable English Flannel
Shirts, collar attached or with
white sateen neckband, stitched
with silk, best finish, large bodies,
stripes and checks, sizes 14 to 18 2.00

Boys' Clothing

How necessary to combine
comfort, appearance, style and
wearing qualities in boys' gar-
ments. That rough and tumble
usage that only active school
boys give is a true test of good
tailoring; these lines are made
with a view to such wear. The
prices are very special:

Boys' Heavy Reefers, made of
blue flannel cloth and navy blue
beaver, double-breasted, with
high storm collar and yoke, for
thrust, good strong linings, sizes
are 22 to 28-inch chest measure,
regular prices \$2.50, 1.99
\$3 and \$3.25, Monday 1.99

Boys' Sailor Suits, blouse and short
pants, made of heavy navy blue
serge, 10c per yd., Monday 3
this for 25

Crossed and Blackwell's Marmalade
(choice), regular price 15c per jar, Monday 3
2 jars for 20

1000 Tins Grand River Chicken
Soup, put up in two-pound tins,
regular 10c per tin, Mon-
day 3 for 25

500 Tins Klipped Herring, regu-
lar 10c per tin, Monday 3
this for 25

Best Assorted Pickles and Mixed Pickles,
regular price 25c per bottle, 25
Monday 20

Best Assorted Pickles and Mixed Pickles,
regular price 25c per bottle, 25
Monday 20

Wool Blankets

Heavy weight, fleecy goods,
that will give unbounded com-
fort and satisfaction during the
coming cold weather. These
prices we think very reason-
able:

Heavy Pure All-Wool White
Blankets, made of absolutely
pure wool yarns, thoroughly
serged, deep color, 10c per
yard, weight 8 lbs., size
68x88 inches, special, 3.00

Finest Superior Unshrinkable White
Wool Blankets, made in card-
board, made of absolutely
pure wool yarns, thoroughly
serged, deep color, 10c per
yard, weight 8 lbs., size
68x88 inches, special, 3.00

Men's Umbrellas

You'd think the handle and
rod ought to be worth Monday's
price. These are strong service-
able makes:

Men's Umbrellas, covers are made
of the finest quality of Austrian
steel rod and paragon
frame, Congo and natural wood
handles, regular \$1.00, 49

Home Furnishings

You may not need these Furnishings for your home
right away, but hadn't you better secure them now while
values and prices are so much in your favor? Scan this
list leisurely and thoughtfully. These items represent
good substantial qualities and worthy styles, that com-
bine beauty and utility in a way that is sure to please
and satisfy. These details of the lines selected for your
benefit on Monday:

Carpets and Linoleums

985 Yards English Axminster and
Wilton Carpet, 27 inches wide,
handsome designs and beautiful
effects, in high-class colorings of
greens, blues, crimson, fawn,
garnet, etc.; suitable for drawing-
rooms, parlors, halls, etc., 58
borders to match, regular
value \$1.50 to \$2 per yard,
sale Monday at 1.15

1525 Yards English Tapestry Car-
pet, 27 inches wide, a strong
range of up-to-date patterns, with
pretty colorings, suitable for
room or hall, an excellent quality,
made with an extra close weave,
regular value 55c to 65c per
yard, on sale Monday 49

600 Square Yards Scotch Linoleum,
27 and 36 inches wide, these are
short lengths of our best goods,
in floral, block and tile patterns,
suitable for kitchens, halls, etc.,
regular price 50c to 65c a square
yard, on sale Monday 37

INSURES LOVE AND A HAPPY HOME.

HEALTH, STRENGTH AND VIGOR FOR MEN.

Continued From Page 1.

go, Mr. Thomas remarking that the matter would be presented to the other operations, and that an early answer would be forthcoming. Mr. Baer said: "We are to meet a committee of the Manufacturers' Association on Tuesday, and we may have an answer then."

The conference broke up, Mr. Baer and Mr. Thomas withdrawing. Senators Platt, Penrose and Quay talked over the matter for a short time, and then they, too, separated, the two Pennsylvanians announcing that they would go back to Harrisburg and discuss the situation with Governor Stone.

How any man may quickly cure him-
self after years of suffering from sexual
debility, and all the attendant troubles
of gonorrhea, syphilis, and all the
varicose, etc., and enlarge small, weak
kidneys to full size and vigor, simply
by using the **Dr. Williams' Pink Pills**
of the **Medical Company, 860**
Washington Street, New York City.
and they will gladly send you a
free receipt with full directions
for use. You can mail your check
at once. This is certainly a most
valuable medicine, and the only one
that taken from their daily mail show
has met the opinion of their generosity:
"I have used your medicine for many
months for your recent date. I have
been cured of my troubles, and my
and the benefit has been extraordinary.

It has completely braced me up.
I am just as vigorous as when a boy.
I am glad to say you cannot realize how happy
I am."

Dear Sirs.—Your method worked
wonderfully. I am now as well as
I needed. Strength and vigor have
been restored to me. My enlargement
is entirely satisfactory."

"Dear Sirs.—Yours was received, and
I have used it for some time. I have
received as directed, and can truthfully
say that I am now as well as I was
greatly improved in size, strength and
vigor."

Your correspondence is strictly con-
fidential, mailed in plain sealed envel-
opes, and no one knows of your trouble
and they want every man to have it.

Mitchell Sees Odell.—About 5 o'clock John Mitchell, accompanied by L. N. Hammerling of Wilkes-Barre, called and had a long talk. While this was going on, a despatch announcing that the operators of the Pennsylvania Electric Co. had offered by the Governor was received. When the conference was over, Gov. Odell refused to say what had occurred, and Mr. Mitchell was equally reticent as to the result of the conference. Gov. Odell presented his proposition for settlement to the leader of the miners' union, and that Mr. Mitchell said he would present it to the district attorneys in the hope that it would be accepted.

Gov. Odell said: Mr. Mitchell was eminently fair, and showed every disposition to adjust the serious situa-

CAN'T PICK FROM DUMPS.

Scranton, Pa., Oct. 10.—There were no new collieries opened in this region during the past week, and for general purposes the coal supply for the winter is assumed to be ample. Now that the colliers are here, does not seem to be very likely. A announcement was made to the effect that a general crusade against all persons picking coal from dumps is to be undertaken by the coal companies. A person found buying this picked coal can be arrested also, on the charge of receiving stolen goods.

PRESIDENT CAN DO NO MORE.

Washington, Oct. 10.—Close advisers of the President, who have conferred with him over the coal situation, said to-night that, in their opinion, there is nothing more that the administration could take to the situation. They believe the strike to have no chance of bringing the action to an end. They

the administration is ready to do whatever is possible, but that it has taken all the action that is practicable. They scout the idea of a resort to the Anti-Trust Law, and say that the action of the Federal Government cannot be had under that measure, against the interests involved in a strike.

In official circles, here, it is suggested that the postmortem of the inferences that have been in process in New York to-day may mean that Mr. Mitchell and the district lawyers are going back to Pennsylvania to round the miners on some proposition made during to-day's meeting. The inference, however, is only an inference, the made without any intelligent knowledge of to-day's proceedings.

The Executive Council of the American

removed

my life. My disease was a
rous tumor, which had grown
a great size. I had been sick
a year and had had three
ctors.
A friend advised me to try
the new treatment, Powley's
Liquified Ozone, which I did. It
like me very sick at first and I
like giving it up. But I read
the pamphlet that this was a
ad sign, so I kept on.
I am pleased to say that in
two months Powley's Liqui-
Ozone entirely removed the
mor and I began to gain flesh
in. I weighed one hundred
ands when I commenced Pow-
ley's Liquified Ozone. I now

gh one hundred and fifty-four
ends, and feel as well as I did
my youth."

HEALTH, STRENGTH AND VIGOR FOR MEN

How many men may quickly cure themselves after years of suffering from sexual weakness, lost vitality, night losses, nervousness, and enlarged small intestine to full size. My method restores your name and address to Dr. S. J. Building, Detroit, Mich., and they will gladly send the medicine to you.

Men, who are not yet received, and sons, so any man may easily cure himself at home. This is certainly a most wonderful medicine.

Letters taken from their daily mail show the following:

"Dear Sirs,—Please accept my sincere thanks for yours of recent date. I have received your medicine, and the health and the benefit has been extraordinary. It has completely braced me up. I am just as vigorous as when a boy, and you cannot realize how happy I am."

"Dear Sirs,—My method worked beautifully. Results were exactly what I expected. I am now as strong and completely returned, and enlargement is entirely satisfactory."

"Dear Sirs,—I have just received, and I had no trouble in making use of the receipt as directed, and can truthfully say that my health is now as good as greatly improved in size, strength and vigor."

All correspondence is strictly confidential, mailed in plain sealed envelopes, and no one is asked to pay, and they want every man to have it.

ren. President Gompers announced
 night that the council may issue its
 deal to-morrow. He is in occasion-
 communication with Mr. Mitchell,
 declines to discuss the situation.

MORGAN URGES PEACE.

Chicago, Oct. 10.—Walter Wellman, of the best informed newspapermen in the United States, wiring the New York Herald from New York, says that J. P. Morgan is moving to have the strike settled. He has told the railway presidents:

"You must now make good or else. It is up to you to make coal make concessions and stop the strike."

gran's continued statement that is not interested is merely a play to save the pride of the railway president. Secretly he is urging them to be peace.

Because of this dilemma the national railway presidents realize that they are at the end of their rope. They know they cannot win, because there are no certified workers ready to go to work. John H. Brown played a master strike when he secured the unanimous vote of 100,000 workers—349 out of 350 local unions—on continuing the strike, and declaring that if all the

In the country were sent to them they would not return to work. To this magnificent expression of the railway presidents are forced to admit there is no answer. It is a declaration of importance by 100,000 men, the only available force to work the mines.

I am informed that Mr. Morgan and Cassatt agree in the view that if railway presidents cannot find the way by qualified men to go to work for protection there is nothing else for them to do than to make terms as they see possible. They must buy labor which they must have to save the properties, just as they buy locomotives, steel rails or any other articles now in the market, paying the price the market puts on them who have such commodities to sell.

Millman believes that a settlement can be effected by giving the miners a 10 per cent. advance in wages, while the rate will be ignored.

FREE HELP FOR MEN

You will probably cure your malady by
 this means German Remedy discovered by
 Dr. KOHR

It is reported in this country by Dr. KOHR Medicine
 that the highest percentage of the men who
 receive this treatment has cured themselves of
 their malady. It is well known remedies have

Store closes DAILY at 6.30 p.m.

In the Men's Store.

The usefulness of the Men's Store was never more apparent than at the present period of the year.

Everybody seems to want a fall overcoat and a suit. October has proven itself a chilly month so far, and the Men's Store has been a busy place.

For here we can give you your new fall outfit from top to toe—right here in the one section of the building.

Come in on Monday and see how we do things. Moderate prices and high qualities. Everything a man needs to wear.

Men's Nobby Raglanette Overcoats. In the new black and grey check pattern, made up in the correct style, narrow cuffs on sleeves, neat silk velvet collar, fine Italian cloth lining and black mohair sleeve lining, special Monday, \$10.50

Boys' All-Wool Navy Blue Napco Reefers, double-breasted, with high storm collar and good warm check, made in single-breasted, secure style, good durable lining and perfect fitting, sizes 28-36, special Monday, \$3.50

Boys' Fine Imported Navy Blue Serge Sailor House Suits, large collar, nicely trimmed with black silk, south-belt, blouse made full and pants lined, sizes 21-27, special Monday, \$2.75

A \$2.50 Hat for \$1.00. Monday, we continue that big sale of Men's Sample Hats of which we told you. Nothing of equal importance has been offered in the world of hatteries in Toronto during the last twelve months. Better come soon, though. The range of sizes may get broken.

Men's Stiff and Soft Hats, extra fine quality English and American fur felt, new and up-to-date styles, also the staple shapes, colors black, brown and grey, balance of our great sale, regular prices \$2.50 and \$2.00, Monday, your choice, \$1.00

Boys' Soft Hats, fedoras and turban shapes, fine imported felt, pure silk linings, colors black, brown, in turban, dark brown, in fedora, regular 50 cents, Monday, special, \$1.15

Socks and Gloves. Men's Fine Black Pure Wool 1-2 Hose, medium fall weight, perfectly seamless, double toe and heel, good 20c sock, special, \$1.25

Men's Fine English Cape Driving Gloves, "Dent's make," domes or horn buttons, price same, Parfitt-point back, English tan shades, Dent's \$1 glove, special, Monday, per pair, \$1.50

The New Carpets. Those who are remodeling their interior furnishings and decorations this fall preparatory to the entertainment of guests and the social functions of the coming winter would do really well to see our new carpets, especially in the Crompton, Axminster and the English Brussels. If you come down Monday, we will be able to show you a Crompton Axminster at \$1.50 each as you seldom if ever saw at such a moderate figure before.

New Crompton Axminster \$1.50 2600 yards New Crompton Axminster Carpets, with 5-8 borders and 3-4 stripes to match, all the latest in self-toned colorings, for parlors and reception rooms, also for hall and stairs, regular value 60 cents per yard, on sale Monday, per yard, \$1.50

New English Brussels \$1.00. We have just opened up some new English Brussels, in a full range of colorings for bedrooms, parlors, etc., in crimson, green, blue, also making very pretty styles for a good chamber, a good library, quality, per yard, \$1.00

Chamois Vests, 1.75 At Drug Department. We have the best and warmest Chamois Vests made. They are perfect-fitting and stylishly built.

The Ladies' Vests are made of opera flannel, lined with finest English chamois.

The Gents' Vests are heavy chamois, lined with red flannel.

We have all sizes, from 30 to 42. You get the benefit of our large purchase, at a low price, when we sell them, at 1.75

\$3.75 Bedroom Divans, \$2.85. We had these Upholstered Bedroom Boxes made by our own staff of carpenters and upholsterers. We, therefore, know perfectly what they cost to make, and what they would, in ordinary stores, cost you to buy. This store is different from ordinary stores, however, which explains why the price on 50 divans, for Monday's selling, is what it is.

50 Divan or Bedroom Boxes, 181 pairs of Extra Quality Long Lined, Covered with English or Applique Curains, 3 1/2 yards long, tonnes, tafetas, satens and den in white or ivory, single and double lines, size 20 x 30 inches, well up borders, plain and patterned cover, perfectly made, regular value, \$3.75, on sale Monday, per pair, \$2.85

600 yards of French Art Tapes—1500 yards of Nottingham Satin Furniture Covering, a very superior—Cutting, 24 to 45 inches wide, superior quality, in a range of twelve eye net centres, single and double colors and designs, all 50 inches wide, colbert edge, pretty and effective good, at the exceptional low price, per yard, \$1.25

Three Furniture Items. Rattan Rocking Chairs, gentlemen's large size, with heavy roll edge and shaped seats, special, at 2.95
