Ontario Educational Ass'n Devotes Much of First Day's Conference to Discussion of Material Subject.

The forty-fourth annual meeting of the Ontario Educational Association is being held at the university. Matters are under discussion which relate to education in general; but the chief matter under discussion yesterday was how best to interest the public in giving a greater appreciation to the teaching profession, and raising it in the social scale.

Principal Scott of the Normal School treated the question in a paper which gave the wages of every grade of teacher in the province in 1904.

### LIFE OR DEATH STRUGGLE FOR SULTAN OF TURKEY

Uprising of Arabs Assumes Critical Proportions—Troops Meet Bad Reverses.

Aden, Arabia, April 25.—The situation in Turkish Arabia has become critical. It transpires that only a thousand of the Turkish troops sent to the relief of Riza Pasha reached Sanaa (capital of Yemen), and these fled whither after sustaining a defeat at the hands of the insurgents. Riza Pasha's troops, 6000 strong, encountered the Arabs in great force five miles south of Sanaa March 30, and after a sharp encounter most of the troops, consisting of Syrian reserves, laid down their arms or deserted. The remainder of the Turkish troops, which were sent to the relief of Riza Pasha, were killed and several loads of supplies. The chief staff, Iszak Pasha, was killed and several battalions upon whom the fate of the capital of Yemen Province depends.

### QUEBEC VILLAGE HARD HIT

Quebec, April 25.—Fire almost wiped the whole village of St. Andre, Kamouraska, out of existence this morning. It did destroy the most important part of the place, burning to the ground the whole of the foundry, factories, etc., of the Desjardins Co. for some time one of the most important manufacturing concerns on the lower St. Lawrence. The plant at St. Andre consisted of a foundry for the manufacture of stoves and other shops for the manufacture of carriages, agricultural implements, etc. The loss is \$200,000, with very little insurance.

### GREATEST OIL WELL STRUCK

Leamington, April 25.—The greatest oil well ever struck in Canada was struck today on E. Smith's farm north of Leamington. The oil started flowing at 2 p.m. in the first eight minutes, flowed 24 barrels. This well is owned by the New York Oil and Gas Co.

### SULTAN'S PERIL

London, April 25.—Officials conversant with the situation in Yemen Province regard the situation there as being in the nature of a life and death struggle for the Sultan of Turkey. They point out that the warlike Arabs of Yemen, who have never done more than impatiently tolerate the Turkish yoke, have now grown tired of paying taxes three or four times over and have revolted. Should the rising in Yemen succeed it is bound to spread north to Hejaz, and if the sultan's authority is wiped out in that holy land of Mohammedanism, he will lose all claims to the title of protector of the holy places, which is regarded as the main factor in holding his empire together.

Stratford, April 25.—(Special)—The Presbyterian Synod of Hamilton and London opened last evening, and Rev. Hector Currie, B.A., of Stratford, was unanimously elected moderator. The retiring moderator, Rev. Colin Fletcher, M.A., of Thames-road, preached a sermon.

### CEAR MAY MARK EXETER BY GENERAL AMNESTY

St. Petersburg, April 25.—A rumor is circulated here to the effect that Emperor Nicholas will mark Exeter by the proclamation of general amnesty for political and religious prisoners now confined in the fortress or prisons of European Russia, or who are in exile.

### BATTLE OVER YACHT

Brockville, April 25.—(Special)—An interpleader issue, involving the ownership of the steam yacht, Eva Belle, used by J. C. Judd, late fishery overseer on the Rideau Lakes, was heard today. The yacht was bought largely by popular subscription of Canadian and American sportsmen to enable Judd to better enforce the fishery regulations.

### NO CHANGE IN BROCKVILLE

Brockville, April 25.—(Special)—There was no change made in the number of liquor license holders at today's meeting of the board of commissioners for this district. One new application was refused.

Detroit, Mich., April 25.—The state legislature at Lansing to-day passed the Brand anti-trust bill by a unanimous vote.

### MAJOR WOULDN'T SIGN PAY CHECKS

Heated Debate in Peterboro Council Followed—But All Settled.  
Peterboro, April 25.—(Special)—The action of Mayor Best in refusing to sign the pay checks of the men employed on the streets under the control of the town engineer, because the pay sheets were not made out by the street commissioners, under whom the men work, led to a heated debate at last night's council meeting.

### HOODLUMS AS FIRE BUGS

Sandwich, April 25.—The house of Benjamin Farnand was destroyed by fire this morning, causing a loss of \$2000. Its origin is a mystery. There was no fire in the house, but evidence of inflammable material piled up against the back of the house and set on fire were found.

### SHAKESPEARE IS BEING PLAYED AT FOUR OF THE LEADING HOUSES

London, April 25.—Shakespeare festival week is being celebrated at Stratford-on-Avon with great spirit. The town is gay with buntings, music and crowded with visitors. Yesterday, besides the customary procession to decorate the poet's grave with wreaths, Ben Jonson's masque, "Pan's Anniversary" was performed in the theatre 15 of Shakespeare's plays will be staged during the festival.

The Sao Paulo Tramway, Light and Power Co., Limited.

Report Submitted at the Fourth Annual Meeting of the Shareholders, Held on Tuesday, the 25th Day of April, 1905.

Your Directors beg to submit to the Shareholders their annual report, together with the financial statement for the year ending 31st day of December, 1904.

The gross earnings of the Company during the year amounted to \$1,419,385.50, as compared with \$1,303,175.10 for the previous year, an increase of \$116,210.40.

Out of the net profits there have been declared and paid one quarterly dividend of one and one-half per cent. at the rate of six per cent. per annum, and three quarterly dividends of two per cent. each at the rate of eight per cent. per annum, aggregating \$530,927.44, leaving the sum of \$127,973.22 surplus to be carried forward.

The total expenditure on capital account during the year amounted to \$605,405.37.

At Parahyba, the site of the hydraulic plant, a number of improvements have been made, in addition to the extension of the power house (now under construction), rendered necessary by the installation of the fifth generator and turbine, a two-span bridge, 250 feet in length, has been constructed across the Tiete River.

About 330 linear feet of breakwater and retaining wall were constructed along the river banks during the year. There were also constructed 600 linear feet of stone-lined trenches for the purpose of diverting the course of the water from the vicinity of the Company's buildings and into more direct channels leading to the tail race.

In addition to considerable track construction in different portions of the city, there was expended for light and power purposes 133 miles of primary and twelve and one-half miles of secondary wires.

There has been a large increase in the number of lamps and power motors installed during the year, there being now in service 33,019 lamps and 181 power customers, with 279 motors, aggregating 41,306 horse power. The income from power business has shown a large increase, and amounts to 35 per cent. more than in 1903.

The rolling stock was increased by the construction of a number of cars, including both passenger and freight cars.

The policy of your Directors has been to maintain every branch of the Company's plant and equipment in the highest state of efficiency.

The reports received from our resident Vice-President, Mr. Alexander Mackenzie, and Manager, Mr. James Mitchell, dealing with operations for the year, go to show that every attention has been given to all branches of the Company's property.

The capital stock of the Company was increased from \$7,000,000 to \$7,500,000, and the proceeds of the sale of the additional shares were applied in liquidating sundry loans which had been arranged for during period of construction, thus releasing \$500,000 of bonds which had been pledged against these loans, and these bonds are now in the Company's treasury.

In a recent report from our Vice-President, Mr. Alexander Mackenzie, he says not only the outward appearance of the city is being improved, but the municipal improvement works are being actively continued.

The condition of the country generally is undoubtedly constantly improving, and all Brazilian securities have a higher quotation abroad than they have had for a long period.

During the year Dr. F. S. Pearson, our Consulting Engineer, and the Company's Secretary, Mr. J. M. Smith, visited Sao Paulo, and made a thorough inspection of all the Company's properties. Both of these gentlemen have reported the plant throughout to be in excellent condition, and from inquiry and observation they are convinced that the results from operation will continue to show very large increases each year.

The Sao Paulo Tramway, Light & Power Co., Limited. Earnings and Expenses converted into Canadian Currency at average rate of remittances each year.

Table with columns for 1904, 1903, 1902, 1901. Rows include Gross earnings, Operating expenses, Net income, Expense per cent. to earnings, Number light customers, Lamps, Power customers, Motors installed, H. P.

FOUR TALK IN FOUR HOURS. DEBATE BEING DISCUSSED. Some Rather Lively Discussion, But Nothing Especially Notable—Benches Were Well Filled.

Ottawa, April 25.—(Special.)—The most significant phase of the political situation to-day was the absence from the house of Hon. Clifford Sifton.

Mr. Broder of Dundas asked whether it was the intention to do anything for the relief of the unemployed.

Mr. Jackson of Selkirk got badly thrown down in the house last night by the premier for his recent utterance regarding the boundary question.

THREE LICENSES CUT OFF. Continued from Page 1.

to conduct the 25 or more houses of entertainment, which are the most of the buildings in which such business is carried on are entirely unprepared for such a contingency.

It is the purpose of the commission to see that the license holders are not only qualified to receive the license, but also to maintain the same.

RUSSIAN LOSSES AT MUKDEN. REVISED FIGURES NOT SO BAD. Gushu Pass, Manchuria, April 23.—An exact statement of the losses in an action in the battle of Mukden (Feb. 19 to March 14), shows that the casualties were greatly overstated in earlier reports.

It will be noticed that in the short space of four years the gross earnings of the Company have increased 100 per cent. The net earnings are also nearly 200 per cent. greater than the net earnings for that year.

THE LAW ENFORCED IN A FAIR AND JUST MANNER. It is just manner with the absence of anything bearing the appearance of persecution.

This is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness.

TRANSVAAL NOT YET READY FOR FULL SELF-GOVERNMENT

Draft of New Constitution is Published—Gen. Cronje Says It's a Breach of Peace Treaty. London, April 25.—The draft of the new Transvaal constitution was issued today. It provides for a legislative assembly consisting of the lieutenant-governor, six to nine official members and 30 to 35 elected members. Every burgher of the late South African Republic is entitled to vote in the election of the 'volksraad' (assembly), as well as all white males of British birth occupying premises at an annual rental of not less than £10, or having a taxable value of \$50, unless convicted of treason since May 31, 1902, or of murder, unless they have obtained a free pardon. Financial measures must be recommended to the assembly by the governor, and no money may be appropriated without his authority.

In communication to Lieutenant-Governor Lawley, Colonial Secretary Lyttelton says the time is not yet ripe to grant full self-government. The latter involves party government, and this in the Transvaal will become more serious than in the Cape, as it is acted longer together under equal rights of citizenship and when bitter animosities have become softened by time.

WHAT CRONJE SAYS.

Norfolk, Va., April 25.—Gen. Cronje, who was the April 25th President of the cabinet for 12 years and a noted Boer leader, and who now is on a tour of America, was shown the draft of a new constitution just issued from London. He said: 'It is a breach of the treaty of peace made up by England in 1902, which promised a self-government as soon as our country was a settled and stable state. King Edward has been advised by the capitalists to give up the only thing to be done in the Transvaal, and a petition to the British government has been drawn up. To the remark that petitions would be of no avail he responded: 'The British government will not be ruled by capitalists and magistrates.'

LIBRARIES NEED MORE MONEY.

Provincial Grant Cut in Two.—Deputation to See Premier. At the closing meeting of the Ontario Library Association yesterday, it was decided to send a deputation to inter- view the Ontario government, in order to persuade it to increase the library grant.

FOUR DEAD IN PROHIBITION FIGHT.

Hempstead, Texas, April 25.—J. E. Mills died during the night from the wound received in a shooting affray here yesterday. The death of Mills, who was a leading prohibitionist, makes the number of dead four, as follows: Congressman John M. Pinckney, Thomas Pinckney, the congressman's brother, Lawyer J. N. Brown, and J. E. Mills. R. F. Tompkins, the congressman's secretary, and Rolling Brown, son of J. N. Brown, were severely wounded. The trouble began during a speech by R. F. Tompkins, private secretary to Congressman Pinckney. He was interrupted by Lawyer Brown, who used vigorous language, and at the same time snatched the lapel of Tompkins' coat. Congressman Pinckney sprang forward, and as he did so the shooting commenced. A number of men seemed to be engaged in the shooting, and altogether about a hundred shots were fired. The streets were soon filled with frantic women, whose husbands and brothers had gone to attend the meeting. The presence of the women undoubtedly prevented a continuation of the shooting.

TO CELEBRATE MAY DAY.

May Day has become a fixed institution in Europe, and is now celebrated in all the principal American cities. Toronto Socialists have arranged to hold a mass meeting in Labor Temple next Sunday afternoon at 2.30, at which Dr. H. F. Titus of Toledo, Ohio, will deliver an address explaining the historical significance of May Day to the workers.

BETTER MEDS. TENTS AND BOOTS.

Ottawa, April 25.—The military department has plans for improving the conditions of the military in barracks and in camp. A new style bedstead, with spring for the permanent corps, will replace the hard springless bedstead now in use at London, Toronto, Kingston and other points. New hospital tents, with porch attached, and a new system of ventilation, will be introduced at the coming camps, also mess tents. The latter will enable the militiamen to sit down to meals together, under much more favorable circumstances than formerly.

THE LABORER'S MISSION.

The meetings at present being addressed in Toronto by Dr. Wilfred Grenfell derive unusual interest not only from the attractive work of the Royal Deep Sea Missions on both sides of the Atlantic and from Dr. Grenfell's unique personality, but also from the fact that Norman Donald, author of 'Dr. Luke of the Labrador' has recently published an entitled 'Dr. Grenfell's Labrador,' and that Dr. Grenfell himself has appeared as the author of another most voluminous entitled 'The Harvest of the Sea.' Dr. Grenfell will visit his friends in the west end at the Church of the Epiphany, Beatty-avenue, this evening, at 8 o'clock, and will illustrate his address with a number of most interesting stereoscopic views.

WHAT CANADA GIVES AND TAKES.

Differences in Trade in Agricultural Products With the United States.

Ottawa, April 25.—(Special).—A return just brought down in answer to a motion of Mr. Clements of Kent, shows the import and export figures of certain agricultural products as between Canada and the United States. In 1903 Canada imported \$7,577,000 (value \$47,000) of humped cattle head for distilling. Our imports of rice corn in 1903 was \$1,284,241, with \$32,452 duty, all of which, less about a thousand dollars, went into Manitoba and the territories. The duty on these was about \$100,000 year. Canada bought 30,000 pounds of beans from the States, each of these years. British Columbia imports more beans than any other province.

Canada imported and paid duty on 112,423 pounds of corn in 1903 and 112,423 in this latter year. All this was for distilling. Our imports of rice corn in 1903 was 6,023,336 pounds, and in 1904 8,887,122, in this latter year valued at almost five millions of dollars. This great increase in imports of rice corn is surprising. Quebec alone imported nearly 7,000,000 pounds of rice corn. We bought over 600,000 dozen eggs from the United States in 1903 and double quantity in 1904. It is the Yukon, British Columbia and the territories that buy most of these eggs.

Canada does not buy much butter from the States. British Columbia buys some 8000 barrels a year of United States butter. The rest of Canada 21,000 barrels. We imported each of these years over five and a half million pounds of Yankee pork, over two-thirds of which goes to Quebec. Ontario takes half as much. We brought in this year 60,000 worth of dressed goods, mostly in British Columbia and the Yukon. We import about 600 head of stock and 700 head of cattle. These are duty free. We import nearly 3,000,000 of free hides from the United States, also about two million pounds of wool. We bring in 14,000,000 pounds a year of unmanufactured tobacco.

We exported to the United States less than 2000 horses, only 3500 head of cattle, only two-thirds the quantity of hides, imported only 25,000 dozen eggs; two million dollars' worth of agricultural products; Canadian cattle and horses, and a few articles for improvement of stock, free; horses, cattle, 20 per cent; butter, 4 cents a pound; hides, 3 cents a dozen; pork, 3 cents a pound; fresh, 3 cents a pound; corn, for distilling, 2 cents a bushel; other corn, 1 cent; wheat, 2 cents; hay, 24 tons; United States duties—Horses, \$30 each; cattle, \$2 to \$3; Indian corn, 15 cents per bushel; tobacco, 50 cents a pound; wool, 25 cents to 28 cents a pound; hay, \$4 a ton; eggs, 5 cents a dozen; hides of cattle, 15 cents; beans, 45 cents per bushel.

GRADUATE NURSES' ORGANIZATION.

Miss Gordon of Kingston Re-Elected President of Ontario Ass'n. The Graduate Nurses' Association of Ontario have completed the organization of the association. Some of the principal topics discussed were 'Incorporation of the Association,' 'Legislation and Affiliation With the National Council of Nurses' and 'The Canadian Association of Nurses.' The association has doubled its number since its organization, by the nurses in the advancement of their profession, especially by those from outside the province, from Ontario to London. The officers elected for the coming year are: President, Miss E. C. Gordon, Kingston; first vice-president, Miss M. A. Mitchell, Ottawa; second vice-president, Miss M. J. L. Laidlaw, London; corresponding secretary, Miss Belle Crosby, 12 Selby street, Toronto; recording secretary, Miss Kate Matheson, Islington hospital; treasurer, Miss Josephine Hamilton, 401 St. George street, Toronto; board of directors, Miss Snively, Miss Brent, Mrs. York (Toronto), Miss Sharpe (Woodville, Miss Wood, Miss Chillingworth (Bellevue), convener of committees—press and publication, Miss Hodgson, 25 Waverley street, Toronto; Miss Julia Stewart, 12 Selby street; legislation, Miss C. Eastwood, Victoria, B.C.

BEAL ZION CONCERT.

A concert was given by the Beal Zion Association at Victoria Hall last night. The concert for the benefit of the Beal Zion Sunday school, under the direction of Mrs. Steeg, gave a very successful performance. The piano accompaniment was played by Miss Chafez. Miss D. G. Wilson, the gentleman who contributed solos were Messrs. M. Goldsmith, Papilsky, Wilson, J. Brown, K. Jaffe and J. Cohen.

TO DISMISS THE PANAMA CANAL.

Chicago, April 25.—Speaking of the actual physical work of the building of the Panama Canal, John F. Wallace, chief engineer of the Panama commission, said today that an organization had already been formed embodying a total of 800 men. Practically 6000 men are engaged in equipment and construction work, and 2000 in relieving the canal work, and 2000 in relieving the canal work, and 2000 in relieving the canal work.

ATTACKING MISSIONARIES. PRINCESS IS SENTENCED TO 3 MOS. IMPRISONMENT. Shanghai, April 25.—At Huohow, ninety miles from Shanghai, on April 18, an American missionary named Lester was attacked by native roadmen, but was escaped by forcing the canal and hiding in a thicket. The attack was wholly unprovoked. Similar outbreaks of anti-foreign feeling have been rather noticeable lately.

TO AVOID STOCK TAX. New York, April 25.—The certificate of incorporation of the New Jersey Stock Exchange was filed in New Jersey this afternoon. The object is to maintain an exchange and to furnish facilities for its members for the purchase and sale of securities. The exchange is capitalized at \$20,000, in 500 shares.

WALL-STREET ASSUMES THAT THE NEW EXCHANGE. Wall-street assumes that the new exchange is undertaken for the purpose of avoiding the additional cost that will be imposed on stock transactions when the new transfer act goes into effect on June 1 in this state.

SONS OF ENGLAND PROTEST.

Strong Resolutions Sent to Ottawa Against School Legislation. At a meeting of the District Council of Centre Toronto, Sons of England Beneficent Society, representing a membership of more than 2000 men and voters, it was moved, seconded and unanimously resolved that a petition be forwarded to the speaker of the house of commons of Canada, and that copies be sent to the Toronto representatives in the said house, protesting against the 'rekindling' of the school question first of 1898, and pointing out: 'That the principle of the separation of church and state is one dear to the hearts of all liberty-loving citizens of Canada, and the interjection of the representative of a foreign potentate in the settlement of a question of civil rights is, in the opinion of your petitioners, an act of supreme folly and impertinence, and tending to excite intense irritation and arouse religious feelings difficult to control. 'That under our constitution the proposed new provisions have the exclusive right to legislate upon the question of education without interference of any kind from the federal government, and it should not, moreover, be assumed that the people of the west are not both capable and desirous of dealing out evenhanded justice to all races and creeds alike. 'That the parliament of Canada has not received any mandate from the people to inflict such gratuitous and excessive legislation upon our brothers in the great west, and should, upon so momentous an issue, and before taking such an irretrievable and dangerous step, at least consult the electors of Canada, without whose specific mandate any such unwarranted and unwise federal interference with provincial rights can but arouse bitter resentment and religious feeling inimical to the welfare and safety of the people of Canada.'

NEW CLAIMS FOR DAMAGES.

Alex Mulvaney has entered action against the Toronto Railway Company, claiming \$3000 damages for the death of his daughter, Lily. The city is suing the company for another \$200 for failure to provide a fender on Avenue-road cars. Edward Devine asks for specific performance of an agreement made by Emily A. Zane and Lauree Botts of Louisville, Ky., for the sale of property on West Queen-street. The Mutual Reserve Life of New York is being sued by Mrs. Martha Wilson of Hawkesbury to recover \$2000 on a policy issued on the life of W. J. Wilson. It was taken out by the Northwestern Assurance Co., and assumed by the Mutual Reserve.

A LINDSAY WEDDING.

Lindsay, April 25.—(Special).—At St. Andrew's Church this afternoon, Alfred Joseph Matthews of Brantford, and Jean Rebecca, second daughter of Dr. Gross of this town, were married by Rev. James Wallace, B. D., and Rev. G. R. Welch, B. A., pastor of the Baptist Church. The bride was gowned in white embroidered chiffon, over duchess and satin, and carried white roses and lilies of the valley. The groom was in a tuxedo. The bridesmaids were Miss Isabel Matthews, sister of the groom, and Miss Mabel McHoull of Toronto. Miss Elizabeth Rankin of Russell was best man. Mr. and Mrs. Matthews left on the evening train for Atlantic City, Washington and points in Florida.

ESTATES OF THE DEAD.

George H. Wright of Queensville died on April 7, leaving an estate of \$12,757, which is to be divided among his wife, the Ontario estate of Henry Spedding of Fortar, Scotland, who died in Lennoxville, Quebec, was worth \$21,910. His widow and son, who live in the latter town, will divide the inheritance. Patrick McCabe of King Township left farm lands valued at \$3500 to his two sons and one daughter, and five grandchildren. Elizabeth Kelo Baldwin made a will ten years ago, bequeathing \$3000 to her husband. Her estate was valued at only \$742, and the surrogate court is asked to direct its administration.

# SPECIAL SPECULATION AND PRICES

How far speculative cliques go to make a price for a commodity has been witnessed for months in the case of wheat. A partial failure in last year's crop on this continent gave the speculative crowd in the Chicago market an opportunity to mark prices up beyond the dictates of reason. Many options, one in which the price is more than ten cents, was carried as high as \$1.21 1/2 and it was predicted that the price would reach \$1.50. A total disregard of natural conditions was shown in the operation by the bull pool, but as in the case of cotton a year ago prices ultimately adjusted to the conditions of actual supply and demand, and the process is now on. Canadian growers were benefited by the extreme prices to which quotations were carried, and farmers appear to have used good judgment in disposing of their crops at last winter's prices. The leading milling interests of the Dominion were misled by the Chicago boom and the manager of one of the largest of the Canadian mills freely predicted \$1.50 for wheat, less than three months ago. The point in which farmers will be interested is the likely quotation for the incoming crop. Having succeeded in carrying prices altogether beyond reasonable baselines the cliques are now just as likely to depress quotations too far the other way. It is not to be supposed that with the price of all articles of commerce at a high level what should not range at a figure in comparison. It would not, however, be well to build upon the basis of last year's crop prices. The remuneration to wheat growers the past two seasons has brought about an enlarged area of crop which promises to produce a surplus for the market. This is plainly shown by the acreage in the United States, planned for this season's crop. The speculative contingent are well apprised of this fact and will act accordingly. Liverpool prices will continue to dominate the basis of value for export, and on this market will depend how far prices can be depressed under speculative operations. While a profitable return may be realized for wheat this year it is highly improbable that last year's prices will be duplicated or at all nearly approached.

# FARMERS' EVIL POSITION

The light rainfall before last winter's freeze-up and continued dryness this spring had left the ground in a dry state until last week's welcome snowstorm. The flurry was not welcomed in the cities, and those unacquainted with the shows of the country had no idea of its value to the community. A farmer who has spent the greater portion of his life on the land states that a covering of snow similar to that of a few days ago is equal in value to a dressing of manure. Whether this much can be claimed or not is a matter of question, but there is no doubt that it was a good thing for the fall sown wheat, and a helpful factor to the meadows. More moisture would not be objected to in some parts, but generally speaking the outlook now is decidedly encouraging. Spring seeding conditions have been very favorable, and with average future weather there is a hopeful belief that Ontario will be again blessed with an abundant harvest. The splendid prices at which all classes of farm produce are selling should make the farmer satisfied with his lot, which is indeed an enviable one under present circumstances.

# KEEP CALVES FOR STOCKERS

The week ending April 8, the large number of 15,000 calves were sold at the Union Stock Yards, Chicago. Every week this year, with one exception, has shown a considerable increase over the corresponding week of 1904. The same tendency to dispose of calves is apparent in some parts of Ontario, judging by the large numbers that are now reaching the Toronto markets each week. The calves are being marketed to go to export or butchers' stores and buyers, with proper care and feeding, cannot be that all these calves are sent to market on account of the owners' inability to raise them. Village people having only one cow could put in a reasonable plea for parting with the calf as soon as possible; but farmers, even though they are dairy farmers, should be in a position to raise all the likely calves, especially if they are aware they are descended from a pedigree bull. There are far too many farms within a radius of seventy miles of Toronto that are deficient in the number of young cattle in the barnyard. The calves are being marketed to the butcher's block, the pick of them, had they been raised to come upon the market in the fall, would meet with a ready sale at remunerative prices as stockers. Farmers who have neglected to raise calves to step the growth of the horns should be sure this season to see that this is done, as dehorned cattle will undoubtedly bring higher quotations.

Up to the present week the run of last week was the heaviest that the Chicago market had ever recorded. The receipts of the week just ended approximate 14,000 head, making it the banner week. The dairy districts have been unloading calves heavily this month than ever before. The prices for calves reached fully \$1 per 100 pounds during the past week at Chicago. The Canadian farmers must bear this information in mind, for the overburdened calf market will shrink the prices, while it is certain the overplus of slaughtered calves will make a marked shrinkage in stockers a few months hence.

# 90% of the People

Use wooden shingles because they father did, and it is only when they realize that the course likely to be pursued by the wool market in the immediate future is now being indulged in. The value of the staple has had a sharp advance already and no complaint is being made among growers. While even a higher basis of values would be acceptable there is an opinion rapidly spreading that the advance has about spent its force. Present prices are calculated to decrease consumption, to increase the importation of foreign wool and to induce a larger percentage of shoddy in fabrics. Meanwhile, it must not be forgotten that the consumer is paying the toll, and there is always a limit to his carrying capacity.

# LOCAL HORSE MARKET DRISKS AT GOOD PRICES

The Demand for Animals of Every Description Fully Equal to the Supply. Dealers have been too busy during the past week preparing for the horse show which opens today in the Armories, to do much in the way of private sales. Consequently there have been no actual movements of any importance. At the sales rings, however, business has shown no diminution, the supply being not more than equal to the demand, while prices, especially for heavy horses and expressers, have been well maintained. Good quality horses command particularly good prices, but they must be city broke and show high quality good carriage horses. Many horses seen in departmental store vans and in other delivery vehicles not a great many years ago, would have been used only for pleasure driving. Since the coming of the great storm the improvement in this class has been most marked, the appearance being to keep prices down, as it used to be, much as to get good looks and good actors. Farm horses are also in brisk demand, but buyers, altho critical, do not seem exactly to relish the price, and bidding consequently on this class is a hesitating and slow-moving draught class, to find ready purchasers, altho the demand from the Northwest has hardly been what it was expected to be this spring. The concentration of the local and provincial demand having been exceptionally good, while an unusual number of orders have come in from Montreal, Blocks and chunks of English movers, fresh sound and heavy, are eagerly snapped up by contractors, and even rough and generally harshly used bush horse find buyers at prices that two or three years ago would have been considered phenomenal for their kind.

# ANOTHER ADVANCE IN HOG PRICES. CATTLE DEALERS COMPLAIN RAILWAY RATES TOO HIGH

Live hogs have advanced 25 cents per cwt. since a week ago, and are now quoted at a new high record in the Toronto market, viz. \$7 per cwt. The strength of the hog market is perhaps best explained by a reference to the receipts at the Toronto market last week, which fell 1500 head below those of the same week a year ago. If an incentive is wanted to secure better supplies, the present price should prove the inducement, and the fact that it does not do so is fair testimony of the belief that the province is comparatively bare of hogs. Packers must of necessity keep their plants running; thus the active competition between buyers which has been going on for a couple of months must be continued until supplies arrive with more freedom. Under these conditions abnormal prices may be reached, and quotations range above a profitable basis for the packer.

# CATTLE DEALERS COMPLAIN RAILWAY RATES TOO HIGH

The complaint of the Farmers' Association of Canada and the Dominion Cattle Dealers' Association against the railways on account of excessive and discriminating rates charged for the transportation of cattle was again taken up by the railway commission yesterday, and the chairman said he given serious consideration. In an order made it was decided that the rate for the railways to be put into effect of 15 cents per 100 pounds from Toronto to Montreal. The railways asked that they be allowed to charge 18 cents, and applied to stay the order. J. Hardwood, chief traffic officer of the commission, reported that the request of the railways was not unreasonable if they were forced to adopt the 15-cent rate. He said that the shipment of cattle from Toronto to Montreal, there shown to be a charge of 25 cents from Ontario points from Toronto to Montreal 15 cents was reasonable. The Grand Trunk Railway Co. said the roads paid more for coal in Ontario than in the States and that, in addition, the tax on Michigan was much higher, and more was made up for the increase of cost.

# HOW FARMERS GAMBLE

Should the statement be made that farmers are the greatest gamblers on earth it would not receive much credit. They are supposed to be about as free from the vice of gambling as any class of men, but the whole occupation is a gamble, unless he be in a favored irrigated region, is largely speculation. His operations are clouded with uncertainty from seed time to harvest, and from the nature of the case the most enlightened and conservative tillage of the gambler's fortune. Late frosts in spring or early frost in fall, too much or too little moisture during the growing season, or the visitations of creeping destroyers on crops, all these things are very serious in their effects—such as three pounds per day may be given with advantage to full-grown cattle.

# WHOLE SERIES OF OPERATIONS A BET AGAINST FORTUNE.

The usual sale will be held at the Repository on Friday, and on Saturday, starting at 10 a. m., a special sale of high-class show horses will take place. At the Canadian Horse Exchange, Jarvis-street, on Monday, the attendance was good, and the bidding lively. Some of the horses sold for \$1000, and draughts predominated, were offered, and brought prices running to as high as \$200, which was the price paid by the Dominion Transport Co. for a 7-year-old dapple brood mare, striking and sound, weighing in the neighborhood of 1700 lbs. Dr. O'Neil of Cobourg considered a very fine horse, and draughts that sold for from \$185 to the aforesaid \$200. A combination of second-hand carriage horses, to jump 5 feet was sold to go to Rochester, N. Y. A feature of the sale was the sale of a horse named 'The Illuminated parade' at the exchange on Monday evening well attended. George M. Temple and Dr. King Smith being the gentlemen represented. McCarron's lively sale last week was a crackjack, everything being sold, and prices fully up or superior to value.

# HOW MEXICAN TEST EGGS

It is a common sight in the plaza in a Mexican town to behold a stall-woman who is selling two reals worth of eggs pick them up one by one, put one end and then the other to her lips and hand them over to the customer who repeats the same operation. To the inexperienced customer it seems as if they were tasting the extremities of the eggs. As a matter of fact, they never touch the eggs with the tongue. The idea of the performance is that when an egg is fresh and is distinctly colder than the other, the end which has the air chamber is the warmest. When the egg is fresh the air is exceedingly sensitive to heat and cold, and even the noise at this form of egg-testing promptly settles a dubious judge. If both ends of the egg reveal the same temperature, that egg may be considered as safe. A very good sign that the air chamber is broken; and the contents spread equally within the shell.—Farm Machinery.

# CATTLE PRICES MOUNT

Western Canada Dealers to Take Advantage of Chicago Market. Chicago, April 25.—One result of the beef trust enquiry is the upward tendency of prices paid by the combine for cattle. In spite of the 20 per cent ad valorem duty, Canadian ranchers have discovered that they can make a profit of \$10 a head on their cattle sold in Chicago or other American markets. This fact is attested by A. L. Brooks of Gleichen, Alberta, a cattle-raiser who has been in Chicago for a week investigating the prospects for his flocks, before his return to Alberta last night, talked of market conditions at the Hotel Auditorium.

# HEAVY HOG RECEIPTS PRICES BEGIN FALLING

Butchers and Exports Lower and Trade in Fat Cattle Not So Brisk. Receipts of live stock at the city market were 65 car loads, composed of 1123 cattle, 500 hogs, 217 sheep and lambs and 175 calves. The quality of fat cattle was fair, but not so many good butchers as the trade would demand. Trade in fat cattle was not so brisk nor were prices as good as they have been in both butchers' and export classes. Even at the high prices that are still being paid there were drawers on the market that lost money, some few not being able to realize the price in the country. Exporters. Prices ranged from \$5.50 to \$5.75 and one or two lots at \$5.80, the bulk going at \$6.50 to \$6.75 per cwt. Export bulls sold at \$4.75 to \$4.95 per cwt.; export cows at \$4.50 to \$4.60 per cwt. Pickled lots of 10 prime steers at \$5.50 per cwt.; loads of good stock at \$4.75 to \$5 per cwt.; medium at \$4.25 to \$4.50; common at \$4 to \$4.25; cows, \$4.50 to \$4 per cwt.

# REPRESENTATIONS MADE AT SITTING OF COMMISSION YESTERDAY WHICH WILL BE SERIOUSLY CONSIDERED.

The complaint of the Farmers' Association of Canada and the Dominion Cattle Dealers' Association against the railways on account of excessive and discriminating rates charged for the transportation of cattle was again taken up by the railway commission yesterday, and the chairman said he given serious consideration. In an order made it was decided that the rate for the railways to be put into effect of 15 cents per 100 pounds from Toronto to Montreal. The railways asked that they be allowed to charge 18 cents, and applied to stay the order. J. Hardwood, chief traffic officer of the commission, reported that the request of the railways was not unreasonable if they were forced to adopt the 15-cent rate. He said that the shipment of cattle from Toronto to Montreal, there shown to be a charge of 25 cents from Ontario points from Toronto to Montreal 15 cents was reasonable. The Grand Trunk Railway Co. said the roads paid more for coal in Ontario than in the States and that, in addition, the tax on Michigan was much higher, and more was made up for the increase of cost.

# REPRESENTATIONS MADE AT SITTING OF COMMISSION YESTERDAY WHICH WILL BE SERIOUSLY CONSIDERED.

John W. Lord, freight traffic manager of the R. M. Ontario, replied that there were no shipments at all of cattle from Chicago to Montreal via the Toronto and Ontario route. The rate from Chicago to Montreal via the Toronto and Ontario route was the same as to New York. Cattle coming into Chicago from Toronto via the Toronto and Ontario route were subject to heavy terminal charges. For these reasons the Toronto stock-owners, Dr. Gregory, for the cattlemen, applied for a rehearing. He said that the shipments from Toronto to Montreal, there shown to be a charge of 25 cents from Ontario points from Toronto to Montreal 15 cents was reasonable. The Grand Trunk Railway Co. said the roads paid more for coal in Ontario than in the States and that, in addition, the tax on Michigan was much higher, and more was made up for the increase of cost.

**DOCTOR CHANGES THEORY.**  
Says Now That Caesar Young Did Not Commit Suicide.

New York, April 25.—Perhaps the most sensational development in the testimony to-day in the trial of Nan Patterson, charged with the murder of Caesar Young, came when Coroner's Physician O'Hanlon took the witness stand for the prosecution and said in reply to questions that he had changed his opinion that Young had committed suicide. O'Hanlon performed the autopsy on Young's body after his death.

**INSURANCE RATES UP.**  
Four of the largest life insurance companies in Canada have raised their premium rates by from 3 to 6 per cent. of all policies which do not conform to the standard of the companies in the dividends of the company. This increase is occasioned through some of the small companies refusing to comply with a proposal that they should adopt the participating policy. The increase will not affect the rates on policies in force, but it will affect the rates on new policies. The increase is a result of the fact that the cost of living has risen and the cost of doing business has increased.

**\$10 to \$15 Box Coats, \$6.95**

For this spring a Topper Box Coat is the coat you want. Better get one in the Men's Store—get one to-morrow. There's 100 of them going underprice first thing in the morning—one of those "special" lots we pick up once in a while.

100 Men's New Spring Topper Overcoats, light weight, made up in the short boxy style, also three-quarter Chesterfield length, the materials are a finely woven imported English ched cloth, in a rich, dark olive shade, fawn twill, first-class linings and trimmings and exceptionally well tailored, sizes 34-44, reg. \$10, \$12 and \$15, while they last Thursday...

**Spring Sale of Metal Beds**

The Furniture Department has secured several hundred Iron and Brass Bedsteads underprice—for the next few days we will be busy selling them in the same way—underprice.

We don't need to sound the praises of iron and brass as the constituents for bedsteads. Housekeepers know them too for that. We want to claim for these beds that they are very decidedly cheap. You cannot buy old-fashioned beds as cheaply as you can buy these new designs—if you buy them here to-morrow. We cannot ourselves. They are worth from 25 to 30 per cent. more than the figures we quote. They were manufactured primarily for institutions and hotels, and are therefore constructed for strength. They are all colored in pretty shades to harmonize with the rooms they go in. And never, never were metal beds sold in this city so cheap.

Here are those for Thursday, the first day of the sale:

No. 1286—Bedsteads, finished in all gilt (or Verm-Martin finish), in 4 ft 6 wide only, on sale Thursday... **6.90**
