PROBS.—Cloudy, light
winds and change to colder weather.

PLAYING DUCK MERCHANTS

Some of the Troubles They
Are Having Set Forth at
Association's Annual
Meeting.

There was a lot of plain talk in
the addresses at the 13th annual meet-
ing and supper of the Retail Mer-
chants' Association last evening. About
150 attended, with F. C. Higgins pre-
siding.

E. M. Trower, Dominion secretary,
speaking on "Our Dominion Legisla-
tive Requirements," said that 1500
would be added to the roll in the City
of Winnipeg.

During the past 15 years not one
piece of legislation in the interests
of the merchant has been obtained
except by efforts of the Retail Mer-
chants' Association.

"The retail merchant in the future,"
he declared, "is going to vote for one
thing only—bread and butter."
Legislation was needed against the
fakir. "When we get it," he exclaim-
ed, "we will make some stores sit up
and take notice."

The department of trade and com-
merce should pay as much attention
to the merchant as was paid to the
workman. He wanted the fee for
inspection of scales removed.

"In regard to the tariff the duty
should be taken off packing cases
which were imported from a country
where wood was probably as dear as
steel. The Province of Quebec was
the only part of the country where
there was a law setting out how much
a bag of potatoes should weigh. There
should be a uniform statutory weight
fixed by the Dominion."

He condemned the co-operative store
and the governor-general was criticized
for trying to tell us what kind of
co-operation we should have. A good
word was put in for the senate for
its service in killing the bill.

The only way to fight a trust. Get
their hands off the infamously
section 438 of the criminal code.

A publicity department was to be
appointed to direct the newspapers in
the right and proper way along com-
mercial lines.

To Get at the Dead Beat.
Mr. J. Ziemann of Preston, Ont.,
president of the provincial board, spoke
on "Legislative Requirements for the
Province of Ontario." An amendment
was wanted to the Division Courts
Act, to bring small debts within the
jurisdiction of the magistrates' court.
This would catch the professional dead-
beat. The law with regard to the em-
ployment of female help in the evening
was unfair and unsatisfactory.

Coal dealers, he said, were disrepi-
tated in the application of the
business tax.

H. C. Beckett of Hamilton read
a paper on "Co-operation of Wholesale
and Retail." There should be a per-
manent commission, similar to the rail-
way board. The department of trade
and commerce was useless as far as
the interests of the retailer were con-
cerned. There should be a list of
trades associations, and copies of pen-
dant bills should be sent to their officers.
Mutual co-operation along the lines
of fair dealing was what was needed.

Work for the Department.
Hon. Geo. E. Foster, M.P., spoke of
the limitations of the legislature. "Don't
think you've done it all," he said, "when
you've tried your best to do it."
Remember the 212 members of the
house. If a memorandum is good
for a minister, isn't it good for the
legislature? Make your information
as widely available as possible.

The department of trade and com-
merce should devote the major part
of their activities to keeping track of
the internal commerce of the country.
There should be an impartial commis-
sion to deal with these matters, meet-
ings and inform the govern-
ment.

W. K. McNaught, M.L.A., advised
against the thing most wanted and
going for it first. In regard to the Pe-
dler's Act, if the requirements of the
association were just, he would help
them to get them, and they would
not to get them something better.

The giving of small debt cases to
the police magistrates was found to
be impracticable, but the general
sympathy with the general aspirations of the association
in this regard.

W. Davidson, K.C., of Toronto,
was crown prosecutor. The case throught
was very fairly presented and argued.

King Edward's Splendid Gift To the Sultan

Purchases Beautiful Horse Once
Owned by Richard Croker, for
Abdul Hamid's Special
Service.

LONDON, Feb. 23.—King Edward is
making the Sultan of Turkey a present
of a charger once the property of
Richard Croker.

Some weeks ago the sultan was
asked by high officials to proceed
sometimes to the mosque on horseback
instead of in his carriage. In order
that his subjects might have a bet-
ter chance of seeing him. The sultan
replied with a smile:

"Yes, if a bay horse can be found
with three white spots on his feet,
one on each hind foot and one on the
fore foot, a white spot between the
eyes and a tail reaching to the
ground."

This was reported to King Edward,
who telegraphed through the United
Kingdom enquiring if such a horse
were procurable. A beautiful animal
answering the description was found
in the stud of Lord Ribblesdale and
was secured by the King.

The horse formerly belonged to Mr.
Croker and took first prize at the
Dublin Horse Show. The King's
Chronicle says, has christened the
charger with his own title "Rex, Im-
perator."

3 TRAINMEN FOUND GUILTY

Early This Morning Guelph
Jury Return Verdict in
Harriston Wreck
Case.

GUELPH, Feb. 24.—(Special.)—At 2
o'clock this morning a verdict of guilty
of criminal negligence was returned
against Conductor Matthew Fleming,
Engineer Conrad Kennedy and Fire-
man T. F. Lane, who had been in-
dicted for manslaughter in connection
with the G.T.R. wreck, near Palmer-
ston, on Jan. 25, when two trainmen
were killed.

The jury had been out three hours
and 55 minutes. Half an hour before
the jury's decision was reached, they
had agreed on a verdict of guilty
against Kennedy and discredited as to
the others. Justice Riddell said that
this negligence was the cause of the
wreck. The question was, were these
men guilty of any violation of the
Grand Trunk rules, and what was the
verdict including all three. He sent
them back for half an hour's further
consideration.

Justice Riddell's charge was strongly
against the accused. He said the jury
only needed to be sure that these men
were guilty of criminal negligence in
doing what they ought not to have
done, or omitting to perform acts which
they should have performed. The
negligence was the cause of the
wreck. The question was, were these
men guilty of any violation of the
Grand Trunk rules, and what was the
verdict including all three. He sent
them back for half an hour's further
consideration.

The three trainmen gave evidence
during the day, their stories being
the same, but each at a different
and preliminary hearing. Sentence will
be imposed on Saturday week. Mean-
time they are released on the same
bail as usual.

The grand jury having returned a
true bill for criminal negligence against
Brakemen Alexander, Jackson and
Burgess, they will appear for trial
to-morrow. A request for a post-
ponement to the next assizes was re-
fused.

N. E. Davidson, K.C., of Toronto,
was crown prosecutor. The case throught
was very fairly presented and argued.

BIG GERMAN ENTERPRISE TO MINE CANADIAN COAL

Syndicate Which Explored Cobalt
and Other Fields in 1906. Said
to Be Ready to Develop.

(Canadian Associated Press Cable.)
LONDON, Feb. 23.—The Berlin
Boersen-Courier reports that former
attempts on the part of Germans to
participate in economic developments
in Canada met with little or no suc-
cess. But an enterprise which has
realized the rich expectations entertained
in connection with it.

It states that the German-Canadian
expedition, adds The Boersen-
Courier, has greatly increased the pre-
stige of the German race in Canada, be-
cause it is recognized that this suc-
cess is due to their thorough perseve-
rance and scientific research.

It is estimated the coal fields contain
3,000,000,000 tons of the best coal any-
where in America.

THE BOOST CLUB.
The Boost Club held its regular monthly
meeting last evening with the usual
order of the day. The speakers of the evening
were Arthur Hawkes of the department
of publicity of the C.N.R. system, and
John Lewis, while John Alexander gave
selections from Drummond. The Georgian
Quartet led the choruses.

TIME'S COME TO RELEACH

And Buildings Intended for
Garrison Common Will
Not Proceed for
Awhile.

OTTAWA, Feb. 23.—(Special.)—In
supply to-night a big number of items
for Ontario public buildings were pass-
ed.

On the Toronto postoffice item
Claude Macdonell had asked for in-
formation as to the location of the
government to erect a new building.
Mr. Pugsley stated that it would be
situated near the proposed new station,
and it had been suggested that it be
included in the new station and used
merely to distribute the mail among
the various sub-postal stations. Mr.
Macdonell also enquired if the
government proposed to proceed with
new buildings on the garrison common,
and in view of the recent
trenchment program it had been de-
cided not to go ahead just now. A
good deal was being spent on Toronto
harbor. The opposition took exception
to the cost of the additional accom-
modation for servants at the Royal
Military College, Kingston. Eight
double houses were erected at a cost
of about \$100,000. Mr. Pugsley claimed
that the cost was reasonable, and the
foundations had to be blasted, and
the buildings were fireproof.

Col. Sam Hughes protested against
the curtailment of expenditures on
necessary public works. In times of
depression the government should in-
augurate works to give employment.

E. B. Osler commended the govern-
ment for retrenching, but said this
had become absolutely necessary, owing
to the reckless extravagance that had
been the practice. Large sums had
been wasted in excessive prices for
extras.

The member for South Ontario was
severely criticized in connection with
the purchase of a site for the Whitty
postoffice. It was alleged that Mr.
Powe acted as an agent of the govern-
ment in the purchase of the land.

Mr. Powe in reply said the price
paid, \$5000, was not excessive. The
site had been endorsed by leading busi-
ness men of the town. Mr. Pugsley thought
it was the duty of a public man to
interest himself in this public work.

The house adjourned at 11:10 till
Thursday afternoon.

PROCEEDS OF SCHOOL LANDS

Alberta Would Like Control of them
for School Purposes.

EDMONTON, Alta., Feb. 23.—(Spec-
ial.)—An important matter before the
legislature was the resolution of the
premier asking the Dominion Govern-
ment to turn over to the province all
proceeds of the sale of public lands in
the province. It met with unanimous ap-
proval.

The premier said there are about nine
million acres of school lands in the
province, with but a small area sold.
The average price the past five years
from these sales was \$11.62. If the Do-
minion Government were to sell these
lands, he suggested that the receipts
from general sales be formed into a
fund, to be loaned to rural school dis-
tricts at not more than three per cent.
compelled to pay 10 per cent. This
arrangement would be beneficial all
round, as the province is now reciev-
ing three per cent. on the lands sold
in the Dominion, together with what
rentals there might be on lands.

LICENSES FOR THREE YEARS

Request of Manitoba Hotelmen—26,000
Sign Petition.

WINNIPEG, Feb. 23.—A deputation
of 300 men opposed to the banishing of
the three per cent. license amend-
ments to the present liquor law, waited
on the government and members of the
legislature this morning in connection
with the present petitions with 25,000
signatures.

P. W. Taylor, M.L.A., who introduced
the several speakers, stated that the
signatures of the petition were bona-fide
and the delegates represented men
in all lines of business.

The petitioners were presented in the
legislature this afternoon. The peti-
tion asks that licenses be made good
for three years, instead of being open
to local option attack each year.

NEEDS OF THE CHURCH

Opening of Four-Day Christian Mis-
sionary Alliance at Zion Church.

The midwinter convention of the Chris-
tian Missionary Alliance opened at Zion
Congregational Church, College-street,
yesterday afternoon. It will continue
until Friday night. The chief speakers
yesterday afternoon and evening was
Rev. James L. L. of England. Rev. John
Simpson, New York, will be present.
Philip Maure, a New York attorney-at-
law, will speak at the closing meeting
Friday.

Rev. James L. L. is an English evangel-
ist, who was in Toronto several years
ago. Since then he has been to New Zea-
land, Australia, and England. He was
at a rather low ebb when he was there,
but since then there has been a revival.
He left England three weeks ago to at-
tend the convention here and to speak at
other places for the Christian Missionary
Alliance.

His topic yesterday was "The Needs of
The Church." The church of to-day, he
said, possessed strength of a kind. It had
organization, an educated and cultured
membership and financial strength, but lack-
ed the strength of the upper room—the
power of the Holy Ghost. The church
needed supernatural strength, the power
to pray. The prayer meeting had be-
come a non-entity in modern church
life. The church had lost the power to
pray.

The church needed power to serve. To
open the work was left to a few, while
the great mass of the membership did
nothing.

OTTAWA, Feb. 23.—There is a move
on foot to have Canada's general govern-
ment sworn in at Ottawa instead
of at Halifax or Quebec, which, with
one exception, has been the custom in
the past.

ON PARLIAMENT HILL

THE "COUNTRY": This here waterin' of the road makes good slidin' for them, but blame hard goin' for me.

BRANDY IN CHOCOLATES VIOLATES THE LAW

Police Start Campaign Alleging
That Confectioners Are Selling
Liquor Without a License.

Brandy chocolates have been on sale
at half a dozen or more confectionery
stores in the downtown section of To-
ronto, and the police don't like it. R.
Burger, 92 Yonge-street, has been sum-
moned to appear in the police court to-
day on the high-sounding charge of
"selling liquor without a license" be-
cause he is one of the number, and
more summonses are to be issued.

Whether the amount of liquor in the
chocolates exists in sufficient quanti-
ties to convict the seller of infringing
the license law will be determined. In
Montreal yesterday manufacturers and
dealers, 51 of whom were found guilty
of having liquor with liquor with-
out a license, were fined \$50 and costs.

Inspector Stephen has submitted a
box of the confections to the Ontario
Liquor Department for analysis.

Chief License Inspector Johnson,
speaking last night of the cases that
have been brought to his notice, said
that many of the cases were bona-fide
and the sale of brandy chocolates
in several places and a test of the sam-
ples secured have shown them to con-
tain more alcohol than the statute al-
lows.

"We do not keep them for sale at
all," said Geo. W. Matthews, man-
ager of Huyler's last night, when asked
as to the demand for them. Not
even in any one of the fifty-three stores
in Montreal made large shipments to
dealers in Toronto.

"This is due," continued Mr. Mat-
thews, "to the fact that Mr. Huyler is
not only a strong temperance man, but
a strong supporter of the Water-
street mission in New York."

"We used to handle the brandy
cherry chocolates," said B. O. Pomeroy,
manager of McConkey's, "but quit sell-
ing them, and this was due to the lack
of demand for them. The large per-
centage of sales we made were made
to men."

"About 99 per cent. of the sales were
made to men," said one of the clerks
in Mr. Burger's store last night. "We
never sold them to minors."

As to the percentage of alcohol con-
tained in the chocolates E. M. Jewell,
manager of Hooper's drug store, could
not see where there was any harm in
the brandy chocolate.

"I should judge," said he, "there
would not be more than about one per
cent." Mr. Jewell then explained how
they were made, pointing out that the
cherry which had been dipped in the
brandy contained the flavor rather
than the spirit of the alcohol. Neither
did Mr. Pomeroy of McConkey's con-
sider them intoxicating for from his know-
ledge of the manufacture of them, he
always understood that the ratio was
a quantity of brandy to fifty pounds of
candy.

TWO MANY FARMERS ON JURY.

CHICAGO, Feb. 23.—The result of
the "229,000 fine case" of the Stan-
dard Oil Co. of Indiana was unex-
pectedly delayed to-day when Judge
Anderson in the United States district
court quashed the panel of 150 veni-
men because of what he considered the
singularly large proportion of farmers
therein.

Toronto and the Transcon- tinental Route.

Toronto is to be placed on
the C. P. R. main line at last.
It is stated that when the
new change of time is an-
nounced in the transcon-
tinental train schedule, due provision
will be made for a service
from Montreal to the west via
Toronto and Sudbury, instead
of via Ottawa and North Bay.

This will be following out
the kindly words towards To-
ronto uttered by President
Shaughnessy at the board of
trade banquet last summer.

SUFFRAGETTES HOLD FORT AT BOSTON STATE HOUSE

Two Young English Women De-
liver Addresses From Steps and
Police Are Given Tussle.

BOSTON, Feb. 23.—Boston was given
a vivid reminder of the suffragette
storm at the house of parliament
in London, when two prominent mem-
bers of the militant section of English
woman suffrage advocates mounted the
steps of the state house to-day and
talked for two hours to an interested
throng.

The two enthusiastic young English
women, Miss Rachel Costello of Oxford
and Miss Eleanor Rendell, finally were
ejected by the police, who were called
by the police dispersed the crowd.

The officers of the law met with con-
siderable opposition from women in
the throng, who declared that their
rights were being interfered with and
they were obliged to use some force.

By the time the legislators arrived
for their afternoon session, however,
the demonstrators had disappeared.

The occasion was the annual hearing
before a legislative committee on a
petition for the passing of an act en-
titled women to vote. When the com-
mittee room became overcrowded the
suffragettes seized the opportunity to
organize the overflow meeting on the
steps of the state house.

The committee hearing, also it lasted
three hours, varied but little from those
of the past ten years.

SIGNATURES OF ONTARIO'S LAW- MAKERS.

Twelve interesting documents have
been hung in the west corridor of the
second floor of the legislature, near the
Ontario Railway and Municipal Board
offices. These are the rolls of signa-
tures of the members of the eleven
parliaments of Ontario
since 1867, with the additional roll signed
on the accession of King Edward in
1891.

Only five of those who signed the
first roll are said to survive. J. Baxter,
Hon. Edward Blake, John Carnegie
(father of the present member), John
Carling and J. C. Rykert.

TELEGRAPHIC BRIEFS.
New York State may adopt a bill pat-
ented in Canada's regulations pre-
venting the sale of low grade seeds.
The Lindsay Daily Free Press, which
began publication last May, has given
up. There are two others in the field.

TORONTO MAN KILLED IN WESTERN WRECK

Myers Goldstein, of Adelaide St.
One of Two Victims—Another
Man Badly Hurt.

WINNIPEG, Feb. 23.—(Special.)—Two
men were killed and one seriously
injured in a freight wreck early
this morning on the C.P.R. main line
in Ingolf, 90 miles east of this city.

All three men are stated to be resi-
dents of Toronto, traveling west with
a consignment of 54 draught horses.
Their names were given as Myers
Goldstein, O'Brien and Wm. Robinson.

The train was following fifty minutes
behind the first. The morning was
very dark and foggy, and as the en-
gineer of the second train rounded the
curve he saw the preceding freight
train immediately in front. He did every-
thing possible to stop his train and
jumped.

In the caboose were Goldstein, Robin-
son and O'Brien. The crew of the train
called to the men to get out, but they
no doubt were sound asleep.

A number of horses were killed over-
right, and others had to be shot.
Engineer Ramsey was in charge of the
second train. A strict investigation
into the cause of trouble will be
made.

Goldstein and Fawcett have been
shipping horses to the west for some
years.

Robinson has a sister living on Ed-
monton-street. He is now in Kenora
Hospital, his recovery being
doubtful owing to severe injuries to
his head.

It is said that O'Brien is also from
Toronto. Four cars were telescoped.

Myers Goldstein, one of the dead,
and Wm. Fawcett, were registered at
Clarke's Hotel, corner of Adelaide and
Simcoe-streets, last week, leaving
Thursday evening with several car-
loads of horses for the western mar-
ket.

At 9 o'clock last night Mr. Faw-
cett telegraphed his invalid mother
at 187 Simcoe-street to the effect that
he had escaped, having left the train
further east, and followed up on a
passenger. Myers Goldstein, however,
who remained in charge of the horses,
was killed, as were 17 of the animals.

Mr. Fawcett lives in Alliston. Early
last week he brought a consignment
of horses to Toronto for sale at the Re-
positories, but finding that horses
were plentiful and prices low, he
bought up three more carloads and
hired Goldstein to help him dispose of
them in the west.

Goldstein was 27 years old, married,
and lived on West Adelaide-street. He
came to Toronto from Orangeville
eight years ago, and was of late years
employed by Burns & Shogard as a
buyer. He was the son of Benjamin
Goldstein, now living in Charlton,
Ont.

UNIONIST TRIUMPH.
LONDON, Feb. 23.—(C. A. P.)—The
Taunton by-election was held to-day,
resulting: Peel (Unionist) 1976, Smith
(Labour) 1022.

FOR RENT

Realty Brokers, 24 Victoria St.

29TH YEAR

TEORORIZED BY THE CHIEF

So Says Ex-Nightwatchman
Wilkins—Tells of Fires
and Thefts—Evi-
dence Piles Up.

SIMCOE, Feb. 23.—(Special.)—The crown
got near to the end of its witnesses by ad-
judgment at 6:30 to-night in the case of
King v. Malone, following the long ex-
amination of former Night Watchman
Wilkins, who was the victim of the shoot-
ing.

The cross-examination of the principal
witness to-day against the accused was a
hard-fought one, but Wilkins persistently
kept to his story, as told at the prelimi-
nary hearing.

The chief evidence was the statement
that Wilkins had loaned Malone his elec-
tric flashlight on the day preceding the
shooting, telling him it needed a new bat-
tery. Wilkins says Malone showed it to
him fixed while in the park.

The crown put Fred S. Chadwick in the
box this afternoon, and he swore to fix-
ing the light for Malone on the evening
in question.

Drs. Bennett and Bowley were also
called and testified to the dangerous con-
dition of Wilkins' wounds.

Wallace Walsh and John Davis swore to
seeing Malone at 12:10, or 45 minutes be-
fore the shooting.

Harry Purcell, Charles Brown and Jos.
Sovereign testified to hearing the shots at
12:15, and about five minutes later find-
ing Wilkins at Dr. Bowley's doorstop.

Frank Curtis was the man who called
the chief on the telephone after the shoot-
ing, and told him the man wanted for the
shooting was a negro. Malone did not
come for half an hour, and then only as
far as the telephone office, where he asked
the night operator to call the sanitarium
for some body badly wounded.

The night operator advised the men
at the sanitarium, and they sent the con-
stantly to meet the chief. John Bennett,
the night operator, testified to this effect.
Witnesses also swore that loaded re-
volvers were taken from the prisoner,
and one of these guns was produced in
court, loaded. His lordship, Sir Wm.
Jackson, advised the authorities to unload
the dangerous weapon.

The crowd that attempted to get into
the courthouse this afternoon was larger
than ever, and there was almost a riot
before the chamber was comfortably filled.

This Saw Malone.
To-night's session produced the most
important evidence of the trial, with the
exception of that of the star witness and
complainant, Wilkins.

Stanley Wilson, Otty Matthews and
Margaret Nicholls, three young people
who were taken from a party, each
swore they saw the prisoner, Malone.

HORSE PRIZE LIST FOR FAIR

Breeding Section of Committee Make
Several Important Alterations.

The various committees of the exhibi-
tion are busy revising the prize
lists. Yesterday the swine committee
recommended several changes.

The members of the breeding section
of the horse committee also amended
their portion of the prize list. The
most important change was recom-
mended in the thoroughbred section.
The prize for yearlings and 2-year-olds
were eliminated and the prize for stallions,
3-year-olds and over, increased to \$150 for first, \$100 for second,
and \$50 for third, and \$25 for fourth.

The prize for brood mares was made
\$75 for first, \$50 for second, \$25 for
third and \$10 for fourth. The prize for
Clydesdales was inserted in every sec-
tion. Fourth prize was cut off the
Shire classes. The recommendation
that by Canadian-bred should not be
bred and raised in Canada was adopted,
as also was the suggestion that
general purpose horses should be over
1200 pounds and not exceeding 1350
pounds in weight.

The recommendations of the Pony So-
ciety as regards the breeding classes,
were adopted in their entirety. This
section was amended to the Shetland,
Welsh, Hackney and general classes.
The harness section of the horse de-
partment meet at 2 o'clock this after-
noon.

CAN'T READ OR WRITE.

So Samuel Roberts is Allowed to Go on
Fetters Charge.

GUELPH, Feb. 23.—(Special.)—In
the assizes to-day Justice Riddell con-
sidered Samuel Roberts, the Milton
Township farmer, who married his
niece and was afterwards charged with
perjury in connection with the procure-
ment of the marriage license.
Roberts was allowed to go on sus-
pended sentence. In the witness box
Roberts was amazingly stupid, and
did not appear to understand the na-
ture of the question, to be answered in
applying for a license. He can't read
or write, it was explained.

Justice Riddell said that the couple
must separate.

MUST GET VACCINATED

Kingston Board of Health Issue

Hamilton Happenings

CANADIAN CLUB DINE AND HARK TO ORATORY

Hon. W. A. Weir of Quebec Takes a Fling at Politics Generally—Happenings of a Day.

HAMILTON, Feb. 23.—(Special.)—The sixteenth annual banquet of the Canadian Club, held to-night at the Hotel Royal, was most successful. The speakers were Hon. W. A. Weir, provincial treasurer of Quebec; Dr. Neil MacPharlane, president of the Canadian Club, New York; and G. Langlois, M.L.A., Montreal. Mr. Weir responded to the toast "Canadian Ideals." He said that the constitution of the United States had not worked out satisfactorily. The president was an autocrat and the legislature took no part in the government of the country. There were defects, too, in Canadian institutions, based upon British ideals. The federalism that existed among Canadians. His subject was "National Unity." William McClement presided. The Harmonic Society under Dr. L. M. Harris sang "Seasons" to-night before a large gathering in the Grand Opera House. The soloists were Mrs. Faskin McDonald, H. Ruthven McDonald, Toronto, and Frank Ormsby.

Charles Hamburg, who was reported as missing to-day, returned to-night. John H. Cousins, 188 Market-street, an army and navy veteran, died this afternoon, aged 77. Mrs. Martha Hunt, East Hamilton, widow of Charles R. Hunt, died to-day, and Mary Ann Burrows died this evening.

Chaple, Crown Point, was seriously injured this afternoon by being kicked on the head and face by a horse. The Gurney-Tilden Company will re-open its shops Thursday morning, and may bring the trouble between the moulders and their employers to a head.

A Hospital Charge.—It is charged by a citizen to the overcrowded condition of the fever wing of the City Hospital, scarlet fever patients were put in the dispensary ward of the hospital with patients suffering from that disease.

Charles Hamburg, 258 North Wellington-street, 18 years of age, is missing, and his parents fear that he has been drowned in the bay.

For passing three forged cheques William Wilson was sentenced to Kingston Penitentiary. He is only 21 years of age, but has already served two terms. Wilson is he was sentenced for horse stealing.

The proprietor of the Commercial Hotel has been summoned on the charge of seduction to John H. Keever, an "Indian."

James Thomson, 70 South West-avenue, a prominent lumber dealer, died this morning.

The removal of the Second Dragons from Burford to Hamilton will mean the establishment of a cavalry corps about 20 strong.

J. Henderson will likely be the commanding officer, and Ernest Appleby will be one of his officers. The Thirtieth and Ninety-First Regiments will occupy the new part of the drill hall, and the other corps will be quartered in the old portion.

Florence Burke was sent down for six months by the police magistrate this morning. Pauline Spager, accused Louie Nyman, a woman in the shop of Thornton and Douglas, assaulting her by dragging a chair from under her as she was about to sit down. The magistrate adjourned the case so that more witnesses might

ECZEMA OF THE SCALP.
Zam-Buk Cures a Boy Who Suffered for Three Years.

Now and again mothers find that sores or ulcers on the heads of children refuse to heal, despite all oratory treatment. Then is the time to prove Zam-Buk's healing power. For three long years the son of Mrs. Grummitt of 114 Morse-street, Toronto, had eczema of the scalp. She says: "It broke out behind the ears, and was so painful he was unable to sleep at night. I used almost every ointment known, and called in the doctor, but all of no avail. A friend recommended me to try Zam-Buk, and I procured a supply. After using three boxes, my little boy was completely cured."

Another case which mothers will read with interest occurred recently in Winnipeg. Mrs. C. Keep of 592 Alexander-avenue, Winnipeg, says: "A year ago my little girl contracted eczema of the scalp, and notwithstanding all I did the sores spread until the child's scalp was completely covered. I took her to hospital, but none of the lotions and ointments applied had any effect on the disease. By degrees the child's hair came out, until she was quite bald. We were at this stage when I was advised to try Zam-Buk, and did so. From first commencing with this wonderful balm the child got relief from the itching and pain. The sores were quickly banished, and in a remarkably short space of time the child was cured. The hair soon grew again, and is now quite long and in a healthy condition."

All who have care of children should know that Zam-Buk is particularly adapted, because of its purity, to the tender skin of children. It cures with equal despatch ringworm, blood-poisoning, ulcers, cold-cracks, chapped hands, frost-bite, piles, bad leg, etc. Used as an embrocation it eases the pain of sprains, and cures rheumatism, sciatica and neuralgia. All druggists and stores sell at 50c a box, or post free from Zam-Buk Co., Toronto, for price.

MEETINGS.
The Canada North-West Land Company, Limited.

NOTICE is hereby given that the Annual General Meeting of the Shareholders of this Company will be held at the Head Office of the Company, No. 21 Jordan-street, Toronto, on Wednesday, the 24th day of March next, at 12 o'clock noon, to receive a statement of the affairs of the Company for the year ending 31st December last past; to receive and consider the schedule prepared in terms of Section 12 of the Act of Incorporation, to elect Directors, and for other business.

By order of the Board.
S. B. SYKES,
Secretary-Treasurer.
Dated at Toronto, this 11th day of February, 1909.

be obtained, threatening to punish whoever was guilty of perjury. Mayor McLaren and City Solicitor MacPharlane will wait upon the government to-morrow to press for special legislation allowing Hamilton to submit to a plebiscite at any time during the year the power or any other question.

Eugene DeBorger got out a summons to-day charging John Kirkpatrick with theft because the prisoner borrowed a book from him and failed to return it.

Tom and Mrs. Longboat are in the city, the guests of Sol Mink.

The Vansickle Will.
That there was no cause for the rumors of foul play in connection with the death of the Vansickle family at Lynden about a month ago is proven by the will left by Philip Vansickle.

By its provisions the beneficiaries share alike. Owing to the death of the three of the beneficiaries the estate is being divided as evenly as possible. The estate was worth about \$300.

Origin and Rites of Ash Wednesday.
This is Ash Wednesday and the beginning of Lent. It is interesting to know the origin and the rites of the day.

Ash Wednesday, so-called because of using the ash of the palms which were blessed on the previous day, is a day of penitence.

The ceremony began, probably, under Gregory the Great in the sixth century. A.D. it was sanctioned by Pope Celestin in the 12th century, and has prevailed in the Catholic Church ever since.

The ashes used are the burnt residue of the palms, carried in the procession by the faithful in celebration of Christ's triumphal entry into Jerusalem. The palms were blessed by the priest, and the ashes were taken home and kept a year and then burnt for the next Ash Wednesday.

This solemn service of the Holy Catholic Church properly introduces the 40 days of Lent in commemoration of our Divine Lord's time of fasting in the wilderness of Judea.

During mass on Ash Wednesday the faithful advance to the altar railing, where the priest, while the priest takes up between finger and thumb a pinch of palm ashes and strews them on the forehead of each penitent in the sign of the cross, saying as he does so the words, Memento quid cinis es, et cinerem reverteris—Dust, thou art, and into dust thou shalt return.

The Catholic Protestant and other sects spiritualizing ceremony. And Lent itself is spiritually apprehended and fulfilled with purity of soul and fit it for better living in the future.

The Calvary Protestants and other sects spiritualizing ceremony. And Lent itself is spiritually apprehended and fulfilled with purity of soul and fit it for better living in the future.

Quality—The Best.
It's the performance, not the promise, that counts. Absolute satisfaction guaranteed.

OPEN EVENINGS. 135
Two Doors North of Adelaide.

Dr. Bell's New Airship.
SYDNEY N. S., Feb. 23.—Dr. Alex. Graham Bell's new tetrahedral airship Cygnet II, made a trial trip over Bras d'Or Lakes, with Douglas MacCurdy as navigator. The flight was made from an automobile running along the ice. Shortly after the machine had got under way one of the propellers broke, and the airship came slowly down, scarcely damaging the huge, yet fragile, framework.

The Cygnet is constructed on the tetrahedral principle, having upwards of 5000 cells, and is the first of its kind ever sent up with a motor and man aboard.

A Naval Captain "Detached."
PORT MONROE, Va., Feb. 23.—The battleship Kearsage came home with Capt. Hamilton M. Haschings, Capt. Hightails was detached from the command of his ship by Admiral Sperry late on the evening of Feb. 1; in Gibraltar. The fleet sailed the next morning at 10 o'clock.

GENTLE LAXATIVE NEEDED FOR THE AGED AND FEIBLE

With the advance of years the vital functions of the body slow down. The organs of secretion grow weak, the peristaltic action of the bowels is perceptibly lessened and dangerous constipation develops.

What is the result?
Poisonous "substances" over-run the system, the circulation is clogged with wastes, the brain is filled with blood, the hands and feet grow numb with cold, the whole body twitches and trembles.

A drastic cathartic is dangerous. Nothing will cure but a gentle laxative like Dr. Hamilton's Pills; their action not only extends to the stomach, liver and kidneys, but is directed to the secretory glands, and increases their fluidity and volume.

Dr. Hamilton's Pills are different from other pills. Their activity in moving the secretory apparatus is profound, but their action is so mild, so free from gripe that it seems scarcely possible you have taken medicine at all. Yet they do the work efficiently, and this is why they are so widely prescribed for old folks who need a laxative and system tonic.

Cured by Dr. Hamilton's Pills.
Headache. Constipation. Biliousness. Stomach Troubles. Disinclination. Colicky Bowels. Vertigo. Dyspepsia. Sick Headache. Bad Dreams. Poor Appetite. A Guarantee in Each Case.

For your own sake, keep Dr. Hamilton's Pills within reach. Take them whenever you feel unwell; they clean out the entire system, keep it pure and in working order. Purely vegetable in composition, safe for young or old, no system tonic compares with Dr. Hamilton's Pills, 25c per box or five boxes for \$1.00, at all dealers.

BattleShip of Huge Size.
NEW YORK, Feb. 23.—Rear-Admiral Goodrich believes that battleships twice the size of the largest now building will be launched in the not far distant future.

City and Suburban Real Estate Agency

FORD \$1000 Touring Car

The car that meets all the requirements of a man with a family.

Manufactured entirely at the Ford plant.

Four-cylinder, 20 H. P. motor, shaft drive, low tension Ford magneto, 30x3 1-2 inch tires, side oil lamps, tail lamp and tube horn.

THE FORD MOTOR CO. OF CANADA, LTD., Walkerville, Ont.

TORONTO BRANCH—53-59 Adelaide Street West.

TERRORIZED BY THE CHIEF

Continued From Page 1.

about the streets within half an hour of the time of the shooting. The first named said that he might have been mistaken, but the other two were quite certain that the man they saw was the then chief of police. Warren Potts heard the shooting and saw a man with a long overcoat on, but he declined to swear to the identification of the man. Alex McQueen Jr. and Lewis Barber, who arrested Malone, told how they seized him and took his weapons from him. There was an old useless revolver and a modern 32 long, with every chamber loaded and the trigger cocked.

Mr. Cameron, who has made a study of odors from discharged revolvers and other weapons, said that Malone's revolver had been discharged within 24 hours before he got it, notwithstanding that the weapon was fully loaded when it was seized.

J. S. Martin of Martin Bros. said he recovered a dozen stolen piano drapes from Wilkins' home on the information of Mr. Sovereign. Nine other drapes were left on the doorstep of his brother-in-law, Lawyer Atkinson.

Mrs. Effie Berrie, who keeps a store near the police station, heard a footstep she thought was Malone's going up the stairway of the police station about 2 o'clock the morning of the shooting.

County Constable Collamore found six empty cartridges of the size used in Malone's revolver scattered about the police station shortly after the shooting affair.

Wilkins' Story.

Wilkins was brought from the jail, where he is serving a five months' term for theft, to give evidence. He had one eye shot out and other bullet wounds in the body, he says, by Malone. After telling that he was an Englishman, 34 years of age, with two children, one a babe a year, with two children, one a babe a year,

weeks old, and having served in South Africa, he said he became acquainted with Malone thru doing odd jobs. He was then appointed night watchman by the chief.

On the night of June 16, while on patrol with Malone, the latter had suddenly said he was going to have some fun, and a few minutes later had set fire to Madden Bros. store. Then Malone told him to turn in the fire alarm and phone to Malone's house for him. Several other fires were set and "discovered" in similar way.

In October they found the door of Sovereign's store unfastened. Malone went to the till, but found only a few coppers. He then went to the back of the store and took from the hook a fur-lined coat and a fur coat and from a box a fur stole.

"This will do for my wife," he said. "Don't you want one for your wife?" I said, "No, sir, my wife wouldn't wear it."

He then made me try on a fur coat. It didn't fit me very well, so he tried it on. "This is about my style," he said. He then put the two coats and the stole out on some boxes in the lane, and shut the back door and left by the front door, forcing Wilkins to take the coat.

In setting fire to Agate's barn, he said he was getting even for a charge of \$5 for making out an affidavit in a case in which Malone was after a reward. Malone had used his jimmy to pay his way out of the jail, he said.

The night of the shooting he had met the chief by appointment at 1 a.m. at Lynwood Park, where, after a few words, Malone suddenly opened fire. Wilkins had fallen and lay there for a time, fearing that the chief was still standing over him with the revolver. He knew no motive for the shooting.

Would Like Malone Punished.

Cross-examined by Mr. Kelly, Wilkins, asked why he did not complain about other habits of Malone, as well as his drinking habits, said the drink habit was

responsible for the other bad habits. Mr. Kelly suggested that it was not until the souls were found at Wilkins' that the thought occurred to place the whole matter on the shoulders of the chief, whose job Wilkins might now covet.

"I would make a fine-looking chief with one eye," replied Wilkins. The reports in the record book as to the causes of the fire, "unknown," "probably set on fire," etc., had been supplied by Malone.

"I was entirely under Chief Malone and did entirely what he told me to do. I was afraid of the man because he told me to keep my mouth shut, and that if I let anybody pump me my life would not be worth a candle. He said more, 'I told me that any man who crossed his path his life would be worth little, that he would shoot him down like a dog.' Justice Mulock, it might be that you are mistaken in the identity of the man who shot you?"

Wilkins: There is no shadow of a doubt in this case. I am positive, and I am speaking the truth.

Justice Mulock: You would like to see him punished on your evidence?

Wilkins: I should think that a man who would do such a cowardly thing as that should be punished to a certain extent.

The Shooting.

In connection with the shooting, Wilkins was asked what was connected with the flashing of the light in the park.

"It came about this way," said Wilkins. "I asked him if he had secured a new lamp. He said, 'That's what he flashed the light.'"

Malone had said nothing while shooting.

In one of his "diving declarations," Wilkins said that he could assign no reason for Malone's attack on him.

To the jury today, he explained that this was quite true at the time. Since he began to recover and had had time to think it over, he judged it was because of his knowledge of the series of crimes that Malone decided to get rid of him.

SECOND CHORAL CONCERT BRILLIANT PERFORMANCE

Schubert Choir Took High Rank
Last Night in Massey Hall—
Orchestra Played Brilliantly.

Last night in Massey Hall the Schubert Choir ran for second place amongst the choral organizations of Toronto and Canada, and won out handsomely. It was a pity that last night's program had not been sung on Monday evening and Monday's program sung last night; for it would have showed the Schubert choir at its very best at a time when society was out in full force to hear what Mr. Fletcher's organization could really do and to make critical comparisons. However, as always, everything comes to them who wait and last night the Schubert choir were given all the praise and applause that deservedly belonged to them. Move up, Mr. Fletcher, move up to second place; you have earned the position by hard work and genuine musicianship. And next year move over to the ideal unattainable, the great and only Mendelssohn choir, the finest interpretative choral organization in existence.

Last night's program, both chorally and orchestrally, was super-excellent in mass-out, and brilliantly performed by the two musical bodies, the choir and the band. The choir recovered its form and all the sections in ensemble sang with perfect solidity, balance and the nicest precision, while the shading, climaxes and diminuendos were excellent. This was particularly patent in the choir's singing of West's arrangement of Mozart's inspiring motet from "King Thamos," in which there was especial virtuosity shown by the choir in the frequently occurring sforzandos and the taking of the sustained high A without the slightest flattening of the tone. And Schubert's "Who is Sylvia?" was sung deliciously. All the voices, inner and outer, were equalized in balance of tone, and the shading was like delicate tracery. These qualities were repeated in Lesslie's "Up, Up, Ye Dames." It was a question which of these two a capella compositions was sung best by the Schubert choir, but in any case both were sung finely.

If I mistake not the Sheffield Choir who were made a hit with Boughton's "King Arthur and the Three Sons," a whimsical, humorous composition, the humor depending upon the effect of the phrase, while Mr. Fletcher's choir made it low comedy in the best sense—and this undoubtedly is the better interpretation.

Of the four vocal dances by Schubert, the choir was weak in the first, "Her True Love She Greets," a somewhat poor in attack and a little rhythmic thrust, while "Tender Music," "The Echo Song," and "The Shepherd's Song" were weakly sung in the closing cadence. But the choir regained its form in "Hark! Silvery Bells Chime." In this composition the attack and precision were excellent, and the crescendo, diminuendo and dynamic qualities were beyond the praise of words. H. W. Parker was the soloist in "Agate's Barn," from Schubert's mass in G major and in Mozart's motet from "King Thamos." She sang with a high soprano voice of sweet and clear quality, and also with a low part at short notice sang very effectively and quite in the spirit of the composition. In passing it should be said that the choir's weakly sung part at short notice sang very effectively and quite in the spirit of the composition.

In passing it should be said that the choir's weakly sung part at short notice sang very effectively and quite in the spirit of the composition.

(Incorporated in Canada.)

NOTICE OF DISTRIBUTION ON REALIZATION OF ASSETS, NO. 1

Notice is hereby given that a Distribution on Realization of Assets, No. 1, of \$5.00 per share, has been declared and that the same is payable on the 15th day of April, 1909, to shareholders of record on the books of the company at the close of business on the 27th day of February, 1909 (fractional shares not included).

The transfer books will be closed from the first day of March to the 15th day of April, 1909, both days inclusive.

By order,
S. B. Sykes,
Secretary-Treasurer.

Toronto, Canada,
8th February, 1909.

POLICE COMMISSIONERS Reprimand for Leaders in "Sunday Off" Agitation.

While they are not in a position to decide as to the disposition of the police court clerks, the police commissioners yesterday decided to accept the space immediately below their present quarters in the city hall should be placed at their disposal.

Constables Skelton, Southern, Elliott, Baines and Arrowood, leading in the movement for a Sunday off a month, and who took their troubles to the Municipal Association, were read sections of the police rules and then reprimanded. Their request respecting the day off was laid over for consideration.

The estimates, as reduced by the board of control, were considered. It was decided to get along with \$3000 more.

Peddler's licenses are placed at \$10 for a year or fraction thereof.

The present taxicab scale was accepted with the provision that delays thru blocks in traffic should not count against the taxicab. The chief and a member of the board will inspect cabs, to decide on a good spot to post the tariff.

A detention, headed by School Inspector James L. Hughes and Principal Byfield, asked that peddlers be not

allowed to sell ice cream near schools. They were referred to Dr. Sheard.

The request of Inspector for an increase in salary was refused as being late. An increase bringing inspector Duncan from \$1800 to \$2000 was allowed to stand, as was an increase bringing Clerk Shand to the pay of a detective.

Therefore, it was decided that the body will affect the health of the individual by depriving the vital organs of their rightful amount of operative power.

Consequently, it is but natural and logical to suppose that all those ailments which are due to lost vitality or exhaustion of nerve power, such as Debility, Nervousness, Indigestion, Constipation, Inactive Liver, Rheumatism, Sciatica, Lame or Weak Back, Kidney Complaint, etc., can be cured by the proper application of the galvanic current.

The latest improved DR. SANDEN HERCULEX BODY BATTERY or BELT is constructed to meet all the requirements of proper and successful electrical treatment without the least derangement of the habits or daily occupations of the patient. It is worn about the body either day or night, and the soothing, invigorating current "soaks" into the system during these hours, starts an immediate renewal of the functions and supplants weakness with strength.

The Appliance is simple and inexpensive and cannot possibly produce injurious results. It is sold and used in every country of the civilized world. It has attachments to convey the current to every part of the body. It is a real strength-giver and not a stimulant.

able to think that overwork or anything that abstracts part of this native electricity from the body will affect the health of the individual by depriving the vital organs of their rightful amount of operative power.

The request of Inspector for an increase in salary was refused as being late. An increase bringing inspector Duncan from \$1800 to \$2000 was allowed to stand, as was an increase bringing Clerk Shand to the pay of a detective.

Therefore, it was decided that the body will affect the health of the individual by depriving the vital organs of their rightful amount of operative power.

Consequently, it is but natural and logical to suppose that all those ailments which are due to lost vitality or exhaustion of nerve power, such as Debility, Nervousness, Indigestion, Constipation, Inactive Liver, Rheumatism, Sciatica, Lame or Weak Back, Kidney Complaint, etc., can be cured by the proper application of the galvanic current.

The latest improved DR. SANDEN HERCULEX BODY BATTERY or BELT is constructed to meet all the requirements of proper and successful electrical treatment without the least derangement of the habits or daily occupations of the patient. It is worn about the body either day or night, and the soothing, invigorating current "soaks" into the system during these hours, starts an immediate renewal of the functions and supplants weakness with strength.

The Appliance is simple and inexpensive and cannot possibly produce injurious results. It is sold and used in every country of the civilized world. It has attachments to convey the current to every part of the body. It is a real strength-giver and not a stimulant.

able to think that overwork or anything that abstracts part of this native electricity from the body will affect the health of the individual by depriving the vital organs of their rightful amount of operative power.

Local Mining Markets Steady Silver Leaf the Feature

News That a Good Find Had Been Made on Silver Leaf Caused a Jump of Four Points.

World Office,
Tuesday Evening, Feb. 23, 1905.
An extraordinary movement occurred in the mining shares to-day by an advance in Silver Leaf, which ran up over four points above yesterday's price. This special movement, which was against the general trend of the market, was due to an announcement that a good find had been made on the Silver Leaf property and that one of the Crown Reserve veins had been encountered in the Silver Leaf workings. The buying of the stock came from all parts of the country, a large number of the orders being received from Haliburton, Cobalt and North Bay, where the first news of the find was made public.

In the general list there was considerable apathy, with somewhat easier undertone to prices. The dealings were large and quotations were entirely under the influence of outside realizing. The break in the markets for general securities was a factor in transactions in the mining issues, but it was rather a tribute to the mining stocks that they did not feel the imprint of this as much as was generally expected.

Sizing up the market at the close it could be stated that, with the exception of Silver Leaf, small losses occurred in the majority of the other issues dealt in, but these were of such a character as almost to be ignored by actual holders and to confirm the opinion that sellers would experience difficulty in replacing holding with a profit.

WELL DEFINED VEINS ON GAVIN-HAMILTON

Thirteen Veins Uncovered on Property, Four of Which Carry Native Silver.

ELK LAKE, Feb. 19.—(From the Man up There).—The shaft at the Gavin-Hamilton property, which consists of 28 acres, being the east half of the south half of lot No. 1, con. three, in the Township of James, situated about three and a half miles in a southeasterly direction from Elk Lake, is now down about 25 feet. This shaft has been sunk on what is known as vein No. 5, which is a calcite vein about 14 inches wide, and vein matter carrying native silver has already been taken out. The work is at present being done by hand, but a complete compressor plant has been ordered and will be delivered on the property before the winter roads break up.

A fine camp building has been erected on the property, which will accommodate about 40 men working double shift. This building is a two-story structure and includes the dining and sleeping camps, as well as an office. A blacksmith shop with complete equipment has also been erected near where the shaft is being sunk.

There are at least 13 well defined veins on this property, four of which are known to carry native silver, and on the others the indications are that silver will be found at depth. The Gavin-Hamilton Mining Co. is controlled by the same syndicate controlling the Otisse-Curry property, and the same engineer, P. M. Fleming, is looking after the interests of both mines. The remaining portion of the veteran claim, of which the Gavin-Hamilton is part, is owned by the Lang Syndicate and it is likely that an arrangement will be made whereby the latter property will be developed by the same plant. The camps on the Lang property are now being erected and will be ready for occupation in a day or two.

All the properties in James Township that are being developed have confirmed the recently expressed opinion that James is about to "make good." It is safe to say that some of the best silver mines in this north country will have their location in this township.

P. W. Ball.

WHY THEY GOT POSTOFFICE

Had Building Ready at South Gowanda.

The postal service at South Gowanda is proving a great convenience to the prospectors and others in the mining belt around the west shore of Gowanda, Welcome Lake, Wapoose Creek, Shining Tree and other places along the road from Selkirk northward. The mail is taken in three times a week. The reason that the office at South Gowanda was opened so quickly was because the Gowanda Transport Co. offered a building for the business and a postmaster, L. O'Connor, was available.

The federal government acted even more promptly on representations of W. F. Maclean, M.P., with respect to Gowanda City, and Fred Chambers was appointed postmaster two weeks before. Pending the selection of a site by the provincial government, however, the establishment of the postoffice there has been delayed, and much inconvenience has been occasioned in consequence to prospectors at the camp, Oboshong, Miller, Everett and Leroy Lakes, which this route will eventually serve.

STRIKE AT LEAF

Good Three Inch Vein Struck at 100-Foot Level.

COBALT, Feb. 23.—Good find made at Silver Leaf, face of drift 100-foot level, three inches vein in wall rock, which is rich in silver.

F. B. Mosure.

T. & H. B. DIVIDEND

A Declaration of 300 Per Cent. Declared to Shareholders.

MONTREAL, Feb. 23.—Advices have been received by the local mining market that Temiskaming and Hudson Bay Cobalt Co. has declared a dividend of 300 per cent., which makes a total dividend disbursements since November, 1905, of 12,400 per cent.

Wants Part of Lawson Mine.

An echo of the famous Lawson mine case, which was disposed of by Chief Justice Meredith last spring, was heard in the non-jury court yesterday afternoon, when an action was opened before Justice Teetzel, in which W. G. Armstrong is the plaintiff and Donald Crawford the defendant. No evidence was taken, the case being adjourned till this morning.

QUERIES ABOUT GOWGANDA

Hon. A. G. MacKay Desires Some Information From the Government.

In the legislature yesterday, the program outlined by Premier Whitney last week, of diligent application to business, was carefully followed. Quite a large number of the committee stage of thirteen others. The bill to provide prompt punishment for persons at election was under consideration. After deciding that the measure would apply to all towns of 500 inhabitants it was left for further consideration.

Sir James Whitney, in moving the second reading of the bill to amend the Municipal Act, stated that the object of the bill was to enable municipalities to hold elections on questions on which they desired to have the mandate of the people.

A MAP OF GOWGANDA

Strictly accurate—compiled from government and private surveys—showing every claim recorded to a recent date in the rich Gowanda, Miller Lake and Lost Lake Districts—giving an accurate idea of the lay of the land, the rivers, the waterways, etc.—large size, 36 x 36—is yours for \$1.50. Invaluable to mining folk.

In compliance with "Sec. 92" Ontario Companies' Act, I give the following information: A Director, to qualify, must hold one or more shares. Under agreement, dated 14th of January, 1905, which may be inspected at Head Office of the Company, the entire Capital Stock of the Company has been allotted to J. T. Thompson as fully paid and non-assessable for the Companies' properties, 40 acres each, from which assays of \$71,884 and 947 ounces of silver to the ton have been taken. Mr. Thompson has transferred 100,000 shares to a trustee to be sold at 25c per share. Out of the sale of this stock are to be paid \$10,000 to J. T. Thompson, Toronto, the balance \$15,000, to be used for development.

The Directors received no consideration in either stock or money for their services. Usual Broker's commission of 5c per share to be paid on sale of stock. No payment to promoters other than as above set out. Prospectus dated and filed with the Provincial Secretary the second day of February, 1905.

Gow Ganda

As an item of interest to the public who have been following my "talks," as well as those who have become interested with me in the ownership of the property, I announce the discovery upon the "Archie Close" claim, M.R. 239, of a one-inch calcite vein, carrying native silver, and averaging 2000 ounces to the ton. Word of this find comes from Mr. Howard L. Beattie of Elk City. Immediate action will be taken to have the discovery examined and verified by a competent engineer with a view to deciding upon a future course of development.

Of Exceptional Merit.
PARTICULARS ON REQUEST.

HERON & CO. 16 KING ST. W. TORONTO.

Beware the geese when the fox preaches.—Spanish.

Share Gowganda's Silver Wealth

EVERY man may not become a millionaire, but all may be in comfortable circumstances, if they will accept the opportunities when presented. To-day opportunity is knocking at the door of the man of moderate means, the individual who desires to share the wealth of the vast treasure vaults in the famous silver fields of new Ontario. These we present on a ground floor basis—the only safe and safe basis in which to invest your money in this or any other mining field. You become an owner not of a few shares of stock in an over-capitalized company—but an owner of the real property and all the silver and valuable mineral it contains. You direct the expenditure of your own savings—the money goes into development of properties—the returns are paid to those men only who have invested real money.

Ground Floor Proposition

One-half interest in three mining claims in diabase formation can be had for \$600 and doing the statutory work. The prospectors who staked these properties prefer retaining an interest. They were among the first to enter this territory and believe the claims are valuable.

Two splendid properties in Shining Tree Lake where big discoveries have been made can be had on the following terms. The prospectors will accept \$1500 for half interest (after inspection of property), providing the purchasers will provide \$4000 for work on properties. These claims have only recently been staked, and show many veins with large quantities of Cobalt bloom, calcite, etc. Owners state they are as good as anything was in Gowganda at same stage of development.

Forty-acre claim, near Wigwam Lake, with large vein showing native silver. Six veins show Cobalt bloom. The formation is diabase of highest grade. This is an excellent syndicate proposition and persons forming same should communicate with us at once.

Gowganda Silver Claims For Sale

Two splendid silver properties adjoining the famous O'Kelly Claims, with the rich veins of the latter located on them. These properties were the first staked in that locality and are the choice of the district. A splendid company proposition on fair terms.

One forty-acre claim adjoining Mann property. High silver values and excellent location. One of the good ones that is still in original owner's hands.

Three claims in Lost Lake section, with native silver vein traced 500 feet. These properties at \$75,000 are very cheap and will be snapped up quickly.

One forty-acre silver claim in Bushong Lake section, with big silver discoveries. This is reported to be a first-class proposition and we have requested our own engineer to report on same.

Silver Lake District

In the section which is proven we offer a silver property considered equal to any in the district. Buyers know the value of Otisse, Otisse-Curry and other mines in this locality, and understand what is meant when we say good as the best.

Write or wire for particulars of any property.

A.G. BROOKE CLAXTON, K.C., Montreal	Messrs. Claxton & Ker, Barristers, Montreal.
GODFREY BIRD, Montreal	Mgr. Bank of Toronto, St. Lambert, Que.
Secretary-Treasurer: E. A. MUMFORD, Montreal	

The Montreal and St. Lambert Terminal Developing Co. owns some Eight Million (8,000,000) square feet of land, to be improved for residential lots in St. Lambert, which is a growing town situated on the St. Lawrence River directly opposite to and connected with the City of Montreal by the Victoria Jubilee Bridge of the Grand Trunk Railway.

The terminal yards of the Grand Trunk Railway, plans of which have been fully approved by the Board of Railway Commissioners, will occupy about 100 acres of land, which is practically surrounded by the property of this Company. This makes the property a most desirable locality for home sites for the shop and terminal workmen employed by the four railways, viz.: THE GRAND TRUNK RY., THE INTERCOLONIAL RY., THE CENTRAL VERMONT RY. and DELAWARE & HUDSON RY.

The Delaware & Hudson Ry. is also contemplating constructing at St. Lambert a large terminal yard for its Quebec extensions.

All of this means a large influx of railway employees of the better class, such as skilled mechanics and clerks holding permanent positions and requiring dwellings in St. Lambert.

The Southern Counties Electric Ry., now under construction from St. Lambert to Montreal via the Victoria Bridge, will pass through the Company's property, and will give easy and rapid access to the centre of the City of Montreal. This should make this property considerably more attractive as the estimated run from St. Lambert to the centre of the City of Montreal will be about 15 minutes, and the rates will be as low as they are to and from other suburban sections around Montreal.

Manufacturers will also locate at St. Lambert, as every facility they would require is right at their door, such as light, power, transportation, street railway service and freight rates similar to Montreal.

The eight million square feet of land owned by the Company will be divided into about two thousand three hundred (2300) lots of two thousand five hundred (2500) square feet, and should sell at from 8c to 20c per foot, or approximately \$712,500.

APPROXIMATE ESTIMATE OF EARNINGS

Judging from results of similar companies, and estimating conservatively the earnings on sales of cottage sites, etc., would bring approximately the following:—

500 lots of 2500 square feet, at 8c.....	\$100,000
500 lots of 2500 square feet, at 10c.....	125,000
500 lots of 2500 square feet, at 12c.....	187,500
500 lots of 2500 square feet, at 15c.....	150,000
300 lots of 2500 square feet, at 20c.....	150,000

Total.....\$712,500

Taking the above as the minimum value of the Company's property, these Bonds are amply secured as to principal and interest, together with a large surplus to apply towards dividends on stock.

Applications for these Bonds must be made to the Bank of Toronto, Board of Trade Branch, Montreal, Que., or the undersigned, who will furnish copies of prospectus and forms of subscription on application. No fractional shares of stock can be issued, so where an odd amount of Bonds is subscribed for, the subscriber will be entitled to the bonus of fifty per cent. of the next lower even amount.

Subscription List Opens March 1st, and Closes March 6th, 1909

All applications for Bonds must be accompanied by a deposit of Ten per cent. (10 per cent.), and the balance will be payable 15 per cent. on allotment, 25 per cent. in 30 days, 25 per cent. in 60 days and 25 per cent. in 90 days after allotment. Where a smaller number of Bonds is allotted than is applied for, the surplus paid on application will be credited in reduction of the balance due, and in cases where no allotment is made, the amount deposited on application will be returned.

SEEDS

59 LOADS AT CITY YARDS

QUALITY FAIR TO GOOD

Trade—Steady—Prices Firm for Good—Sheep, Lambs and Calves Firm.

Receipts of live stock at the City Market were 59 car loads, consisting of 382 cattle, 582 hogs, 338 sheep and lambs, 71 calves and one horse.

A few lots of fair to good exporters and butchers' were on sale, but the bulk of the cattle on sale were of the light, medium and common classes.

Trade was fairly strong at about the same quotations as at the Union Stock Yards at Monday's market, quality considered.

There were a few lots, not loads, of shipping cattle sold up to \$5.40, which is lower than the top sold for at the Union Yards on Monday, but the quality was not as good as at the City Market. In fact, there were too few exporters on sale to make a market. Bulls sold from \$4 to \$4.50, with an odd one or two at \$4.75 to \$5. There were export cattle sold at \$4.40 that cost \$5.50 per cwt. in the country.

Prime picked steers and heifers sold at \$4.80 to \$5; loads of good solid reds, \$4.50 to \$4.75; the latter price being paid for the best load of butchers' cattle on the market; medium light cattle, \$4 to \$4.40; common, \$3.50 to \$4; canners and common cows, \$3 to \$3.50; bulls, \$3 to \$4.25.

H. & W. Murby report nothing of any account doing on the market, with prices unchanged as follows: Best feeders, 900 to 1000 lbs. each, at \$3.75 to \$4.25 per cwt.; medium, from \$3.50 to \$4; stockers, \$3 to \$5; and \$2.75 to \$3.

There was a fair delivery of milkers and springers, with some few good cows among the number. The bulk of those offered were bought up for the local trade. Prices ranged from \$20 to \$60.

Upwards of 100 calves sold at \$3 to \$7 per cwt.

Receipts of sheep and lambs were light, with prices firm, as follows: Grain-fed lambs sold at \$5.50 to \$7 per cwt.; common lambs, \$5.50 to \$6 per cwt.; export ewes, \$4 to \$4.50; rams, \$2.25 to \$3.75.

Receipts light. Mr. Harris quoted prices unchanged at \$6.00 for selected fed and watered, and \$5.60 for c.w.b. cars at country points to drovers.

Representative Sales.

McDonald & Halligan sold 70 exporters, 1250 lbs. each, at \$5.20 per cwt.; 15 exporters, 1100 lbs. each, at \$4.70; 10 exporters, 1000 lbs. each, at \$4.50; 120 lbs. each, at \$4.20; 7 exporters, 900 lbs. each, at \$4.20; 8 exporters, 1100 lbs. each, at \$4; 12 exporters, 1000 lbs. each, at \$3.75; 8 exporters, 1000 lbs. each, at \$3.50; 4 exporters, 700 lbs. each, at \$3.50; 11 exporters, 1100 lbs. each, at \$3.25; 2 bulls, 1400 lbs. each, at \$4; 1 bull, 1300 lbs. each, at \$3.75; 1 bull, 1400 lbs. each, at \$3.50; 1 bull, 1200 lbs. each, at \$3.25; 1 bull, 1100 lbs. each, at \$3; 1 bull, 1000 lbs. each, at \$2.75; 1 bull, 900 lbs. each, at \$2.50;
