TEN PAGES—ONE CENT

HAG AND PERSHING LAUNCH ATTACK IN HEAVY RAIN

British and Americans Driving Back Enemy Between St. Quentin and Cambrai; Huns Fight French Hard but Are Giving Ground

London, Oct. 8.—English and American troops attacked this morning on the front between St. Quentin and Cambrai. Field Marshal Haig so announced today. Satisfactory progress is being made. The attack was launched just before daybreak in a heavy rain which began last night.

In successful local operations near Mont Brehain and Beaurvoir on this front yesterday morning, more than 280 prisoners were taken.

FURTHER FRENCH GAIN. Paris, Oct. 8.—The French continue their successful advance. The war office announcement today says that French troops have reached the outskirts of Condé-sur-Suppe, at the junction of the Sappe and the Aisne northeast of Berry-Au-Bac.

Along the Sappe River the French have penetrated into Idre-sur-Sappe and at Bay on the Sappe.

With the French Army in France, Oct. 7.—(Reuters)—German forces have turned at bay on the north bank of the Sappe River and have been counter-attacking with desperate energy all day.

To prevent the French crossing the river, they have attacked on the line between Pont Givart and Berry-Au-Bac, throwing large units into action on the centre of this front.

If the French succeed in establishing themselves on the north bank of the Aisne in this region, they will immediately turn the German line on the Sappe and also the next enemy position on the Retonne. Therefore, the Germans have attempted to keep the French south of the Aisne.

On the night of the 6th the enemy's resistance, however, the Aisne has been crossed at Berry-Au-Bac, the whole village on the north bank of the river being in the hands of the French, who have made some progress beyond it. The Germans have also been fighting heroically along the Aisne.

Debeney Pushes On. Paris, Oct. 7.—The advance of General Debeney's army in the St. Quentin sector continues, despite the desperate resistance of the Germans. The enemy is falling back to his water lines before Gouraud's army, which is maintaining active artillery action on the Chemin des Dames position. Apparently the Germans have decided to defend this to their utmost.

Gouraud's soldiers have crossed the Aisne river at several points. The enemy is counter-attacking energetically and throwing his best divisions into the defense of the Sappe ford and the Aisne bridgeheads, but the French are slowly forcing ahead.

Beirut Captured. Paris, Oct. 8.—A French naval division entered Beirut yesterday. Beirut is the chief seaport of Syria. It is on the Mediterranean fifty-seven miles northwest of Damascus.

Announcement of the landing of French naval forces at Beirut is enthusiastically received by the public.

NURSES HOME CONTRACT. St. John, N. B. County Military Hospital.—Planning and heating in Nurses' Home.—To accept tender of Richard D. Fitzgerald, of St. John, at \$5,940. Order in Council dated September 21, 1918.

Pharis and Ferdinand WEATHER REPORT

Issued by Authority of the Department of Marine and Fisheries, R. F. Sturges, chief director of meteorological services

Synopsis.—A pronounced high area extends from the lower lake region eastward while a depression covers Hudson's Bay. Showers have occurred from the Qu'Appelle Valley to Lake Superior. Elsewhere the weather has been fine.

Forecasts. Lakes and Georgian Bay.—Moderate southeast to south winds, fair, stationary or a little higher temperature; Wednesday, moderate to fresh southeast to southwest winds, partly fair with some local showers.

Ottawa and St. Lawrence Valley.—Fine, stationary or a little higher temperature; Wednesday, some local showers, but partly fair.

Gulf and North Shore.—Moderate southwest to south winds, fine and cool.

Maritime.—Light to moderate winds, fine today and on Wednesday; not much change in temperature.

Lake Superior.—Fresh south to west winds, a few showers but partly fair today and on Wednesday.

All West—Fair today and on Wednesday, not much change in temperature.

New England—Fair tonight and Wednesday; frost tonight in exposed places; warmer Wednesday; diminishing north-westerly winds on the coast.

EVACUATION OF ZEEBRUGGE AND BRUGES BY HUNS

Submarine Situation Will Not Be Materially Affected

Alles Had Already Taken Out the Sting — Belgians Report Brutal Work by Germans at Very Times They Sue for Peace

Washington, Oct. 8.—Evacuation of the Belgian ports of Zeebrugge and Bruges, which it now appears certain the German leaders have decided upon, will not affect materially the submarine situation whatever its military results may be. This is the judgment of both American and Allied naval officials.

News from adjacent neutral ports today apparently made it certain that the Flanders coast, formerly the base for the German submarine flotilla with which the Germans inflicted their heaviest tonnage losses, were being cleared out by the enemy. It is pointed out, however, that this flotilla was practically wiped out of existence when concrete-lined block ships were sunk in the entrance of the two bays and upon prominent landing and bombarding campaign inaugurated which has denied the Germans the use of the bases ever since.

More Brutality. Havre, Oct. 8.—The Belgian government has issued a statement that from the coast to beyond the city of Bruges the male population between the ages of fifteen and forty-five have been brutally torn from their homes and forced to labor on German military works and in the construction of fortifications.

Ottawa, Oct. 8.—A cable received by the Belgian consul-general from Harve states that a resident of Brussels who recently escaped through the German lines reports that the German authorities are conducting a frontier campaign of terror and patriotic songs. Six hundred yards were wiped out by the use of gas and weapons when houses and ovens were following the country without being tried to escape.

Amsterdam, Oct. 8.—The evacuation by the Germans of the Belgian coast region, according to the frontier correspondent of the Telegram reports. The telephone lines between Brussels and the coast were being taken down yesterday and today.

The ships which were being evacuated from the coast five miles from the Dutch border, have been set on fire and many factories have been under way in preparation for quick destruction.

As part of the occupying troops would have to choose between capture and flight when the evacuation order, instructions have been given them, he says, to escape to Holland in civilian clothes with the object of evading imprisonment and subsequently returning to Germany.

FIENDISH WORK OF HUNS WHEN HELGE SENT DOWN

Told Struggling Seamen to Help Themselves—Fearful Hardships Before Rescue

Stockholm, Oct. 7, via London.—(Canadian Press despatch from Reuters' London, Oct. 8.)—The Swedish Helge, which was recently torpedoed in the English Channel, only four out of a crew of seventeen being saved, says that the German submarine commander displayed incredible heartlessness. The Helge was one of a convoy of four steamers bound from London to France and escorted by two British armed steam yachts.

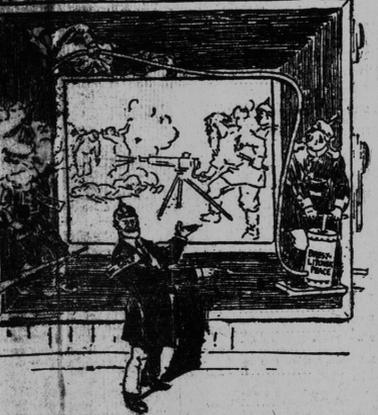

A French steamer was first torpedoed without warning and sank in a few minutes. The Helge was then torpedoed, breaking in two. The survivors clung to the wreckage but the submarine came up and asked the men to surrender.

The survivors appealed for help, but the crew of the submarine replied: "Help yourselves." The survivors spent twenty-four hours in the water enduring terrible hardships before a French mine sweeper picked them up.

WELCOME FOR THE DEPOT BATTALION

The Depot battalion, under command of Lieut. Colonel J. L. McAvity, will arrive in the city this evening by special train from Sussex, where the battalion has been under canvas during the summer. The men are to be quartered in the Agricultural hall, their old quarters last year. That the citizens generally intend to extend to the unit a warm welcome is evinced from the number of inquiries as to the time the train is due. The business houses in King street hang out flags in their honor. The battalion on their arrival will go direct to their quarters, which have been thoroughly renovated for the occupancy of the men.

THE DOB IS RIGHT, IT WAS A FRAME UP

The Proslavovsk peace is a framework and the picture to appear within, is only sketched in rough lines.—Dr. Soli, German Colonial Secretary.

WILSON IS AT WORK ON REPLY

Likely Answer Huns Before Day Is Over

Believed He Has Been in Touch With Premiers of Allied Nations — Decisive Comments by Italian Papers—Some German Views

Washington, Oct. 8.—President Wilson's reply to the German and Austrian request for an armistice and peace negotiations probably will be dispatched before night, if it is not already on the cables.

After being called into conference by the president with Colonel House and Secretary of State Lansing, the president's secretary, Mr. Tamm, announced today that Mr. Lansing would see the newspaper correspondents at 4 o'clock and "probably would have something to say for them."

Washington, Oct. 8.—President Wilson's reply to Germany's latest peace proposal was formulated by him today in accordance with views expressed by the premiers of the allied nations. It was indicated that dispatch of the reply, which it is believed will speak for all the nations opposed to the war aims of the Central Powers, may be expected within forty-eight hours.

The president, it was believed today, has preceded actual sending of the reply by asking Premiers Lloyd George, Clemenceau and Orlando to strike him of their answers or by submitting to the premier a draft of his reply for approval. At any rate it was assumed that the American reply will have the approval of Great Britain, France and Italy.

London, Oct. 8.—The president's reply to the German peace proposal, it was revealed in any particular. The form of the reply, of course, has not been revealed in any particular.

Feeling that coincident with the closely following the dispatch of the reply to the German peace proposal, the president's secretary, Mr. Tamm, announced today that Mr. Lansing would see the newspaper correspondents at 4 o'clock and "probably would have something to say for them."

London, Oct. 8.—(By the Associated Press.)—Germany's purpose in making her latest peace offer to the Entente Allies was solely for the reason that Emperor William, in full accord with the German people, desires a peace worthy of the empire's economic, political and military power, according to Heinrich Von Eckhardt, German minister to Mexico, who set forth this view today in an interview published in the chief pro-German newspaper of Mexico, El Democrata.

Von Eckhardt declared there existed more motives and more urgent necessities among the Entente nations for despatching a peace offer than there are among the German people.

The Spanish grip in PROVINCE CAPITAL. Fredericton, N. B., Oct. 8.—Indications are that there is no special spread of Spanish influenza here. There are no cases reported among civilians, but there is considerable pneumonia. There is one case of the Spanish grippe in the military hospital.

Mr. Daggett On Stand Again

Matter of a Loan of \$3,000 From Hon. Mr. Baxter

Interesting Correspondence as to How the Patriotic Potatoes Were Secured; Some Better Terms in Offers Than Were Accepted

A second chapter, of even more interest than the first, was added to the record of the evidence of Rev. J. B. Daggett, former secretary for agriculture, when he took the stand at the resumption of the inquiry into the patriotic potato transactions at the court house this morning before Commissioner James McQueen, K.C.

On further examination regarding the shipment of surplus potatoes to Cuba, Mr. Daggett admitted an additional loss of \$3,000 which, like the balance, had not been charged up to the department. This loss was sustained by R. G. Waite & Company of Cuba on the consignments they handled. The company, he said, faced bankruptcy and Mr. Daggett was so moved by the appeal of Mr. Waite, a young man from Andover, that he accepted and paid a draft of \$400, took a large sum of money with him, went to Cuba, and after investigation paid the balance of the loss. This, he swore, he paid out of his own pocket, and he did not get any of it back from railway contractors or anyone else; he was out that much.

After a grilling examination by Mr. Hughes, Mr. Daggett admitted that he had secured the money for this purpose by borrowing it, and that he had not yet paid it back. He had secured it from a member of the government—from Hon. J. B. Baxter.

Some interesting correspondence regarding the methods by which the potatoes were secured was brought to light this morning. Mr. Daggett frankly admitted that he did the best he could to help his friends in the transaction, but he could not explain why offers to handle the whole shipment on better terms than they made, to deliver potatoes at cost and to donate potatoes were refused.

In reconciling evidence given at the beginning of the inquiry with that of other witnesses, he testified that he must have misunderstood the questions put to him.

Mr. Daggett was to continue his evidence when the court resumed this afternoon.

Hon. F. J. Veniot was at the inquiry this morning and followed the proceedings with interest. Among others present in the chamber was William Cruikshank, former deputy provincial treasurer.

When the session opened Mr. Daggett again took the stand and Mr. Hughes resumed his examination.

The witness said he received many letters from firms offering to supply potatoes to the government. He did not remember getting letters from Mr. White, M.P.P. for Victoria, or Colonel Black, M.P.P. for Westmorland; though one from Mr. Jones of Kings and might have had one from Premier Fleming.

Mr. Hughes offered in evidence a letter from Hon. J. K. Fleming, dated September 7, 1914, enclosing letters from Mrs. B. Burley, G. W. Perry (B. C.), McIsaac and A. A. Rideout.

When Mr. Fleming was merely to say that he was forwarding the enclosed letters. Mr. Burley offered to sell fifty cars. Mr. Perry did not want the government to buy a single barrel from a Liberal and wanted to get his share of the order. Mr. McIsaac offered to sell a few cars and Mr. Rideout wanted to sell five to ten thousand bags.

Mr. Daggett's reply was to the effect that every person with twenty bushels of potatoes wanted to sell them to the government but that the letters would receive consideration.

The witness said that he had received a letter from Porter Manser Co., Ltd., but bought no potatoes from them. He did not know that Mr. Porter did not belong to the party; he did not know what his politics were, although he was a close personal friend.

Some Offers. The letter referred to asked for at least a share of the business and offered to handle the whole business on a five per cent commission, with the statement that the potatoes should be bought at from ninety cents to \$1 a barrel.

Q.—That was lower than you paid? A.—That was not a definite offer.

Q.—The prevailing export price was eighty cents? A.—Not at that time; it dropped after we bought.

Q.—You answered the letter? A.—I presume I did.

Another letter from the same company, dated September 15, 1914, was identified and put in evidence. (Continued on page 7, fifth column)

Troops From Here On Line North of Cambrai

Canadians Are Where It Is Hot—Enemy Difficulty of Holding City Increases

With the Canadian Forces, Oct. 7.—(By J. F. B. Livesey, Correspondent of the Canadian Press.)—Troops from the maritime provinces, Quebec, and four western provinces as well as former Canadian mounted riflemen are holding our line north of Cambrai with men of the imperial troops on our left. This line is in parts improvised and the men are objects of much harassing enemy fire.

Looking down on Cambrai from St. Olie three can be seen burning, but there is nothing to indicate that a systematic attempt has been made by the enemy to destroy the city. It is much more likely that he is burning his dumps and heavy plant he cannot move out preparatory to his evacuating the city.

Prisoners captured confirm the impression that the enemy lost tremendously in the terrible struggle of last week, when his massed infantry formations, seeking to push against us along the ravines, were exposed to the point blank fire of our artillery and riflemen. So severe was his punishment, they say, that some of his divisions are washed out, and in no condition to push in another assault for the possession of the high ground and Bourlon Wood.

The logic of the situation is that unless he can do this Cambrai becomes increasingly difficult for him to hold. If lost he would still have Lille, Valenciennes and the Hiron line, which are possibly his last lines of defence on this front.

EPIDEMIC STAGE REACHED IN QUEBEC

Schools and Colleges Closed—Newspaper Man Dies in Montreal, Native of Moncton

Quebec, Oct. 8.—Notwithstanding any attempts to contradict the information, the Spanish influenza has reached the epidemic stage in this city. Yesterday the municipal board of health made a tacit admission of the existence of the plague, by closing for at least a month, all schools, boarding convents, colleges, etc.

Eleven deaths from Spanish grippe were recorded on Sunday at Plessisville. Newspaper man dies in Montreal, Native of Moncton.

Montreal, Oct. 8.—Wm. P. Fogarty, loving an attack of Spanish influenza. He was born in Moncton, thirty-four years ago. He survived by his wife, Mrs. Mary Brown, of Amherst, N. S., and two children. Mr. Fogarty was attached to the financial department of the Montreal Star editorial staff.

A Cuban Port, Oct. 8.—The malady which caused the death of twenty-two passengers on the Spanish liner Alfonso XII, was an extremely violent type of Spanish influenza with pulmonary complications. The steamer is held in quarantine as sixty passengers are still ill.

Winnipeg, Oct. 8.—Privates E. Murray and W. Barney, residents of Quebec, died here yesterday of Spanish influenza. Other easterners belonging to military units are seriously ill. Two are at the point of death.

In Halifax. Halifax, Oct. 8.—Twelve new cases of Spanish influenza were reported this morning. While the cases continue to increase, the disease is of a mild type, with ordinary autumn attacks of grippe.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

COMEDY AND NOVELTY OUTSTANDING FEATURES

IN FINE OPERA HOUSE BILL

Comedy and novelty are the pre-dominant features of the Opera House vaudeville programme for this week...

NEW ACT AT GEM; ALL GOOD PROGRAMME

It was said this morning that New Brunswick soldiers who have reached Quebec on the way home from the war were coming to St. John on a special hospital train to reach here this afternoon.

WILSON IS AT WORK ON REPLY TO HUNS

(Continued from page one) string peace than among the Central Powers. He did not explain why Bulgaria had signed an armistice or why peace offers came first from Austria and then Germany. The minister declared that the Allies must prevent the enemy from thereby escaping the consequences of his acts.

ATTITUDE OF ITALIANS TOWARD THE NEW PEACE MOVEMENT

It adds that President Wilson answered in September the present new peace concocted by the enemy. The whole press says that the request for an armistice is an acknowledgment of defeat and that the Allies must prevent the enemy from thereby escaping the consequences of his acts.

AMSTERDAM, OCT. 8.—Germany's new ministry is one of national defense as well as of peace and is prepared for a stand to the end against a humiliating peace, said Dr. Bernhard Dernburg, former German minister of the colonies, in a statement according to Berlin dispatches.

AMSTERDAM, OCT. 8.—Commenting upon the address by Prince Maximilian, the Tagblatt of Berlin says: "All Germany, or at any rate that great, honest and good Germany which is imperishable, feels that Prince Maximilian, in accordance with his duty and as a servant of his people, has done what is right and necessary. Why haven't we learned earlier to know ourselves?"

ROME, OCT. 7.—We must have absolute victory. Any kind of negotiation words of President Wilson immediately after the rejection of the Austrian peace proposal, are repudiated by the Epoca in large type as summarizing the attitude of the Allies.

THE PROVINCIAL HOSPITAL, NEW BRUNSWICK

Tenders for supplies for The Provincial Hospital, Lunenburg, St. John county, N. B., for one year from the first day of November next, will be received up to noon of Thursday, 7th October, 1918, at the Provincial Government Offices, 108 Prince William street, St. John, where specifications may be obtained.

THE PROVINCIAL HOSPITAL, NEW BRUNSWICK

Tenders will be considered item by item. Contracts may be awarded for one or more items. The lowest or any tender not necessarily accepted.

AMSTERDAM, OCT. 8.—Samuel Gompers, who is here with a delegation of American labor leaders, strongly denounces the recent peace move, saying that the new German manoeuvre seeks to weaken the unity of the democratic nations and lessen their fighting spirit.

He says: "The Austro-German and Turkish military system should be beaten. The security of labor and the people requires that the Central Powers shall capitulate and their military menace be broken."

SOUTH END LEAGUE.
The executive of the South End Improvement League met in The Times office yesterday afternoon with C. M. Langley in the chair. Matters relating to the South End playgrounds were discussed. It was proposed to have the grounds flooded and converted into a rink. Commissioner Hilyard promised to see that the water was supplied and the rink will be made under the supervision of Engineer Hatfield. It was also talked of forming a football ground for the boys prior to the opening of the skating rink. A. M. Beidling, Alexander Wilson and Thomas Killen were appointed a committee to prepare a programme for the November meeting of the league. At this meeting the Potts trophy will be presented to the winners in the baseball series who will be decided at the final game on Thanksgiving Day. Rev. H. A. Cody was at the meeting and pledged himself to do all in his power for the success of the sports during the coming winter.

Harbor Problems Were Discussed

Board of Trade Members and Engineers Present Favor Extension of Breakwater to the Island—The Valley Railway

A lively and very interesting discussion on the possibilities of St. John harbor followed the reading of A. J. Gray's paper on the subject at the fall opening of the board of trade at which the engineers in the city were the guests of the board. Mr. Gray's paper was the one which he read at the meeting of the Canadian Institute of Engineers at Halifax and was illustrated with the excellent series of slides which he showed on that occasion. The president, A. H. Wetmore was in the chair and there was a very good attendance.

Both Mayor Hayes and A. H. Wetmore spoke of their visit to the Halifax meeting and expressed their appreciation of the hospitality shown them. Mr. Gray was then called upon to read his address, which was listened to with keen attention.

W. F. Hatheway, in discussing the paper, was told that the cost of extending the Negro Point breakwater to Partridge Island, which was recommended by the speaker of the evening, would be from three quarters of a million to one million dollars. He referred to a measure once recommended by the Aids to Navigation Committee, that this extension of the breakwater be made and that another breakwater from the island be built in the direction of Red Head. He said that he thought after listening to the description of the natural features of the harbor that such breakwaters would be in the best interests of the government property and were essential to the safe-guarding of lives and property on vessels entering and leaving the port.

N. Hatfield was of the same opinion. Mr. Gray felt that it would be wiser to build the extension of the Negro Point breakwater first and wait for year or two to see what effect this would have on the currents.

Suggests More Breakwaters.
Dr. Manning said he spoke as a layman, but one who had taken great personal interest in the harbor, and suggested that the whole of the natural bay of St. John should be enclosed to give the largest possible still water harbor. To do this he believed the Negro Point breakwater should be continued to Partridge Island and between the island and Red Head there should be three breakwaters, one running from the island and the other from Red Head with a heavily constructed breakwater in the centre separated from the other two by openings of about 3,000 feet. Mr. Gray was of the opinion and A. R. DuFrene agreed with him that the cost of such a scheme would be out of all reasonable proportion. Dr. Manning also said that he thought the first need at the present moment was for more wharves in West St. John to cope with the winter trade.

Mr. Gray, when asked why the extension of the Courtenay Bay breakwater to be sloped in a northerly direction, replied that greater protection from the south and southeast winds would be afforded by this means, and with regard to the need of more wharves on the West side said that there was ample room on the West side for fifteen more wharves.

A. R. DuFrene strongly advocated the closing up of the Partridge Island gap to prevent silting up of the channel and to lessen dredging expenses. He said that in New York it had been found that foundations constructed with timber were more satisfactory than the concrete foundations which were being used in Courtenay Bay, and he thought that after the war it would be possible to obtain such timber reasonably by way of the Panama canal. He discussed the possibilities of developing Courtenay Bay and said that the dry dock under construction would be one of the largest in the world and that when the whole development of Courtenay Bay had been completed St. John would take her place as the natural Atlantic terminal port.

The Valley Railway.
C. O. Foss said he hoped that the Valley Railway might be in operation this fall, but labor was so uncertain that he could give no definite date. The construction work had been completed and all that remained to be done was the placing of three or four bridge spans and the placing of the ballast under the tracks. He considered that St. John being 117 miles from McLevey, while Moncton was 97 and Halifax 200 miles from Moncton, should on account of the shorter distance receive the heavy freight from the west. When asked to give an estimate of building a double track low grade line from Moncton to Halifax he said that today it could not be done under \$24,000,000.

Some reference was made at the meeting to the advisability of closing some of the theatres and schools as a precaution against the spread of Spanish influenza to this city, but it was thought that the matter could safely be left in the hands of Dr. Melvin and his associates to do as they thought fit.

The summary of the council proceedings was read at the meeting by R. E. Armstrong.

F. G. Spencer has become the owner of the site of the Unique theatre, Charlotte street, purchasing it from the Humbert estate.

"Unto the least of these"

RIVET your eyes on this picture of a Belgian mother and child, until you feel the full horror of the situation! Thousands of these orphans, dying of starvation, might now be living in comfort and plenty, had their soldier fathers not flung themselves into the breach when the Hun invaded Belgium.

The fathers died to save us. Are we going to let the orphans starve? Conditions are simply ghastly. The United States loans to the Belgian Government financed the general relief work, but this only provides a bowl of soup and two pieces of bread to each person per day.

What is that for a growing child? The Canadian Bureau in Brussels will administer funds, and provide means for getting the ailing children into Holland and into orphanages where they can be saved from a hideous death.

Before you sit down to another meal, do SOMETHING for the Belgian children.

Make cheques payable and send contributions to

Belgian Relief Fund

LOYALIST CHAPTER, I. O. D. E.

A large number of generous donations were voted at the meeting of the Loyalist chapter of the I. O. D. E. which was held last evening in the chapter rooms with the recent, Mrs. Hugh Mackay, presiding. After the transaction of much routine business arrangements were made for holding a sale of Christmas novelties and children's Christmas gifts in the first week in December and for the forthcoming amateur production "Green Stockings" which will be presented this month under the auspices of the DeMonts and Loyalist chapters. A bag which had been given by Mrs. Barker was raffled for the benefit of the chapter funds and the holder of the winning number, 100, was Mrs. J. Royden Thomson. The donations which were voted were five of \$25 each to Major C. J. Innes' battery, Major Collin Mackay's battery, Major L. W. Barker's battery, Colonel W. H. Harrison's battery, and the "Sixth" battery; and one of \$50 to the 20th Battalion. These donations will go towards providing Christmas cheer for the members of the different units. Another donation of \$25 was made to the Brunswick chapter for comforts for the Siberian unit.

The Picture of Health

BEAUTY and health usually go together. There may be classic features, but lacking the clear skin and healthful glow of the complexion, they fail to attract.

Pure, red blood is essential to beauty. For, in addition to giving color to the skin, it fills the body with vitality and energy.

There is a sparkle to the eye and grace and elasticity of every movement of the body.

Health and beauty abound.

Now just because Dr. Chase's Nerve Food actually forms new, rich blood, it is conducive of health and beauty. It supplies exactly what is lacking when you become pale, weak, languid, and lose the vivacity of health.

Even beauty of disposition and character are marred when the blood gets thin and watery and the nerves are weak and exhausted.

You lose sleep, suffer from headaches, digestion fails, and you get to looking on the dark side of things until you become downhearted and discouraged.

But as your system is restored by this food cure you find cheerfulness and confidence returning. The form is rounded out to graceful proportions, the glow of health is shown in the complexion, and you feel the vigor and energy which enables you to accomplish things.

With restored strength you experience the desire to serve and help others, and so beauty of complexion, of form and of character unite to make you happy and contented.

It is only necessary to look for the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on the box you buy so as to be guaranteed against imitations. Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmanson Bates & Co., Ltd., Toronto.

'PRENTICE BOYS' FAIR OPENS ON WEST SIDE

The annual 'Prentice Boys' fair, held for the purpose of raising funds for Christmas boxes for members overseas, opened last evening in their hall in West St. John. Space has been given for booths operated by the Soldiers' Comforts and Soldiers' Field Comforts Associations who will use their proceeds for their regular work. The hall has been prettily decorated and the large crowd on the opening night gives promise of extensive patronage. The fair will continue all week.

Those in charge are Clifford Price, chairman; D. A. Duffy and L. E. Rolston. The fancy booth and country store were in charge of Mrs. Hatfield; agronomy table, Mrs. Ernest Brittain, Mrs. John Currie and Mrs. Bosen; fancy table, Mrs. John Carleton and Mrs. George Merrivewether.

Downstairs the refreshment table was in charge of W. H. Smith; sincipha, Albert Beyles; confectionery, Oscar Taylor; bagatelle, LeBaron Craft; ring toss, Harold Pitt; air gun, Edward McLeod; tempins, Robert Jones; ladies' bean toss, John Hersey; ice cream and candy, Mrs. D. A. Duffy; wheel, Charles Dykeman; stove, John Carleton.

A door prize will be given every night. The lucky ticket last evening was No. 149, and the holder of this will get a ton of coal by applying to D. A. Duffy. The game prizes were as follows: Nine-pins, silver pickle dish, Mrs. E. W. Brittain; excelsior, thermos bottle, Geo. Adams; ladies' bean toss, cut glass fruit dish, Edith McAllister; tempins, stereo set, D. T. Hanson; ring toss, pipe, Richard Craft; air gun (ladies' prize), umbrella, Edith Long; gent's prize, pipe, William Lowe; bagatelle, cut glass water pitcher, Richard Craft.

CEETEE THE PURE WOOL UNDERCLOTHING THAT WILL NOT SHRINK. Will Be Very Scarce This Season. Turnbull's UNDERWEAR which is equal to or better than any on the market, and will give good satisfaction. The C. TURNBULL COMPANY GALT, GALT, ONTARIO.

The Thought Behind. Your Christmas gift may cost you less than a dollar or it may cost a hundred—according to your means—but the thought which pervades you, to send it is what it is. Birk's Year Book illustrates several thousand gift suggestions for everybody. Just tell us roughly what you want to spend. Write for your copy today. Birk's Year Book Montreal.

LOCAL NEWS

The King's College Law School will be delivered by Dr. J. B. M. Baxter, K. C. The monthly meeting of the board of governors of the Boys' Industrial Home was held yesterday afternoon in the mayor's office. Confirmation services were held at Lech Lombard last evening by His Lordship Bishop Richardson. Eight candidates were confirmed. E. Allison Powers, a former resident of this city, is seriously ill in Montreal with pneumonia. His sister, Miss J. Gertrude Powers, a trained nurse, left last night to attend him during his illness. A harvest festival was enjoyed in St. Philip's church, Queen street, last evening. A programme consisting of songs, recitations, dialogues, etc., was carried out under the auspices of the women of the parish. An executive meeting of the Y. W. P. A. was held in the rooms of the G. W. V. A. last evening. Miss Jessie Church, president. The sum of \$25 was voted to the Siberian expeditionary fund and \$10 for the Belgian orphans. Plans were made to hold a social evening in the near future. James R. Mott of 29 Harding street, Fairville, was painfully injured yesterday when an automobile in which he was riding collided with a lamp post in Douglas avenue. He was thrown out and sustained an injury to one of his hands in addition to three bad lacerations in his forehead. An auto driven by Chester Brown, nearly ran off the ferryboat into the harbor yesterday morning. The car started when the ferry was within a short distance of West St. John and broke through the chains, but was stopped just as the front wheels went over the bow of the boat. The Juniors of the Natural History Society held their annual meeting yesterday in the museum room and elected the following officers: President, Ada Colwell; first vice-president, Edna McQuade; second vice-president, Elizabeth McKinnon; secretary, Ruth Coster, and treasurer, Audrey Hunter. William McIntosh addressed the meeting on the need of workers for grading sphagnum moss.

STOP DANDRUFF! HAIR GETS THICK WAVY, BEAUTIFUL

Girls! Draw a Cloth Through Your Hair and Double Its Beauty. Spend a Few Cents! Dandruff Vanishes and Hair Stops Coming Out. To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff, is merely a matter of using a little Danderrine. It is easy and inexpensive to have a nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderrine now—all drug stores recommend it—apply a little as directed, and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will, you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yet really new hair—sprouting out all over your scalp. Danderrine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp, and it never falls to stop falling hair at once. If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderrine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

LOCAL NEWS

The Epworth League of Queen square Methodist church opened its series of meetings last evening. An impromptu programme of games, etc., was carried out and refreshments served. Mrs. Wm. H. Brittain and her two boys, who are leaving Wolford to make their home in St. John West, were met by friends on Friday evening last at the residence of H. W. Woods and a farewell address was read by Mrs. Prescott, wife of the rector of Peterville, and was accompanied by a well filled purse. Commissioner Hilyard has received a communication from Hon. P. J. Veniot, minister of public works for the province, asking him to see that the road to West St. John be put back in proper shape after the installation of the new water main. The commissioner had opened up the road without the sanction of the government. Y. M. C. I. COMMITTEES. A meeting of the board of directors of the Y. M. C. I. was held last evening. Joseph Dwyer of Fairville was elected to fill the vacancy caused through the death of John Keeffe. It was decided to open class work on Wednesday afternoon for the boys and on Friday night for the seniors. The following committees have been selected for the coming year: Executive—Chas. A. Owens, Richard O'Brien, J. Frank Owens, Joseph Harrington, Alfred Dever, Finance—D. W. Harper, W. E. Scully, Richard Sullivan, Dr. J. D. Mahan, John Crowley. Social—L. A. Conlon, W. J. Mahoney, Dr. John R. Nugent, Jas. I. McManus.

"First Aid" FOR OVER 100 YEARS JOHNSON'S ANODYNE LINIMENT. A doctor's prescription for internal and external use. Famous for more than a century. A wonderful old family medicine that cures coughs, colds, grippe, sore throats, cramps, colic, diarrhea, cholera, and many other common ills.

Diseased Skin. Freedom at once from the agony of skin disease. The soothing wash of old Dr. D. D. D.—its different. R. Clinton Brown, Druggist, St. John, N. B. D. D. D.

FANNY WARD IN "THE YELLOW TICKET"

The bold exposure of Russian cruelty in the time of the Czars is the outstanding feature of "The Yellow Ticket" which is now being shown at the Star Theatre and which drew enormous crowds last evening at both performances.

The motion picture critics were the first to praise this production and went so far as to call it the greatest melodrama of the year. The public can readily understand the reason.

The story of "The Yellow Ticket" deals with Anna Mirrel, a beautiful young Jewess. Because she is a Jewess she is refused a passport by the secret police when she applies for one so that she can visit her father who has been seriously injured in Petrograd, when he has been run over by Baron Audrey's sleigh. The insulting action of the secret police offers her a yellow ticket, a card given to women in Russia as a badge of shame, and affording them the privilege of traveling from town to town without further passports. It is her only means of reaching her father and she takes it.

In an amazing series of events Anna Mirrel falls into the power of Baron Audrey and in self-defense kills him with a hatpin, bringing the story to a climax which is gripping in its intensity, and which holds to the very end with a startling twist in the last scene.

The characterization of Anna Mirrel by Fanny Ward and Baron Audrey by Warner Oland, mark another triumph for both, and are greeted as the most remarkable pieces of acting of the year.

Evening of the letter type of picture was urged to make an effort to see "The Yellow Ticket" at either performance this evening.

CHARGED WITH MAINTAINING RELATIONS WITH ENEMY

Paris, Oct. 8.—Sury Depay, a former actress in Sarah Bernhardt's theatre; Emile Cullier, her husband, who once was manager of Sam McVey, an American pugilist; and Maurice Tremblay, a bank employe and representative of an Austrian named Rosenberg, who was prominent on the Paris Bourse and whose bank in Switzerland is under sequestration, were placed on trial yesterday on a charge of maintaining relations with the enemy. The hearing was secret.

Too Much for Them. Have, Oct. 8.—The Cynalthe theatre in Liege has been closed for a month by the German authorities because an actor, dressed as a French soldier, appeared on the stage, causing an intense patriotic demonstration.

WEEPING ECZEMA SOON RELIEVED

A Perfect Treatment For This Dressing Complaint

Wasting, Ont. "I had an attack of Weeping Eczema so bad that my clothes would be ruined through at times.

For four months, I suffered terribly. I could get no relief until I tried 'Fruitee' and 'Sootha Salva'. The first treatment gave me relief.

Altogether, I have used three boxes of 'Sootha Salva' and two of 'Fruitee', and am entirely well."

Both these sterling remedies are sold by dealers at 50c a box, 6 for \$2.50, or sent on receipt of price by Fruitee-Sootha Limited, Ottawa.

"Fruitee-Sootha" is also put up in a trial size which sells for 50c.

HARDWARE MARKET

(Hardware and Metal, Oct. 8.)

Most points of all kinds feature the markets this week by substantial advances. Inside and outside house paints, inside floor paint, porch floor paint and marine paints all advance 25 cents a gallon.

Carriage, wagon and implement paint, enamel and other specialties show a 10 per cent increase over present prices. Differentials on the various shades of paint are being accepted on this basis.

A sharp decline in prices prevailed on solder as it became effective during the week. The market on tin has gradually receded from the high levels reached in the latter part of the week.

Months ago, and this has been the main factor in the earlier tendency on solder. However, it is very active and practically all available supplies are being used in the production of essential war goods.

This is the case for tin and tin alloys. Under the market on manufactured lead products, such as traps, tanks, etc.

A 15 per cent advance is provided for in new prices issued on cast-iron, copper pipe and kitchen line. This is in line with tendencies outlined in Hardware and Metal during the past couple of weeks, being somewhat offset by continued scarcity of materials and high production cost.

Manufacturers of corrugated sheets are urging the trade to conserve in the use of this commodity and indicating that they will give no supply.

Essential industries with their requirements. Nominal quotations only may be said to prevail, and buyers have been advised to accept no business on firm basis until manufacturer has confirmed prices at which material will be available.

An advance of 81 per 100 pounds in galvanized sheet has been made in some quarters, and the feeling generally is towards a higher level. The situation in regard to supplies of sheet zinc has improved. Reports indicate that shipments now rolling will help out materially in both black and galvanized.

An increase of 10 to 15 per cent is provided for in new prices issued on one line of silver-plated hardware. Wipe-off is in line with advances.

Present prices being up one cent per pound. Small tins are up from two cents to six cents per pound and other items joining the upward trend this week are butt and socket iron chisels, handfiles and presses, maine saws, saws, sausage stuffer, roller, skates and fly oil. Mops are also higher, and glass is up on up to 20 cents per pound.

Bells have been revised; new prices show a 10 per cent advance.

GROCERY MATTERS

The following comment on the market situation as regards food stuffs appeared in the Montreal Star last week:

Wholesalers are to be held down to 80 per cent of their 1917 purchases of sugar. In the case of other commodities, the percentage is to be 100 per cent.

Information secured on 9000 prunes last week confirmed in local reports, and it is believed that Canada will have to be content with goods which may not be on hand or rolling. There seems little prospect of new crop prices reaching this country.

Sales of raisins have been heavy, and wholesalers are still buying freely. There is a good crop of these, and indications are that an order will be permitted through.

Some offerings of Canadian figs are being made, subject to securing export license and import license in Canada.

Prices are about 150 per cent higher than opening quotations last year. It is believed that the cheapest grade in mats couldn't very well retail under 30-35c per pound.

Montreal—Important changes have been made this week, and advances of 25 to 50 cents in nuts, prunes, peaches, raisins, currants and some dried fruits. Increased prices are also asked for butter, tallow, lard, etc.

Washboards, shredded wheat, salt, gelatin, coconut, buckwheat flour, malt extract, canned asparagus, etc.

Declines are in the price of Crisco, barley feeds, and some substitute feeds are easier. Cornmeal is a trifle easier also, and barley products are reflecting an easier tendency for this grain.

In one, workmanship and durability, they are unequalled.

NO AGENTS! NO INTEREST! make our prices lower than many advertised bargains sales.

It will pay you to get our prices before you buy elsewhere.

USE THE WANT AD WAY

The BROCK A Wolthausen HAT. This new hat is distinctly Canadian. Made in Brockville, Ont. by Canadian hat-makers for Canadian gentlemen and sold in nearly 5,000 Canadian stores. Be sure and see the "Brock" hat before you buy.

provement during the past few days. It is stated that peppers are not so strong, but all other lines rule with a very firm undertone.

Coffee is in good demand, and the market is thought, though not heavy, will, it is thought, carry the trade along for some little time yet. A little more interest in tea is apparent, and greens particularly show considerable activity.

Some of the letters. He did not know of any such letters.

Regarding the settlement with Mr. Smith, the witness said that he had considerable discussion and he (the witness) told Mr. Smith that the changes were too heavy and he would cut them down. He did so and Mr. Smith protested that he had not used right and that he hoped to be able some time to get what was due him. The witness considered the settlement fair.

MR. DAGGETT ON STAND AGAIN (Continued from page 1)

This letter offered 100,000 bushels of the best potatoes for the cars, at \$1.10 a barrel.

On September 17, Mr. Daggett replied that all the potatoes had been taken care of, and that they were getting them without trouble and at the right price.

The company replied on September 19, offering to supply the remaining ten cars at cost paid to farmers, donating their services for handling and shipping.

The witness said the offer was not accepted, but he could not remember why not. He admitted it was a general offer.

—Did you have any offers to do some potatoes free of expense? —Yes, I have.

—May have been some, but I can't recall any.

A letter was written from Thomas A. Clark, dated September 24, was produced. The witness then said that he recalled that the premier had suggested chartering another ship to carry free gifts.

The letter from Mr. Clark announced that the Montreal and Fox Creek Agricultural Society wanted to donate some potatoes and asked where they should be sent.

Mr. Daggett's reply was to the effect that the government had not asked for supplies of potatoes, but might accept them if they had none. In addition to the potatoes they had sent a lot of supplies, including potatoes, and other things.

The witness admitted that in ordering the potatoes he did the best he could to help his friends as anyone would do. He instructed various persons to supply potatoes, but he had not been able to find his own record of that cargo.

A letter was submitted from the witness to Howard Douglas, dated October 6, in which he referred to a visit from John A. Humble, who wanted to supply potatoes and said he had a promise from Hon. H. B. McLeod. Mr. Daggett said they had all the potatoes they wanted and more too but asked Mr. Douglas if he could let Humble ship 400 barrels of potatoes.

Mr. Douglas replied stating that he had less use for Humble than for some one else, that when they could, they were buying Irish cabbages and potatoes as they were earlier than other varieties.

He did not remember any complaint about Mr. Smith shipping green. Mr. Douglas said he had been instructed to send Green Mountains if Mr. Smith considered them fit. The witness did not remember the variety went but he supposed some of both.

As to former evidence. When the account on which settlement was made with A. C. Smith & Company was produced the witness said it looked as if it had been made up in his office from the vouchers. He supposed Mr. Atherton, the auditor, had given him the vouchers.

Reference was made to the second file of Smith's vouchers and the witness said that the attached account had been prepared in his office. He said he thought the original bill was too high and he understood to cut it down. He fixed the figure of fifteen cents a barrel for handling and Mr. Smith agreed under protest.

—But Mr. Smith did not get even that? —Apparently not, but he said that he might come back at the government later on for it.

—You did not say so in your letter to the auditor-general. —Yes.

—You say that he had agreed to let the payment made cover the unpaid bills. —Yes.

—After examining the accounts and vouchers, the witness indicated several which, so far as he knew, never had been paid.

The witness did not know what had happened to the vouchers which were missing; the natural thing would have been to send them back to Mr. Smith. He supposed he knew that Mr. Smith had received the returns from Cuba, that he had applied the money on his own account and had not accounted for it to the department. It was not intended that the receipts should be shown in the account. They might be mentioned in some of the letters. He did not know of any such letters.

Regarding the settlement with Mr. Smith, the witness said that he had considerable discussion and he (the witness) told Mr. Smith that the changes were too heavy and he would cut them down. He did so and Mr. Smith protested that he had not used right and that he hoped to be able some time to get what was due him. The witness considered the settlement fair.

MINISTER OF RAILWAYS.

Rumor at Ottawa is busy with the name of Hon. J. D. Reid, who is said to contemplate resigning his seat in the House of Commons and his portfolio as minister of railways and canals in order to take a seat in the senate; but Dr. Reid, who has been to California for his health, is not saying anything himself, and when he makes up his mind to a thing he generally lets the public know.

MORNING WAR SUMMARY

New York, Oct. 7.—The Associated Press tonight issued the following:

The troops of the French General Beletel have delivered a successful blow against the Germans north-west of Rheims which adds materially to the menace that is hanging over the German front from the North Sea to the Swiss border. This was the capture of Berry-Aube, on the north side of the Aisne about ten and a half miles northwest of Rheims and only a scant five miles from the eastern end of the famous Chemin-des-Dames ridge at Craonne. A further advance is expected across the railroad north of the Aisne, and the capture of Laon in a pocket, but also will be a serious blow to the German front.

THE FAR-FLUNG LINE

(N. Y. Times Editorial.)

From the English Channel to the River Jordan the whole battlefield is flaming, and all along it rings the news of victory. Only on the Italian front is there no great operation under way, and we know enough of the plan of campaign by now to be sure that that front is waiting orders. It may be that the Bulgarian defeat is the thing to unleash that front.

There never was such a far-flung battle-line in the history of the world; a battle-line that begins in Belgium and reaches to Palestine, practically all in action at once. While the Belgians and Serbs dash forward to reclaim their houses, Jewish troops help to win back their ancestral places. The battle-line begins in the flat lands of Belgium, stretches across the north and east of France, dips down to the Macedonian ridges and turns south down the border of the Syrian desert, into which scattered remnants of the destroyed Turkish armies are fleeing. Victory everywhere, everywhere "the enemy is being pushed back by short triumph, or recoil," the sons of liberty "lying at them, with the knapsack of cat-of-mountain, or demagogue on incantation; which no son of night can stand."

And even this is not all, for there are other battle-lines. There is a battle-line in North Russia, where the German-paid troops of the Bolsheviks are being driven back, and one in Siberia, where the Germans themselves and their Bolshevik allies are being forced across a continent. But the eyes of the world are not fixed there, but on the one great battle-line that runs from Flanders southeast to the Plain of Aragon. British cavalry secured that plain the other day, driving back the Turks; this more than continental battle would not have been dramatically completed with the feature lost.

RECENT WEDDINGS

Marshall-Dean.

Thomas Marshall of St. John and Mrs. Hannah McIntyre of Fredericton were united in marriage by Rev. Milton Addison on last Friday evening.

Married in New York.

Relatives and friends have received announcement of the marriage of Miss Agnes Swin to Paul Leslie Combs. Miss Swin is a former resident of Fredericton. They were married in Binghamton, N. Y.

CLERGYMEN TO NEW FIELDS.

Rev. J. W. Brown, M. A., Ph. D., of Sackville, has accepted a call to become pastor of the Baptist church of Fort Fairfield, Me.

Rev. Father Paquin of the Church of the Holy Family has been transferred to St. Basil, where he will be assistant to Right Rev. Mgr. Dugal, vicar-general of the diocese.

Rev. Father Michael of Edmundston has been transferred to the West Bathurst parish to assist Right Rev. Mgr. Varty.

MODERN SURGERY AT FRONT.

U. S. Doctors Perform Major Operations in Sound of the Guns.

With the American Forces in France, Sept. 20.—(Associated Press, Correspondence)—Within forty minutes after arriving at an advance station behind the firing line some of the mobile operating units of the American army are ready to receive wounded soldiers for major operations. Ordinarily the unit is stationed near a base hospital to await a call from near the firing line. It consists of sixty-four officers, fifty nurses and nearly 800 enlisted men and is composed of five sections, each of which is a complete operating group with a chief surgeon and an assistant. Students from the University of Cleveland and who were trained at Allentown, Penn., compose the majority of the enlisted personnel.

Having arrived behind the firing line, the unit unloads its equipment and provides beds under canvas for wounded men and must provide all the accessories of a modern hospital for immediate use. The operating pavilion is a tent erected over a metal floor, the outfit includes X-ray plants and sterilizing appliances. Electricity for light and for operation of the X-ray outfit is supplied by a motor and dynamo carried on a truck. By these advanced methods surgeons are saving human lives today in cases where a few years ago the patient would have been counted as mortally wounded. This is partly due to the fact that with this modern equipment and swift movement the most difficult and delicate operations may be performed oftentimes.

VETERANS URGE MORE PAY FOR SOLDIERS, LESS FOR ALIENS.

At a meeting of the Great War Veterans Association last evening, Major Gordon Johnson presiding, a resolution was adopted that in the opinion of the meeting registered aliens should be paid no more than \$1.10 a day, the same pay as soldiers, and the rest of their wages to go towards the patriotic fund of the country. The sum of \$20 was received from the Fair Vale Outing Club as a donation towards their benevolent fund. Since this fund was inaugurated more than \$2,000 has been paid out to deserving cases. It was decided to hold a grand reunion and rally in the near future to which all returned officers and men will be invited. A discussion of day and allowances for soldiers and an increase be granted of fifty per cent in soldiers' pay and allowances. Two large pictures were received, one from Charles Tilley and the other from Mrs. Good, wife of Colonel Good.

GOAL ORDERED TAKEN FROM CITIZEN'S CELLAR.

Toronto Fuel Commissioner Takes Draconic Step to Enforce Regulation.

(Toronto Star.)

Fuel Commissioner Chisholm means business. The regulation forbidding any citizen having more than 70 per cent of his regular winter supply is apparently not to be allowed to remain a "dead letter" at least when definite information is received by the commissioner that such is the case. This was shown today when an order was sent to a certain dealer to remove several tons of coal from the cellar of a residence where he lived. The order was imperative to take the coal from the cellar. This is the first time that such drastic action has been taken in Toronto.

Knew the Regulations.

Commissioner Chisholm would not say in what district the resident lived, but he stated when the coal was removed, nor who the customer was who was ordered to remove it. Neither the dealer nor the customer would bear the cost of taking the coal out.

The dealer knew the regulations, and that his customer had his full 70 per cent of his regular supply, he said. "Therefore, I simply put it up to him to make it right with the customer."

The commissioner emphasized in the strongest manner the necessity of every citizen conserving coal to the utmost. The people of Toronto, he declared, must realize the seriousness of the fuel situation throughout Canada and the United States.

Use Soft Coal.

"In Massachusetts," he declared, "the fires until the 1st of December. Not even wood may be used until that date. That will serve to indicate how real the coal shortage is."

"I would strongly advise those whose houses are equipped with hot water appliances should by all means lay in a supply of soft coal, while those who already have 70 per cent of their supply of hard coal should make up the other 30 per cent, with soft."

A Wild Goose Chase.

A report was current in the corridors of the city hall that there was plenty of coal to be had at Buffalo, waiting for someone to go over and purchase it. On the strength of this report an employee of the city, acting on behalf of himself and a few friends, has undertaken to purchase four cars. It was even reported that the coal could be secured at \$10 per ton. When the matter was brought to the attention of the commissioner he at once expressed the conviction that whoever went to Buffalo would go on a "wild goose chase." Dealers in Toronto had placed orders back in the summer and were still waiting for their shipments. What could private individuals do where dealers had the business had failed?

LONGSHOREMEN WILL ASK FOR WAGE INCREASE.

Notice that the longshoremen will consider a higher rate of wages at a meeting to be held next week was authorized at a meeting of the International Longshoremen's Association which was held in their hall last evening. The men held that the increase is justified by the higher cost of living and the advances granted others in similar work along the Atlantic coast. The association also pledged support to the dismissed policemen.

Watch the Tongue of your Young!

Your little Pets need Cascarets

Children think Cascarets just candy. They are safe and mild cathartic candy. Sell for a dime—"work" every time.

MOTHERS! Clean the clogged-up places. Do away with the bilious fermentations and constipation poison which is keeping your little one cross, feverish and sick. Children love Cascarets, because to them it is like eating candy. Cascarets act better than castor oil, calomel or pills on the tender stomach, liver and bowels. Cascarets never grip, never injure, and do not disappoint the worried mother. Give harmless Cascarets to children one year old and upwards. Each ten cent box contains full directions.

within sound of the big guns along the line of battle.

Some of the best known surgeons in the United States are engaged in this work and daily and nightly are performing operations during battle which would have been impossible in previous wars.

311,219 OF U. S. TROOPS LANDED IN SEPTEMBER.

London, Oct. 8.—Of the more than 1,000,000 American soldiers transported to Europe to the end of September, nearly 1,000,000 were carried in British or British-controlled ships. American vessels carried 786,000, and the rest were brought across the Atlantic on French and Italian ships.

To insure the safety of this enormous force has entailed a tremendous amount of work for the Allied fleet. The British navy has done 70 per cent of the conveying, the American fleet 27 per cent, and the French 3 per cent.

In September 311,219 American troops, 6,000 United States bluejackets and 5,000 Canadian troops were brought across the Atlantic. American vessels brought 121,547, or 39 per cent of the total of American troops. British and British-controlled ships were responsible for 87 per cent, or 176,721, while French vessels transported 10,951, or 4 per cent of the total.

Of the 311,219 American troops reaching Europe in September, 168,846 landed in France. The remainder came to England.

July was a big month, with 311,000 arrivals, but September runs it a very close second, and actually overtops it when the Canadians and the American bluejackets are taken into account. The largest single convoy reaching France from the United States last month numbered 81,106, and the largest September convoy reaching British shores numbered 89,978.

CUT CAUSED BLOOD-POISONING.

Doctor's treatment failed

Zam-Buk completely cured

The case of Mrs. S. Cliff of Mellette, illustrates Zam-Buk's wonderful power to cure a bad case of blood-poisoning after medical treatment failed. Mrs. Cliff says: "I had the misfortune, recently, to cut my hand very badly between the fingers with a piece of tin, and although I was careful to cleanse the wound, somehow it became infected and before very long blood-poisoning set in. I received doctor's treatment and used numerous remedies which he prescribed, but nothing did the wound any good. On the contrary, it became worse and worse. The swelling had spread from my hand up to my shoulder, and the pain was so terrific that I could get no rest."

"Then I happened to hear of Zam-Buk and the good it was doing, and I determined to try it. I procured some and commenced applying it, and I shall never forget the relief I soon experienced. The pain gradually disappeared and I was at last able to sleep. The swelling was reduced so rapidly that day by day I could see it going down. Before long Zam-Buk had drawn out all the inflammation and poisonous matter, and perseverance resulted in a complete cure. This proves to me that Zam-Buk is the finest healer on the market."

For eczema, and all diseases of the skin, Zam-Buk is equally good. It also for ulcers, abscesses, pimples, boils, running sores, bad legs, old wounds, and piles, as well as cuts, burns, scalds, and all skin injuries.

ARE WEAK NERVES AND LACK OF PHYSICAL STRENGTH HOLDING YOU BACK IN LIFE?

You Must Have Plenty of Iron in Your Blood if You Want the Power and Energy to Win. Says Physician

Home Life, Business Life, Social Life.

When the crushing grip of worry, trials and overstrain, or when the lack of sufficient iron in the blood has robbed you from the full enjoyment of home, social and business life—take Nuxated Iron and watch its strength-giving, up-building effect—it will increase the strength and endurance of weak, nervous run-down folks in two weeks' time in many instances.

"Thousands are held back in life for want of sufficient iron in the blood," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Out-Door Dept.), New York, and the Westchester County Hospital, in commenting on the relation of strong nerves and physical endurance to the attainment of success and power.

"A weak body means a weakened brain; weak nerve force means weakened will power, and like the race horse beaten by a nose, many a capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which come from having plenty of iron in the blood. That irritable twitch, that feeling of dependency, that dizzy, fearful feeling—these are the sort of signals nature gives to tired, listless folks when the blood is clamoring for strength-giving iron—more iron to restore the health by enriching the blood and creating thousands of new red blood cells.

"In my opinion the greatest curse to the health and strength of American people today is the starving deficiency of iron in their blood. Iron is absolutely essential to enable your blood to transform the food you eat into muscular tissue and brain. It is through iron in the red coloring matter of the blood that life-sustaining oxygen enters the body. Without iron there is no strength, vitality and endurance to combat obstacles which I have received, I shall feel greatly gratified that I made an exception to my life-long rule in recommending it."

Dr. Schuyler C. Jacques, formerly Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never given out any medical information or advice for publication, as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderful fully effective remedy."

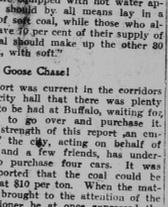

No matter what other tonics or iron remedies you have used without success—if you are not strong or well you owe it to yourself to make the following test. See how long you can work or how fast you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Nuxated Iron will increase it strength, power and endurance of delicate, nervous, run-down people in two weeks' time in many instances.

Manufacturers' Note: Nuxated Iron which has been used by so many successful people with such surprising results and which is prescribed and recommended by physicians, is not a secret remedy, but one which is well known to druggists everywhere. Unlike the old-fashioned iron products it is fully assimilated and does not injure the teeth. Make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund you money. It is dispensed in this city by all druggists.

OFFICERS INSTALLED BY MAIN STREET Y. P. S.
At the young people's night in the evening services in Main street church were installed as follows: M. J. Doney, president; Allan Shields, vice-president; Cecil Whippley, 2nd vice-president; Miss Bessie Birk, secretary; Miss Rita Eskerbrooks, treasurer; G. E. E. Hutchinson, pianist; A. L. Merritt, chairman of boys' department; Miss Agnes Waring and Miss Thorne, ladies in charge of the girls' department; Miss Annie McKee, Miss Whippley, Miss B. Andrews, executive committee. An address was given by Rev. A. S. Shop.

Imperial Theatre continued its policy of bringing to St. John the most important stage and screen features of the hour by introducing yesterday the much talked about diplomatic exposé "My Four Years in Germany"—a picturization of the remarkable book of the same title by Ambassador James W. Gerard, American representative in the Kaiser's kingdom. Needless to state the Imperial was packed.

It's a pretty strong claim to say a cigar is the best on the Continent.

But we claim this distinction in the 7c field for the Pippin.

7c will entitle you to one—a quarter will secure you 4.

power, but one of the most important diplomatic disclosures published during any war in world history. "It has been my desire to see this picture produced for the same reason that I wrote the book," said Mr. Gerard, "because I have wanted to bring home to our people the gravity of the situation, and for that reason I watched it carefully during its production so that it presents a clear picture to the mind of every American of what America faced in German autocracy." No film yet shown at the Imperial seems to have had the power and gripping truthfulness of the Gerard narrative. Last night's throngs sat spellbound, as it were, only to burst forth into tumultuous applause as the British and American diplomats, second point upon point against their thick-headed and unscrupulous rivals.

100 KING STREET

Our Greatest Sale Now On

Knowing there would be a shortage of all goods this season and that prices would be higher, we contracted for an extra large stock. During the month of September our sales did not come up to our expectations, of course. This was caused by so much wet weather. Now we have to turn this large stock in ready money, and to do so quickly we have marked all Hats at the lowest prices we have ever sold such Hats for at this time of the year.

We include all our Trimmed Hats, Tailored Hats, Dress Shapes, Mourning Hats, Felt Hats and Children's Millinery.

Tomorrow's Extra Special will be a number of Velvet Gaiters, tailored with gros grain ribbon, all colors; also a number of Matrons' Velvet Shapes in black. These Hats will be sold tomorrow at the very low price of \$1.50 each.

FORM ZIONIST BRANCH HERE

Local Jewish People to Hold Meeting Soon — Institute for Jewish Boys and Men Also Talked Of

The Jewish people of St. John are about to organize a branch of the Canadian Zionist Federation, of which a noted scholar and rabbi, Dr. De Sol of Montreal, is president. A mass meeting with this purpose in view probably will be held soon, at which it is hoped there will be addresses delivered by Gentile as well as Hebrew enthusiasts.

Nearly every large centre in the dominion has a branch of the Zionist federation and St. John Hebrews have been considering organization for a long time. There are now several important communications in hand on the subject and enough information is forthcoming to institute a branch.

The Zionist movement is world-wide. It has for its ultimate object the repatriation of the Jews in the Holy Land and the setting up of a Jewish government. British, American and Canadian Jews have as their ideal a government modelled after the pattern employed in the lands of their adoptions or a composite form. At any rate, they want to estimate the cost of this work, and their god-parents and their sponsors.

Naturally enough St. John Hebrews are sentimentally attached to their great scheme, and at the meeting organization along definite lines will, in all probability, be effected.

Another forward movement on foot in St. John's Hebrew community is the establishment of an institute for Jewish boys and men on a parallel with Y. M. C. A. and Y. W. C. A. Steps have been taken to estimate the cost of this work, but matters are yet not far advanced.

MISS VAN DER FLIER LEAVING HERE TONIGHT

Will Continue Work in Sackville — Something More About Centroversy

Miss Hendrika Van der Flier, the young lady from the Hague, Holland, who has been in St. John several days in the interests of her Belgian widow and orphan's reparation philanthropy, leaves this evening for Sackville to continue her campaign.

During her stay here the Dutch lady has been the subject of much discussion in the United States and in Dutch, Belgian and American governmental circles, because of attacks made upon her by the Hearst press and the district attorney of New York, both of whom have libel suits as a result, all of which were fully explained in the Times last evening.

In conversation with Miss Van der Flier today it was learned that the Dutch paintings, frames, etc. which District Attorney Swan cites as a "luxury," were merely handled by her for the relief of Holland artists who were unable to use usual sales by the lack of tourists, and had nothing whatever to do with her Belgian work.

Miss Van der Flier is still having her expenses paid out of an initial fund of "best egg" of \$10,000, which amount is represented by the whole advertising, travelling and lecturing expense in collecting the million dollars required for her Garden City reparation movement. So far she has spoken in only a few places in our town, as previous to touring she had an office in New York for the receipt of voluntary contributions. She started on tour because of the Liberty Loan campaign, and will resume her office upon its conclusion.

The amount of money collected so far on tour is naturally not large, as only a few of the smaller cities have been visited. In fact, a far-flung itinerary has been commenced. When all her dates have been filled the Dutch lady expects to have a very substantial amount collected for her fund. She handles no contributed money whatever and has all her legitimate expenses paid out of the primary account aforementioned. Strictly personal expenses are borne by the lady herself.

MORE OF OUR BRAVE SOLDIERS HOME COMING

Several St. John Boys Among Arrivals at Quebec

Charles Robinson, secretary of the New Brunswick Returned Soldiers' Cong mission, received a wire this morning stating that the following New Brunswick men had arrived in Quebec from overseas: Sergt. C. Atkinson, North Devon; Sergt. W. Beal, Sackville; Sergt. W. McKee, Fairville; Pte. E. Basque, Essex; Hampden, Maine; Pte. W. J. A. Blain, Tracadie; Pte. W. Brooks, Campbellton; Pte. D. Dorton, Rogersville; Pte. O. G. Harrop, Moncton; Pte. H. Knowles, Clifton, Gloucester county; Gen. H. Lynch, Fredericton; Pte. E. Munroe, Tabusintac; Pte. F. Manship, Cape Tormentine; Gen. D. Morrison, Sackville; Pte. D. McDonald, 282 King street, Fredericton; Pte. F. K. McKennie, Centerville, Carleton county; Pte. F. S. Simkins, R.R. No. 4, Fredericton; Pte. J. B. Smith, 44 Sewell street, St. John; Pte. J. Starkey, R.R. No. 4, Woodstock; Pte. E. G. Stephens, 61 St. Patrick street, St. John; W. C. Straight, Fairville; Major S. S. Skinner, H. P. Gardner, C. W. Johnston, F. J. Northrup, C. Smith, J. L. Snodgrass, S. G. Stanton, all of St. John.

DEATH OF WILLIAM STEWART

William Stewart for many years a member of the firm of H. L. & J. T. McGowan, painter, died this morning at the residence of his son-in-law, Thomas Henderson, Hothsey avenue, after a lingering illness. Mr. Stewart had been failing in health for some time, and of late had been confined to his home. He was about sixty-three years of age. He was well known about the city. His death will be learned of with general regret.

Besides his wife, he leaves two sons, Albert and William; two daughters, Mrs. Thomas Henderson and Miss Maria at home; four sisters, Mrs. W. A. Simonds, of this city; Mrs. Christina Henry, Salisbury; Mrs. Maggie Reid, Harvey Bank, and Miss Jean Stewart, Harvey Bank; also one brother, John Stewart, Jr., of Moncton.

THE EIGHTIETH ANNIVERSARY OF WATER SYSTEM

Pipes Laid In 1838 Still Are In Use

FIRST FROM LILY LAKE

Little River Supply Tapped In 1850 and City Assumed Ownership in Following Year—Some Departmental History

This month marks the eightieth anniversary of the inauguration of the city's water service. Starting in a modest way, the system has grown steadily to meet the demands and the growth of the community. Today no city on the continent has a better water supply and few have more generous provision for its distribution. The eightieth anniversary will be memorable in itself for the extension to East St. John which was undertaken this month and which provides modern facilities for a large and important district.

The first steps towards providing a water service for the city were taken in 1838 and in March of that year an act was passed creating the Saint John Water Company. The new company was at first a partnership, but after several years delay and in 1867 and 1868 the first main was laid. This was a ten inch cast iron pipe from a point near the Marsh Bridge, along Brussels street and up to Carmarthen street to King street. From the corner of King street a twelve-inch main was extended to the reservoir at the site of the present storerooms and yards in Leinster street. From the reservoir a twelve inch pipe was run along King street east, through King Square and down King street to the Market Square—where the first fire hydrant was installed—and Princess. This was the extent of the service for the time being.

The water supply for this system was secured from Lily Lake, the water being performed the service of turning the wheel of a grist mill owned by Gilbert Brothers and located below the outlet from the lake. From the tail race of this water power mill a wooden box conduit conveyed the water to a steam pumping station on the north side of the City road, near the Marsh creek. Thence it went through King Square and up the hill to the reservoir on the heights and from there by gravity to the remainder of the system through the streets of the town. The completion of the system was formally observed in October, 1888, when the water was turned on and allowed to gush from the hydrant in Market Square.

It is of some interest to note that all the cast iron pipes laid in 1838 still are in use and are giving good service, although some of them are old.

No further extensions were made for six years, but in 1844 a few extensions were made, and in 1846 another six years extension was made. In 1850 the system had increased to a point where the supply from Lily Lake began to prove inadequate and in 1850 a twelve inch main was laid to Little River and the Lily Lake supply was abandoned.

In the following year, 1851, the policy of civic ownership was adopted and the Lily Lake system was purchased by the city. Under the policy of civic ownership the system was administered by a commission consisting of a chairman and one commissioner appointed by the city and one commissioner appointed by the town of Portland. The first board consisted of John Sears, chairman, John W. Walker and John Owens.

As the demand for water increased, new mains were laid to Little River, No. 2, a twenty-four inch pipe, in 1857, and No. 3, of the same size in 1878.

Upon the union of the City of St. John and the town of Portland in 1889, the commission was abolished, the last commission being A. Chipman Smith (chairman), G. E. Martin and John Kelly. From 1889 to 1900 the water affairs were administered by the board of public works, A. Chipman Smith continuing as director. The water and sewerage board was created in 1900 and took over the department which was operated successfully under the directorship of A. C. Smith, R. H. Cushing and William Gordon.

During this period the department undertook the greatest single extension since the beginning of the system, when the water mains were extended to Loch Lomond.

Meanwhile, the union between the city and Carleton had brought the west end system, with its source at Spruce Lake, under the control of the department, thus enlarging its duties and responsibilities.

When commission government was introduced in 1912 the department was placed in the hands of the commissioner of water and sewerage, R. W. Wigmore being the first commissioner and continuing in office until this spring when he was succeeded by E. J. Hillyard.

COUNTY SUNDAY SCHOOL CONVENTION HERE TODAY

It is Marked by Presence of Marion Lawrence and E. O. Excell

The St. John county annual Sunday school convention opened in the school room of St. Andrew's church this afternoon. It is of special interest because of the presence of Marion Lawrence and E. O. Excell of Chicago. The programme this afternoon was as follows:

2:30—Devotional service, Rev. F. H. Wentworth.

2:45—Appointment of nominating committee.

3—Reports secretary, treasurer, department superintendents, elementary, secondary, teacher training, missionary and L. B. A.

3:20—Rev. J. Williamson, address on local S. S. problems; conference.

3:30—Music, led by E. O. Excell of Chicago.

4:10—Marion Lawrence of Chicago, address on county S. S. work; conference.

Messrs. Lawrence and Excell will go to Moncton tomorrow to attend the provincial convention.

OAK HALL - SCOVIL BROS., LIMITED ST. JOHN, N. B.

Dining Room Furniture

We have just received a new line of Buffets in Quartered Oak, golden polished finish, which we are able to sell at very moderate prices; and the best part of it is that they don't look it.

They are up-to-date in designs, splendidly finished, of beautifully marked wood, and look fully equal to others which sell at considerably higher prices. And they are strongly built, will stand inspection and wear a lifetime.

We can, of course, supply Tables, China Cabinets and Chairs to match.

A. Ernest Everett
THE HOUSE FURNISHER
91 CHARLOTTE STREET

DELIGHTFUL FURS

We have a collection of Furs, beautiful and useful. We almost said they are indispensable to the average woman's comfort during the next five months. They are marked by quality, originality, and the finish by really interested experts. In other words, they are made in a way a woman would make them for herself, IF SHE COULD.
