E. G. RUSSELL, FORMERLY OF ST. JOHN, WAS A SUICIDE

Well Known Railroad Man, Worried Over the Stamp at Prince Rupert, Shot Himself at That Place, Dying Instantly—Body Will be Brought East

VICTORIA, B. C., April 27.—E. G. Russell, until recently executive head of the G. T. P. in British Columbia, and the man most intimately identified with his work in this province, committed suicide yesterday at Prince Rupert, by shooting himself.

He left Victoria a few days ago, getting off the Princess May at Prince Rupert, and a day later, when the Princess was tying up at the same wharf on the way south, he walked down towards it, drew a large revolver, and shot himself, dying instantly. The remains were at once taken on board and will reach here tomorrow. They will be taken to New Brunswick for burial. His wife and son reside here, and a daughter is attending college in Hamilton.

The news of the tragic end created a profound sensation. The cause of his act cannot be ascertained. The recent action of the Grand Trunk in practically closing work at Prince Rupert, with the consequent uncertainty as to the future, may have adversely affected many of his investments and plans in which he had risked much, and the projects of the subsidiary companies to which he gave most of his time of late.

He has worked exceedingly hard for the last two years, and this, with the disappointment above alluded to, may have caused his act, although, being a man of great force of character and buoyant disposition, he gave little indication of it. He was born in New Brunswick forty-nine years ago and entered the railway business early in life, moving to the United States. He rose rapidly and reached a managerial position with the Delaware and Lackawanna. He had extensive experience in construction work, and became assistant manager of the I. C. R. under Mr. Blair, making the line pay. He was very popular here in social and business circles.

NEW YORK, April 27.—The American today has had information that under the will of James Henry Smith, the millionaire who died recently in Japan, the widow, who was Mrs. Rhinoceros Stewart, receives \$1,000,000 or an income from that sum, out of his immense wealth.

Lady Jane Cooper, his sister, inherits \$20,000,000. It says, while others of his blood-relatives get liberal bequests. According to the American, friends of Mrs. Smith declare that she will not be satisfied with the provision made for her in this testament, and will contest it.

The will is said to be in the possession of Lord and Lady Cooper, who recently came to New York. The testament will be probated after the funeral of Mr. Smith, whose remains are now en route to the city from Japan.

The American also says that there is a possibility that there is another and later will, made just after Mr. Smith's marriage, in which Mr. Smith made far more liberal provision for his widow. Such a will, it states, would also probably be contested by his blood-relatives.

The six days' roller race in the Queen's rink will be brought to a finish this evening. The race has been an exciting one throughout and tonight's race should draw a large crowd.

Prof. John A. Nicholls will spend two weeks in St. John under the direction of Grand Lodge executive, I. O. G. T. He arrived today, and will lecture at 4 o'clock tomorrow afternoon in Leinster street Baptist church.

ROBERT RITCHIE, OF NEWCASTLE, DEAD

Nothing More Has Been Learned of the Old Man Who Was Found Dead.

NEWCASTLE, N. B., April 27.—No inquest was held last night on the body of Stewart Campbell. The sworn statements of the policemen failed to show any reason why an inquest should be held. Nothing further has been learned about Campbell's home and friends. The coroner even failed to discover where he had been boarded while here. He will be buried in St. James' cemetery today.

THE DOG POISONER IS AGAIN AT WORK

Valuable Collie Owned by Arthur Fitzgerald Was Killed This Morning.

The dog poisoner is on the warpath again, and as a result a valuable collie dog owned by Arthur Fitzgerald, the Sydney street blacksmith, has been killed. The dog is supposed to have picked up something about the King square, for it arrived at the blacksmith shop this morning in a very sick condition and before a veterinary could get there he was dead. The dog was a beautiful and intelligent animal, was well trained to perform a number of tricks and only a few days ago Mr. Fitzgerald offered \$50 for his pet and refused it. It seems that it is generally valuable dogs that are poisoned while numerous tramp dogs parade the square and other sections of the city unharmed.

STRAITS NAVIGATION WILL BE LATE THIS YEAR

Moncton Sports Want All Professional Bars Thrown Down—Orange Lodge Celebrates

MONCTON, N. B., April 27.—At a meeting of the M. A. A. A. managing committee last night, J. W. H. Roberts was appointed a delegate to attend the M. P. A. A. gathering in Halifax Monday evening and present local opinion in regard to the proposed bridge. Moncton will oppose the rule which does not permit amateurs and professionals to compete together.

Orange Lodge No. 52, one of the largest in the province, last night celebrated its thirty-second anniversary. Grand Master Fulton was present and delivered an address, as well as Past Grand Chaplain B. H. Thomas, of Dorchester and local officers.

Navigation between the mainland and P. E. Island, by way of Point de Chene, is not likely to open for two weeks at least, the ice being still firm at the Point. The opening is likely to be the latest in a number of years.

GUILTY OF MURDER.

ROCHESTER, N. Y., April 27.—Dominic Pulio, charged with the murder of Camille Page, was last night found guilty of murder in the second degree and will be sentenced on Wednesday. This was one of the shortest homicide trials in Monroe county. The jury was out an hour.

The funeral of Mrs. John Haley took place this morning at 8:30 o'clock from her late residence, 90 Portland street. Requiem high mass was said by Rev. Fr. Holland and interment was in the old Catholic cemetery.

RACE HATRED IN INDIA CALLS FOR POWDER AND SHOT

It is time to suppress the rioting by forceful means if necessary. The authorities are satisfied that a determined front will speedily end the outward signs of disaffection, as they have the unanimous support of the Mohammedan population, who at numerous mass meetings have emphatically condemned the anti-European movement. Recent events have given a remarkable impetus to enlistment in the volunteers. The recruits include five judges of the supreme court, the director of public instruction, university professors, high government officials and leading bankers and merchants; all of whom have entered the ranks as privates.

TALK OF A BRIDGE ACROSS THE STRAITS

Mr. Butler, of the I. C. R., Said to Favor the Plan

But Capt. Road, of Summerside, is Inclined to Believe That the Scheme Could Never be Successful.

CHARLOTTETOWN, Prince Edward Island, April 26.—The announcement from Ottawa, that Mr. M. J. Butler, Deputy Minister of Railways, has had prepared an exhaustive report of a bridge or causeway across the Straits of Northumberland, between Prince Edward Island and the mainland, naturally excited a great deal of interest here. From authoritative sources, however, it is learned that he has not prepared such a report, but he expects to do so during the coming summer. It is understood that Mr. Butler is well satisfied with the feasibility of the bridge scheme and states that he will have no difficulty in providing for all possible lateral pressure that may be exerted by wind and ice. Tunnel advocates in this province, however, are not so sanguine as to the success of the bridge scheme.

Captain Joseph Road, M. P. P., of Summerside, who has been one of the persistent and energetic supporters of the tunnel, declares that a bridge, a causeway, or a composite way—part bridge and part causeway would be a failure and possibly a disaster. From his knowledge of marine conditions as a ship master of long experience, he says that during a north west and south east storm it would be impossible to run the bridge. The sea running before the gale would sweep the cars into the sea. As an illustration of the force of the sea, he says that at Summerside when the wind is southeast, the waves have been known to throw a two ton anchor clean over the structure. This storm centre would be about southwest, or away from the northwest side of the bridge. As soon as the storm centre passes the bridge would be in the left semi-circle and the gale from the northwest, the ice flow would get such an impetus that it would be simply impossible to run the bridge, sweeping it of cars and tracks and probably demolishing it.

The captain also claims that the construction of the bridge across the Straits of Northumberland would be an impediment to navigation, not only of our own vessels but of international commerce and nations would not tolerate it. The causeway would also probably destroy the fisheries in the Straits. It would inundate Summerside, a portion of the west end of the island. Given a north east gale during spring tides, with the moon at high tide declination, the water would dam the water to such an extent as to raise the tide level with the Western Straits, probably fifteen feet above the present high water level. It would thus be a most dangerous and expensive experiment. In support of his contention that if the causeway were in existence today, a large part of the population of the island would be submerged at high water with northeast winds, the captain gave the following facts: The island was not long since attached to the mainland of New Brunswick, in evidence of which may be seen the geological formation of the land from Casey Cape to Tormentum. It is a piece of Prince Edward Island and today that strip of land is fattening on the markets of Amherst, Springhill and Halifax, by supplying them with potatoes at 60c a bushel. The people on both sides of the Straits can tell how far the opposite capes had been worn back by the sea, from rain and chemical action in fifty years. It will be simply a mathematical question to determine how long it would take to wash out the six mile one-quarter mile of ground that would be stretched across the Straits. He says that in the west of the Island are to be found water-worn grey granite and limestone of Cape Rosier, Anticosti and Labrador, that came there with the ice as they come to our shores today. They came there when the natural causeway made of the Western Straits a cul de sac, which like the Bay of Fundy, forces an abnormally high tide. The captain claims that the islanders do not want a causeway. "They don't want to go back two thousand or ten thousand years," he says. "Let us have a modern tunnel and in two years after it is built it will take all the steamers and the tunnel both working their full capacity to move our crop alone. He claims that with the markets always available, we can grow 25,000,000 bushels of potatoes a year. This is only one of the many advantages that the tunnel would bring to the province."

SAYS THE EMPRESS IS NOT IN QUARANTINE

VICTORIA, April 27.—The report that the Canadian Pacific S. S. Empress of Japan is detained in quarantine here is incorrect, as that ship sailed from this port on the 18th instant with a clean bill of health.

PARLIAMENT PROGGROGUE

OTTAWA, April 27.—Parliament was prorogued this afternoon at 3 o'clock. There were the usual formalities and military display. The prorogation speech from the throne was delivered by Earl Grey.

Mrs. G. A. H. Muller, of Centenary choir and Mr. Barnaby, tenor soloist in St. John's (Stone) church, will sing at the sacred concert in the Every Day Club hall at 8:30 tomorrow evening. A ladies' quartette from Brussels street church, an instrumental quartette by two ladies, and several other excellent numbers will be heard. The Sunday afternoon meetings have been discontinued for the present. All active members of the club are urged to be present this evening, to consider plans for the summer.

IS NOW QUALIFIED TO DRAW HIS SALARY

FREDERICTON, April 27.—J. W. Johnston was sworn in as Fredericton's chief assessor this morning by Mayor McCleod at City Hall. Assessors Rutter and Mackey took the oath of office at the same time. Mr. Johnston made a speech after being sworn in, asking the co-operation of the citizens in carrying the new law into effect.

EXHIBITION FUND TO DATE AMOUNTS TO OVER \$2,800

AWARDED THE CONTRACTS FOR WORK AT THE HOSPITAL

New Operating Room and Several Private Rooms to be Built.

Architect F. Neil Brodie yesterday signed the contracts for the construction of the new work to be done at the hospital where an up-to-date surgical and operating room will be produced. The contracts were awarded as follows: Carpenter work, A. Dodge; masonry work, Clark & Adams; heating and plumbing, George Blake; electric lighting, Frank Jones; and painting and glazing, F. Dennison. The walls and floors of the new wing will be finished in tiles. The etherizing and recovery rooms will be situated near the operating room. There will also be four patients' rooms in the new wing with private baths. Work will be commenced next week. The job will be completed in August.

CHARLOTTETOWN ODDFELLOWS OBSERVED NATAL DAY

Experimental Farm for P. E. Island—Summerside Looking for Water Works and Sewerage.

CHARLOTTETOWN, P. E. I., April 27.—The Oddfellows of Charlottetown celebrated their natal day yesterday with a grand parade in the afternoon followed by service at Zion church, where an eloquent sermon was preached by the pastor, Rev. George E. Ross. At night the play "The Banker's Daughter" was put on by local talent in the Opera House. Rev. S. F. Woodroffe left here today for Halifax to preach a sermon at the reopening of the Garrison Chapel in connection with Trinity parish. At a meeting of the executive of the provincial government yesterday a committee was appointed to arrange at once for the building of a new court house and jail at Summerside to replace the one destroyed by fire. The experimental farm to be established by the Dominion Government was fully discussed. Dr. Saunders, director of the central experimental farm at Ottawa, is expected shortly to select a site. The water commissioners of Summerside have decided to call for tenders for a water works and sewerage system. Immediately after the tenders are received a public meeting will be held to ascertain the opinion of the people as to the advisability of installing a system. In the meantime further data will be submitted.

FOUND DEAD IN HIS BED THIS MORNING

Frank Keenan, of Chatham, Passed Away Suddenly at the Ottawa Hotel.

Death came with unusual swiftness to Frank Keenan early this morning at the Ottawa Hotel. Mr. Keenan, who is a native of Chatham, has been in the city for some months, and a few days ago became ill with heart failure. Last night the clerk of the hotel went to Mr. Keenan's room to see how he was. The sick man stated that he felt somewhat better. This morning when the clerk went to the room Mr. Keenan was dead. Louis Green, proprietor of the hotel, communicated with Mr. Keenan's relatives in Chatham, and the body will be forwarded there tonight. Deceased was about forty years of age and unmarried.

MINERS REFUSE TO RETURN TO WORK

MICHEL, B. C., April 27.—The proposition that the miners should return to work pending inquiry was defeated at Michel by 111 votes to 87. The attendance was small owing to the shortness of the notice. There are 700 men in the camp. The meeting took place this afternoon in Union Hall and was addressed by Messrs. Galvin and Hamers. This is the town in which J. Douglas, the opponent of Sherman for the presidency of No. 18 district at the election, resides. The men think that they might as well remain out until the settlement is achieved as go back while the conciliation board is investigating, only to be made fools of.

IS NOW PLANTING OYSTERS ON THE PACIFIC COAST.

Col. A. J. Markham arrived in the city this afternoon on the Atlantic express. Col. Markham has organized a company in the West under the name of the West Coast Fishing Company, and has associated with him Captain Williams of Wollfleet, Mass., a man with a thorough knowledge of the oyster business. On the 5th of April two carloads of oysters were shipped from Norway, Conn., and Captain Williams is now engaged in planting these on the company's grounds at Esquimaux Harbor, B. C. Captain Markham will in a few days leave for Charlottetown, where he will make arrangements for a large shipment of oysters from there, also from New Brunswick points, the shipments to be made next September. The company's headquarters are at Victoria, B. C., and the colonel says everything is booming in the West.

SPORTING MATTERS
ONLY THREE TEAMS LEFT IN 6 DAY RACE

Bill another team has fallen by the wayside in the local six-day roller race at the Queen's Holloway. Campbell and Black dropped out last night. Only three teams are now left in the contest, which will close this evening. Nixon and Alward still retain the premier position, being nine laps ahead of the next team, Gibson and Wilson, their respective positions not having been changed by last night's performance, each having made 16 miles and 5 laps. Whitebone and Coleman dropped another four laps last night. Great interest has been taken in the contest all through, and will be intensified tonight, when the final struggle will come. Following are the results for last night, and the total distances covered:

Table with 4 columns: Name, M. L., M. L., M. L. Rows include Nixon and Alward, Gibson and Wilson, Whitebone and Coleman, etc.

Table with 4 columns: Name, Won, Lost, Won. Rows include Chicago, New York, Pittsburgh, etc.

FLATULENCY
That spiritless, mawkish condition people frequently find themselves in, taking sunshine out of everyday life and making it burdensome. Unhealthy stomach conditions are invariably the cause of this state of temperament and ailment, but they can be rectified by
HERNER'S DYS-PEPSIA CURE
A specific that acts on the food and saves the delicate organisms of the digestive system from any harm whatever. A sure and positive preparation that has won its way on actual work.
FOR SALE AT ALL DRUGGISTS
Made and warranted by THE DR. SCOTT WHITE LINIMENT CO. St. John, N.B.

but the vessel will proceed. Sir Ryan, at Portland from New York, reports speaking str. Lucifer April 12, lat 41, lon 57, with stoke hold full of water and bilge pump out of order, but did not require assistance. (The Lucifer steamed from New York April 5 for Dublin and Belfast with a cargo of oil).
Str. Trent, which arrived at New York Wednesday from West Indian ports, established a new record between Kingston and that port. The time of passage from bar to bar was 3 days, 19 hours and 23 minutes.
Captain Fenton of str. Hudson, from China, etc. reports having passed ship Main, from Bermuda for New York at 4 p m 23rd, lat 40.01, lon 70.33, under fore and mizen lower topsails. The ship was heading WNW, with wind aft. The wind early this morning changed to NW and blew very hard. (The Powerful, which was towing the Main, arrived at New York yesterday having been unable to find her tow after calling at Vineyard Haven).
BARBADOS, April 24—Part of crew of str. Theobald, from New York, New York April 5 for Pernambuco, Bahia, etc. arrived here 6 p m 23rd in their own boats. Captain reports steamer burned and sank 16th, 300 miles off Barbados.
BAR HARBOR, N.S., April 23—Sch. Abbie and Eva Hooper, from South Amherst, N.S., did not leave bottom on the point of Bar Island today while working into the harbor at high tide; position dangerous.
JACKSONVILLE, Fla., April 24—Sch. Marie Gilbert, from Baltimore for Mayport, before reported salvage near the latter port in a fatal loss. Owner is here, stripping vessel for benefit of all concerned. Will abandon her to underwriters.
Bark Habana has been libelled by the Jacksonville Towing and Wrecking Co. (The Habana was abandoned, lanky, while on the passage from Santa Cruz for Brunswick, and was afterward picked up by the tug Three Friends and towed to Mayport).
MASSACHUSETTS, April 24—Dredge bark Trinidad, which was abandoned at sea waterlogged, etc. while on the voyage from Santa Cruz, Cuba, for New York, is stranded at Fish Cay and is a total wreck. The cargo will probably be saved.
NEW LONDON, Ct., April 23—Tug Bessie A. Keeler, for service, was launched at 10 a m, near the Lizard, from her tow 11.2 miles east of Cornfield Point lightship during a blow; one man drowned.
The new Hawaiian-American Line, a sister ship to the Mexican, now ready for service, was launched at 10 a m, near the Lizard, from her tow 11.2 miles east of Cornfield Point lightship during a blow; one man drowned.
The British Board of Trade as a result of its inquiry into the wreck of the White Star Line steamer Suvio, which ran ashore in a fog near the Lizard, March 17, has suspended the certificate of Captain Jones, her commander, for three months. The court found that the disaster was due to the fault of Jones in maintaining full speed while heading towards the land in thick weather.
A brother of Capt. John T. Terrian, who was lost in the bay from his schooner Lucy A., on Wednesday, will arrive in the city this morning to take charge of the little schooner, which is now discharging oil junk at South wharf.
The little liner Cheronea sailed from Baltimore for Hamburg yesterday.
The little liner Platea sailed from Norfolk at daylight yesterday for Tampa.

EMPRESS OF ABYSSINIA WHO REFUSES TO RETURN FROM THE HOLY SHRINE

LONDON, April 27.—A snapshot of Empress Tayton of Abyssinia, who, after a pilgrimage to a holy shrine, has refused to return to the great Nigera, and who declares that she will spend the remainder of her life in a convent.

THE AMEER STRONGLY URGES ALL TO ACQUIRE KNOWLEDGE

CALCUTTA, April 26.—In making his budget statement in the legislative council Mr. F. N. Baker, who anticipates a surplus of \$3,500,000 for the coming year despite the reduced uniform tax of one rupee per maund, said that the optimum revenue was doubtful, but that it had been decided to reduce the area under cultivation. For education the budget provision, he said, is the highest ever made. Although nothing is allowed for free education in the primary schools the secretary of state is prepared to consider a suitable scheme and to authorize it if the financial position permits. Army charges are reduced and not wanting and the need for economy is increasing, the secretary says, are full of hope. A remarkable discovery of ammunition smuggling has been made here after a fight in which two Pathans were shot. Two constables returning from patrol duty found three Pathans with several camels preparing to cross the bridge of boats connecting the Nowshera cantonment with the north bank of the Kabul river. When questioned they said they were going to Swat, and had nothing except empty bags and fodder for their camels. The police asked to see the bags and were then offered bribes which they refused. They insisted on the search and when they were joined by a third constable a free fight ensued. The three Pathans were shot and the third surrendered. Examinations of their packs showed they had ninety packages Martini-Henry ammunition among the bags. Lord Kitchener in a statement just issued concerning his policy said that it was purely defensive. Among other things he said: "It is most unlikely that we will ever attack any other power or undertake operations unless forced thereto by aggression or compelled to defend what we hold. Our duty is to obtain the best possible value for our money. "The distribution of troops has been little changed since the mutiny. We are now attempting to form divisions, self-contained in all respects which are ready to take the field would leave behind sufficient troops to provide for order and tranquility in the areas from which they are drawn. "The idea is to establish divisions, one behind the other, on the various railway lines so as to provide for rapid concentration in time of war. "On the occasion of his laying the foundation stone of the Ismailia College at Lahore the Ameer made the most notable speech since his memorable visit to the Mohammedan College of Aligarh. An address having been presented to His Majesty, the Ameer rising from his throne to reply to the address brought the whole multitude respectfully to their feet. He waved the hands of men back to their seats and then standing alone took hold of the voluminous of the address in the manner of a singer handling a song and began the Ameer, who when calm and cold could not avoid an occasional slight stammer halted now and then in his speech. But presently as he warmed to the spirit of the occasion he broke into almost torrential rhetoric, and his whole body swayed in energetic emphasis. "My brothers, I speak unto you, Mohammedans of the Punjab in India who are present here today. You have read my address. I understand your thoughts; this is my reply; mark it, it concerns your welfare closely. But before all else I want at the outset to say how deeply I appreciate the tolerance and the beneficence of the Government of India in allowing my Mohammedan brethren in this great country perfect liberty to perform their religious duties where and when and how they like. That acknowledgment being paid, and it lies foremost on my conscience I come to the pith and marrow of my message to you and to the millions of Mussulmans for whom you stand. In a single sentence I give you my whole exhortation. "Acquire knowledge—you hear me Acquire knowledge. I say it a third time. Acquire knowledge. Oh, my brothers, remain not ignorant, or what is worse remain ignorant of your ignorance. There are those who utter solemn warnings in your ears, who urge that Mohammedans have naught to do with modern philosophy, who declaim against the Western sciences as evil. I am not among them. I am not among those who ask you to shut your ears and shut your eyes. On the contrary I say pursue knowledge wherever it is to be found. But this also I declare to you with all the emphasis at my command, science is the superstructure; don't mistake it for the foundation. The foundation is and always must be religion. "Manager Gorbell will begin a tour of Canada in a couple of weeks for the purpose of raising funds for the proposed Row building.

CLASSIFIED ADS.

ONE CENT PER WORD per issue is all it costs to insert advertisements like those appearing below in the lively columns of THE SUN or STAR. This ensures them being read in 6,500 St. John homes every evening, and by 7,000 people during the day. SUN and STAR Classified ads. are veritable little busybodies.

6 insertions for the price of 4

THE STAR, ST. JOHN, N. B. SATURDAY, APRIL 27, 1907

FOUR

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (LTD.) at St. John, New Brunswick, every afternoon (except Sunday) at \$3 1/2 a year.

TELEPHONES:— BUSINESS OFFICE, 54.

EDITORIAL AND NEWS DEPT. 1127.

ST. JOHN STAR.

ST. JOHN, N. B., APRIL 27, 1907.

KEEPING UP THE PRICE.

A few days ago the Star referred to the fact that some sort of milk inspection was needed in St. John to maintain the quality standard of the milk on sale in the various stores and by dealers. Following this, it has been learned that although dealers now purchase milk at considerably less money than during the winter months, they have decided not to lower the price to shop keepers, or to customers when selling direct. Milk was advanced to 7 cents a quart and 4 cents a pint last autumn because the farmers from whom it was purchased demanded a few cents more per can. On the 1st of March last, the Farmers' Association which controls the price decided to go back to the old figure of 5 cents for two gallons, and this rate has been in effect since, but although this reduction has been made, the dealers, even those who have been spoken to by retail grocers, have declined to make any cut. It would thus appear that milk, which costs at railroad stations 3 cents a quart, is sold in St. John for 4 cents a pint. Twenty-five cents a can is paid to the farmer, but the consumer must pay out from 56 to 64 cents, according as he purchases by the quart or pint. In the last few days many complaints have reached the Star about the quality of milk sold and a number of citizens assert that a chemical preservative is freely used by some dealers. Others complain that what is supposed to be fresh milk becomes sour within an hour or two after it is delivered to them. They feel that the board of health has a great opportunity for doing some effective work along this line.

BOYS WANTED.

Every evening crowds of boys can be seen coming from theatres, rinks and other places of amusement. They all manage to get away from their homes at night and seemingly have any amount of spare change to squander for so-called pleasure. The majority of them do not work, nor does it appear that their parents are in any way anxious to make them work. Druggists in St. John find it almost impossible to secure boys to act as clerks or to learn the business. At every meeting of the council, the same story is heard, and the druggists do not know what to do about it. They are offering \$3 a week to lads of twelve or fourteen years to start, and after a couple of years are paying as high as seven or eight dollars for boys of very little practical help. Comparatively high wages are paid to clerks who are totally incompetent, and this is done simply because the druggists feel that it is better to have a clerk who will do nothing than to have one who will do nothing and who will not know what to do about it. They are offering \$3 a week to lads of twelve or fourteen years to start, and after a couple of years are paying as high as seven or eight dollars for boys of very little practical help. Comparatively high wages are paid to clerks who are totally incompetent, and this is done simply because the druggists feel that it is better to have a clerk who will do nothing than to have one who will do nothing and who will not know what to do about it.

AWFUL.

The greed for gold which seems to govern men of all classes was never more strikingly shown than in the case of Dr. Henry of Preshawton. This gentleman has absolutely declined to devote his whole time to the work of the city unless he received more than four hundred dollars a year. He is doubtless well qualified for the position of chief assessor, but that lust for wealth which exerts its influence even on professional men, prevented him from accepting the office. Now that it has been given to another, and since Dr. Henry has disregarded the voice of opportunity, the time will surely come when he, living on a few paltry thousand earned by the practice of his profession, will regret the day on which he refused such a princely salary.

THE EXHIBITION.

The enterprises displayed by Mr. B. R. Macaulay in originating a public subscription to create an exhibition fund is in every way commendable, and it is pleasing to note that his efforts have met with deserved success. The response, as is always the case in St. John, has been generous and prompt. A majority of those who have contributed look upon the scheme as an investment, for the extra business done in city establishments during exhibition week will bring in good returns. The fair is now assured, and by the first of next week the directors of the association will be in a position to appoint a manager and go ahead with their plans.

UNANIMOUS.

St. John electors are alive to their own interests, and have without one dissenting voice nominated Dr. Pugsley for the vacant seat at Ottawa. There will be no opposition. Conserva-

tives realize that it is more important to have a strong man as representative than to put up a fight for the seat. Last evening's nomination was not only unanimous in so far as Liberals are concerned, but it included the hearty and undivided support of Dr. Pugsley's erstwhile opponents, the Conservatives, who for the time place their citizenship before their politics.

A SONG OF SPRING.

Spring is coming, well I do; Baby breezes tell me so; Good the birds will gladly swell, Ad the birds their love will tell Where the branches gently sway— Berry Spring is od of the way.

NATURALLY.

Among our neighbors is a family of bright, interesting, but exceedingly lively youngsters, and as it always is the case in such families the mother has frequent cause to reprimand them. On such occasions she often points out the good behavior of a certain little playmate as a good example. One day, when correcting them for some mischief, she said: "Now, Margaret would not do a thing like that, would she?" "No, course she wouldn't," said Jack, a bright little tot of four, "cause Margaret is a good little girl. She's 'bout the best little girl I know; but why shouldn't she be? Her father's a doctor, and a'course he'd keep the best one for himself."

A FINANCIER.

Harry, a bright youngster, was told by his mother that she would give him five cents for a dozen pins he rescued from the floor, thus preventing her year-old babe, who was just beginning to crawl, from finding them. "What will you do with the money when you earn it, Harry?" he was asked by a neighbor. "With the first five cents," said Harry, promptly, "I'll buy paper of the kind and scatter them all over the house."

NO NEED TO LOOK FURTHER.

During some manoeuvres a lieutenant was shot in the leg. They took him to the hospital, where the doctors began to cut his leg. After bearing it in silence for some time he asked: "What are you doctors butchering me like this for?" "We're looking for the bullet," one answered. "What says you doctor butchering me like this for?" "Bullet? Why didn't you tell me before? I've got it in my pocket."

DIPLOMACY.

"We never openly complain about any of the cooking," began Subbubs, who was talking Clitman home to dinner, "for fear the cook will get mad and leave." "Surely," protested Clitman, "you don't expect me to do anything like—" "Oh, of course, you're too polite, but I must caution you particularly against praising the cooking or she'll demand higher wages."

POLICY.

Customer (to waiter)—What's the meaning of this? Yesterday you gave me twice as large a portion as today. Waiter—Where did you sit? Customer—By the window. Waiter—O, that accounts for it. We always give people by the window large portions. It's an advertisement.

FOLLOW EDITORIAL NO. 2. NOT LIKE PAPA.

"O, yes, Nuritch's baby was born with a silver spoon in its mouth, of course." "It's a curious-looking child; takes after its father, doesn't it?" "No, indeed; if it took after its father it would have been born with a silver knife in its mouth."

GAVE HER AWAY.

Little Olga—Is your wound sore, Capt. Demitri? Captain—Wound? What wound? Little Olga—Why, mamma says she cut you at the dinner party last night.

MAGNA CHARTA.

Magna Charta, the great charter of Englishmen's liberties, is preserved in the British museum. It is somewhat stained by time, but King John's seal and name are still quite legible at the bottom of it.

IN DOUBT.

"I've got a job." "At what salary?" "Eight per." "Perhaps, or per week?"

SATURDAY SERMONETTE

MOVING.

What are you moving for, House-keeper? Bad neighbors? The chances are that no matter where you move the neighbors will be just as bad. Did not you like the pattern of the wall paper? Ceilings too high or too low? Kitchens too large or too small? Bath room too narrow or too wide? Or did you have no intention of moving until your lady friend asked you to go and help her select a house and you could resist that temptation no more than you could resist the temptation to go shopping with your country friend, and then you get dissatisfied with your own house and tease your husband until he has to move to stop your nagging. Is that not the reason why you are moving the first of May?

FOR BETTER OR WORSE.

(Harper's Weekly.) A Baltimore woman who had "a perfect treasure of a cook," was horrified recently when Maggie came to her saying: "Please, mum, I'm givin' ye a wake's notice."

WHY HAVE HEADACHES?

People who have healthy, active livers seldom have headaches. Most headaches are a protest against sluggish condition of the stomach and liver.

WHICH SHOWS THE DANGER OF CARRYING FIREARMS

PUEBLA, Mex., April 26.—A revolver from the pocket of Hilario Hernandez, a priest, today sent a bullet through the heart of N. Joaquin Cassarato, a young millionaire of this city, while the two men, in company with A. Guevara, a rich hacienda owner, were riding in Guevara's automobile. Guevara and the priest were immediately arrested and held strictly incommunicado, pending an investigation.

OF LATE.

Lives of great men all remind us As we learn them day by day That they'd best be put behind us Out of sight and far away.

PLANS FOR RENEWING THE AULD BRIG OF AYR

Engineers Report on the Steps Which Must be Taken—Scotland Expects to Reap a Rich Harvest From Wealthy American Tourists.

GLASGOW, April 27.—An American invasion of Scotland, surpassing all previous records will be the outstanding feature of the coming season. This abundant harvest of American tourists is said to be due to a large measure to the approaching arrival of the "motor millionaire's party."

The steamship companies have never known such times, for all their berths for May and June could be filled easily many times over. All the available steamers will be pressed into the service it is said, and extra steamers are being added on many vessels for the great rush.

On a moderate estimate \$500,000,000 of capital will be represented by a picked dozen of the visitors who will include members of the Vanderbilt, Gould, Bradley Martin, Stuyvesant, Fish and Whitney families.

The chief American tourist feature in Italy in May will be the arrival of 150 motoring American in London with their American cars on which they are making a European tour. Among them will be Mr. Willie K. Vanderbilt, Mr. Payne Whitney and Mr. F. R. Thomas all famous millionaire sportsmen.

According to all reports there is a period of great financial prosperity in the States and the holiday makers many of whom have never before visited Scotland have determined to do things in style.

On the average it is expected each American guest will spend \$1,000 and the total expenses of the American invasion will have to be figured in millions and millions of dollars.

The citizens of Glasgow are just beginning to make their opinions concerning the city extension scheme which is being discussed in the suburbs and for the extension of the city just been issued as a printed document but it has not been accompanied by any memorandum indicating what all means for the existing municipality.

In the preamble of the order it is stated that it is expedient that the boundaries of the city should be extended to include the borough of Pollokshaws and certain districts in the county of Lanark and Renfrew lying contiguous thereto.

Now that the funds have been subscribed for the restoring of, or normal strength to the Auld Brig of Ayr, and that the department is interested in the proposals of the engineer so far as they come within the purview of that department, it is interesting to note the engineering aspects of the work.

THERE IS LOTS OF EXCITEMENT TO BE FOUND IN HUNTING ELEPHANTS IN INDIA

Narrow Escapes of Sportsmen From Angry Beasts—The Growing Support of the All-India Moslem League—Girl Murdered by a Soldier Who Loved Her—Young Student Shunned by His Former Friends.

CALCUTTA, April 27.—Steadily growing support is being given to the All-India Moslem League. The Nawab of Dacca, one of the leaders of the movement recently visited Comilla with satisfactory results. The visit, however, was marred by a disturbance which drove some of the Hindu papers into sensational headlines five inches deep. It appears that while the Nawab was being driven in procession through the town where large crowds had gathered to see him some person among the Hindus threw a stone at him from which he narrowly escaped.

This annoyed the Mohammedans so much that a fight took place in which the Hindus came off second best. Later on in the evening some Hindu shops and houses were invaded. The Nawab attended a meeting next morning under a huge shawlina to which he was conducted amidst shouts of "Marhabat," by the committee of the All-India Moslem League, headed by a band. The meeting was a very crowded one, attended by all of the leading Mohammedans of the place. The Nawab, addressing the audience in Urdu exhorted the people to be moderate, and not over exulting over the partition. A mass meeting of Mohammedans was held the same evening in support of the league.

There must have been at least 10,000 people present. The Nawab, who read a speech in English, the translation of which in Bengali was read was vociferously cheered. A mass meeting of the formation of the All-India Moslem League, and the National Fund. The meeting was attended by all of the leading Mussalmans in and about Comilla.

Mr. S. M. Fraser, chief commissioner of the Coorg and a resident in Mysore met with an adventure in Coorg near the Canara border during his recent tour. Mr. Fraser accompanied by Mr. Harris, I. C. S., Assistant Commissioner McCarthy, forest guard, and Mr. Hall, assistant director of agriculture, was riding along a narrow zigzagging path through an almost impenetrable jungle when he heard an elephant in the distance.

Without an instant's hesitation, throwing an arm around a tree while passing, he let the horse and rider under him, fell on the ground on all fours, flung himself to one side clear of the charging elephant's path. The elephant, however, turned round and slowly approached him. Mr. Fraser in the meantime moved silently round the tree, keeping it between himself and the elephant. Fortunately after some minutes the tusker moved off and disappeared. Mr. Fraser emerged from the thicket in a long and narrow lane in any way, and as cool as though such everyday occurrence. The whole party was unharmed.

A Ceylon planter tells the following remarkable elephant story. "On one occasion I went after a herd of eight wild elephants. After stalking I got a chance at the biggest of the herd, and dropped it at the first shot. After two hours afterwards I had the tail and feet cut off and taken to the bungalow. Next morning I went to the spot to look at the elephant and to my surprise found no trace of the body. After searching round I found that the herd had been there during the night, and I soon discovered a track where they seemed to have retired in a body. Following this up I eventually came across a dead elephant lying at the bottom of a rocky stream. From the tracks it was quite evident that the body had not been rolled, but carried to the bank, and it was plain that it had been taken through the long grass stream. My neighbors were incredulous until I showed them where the elephant's tail and feet had been cut off and where the body lay in the stream, which proved conclusively that by some means or other the body had been gotten over the intervening space in the night. It is difficult to understand how elephants with their trunks and feet could raise and support the dead body of a comrade. However, they seem to have managed to do it, and it is a pity that no human eye saw this strange funeral."

CHILDREN BURNED TO DEATH AT AN ENTERTAINMENT

Clothing Covered With Wool to Represent Snow, and a Fire Was Caused by Candle Being Upset.

ST. PETERSBURG, April 27.—Odesa newspapers describe a tragedy of stage snow at a children's entertainment at Kachofka which resulted in eight children being burned to death. A winter scene was being enacted, and to represent falling snow, some thirty children had pieces of wool gummed to their clothing. In the first act the children in their march overturned a lighted candle. At once the woolen material on the floor caught fire, and the frightened children ran from corner to corner, setting fire to each other. When help came some lay horribly burned on the floor and others had lost consciousness. Over twenty were sent to the hospital, where eight have already died and many still remain in a serious condition. Mme. Slavator, mother of one of the victims, has lost her reason, and Mrs. Trilaker has died of the shock.

HE SPENT HIS LIFE IN REVILING ALL RELIGION

Maurice Jogand Dead In France After a Notorious Career—Dog Police Trained to do Excellent Work—Man Bitten by a Cat Went Mad.

PARIS, April 27.—Maurice Jogand, who, under the assumed name of Leo Taxil, had, some years ago, achieved great notoriety, is dead at Sceaux. It is almost needless to explain that he passed away in comparative obscurity and neglect. Born in Marseilles and educated among the Jesuits he does not seem to have been a very tractable boy as before the age of twenty it was found necessary to send him for some time to a house of correction. He came to Paris, filled, he said, with hatred for the Jesuits and the clerical and founded an anti-clerical library in the Quartier Latin where he sold principally his own anti-clerical books and pamphlets. At various times he was sued for libel and outrage to public morality, and in 1851 was sentenced to \$1,000 damages for publishing a second edition of a book in his own name of an author who had recently died. He had become a Freemason, but conducted himself in such a manner that the organization was obliged to withdraw pseudonymously from him. He published the book of another author as his own, for which the real author gave him a sound thrashing. Finding that he could no longer impose on the Freemasons, he turned to the church and the clericals whom he had reviled, and made a public retraction with great pomp and circumstance and succeeded in imposing on the clergy who held a tridium and thanksgiving service in the basilica of Montmartre for his conversion. It is even said that through their intervention the late Pope Leo XIII sent him his apostolic benediction.

His next turned on his former friends, the Freemasons and the Freethinkers with the same violence and disregard of truth that he had before displayed against the clericals. His books were translated into every language of Europe and his name for some time was regarded with wonder. He wrote and spoke so much of the so-called sect of Luciferians and Satanists that half his readers believed him, and the celebrated Diana Vaughan, supposed to be a high priestess of the sect was to make a public retraction, and enter the fold of the church. By that time, however, his sincerity began to be doubted, and his scheme ended in a miserable failure. His most audacious imposture was sending the Devil's tail to the Jesuits. The tail which, he said, he had secured under very difficult circumstances, was nothing more than a rug made of a lion's skin with the tail still attached. His satanic inventions were the most preposterous and lies ever invented by the human imagination, and one of them he had committed to the Freemasons as adoring the devil, and holding a weekly service in his honor.

The peaceful rejoicings of the Gingham Fair, were disturbed the other night by a tragic episode. A man with eyes bloodshot, distraught and faintly mad, was seen in a small place among the crowd. A policeman took him by the arm and he was finally found to be suffering from hydrophobia. He had been bitten by a mad cat and had been treated at the Pasteur Institute and discharged as cured.

MAXIM GORKY CALLS NEW YORK THE CITY OF THE YELLOW DEVIL.

LONDON, April 27.—Maxim Gorky, the Russian writer whose peculiar ideas of morality failed to meet with approval on his recent visit to New York, and who was turned out of several hotels with a woman companion, has taken a characteristic revenge on the city which rejected him. He has written an article entitled "New York; the City of the Yellow Devil," every line of which breathes abuse. An authorized translation of it appears in the "Monthly Review" for April. The following are some characteristic extracts: "From afar, the city seems a black man with uneven black teeth, a blacker than the blackest of the blacks, a giant suffering from obesity. On entering you feel that you have entered into a belly of stone and iron into which has been engulfed millions, and which crunches and digests them, and yearly avails more and more." "Locomotives and cars crawl like fat ducks, electric wires wall grimly. The suffocating atmosphere is permeated with thousands of roaring noises. Packed in this dirty city, grimed with the smoke of factories, men in impious smocks, in a goal between high walls covered with soot. He shudders apprehensively, exhales foul odors in one's face, he has been poisoned, is suffering and meaning."

THEY USED COCAINE.

PORTLAND, April 25.—On the complaint of Captain Brown, of Fort McKinley that a number of soldiers under his command were in a hospital suffering from the use of cocaine and that two of his men under his direction purchased a quantity of the drug at the drug store of Wm. A. Flaherty, corner Middle and Franklin streets. Mr. Flaherty was arrested today, charged with unlawfully selling eight grains of the drug. He was bound over to the superior court under \$300 bail. EL PASO, Texas, April 25.—It was stated by her attorney today that Flora Wolff, the Negro who claims to have been the common law wife of Lord B. B. Beardsford, will bring suit for half his estate, or over \$50,000. The suit will probably be brought both in Mexico and in this state, he says.

ANOTHER NOVEL ON GERMANY'S COLONIAL POLICY

Creates a Sensation—It Pictures the Methods Adopted and is Calculated to Instruct the People. BERLIN, April 27.—Germany's first colonial novel has just appeared and it is already causing something of a sensation. It is entitled "African Laurels," and is the same sort of exposure of the German system as the military novel, "Jena or Sedan," which excited widespread attention three years ago. The author, Herr Alfred Funke, draws a frank and vivid picture of the German colonializing practices for the purpose of illustrating the burdens of an overseas empire and of teaching his countrymen the duty of bearing them. Many of the characters are drawn from real life and are easily recognizable, especially the former governor, now resident in London, Dr. Carl Peters.

LEFT HER FORTUNE TO HELP YOUNG STUDENTS

German Dancer Gives \$115,000 for Men and Women Who Desire to Obtain Proper Education.

BERLIN, April 27.—Luella Grahn-Berger, the leader of the Munich royal opera ballet, who died a few days ago, has, it has been discovered, left one of the most remarkable wills on record. She bequeathed her entire fortune of \$115,000 to the municipality to be given away in sums of \$75 to worthy young men between the ages of sixteen and twenty-five and of young women between thirteen and twenty who require help in studying their chosen professions and trades. The only condition the dancer imposes upon the city is the upkeep of her grave for which she leaves a sum of \$5,750.

SANITARIUM OPENED ON MOUNT OLIVET

Most Interesting Ceremony Took Place Though the Weather Was Rather Unpleasant.

JERUSALEM, April 27.—The ceremony of laying the foundation stone of the German sanitarium on Mount Olivet was one of the most interesting even seen in Jerusalem. The boldest weather somewhat marred the proceedings, but the Governor of Jerusalem accompanied by many officials was in attendance.

Dr. Dryander, the German Court preacher, opened the ceremony and delivered an appropriate address, after which he read a telegraphic message which he had just received from the German Emperor and Empress. Their Majesties sent greetings to their fellow countrymen, to the local authorities and the representatives of other nations and confessions present, and invoked the blessing of God on the institution which commemorates the visit of their majesties to Jerusalem. The message concluded with a hope that the foundation stone will be well and truly laid and the work of erecting the building speedily and successfully completed.

The German Consul then read a telegram which he proposed to send to the Emperor and Empress conveying the grateful thanks of the German Colony in the colony's welfare, and another telegram addressed to the German Ambassador at Constantinople requesting him to thank the Sultan for having authorized the establishment of the sanitarium. The ceremony concluded with three enthusiastic speeches by the Emperor and three for the Sultan.

OFFICIALS SCARED BY VATICAN LETTERS

Correspondence With Nuncio in Paris Carried on in Mysterious Manner. PARIS, April 27.—The publication of the Montagnani papers will probably cover the period of weeks. Meanwhile, many officials, great and little, are quaking in fear of further compromising statements, and this general fear of uneasiness prevails in ecclesiastical as well as government circles. One curious fact elicited from today's revelations is that the Vatican conducted its correspondence with Mr. Montagnani with elaborate mystery. On some occasions he received an anonymous letter ordering him to be present at a certain obscure rendezvous in Paris, whereupon the Nuncio would be handed a packet by an unknown messenger. At other times he received a cipher telegram instructing to go to a certain town, where a representative of the Vatican met him with letters from Cardinal Merry del Val. Mr. Montagnani entered fully into these mediaeval methods. He kept some "suspected" archbishops and bishops and a great many "suspected" priests under constant surveillance, and confidential reports to the Vatican regarding these ecclesiastics, and minute particulars of their daily routine, figure in the papers now being published. In one report to Cardinal Merry del Val, written last May, Mr. Montagnani comments on the victory of M. Clemenceau, and observes that the socialist party will be a greater menace to the government than the clerical party. The alleged conversation between Mr. Montagnani and the Dutch minister at Paris, which resulted in the latter lodging an official disclaimer at the foreign office on Friday, is published by the Figaro. The minister is reported as saying that France was becoming more and more corrupt.

CROWD OF MASKED MEN
BROKE UP WEDDING FEAST

Irish Delegates Report Vary Favorably on Home Rule—Death of the Man Who Preached Parnell's Funeral Sermon.

DUBLIN, April 26.—An extraordinary story comes from Westport, a small town in a wild part of County Mayo. A wedding was to have been celebrated at a farmhouse in the district, and the preparations had been made. The wedding feast had even been spread on the table.

The celebration at St. Patrick's Industrial School, Kesh, the other night was a teaching affair. After forty-two years work among the children of Westport, the poor the superintendent of the school, Mother Chrysothem, was surrounded by a group of young men, Mother Chrysothem was one of the founders of the school in 1835, and she had a chief part of the burden of responsibility in St. Patrick's Industrial School.

A fund is being opened in Dunmore for the purpose of procuring a set of under pipes for John Kelly, who may now be said to be the last of the Gaelic songers. Sweden being a gifted musician John is said to be a faithful exponent of both traditional music which has suffered much from the ravages of a century of artistic neglect, and which was in danger of being entirely lost but for the efforts of a few earnest and faithful Irishmen who have tried to protect and revive it.

Great interest is being taken in Ireland in the reports of the four Irish envoys, Mr. Keogh, M. P., and Mr. Houston, M. P., in America, Mr. Devlin, M. P., and Mr. Donovan were the accredited ambassadors. According to their various reports the enthusiasm with which they were received only had a tendency to enhance the labor of their mission. Their district for the honor of an address from one or the other of the delegates. Incessant travelling, un-

HUNTS GAS LEAK BY
CANDLE LIGHT; BOOM!
New Science Building at Bloomsburg
Normal School Partly Wrecked

BLOOMSBURG, Pa., April 26.—An explosion that badly wrecked the new science building of the Bloomsburg State Normal School occurred last evening when an employe was searching for a gas leak with a lighted candle.

All over the building desks and chairs were overturned and floors sprung from place, but on the first floor, where the damage was greatest, the laths and plaster were torn from the walls and the heating plant disabled.

On this floor are six music rooms separated by glass partitions, and these partitions were all blown out, some of the glass being found a hundred feet away.

The gas had collected between the floor joists, and at this point the force of the explosion was sufficient to tear up the floor and break a number of the three-inch joists.

THE KING AND QUEEN OF
ROUMANIA--- A RECENT PHOTO

VIENNA, April 27.—This is the latest photo of King Charles of Roumania and his wife, known throughout the world as Queen Elena, scholar and poet. The photo was taken during the recent uprising of the peasants and spread broadcast over the kingdom to pacify the peasants, who adore their king and queen.

THE BEAUTIFUL PALACE, BUILT BY EMPRESS
OF AUSTRIA, TO BE CONVERTED INTO HOTEL

VIENNA, April 27.—The Achilleion, the beautiful palace built by the murdered Empress Elizabeth of Austria, on the island of Corfu at a cost of five million dollars, has been bought by a German-Swiss syndicate. The palace, a view of which is shown here, is to be made into a hotel.

EMPEROR'S DONATION WAS
HELDED UP BY RED TAPE.

Germany Making a Strong Bid for Steamship Traffic With Foreign Ports—A Dumb Lover's Terrible Revenge.

BERLIN, April 27.—German appetite for a share in the principal lines of steamship traffic is just now giving further cause for anxiety among the nations of the world. Their latest piece of business is to secure a share in the trade between New York and Australia and New Zealand ports. This, however, it is only fair to say, has not been achieved entirely of their own initiative, but with the concurrence of the Tyser Line, a British concern. Those responsible for the Tyser Line appear to think that the entry of the Germans into this trade was only a matter of time.

On the other hand Messrs. Buckland Bros., the Federal Line and Messrs. Houlder Brothers, together with the American firms engaged in the same trade under the title of the United States and Australasia Steamship Company complain that the arrangement with the German companies has been entered into without consultation with them.

In the trade between New York and Australia and New Zealand there is no conference in the ordinary meaning of the term. Shipping business has been carried on by independent lines, but at the same time the parties have taken care not to understand each other in the matter of rates. The question now arises of how far the British and American lines will cooperate to prevent the Tyser Line and the two German companies from having a share of the business. One complaint of the former seems to be that the Tyser Line sets rates which have until now been confined to Melbourne, Sydney and New Zealand, whereas the German lines will, under the new arrangement, be introduced into the trade of Fremantle, Adelaide and Brisbane. The next point will be to Melbourne, Sydney and ports in New Zealand. It is stated that hitherto the Tyser Line has loaded about half a dozen vessels a year at New York for Germany. It is only an undertaking which will possibly open a new field for her capital and commerce. German finance has endeavored to attract English and French capital to the scheme, but in both cases without success. It is laughable to make out of this question a perpetual reproach against Germany that she is endeavoring to force insurance in Central Asia to the prejudice of foreign nations.

CATHOLIC BISHOP
WHO IS PERMITTED
TO WEAR A BEARD

LISBON, April 27.—Photo of the only bearded Roman Catholic bishop in the world, the Bishop of Oporto, who was granted a special permission to wear a beard by the pope in recognition of his excellent service in the cause of the church in Africa.

"EL MOCHO" TELLS STORY
OF HIS VARIED CAREER

The Man With a Name Like a Cigar Hopes to Make Further Trouble in Venezuela—Cigarette Smoking is Ruining the Cigar Trade—Prince of Wales to the Rescue.

LONDON, April 27.—The "Cigar World" has been lately experiencing a remarkable depression difficult to account for and impossible to attribute to any after-the-holidays reaction. However, experts who have been interviewed declare that one great cause of this is the change of fashion which has come over the smoking public by the substitution of cigarettes for cigars. "In fact," said one of the largest wholesale distributors in London, "cigarettes are taking the place of cigars. The smoker of the cheaper brands of cigars has fallen back on cigarettes. The returns of cigarette sales have increased enormously, but not sufficiently to counterbalance the lost cigar trade. The severe winter is held responsible for some of the depression. It has prevented outdoor cigar smoking and driving the smoker to the solace of his chimney-corner pipe.

"El Mocho," the maimed one who just arrived in London. An active revolutionist for the past thirty-five years, the hero of a hundred fights and half a dozen escapes, his stirring adventures would fill many volumes, he is today one of the most popular men in the American tropical regions. General Jose Manuel Hernandez, or "El Mocho," the name by which he is so widely known, is in many respects a remarkable personality. About fifty-two years of age, tall, wiry, gentlemanly, dressed in neat black and extremely active, his refined countenance is thin and aquiline, and his hair, moustache and beard are grey. During the course of an interview when he was asked how he earned the name of "El Mocho," he held out his right hand, two fingers of which were missing.

"I got them when I was only seventeen, at Los Liras," he laughed. "It was in 1880, at my first revolutionary battle against Guzman Blanco, the Dictator of Venezuela. I received six sword wounds and was left on the battlefield for dead. Two days later a burying party found me, discovered that I was alive, and took me down to Caracas where, though doctors gave me up from the first, I got cured. As soon as I was well, however, Guzman expelled me, and I went to Cuba. "You ask me about the results of my latest enterprises. For nine months I fought hard against Castro, but owing to lack of equipment and arms we were defeated. I was taken to a prison back to San Carlos where I remained for more than three years in solitary confinement, wearing for seventeen months a leaden weighing 40 pounds and watching the mice and the insects. While I was there a wealthy man named Mateo started another revolution, using my name. Of course all of my party enlisted against Castro and the revolt was successful. But just at this time England and Germany made a naval demonstration along the Venezuelan coast. So Castro set me at liberty, appealing to my patriotism to urge upon the people to end the revolt and take arms against the for-

Eighteen Year Old Daughter of Millionaire
Intercepts Parental Prohibition

BUFFALO, N. Y., April 26.—Anna G. Wadleigh, the pretty 18-year-old daughter of a millionaire Texas mine owner, came here to visit an aunt three weeks ago. She met and fell in love with D. H. Bradstreet, six years her senior. An engagement quickly followed. Her aunt notified Mr. Wadleigh by telegram, and he wired that he was coming from El Paso to prevent the marriage. Miss Wadleigh intercepted the message.

PHOTO OF A CHINESE FAMILY, ONE OF
THE MANY NOW SUFFERING FROM HUNGER

LONDON, April 27.—Photo of a starving Chinese family. It will be seen that the lack of food, instead of making the people, has inflated their bodies, an effect which is generally noticed in China. The skin also assumes a peculiarly unpleasant color.

50,000 CAUGHT IN
JAM ON BRIDGE.

NEW YORK, April 26.—Fifty thousand persons bound for their homes in Brooklyn by the Brooklyn Bridge route last evening were caught in a jam, due to a rear end collision. It required the hardest kind of work by a large force of policemen, under Captain Murtha, to prevent a serious panic. Fifteen trains with a thousand persons each were on their way to Brooklyn, at half-past five o'clock, when train No. 100, in charge of William Kaye, as motorman, ran into the rear end of train No. 778, in charge of Motorman Brennan. Brennan's train had broken a draw bar and was standing still when the crash came.

Women screamed and men pushed by each other in frantic efforts to open the doors and get out. Then the entire system came to a standstill, except the trolley cars. Many persons climbed to the roadways and promenades, leaving the third rails. Several women fainted and were carried from the cars by policemen.

It was eight minutes after six o'clock when the fact that there was a blockade became known to the crowds at the Manhattan end of the bridge, and thousands of persons soon filled all the stairways and platforms leading to the trains. The mezzanine platform above the trolley car loops, according to Captain Murtha, holds 20,000 persons, and it was packed. Hundreds of women and children were holding on to the stair railings to keep from being crushed, while others were trying to get either up or down.

Then the police rang the gong which warns their captain at the telephone booth downstairs that there is trouble. Captain Murtha summoned twenty policemen from the loops and roadways and they fought their way up the stairs. Ticket sellers were still busy raking in nickels.

"Here," shouted Captain Murtha, "stop selling tickets; don't you know the road is blocked?" By this time panic seized the crowds which filled the stairway leading from Park Row to the west end platform. The trains were blocked, they turned around and fought their way down the stairs and made for trolley cars.

At first the employes of the Brooklyn Rapid Transit refused to explain what was the cause of delay, and not one of them was posted near the stairways to tell the struggling crowds that no trains were running. This was finally done by policemen. At Captain Murtha's order, after forty minutes of torture and delay, the trains resumed running slowly, but it was an hour before the congestion was relieved. The police estimated that nearly seventy thousand persons were delayed more than half an hour in reaching their homes. Many left the bridge altogether and went home by ferry.

SHORT KINGS

There is hardly a king in Christendom whose wife does not overtop him by a head. King Edward is quite six inches shorter than Queen Alexandra.

The king of Tiberia, who overtopped a full head by the czarina. Kaiser Wilhelm is of medium height, but the German Empress is tall, and that is why the proud kaiser will never consent to be photographed beside his wife unless she sits while he stands.

The king of Portugal, though fatter, is less tall than his queen. Even the Prince of Wales is shorter a good four inches than the princess. And the young king of Spain is several inches shorter than his queen.

QUEER CHURCH ORNAMENT.

A queer church ornament is a fiddle and bow weathercock which swings to the wind on Great Gonerby church, the Great Gonerby, England. The church was the gift of a fiddler who emigrated and grew rich and who insisted on this queer condition. After the pastor of that church be called a "fiddle D. D."

SWORD OF THE NARWHAL.

The so-called sword of the narwhal is in reality nothing but a huge tooth. It sometimes grows to a length of ten feet.

Special Offerings at the London House

That man has little reason to expect the world's attention who sits with folded arms in the chimney corner. To become known he must say or do something that will make him so. That's why for so many years we've persistently advertised. We sincerely believe that it's to the public's advantage to trade with us and that we can advance sound reasons for the faith that is in us. What more natural than to cite facts and figures in support of such contention. Day in and day out we do.

HERE ARE SOME MORE—
Pillow Shams.
100 Scotch Pillow Shams, size 22x32, heavily embroidered corners, Mexican drawn work, four inches from edge; good value at \$1.50. Special offering \$1.25

Turkish Towels.
Good large size Unbleached Cotton Turkish Towels; colors in white and natural, also white with pink stripe and white with blue stripe. Special offering at per pair 30c to 75c

Linen Turkish Towels.
All Linen Turkish Towels in natural linen colors; good full sizes; the ideal towel for the bath room. Special offering

THE LORDS AND COMMONS TO HOLD JOINT SESSIONS
LONDON, April 27.—According to the Daily Telegraph the government's plan for dealing with conflicts between the House of Lords and the House of Commons will be a proposal that in cases of disagreement both houses shall sit and vote together, the majority vote of the combined houses deciding the dispute.

HONOLULU, April 27.—The steamer Heliopolis has arrived from Malaga with 2,200 Spanish immigrants. During the voyage there were fourteen births and nineteen deaths, all children who died of measles.

The door of the ladies' gymnasium on Gormain street and the door of Jacobson & Sellick's store on Main street were found open last night and secured by the police.
The police found the glass broken in fire alarm box 32, corner of Duke and Sydney streets last night. When the superintendent of fire alarms, Mr. Green, visited the box this morning he found that some person had been tampering with the small lock on the glass door, as the piece of a small key was found in the lock.
Twelve deaths occurred in the city during the past week resulting from the following causes: consumption 2; broncho-pneumonia 2; cystitis 1; apoplexy 1; tuberculosis 1; senility 1; chronic indarthritis 1; intestinal obstruction 1; and aortic regurgitation 1.

CANADA'S POLICY HAS AROUSED SOME INTEREST

Her Action in Opening Negotiations With Foreign Countries Discussed in England

MONTREAL, April 26.—A special London cable to the Star says: The disclosure of Canada's negotiations with continental countries and Sir Richard Cartwright's confirmation have become the general subject of political discussion, especially in view of next week's conference debates on the preference. They are underlying the editorials in many of the London and provincial journals this morning. Sir Wilfrid Laurier today gave an interview to a reporter who handled the premier copies of the Times and Reuter's despatches from Ottawa. "Well," said Sir Wilfrid in his most mystical way "I thought," said the Star representative, "you might perhaps find it convenient to make a statement."

The premier replied with a decided emphasis: "On this subject I have nothing to say."
"Do you deny the accuracy of the statement?" he was asked.
"No," replied the premier, "do not deny, nor," he added after a pause, "do I confirm."
Then becoming the questioner he remarked: "May I ask where the Star obtained its information?"
He was told: "From what we have reason to believe is a good source, Sir Wilfrid, and seeing its obvious public importance to this moment of imperial action or inaction I thought you might find it to serve Canada's best interests to make a statement."

"Oh, no," he replied, "I have nothing to say, nothing."
The representative had previously sought Sir Frederick Borden.
"What have you to say about it?"
He replied: "Oh, nothing at all, it is not my business to say or do anything. You had better go and ask the premier."
The representative went away with the result already stated. It is generally agreed that the fact that Canada's cards are now put frankly on the table must give new meaning and importance to next week's preference discussion which the British ministers were previously most anxious to cover up. Sir Edward Grey's answer in the house of commons yesterday shows no indication of a protest or even a display of pique at what Sir Edward practically admitted was the irregularity of the Canadian ministers in making direct pourparlers with German, Italian and other foreign governments over the head of the British foreign office. Canada has in fact seized the right to direct commercial negotiations with foreign powers without even bothering to tell the imperial government, much less to ask its concurrence. But the British government is not unlikely to say or do anything in the way of protest and no single word can be found in all of today's editorials to show a suggestion of imperial disapproval. The work of the young ladies was very excellent indeed, reflecting much credit on both students and teachers. Miss Bower showed herself to be a clever pianist, her special characteristics being temperament and repose. She was probably at her best in La Pléiade, by Raff, which she played in a finished style.

Miss Landon possesses strength and breadth in a very marked degree. She did exceptionally well in bringing out melody in the selections rendered.
Miss Watson was a most versatile reader, her atmosphere was strong, her thought clear, her gesture easy and graceful. She was especially good in a selection from Evangelina, her rendition being artistic and pleasing. All three young ladies received beautiful bouquets.
The programme was as follows:
Helen Beverer.....Beethoven Piano-Sonata Op. 26.....
Nocturne Op. 48, No. 2 Chopin Minuet Op. 32, No. 1 Moszkowski Bessie Landon.
Reading—The Death of Bruce.....
Friedle, No. 17.....Ralph Connor Piano-Barcarolle Op. 30, No. 1.....
Helen Bowers.....Rubinstein Prelude, No. 17.....Chopin
Piano-Sonata Op. 14, No. 2 Beethoven Bessie Landon.
Reading—Cutting from a Real Diary of a Real Boy.....Henry Shute Piano—La Pléiade.....Roff Valse Caprice.....Karganoff Helen Bowers.
Reading—From Sunrise to Sunset.....
Lonsfellow Piano—Le Chant du Ruisseau.....Lack Kammernell Ottov.....Rubinstein Bessie Landon.

GRADUATION RECITAL IN BEETHOVEN HALL SACKVILLE, LAST NIGHT.

SACKVILLE, April 26.—The graduation recital of Helen Gertrude Bower of Victoria, Carleton Co.; Bessie Landon, Canterbury station, pianist, and Helen Parker Watson of Woodstock, reader, was held in Beethoven Hall tonight, a large audience being present. The work of the young ladies was very excellent indeed, reflecting much credit on both students and teachers. Miss Bower showed herself to be a clever pianist, her special characteristics being temperament and repose. She was probably at her best in La Pléiade, by Raff, which she played in a finished style.

Miss Landon possesses strength and breadth in a very marked degree. She did exceptionally well in bringing out melody in the selections rendered.

BIG LABOR FUND TO DEFEND PRISONERS

Unions All Over the World Will be Asked to Contribute

NEW YORK, April 27.—According to the American this morning a big fund is to be raised by the Moyer-Haywood protest conference of the United States. Leaders of the movement aim to use the money in an endeavor to save the lives of the defendants. U. Solomon, a leader in the executive of the conference, issued the following statement today:
"Up to April 1, \$101,557 was raised in behalf of Moyer and Haywood, and \$22,000 of this money has already been spent by the Western Federation of Miners. In the next sum of \$55,000 will be raised. The work of raising a gigantic defense fund for the Moyer-Haywood case will now begin in earnest. Not only will the labor unions of the United States be appealed to, but the labor unions of Canada, Europe and Australia as well."

BRIDGEPORT, Conn., April 27.—The main building of the Housatonic Rubber Company's plant here was damaged \$10,000 by a fire today.

Magee's Silk Hats.

When you purchase a Silk Hat buy only the BEST—one full of quality, style and comfort.
Try Magee's.
Three Qualities, \$4.00, \$5.00, \$8.00.

Our Silk Hats are American-made—excellent quality satin is used in their make-up—the style is a copy of one of New York's leading styles, and they are finished up with cushioned sweat bands to fit easy on the head. The silk bindings and bands are of extra quality.

D. MAGEE'S SONS, 63 King Street.

DIRECTORS DISAVOW THE PROSPECTUS

The hearing of evidence was concluded yesterday afternoon in the equity suit of Michael Farrell v. James Manchester, R. C. Elkin and the Portland Rolling Mills, Limited. Counsel will present their arguments this morning.

The plaintiffs case closed yesterday morning with the testimony of Arthur McDonald, local manager of the Bank of New Brunswick.
In the afternoon the defendants, Jas. Manchester and Robert C. Elkin, were examined and the defendants rested their case. Mr. Elkin was first called. He said that in June, 1903, he as manager and a director of the Portland Rolling Mills, engaged F. S. Sharpe to sell \$20,000 worth of Rolling Mills stock. Mr. Manchester, the president of the company, had, he said, approved of his hiring Mr. Sharpe. At Mr. Sharpe's request the witness gave him full access to the company's books and requested Eben Perkins, the superintendent, and Mr. McIntyre, the secretary, to aid Mr. Sharpe in every way within their power. Witness said that Mr. Sharpe had come to him with the prospectus before it went out, and asked him to look through it. He did so, and took objection to parts of it, especially that part where it was stated that the directors would increase their holdings, he having been under the impression that there was no express understanding that the directors were to increase their stock holdings. The paragraph which set out that the directors had taken up all the stock with the exception of "a small outside interest," he also objected to, for he recalled that the Baird estate held about \$15,000 in stock, equal to one-third of the company's paid-up capital.

The prospectus contained no statement of a dividend having been paid and he objected to it on that ground also. In the end saying to Mr. Sharpe that he would rather not have the prospectus issued. He raised the same objections to Eben Perkins, with whom he discussed the prospectus.
Mr. Perkins, who was examined under commission in Chicago last fall, swore that the prospectus was put into his hands by Mr. Elkin, who approved of it in his (Perkins's) presence.
"Mrs. Elkin was not cross-examined by counsel for the plaintiff, and Mr. Manchester was called. Mr. Elkin, he said, was the only person that ever showed him the prospectus, and he had never given his approval of it. Neither statement had been approved by the board of directors.
Mr. Perkins's evidence was to the effect that he personally handed the prospectus to Mr. Manchester, and that while the latter did not open and read it, he took it and retained it in his possession. Mr. Perkins, moreover, swore that Mr. Manchester had authorized him to write the letter signed by the company and accompanying the prospectus.
Mr. Manchester said that he had seen the letter. He had, he said, strongly protested against selling Rolling Mills stock at 70 cents, or at any figure below par. The board, however, resolved to sell it at 70, but the resolution was never carried into effect.
This closed the defendant's case. After Geo. V. McInerney, K. C. had cited authorities, at the request of the court, adjournment was taken until 10.30 this morning.

Mr. McDonald of the Bank of New Brunswick, was examined by G. V. McInerney, of the plaintiff's counsel and stated that in 1903 the Portland Rolling Mills Co. was indebted to the Bank of New Brunswick for about \$101,000, and there was an overdraft of \$45,000 included in this indebtedness.

TOO LATE FOR CLASSIFICATION

TO LET—Two parlors on first floor. Very pleasantly situated having southern exposure. Suitable for a gentleman and wife. BOX 132, Star Office. 27-46

WANTED—Competent collector—man between 25 and 30 who understands handling and collecting accounts. Thorough knowledge of city required. 331 Prince William street. 27-43

FOR SALE—Baby Carriage, \$7.50. Mouth strap. Call evenings. 27-43

GIRL WANTED—Capable girl for general housework. MRS. G. F. CALKIN, 159 Wentworth street. 27-44

LONDON, April 27.—In the second round of the international court tennis tournament today Jay Gould defeated E. S. Noel, 6-4, 6-2, 6-3.

The C. P. R. liner Lake Erie is expected to sail tonight. Among those who will take passage on her will be a party of the United States. The party arrived here yesterday.

ROYAL CASTLE OF GREECE WHICH IS SAID BE TO HAUNTED BY GHOST

ATHENS, April 27.—The castle shown here belongs to King George of Greece and is haunted by "an extremely tall woman with a skull-like head and long white hair," who has scared many of the royal servants out of their wits.

PROGROGATION THIS AFTERNOON Business Before Parliament is About Finished

Senate Rushes Matters and all Will be Glad That Session is Ended—No Desire to Obstruct.

OTTAWA, April 26.—Parliament will prorogue tomorrow. In both houses business was concluded tonight with the exception of a few minor tasks which can be performed tomorrow morning.

The members and senators unless something unexpected intervenes, will be ready to receive the Governor General tomorrow afternoon. In any event Earl Grey and his associates will be welcomed tomorrow evening.

Both houses were busy today putting bills through all their stages and where there was seen any desire to obstruct.

The senate in a couple of hours put through the provincial subsidy address, which it had been stated would engage their attention two days.

Mr. Borden moved the annual appropriation bill, charging the government with extravagance. The estimates have increased from \$47,800,000 under the Conservative government to \$58,100,000 this year. Taxation had increased from \$5 to \$10 a head.

Fielding said there had been several budgets this year. He had some time ago brought down the government's budget of hope and good cheer. Mr. Borden had now brought down his budget of gloom. There was no doubt the expenditure had increased, but so had the revenue and both for the same cause, the great growth of Canada and the increase of Canada's prosperity, owing to the wise administration of the present government.

The leader of the opposition had made an unfair statement of the estimates, as he had made no allowances for revives. In the last Conservative days the trade of Canada amounted to \$23,000,000, and last year it was \$51,000,000. Mr. Foster said the government forced extravagant expenditures on the country by means of a brute majority.

The amendment was defeated, 91 to 43. Mr. Barker complained that the affidavits sent out by order in council to be administered to voters in the last Dominion election had been improperly framed; important references to the living of terms and to bribery and corruption had been omitted.

Mr. Crawford urged the necessity of changes in the preparation of voters' lists in Manitoba.

In the hour of private bills Archie Campbell talked out the Hamilton radial bill.

Mr. Combes in a two hour speech defended himself against attacks on him in regard to dredging contracts.

The opposition criticised the government bill to take over the bonds of the Quebec Bridge Co.

PLACED IN JAIL FOR ASSAULTING WOMAN.

NEWCASTLE, April 26.—Miss Sophie M. Legere was summoned to Nelson yesterday to see her father, who while working in Hon. John P. Burchill's mill, fell fifteen feet and hurt himself very badly.

Two young men of the town, convicted of insulting a woman on the street, are in jail for time to reflect.

Wednesday night Rev. H. C. Rice united in marriage at the parsonage here Richard G. Scott and Miss Annie Brackett of Strathadam. The bride formerly belonged to Lawrence, Mass.

William MacCrae, an employee of the Royal Hotel, was fined yesterday \$10 and costs for his first violation of the Canada Temperance Act.

Domitien T. Robichaud, editor of La Justice, is visiting his former home in Inkerman, Gloucester Co.

Cameron Smallwood, victim of the Milleron smash-up, will not work any more for several months.

Robert Wright was sent to jail recently for supplying liquor to an Indian, Thomas Sunnystay, who with two other red men became intoxicated. The three reds were also fined, and in default of immediate payment went to jail. Wright's fine was \$50 or two months; Paul, \$25 or one month; Sunnystay, \$35 or two months; Francis, \$5 and costs.

Before you get Pen-Angle garments all the shrink is taken out. Pen-Angle underwear keeps you cozy as well as warm, because the short fibres that make some underwear itch are taken out of Pen-Angle wool.

In a variety of fabrics, styles and prices, in all sizes for women, men and children and guaranteed by your own dealer.

SOME IMPORTANT CHANGES MADE Alterations in Fishery Laws Affect Maritime Provinces

Close Season for Oyster Fishing is Made Longer by a Month—Regulations Governing Hard Shell Fishery.

OTTAWA, April 26.—A change in the fishery regulations affecting the Maritime Provinces has been gazetted. Close season for oyster fishing from the 1st May to the 22nd September, both days inclusive, in each year, is rescinded and the following is substituted in lieu thereof:

Oysters shall not be fished for, caught, killed, bought, sold or had in possession from the 1st day of April to the 28th day of September, both days inclusive, in each year.

"The use, for taking oysters on oyster beds, of quahaug rakes, tongs operated by purchase power, or tongs or rakes other than the ordinary ones now in use in oyster fishing in Prince Edward Island and New Brunswick is prohibited."

The following regulations governing the hard shell, or quahaug fishery are made and established:

1. No one shall fish for or catch hard shell clams or quahaugs without a license from the minister of marine and fisheries. The fee on each such license shall be one dollar per season.

2. No one shall fish for, catch, kill, buy, sell or possess hard shell clams or quahaugs, excepting during the months of May, June and September, in each year.

3. No one shall fish for, catch, kill, buy, sell or possess hard shell clams or quahaugs of a less size than one and one-quarter inches in length, and any such hard shell clams or quahaugs measuring less than one and one-quarter inches in length, on the outer shell, that may be accidentally caught, shall be returned to the water alive by the person so fishing.

4. The use of rakes for catching hard shell clams or quahaugs, having teeth less than one and one-quarter inches apart is prohibited.

PEARY REQUIRES \$60,000 FOR TRIP Explorer Gets Ready for Another North Pole Quest—Confident Money Will be Subscribed.

NEW YORK, April 26.—Robert E. Peary, more hopeful than ever of reaching the Pole, is rushing his preparations to take the Roosevelt north again. He hopes to leave New York by the end of June or in the first week in July. After wintering on the northeast coast of Grant Land he will make his dash for the coveted prize in Peary and hopes to return triumphant about fourteen months after starting from New York.

His equipment will be virtually the same as for the last expedition, but in some respects his plans for the final dash have been changed by his experience last year. Instead of heading north from Grant Land he will travel in a northwesterly direction so as to counteract the easterly drift of the ice, and in return he will lay a course for the north coast of Greenland, to which he was driven against his will when lack of provisions forced him to turn back a year ago.

Only the lack of absolute certainty that enough money will be forthcoming to finance the expedition is troubling him, and that not to any considerable extent. So far he has \$40,000 in hand and from \$5,000 to \$10,000 in sight, but there still remains \$20,000 to be subscribed before it will be possible for the expedition to start.

"It is incredible, with so many men in New York who could spare \$100,000 without missing it, that the expedition should have to be abandoned for lack of funds," said Mr. Peary yesterday. "Honestly, I have no doubt that the money will come from somewhere, though I have no absolute assurance of it as yet. Personally I should prefer to have one hundred men give \$100 each than to have one man give \$100,000, because the wider circulation of interest which would result, but whether the necessary \$20,000 or \$30,000 is raised by popular subscription or by a few individuals I am satisfied that there will be no great difficulty from that source."

Mr. Peary regrets that a statement was recently made that he had \$300,000 in hand to finance his expedition. "Forty thousand is the absolute limit of my resources so far," he said, "and the expedition cannot start until the amount is increased to \$100,000."

"Contrary to some reports, the Roosevelt has not been injured structurally in the least," he said. "With a new boiler battery she will be even more able than she was two years ago. Captain Bartlett and the other officers have agreed to go with me again. I hope to have Dr. Wolf and Mr. Marvin, but the sailors and firemen will be new. The sailors will be recruited from the Newfoundland sealers, and the firemen will be Americans."

\$1,500.00 a Year For Life—How an Investment in This COPPER MINE WILL GIVE YOU AN INDEPENDENT INCOME

THAT'S what most of you want! A permanent income that comes in regularly month after month, year in, year out—something that we can depend upon to relieve us for all time of the work, worry and anxious thought involved in earning a living working for others, dependent upon the hundred and one chances and vicissitudes that attend salaried employment.

How would you like to be absolutely relieved from all anxieties to the future? How would it seem to you to be able to say "I am free and independent, because I have an assured income for life. I fear nothing—loss of position, sickness, accident, failure in business, mean nothing serious to me, for whatever happens, I am provided for."

What an immense relief that would be, wouldn't it? What a black cloud of sickening suspense and heart-breaking doubt and uncertainty as to the future, it would remove from your mind if you could truthfully say you had an independent income for life!

It would solve most of your troubles and perplexities. It would give you a renewed hope for the future and make life, indeed, better worth living.

A Sure Road to Fortune. Now, I offer to every reader of this paper, who is struggling to better his condition, a chance to escape once and for all time the drudgery and weary monotony of ceaseless round of work and worry trying to make "ends meet" and get ahead.

But, I want to say right here, before going further, that I will not knowingly accept one single penny from any investor—man or woman—who is not thoroughly convinced that this property is right in every respect.

I positively will not urge any one to go into this, unless he or she is ambitious to do better and make more money than at present. That is my only excuse for permitting any outsiders to join their money with mine and that of my business associates in working this magnificent copper property of 600 acres.

If, therefore, you are now perfectly satisfied with the returns you are getting on your present earnings and investments, please ignore this altogether—just forget that I offered you the chance to make more money safely and quickly, and an income for life.

Big Returns for You: Money, But—if you are not satisfied with present conditions—if you want to better yourself and make more money rapidly, then I heartily welcome you and invite you to join us in this big enterprise!

When I say that an investment in this company will provide you a steady income, I do not resort to mere guess work, but found my conclusion on the basis of fact. Figuring on the actual experience of others, which is so good as our own, I predict \$3.00 shares for this stock within one year.

Take one of our neighbors, the GRANDBY mine, for example. It is one of the richest properties in the district, yet I do not concede for a moment that the GRANDBY is a better property than ours. Simply this: Ours is in a smaller stage of development today—that is all the difference.

About ten years ago the owners of the GRANDBY mine were doing just what I am doing today, namely, advising the investors of this country to come in with them and share in the profits which they knew were sure to accrue once the mine was thoroughly opened up.

BRITISH-AMERICAN COPPER MINES & SMELTER CO. Financial Agents: J. C. KERNOHAN COMPANY, Williamson Building, Cleveland, Ohio. NEW AMSTERDAM SECURITIES CO., 838 Old South Bldg, Boston, 3rd Floor Flat Iron Bldg., New York, N.Y. 1215-16 Penn. Square Bldg., Philadelphia, Pa. Recter Building, Chicago, Ill.

HOW YOU CAN BUY STOCK 100 Shares, \$20.00—\$20.00 Cash; balance 4 equal monthly payments. 200 Shares, \$40.00—\$40.00 Cash; balance 4 equal monthly payments. 300 Shares, \$60.00—\$60.00 Cash; balance 4 equal monthly payments. 400 Shares, \$80.00—\$80.00 Cash; balance 4 equal monthly payments. 500 Shares, \$100.00—\$100.00 Cash; balance 4 equal monthly payments. 1,000 Shares \$200.00—\$200.00 Cash; balance 4 equal monthly payments.

LICKING UP HONEY DIES SWEET DEATH With His Head Jammed in a Beehive, Marauding Bear Makes a Last Raid.

NEW YORK, April 26.—Gluttony has proved the undoing of the bear with the enormous appetite which escaped from two Italian mountebanks and which for weeks had been feasting off the farms of northern Morris county, N. J., without regard to the distinctions of property.

discretion and life, but he died as he would have lived, in the enjoyment of a hearty meal. It was a sweet death, too. For his head was "suctorially wedged in a beehive, where he was licking up honey aplenty, when Arthur Zellit and Thomas Doremus, two of the farmers who had suffered from his depredations, emptied a couple of heavy charges of buckshot into his well-fellied body at close range.

This happened yesterday morning, after an armed posse had searched the mountains for the best part of the night. Dogs were used in the pursuit and bruisers were traced to the edge of a deep ravine on the side of Traylortown Mountain. Darkness halted the farmers, but one of the dogs, a brindle full belonging to Zellit, was sent into the ravine. He did not return and this morning his mutilated body was found at the foot of a great oak.

It was on the farm of Israel Blauvelt, near Taylortown, that Zellit and Doremus finally came upon Braun with his back toward them. He could not hear of property.

High living and apparent immunity from capture caused the animal to lose them, for he had upset one of the bee-

hives and his head was fast in it. Probably in the enjoyment of his honey he did not know what hit him, for he expired forthwith.

There will be a lap robe on one farm, house floor soon and bear steaks in many Morris county homes.

MR. BRYAN GREETED BY LARGE AUDIENCE NORTH STRATFORD, N. H., April 26.—Mr. Bryan accompanied by a committee of residents of this town who met him at Hanover arrived here early this evening and later delivered a lecture in the opera house. A large audience gathered for the occasion.

On his way here this afternoon, his train made a stop of 15 minutes at Littleton where a crowd of hundreds of persons stood in a pouring rain to see him and listen to a brief address. Tomorrow Mr. Bryan leaves for Berlin, N. H.

PROMOTERS TALK WITH LAURIER Premier Inquires Minutely Re BlackSod Halifax Scheme

Proposal Did Not, However, Receive Much Substantial Sympathy From Sir Wilfrid—Blow to Toronto.

LONDON, April 26.—Sir Wilfrid Laurier's presence in London has been taken advantage of by promoters of the BlackSod Bay-Halifax route. A long conference, the Canadian Associated Press understands, has taken place between Sir Wilfrid and the promoters during which the Premier inquired minutely regarding the proposal. It is said the promoters did not receive much substantial sympathy from Sir Wilfrid, but the Canadian Associated Press is assured on good authority that the project of the service with steamers equal to any on the New York route is receiving the most earnest consideration, and that possibly before Sir Wilfrid leaves, an important announcement in connection with the establishment of a fast line of steamers from some port in England may be made.

Frederick Borden, interviewed by the Canadian Lloyd's, declared the premises required here on the St. Lawrence business are too high in view of the government's improvements to the St. Lawrence.

The judicial committee of the privy council today gave judgment in the appeal of the corporation of Toronto versus the Toronto Railway Company and the Toronto Railway Company versus the corporation of Toronto.

Their lordships advised that an order be made declaring and ordering that neither the city nor the company has any street railway powers under the act in question, and that the agreement covering the new territorial additions to the city during the term therein mentioned, that under clauses 14 and 17 of the St. Lawrence act, the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to build to another person or company for failure of the company to establish and lay down new lines and to effect the same for traffic or to extend the tracks and services upon any street as provided by the agreement is the only remedy for the company, not the city, and that the city shall be bound to SEVEN

DR. PUGSLEY NOMINATED; CONVENTION UNANIMOUS

The Candidate's Speech of Acceptance Received With Enthusiastic Acclaim—The Interests of St. John is His Inspiration and Its Service His Chief Aim.

Last night one of the most enthusiastic nominating conventions ever held in St. John took place in Berryman's Hall. One hundred and thirty delegates were present, and when the one hundred and thirty ballots were counted it was found that every vote had been registered in favor of making the Hon. William Pugsley the liberal standard bearer at the coming election. The announcement of the result of the balloting provoked a scene of wild enthusiasm. When it subsided the liberal candidate delivered a brief speech.

Shortly after eight o'clock the meeting was called to order by nominations for chairman. A. O. Skinner nominated Mr. McAvity for the position, and he was elected by acclamation. Herbert Keith was made secretary in the same way.

Chairman McAvity then ordered the roll of delegates to be called. A few were absent but substitutes were ready to take the places of most of these. On the motion of A. O. Skinner the meeting proceeded to the nomination of candidates and balloting. Thomas Gorman nominated Hon. William Pugsley as candidate for the Liberal party, and he was unanimously seconded.

In the 70's also, when Portland, Me., was made the Atlantic port of Canada, he (Pugsley) had supported the cause of St. John. In 1888 he saw him an independent. The result of the general elections in that year removed the two questions mentioned. The advances made by Canada under the Liberal rule had attracted him to the party. At the present time it was led by a leader who was loved by the people as no other leader had been. He alluded to Sir Wilfrid Laurier. (Applause.)

Will Outline Policy
On Wednesday at the ratification meeting he would speak on some of the questions of the day. Before that time, however, he hoped to meet Mr. Emmerson in Ottawa. Regarding Mr. Emmerson, he said he expected soon to see him occupying his former position in the government. (Cheers.) Dr. Pugsley concluded his remarks with thanks to the delegates for the nomination.

Dr. Pugsley Accepts
He began by expressing his extreme gratification at being made unanimous nominee of the Liberals of St. John city and county. The occasion afforded him all the greater pleasure on account of the nomination being assigned to his seeking. He had suggested to no one that he be made a candidate, but had said that if he desired for his nomination was very wide spread.

FAMOUS SURGEON DROWNED IN DANUBE

Professor Who Introduced Iodoform Accidentally Fell into the River and Was Carried Away.

BERN, April 26.—Professor Albert Ritter von Moseitz-Moorhof, the famous surgeon and introducer of iodoform, accidentally fell into the Danube today and was drowned. The body was not recovered. The professor was subject to sudden fainting fits due to calcification of the arteries and according to eye-witnesses he apparently fell faint and leaned over the river bank to bathe his face. In doing so, he lost his balance, fell into the water and was carried away by the swift current. The death of Professor von Moseitz-Moorhof has caused public sympathy. Besides having introduced the use of iodoform in surgical cases, he had an international reputation as the originator of a method of treating caries, the ulceration and decay of bones, with a filling composed of a preparation of iodoform and petrolatum. This proved of the highest value in cases of compound fracture of the bones of the arm, leg often rendering amputation unnecessary. Professor Moseitz-Moorhof, was 69 years old.

MAY BE VIA VANCOUVER

WELLINGTON, New Zealand, April 26.—The attorney general states that there is considerable prospect that through the influence of Sir Wilfrid Laurier, the mail service being arranged by Sir Jos. Ward, may be via Vancouver.

MAYOR STILL HAS HIS EAR TO THE GROUND

Waiting Until the Public Mind Becomes More Tranquil Before He Makes a Definite Statement.

Mayor Sears, when informed of the result of the Liberal convention last evening, said to a Sun reporter that he intended to continue his canvass of the constituency until he ascertained what the feeling of the electors was towards his candidature. The present time, he thought, was not propitious for making a definite statement concerning his intentions. Some future occasion when the public mind was not excited by nominations and conventions would be the time when he could find out the trend of public opinion and definitely announce his candidature or retirement.

When told that Dr. Pugsley claimed to have Conservatives as well as Liberals supporting him, Mayor Sears said that he could well believe it, as the present Liberal party had let down the bars to such a degree that the party could include anything that came to it. His worship further stated that many of those whose names appeared on Dr. Pugsley's requisition papers had told him that they signed only on the understanding that there was to be no opposition to Dr. Pugsley.

Donaldson Liner
MARINA FIRST BOAT
TO REACH ST. LAWRENCE
MONTREAL, April 26.—The first boat to arrive in Canada this season via the St. Lawrence route will be the Donaldson liner, the *St. Lawrence*, which was reported at Father Point, 296 miles below Montreal, at 9:15 this morning and will arrive in Quebec tomorrow morning. Curiously enough, the date of the arrival of this vessel is almost coincident with the arrival of the first ocean vessel last year, when the *Montreal* first came up the Gulf. Last year she arrived on April 23, and this year it will be April 27. She will not remain at Quebec longer than is necessary. It is expected that the ice at Cap Rouge will go out with tomorrow's high tide.

BRITISH COLUMBIA DECLINES TO RECOGNIZE THE LORD'S DAY ACT

VICTORIA, B. C., April 26.—The provincial government at the close of the session today announced its attitude on the Dominion Lord's Day Act, declining to assent to any of the prosecutions under the act. The Lord's Day Alliance is up in arms, declaring the act to be a violation of the constitution with the provinces to enforce the law. The government's reply is to go and fight that out in Ottawa.

MISS ALICE COOPER

Word was received here last evening of the death in Malden, Mass., yesterday, of Miss Alice M. Cooper, formerly of St. John and a sister of Mrs. Samuel Edgart, also formerly of this city, who was on the travelling public having been connected with the Eastern S. S. Line in the capacity of stewardess for many years. She was on the old Cumberland when that steamer was run down and sunk in Boston harbor three years ago and it is to that accident that the cause of her death are traced. She was in the chilly waters of the harbor until exhausted. She contracted a heavy cold from which she never fully recovered. The body will be brought to St. John for burial.

QUICK CHANGES

The moving picture stories unfolded at the Nickel entirely do away with those long and painful waits incidental to similar productions upon the stage. In this way a drama that would ordinarily cover three solid hours is squeezed into probably fifteen minutes, and the tale suffers nothing from the condensing process. Yesterday's programme, which will be repeated today, includes five such dramas.

MINNEAPOLIS, Minn., April 25.—Fire totally destroyed the Wisconsin Central freight depot in this city today, entailing a loss of \$400,000. The cause of the fire is not known.

ORIGORSETS
Modelled upon scientific principles a series of curves of grace and elegance is comprised in every pair of O.R.G. Corsets. You can buy a "D. & A." at various intermediate prices ranging from \$1.00 to \$6.00. Are Fashionable Models.

Spring Wear for Men

At the Oak Hall Branch Store, 695 - MAIN - STREET.

The same good clothing and the same good store service is given you here at our Branch Store as at our Main Store on King Street. The Spring Suits are striking examples of the perfection we have attained in providing the needs of Men before those needs are expressed. We don't offer you clothes like everybody's. We don't tempt you with a price that looks low. We do tempt you with quality—and style—and originality.

By constantly demonstrating to more Men all the time that their needs are best provided at our Stores, we are broadening and increasing this business every day.

SUITS, \$5.00 to \$15.00

ANOTHER BIG DRUG MERGER LIKELY

National Drug Company May Take Over
Henry K. Wampole Drug Man-
ufactory at Perth.

TORONTO, April 26.—The National Drug Company, the big \$6,000,000 merger that was consummated some months ago is opening negotiations with the purchase of the Henry K. Wampole Drug Manufactory at Perth. This house has for years been recognized as one of the best in America. Curiously enough, it was the death of Henry K. Wampole, who committed suicide some time ago, the business has received a set-back. The object of the merger is to manufacture their own specialties and standard supplies. The question has been raised of Ontario's right to charter a temporary employees' fund, which the province has been doing ever since confederation. It will be tried in the supreme court at Ottawa on May 7th.

JEALOUS OF GIRL AND SHOT HER

Perry Sound Youth Then Killed Himself
—Parties Were Germans—Bodies
Found in Bush.

PARRY SOUND, April 26.—Word has just been received here of a murder and suicide in the vicinity of Arnshein, a little village in the northern part of the Parry Sound district. In a farmhouse near Arnshein lived an old couple named Supelisa, the fifteen-year-old daughter of the husband and a son of the woman by a former marriage named Frank Varasko. Varasko was jealous of the girl speaking with any other of the young men of the neighborhood. Varasko and a number of other young men had been drinking rather heavily for some time. About three o'clock Monday afternoon the girl, Perry Supelisa, was employed in a sugar bush, being sap, when it is believed Varasko shot her, and then going some distance into the woods shot himself, both being killed. After finding the body of the girl search was made for Varasko by C. K. Arthur, J. P. and Anton Wagner, and his body was found a short distance away in the woods. The parties are Germans.

THREE HUNDRED TRAFFIC MEN AT ANNUAL DINNER.

PITTSBURG, Pa., April 25.—Three hundred more railroad presidents, vice presidents, freight agents, traffic managers and other officials, besides manufacturers and all classes of shippers of freight, were guests at the Traffic Club of Pittsburgh tonight at its fifth annual banquet at the Hotel Schenley.

RAILWAY PRESIDENT DIED ON THE SHIP

David Wilcox Was Returning From Italy
Where He Had Come in Search
of Health.

NEW YORK, April 26.—David Wilcox, formerly president of the Delaware and Hudson Railway Company, died at sea last Wednesday on the North German Lloyd Line steamer *Barbarossa*, which arrived at quarantine tonight from Genoa and Naples. The body was brought to port. The immediate cause of death was heart failure. Mr. Wilcox had, however, been in ill health for some time and recently went abroad for a protracted rest. Not improving as he had hoped, he called his resignation from the presidency of the Delaware and Hudson road, which at his earnest solicitation was accepted several days ago by the directors. His successor is L. E. Love.

CARLETON BAND FAIR

Following are the Carleton Band Fair prize winners: Door prize, P. J. Higgins, parlor lamp; M. Johnston, nickel plated kettle; H. Anderson, gentleman's dressing case; D. Black, fountain pen; D. Ring, silver crucifix. Mr. Ingalls was followed by Mr. Hamlin, whose topic was "public duties of the citizen."

ATTEMPT TO WRECK D. A. R. ACCOMMODATION MADE LAST EVENING.

HALIFAX, N. S., April 26.—An attempt was made this evening to wreck the D. A. R. accommodation from Antigonish for Halifax, near Mount Allison, by placing spikes on the rails. Promptly in the train crew making the discovery and slackening speed averted a disaster.

COTTON WORKERS ASK INCREASE IN WAGES

MONTREAL, April 26.—The Montreal cotton workers have made a request for a five per cent. increase in their wages. If the same is granted, about 5,000 persons will be benefited including the employees in the St. Henri St. Anne, Hochelaga, and the Manx cotton factories which are all owned and operated by the Dominion Textile Co. A conference between the representatives of the workers and the officials of the Dominion Textile Co. will be held early next week. Unemployed cotton operatives are asking for a fifteen per cent. increase effective on May 1. Trouble is not expected by the officials of the union.

NOTICE TO ADVERTISERS.

APPOINTED AT SALARY OF \$400

Chief Assessor for Freder- iction Chosen Last Night

Succeeds Dr. Henry Who Resigned—One Alderman Said Several Men Were Anxious to Take Job at that Money

FREDERICTON, N. B., April 25.—A special meeting of the city council held this evening, at which the full board was present, L. W. Johnston was appointed chief assessor at the maximum salary of \$400. As the position is one of the greatest importance and requires by the oath of office taken by the chief assessor that he shall devote the whole time to the service of the city to be consulted upon a man accepting the position, as some of the aldermen termed it, at "a beauty" and insulating salary.

The meeting this evening was of an exceptionally lively nature and some of the language used might be termed as not being strictly parliamentary. The meeting had been called in consequence of Dr. Henry, who had been appointed chief assessor at \$400, declining to accept it and it was necessary to appoint a successor. After Dr. Henry was appointed at the last meeting it was taken for granted that he would not accept the position, as formerly he was not called upon to devote his whole time to the office and a renewal of the same with the oath attached, and the requirement to carry the new assessment law into effect, was considered by Dr. Henry and his friends in some form of an insult. His resignation came as no surprise. His worship at the opening of the meeting stated Dr. Henry had declined to accept the position at the salary mentioned.

Alderman Everett then moved, seconded by Alderman Aldham, that the whole question be reconsidered. The motion was defeated, only the mover and the seconder supporting the resolution. Ald. Scott moved that applications for the vacancy be received by the city clerk up to April 28th, from which a choice might be made.

In making his motion Alderman Scott spoke very strongly and said there were several who would apply for the position at \$400 salary. Alderman Kelly supported Alderman Scott's resolution. Alderman Hooper moved as an amendment that the council proceed at once to fill the vacancy, as it was necessary under the law that tax notices should be sent out by the first of May. Alderman Hooper made some very spicy remarks, in which he accused those who had treated Dr. Henry after his faithful services to the city as being nothing more than a "free out" and stated in so many terms that the action of the council in asking its chief assessor to work at a salary of \$400 was condemned by all citizens and he would place himself on record in making these remarks.

Alderman Moore seconded Alderman Hooper's remarks in a few pointed remarks, and Ald. Hanlon spoke strongly in favor of the amendment. The amendment being put to the council, it decided evenly and the mayor gave his casting vote in the affirmative. Ald. Scott then moved that L. W. Johnston be appointed chief assessor, and this was seconded by Ald. Hooper and carried unanimously.

In seconding the resolution Ald. Hooper struck out from the shoulder. He said that Dr. Henry wished to convey to the council his thanks for past courtesy and also inform the council that if he had been appointed over at a salary of \$800 he would not have accepted the position after the way he had been treated by the council at its last meeting, that body asking an intelligent man to accept the responsibility of chief assessor at the meagre salary of \$400 was nothing more than an insult, and that he would accept no position from the present City Council at any salary, as he considered it would be a disgrace.

It is raining here tonight and the river continues to rise gradually. The tug Randolph arrived this afternoon and the Lord Roberts this afternoon.

ONLY ONE "BROMO QUININE."

That is LAXATIVE BROMO QUININE. Similarly named remedies sometimes deceive. The first and original Cold Cure is a WHITE PACKAGE with black and white lettering and bears the signature of E. W. GROVE, 25c.

FIRE GUTTED RESIDENCE OF J. N. GREENSHIELDS, K.C.

MONTREAL, April 26.—Fire this afternoon gutted the residence of J. N. Greenshields, K. C., on Upper Peel street, doing damage estimated at \$60,000. The fire, which is of unknown origin, spread so fast that a maid on an upper floor at the time had to jump from the gallery, breaking a leg.

THE WEATHER.

Forecast—Moderate west to north winds, cloudy with local showers, Sunday variable winds, fair and not much change in temperature.

Synopsis—There is no disturbance of any consequence indicated by this morning's chart. The weather continues cold and wintry in the Western Provinces. To Banks, moderate west and northwest winds. To American Ports, moderate variable winds. Sable Island, southwest wind, 18 miles, clear. Point Lepreau, northeast wind, 12 miles at 11 a. m.

Highest temperature during last 24 hours, 50.

Lowest temperature during last 24 hours, 35.

Temperature at noon, 47.

LOCAL NEWS.

Miss Florence Black returned this morning from Baywater, where she has been teaching school.

Harry Perry of the Boston and Maine line is visiting his brother, Conductor Tobias Perry, in Lancaster.

Miss Mary E. Moore, of Paradise Row, left Thursday morning for Pictou, Nova Scotia, to visit her aunt, Mrs. Fred Gratton.

Policeman Robert Lawson of Fairville was in the city this morning, having recovered from a severe attack of pleuro-pneumonia.

Registrar Jones reports that there were fourteen marriages in the city last week. There were sixteen births recorded, nine of the infants being males.

Mr. and Mrs. Jos. Dryden, of Chesley street, received word yesterday of the sudden death in Boston of Wm. P. Denning, Mr. Denning, who was a general favorite, had many friends and acquaintances in this city who will regret to hear of his untimely death.

Services in Trinity Church on April 28th, 4th Sunday after Easter, will be as follows: 8 a. m. Holy Communion; 11:05 a. m. morning service and sermon; 7 p. m. evening service and sermon. Rev. J. B. Revington Jones, who is leaving for Toronto early in the week, will preach at both services.

The Unwritten Law and hundreds of other interesting motion pictures are being shown by the English Cinema Company at St. Andrew's Rink, Charlotte street. The show is pronounced one of the best in the moving picture line. Crowds are nightly attending and the enthusiasm is conclusive proof that the attraction is a good one. The show will be continued tonight and for the first half of next week.

Rev. Gleason Swin, who has been supplying the Victoria street Baptist pulpit for some time, will conclude his engagement there tomorrow. There will be baptism at the morning service and in the evening Mr. Swin will preach his farewell sermon. Owing to poor health, he is compelled to give up regular work for a year, but will continue in the city for that time.

Only two prisoners were in the police court this morning, and both were remanded to jail. John Nagle, who has only been out of jail a few days, having served the best part of the winter and spring for abusing his sister, was this morning charged with being drunk and begging. The other prisoner was George Marshall, who was given in charge of the police by James Garnett for wilfully breaking windows in his shop at 711 Main street.

A. C. Dutton and Co., of Springfield, Mass., and John Henderson and Co., of Springfield, Mass., have purchased the A. C. McNair timber lands with shingle and saw mills at Jacquet River and Louloun, and also the timber lands of Mr. Dutton, of Jacquet River. In all 92,000 acres of valuable land and three saw mills have been purchased. The price paid for the McNair property is said to be in the neighborhood of \$40,000. This has been one of the biggest transactions that has taken place along the North Shore for years.

Interest in the unique entertainment in St. David's school room on Monday evening under the auspices and in support of the Free Kindergarten is general. Tickets have been purchased at N. B. Smith's, Wade's, Travis's, Hawker's, Brown's, Dick's and Paddock's drug stores and at Simonds's and Gilbert's groceries, so that all sections of the city can be accommodated. The entertainment is called a Toy Symphony and Wax Works exhibition and will be a most pleasing novelty in which some of our best known local performers will take part. The object is a most worthy one.

The freshet reached a high point at Indiantown today. The water was over the public wharves and a swift current was running. The steamers have no trouble now in getting up as far as they wish. The Crystal Stream left on her first trip of the season this morning at ten o'clock. H. H. Mott was a passenger. He took several horses up to his stock farm on the Washdemok Lake.

The Springfield and Elaine left at noon.

The tug Murray left Indiantown at nine o'clock this morning. She went as far as South Bay where she succeeded in freeing a large number of logs.

The local mills will resume operations on Monday, as plenty of logs have arrived. The river from Milldeveville to Baywater is now open, but the Maggie Miller has not yet gone on the route. The river at this place will probably be choked with drift ice for several days yet, as it is the junction of the two rivers and the ice accumulates.

EARLE THE INVENTOR STRIKES BALTIMORE

A Well Known Character Who Once Lived in St. John

Has Been for Years Floating a Luminous Mast-Head Schem—Travels from Place to Place Promoting the Affair

R. H. Earle, who claims to be an inventor by profession, and whose affairs are quite familiar to many St. John business men, particularly the patrons of a certain popular tonorial establishment, has struck no less an important burg than Baltimore, Md., and this is what the American of that place has to say about him.

"Mr. R. H. Earle, of St. John, Newfoundland, stopped off in Baltimore yesterday en route from Hummelstown, Pa., to Washington. Mr. Earle is the inventor of two marine distress signals for use on vessels and boats of all descriptions, submarine in particular. His inventions have been endorsed by experts in the navy and merchant service, and also by French and British experts. He is going to Washington to consult with the United States naval experts, who have promised him a hearing and an opportunity to demonstrate his inventions. From Washington he will proceed to Canada and Great Britain, where he will give demonstrations of his inventions. This is Mr. Earle's first visit to this city for 14 years. He said he had no idea it was so far superior to Boston."

To those who have run up against this travelling man with the invention, the quotations were such as to give him a serious newspaper notice such as the above reads like a Mark Twain selection. When in St. John Earle experienced considerable difficulty in trying to find his Luminous Mast-Head corporation. One well known citizen is said to hold a certificate for stock which it is claimed was bought when his office is usually contained in his inside pocket. His stock certificates are made out in regular printed form, and in numerous other ways he is conducting his flotation enterprise quite as cleverly and every whit as "substantially" as many a more pretentious promoter.

INTERCOLONIAL FREIGHT SHED COLLAPSED THIS MORNING

No. 3, at the Foot of Sewell Street, Has Tumbled at Last—Was Not Used for Regular Work

No. 3 I. C. R. car shed is no more. At 9 o'clock this morning the structure collapsed, and it now presents the appearance of a building after an earthquake has wrought havoc with it. Fortunately no men were working in the shed when the fall occurred, as wood and bricks fell to the floor, and had any one been in the shed the occurrence would surely have ended fatally.

The collapse had been expected for some time. For this reason the shed for the past three years has been used only as a store house and regular work has not been carried on in it during that time.

David W. Johnston, an I. C. R. checker, engaged with four other men in the shed yesterday morning, and Mr. Johnston considered himself lucky today that he was not detailed at work in the structure this morning. The whole building is a wreck. The entire roof has caved in and the floor has fallen down a distance of about three feet. In several places the brick walls which are about eight inches thick, have crumbled away, and repairs cannot be made.

The roof fell to the floor of the shed in the centre. On the northern side the roof would have fallen to the street had two freight cars not been on the side of the shed. The roof rested on these, and when the cars are removed it will fall to the street.

Only a small quantity of goods were suffering from the accident were twenty-five boxes of soap and several rolls of paper consigned to the Daily Telegraph. At present it is unsafe to enter the shed, as large pieces of wood, brick and iron are hanging from the top and are liable to fall at any time. Work will not commence at removing the debris until Monday. The shed was about one hundred feet long.

REV. J. W. KIERSTEAD WILL COME TO TABERNACLE CHURCH

Begins His Work Here June First—Rev. P. J. Stackhouse Leaves Next Week for Campbellton

Word has been received by the trustees of Tabernacle Baptist church from Rev. J. W. Kierstead, of Oxford, N. S., to the effect that he has decided to accept the call extended to him a couple of weeks ago. Mr. Kierstead intimates that he will be prepared to enter upon his duties here on the first Sunday in June. Rev. P. J. Stackhouse, who has so ably filled the pulpit of the Tabernacle church for the past six or seven years, will preach his farewell sermon tomorrow evening and with Mrs. Stackhouse and family will leave early next week for Campbellton to take up his new charge. In this transfer, Rev. Mr. Stackhouse goes to a pulpit formerly occupied by Mr. Kierstead, while the latter comes to the church Mr. Stackhouse is leaving.

THE EMPRESS OF BRITAIN DOCKED LAST EVENING

The C. P. R. liner Empress of Britain arrived in port from Liverpool last evening. This is the last arrival of an Empress boat this season.

The Empress brought out 1,204 passengers, 106 first-class, 477 second-class and 511 steerage. The first and second cabin passengers were landed last night and the steerage passengers were landed early this morning. The majority proceeded west on a special train.

Among the passengers who arrived on the Empress were Mr. and Mrs. George McKean, of this city, and Mr. and Mrs. Henry Wilmot, of Ormococt. There were also on board, seventy young Englishmen who are going west to serve as catechists or religious teachers under the direction of Archdeacon Lloyd, at one time principal of Rothesay College. The young men will be placed in charge of districts along the lines of the Canadian Northern and Grand Trunk Pacific.

SNAPS FOR THE LADIES
