

### NEW CABINET TO HAVE MANY STRONG HEADS

to His Former Portfolio of Marine and Defence.

### THREE VETERANS WILL PRESENT RESIGNATIONS

Hon. Dr. Reid to Go to Senate While Sir George Foster is Slated for High Position.

Special to The Standard.  
Ottawa, Feb. 14.—While the Prime Minister's cabinet re-organization plans have not yet been consummated, there is reason for believing that they propose the inclusion of the following in the new ministry:

From British Columbia—H. H. Stevens.  
From Ontario—Capt. R. J. Manion, General McBurn and W. A. Boyd (as solicitor-general).  
From Quebec—L. J. Gauthier, Liberal M. P. for St. Hyacinthe; A. A. Mondou, ex-M. P. for Yamaska, and a distinguished Liberal, at present a member of the House.

Those Who Retire  
To make room for these new men it is understood that Hon. J. D. Reid, Sir George Foster and Hon. P. E. Blondin are to retire. Sir George Foster is said to be slated for a high position, while Dr. Reid will go to the Senate. Mr. Blondin being already there. Negotiations with Deputy Speaker Blondin has struck a snag so he did not resign today.

Of the foregoing, General McBurn, Capt. Manion, and two of the proposed Quebec men are Liberals, while Mr. Stevens, Mr. Boyd and Mr. Mondou are Conservatives. General McBurn is a former member of the cabinet, having joined the Borden Unionist ministry in 1917, and served as Minister of Militia and Defence until 1919. It is not improbable that he will again go to the militia department, Mr. Gauthier taking railways.

### NEW YORK PORT FEARS INCOMING OF TYPHUS NOW

Stringent Health Regulations Likely to be Adopted by Officials.

### BOSTON PUTS BAN ON EUROPEAN LOUSE

Immigrants That Cannot Show Clean Bill of Health Will be Held for 12 Days.

New York, Feb. 14.—While Health Commissioner Copeland today was renewing his protests to Washington against the increasing number of infected immigrants arriving at this port, the health department, recorded the first death in this city from true typhus since 1923.

The victim was James Halligan, 18, who died in Brooklyn hospital. The commissioner said the record of the case showed that the youth occasionally spent his time on the docks and probably became infected in that way. Dr. Copeland added that every physician in the district where Halligan lived, had been directed to watch for the outbreak of any more cases.

Many Are Infected.  
Fifteen per cent. of the immigrants discharged from Ellis Island yesterday, were infected, said a telegram to Secretary of Labor Wilson. Facilities must be provided immediately for the proper handling of immigrants. The New York health department cannot and will not consent to receive into this community vermin-infested persons. It seems to me closely the duty of the federal government to take immediate action in this matter so important to public health.

Ban at Boston.  
Boston, Feb. 14.—Quarantine measures were placed upon this port late today in a telephone message from Assistant Surgeon-General Richard H. Croel, in charge of quarantine regulations, and Dr. Wm. M. Bryant, of the public health service who is in charge of the quarantine station on Galley's Island. Vessels arriving at this port which cannot show a bill of health certifying that all passengers have deloused at the European port of embarkation must be deloused here and vessels whose passages have occupied less than 12 days must be held in Boston quarantine to complete a 12 day quarantine from the time of delousing, the order said. Ships deloused at this port must be held here for 12 days, it added.

KILLED BY BUTTON HOOK.  
Montreal, Feb. 14.—Playing in his home with an older sister, the other day, Alfred Courtemanche, four years of age, son of Louis C. Courtemanche, Rosemont, fell to the floor grasping in his hand a long buttonhook, which pierced his nostrils and penetrated the brain, causing death in a few hours.

Newcastle, N. B., Feb. 14.—Allan Weaver, of Ladlow, N. B., section foreman, was struck by a train and seriously injured about noon today near MacNamee Sid-ing. Mr. Weaver and another section man were on a hand car on the main line when overtaken by a special train. The other man jumped clear, but Weaver was thrown on the track when engine struck the hand car and caught between the wheels. His right foot is badly crushed, a rib broken, lung injured and is badly bruised. He was taken to the Miramichi Hospital where he is reported to be resting easily but his condition is serious.

### HOUSE LAUGHED WHEN MINISTER FORGOT A NAME

Hon. Mr. Tomlin Starts Roar of Laughter When Introducing E. Elgin Victor.

CHANGES IN SEATING OF MEMBERS MADE  
Sir Robert Borden and Hon. N. W. Rowell Are Now Sitting Side by Side.

Ottawa, Feb. 14.—When Parliament reassembled this afternoon for the first time for the new session four members were presented and took their seats. They were: the Hon. P. B. McMurtry, re-elected in Colchester, N. S.; the Hon. Rupert Wigmore, re-elected in St. John, N. B.; S. S. McDermid, the successful Progressive candidate in East Elgin and J. A. McKelvie, who carried Yalo, B. C. in the government interest. There was a curious incident as Mr. McKelvie was presented. A new member is always accompanied by two other members who present him by name. One of Mr. McKelvie's sponsors was Hon. Dr. Tomlin, Minister of Agriculture.

Forgot New Member's Name  
But at the critical moment Dr. Tomlin's memory could not remember Mr. McKelvie's Christian name. Dr. Tomlin hesitated. The House laughed. Dr. Tomlin hurriedly whispered, and Dr. Tomlin, smiling, made the presentation in the usual form.

As members took their places in the House many greetings were exchanged and there was much shaking of hands. It was noted that L. J. Gauthier, Liberal member for St. Hyacinthe (whose name has been mentioned as a cabinet possibility) moved down the House and was seated between the Liberals and the National Progressives.

Erection of a screen behind the Speaker's chair, too, has necessitated some change in seating. Both the Prime Minister and the leader of the Opposition are nearer the centre of the House. One effect of the changes has been to place Sir Sam Hughes and Hon. N. W. Rowell side by side, on the front Government benches, just to the left of actual members of the administration. Sir Robert Borden sits next to Mr. Rowell.

(In The Senate)  
A brief sitting of the Senate, following the formal opening of parliament, was marked by the introduction by Senator Sir James Lougheed, government leader, and Minister of the Interior of a bill amending the Dominion Elections Act. It has for its object the adoption of the present Act in the requirements of the Ontario temperance referendum to be voted on in April. There was no debate.

Tomorrow the Senate will take up the discussion of the speech from the Throne. Senators G. V. White, and Arthur Webster respectively will move and second the address. There are nine vacancies in the Senate at present.

Rowell Sticks to Seat.  
Hon. N. W. Rowell, former President of the Privy Council in the Borden Government, occupied his old seat on the government benches. To the Canadian Press, Mr. Rowell stated that he intended to occupy his present seat as long as he remained in the House. How long that will be, the former minister did not state.

### C. N. R. WORKERS SAY THEY WILL FIGHT MR. HANNA

Employees Declare They Will Not Abandon Ground Already Taken.

MEETING TO CONSIDER FURTHER ACTION

Railway Men Claim Mr. Hanna Has Misread Finding of the Board.

Winnipeg, Feb. 14.—Representatives of the employees of the C. N. R. in answer to President D. R. Hanna's announcement that the employees of the "no politics" order would be continued, declared that they are equally determined to see the order rescinded. It is claimed they have not modified their original demands and that the finding of the board of conciliation upholds them in their contention to have the order abolished.

H. R. Barker, chairman of the joint commission representing the Canadian National employees, stated today that President Hanna, in his published letter to the deputy minister of labor, misconstrues the findings of the board.

Critique Mr. Hanna  
President Hanna tries to make it appear that the majority and minority reports of the board concede the right to the company to refuse permission to any of the C. N. R. employees to enter politics. The majority report of the board specifically provides, Mr. Barker said, that where it does not embarrass operation of the railroad, the leave of absence may be granted.

A meeting, probably in Toronto of the joint commission will be held about the end of the month to consider what further action will be taken.

### SMUTS HAS LEAD OF 26 IN FINAL

Two Divisions Haze Ties and Will Have to Call Another Poll.

Johannesburg, South Africa, Feb. 14.—The returns from all constituencies in the Union of South Africa general elections are now in and the results are:

General Smuts' South African Party 75; Nationalists (secessionists) 44; Labor 9; Democrat. 1; tied seats 2. Total 124. The two tied seats will have to be re-pollled, and if gained will give the party of General Smuts a majority over all of 26. If won by Nationalists, the loyalist majority, including Labor would still be 46 seats.

Warmer temperatures melted much of the snow today and it was expected that many more miles of track would be cleared tomorrow.

### IRISH ISSUE FORMS BASIS FOR QUESTION

Lloyd George Will Have Many Difficult Questions to Answer Before Commons.

STRICKLAND REPORT WILL BE PROBED

Labor Board's Findings Will Also Provide One Ground of Assault.

London, Feb. 14.—Alleged government maladministration in Ireland, waste and unemployment, promise to be the principal questions upon which the Laborites and other elements in opposition to the government will centre their attacks tomorrow as soon as the House of Commons gets under way for the new session.

Of the three questions, the belief prevails that the anti-government forces will centre their most strenuous attacks on the Irish situation as being the most promising material for debate.

The Irish Issue  
This question is one which presents phases of which widespread public interest has been manifested, and it is considered that the parliamentary questions will be asked from the opposition benches which will bring forth some of the long-awaited replies from the Irish administrators.

One Question Coming  
"Why has the government withheld General Strickland's report on the Cork fire?" will be among the first of the interrogations to be placed before the Commons, it is asserted. General Strickland's report already is said to have had the attention of the cabinet.

It is authoritatively stated that the report reflects adversely on the Crown forces, but that it places the initial responsibility upon the Sinn Feiners, claiming that the fire was directly attributable to the ambulance at Dillon's Cross, which occurred the same day.

Labor Board's Report  
This contention, it is asserted, will conflict with the testimony adduced by the labor commission, the report of which was presented recently. The report declared that there were clear indications that trouble was brewing hours before the Dillon's Cross affair.

One of the contentions in General Strickland's report, it is declared, will be that citizens were numerous among the looters, whose activities are alleged to have been particularly noticeable after the fire.

### ALBANY STREET RAILWAY FIGHTS 1,200 STRIKERS

Company Refuses to Talk of Arbitration and Prepares to Recruit Ranks.

Lines Are Still Blocked With Snow

Strikers Are Firm and Will Prepare for a Long Drawn Out Battle.

Albany, N. Y., Feb. 14.—All talk of arbitration between the United Traction Company and the 1,200 men who went on strike 17 days ago apparently evaporated today when Harry B. Weatherax, vice president of the company announced that employment offices would be opened to recruit new working forces to operate trams in the seven municipalities affected by the walk-out. This would be done, he said, as soon as strike breakers now at work open up service on all lines in Albany and Troy, most of which still are clogged by snow.

Fight to Finish.  
Meanwhile, the strikers continued preparations for waging their fight to a finish. Strike breakers today cleared the snow from several miles of track in both Albany and Troy. Sub-normal service on one of the eight lines here was resumed in the afternoon but no one was seen patronizing the cars only one passenger was reported in the day's operations of a single car at Troy. No disorders occurred in either cities.

Warmer temperatures melted much of the snow today and it was expected that many more miles of track would be cleared tomorrow.

### "Yankee Twang" Due To Jaw Laziness

So Professor Urges Wellesley Girls to Adopt Jaw Exercises to Get Articulation.

Wellesley, Mass., Feb. 14.—Mr. Eugene C. Howe, professor of hygiene at Wellesley College, started his class of girls today by declaring that New England's traditional "Yankee twang" is due mostly to laziness of the jaw.

This is not attributed to a lack of jaw exercise but to an unaccountable failure to let the lower jaw fall enough in articulating. Students from New England who are by no means in a great majority at Wellesley are being urged by Western girls to practice jaw calisthenics by wearing non-adjustable veils.

### Eighty School Teachers Quit Posts To Strike

### INJUNCTIONS END ONTARIO TIMBER PROBE

Spanish River Pulp and Paper Co. Takes Drastic Action in Investigation.

JUDGES ADJOURN HEARING AT ONCE

Paper Company Disputes Authority of the Court to Require Production of Papers.

Toronto, Feb. 14.—Injunction proceedings instituted against Justice W. R. Riddell and Frank Latchford, Royal Commissioners inquiring into alleged irregularities in returns made to the late Hearn Government by timber concessionaires in Northern Ontario, brought the inquiry to an abrupt halt here today.

The commissioners were about to begin probing the application of the Spanish River Pulp and Paper Company, Limited, to the former Minister of Lands, Forests and Mines, Hon. G. Howard Ferguson, for an additional area of 5,000 square miles of pulpwood territory in the vicinity of Espanola when writs were served upon them in connection with injunction proceedings taken in behalf of the Spanish River Pulp and Paper Company.

Probe is Adjourned.  
Commissioners Riddell and Latchford immediately announced the adjournment of the timber probe, pending the outcome of the matter. The company disputes the authority of the two justices to inquire into its affairs, and asks the court for a declaration that it is beyond the jurisdiction of the commissioners and irrelevant to purposes of their inquiry for them to require the individual plaintiffs to appear before them as witnesses and produce papers and documents set out in subpoenas or summonses.

Justice Riddell announced that in view of the legal action taken by the company the commissioners would not go on with any part of the timber probe until the question of their authority was settled by the court.

### VOLIVA TO LEAD GREAT WAR UPON NEW YORK'S VICE

Four Hundred Missionaries to Descend Upon Gotham to Root Out All Evil.

"TIME IS RIPE" IS ZION CITY VIEW

Voliva Willing to Give \$1,000 if Any One Can Prove the World is Flat.

Chicago, Ill., Feb. 14.—William Glenn Voliva, and a white robed army of his Zion city followers, are planning an invasion of "wicked New York," similar to that undertaken 18 years ago by John Alexander Dowie, when he led 3,000 of his followers against the bright lights of Broadway.

The prospect of the second expedition against Manhattan came yesterday, after Helen Buhner, and Edna Scheiborn, who went to New York on a reconnoitering expedition two weeks ago, returned and reported to Voliva that the time was now ripe. New Yorkers, they say, are getting worse and worse.

Takes 400 There.  
It is understood that Voliva will lead 400 of his picked followers to New York, organize with the 1,000 sympathizers of the cause there, and clean Broadway from the Battery to Harlem.

"This is the psychological time to bring the blue laws issue to a head," said Theodore Forby, private counsel for Voliva. "Many of the things Zion advocated have come to pass. Our war on the movies has spread to 25 states, and the word liquor is a historical phrase."

And it is not only the wicked ones against whom Voliva is going to fight, but the scientists and astronomers and college professors.

"I will give \$1,000 to the first college professor, scientist or astronomer who can prove to me that the globe is round," said Voliva today.

### Montreal's Charter Bill Before House

#### Quebec, Feb. 14.—The bill providing a new charter for the city of Montreal, as prepared by a special commission appointed by the Quebec Government was distributed today.

Some important changes are contained in the bill. It abolishes the ward system and makes the city a single electoral district.

The record of the complimentary assemblies tendered by the Commodore and officers of the Power Boat Club took the form of a Valentine Dance, held in their club-house last evening. Over one hundred and fifty couples enjoyed the entraining programme of dances rendered by Black's Orchestra. Delicious refreshments were served, and the assembly drew to a close at one in the morning.

Many regrets were expressed when the dance drew to a close, and the Power Boat Club was voted royal entertainers.

### Gagetown

Gagetown, N. B., Feb. 14.—Under the auspices of the Gagetown Fire Brigade a very successful basket social was held in the Temperance Hall on Saturday evening, for the benefit of the Memorial Hall Fund. Although the night was not a pleasant one, the hall was well-filled, and \$115.58 was realized during the evening. The baskets were arranged on the platform, made a very pretty sight, Valentine decorations of big red hearts, golden arrows, and true-lovers' knots, predominating. Thomas Allingham, chief of the fire brigade, acted as auctioneer, and much good-natured rivalry existed at several points in the sale. The auctioneer was assisted in his duties by Mrs. Geo. E. McDermott and Mrs. Chas. H. Jones. The highest basket sold for \$9. Soon after the sale, tables were arranged and the happy purchasers and their partners proceeded to investigate the contents of their baskets. Coffee, tea cream and home-made candy were also sold during the evening, to supplement the baskets, and a few dances were enjoyed before the gathering broke up. At the close of the evening, the fire brigade handed the proceeds, which included several generous donations, to the Women's Institute, who were greatly pleased at the result in addition to their fund for the memorial hall. The firemen in charge of the affair and those who assisted them included: Thomas Allingham, R. R. Reid, H. W. S. Allingham, Wm. C. Bell, Fraser Fox, J. W. Hamilton, F. H. DeVernest, E. P. Babbitt, Ray Robinson, Mrs. Geo. McDermott, Mrs. Chas. H. Jones, Mrs. Wm. C. Belyea, Miss Annie Dickie, Mrs. F. H. DuRoi, Mrs. Molly Oddy.

### Junior Natural History Society

Audubon Society That Lapsed When Exchange Became Dear, Revived.

International exchange has reacted in a singular manner in St. John. The will of Neill Balfour Hill, of the Audubon Society, who has dealt a death blow to what was formerly one of the most flourishing societies among the juniors of the city, it comprised all the junior bird lovers of St. John, who were wont to gather every Friday afternoon, as soon as school was out, in the Natural History Society's rooms on Union street. There talks on birds were delivered by the curator, William McIntosh, and slides illustrating the plumage of the different birds and the surroundings in which they lived were screened for the youngsters.

### HAS NEW BRUNSWICK RICH DEPOSIT OF GOLD WAITING TO ENRICH LUCKY FINDER?

Story and Probable Location of Famous "Giberson Gold" Told for Benefit of Standard Readers — Quartz Picked up by George Giberson Said to be Better Than Anything Ever Found in West.

New Brunswick has not been without its share of gold deposits and perhaps the best known is that of the "Giberson Gold," for which several attempts at location have been made since the story first was told. The Standard is indebted to Macky H. Craig for the following account of the first discovery and the probable location of the deposit.

Said To Bring Insanity.

Mr. Craig says:— I am inclined to believe that the people of New Brunswick, and, in fact, nearly other parts of the continent, would be interested in a true description of the Giberson gold which was discovered on the Tobique by George Giberson about the year 1846. Many have tried in vain to find the spot, and it is said that men who claimed to have found it within the past quarter century, never went back to it, but the excitement which followed the finding of it resulted in mental derangement, and that their bodies were entombed in the Provincial Asylum.

I have the story as related to me by Mr. Andrew Doherty, at Little Falls, Minnesota, in the year 1919, and will here give to the public just as he said to me. "It does not do you any good to say it was a benefit to somebody else," Mr. Andrew Doherty for many years lived on a farm at the mouth of Quaker Brook, on the Tobique, about 4 1/2 miles from Park, and in about the year 1885 moved with his family to Little Falls, Minnesota. In 1891, I also moved to Minnesota, and took a position with the office of the Surveyor General, and it was while located at Little Falls, I met Mr. Doherty.

The Discovery.

This is the story: "George Giberson had a camp up Armstrong Brook about three-quarters of a mile from the mouth of Armstrong Brook, and it was there he started his drive in the spring of 1846.

When the drive was started it was found that the water fell away and the logs jammed on the first rocky place down the stream, which meant that the drive was hung up.

George Giberson then broke camp, and with his brother, and a man by the name of John Eslington, of Fredericton, started down stream with his canoe, and when they arrived at the place where the logs had jammed they pulled the canoe around the jam, and instructed Eslington to take the canoe down stream, and they were to meet at the Boat Landing, which is at the mouth of River du Chate. George Giberson and his brother were to walk across country. If Eslington reached the Boat Landing first he was to "boil the kettle," and if Giberson reached there first they would have a fire kindled ready for the boiling of the kettle. Eslington, however, reached the Boat Landing ahead of the Gibersons, and when the Gibersons came along, George threw a piece of quartz in the canoe, and Eslington said, "Where did you get that?" Giberson replied, "Oh, I found it back there under the roots of a cedar tree."

Declared To Be Valuable.

When George Giberson came down the Tobique bringing the piece of quartz to the attention of his wife,

HEARTBURN LIVER TROUBLE

When the liver becomes torpid and inflamed, it cannot furnish sufficient bile to the bowels, thus causing them to become constipated.

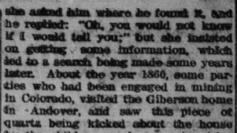

Keep your liver active by using Milburn's Lax-Liver Pills and you will have no heartburn or other liver troubles. Being purely vegetable they do not irritate, weaken or sicken like the old-fashioned purgatives generally do.

Mrs. Mary Strone, Glenside, Sask., writes:—"I have used Milburn's Lax-Liver Pills, and they have cleared me of heartburn and liver trouble. I don't think they can be beaten by any other medicine, and I can highly recommend them."

FRUIT-TIVES Made Her Well Strong and Vigorous.

MADAME ARTHUR BEAUCHER. 895 Cartier St., Montreal.

"I suffered terribly from Constipation and Dyspepsia for many years. I felt pains after eating and had gas, constant headache, and was unable to sleep at night. I was getting so thin that I was frightened and saw several physicians who, however, did not seem able to help me.

"At last a friend advised me to take Fruit-tives. I did so and soon I felt some relief. I continued with Fruit-tives and in a short time the Constipation was banished, I felt no more pains or headache or the disagreeable sensations that follow dyspepsia. Now I am well, strong and vigorous."

Chinese Cannot Use Sam Sley With Pork

Dry Laws of British Columbia Will Hit Oriental Restaurants of That City.

Vancouver, B. C., Feb. 14.—Prohibition has taken some of the color out of the life of the white man on the coast, but if he remained for Magistrate Shaw to deliver the judicial blow that has staggered Chinatown.

The flat has gone forth that Chinese cooks must no longer use Sam Sley to give "tone" to roast pork.

For generations Chinamen have prepared porkers for the oven by soaking them in Sam Sley, which is a decidedly potent liquor. Less any part of the meat might have escaped, generous basting of Sam Sley were added at intervals during the cooking process and of a truth the result was highly satisfactory.

REVAL TO BE CAPITAL

Vienna, Feb. 14.—The Roumanian government, according to a despatch from Bucharest today, has accepted Reval, capital of Esthonia, as the seat of the peace negotiations between Roumania and Soviet Russia.

Brook and the head waters of the north branch of the Owen Rock Brook, and I may say that to my mind it looks quite plausible that the Gibersons crossed a tote road, following up the Owen Rock Brook rather than the round-about way of the River du Chate, and that in their journey across country they passed to the right of the mountain and to the head waters of Owen Rock on their way to meet Eslington and the canoe.

It is about five miles from Boat Landing to a point on right-hand side of River du Chate, going up stream to a place once known as Baird's Landing, which is also on the right-hand side of the stream going up. This is by the route of the old tote road, which has not been changed much since the Gibersons started out, or going to Baird's Landing, it is about two to two and a half miles to a point on Armstrong Brook, three-quarters of a mile up stream to the point where George Giberson had his camp in 1846.

It is thought that the Gibersons took a course straight across country, traversing a hardwood ridge on their way, because they mentioned crossing a hardwood ridge, until they came to the tote road, it is thought, too, that in all probability, George Giberson must have picked up the piece of quartz very shortly after leaving Eslington at the log jam, because he said that he had found the quartz in a point of rock under the roots of a cedar tree. This point of rock must have belonged to the same ledge which cropped out into the stream which caused the logs to jam.

No Real Search.

As the years have gone by, quite a considerable search has been made for this Giberson gold, but the search has been only on the surface. It seems a find had been made in the Klondike, Colorado, California, or some other far off place, the earth would have been torn up in holes and holes to search for it, but there has never been any real prospecting on the Tobique. The Shaw brothers came here from Shoshone, Wash., a few years ago and located a prospecting camp a few miles up the Wapogata, where they remained for a year or two but it is evident they were not anywhere in the right place.

It may be noted that there is a mountain lying between Armstrong Brook and the head waters of the north branch of the Owen Rock Brook, and I may say that to my mind it looks quite plausible that the Gibersons crossed a tote road, following up the Owen Rock Brook rather than the round-about way of the River du Chate, and that in their journey across country they passed to the right of the mountain and to the head waters of Owen Rock on their way to meet Eslington and the canoe.

### JUDGE LANDIS FREED TELLER WHO PILFERED

Pay Was \$90 Per Month — Took \$96,500 Before He Was Caught.

Judge Landis.

Chicago, Feb. 14.—"This young bank teller was notoriously underpaid. The elevator man here in the Federal building received as much as he was paid. Indirectly this robbery should be laid at the door of the bank directors."

In this unusual manner Federal Judge K. M. Landis today released Francis J. Carey, not yet 50, on his own recognizance after the youth had pleaded guilty to the theft of \$96,500 from the National City Bank of Ottawa, Ill.

"Carey left a note in the bank in which he wrote that he would not have committed the robbery if he had been treated differently" United States District Attorney Robert A. Milroy told Judge Landis.

"How much salary did you pay this boy?" Judge Landis asked J. P. Callin.

"Two hundred and fifty dollars."

"How much were you getting?" the Judge immediately asked Carey.

"Only \$90 a month."

Criticizes Bank.

"I frankly criticize this bank," Judge Landis continued. "I must send this boy to some institution, but I am not going to send him to Port Leavenworth prison. I'll try to find a better place for him. Receiving only \$90 a month salary, the \$25,000 he guarded each way was an invitation to him to commit robbery."

Then, turning to young Carey, the Judge asked:

"I'll let you go now without bonds will you come back here when I want you?"

"Yes," I'll give my word of honor, Judge," Carey answered.

Carey then left the courtroom to return to Ottawa.

London, Feb. 14.—The Royal family has refused to give consent to allow the Prince of Wales to ride in the Grand Military Steeplechase in April. ### Mayor's Daily Expense Is Cut To Ten Dollars

Chief Magistrate of Vancouver Declares \$16.50 is Cheapest He Can Live on Properly.

Vancouver, Feb. 14.—Mayor Gale is horrified. By majority vote of the city council he has been asked to limit his expense to \$10 a day whenever he visits Victoria on civic business.

The mayor goes across the gulf to the capital quite frequently while the legislature is in session, but he has made the threat that if his expenses are to be cut to this amount, somebody else can make the trip in his stead. Asking Mayor Gale to limit his spending to \$10 a day is considered quite a rich joke here. The mayor's dollars are built around to roll, not fat to stack, and while his official salary is only five thousand dollars a year, he is said to live at the rate of \$19,000 a year.

How It Works Out.

According to the mayor, cabinet ministers and heads of departments are so busy they can only be seen at lunch time, by appointment. And cabinet ministers are epicures when Mayor Gale foots the bill.

The most modest delegation voucher made public during the controversy includes the following items: Room at Empress Hotel, \$6; two friends to lunch, \$3; taxi, 2; cigars, \$1.75; Sundae and sundries, \$1.40; shave, 35c; shoe shine, 25c; tips, \$1.60; total \$14.30.

## Three Local Skaters Returned Home

### Tell Story of Gorman's Disqualification at Lake Placid Champion at Plattsburg.

Three of the St. John skaters who have been participating in the championship series at Montreal, Sarnac Lake and Lake Placid, Messrs. Frank Garnett, Murray Bell and Milton Bell, arrived home yesterday at noon, but Charles Gorman remained over to take part in a series of races to be held this week at Plattsburg, Sarnac Lake and Lake Placid.

## Why Disqualified?

Speaking of the disqualification of Gorman in the final of the senior half mile at Lake Placid Garnett said this was brought about by an attempt on the part of Gorman to get by Jewtraw, who was leading at the time, on the inside. Jewtraw had swerved out and Gorman made a break to get through when Jewtraw swung in and the two came together and the judges ruled Gorman out.

## To Skate This Week.

## Belyea Did Good Work.

Hilton Belyea and Lumgoot, of the Norwegian A. A., led the field until the last lap in the three mile race in which McWhirter made the world's record. It was stated today by the local skaters who came home from Lake Placid.

Hoiler scored three goals for Sackville in the first period, and McEichern scored for the Island team the period ending 3 to 1. Charlottetown made the only tally in the second period. The excitement among the fans reached fever heat in the final period when Charlottetown tied the score 3 to 3, but Sackville managed to slip in the winning tally about five minutes before the bell rang, the game ending 4 to 3 in favor of the home team.

## TEACHERS' SALARIES STARTED SHARP TALK AT SCHOOL BOARD

### Trustees Divided on Action Taken by the Teachers of St. John Schools and Dr. Bridges is Requested to Prepare a Report on Readjustment of High School Salaries.

The usual calm and tranquility that marks the St. John school board's monthly meetings, was slightly ruffled at times last evening in a full discussion of the increasing of teachers' salaries, the recent action of the Teachers' Association, and the attitude of the mayor and council.

## The Mayor's Letter.

A letter was read from the mayor outlining the board, that the teachers had appeared before him. If it would be of any service to the board he expressed his willingness to meet them and representatives of the teachers. The Common Council had passed the full amount of school estimates allowed by the law, and did not think the tax payers would favor the council going any further.

## Teachers' Salaries.

The question of teachers' salaries was then taken up. Dr. Bridges cited the fact that the salary of the High School teacher, that a teacher who was a graduate of McGill, and who had received honors in graduating which had been recognized by the University of Toronto, \$1,000 a year. He did not think the board was as generous with the very superior class of teachers now employed in the High School, as it might be.

## High School Trustees.

Trustee Day called the attention of the officer to several High School boys whose parents informed him were confined in the back.

## Stand Justified.

Trustee Nagle thought the teachers were perfectly justified. They had as much right as any other tax payer in the city to appear before the Common Council and demand their salaries. The St. John teachers were not as highly paid as those of Moncton and some other towns in the province.

## Female Teachers Best.

Trustee Day said he would not exchange the two lady principals of the North End for a great many of the male teachers. The women were not clock watchers who skinned by punching the clock every morning.

## Board to Meet Mayor.

Trustee Nagle moved that the board appear before the mayor. He said he wished to learn more of His Worship's ideas on the financing of the school board. His motion was seconded by Trustee Smith.

LERUE FORCED TO LAY OFF HIS WORK Halifax Man Says Tanlac Overcame His Trouble After Three Years of Suffering.

"Tanlac certainly is the medicine to relieve a fellow of stomach trouble and make him feel like something," said Simon Lerue, 23 Water St., Halifax, N. S., well known shoemaker.

"When I began taking the medicine I had suffered for three years with stomach trouble. My food bloated me terribly, and for hours after every meal I felt awfully distressed and miserable. I had a dull, gnawing pain in the pit of my stomach all the time and there was an awful mean sickening taste in my mouth. At times I couldn't keep anything on my stomach, and this indigestion brought me down steadily in weight, and I became so weak I was constantly losing time from my work. I seldom went to sleep before two or three in the morning, and never got up feeling fit to go to work.

"Well, so many people were praising Tanlac I decided to see if there was anything in it for me, and it certainly has set me right. I don't believe I ever had a better appetite or enjoyed my meals better than I do now, for everything agrees with me perfectly and I have gained several pounds in weight. That nervousness is gone, too, and I sleep like a log nights. A person won't go wrong to try Tanlac if he has troubles like mine were."

Tanlac is sold in St. John by Ross Drug Co., E. W. Munro and T. H. Wilson, Fairville, N. B., and R. D. Wotmore, Ferry's Point, N. B., under the personal direction of a special Tanlac representative.—Adv.

SPEECH FROM THRONE FORECASTS MUCH IMPORTANT LEGISLATION TO COME BEFORE THE COMMONS

House Opens at Ottawa With All of Its Old Time Splendor—Country is Congratulated Upon Its Prosperity and Comparative Freedom from Labor Unrest—Many Measures to be Brought Before Members.

Ottawa, Feb. 14.—With all the glories of power pomp and ceremonial, parliament was formally opened for the despatch of business by His Excellency the Governor General at three o'clock this afternoon.

The Speech from the Throne was delivered in the new chamber, the members of the Commons being summoned from their own quarters to meet His Excellency in the chamber of the honorable senate.

The Speech from the Throne contained little that has not been forecast. His Excellency congratulated parliament on the prosperity of the country and its comparative freedom from unrest.

The Tariff Commission. Reference was made to the sittings of the tariff commission and parliament was informed that the conclusions reached by that commission would be laid before it in due course.

Other legislation forecast in the speech will deal with unemployment insurance and old age pensions. There will be a bill for the repeal of the Conservation Act; amendments to the Dominion Election Act, and bills relating to copyrights, the Income Tax Act and amendments, and scientific research.

The Speech from the Throne was as follows: Honorable Gentlemen of the Senate, Gentlemen of the House of Commons, On your return to your parliamentary duties, I am glad to be able to congratulate you on the relative prosperity of the country and its comparative freedom from the feeling of unrest which has agitated countries not so fortunate as this.

Following the conditions of expansion due to the war, a period of contraction was inevitable. Restrictions of credit involving a certain limitation of production and business have been universal, but this Dominion has been less affected than other countries, and a feeling of confidence prevails.

Living Costs Lower. Reduction of the cost of living has been, and is being, made in many limited areas, has been blessed with a bountiful harvest.

In spite of this contraction, the annual revenue of the country has been well maintained, and my advisers considered that certain taxes, imposed in part to check extravagant purchasing, had fulfilled their purpose and might be withdrawn.

Accordingly, with a few exceptions, these taxes have been remitted, freeing industry and business, and thus promoting employment.

Unemployment Case. An investigation is being conducted by the Department of Labor into systems of unemployment insurance and old age pensions.

There will be submitted to you for approval the important agreement concluded last year with the Governments of British West Indian colonies for the purpose of drawing still closer the trade relations between Canada and these colonies, and of improving

the means of communication and intercourse. The first assembly of the League of Nations was recently held at Geneva. Representatives of forty-one nations, including those of Canada, met and deliberated together in a spirit of harmony that promises much for this great experiment.

Most important of these is the draft scheme for the establishment of a permanent court of international justice which will be submitted to you for approval at an early date. My advisers are convinced of the necessity for revision of the customs tariff. In order to secure the most complete information a committee has conducted an extensive and thorough enquiry, and has secured the views of all parties and interests in every province.

## Red Cross Will Canvass For Members

Provincial Meeting Addressed by Dr. Abbott, General Secretary.

In his address before the regular meeting of the N. B. Branch of the Provincial Red Cross yesterday at the Board of Trade rooms, Dr. Abbott, Toronto, the general secretary of the Canadian Red Cross Society, pointed out that the membership enrollment campaign which is to be held this spring throughout Canada, is more to interest people in the peace time policy of the Red Cross than to obtain the dollar subscriptions. The peace time policy is the mitigation of suffering and the spread of health education throughout the world. Canada is one among the thirty-nine nations who are engaged in this work. The President, R. T. Hayes, was in the chair. Mrs. Ryan and Mrs. McManus, of Moncton, were in the audience.

R. T. Hayes introduced Dr. Abbott, cordially welcomed him, and speaking of out of town visitors.

Secretary's Report. Miss Ethel Haven Jarvis, secretary, submitted her report as follows: Much work has been done at the Depot. The Bulletin was our greatest undertaking. Our Bulletin committee, Miss Stetson and Miss Rudock and Mrs. E. T. Sturdee assisted your secretary greatly.

Our branches are showing greatly renewed activity. In their request Miss Frances Allison has sent materials to Chipman, Repton, and Milltown for knitting and sewing articles badly needed to complete our stores. From Middle Sackville we have received a supply of woollen goods; friends in the city are supplying our needs. We have the pleasure of recording one new life member, Col. Murray MacLaren, C. M. G. We had an emergency call which was gladly endorsed by City Hall. A family consisting of a delicate mother and five children found themselves homeless, without the barest necessities. Our packing convenor, Mrs. E. T. Sturdee, responded at once with the result that she shipped that day 70 articles of bedding and clothing. A request for blankets was met from the Seaman's Institute. The blankets were returned in a few days in excellent condition. We also supplied beds and mattresses and blankets for the use of our nurses taking the course in Public Health at the Victorian Order. Six boxes of socks were sent to the Seaman's Institute, also scarfs. Many articles were sent out in answer to the hospital indents. In order to fill one of these indents, wadsworth branch is busy making much needed bath robes. With all these the Provincial was supplemented most generously by the St. John Local Branch where Mrs. Stetson and Mrs. McLeod are co-ordinators of the stores.

## BEWARE OF BRONCHITIS.

Bronchitis is generally caused by neglecting a cold, or exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is a rattling of phlegm, especially the first thing in the morning. This is at first white, but later becomes of a greenish or yellowish color and is occasionally streaked with blood. On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, this prevents it becoming chronic, and perhaps developing into some more serious lung trouble. Mrs. Erice Culham, Sheffield, Ont., writes: "In December, 1919, I was very sick with bronchitis, and had to stay in the house all winter. One day I saw Dr. Wood's Norway Pine Syrup advertised, so I got a small bottle which helped me very much; I then got a 60c. size, and it completely relieved me. I cannot praise 'Dr. Wood's' enough for what it did. Two of my neighbors are now using it for colds." Don't accept a substitute for Dr. Wood's Norway Pine Syrup; this genuine is put up in a yellow wrapper; these pine trees the trade mark, price 25c and 60c; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## Would Have Been Saved

Also five weeks suffering and loss of wages if Mr. C. Oakley of Sackville, Sask. had not Zam-Buk when he first happened his cut leg. However, experience of Zam-Buk's amazing healing power has "opened his eyes." You won't find him without it to-day.

"While employed in a stone yard, I cut my leg very badly," writes Mr. Oakley. "A doctor sewed up the wound and attended me for five weeks. All the while I was of work. At the end of it I was advised to go to hospital. 'After I paid over \$40 to the doctor I determined to try Zam-Buk. Within two weeks Zam-Buk had healed the wound that I was able to return to work. Further treatment made the limb quite sound. Thus one dollar spent in Zam-Buk did what a forty-dollar treatment had failed to do. I shall never be without Zam-Buk again.'"

The herbal Zam-Buk is powerfully antiseptic. It's the best known and most reliable remedy for eczema, cold-sores, ulcers, piles, abscesses, poisoned wounds, scalp disease, chills, cuts, burns, scalds and all injuries. 50c. box, all druggists. TRIAL SAMPLE from Zam-Buk Co., Toronto, 1c. stamp.

to organize all women's societies in the province, asking them to contribute one garment a year for Red Cross needs. Mrs. Kuhring asked that a delegation be appointed to meet with the Board of Education, and that a grant of \$50 be made to enable Miss Rudock to lecture to soldiers' wives under the Settlement Board. The committee was asked to confer with Major Barnett in regard to carrying out this request, and to interview the Board of Education to endeavor to secure their co-operation in the health work.

Dr. Craig, of Nova Scotia, was appointed as Junior Red Cross representative. F. A. Dykeman will accompany Dr. Abbott to Halifax. Mr. Allan will go to the Central Council. Mrs. Allan was appointed as Mrs. George F. Smith's proxy.

Dr. Abbott, in referring to Soldiers' Settlement work said that the Red 2 RED CROSS—Lead to Kum. . . . Cross has spent \$40,000 in Alberta for work among soldiers' wives. He told of the Junior Red Cross work in Saskatchewan where one hundred children have been sent to hospital by the Juniors in Ontario. The board has realized the value of Red Cross education and is having a half hour each week devoted to its work. He told in detail of the peace policy, its health educational programme taken up by thirty-one nations; of public health nurses, medical inspection of schools. The work can never be spectacular, but is missionary—teaching people to live simply and properly. He gave advice and explained difficulties of organization. The West expects to get half a million members. From May 16th to 31st Loyalist week was recommended as Membership Enrollment week by the meeting.

## DELICATE GIRLS NEED NEW BLOOD

Rich, Red Blood Means Health and Strength. The anemia of young girls may be inherited, or it may be caused by bad diet, or by too much study, or by irregular eating, insufficient out-of-door exercise and not enough rest and sleep. It comes on gradually, beginning with languor, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes the palpitation of the heart, headaches, dizziness following a stooping position, frequent backaches and breathlessness. In a majority of cases constipation is present. There may be no great loss of flesh, but usually the complexion takes on a greenish-yellow pallor. Cases of this kind, if neglected, become more serious; but if taken in time there is no need to worry. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to remedy this wretched state of health. Though it is not noticeable, improvement begins with the first dose. As the blood is made rich the pallor leaves the face, strength and activity gradually return and the danger of relapse is very slight. If any symptom of anemia appears, prudence suggests that Dr. Williams' Pink Pills should be given at once, and the sooner they are taken the more speedily will their action improve the blood. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## REFLECTIONS OF A BACHELOR GIRL.

By HELEN ROWLAND (Copyright, 1920, by The Wheeler Syndicate, Inc.)

A woman idealizes the hero, whom she can adore—but, alas, her heart always turns to the wedding whom she must wed.

Matrimony is the steam-roller, which tones a woman down smoother of all the sharp points of her wit and the rough edges of her temper, opens her eyes, and from all the wrinkles out of disposition, yet, men will continue to wonder why widows are so much more fascinating than sappers and dema-tantes.

Marriage MAY be a "whole-time job;" but a little total abstinence from domesticity surely does make the heart grow fonder, and the head grow steeper, and freshen up the wilting sentiments.

No matter how good a mathematician she may be, a natural-minded woman will never admit that six years added to thirty-five will make her over thirty-seven, or that twenty pounds added to her weight can make her twenty pounds fatter.

Prohibition appears to have done more to make a husband hurry home for dinner evenings, than the subway, the automobile, or the airplane. The only difference, the three last-named ever made was the difference in the "why's."

When he has a headache or a heartache, a man thinks there is something serious the matter with him; when she hasn't one or the other, a woman KNOWS there is something serious the matter with her.

Most love-matches MUST be made in heaven; the fire never goes out in the other place.

Probably the reason why Solomon shines out so brilliantly, through history, as the "perfect husband" is because he has so little competition for that honor.

The only way to live comfortably in New York, nowadays, is to have a lot of money—enough, at least, to spend your winters in Florida, the spring in Paris, your summers in Maine, and the autumn in the Adirondacks.

## BANK POSITIONS STRONGER, WHILE STOCKS ARE LOW

Great Number of Idle Cars on Railway Results in Less Interest in Tractions.

## GRAIN MOVEMENTS CREATE CONFIDENCE

Call Money Still Hanging at 7 Per Cent. With Private Funds One Per Cent. Lower

New York, Feb. 14.—Aside from a general strengthening of the banking position throughout the United States, as indicated by returns to the Federal Reserve Board, the week in the stock market opened with no visible change from recent dull and uncertain conditions. Most other developments bearing upon values were very much of the same general character as those which have kept the financial commodity markets in their reactionary and narrow groove during the last 2 months.

The adverse transportation situation, for example, was attested by a further decrease of railway tonnage, there being more idle freight cars on the principal roads, according to authoritative statements, than at any period in the past decade. Improvement in the grain prices created a more cheerful sentiment at Western and Southwestern agricultural centres, but this was again offset or largely neutralized by wage reductions, pending dividends and evidence of diminishing investments.

There was little in the stock market to call for specific comment until the final hour, when shorts rushed to cover as buying orders appeared in the usual varieties. Mexican Petroleum, Baldwin Locomotive, Studebaker and Atlantic City all gained 2 to 4 points, contributed mainly to the strong close. U. S. Steel and Reading, the latter throwing off its early heaviness, were also conspicuous. Sales amounted to 500,000 shares.

The money market followed its usual set course, all calls holding at seven per cent on the exchange but easing fully one per cent on private offerings. British and other leading foreign remittances were appreciably higher excepting Italian and Scandinavian rates. Liberty bonds were irregular, the 3 1/2's displaying further heaviness. Most other domestic and foreign issues were without definite trend on a moderate turnover. Total sales, (par value) aggregated \$12,560,000.

## Bears Force Steamship Common Down Three Points in Weak Day

Papers, Asbestos, Traction and Canadian Car Also Decline to Lower Prices.

Montreal, Feb. 14.—The trend was mainly downward in prices in today's trading on the local stock exchange with a few stocks moving against the general trend. Traction was weak and not active as were also the paper group. Pressure on steamship common was the feature of the day and that issue closed three points net down at 35 3/4 with offerings at 35 1/2 and 35 bid. The postponement of the meeting to deal with the forthcoming dividend, from tomorrow to next Monday, may have had something to do with the weakness of the stock.

Other large losers included Abitibi down 1 3/4 points at 49 3/4; Brompton which lost 1 3/8 points at 51 1/8; Canadian Car preferred down 1 1/2 points at 71; and the Spanish stocks each down a point or more. The traction, as stated, showed generally a downward tendency. Brazilian lost a point at 34 1/4; Quebec Railway a point at 27; Toronto Railway 1 1/2 points at 72; and Winnipeg Railway 1 1/2 points at 47. Cement continued its downward movement begun Saturday and lost a further point to 58. Bell Telephone was down a point at 107. Bonds were more active than at the week-end and held steady in price. Total sales, listed \$3,397; bonds \$295,350.

Montreal, Feb. 14.—The price of ham and eggs is down ten cents and the price on all egg orders is down five cents in all of Child's restaurants, starting today. It is understood that all the restaurants of the Child's system will be affected by the new orders. The order being issued, which was recently sold at sixty cents, will now cost fifty cents. An egg sandwich sold at twenty-five cents will now cost twenty cents. All omelette sold at forty cents will now retail at thirty-five cents. Any order of two eggs used to sell at thirty-five cents and will now cost the consumer thirty cents. The order being issued, which used to be bought for forty cents, will now only cost thirty-five cents. There is also a five-cent reduction on cups of custard puddings, stewed apricots and other articles of like nature.

## SOVIETS HURL FRENCH SOCIALISTS OVERBOARD

Paris, Feb. 14.—Three French socialists, Lefebvre, Berger and Lepetit were slain when attempting to escape from Russia. Their death was ordered by the pan-Russian Extraordinary Commission, but is regarded by the French socialists as a cold blooded murder, and has done much to alienate French socialistic feelings from the Soviet Government. They had been under observation for some time according to information from Riga, and when they asked for passports home, the Russian Government refused. They then pretended to take a trip to the Volga district and escaped thence to Murnansk. They were recognized when they embarked from there for Scandinavia and Moscow was telegraphed of their movements. A coasting boat was sent in pursuit, and they were taken off their ship. Their papers were all confiscated and then they were thrown overboard to drown.

## IN THE PUBLIC EYE

Thomas McCallum, of Geo. W. Hamilton and Company, members of the Montreal Stock Exchange, who announces that his firm will handle the public issue of the recently organized Congress Export Brewery Company, Limited, Toronto. The par value of this stock is ten dollars per share, and it is the general opinion of the issue will receive substantial public support, as evidenced by the applications already received for a large proportion of the shares available for public purchase. Since the closing of the United States' breweries, there has been an exceptional demand from the tropical countries for Canadian beers, which has been far in excess of the capacity of existing plants, and it is somewhat surprising Canadian financiers had not previously taken advantage of this situation. A move in this direction, however, has been taken by the Congress Export Brewery Company, whose progress is being watched with interest by stock operators in both Montreal and Toronto.

Non preference stock two per cent for half year ended thirty-first December last. Both dividends are payable first April next to stockholders of record 3 p.m. on March 1 next.

## UNITED STATES TO RECOGNIZE BOLIVIA

Washington, Feb. 12.—The United States, acting in accord with the government of Argentina, Brazil and Chile, has decided to extend recognition to the new government of Bolivia headed by President Bonifacio Saavedra. The recognition, it was announced at the State Department today, will be effected formally in La Paz tomorrow by A. Abbot Maginnis, American Minister to Bolivia. The action of the American government of the three principal South American nations results from assurances given that the new Bolivian regime is guaranteeing a stable government and has attained its power through proper constitutional elections. The government of President Saavedra was overthrown in La Paz last July by a military coup d'etat, the President signing his resignation in the American legation. The revolution was accomplished without bloodshed and within a few days the situation became tranquil. The ex-President was deported and in accord with the government were held in November with a sweeping victory for the party in power. From all information received by the State Department, it appears that the elections were conducted in a legal and orderly manner. The constitution of Bolivia was amended to permit the election of the President and Vice-President by the National Congress and President Saavedra and Vice-President, Dr. Luis Paz were chosen.

Winnipeg, Feb. 14.—Immediately after the opening today an upward movement set in on the local wheat market and throughout the session values were higher and reflected the strength at Chicago. Cash prices were very close to the \$2 mark, helped along by strength in the futures. Premiums were unchanged at 12 cents over for number 1 Northern; nine cents for number 2 and 6 cents for number 3. There was a rather large number of offerings on the cash market, but they were quickly absorbed, and it is somewhat surprising Canadian financiers had not previously taken advantage of this situation. A move in this direction, however, has been taken by the Congress Export Brewery Company, whose progress is being watched with interest by stock operators in both Montreal and Toronto.

## RAW SUGAR MARKET

New York, Feb. 14.—No sales were reported in the market for raw sugar early today. Holders were asking five cents for Cuban cost and freight equal to 4.02 for centrifugal. The firmness of holders was due to reports from Cuba that the commission to handle the marketing of the present crop had been appointed and it was rumored that a maximum price of 12 cents was to be fixed. Refined was firm with several more refiners advancing their list prices to the basis of seven cents for fine granulated. There was a good inquiry. The rumors of a minimum price for Cuban sugar led to active buying in futures by both trade and outside interests and prices at mid-day were 50 to 65 cents net higher.

### STMR. SAO VICENTE BLOWN FAR SO

New Bedford, Mass., Feb. 14.—A heavy fog, which set in at 10 p.m. on Saturday, Feb. 13, and continued until 10 a.m. on Sunday, Feb. 14, blew the steamer Sao Vicente, which left St. John, N. B., on Saturday, Feb. 13, about 600 miles on to the eastward. The steamer was blown to the south by a series of heavy seas and was about 600 miles on to the eastward. The Sao Vicente was last seen by a vessel which failed to receive her wireless message stating that she was not

AROUND WORLD'S PORTS

Stadium Goes To Newfoundland

The steamer Stadium, well known in the coastwise trade, and a familiar sight about the harbor, will soon leave these shores no more. She has been sold to a shipowner in Newfoundland and as soon as she is overhauled and refitted will start on her new career as a tug and wrecking steamer. She is at present in Market slip undergoing repairs.

Strmr. Sao Vicente Blown Far South

New Bedford, Mass., Feb. 14.—Anxiety felt for the safety of the steamer Sao Vicente, which left St. Michael's Jan. 25, with 800 passengers for this port, was allayed today by the receipt of a wireless message, stating that the steamer had been blown far to the south by a series of hurricanes and was about 600 miles on the coast. The Sao Vicente was the last of a series of small efforts to get in touch with the vessel by wireless had failed. Today's message stated that terrible weather had been encountered, and it was not expected to reach port before Tuesday.

MEN AND BUSINESS (By Richard Spillane)

Mrs. Walter P. Price, of Moylan, Delaware County, Pa., after writing a letter in praise of the Business Section, exercises the feminine prerogative of asking a moot question and expecting a clarifying and satisfactory answer. "There is one thing about the railroad economies that puzzles me," she says. "Can you enlighten me? Why do the railroads continue the extravagance of granting passes to the immense army of firemen and their families? Is not this an unnecessary and great financial loss? Why should well-paid employees pay their own traveling expenses instead of being free while crowded conditions of the trains often necessitate standing?"

There is no more reason in a railroad giving free transportation to its employees when not in the regular performance of their duty than there would be in John Wannamaker's employees getting shoes and stockings, underwear and outerwear without cost, whenever they desired them. "Out of Passes." A railroad has only one thing to sell—transportation. There are nearly 2,000,000 employees of the American railroads. They are greatly well paid. Not all of them, but a considerable percentage—have passes, but a railroad man has little difficulty in getting free transportation. The pass privilege is not abused as it is used to his transportation. Railroads, however, above a certain grade, not only get passes over other lines today for themselves but for their families. A railroad man is supposed to be paid fully for his services. Beyond that payment he should have no more privilege than an ordinary person. This applies to large stockholders, large bondholders and others as well as the general run of employees. In essence, free transportation is graft. It should be abolished. It needs more revenue. They should not curtail this revenue as they do today. Abolish the pass.

Western Fiction Attracts Chinese

(Copyright, 1921, by Public Ledger.) Shanghai, Feb. 13.—Reading the back of literature for Chinese women, four well educated Chinese girls are busily at work translating the novels and short stories that have delighted the western world. George Eliot's "Silence" already has been put into the Chinese language by them and was so well received that they are now working on "Quo Vadis" by Henry Sienkiewicz, and "Mother" by Kathleen Norris. Short stories from the Saturday Evening Post, the Ladies Home Journal, and the Youth Companion also are being made available to Chinese readers. The novels are run in monthly installments in a magazine, The Western Messenger, which is published in Chinese by the Christian Literature Association. Each month, besides the continued story, articles are published dealing with child welfare, home improvement, sanitation and hygiene, religion, short stories, songs with music, programmes for schools and Sunday schools and current events. The magazine has a circulation of about 1,000 in the homes and schools of China.

Western Fiction Attracts Chinese

"The Chinese like happy endings to their stories," says Miss Laura Marsden White, American missionary, who is the editor of the magazine and under whom the Chinese girls work. "They want also a good moral lesson, and the girls insist on adding a moral to their last line in the story. The new literary technique are presented in English. They must have a well worked out plot, a strong climax and must be concrete. The Chinese do not like ambiguity."
