# A Stupendous Store-Wide MARK DOWN SALE

## Starting This Morning

Everything marked at a substantial reduction; nothing left out. An exact reproduction of our famous January and July events.

This stupendous sale is due to no panicky feeling on our part, nor is it due to any radical break in manufacturing prices.

The plain honest facts are these: For the past four years it has been necessary to order considerably more merchandise than we needed, to be assured of getting sufficient for our requirements, as manufacturers were behind in productions and only shipping about 60 p.c. of their orders.

This year our buyers followed the same plan anticipating the same conditions. These conditions changed, however, manufacturers are now shipping 100 p.c. of our Fall orders and furthermore are shipping orders that should have been shipped a year or more ago—and at the old prices.

These conditions give us more merchandise than we can consistently handle, therefore, in order to make a quick selling of this large unexpected quantity, we have adopted this stupendous store-wide mark-down sale, giving our cus-

tomers a real opportunity to fill in their entire winter's requirements at tremendous savings.

You know our July sale, you know our January sale. This stupendous mark-down sale is on the same basis—everything reduced. Don't hesitate to take advantage of it. Remember we are operating on the lowest possible margin of profit. You get the benefit of much lower prices on each individual purchase.

### MEN'S SHIRTS

Fine Negligee Shirts in new patterns:

Regular \$2.75, \$3.00	Sale \$2.48
Regular \$3.50, \$4.00	Sale \$3.28

**"CRAPS" NOT UNLAWFUL.**  
Baltimore, Oct. 13.—(By Canadian Press.)—The ancient game of craps, otherwise known as "African golf," is not unlawful, provided the dice are not loaded, a local police magistrate has ruled. Fourteen colored men were haled before the court for "roving the ivory," were set free when the judge found the little cubes were honest.

**"OUCH! THAT OLD RHEUMATISM!"**  
Get out your bottle of Sloan's Liniment and knock the pain "galley-west."  
WEREN'T ready for that last quick switch in temperature, were you? Left you stiff, sore, full of rheumatic twinges? You should have had a bottle of Sloan's Liniment handy that would have penetrated without rubbing, warmed and soon eased up the muscles, quelled the jumpy, painful, aching part and brought gratifying relief.  
Helpful in attacks of lumbago, sciatica, external soreness, stiffness, strains, aches, sprains. Get a bottle at your druggist's. 35c. 70c. \$1.40. Made in Canada.

**Sloan's Liniment**  
BANDIT IS SHOT DEAD.  
New York, Oct. 13.—In a fight in a narrow thirty ninth street hallway here last night an unidentified man, one of a party of three who held up Wm. Stern, diamond broker, was shot to death.

**MOTHER SAVES HER BABY BY THROWING HER OUT OF WINDOW**  
Cornwall, Oct. 13.—Mrs. Arthur McIntosh, who resides with her husband a short distance outside of Massena, saved her baby daughter by throwing her from an upstairs window when her home caught fire. Mrs. McIntosh had put the child to sleep in a room upstairs, when the lighted oil stove in the kitchen exploded and in a few minutes the house was on fire. The mother tried to go downstairs, but was driven back by the dense smoke. She rushed to the bedroom window, broke it, groped her way back to the bed, got her baby and took it to the window. William Ridges was passing at the time and Mrs. McIntosh threw the baby to him. He caught the infant. Mrs. McIntosh then jumped from the window, Mr. Ridges helping her as best he could. The interior of the house was badly burned.

**SING SING BONE DRY.**  
Oswego, N. Y., Oct. 13.—Sing Sing prison went bone dry today. An order was issued forbidding the use of bay rum, toilet water, perfume, witch hazel, or any other preparation containing alcohol either in the barber shop or by the inmates.

## TWO RESIDENCES DESTROYED BY FIRE AT HAMPTON; OUTBREAK SO ALARMING ST. JOHN BRIGADE IS SUMMONED TO HELP BATTLE AGAINST FLAMES

Flames That Were First Discovered in an Outhouse Spread to Residence of M. Roberts and Then to That of Mrs. S. Hayward—Both Were Completely Destroyed—Cinders Carried by High Wind Starts Fires in Many Other Places — One Began in Hay Barn But Neighbors Succeeded in Extinguishing it.

Special to The Standard.  
Hampton, N. B., Oct. 13.—With the wind blowing almost a gale a fire broke out here this afternoon which destroyed completely two residences, scorched a third and damaged several barns and other outbuildings before it was finally extinguished.  
So threatening did it become at one time that a call was sent to St. John for assistance and an engine arrived later to aid in the battle against the flames. But by that hour the outbreak was under control.  
The destroyed homes are those of Mrs. Samuel Hayward—one of the finest in the town—and of Manford Roberts. These were burned to the

ground, although most of the furniture was saved. The loss on the Hayward residence is estimated at about \$25,000, while the other is smaller. Only quick work on the part of all the town residents prevented the fire from sweeping across the whole place.  
The blaze is said to have originated in an outhouse in the rear of the home of John Desmond. This was soon extinguished, but the high wind carried sparks across the street into the Roberts house. As a result it was soon a mass of flames. This in turn set fire to the Hayward residence and the pair were completely destroyed. In addition the outhouse and barns of the latter place were burned to the ground.

Cinders were carried by the gale into a hay mow and a bad outbreak began. But heroic work on the part of the fire fighters succeeded in putting this out before any serious damage resulted. It was at this time, when there seemed a possibility of the fire spreading quickly across the town that the call was made upon St. John for help. By the time it arrived the outbreak was under control. But the wind carried the sparks far and wide and boys and girls were busy for an hour putting out the minor fires that sprang up.  
The Hayward residence was occupied by Mrs. Hayward, widow of Mr. Samuel Hayward, who established the big business of that name in St. John years ago.

## ENGINE MADE RUN IN LESS THAN ONE HOUR.

When the call was received here by Commissioner Thornton, he immediately dispatched the big motor chemical from No. 3 station. Robert Douglas, the driver and engineer in charge of the big machine, was soon on his way to Hampton, with others on board the apparatus. The distance by highway from St. John to Hampton is 21 1/2 miles, and "Bob" put the motor through in less than an hour. Perhaps the time could have been a little better, but the highway was in bad

condition a couple of miles west of Hampton.  
On the arrival of the chemical at Hampton it was found that the fire was lost in reaching the scene.  
Going near the river bank, Engineer Douglas had his suction placed in the river, and shortly after water was drafted from the river and sent through a couple of lines of hose, and good work was accomplished.  
For two and a half hours the "Big

Boat" pumped, and did not leave until the ruins of the buildings were made harmless and there was no further sign of any fire in the vicinity.  
When the engine was not needed any longer, it returned to the city at a late hour last night; and the citizens of Hampton are certainly thankful for the quick response of Commissioner Thornton when he was appealed to for assistance when the village was threatened with destruction.

## GREAT SPANISH EXPOSITION IS BEING PLANNED

Barcelona, Oct. 13.—Catalonia has undertaken to present to the world's approval one of the most extensive and comprehensive expositions ever held and although it is not to open until 1924 the preparations already are far advanced. Under the supervision of General Rubio, an engineer officer recently retired from the Spanish army, the slopes of Montjuic are being transformed from an arid waste into an artificially laid out garden in the center of which the exposition buildings are being constructed.  
The official title of the exposition is to be the International Exposition of Electrical Industries and the General Spanish Exposition. The ground allotted by the government for the purposes of the exposition is 270 acres in extent, and if necessary 220 acres will be added, this depending on the amount of space asked for by exhibitors. Up to the present arrangements have been made for the erection of buildings covering the space of 2,200,000 square feet, and the architects have finished the plans and begun the erection of the chief pavilions.  
One of the features of the exposition is to be the Palace of Light, where will be shown the most recent inventions from all parts of the world in connection with electric lighting. Other pavilions are to be devoted to exhibits of electrically propelled implements for agriculture and industry.  
In the exclusively Spanish department a great display is to be made of the progress of Spain in industry, commerce, science, art and social life, while the South American republics are each to have a pavilion of their own.

## NEW EPOCH IN AERIAL TRAVEL IS INAUGURATED

Speed and Comfort Combined in Latest Addition to Paris-London Air Fleet.  
By WYTHE WILLIAMS.  
(Copyright, 1920, by Public Ledger.)  
Aboard the Continental Air Express, London to Paris, Oct. 13.—We have entered upon a new epoch in aerial travel, just put into regular daily service by the "Airco" line, and in which I am now writing this dispatch, definitely solves the problem of combining speed with comfort.  
London and Paris have long been only two hours distant by air, but one traveled disguised as a teddy bear. This bus is the most luxurious airplane ever built, but in two hours we also will glide to earth at the Bourget airfield to find automobiles waiting to convey us to any address in Paris we choose. Although far larger air Goleths now are in daily flight between the two capitals, they take almost twice as long and have not overcome the discomforts of noise from the motor or closeness of the air.  
Pigs Carried as Freight.  
A half dozen machines were in the field testing motors and loading freight. Several large trunks were tossed into the underbody from our limousine. Also the "Royal Mail," a couple of sea-going pigs were hoisted into the bus for Brussels. The balloons hanging about the field indicated no wind. The air chart showed that calm prevailed over the entire distance.  
All Wear Deflated Air Belts.  
The passengers have laid aside their hats and wraps. The sliding glass windows on the lee side are wide open and the air is as balmy as spring. The only reminder that the passenger airplane still is an infant industry, is in the fact that we all wear deflated life-belts as long as we remain in English Channel. We figure we can inflate them quickly enough if anything happens.

## CHAS. M. ALEXANDER, FAMOUS EVANGELIST, DIES SUDDENLY

Birmingham, Eng., Oct. 13.—Chas. McCallon Alexander, an evangelist, known throughout the world, died suddenly at his home here this morning. Charles M. Alexander was born Oct. 31, 1867, at Maryville, Tenn. Early in life he engaged in evangelistic work, directing his activities with great success to organizing and conducting large chorus choirs. He accompanied the Rev. R. A. Torrey, an evangelistic tour of the world, which occupied from 1902 to 1907.  
Dr. Alexander made a second tour of the world with his wife, formerly Miss Helena Cadbury, of Birmingham, in 1908 and 1909.  
He was the compiler of a volume of hymns and was engaged in evangelistic work in New York city from 1908 to 1918.  
WILL DO IT AGAIN.  
Wallington, N. J., Oct. 13.—(By Canadian Press.)—To such a degree had the feminist movement triumphed in this town that Andrew Rasmussen, six feet three inches, was compelled the other day to have his wife in the Recorder's court on a charge of assault. Mrs. Rasmussen is five feet two inches tall.  
When Andrew returned late from a lodge meeting, he told the court, his wife met him with a barrage of insults. He produced an exhibit one hat and two black eyes. The court warned the woman to "lay off" Andrew.  
"Next time he comes home late I'll do it again," replied the female of the species.

A Lesson in Parsing.  
WHEN YOUR PATHS CROSS.  
This sentence was given to the class to parse at the examination: "Mary milks the cow."  
The last word was disposed of by one of the pupils as follows: "Cow is a noun, third person, and stands for Mary."  
"Stands for Mary! How do you get that?" asked the teacher.  
"Because," answered the pupil, "if the cow didn't stand for Mary, now could Mary milk her?"  
A Tiny Plane.  
A little boy heard a bluetortoise buzzing about and then it alighted on the window and stopped buzzing.  
"Oh, father," said the little boy "that bluetortoise has shut off its engine!"  
It is not possible for two people to occupy the same space on the street at the same time nor is it possible for a motor car and a pedestrian to occupy the same section of the roadway at the same time. If a pedestrian walking four miles an hour is bound for a point 12 yards away and an automobile travelling twenty miles an hour is 60 yards away headed for the same spot, someone will be injured unless there is a change of speeds or direction. Each can prevent an accident by being careful. The answer to the problem which confronts the pedestrian and the automobilist confronting the driver of the vehicle is "Be Careful."  
This is "Safety Week."

**Don't Shoulder Loss**

**Nature's Mirror**  
When a woman is well and healthy—there's a sparkle in her eyes, a rose tint in her cheeks, and she has rich red blood. There's elasticity in every movement and a spring in her step. Love comes to every woman who has bounding health, but when she is pallid, dull eyed, languid, she has no magnetism nor does she appeal to any man.  
Such a change in feelings and looks!  
After suffering pain, feeling nervous, dizzy, weak and dragged down by weaknesses of her sex—with eyes sunken, black circles and pale cheeks—such a woman is quickly restored to health by  
Favorite Prescription of Dr. Pierce. Changed, too, in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump.  
Druggists sell it in tablets or liquid. It is a medicine that's made especially to build up women's strength and for women's peculiar ailments—an invigorating, restorative tonic, soothing cordial and bracing nerve; purely vegetable, non-alcoholic, and perfectly harmless.  
Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., 10c for trial package.

St. John Certain  
On The Dog  
Boston Magazine Has  
Article on Recent  
Kennel Show.

The following article on the Kennel show is taken from the issue of the American Fan Stock Keeper, a magazine especially to dogs and kindred interests and published in Boston.  
Just before the Fitchburg Charlie Hopton had been up John, N. B., and tells us it was a little show. Affairs dogly we have progressed in the right since we blazed the way in the shows under the management McCallough, who revived the dormant for twenty years.  
The largest show yet, accord Stone St. and wonderful qu Irish and English setters as pointers best in show going Irish setter, Bonora Rheols, bit doggy perhaps, but rare he and quarters, reserve to her exceptionally good headed Enter ter bitch, Britanna's Pride, enough for any competition her best on the day being coal. The next best of a bunch was the bulldog, Vici prindle, good all over by a being just out of puppyhood committee, he adds, was abricest lot of fanciers ever, Mackay a hustler, while the tendent E. Wallace, an ama assistants R. Alward and The worked like Trojans and all much praise. A feature of t was the success of puppies in setters and Afrodites, th through to Winners. Mr. leaves this week for Santa by steamer to New Orleans there may be a show for him he promises to have quite a at the California show. As u seems to have been a big cockers. Oh, those early day cockers. Some ranged as muc of ball terriers and the Ir keen and pointed that one need the big air tight stove centre of the hall to keep w we were accused of judging "London standard" and alomally threatened. And what of ball terriers for this is a great fighting cock, but w were very modest compared cocker gentlemen. But then a big cocker up in the New kirk woods and "grooves" t of the standard they go by with McClellan and others. Ross from outside to show th they came down to the p and had classes just like an show. But we shall never fo class of ball terriers if we li hurred, which God forbid, momentum was a pink tea comp

**START MADE C**  
**TUNNEL UND**  
**HUDSON RI**  
Designed to Carry Vel Traffic Between New and Jersey City.  
New York, Oct. 13.—(The A Press.)—Construction of a tunnel under the Hudson between New York and Jersey starts today with the breaking ground for one of the tube's shafts. States, county officials from both states have invited to participate in the 1924, with traffic showing a increase, reaching an annual 22,000,000 vehicles by 1943, based on the ferry rates will h for 30 years to pay for the t then it would be free for the all.  
Four Driveways Provided  
Four driveways, two in each direction, will be provided, a two feet in width, also in plant tunnel, comprising twin c tubes each with an external of 29 feet, will be six feet wide the Pennsylvania Railroad un der the Hudson East River.  
Traffic blockades, now com ferried, would be precluded riding at each end of the t rick-equipped trucks to take automobiles in tow. Three d in each direction will be furn the approaches, because s chines there are expected to el the movement of the vehicular  
Ventilation to rid the tunnel non-mechanical gas from au exhausts will be furnished by large shafts and also by an under the roadway and an above. Sixty vehicles of poisonous gas freely in closed, but chemists working on the ventilation system estimate the highest point of saturation will be only 3/4 parts of carb oxide to 10,000 parts of air tube. It requires 8 parts of the 10,000 parts of air, they figure give a man a headache.

ST. JOHN, N. B., THURSDAY, OCTOBER 14, 1920.

SOME HOUSECLEANING NEEDED.

Honorable Arthur Meighen leaves tomorrow on a speaking tour through the Canadian West. It is his intention to place before the electors of the Western Provinces...

CANADA'S FOREST RESOURCES.

That Canada's one hope of balancing her credits with the United States lies in her forests, and that she is using them to the utmost...

Quebec's Liquor Law.

The provincial law of prohibition scarcely gave satisfaction. What is happening in Ontario is truly scandalous. Even in Quebec the need for liquor is becoming more and more obvious.

A BIT OF VERSE.

CLAY. A man, they say, is made of clay; Undoubtedly it's true, But then one finds so many kinds Of clay—now haven't you?

THE SUGAR ORDER.

There is little in the way of comfort to be derived by consumers of sugar from the decision of the Board of Commerce announced last night.

TO CARRY ON.

According to The Telegraph, Mr. Foster has announced that "the Government can and will carry on, and is neither dickering nor hawking to increase its support."

THE LAUGH LINE.

Sometimes we think there's no funnier sight so big as being disagreeable. If we could only burn ourselves, the coal situation would be perfectly satisfactory.

Mayor McBride of Bradford, the Labor representative of that constituency in the Ontario Legislature, has announced that for the future he will sit on the cross-benches, and not on the Government side as heretofore.

WHAT OTHERS SAY.

Extravagance and Yachts. (Edmonton Journal.) Sir Thomas Lipton denounces the extravagance which he has seen everywhere in the United States and Canada.

Why Import Revolvers?

The Globe a few days ago quoted an official figure showing that revolvers are being imported into Canada at a rate that is aggregating 6,400 in one year.

Can Call Off Hunger Strike.

Sinn Feiners who are trying to establish an Irish Republic are fighting the battle of freedom for Canada, as well as for Ireland, according to Landis Crawford Germany put up a somewhat similar argument at the beginning of the war.

One Single Tax City.

The city of Edmonton is to have a sale of land on which the taxes have not been paid. There are between 17,400 and 18,600 lots on the list, the total value running from fifty cents to \$500 according to size, location and valuation.

Don't Boast.

Don't boast. Sometimes you win. When this is true, The other man Pays worse than you.

Peats We Have Met.

"I wear summer underwear all winter."

Benny's Note Book BY LEE PAER. The fellows was standing around the lampost talking about different subjects, and Skinny Martin came up all trotted, saying, "Hay fellows, holey smoke, wa's you think, Sam Crosses cousin from the country has come to see him and they're around in same yard now and Jimmy Kriesman, wote you think, he's a Benny looking kid and his hair is parted rite in the middle, holey smoke followa."

Let's duck him under the hydrant, the darn daisy, and Leroy Shooster, sounding like a pretty good of a leger, and we all went around to Sam Crosses back yard making noises like tuff guys, and the gate was looked at and we all climbed up and sat on the fence and some freckle face kid was in there coughing Sam Cross how to box, Sam fess, standing there trying to keep from being hit and the freckle face kid jumping around quick as lightning and making his fists go fast like the prize fighter, as follows thinking, Good G wite, holey smoke.

With us soon as the freckle face kid saw us setting on the fence he came over and started to jump around rite underneath, still making his fists go, saying, "Wote you guys want? If any of you guys want a ste come down here and I'll show you a thing or 2, and if you don't want a ste get the heck down off of that fence before I pull you down."

With we all got down age n, luffing as if we thart we was jest getting down because we felt like it, and nobody hadent even noticed weather his hair was parted in the middle or not.

Don't Boast. Don't boast. Sometimes you win. When this is true, The other man Pays worse than you. Famous Whoopers. "Of course I haven't told a soul but you."

GOOD WALLS at 25% Less for Construction. BISHOPRIC STUCCO BASE makes needless the all-wood wall, material for which we can, of course sell you, but BISHOPRIC STUCCO BASE provides an interlocking key, insulating and dovetailed waterproofing unit, and is creosote treated or not, as you prefer. The exterior wall of stucco is both economical and pleasing. For quotations and information, "Phone Main 3000."

Illustration of a family scene with children playing and a woman sitting.

### Honest Advertising.

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Fletcher's Castoria is strictly a remedy for Infants and Children. Honestly advertised as such, without a claim for more than its over 30 years of use have amply proven. A Baby's remedy for Babies. And not an adult's remedy for all the family and all the ails that human flesh is heir to.

### Children Cry For

### Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

### Assaulted His Wife And Dog

#### George Paris in Police Court—Cruelty Case Heard—By Law Charges.

A case against George Paris charged with assaulting his wife, Prudence Paris, by attempting to strike her, and with using abusive and insulting language to her in her home at 278 Waterloo street, and also for abusing a dog, was heard in the police court yesterday. The defendant pleaded not guilty to assaulting his wife, but admitted he had beaten the dog.

The magistrate stated that if the assault on the prisoner's wife was proven he would sentence him to jail without the option of fine. A remand was ordered until inquiries could be made as to the prisoner's character.

When the case opened in the afternoon Mrs. Paris took the stand and stated that her husband brought the dog into the house and began to beat it. She asked him to desist whereupon he threw her across the kitchen floor.

The complainant's daughter corroborated her mother's evidence, and said both she and her mother were hearing their own voices when the dog was thrown across the kitchen floor.

A case against William Truscott, Robert Orr and Charles Muree, charged with furiously driving and abusing a horse and interfering with traffic and being drunk while Truscott was charged with having liquor in his possession other than his private dwelling, was resumed.

M. Selig, C. Gilbert and H. Wenzel, who were driving in an automobile on the Marsh road in the vicinity of the One Mile House, gave evidence, as also did Provincial Constable Robert Orr.

The case was postponed until Tuesday and the accused were allowed out on a deposit. K. W. Wilson appeared in the interests of the Society for the Prevention of Cruelty.

### Delegation of Baptist Ministers

#### Number of Clergymen Left This Morning for Convention at Yarmouth.

When the Empress cleared this morning for Digby, N. B., she carried a delegation of Baptist ministers from the Province of New Brunswick en route to the convention of the Maritime Baptist churches, which will be held at Yarmouth in the party was the Rev. Mr. Camp, of Campbellton, president of the convention, who spent yesterday in this city. Only one local Baptist minister is left here, and he will follow to Yarmouth later in the week.

The material may be seen on application to the Naval Store Officer at the Dockyard.

### WEDDINGS.

McNaught - Byron. Yesterday morning in the Cathedral, Rev. St. John's, with musical accompaniment in marriage Miss Mary A. daughter of Daniel S. Byron of this city, and James Leo McNaught of Sussex. The bride was given away by her father. She was attended by her sister, Miss Bertha E. Byron. The Miss Margaret Fleming acted as flower girl and carried a basket of sweethearts roses. The groom was supported by his cousin, Leo Buckley. They left on a wedding trip to Boston and Portland, and will reside in Sussex.

Vincent-Mott. A very pretty wedding was solemnized at the home of Mr. and Mrs. C. H. Gallop, 90 Newman street, on Wednesday evening, October 13th, at 8.30 o'clock, when Miss Ella May Mott was united in marriage to John Vincent.

The bride was prettily gowned in white silk and carried a bouquet of Ophelia roses. After the ceremony a buffet luncheon was served. The bride's going away suit was of navy blue serge with black hat. Mr. and Mrs. Vincent received very many handsome gifts including cut glass, silverware and china. The groom's gift to the bride was a beautiful racoon fur. After a short trip through the province Mr. and Mrs. Vincent will reside at 50 Newman street.

### OBITUARY.

The death of Mrs. Annie Scanlon, wife of the late David Scanlon, took place at the home of her daughter, Mrs. A. J. Simpson, 20 Duck street, yesterday morning, after a brief illness. She leaves three daughters, Mrs. Surpous, Mrs. John England and Miss Margaret, all of this city. A large circle of friends extend sympathy to the bereaved ones. The funeral will take place from her daughter's residence on Friday morning, October 15th, at 10 o'clock.

A telegram to F. A. Kinnear announces the death, Tuesday morning, of A. L. Rawlins, who will be remembered as a former resident of this city, and who was engaged in the auction business here for a number of years until he removed to Avon, Pennsylvania, at which place he died, Tuesday, near the residence of his son, Harry S. Mr. Rawlins is one of the oldest members of the roll of Union Lodge, No. 2, Knights of Pythias, of this city. He was employed for several years in the business department of the Globe before the fire of 1877.

Murray F. Gilbert. The death occurred at his home in Sheffield Academy on Tuesday morning, October 12, of Murray F. Gilbert. The deceased was the eldest son of the late John and Mary Gilbert, and had been a sufferer from paralysis for over one year. Death came very suddenly. He had been conversing with his family a short time before the end came. Mr. Gilbert was a member of Court Loyalist, No. 121, I. O. F., and was in the 56th years of his age. He leaves to mourn his passing his wife and three daughters, Dorothy, Edna and Ruby.

### NEED OWN HOME.

Divorce is likely to be worse before it is better. Lack of house-room and overcrowding is a very bad domestic life and morals. Newly-weds need homes of their own detached from relatives, and when they must live with parents it makes their adventure a good deal more perilous. Life.

### PARIS IS AGAIN "CITY OF LIGHT"

(Copyright, 1920, by Public Ledger.) Paris, Oct. 13.—After four dark years of war with only a short-lived flash after the armistice, Paris turned on 14,000 gas lamps last night and is shining once more in all her former glory as the "City of Light." Next week the luminous capital will glow along the wide boulevards and parkways and the Seine bridges with all of the radiance of other days when the Prefect of Police will switch on 15,000 electric lamps and complete the illumination of the city.

M. Steeg, minister of the interior, provided that the stocks of coal are not depreciated below a specified amount. German coal is piling into France regularly in accordance with the agreement at the Spa conference and it is believed that the French capital now can safely resume its title as the "Great Luminary of Europe."

### Mrs. Parralen, president of the Montreal Diocesan W. A., left on Saturday for Winnipeg to attend the annual meeting of the Dominion Board of the Women's Auxiliary.

The other delegates from Montreal Diocese attending are Mrs. Bedford-Jones, Miss Burgess and Miss Bancroft—Montreal Star.

Mr. and Mrs. C. A. O'Brien of St. Stephen are registered at the Royal. Captain E. A. MacLean of Chatham was in the city yesterday. Mr. and Mrs. A. J. MacDonald of Moncton are at the Dufferin. George W. Mesereau of Deaktown is in the city. Judge J. H. Barry of Fredericton is in town.

### TALK OF WAR ALL NONSENSE SAYS PREMIER

#### United States and Japan Must Settle Differences in Amicable Way.

### AFRAID CALIFORNIA WILL ROUSE FEELINGS

#### Feels Anti-Japanese in States Are Unfair to His Country- men—May Resign.

By S. W. FLEISHER.  
Copyright, 1920, by Public Ledger.  
Wash., Oct. 13.—Premier Haig's only public statement on the California question is contained in an exclusive interview he has given the Public Ledger. He said: "It seems to me that the referendum will pass and this I regret extremely for it is tantamount to a declaration of war against California. I know that the attitude of California is not endorsed by the other states nor by all of the Californians."  
"The California question must be amicably solved as must all other questions between the United States and Japan. Negotiations are now proceeding in Washington and I am happy that Ambassador Morris is now in the United States because he is thoroughly informed regarding the question involved through close observation in both fields. I am in hopes that a solution will be found satisfactory to both parties."  
"The question has arisen from misunderstanding. The Californians say the Japanese cannot be assimilated. I know from my personal observation that the Japanese in California are fair and honest. I reached the conclusion that the Japanese were rapidly becoming Americanized. It is true they cannot change their color, but they are imbibing the American spirit. The Californians also claim that the Japanese live in colonies but that is largely due to conditions which apply to other nationalities when they settle in the United States. Some anti-Japanese propagandists point out that the high rate in California exceeds that in other states. This is a mistake, a conclusion that is absurd."  
"The referendum will rouse Japanese feeling here will be aroused. I know the Japanese are fairly calm at present. This does not mean that they are indifferent to the movement in California. They are watching this movement keenly, and when the referendum is passed they may become excited, but I assure you that the Japanese Government and Japan's public opinion are taking every precaution to prevent any agitation."  
"We may not be right in placing all of the blame for the misunderstanding on California only. International misunderstanding is world wide. The Japanese have feared in the past as some fear today that foreigners will come to deprive Japan of some of her rights. They are just as much in the wrong as are the anti-Japanese agitators in California."  
"We, the talk of war, Premier Haig said. I have suggested to the premier that some Japanese newspapers are consistently indulging in threats of war. "This is the greatest nonsense," he rejoined. "This war talk has existed a long time. Ten years ago, when I visited America, I was interviewed by American newspapermen, who asked me when we were going to fight America. There is no question that cannot be settled amicably between the two nations."  
"I asked him about his reported resignation and he replied: "I do not know how long I am going to remain in the premiership. It is not necessary that I remain in power as long as I can command a majority in Parliament. Cabinet members resign at will. I am a member of the cabinet and I am appointed premier. He laughed and said: "That is what I am striving for."

### MEN AND BUSINESS

J. H. Tregoe, secretary-treasurer of the National Association of Credit Men, who spoke yesterday to the members' council of the Philadelphia Chamber of Commerce, proved himself not only a diagnostician but a surgeon.  
By metaphor, story and plain matter of fact statement he illustrated the weakness and the strength of the American business man and the American business generally. He said we were woefully lacking in business precedence. From confidence we turned just as soon as clouds appeared upon the horizon to anxiety about tomorrow. We put a lot of unnecessary strain upon ourselves, strain which we could avoid if we gave reasonable regard to the immutable laws of business. We were temperamental, more temperamental than we appreciated. He told two stories of American temperamental disposition in France in the tragic days of war.  
A doughboy and a companion, he said, stopped in front of a statue of Louis XI and one of them said to the other: "Why, Louis the cockeyed," was the reply. "Don't you see it right there, Louis' cock eye?"  
The other was of a soldier who got to Paris from the trenches when Paris was celebrating a great victory. Everybody was kissing everybody. The Yank was kissed by four girls. Some of them were peaches. Some were not. After getting four sniffs he became "choosy" and began picking his girl to kiss. He kissed 20. Then, in his great joy, he shouted: "Who said war was hell? Sherman was a liar!"  
Mr. Tregoe asked why, in view of the fact that we have a genius, a power in the making of machinery such as have no others on earth, we do not install the best system, the best machines man can devise as a business laboratory to analyze and correct business. We are long on theory and short on business-trained view. We display a woeful lack of vision. We do not face facts until they threaten to crush us. If we mixed vision and practical skill with theory we could do wonders and save ourselves from many perils and many bitter experiences.  
The cause of our present ills, he declared, was our failure to accept the facts of the war. The one outstanding fact from a business viewpoint is that a great vacuum had been created by the removal of \$300,000,000,000 of the world's wealth. Instead of recognizing that and meeting the situation without consciousness of the fact that we were draining liquid capital and keeping fixed assets idle. We rioted in extravagance and speculation when we should have practiced scrupulous thrift and saving. We have no thought of keeping credit liquid. Our only thought was of the opportunity to splurge some way. Many millions were lost in bogus stocks alone. Many more millions were wasted in utterly useless ways. Even the government, in putting the interest rate on Liberty bonds at an unwarrantedly low rate, had checked the impulse to thrift, the desire to save.  
"Live right," "Think right," he said. There are too many who want the other fellow to do it and do not do it themselves. Prices were not going back to the 1914 level. After the turn of the year he looked for real improvement in twelve months we may look back on these days and smile. Today we are paying for our errors and mistakes. We'll have other bad periods unless we correct what is wrong in our business system. The opportunity of America never was greater than today. Every effort should be bent toward developing our real trade. This cannot be done intelligently unless we master the technique of foreign credit. Business men must take a large part in the affairs of government. Today our forty-eight states are represented mostly by petty politicians and the business men, through whose negligence this condition exists complain.

### CHOLERA RAGING IN WEST CHINA

#### Cannot Build Coffins Fast Enough to Bury Victims— College Opening Postponed

New York, Oct. 13.—(By Canadian Press)—Cholera is unable to build enough coffins for the cholera victims in West China according to letters received by the American Baptist Foreign Mission Society here from Dr. Joseph Taylor, its representative in Chung-Tu. The letter, dated August 16, says:—  
"The cholera is raging in Chung-Tu. People are dropping dead in the streets and the supply of coffins has run out. A though carpenters are working day and night, the dead have to be buried in trenches."  
"The people look upon the scourge as a visitation of the Supreme Being and in punishing them for their sins. Add to this pestilence a state of war in the province and it would seem as if the cup of sorrow for these Szechuen is filled to overflowing."  
"It may be necessary to postpone the opening of the Union University, as the cholera is on all the roads which our students have to travel."

Auctioneers.

### PERSONAL

LADIES, ATTENTION—Dr. Le Peres Parvian Complexion Cream quickly removes Blackheads, Pimples, Enlarged Pores, Crow's Feet, Wrinkles. Immediate results guaranteed. Full treatment, price \$1.50, sent on receipt of Postal or Money Order. Sole Agents: The Merchants' Publicity Association, Suite 429, 430 Standard Bank Building, Vancouver, B. C.  
SOLDIER SETTLERS  
SHOW AT SHERBROOKE  
An interesting feature of the great eastern Exhibition at Sherbrooke, Quebec, which opened on August 30, was a display of farm produce by soldier settlers on the land. Thirty soldier farmers had exhibits which compared favorably with the best shown by civilian farmers.  
The exhibits were judged by Fred Ritchie, assistant director of the Levesville Experimental Farm and George M. Dix, of Head Office. Four prizes were awarded as follows: First prize, H. T. A. Webster; second, N. T. Hemmings; third, D. Pindley; fourth, William Wilshire. One of the exhibitors, in addition to a fine display of garden produce, had 18 head of Holstein cattle in the live stock entries. Closest interest was shown in the exhibit which was tastefully arranged by Mr. Evans, the District Agriculturist of the Board. Some of the corn displayed stood over 12 feet in height. Potatoes generally were of fine quality and there was also a good showing of apples.  
Real interested.  
Mother—"Where have you been, Johnny?"  
Johnny—"Down by the old mill watchin' a man paint a picture."  
Mother—"Didn't you bother him?"  
Johnny—"No! He seemed real interested in me."  
Mother—"What did he say?"  
Johnny—"He asked me if I didn't think it was almost dinner time, and whether you'd miss me?"

### FOR SALE

**BANDITS BLOW BANK, GETTING ABOUT \$19,000**  
Masked Gang Forced Manitoba Teller to Open Vault and Then Tied Him up.  
Winnipeg, Oct. 13.—Five masked men, after blowing the safe of the United Bank at Windsor, Man., at three o'clock this morning, escaped with \$19,000. W. Grozier, blacksmith, who heard the noise in the bank and attempted to ring the town bell, was shot in the leg by one of the gang, who was outside on lookout. The five escaped possess from ladder and Mordecai.  
Glaude Williams, the teller of the bank, and the only one in the building at the time, was awakened by four men who compelled him to come to the vault at the point of revolvers.  
They forced him to open the vault, changed him up, put him in his bed, and carried him, bed and all, out of the building and left him at the door. They then blew the safe with dynamite on nine shelves and took the cash in the vault. Telephone, telegraph and electric light wires in Windsor had all been cut before the robbery began. They were masked and used only flashlights, so Williams was not able to give any description of them. When they were leading him to the vault, one of them said: "Our government would not give us any bonus if we had fought for you, so we're going to get ours from the Canadian government."  
For a friend, "Spill O.A.T." "C.A.M." he will vary likely say. "They say: 'They take away the O.A.T.' and what is left?" "A.T." he will answer.  
"No, wrong! you say, laughing. 'I would have liked him a day and then when he will see how much he has been saved."

**NO DOOR KEYS IN BOLSHEVIK LAND**  
London, Oct. 13.—Door keys are considered unnecessary in the bolshevik scheme of life in Russia. Only privileged persons are supposed to possess them.  
When the Associated Press correspondent who recently crossed Russia asked for a key to one of the nationalized hotels at Omsk he was informed by the hotel "commander," namely the owner, that under the Red regime doors are not supposed to be locked.  
An appeal to the Omsk bolshevik commandant resulted in the American correspondent obtaining an official document granting him a key and the privilege of locking the door of his room.

THE WEATHER.

Toronto, Oct. 13.—Pressure is relatively low from Texas to Manitoba and quite low in Northern British Columbia and high over the Pacific and Atlantic United States coast. The weather has been fair to-day throughout the Dominion with the exception of a few light scattered showers in the Western Provinces.

AROUND THE CITY

BEGGAR ARRESTED. George McDonald was arrested last night for being drunk and for begging from house to house.

VISITING HALIFAX. Mayor Schofield left last night for a short trip to Halifax. While he is absent Commissioner Frink will be acting mayor.

COMPLETE ARRANGEMENTS. Mayor Schofield and Commissioner Jones yesterday completed an arrangement with Mr. Boyle to look after the disposal of all the slush on the Drury Lot, where he is cutting lumber.

AUTOMOBILES COLLIDE. Early yesterday morning two automobiles got into a clinch on Main street near Portland with the result that both were badly damaged and had to be towed to the car hospital for extensive repairs.

HAD FOOT CRUSHED. Bertina McMullan, 15, an employee of the Cornwall and York cotton mill, had her foot badly crushed by the elevator at the mill yesterday morning. She was taken to the hospital in an ambulance. Her injury was attended to and she was taken to her home.

LOCAL CHINESE UNREPRESENTED. The Chinese colony of St. John was not represented at the national convention of that race held this week in Montreal. Delegates were present from all parts of the Dominion and questions concerning the interests of the Chinese in Canada were discussed. The gathering ended with a big banquet last night.

MOOSE ON THE HIGHWAY. "Oh, for a gun!" was the wail of a couple of Fredericton men the other night when they ran into three moose while driving an auto between this city and Fredericton. On the trip from the capital here they had encountered one in the road, but got away with a cow, a young bull, and a big bull. The animals moved away slowly into the brush when the auto came to a standstill.

HAVING FINGERS REMOVED. James H. Pitt, a veteran who unfortunately lost most of the fingers of his right hand "over there," has gone to the Military Hospital to have the rest of the fingers removed. He made some remarkable drawings shown at the Exhibition, holding the pen between the short ends of fingers. With characteristic bravery and tenacity of the vets, he is now practicing writing and drawing with his left hand, and will no doubt succeed.

POST OFFICE HOLIDAY. October 18th having been proclaimed a day of thanksgiving by the Government, the day will be observed by the City Post Office in the same way as last year, and I would suggest that the public take note of the same and govern themselves accordingly. The General Delivery, Registration Branch and Stamp Vendor's office will be open from 9:00 to 10:00 a. m. and from 6:00 to 7:00. The Money Order Office will not be open on that day. There will be no delivery by carriers.

ST. JOHN ART CLUB ANNUAL MEETING. Transaction of Business and Election of Officers Takes Place Today.

The annual meeting of the St. John Art Club will be held today for general business and election of officers. W. Shives Fisher, who has held the presidency since the inception of the Club in 1908, is retiring on account of pressure of important public and private business. His retirement will be a distinct loss to the society, as he has endeavored in every way to make it a valuable organization to the citizens. The aim of the society has always been to make it a nucleus for the larger art museum, library and galleries that this city so largely and richly as St. John should long ago have had.

The Club plans for the season are formulated, and a printed programme circulated. So much interest was taken in the picture exhibit handled by the Club at the Provincial show last month that it is expected the membership will be largely increased this season. The classes have already had a large number of new members named sent in, and every effort will be made to make them this year more attractive than ever.

Persian Guest of Canadian Club

Troubles of That Land Before and During World War Were Amazing.

Best met West at the Canadian Club luncheon last night when Professor Pazel, of the University of Teheran, Persia, spoke on present conditions in his native land. The professor delivered his entire address in Persian and an interpreter translated it for the benefit of his hearers. W. H. Randall presided the professor in a short address on Universal Peace. Mr. Randall credited Abdul Baha, the Persian sage, as having first conceived a plan for universal peace, and said the world would never enjoy universal peace until it developed a universal consciousness.

The luncheon was well attended and Mr. H. A. Porter presided. Telegrams were read from Sir Robert Borden expressing regret at inability to accept the club's invitation to address them and from Theodore G. Roberts who will speak here next Tuesday.

The Address. Professor Pazel said in part: Although it is nearly seventeen months since I left my native land, conditions have not changed much. In order to understand the present situation in Persia, it is better to bring before our vision the great changes which have been wrought in that country during the last few years. The national religion of Persia is Mohammedan although certain minorities such as Jews, Christians and Zoroastrians are found. The religious prejudices and fanaticisms as practiced by the Mohammedans against the Christians are well known. Not only is this prejudice directed against the Christians but against all religions because the Mohammedans look upon themselves as the chosen race. In the east because no strong legal laws prevent people from extreme religious fanaticism people's actions are turned into savage attacks. No law has been powerful enough to prevent the perpetuation of these practices and the people are submerged in a sea of superstitions and dogmatism.

Cradle of Civilization. Ancient Persia was the cradle of civilization and refinement in the Middle Ages. Astronomy, medicine and algebra were introduced into Europe from Persia. In the last two or three centuries many causes assisted to bring the decadence and degeneration of the Persian people. Religious prejudices were so strong the Persian people were not ready to accept the modern ideas of civilization because the promotion of these scientific principles would destroy the rot of their tree of prejudices. A hundred years ago there was hardly any modern educational system in Persia, the women looked upon as inferior beings having no special privileges of culture and development. Polygamy and divorce were rife.

The New Leader. Under these disheartening conditions Baha'ullah appeared on the horizon of Persia and flooded the land with the rays of new teachings. This was about seventy years ago. Through the influence of his new teachings the realm of thought underwent a great change. He called on the Persian people to display great effort in education, the most important problem of life. He advocated the standardization of a universal system of education for all humanity so that the children of the world may receive an equal share of knowledge and science, no matter where they live. Immediately after the spread of these ideals new schools for the education of the girls were founded, for he said the education of girls is by far more important than boys. The boys may learn in the school of hard knocks but the girl becomes the quantity her education is of paramount importance.

Baha'ullah abrogated polygamy and repealed the law of divorce. He compelled the hearts of contradictory religions and made them united. He made the Mohammedans, Zoroastrians and the Jews to understand and believe in the divinity of Christ.

Wave of Persecution. The Persian Government being autocratic and the Mohammedan clergy oligarchic more than twenty thousand Bahais were martyred and their leaders banished. Even the Turkish and Imperial Government of Persia did not like Baha'ullah because the Prophet did not like to go on the side of the Central Powers. From the beginning the Persian people were friendly to the British Empire. The Turks and the Russians in turn invaded the country, pillaged and destroyed large towns and villages whose inhabitants they put to the sword. Pestilence and famine came afterwards and swept many parts of Persia of every vestige of life. When I left my native land negotiations were under way to make a new treaty with Britain which would bring the two countries nearer to each other and establish peace, tranquility and composure in that land.

Predicted Years Before. Baha'ullah predicted the events of this great world war nearly sixty years ago. He clearly writes that the end of this war will bring the downfall of Germany and the dismemberment of Turkey. The Mohammedans went far as to say if these prophecies came to pass they would become Bahais. This movement desires to establish justice among the people of Persia; to remove all signs of misunderstanding, to bring an end to all wars.

Steamer Utsire Here From Germany

Officers Talk Interestingly of Conditions at the Present Time in Hamburg.

The Norwegian steamer Utsire, the first steamer to arrive in port with a cargo from Germany since the beginning of the Great War docked at No. 3 pier on the West Side yesterday morning. The ship is loaded with an all German cargo, some 2,000 tons of potash, one-half of which is consigned to a fertilizer factory in St. Stephen, and the rest to a firm in Boston. She made the trip from Hamburg to this port in twenty days of a very rough voyage, during which the bridge of the steamer was nearly swept away.

Conditions in Hamburg. The officers of the steamer describe conditions in Hamburg, which are but a counter part of those prevalent throughout all Germany, as follows: Food is very scarce, and the people are subsisting on black bread, potatoes and turnips. Flour and sugar are especially scarce, although meat is quite plentiful in the woods. The steward of the Utsire said that he gave a loaf of white bread to the wife of one of the longshoremen who came out to the steamer in a lighter with her two young children. When the little ones were given small slices from the loaf their faces became starved in smiles, to them it was better than all the candy in the world. As they were but four and five years of age, it was perhaps the first white bread they had tasted. During the steamer's stay in Hamburg the ship's galley was continuously besieged by workmen asking for food.

The sailors said that white rye was scarce, and the people were still kept on rations, those who had the money and were able to pay extortionate prices had of late been able to get all the food they wanted.

Labor Unrest. The labor unrest caused to a large extent by the changed money values and the depreciation of the German mark was held responsible for much of the present day misery. As an illustration of the changed money value, they said that suits of clothes which cost 200 marks before the war, now sold for 2,000.

The Utsire was held on her arrival in Hamburg by a strike among the longshoremen. The men were getting 45 marks a day and asked for 60. A compromise was made, and they went back to work for 51. Before the war they earned from 10 to 12 marks a day.

Girls Out of Employment. During the war the street cars and other public services in Germany were run by young girls, but after peace was signed the men were re-instated with the result that in Hamburg alone over 20,000 girls were thrown out of work and are practically destitute today. Morals have become very lax as a consequence.

The theatres and restaurants are kept wide open until midnight and gaiety is rampant. It is not considered safe, however, to be on the streets alone after dark.

The greater part of the German people are working industriously, nevertheless, the workmen spend little on beer or liquor, and are putting away what they can for a better future. Some long again for the Kaiser, while others curse him and wish the Crown Prince in the deepest pit of hell.

The Norwegians state that high prices and labor unrest have also been experienced in their homeland, and that anxiety for Germany is a thing of the past. During the war 400 ships and 2,000 Norwegian sailors were sent to the bottom of the sea by German submarines.

Automobile Party Had Narrow Escape

Made Trip to Halifax in Ten Hours—Nearly Went Into a River.

The St. John men who made the first run from St. John to Halifax in the Cobb 8, returned home yesterday and report having enjoyed the trip which was not without its thrills of excitement. The actual running time was about ten hours, and a few unnecessary stops were made during that journey.

Narrow Escape. At one place on the highway the car was hitting a clip at about fifty miles an hour when they came to a sharp turn on the road. The car went from one side of the road to another and when finally brought to a stop the party walked back a short distance to see how near they had come to death, and found the tire track to be but a few inches from the edge of a bank, where, had they went over would have dropped about thirty feet into the river. It was a narrow escape and proved an experience that none of the party wishes to go through again.

The automobile stood up well during the fast race in which it went over bumps along the highway and reached the sister city in good condition.

The party issued a challenge to any pleasure car for a race back to St. John, but there were no takers.

Went it Alone. Three cars were ready to race from St. John to Halifax and each owner offered to place two hundred dollars in a pool if the Halifax carnival committee would add four hundred, making a sweepstake purse of a thousand dollars to be won by the first car arriving in Halifax. In addition to this a few local men added fifty dollars to the pool. The carnival secretary was talked to on long distance telephone and said there was no money available for the automobile race, so the much talked of event was off, excepting the one party who were ready for a trip to Halifax and made it on their own expense.

Store-Wide Sale Starts This Morning At Oak Hall

It comes as a pleasant surprise to the patrons of Oak Hall to hear that starting this morning Oak Hall are inaugurating a stupendous store-wide mark-down sale. This sale will in every way be an exact duplication of Oak Hall's famous mid-summer and mid-winter sales, but because many people who were ready for a trip to Halifax and made it on their own expense.

This unexpected sale, coming as it does, right at the beginning of cold weather, affords a wonderful opportunity for everybody to procure their new season's wearing apparel at big savings.

A sale of this magnitude is so unusual at the commencement of a season that it is a rare thing to see a plain statement as to the reason of it. It is simply that Oak Hall for the past few years having been buying more than they needed in order to procure enough for their work because manufacturers were only shipping about 60 per cent of the quantity ordered, being far behind in production.

This year Oak Hall proceeded along the same line but conditions very suddenly changed, and manufacturers started to ship not only 100 per cent of this season's orders, but also much merchandise that had been ordered for the year or more.

The result is that Oak Hall finds themselves with more goods than they can consistently take care of; therefore they decided on this stupendous store-wide mark-down to the very lowest possible margin of profit, in fact some lines are marked way below actual cost.

By this method Oak Hall anticipate a large volume of business by reducing their stock to normal. Their customers reap the benefit of procuring their winter's apparel at prices much lower than would be possible in the ordinary way of business.

This stupendous sale starts this morning and will continue for a short time only, so that interested ones should be on hand early.

DRESS UP FOR THANKSGIVING! One of the most successful stimulators of happiness and sociability is new clothes. Present choice selections in Ready-to-Wear Apparel offer many opportunities to promote such Thanksgiving happiness.

Payment of Water Taxes

Amount Collected This Year \$13,000 More Than 1919—Total Received \$139,246

The payments on account of water taxes came in with a rush the last three days of the discount period, and brought the amount collected this year up to nearly \$13,000 more than last year. The payments this year amounted to about 82 per cent of the total levy, last year only about 80 per cent of the levy was paid during this discount period.

The total received this year was \$139,246.48, and of this amount \$17,142 was received during the last three days.

The figures as given out by the Chamberlain are: 1920—Levy, \$169,716.80; amount received, \$139,246.48. 1919—Levy, \$158,036; amount received, \$126,462.96.

Amount taken in last three days: 1920, \$77,142; 1919, \$62,418.

DROPS DEAD IN BOSTON. Miss Alice Malcolm, 177 Cedar street, received a telegram from Boston chief of police yesterday, announcing that her brother William had dropped dead in that city. No particulars were received by the sister. The deceased was a native of this city, going to Boston about fifteen years ago.
