What a four-leaf clover for me will do!"

For soon it happened that two heads bent
In search of the wondrous clover,

Admiral Benton, an old and distinguished officer in the English navy, has just been convicted of sending anonymously scurrilous and libelous letters to a number of prominent persons. It is supposed that his mind is affected.

Mr. Gladstone said a bright thing when he told some colliery men recently, that if "any workman chooses to work for nothing in the face of a thousand other men, he has as good a right to do so as the thousand have to say what they will work for." That is common sense, of which strikers need a share.

She had received one blow on the head with the club, and six others were inflicted with the axe. There were two horrible wounds ducing the anguish of a blister, as is the old method.

DRESS MAKERS recommend it as being the best Corset to fit a Dress over, because it is cut in such a manner that the front and back seams fit like seams to a dress.

It is superior to ony other Corset now in use, because its peculiar style of cutting gives sufficient full ess at the bosom, without folding at the top; gradually and closely fitting to, and over the hips; is longer fron 1 and back than ordinary Corsets; and in fact, is the Only Corset Cut in This Form!

Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediwhile others affirmed that the agents of both Were too much inclined to tell fibs. ment, it will keep it clean and vigorous. ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. A BACHELOR'S CONSOLATION. A Romance of the Needle. BY ROCKAFELLOW. n a snug little cot, not a thousand miles off, Lived a lonely, contented old "bach," The cooked his own grub and dined by himsel. And had no one to sew on a patch.

With his cat, and his dog, and his little pet which is at once agreeable, once agreeable, But needles were sharp, and would frequently stick, So he oft went with holes in his clothing.

There no doubt were misses and maids quite Now, this lucky old bachelor heard by a friend, Or read in his morning journal. Of the wonderful stitching of sewing machines, And considered the matter nocturnal.

By the feed that could make it sew back.

But our Bachelor friend was dissatisfied still,
For the "Florence" so complicate seemed,
He feared the minutiæ might "get out of fix,'
And could never be wholly redeemed. Then they told him another advantage they had Over other machines in the West. That four different stitches with it they could make And from four he might sure get the best.

Our hero replied. "What's the use of the our!

If one of the stitches is best.

Why that is the right one to use all the time,!

And what will you do with the rest?" The "Howe" and the "Wilson" both vainly he tried,
The "Domestic" and "Osborne" as well.
But the Howe" was too heavy, the "Wilson too light,
And the "Osborne" broke down on a fell.

The "Finkle & Lyon" or "Victor" he tried. The "Etna," "Blees," "Lenvitt" and "Weed Till worried and vexed with his fruitles researc He scarce hoped in the end to succeed.

After trying in vain many other Machines, Without any hope of success, He called where the "Singer New Family" kept, And they quickly relieved his distress. For here half a dozen machines were engaged
In stitching of different sorts,
Which they did so complete, and with so little

He acknowledged the truth of reports. In lightness of running, in stillness and speed,
In construction so simple, yet strong.
Sure none but the "New Family Singer" would Though he'd searched through the infinite

Then the stitch was so neat, so chastic, so strong That he vainly endeavored to break it. And so many advantages in it combined That he quickly decided to take it. J. D. LAWLOR, Manufacturer of the New Singer Family, feb 25. 40 King Street Common & Refined Iron, Metal, Cordage, Duck, Spikes, &c.
