EDITOR AND PROPRIETOR.

WHOLE NO. 1010.

SPRING IMPORTATIONS.

ROOM PAPER.

WINDOW SHADES.

B. FAIREY has received the largest and best assortment of ROOM PAPER, PAPER BLINDS and WINDOW SHADES ever shown in this county.

OVER 7,000 ROLLS,

FROM 5c TO 75c PER ROLL.

Window Shades with patent Rollers made to order or sold separate.

SPECIAL NOTICE.

On or about the 1st of April I will move my stock of Furniture and Dry Goods to the store at present occupied by Mr. Geo. Stables, Hayes Building, facing the Public Square. This is owing to my increasing business, my present stock being too small. To my numerous friends I return my sincere thanks for their liberal patronage, knowing that my effort to sell goods at small profit, keeping good articles, has been appreciated by the public.

B. FAIREY, Newcastle.

The First Sign

Of falling health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the debilitated system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, curbing, and vitalizing the blood.

Failing Health.

Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams, Alexandria, Minn.

I have used Ayer's Sarsaparilla in my family for several years, and know it to be a truly valuable medicine. I have cured my children of various ailments, and I have seen it do the same for many others. It is a truly valuable medicine, and I can recommend it to all who are afflicted with any of the above named ailments.

W. F. FOWLER, D. D. S., M. D., Greenfield, Tenn.

Dyspepsia Cured.

It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians and tried a great many kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. Today my health is completely restored.—Mary Harley, Springfield, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 885 Atlantic Ave., Brooklyn, N. Y.

Ayer's Sarsaparilla,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Price \$1; six bottles, \$5.

It is an invaluable Hair Restorer and cleans the Scalp of all Dandruff.

C. C. RICHARDS & CO.,

Sole Proprietors.

It is an invaluable Hair Restorer and cleans the Scalp of all Dandruff.

Another Proof.

Given in February last I took severe cold, which settled in my back and kidneys, causing great pain. After using several preparations and without sleep being able to get any rest, I tried your MINARD'S LINIMENT. After first application it was so much relieved that I fell into a deep sleep, and complete recovery shortly followed.

John S. McLean, Elm House, Laurencetown, N. S.

MINARD'S LINIMENT is for sale everywhere.

PRICE 25 cents.

to be made. Cut this out and give it to us and we will send you free, something of great value and importance to you, that will start you in business which will bring you in more money right away than anything else in the world. And one can do the work and live at home. Either sex can do it. This is one of the genuine, important chances of a lifetime. Those who are ambitious and enterprising will not delay. Grand outfits free. Address, TAYLOR & CO., Augusta, Maine.

Selected Literature.

A SIMPLE KINDNESS.

"Well, Edith May, if you're not the meekest-spirited creature I ever see! Why don't you tell her to take her dress and go to Jerusalem? I wonder they don't get out patent elastic sleeves that will pull out long when you stretch your arms, and shrink up short when you bend it! How you can stand such old fustidities I don't see! 'Don't you think the waist is a little too tight?' (When it's a mile large!) 'And this collar comes close under my chin when I sit down!' (When anybody knows that a collar always does rise up if you sit down easy-like. Though I do suppose the present style is only meant for them that's previously swallowed the poker and therefore can't sit down in a heap, counter-like.)

"'An' then the way she ordered you round! 'Now, Miss May, I am going away Monday morning and must have my suit Saturday without fail.' An' you taken it all as meek as Moses instead of telling her it was her own fault—that drive—an' if she'd come to be fitted on we could have got through nicely!"

"'An' then there's your mother frettin' an' fussin' an' fussin'—"

"'We won't discuss mother,' said Edith, straightening up suddenly, while a little spot of color appeared in either cheek.

"'And you know, Sara, that Miss Carrot has a cancer from which she suffers a great deal and perhaps we wouldn't be any more patient than she if we were in pain all the time—Yes, mother—to a voice from the adjoining room. And dropping the rich stain she disappeared.

"'What are you two making such a clack clacking for?' exclaimed an irritable voice. 'I tell you I can't stand it! My head is splitting and every bone in my body aches. I think you neglect me shamefully! And I hate the sound of that everlasting sewing-machine! Oh, dear, to think that I should ever come to this—to be a helpless, neglected invalid, with the rheumatism all over me and my daughter thinking no more of me than if I were a cat!"

"'Now, mother, darling. You know I love you! Let me turn your pillow—there! And now let me bathe your head—No!—And we'll move the machine into the farther room so you won't disturb your eyes and sleep. And I'll bring my work in here and sing to you!"

"'No, I don't want you! I hate the rustle of the satin! And the swish of the scissors drives me wild. What do you do dremaking for anyway? Isn't there anything else you can do? Money enough was spent on your education, I'm sure!"

"'No, mother, not without taking me away from you. And you know the rent-day is coming and we want the money for that and other things."

"'Oh dear! dear! If your father hadn't failed and—"

"'Mother!' said Edith with sudden sternness, 'don't speak of father in that way! You know he failed honorably; and for the deed done when suffering from brain-fever, he was not responsible, Father was the best and kindest and most honest—' Her voice broke in a sob.

Mrs. May turned uneasily and turned from her daughter. She knew so well what a tender-hearted man Duncan May had been; giving her everything that heart could desire, until Edward Smith, for whom he had given his note, decamped. Then his all had to go, and with it his business. For his business had needed just that backing with money which he could have given it by for the note.

Well Mrs. May remembered the day he had told her they must move into a smaller house and begin all over again.

"'But with that had poured upon him such a storm of indignation and reproach for bringing them to poverty, that he quivered as if beaten with rods; then quivering on her white, will look of anguish, had staggered like a blind man from the room.

Next came the fever. Then the death.

Edith, guessing the torture of her mother's remorseless soul, was always most patient and tender out of very pity; save when her father's name was spoken in this way.

"'Now, mother,' said Edith a moment later, 'let me give you this soothing drink.' She spoke with utmost tenderness after her momentary sternness.

Mrs. May seized and drank with eagerness, knowing that for a while at least, she would be enabled to forget.

Then Edith went back to Sara, and together, very quietly, they moved the machine and their work into the farther and smaller room.

Sara looked up at Edith after they were settled as if she would like to relieve her mind again, but something made her close her lips and put her righteous indignation into her overcast, which accordingly got done at an extra rate of speed.

And now the work was rushed along. Scissors swished, needles flew and pins whistled told them it was noon.

A lot more color flashed into Edith's face. Unconsciously she arranged her hair in the glass and straightened the bow at her throat. Then brushed the threads from her dress.

And then she hovered about the kitchen setting the table for dinner, till a quick step sounded on the walk.

He was a broad-shouldered, large-framed, plain-looking working man who the next moment had gathered her in his arms.

"'You don't look down upon a carpenter?' he asked a moment later; and she answered: "How could I when he's six feet tall?" then softly and gravely: "The Lord Jesus was a carpenter."

"'I'm not worthy of you,' he returned, with the rare humility of great love. 'I know you, with your education and—everything ought to look higher than me. There's the doctor, now; he loves you, and he's got position and education and money. Why don't you take him?'" (A bit of jealousy in this.)

"'Because I don't want him! And, Bert—standing before him with hands rising into his—' you are growing and dropping all the time. You are earning money honorably and gaining an education as you go along. You have the trust and confidence of people. And for what you are, and for what you will be, and just for your own true self, I love you."

Her eyes were shining and looking up straight into his. A momentary passion shook him.

"'Why don't you come to me now, darling?' he asked eagerly. "It would be better than this"—glancing around.

"'No man could ever love you better,' he ended, with a tremble in his voice.

"'Not while mother lives. Now—there!—go!"

Just a few moments of blessedness each day. But they sweetened the whole of life. All the tiredness was gone from heart and body, and back had come the old elasticity of motion she had known before these days of work.

Sara saw and smiled as she entered the kitchen for her dinner. Sara was not a bit crabbed in her heart if she was an old maid, and if she did let her tongue run like a wind-mill sometimes.

"'Eless you!' she would say. "I believe in love! It's the most beautiful thing in the world. I'd be ashamed of myself if I didn't believe in it! An' I hope I'll believe in it when I'm eighty!"

"'Then why don't you marry?' people would ask.

"'Oh because?' Sara would answer with a tantalizing gleam in her bright, brown eyes. And no one could get more out of the plump little body who must have had lovers enough.

—"I'VE HAD DONE IT INTO ME."

How the needles flew that week till Saturday came!

"'I must take the dresses myself,' said Edith that morning, hurrying with her toilet while Sara pulled out lastings.

"'Then perhaps Miss Carrot will pay me—struggling with her fluffy locks—"

"'And then I can pay you, Sara."

"'Don't trouble about me,' returned the seamstress, 'I have only my own lone self to care for all I can get along.'"

"'Thank you, Sara, but it worries me to be owing you.'"

"'Never mind that, child.'"

It was cold, frosty day and Edith was lightly clad. The wind cut her like a knife, and her bundle was large. She was glad of the latter, for it partly shielded her.

The hope that she would be paid closed her and lent strength to her body through the long walk.

That little strength seemed utterly to ebb away, and she shivered with cold as Miss Carrot, after surveying the dress critically and finding several small faults with it, said, coolly: "I find I need all my money for my travelling expenses, and I cannot pay you till my next dividend comes in. Good morning."

What a feeble, wilted little figure it was that trudged back the weary way.

But Edith May was never too tired to help others, and when a quivering old voice reached her ear asking the way to Baker street, she stopped to give full directions. "I am going in that direction," she added in her pleasant, gentle voice, in which she would not let her weariness appear, as she noted the puzzled expression of the old woman's face. "And with just a little turning from my way I can put you in a street which will lead you directly there. Let me help you on this icy crossing."

She slipped her hand through the old woman's arm and helped her across the treacherous ice.

The wrinkled old face lighted up. "You're very kind to a poor old body," spoke the quivering voice.—"You're sure it won't take ye much outen yer way? Ye look tired," she added.

"'Not very much,' returned Edith, "and then you can't have any more trouble."

"'An' what maught yer name be?' queried the stranger as they walked along.

"'Edith May.'"

"'An' who maught yer father be?'"

"'Duncan Eggleston May.'"

"'Holy Mither! An' where maught he live?'"

"'He's—with a little gasping breath—'he's dead.'"

"'May the saints protect him! A good man to be the poor!'"

Some strong emotion flicked the woman and she fumbled for her handkerchief, the tears running down her withered cheeks.

"'An' where maught ye live?'" she continued a moment later.

"'At No. 8, Elwell St., Highlands.'"

SOME UNPALATABLE TRUTHS.

At Declaration at Amherst, N. S., after Sir Chas. Tupper and Mr. P. P. P. Hon. Mr. McLellan followed, as reported in the *Chippewa Post*, as having referred to some of Mr. P. P. P.'s statements, and said that he (McLellan) was the son of an old Liberal, but that the old parties were broken up at the time of Confederation. When he went to Ottawa he saw Sir John Macdonald lay deep and broad the foundations of the great Liberal-Conservative party and he had joined that party. They had spent no money when they were in power. They never boast of the ditch they dug at Fort Francis, nor of the money spent for the Newburg Hotel. The Liberal leader in the Senate had boasted when the Liberals were in power that they had saved three or four millions in public works by the lowness of wages.—The Reform party reminded him of the servant who hid his talent in a napkin.—Like that servant they had been driven forth into outer darkness, and they had been gnashing their teeth at the Government since Mr. Blair was like a man who had been riding through the country with his back to the locomotive. He protested that there was nothing but ruin and disaster ahead, but when the train passed safely and successfully along so that he could see behind him, he was forced to admit that the country was rich and prosperous. Mr. Blair may not think he will get into power because he has swallowed the N. P. He has swallowed too much besides. He has swallowed Riel and his rebellion; he has swallowed Laurier and his market, and he has swallowed Merrier and his blasphemous comparison of the execution of Riel to the crucifixion of our Saviour.—Mr. McLellan's speech contained many excellent points and was warmly applauded.

"'An' maught yer mother be livin'?"

"'Yes.'"

"'I know her—a hard case she is?'"

"'What, maun?' (The words had been nullified.)

"'Yer fatherly left ye well off, may be?'"

"'No.'"

"'Poor?'"

"'Yes.'"

"'That's a pretty howdy-do! What d'ye do?'"

"'Sew.'"

"'An' support her?'" (The termagant—under her breath.)

"'Who?'"

"'Yer mother.'"

"'This is your street,' said Edith, with the spots very bright in her cheeks.

"'Baker St. is the first to the right—Good morning.'"

"'Not by a long shot! I'll pay yer yer trouble. I'm not so poor but I ken do that. An' it isn't often a body goes outen her way to do an old woman like me a turn. Then that does me a turn I do a turn for likewise. What No take it! Why, money's what folks lives on! Put yer pride if yer pocket an' taake it! I ken see 'at ye need it.'"

"'I don't do kindness for money,' as turned Edith trying to smile, but with the spots very red again in her cheeks and a choking sensation in her throat. Then seeing the disappointed, non-plussed look in the old face, her anger faded entirely and her own sunny smile broke forth.

"'I am very glad indeed to have been able to help you,' she said. "The pleasure of it is payment enough. It does me good when I can do something for others. Don't thank me! Indeed you're very welcome!"

"'What maught yer directions be?' catching her dress as she would have turned away.

"'No. 8, Elwell St., Highlands.'"

"'Thanky! thanky! Fust ter the right? Thanky! Good day.'"

"'An' her mother's the trial till her, soliloquized the old woman as she went on her way. "But she—she's her father's own image. He does me many a good turn, specially when the old man be sick, an' the law lord threaten fer rick. An' then ter set me, a widdler, up in business; payin' for all the apples an' oranges an' bulls'-eyes and peppermints an' coco-cakes; hilpin' me 'long till I'm a dead sure thing or a success! Well, the Irish has warm hearts an' remembers a good turn as long as th'ixt one. An' if I don't help her, my name's not Bridget McGinnis!"

—"GOD'S HAND BENEATH."

"'I've seen that old woman before,' thought Edith, as she trudged home; "but edgud her memory as she would it would not carry her back to the charwoman who had kept her father's office clean when she was a little child, who had disappeared for a while and then appeared with an apple-stall just over the way. So she gave it up and turned to the old harassing car about how to make both ends meet. Sara could not be paid. She—Edith—must be as best she could her mother's fault finding. And—worse—she must beg her landlord to wait till Miss Carrot's work was done and had gone elsewhere.—Others had been annoyed because her mother had called her away when they were talking over styles. True, they acknowledged that she fitted them beautifully and had exquisite taste. But so true it is that nothing succeeds like success and fails like poverty.

No wonder the child, worn with working and walking and thinking and poor living, broke down when she reached home and had a good cry on the friendly Sara's shoulder.

"'Don't mind, da-darling,' said Sara, crying too. "It-wi-

TAILORING. T. WINTER Has just received a fine assortment of ENGLISH AND SCOTCH TWEEDS, which he is prepared to take orders for and make up in.

ROYAL BAKING POWDER Absolutely Pure. This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight adulterated powders.

THE GREAT SELF WASHER TRY IT. A marvel of efficiency and economy. Quality never varies. The perfect and best for all household purposes, and cleaning and shining without injury to hands or fabric.

WOOD SNOW SHOVELS, Steel Snow Shovels, Iron Snow Shovels, Weather Strips, Ice Creepers.

W. H. THORNE & CO. Market Square, St. John. Jan. 17, 1887.

FLOUR. FLOUR. A LIFE SAVED FOR A DOLLAR. This is to certify that having been troubled for a number of years with a distressing cough and bleeding at the mouth, and receiving no benefit from the medical aid, I was to all appearance in the last stage of consumption.

THE DOCTOR SAID, "HIM TRY IT." "SOME TIME AGO MY SON WAS TAKEN WITH SERIOUS LUNG DIFFICULTY, which threatened to end in quick consumption. I was summoned to attend him, and he attended him faithfully for four weeks, during which time he gradually grew better, and was able to get up and walk about himself, and being satisfied that he was growing worse all the time, he finally refused to take any more medicine from the physician, and expressed a wish to try Johnson's Anodyne Liniment. I immediately told the physician, expecting that he would object to his using it; but he did not. He said, 'let him try it; it won't hurt him, and may do him some good.' I can truly say I continued to use it some time, taking it inwardly, and bathing the chest and lungs outwardly. Very soon he began to improve, gradually gained strength, and at last we had the satisfaction of knowing that the foundation of his disease was broken up. My son is alive and well to-day, possessing a strong and vigorous constitution, which we attribute, under God, to the use of Johnson's Anodyne Liniment. Can further say that I never allow myself to get out of the article; and that, in my judgment, it is the best family medicine I ever used." (See) JOHN HODGKINS.

Fashionable New York belles now and themselves driving donkeys. The girls say the transition is not so very great from association with a full-blown dude.

SHILOH'S VITALIZER is what you need for Constipation, Loss of Appetite, Dizziness, and all symptoms of Dyspepsia. Price 10 and 25 cents per bottle. Sold by E. Lee Street.

"Isn't it heavenly!" ejaculated Miss Gush, in reference to Miss Peda's performance on the piano. "Yes," replied Frogg, "it is indeed heavenly. It sounds like thunder."

CROUP, WHOOPING COUGH AND BRONCHITIS, immediately relieved by Shiloh's Cure. Sold by E. Lee Street.

"Pa, what does nobody mean?" inquired my dear little nephew, pa, your nose must be very stylish, my grandpa says you have got the noblest nose in town."

FREE TRADE. The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has increased the size of the bottles containing these remedies, as well as relieving the burden of home manufacturers. Especially is this the case with Johnson's Anodyne Liniment, which is now sold in a five-cent bottle, instead of the former size of ten cents.

THE DOCTOR SAID, "HIM TRY IT." "SOME TIME AGO MY SON WAS TAKEN WITH SERIOUS LUNG DIFFICULTY, which threatened to end in quick consumption. I was summoned to attend him, and he attended him faithfully for four weeks, during which time he gradually grew better, and was able to get up and walk about himself, and being satisfied that he was growing worse all the time, he finally refused to take any more medicine from the physician, and expressed a wish to try Johnson's Anodyne Liniment. I immediately told the physician, expecting that he would object to his using it; but he did not. He said, 'let him try it; it won't hurt him, and may do him some good.' I can truly say I continued to use it some time, taking it inwardly, and bathing the chest and lungs outwardly. Very soon he began to improve, gradually gained strength, and at last we had the satisfaction of knowing that the foundation of his disease was broken up. My son is alive and well to-day, possessing a strong and vigorous constitution, which we attribute, under God, to the use of Johnson's Anodyne Liniment. Can further say that I never allow myself to get out of the article; and that, in my judgment, it is the best family medicine I ever used." (See) JOHN HODGKINS.

one, if possible. Always serve baked potatoes in an uncovered dish, or they will be watery.

For boiling, pare off one ring around the potatoes and if they are old, but them on in cold water; if new, in boiling; in each case with a tablespoonful of salt for each quart of water. When you can pierce them easily with a fork, drain off all the water, cover them with a folded dry towel, and set them on back of the range until wanted.

Chops should have all the fat trimmed off, and be boiled over a low fire for an hour before they are done, then using a little butter and salt, and serve with baked potatoes.

A breakfast should be cooked in the same way. A tender chicken makes a nice dinner. Broil it, the inside being turned to the fire first, or lay it in a pan and cook it in a quick oven. Butter some toast, toast the chicken with salt, lay it on the toast, cover and place in the oven for five minutes before serving.

A quantity of blackberry jam, made as follows, should be put up in every family where there are small children. To every pound of fruit allow a scant three-quarters of a pound of good, light brown sugar. Boil for one hour, stirring to prevent burning. Eat on bread at breakfast, or on toast in place of butter; this will be found very healthful, as are also ripe currants, made and mixed with half their weight in sugar. Spread upon slices of home made wheat bread. Fruits and berries of various kinds may be put up in the same way, as also layers of stale bread and sugar, and cooked for an hour and a half. The drier kinds of fruit will need the addition of a little water.
