# The Glencoe Transcript.

Volume 46.--No. 25.

GLENCOE, ONTARIO, CANADA, THURSDAY, JUNE 21, 1917.

MONEY SAVERS  
Don't fail to read the "Special Notices." They contain information that will save you money.

Whole No. 2370.

## Notice to Contractors.

The undersigned commissioner will let by public auction on Saturday, June 23rd, opposite lot 28, con. 1 and 2, Ekfrid township, the contract of drawing one hundred cords of gravel. Conditions to be made known at time of sale.—Dan A. McCallum, Reeve; Thos. Mawhinney, Commissioner.

## Notice.

Notice is hereby given that the Council of the Village of Glencoe has appointed Jacob Weaver to act as county constable, with instructions to prosecute all parties riding bicycles on the sidewalks, exceeding the speed limit with automobiles or in any other way disregarding the village bylaws. By order of the Council.—CHAS. GEORGE, Municipal Clerk. 18-3

## Tenders Wanted.

Tenders will be received by the undersigned up to July 1st for the construction of two large tanks, 12 feet deep and 14 feet in diameter, built of cement, with cement top, one on or near the corner of McKee street and Park avenue, and the other in the southern part of the village. Plans and further particulars at my office.—CHAS. GEORGE, Clerk Village of Glencoe. 18-4

## For Sale.

First-class 10-acre stock and grain farm, situated on Longwoods Road, Ekfrid, Middlesex Co. Clay loam, bank barn and stables, brick cottage, convenient to church and school, 2 miles from railway station. Apply E. T. Huston, Glencoe. 18-1

## Farms for Sale.

Two choice farms of 100 acres each, on opposite sides of road, half-mile from Appin. Improved, good buildings, well tilled. For particulars apply to Jas. McMaster, Appin, Ont. 53-1

## District and General.

St. Thomas is 100 years old this month.

Forty-three automobiles were stolen in Toronto in two weeks.

Reports indicate prospects of a large cherry crop throughout Ontario.

Aldborough council will meet at West Lorne on Monday, June 25th.

The two years old daughter of Mr. and Mrs. James Moore of Melville township passed away on Monday of last week.

Some 700 or 800 pounds of flour were stolen a few nights ago from the Emery Milling Company's warehouse at Melbourne.

On account of the wet weather Dutton Sons of Scotland have found it necessary to cancel their proposed games on June 30.

In some counties farmers are being excused from the jury service owing to the great burden of food production placed upon them.

Windsor "junk" dealers are accused of picking up old iron, brass and copper at about one-third the value. Look out for them.

The Ford Motor Co. announced that there will be no reduction in price of their cars on August 1 as in the past, but an increase will take place at an early date.

Thomas Hepwood, shoemaker, formerly of Strathroy and Mount Brydges, passed away at Victoria Hospital, London, on June 5th, at the age of 81 years.

The wedding took place at Crinan last week of Miss Luella Zoller, daughter of Mr. and Mrs. J. Zoller of that place, and Marshall Hagerman of Windham township.

Two grain elevators, containing in all some 1,300 bushels of wheat, together with a coal shed and a cow shed, were wiped out by fire at Thamesville on Wednesday.

The contract for building the new Methodist church at Highgate has been awarded to a Bothwell contractor. The church will be practically of the same design as the old one.

The National Council of Women in session at Winnipeg passed a resolution that health certificates should be required before the granting of marriage licenses, as a measure for the protection of the race.

A new Methodist hymn book has been produced, which will be available next fall. Many changes have been made, and the new book will have about one-third fewer hymns, and twice as many tunes as the old.

The principle of conscription was approved by the London Methodist Conference in the heartiest manner, the entire congregation rising to their feet to adopt the resolution and joining in singing the National Anthem.

Some non-resident dealers, who shipped carloads of sugar and potatoes in Petrolia to sell by the bag from the car on the railway, were asked by the town authorities to pay a transit traders' license, for which the fee is \$100.

Canada has decided to adopt daylight saving throughout the Dominion. The Government has given notice of legislation to put all clocks ahead an hour on a day to be stated later and keep them so throughout the summer.

A Dominion order-in-council has been passed prohibiting betting on race tracks from and after the first of August. As betting has been the main reason for holding races, horsemen claim that the whole business will go by the board.

Dominion Canners had already contracted for its supply of tomatoes for this season at 30 cents per bushel, but at a meeting of the company's managers at Chatham, it was decided to increase the price to 35 cents in view of the increased price of everything.

The Presbyterian General Assembly has fixed the minimum salaries of married ministers at \$1,200 a year, single ministers at \$1,000 a year, to take effect January 1, next. The minimum for ordained missionaries is to be \$1,000, married men; \$850 for single men.

The Canadian Scottish Borderers are now connected with the Gordon Highlanders, one of the regiments which has made the name of Scotland shine with glory on many of the battlefields of the world. The unit is one of the most highly esteemed in all Scotland and in fact the whole British forces.

In future a warning to parents as to their duties to the provinces in the matter of registering the birth of a child will be printed in bold type and red letters on all marriage licenses issued by the province. The novel idea is part of a plan which is being put into effect by the vital statistics branch to secure a more complete registration of births.

Rural free mail delivery routes in Canada increased in number from 614 to 3,580 between October 1st, 1911, and March 31st, 1917, according to the answer given in the common Monday to an enquiry by Dr. Edwards of Frontenac. The number of mail boxes served increased from 10,015 to 105,043. In the same period 2,682 new post offices were opened.

John H. Wilson of Ridgeway left his Studebaker car in front of Dr. Stewart's residence at Thamesville Sunday afternoon while calling on the doctor, and two men climbed into the machine and made off with it. It was learned afterwards that the thieves intended going to Sarnia, but they ran into a trap, doing damage to the car, and in the confusion lost their way and when near Rutherford, got on the wrong road and wound up at Thamesville, the starting point. Here they were intercepted and left and car made their escape on a G. T. R. train.

## Glencoe Horse Show.

When the Transcript went to press for this issue the annual Glencoe Horse Show was being held at the Agricultural Park. Fine weather prevails and prospects are good that the show will be a big success. There are many street decorations, crowds are coming in, there is hand music in the air and the holiday spirit is abroad generally. A full house is assured for the concert in the evening which will be of unsurpassed interest.

## Appeal Allowed in Drainage Case.

A case of local interest, which has already been referred to in this paper, was finally disposed of at Osgoode Hall, Toronto, last week.

The defendant, Gomaliel Brooks of Ekfrid, took a contract from the township of Brooke for the construction of extensive drainage works in the townships of Brooke, Euphemie, Dawn and Ennisville, part of which was sublet to other parties and by them sublet to the plaintiff, John Armstrong.

Armstrong sued Brooks for moneys which he alleged to be due to him for the construction of part of the drainage work, and on the trial of the action in Sarnia in April last judgment was given in favour of the plaintiff for his claim and costs. From this judgment the defendant appealed, and the appellate division of the supreme court allowed the appeal, reversed the decision of the court below and substituted for it a judgment dismissing the action with costs to be paid by the plaintiff throughout.

Hanna, LeSeuer and McKimley for the plaintiff; Elliott & Moss for the defendant.

## Accident to W. G. Poole.

An unfortunate accident happened to W. G. Poole of Tait's Corners on Monday afternoon, by which he sustained a broken leg and other injuries. Mr. Poole and his son were clearing away a dead tree that had partly fallen. They had hitched the horses to the top, which was leaning over, and before Mr. Poole could stand clear the team started, swinging the top against him. His right leg was fractured below the knee, the knee-cap was injured and he was otherwise severely hurt.

## Particularly Sad Case.

Alvinston Free Press:—Particularly sad is the news that the parents of Reg. Hooper, who enlisted here with the 70th Battalion, were both killed during a German raid in England. The news was conveyed in a letter to Ralph Hooper, a former employee of this office and whose wife was formerly Miss Nina Ellis of this place. Much sympathy is expressed for Pte Hooper, who has himself been wounded and is now carrying on his trade as a barber in the Canadian army in England.

## Talent Tea.

The Women's Auxiliary of St. John's Church will hold a Talent Tea at the Rectory next Saturday, June 23rd, from 3 to 6 o'clock. Miss Helene Rogers of St. Thomas will give readings during the afternoon. Home-made cooking will be on sale. Ice-cream and cake, 15c; tea and cake, 15c. Proceeds to go to missions. Everybody welcome. 70-1

## Oddfellows' Ball Team.

At a meeting of Glencoe Oddfellows held in their lodge room on Tuesday evening an I. O. O. F. baseball team was organized. Bro. P. E. Lumley presided and Bro. W. R. Hagerly was appointed secretary for the evening. After a very interesting address by the chairman, the following officers were appointed:—President, Bro. Frank Clarke; manager, Bro. A. Davenport; secretary-treasurer, Bro. John A. Jones; utility committee—Bros. Gough, Craig, Hagerly, Ferguson, Lumley and Davidson. Bro. Sinclair was appointed to take charge of the gate at all games and to hand over the receipts to the treasurer. Practice will be on Tuesday evenings at 7 o'clock. Proceeds for the Red Cross.

ADVERTISING RATES.—Cards of Thanks, In Memoriam Verses, Complimentary Addresses, 5 cents per line, minimum charge 50c; notices of entertainments to be held, also notices of Lost, Found, Wanted, or For Sale, 1c per word each insertion, minimum charge 25c—all to be prepaid.

## Patronize Home Industry by buying MCLACHLAN'S BREAD

Made from the best Flour that money can buy, along with other ingredients which make it wholesome. Try our Homemade Bread made with Fleischmann's Yeast. Also our Buns, Cakes and Pastry, fresh every day. Have our wagon call.

**J. A. McLachlan**  
GLENCOE

## Traced to White Lead.

A few weeks ago Bray Willey of the Longwoods Road, Ekfrid, lost two valuable cows and a third narrowly escaped death from poisoning. Investigation as to how the cows came by the poison resulted a few days ago in the discovery in a fence corner on the roadside of a pail which had contained white lead. Telephone linemen had left the pail there when doing some painting. The cows were pasturing on the roadside and licked out what lead had been left in the pail and for which they appeared to have had a strong liking.

A similar case of lead poisoning occurred on the farm of R. C. Twiss last week, when two of his cows died and another is not expected to recover. In this instance the cows consumed a quantity of paint drops that had been thrown away and partly covered up when Mr. Twiss was doing some painting at his house about a year ago. So ravenous were the cows for the lead that they devoured a quantity of wire screening that had been used in straining the paint, large pieces of it being found in the stomach of one of them.

## Presbyterian Anniversary.

Anniversary services will be conducted in the Presbyterian church here on July 1st. Rev. Principal Gaudier, D. D., L. L. D., of Knox College, has been secured to preach both morning and evening. Dr. Gaudier is an eloquent, forceful speaker, and the church has been very fortunate in obtaining his services. Special music will be provided by the choir, assisted by Miss Nona George of Alvinston.

On the following Monday evening the Willing Workers are holding a garden party on the manse grounds which promises to be a pleasing event. The talents for the occasion include the West Lorne Orchestra; Miss Walker of the London Conservatory of Music, pianist; Miss Nona George of Alvinston, who is already well and favourably known here; Mr. W. J. Strachan of this place; Master Garfield Munro of Kilmartin, and the Glencoe Quartette. Refreshment booths. Admission 25c and 15c. 70-1

## Kilmartin.

Miss Wright of Detroit is visiting at Duncan McAlpine's.

Wilson Moore and son of Walker-ville spent the week-end at Mr. Moore's brother's here.

Mr. and Mrs. Maurice Abbott of London motored down and spent Sunday with friends here.

The monthly meeting of the W. M. S. was held at the home of Mrs. Dunc. McAlpine on June 13th, the ladies sewing and patching quilts for the mission box.

Burns' Church Red Cross shipment for May was 21 grey flannel shirts, value \$9.75; 32 pairs socks, value \$27.20; total value, \$36.95. The Society met at Mrs. A. L. Munroe's on June 6. Proceeds of tea, \$19.45. The next meeting will be held on July 4 at Mrs. Geo. F. Munroe's.

Miss Catharine McAlpine has returned to Detroit after spending two weeks at her home here.

## Points to Consider When Purchasing a Railway Ticket.

A Canadian Pacific Railway ticket does not represent merely a means of transportation between given points. It is, in addition, provides the traveller with every comfort and convenience developed by modern railway science. "Safety First," with up-to-date equipment, unexcelled dining service, palatial sleeping cars, in a word everything that a railway can provide for the comfortable transportation of its passengers, including courtesies.

## Cairo.

Jas. H. Miers of Appin, who has supplied the Cairo pulpit of the Presbyterian Church, has been visiting his hearers in this vicinity during the week.

Mrs. Frank Storey and baby Jack of London are visiting friends here.

Mrs. Geo. Colbourne and family of Hamilton are the guests of her mother, Mrs. S. A. Annett.

Mac D. Smith of London is enjoying a brief visit at his former home here.

Mr. and Mrs. James Macaulay and family motored to Strathroy on Saturday.

## S. S. NO. 9, MOSA.

The lawn social which was held on the school grounds under the auspices of the Red Cross Society of S. S. No. 9, Mosa, was a great success. The proceeds at the gate and booths were \$150.75. The autograph quilt made by the society was sold for \$100.00 for \$10. D. C. Ross, M. P., who was unable to attend, sent a donation of \$5, which was gratefully received by the society.

Roy Bailey and mother and Miss Campbell visited at A. B. McLachlan's on Sunday.

Dougald Secord and Miss Minnie Walker of Brooke were married yesterday.

A Remedy for Earache.—To have the earache is to endure torture. The ear is a delicate organ and the cure to deal with it, considering it work for the doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops on a piece of lint or medicated cotton and placed in the ear will do wonders in relieving pain.

## Respecting Voters' Lists.

Owing to the large number of enquiries which have been made of the department by municipal clerks and others as to the preparation of voters' lists under the amendments made to the law at the last session, the Attorney-General points out:—

1. That the Ontario Voters' List Act amendments, 1917, chapter 4; the Ontario Franchise Act, 1917, chapter 5, and the Election Law Amendment Act, 1917, chapter 6, were brought into force by proclamation on the 12th day of May last. The Women's Municipal Franchise Act, 1917, chapter 43, came into force on its passing, namely, the 12th day of April.

2. While the Ontario Franchise Act is in force a list of voters will not be prepared under it until a further proclamation has been issued directing the preparation of that list. The list prepared under this Act is for the use at elections to the Assembly only.

3. The voters lists prepared by municipal clerks will no longer contain a Part 3 of persons entitled to vote at elections to the Assembly only, as the list prepared under the Ontario Franchise Act will take its place.

4. In the preparation of the voters' list the clerk must be guided by the assessment roll, and if the names of women entitled to vote under the changes in the law do not appear on the roll an appeal must be taken to the Court of Revision or the county judge to have their names entered.

5. A married woman owning property may, by giving a notice to the assessor or the clerk, enable her husband to vote at municipal elections instead of herself, and in that case the name of the husband alone would appear on the municipal voters list as entitled to vote, but this would not prevent the name of the wife being entered on the list prepared under the Ontario Franchise Act.

## High School Promotions.

Form I. to Form II.—Murray Allan, Elizabeth Grant, Lillibelle Graham, Florence Hurley, Jeanette Lotan, Margaret Lovell, Kathleen McNabb, Elizabeth McArthur, Mary McAlpine, Sarah McAlpin, Margaret Macle, Margaret Richards, Hazel Strachan, Christina Sutherland.

## Base Methods Exposed.

Tilbury was the scene of a thrilling episode on Sunday, says the Times, when the law-abiding citizens of the town had two strangers arrested about 11 a. m. for attempting to buy Sunday papers. When they found themselves unable to secure a copy, and were threatened with arrest, they attempted to leave town, but were promptly arrested, brought back and given a private hearing before Magistrate Callwood. A most thrilling climax came when they divulged the fact that they were employed by the Duncan Detective Agency of Toronto, and were sent here to break the law at the instance of the Lord's Day Alliance—in the hopes of securing a conviction against innocent citizens, who, overcome by their importunities, would have been unfortunate enough to let them have a paper—a number of which had arrived on the midnight train of the day before. It appears that since the closing of the hotels, a number of whiskey informers have lost their jobs, and have been hired by the Lord's Day Alliance in an effort to break the law. These strangers, who gave their address as Toronto, were discharged with a warning, and took the first train out of town, and, owing to the law-abiding propensities of Tilbury and the high price of eggs, they fortunately escaped something worse.

## Come and Hear

## ELCAR LADIES QUARTETTE

in a grand concert of song to be given at a Lawn Social to be held by the young people of Woodgreen

on H. HARVEY'S LAWN

ON

TUESDAY, JUNE 26

## WESTERN UNIVERSITY LONDON

Three More New Professors, Equal to Any in Canada.

Students can now obtain as good an education in Arts and Medicine at the Western as anywhere.

President: E. E. BRAITHWAITE, M.A., Ph.D.

# The PURPLE MASK

by Grace Curard  
Novelized from the Motion Picture Play of the Same Name by the Universal Film Mfg. Co.

FOURTH EPISODE—(Cont'd.)

Jacques submitted his strong shoulders for Pat to use in climbing high enough to dislodge "The Dawn of Liberty" from its hangings and making all possible speed. "The Purple Mask" and the prize winner Jakobski had, by his wealth determined on, had some changed places and were hung safely behind the heavy drapings.

As a final touch of her achievement, she hung a purple mask on the corner of the frame which surrounded "The Dawn of Liberty." Then the dainty girl and her faithful assistant made good their escape.

The ceremony of awarding the grand prize attracted a great throng to the Academy. So sure were the judges of their procedure, that they foolishly made no effort to examine the painting, and nobody disturbed the draperies that hung before the exhibits.

With much pomp and dignity, the judges announced that they had given their award to Exhibit No. 24—and as they made their declaration, the drapes were drawn aside. They had, fortunately for their reputation, made the designation by number instead of the title of the subject—for before their eyes, under the number 24, hung "The Purple Mask."

The crowd applauded the decision, and having once made it the judges, despite their chagrin and astonishment, could not reverse themselves. Paul Duvalle was beside himself with joy, and in his excitement he would have exposed Pat to the suspicion of being his model.

Pat had admittedly lost herself in the crowd, where Paul could not easily find her. "How glad I am that you have won," said the girl when, a little later, she congratulated the young artist. "We shall celebrate to-night with a party at the studio, and I'll pay the expenses." And Paul, in the rapture of his happiness, was further delighted in the prospect.

Sphinx Kelly heard all about "The Purple Mask" and suspected that Pat was the beautiful model. He likewise presumed that there would be a celebration in the artists' colony and was on hand that night, waiting in the street, when Pat and Jacques arrived at the student's quarters.

Pat failed to penetrate Kelly's clever disguise. The Sphinx felt sure that he was following an interesting lead, and was among the crowd of artists who assembled in Paul's studio, all in fantastic garb and in high spirits.

Jakobski, half wild in rage and disappointment, because his plans had been frustrated, determined that he should be avenged upon the perpetrator of the trick that had so decidedly upset his ambitions.

There were always benches at hand to do his bidding, and Jakobski had Paul followed to his studio, when he went home in triumph with his prize. Jakobski's men learned of the celebration—and Jakobski determined to be present.

He had most of the afternoon in which to formulate his plans, and kept his servants busy in perfecting details of the arrangements. When evening came Jakobski had everything rehearsed and ready to proceed. With a party of burly henchmen, he burst in

upon the revelers at Paul's studio suddenly and unannounced.

"We are gendarmes," shouted Jakobski, "and you are all under arrest." Pat was, at the moment, standing in the middle of a table, passing out cakes to the throng, dancing around in her joyousness and inspiring the revelers in their mad fun. When Jakobski and his gang burst through the door, Pat waited only for the announcement he made.

Then she smashed the lamp hanging over her head, and threw the studio into darkness.

Sphinx Kelly was in the thickest of the fight. Somebody opened the door and the crowd surged out of the studio and down the stairs.

Sphinx Kelly seemed to be the special object of attack, and Jakobski's men kept him busy repelling their assaults. In the scramble and fighting Pat managed to avoid collisions, and was near Jacques when she saw Kelly fighting his way, against odds, as he descended the stairway to the street.

Grasping Jacques and pulling him after her, Pat was soon clambering down stairs, eager to keep Kelly with in sight. Just as she reached the street she saw the Sphinx being unceremoniously thrown into an automobile.

To her Apache friends who had come with Jacques as a special guard to the "Queen of the Underworld," the girl gave orders that the automobile bearing Kelly from the scene must be kept in sight. Then tumbling into the machine that had brought her to the studio, Pat was soon following the

"How Glad I Am That You Have Won."

gang who had kidnapped Kelly. The race was sharp and spirited, and Pat's driver brought his machine to a halt just in time for the girl to see Kelly being carried, struggling, into a ramshackle building. The door slammed behind prisoner and captives, and Pat was halted by the impassable barrier.

The girl noticed a door that led to a short flight of stairs, and, with Jacques closely following, she mounted to the floor above the street. She listened intently to the scuffle and heard voices that reached her ears from the room below. She heard heavy doors slide upon their rollers. Then Jakobski and his gang scrambled to get away.

In a moment Pat heard a voice, that she easily recognized, shouting for help from the room below. Commanding Jacques to aid her, the girl used an axe that was fortunately at hand to chop madly the thin plank of the floor beneath her feet.

The first sharp blows made an aperture through which Pat could look down upon the room beneath her. The horrified girl beheld a sight that nearly made her faint. There was Kelly, striving madly with his bare hands, to tear the boards from the wall and make a foothold and handhold to save himself by climbing from a terrible fate.

The floor of the tightly sealed room in which he madly struggled, was slipping from under him, sliding in two parts, under the walls of the room—and beneath was a huge tank of water, alive with vicious alligators, which surged madly about in their eagerness to reach their prey.

(To be continued.)

I wonder, "When stars go out, I wonder where they go?" I wonder where the flowers get their smell? I wonder what the talking squirrels tell, And what the quiet, shiny fishes know?" From dawn to eve, but most when lights are low And sunset ray and vapor weave their spell— "I wonder how the small birds fly so well And why the winds that blow the birds won't blow Me too up through the far green tops of trees?" All day "I wonder"—faintly as a prayer— "I wonder," and her deep, eyes, unresigned, signed, Study the flight of swallows on the breeze, As lips, half open, murmur to the air The tremendous "I wonder" of mankind.

—Herman Hegedorn, in the Outlook.

A Popular Number. Numberless people think they are No. 1.

The Economy of Rest.

"I rest for one-half hour each morning," said my neighbor when I asked her how she did her housework so easily. This woman lives on a farm, does all of her own housework, including the laundering, helps care for the garden, raises chickens, and cares for two children, one five and the other seven years old, yet she never seems tired or nervous and her house is always neat.

"After breakfast I wash the dishes and put the house in order," she continued, "then I care for my children, bring from the garden what vegetables I will need, then do my special work for the day—cleaning, mending, or ironing, as it may be. At ten o'clock I go to my room, darken it, loosen my clothing, and lie down for a half hour. If I am very tired I sometimes go to sleep, but even if I do not sleep I rest. I try to forget all about my work and just let go and rest. The children understand that I am not to be disturbed, and are willing to play without mamma for half an hour."

"When I get up I feel like new; so I start the dinner and then clean myself up a little. After dinner I finish up my work, but I always have an hour off in the afternoon too, and generally two, or even three."

"I try to get as much as possible done before my forenoon rest period. I work as hard and fast as I know how up to that time, but try to plan my work to make as few stops as possible. In that way I get the biggest part of my work done by ten o'clock."

"But can you do that on wash days too?" I asked. "Yes," she replied, "if I hurry and the washing is not too big I am all through by that time. If I am not through I just let the clothes soak while I rest, then finish when I get up. I've found out that there are few things that can't stand to be left for a half hour, and it certainly helps me, for if I didn't rest in the morning I could never stand my work."

## Strawberry Shortcake.

Mix 2 cups flour, 4 teaspoonsful baking powder,  $\frac{1}{2}$  teaspoonful salt, 2 table-spoonfuls sugar and sift twice. Work in  $\frac{1}{4}$  cup butter with fingers. Add  $\frac{3}{4}$  cup milk gradually. Put on board, divide into 2 parts, and roll out to fit the cake tin; using the least possible flour to roll. Put one part on tin, spread lightly with melted butter, then place other part on top. Bake 15 minutes in hot oven. When baked, separate and place between cakes one quart of strawberries mashed slightly and sweetened. Decorate top with a few whole berries.

## Canning Advice.

When canning, pickling and preserving do not use any powders or preparations for keeping fruits or vegetables. It is not difficult to keep fruits or vegetables, but it is absolutely necessary to sterilize the contents of each jar for sufficient length of time to kill all spores, germs and bacteria.

The use of alum and its equivalents in pickling is positively injurious and must not be thought of. If you will follow carefully the directions in any good cook book you will find that pickles will have a good color, be crisp and have a delicious aroma. This can only be obtained by careful up-to-date methods.

Fruits may also be canned without sugar, or syrup may be used in place of sugar. Fruit canned without sugar may have the sugar added just before using. For successful results it will be necessary to drain the liquid from the canned fruit, add the sugar and bring to boil. Cook for five minutes and then pour over the fruit; this fruit will not equal that which has been sugar added at time of canning.

## Preserving Rhubarb.

Rhubarb may be canned by the cold water method. To do this, wash the rhubarb, remove tips and root ends and cut in inch-long pieces. Fill the cans as tightly as possible, of course, cans must be sterilized, and fill to overflowing with cold water. Seal at once and set in a cool dark place. The natural acid of the rhubarb prevents the growth of bacteria.

To can by the hot water bath method, wash the rhubarb and cut in inch pieces, plunge in boiling water for two minutes and then dip in cold water. Pack the cans as tightly as possible and pour in a thick syrup till cans overflow. By thick syrup is meant a syrup made in the proportion of four pounds of sugar to three quarts of water, boiled until it is hard to pour it from the spoon. The syrup should be boiling when poured on the rhubarb. Proceed as in canning any product and sterilize fifteen minutes.

Fruit combinations that may be cooked with rhubarb include pineapple, raisins, dates, oranges, apples and prunes. Peel and cut rhubarb, and cover with the amount of sugar required, and let it stand in warm place until sugar is melted. Add desired fruit, cook until, when tried in a saucer, it is of jamlike consistency. Use two pounds of rhubarb to one pound of fruit and three-quarters

pound of sugar to every pound of mixed fruits. Do not cook rhubarb in tin saucepans.

## "War Bread" of Three Nations.

The British Tommy, when fresh bread is not available, is supplied with what he calls "dog biscuit." It looks like just that; being a thick cracker four inches square and weighing three ounces of whole-wheat flour pressed solid it might be described as a condensed loaf of bread. The French have a "war bread" somewhat similar, which, when put into hot water or soup, swells up like a sponge. The famous German "pea sausage" is composed of pea meal, bacon and salt. It was the invention of a Berlin cook, who discovered a process whereby pea meal could be made proof against deterioration. One sausage, eight inches long, yields twelve plates of nutritious soup.

## ITALY RELIES ON WOMEN TOILERS

MAGNIFICENT RESPONSE TO COUNTRY'S NEED.

Women of Sunny Italy Prove Their Worth in Work Formerly Done By Men.

"The Italian woman is before all else a woman. Here and there an exceptional woman may qualify for an L.L.D. Last November a girl of 17 was awarded a master's foreign certificate, the first granted to a woman by the Italian nautical school.

"At the outbreak of war the Italian women responded to the call of their country with the most commendable spirit," writes an Italian correspondent to the London Times. "Quietly, without fuss, they came forward, expecting neither reward nor glorification, to serve their country. To help their husbands, sons or brothers to win the war and return home has been their aim. They are content to do any humble work."

"After only two months of war women conductors were to be seen in many street cars in Rome, women scavengers were in the street and women clerks soon followed. For the banks and firms whose staffs had been depleted by calling to the colors all men between 20 and 39 there was no alternative but to substitute women clerks. In the Government service some departments largely replaced men with women with pay of from \$4 to \$6 a week.

Versatile and Efficient. "Though they were not so well trained as the men, the Italian women have not proved inefficient. They are versatile and quick. The same versatility and quickness have made the women of agricultural Italy, who knew little about factories and mills, fit at once into their new tasks. Of 500,000 persons engaged at the beginning of this year in 2,200 munition factories 100,000 were women, as against 1,750 in August, 1914, and 60,000 in October, 1916.

"They work eleven hours a day and are paid from 75 cents to \$1.25 a day. Their work is pronounced intelligent and diligent. All the soldiers' clothing, uniforms and everything else is now made by women, and women work in the military bakeries and laundries.

"Hospital nursing in Italy has never been so extensive as in England. English trained nurses have been for the last few years at the Polytechnic in Rome instructing the Italians in their methods. The Italian Red Cross has now more than 6,000 nurses of its own and not fewer than 20,000 cooks and orderlies. Last November the first Italian woman army surgeon was appointed to service at the front. Several thousands help the military engineers. They work from six to twelve hours a day, Sundays included, and are paid six cents an hour, with a slight increase for night work.

## Farmers Not a Novelt.

"In Italy the woman who bears her part in the food production of the country is not a novelty, whether in sowing, hay making, hoeing, harvesting, milking, marketing, vintaging or sometimes, especially in the south, even digging. The girls when they enter their teens begin working on their own farms or some other."

"Though many Italian women work on the land, it is not as serfs. It is a result of the small holdings system and the way in which marriage is looked upon in Italy, where the wife is first and foremost, the husband's real helper. From her religion the Italian mother derives great strength and unlimited comfort. Few mothers let their sons leave for the front without giving them a sacred medallion to wear around their necks, a constant tangible remembrance of their mother's love."

## A TYPHUS CARRIER.

Dread Disease Now Known to be Carried by an Insect.

The most deadly and destructive of war diseases is typhus, which during the present conflict has killed hundreds of thousands of people, notwithstanding scientific methods employed to combat it.

Otherwise known as "camp fever," it was a frightful scourge during the Revolution. American captives on the British prison ships died of it like flies. Its record as a wholesale destroyer goes back to prehistoric times; but always it has been especially associated with war.

Not until very recently, however, has it come to be known that the malarious insect, the louse, becoming infected by biting a sufferer from the disease, communicates it to other persons by biting them.

At the present time, in the European armies, a measure of protection is gained by obliging the soldiers at frequent intervals to submit to chemical baths, and by systematic disinfection of their clothing with live steam.

**Wisely obstinate is the farmer's wife who insists on quality—**  
**and who buys only the best sugar—because**  
**ST. LAWRENCE RED DIAMOND** EXTRA GRANULATED  
—admittedly without any superior—will never cause preserves to ferment—  
as it does not contain the organic impurities which start fermentation.

**SIMPLE PRECAUTIONS.**  
To Succeed with your preserves, buy good fruit—it must not be over-ripe.  
Buy Good Sugar—St. Lawrence Red Diamond Granulated.  
Sterilize your jars thoroughly.  
These precautions prevent the usual causes of failure.

**WE SUGGEST**  
that the 100 lb. bag of St. Lawrence Red Diamond Extra Granulated, is the best for the Farmers' Home.  
It ensures full weight of the best sugar and avoids frequent trips to the store.  
Your dealer can supply Red Diamond in Coarse Grain, or Medium, or Fine, as you may prefer.

Good Fruit deserves Good Sugar—get the

WHAT IS THE WORLD WORTH?  
Set Up a Pair of Value Scales And Determine Its Real Worth.  
Men know by measurement the size of the earth; they know by calculation the weight of the earth; but what about its worth in measured metals and producible comforts? A swift calculation will show you that the earth is worthless. The oriental mind is convinced that the earth has no reality; the occidental mind, when that mind thinks, knows that the earth has no value.  
"For sale, cheap." Such a signboard might be stuck up in the earth anywhere, over mine or in fertile field. The earth may have size and weight, but it has no value. The animal does not value it; the angel would not take it at any price, however small.  
The value of the world is due to man. In the language of Friedrich Nietzsche, "Man is the valuing animal as such." Take away man and you are left with a worthless mass of mere things. With man gold takes on its color, its preciousness; with man land and land's products begin to have value. In itself the earth is worthless.  
Man is the valuer, because man has wants to be satisfied, desires to be fulfilled. Worth is desirability. The animal, the child, the savage have no special desires, hence the earth of such creatures is wanting in worth. If some demon or angel could persuade man that gold was not desirable, gold would at once lose its value.  
The business of life does not consist in accumulating things on the outside, but values on the inside. Once education had to do with words; then it began to pay attention to things. In the future it will concern itself with values. Man must be taught on which side his bread is buttered—that is, man must learn values.  
Such a man, it is said, does not know the value of money. Another does not know the value of knowledge. Still another cannot comprehend the value of personality. These, and all the rest of us, too, must be taught to perform tricks, but the trick of valuing things, ideas, feelings and the like is still to be communicated to man, who ought to be the valuing animal.  
The great teachers have been teachers of values. Buddha sought to change the desires of the human heart. Perhaps he attempted too much, since he tried to have man pass from valuing everything to valuing nothing. Christ would have man set up a pair of value scales and determine which had the greater worth, the whole world without or the single soul within. Socrates wanted the Greeks to feel the value of knowledge. Ibsen wished his Norwegians to see the worth of truth. The values must wait for the valuer.  
Take a course in values. It need not come in school or by correspondence. You can be, you must be, your own teacher. If you know the R's, you desire in its raw state may mislead you, but your desire can be educated.  
The worth school is the school of the future. There is no worth in the cash, but there is worth in the soul. Your brain is your school of values.

From "Ye Olde Sugar Loafe" of grandmother's day, to the sparkling "Extra Granulated" in your own cut-glass bowl, Redpath Sugar has appeared three times daily, for over half a century, on thousands of Canadian tables.  
"Let Redpath Sweeten it."  
**Made in one grade only the highest!**

2 and 5 lb. Cartons—  
10, 20, 50 and 100 lb. Bags.

**Has Nothing to Hide**  
Now that the Government has absolutely prohibited the use of any artificial coloring matter in sugar, we tell you again that we have  
—never used Beets  
—never used Ultramarine Blue  
—never used Aniline Dyes  
—never used Vegetable Dyes  
in refining any of our sugars.  
This means that every pound in the hands of your grocer is pure and uncolored.  
So—why take chances? Why not insist on having Lantic—the Sugars that have always been pure, and cost no more than any other?  
Look for the Red Ball Trade-mark on every Carton and Sack.

## AIR RAIDERS KILL NEARLY 100 IN 15-MINUTE ATTACK ON LONDON

437 Injured in Most Severe Raid Yet Made Over England by German Aircraft—No Damage of Military or Naval Value.

A despatch from London says: A squadron of German aeroplanes raided London shortly after eleven on Wednesday morning and dropped thirteen bombs. The casualties in the raid, it is officially announced, numbered 97 killed and 437 wounded.

**Killed.**  
Men ..... 55  
Women ..... 16  
Children ..... 26  
**Injured.**  
Men ..... 223  
Women ..... 122  
Children ..... 94  
No damage of a military or naval nature was done. The raid over the city lasted about fifteen minutes. The largest number of casualties occurred in the East End, but the downtown business section was also visited by

three of the raiders and considerable damage was occasioned. One bomb struck a schoolhouse, killing a large number of children and wounding scores of others.  
In his statement Chancellor Bonar Law said twelve to fifteen aeroplanes crossed the coast of North Foreland and proceeded across Essex to London. Two bombs were dropped on North Foreland, and at 11.30 o'clock the bombs began to drop in the East End of London. Thirteen bombs fell in the city.  
The Chancellor said all the anti-aircraft guns defending London were brought into action, and that a large number of aeroplanes went up in pursuit of the raiders. Several engagements occurred in the air, but the results at present are uncertain.

## CHRISTIANS ARE FORCED TO FIGHT

Germans in Full Control of Turkey and Everyone is Being Mobilized.

A despatch from Amsterdam says: An Armenian who has arrived in Holland from Constantinople gives the Telegrams particulars of the conditions in the Turkish Empire. He depicts the administration as wholly under German control. While the Ministers themselves are Ottomans, the vice-ministers, who really manage the Ministries, are Germans. Turkish inscriptions have been removed from the offices of the Ministries and replaced with notices in German.  
The Germans have in short established themselves as masters of Turkey. An espionage service under German supervision is at work in Constantinople. Christian families especially are being mobilized—men, children and even one-eyed men and men without fingers. Enver Pasha has summoned to the colors all men under 51, including members of the Christian population. This action was taken after the visit of Prince Waldemar of Prussia, who in October brought a marshal's baton to the Sultan in the Kaiser's name and pressed on the Sultan the enactment of this law. Christians in Turkey were dispensed from military service for the whole period of the war under a law passed when hostilities began on condition that they paid \$45. A year ago Christians were made pay an additional \$30. Having thus paid \$75 exemption, the Christians are now compelled to serve.

## SUCCESS OF U.S. LIBERTY LOAN

Expected To Go Well Beyond the \$2,000,000,000 Mark

A despatch from Washington says: The Liberty Loan campaign entered the home stretch on Thursday with every indication that the tremendous thirty-day drive throughout the nation would result in a total of well beyond the \$2,000,000,000 goal.  
From coast to coast the story that poured in to the treasury all day was the same, a story of whirlwind finish. Telegrams told of tolling bells and shrieking whistles across the continent marking the last day of the campaign; of redoubled efforts by the many agencies at work for the loan's success; of enthusiasm at its highest pitch; of long waiting lines of subscribers in thousands of banks in every state of the Union.

**WILL MAKE ATHENS WHOLLY VENIZELIST.**

A despatch from Salonica says: It is expected that the Venizelist Government will soon be transferred to Athens and will convoke the Chamber of Deputies elected in May, 1915, which the followers of former Premier Venizelos maintained was dissolved illegally by King Constantine.

## ANOTHER BIG BRITISH SUCCESS ON BOTH EXTREMES OF FRONT

Gen. Haig Captures Further Positions on Hindenburg Line Northwest of Bullecourt—Advances on 7-Mile Front South and East of Messines.

A despatch from London says: The British forces on Friday delivered an attack upon and captured further portions of the Hindenburg line northwest of Bullecourt, despite the resistance of the Germans, who suffered heavy losses, according to the official communication on Friday night.  
The British struck another blow Thursday night on the front near Messines, the War Office announced

earlier on Friday. They gained all their objectives, advancing south and east of Messines and astride the Ypres-Comines Canal.  
The British now occupy the former front trenches of the Germans from the River Lys to the River Warnave. As a result of Thursday night's operations and the constant pressure exerted, the British have advanced their lines from 500 to 1,000 yards on a front of seven miles.

## ZEPPELIN DROPS DOWN IN FLAMES

Two Persons Killed and Sixteen Injured in Air Raid on South-East Coast of England.

London, June 17.—Two persons were killed and sixteen injured in an air raid by two Zeppelins over the east and south-east coast of England early Sunday morning. One Zeppelin was brought down in flames, all of her crew perishing.

A despatch from an east coast town says that thousands of persons witnessed the destruction of the Zeppelin. The attack by anti-aircraft guns on the dirigible lasted fully half an hour, and people issued from their houses half-dressed to watch the event. When the black object drifting across the sky from the south-east to the north-east was seen to burst in flames the spectators cheered tumultuously. Pedestrians and cyclists dashed off in the direction of the fallen airship, but owing to the unexpectedly long distance few succeeded in locating the Zeppelin, which fell a few miles from the coast. It had been first winged by a land gun, and was then finished by an aeroplane, which the Zeppelin fought to the last with her guns.

The dirigible dropped in a field of corn, far from any habitation, and was completely destroyed. All of the crew were killed and their bodies badly charred. Some of the men jumped to have jumped from the doomed airship. Doctors hurried to the spot, but their services were needless.

## GREETINGS TO AMERICAN MISSION

Russian Foreign Minister States That People Consider War Inevitable and Will Continue It.

Petrograd, June 17.—"The Russian people consider war inevitable and will continue it. The Russians have no imperialistic wishes. We know that you have none. We shall fight together to secure liberty, freedom and happiness for all the world. I am happy to say that I do not see any moral idea or factor between America and Russia divide us. The two peoples—Russia fighting tyranny and America standing as the oldest democracy—hand in hand will show the way to happiness to nations great and small."

These ringing words, expressing the attitude of the Russian Government toward America and the American mission, headed by Elihu Root, were voiced to-night by Mr. Tereshchenko, Minister of Foreign Affairs, responding for the Council of Ministers to Mr. Root's address of sympathy and goodwill on the part of the American Government.

The American Ambassador, David R. Francis, presented the Root mission to the Ministers in the Marinsky Palace, explaining that the mission had come to Russia to discover how America can best co-operate with its ally in forwarding the fight against the common enemy. The presentation was very informal, only a few Russian officials and the members of the American Embassy attending. M. Kerensky, the youthful Minister of War, just back from the front, wore the khaki blouse of a common soldier.

## IRISH REBELS ARE SET FREE

Britain Releases All the Prisoners Without Reservation

A despatch from London says:—In the House of Commons on Friday Mr. Bonar Law, Chancellor of the Exchequer, announced the Government's decision to release Irish political prisoners. He said the Government had long and anxiously considered the position of the Irish political prisoners, and had arrived at the decision which it was now his duty to announce. The Government felt, after carefully considering the approaching session of the convention of the Irish men themselves, when they would meet to settle the difficult problem of the future administration of their country, that this great experiment would mark a new era in the relations between Ireland, the United Kingdom and the Empire.

**COST OF LIVING IN MAY HAD FURTHER INCREASE**

A despatch from Ottawa says:—The Labor Bureau reports a further increase in the cost of living during May. Grain and flour showed the greatest increases, but meats and materials were higher in many lines. The annual seasonal decreases in the prices of dairy products were very slight. In retail prices of foods the cost of a weekly family budget rose from \$10.77 to \$11.82. In May, 1916, the same budget cost \$8.37 and in 1915 \$7.84. In wholesale prices the index figure stood for May at 240, compared with 228.7 for April and 193.3 for May, 1916.

## Markets of the World

**Breakfasts**  
Toronto, June 19.—Manitoba wheat—No. 1 Northern, \$2.74; No. 2 do., \$2.74; nominal, track Bay ports.  
Manitoba oats—No official quotations.  
American corn—No. 3 yellow, \$1.12; nominal, track Toronto.  
Ontario wheat—No. 2 Winter, per car lot, \$2.60 to \$2.65; do. No. 3, \$2.55 to \$2.62, according to freight outside.  
Peas—No. 2, nominal, according to freight outside.  
Barley—Malt, nominal, according to freight outside.  
Hay—No. 2, \$2.00, nominal, according to freight outside.  
Manitoba flour—First patents, in bulk, \$12.50; second patents, in bulk, \$12.30; strong bakers', in bulk, \$12.50; nominal, track Toronto.  
Ontario flour—Winter, according to sample, \$11.50 to \$11.60, in bulk, track Toronto, prompt shipment.  
Milled—Car lots, delivered Montreal: freights, bags included—bran, per ton, \$32; shorts, per ton, \$40; middlings, per ton, \$44; good feed flour, per bag, \$2.80 to \$2.85; mixed, per ton, \$49 to \$51.50; Hay—Extra No. 2, per ton, \$13.00 to \$13.50; mixed, per ton, \$9 to \$11.50; track Toronto.  
Straw—Car lots, per ton, \$9, track Toronto.

**Country Produce—Wholesale**  
Butter—Creamery, 36 lb. to 37 1/2 lb., 37c; 37c to 37 1/2 lb., 37c; 37 1/2 lb. to 38 lb., 37c; 38 lb. to 38 1/2 lb., 37c; 38 1/2 lb. to 39 lb., 37c; 39 lb. to 39 1/2 lb., 37c; 39 1/2 lb. to 40 lb., 37c; ## The Transcript

Published every Thursday morning from THE TRANSCRIPT BUILDING, Main Street, Glencoe, Ontario. Subscriptions: Canada and all points in the British Empire, \$1.50 per year, \$1.00 for eight months; to addresses in the United States, \$2.00 per year—payable in advance. Advertising: The Transcript has a large and constantly growing circulation. A limited amount of advertising will be accepted, at moderate rates. Prices on application. JOB PRINTING: The Jobbing Department has superior equipment for printing on all typesetting, booklets, circulars, posters, blank forms, programmes, cards, envelopes, office and wedding stationery, etc. Address all communications and make remittances payable to A. E. SCHROEDER.

THURSDAY, JUNE 21, 1917

### One Reason for High Prices

There is one way in which the Canadian Government could, without any doubt and with very little trouble, decrease the cost of living for the common people, and it could do it without interfering with business and without the effort being in any way experimental. At the present time the people of Canada are paying enormous taxes for the prosecution of the war. These taxes are levied in such way that those who have no wealth have to bear an altogether undue share of them. We pay these taxes on practically everything that we purchase. We are taxed when we buy milk because the milkman, when he buys a carload of bran from the States, where it is cheaper than in Canada, must pay a hundred and fifty dollars to the Government, or the price of a good cow, before he can unload his bran. In the same way we are taxed when we buy butter and eggs. We are also taxed when we buy our flour, or vegetables, because the farmer is taxed whenever he buys an agricultural implement or clothing to wear, or material for his house. We are heavily taxed on all our clothes, and when we pay rent or lodging we have to pay more highly because the materials that went to the construction of the house are all taxed. This basis of our system of taxation is, therefore, a tax on purchases, whether the purchases be made for sustenance, for pleasure, or for industrial use. Last month Canadians paid over seventeen million dollars to the Government in this way. This is a tax of about ten dollars a month on every head of a family in the country. But the seventeen million dollars paid to the Government is only a small part of the tax that the people actually pay on account of this system of raising money. For example the Government places a high tax on white sugar, brought into the country. The result is that practically no white sugar is imported. The Government receives no money from this tax, nearly the whole of it going into the pockets of those who manufacture the sugar,

and the same way with cement, and a number of the other most important items of commerce. It is probable that on the average, every head of the family pays something like twenty or thirty dollars a month on account of the tariff, one part going to the Government and one or two parts going to the manufacturers, and it does not matter how poor the individual, he must be taxed just as heavily on everything he buys as is the rich man; though his purchases are of course not as extensive.—Montreal Witness.

### Get Machinery Ready.

Time is money on the farm at harvest time. Now is the time to repair the mowers, binders and rakes which will very shortly be required for service. All machines should be inspected now and, if any parts are broken or missing, they should be obtained immediately. It is much better to secure what is needed now than to risk having to make a special trip to town during the busy season, thus causing a serious delay and, possibly, extending the harvesting of the hay or grain crop into wet weather. It is also an excellent plan to keep on hand a few extra pieces or parts which need frequent renewing, such as knife sections, canvas slats, reel slats and braces, rivets, etc. These are convenient to have and will often save time and annoyance.

Clean out the oil cups and oil all running parts of the machinery a few days before it is to be used. This will allow the oil to penetrate to the bearings, and permit the machine to quickly get into smooth running order. The knives should all be sharpened and in readiness. These things should be particularly attended to this year. Help is scarce, production is needed, and if crops are to be saved with as little loss as possible good management must prevail. It is good business to be ready for the harvest season. Do it now.—F. C. N.

One thing is certain—government control of the prices of food and other commodities would be far more popular than conscription, selective or other.

Among the requirements of these degenerate days are more patriotism and less politics; more grace and less greed; more simplicity and less style; more Christianity and less church. Probably the world-war now being waged was necessary to bring mankind to a realization of these needs. If so the end is not yet, as we are very slow to learn.

That moonlight auto ride and social at Woodgreen will be some treat.

### Empty Titles Not Wanted.

Some time ago John Ross Robertson, proprietor of the Toronto Telegram, declined the honor of knighthood. The Telegram referred to "Subject as follows:—The sacrifices of the eminent civilian are honored. There is no knightly for the boy who might grow a more prosperous man than any illustrious personages in Canada's peerage. No prefix 'Sir' is placed before the name of the young Canadian who has sight shot out of his eyes and goes through his darkened days on a pension of \$15 per week. The Crown does not hail as 'Lady' or 'Baroness' the mother who has given up a son or the wife who looks into the faces of her orphaned children and sees the desolate years stretch into the history of a home to which the valiant husband will never return."

## Appin

The Women's Institute will meet at the home of Mrs. John Jones on Thursday, June 28th, at 2:30 p. m. A good program will be given. The roll call to be responded to by a new member. The summer meeting will be held on Saturday, June 30th, at 2:30 p. m., and will be addressed by Miss Annie Scott of Nottawa. The ladies of the vicinity are cordially invited to attend both meetings.

George Galbraith is remodeling and building an addition to the house on the Ramsey farm which he purchased a year ago.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

## SHEPHERD

Shetland picnic Aug. 15th. Some corn 's up—some 's rotting'—some 's not in. Mrs. A. Adams attended the convention in Watford Thursday.

Mrs. J. H. Powell has returned from a pleasant visit at Forest. At present we arise to remark upon our beautiful school grounds and garden. None equal in the township. "Honour when honour is due."

Baseball has revived. Practice Thursday and Friday evenings until harvest. Then harvest. Mr. and Mrs. D. Bolton were Croton visitors last week. If you would like to know what the battlefields of France and Belgium are like, jump into your car and go east, up the Hagerty. Keep in the "road," shut your eyes, use your imagination. Everybody was "out-in-the-country" Sunday.

## RHEUMATISM WAS MOST SEVERE

Dreadful Pains All The Time Until He Took "FRUIT-A-TIVES".

Verona, Ont., Nov. 11th., 1915. "I suffered for a number of years with Rheumatism and severe Pains in Side and Back, from strains and heavy lifting. When I had given up hope of ever being well again, a friend recommended 'Fruit-a-tives' to me and, after using the first box I felt so much better that I continued to take them, and now I am enjoying the best of health, thanks to your remedy."

W. M. LAMPSON. If you—who are reading this—have any Kidney or Bladder Trouble, or suffer with Rheumatism or Pain In The Back or Stomach Trouble—give 'Fruit-a-tives' a fair trial. This wonderful fruit medicine will do you a world of good, as it cures when everything else fails. 50c. a box, 6 for \$2.50, trial size, 35c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

## Newbury

Charlie Hadley, a former resident here, died recently at his home in London.

Dr. Gordon and daughter, Miss Martha, left on Monday. The doctor goes to Hamilton, where he will remain indefinitely with his sister, Mrs. Cook. Miss Gordon has taken a position in the Advertiser office, London.

The Red Cross Circle shipped a bale to Hyman Hall last week containing 22 pairs of socks and 11 pairs of shoes, making a total since the first of this year of 90 shirts, 25 pyjama suits and 270 pairs of socks.

Miss Mamie Bayne is receiving the congratulations of her friends on her success in passing the Faculty exam. Mrs. W. G. Archer and Miss Donna Stevenson of Windsor visited Miss Gay last week.

Mrs. John Armstrong and son, Wm. J., were in Blenheim on Saturday attending the funeral of her sister-in-law, the late Mrs. Duncan McKee. Miss W. Owens is home from Oakville for the summer vacation.

Mrs. Griffith of Windsor is visiting her sister, Mrs. J. P. McVicar, "Ingle-side."

Born—12th inst. to Mr. and Mrs. Archie McCready, a son.

Born—10th inst. to Mr. and Mrs. Peter Campbell, a son.

Mrs. Stuart McCallum and daughter Janet are in London this week.

Mr. and Mrs. Ed. Grant and son Norman of London spent a few days at John Grant's.

Mrs. Kennedy and baby Jack of Wheatley are visiting Mrs. Hanna. Miss Kirby of Florence visited Mrs. G. D. Dobbyn last week. Miss Jessie Dobbyn returned with her for a visit.

Arthur Walker and son Jack of London spent the week-end at Mrs. Fletcher's. Master Jack will remain for the holidays.

D. J. Batsner and wife of Cincinnati arrived in their car Friday. Miss Graydon returned with them, also Miss Frances Bayne of Detroit.

Walter Regis of the C. P. R. St. Thomas, spent the week-end at his home here.

Mrs. Kraft was in London on Saturday owing to the death of her cousin, the late Mr. Dawson.

Miss Kathleen Simpson of Glencoe is visiting her aunt, Mrs. James Patterson.

Mrs. Fred Rasmussen and her sister, Miss Kathrine Stocking, left for their home at Torgary, Sask., on Wednesday, June 13th.

Miss Lillian King is spending a few days in St. Thomas with her sister at Alma College.

Christ church will hold a garden party on the evening of July 6th.

Exhausted from Asthma. — Many who read these words know the terrible drain upon health and strength which comes in the train of asthmatic troubles. Many do not realize, however, that there is one sure remedy which will surely stop this drain. Dr. J. D. Kellogg's Asthma Remedy is a wonderful check to this enervating ailment. It has a countless record to its credit. It is sold almost everywhere.

## NAPIER

We are all sorry to learn that Ridge Hooper's father and mother, who resided in London, Eng., have been both killed in the last aerial raid. Mr. Hooper was a citizen here some time ago.

The wheat crop this last week has picked up wonderfully. Planting corn and potatoes is still the order of the day. Napier's annual garden party will be held on June twenty-ninth. The Fox-Wilson-Fun Company will be present.

The Transcript office receives and forwards advertisements to be inserted in Toronto, London and other papers.

## Wardsville

The annual garden party of St. James church, Wardsville, will be held on the rectory grounds on Monday evening, July 2nd.

Edward Heywood of Toledo spent a few days with his grandmother, Mrs. Roberts, and his uncle, Tom Heywood, before going overseas.

Dr. and Mrs. Roome and John Anderson of London called on Mrs. Roberts on Sunday.

Mrs. L. Purdy has returned home after visiting in Buffalo.

Mr. and Mrs. C. B. Sheppard, A. Sheppard and Miss E. Sheppard attended the funeral of their cousin, Mr. Dawson of London, on Sunday.

Don't forget the play, "The Way-farers," to be given in the Music Hall Friday evening.

Mr. and Mrs. G. Cornelle are visiting at the home of A. Wemp, who is very ill.

P. Cunningham of Chatham called on friends in town Sunday.

Jack Douglas of the aviation corps, Toronto, spent the week-end with his parents here.

Mr. and Mrs. P. Waterworth of London visited at the home of William Waterworth on Sunday.

Rev. Mr. Haig of West Lorne conducted the service in the Presbyterian church Sunday morning.

A Safe Pill for Sufferers.—There are pills that violently purge and fill the stomach and intestines with pain. Parnelle's Vegetable Pills are mild and effective. They are purely vegetable, no mineral purgative entering into their composition and their effects are soothing and beneficial. Try them and be convinced. Thousands can attest their great curative qualities because thousands owe their health and strength to the timely use of this most excellent medicine.

## EXFRID

A very enjoyable evening was spent at the home of Mr. and Mrs. A. D. Black when about ninety of their friends and neighbors presented their daughter, Miss Etta, with a miscellaneous shower prior to her marriage. After a program of speeches and music a dainty lunch was served.

The sheds at S. S. No. 4 school have been completed.

Mrs. Mae Howie and son Beverly are visiting friends in London.

A. D. Black has purchased a new driver.

## OKADALE

Rev. Dr. McRae of Dresden conducted the preparatory meeting in the Presbyterian church on Friday afternoon for the communion service to be held on Sunday.

Mrs. Goldworth of Saskatchewan and Mrs. W. Roberts of Sarnia are visiting their sister, Mrs. Gavin Roberts.

Miss Lena Smale is visiting in London.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

Use the "Special Notices" column in this paper if you have anything to buy or sell. It is the quickest and most economical way of reaching many hundreds of people throughout the district.

Your Chance—the West is Calling.

Homeseekers' excursions to Western Canada at low fares via Canadian Pacific each Thursday until October 30th, inclusive. Particulars from any Canadian Pacific Agent or W. B. Howard, District Passenger Agent, Toronto, Ont.

Food and Strength.

Remember that the food you take one day supplies the strength you put forth the next. It is then a mistake to take a heavy meal on the day of heavy work. The time to take it is the day before.

Wise stablemen know this, and when a horse has a long day's drive before him they give him only what is called a "check feed," a very light meal, to be followed at night with a heavy one.

So there are two good reasons for a man's not eating much on the day of stress. It adds nothing to his strength on that day, and the process of digestion calls the blood to work at the stomach when every ounce of it is needed at the brain.

Surveying Land.

The art of land surveying owes its origin to the fact that the Egyptians were unable to keep permanent monuments on land which was overflowed every year by the Nile. Under such circumstances it became necessary to have some means of reidentifying the various pieces of land. The instruments and mathematical methods of astronomy, with suitable modifications, were used by the Egyptians for land surveying.

Preliminaries.

"You ought to forgive your enemies." "I may eventually," replied Senator Sorghum. "But I should like to give them a lesson beforehand, so that they will know my forgiveness is generous and strictly voluntary."—Washington Star.

What's the Use?

He—Do you think I ought to see your husband about my marrying your daughter? She—Dear me, no! He will read all about it in the papers.—Puck.

Always Waiting.

Dashaway—You have splendid looking clothes, old man. Who is your tailor? Cleverton—He's the first man you see as you go out.—Life.

Do not chase a rainbow unless you have a necessary errand in that direction.—Youth's Companion.

## Children Cry for Fletcher's

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

Mrs. J. S. Walker, who has been in business in Terre Haute for the past eight years, has sold her shop and is moving to Los Angeles, Cal., having bought a beauty shop there.

In a few days the boys and girls will be released from school, and for a couple of months they will enjoy to the full the real pleasures of youth. Just now they are putting in their "best ticks" at their studies.

McPherson & Clarke have been awarded the contract for a new passenger station and freight shed at Newbury for the Grand Trunk Railway. The building will cost in the neighborhood of five thousand dollars.

Capt. Archie Naismith, M. D., brother of Mrs. J. A. Scott, has been awarded the military cross. Captain Naismith is connected with the 101st Field Ambulance British Expeditionary Force. He enlisted with the B. C. Horse in November, 1916.

Rev. Alfred Gandier, principal of Knox College, will conduct anniversary services of the Glencoe Presbyterian Church on Sunday, July 1st. The ladies of the congregation will hold a garden party, the manse on the following Monday evening.

George Blacklock received information last week that his brother Thomas, who belonged to an Old Country regiment, was missing and believed to have been killed. This is the second brother to fall in the war, and there are three other brothers now at the front.

The Battle Hill Relief Society sent a box to the trenches this month containing 8 day shirts and 12 pairs of socks. The proceeds collected for this month by this society were:—Mrs. D. H. McRae, \$6; hand-made lace donated by Miss Crowley, \$5.10; collected at meetings, \$2.25; total, \$13.35.

Interest in the Glencoe oil fields is increasing as further good finds of the crude are being made. Oil was struck on the farm of Mr. McLachlan, lot 4, con. 5, last week. Several companies are now operating or preparing to do so, and a number of drilling rigs have been unloaded from the cars at North Glencoe.

At the annual meeting of the L. O. O. F. district lodge held at Newbury last week P. E. Lumley of Glencoe was elected district deputy grand master for District No. 5. Messrs. Wright and Rennie were the delegates from Glencoe lodge at the meeting. There were also others of the brethren here in attendance.

The annual garden party by the Y. P. G. of Argyle Presbyterian Church, Crinan, will be held on Thursday evening, June 28th, on the church grounds. An exceptionally attractive program is being prepared for the occasion and will include music by the Dutton band. The admission fee is 25 cents for adults and 15 cents for children.

Miss Sarah Elizabeth Bobier, eldest daughter of the late John Bobier of St. Thomas, died in that city on Friday morning, after a long illness. She leaves two sisters, Mrs. W. W. Metter and Miss Hannah V. Bobier, and one brother, John R. Bobier, all of St. Thomas. Miss Sutherland of Glencoe. She was in her 56th year.

The General Assembly of the Presbyterian Church in Canada unanimously agreed on a course in regard to the projected union of the Presbyterian, Methodist and Congregational denominations, which practically assures a discontinuance of organized propaganda for and against the object until two years after the union. The text was "Remember now thy Creator," and some of the symbols of Masonry were dealt with and their moral teachings commended and urged to be practiced in daily life.

The members of Lorne Lodge, A. F. and A. M., together with the visiting brethren from West Lorne, attended service in the Presbyterian church on Sunday evening, when Mr. Lloyd, the pastor, preached a sermon of special interest to the members. The text was "Remember now thy Creator," and some of the symbols of Masonry were dealt with and their moral teachings commended and urged to be practiced in daily life.

The musical part of the service included a Masonic quartette which was greatly appreciated.

As an inducement to returned soldiers to take up agriculture, the Ontario Government will pay \$1.10, the rate paid to men serving overseas, for every day spent at Monteith training farm and after graduating each man will be given 80 acres of land in Northern Ontario. In the case of married men, the Government will also pay a separation allowance of \$20 a month to the wife or mother, and \$8 a month for each child under 16 years of age. At present there are 30 men taking a course on agriculture at Monteith and many more applications are being received daily.

The award of the arbitrators in the dispute between George Rivers of Adelaide township and the county over gravel taken out of his pit has been received. Rivers has been awarded \$75, and must pay the fees of the witnesses called by him. Of the amount awarded, \$30 represents that paid for 300 cords of gravel at \$1 a cord, for which Rivers asked \$3.50 a cord. He was allowed \$75 because of the county's action in holding the pit for three years in order to get the 300 cords for road improvements in that section of Adelaide township. One acre of Rivers' land was expropriated when he declined to meet the county's figures or lower his own. The county is called upon to pay the costs in connection with the arbitration proceedings, except fees of witnesses called by Rivers.

Attractive Dining Car Service.  
Probably nothing helps more to make a railway journey really enjoyable than a visit to the "Dining Car," especially if it be a Canadian Pacific dining car, where the passenger is assured of the highest form of efficiency in the culinary art, the choicest provisions that the market affords prepared on the scientific principle known as "Dietetic Blending."

Your favourite dish, as you like it, may be enjoyed at reasonable cost, amidst ideal surroundings, while travelling on the Canadian Pacific.

Fifty cents will pay for The Trans-Script four months; \$1.00, eight months; \$1.50, one year. If to the United States, add one cent a week for postage.

### PERSONAL AND SOCIAL

—Mrs. L. D. Tait of Rochester, N. Y., is visiting Mrs. Diggon.

—Mrs. J. R. Squire is in Victoria Hospital dangerously ill.

—Mr. and Mrs. H. Lumley motored to Wardsville on Sunday.

STILL HOLDING FAST  
to the Old Value Standards

Saturday will usher in another 10-day rush in our Clothing Department. Better than usual values in Men's and Boys' Suits.

Gentlemen! Make a note of this. Come tomorrow. Sale of Men's Straw Hats.

Every one of these hats looks like a \$3 hat. Special, \$1.95. Nifty Sailors, extra special, \$1.

Sale of Women's Fancy Collars.

New Crepe de Chine Blouses.

Economy in Beautiful White Voile Blouses.

### Economy Sales of Wash Goods

Wash Goods, including Plain Chambrays, Gingham, Voiles, Prints, etc., at big savings this week.

### Now for the Wash Skirts

The hot weather is just ahead—here at any minute. Why not prepare with a Wash Skirt?

Another lot of new White Wash Skirts, made in the new full flare style with sport pockets. Prices—\$1.35, 1.75, 2.00 and 2.50.

### Prices Slaughtered in Millinery Department

Prices cut in half on all Millinery. Come early.

### Your Gain!

A back order of Slippers and Pumps arrived this week. Instead of returning them we are going to give them to you at cost price.

Spend a Little and Save a Lot Here This Week.

## E. MAYHEW & SON

### A Chance For Those Going West.

Homesekers' excursions to western Canada at low fares via Canadian Pacific each Tuesday until October 9th, inclusive. Particulars from any Canadian Pacific agent or W. B. Howard, District Passenger Agent, Toronto, Ont.

The most obstinate corns and warts fail to resist Holloway's Corn Cure. Try it.

at WINDSOR, Ontario, May, June, July, and August. YOU PREPARE—WE PLACE YOU good positions in DETROIT, WINDSOR, Walkerville, Ford.

"Finest summering place in Canada." Fine College premises and equipment. Write for catalog.

I. S. McALLUM, Principal  
Western Business College  
Box No. 56.

### LOCAL AGENT WANTED

for Glencoe and District to sell for "The Old Reliable Fonthill Nurseries"

Splendid list of stock for fall planting 1917 and spring planting 1918, including many new varieties which we alone control.

Send for new illustrated catalogue, also Agent's proposition. Handsome free outfit; exclusive territory; liberal commissions.

## GIVE YOUR WIFE ONE

Thousands of wives and daughters run their own Ford cars. They use them for shopping, calling, attending the theatre, taking the children for a run in the country or to school.

The Ford is as easy to operate as a kitchen range, no knowledge of mechanical details being necessary. Inexpensive to operate. A woman can call around town all afternoon or take a 25-mile spin in the country, at the minimum of cost for gasoline, oil, wear on tires, etc.

You couldn't give "her" a present she would appreciate more than this beautiful, modern car, with its stream-line effect, tapered hood and crown fenders.

### OVER 700 FORD SERVICE STATIONS IN CANADA

Roadabout \$475  
Touring 405  
Coupelet 605  
Town Car 780  
Sedan 880

MAIL INQUIRIES SOLICITED

# Farm Crop Queries

Conducted by Professor Henry G. Bell.

The object of this department is to place at the service of our farm readers the advice of an acknowledged authority on all subjects pertaining to soils and crops.

Address all questions to Professor Henry G. Bell, in care of The Wilson Publishing Company, Limited, Toronto, and answers will appear in this column in the order in which they are received. As space is limited it is advisable where immediate reply is necessary that a stamped and addressed envelope be enclosed with the question, when the answer will be mailed direct.

Question—C. K.:—I have a field of about forty acres of heavy June grass sod. The land is mucky, with clay sub-soil. I would like to know if buckwheat would be of any use to subdue the June grass on this land? I have a good crop of beets on this land seven years ago. After the beets I had oats, but they grew rather too rank and lodged, thereby killing out part of the seedling which caused the June grass to take a start and it has been left in that way ever since, so that it is now almost a solid June grass sod. Now if you believe that buckwheat would grow on this land then I would like to know what kind of buckwheat to get and how much to sow per acre.

Answer:—The soil that you describe should produce a rank growth of buckwheat. The crop, however, is better suited to a clay loam. If you seed buckwheat on this soil, it should make sufficient growth to overcome the June grass, if the seed-bed is well prepared. In view of the fact that your grain lodged so badly, I would advise you to apply at least 200 pounds per acre of acid phosphate, which supplies phosphorus, the kind of plantfood that gives strength to the straw of the grain. This will give strength to the buckwheat vines and will plump the buckwheat kernels. Silver Hull buckwheat is considered a good variety and requires about five pecks of seed per acre. Another good crop to use under the conditions you describe would be rape. This can be sown broadcast in rows. Rape requires about five or six pounds of seed per acre if sown broadcast, and three pounds if sown in drill.

Question—A. J. W.:—We expect to erect a silo 10x32 feet. Have six and a half acres, about half of this field is sand loam and the other half is clay loam. We plowed down a heavy June grass and timothy sod last year and it was partly covered with manure. We have covered it again this winter and want to plant it for silage. How should we drill the corn and how much seed per acre? Would it pay to use some commercial fertilizer; if so how much and what analysis would you recommend?

Answer:—In planting corn for silage, both drill and check-row systems are successfully used. The check-row system, which is really the hill system, allows of cultivating the corn both ways. If the land is not very weedy the drill system is satisfactory, drilling it in rows about 30 inches apart. In drills it requires about 10 quarts to the acre. To make sure of the germination, you could do well to buy the seed on the ear and test the ears for germination. This can be done by taking out six kernels from each ear, two from the tip, middle and butt, numbering the ear and placing the kernels on a square of blotting paper or cloth, numbering the square the same number as the ear. Place the cloth in a pan or large plate where you can keep it damp and warm, and inside of a week the kernels should have germinated sufficiently to tell you whether the ear is strong, weak or dead. Take the medium and strong ears and shell them out together and discard the ears that show very weak or dead kernels. It would surely pay you to fertilize your corn. For this purpose I would recommend the use of 200 to 300 pounds per acre of a fertilizer

Question—R. W.:—We want to use commercial fertilizer on our bean land this year and we don't know just how much is best to put on per acre to get best results out of beans. Also, which would be best, to sow fertilizer broadcast or in the hill with beans? Our land is practically clay loam.

Answer:—For fertilizing beans on clay soil, I would advise the use of from 200 to 600 pounds per acre of fertilizer analyzing 2 to 3% ammonia, 8 to 10% phosphoric acid and 1 to 2% potash. This should be worked thoroughly into the soil when you are preparing the seed-bed at least a week to ten days previous to planting. It can be spread with a lime spreader or if you have a grain drill with fertilizer drilling attachment, it is well to apply it that way. The important point is to see that the fertilizer is evenly distributed and thoroughly worked into the soil. It is rich available plantfood if it is worked into the soil where it can dissolve so that the plants can make use of it. It is not best practice to drill the fertilizer in with the beans. Groundsman has been found to give best results.

There are believed to be more hunch-backs in Spain than in any other country.

The British Director-General of National Service is appealing for 10,000 women to come forward at once to train for work on the land in the United Kingdom. The number required includes 5,000 to be taught milking and dairy work, and 5,000 to train as general farm workers.

Test the seed corn before planting.

## MERCHANTS BANK

NOW A HUNDRED MILLION DOLLAR INSTITUTION.

Assets Increased by nearly \$25,000,000 in the Past Year, while Current Loans, and Discounts Increased by \$13,902,393.

The 54th Annual Statement of the Merchants Bank of Canada, just presented to the Shareholders, shows most gratifying progress during the year ending April 30th last. Not only have Deposits and Assets grown very substantially, but current Loans and Discounts, the measure of the Bank's participation in the commercial development of the Dominion, have increased over 28%, reaching a total of \$62,737,958. This indicates something of the revival of business which has been so marked throughout Canada.

The increase in assets for the year amounted to \$24,769,195, or over 25% bringing the total assets up to \$121,130,558, and enrolling the Merchants Bank among Canada's Hundred Million Dollar Institutions. This is all the more creditable since it has been accomplished without amalgamation with or absorption of any other bank.

Notable among the assets are over Ten Million Dollars in Dominion and Imperial war obligations, indicating that the Bank is doing its share toward carrying the financial burdens of the nation. The assets do not include any mortgages, while real estate other than Bank premises, and overdue debts, amount to only \$443,236, or less than 2-5 of one per cent. of the total assets.

The confidence of the public in the Merchants Bank of Canada was strikingly shown by the 27% increase in deposits, which have now reached a total of \$92,102,071. Such an increase is also an evidence of a healthy state of business, and of a general practice of thrift.

This marked increase in the funds and the gradual clearing of the financial horizon, put the Bank in position to extend its loaning and discounting business by many millions, automatically placing the earning power of the Bank upon a much improved plane. The profits for the year carried forward consequently showed an increase from \$250,984 to \$421,292, after providing for the usual dividends, the Government War Tax on note circulation, donations to Patriotic and Red Cross Funds, contributions to Officers' Pension Fund, and writing off \$100,000 from Bank Premises account.

## THIS IS SPRAYING TIME

Methods of Combating the Enemies of Plant Life in the Garden

As soon as potatoes are well up they should be sprayed. The little flea beetle begins operations as soon as the plants are four or five inches high and so do the potato bugs. Whether or not potatoes have been grown in the vicinity before, the bugs are sure to be on hand early in the season and crops can only be protected by spraying. Then, too, blight must be checked by a spraying every ten days or two weeks. Cover the plants thoroughly with the spray, the upper and lower surfaces of the foliage. Vitro is a good preparation to use for this purpose or arsenate of lead and bordeaux may be used. If vitro is used ten pounds should be mixed with fifty gallons of water. For asparagus, beans, other garden vegetables, small fruits and rose bushes, one pound of vitro dissolved in five gallons of water will produce the desired results.

Place the required amount of paste in a pail and add cold water gradually, slowly stirring until sufficient water has been added to produce a smooth milky liquid. Pour this mixture through a fine wire strainer into the spray tank, which has previously been filled three-fourths full of clean water. Cucumbers and melons should be sprayed every ten days. Tomato plants should be sprayed as soon as set out and occasionally as required.

During the year the General Manager, Mr. E. F. Hebdon, was advanced to the position of Managing Director, while the Montreal Manager, Mr. D. C. Macarow, was appointed General Manager. In speaking of the annual statement, the latter referred with pardonable pride, to the fact that of 874 male members of the staff of military age at the beginning of the war, 520, or 59%, had enlisted and gone overseas.

## The Dairy

Breed the best to the best. Raise the calves; quit eating veal. Type is not the real test of a cow's value. The scales and tester are better indications. Keep all calf pails, and the utensils with which milk comes in contact, scrupulously clean. Scald them with hot water and then expose them to the sun during the day.

To make a real success at the fall shows, begin now to care for the prospective entries. It is no honor to win on an untrained, poorly fitted animal just because competition is lacking. Make your entry worthy of the red ribbon if it is the only one in its class.

One farmer says that with silage and clover and alfalfa hay he had been able to bring a large herd of dairy cows through the winter in good condition, with fairly heavy production and without much grain.

Where chronic dysentery is present in a dairy herd, try washing the cows' udders with a two per cent. solution of coal-tar disinfectant before allowing the calves to suck.

Every heifer calf killed means one less cow. Without any restriction, the sale of calves and cows for meat can proceed so far that there will be a serious shortage of cattle. Already, good cows never were so scarce and high.

Any falling off in the production of live stock will be noticeable in grain forage. Without plenty of stock, soil fertility is difficult to maintain and high prices for foodstuffs coming from the soil are more likely. It is apparent that something must be done to keep the productive animals on the farm.

## Sheep Notes

As long as the teeth of a sheep are strong and in good working order, it is reasonably safe to keep her.

The safety of the flock may be greatly insured by calling up the sheep every night and shutting them into a tight fold. They soon get the habit and are also more docile the year around. A flock of sheep can't be made too tame. A wild flock is of less value and makes more growth and shorter fleeces than a quiet one.

Unless you intend to keep the lambs for home use, let the bucks go the minute they are big enough. More money in them now than there will be after a while.

## Your Problems

Conducted by Mrs. Helen Law.

Mothers and daughters of all ages are cordially invited to write to this department. Initials only will be published with each question and its answer as a means of identification, but full name and address must be given in each letter. Write on one side of paper only. Answers will be mailed direct if stamped and addressed envelope is enclosed. Address all correspondence for this department to Mrs. Helen Law, 233 Woodbine Ave., Toronto.

L. T.:—For household use, the most effective and least dangerous of fly poisons is the one-to-five per cent. solution of formaldehyde. To a pint of water add three teaspoonfuls of commercial formaldehyde. It is not expensive, and can be bought at any drug store. Take one or more thin table tumblers and fill each one of them half full, or more, of the solution. Cut a piece of blotting paper into circular form, slightly smaller than an ordinary saucer. Place the blotting paper in the saucer and then invert the saucer over the tumbler; and the saucer, quickly invert the tumbler and the saucer, quickly invert the tumbler. Then place a match on the edge of the tumbler. That will break the air seal and allow the fluid to percolate slowly into the blotting paper, and to keep it moist, so that the flies can drink from it. This solution attracts flies, and usually kill them within two or three minutes.

"Reader":—I. When a person remarks, "I am very glad I have met you, Miss B.," after having been introduced to you, respond by saying, "I am sure the pleasure is mutual"; or, "I am glad to know you." There is no set phrase for such occasions. 2. To remove tar, apply turpentine or kerosene, followed by soap and water. 3. Almond meal is an excellent substitute for soap for use on the face. 4. To destroy roaches, dip slices of potato in arsenic mixed with sugar. Gather up every morning and drop into boiling water, as some of the insects may still be alive. But never allow poison to be around if there are children in the house. Paris green is another remedy, and pulverized borax is good.

"Subscriber":—1. The word "Argentine" means "silvered," and is associated with the Plata River because "plata" means "silver" in the Spanish tongue. Thus the name given to the great South American country took another form to describe the land through which the Plata flows. 2. Mercury is the planet nearest to the sun. 3. A panama hat may be cleaned by scrubbing with cornmeal and water. 4. Red-bordered towels and nappies will not fade if a little borax

is put in the water to set the color. 5. It is said that the juice of an onion will remove scorch marks from silk. 6. An invitation to a church wedding need not be acknowledged unless an invitation to the breakfast or reception is included. Wedding silver, linen, and all gifts intended for the bride should be marked with the initials of the bride's maiden name. Mrs. T.:—1. To clean a greasy carpet, mix together whiting and corn meal, heat it and sift it thickly over the carpet; then cover with gasoline and rub hard until the gasoline evaporates. Sweep clean and wipe with a damp cloth. This should only be done in the open, as the danger of fire from gasoline is very great. Be careful also in rubbing when the gasoline has been applied. If it is not possible to do the work in the open, use only the powder, allowing it to stand for several days, then remove and repeat the treatment until the grease has disappeared. 2. The red paint marks may be removed from your dark blue wool suit by rubbing the spots with alcohol. "Lill":—1. No matter how careful one is when sewing, often an oil spot gets on a dress while making, if the machine has recently been oiled. As your fabric is silk, cover it thickly with powdered starch and leave for twenty-four hours. After the starch has been brushed off the stain will not be noticeable. Mrs. D. P.:—1. There is nothing that will take the taste of leeks from cream or butter. The best way is not to allow the cows to graze in weedy places. It is an argument in favor of cleaning up all the weeds on the farm, isn't it? 2. A good style of dress for a two-year-old boy is dark colored knickerbockers buttoned to a white or light-blue waist with large pearl buttons. Sailor suits of white cotton with navy-blue collar, cuffs and tie are also suitable. They may be had readymade for \$1.50 at the large department stores, in sizes for one and a half years and upward. 3. There are two styles of hair-cut for little boys; one being the close shave which the older boys favor and the other the Buster Brown or Dutch cut.

Castrate the male pigs before they are weaned, when they are about six or eight weeks old. Choose a clear dry day for the work.

All whey from cheese factories and butter milk from creameries should be pasteurized before feeding to hogs. A mixture recommended for hog-pasture is barley and rape, the hogs to be turned on when the barley is starting to shoot. If not overdone, the barley will keep the herd going till odd heads began to ripen, then the grain and rape make a good ration until after frost arrives. Hogs on pasture require grain for greatest profits in pork production, but a full feed is not economical when pasture is plentiful and grain high priced.

Long-legged drafts are not what the market demands. Don't breed that characteristic into the young animals. Select a low-set sire. Let the mare rest several weeks after foaling. Start gradually when putting her to work again. After feeding and brushing the horses, turn them out in the pasture to rest for the night. Disinfecting the stables with coal-tar dips will go a long way toward protecting the horses from flies. Clean the stables every day in hot weather. Condition in a horse is manifested by keenness for work, brightness of eye and bloom of coat. A horse is capable of his greatest effort only when in condition. Before letting the colt to the mare at matelime, partly milk out the udder. In hot weather let the mare rest and cool off a few minutes before the colt sucks. Colic often results from working a horse immediately after feeding. Allow plenty of time at noon.

Remove shoe, pare the sole of the quarter well down to expose the corn and allow escape of pus if there be any, apply hot poultices until soreness disappears, then get shed with a leather sole between shoe and hoof and no pressure upon the quarter of the wall. When breeding the mares, bear in mind that it pays to have one breed in a community. The greatest progress in breeding is possible where farmers cooperate to produce the best of one breed. Neither mare nor foal is bettered when the colt follows the cultivator. Keep the colt penned in a roomy, well-lighted and ventilated box stall. Do not keep them apart for a half day the first time.

Bruises of the heel will be indicated by lameness, tenderness upon pressure of the quarter of the sole, usually the inside. In severe cases where pus is forming there will be tenderness expressed when the heel is pressed. Remove shoe, pare the sole of the quarter well down to expose the corn and allow escape of pus if there be any, apply hot poultices until soreness disappears, then get shed with a leather sole between shoe and hoof and no pressure upon the quarter of the wall.

Long-legged drafts are not what the market demands. Don't breed that characteristic into the young animals. Select a low-set sire. Let the mare rest several weeks after foaling. Start gradually when putting her to work again. After feeding and brushing the horses, turn them out in the pasture to rest for the night. Disinfecting the stables with coal-tar dips will go a long way toward protecting the horses from flies. Clean the stables every day in hot weather. Condition in a horse is manifested by keenness for work, brightness of eye and bloom of coat. A horse is capable of his greatest effort only when in condition. Before letting the colt to the mare at matelime, partly milk out the udder. In hot weather let the mare rest and cool off a few minutes before the colt sucks. Colic often results from working a horse immediately after feeding. Allow plenty of time at noon.

## Health

### PROTECTING BABY FROM SMALL HURTS.

Far greater harm is often done the skin by the subsequent scratching of the insect bite with the dirty fingernails than by the bite itself; and so it is important that we remember quickly to apply ammonia water or camphor. Almost immediately the itching is stopped, and the added "scratching" irritation to the already injured skin is thus avoided.

By the aid of a magnifying glass, and often by the naked eye, we may detect the stinger which has been left behind by the greedy guest. It is readily removed with a pair of tweezers. Ice water compresses will stop the swelling.

Wherever baby is out of doors he should be properly protected by stretching muslin netting over a frame eighteen inches above his face, for I can think of nothing more uncomfortable than a mosquito netting dragged over a baby's face. The fact that mosquitoes, flies, roaches and other insects are carriers of tuberculosis, typhoid fever, cholera, yellow fever, malaria and possibly infantile paralysis, as well as a host of minor ailments, should make us the more anxious for either their extermination or the protection of our children from their greedy bites and stings.

Dog and Snake Bites. Dogs, cats, rats or mice bite at any time of the year, and provision should always be made for ample protection against such accidents.

Such a wound should always be squeezed or sucked until it has bled freely, and then be cauterized by a red-hot iron or touched with an applicator that has been dipped in sulphuric acid. A subsequent dressing of Balsam Peru is healing.

In the case of snake bites the same sucking and cauterizing treatment is indicated, with the additional tying of a handkerchief or cord a few inches above the wound to stay the progress of the blood and to keep the poison out of the general circulation. A solution of 20 per cent. permanganate of potash should be used to wash the wound.

The popular administration of large draughts of whisky is of no benefit, for the secondary depressant effect of alcohol increases the body's poison burden, and those who survive do so in spite of the whisky, and not because of it.

### Swallowing Little Things.

Small bodies such as buttons, safety-pins, thimbles, coins, etc., are often swallowed by little folks, and if they lodge in the throat and the child struggles for his breath the treatment is as follows: Grasp him by the heels and turn him upside down, while a helper firmly slaps him on the back. The foreign body generally flies across the room. If it is lodged high up in the throat it may often be dislodged by the thumb and finger. If it cannot be reached and it will not go down, if possible lose no time in seeking an X-ray laboratory, where its exact location may quickly be discovered and proper measures instituted for its immediate removal.

A troublesome fish bone is easily dislodged by swallowing a half-chicken piece of bread, which carries it down to the stomach. Cathartics and purgatives are not to be given; in due time the object will appear in the stool. In all instances it is well to locate its exact location by the X-ray, so that there may be assurance it will do no harm.

### THE GAME OF PAIL-MALL.

Both Croquet and Billiards Had Origin in This Pastime.

Five hundred years or more ago the young people of France had a game that they called paille-malle. In the time of Charles I, or perhaps a little earlier, the young people of England took up the game and called it pail-mall—which they pronounced, "pell-mell." It has not been played in recent years, but it was the beginning both of the game of croquet and of the game of billiards. The players used a large wooden ball, a wicket or iron arch and a mallet or heavy bat. The object of the game was to drive the ball through the wicket and hit a stake or other mark beyond it. Sometimes, however, the ball was placed at a long distance from the wicket, even several hundred yards, and the contest took the form of seeing which player could drive the ball through the wicket with the fewest strokes, or whether any player could drive it through in a certain number of strokes agreed on in advance. In London the game became very popular in the seventeenth century, and one of the best-known alleys, that of St. James, was eight hundred yards long, and made of hard sand "dressed with powdered cockle-hells."

### An Appeal to Campers.

The Canadian Forestry Association is endeavoring to secure the co-operation of Canadian fishermen, hunters and campers in making a special effort to adopt fire prevention this year as one of their personal contributions to national thrift.

Home-grown fruit is cheaper than any other. A small garden may be made to yield a great variety.

## THE WEAPON OF STARVATION

FRENCH ECONOMIST'S IDEAS ON WARFARE.

Yves Guyot Says That the Blockade, Made Effective, Will Bring Germany to Terms.

According to the noted French thinker, Yves Guyot, whose reputation as an economist is based upon fifty years' study and research in economic and financial matters, out of which have come many able books, war, and particularly modern war, is pure and simple an elementary thing.

Its carrying on, M. Guyot thinks, rests upon steel and wheat and cotton, even more than upon the valor of men. In its end, the belligerents holding the world's economic resources and controlling the world's markets can dictate a crushing condition of terms.

The substance of an interesting interview, given to an American correspondent, occurs in these words by M. Guyot:

"We all want peace," he said, "but only the peace that denies the possibility of future war for at least two centuries, when peace will have become the fashion, so that war cannot be reborn. It is now a definite certainty that this is to be the full Allied portion."

Significance of Liberia's Action.

"Many have smiled, for instance, at the Liberian diplomatic break with Germany. Liberia is as nothing, they have mentally said, and her entry or non-entry weighs not. And yet, Liberia, in her particular way, is a real factor in possibility. First, morally. And morally throughout the war. But at the moment of peace a factor in action. For Liberia grows coffee."

"When the Boche is thoroughly beaten by force of arms and an absolutely complete blockade he will be forced to capitulate. He will do this with a very bad grace of course."

"Suppose at such a time, after the Boche representatives have had presented to them every Allied demand and before a word of argument begins, the representatives of the United States arise and say:

"Unless without argument you agree to each and every individual thing here laid down, to all our dictations, disarmament, such preparation as is possible, the destruction of your autocracy, I propose to engage in treaty with my allies (and we respect treaties in America) not to let you have a pound of cotton, a pound of sugar, a bushel of wheat for twenty-five years."

"And after the representatives of the United States have taken their seats, Brazil and Liberia arise and in the same breath say: 'Those are my sentiments. Otherwise, no coffee for twenty-five years.' And then in order, China denying tea, Japan denying rice, Guatemala denying her tropical products, every ally denying some elementary thing, all elementary things at its command. Even Cuba could say: 'We make good cigars. And you don't get any for twenty-five years. Finally France, which having suffered most, arises and says: 'There is nothing to argue about, Germany. Everything we have dictated and within two hours, or we enforce our terms anyhow, and you suffer twenty-five years' privation.'"

"How long, think you, will that conference last under such conditions? Just two hours longer, since the Boche is a Boche, and will take his full 120 minutes."

"I do not wish to say the words. I have used them to be used. But I do wish to say they should be, in substance, that I believe they will be."

Neutral Trade Must Be Controlled.

"The idea," continued M. Guyot, "of placing a rigorous blockade upon Germany, preventing possible receipt of foodstuffs from the United States through neutrals, will hasten the end of the war. Holland and the Scandinavian countries have without doubt been supplying Germany. Particularly Denmark, And Switzerland, at least in its northern portions."

"And so the cotton, the wheat, the sugar, the steel, the tea, the rice, the tobacco, every elementary thing at the command of the Allies can be denied to Germany."

"The tighter the screws are placed upon Germany from every angle the quicker the end of the war with full victory."

Preparedness Wins.

The pacifist and the preparedness people are, respectively, like Willie and Johnny. Willie and Johnny had been very naughty, and were sent to bed by their mother. As they lay side by side footsore were heard—it was now evening—and the two culprits realized that their father was mounting the stairs. They turned pale. "I'm goin' to fold my hands as if I'd been prayin'," said Pacifist Willie, "and then I'll pretend to be asleep when he comes in." But Preparedness Johnny was already bustling swiftly about the room. "I'm goin' to put on my pants," he said, "and line 'em with a newspaper."

## When You Eat Bread

you are entitled to everything in the whole wheat grain. Dr. Wiley says: "Wheat is a complete food containing all the elements necessary for human nutrition." But be sure you get the whole wheat in a digestible form. **Shredded Wheat Biscuit** is whole wheat made digestible by steam-cooking, shredding and baking—the best process ever devised for preparing the whole wheat grain for the human stomach. Two or three of these crisp little loaves of baked whole wheat with milk and berries, make a delicious nourishing meal. Made in Canada.

## CANADA'S WOODPULP.

Commission of Conservation Studies Conditions Effecting Supply.

Canada is undoubtedly to become one of the world's greatest sources for the supply of woodpulp and paper. This industry has grown by leaps and bounds during recent years, and further large developments are to be anticipated, both in the east and the west. This will mean a constantly increasing strain upon our forest resources, and must result in careful consideration as to whether very large areas, in which the heaviest cutting is being done or is to be done, are not in danger of depletion.

The ravages of fire have been very serious in our pulpwood forests, and the question arises also as to whether present methods of cutting are sufficiently controlled to ensure the reproduction of another forest on cut-over lands. The area of pulpwood lands in Canada is so great that, if fire can be kept out and the reproduction of the forest secured through proper regulation of the cutting methods, the annual growth will provide the basis for an enormous development of the pulp and paper industry for all time to come. This means the practice of forestry, of which we have as yet in Canada only the beginnings.

The Commission of Conservation has started a study of these fundamental problems. This investigation will have for its objects the determination of the extent to which cut-over pulpwood lands are reproducing valuable species in potentially commercial quantities; the effect of fire on reproduction, and the rate of growth of the reproduction present, to determine how long after cutting one may reasonably expect another crop. The answer to these questions should go far in determining what additional measures are necessary to place the business of pulpwood production upon a thoroughly permanent basis.

The work for this season will be under the direction of Dr. C. D. Howe, of the Faculty of Forestry, of Toronto University. A co-operative arrangement has been made, under which the first part of the study will be made upon the limits of the Laurentide Company, whose forester, Mr. Ellwood Wilson, will co-operate in the investigations. It is expected that similar studies will be made in other sections of the pulpwood forests of Canada during succeeding years. The results will undoubtedly be of the greatest interest to all who are directly or indirectly concerned in the perpetuation of this great industry.

Your wife and you are equal partners. Divide fair with her.

"There's a Reason"

## BIRDS THAT NEVER GET TIRED.

Sea Swallows and Storm Petrels Make Long Voyages.

Perhaps you have read about the birds that make their summer home far up in the north around the Arctic Ocean and then, when the summer is over, fly far to the southward and scarcely stop until they have reached lands that are only a few hundred miles from the South Pole. In making this wonderful journey over sea and land they travel in a short time nearly half around the world, or about 11,000 miles. These are the terns or sea swallows and they are the greatest long-distance travellers among all the birds. So much do they like the long bright days that they have been called the "sunshine birds."

Another of the tireless bird travellers is the storm petrel, which sailors call "Mother Carey's Chicken." These birds fly so close to the water that at times they seem to be walking up and down the waves. An interesting story is told about a storm petrel that followed a steamer all the way across the Atlantic. One of the passengers had caught the bird, tied a bit of red ribbon around its neck, and released it. Seldom was it out of sight of the passengers, who could readily distinguish it among others of its kind. When only a few miles from New York, the little petrel disappeared, perhaps to follow another steamer back again to the other side.

## LINGERING WEAKNESS FOLLOWING DISEASE

Banished by the Wonderful Tonic Powers of Dr. Williams' Pink Pills.

How often victims of disease such as la grippe, fever, or contagious troubles are left weak, ailing and despondent after the disease itself has disappeared. They do not pick up strength as they ought; remain listless, tired and discouraged. The reason for this is that the blood has been impoverished by the ravage of the disease through which the victim has passed. Strength will not return until the blood has been enriched. The blood can be purified and enriched by no other medicine as quickly and as surely as by Dr. Williams' Pink Pills—to enrich the blood and strengthen the nerves is the whole mission of these pills. Thousands have found them beneficial in bringing strength and energy after disease had left them weak and run down. Miss Hannah Hamilton, Everett, Ont., says:—"After an attack of la grippe I was so run down and anemic that I could scarcely walk. I had no color, no appetite, and constant headaches. The medicine I was taking was doing me no good and I had almost lost hope of getting better. I was asked to try Dr. Williams' Pink Pills, and it was not long until I could feel that they were helping me. And after taking them for a couple of months I was completely cured. I now never fail to recommend these pills to anyone needing a blood builder."

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## THE SHORTEST RAILWAY.

One Man Performs All The Duties Required.

On a little island in the middle of the Athabasca River in northern Canada is the shortest railway in the world. Although it is only a quarter of a mile long and connects with no other railway whatever, it makes money.

Up to fifty years ago all the goods for the vast northland came by way of the town of Prince Albert and a long chain of lakes and rivers to the various trading posts that lie in that district. The route was a hard one, with one very long land portage, over which all the goods had to be carried on men's backs.

Then a daring riverman, Louis Fasnouere by name, ran a loaded scow through the Grand Rapids of the Athabasca, and proved the possibility of a new and shorter route by way of Edmonton, Athabasca Landing and the Athabasca River. For his feat the men of the north dubbed him Captain Short, and by this name he was known throughout three thousand miles of wilderness until the day of his death.

But although he had dared to run his scow through the rapids where the river falls sixty feet in a quarter of a mile, more prudent traders chose to unload, to run the scows through light, and to portage their goods round the quarter mile of bad water. Fortunately, there is an island in the middle of the river that extends the whole length of the rapids. The scows can unload in the quiet water at the head of the island, run down the rapids to the quiet water at the foot of the island, and reload there.

To carry the goods across the island the Hudson's Bay Company built a railway of wooden rails on wooden ties; the rails were overlaid with strap iron. Two battered flat cars made up the rolling stock. One man performs all the duties, from that of general manager to section hand. Two dollars and a half a ton is his charge for moving freight across, and the shipper has to do all his own handling. When the light scow has run the

WANTED—PLASTER, SHAPER, also Pattern Makers. Day and night. Apply Brown Boggs Co., Limited, Hamilton.

WANTED—MARBLE AND GRANITE Letterer. Apply Geo. M. Paul, Sarnia, Ont.

NEWSPAPERS FOR SALE PROFIT-MAKING NEWS AND JOB OFFICES for sale in good Ontario towns. The most useful and interesting of all businesses. Full information on application to Wilson Publishing Company, 22 Adelaide Street, Toronto.

## MISCELLANEOUS

CANCER, TUMORS, LUMPS, ETC. Internal and external, cured without pain by our home treatment. Write us before too late. Dr. Bellman Medical Co., Limited, Collingwood, Ont.

channel the boatmen hold it against the current, while a man on shore throws into the stream a heavy piece of wood to which a light rope is attached. The boatmen pick up this float as it passes them, and haul in the rope, to which a heavier cable is attached. By means of that cable the scow is drawn to the shore, where it meets the load that has been shipped across the island on the railway.

## GROTESQUE BIRDS.

Pantomimists That Act as if They Were Trying to be Funny.

Did you ever watch a screech owl, especially a young one, that wants to impress you with its importance? The fabled frog, that swelled up to simulate the bull, is almost a joke in comparison. Mr. Screech Owl is mostly feathers, not in weight but in bulk, and these serve him well in the infatuation.

One moment he is just like any other normal avian in relative dimensions; in the next he appears almost twice as large as he should, according to the actual body size of him, and by reason that each feather stands on end and outwardly. A mad cat's tail is nothing to it.

All owls are funny-looking fellows; even the wildest, tigerish appearance of the great-horned killer cannot take from him entirely that owlish cast of feature, and the big-eyed glare, the all-wise stare, is uppermost.

But the funniest of all nocturnal birds of prey is the barn owl, or money bird, not only as the get-up of his phiz, but the general contour of his angular form. All through, either as a well-stuffed specimen or in life and antics, he is the queerest thing on wings. Not even the pelican, about which so much of humorous character has been written, has anything on the monkey-faced owl for oddity of action and attitude.

Did you ever watch a great blue heron fishing? Kneedeep he stands in some pool, stream or bay, and no marble statue has anything on him for being immovable. Presently some member of the finny tribe, perhaps a chap out of class, or the whole school even, wanders by beneath the crystal depth, and—whack! The combination of long-bent neck and dagger bill does a stunt that is both funny and effective, and generally gets the fish. The entire episode is peculiar and hard to describe; it is much like a miniature and plumed clockwork with a crazy tongue attachment, the latter being lengthened by a released watch-spring. You can see it, but merely so; no more than that.

Other funny birds are the flamingo, the spoonbill, the wood ibis and the cormorant on the feet, but the turkey buzzard on the ground can move one to mirth as quick as anything outside of the imagination.

## GRIM GAS BATTLES.

Hand-to-Hand Struggles Where Death is often Conqueror.

Andre Todeau, writing of the battles of the British front, says there was such an expenditure of asphyxiating shells one day that six hours after the last deluge of them suffocating smells were still passed through.

Lavish expenditure of gas on both sides forms a characteristic of the furious attacks and counter-attacks which have been delivered day and night round these two villages. The mask is here as precious as the grenade or the rifle.

As in a frightful carnival, in the manner of Edgar Allan Poe, one could see in the night on the slopes west of Fresnoy entire regiments in masks, fighting and killing each other in the midst of black vapors which were rendered more fantastic by the light of the moon.

The hand-to-hand struggle thus took on most singular forms. Throwing away their arms the combatants would fly at each other's throats and try to tear away each other's masks. Few prisoners were taken in these encounters, and the wounded are fewer still. Death alone receives the lion's share.

## Two Seasonable Models

Jersey cloth has proved most popular in sports clothes and has now added new recruits in bathing suits. The pretty suit illustrated is made of jersey cloth and trimmed attractively with braid. Large pockets at either side and a long girdle are other style features of this model. McCall Pattern No. 7773, Ladies' Chemise Bathing Suit; in 5 sizes; 34 to 42 bust. Price, 20 cents.

Unusual and stylish is the cut of these cunning little rompers. The little downward curve of the empire waist under the arms gives the suit a charming effect quite out of the ordinary. The lower part of this garment is so full that it might almost be a skirt were it not buttoned in the center and gathered around the leg on a rubber tape. Gingham, crinklette, crepe and chambray are splendid materials for this suit, which includes a one-piece sun-hat, too. McCall Pattern No. 7790, Child's Rompers and One-Piece Sun-hat; in 4 sizes; 6 months to 3 years. Price, 10 cents.

These patterns may be obtained from your local McCall dealer, or from the McCall Co., 70 Bond St., Toronto, Dept. W.

I was cured of Bronchitis and Asthma by MINARD'S LINIMENT. MRS. A. LIVINGSTONE. Lot 5, P. E. I.

I was cured of a severe attack of Rheumatism by MINARD'S LINIMENT. Mahone Bay, JOHN MADER.

I was cured of a severely sprained leg by MINARD'S LINIMENT. JOSHUA A. WYNACHT, Bridgewater.

## THE BACKBONE OF RUSSIA

Attitude of the Cossacks Toward New Democratic Government.

"It is significant that the Cossacks of Russia have taken sides with the new democratic Government and have announced that they will fight on against the Germans," remarked Dr. H. A. Herbst, an American who has traveled in Russia extensively. "For centuries the Cossacks have been loyal to Russia, not to any particular king or dynasty, and they have always landed on the winning side. The Cossacks fought for the Emperor of Germany against the Turks and for Turkey against Moscow, and they had no scruples in siding with Moscow and Crimea against the Poles."

"The Cossacks constitute the most loyal body of soldiers in Russia. In the last revolution in Russia the Cossacks sent an ultimatum to the rebels that if they did not discontinue their agitation against the Czar the Cossacks would march against them 500,000 strong and annihilate them. This declaration had its effect and while some few soldiers mutinied, no Cossack was found wanting. The Cossacks are the backbone of Russia. With them standing behind the Government and the Entente allies, there can be no question, in my opinion, of the future of Russia or the continuance of Russia in the war until Germany is beaten."

Beans, like peas, leave the land in good condition for fall wheat.

## Music for Children.

Not only should you seek the best music for your children, but you should give them the best teachers. If you want your children to love poetry you do not give them some poor little verse, some bit of popular doggerel, but you turn back to the masters—to Tennyson, Keats, Shakespeare, Burns, Longfellow, Browning; you give them the wealth of the world. You must do the same with music. You must have them taught by one who knows and loves music, who can win a response from them, who can direct and encourage them. The best music in the world is of no avail for children with a poor teacher. Seek good music in simple form, and music lovers as instructors.

## CHILDHOOD CONSTIPATION

Constipation in children can be promptly cured by Baby's Own Tablets. They are a gentle but effective laxative which thoroughly regulate the bowels and sweeten the stomach and thus drive out all childhood ailments. Concerning them Mrs. J. B. Tauffenbach, Richer, Man., writes: "I have used Baby's Own Tablets and have found them an excellent medicine for constipation." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Put a silver spoon into the most delicate glass and boiling hot liquids can be poured into it without breaking it.

## Keep Minard's Liniment in the house.

Trap the squash bugs which also infest the cucumber and melon plants by laying a shingle on the ground near the plants. The bugs can be found under this cover early in the morning and destroyed. Spray plants with kerosene emulsion to kill the younger insects of this kind.

## When Your Eyes Need Care

Use Murine Eye Medicine. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Sore Eyes and Granulated Eyelids. Murine is compounded by our Oculists—not a "Patent Medicine"—but used in successful ophthalmic practice for many years. Now dedicated to the Public and sold by Druggists at 50¢ per Bottle. Turning Eye Salve in Asseptic Tubes. 50¢ and 10¢. Write for Book of the Free Eye Murine Eye Medicine Company, Chicago. Ad.

## Still Unable.

"Then this," asked rejected James, "is absolutely final." "Quite," was Dorothy's calm reply. "Shall I return your letters, James?" "Yes, please," answered poor James. "There's some good material in them that I can use again."

## MONEY ORDERS.

It is always safe to send a Dominion Express Money Order. Five dollars costs three cents.

Kerosene oil is excellent for cleaning the rubber rollers of a clothes wringer. After it has been applied the rollers should be rinsed off with warm water.

## Minard's Liniment Lumberman's Friend.

The birds that live to a great age are comparatively few. Gulls have been known to reach forty years, and swans nearly as long. Ravens and owls usually die somewhat younger, but there is good reason to believe that eagles and falcons sometimes live more than one hundred years. Of barnyard fowls, ducks and geese live longest. Mr. D. MacLachlan, of Islay, Scotland, writes to the Field that he has a gander that is now sixty-six years old. For forty-five years it belonged to the proprietor of a hotel at Bridgend, Scotland. Twenty-one years ago the father-in-law of the present owner bought it. Mr. MacLachlan says that the gander looks as well and as young and seems as active as it ever did. There is no doubt about its age.

An Aged Gander.

JACKSON, 5 PASSENGER, 4 CYLINDER Touring Car. Has electric lights and starter, good tires, and is a bargain at the price \$200.

We only sell used cars after the purchaser has had a demonstration and is satisfied himself of the running quality of the car he is buying. Call at our showroom next time you are in Toronto and let our salesmen show you any of our used cars and give you a demonstration.

YED DOMINION AUTOMOBILE CO. 146-150 Bay Street, Toronto, Ont.

## LIFT YOUR CORNS OFF WITH FINGERS

How to lessen a tender corn or callus so it lifts out without pain.

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority. He says that a few drops of a drug called freezeone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug dries at once and simply shrivels up the corn or callus without even irritating the surrounding tissue.

A small bottle of freezeone obtained at any drug store will cost very little but will positively remove every hard or soft corn or callus from one's foot. If your druggist hasn't stocked this new drug yet, tell him to get a small bottle of freezeone for you from his wholesale drug house.

## PAINS SHARP AND STABBING

Woman Thought She Would Die. Cured by Lydia E. Pinkham's Vegetable Compound.

Ogdensburg, Wis.—"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

Mrs. ETTA DORRIS, Ogdensburg, Wis. Physicians undoubtedly did their best, battled with this case steadily and could do no more, but once the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound. If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

# SELLING OUT

The Entire Stock of Boots, Shoes, Oxfords, Pumps, Slippers, Rubbers, Rubber Boots, Running Shoes, Outing Shoes, Sport Shoes, ETC., OF THE
