Distribution of Seed Grain and Potatoes from the Dominion Experimental Farms 1916-1917.

By instructions of the Hon. Minister of Agriculture a distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples for general distribution will consist of spring wheat (about 5 lbs), barley (about 5 lbs), and field peas (about 5 lbs). These will be sent out from Ottawa. A distribution of potatoes in samples of about 3 lbs. will be carried on from several of the experimental farms, the Central Farm at Ottawa supplying only the Provinces of Ontario and Quebec. All samples will be sent free by mail.

Only one sample of grain and one of potatoes can be sent to each farm. As the supply of seed is limited, farmers are advised to apply early. Requests received after the end of December will probably be too late.

Anyone desiring a sample should write (post free) to the Dominion Cerealist, Experimental Farm, Ottawa, for an application blank.

AGRICULTURAL INSTRUCTIONS

The allotments to the different provinces under The Agricultural Instruction Act, passed by the Dominion Parliament in 1913, have been made for the year ending March 31st, 1917. It will be remembered that by terms of this Act ten million dollars spread over a period of ten years was to be divided between nine provinces of the Dominion, according to population, for the encouragement of education in agricultural and domestic science. In the initial year, 1913-14, \$700,000 was to be divided. Each year the amount was to be increased by

\$100,000, until 1917-18, when the grants under this arrangement will have reached a total of \$1,100,000, at which they are to remain until 1923, when the ten million dollars will have been exhausted. The sums received by the different provinces for the year ending March 31st next will be as follows:

P. E. Island	\$30,443.75
Nova Scotia	74,859.28
New Brunswick	59,209.60
Quebec	243,212.23
Ontario	301,158.45
Manitoba	70,767.21
Saskatchewan	74,869.76
Alberta	61,747.22
British Columbia	63,732.50

By the aid of these grants agricultural education and domestic science knowledge has been greatly benefited and extended all over the country. School buildings have been erected, college buildings have been extended and increased in number, experienced teachers of a high class have been engaged, District Representatives and county agents' expenses have been met, demonstrations in all branches of agriculture and short courses have been liberalized, arranged, agricultural instruction on both public and high schools has been extensively promoted, much useful literature has been extensively promoted, much useful literature has been circulated, veterinary science has been benefited, knowledge and practice of domestic science extended, manual training received an impetus, competitions of many varieties helped and initiated and school and home gardening greatly developed. In short the beneficial influence of the Act is making itself felt in every direction that agriculture and home-making take.

why that skin trouble, from which you are suffering, will not heal? It is because it is so deeply rooted that ordinary ointments are incapable of penetrating to the seat of the disease.

Zam-Buk, on the contrary, is so refined that it is capable of reaching the underlying tissues, and that is why so many cases of skin trouble, which have defied all other treatments, have yielded to Zam-Buk.

THE ISLAND OF WONDERLAND

(1) James Bay Embankment and C.P.R. Hotel, Victoria, B.C.
 (2) On the Way to Cameron Lake, Vancouver Island.
 (3) Fishing on Cowichan River, Vancouver Island.

EVERY year a larger and ever increasing number of motorists and those who wish to spend their vacations in an entire change of environment, make their way to the Island of Vancouver—the gateway of which is Victoria, the capital city of British Columbia—the best known tourist resort in the Pacific Northwest. It is entirely different from any other territory known to automobilists. True, it is in Canada, and reached by the Canadian Pacific via road and magnificently appointed steamers, but it is as British as if it were one of the British Isles. This is realized immediately one lands from the steamer in Victoria, and by the way this very landing is interesting and affords an excellent example of the courtesy of Canadian customs officials, and the extreme ease with its automobilists, who are residents of the United States, can enter into this, to them, foreign country.

But to return to one's first impressions upon leaving the steamer at Victoria. As the steamer glides to her berth through the unique Inner Harbor, considered one of the most picturesque in the world, there immediately looms up on the right, the magnificent Parliament buildings of British Columbia—one of the architectural features of Canada. They are situated overlooking the harbor, facing James Bay embankment and the City of Victoria.

ist in close touch with the main portion of Vancouver Island, and all its summer and fishing resorts; its quaint villages, enterprising towns, agricultural settlements, wonderful forests, reached by tributary highways, and the commencement of the Canadian highway, the terminus of which is at Alberni.

It is an easy matter to spend a week in the City of Victoria, and to take an entirely separate and distinct, and at the same time most interesting tour, every day. In fact, during the past summer, enthusiastic automobilists from California, Utah, Washington, Oregon, and even Eastern Canada spent from two to five weeks in this city and island, and left with the greatest possible regret.

Mr. Frederick Wagner, in the Seattle Times, thus describes his first visit to Victoria and the Island: "Picturesque and rugged in its matchless beauty of unlimited variety; wealthy in magnificent driveways and offering unsurpassed hotel accommodations, with lavish hospitality ever conspicuously present—that is Vancouver Island, in the Canadian province of British Columbia, paradise of motorists and nature lovers, and destined to rank as one of the world's greatest touring fields."

"Nature painted the gorgeous setting for this scenic wonderland, and the people of Vancouver Island have capitalized it by constructing a system of splendid highways that is dotted with attractive hotels where excellent accommodations are to be obtained. And they have supplemented this work by a display of genuine hospitality that is justly entitled to be classed as a valuable asset in the exploitation of their country.

No rust can attack the flues because they are so thoroughly aluminized, and they economize nearly every bit of heat.

Importance of Conserving the Fertility of Our Soils

The soil is the one great factor foundation not only of agriculture—but of the nation's welfare hence it is practically impossible to spend an excess and care on its cultivation and preservation. Therefore any knowledge that results from experience is of the greatest value. A deal of information acquired from such experience in Bulletin No. 27, second series, entitled "Soil fertility, its economic maintenance and increase," just issued by the Department of Agriculture of which Dr. Frank T. Shutt, the Dominion Chemist, is author, and which can be had free by application to the Publications Branch of the Department at the capital. Dr. Shutt sounds an intensely practical note of warning when he argues that we have been terribly wasteful of plant food and that every effort should be made to maintain and increase the fertility of our soils, and, by more rational methods, endeavor to put a stop to that waste. While the warning is directed to the Northwest, "where farming has been likened to mining," Ontario and Eastern Canada generally are summoned to account. In brief, a change is called for from extensive to intensive farming, the lesson that it is sought to convey being that there is more profit in high tillage and conservation in cultivation than in methods of mere routine. Having gone minutely into the properties, necessary treatment and application of farm-yard manures, the doctor supplies a table giving the approximate average composition of manure (fresh) from various animals, describes the manurial value of clover, the competent beneficial influence exercised by fertilizers, and refers to the places occupied by wood ashes and seaweed as potassic fertilizer. He goes into the virtues of gypsum and nitrate of soda as indirect pot-

ash fertilizer, concluding in an instructive review of the chief means by which the productiveness of the soil may be increased and preserved, by urging farmers to make greater use of the various means and agencies provided by the Governments—Federal and Provincial—for the assistance of the man on the land by information, advice and demonstration. "There is no country," he avows, "better provided than Canada in this respect." Regarding manure, two important facts to be remembered are that where it is not at once utilized by being put into the soil, or on the soil, one third of its initial value is lost, and that the loss is least where the manure is kept compact and protected from rain.

Austrian and German prisoners of war have to be separated by solid barriers in the internment camps in France, as they show such a tendency to quarrel.

During the fighting near Baranowitsch 150 Bulgarians offered to surrender, but the Russians, regarding them as traitors, refused to spare them. It appears that owing to their knowledge of Russian, Bulgarians have been widely employed as spies on the Russian fronts.

PURITY FLOUR

More Bread and Better Bread

IN buying flour, it is some consolation to know that the responsibility for its success doesn't altogether rest with you. It is part of our policy to inspect and test each barrel of Horton Flour before it is shipped. In that way, we not only avoid complaints, but we ensure that the flour shall always be of the same uniform quality, and therefore always dependable. Since it costs no more for this kind of flour, why not at least give it a trial? We believe you'll like it. Nearly every grocer carries it and is glad to recommend Horton Flour.

FIELD CROPS IN CANADA

Ottawa, Sept 5. — A special press bulletin issued today by the Census and Statistics Office reports on the condition of field crops in Canada at the end of August, as summarized from telegrams received from the Dominion Experimental Farms and Stations in accordance with arrangements made between the Departments of Trade and Commerce and Agriculture.

Maritime Provinces—Prince Edward Island—All grain except wheat, which has suffered from blight and insects, will yield above average; roots, potatoes and vegetables most promising; fruit a light crop. Nova Scotia—Grain ripening rapidly and promising a good yield; hay gathered in excellent condition. At Kentville, roots suffered from dry weather; corn unusually good; at Amherst, roots and corn have made fair growth.

New Brunswick—August, with more heat and less rain than usual, has been very favorable for crops; oats partly harvested promise well; hay much above average; potatoes unfavorably affected by heat will not give average yield; roots growing well and corn the best crop for years.

Quebec—Drought has caused premature ripening of grain and reduction of yield; roots too have suffered and potatoes are poor. At Rimouski rains have benefited potatoes and vegetables; at Rimouski, rains have lessened the hay crop is the best in year.

Eastern Ontario—A heavy crop of hay has been gathered, and in some parts there were two cuttings. Roots have suffered from lack of rain. Grain is nearly all ripe, and is threshing out a light crop owing to drought; pastures are poor from the same cause; and potatoes are likely to be a poor crop.

Prairie Provinces: Manitoba—From Brandon it is reported that the Manitoba wheat crop is about half the normal yield and practically all low grades; oats and barley are an average crop. Cutting is practically all low grades; oats and barley are an average crop. Cutting is practically completed and threshing has begun. Fodder corn is a good crop; there is no injury from frost.

Saskatchewan—The weather during August has been unfavorable for grain, and damage to wheat by rust, reported from Indian Head, Maple Creek, Gull Lake, Eston, Prelate, Rosthern and Scott, reducing the yield and grade. Frost is reported from points in the Moosejaw, Saskatoon and Battleford districts. Threshing is beginning in the first week of September. At Scott in the Battleford district the harvest was delayed by cool weather and cutting has only just commenced, hailstorms did much injury early in the month. Late crops of wheat in low land were badly frozen on the 11th. Yields of wheat that has escaped frost and rust will be satisfactory.

Alberta—Munson: Cutting not general until first week in September. Some wheat crops show effects of frost on August 10. Carmangay: Crops good if they can be secured before frost, hood crops looking fine but are later than last year. Lethbridge, Harvest over a week later than last year. Cutting general; no damage to wheat from frost, no appreciable damage from rust. Lacombe: Three degrees of frost August 10 damaged much grain over area of 150 square miles. Certain localities immune harvesting of barley is general and wheat cutting has begun. A further ten days of good weather required to render safe crops that are so far uninjured.

British Columbia—Agassiz: An exceptionally bright fine month is reported, with excellent weather for grain harvest and for making a record crop of hay. Corn prospects have improved, and mangold crops are

TWO YEARS IN PRISON FOR SOLDIER

Private Charles K. Brooks, of the 193rd Battalion, was given the maximum punishment of two years in penitentiary in the Magistrates Court on Monday afternoon, by Stipendiary S. S. Strong, of the municipality of Kings, for absence without leave from his unit.

Brooks has been a persistent offender and has been a great source of trouble to the battalion officers. On the last occasion of his taking "French leave," he was apprehended at Quebec.

Apparently, Brooks is an old hand at the game. It developed during the course of his trial today that he has been a member of the 26th and 55th Battalions, and has continued his game of playing for discharge from the 193rd. He was, however, finally passed over to the

civil power. In the 26th and 55th, Brooks was known by the name of O'Rourke. It is stated that he also was a member of the 40th Battalion.

Australia has subscribed over \$15,000,000 to patriotic funds.

EXHIBITION AT HALIFAX

The Provincial Exhibition at Halifax has opened under favorable circumstances. The attendance on the opening day Wednesday was 2,483 and the fair is fully up to the average in quality and quantity of exhibits. When the exhibition is in full swing it will show a marked improvement over former years.

The attraction features are again prominent and lovers of horses especially will see some fine racing during the next week. Wednesday, Brage, owned by Boutillier, Halifax, won the 2.27 trot in straight heats with Bud Moore, Acker, Halifax, second. In the 2.20 trot See Me Go owned by F. W. Foster, Kingston won the race with Major Todd second.

Our farmers should spend a day or more at the fair and see what other farmers are producing and get a better idea of the various industries of the Province.

More Details of Action in Which Canadians Engaged

Ottawa, Sept. 13—The overnight casualty list furnished some of the details which have been lacking of the big battle on Friday last, in which the Canadians took an active part and sustained casualties in the neighborhood of eight hundred. In yesterday's rolls, thirty-five are reported dead, either killed in action or dying as a result of wounds. It is apparent from the lists that all branches—mounted rifles, infantry and artillery, took part in the fight which presumably, was in the Somme district and in the nature of an offensive.

Notice to Subscribers in Arrears

Claims for unpaid accounts are pressing us and it is necessary to raise a large sum of money at once. To pay our accounts promptly and save legal expenses, we must collect all our outstanding subscription and printing accounts.

All subscription accounts over two years in arrears will be handed over immediately to a magistrate for collection at the rate of \$1.50 per year and his costs. As several bills have been sent out and no notice taken of them by many who are in arrears we cannot add further postage to those accounts. To save the magistrate's letter and added cost remittances due for over two years should be mailed us this week, or a letter or card forwarded to us stating that some further time is required and when account can be paid in full. We will listen to any reasonable request for time where a distinct time for payment is promised.

The cost of producing our paper has about doubled the past two years and we cannot longer allow subscribers to remain in arrears.

You are undoubtedly aware of the difficulty in obtaining Penny Goods today from either the Manufacturers or Jobber. It is not so much what you want, as what you get and when you get it. We have it on good authority from some of the leading Manufacturers, that conditions are becoming worse instead of better.

Paying spot cash, we were fortunate in securing a large well assorted shipment of rapid sellers, from one of the leading Manufacturers of Penny goods, and while the stock lasts, will be glad to fill your orders in the rotation they are received.

Mail your order today, and we will send you an assortment that will sell rapidly.

Yours very truly,
SUPPLIES LIMITED.

P. S. We have a large stock of Plain and Fancy Biscuits, Confectionery, Cream Candy, Chocolates Cigars, Cigarettes, etc.

LOCAL NEWS

Messrs. Fred Urquhart and Harry Simmonds of Amherst have been spending the past week in town seeing old friends.

A big break in the sugar market has resulted in a decrease of 75 cents a barrel in the United States and 40 cents a barrel in Canada. This falling off, some of the dealers think, is only the beginning of a gradual more pronounced decline to come later. One dealer said that he considered the market very weak, and would not buy, despite the reduction. The outlook in Cuba for a good crop this year is exceptionally promising, and this is believed to be one of the chief factors in bringing about a reversal of prices. American competition is more keen in the sugar business and this is given as one of the reasons why the price there reached a lower level than on this side of the border. The Canadian refineries, fewer in number, have combined for their own good, and the competition that has helped to lower prices in America, has not been felt here with all dealers affiliated.

WAR LOAN DOMINION OF CANADA

Issue of \$100,000,000 5% Bonds Maturing 1st October, 1931.

PAYABLE AT PAR AT

OTTAWA, HALIFAX, ST. JOHN, CHARLOTTETOWN, MONTREAL, TORONTO, WINNIPEG,
REGINA, CALGARY, VICTORIA.

INTEREST PAYABLE HALF-YEARLY, 1st APRIL, 1st OCTOBER.

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

ISSUE PRICE 97½

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st APRIL, 1917.

THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above named Bonds for subscription at 97½, payable as follows:—

10 per cent on application;
30 " " 16th October, 1916;
30 " " 15th November, 1916;
27½ " " 15th December, 1916.

The total allotment of bonds of this issue will be limited to one hundred million dollars exclusive of the amount (if any) paid for by the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of October, 1916, or on any instalment due date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the October instalment.

Scrip certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as

to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons will be payable free of exchange at any branch in Canada of any chartered bank.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognized bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made in respect of applications bearing their stamp, provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

Subscription Lists will close on or before 23rd September, 1916.

DEPARTMENT OF FINANCE, OTTAWA, September 12th, 1916.

chance to look around. From what we can see here it looks just like a city only there is nothing but a soldier population.

We have huts here instead of tents, very comfortable, each one holding forty men. They are about fifty by sixteen feet, so you can see we have plenty of room. There are two rows of folding beds with a passage way between; with plenty of hooks on the walls and cross-beams to hang clothes and kit on. Also electric light, water and heat, quite different from what we have been used to.

I wish you would save some of the local papers, Acadians and Advertisers, and send them to me, even if there isn't much in them they'll look good over here. I don't like the English papers a bit; doesn't seem to be anything in them worth looking at.

The food they are giving us here is great. Good old oatmeal porridge for breakfast every morning is quite a treat for us. Really everything is fine; and while we are quarantined everything is carried right to the huts. We are living just like lords. Not a thing to do but eat and sleep.

Have seen several boys I used to know, lately. Expect to see R. Boates any day. I got Geo. Chase's address the other day, and as I am going up to London as soon as I get out, I will try to hunt him up. Well I must close now as news is rather scarce here.

Love,

LETTER FROM A HORTON BOY

Describes Life in Camp

Following is an interesting letter to Mrs. James MacRae Lower Wolfville from her son: Camp Borden, Aug. 3rd, '16.

My Dear Mother: Am in old England at last after a trip of nine days—eight on the water and one on land. We did not expect to be on the water so long were chased about some by submarines. However we managed to clear them all. It was very foggy all the way over, did not see anything from the time we left till we sighted Ireland. We had a great chance to see it as we sailed all around it. It certainly was beautiful. It looks like a big checker board as every bit of it is tilled, and a lot of grain is ripe, so there are all colors. The fields are all divided off by green hedges and stone walls.

There are thousands of rocky islands along the coast. Some of them are several hundred feet high with holes through the bottom large enough for a ship to sail through. They were the prettiest things I ever saw until I saw some parts of England which are too pretty to describe.

It sure is a land of beauty, all except our camp which is in a wild lonely place; and as we since we left the transport (3 days ago) it is hard to see any beauty in it. I don't think I was ever so hungry before, but I think we shall have something tonight; hope so anyhow.

Oxney Farm Camp, Aug. 9th, '16

I meant to get this letter written before, but have been very busy lately; tired, too, for that matter, as we have to turn out at four-thirty, and go to bed at nine-thirty, it does not leave much time for anything. We start drill at 7.30 and knock off at 5.30 which makes a long day. It is the same as we got in Canada only much more of it. Do not expect any news till we go to Bramshott likely some time this month.

I cannot realize that I am in England two thousand miles from home while around the camp; but as soon as you get outside things are very different. The houses are all brick and stone; and such roads I never dreamed of. They are as smooth as a table everywhere. If only we had them in our country it certainly would be the finest in the world.

The trains are very different

here from ours. I had a good laugh when I first saw them at Liverpool, our landing place. One train sometimes has thirty or forty small coaches. The doors are on the sides, one door to every seat. There were no aisles in the cars we came in, but they were all third class. I think the first class have a passage along one side. But, my! can't they travel! We made seventy-two miles an hour part of the way. Some going, believe me!

There was an air raid the night we landed here. In fact, there's one most every night, though they don't do much damage. We thought it very exciting at first, but are getting used to it now. We can see the search lights from London sweeping the sky every night though it is forty miles away. Can also hear the big guns firing at the airships very plainly.

The country for miles around here is one great camp. There are thousands and thousands of men. All you can see is soldiers, transports, guns and airships. There are dozens of airmen flying over the camp every day; some of them so high up they look like flies. One went over tonight at a height of twelve thousand feet. You could hardly see him yet the noise of the

motor was as plain as if it were right close.

There are lots of artillery around here; they practice every day. The noise sometimes is deafening. They fairly make the ground tremble when they open up.

Our food has improved a little since my last letter, though it is none too good yet. We still get stew for dinner made of old meat and potatoes, skins, mud and all. It makes a very tasty dish especially when it gets burnt a little which is pretty often.

Am having a great time learning the English money; got soaked pretty badly first but can count it very well now. We have to pay an awful price here for things. Anything we could get in Canada for a cent is a penny here. Tobacco that is made here in England costs us more than it did in Canada after all duties were paid. The English people call us the rich Canadians, and they certainly make us live up to the name.

Bramshott Camp, Aug. 22, '16

We have been at Bramshott about a week; have been quarantined with mumps ever since we arrived, so have not had any

THE TONIC THAT BRINGS HEALTH

"Fruit-a-tives" Builds Up The Whole System

Those who take "Fruit-a-tives" for the first time, are often astonished at the way it builds them up, and makes them feel better all over. They may be taking "Fruit-a-tives" for some specific disease, as Constipation, Indigestion, Chronic Headaches or Neuralgia, Kidney or Bladder Trouble, Rheumatism or Pain in the Back. And they find when "Fruit-a-tives" has cured the disease, that they feel better and stronger in every way. This is due to the wonderful tonic properties of these famous tablets, made from fruit juices. 50c, a box, 6 for \$2.50, trial size, 25c. A Lesson For Rulers

King Constantine has abdicated and Czar Ferdinand has fled to Vienna—not to return says the despatch. In the case of both these potentates the people had to be reckoned with in the last resort. The people of Greece are at enmity with the Bulgarians and Germans, and the people of Bulgaria do not like the Germans and Austrians. Both people favor the British and French. So Kings and Czars under Hohenzollern influence have been compelled to abdicate and to flee their country. The lessons to kings and czars is that they are not safe unless they are on the people's side.

BRITISH EXPEL THE BULGARIANS

London, Sept. 11—The British troops, in their advance across the Struma, in the region of Lake Tahnos, have driven the Bulgarians from four villages, says a war office statement on the operations in Macedonia, issued tonight. The British also repulsed strong Bulgarian counter-attacks. The announcement follows: "Our detachments crossed the Struma yesterday afternoon at Nechori and several places about Lake Tahnos.

"After considerable opposition we expelled the enemy from the following villages: Oraorman, east of Bajraktarmah, upper and lower Guedell and Nevolyen. The enemy counter-attacked strongly, but was repulsed with the loss of prisoners, the number of which has not yet been ascertained."

Rev. McLeod Harvey and Mrs. Harvey, of Washington, D. C., who have been visiting Mr. and Mrs. E. E. Archibald, Wolfville, and also Mrs. Harvey's sister, Mrs. Karl Hilton at Curleton, left on Wednesday evening via Boston for home and were accompanied by Mrs. E. E. Archibald, who will spend a few weeks with them. Yarmouth Telegram.

THE ROAD TO HEALTH

Lies Through Rich Blood and Strong Nerves

Debility is a word that fairly expresses many ailments under one name. Poor blood, weak nerves, impaired digestion, loss of flesh, no energy, no ambition, listless and indifferent. This condition is perhaps the penalty to overwork or the result of neglected health. You must regain your health or succumb entirely. There is just one absolutely sure way to new health—take Dr. Williams' Pink Pills. These pills will bring you new life, every vein with new, rich blood, restore elasticity to your step, the glow of health to wan cheeks. They will supply you with new energy and supply the vital forces of mind and body.

There is not a corner in Canada where Dr. Williams' Pink Pills have not brought health and hope and happiness to some weak debilitated person. If you have not used this medicine yourself ask your neighbors and they will tell you of some sufferer who has been restored to health and strength thru using Dr. Williams' Pink Pills. One who always has a good word to say for Dr. Williams' Pink Pills is Mrs. Luther Smith, of West Hill, Ont., who writes: "I feel it a duty as well as a pleasure to tell you what Dr. Williams' Pink Pills have done for me. I had an operation for tumors. The operation in itself was quite successful but I was so badly run down and anaemic that I did not gain strength; and the incision did not heal, and kept discharging for nearly a year, until I weighed only eighty-six pounds and could scarcely walk across the floor. I had got so sick of doctors' medicine that I would vomit when I tried to take it. A good friend urged me to try Dr. Williams' Pink Pills, so I bought a box. Before they were gone I thought I could feel a difference, and I got a further supply. By the time I had taken five boxes the wound ceased discharging and commenced to heal. I took in all thirteen boxes and am today enjoying the best of my life and weigh 140 pounds. I sincerely hope anyone suffering as I did will give Dr. Williams' Pink Pills a fair trial and I feel sure they will not be disappointed." You can get these pills from any medicine dealer or by mail at 50 cents a box or sixboxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE QUEBEC BRIDGE COLLAPSED.

Centre Span Went Down Carrying to Death About Ten Workmen.

Quebec, September 11—With everything running smoothly, engineers, bridgemen and spectators congratulating each other that within a very short time the St. Lawrence river would be spanned by one of the most magnificent bridges in the world the well-laid carefully thought-out plans of the foremost engineers of the country, on which they had placed their professional reputations, were suddenly ruthlessly thwarted, and the massive centre span, weighing 5,100 tons, swayed to one side, wavered for an instant, then diving end foremost, in an instant disappeared from view, leaving scarcely a ripple on the water, and carrying with it about fourteen men, ten of whom have yet to be accounted for.

Four or five men at work on the top of the span were hurled many feet into the river. The rest were carried down. The launches and tugs gathered below the bridge site came swiftly to the rescue, but only a few rescues could be effected.

The cause of the accident has not been officially stated. Of scores of spectators who described the terrible scene, the stories agree that the failure of one of the hydraulic jacks was responsible. The sideways strain brought too great stress on the span, and the steel gave way.

FRENCH MAKE GAINS

Capture Many Prisoners

Paris, Sept. 13 - North of the Somme, the French enlarged their positions opposite Combles, and stormed new trenches south of Priez, says the official statement issued by the war office tonight. After desperate attack the Germans recaptured a farm in L'Abbe Wood and Hill 76 But both were retaken by the French, who maintained all their gains on the centre and on the right. The total captures of yesterday and today were 2,300 prisoners, tea guns and forty machine guns.

FRENCH STRIKE SWIFT BLOW

London, September 12 - The French struck another swift blow north of the Somme today. Foch's troops, in a vigorous assault, battered at the German line from Combles to the river. Within half an hour they had won an entire first line of German trenches, taking more than 1,500 prisoners. The quickness of the French thrust took the enemy by surprise. Before the attack could be checked, the the Pollus had reached the road from Bethune to Peronne, where they carried by storm a system of trenches which had been strongly fortified.

By this stroke, Foch has attained positions from which Peronne can be outflanked from the north. The French grip in the Bethune-Peronne road is an immediate threat to Mont St Quentin, the very important height which is the key to Peronne itself.

Mrs. Hallett who has been residing at "Kelly Villa" Aylesford, has returned to her home in Brooklyn, N. Y.
