

THE ACADIAN

WOLFVILLE, N. S., MARCH 16, 1888

Germany.

On Friday last Emperor William of Germany passed peacefully to his rest at the advanced age of 91 years.

The Dominion.

Negotiations are about to be opened between the Dominion and Newfoundland Governments with a view of making Newfoundland a Province of the Dominion.

The Exhibition.

In view of the probability of the Dominion and Provincial exhibition being held in Halifax the present year, the executive committee met in Halifax on Tuesday last and their report recommends that the following committees be appointed:

Through Canada.

The entertainment given by Max O'Neil on Friday evening last in College Hall was undoubtedly far superior to anything of the kind ever before witnessed in Wolfville.

Registration.

In a former issue we referred to the matter of the registration of births, marriages and deaths as formerly recorded in this Province from 1864 to 1877 and discontinued at the latter date, since which time there has been no record kept of these important events.

Our Ottawa Letter.

OTTAWA, March 3d.—Another week of sessional work is over and this evening the lobbies, press-room, and in fact the house of commons, are comparatively quiet.

Perhaps you have heard of Mr. Jamieson, of North Hiding of Lanark, of course you have, and who has not amongst those who take a prominent part in the temperance movement.

In regard to the Scott Act a comparison can be made with the county of Middlesex and that of King's. During the twelve months just closed there were 114 persons charged with Scott Act violation in West Middlesex, of whom 52 were convicted, 63 being for first offences, in which the fines amounted to \$3,180, and 29 for second offences, with fines of \$2,900.

DEAR ACADIAN.—I've been trying for a long time to get a chance to write you a letter, but the fates have been against it. I have been watching your progress with a great deal of interest lately and must congratulate you upon the advancement you are making.

From The Capital. DEAR ACADIAN.—I've been trying for a long time to get a chance to write you a letter, but the fates have been against it.

Trusts, rings, and combines have been pretty well discussed during the week, but as you folks in Nova Scotia and more especially in King's, do not have such combinations to deal with, the matter is such that it will not be of any material interest for me to take up space or time to discuss.

On Thursday last most of the afternoon was wasted in discussing the matter of the brouce three of the French translators got from the hands of the Government for taking an active part in the last election against Government candidates, more especially Chapleau, Labelle, and Lves, all Conservative representatives from constituencies in Quebec province.

British Commissioners proposed to settle the fisheries difficulty on a commercial basis without making any conditions as to whether reciprocity in natural or manufactured products should be made the basis of the settlement.

Speaking of party, I understand that in King's Co. there is a revival going on; that backsliders are being reclaimed and that despised Liberals are being converted to the other and better side.

Much sympathy has been aroused over the drowning of Lieut. Valentine on Monday at St. Anns. He was a very popular young man among his comrades.

Yours &c. MCA. Halifax, March 9th, 1888.

National Division of America.

The Nova Scotia branch of the Dominion Temperance Alliance, the Western General Conference of Canada, and several other large representative and influential bodies have declared against the third party movement.

Some excitement was caused by the unearthing of the old, worn-out corpse of a scandal that happened years ago and which had been supposed to have been allowed to stay dead.

Yours &c. MCA. Halifax, March 9th, 1888.

Paddy Parkin Writes a Letter.

To the editor of the Wolfville part of the ACADIAN: Shure I havent been writing for your paper for a good spell ago and I wouidnt do it now shure if I did not think its me duty to take up me pen again.

DEAR ACADIAN.—I've been trying for a long time to get a chance to write you a letter, but the fates have been against it. I have been watching your progress with a great deal of interest lately and must congratulate you upon the advancement you are making.

BERWICK TIMES. NEWS, NOTES, JOTTINGS, ETC. ETC.

OUT FREIGHT FROM BERWICK.—The following is a summary of the freight forwarded from Berwick station for the railway year ending 30th of June, 1887.

Flour, 6,400lb; all other merchandise, 339,350lb; 13334 barrels of apples, weighing 2,750,100lb; 6000b coal; 1,289,750lb lumber of all kinds; 14 cords wood, weighing 40,000lb; 5 horses; 185 cattle; 743 sheep, and pigs.

The quantity of apples for each month is July, none; Aug., 328 bbls.; Sept., 3,346; Oct., 4,203; Nov., 7,541; Dec., 1,831; Jan., 327; Feb., 330; March, 357; April, 187; May, 22; June, 10.

The total weight of the freight, excluding the live stock, is five million, four hundred and seventy-three thousand, five hundred and four pounds, and including the live stock would load 292 cars of ten tons each, or nearly a car a day.

These figures, compiled from the station agent's books, show that Berwick is one of the most stirring business centres on the whole line of railway from Richmond to Annapolis.

In the item of merchandise is included the productions of our several manufacturing industries, and we venture the assertion, in this respect, there are few, if any, stations on the road that send out more from their own surrounding resources, and yet everything moves on in a very quiet way.

In our central position, surrounded by fertile farms, orchards and small fruits, with pure water and a healthy atmosphere, and money pouring in to the savings bank by thousands of dollars, our outward freight might be four-fold what it is.

Our home industries are not one quarter developed. There is ample room for canning and evaporating factories.

In the manufacture of leather, boots and shoes, our small tannery and shoe shops ought to be developed into large and well-paying corporations.

In this we may take lessons from the neighboring New England States; there in almost every small village are factories of some kind, which make them like busy beehives of industry.

107 YEARS OLD.—Died at Berwick, March 9th, Mr Elizabeth Taylor, aged 107 years, 6 months and 9 days.

She retained her mental faculties with remarkable vigor nearly to her closing hours. Seven years ago she commemorated the anniversary of her loath birthday with a printed original poem, which was a remarkable epitome of her life, faith and Christian resignation.

Her great-grandmother died at the age of 106 years; her grandmother, her mother and her sister all died at the age of 96 years; her brother, the late Benjamin Foster, the father of our post master, was over 100 years old at his death; her brother, Philip, yet living, is about 89.

At the time of her birth the U. S. were in the heat of the revolutionary war, and when by the treaty of Paris they were made independent, she was three years old; when Washington died, she was 24 when Napoleon died; and was in her 11th year when John Wesley died.

She was a good woman, and her relatives, together with the whole community, ought to esteem it a privilege to mark her resting place in the Berwick cemetery with a suitable and substantial monument.

At her funeral the Rev. Dr Saunders read her verses, and ventured to make the assertion that the last 1800 years could not furnish a parallel case.

MAX O'NEIL exhibited his journey from Europe to Asia through Canada two evenings in the Baptist meeting-house in Berwick, and the entertainments were much enjoyed by all who had brains to appreciate the true, the beautiful and the good.

Under his powerful stereoscopic, not imaginary sketches but transparent photographs of the beautiful and grand along the route of travel were presented in all their naturalness and awe-inspiring sublimity.

The entertainments were chaste, instructive and thoroughly patriotic, and calculated to impress the beholder with the vastness, grandeur and rapid development of our country.

Max O'Neil, or rather Mr Armstrong, for we have learned that O'Neil is only an assumed name, in his summer routes makes his own views, and we wish him much success in getting pictures of picturesque Nova Scotia.

The free show of the Canadian Pacific Railway Co. was visited by a large number of men, women and children from all the surrounding county last Saturday and Monday.

The exhibition has been travelling seven months, and necessarily wears a little rusty. It will require two months more to complete its programme.

DR SAUNDERS IN BERWICK.—Dr Saunders spoke in the Baptist pulpit last Saturday morning in the interests of the Acadia University Jubilee Fund, and for an hour held the wrapt attention of his large and intelligent audience, while in a marvellous picture of the origin and development of the Baptists of the Maritime Provinces and of their educational institution at Wolfville.

In reviewing the interest which this section of country has taken in the educational welfare of the people, he paid an exalted and well-merited tribute to the late Rev. William Somerville and Rev. William Chipman.

Dr Saunders is the right man in the right place, and we hope his enthusiasm will kindle and inspire the friends of Acadia to make the approaching jubilee the grandest thing in the whole history of the people he represents.

Arthur Hart, a graduate of Guelph Agricultural College, has under his care at Berwick a Jersey heifer calf not yet 10 months old, sired by Albert of Furshade, Canadian register 12,270.

Daisy, the dam, a splendid creature in her fourth year, was sired by a Jersey grade on the Churchill Farm, in Hants Co. The calf stands now four feet one inch, six feet from poll to pin bones, and girls five feet.

We are pleased to see our young men qualifying themselves for advanced work in the most healthy, independent, and at the same time very honorable calling of the agriculturist.

Mr Hart is a son of the Rev. T. D. Hart, and we hope he may find sufficient inducements to keep him in our own fine agricultural country.

Mrs (Dr) Marsters celebrated her sixty-first birthday and made merry with her friends last Saturday.

The Baptist church in Berwick will build a vestry in the rear of the meeting house this summer.

CHRIST CHURCH (Anglican).—Service next Sunday afternoon at 3 o'clock. Rev. T. R. WILLIAMS, Incumbent.

What They Say.

We clip the following from two of our newest, brightest and best contemporaries:

The Wolfville ACADIAN has enlarged its name as well as its borders by taking a Berwick under its fostering care, and now spreads its "white wings" to the public under the title of THE ACADIAN AND BERWICK TIMES.

The Berwick department is to be edited by the Rev. D. O. Parker, who does the work gratuitously in the interests of his native village.

He is evidently a man of the right stamp. We have a leaning toward the name, anyway, for it is a good one, and stands for some of the best and warmest friends we have left behind in New Brunswick.

We wish the Berwick Times every success. It is seldom one hears of a paper run exclusively by a quartette of brothers, and yet such is the makeup of our contemporary's staff from the editor down to the "devil," who is as useful in his department as is the quill driver who writes the editorials, boils down the news, grasps the lever of the hand press with as much importance as the driver of a locomotive does the lever of his iron horse.

He handles his "shootin'-stick" without endangering the lives of those in his immediate vicinity. Go ahead, brethren, and though you may meet a "bug" occasionally who wants to own the earth, and would like to banish into exile others of the craft who may be in his immediate vicinity, good honest "bugs" will tell in the journalistic journey.—Hants Journal.

ENTERPRISING.—The Wolfville ACADIAN has grown in a few years from a small amateur sheet to a live county paper.

When we consider that its young proprietors started out without the least practical knowledge of the business and succeeded in building up a paper in a village where at least two others with experience had failed, it shows some pluck and enterprise.

The ACADIAN is the best printed paper in the province to-day. It has just entered on a new venture, and will be known in the future as THE ACADIAN AND BERWICK TIMES.

The Berwick department will be conducted by Rev. D. O. Parker.—Windsor Tribune.

A LETTER FROM QUEBEC. (Translated from the French.)

GENTLEMEN.—I have deferred writing the letter to testify to the benefits derived from the use of your SIMON'S LINIMENT. It has done wonders among all the people who have used it about here.

I can certify, that in every case where I have used it upon myself, I have been very well satisfied.

Mr N. Mooney of St Sylvester, had a bad leg which was said to be incurable. I told him to use Simon's Liniment, and it has effected a complete cure in a very short time.

His neighbor Mr John Devlin having received a serious cut on his leg, Mr Mooney took him the Liniment, and having used it, found himself completely cured.

I have been assured of the cures of these people, and the remedy having become known, it has created quite a demand, people coming as far as 35 miles to procure it for themselves.

Mr Wm. Bennett of St Ferdinand has had it some time for himself and he has since bought it for his friends, who suffer from Rheumatism, and they have all been well satisfied.

I have never known any medicine to have had such good results about here as Simon's Liniment. Hoping that it will prove as satisfactory elsewhere,

I am yours truly, DAMASE PARRON, St. Sylvester, Quebec, 27th Dec., 1887.
