THE LAND CRANT

OF THE

CANADIAN PACIFIC RAILWAY

Consists of the finest Wheat Meadow and Grazing Lands in Manitoba and the North West Territories.

Lands at very low prices within easy distance of the Railway, particularly adapted for Mixed Farming -stock mising, dairy produce, &c. Land can be pur-chased,

With or Without Cultivation Conditions,

At the option of the purchaser. Prices range from \$2.50 per acre upwards, with conditions requiring cultivation, and without enlivation or settlement conditions at liberal figures, based upon careful inspection by the Company's Land Examiners.

When the sale is made subject to cultivation A REBATE of one-half of the purchase price is allowed on the quantity cultivated.

tity cultivated.

TERMS OF PAYMENT:

Payments may be made in full at time of purchase rayments may be made in this with interest. Land Grant Bonds can be had from the Bank of Montral or any of its agencies, and will be accepted at 10 per cent. premium on their par value and accrued interest in payment for lands.

Pamphleta, Maps, Guide Books, &c., can be obtained from the undersigned, and also from John H. McTavish, Land Commissioner, Winnipog, to whom all applications as to prices, conditions of sale, description of lands, &c., should be addressed.

Commercial Summary.

MS In order to avoid possible misunderstandings, advertisers and subscribers of the JOURNAL OF COMMERCE should invariably make remittances to head-quarters, this city.

All remittances of subscriptions are acknowledged by change of date on address label.

S. C. D. ROPER, for some time carrying on a small discount business at Bracebridge, Ont., has assigned to E. R. C. Clarkson of Toronto.

THE Ontario Brass Co., of London, Ont., has been merged in the new firm of Essex & Bailey in a similar line of business.

A BRANCH of the basket manufactory of J. D. Sill & Co., Toronto, has been established at Windsor, Ont.

THE London Advertiser says:—A car load of furniture was shipped last week for Portage la Prairie, to go via the C. P. R.

INCORPORATION has been applied for by the "Henderson Lumber Company," headquarters at Montreal; capital of \$100,000, in shares of \$100 each.

THE dividends declared by the Guardian Assurance Co. of London on its paid-up capital stock of \$5,000,000 are 9 per cent, this year, or \$450,000.

St. Johns, P.Q., is to have a paid fire departed ment of ten men. They will act as the nucleus to a volunteer corps which will be recompensed when their services are required.

C. PEVERLEY OFFICE: 1782 NOTRE DAME ST., MONTREAL

A PROPOSITION to reduce commissions on Stock Exchange transactions at the Local Board from 1 to 1 per cent has been voted down.

JAS. C. Morrison, keeping a small hotel at Digby, N.S., is reported to be in difficulties. A man in Yarmouth has had a bill of sale for about \$400 on his furniture, etc.

THE Equitable Life is making remarkable progress; the business in a single day has considerably exceeded a million dollars of late, or at the rate of more than one hundred thousand dollars an hour.

HENRI GERMAIN a storekeeper and pedlar of St. Anne de la Perade, Que., is reported in difficulties and the hands of an assignce. His clerk managed the store while he travelled. Liabilities and assets small.

THE troubles of P. St. Louis, painter, this city, recently assigned, are attributed to taking work at too low prices .- A local confectioner in a small way, named T. H. O'Neil, has assigned to Mr A. M. Perkins.

THE total imports into the Dominion for home consumption during April was \$7,884,-225, an increase over April, 1884, of \$590,055. The exports for the same month was \$3,238,569, also showing an increase over the previous April of \$273,631.

THE prospects for a bountiful harvest were never more assuring, and this notwithstanding the rather backward season in the west, Vegetation in Montreal and surrounding districts is quite as far advanced this year as in western Ontario.

THE annual report of the New York Cotton Exchange shows that the depression in trade has materially affected cotton speculation. Transactions in cotton for future delivery in Leading Wholesale Trade of Montreal,

525 St. Paul Street, MONTREAL.

1885 were 462,000 bales; 1884, 24,826,000 bales; 1883, 25,907,000 bales.

Mn. R. W. Gale, of this city, Canadian manager of Equitable Life Assurance Society, has returned from an extended visit to the "sunny south," including the New Orleans Exposition and a sojourn at the headquarters of the company in New York.

A PROJECT is on foot at Wells, Me., to start a rabbit ranch, where those toothsome animals are to be raised for the Boston market. The ranch is to consist of 200 acres of land, and the idea is to stock it at first with one or two thousand large-sized animals from the West.

J. F. BYRNE has not been successful with his gas machines in Toronto, and has assigned. At the beginning of the year he claimed to be worth a surplus of a couple of thousand dollars, his stock being valued at \$6,000 and his liabilities upwards of \$4,000.

THE Stratford Beacon says :- The timber trade is booming just now. Several trains are working on the G. B. & L. E., and on the main line between Craigs and Parkhill. Most of the timber goes either to Toronto or direct to Point Levis.

MR. C. W. PEARCE, the English general manager of the Glasgow & London Insurance Company is at present in the city, and staying at the Windsor. We understand that while in this country Mr. Pearce intends visiting the principal cities of the United States.

By the new Act passed by the Manitoba Legislature no execution can be enforced unless the debtor is in possession of property, real and personal, over \$2,500, and then only on the property in excess of that amount, Judgment summons are abolished.

Sin A. T. Galt is about leaving for the North-West. He says a railway to connect Dunmore, on the Canadian Pacific, with Lethbridge, will be completed by the early part of August, and he expects his coal company after that to supply the Northwest.

WOODSTOCK, Ont., boasts that before many days it will enjoy postal accommodation second to no other town in Canada. The building, which is centrally located, stands on the corner of Dundas and Perry streets. Its dimensions are 75 feet in depth by 25 feet in width. It is four storeys in height, with a conspicuous tower.

WINNIPEG City Council believes in high license. It has fixed the rate for hotels at \$200; saloons, \$400; groceries, \$250; wholesale stores \$250. An attempt was made to increase the hotel and saloon licenses by \$50 each, but the motion was voted down.

G. W. AYER & Co.'s grist mill at Magog, P.Q., is rapidly approaching completion.-A report has been current at London, Ont., that wood will be no longer burned on the G.T.R. or any of its branches and that the wood train will be taken off and all the hands employed discharged.

For Nova Scotia apples the London market has been brisk recently. Nearly 2,500 barrels are reported by Keeling & Hunt as having been disposed of to April 28th, at prices ranging from 18s for Nonpareil to 14s, and other qualiies in proportion. The names on the auction list for the large lot mentioned seem to be chiefly those of Annapolis county packers. Our farmers would do well to cultivate more of this kind of fruit. They are so near Halifax that they could ship at any time to suit the markets in England. And they can bide their

time, as April is one of the best months.—

S. C. Eas, of Berlin, Ont., dealer in a small way in fancy goods, has assigned.—John Latimer, general store, Durham, Ont., who recently assigned, has been a mewhat of a rolling-stone. He moved from Strathroy to Priceville, and thence to Durham about a year ago, and has been endeavoring again to sell out and move to some larger town.

A sunsamen in Kingston writes: "Every retailer in Canada—every dealer in dry goods, groceries, crockery, drugs, etc.,—must thank the Journal of Commence for its persistent exposure of the co-operative system of store-keeping which was a worthy successor to the granger stores of a few years ago, and which it also lent its powerful aid to put down."

A LONDON, Ont., painter named Albert R. Galpin has been carrying on a saloon in his wife's name there for some time, but with no more success than at his former trade. An assignment has been made. And yet the Scott Act has not prevailed in London.—J. Willis, shoe dealer, Hamilton, has been sold out by the bailiff.

We understand, says that the St. Johns News, that the Corriveau Silk Manufacturing Co., of Montreal, are likely to establish their works in the opposite town of Iberville. The concern wanted to locate in St. Johns, but could vet no assistance here, so crossed the river and opened negotiations. They asked for a bonus of \$15,000, and have been offered \$10,000.

A company is being organized to put a steamboat on the St. Maurice River to run from the

terminus of the Piles Railway, a branch of the North Shore, up the river to the Falls of La Tuque, a distance of seventy miles. This will help to open up the country, which abounds with lakes and streams filled with game and fish.

RETURNS show that up to the 1st of July, 1867, \$7,416,019 was spent on the Welland Canal and \$7,431,208 on St. Lawrence canals. Since Confederation there has been spent on the Welland canal \$13,094,322 and on St. Lawrence canals \$6,785,003. The cost of maintenance and repairs on Welland Canal since Confederation is \$2,051,745, while the total revenue was \$3,548,008.

It is said that a railroad about fifteen miles long is to be built from St. Johns, westward to connect with the Canada Atlantic railway. This has long been contemplated and is a consummation devoutly to be wished. The next thing we want is connection with the C. P. R. via the proposed new bridge across the St. Lawrence just above Montreal. St. Johns

The twelfth annual meeting of the Dominion Type Founding Co. was held 26th inst., and a dividend of 5 per cent declared for the past six months, which, together with the 5 per cent paid last November, make a dividend of 10 per cent for the year. At a subsequent meeting of the board of Directors Mr. Alex. Murray was reelected president, Mr. R. G. Stark vice-president, and Mr. P. A. Crossby manager.

pockets." The pockets of vest and coat where money, watch or other valuables are usually carried are prepared on one side, under the lining, with a flexible, thin, narrow piece of wood or whalebone which renders it next to impossible for pick-pockets to remove the contents.

An Irish exchange says:—In anticipation of the increase in the whiskey duty, one firm of Dublin distillers, it is stated, paid duty recently to the extent of £60,040 upon their bonded goods, and private firms who had stores at the custom house made large provisions also for emergencies. The amount of duty paid on tobacco in Dublin in one day as a precantion against the budget exceeded £50,000.

The population of Paris, Ont., is now 3,316. The Canadian Pacific authorities are making a fine yard for the shipment of live stock on their Galt station grounds.—The will of the late John Faulkner, of Toronto, who died on the streets suddenly several days ago, proved in the Surrogate Court real and personal estate valued at about \$100,000, which Faulkner made by peddling in York and Peel counties.

Since the tariff resolution against the importation of prison-made goods into Canada came into force, several seizures of the prohibited goods have been made at various points. It has been shown, to the Government's satisfaction, that the goods seized were purchased prior to the law coming into operation, and in those instances re-exportation has been permitted. In future all such goods coming into Canada will be confiscated.

PAPER manufacturers in the United States are reported to be anticipating a demand for

heavier grades of paper and envelopes when the new arrangement, increasing single letter postage weight, goes into effect, July 1. On and after that date one ounce letters can be sent for the same cost as half ounce letters now. This will naturally lead many people to indulge their taste for heavier stationery, as there will be no increase of postage bills resulting.

THE bottom notch in lake grain freights, says the Chicago Tribune of a recent date was reached when the propeller "Buffalo", accepted 28,000 bushels of corn for Buffalo at 11 cents. A number of boats are lying empty at their docks, with but poor prospects of obtaining loads. There was at least 1,000,000 bushels of freight room on the market, but there were no orders in the hands of shippers. It is doubtful if a full cargo could have been. procured for ballast. Rates are lower now than ever before.

A REPORT of the Boston India rubber market says :- Manufacturers are buying for present requirements and there are moderate sales of fine Para at 65c. Prices are steady and strong,

BEUTHNER BROTHERS,

and as stocks are nearly all in second hands, there is a general disposition to push quotations upward, and fine Para is said to be pegged for 70 next July and August." Two vessels are on the way here from Para, with a total of 350 tons, a considerable portion of which has been sold to arrive.

SALT wells are being sunk at several places in Michigan, and under a brisk competition prices are steadily weakening, the present price of fine salt being unusually low. It is stated that the Stronach Lumber Company's salt well, near Manistee, Mich., Jields brine of 85 per cent. strength, and is growing stronger. The block will turn out 400 bbls. a day. Brine was struck in Magill & Co.'s well, at Manistee, at a depth of 1,940 feet, showing a strength of 75 per cent. It was thought that the drill would strike the salt rock at a depth of 2,000 feet.

Ir is to be hoped that the new want of total harmony between some of the directors and the manager of a local company will not result as did the differences of last year. It may be possible to conduct even a life insur-

ance company without any directors at all, ance company without any directors at all, but the popular feeling is decidedly in favor of these counsellors, and their influence, especially when wielded by practical and successful business men, may operate on occasion to prevent the idiosyncrasics of a dyspeptic from making ducks and drakes of the property of future widows, and orphans future widows and orphans.

MR. THOS. STEVENSON, assignce, of Sievenson & Graham. the firm which some 2 years since obtained from the town of Orangeville a bonus or loan of \$6,000 for 6 years, without interest, has himself purchased the factory from the corporation for \$3,500. He pays \$2,000 in each and \$500 per annum with interest on the deferred payments. When the late firm secured the loan the property, consisting of real estate and machinery, was valued by an expert as worth over \$13,000. It was thought safe at the time on this security to advance \$6,000, and, in consideration of the hands to be employed, to exempt them from taxation. This venture of the town has resulted as above described, and we fancy that bonuses have got the quietus for the future in Orangeville. The purchaser, Mr. Stevenson, owned a portion of the building, and purchased with a view not of carrying on the factory, but of renting the whole to some practical manufactu rer. At the figure which it cost him, and he gave more than was otherwise offered, it ought eventually to become a good investment.

REMEMBER:

16 & 18 James St. North,

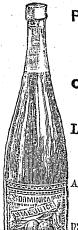

HAMILTON, Ont.

THE seizure by the authorities of goods shipped by one Ayer, a patent medicine manufac-turer of Lowell, Mass, is the latest reported customs event. It appears there was an under-raluation about 60 per cent, and mis-descrip-tion of goods to evade duty, and the amount of valuation of the goods was said to be a total of about ten thousand dollars, but it is, rumored that the figures will reach nearly eighty thousand dollars, divided about as follows: Halifax, \$35,000; St. John, N.B., \$12,000; Toronto, \$10,000; Hamilton, \$12,000; London \$10,000. There were also some fixtures seized at St. Johns, Que., amounting to about \$3,000.

FRED. MURPHY has conducted a dairy in the vicinity of Hamilton for some few years past with what was supposed to be tolerable success, supplying the citizens with milk from a large herd of cows, but his enterprise led him into making too many improvements which kept him always hard-pressed for money, and he has at length been compelled to assign. Mr. Murphy is a gentleman of some acquirements and was supposed to be in a fair way to recover the business standing formerly enjoyed by his

THE one or two persons who obstinately complain of occasional discomfort from the smoke of large factories in the west end of the smoke of large factories in the west end of the city would have far more to grumble about were firms such as Pillow, Hersey & Co., and others to remove their works, which would result in sending down the value of all property in the neighborhood. Instead of harassing them, the citizens should rather tender them a bonus. Such complainants should visit Pittburg, Cincinnati, Chicago, and other great manufacturing centres which are content to bear a still greater discomfort from smoke, because much of their prosperity is due to the great industries which cannot run without the great industries which cannot run without the fuel that produces it. It is to be hoped the city authorities will be governed in their wisdom by the greatest good to the greatest number.

FINANCE AND INSURANCE REVIEW.

MONTREAL, MAY 29, 1885.

THE QUARTERLY ON THE COLONIES.

It cannot be uninteresting at a time when a portion of our people have evinced a desire for an organic change in our constitution to learn the views of one of the leading organs of the great Conservative party of the United Kingdom. The April number of the London Quarterly Review contains a long article on "England and her Colonies," which, as might be anticipated, is strongly adverse to the disintegration of the Empire, as we believe are the masses of the people as well in the United Kingdom as in the Colonies. The commercial branch of the question is treated at considerable length, and the conclusion arrived at we shall give in the writer's own words: "Every "year that passes over our heads renders

"the Colonies more and more protec-"tionist in their tendencies, and natur-" ally inclines them to enter into com-"mercial alliances with protectionist "countries. Thus there have been many "projects mooted in Canada for new " treaties with the United States, but at " present the Act of Confederation pre-" sents an impediment : no treaties may " be entered into with a foreign power "except such as exist between the " Mother Country and that power." The statement as to the treaties is not strictly accurate. After a full discussion of the question the conclusion arrived at is, "Thus we are driven to the conclusion " that the probability of England joining "her colonies in a commercial union is "very slight. We have our own ideas " about the proper way of carrying on a "nation's business and the colonists " have theirs, and the two ideas are irre-" concileable. So much is clear." Referring to the chief promoter of federation, Mr. Forster, it is said: "Mr. Forster, "as we have intimated, can find the " basis of commercial union only in the " general adoption of free trade or a near "approach to it, and there he and the " colonists are wide as the poles asunder." Strange as it may seem, among the promoters of the Federation League in Montreal are Protectionists and Free traders, all imagining that their particular views will be advanced by the yet unknown scheme. The question of defence is thus put in the Quarterly as described by Mr. Forster, the leader of the movement: "Let us only keep in mind what we want, "namely, an organization for common de-" fence and an official acknowledgment " of the right of the colonies to have a "voice in the determination of foreign "policy, especially when such policy "directly affects their feelings or inter-" ests." The writer, after thus stating Mr. Forster's object in his own words, proceeds: "This aim can be accomplished. "he thinks, by means of a federal con-"gress or council such as Lord Grey " had recommended in an article which "he published in 1879. The agents of " the colonies in this country were to be " made members of the Privy Council, " and also of a committee on colonial " affairs." Such suggestions have been much discussed, but in the opinion of the writer "they appear to us to be a good " deal in the air." The great obstacle to union is that Great Britain is compelled by her position as one of the great European nations to maintain a large standing army, and is, moreover, liable at any moment to be involved in war, in defence of her dependencies in Europe, Asia and

Africa. Lord Grey's scheme is at least a harmless one, although the questions in which Canada has any interest are very few indeed; except that relating to the fisheries, we know of none. The less we have to do with commercial treaties the better. All we can claim, we have it in our power to get, which is the admission of our exports to the markets of the world on the same terms as other nations.

DOMINION FINANCES.

We can hardly doubt that considerable anxiety must be felt by the commercial community in regard to the requirements of the Government to meet the increased expenditure, which has been rendered necessary. The Franchise Bill has taken much more time than was expected, and has taught the Government how little reliance can be placed on a hostile Opposition. It may be feared that the Pacific Railway question will likewise occupy a good deal of time, and yet when it has been disposed of, the question of further taxation will have to be seriously considered, and by that time we are inclined to think that there will be little inclination on the part of any one to prolong the session: As the arrival of the Minister of Finance in London has been announced, we may hope to learn before many days that arrangements have been made for placing the new loan in the market. Fortunately the unconditional surrender of Poundmaker renders it almost certain that in a very short time the Indian revolt will have been completely sunpressed. This it may be hoped will produce a favorable effect on the mar-

How far the sedulous efforts of the Opposition to damage the public credit may be successful it is premature to speculate on, but it may be hoped that the scrupulous fidelity to its monetary engagements, which has been observed during a long period of years will not be without its effect at the present crisis. We cannot, however, but think it unfortunate that there should be any delay on the part of the House of Commons in dealing with the existing exigency, by not only voting adequate supplies, but by raising sufficient additional revenue by new taxes to inspire increased confidence. There ought, moreover, to be a clear declaration that no experiments will be tried in the direction of West Indian reciprocity. It has been announced that a delegation has been appointed to visit Canada, and has already reached New York, the object being to obtain free admission of sugars, which yield a very considerable portion of our revenue. We confess that we think it a fortunate circumstance that the existing necessities render the sacrifi of our sugar duties impossible. It is unfortunate that there will be almost necessarily a good deal of speculation as to the articles on which the new duties will be imposed.

THE PROTECTION OF THE NORTH-WEST.

We can hardly believe that there will be a second opinion as to the necessity which exists of making adequate provision for the defence of the settlers in the North-west territories of the Dominion. The volunteers have rendered good service, and merit the gratitude of their countrymen; but it seems absolutely necessary that a permanent force should be stationed in the vicinity of the Indian Reserves. There can be no better force for the purpose than a police or constable. lary, but it is well worthy of consideration whether it may not be found possible to provide for such emergencies as that which has lately occurred. There is a simple mode by which a very considerable extra supply of men could be procured at short notice in cases of emergency. If a Dominion constabulary were organized, and if the cities and counties which habitually employ police would agree to employ that constabulary instead of the men now in their service, the aggregate would make a considerable addition to the force, and even when increased it will not be at all too large. Of course the men now in the police of the various cities could become members of the Dominion constabulary. The object to be attained is to have a large force of disciplined men, a proportion being required to spend a certain time each year at a central station where they would be drilled and placed under military discipline. While on service as police their cost would be chargeable to the city or county employing them; while on duty elsewhere the Dominion treasury would have to bear the cost. When the services of the whole force were required, the various cities would have to obtain extra hands. Such emergencies as the Government has recently had to deal with will not, it may be hoped, often occur, but it would be most desirable that there should be a large disciplined force scattered throughout the Dominion, and available on short notice in case of necessity. It may be well to remind our readers that the force suggested is one analogous to

the Irish Constabulary, which has been on many occasions employed as a local police at the cost of the community requiring their services.

IMPERIAL FEDERATION.

In the absence of any proposition from the Government or Parliament of the United Kingdom for a change in its subsisting relations with the self-governing colonies a number of crude schemes are being put forward by individuals which are calculated to disturb the public mind and to create an impression, a most injurious one for any country, that there is serious danger that important constitutional changes are imminent. We cannot allow ourselves to believe that the gentlemen who appear as the leaders of the movement in Canada have given serious thought to the difficulties in the way of any more extensive change than the very harmless one suggested by Earl Grey, and adopted we believe by Mr. Forster, of giving increased weight to the representatives of the various colonies in London by forming them into a Council to consult from time to time with the representatives of the Imperial Government on subjects of common interest. We have expressed our belief that such a change would be harmless, but we are bound to add that we are unable to discover that it would be of any practical utility.

The Canadian High Commissioner is at present fully accredited to Her Majesty's Government, and has not only ample opportunity to urge on its attention any point of importance that may require the action of either or both of those Governments, but can also obtain the assistance of the representatives of the Imperial Government, in any negotiation with Foreign Governments not inconsistent with the general policy of the Empire. It may be doubted how far the Canadian High Commissioner could render useful service either to Canada or to the Empire by taking part in discussions regarding the local affairs of South Africa or Australasia. Our want of faith in the proposed Colonial Council is grounded on our belief that as regards the local affairs of the various groups of colonies there is no object whatever in bringing the colonial agents or commissioners into consultation together, white, as regards the general policy of the Empire, which would not only include the great Indian Empire, but also the Crown Colonies and those groups like the West Indies, which, for obvious reasons, have not been entrusted with the power of self-govern-

ment, there are insurmountable difficulties in the way of any common action between the United Kingdom and the colonies.

It is most unfortunate that it has become necessary to discuss a vitally important subject without sufficient data for our guidance. What the Federationists in the United Kingdom have propounded as the objects of their league may be gathered from their resolutions : the first was to form "an Imperial Federation League; " the second is a declaration that the object is " to secure by federation the permanent unity of the Empire;" the third: "Ithat no scheme of Federation should interfere with the existing rights of local Parliaments as regards local affairs; the fourth, which is clearly the declaration of the main object: "that any "scheme of Imperial Federation should "combine on an equitable basis the re-"sources of the Empire for the mainten-" ance of common interests and adequate-"ly provide for an organized defence of "common rights." An invitation is given to Colonists " who accept the principles "of the League" to become members. Now we have recently had a meeting in Montreal, where some speeches were delivered, and we have still more recently seen a letter from Mr. Arch. McGoun, jun., who has likewise published a pamphlet on the subject. Mr. McGoun, who is one of the most prominent federationists, states, with reference to the estimated cost for Imperial defence: "I did not "advocate the assumption of such a bur-"den by Canada if unaccompanied by "changes in England's commercial policy "which I indicated and of which Canada "was to receive the benefit."

Mr. McGoun's estimate was \$14,000,000, which, for the sake of the present argument, we are willing to assume to be correct. Mr. McGoun in his letter to the Herald states: " I repeat, however, the "assertion that, apart from the national "aspect, even \$14,000,000 would be a "small price for Canada to pay for the "realization of perfectly free and recipro-"cal trade with England, with the United "States and all the other countries of "the world on the one hand or for a com-"plete monopoly of the English market "for all she can produce on the other. Now Mr. McGoun is, we believe, one of the secretaries of the Montreal Association, and we would put it to Principal Grant and to the other gentlemen who have taken part in the ... movement whether they think it consistent with propriety that such delusive expectations should be held out to the Canadian people by one of the principal members of their League.

In the resolutions adopted in London there is no reference whatever to commercial policy, and as the Dominion Parliament enjoys at present "an existing right" to regulate its own tariff it is obvious that such sanguine Federationists as Mr. McGoun proposes an entirely different scheme from that of the English League.

We would further invite the attention of the Canadian promoters of Federation to Mr. McGoun's statement that he thinks it "probable of attainment" that "Eng-"land should discriminate in favor of "Canada and the other colonies and free " trade countries by the imposition of a " small duty on foreign breadstuffs and " manufactures, as has been advocated " by Lord Dunraven and well worked out " by Mr. Farrer Eckroyd, M.P." Can it be possible that such gentlemen as Principal Grant and the learned Professors of McGill University are of opinion that an English Parliament could be induced to place a duty on the food of the people? If not, ought they to allow a leading member of their new association to endeavor to obtain members by using such arguments as those employed by Mr. McGoun? Our conviction is that the chairman of the League, Mr. Forster, M.P., would never consent for a moment to entertain such a scheme as that enunciated by Mr. McGoun. The truth is that there is no concurrence of opinion between the promoters of this wild and impracticable scheme of federation.

Principal Grant expressed himself as favorable to some contribution being made by the colonies for the support of the navy, but we must remind the learned Principal and his associates that they cannot limit the contribution to the support of the navy. They cannot become members of the Imperial League without subscribing to the condition of undertaking to bear a fair share in the maintenance of common interests, and to provide adequately for an organized defence of common rights. Moreover, Mr. McGoun cannot attach as a condition to his membership that it must be accompanied by changes in the commercial policy of the United Kingdom. Believing, as we do, that there is not the slightest ground for apprehending disintegration of the Empire, we look on the agitation of the question of Imperial Federation as most unfortunate, and especially at a time when there is at least serious ground to apprehend that Great Britain may be involved in war with one of the most formidable powers in the world. If such a calamity should ensue India would have to bear a large share of the cost, but it would be as unreasonable to call on Canada for a contribution to such a war as it would be to ask assistance from New Zealand for our Indian war in the North-West, the cost of which will most properly fall upon our own people.

THE SPANISH TREATY.

It appears from recent advices that the negotiations, which have been for some time back, carried on between the British, and Spanish Governments, and in which it seemed probable that Canada would be interested, have at last terminated unsatisfactorily. Their only object, as far as Great Britain was concerned, was to secure for her the "most favored nation" treatment, which is really all that any country ought to desire, and which all great countries like Great Britain have it in their power to obtain by adopting the principle of retaliation. British statesmen are so committed to the policy of free-trade that secondclass Governments, like the Spanish, feel implicit confidence that, no matter how badly they treat Great Britain, they can do so with impunity. The cause of the Spanish dissatisfaction was the change made many years ago in the mode of levving the wine duties, which had at one time been by the gallon, without reference to strength, whereas by the French Treaty of Commerce it was agreed that the wine duty should be levied according to strength.

The effect of the change was of course to reduce the duty per gallon on the low-priced wines of France while the stronger wines of Spain continued to pay the higher rate. The Spanish Government has chosen to treat the duty by strength as a discrimination against their product, and has retaliated by imposing discriminating duties on British manu-The duties imposed in the factures. Spanish Colonies on articles produced in Canada are rather complicated, but are imposed for the benefit of the Mother Country, and are specially protective of Spanish shipping. They are not, however, up to the present time in favor of any nation, but the parent State. We of course are well aware that a treaty with the United States has been negotiated, the effect of which would be to give the entire trade of Cuba and Porto Rico to the neighboring Republic, which, however, would have to pay an enormous price for a very slight benefit. It seems very doubtful indeed whether any of these treaties of Reciprocity will be ratified by the United States, which, in order to obtain free admission for its products into the Spanish colonies—which have an aggregate population of about 2,200,000 people—would have to admit the sugar of those colonies free of duty to nearly sixty millions of people, and of course at a tremendous sacrifice of revenue.

There has evidently been of late a considerable change in public opinion in the United States in respect to the delusion which prevailed that it would be for the advantage of the nation to make bargains with other countries for the reciprocal free admission of the products of industry. We are under the impression, judging from the general tone of the press, that the conviction has gained ground of late that the true policy for a nation is to adopt such a tariff of duties as may be thought most conducive to its own interests, and not to alter it at the suggestion of any other nation. In regard to its exports it should simply claim to be put on the "most favored nation" footing by all other nations. In case of any other Government adopting discriminating duties, there is no course likely to be effective but retaliation, and that would, in all probability, very soon bring the aggressor to terms. Had Great Britain, for instance, retaliated against Spain, whenever its Government adopted discriminating duties, they would long since have been removed, and the same may be said of France, in respect to Canada, but although retaliation was long since promised by the Dominion Government it has never been adopted, and, moreover, the Opposition has never sought explanation on the subject.

THE CANADIAN PACIFIC RAILWAY.

The Opposition press continues to make its misleading statements in regard to the Canadian Pacific Railway directors. Ignoring altogether the fact that, like all other railway companies on the continent, the liability of the shareholders is limited to the amount of their shares, and the further fact that it is beyond doubt that the directors of the company have already become responsible for sums, borrowed for the purpose of meeting its liabilities, the Opposition journals are crying out to the Government to take the road into its own hands.

We have already pointed out that when the Grand Trunk Company was in difficulties, and when it was proposed to place the Government preferential lien on the road behind the ordinary stock, it was never suggested by any of the opponents of the Government of the day, that the eminent capitalists who

were then directors of the Grand Trunk Company should aid the road with their private fortunes, and yet this is what the Hamilton Evening Times and other papers of the same stamp demand from the directors of the Canadian Pacific Company. What, we should like to ask our Hamilton contemporary have the Government or the public to do with the expenditure of directors of the Pacific Company on their private mansions? As to the alleged allotment of stock at a rate less than that offered to the public. we know that the original subscription was at par, and we can only infer that when it became necessary to offer further amounts to the public at reduced rates, the subscribers to the original amount issued took an additional amount at such a rate as would make a fair average. Of one thing there is no doubt whatever. which is that the directors' stock stands them much more than the present market value of the shares. Any complaint on the subject of the allotment of the stock would come with much more propriety from other holders of the stock than from parties who have no interest in it. What the public are chiefly interested in is the manner in which the work has been executed, and in this respect the company is entitled to the highest credit.

It was only the other day that one of the North-Western papers made a complaint that the road was being constructed over the Rockies to the Pacific, instead of being built through the North-West from Winnipeg as a centre. People in the North-West lose sight of the fact that the railroad is being built in accordance with a specific agreement with British Columbia under which it became part of the Confederation. We hope that the time is approaching when this great enterprize will be removed from the arena of party, and obtain the general support of all classes of the Canadian people.

EXEMPTIONS FROM SEIZURE IN MANITOBA.

The following list of exemptions from seizure under execution in judgment sales in the Province of Manitoba has created much excitement in business circles in Montreal, and we understand that a meeting of the Board of Trade has been called for Saturday next to consider the subject. The exemptions are very startling, and will not send to inspire confidence in the business men of Manitoba:

Administration of Justice Act, 1885.—The following personal and real estate are hereby declared free from seizure by virtue of all writs of execution issued by any court of this Province, namely:

- 1. The bed and bedding in the common use of the judgment debtor and his family, and also his household furniture and effects, not exceeding in value the sum of five hundred dollars.
- 2. The necessary and ordinary clothing of the judgment debtor and his family.
- 3. Twelve volumes of books, the books of a professional man, one axe, one saw, one gun, six traps, the nets, and used by the judgment debtor.
- 4. The necessary food for the judgment debtor and his family during sixty days; provided however that such exemptions shall only apply to such food and provisions as may be in his possession at the time of the seizure.
- 5. Two cows, three oxen, or three horses or mules, four sheep, two pigs, twelve fowls, and food for the same for sixty days; provided however that such exemption as to horses shall apply only in case they are used by the judgment debtor in earning his living.
- 6. The tools, agricultural implements and the necessaries used by the judgment debtor in the practice of his trade, profession, or occupation, to the value of five hundred dollars.
- 7. The articles and furniture necessary to the performance of religious services.
- 8. The land upon which the Defendant or his family actually resides, or which he cultivates, either wholly or in part, or which he actually uses for grazing, or other purposes, provided the same be not more than one hundred and sixty acres. In case it be more the surplus may be sold, subject to any lien or encumbrance thereon; said one hundred and sixty acres must be outside the limits of any city or town.
- 9. The house, stables, barns and fences, on the judgment debtors farm, subject however as aforesaid.
- 10. All the necessary seeds of various varieties of roots, for the proper seeding or cultivation of thirty acres.
- 11. The actual residence or house of any person other than a farmer in any city, town or municipality, provided the same does not exceed the value of \$2,500, and if the same does exceed the value of \$2,500, then, before such residence or house shall be sold, the sum of \$2,500 shall be paid to or secured to the person whose residence or house is so to be sold, which said sum or the security therefor, or any security in which the same may thereafter be invested, shall be exempt from soizure under execution garnishee or attachment for debts.

Sec. 118.—The judgment debtor shall be entitled to a choice from the greater quantity of the same kind of articles which are kereby exempted from seizure.

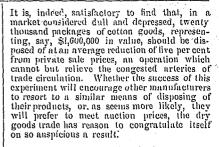

These practically amount to confiscation; but it is not improbable that the Federal Government may exercise its prerogative by disallowing the measure.

DIFFERENTIAL DISCOUNTS.

Under the caption of "Scotch Banking," the London Beconomist comments on the difference in the rates of discount charged by the north country bankers to their Scottish and their London customers. At the request of the Scottish Institute of Bankers, Mr. George A.

Jamieson republished in pamphlet form the inaugural lecture delivered by him in January last. Some criticism to which Mr. Jamieson has since been subjected him to append to his lecture a vindication of some of his controverted opinions, and apropos of this addition, he tells a good story: "A college friend of mine," he writes, "now an ecclesiastical dignitary, was visiting a class-fellow of ours, a minister in Perthshire. They spoke of their old college chuns-among others of one who had achieved considerable eminence in science. 'He came to see me here some time ago,' said the Minister 'and stayed a day or two. He is terribly unsound.' 'You had a tough argument, I dare say, said my friend. 'Deed had we; he is awful clever, and we sat up half the night debating. He is very unsound.' 'But,' said my friend, you felt you had the best of the argument, didn't you?' ' Weel, I am not verra sure that I made much impression—he is awful clever; but I was upsides in the mornin'.' 'How?' 'I pat him intil my prayer.'" And, adds Mr. Jamieson, "I have put my critics into my notes." Amongst those who have been so dealt with is the Economist, because it ventured to allirm it as unfair to their local customers for the Scotch banks to quote a higher rate for discounting the best trade bills in Scotland than they quote for the same identical bills in London. To say this, we are now told, is to talk nonsense. The anomaly, according to Mr. Jamieson, arises entirely from an excess of virtue on the part of the Scotch banks. In Scotland it appears, according to Mr. Jamieson, they hold that the poor struggling trader is financially as good as his rich and irrnly-established neighbor, and they never have discriminated, and never will descriminate, between their customers, nor will they charge ove customer a higher rate for discounting than another. It is true that in London they do discriminate, but that, we suppose, is attributable to the relaxing influence of a southern climate; and although the attempt to establish financial equality in Scotland is to drive the best three of the state best class of traders to the London market, that Mr. Jamieson seems to think, should be regarded only as a proof of the perversity of human nature. And it is here, we take it, that the point of his story is intended to come in. The people who sither cannot or will not see that there is something in the air of Scotland which renders the bills of a Rothschild, should he live there, no better than those of a petty tradesman, and who do not perceive that the Scotch banks would be violating all right principles if they ventured to discriminate between the two-such people, if such there be, are, Mr. Jamieson wittily instinuates, persons to be prayed for and not argued with. A subscriber who directs our attention to the excerpt, fancies there is some reason for drawing attention to it in Unnada.

A GREAT COTTON GOODS SALE.—If the cotton goods sold by auction in New York, last Thursday, says a leading Boston commercial paper, were extended in a line they would serve as a boundary for the United States, and have two thousand miles to spare. If extended due west from Boston the other extremity would lie in the Caucasus half way between the Black Sea and the Caspinn. The N. Y. Commercial Butletin summarises the result as follows:—The offering embraced the products of a dozen manufacturing concerns of the highest reputation, and included none but standard goods, of a wide variety of style and make, and intended for a multiplicity of practical usos—sheetings, drills, jeans, satteens, silesias, quilts, towels, sackings, shirtings, checks, denims, cheviots, ducks, tickings and dress goods. It is not surprising, therefore, that an event so important should draw together a great company of buyers; but the dry goods world can scarcely have been prepared for the highly successful financial result.

THE Canada Co-operative Supply Association, reviewed at some length in these columns last week, has gone into liquidation, under the petition of a prominent wholesale grocery firm of the city. The liquidators, Geo. R. Grant and F. B. Matthews, are allowed, however, to keep the premises open meantime. The endeavor on the part of the promoters, some of them men with little or no business experience, with a sprinkling of others who had not been over fortunate themselves even in a single department of trade and one or two practical ones whose counsels were not always regarded,to conduct a general store on such a scale has been productive during its quinquennial of no little mischief to the retail trade of the city, and in a less degree to that of cities and towns far and near to which goods were shipped free of charge for freight to those who belonged to the noble 3600. The large proportion of failures among retailers in Montreal and elsewhere goes to prove that profits are not excessive; and while the cash system has much in its houses are those who pay their bills periodically, -say once a month promptly, usually by cheque-and not those who waste much of their time in compelling them to make change and run the risks of irregularities in the till.

A CORRESPONDENT says:—There are few townships that can turn out such a herd of fat cattle as North Easthope, delivered at Shakespeare, Ont., on Wednesday last. According to the buyers usual practice, the cattle after being weighed were examined and prizes awarded. The 80 hend were the first lot delivered of 250 bought by Mr. Waddell for Mr. G.D. Matheson, Buffalo, and destined for Glasgow by S.S. Siberian. The 80 animals weighed 119,910 pounds, averaging 1499 pounds per head, and for which was paid \$6747, average \$84.43.—Mr. W. T. Rowland shipped on Monday from Stratford, Ont., 40 head of very fine cattle to Gardiff, Wales, by way of Montreal. Good judges said they were the best lot that has left Stratford this season. Among them were eight head fed by Mr. Idington, Q.O., which weighed 12,475 pounds and netted \$718.—A Guelph, Ont., paper says:—Mr. James McLean, of Goderich, stinged another car load of cattle from Guelph 10-day for the Old Country. They were bought from the farmers at an average of 4½c per lb., live weight. On Friday he shipped a carload of young steers from Fergus which cost him on an average about 5½c per lb. Ile is also shipping two cars from Goderich. All of these lots will be sent by the same boat from Montreal.

Canada's Fisheries.—Mr. L. Z. Joneas in vamphlet recently issued says: "I am not afraid of saying too much when I assert that the Dominion of Canada own the largest and richest fisheries in the world." This rather startling statement he backs up by stating that Canada has "over 5,500 miles of sen coust w.shed by water abounding in the most valuable fishes of all kinds," there being in addition "in the old Provinces of the Confederation

inland seas covering an immense area, besides a considerable number of lakes of smaller extent, and many important rivers teeming with varieties of fishes of great commercial value"—"a national property richer and more perpetual than any mere estimate in money can express." The value of the Canadian fisheries in 1883 was, says Mr. Joneas, \$17,500,000, being the value of the fish prepared for exportation or sold on the Canadian markets, exclusive of the \$5,000,000, the approximate value of the fish caught and consumed by the native population of Manitoba and British Columbia, while in other Provinces, where fish is one of the principal articles of diet, the estimated value of the lish consumed is \$12,000,000, or a grand total for 1883 of \$34,500,000.

THE work of preparing the Alert for her departure on the Hudson Bay expedition is being rapidly pushed forward, and she is expected to sail from Halifax this week. Lieut, Gordon, R. N., again goes out in command of the ship and of the expedition. The work of taking observations at the various stations will be continued another year. The Alert will take out men to occupy the stations next year, and bring home those who spent last year there. She will also take out all the necessary supplies of food, fuel, and clothing. Capt. Gordon expects to be home by the end of October, but takes provisions for four hundred days, in, case the Alert gets jammed in the ice and frozen in. Eighteen tons of hard conl will be left at each supplied a large quantity of evaporated vegetables, which will be used on the voyage and supplied to the men at the stations.

The annual report of the Liverpool and London and Globe Insurance Go. shows: Net premiums for 1884, \$6,401,110; losses \$3,952,-400. After providing for expenses, a surplus of \$527,505 was carried to profit and loss account, which, together with interest, shows a balance of \$2,767,765. It was decided to pay from the fire profits a dividend of 12s, and a bonus of 8s per share, together with a bonus of 3s out of the life profits declared at the end of the last quinquennium, making a total of 23s per share. In the life department, 684 new policies, insuring \$2,088,585, were issued. The funds of the life department have begn increased during the year by \$904,850, making a grand total of \$18,253,250. After the payment of dividend and bonus there will still be a balance to profit and loss of \$2,061,550, while the general reserve and fire re-insurance fund amount to \$7,500,000.

The Hon. Thos. Howard of Winnipeg, a director of the Manitoba and North-western railway, expressed the opinion a few days ago, while in Montreal, that the rebellion would only temporarily check emigration to the North-West. Eighty miles of his line are built, equipped and running from Portage la Prairie northwestward, and fifty miles more are to be built this summer which will carry the road through the fertile belt as far as Birtle. The Ottawa Government has recently given this company a large land grant, and the Manitoba Government will issue bonds to the company and accept a part of the lands as security. This insures the success of the road.

The report of the Queen Insurance Co. for 1884, adopted at the annual meeting of the 7th inst., showed net fire premiums of \$2,830,000; losses \$1,944,600. Out of the balance to credit of profit and loss, \$301,355, a dividend was declared of 10 per cent, and the remainder,

\$211,335, was carried forward, making the total fire reserves \$1,727,830. In the life department new policies were issued for \$1,363,885, yielding \$50,000 in premiums. The fund in this branch was increased by \$234,970, making the total \$2,435,120. The total funds of both departments are nearly \$5,150,000. The Canadian branch of the company under the energetic management of Messrs. Forbes & Mudge, is desirous of communicating with a few capable agents for special localities.

SEEDING.—From enquiries covering the entire Province and the Territories immediately adjacent we are glad to be able to say that seeding operations have attained a most satisfactory stage. Except directly along the Red River wheat is nearly all sown, and in many localities is already up, the growth covering the ground with a delicate green mantle. The area sown this year, notwithstanding that so many teams having been induced to go to the Rebellion, is lurger, if anything, than any previous one. The season, we are also assured, is fully a month ahead of last spring. Altogether, the year 1885 has opened up very auspiciously, from an agricultural standpoint, in Manitoba and the North-West.—Winnipeg free Press.

NEW INSURANCE COMPANY.—The following well-known gentlemen have been appointed directors of a new Insurance Company, to be known as the Forest City Mutual:—Messrs. T. W. Kirkpatrick, Rodney; J. W. Squire, Bothwell; G. J. Walker, Aylmer; W. W. Disher, St. Thomas; C. A. Kingston, London; A. B. Powell, London; John White, Ridgetown; A. J. Leitch (warden of Eigin) Dutton; J. D. Ivey, London; John Fairgrieve, London; R. M. Mitchell, London township; Samuel Grigg, London, and Alfred Robinson, London. At the first meeting of directors, held Wednesday, the following officers were appointed:—C. A. Kingston, president; J. W. Squire, Vice-President; A. B. Powell, Treasurer; Charles H. Ivey, Solicitor; W. J. Imlach, Secretary.

The endeavor to sell the St. John cotton mill by anction a few days ago brought no bid. The St. John Globe says:—The works cost \$238,000. The existing mortgage, chiefly in bonds running three to ten years, is \$70,000. Therefore other debts, bringing the outstanding liability up to "about" \$76,000. Then with moderation, yet not without eloquence, he made an appeal to capitalists to become possessors of a valuable property that could be made available for comparatively small outlay. Several capitalists stood around looking grave and earnest, but they showed no sign of emotion, and Mr. Lockhart's appeals could not move them to invest.

The shareholders of the Canada Shipping Company (Beaver Liue) held their annual meeting in this city, the 27th inst. No dividend was declared, but a balance was carried forward to the credit of profit and loss. The same Board of Directors was elected, and Mr. Alex Murray and Mr. John McLennan were re-elected president and vice-president, respectively.

MESSAS. S. Fischell & Co., eigar manufacturers, this city, are again in trouble, and have assigned to Geo. Davelay; liabilities about \$9,000. The same firm, under the title of G. Fischell & Co., failed about eighteen months ago.—E. N. Chevalier, of Iberville Que., has assigned to Mr. A. W. Stevenson of this city.

THE negotiations pending between the Federal Life Ins. Co., of Hamilton and Mr. C. F. Bunbury, late of the Mutual Reserve, have fallen through, and the Federal is still looking for a capable and suitable agent to represent them in Montreal.

THE VIRTUES AND VICES OF OPTIONS.

A rather marked feature in the Stock Exchange recently has been the revival of "option" dealing. In years gone by a considerable amount of business was habitually transacted in "options," especially in Consols, but more recently this species of speculation had dwindled down to very restricted dimensions. But at no period has it ever been as popular as it is on the continental bourses, and on the stock exchanges across the Atlantic, At Paris, and on all the German bourses, there is a vast amount of speculation constantly carried on by means of options, not separate from but ancillary to direct operations for the rise or fall. In New York "options" or "privileges" are also a very favorite form of speculation, and that the means for indulging in it have been abundant is evidenced by the fact that Mr. Russell Sage, the well-known associate of Mr. Jay Gould, who was, until the collapse of May, 1884, one of the wealthiest and most powerful manipulators in Wall Street, has always been a great dealer in "stock privileges." It is difficult to understand why options have so fur not been acclimatised in England, but, in view of their becoming more popular, it may be well to refer to their advantages and disadvantages from an outside standpoint.

An "option" is the price paid for the right

to demand or to deliver a certain amount of stock at a given price within a certain definite period. The prices given for this "opiton's may of course, range infinitely, according to the supposed value of the elements of which it the supposed rathe of the elements of which it is composed. The right to demand a stock is termed the "eall," and the right to deliver it the "put." For instance, one may pay today, say, 2 per cent. for the "eall" a month hence of 1,000 Russian 1873, which right may or may not be exercised. And a "put" would be exactly the converse of this. It is possible to buy the double privilege of both "put" and "call," but the price asked is usually so heavy as to be practically prohibitive. Now the idea of the speculator who dabbles a little in options is simply to buy the "put" or " call" accord-ing to whether be thinks the market will fall or rise; whereas their real raison detre is something altogether different. They should always serve as a protection to other operations. For instance, a speculator becomes a "bear" of, say 10,000l Rassian 1873, and bays "call" of the same amount of stock. If the price falls, as he anticipates, the profits which he realizes are reduced by the amount paid for the "call." On the other hand, if the stock rises, no matter how much, he can "call" the same amount of stock as that sold at presumably the same price, which liquidates the some of the same price, which includes the stock sold, leaving him only the premiums paid for the "call" out of pocket. It is, of course, evident that an "option" often affords protection not to one, but to a series of operations. Moreover, the holder of an "option" using it this way, may finally find it to his advantage to close all operations for which it advantage to close all operations for which it advantage to close all operations for which it acted as protection, and using, say, the "call" in a direct manner, turn over from the "bear" to the "bull" side of the market. An "option" used properly therefore affords ample scope for skilful speculation, while no loss can be incurred beyond the premium paid in the first instance. But when a greatly the contraction of the can be incurred beyond the premium paid in the first instance. But when a speculator who dabbles a little in this sort of business just buys the "put" or "call," and, as it is termed, "sits upon it," he simply plays a losing game, for his operations for the full or rise, which would be sufficiently weighted in the case of a purchase or sale by his own inexperience, and by the expenses of commission, &c., are now burdened by the heavy prices paid for the option itself. In fact, the charges are probably multiplied ten fold against him. are probably multiplied ten fold against him. It is true that the loss is limited, but then the prospect of a profit is reduced almost to the vanishing points On the other hand, "options" eapably used not only limit the loss, but offer a fair chance for making a profit. They are, in fact, an excellent medium for clever, yet cautious, operators. From what we have said, it will be seen that those who advise people to buy "options," without taking any other

measures, are simply considering their own interests, the more especially as the scenius so often recommended are those which are extremely unlikely to fluctuate to the extent of the given premium—the latter frequently remaining in the hands of the broker, or so-called "broker," as something of a much more satisfactory unlarge than any commission.

factory nature than any commission.

From the standpoint of business morality, two things may be adduced in connection with "options," one for and one against. In the first place, they foster a torm of speculation which already flourishes too abundantly. They do this not only directly, but also indirectly, as, owing to the way in which they limit loss, they encourage people to speculate in stocks and shares who otherwise would be restrained, not so much by a positive prudence as by a negative timidity. But it is evident that one can be as effectually destroyed by a poison taken in regular and known quantities, as by a large draught taken heedlessly. It is only a question of time—both methods are equally certain. On the other hand, used by experienced speculators, "options" are generally great safeguards against unexpected and violent movements in prices, and hence in times like the present (speculation being a fact which must simply be acknowledged and dealt with) they are entitled to some commendation. As a matter of fact, speculation in stocks and shares at the present time is for most people gambling of an ultra-violent character, and is only tolerable when protected in the way described.—London Economist.

FIRE RECORD.

ONTARIO.—Deseronto, Mny 21.—Rathbun & Co.'s store-house with contents. Loss \$10,000; insured. Ottawa, 21.—Free Press building damage \$3,000; insured.

QUEBEC.—Montreal, 22.—M. Tessier's shed and tenement house. Loss \$5,000; insured for \$200 in Northern; Gauthier & Gaudry's carpenter shop. Loss \$500; uninsured. S. Davis & Son's eigar box factory, damage \$150; insured.

MONTREAL WHOLESALE MARKETS.

MAY 28, 1885.

Monday being a public holiday for the celebration of the Queen's birthday, many extended the holiday from Friday night until Tuesday morning, and the week under review is consequently brief. On the whole a fair business is being done, but there is no rush because manufacturers and traders have suffered in the past from anticipating the requirements of the trade, and, as a rule, are pursuing the policy of only buying as the necessities of the case demand. The weather is delightful and favorable to the growing crops, although rain is somewhat needed. Consols in London, Eng., today reached 100 3-8 money and account, the highest figures touched since December 1st last when the Russian scare sent prices down. The street rate for money in London was 7-8, the bank of England rate being reduced to 2 per cent to-day. Rates here are 3 to 34 on call. On this market 60-day Sterling bills between banks were quoted at 9 1-8 to 9 3-8 prem; demand 92 to 94. New York funds, 1 discount to par. Counter rates are & higher than the above. The Stock Market here was very dull to-day. There were no transactions in Bank of Montreal. A lot of 10 Toronto sold at 1771, and Peoples and Telegraph were placed at 60% and 1224 respectively. Gas sold to the extent of 900 shares at 183, including two blocks of 350 and 300 shares. Richelieu sold in broken lots at 58. The following were the

total sales and highest and lowest prices of leading stocks for the week:-

| Banks. Commerce | Shares. 323 250 340 75 3 110 | ### ################################## | 112 194 1071 602 |
|--|-------------------------------|--|---------------------------|
| ${\it Miscellaneous}.$ | İ | | |
| Can. Pac. Ry Gas Mon. Tel. Co Passenger R. & O. Nav. Co | 2725 82 175 | 39 <u>1</u> 183 123 116 58 | 1821 122 1151 |

ASHES.—Receipts have been moderate. Sales of First Pots as low as \$3.60 to \$3.70; Seconds \$3 to \$3.10. Pearls are still neglected and it is impossible to give a reliable quotation. Prospects are bad. Receipts since 1st January, 1,609 brls. Pots, 44 brls. Pearls. Deliveries, 1,714 brls. Pots, 87 brls. Pearls. Stock in store on Wednesday at 6 p.m. 1,351 brls. Pots; 164 brls. Pearls.

Boots and Shors.—The sorting trade has been a good one for a few houses but, as a rule, complaints are heard concerning it. The fall trade will be late but it is hoped satisfactory. It is thought that more orders will be placed here by the milita department for regulation shoes. Some salesmen have left for the Lower Provinces, while on the other hand a few still linger in the West on the sorting trip.

Canned Goods.—Lobsters are firm at \$5.40 to \$5.50 to arrive in car load lots: on spot scarce and quoted at \$6. Mackerel dull at \$3.90 to \$4 on spot. Corn, 2 lb. tins \$1.20 to \$1.25 per dozen; turkey, \$3 to \$3.10; corned beef, \$3.25 to \$3.50; peas, \$1 50 to \$1.60; chicken, 1½ lb. tins, \$2.30; tomatoes, 3 lb. tins, 90c to \$1; apples, 90c to \$1; ditto in gallon tins, \$2.75 to \$3 per dozen.

Chemicals, Drugs, etc.—Heavy chemicals, as noted last week, are firm, the peace prospects having that effect, Russia being a large purchaser of English chemicals. In drugs a noderate business is being transacted, but there are few changes to record. Quinine is about 5c an oz. lower. Salipetre is higher in the English market and firm here. Dyes.—Business quiet, at steady prices. Sunnac at \$95 to \$105 per ton. Cochineal at 38c to 40c per lb. Logwood steady at \$1.75 to \$2.25 per 100 pounds. Cutch firm at 63c to 7c per pound. Yellow prussiate of potash at 27c to 30c per pound. Gambier 6c per lb.

COAL AND Wood.—Anthracite coal is quiet. Stove and chestnut \$6; egg and furnace, \$5.75. Cordwood quiet and unchanged, with lower prices expected. Prices per long cord, delivered ex-yard, are as follows: Maple \$6.50; birch, \$6; beech, \$5.50; tamarac, \$5. Cargo lots of soft coal, to arrive, are quoted as follows: Cape Breton, \$3.25 to \$3.30; Nova Scotia, \$3.75 to \$3.80. Scotch steam, \$4.25 ex ship.

DAIRY PRODUCE AND PROVISIONS.—In butter there has been no transactions to speak of since our last, and our quotations elsewhere are nominal. The jobbing demand for good fresh stock has been fair. The Utica Herald publishes the following special report of the New York market:—There have been thousands of packages of good sound yellow grass-made old butter sold this spring at 10c to 12c. A lot of

CARSLIVACO.

WHOLESALE

GOODS,

93 St. Peter St.

MONTREAL,

-AND-

18 Bartholomew Close,

LONDON, England.

22 tubs of Delaware county sold this week at 7½c. A western creamery of 35 tubs old butter sold at 10c. One hundred and sixty packages of fair old New York State butter went at 8c, and there is considerable classed as grease, for which only 5e to 6e is bid. So goes out the old butter about as the crop of 1877 went out in the spring of 1878, after which came the marthe lowest prices experienced within the last twenty years. In June and July of 1878 the top prices for finest creamery butter ranged at from 19c to 20c, with private dairies at 15c to 18c, and butter was not only low through the summer, but kept irregular and low-priced all through the year, and finally had a surplus left over which had to be cleaned up in the spring at 6c to 8c to 10c. The market this week on fresh butter has been difficult and declining, and closes weak, with 22c for the quotable top, and 18c to 20c, accepted for a good share of the arrivals, and poor hay-make, either creamery or dairy, selling at from 10c to 15c. Cheese.— The market has been heavy and depression although quotations nominally run from 7c to although quotations nominally run from 7c to Ship-74c, it would be difficult to exceed 74c. Shipments are not heavy, and most of the stulf is going out on consignment, as orders are extremely scarce. English buyers seem auxious to dispose of all their held stock before touchto dispose of all their held stock before touching the new make. At Utica, N.Y., transactions were as follows: 76 boxes light skims at 6½c; 3 lots, 235 boxes, at 7c; 3 lots, 162 boxes, at 7-1-8c, 56 lots, 4,258 boxes, at 7½c; 6 lots, 562 boxes, at 73-8; 11 lots, 1,056 boxes, at 7½c. Sales 6,243 boxes; commissions 2,083 boxes; total 8,326 boxes. Ruling price 7½c. Transactions one year ago 8,565 boxes, ruling price 10 5-8c. Grass is growing finely now, and the cows were all turned out last week. Eggs, under a good demand and light supplies, are firm at 122c to 13c. A large quantity is being packed, in town and country. Provisions.—A good jobbing trade has been done since our last at quotations.

Day Goods.—Remittances have slightly improved. The movement of "held-over stocks" from last year is now beginning to show itself in city store rooms to the gratification of many in the trade. Travellers who have been out on the sorting trip are returning, having done fairly well during the past fortnight; they report fine weather for seeding purposes in the West, and altogether an improved feeling is beginning to make itself felt. The retail city trade has been an active one, leading stores have been transacting more business than at any time since the Christmas holidays. French Canadian citizens are, as usual, crowding in orders to be filled between now and Procession Sunday. In the millinery line business is keeping up well, much better than last year. Travellers are still on the road. Ladies' rough and ready hats are particularly in good demand, they are great tashion in New York, and have taken well here and elsewhere in Canada.

Sole manufacturer of the celebrated

WHITE WHEAT & "OLD TIMES" WHISKEY.

FLOUR AND GRAIN.—The tendency has been towards lower prices for breadstuffs all week. Flour closes weak and depressed, and even at the lower range of quotations, given elsewhere, buyers are not willing to trade. Superior has been offered at \$4.70. Manitoba Strong bakers is held at \$5, but a car load of a low grade was placed at \$4. Grain has been quiet, and prices are down all round. There are few, if any, mayers of wheat above \$9c. Oats have sold at 37½ to 38c, and a few boat loads of peas changed hands at about quotations. British cablegrams to-day were as follows:—Floating cargoes of wheat slow, corn turn cheaper; on passage, wheat inactive, corn rather easier. Liverpool spot wheat, downward tendency corn neglected. Cheese 2s lower, at 50s. The Chicago wheat market was unsettled to-day, there was a slight spurt, but prices soon lapsed back again. At 1 p.m. June wheat sold at 86½, July at 88½, and August at 90½; receipts 50,000, exports \$1,000. Corn sold at 45 5-8 June, 45 3-8 July, 45 August; and pork at 10.47 ½ June, 10.57½ July, 10.67½ August.

FREIGHTS.—There is considerable tonnage inport, and low rates have been accepted for grain, as there is little on the way from the west. The last reported engagement for Liverpool was at 9d: 1s 6d is said to be procurable to London and Glasgow for shipment in about a fortnight. Cattle freights are 50s to 55s. Lumber to River Plate would be taken by sailing vessels at former rates, 13s per 1,000 feet. Deals to Liverpool, 50s per standard. Phosphate is scarce, it has been arriving only for a few days and in car load lots. A small quantity has been taken for Hamburg at 12s 6d.

Green Fruits, etc.—The 8,000 pkgs. of oranges and lemons on the Escalona were found to be in fair condition, and the auction was a success, buyers being present from far and near. The sale was the first of the kind held here, and was in charge of Mr. F. J. Hart, of Hart & Tuckwell. Prices realized were as follows:—Messina oranges, \$1.25 to \$3.62\frac{1}{2}, but the bulk of these realized \$2.75 to \$3.62\frac{1}{2}, but the bulk of these realized \$2.75 to \$3.62\frac{1}{2}, but the bulk of these realized \$2.75 to \$3.72\frac{1}{2}, but the bulk of these realized \$2.75 to \$3.52\frac{1}{2}, but the bulk of these realized \$2.75 to \$3.62\frac{1}{2}, but the bulk of these realized \$2.75 to \$3.75 to \$3.87\frac{1}{2}; Palermo oranges, \$2.25\frac{1}{2} about 90 per cent of these brought close to \$3; Messina lemons, \$3.75. The sale footed up about \$3.25,000. A good business has been transacted in fruits this week. Valencia oranges are quoted at \$56 to \$7 per case; Messinas in boxes, \$3 to \$4. Lemons firm at \$4.50 per box. Strawberries are weaker at 20c to 25c per quart, and Bermuda-tomatoes have also declined, now quoted at 75c per box. Bananas in fair demand; red, \$1.50 to \$2.50 per bunch; yellow, \$3 to \$6. Havana pineapples, \$2.75 to \$5 per dozen. Canadian apples \$4 per brl. Dates 4c to 6c. Coccoa nuts, \$4.50 to \$5 per 100. Maple syrup 60c to 70c per wine gallon tin; sugar 7c to \$2c. Imported vegetables.—Cucumbers \$3.50 to \$4 per bushel. Green peas. \$3.50. Upper Canada asparagus \$2 per dozen bunches.

Groceries.—Business as a whole has been fair. Sugars close firm, a slight easing off being followed by a sharp re-action. Some refiners are asking 7 1-8c for granulated, which would indicate that prices are really higher than before. Yellows are stiff at the advance previously noted. Cables from Greenock and Glasgow afford encouragement to sellers. It is said that prices in the latter city are relatively higher than in Montreal. Advices continue to affirm that the acceage devoted to beets in Europe is a third less than hast year. Teas.—Cable advices this week from Japan report the market firm at \$19 for medium up to \$35 per picul for choicest. There were no large operations here this week, but the market is steady

with a moderate demand. Very little tea has been taken in Japan on Canadian account as yet, one steamer will bring 600 piculs. Rice is fairly steady, and nominally unchanged. Molasses are stiff; Barbadoes 30c for round lots; Tapioca higher, the shortness of crops in the East telling on the British markets. Pepper firm; cloyes easier.

HAY, STRAW AND FEED.—The supply of loose hay was moderate; prices were steady. Choice timothy sold at \$13, and we quote \$12 to \$13 per 100 bundles. Straw was quiet at \$5 to \$6 per 100 bundles. There was a good enquiry for pressed hay at \$16 to \$17 per ton for No. 1 and \$15 to \$16 for No. 2; straw in bales, \$8 to \$9 per ton. Shorts \$18 to \$19 per ton; bran weaker at \$15 to \$16, moulle \$24 to \$26 as to quality, buckwheal, 70c per bushel.

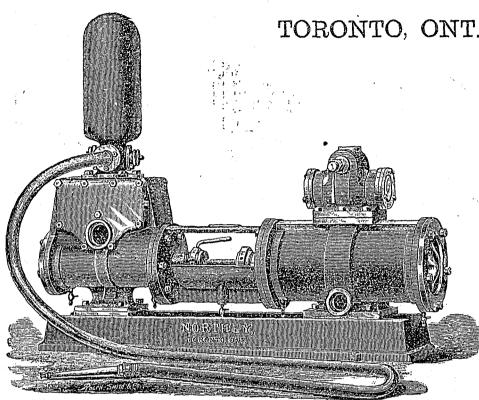

HIDES AND TALLOW.—Uncured and uninspected city hides, have been in moderate demand at the rate of \$7.50 for No. 1. Sheepskins are higher, and have been bought at 80c to \$1; clips and lambskins, 20c; calfskins, 12c per lb. Tallow was scarcely so firm; quoted at 6½c to 7½c for rendered and 3½ to 4c for rough.

Hors.—There was a slightly better demand here, with sales at 6c to 10c, as to quality. At Utica, N.Y., dealers took 600 bales at 10c to 15c, but 12½c to 14c was the range for good hops there.

IRON AND HARDWARE, -The enquiry this week for pig-iron was fair, and buyers who are still open to purchase for fall delivery are beginning to think of placing their orders now, and are asking quotations. The actual business done was not large, some jobbing lots up to 50 tons in amount were sold at previous prices. The uncertainty as to the future of ocean freights continues, and has an unsettling effect. There were a few sales of tin plates for delivery, West at about our prices. The English market for tin plates has ruled quiet, as most makers having some orders in hand, ask an advance for further parcels, and this buyers will not pay. The stock of pig-iron in Connal's stores, Glasgow, on the 12th May, was 595,633 tons against 592,139 on the same date last year, the shipments from the same port to the 9th May were 157,487 tons as compared with 193,878 in 1884. Liverpool advices dated May 14th contain the following: Philipsed iron, while in some quarters there is said to be more doing, the best proof this can be very partial is shown by the fact that speedy delivery can be had of nearly every brand. Copper, while held for a higher price, rather unsteady in feeling at £45 15s for is rather instrady in feeling at £45 tos for Chili bars. Tin has experienced a very sharp advance, but buyers will only at these figures purchase from hand to month. Closing figures are £84 5s. 0d; L. & F. Ingots £88. The exports of pig-iron from Great Britain to Ganada, for the four months ended 30th April ware. El 1955. were:—In 1885, 4,005 tons, valued at £12,117, against 4,291 tons valued at £14,376 in 1884. During the same period the following were the exports from Britain to Canada of railroad iron of all sorts:—In 1885, 13,054 tons, in 1884, 2,371 tons, and in 1883, 16,067 tons valued at £85,221, £12,819 and £103,724 respectively.

LEATHER.—Business has been fair, but during the rest of the month it is expected to be only of a hand-to-mouth character. The smaller factories were good buyers on Tuesday as they worked on the Queen's birthday, while supply houses were closed. A large number of orders are expected to be placed in June as manufacturers will commence cutting for the fall trade. Imported French Calf has been sold at 80c to 85c. A few changes will be found in our quotations.

send for Circular and state your requirements.

Live Stock.—Gattle for export have been in good demand, and the quality being satisfactory, prices ranged slightly higher. About 400 head sold at 5c to 5½c per lb., with a few exceptional sales at 5¾c. It is said that most of the stall-fal cattle have been placed. The British markets are reported dull by eable, with a lower tendency. Prime Canadian steers are quoted as unchanged in Liverpool at 14c; fair to choice 13½c; poor to medium 12½c; and inferior and buils, 9½c to 11c. Dressed beef was cabled higher at 5½d.

Ous, Paints, etc.—Cod oil is becoming scarce most of the quantity here being shipped to England this week and last. Newfoundland is firm at 60c to 62½c; no Halifax in market. Steam-refined seal is worth 55c to 57½c on spot; offered to arrive at 52½c. There is a moderate movement in paints at former prices. Class is easier at \$1.80 for first break. Turpentine is firmer, and liuseed oil dall.

NAVAL STORES.—The market has remained quiet and unchanged. We quote:—coal tar, \$3 to \$3.50; pine pitch, \$2.75; pine tar, \$3.50; resin, common, \$2.75 to \$3 per brl; spirits of turpentine, 47½c to 52½c; oakum, 7c to 8c.

SEEDS.—Firm, with fair enquiry. Timothy, \$2 to \$2.25 per bushel; red clover per 100 lbs., \$11 to \$11.50; alsike \$7 to \$8.50 per bushel; tares, 1 to \$1.50; flax, \$1.10 to \$1.40.

Wook.—Spot offerings being light another quiet week has to be recorded. There is a fair enquiry and prices are firm.

TORONTO WHOLESALE MARKETS,

(Revised by Telegraph.)
TORONTO, May 28, 1885.

Wholesale markets continue in that quiet state reported for some weeks back. Farmers are generally busy, and retail store-keepers are buying sparingly. The retail trade of the city has been fairly active during the Wholesale merchants, however, bear up pretty well, and are still sanguine. Some report as large a movement as last year, but that, it must be recollected, was small as compared with the previous year. In dry goods there is nothing new to report, trade being quiet and prices unchanged. In groceries the business has been moderately active with prices firm. Hardware is reported as fair, In provisions and breadstuffs the transactions have been very light, and prices generally lower. The money market has been quiet, and rates unchanged. Call loans on stocks rule at 5 to 6 per cent and on debentures 4. Prime commercial paper is discounted at 64 and the general run at 7 to 74 per cent. Sterling Exchange is dull and easy; 60-day bills at 1091 and demand bills at 109 5-8 to 100% between banks New York drafts are par between banks and 1-8 premium across the counter. The Stock Market has been dull and prices steady. Sales have been made the past few days at 1941 for Montreal, 1074 for Ontario, 1773 for Toronto, 1114 for Merchants, 1231 and 1232 for Commerce,

119 and 1184 for Hamilton, 127 for Union Loan, and 109 for Imperial Savings. Following are prices bid to-day compared with those of last Thursday:

| Banks. | Bid May 21 | Bid May 28 | Loan Cos. Bi | y May |
|-----------|------------------|------------------|---------------------|---------------|
| Montreal. | 1931 | 193 | Can. Per 208 | } |

BUTTER.—The volume of business has been small this week, and prices are not quotably changed. There is a moderate demand for new, which sold at 10c to 13c per 1b. according to quality. There is a large necumulation of old stuff, and inferior to medium quality sold at 5c to 8c per 1b. Eygs are in fair receipt, with a moderate demand; case lots rule at 12c to 13c per dozen. Cheese quiet, and prices steady; new jobs at 10 c to 10 c, and inferior qualities at 91c.

BOOTS AND SHOES.—This business has been quiet of late and somewhat unsatisfactory. Travellers are returning. There has been considerable competition and prices are kept down Some factories are working on fall samples. Payments are rather slow.

COAL AND WOOD.—The demand for coal is slack, but prices continue unchanged. Egg

o-TRADE SUPPLIED ONLY.

stove, grate and chestnut sell at \$6 a ton delivered. The best soft also sells at \$6. Wood unchanged, with a moderate demand, and prices rule at \$5 a cord for the best hard, \$3.50 for second quality, and \$4 for pinc.

Coal On.—There is a moderate demand at unchanged prices. Canadian refined sells at 17c per gallon for small lots and at 16½c for five to ten barrel lots. Carbon-safety unchanged at 19c. In Petrolea crude is stendy at 77c to 78c, and refined at 13½c per gallon by the car lot. American oils unchanged at 23½c, for prime and 27c for water white.

Daugs.—A quiet trade is reported for the past week, and there is little to note regarding prices. Castor oil steady at 9c to 11c. Opium unchanged at \$4.10, and glycerine unchanged at 17c to 26c. Quinine steady at \$1.15 to \$1.20; German, 95c per ounce in bottles; morphia, \$2.40 to \$2.50; bicarbonate of potash, 18c; potass iodide, \$3.90 to \$4.00; potass bromide, 48c to 50c per lb.; cream of tartar, firm, 35c to 40c; linseed oil, firm, 65c for raw, and 66c to 67c for boiled; cod liver oil \$1.75; Notwegian \$3; oil of peppermint steady, at \$5.75 to \$6. Beeswax, 50c per lb.

FLOUR AND GRAIN.—The demand for flour has been curtailed, and transactions have been far between. Buyers are slow in coming forward, owing to the depressed condition of outside markets, and the local trade is pretty well supplied. No immediate improvement is expected. Inspected superiors can be had at \$4.40, extras

at \$4.25, and spring extras at \$4.20. Patents sell at \$4.75 to \$5. The stock in store is 2,000 barrels as compared with 2,125 barrels a week ago and 2,060 barrels the corresponding week of last year. Wheat has been dull and prices rule lower, owing to the decline in Britain and the States. There is little demand, but holders appear to offer sparingly. Yesterday, No. 2 full offered at 92c with 91c bid, and No. 3 fall at 91c with 89c bid. A round lot of No. 2 red winter sold at equal to 90c. No. 1 spring is nominal at 95c, No. 2 Spring offered at 94c with The stock in store shows a slight de-90c bid. crease this week. The amount is 222,058 bushels as compared with 139,968 bushels at the corresponding date of last year and 309,008 bushels at the same period of 1883. Barley is dull and prices purely nominal in absence of transactions. The stock in store is 22,022 bushels as compared with 25,861 bushels a week ago and 10,599 bushels at the corresponding period of last year. Oats are easier, the offerings being liberal; sales were made the latter part of last week at 39c, and yesterday at 38c on track. The stock in store is 10,330 bushels as compared with 15 930 bushels a week ago, and none at the corresponding period of last year. Peas dull and steady; No. 2 offer at 70c with 68c bid. The stock in store is 28,855 bushels as compared with 16,458 bushels last week and 34,806 bushels the corresponding period of the store of th responding period of lost year. Rye inactive and nominal at 70c. No stock in store. Corn quiet and steady, at 56c to 58c for Canadian. Outment is dull and lower; car lots can be obtained at \$4.25 and small lots sell at \$4.50 and \$4.75. Bran dull and easy at \$10.50 to \$11 a

GROCKRIES.—There has been a moderate movement this week, and prices generally are firm. Sugars are higher, granulated selling at 7c to 74c, in a jobbing way, Canadian refined

at 5e to 6c, and Barbadoes at 54c. Teas in fair demand and firm. There is also a fair trade in liquors and tobaccos.

Hardware.—The business of the week has been good, and merchants are not complaining. The movement of heavy goods is fair. Tin is a little firmer; prices generally are unchanged. Nails 10 to 60 dy, sell at \$2.65, 3 dy, to 9 dy at \$2.90, and 3 dy at \$3.65. Ingot copper is unchanged at 15c to 16c. Tin-plates are irregular. I. O. coke sells at \$4.00 to \$4.35, I. O. charcool at \$4.60 to \$4.80, and I. X. at \$6.15 to \$6.25. Pig iron is nominal, at \$18 to \$19.

Hides, Skins, etc.—The receipts of hides are increasing. Prices are unchanged, although lower figures are expected daily. Dealers are paying butchers 9c for No. 1 green steers and 8½c for No. 1 cows. Cured are selling at these prices also. There is a good supply of Calfskins, and prices are unchanged: sales of cured at 15c; green are quoted at 11c to 13. Sheepskins continue firm; the best bring \$1.40, and ordinary lots 90c to \$1.15. Lambskins are firm, dealers paying 25c. Tallow is unchanged at 3½c for rough and 6½c to 6½c for rendered.

LIVE STOCK.—The receipts of cattle this week have been limited, and prices ruled firm. Export lots are in demand, with sales on Tuesday and Wednesday at 5½c and 5½c per lb., the latter for choice. The demand for butchers continues fair, with sales of first-class at 4½c to 5c per lb., and inferior to medium at 3c to 3½c. Sheep in moderate demand and steady, with sales at \$5.50 to \$6 a head. Spring lambs rule at \$3 to \$5 a head. Hogs are easier

at 5c to 5 1-8c per lb. Calves range from \$1 to \$12 a head, according to quality.

PROVISIONS, ETC .- This trade continues very quiet, and prices generally are unchanged-Bacon sells in small lots at 8 1.8c to 81c, and car lots are nominal at 73e to 8c. Cumberland Cut is quoted at 74c to 74c. Hams are in moderate demand and firm; round lots of smoked are quoted at 112c, and small lots sell smoked are quoted at 10½c, and small rosset at 12c; sweet picked are quoted at 10½c to 11c. Lard unchanged; trade is quiet and prices steady; and round lots are quoted at 9c, and tubs and pails soll at 10c to 10½c in small lots. Mess pork is quoted at \$15.00 to \$15.50. Hops dull, with a few small sales at 10c to 12c. Beans dull at 75c to \$1 a. bushel in lots, and \$1.10 for small quantities of hand-picked.

SEEDS .- There is a small trade from store to store, but business may be considered over for the season. Clover jobs at about \$11 a cental.

Wood.-There is a moderate demand for small lots of low priced wools and prices remain unchanged. The best fleece sells at 18c to 19e and ordinary 16e to 17c. Super inactive at 21c to 22c and extras at 25c to 26c.

AMERICAN MARKETS.

AMERICAN MARKETS.

Boston, May 28—Flour, demand light, prices burely sustained. Superfine quoted \$3.25 to \$3.75; Extras \$4 to \$4.25, including choice bakers' \$4.50 to \$5. Gornmeat firm at \$2.70. Oatmeat at \$5.25 tine, and \$5.75 cut. **Hay, fair demand, steady market, extra sells at \$21 to \$22, good to choice, \$18.00 to \$20. Butter quiet, prices in favor of buyers. Extra creamery quoted 21c to 22c, good to choice, 18c to 19c. Cheese dull and easy, best new offered 8c to 8½c, small lots of old sold at 9½c to 10c. **Eggs in light request at 13½c for Canadian. **Canadia Peas in moderate demand at 90c to \$1.15. Potatoes dull and easier at 50c to 680 as to quality. quality.

SPECIAL NOTICE.

The announcement of the Cornwall Spinning Company (private, not limited.) will be found elsewhere. The company was recently organized by prominent local business men, among whom are the Messrs. Flack Bros. well and favorably known in Cornwall for the last twenty years. The other proprietors are Messrs. E. Kewin and J. A. Moyes. They claim to be the only company in Canada who manufacture the Macrame Cord, and they employ in this factory already over 50 hands. They are the Cornwall Batting Works, employing in the three establishments several hundred persons. Mr. D. A. Flack is the general manager, Mr. D. A. Flack is the general manager

The new smoothing iron patented by Capt. A. Chagnon, is certified to as being a first-class arti-cle for a family. In reality it is a nickeled lamp chimney, with a plane surface on one side and a handle on the other. The chimney is readily a manuse on the other. The commey is readily heated, either on an ordinary lighted lamp, or a gas burner. They cost \$1.50 each, and three are ample for general use in a family. Mr. J. U. Foucher, of this city, is the proprietor of this patent. See advertisement.

The machines manufactured at the works of Mr. William Batemun, of this city, machinist and engineer, established in 1866, inventor of several of the most valuable Gang Resawing Machines, are now giving complete satisfac-tion. Mr. bateman also makes a specialty of wood-working machinery and mill work. Attention is directed to his announcement.

One of the large establishment of London, Ont., is that of D. S. Perrin & Co., wholesale manufacturers of confectionery, biscuits, etc. The house has been established for many years and occupies premises at 82 and 84 Dundas street and 81 and 82 Carling street.

SATISFACTION GUARANTEED.

LONDON, ONT.

THE PATENT

The most economical boiler feeder in existence, and at same time the simplest and most durable. Supersedes both jumps and feed-water heaters and, by condensing the exhaust steam, removes the back pressure, and, consequently, increases the power of the en ine. Utilizes a power heretofore thrown away. Works automatically at a steam pressure of les than half a pound The exhaust steam, in pa sing through the Injector, heats the feed-water to a temperature of 190 degrees F., thus effecting a saving over any other Injector of from 15 to 25 per cent. in fuel.

Leading Hotels in Canada.

Lawrence Hall

THIS HOTEL WAS OPENED on the First of May!
1879, by the former Proprietor, so long and lavorably known throughout Canada, the United States and British Empire, who has spared no expense in entirely Rc-Furnishing the whole House; also adding ALL MODERN IM PROVEMENTS, which will crustiderably enhance the already enviable popularly of this First-class Hotel.

H. HOGAN, Proprietor.

S. MONTGOMERY, Manager

THERUSSELI, OTTAWA.

THE PALACE HOTEL OF CANADA

This magnificent new Hotel, fitted up in the most modern style, is now Re-opened. The Russell contains accommodation for over FOUR HUNDIGLD GUESTS, with passenger and baggage elevators, and commands a splendid view of the city, Parliamentary grounds, river and canal. Visitors to the Capital naving business with the Government find it most convenient to stop at the Russell, where they can always meet the leading public men. The entire liotel is supplied with escapes, and in case of fire there would not be any confusion or danger. Every attention paid to Guests.

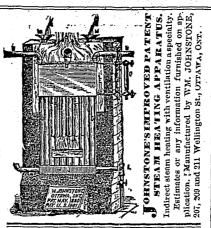

GOUIN & CO., Proprietors.

THE ONTARIO MUTUAL

LIFE ASSURANCE CO'Y

Head Office, Waterloo, Ontario,

DOMINION DEPOSIT, - - - - \$100,000.00

The only Purely Mutual Life Company in Canada. Total number of Policies in force, Dec. 31, 1883, Covering Assurance to the amount of, -\$6,572,719 71 Net Reserve to Credit of Policyholders, 482,177 47 Net Surplus, 43,761 95

The Company's Reserves are based on the Actuaries' "Table of Mortality," and four per cent, interest—the HIGHEST standard adopted by any Life company in Canada, and one-half per centhigher than the standard used by the Dominion

In Canada, and one-man per continger than the samagard used by the Dominion Insurance Department.

The rapid growth of the Company may be seen from the fact that in 1870, the first year of its business, the total assets amounted to only \$6,216, while last year they reached the handsome total of \$533,705.55!!

J. E. BOWMAN, W. HENDRY, W. H. RIDDELL, President. Manager. Secretari

Confederation Life Assocn.

The SECURITY offered to Policyholders is UNSURPASSED by any Company doing business in the Dominion.

Its PROGRESS HAS BEEN UNEXAMPLED in the history of Insurance in Canada.

Its policies are INDISPUTABLE after three years and NON-FORFEITABLE after two years.

Its PROFITS ARE DISTRIBUTED upon an equitable basis, resulting in very much larger returns to "Ten payment life" and "Endowment" Policyholders than under the Uniform Bonus plan pursued by some Companies.

Intending insurers will find it for their interest to EXAMINE CAREFULLY its system and terms before insuring elsewhere.
