## Commercial Summary.

BRANDON, MAN, erected \$250,000 worth of buildings this year.

A VALUABLE discovery of iron ore is reported 35 miles east of Sault Ste. Marie, Ont.

A JOINT-STOCK company has been formed at Aurora, Ont., to manufacture fiberine clothing.

INSURANCE underwriters say that now is the time for the broker to pay up all back premiums.

ARCHVILLE, a suburb of Ottawa, has been incorporated as a village under the name of Ottawa East.

The production of iron and steel throughout the world this year has been the largest ever known.

The number of immigrants to the Northwest is reported from Winnipeg to have been larger by 4,594 than last year.

The city of Victoria, B. C., which in 1881 had a population under 6,000, now claims to have 25,000 people within its limits.

CALGARY, N.W.T., has spent \$282,900 on buildings and public improvements this year and real estate to the value of \$210,000 has been sold in the town.

The year's sealing business in Behring's Sea has been exceptionally profitable. British Columbia's fleet in those waters will next year be much larger than ever before.

The government has called for tenders for a line of steamers to ply between the Magdalen Islands, in the Gulf of St. Lawrence, and the mainland at a point not yet decided on.

The adjoining suburb of St. Henri has put up 257 new buildings this year and added 1,410 to its population, by which the present num-

ber of citizens is brought up to 12,500. The property situated in the municipality is now assessed at \$3,300,310, an increase of \$1,299,431 over last year.

The manufacturing industries of Galt, Ont., will soon be further supplemented by the addition of a shirt factory. The projectors do not ask any bonus or exemption from taxes.

The Sault Ste. Marie & Atlantic Railway Co. will apply for incorporation for the purpose of building a railroad from Sault Ste. Marie, Ont., to Hamilton Inlet, on the Atlantic seaboard.

LINDSAY, ONT., has contracted with a Toronto firm for a complete system of water works, by which water may be obtained in all parts of the corporation. The mains are to be 8 miles long.

WINDSOR, Ont., has put \$300,000 into building improvements during the year, the east end having had quite a boom from the rapid progress of Walkerville's manufacturing industries, and the west holding its own.

This year's apple crop in the Annapolis Valley, N. S., is estimated at 400,000 barrels, the largest ever produced. Prices are good. Montreal dealers are getting their choice supplies from Michigan this season.

PROBABLY the largest procession of dairy goods ever seen in Listowel, Ont., consisting of 123 waggons loaded with about 4,000 boxes of cheese, valued at \$30,000 entered that town one day last week. The boxes were stored to await shipment.

In the fire which consumed the store and stock of J. G. Hilborn, general merchant, of South Woodslee, Ont., on Monday night 16th inst., the only things saved were the books. There was some insurance. Mr. Hilborn was in financial difficulties before the unfortunate occurrence, and this will accelerate his downfall. His brother-in-law, J. F. Ruston, is on his paper to a large amount.

NEW WESTMINSTER, B.C., imported \$38,289 worth of goods last month, on which the revenue was \$10,402.69, compared with revenue collections of \$2,258 92 in November, 1888, which evinces an increase of \$8,143.77—quite a satisfactory showing.

The condition of the cattle on the ranges of Alberta Territory is said to have never been better at this time of the year, the grass being thoroughly cured and of unusually excellent quality.—Building prospects are good at Regina, N.W.T., for next season.

The Owen Sound & Lake Huron Railway Co. will ask for incorporation in order to build a railway from Owen Sound, Ont., to Goderich, on Lake Huron, via Tara and Paisley villages, and from Goderich to another point on the Lake near Kincardine.

A TRAIN carrying \$25,000 worth of poultry recently left Ottawa for Boston via the Canada Atlantic Railway. It consisted of 16 cars.—The Canada Atlantic Railway will next summer erect new workshops at Clark's Island, near Valleyfield, Que.—Ottawa's civic assessment for next year has been placed at \$17,110,000.

The gross debt of the Dominion at present is \$287,722,062. The revenue for this year has been \$38,782,570, the largest in the history of the country, and the expenditure \$36,917,834. Licenses for American fisherman—which do not allow fishing within the 3-mile limit, afforded \$9,985 revenue compared with \$3,831 last year.

AMONG the handsome and practical calendars received this season are those of Morton, Phillips & Bulmer, the Western Assurance Co., the Eastern Assurance Co., the Insurance Co. of North America, J. L. Goodhue & Co., Danville, Que., and Geo. Gale & Sons, of Waterville, Que., the last containing a fine engraving of Niagara Falls.

CAPE BRETON's coal output is rapidly increasing, 745,000 tons having been mined this year, compared with 240,000 tons in 1879. Of this amount Sydney and North Sydney exported 460,000 tons this year,

against 140,000 tons in 1879. About 2,550 vessels of 250,000 tons tonnage, employing 24,000 hands, were required to carry this year's shipments.

MR. D. J. STEWART BROWNE, late of the Glasgow & London Fire Ins. Co. in this city, is said to have practically concluded to drop the case for libel against that company. He announces his intention of abandoning further efforts to organize a mutual fire company in Montreal, probably because of what was said publicly in court, and will shortly take up his residence in New York.

The Hereford Railway Co. will apply for authority at the next Parliament to construct a branch railroad to the village of Scotstown (Que.) and telegraph lines along the main road and its branches.—The Chambly (Que) Manufacturing Co. will apply for incorporation at the next Dominion Legislature.—A company to build a railroad tunnel under the St. Lawrence at Quebec will apply for incorporation at the next session of Parliament.—The Lindsay, Ont., Stone & Lime Co. with \$100,000 capital stock, and the Hawthorne Woollen Co. of Carleton Place, Ont., with \$60,000 capital stock, have been incorporated.

In the enterprising town of Berlin, Ont., 686 houses were erected in the last four years at a cost of \$832,950—144 buildings valued at \$177,475 in 1886, 191 buildings valued at \$208,300 in 1887, 157 buildings valued at \$183,825 in 1888, 194 buildings valued at \$263,350 in 1889. A system of water works costing about \$100,000 and a \$40,000 street railway to Waterloo have been constructed within two years past and an electric fire alarm system is now being put in. There is also a large increase in the population, which is now estimated at 9,000. Notwithstanding that public improvements have been in accordance with the town's growth, the rate of taxation is only 1 1/2 mills, which is considerably lower than that of most municipalities in Ontario.

M. F. Eagar, wholesale drugs, of Halifax, has made an assignment. His liabilities are about \$16,000 direct, outside of preferences and about \$7,000 indirect. In assets he has his stock valued at \$20,000

and a quantity of book-debts. The cause of the failure is stated to be the forced repayment of loans contracted previously and as he also lost heavily by the failure of a customer, this brought on a crisis.—N. R. McDonald, a small general storekeeper, of Lismore, N. S., is in difficulties.—Edward Price, a small shoe dealer, of St. Stephen, N. B., has assigned.

We have no less than eight failures to record in this city during the past week. Edouard Lefebvre, dry goods merchant, has assigned. He started business in 1873 in partnership with the late Zephirin Viau, and at his death in 1886 compromised with his creditors at 50 cents in the dollar payable in 3, 6, 9 and 12 months on liabilities of \$20,900. Since then he has barely held his own, and now assigns again with liabilities of \$11,000.—M. Aird & Co, boot and shoe manufacturers, have been served with a demand of assignment. This firm started in 1882 as Aird and St. Jean. In 1883 it became Aird and Arpin, who dissolved in 1885. He then started in his wife's name as James Aird & Co., which business she seized in 1888. In January 1889 he started once more in his wife's name as "Jas. Aird" in coal and wood; which he gave up in April last to start boot and shoe making again; evidently without success.—The Armstrong Photo-Engraving Company have assigned with liabilities of \$3,500. The cause of the failure is attributed to the steady losses at the photographic gallery at the West End which swallowed up all the profits of the engraving business. Armstrong is a good workman, but easy going, and not overburdened with energy.—Phileas Desormiers came to this city from St. Lin and opened in the hotel line. He sold out in December 1889 for \$1,100. He then started in coal and wood, but has not proved successful. He owes \$3,000.—F. L. Guertin, furrier, was formerly with J. Coristine & Co. He started in Sherbrooke in 1886, as Langelier and Guertin. The firm dissolved and Guertin came here. He did only a small trade and now assigns with liabilities of \$2,200.—Elie Rochon, a master carter, assigns with liabilities of \$9,600. His embarrassment arises from building more houses than his funds permitted him to carry.—F. X. Trudeau, a cutter by trade, started in the tailoring trade in May

1885 with a capital of \$200. He has not proved successful and assigns with liabilities of \$2,900.—Helene Chalifoux, a small milliner of this city has assigned. She owes \$700.

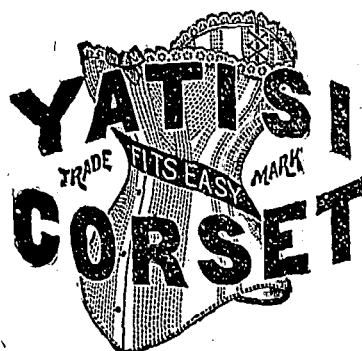

ASSIGNMENTS have been plentiful in the Province of Quebec this week—no less than twenty-one being reported. B. Belanger & Frere, of Angeline (or Canrobert) started a general store in 1887 with a very fair capital. One was a civil service employee and the other a farmer. Neither knew much about the business and as a consequence they have assigned.—P. L. Lanouete & Co., general storekeepers of Batiscan, have assigned. Lanouete opened in 1886 with E. Labissoniere, who failed in 1888. The estate was sold to Labissoniere at 73½ cents on the dollar, for stock, and 50 cents for book debts. Lanouete started again, in his wife's name, under the above title, but his success was never probable, and losing some \$900 by a fire he offered to settle at 50 cents in the dollar, which was refused.—J. A. Allard, shoe dealer, of Hull, has been a long time in business, making a living and no more. He has now assigned owing about \$1,900.—N. A. Mansfield, general storekeeper of Cowansville, was a farmer who became a partner in Trudeau and Mansfield. They dissolved and he continued alone, but without success. He failed, and the estate paid 50 cents in the dollar. He resumed again, but we now hear of another assignment with liabilities of \$4,000 and assets nominally worth \$5,400.—Mrs. E. D. Marceau, general storekeeper of Isle Verte, has assigned. Her husband, a farmer, failed as a storekeeper in 1888, and since then the business has been run in her name.—J. S. Kennedy, general storekeeper, of Knowlton, started about two years ago. He has never done much and his present failure has been discounted.—Joseph Beaudoin, general storekeeper of St. Luc, has assigned with liabilities of \$2,500. He compromised in March, 1888, at 30c. in the dollar, secured, and was supposed to have done better of late. Still his credit was always limited.—Noel & Co., hardware dealers, of Quebec, are offering their creditors a settlement at 50 cents in the dollar payable in 3, 6, 9 and 12 months.—Didace Bonnin, contractor, of St. Antoine, recently offered his creditors a small composition which was refused. He now assigns with liabilities of \$13,000 and assets, worth \$10,000 nominally.—Ambroise Leblanc, a small grocer, of Quebec, has assigned after a ten years struggle to make a living. He owes some \$1,200 and claims assets of \$1000.—P. O. D'Antuil & Co., dry goods merchants, of Quebec, have assigned. D'Antuil started in 1884, succeeding his employer, whose estate he assumed. He failed four years later with

liabilities of \$50,000. An offer of 65 cents in the dollar was refused. The stock was sold out and bought in by his wife and until her death the business was run in her name. He then took in a partner, but never was able to make a success. The firm now owes \$21,000.—L. N. Boisclair, of Nicolet, and P. Blais, of St. Flore, two small storekeepers, are in difficulties. Boisclair is offering a settlement at 50 cents in the dollar on time.

TORONTO this week comes to the front with a list of ten assignments. P. Curran, hats, compromised in 1888 at 55 cents in the dollar, spread over 12 months, on liabilities of \$7,000. He has failed to meet one of the payments and is compelled to assign again.—M. Foley, an upholsterer, has been struggling along for some time past, but trade in his quarter was too badly cut up to allow him to succeed. He owes \$2,500 and shows assets of \$1,200.—E. E. Hamilton, wholesale boots and shoes, recently called a meeting of creditors at which he made an offer of 50 cents in the dollar. This was refused; the creditors holding out for 60 cents. He now assigns owing \$60,000 and showing assets nominally worth \$50,000.—Robinson & Boyd, roofers, have recently been succeeded by the new firm of Robinson and Egan. There were some old matters that could not be settled however and therefore the firm assigned.—J. B. Wilson & Co., dry goods, have obtained a settlement at 40 cents in the dollar.—C. A. Ashford, a fruit dealer and H. Hendershott, fancy goods in a small way, are in difficulties.

The number of small failures in Ontario this week is a most legion. Among the assignments are R. Williams, hotelkeeper of Brockville; Henry Wells, harness maker of Kingston; Rachel Hunter, fancy goods, Listowell; Alex. McIntosh, general store, Minden; Thos. T. Lalonde, shoes, North Bay; J. E. Buchanan, storekeeper, Peffers; H. Chester, printer, Plattsville; F. H. Hopper, butcher, Richmond Hill; Mrs. Darrach, furniture, Stayner; C. A. Owen, tailor, Streetsville; G. H. Keyes, confectioner, Wallaceburg; Alex. H. Davidson, grocer, Warton; Donald McKechnie, grocer and crockery, and S. M. Robinson, dry goods of Georgetown; S. Burnham, butcher, Mount Albert; Hugh Stewart, harness maker, Norwich; J. A. McConnell, trader, Rawdon; W. D. Towell, bricks, Richmond Hill; C. Armstrong, confectioner, Trenton; Mrs. Norris, milliner of West Lorne; Wm. Brown, storekeeper, of Petrolia, was formerly a farmer, but sold his farm in the spring of 1888 and bought a grocery with the proceeds. As he had no knowledge of the business he hired a man to run it and between them they seem to have run it into the ground. He has assigned.—D. W. Edgar was formerly a hotelkeeper at Lyndhurst, Ont., but sold out and went into groceries. He now forms one more

in the list of the unsuccessful—John A. McGregor, commissioner and coal, of Windsor, seems to have been losing ground for some time past. He has now given up the struggle and assigned.

We learn from the London Review that Mr. J. B. Moffatt, late of the London & Lancashire, has accepted the entire management of the Manchester Fire Ins. Co. The Manchester has been taking an occasional bite at American risks in California and New Jersey, but now that it has a manager who understands foreign business, it is not improbable that it may ere long enter the American and the Canadian field in a regular way. Here is a possible chance for any company awary of the strife.

LORD CHIEF JUSTICE COLBRIDGE was given an opportunity at the recent trial of the case of the Mutual Reserve Fund Life Association vs. Reid in the English courts, which may never again occur to him, of opening up and dissecting the whole system of assessment assurance, and particularly the methods of that triton among the minnows of the school presided over by E. B. Harper of New York. His dereliction is perhaps due to the fact that His Lordship is a trustee of the Legal and General Life Association and was seized with a sense of

fair play to an opponent. At all events the Mutual won the case. And now Mr J D Wells, Canadian agent of the latter in Montreal, dips his pen in pickle and proceeds, in the Toronto World, to lacerate and rub it into a western contemporary, whose denunciation of the system, whatever of reason it may have on its side, has been characterized less by judicious criticism than by that intemperateness which convinces nobody, but tends rather to advertise the institution in question, to disarm opposition and lead moderate people into an attitude of toleration. We do not yield to any journal in Canada in our recommendation and defence of the old and tried level premium system, with its adequate reserves, large profits to policyholders and its profitable endowment plans; but we none the less wish to bespeak fair play for this licensed stranger within our gates, and we doubt whether any of the old staunch companies over-appreciate a championship which assumes any other attitude. In proof of this we need only point to the series of articles published in the columns of the JOURNAL OF COMMERCE during the months of February, March and April of the present year, under the caption of "Life Insurance—Its General Principles and Several Systems Popularly Explained," in which are contrasted, in simple and concise form, all the characteristic features of the several systems of life assurance.

STRATHROY NOTES.—The electric light has just been introduced into the town of Strathroy, and proves, after two weeks trial, to be quite a success. The streets are brilliantly lighted every night till 12 o'clock at a cost of 25c per light of 2,000 candle power. A system of water works is also in contemplation, when the town will be in a position to offer facilities to the fruit canning establishment and other industries which are proposed to be established there during the coming summer. The fine new post office and custom house in course of erection on the corner of Frank and Centre streets is nearing completion. The roof is being placed in position, and the tower which is to be 85 feet high, is within a few feet of being finished. An appropriate clock is to be placed in the tower. The material is of red brick with heavy stone facings, and the building when completed will be, not only useful and convenient to the business portion of the town, but a handsome architectural ornament. The cost is \$30,000. The above is deemed by many, according to our correspondent, as a reward for

the large majority of votes recorded in favor of the Government candidate at the last Dominion election. "As Strathroy appears to retain the balance of power during political elections, in West Middlesex, the people have decided; apparently, to exercise it at all coming elections for selfish, but useful and necessary purposes. I have pleasure also to report, the Ontario Government, has in contemplation the erection of a Normal School in Strathroy. As the educational facilities here are now second to none in the Province, the Government are to be congratulated on the selection of this town for the purpose. Our Collegiate Institute, with its staff of six first-class teachers, at present stands at the head of the list of all the institutes in Ontario, this fact also proves, that in view of an early Provincial general election, it is necessary, and in accordance with the fitness of things, that the Ontario Legislature, should not be wanting, in contributing its share of good things to the town, seeing that the Hon. the Minister of Education represents us in the Legislature." Mr. F. B. McKinnon, late of the firm of Grant and McKinnon, dry goods merchants, is opening out in the store lately occupied by Foreman Bros., with good prospects of success.

The property of Guelph, Ont., is assessed at \$3,303,440 and the population has advanced to 10,548.

## Journal of Commerce.

MONTREAL, DECEMBER 27th, 1889.

### THE BREADSTUFFS DUTIES.

The discussion on the subject of the equalization of wheat and flour duties has been prosecuted more or less actively in Ontario, with little reference to an important class—the consumer. The millers, of course, are annoyed at the large importations of American flour, and either want the duty on flour raised or that on wheat lowered. In the former case the general consumer would be the victim and in the latter the farmer.

The question is one that should claim the close attention of public men, as any legislation which affects the price of the 'staff of life' is of no slight importance. So far, little thought seems to have been devoted to the subject in this Province, although it is more than probable that some attempt will be made to revise the duties at the next session of Parliament. A rather absurd step was recently taken by the Farmers' Institute of East Huron on a resolution which was before it, requesting the Dominion Government to place a duty of one dollar a barrel on flour until reciprocity in farm products is obtained with the United States. How our farmers could hope to compete with the United States in the great staples of the farm, such as wheat, corn, oats, butter, cattle, &c., under reciprocity, we fail to see; but the institute went further and shelved the question before it by condemning the tariff wholesale and demanding its repeal. This was really an evasion which could help nobody. The millers find they are losing ground, and if the interests of the millers and the farmers are inextricably bound together as it is claimed they are, they should act in concert and act sensibly. When the claims of the flouring industry were before the Dominion authorities on a former occasion, the

Toronto

case was presented in so poor a light that it was not entertained. They have, it appears, since attempted to enlist the sympathies of the farmers, but the proverbial grumblers who generally force themselves to the front in the assemblies of the "lords of the soil" have been a source of trouble and mischief rather than of assistance.

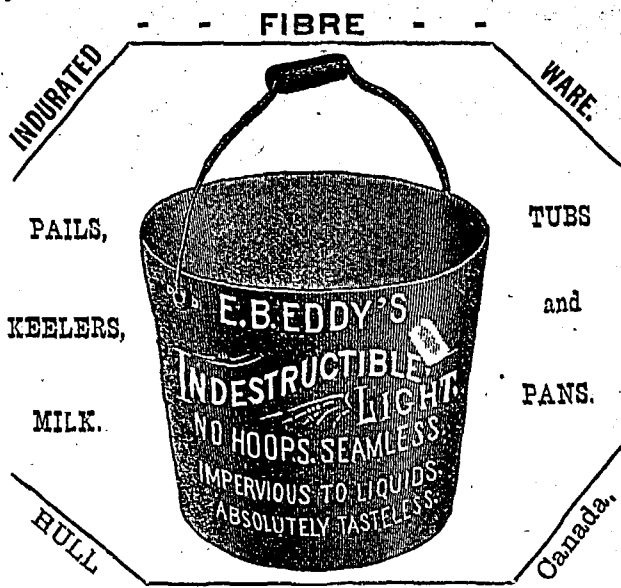

The object of the duty on flour was to retain the home market to the local wheat grower and miller, and for some years the duty of 50 cents per brl. sufficed to keep down the imports of the foreign product. The duty of 15 cents per bushel on wheat was also effective for a time, and in a season of short crops he was enabled to obtain compensating higher prices for his wheat, instead of suffering from low priced American grain, duty free. Instead, however, of importing wheat we have lately imported American flour quite extensively, and every barrel of flour displaces four and a half bushels of Canadian wheat. At the time the duties were fixed the millers themselves said that 50 cents per brl. on flour was sufficient protection, although the equivalent rate to the duty of 15 cents on wheat is 67½c. While injuring the farmers the duties as at present have also borne unjustly on the flour industry. Our imports of flour were 169,629 brls. in 1887, 62,482 in 1888 and 264,723 in 1889. The cheapening of transportation in recent years has been to the advantage of the American competitor.

The secretary of the Millers' Association has unearthed the fact that when the duty was established the freight on flour from St. Louis to Toronto was 60 cents per brl. while now it is but 30 cents; freights from Minneapolis are also much reduced, while from Ontario points to Montreal and Toronto no great change has taken place to compensate for this. The effect of the duty on wheat may be thus briefly stated. Before the duty, an average of two million bushels of wheat was imported for home consumption, while since then the annual average has only been 143,240 bushels. In the five years, 1875-9, the quantity of American flour brought into the Dominion was 1,993,491 brls., which, on the basis of five bushels to the barrel, represents 9,967,455 bushels of wheat imported in the form of flour. In the five years, 1884-8, the importation amounted to 1,504,734 brls., equal to 7,523,670 bushels of wheat.

The tariff, therefore, while shutting out wheat allows the manufactured article to come in to the detriment of both farmers and millers. It seems strange that the millers and farmers cannot unite on a common ground: but so long as they disagree, as they seem to, the public will probably leave them to struggle with the question alone and be thankful that bread is cheap no matter what domestic interests, either agricultural or industrial, may be the sufferers.

#### THE COLLECTION OF DEBTS.

The collection of open accounts has always been a most troublesome feature in business affairs, but it is doubtful if ever in the history of Canada a larger proportion of the people were so indifferent about what they owe as at the present time. The occasional bad harvests of the decade and the generally low price of grain have furnished the farmer latterly with a ready excuse for the postponement of settling day, and the storekeeper, grown accustomed to renewals granted by the wholesale dealer for the same cited reason, has also become indifferent, preferring to endure the occasional letter, couched in terms of sorrow rather than anger, sent him by the wholesaler, to making any exercise of pressure which should endanger for himself the custom of the farmer (and his friends) even though he knows that the latter has money at interest in the nearest bank, and which he prefers leaving undisturbed rather than pay up,

while he borrows (practically) from the storekeeper, "long suffering, slow to wrath," and goes on purchasing his share of another season's goods. It is fortunate that the great majority of dealers are not of this class, else it would go ill with the trade of the country. Many are fortunate in having their business in a manufacturing town; others are in the midst of a prosperous and thrifty farming community who know the advantages of prompt settlements to the purchaser—that they can make more than the interest in buying for prompt pay—while many of the more fortunate are in the large cities where the various trades support one another and benefit by the distribution of domestic wages, clerks' salaries, dividends and other incomes. Storekeepers thus situated are not called upon so generally for credit, but many of them are apt to allow themselves gradually to become fitful and careless in collecting their accounts, fearing to offend some so-called "good customer" with tight purse strings.

Now it is highly important that merchants, wherever situated, should begin to think of inaugurating a new departure as far as possible in accustoming their friends to more prompt settlements of their accounts. A pull-up must be made somewhere; the line should be drawn before it extend too far and precipitate a crisis. The present large proportions of discounts shown by the Bank Returns are not altogether attributable to a healthy business growth. That the country is making rapid strides in prosperity is evidenced on many hands, and not least by the increased returns of our two great railway corporations, which notwithstanding the largely increased competition, continue to show a gradually swelling volume of traffic and net earnings. The only fear to the general trade of the country is from progressing at too rapid a rate, because credit from being so easy is in some little danger of degenerating into and encouraging recklessness in business all round. There is among some wholesale dealers an indisposition to dwell upon or cry out against the present condition of indifference in the public mind to the prompt payments of accounts, through fear of the effect of its example on the minority; but it is doubtful whether the evil had not better be met squarely and dealt with before it is too late,—before the remedy which other dealers of a more pessimistic turn consider inevitable, has become needful. Many are of the belief that the credit system will not be restored to a healthy condition until some crisis is reached by which confidence will be dealt so severe a blow that it must be re-established upon some new and more equitable basis. Our cousins to the south have accomplished the change without any very serious disaster, and there is no reason why it should not be tried in Canada. Our manufacturers have been moving in the matter, and it is to be hoped that the cotton men—as noted last week—may succeed in their proposed efforts in this direction next spring. It remains to be seen how such practices as "dating ahead" to an extent which practically means a year's credit will endure the innovation. But the cotton men have before them a task more herculean than any referred to publicly at the late meeting.

Our attention was directed to this subject lately by the advertisement of a "west-end dressmaker," some one of three or four, who in general terms warned certain lady customers that unless they paid up within a stated time, exposure and legal pressure should be resorted to. The number of respectable women, the

wives of well-to-do professional and business men in our large cities, who never think of being out of debt to the dressmaker and the storekeeper and even their domestic servants, would surprise the other half of the world, who do not look upon the prompt payment of their just dues after the manner of ancient Pistol. Doubtless the poor advertising dressmaker had waited season after season for payment from some of these dames, years probably after the money had been furnished by the husband and expended doubtless for something which called for cash payment. Nothing would be more surprising to many a Montreal dressmaker than to receive payment for her work immediately after delivery, or even upon rendering her account. It is often surprising how many of them manage to eke out a living.

The long credit customary in some of our large retail houses is rendered possible by adequate capital and the very satisfactory prices which they receive for their goods. Let anyone ready and willing to pay cash make the experiment, and he or she will be surprised at the rate of interest which such borrowers are made to pay; for not only must the retailer charge an extra price for long credit—but he must, if a prudent man of business, make a further charge for the risk of bad debts. The increase in the number of doubtful accounts on the books of storekeepers all over the country has led to the establishment of collection agencies in our principal cities. To those of our readers who have made inquiries concerning some of these institutions lately, we would say that their accounts when impossible of collection otherwise are, as a rule, safer in the hands of some respectable and active lawyer. But we fancied that this subject had already received sufficient treatment in these columns, and that a word to the wise was enough.

In conclusion let us hope that every business man in Canada may resolve that he shall begin the year 1890 by using every legitimate pressure to make all his slow customers pay up, that he shall set an example himself by remitting every little sum that he owes without delay and start every \$2, \$5 or \$10 as the case may be, on its way, like the apostles of old, going around doing good. Small accounts are the bane of business; they cost to collect often more than they are worth. A general settlement of even small accounts all round by those who can pay would bring about an improvement in trade that would prove a pleasing surprise to the business community at large.

#### THE HEAVY METALS.

If every other branch of commerce in this country showed the strong position and advancing tendency of the iron and heavy metal trade we should have a very favorable condition of business to report. Not one single staple line in this important department of Canadian commerce shows the slightest suspicion of weakness. All are strong and on the eve, it is felt, of a further advance in values. In fact holders have now the situation practically in their own hands, and if but little business is doing it is simply because buyers are as yet unwilling to meet holders views; although they are well aware that they will have to pay still higher prices for their supplies before the opening of navigation.

In England the great strength of the position of the iron market is evidenced in the fact that, in spite of dear money and the holidays, not the slightest break in values is visible. Warrants are going up, and makers iron is fully holding its own. In Glasgow warrants are quoted at 61s 7d, and Middlesboro iron stands at 62s 3d. Holders are confident and there is no sign of weakness. In the United States a similar condition of affairs is manifest. Spot warrants are quoted at \$13, and the tone of the market is firm and buoyant. One of the most striking results of this advance in the value of pig iron has been the steady influx of American pig iron into Ontario. This iron is about equal to No. 1 Summerlee and can be laid down at about \$26.50 per ton, net cash, in Toronto, Hamilton or London. None has as yet come to this city, although one of our firms recently purchased 1,000 tons for delivery in the West, but a very large quantity has already crossed the Ontario frontier and it seems to be daily growing in favor with Western foundries.

Manufactured iron has, of course, shared in the advance of crude. The better grades of imported bar iron are now all held at \$2 75, and although Canadian bar can still be obtained at \$2 50, a rise is expected daily. Hoop iron has advanced to \$3.00, and galvanized iron (Queen's head or equal) has risen to \$5 75 in sympathy with the advance of £1 recently cabled from England. Nor are the other heavy metals far behind iron in buoyancy. Zinc—both in sheet and spelter—has risen sharply on

the other side of the Atlantic and is held here at \$6 50 for sheet and \$6 25 for spelter, and copper is very strong. The guarantee of the mining companies not to allow the price to fall below 13 cents has been more than fulfilled; for this metal now costs 14½ cents in New York and although we still quote it here at 14½ cents this is simply because one or two houses hold supplies purchased in some instances at 11½ cents and are willing to take a handsome profit instead of putting prices up to the New York level. When these are exhausted, copper values will go up again: for at present we get no English copper, and all our supplies of this indispensable metal are derived from the United States.

In tin plates a similar condition of affairs is manifest and prices are simply kept down because one house can still sell profitably at existing figures. The trade extras for "crosses" have been advanced from \$1 to \$1.25; but for ordinary cokes and charcoals prices are still \$4.50 and \$4.75 respectively, while ternes are held at \$5.25 to \$8.50.

Iron and the heavy metals seem thus to command an exceptionally favorable position in the mercantile world. A steady and strong demand has naturally resulted in higher values and greater confidence. The revival in shipbuilding and the large demand for steel plates, coupled with extensive Government orders, have placed the market in a most healthy condition. The only rock ahead is the fear lest the advance in prices may so stimulate production that the market may again be swamped. It is well-known that England can produce far more iron than her industries can consume, and that the present cheering condition of the market is simply due to the judicious limitation of the output by the makers. If this limit be exceeded the market will soon be once more flooded with iron, stocks in the yards will pile up, and we shall enter again upon a period of low prices and depression.

#### ENGLISH INVESTMENTS IN THE UNITED STATES.

The great increase in English investments in the neighboring republic and the new direction they have taken have naturally created considerable attention, if not surprise. It is of course known to everybody that many millions of British gold have been sunk in American railways, mining properties and cattle ranches in years past, but there is a tendency now to drift away from railway securities although perhaps not to any great extent as yet. It is certain that these investments have not turned out particularly fortunate except to the holders of prime securities. If it is true, as claimed, that British investments in American flour mills, breweries, iron works, paper mills, etc., are almost entirely additional to the usual investment, the excess is most remarkable. The reasons for the change have been carefully investigated by an American contemporary and may be summarized as follows:—1. The current unusual activity and profitability of trade in Great Britain no doubt leaves much more than the ordinary surplus of earnings to seek a fixed form of investment. 2. The prosperity of business in the United States, and the more conservative spirit and the more perfect methods with which trade is now conducted are factors standing out in such marked contrast with what is witnessed in the impoverished and tax ridden countries of Europe, that it is natural that American industries should command a much higher degree of confidence abroad than they have hitherto enjoyed. 3. The present unsettled condition of European politics must create distrust towards a large mass of Continental and Eastern obligations. 4. The better class of English investors, who have been the leading holders of government securities, have, by the recent development of industry, been educated into a higher appreciation of commercial investments. 5. Some investors probably anticipate that the end of the United States' exclusive commercial policy is not far off and that such a change would increase American competition abroad and endanger British industries. 6. The landed proprietors see the necessity of realizing on agricultural properties, the rentals of which have fallen to nearly one-half their former rate and which barely pay 1½ per cent. These conditions are compelling a diffusion of the commercial spirit and making large numbers willing to draw dividends from trade who formerly had no confidence in anything but land and consols. 7. The course of home politics in England is unsatisfactory. Both great parties have shown a willingness to form unnatural alliances and to barter their principles for votes: Socialism has made great progress.

The reasons here adduced fully account for enlarged investments of British capital on this continent and it is important that redoubled efforts be made to interest Englishmen in the

Dominion. There are ample opportunities for the profitable employment of money, aside from the wild cat enterprises which have been occasionally floated in London to the great injury of Canada. The permanent nature of the investments made in the United States should not be lost sight of. Immense premiums have been paid for sound, prosperous establishments and so large have been the purchases that the buyers practically control the whole output in the particular line. It is not likely, however, that the new comers will long have things their own way. The sellers having got immense prices for their property will be in a position to set up better and newer plant than the old, and the new establishments will offer formidable competition. The purchase of "good will" at a heavy cost is not likely to be effective as the temptation is too great and such obligations are easily avoided.

This movement of English capital is of great interest to Canada as well directed ventures in varied industries, and in mining, ranching, lumbering, shipping, etc., which capital can alone support, are urgently needed to develop our country's resources and help us on the road to greater prosperity.

THE NEW MILLION DOLLAR LOAN.

In a few days our citizens are to be called upon to vote on the by-law authorizing this loan for so-called harbour improvements. We are not alone in the opinion that the money if spent as at present proposed will be in a great measure wasted. If we must have a tunnel through the Lill represented by Notre Dame street, why make it at a point where the elevation is at its widest and where the tunnel will consequently require to be longer than at any of the equally convenient points further east. This whole question of harbour improvements requires further consideration and digestion before we can profitably commence work. We want first to agree upon a finished plan of what is to be done to make the port equal to the demands of trade, for at least a generation to come, and having agreed upon such a plan, all work undertaken should have the completion of such plan in view.

The first and great object, from the city's point of view, is naturally the prevention of floods, and this it is proposed to accomplish by means of (in effect) a wall high enough to keep the water out. There is certainly nothing very scientific or 19th century like about this. Before resorting to such a manifestly crude method of prevention, why not give at least a trial to the scheme advocated by men who have made the river and its annual overflowings a life-long study. We know that all the mischief is caused by the ice coming down from the west before the passage is clear for it to pass on down the river, and we know, or have good reason to believe, that if this ice could be kept back there would be no danger of flood. To give the advocates of the piers at Isle Perrot a chance to prove the soundness of their opinions would cost comparatively little. One year's interest on the million dollars would meet the outlay, and if the work accomplished what is claimed for it, we should have so much the more money to spend for other improvements.

Then as regards increased harbour accommodation for vessels, why disturb the few existing piers and wharves that we have. They will in a few years be no more than enough to accommodate the river and lake boats running to and from the city. Let the improvements be made in the form of additional wharfage above McGill street or below the Quebec gate station, and let these new wharves be constructed in such a manner and of such height from the river's summer level as will be most convenient to the vessels they are intended to accommodate. Widen the channel in front of the city indefinitely until every obstruction is removed, except St. Helen's Island, and we should then have a harbour second to none on the continent. Imagine the sheet of water from the Hudson Cotton Mills to Victoria Bridge from one to two miles wide, free of all obstructions and 20 feet deep at its shallowest part!

Of course all this means a vast expenditure of money, but what we contend for is that all work undertaken should be made contributory to some definite plan in view such as the above.

These ideas, if adopted, and if found successful, would render unnecessary the present unsightly dyke or any other preventive arrangement in its place. The revetment wall would remain as at present, one of the most substantial and respectable features of the harbour, and if Commissioners street must be widened in certain parts, let it be done on the landward (east) side. It will cost no more to expropriate the buildings that obstruct

traffic and remove them, than it will to create land by encroaching on the wharves and river.

Finally, if we must have a tunnel in the vicinity of Jacques Cartier square from the harbour to Craig street, let it start from the level of the wharf instead of from the top of the revetment wall. The horse that can draw its load from the wharf to this level can take it on to Craig street without the aid of a tunnel.—Com.

THE BANK STATEMENTS.

The statements of the chartered banks for November show a few unimportant changes. The circulation began to contract rather early owing to the limited movement in grain and the open season which afforded farmers a further argument for postponing the day of sale. The area plowed is much larger than for many years past. The most noticeable change is the total withdrawal of the "Government Deposits payable after notice or on a fixed day," required for the purpose of paying off certain indebtedness. The caption may now be dispensed with meantime. Discounts to corporations increased about \$400,000, and Discounts proper \$140,000. These are however nearly balanced by the reduction in "Directors' Liabilities." There is no reason why this item should not be included under the head of "Discounts to the Public." It has no other significance, being simply ordinary banking or business transactions with firms one or more of whose member are directors. These discounts are among the best and safest business of the banks, and their regret is that all of the paper offered for discount is not equally gilt-edge. We subjoin the usual comparative table:—

	Oct., 1889.	Nov., 1889	Nov., 1888.	Nov., 1879.
Capital authorized .....	\$75,779,990	\$75,779,999	\$75,779,999	\$67,266,666
Capital subscribed .....	62,576,999	62,378,499	62,250,399	63,466,633

THE COMMERCIAL TRAVELLERS.

The annual dinner of the Dominion Commercial Travellers' Association, which is appropriately held at a time when all the members are enjoying the brief respite of a few days around the Holiday season with their families and friends; is always looked forward to with pleasure by everyone concerned. And this means not only the more than 2000 members of the Association but every wholesaler in Montreal who, if he cannot attend in person, is certain to be represented by from three or four to twelve or fifteen tried men and true ready as usual to creditably perform the duties of the task before them. To the retailer far and near, the proceedings on the occasion, recorded in his journal; bring to his mind the visits of the man of samples but a

few weeks or months before, of the prompt calls of the pleasant and persuasive salesman who sold him a handsome bill of goods or helped him to sort up his stock, and gave him at the same time sound information, those "pointers" on business affairs which always find a welcome for the experienced and judicious traveller.

After the many trials which beset the commercial man during the season,—and their duty at any time is no ordinary one—it was pleasing to him to contemplate the scene and the occasion at the Windsor on Wednesday last. A large number of leading citizens were present by invitation, not a few of them men,—successful merchants—who had climbed the ladder in the same way in former years, a feature of these annual gatherings that cannot fail to spur to greater diligence and industry those whose footsteps are yet near the lower rungs of the structure. It was not the less pleasing to contemplate these men, the new as well as the more experienced, so ready but a few days before to take every fair advantage of his rival—of a competing house—in getting on the inside track of his fellow-member—now sitting side by side and, if referring to the subject at all, exchanging humorous incidents of his last trip on the road, carrying out in fact the advice of the old professor to his pupils,—To strive mightily but eat and drink as friends. That friendship and good cheer were characteristic of the occasion goes without saying, while in point of numbers, eclat and general success the affair exceeded all former efforts. Some statistics furnished by the new president, Mr. G. Piche, in his opening address, are worthy of note. The association which was founded in 1875, with a little over 200 members, is now over 2,000 strong, comprising some 450 merchants and manufacturers and the balance commercial travellers. During the last nine years there were distributed to members or their families:—\$41,000 for death claims, \$4,200 for sickness and \$4,000 for accident claims. Besides this there was spent for legislation the sum of \$6,000, making a grand total of \$55,200. With all this there is a well invested capital of \$81,000 which they are increasing at the rate of \$10,000 per annum. "With regard to the last item of expenditure, although the beneficial results of the abolition of taxes on commercial travellers is, no doubt, well appreciated by our business men personally, I believe it has never been known that by its our Montreal houses alone effected a saving of not less than \$20,000 a year." The usual loyal and friendly toasts were proposed and responded to. That of the President of the United States was responded to by Mr. Knapp, the American consul at this port, who, if not gifted with the same degree of eloquence and culture as his predecessor, leaves nothing to be desired in this respect, while his sentiments do credit to his head as well as to his heart.

The response to the toast of the "Commercial Interests of Canada," proposed by the vice-president, Mr. F. Hughes, was fittingly entrusted to Mr. J. P. Cleghorn, president of the Board of Trade. In the course of his remarks, he quoted the following statistics which he had prepared, showing the material progress made by Canada in twelve years since the Association was organized:—

	1875.	1887.
Total exports .....	\$77,886,979	\$89,515,811

Mr. J. X. Perrault referred to our position at the Paris Exposition, and stated that had we been more largely represented there, Canada would not have been limited to a single first-class

prize. We regret that the space at our disposal will not allow us to give the full text of the address made by Col Ora P. Patton, whose felicitous remarks, bubbling over with humor and practical wisdom, were applauded and cheered to the echo. Mr. J. J. Curran who, in respect of his eloquence and wit, is the acknowledged successor of the late Thos D'Arcy McGee, took occasion to refer to the banking currency of the country. Had Mr. Curran travelled much of late, he should be aware that the notes of our Canadian banks with one or two unimportant exceptions, are redeemable at par in every part of the Dominion, and are good for their face value wherever presented throughout the country from the Atlantic to the Pacific. It is not a little remarkable that, at a time when our American neighbors are criticising their national banking system—which is admittedly inferior to our own—that public men should be found among us ready to recommend it for adoption in this country. Canadian bank-notes are a first lien upon the assets of the issuing bank, and we have yet to learn of any of the few banks—fewer by far than in the United States—which have failed in Canada during the existence of the charter, that any portion of their circulation has not been redeemed. Even in so severe a wreck as the Maritime Bank, it is claimed that there will remain upwards of \$100,000 for depositors after paying the note-holders in full. But of this more anon.

The proceedings of the annual dinner of the Commercial Travellers' Association were brought to a close after a number of other toasts and responses with songs and music appropriate to the festive occasion.

#### THE BANK OF OTTAWA.

That the remarks made in concluding our review of the annual report of the Bank of Ottawa a year ago were amply justified, is shown by the statement for the current year produced last week. The bank is steadily improving its net earnings, these being very nearly 12 per cent for 1889 on its paid up capital, or about \$4,000 better than for the year preceding. Out of these, two dividends amounting to 8 per cent., were paid the shareholders, and the sum of \$40,000 carried to the Rest, this being now 40 per cent of the capital. The Manager and his Board are to be congratulated on the results of the business of the year. The death of Mr. T. C. Bate led the directors to propose a reduction in their number from nine to seven, which was agreed to unanimously. Messrs. James MacLaren and Charles Magee were elected president and vice-president respectively for the new year.

#### MANUFACTURED SILKS.

Nearly all the silk buyers have now returned to this side, and all confirm the steady improvement in trade now going on in most of the manufacturing centre of the continent. Silks and velvets have not experienced the marked advance that has characterized the manufactures of which wool and cotton form the raw material, but at the same time they have naturally participated to a slighter extent. The prevailing fashion for velvet garnitures has, of course, hurt the silk trade. In fact the better qualities of garniture silks sell but slowly from first hands; but every buyer reports that manufacturers no longer exhibit that desperate eagerness for orders which was so manifest a year ago, that the idle looms are now again in motion, and that the concessions which could be obtained a few months since are now things of the past.

At Lyons the buyers found a brisk demand for the cheaper grades of silks; but in every instance the higher grades are dull and but little called for, with the exception of merveilleux, the surahs and to a smaller extent, the moires. Damasks are called for only in the cheap grades, and heavy broches and matelasses are a drug in the market. Piece-dyed satins are reported brisk and active in all shades and qualities, and pongees are having an excellent run—no looms on this grade being idle, although a splendid cotton imitation is now in the market. Chinas and Marcellines are also doing well; but Pekins and indeed all stripes seem to lose ground, and possibly the popular taste is veering towards plain silks and satins again.

At Crefeld, reports are by no means so good, and, with the exception of staple goods, trade has not come up to the figures of last spring. Damasks lead the market; but only in black. Colored damasks are very little called for and then only when the tram is black. Plain silks are also quiet and the cheaper lines of merveilleux are the only ones in which a brisk demand is visible. Lining and umbrella silks, piece-dyed satins, and

satin merveilleux, are very lively; and the activity in the ready-made cloak and suit market has caused a demand which keeps every loom busy.

In ribbons we can chronicle an improvement all round. Double faced satin ribbons will evidently be the leading article next spring and makers are very firm in their tone. Plain and piece-dyed ribbons are in steady request, and all silk stripes, especially those with a satin back, seem to take well. In fancies there seems to be a decided feeling for small effects. Velvet stripes on an armure ground have gone off well and the call for velvet ribbons in black and colors is fully up to the average.

In velvets, garniture and millinery lines in both silk and cotton decidedly lead in demand. Outside of these the call is for cheap plain velvets. Striped and broché velvets have had their day and are now but little called for. In fact velvet during the coming year will be used almost exclusively for trimming and but very sparingly as a ground fabric.

In raw silk, the situation is very strong. Cable advices from abroad announce further advances. Although the Japan market has not shown any change in prices this week a rise of about 4 per cent. has already occurred in Shanghai and continued firmness is announced from there. The Italian markets are one franc higher than last week, and it is not certain that this is the last advance. The shortness of the last crops greatly helps holders to stand firm, and in this they are much encouraged by the knowledge that consumption of raw silk is comparatively large, manufacturers in Europe being very busy and having already secured good orders for next spring. In Lyons the firmness previously existing had developed into an actual advance at latest mail advices. This advance has been from one to two francs for all the good grades, including Japan silks, while Chinas have improved from  $\frac{1}{2}$  to 1 franc. The volume of transactions is rather large, manufacturers being short of supplies and having to cover in raw silk the orders which they have received for their goods. Asiatics are very scarce and a large proportion of the sales are for goods to arrive. In Europeans a very active and steady demand exists and the higher prices are willingly paid by buyers.

These facts seem to show that it is hardly likely that silks will remain long at present figures. Repeat orders are accepted with great caution, and are often only taken contingent upon no advance taking place before their execution. In most cases no time limit is guaranteed. In fact the manufacturers are beginning to feel that they hold the key of the situation, and consequently they are no longer eager for orders. Cheap silks seem to be considered good stock to carry, and the ideas of holders are very firm. The looms are all whirring busily, and the empty factories of a year ago are now alive with busy work-people. In fact it looks as if (in Europe at all events) the hard times of the past few years were slowly giving way to an era of prosperity, and although there are as yet, unfortunately, few signs of improvement visible in this country, it cannot be long before we feel its effects also.

#### HINTS FOR HOLIDAY PRESENTS.

There are some among us to whom the approach of the holiday season is anything but a subject for rejoicing. Apart from the responsibilities, referred to in a recent article on the subject of Christmas and New Year's presents, everyone is individually concerned in what he, she or they should buy in a small way to present to their friends and relations at this season, and what to choose for the purpose involves no little perplexity. Christmas and New Year's cards are largely falling into disuse, and even the handsome booklets which followed in their wake during the last year or two are likely to be shelved ere long. Every holiday season brings with it a rage for something new, and novelties are anxiously sought for by all classes. The Christmas cards and booklets have been replaced to some extent by a large variety of other goods, and the purse is limited indeed that cannot find some trifle within its reach in the book and stationary stores. In the jewellery and fancy goods shops, silver, plain, oxidized and etched is the fashion. Among the articles offered for sale are the bon-bon boxes, so dear to the heart of every girl; button hooks with long silvered handles, chatelains, purses, ivory tablets encased in silver and silvered spikes for the hair. A novelty in bracelets is a band of silver not more than 1-16 of an inch wide with a quotation from some poet in raised letters around it. Tortoise-shell side-combs edged with silver, and the large silver buckles worn on slippers or built are among the reasonable goods in this line. A silver clasp to prevent the lacing of the low shoe from becoming untied is something that young ladies will appreciate. We notice address books bound in snake or colored lizard. These are made in different sizes and styles of trimming. Toilet articles and sets can hardly be termed novelties, unless on account of the great variety of the new designs. No fashionable dressing table is considered complete without a silver backed brush, comb and mirror.

Vinaigrettes are shown in odd combinations. One is a vinaigrette and bon-bon box combined, the perfume being contained in a hollow surrounding the receptacle for the confectionery. Another is hardly thicker than a match and is curved to fit the palm of the hand, so it can be tucked away under the glove. Another artistic production of the jeweller's art is a bottle three inches high and half glass and half silver. This is intended for what is known as a "pocket pistol," but we doubt whether any lady young or old in Montreal would wish it to be known that she was armed with such a weapon. In Chicago they are said to go like wildfire.

Among the articles for gentlemen most in vogue are letter-openers, pocket-scales, key-rings, book-marks, match-boxes, cigarette-boxes, shoe-horns, cigar-cutters and glove-buttoners all in every variety with many other more or less expensive articles. Collections of tea spoons, each of different pattern, is one of the latest fads. What is known as "apostle" sets are still in considerable demand for Christmas presents. The end of each handle has upon it the head of one of the twelve. Dainty doyleys, a cup and saucer and miniature sugar tongs always form a welcome present for the holiday season. Baskets, square, round and oblong with covers and without them, are shown in every variety. When decorated like some shown they are rather expensive, but a lining of some expensive silk, a bunch of flowers or a bow of ribbon is often all that is necessary with a touch of silver or gold paint upon it here and there to give it character. Photograph albums and cases are still in as great demand as ever. They appear in every variety, from the beautifully bound Morocco cover to the handsomest cardstand framed with ivory or celluloid. The parts are held together and joined at the back with a lacing of silk cord. Devices for holding handkerchiefs are shown in every variety, and are as dainty in some cases as the handkerchiefs themselves.—If the foregoing brief sketch contain a hint to some perplexed purchaser, looking for some appropriate present for young or old, it will not be penned in vain.

**HABERDASHERY.**—It is not surprising that the ordinary keen competition among retail haberdashers, for some time in Montreal, intensified, as it is, by the inducements of insolvent stocks, should have suggested to legitimate dealers ideas of obtaining their supplies at a reduction from best terms hitherto. In goods imported from the continent of Europe there is occasionally an opportunity of what is called "working it on the Customs," but as this calls for keen co-operation, it follows that with people who still retain some degree of regard for the sanctity of an oath or affidavit, such schemes may "gang a-gley." Errors, again, will occur occasionally in the best regulated system of invoices, and custom house officers are inclined to be too inquisitive and critical. We do not pretend to say that the above remarks apply in any degree to Mr J. J. Hauman, haberdasher of this city, who recently moved from the shadow of the parish church to that new structure with the monumental facade on St. James street. At all events a first seizure of English underwear, amounting to about \$400, was made a few days ago under authority of the Department of Customs, while further invoices covering a much larger amount are now under examination by the authorities.

**ANOTHER GREAT RAILWAY MOVE.**—A despatch from East Saginaw, Michigan, to the Chicago *Inter-Ocean* is to the effect that arrangements were perfected a few days ago in New York and East Saginaw for a permanent route by rail and water from Minneapolis to the seaboard, the Flint and Pere Marquette Railroad Co. being the principal agent in the agreement. It is proposed, in connection with the Green Bay, Winona and St. Paul Railway and the Milwaukee, Lake Shore and Western, to establish a line by way of Manitowoc, Wis., Ludington and Port Huron, Mich., over the Grand Trunk Railway of Canada to New York by the Delaware, Lackawanna and Western. The distance to New York by this way is claimed to be thirty-four miles shorter than by any other route.

THE CASE of David Campbell, now in York, late of this city, referred to the 22nd ult., and who was tempted to take liberties with some of our banks which brought him under the operation of the too limited extradition treaty, is now undergoing formal examination in that city in preparation for his return to Montreal. The Merchants Bank of Canada and the Merchants Bank of Halifax co-operated in bringing the fugitive criminal to justice, but though the action is an expensive one, the example is well worth the money, and both banks deserve well of the community for their energetic treatment of the case.

IT CAN hardly be doubted that any new departure resolved on by any of the large life insurance companies has been thoroughly discussed and weighed before placing it before the public. It can be no less doubted that any such departure from the beaten paths will invite and receive a due share of adverse criticism. And why not? It is by discussion—but it should be impartial—that the people are educated. It is upon this ground chiefly that our American neighbors defend the ferment of quadrennial elections.

TO EACH of its many thousand readers the *JOURNAL OF COMMERCE* sends seasonable greetings, with best wishes for a Merry Christmas and a Happy and Prosperous New Year.

THE stock of G. H. Keyes, Wallaceburg, Ont., referred to elsewhere, has been sold at 60 cents in the dollar.

### Financial.

MONTREAL, Thursday Evening  
December 26th, 1889.

The stock and money markets have displayed their usual holiday character at this season and owing to the dullness very little

MONTREAL OFFICE:

91 TEMPLE BUILDING,  
ST. JAMES STREET.

can be said. Prices continue to show a firm undertone, but in consequence no doubt, of the small amount of stock held on margin rather than anything else. No stock whatever has come to the front in point of activity and it looks as if we shall have little change to note until after the turn of the year. The Christmas holidays have, of course, greatly restricted the business of the Board this week, but there is no speculative spirit. Money is in good supply at from 5@6 per cent. Scarcely anything has been done in sterling and rates are nominal. Richelieu has subsided from last week's activity, but the 'bulls' claim that it will take a sharp advance this spring owing to the favorable statement which they allege will be published at the annual meeting in February. The rumored changes contemplated on the board of directors continue to attract talk on the street. Several names have been mentioned, but so far this amounts to nothing; however it is likely there will be two new directors. The record of business for the week in leading stocks is revised by L. J. Forget & Co, as follows:—

MONTREAL WHOLESALE MARKETS.

THURSDAY EVENING, DECEMBER 26th, 1889.

The city wholesale trade in all its various branches has been even duller than a week ago. Orders have been placed up to the close of the year and beyond, travellers are home for the holidays and the work of poring over ledgers to make up the balances of profit and loss for the year, has engrossed the close attention of partners, managers and office staffs. The weather has been favorable for local shopping, and the retail stores, great and small, have been crowded with customers

Co'y (Cons'd.)

83 St. James St., - MONTREAL.

who seemed to have money to spend day and night. Prices at wholesale have not varied to any extent. Commercial affairs will now be put aside to a great extent until after the New Year, the holiday spirit being fully aroused among all classes of the population. Before another issue of the JOURNAL the year 1890 will have dawned upon us and we trust it will bring few reverses and a large measure of prosperity and progress.

**ASSES.**—Receipts of pots very light, and business has been of a retail character for the past fortnight. We quote firsts \$3.35@3.40; seconds, \$3. Pearls nominal; no sales reported. There have been no shipments of either pots or pearls since our last report.

**COAL.**—Dullness continues the leading feature of the market, owing to the unusual mildness of the winter to date, and prices remain unchanged. Egg coal, \$5.75 per ton of 2,000 lbs.; stove coal, \$6; chestnut, \$6; Scotch grate \$6; Lower Port grate, \$5.50 black-smiths', \$6.50; Cumberland, \$6.50; Scotch steam, \$5.50 per ton of 2,240 lbs.; Pictou, \$4.50.

**Dry Goods.**—Reports from the dry goods market are none too favorable. In the Eastern Townships the roads are said to be very bad indeed. No snow has lain there as yet, and as a consequence storekeepers are doing very little. West of Toronto trade is very poor; in fact so unprofitable has this section proved to our Montreal merchants that at least one house is quietly trying to work out of it altogether. Remittances are very poor and failures becoming unpleasantly frequent. In this city the wet and unseasonable weather has done great damage to the holiday trade. Still a very fair volume of trade is reported and, so far as city and suburban houses are concerned, payments are reported fair. But remittances from country points are far below the average, and the coming months are looked forward to with some anxiety.

**DAIRY PRODUCE AND PROVISIONS.**—Butter steady and unchanged; very little doing. The position as to cheese is what it was a week ago. Buyers do not care to operate, but there are some prophecies that cheese will be wanted early in the new year. In the New York market sales have been chiefly around 10c@10½c. There is a brisk demand for eggs, and receipts are not large. The export demand takes all that can be spared of really choice. Strictly fresh are scarce and wanted at 27c@29c. We quote good held fresh at 24c@26c; medium, 19c@22c; choice limed, 19c@20c, and poor 16c@18c. In hog products

some few small sales of pork and lard are reported at about quotations. Dressed hogs are firmer with demand improving, and we quote \$6. Pork in Chicago has been selling at \$9.15@9.20 Jan., \$8.60 year and \$9.20@9.30 Feb. Lard, \$5.90 Jan.; \$5.92½ Feb.

**FLOUR AND GRAIN.**—A few broken lots of flour for local consumption is about all the business reported in that staple this week, and prices are steady and virtually unchanged. The local grain trade has been uninteresting but Manitoba wheat is strong both here and in the west. It is reported that two well-known milling concerns have bought up much of the available wheat in the Prairie Province in expectation of some change in the flour and wheat duties which will exclude foreign flour. Quotations throughout the Province are 60c@79c, and here No. 1 is worth \$1.02@1.04 and No. 2 99c@1.01. The Chicago visible supply of wheat on the 21st inst. was 34,275,175 bushels, against 33,944,305 on the 14th inst. There is an increase of 330,873 bushels of wheat and of 576,329 bushels corn compared with a year ago. The stock of wheat in Chicago increased 198,783 bushels during the week, and corn 173,412 bushels. Wheat in Chicago dull and easy at writing; recent sales at 78½c@79c Jan, 82½c@83½c May. Corn sold within the range of 30½c@31c Jan.; 30½c@31c Feb.; 32½c@32½c May. A special from Chicago said: "Wheat was dull and heavy under the influence of larger receipts and disappointing seaboard clearances, less active export business and the increase of over three hundred thousand in visible supply, while a small decrease had been expected. Cables were firm and higher, but owing to numerous holidays abroad during Christmas week the outlook is for but little support from this source. The weather is like October and against an advance, while 'bulls' are further unsettled by the discussion about raising storage rates. Corn was active and very weak, owing to favorable weather and larger receipts and improvement in grading." British cables report a firm market for wheat, with corn dull and flour quiet. Canadian peas 6s 11d.

**FRUITS.**—Business is expected to be quiet till New Year's, although a good Christmas trade has been done. The steamship "Peruvian" with the New Year's supply of Valencia oranges for this city has not yet arrived at Portland, Me., and stocks in this line are liable to be short. Fall apples, \$2.50@3 per brl.; winter fruit, \$2.75@3.25 in car lots; less quantities, \$3.50@4. Cranberries, prime dark, \$8@10 per brl. Florida oranges, \$3@3.25, Valencias, \$4.75, Jamaicas, \$5 per brl. Express bananas, \$3@4 per bunch. Verdelli lemons, \$2.75@3.50 per box, 360 size. Almeria grapes, in kegs of about 55 lbs. net, \$6@7. Onions, red, in barrels, \$2.75; Span-

ish, in cases, \$3. Coconuts, \$6 per 100. Fameuse apples, \$2.75@3.50 per brl.

**GROCERIES.**—Scarcely anything has been done in this line and office routine has engaged attention as usual at this season. Sweet stuffs are extremely dull in view of the recent grocery failure, Tiffin Bros., holding considerable sugar and molasses which will probably be realized upon. Sales of Barbadoes molasses are mentioned at 44c@47c, as to quantity. Sugars have been sold in round lots at 7c@7½c for granulated. Valencia raisins have been placed at 6½c@7c and layers at 7½c@8c. Currants firm with Provincials selling at 5½c@5½c. Spices and peel quiet. Teas under 20c have been selling to some extent, but the market is dull. The New York trade is thus reported: Very few really new or pertinent suggestions are advanced, and in many cases after the noon hour and the dispatch of the mails, operators commenced to slip away from the street as if convinced that no negotiations could be suc-

cessfully put through. Coffee during the week has experienced a less active and nervous market, out of which the buyer gained some little advantage, though as a rule holders of really choice goods suffered with indifference. Molasses has found only about an ordinary trade demand for stock accumulated in store, but there has been a large movement in syrups, partly on home account, but mainly for export, with deliveries extending into spring. Rice has been steady but less active. Spices sold fairly on about former basis. Teas not generally active, but one or two good deals made, and the auctions stopped until second Wednesday in January. Sugars have been dull and declining for both raw and refined, with no prospect of immediate improvement in trade. A great deal of doubt and hesitation are still noticeable among the trade generally, and for raw sugars the tone is simply feverish. Not only is the present demand limited and independent, but fears are commencing to arise as to the form it will assume when in due time it may again develop through necessity, and should any deal or combination be made tending to reduce the force of competition, of course the seller will have just so much less advantage. In the meanwhile, however, the effort is to make as good a showing as possible, and openly at least the offerings are moderate, though there is believed to be considerable stock seeking sale, cost and freight terms, for shipment after the turn of the year. Offerings of 98 test centrifugal at 3½c cost and freight, first half of January, are reported and some sales rumored; but that was the only indication of business that could be obtained and spot quotations remain nominal. The feature of the market for refined this week has been the pronounced apathy of buyers. Prices have steadily fallen away and are heavy enough in tone at the decline to convey an impression that even further reduced bids

might be listened to, but cost has no effect upon demand and business is almost prostrate. On cut and crushed another ½c was lopped off to-day, but otherwise the wind-up is without noteworthy feature. London, Dec 21.—Cape dull, little doing; Java, 14s 9d; fair reffing, 13s 0d. Beet, market inactive; Dec., 11s 9d; Jan., 11s 9d.

Hops.—The local market is quiet but firm with some little peddling business at 11c@14c and 10c@11c in the country. New York continues strong. Transactions involving 1,000 bales Pacifics were confirmed; the entire quantity, about 1,050 bales, was taken by New York dealers. There were moderate transactions at 11@12c for Pacifics of quality that was difficult to move at 1c less at the beginning of last week, and 13c was offered for Washingtons and Oregon, good enough to match choice samples. Further sales of fine States were reported at 14½c for export, and goods of ordinary quality were moved in moderate quantities at corresponding prices. Advices from interior points and from the European centres continue "bullish," and altogether the market shows remarkable tone for Christmas week.

HIDES AND TALLOW.—Market dull and very little doing. Tanners are not in the market and but little will be done for some weeks to come.

IRON AND HARDWARE.—In our editorial columns we give a complete account of the position of this important market. Very little is

doing. Founders are all supplied and both buyers and sellers seem to be waiting the turn of events. Still the market is very firm and all changes are upwards. English bar iron risen to \$2 75, but Canadian bar can still be procured at \$2.50. Hoop, iron and galvanized sheets are both higher in sympathy with the rise on the other side. Zinc has risen sharply (both sheet and spelter) and we quote \$6.50 and \$6.25 respectively. Copper is strong and higher in New York; antimony is very firm; and in spite of the high bank rate in England and the usual holiday slack, Scotch warrants maintain their position at 61s 7d and makers iron has advanced to 62s 3rd.

LEATHER AND SHOES.—This has been a complete holiday week in the "swamp." Nothing has been doing beyond a few jobbing orders and prices are purely nominal.

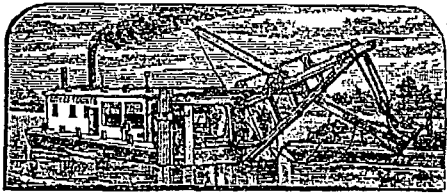

LIVE STOCK.—The demand for cattle is dull and slow, good butchers' stock selling at 4c@4½c, medium at 3½c@3¾c and culls at 2½c@3c per lb. live weight. Sheep and lambs are steady and under fair enquiry at 3½c@4½c, according to quality. Hogs continue dull and receipts are moderate. Prices, \$4 50@4 60 a 100 lbs. Calves realize \$8@12, according to size and quality. At Liverpool the general supply of cattle is light, prices steady and somewhat stronger, prime steers being quoted at 12c, good to choice 11½c, poor to medium 10½c, inferior and bulls 8c@9½c. The mild weather has tended to depress the English markets.

Wool.—The scarcity of all kinds continues to be the feature of the market. Further shipments of Canadian fleeces to the United States are likely; last sales at 20c f.o.b. here. Cape is firm at 19c@21c and Australian at 17½@20c. Holders of foreign wools have faith in higher prices. The demand from domestic mills has not been large, but is expected to improve shortly.

## TORONTO WHOLESALE TRADE.

(Revised by Telegraph.)

TORONTO, DEC. 26, 1889.

While a fair holiday trade is reported, business in wholesale circles has been very quiet. Another week of rain has greatly interfered with trade, and makes a rather unsatisfactory close of the year. Prices, however, have been sustained in most lines, and even reported firmer for woollen goods, of which the movement is restricted. Sugars are a fraction lower this week, with a slackening off in the demand. Payments are slow and generally unsatisfactory. The money market is steady; call loans are quoted at 6 to 6½ per cent., and prime commercial paper is discounted at 6 to 6½ per cent. Stocks were duller than

usual this week, although prices ruled steady. Following are the bids to-day as compared with last Thursday:—

Ranks.	Bid Dec. 25.	Bid Dec. 19.	Local Cos.	Bid Dec. 25.	Bid Dec. 19.

By a young man of the West Indies, a situation as commercial traveler to those Islands for a manufacturing or wholesale firm.

Thorough acquaintance with the different languages, business customs and mercantile requirements of the people.

Good connection. Best of References.

Address "Traveller,"  
Care of Journal of Commerce Office.

**DRESSED HOGS.**—Owing to unfavorable weather, the market has ruled quiet. There are fair offerings, but buyers hold off. Sales at \$5.40.

**FLOUR AND GRAIN.**—The flour trade has been dull for the week under review, the advance in Manitoba wheat having had no effect whatever. Sales are reported of straight rollers outside at equal to \$3.76 and \$3.80 here. Extras held at \$3.55, and patents quoted at \$4.00@4.50, according to quality. Wheat dull and steady; there being sales of Ontario, No. 2 white and red winter, at 80c on Northern, and of No. 2 spring at 83c on track here; No. 2 white is worth about 85c f.o.c. Manitoba grades firm; No. 1 sold at \$1.00 and No. 2 at 97c. Barley quiet and steady; sales of No. 2 outside at equal to 45c here, and of No. 3 extra at equal to 41c here. Oats a trifle easier, there being sales of white outside at 27c, on track at 31c and of mixed on track at 30c. Peas dull, with a few sales outside at

**NOYES' ROAD CARTS.**

The best Cart for the money. No bar to climb over in getting in or out. The horse can be hitched eighteen inches nearer than any other Road Cart made. The easiest Cart for road or track. Gentlemen use them for driving. Doctors use them in their practice. Farmers and business men use them for running about. They are the best things for exercising horses or jogging trotters.

Sanitarium, St. Leon, Que.

This celebrated establishment, one of the most delightful and agreeable summer resorts on the Continent will be open to the public on the 1st of June.

The numerous tourists who visit this beautiful spot annually will find it this year under the new management more attractive than ever. The proprietors will spare no effort in catering to the comfort and enjoyment of the guests.

The cuisine will be under the immediate management of one of Montreal's leading professional cooks. Special facilities will be given for all kinds of recreation such as billiards, bowling, croquet, lawn tennis, boating, etc., etc., etc.

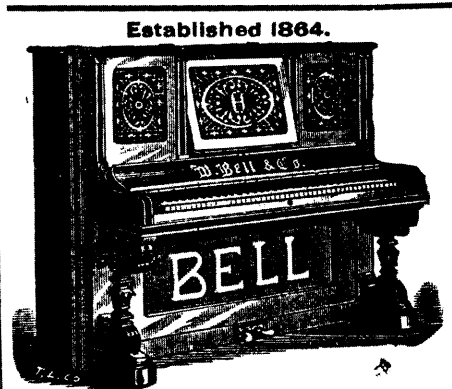

To sufferers from Rheumatism, Neuralgia, Indigestion, General Debility, &c., &c., the Saline Springs in connection with this hotel offer a sure cure.

Coaches will be in waiting for guests at Louiseville on the arrival of all trains from Montreal and Quebec.

For terms apply to THE ST. LEON MINERAL WATER CO., 54 Victoria Square, sole proprietors of the famous St. Leon Mineral Water for sale throughout the entire Dominion.

C. E. A. LANGLOIS, Manager.

*The Montreal Business College*

Evening Classes will Commence on Wednesday, October 2nd.

The course of study combines theory and practice, and is designed to impart a thorough business education. It includes bookkeeping in all its forms; Commercial and Mental Arithmetic; Penmanship, neat, plain and rapid; Correspondence; English; French; Commercial Law, embracing business forms, documents, etc.; Shorthand and Typewriting, including a short, sharp and thorough drill in practical grammar, composition, punctuation and spelling.

On account of the large attendance during the past year the proprietors have found it necessary to again increase their staff and provide more rooms. The offices lately occupied by the Export Lumber Co., in the same building, have been secured by the College, and are now fitted up in first-class style as a ladies department, which will be under the management of an experienced lady teacher.

For particulars apply at the College, corner of Notre-Dame and Place de Armes, or send for circular containing full description of the course, terms, &c.

Address—

DAVIS & BUIE,

Business College, Montreal.

**STANDARD CHOPPING MILLS.**

WATEROUS  
E. W. CO. - BRANTFORD, CANADA.

Joseph Maddaugh writes from Morrison P. O., Ont., Nov. 26, 1889.

Now that I have purchased from you one of your Standard French Burr Chopping Mills, turning in on it as part pay my iron grinder, I have no objection to tell you that the plates used in the iron grinder cost \$2 and latterly but \$1 per pair.

I used over \$50 worth last winter. Occasionally a plate would last a week, but sometimes not over two or three hours.

The price of the mill was \$65, much cheaper than yours, but in the end it was a very much dearer mill. I am satisfied that iron grinders are only suitable for farmers who have a very small amount of chopping to do for their own use.

J Comeau & Co. write from Maniwake, Que., Nov. 23, '89.

I would feel inclined to apologize for not writing sooner, had I not been too busy, and my desire to give the 20 in. Standard Mill a fair trial before writing. I am the most happy to state that I am entirely satisfied with the Mill; it is doing splendid work.

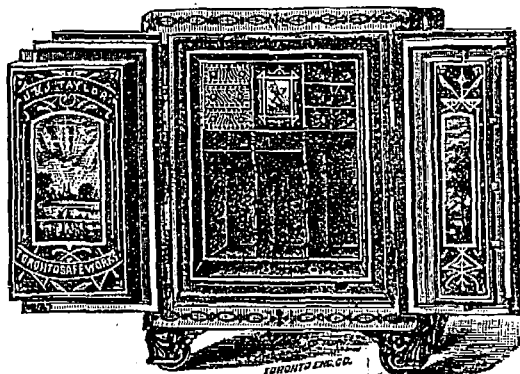

We have replaced five Iron Grinders this month. They are on hand for sale at from \$15 to \$30, with new plates, all in good order.

A. A. BENSON, - - - 305 St. James Street, - - - MONTREAL

**TAYLOR'S**

Double Tongue and Groove Fire-Proof Safes

Patented January 14th, 1886.

Established 32 Years.

Established 32 Years.

All our new style Fire-Proof Safes are fitted with Two Complete Tongues and Grooves, in both the Doors and Door Frames, which effectually prevent the heat from passing between the door and frame into the interior of the safe. They are also fitted with Chilled Chrome Steel Plates under the Lock and Bolt Spindles to prevent drilling, and have **Dry Air Chamber** inside to prevent dampness to papers. Catalogues and prices on application.

## The CANADIAN High AND Low Water ALARM.

The Disc or Float used in this Alarm is a solid substance, and cannot leak or collapse by the action or pressure of steam. This special feature has been highly recommended by practical men: as a sound principle, and one which has much to do in making it always reliable, for in this respect it cannot get out of order.

This invention is one of simplicity allied to mechanical genius. It never fails to sound the alarm of danger to those who are within hearing.

Its working parts are well protected, and cannot be tampered with. Its principles are founded on mechanics. Its strength is evident, and it never fails to act. In saying this, we have all that is necessary. We ask but a trial to convince the most skeptical. For full particulars, prices, &c., apply to

# THE CANADA SUGAR REFINING COM'Y (Limited) MONTREAL.

Offer for sale all grades of REFINED SUGARS and SYRUPS of the well-known brand of

# Redpath

## CERTIFICATES OF STRENGTH AND PURITY.

OFFICE OF THE PUBLIC ANALYST,  
MONTREAL, September 9th, 1887.

To the Canada Sugar Refining Company, Montreal:

Gentleman,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscopes, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar-Refining.

The test by the Polariscopes showed in yesterday's yield 99.90 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.

JOHN BAKER EDWARDS, P.H.D., D.C.L., F.C.S.,  
Public Analyst for the District of Montreal, and Professor of Chemistry.

CHEMICAL LABORATORY,

MEDICAL FACULTY, MCGILL UNIVERSITY,

MONTREAL, September 9th, 1887.

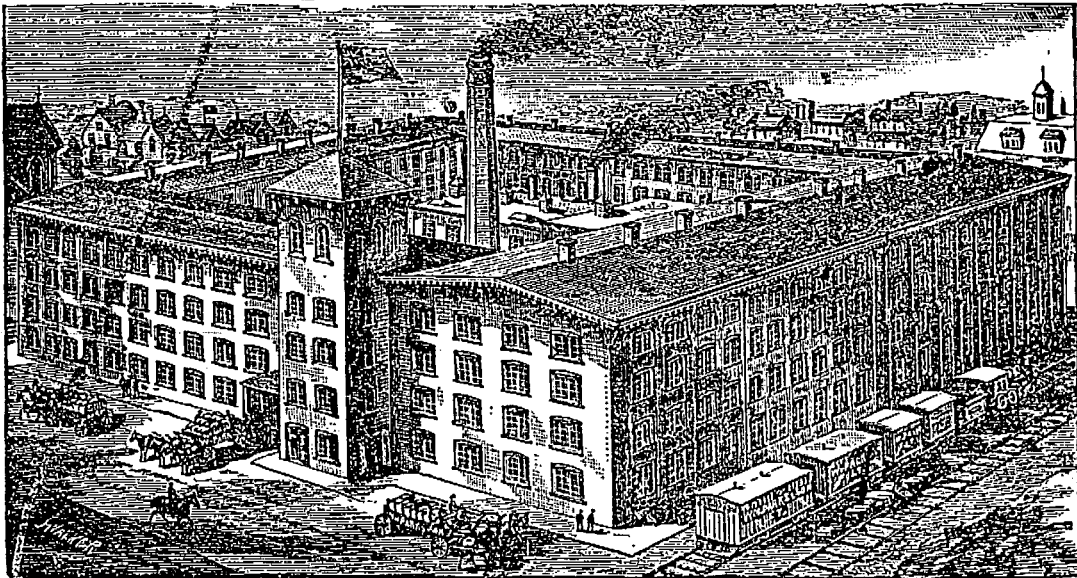

To the Canada Sugar Refining Company:

Gentlemen,—I have taken and tested a sample of your "EXTRA GRANULATED" Sugar, and find that it yielded 99.88 per cent. of Pure Sugar. It is practically as pure and good a Sugar as can be manufactured.

Yours truly,

G. P. GIRDWOOD.

President, - - - - - **SIR A. T. GALT**

Vice-President and Managing Director: **EDWARD RAWLINGS.**

The Accident Insurance Company of North America possesses a record for both reliability and liberality, one proof of which is that it has paid over nineteen thousand losses and has contested but eleven claims at law in 16 years for nearly one million dollars. It has ample financial resources, and has made the Special Deposit with the Insurance Department at Ottawa. It is, moreover, the only Company whose capital and funds are solely applicable to Accident Insurance.
