

SIR HUGH GRAHAM CHARGED WITH CONSPIRACY

Proprietor of The Montreal Star is Sued for \$100,000 Damages Wanted to Control Liberal and Conservative Newspapers At the Same Time, With Hon. W. S. Fielding as Editor of One

THE COURTS of Montreal are now seized of certain actions at law that seem destined to give the people of Canada an inside view of the marvelous part played by Sir Hugh Graham of The Montreal Star, in the newspaper and political life of the country and the municipal and franchise life of Montreal. The Toronto World is incidentally a figure in one of these suits.

The parts alleged to have been played by Sir Hugh Graham in the affairs of the Laurier Government and the Conservative opposition at the time, in the affairs of the last election and the organization of the Borden Government after the Laurier defeat, in the naval defence agitation, have been of such an astonishing and mysterious character, that they are almost unbelievable. But the facts, and many other surprising facts are now about to be disclosed.

For months he has had control of several of the newspapers of Montreal: Star, Standard, Witness, one French paper, and in one election he had control of La Presse (the leading French paper), and he recently thought he had The Montreal Herald. Because he could not get it, he has attempted to switch away the control The Toronto World had of certain well-known newspaper features which we used ourselves, and sold to The Montreal Herald. He tried to get these so that The Herald could not have them. The courts are to settle whether he can do it. But the public can settle now much as to this ambitious individual, who claims to rule journalism, to dictate courses for parties and governments, and who prints and edits Conservative and Liberal papers at one and the same time. He sought to get The Montreal Herald, and run it as a Liberal paper for the Laurier naval policy (under the editorship of W. S. Fielding) when he was running The Star for the Borden policy.

SIR HUGH PROPOSED THE DEAL BY WHICH 2 MONTREAL PAPERS AGREED TO CO-OPERATION PLAN

For a Period of Five Years Neither The Star Nor The Herald Was to Employ Anyone in the Employ of Either Paper, and All Matters of Mutual Interest Were to Be Discussed—Full Details of the Declaration Filed in Court by The Montreal Herald.

HON. W. S. FIELDING

The complaint which The Montreal Herald filed in the superior courts of the Province of Quebec, District of Montreal, yesterday is as follows: The Montreal Herald, Plaintiff, vs. The Montreal Star Publishing Company, Limited, The Montreal Standard Publishing Company, Limited, The International News Service, Sir Hugh Graham and Charles F. Crandall, Defendants.

STRONG LIBERAL ORGAN WAS TO BE CONTROLLED BY SIR HUGH GRAHAM AND OPERATED UNDER PERSONAL SUPERVISION OF EX-MINISTER OF FINANCE

Failing in His Object, it is Charged That Sir Hugh Conspired to Destroy The Herald, and Ruin Its Business By Buying Up All News and Feature Services in Order to Prevent The Herald From Securing Them.

THE TORONTO WORLD INCIDENTALLY IS DRAWN IN

MONTREAL, Oct. 9.—(Special).—The Montreal Herald this afternoon says: A suit for one hundred thousand dollars damages, on account of an alleged conspiracy to destroy The Herald newspaper and to ruin its business was entered in the superior court today by The Herald Company, Limited. The defendants are The Montreal Star Publishing Company, Limited, The Montreal Standard Publishing Company, Limited, The International News Service (a New Jersey corporation controlled by Wm. Randolph Hearst), Sir Hugh Graham, owner of The Star and Standard, and Charles F. Crandall, managing editor of The Star for the past few months.

Wanted Fielding As Editor

In the month of May, 1913, at the City of Montreal, the defendant, Sir Hugh Graham, approached said Douglas Lorne McGibbon, and then and on several occasions thereafter, made various offers to buy from him the control of the said plaintiff company, for the purpose of amalgamating The Montreal Herald with The Daily Witness, a Liberal newspaper, published in the City of Montreal, for the purpose of which he (Sir Hugh Graham) held an option, and of running the amalgamated paper as a strong Liberal organ in the City of Montreal under the personal direction of the Hon. W. S. Fielding, late minister of finance, all of which offers were refused by the said Douglas Lorne McGibbon, although considerable pressure was brought to bear upon him by the said Sir Hugh Graham and other persons instigated by him to accept the same.

Interlocutory Injunction Secured

In this connection it may be mentioned that The Toronto World, on Oct. 8, obtained an interlocutory injunction in Montreal, preventing the defendants in The Herald action from using this service or from selling it to anyone else; The World claiming that its contract is still in full force and effect.

Herald Asks Hundred Thousand Dollars Damages

Wherefore the plaintiff company prays that the defendants be jointly and severally condemned to pay to the plaintiff company the said sum of one hundred thousand dollars (\$100,000), with interest from the present date, and that they and each of them be ordered and enjoined, together with their officers, servants, agents and employees, to cease interfering between the plaintiff company and the divers concerns herein above mentioned, viz., the International News Service, the Central News, Limited, The World Syndicate Company, Limited, of Toronto, the McClure Syndicate of New York and any other companies, corporations or persons with whom the plaintiff company has or is about to make contracts for the service of its newspapers, and for furnishing the latter with news, editorials, special articles, stories, illustrations, photographs and other circulation-getting features, and from using in the newspapers published and controlled by the Canadian defendants the said news service, and from selling or granting the right to use the same to other newspapers in Canada, and to cease enticing away from the service of the plaintiff company its employees and officials, and to cease conspiring, combining and agreeing with other persons to deprive the company plaintiff of the ordinary services as herein above mentioned, which are necessary for the publication of such newspapers as are published, owned and controlled by the plaintiff company; the whole with costs against the said defendants jointly and severally, the plaintiff company reserving the right to take such other conclusions as the requirements of the occasion may demand, and for such further and consequential damages as the said plaintiff company may suffer by reason of the acts of the defendants herein above set forth.

Sunday Herald Established

The company plaintiff has in the past few months by the expenditure of a large amount of money, greatly increased its business, and the circulation of The Montreal Daily Herald, and in the progress of developing its business, established the Saturday evening edition, known as The Montreal Sunday Herald, for which it secured the right to use the said Hearst Service in the manner hereinafter mentioned, which enabled the said The Montreal Sunday Herald, in the course of a few issues to gain a large circulation.

The Herald's List Of Wrongs

The Herald (the company plaintiff) then goes on to allege in its declaration that numerous other conspiracies were entered into by the

Sued for \$100,000

SIR HUGH GRAHAM, proprietor of The Montreal Star, who has been made defendant in a suit brought by The Montreal Herald.

Attempts to Disorganize Staff

Attempts to disorganize the staff of the plaintiff company, by enticing its employees, are also alleged. The whole conspiracy is declared to have caused The Herald Company, Limited, an irreparable injury, amounting to at least \$100,000, and damages in that amount are asked for, together with an injunction restraining the defendants from a continuance of their interference between the plaintiff company and those with whom it does business. The Herald Company, Limited, is represented in the action by McGibbon, Casgrain, Mitchell and Casgrain, with whom are associated as counsel Lafleur, Macdougall, MacFarlane and Pope; Fleet, Falconer and Bovey, and Atwood, Dwyer and Bond.

What Was the Underlying Motive?

The question will naturally arise as to what was the underlying motive of Sir Hugh Graham in seeking to secure control of the newspaper situation in Montreal. Was it to dictate to or curry favor with the leaders of both political parties? Was it to enable him to restrict or eliminate fair competition? Or was it to place himself in a position to control public opinion in this city as far as it relates to civic affairs? If the latter is the case, why?

On June 26 Sir Hugh proposed to Mr. McGibbon a friendly agreement between The Herald and The Star for mutual protection, the limitation of news etc. to which proposal Mr. McGibbon assented under very strong solicitation from Sir Hugh. The Herald Company at and after this time was engaged in making very extensive improvements in its newspaper. The Daily Herald and in publishing a new paper, The Sun-Herald, which came into competition with Sir Hugh's paper, The Standard. As part of these improve-

The Eighteen Months Diet

At eighteen months the teeth are in good condition and more meat is added to the dietary. At this time too, enough nourishment is given in three meals, provided they are the right kind of meals.

The orange juice is given first thing in the morning. This is important, especially for constipated children.

7.30 a.m., breakfast—Well-cooked cereal with milk, toast. Sometimes an egg may be given at this meal, and once in a long while a tiny piece of crisp, fat, side bacon.

12.30 p.m., dinner—Meat, potato, one vegetable and dessert.

At first the meat consists of a tablespoonful of rare scraped beef mixed with the potato. The quantity is gradually increased and the variety extended to include roast beef and lamb, roast or boiled chicken, boiled fish. The potatoes must be well cooked—preferably baked—if not baked, then cooked in the skin carefully and afterwards mashed. They must never be given to children when fried or scalloped. Carrots, well cooked and sliced, and boiled parsnips are good winter vegetables. They must be cooked very soft and mashed fine.

The dessert may be a milk pudding or apple sauce.

5.30 p.m., supper—Bread and milk with milk to drink or bread, and broth, or bread and fruit with cocoa to drink. Bread should never be given fresh or soft. It should be stale enough to crumble. It is best cut in squares and put into the oven until it is hard all the way thru. This is the best way to give bread to constipated children. Toast should be toast, not a piece of soggy bread with hardened sides. Butter is used plentifully by most mothers. Cream or top milk contains the same nourishment and is much more easily digested. Give children plenty of cool, boiled water to drink between meals and they will never want to "pee."

If any of the articles I have mentioned are not familiar or their preparation is unknown to you, I shall gladly send recipes.

When measuring food, two tablespoonfuls equal one ounce.

FATHER CLINE FOR TORONTO PARISH

Oshawa Priest to Take Danforth Avenue Charge—Will Also Superintend Charities

OSHAWA, Ont., Oct. 10.—The Archbishop of Toronto has selected the Rev. Father Cline for the position of superintendent of charities for the archdiocese. This position is a most important one, and also one requiring extreme tact. Rev. Father Cline has been eminently successful in the various parishes over which he has presided. Since coming to the Town of Oshawa he has made a most excellent showing, also at Whitby, which town is under his charge. He took charge in this parish in 1907, during which time he has made many improvements to the interior of the church at Whitby, by the erection of an excellent gallery and side altar, at a cost of one thousand dollars. In connection with his work in Oshawa he has materially improved the presbytery and grounds at a cost of \$2000, and has reduced the church debt from ten thousand to three thousand dollars.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Corn Starch

STARCH forms an important part of our food and assists in forming the fat of the body. Wheat starch, potato starch and rice starch are used in quantities, but the most popular for culinary uses is made from corn.

Many housekeepers think it is too costly to use for thickening purposes, and seldom or never have a package of it in their cupboard, but the delicate custards and puddings made with it can not be had with any other medium.

Corn starch dainties, like cup custards and blanc mange, are the most nutritious of all foods and invaluable for invalids and children.

The following recipe may have been tried to it or cocoonut or chocolate and makes a delicious low-priced dessert:

The first women to learn to starch cloth were those of Holland, and James the First helped them to keep their secrets, at the same time astonishing visiting courtiers with the wonderful appearance of his stiff neck ruffs.

Bright yellow starch was used at one time in England, but the woman who introduced this strange fashion was afterwards hung for the murder of a duke, and as she was executed in a yellow starched ruff, the style died with her.

Dark calicoes should be stiffened with colored starch. Make as usual and add clear black coffee. A small piece of paraffine or white wax will prevent starch from lumping.

BRAMWELL BOOTH ON CANADIAN TRIP

S. A. General Will Visit Toronto and Winnipeg—Here November First.

The Salvation Army in Canada will shortly celebrate an event of historical importance to that organization, in the welcome to the Dominion for the first time of their new general, William Bramwell Booth, eldest son and successor of the late General William Booth, founder of the world-wide movement.

Toronto and Winnipeg are the only cities to be visited by the Booth and extensive arrangements for public and private gatherings at these places are being made.

The general leaves Southampton on Oct. 23 and proceeds direct to Toronto, where he will arrive on Saturday, Nov. 1, and his engagements here will keep him until Nov. 6, after which he will journey to Winnipeg, remaining there until Nov. 11.

Commissioner David C. Lamb, international and emigration secretary for Canada, Commissioner John Lawrence and assistant Commissioner William accompany General Booth from England.

All officers of the army and delegates in the territory extending from Fort Arthur to Halifax, also from Newfoundland, will meet their leader in Toronto, and those from Fort William to the Pacific coast at Winnipeg.

THE GARDEN CONDUCTED BY RACHEL R. TODD M.D.

The Fritillarias

Why is it that so few of our small gardeners are entirely unacquainted with these unique plants—the fritillarias? These bulbs are to be had in many varieties; and if the soil in which they are placed is rich, but especially a well-drained one, when once established, the bulbs are left absolutely undisturbed for three years, then these plants will be to you "a joy forever."

The flowers of these strange plants are often called the "snake's head" fritillaria; but we cannot imagine how anyone can compare a pretty drooping lily bell to a snake's head, is a puzzle. True, one variety, F. meleagris, has peculiarly checked and cross-striped petals; also, F. pallidiflora, a very pale yellow, is finely striped and checkered inside the bell, and other varieties are oddly marked. Yet still, why snake's head?

There are so many different varieties which our own gardeners may try. For the rickety, for the herbaceous border, for the greenhouse, for pot culture, for early outside bloom in the bulb bed—surely, from this list something may be found for each one's special use.

For the border choose the Crown Imperials. These are very beautiful and certain temporary teacher had not feet high, and bearing a great whorl of flowers; often these whorls are double, and in each case the whole inflorescence is crowned with a rim of dainty green leaves.

These great clumps rival in beauty of form and coloring any late-flowering spring flowers we have yet spoken of. Our own collections, which have been with us so long that we regard them as one of the fixed points of the garden, are the great plants, red, yellow and orange brilliant. Buy these varieties and plant the bulbs, six or eight in every clump, each clump eighteen inches apart.

These must not be interfered with until the third year, when root division may be attempted, or fresh stock started by the removal of any small offshoots, which may be carefully cultivated in pots.

Like all bulbs, fritillarias benefit much by being well protected with a thick "whit" which cannot imagine. How anyone can compare a pretty drooping lily bell to a snake's head, is a puzzle. PIE-MAKING BUT NOT CLEANLINESS

Is Taught in City Schools According to Trustee Fairbairn.

Trustee Fairbairn complained at the school management committee yesterday afternoon that too much time was devoted to teaching young girls how to make pies in the domestic science department. More attention should be given to teaching the girls domestic cleanliness, so that they would know how to get some of the live animals out of their homes.

Dr. Noble considered it was a prescribed duty of the teachers to teach cleanliness, as children were required to be clean and neat when attending school.

A committee was appointed to devise some method of securing reports showing whether or not the instructions issued by the board were carried into effect.

Trustees Dr. Conboy, Fairbairn and Hillz will report to the next meeting on the question of establishing permanent open air schools.

A protest from Dr. Conboy because a certain temporary teacher had not been placed on the regular staff elicited the statement that she was not proficient as a piano player, but is endeavoring to become so.

Residents of Cedarvale applied for a portable school building. They will be offered a room in Coleman avenue school.

Winter Tours to the Land of Sunshine and Summer Days.

At this season of the year a great many are planning their winter tour to the Sunny South, others to California, while a considerable number prefer the flowers and sunshine of Florida, together with the very even climate.

Owing to modern railway facilities an extensive trip, both interesting and educational, can now be made in speed and comfort at comparatively small expense.

The Canadian Pacific Railway offers particularly good service to Detroit, where direct connection is made for Florida, via Cincinnati, Ohio, and Atlanta, Ga., Jacksonville, Fla., and reached second morning after leaving Detroit. Excellent connection can also be made to Florida via Buffalo.

The Canadian Pacific-Wabash route will be found the ideal line to Chicago, where direct connection is made for the Southern States, New Orleans, La., is reached second morning after leaving Toronto.

Direct connection is also made at Chicago for points in California, Texas, Arizona, etc.

The dining, parlor and sleeping car service between Toronto, Detroit and Chicago is up-to-date in every particular. Connecting lines also operate through sleeping and dining cars. Those contemplating a trip of any nature will receive full information from any C. P. R. agent.

RAILWAY TAXATION IN CANADA LOWER THAN IN THE UNITED STATES

Canadian Roads Do Not Assume Proper Share of Assessment Burden and the Public Suffer—Startling Statements Made at Gathering of Experts in Toronto.

The Assessment Act provides how rural and urban property shall be taxed and the interpretation is set forth in the provincial act. If the assessments were applied to railway property as it is applied to rural and urban property, the assessments would be excessive. J. G. Morrison of Arthur, Ontario, secretary of the Dominion Grange, made the point in the city hall yesterday afternoon on railway taxation. There were about 40 delegates from various counties in Ontario, who gathered in the city hall yesterday afternoon to discuss the proposed changes in the assessment act. The speaker, Mr. Morrison, stated that the Dominion Grange had been about to discover by what means the situation could be alleviated. He stated that the Dominion Grange had been about to discover by what means the situation could be alleviated. He stated that the Dominion Grange had been about to discover by what means the situation could be alleviated.

Drain on Treasury. Devising into the history of tax reform in Michigan, Mr. Parker pointed out that after becoming a state Michigan had started many internal improvements, which became such a heavy drain on the treasury. In 1848, many of them were disposed of. Certain railroads were included in these improvements and in the manner in which they had passed from public ownership into private hands, they were to be taxed upon the capital stock paid in, also upon the loans paid for the purpose of purchasing, constructing or extending the railroads. In 1850 the act was extended to include all sums paid in municipal aid, sale of land, new construction or stocking of the property. Under this method of assessment the revenue of the state increased so enormously that the act was repealed in 1871 by the legislature and ordered the return of such payments as were in excess of the usual contribution.

Cheaper in States. That the Grand Trunk Railway would convey Armour's refrigerator cars from Chicago to the seaboard for \$25 a car and return the cars free of charge, but that in Ontario the same railway charge \$21 to haul a car 143 miles and took as many as seven days to do it was another statement made by Mr. Morrison. He thought that the motto of today was "the higher the taxation the better the service."

The Professor's Report. It was found that the railroads property of the state had a reproduction cost of \$205,700,000, and a depreciated value of \$125,000,000. In addition to paying at the rate of \$6.50 on each \$1000 of value, on the basis of the professor's appraisal, the average rate that year on general property was \$18.47.

JOHN WOOD LEFT HUNDRED THOUSAND
 John Wood, a former member of the firm of J. and L. M. Wood, left an estate of \$108,563 when he died in Brookline, Mass., on Sept. 22. The will was filed in the surrogate court yesterday afternoon. The principal item in the estate is headed "miscellaneous assets" and the value of these assets is given as \$55,558. Included under this head are interests in the McFarlane farm syndicate, yacht Princess, shares in the J. and L. M. Wood Company of Montreal and Toronto and automobiles and other effects. As there is no will the estate will be divided between the mother, Margaret Wood; three brothers, Thomas, Lewis and Robert; two sisters, Euphemia and Jean; and three half-brothers and two half-sisters. The executors of the estate are Lewis and Thomas, two of the brothers.

FRIDAY MORNING, OCT. 10

THE COUNSEL OF DESPAIR.

Edited by Sir John Willison as guide, philosopher and friend. The Toronto News is credited with reflecting, to some extent at least, the views of the Ottawa Government. We are therefore glad to note that the News agrees with The World in saying that the North Atlantic shipping combine is a mere link in the chain of freight rate monopoly which strangles Canadian progress and enthralls the grain fields of the prairies to the sea ports of Britain.

THE BOSS OF THE TELEGRAM.

Opposition to the proposed purchase of the Street Railway has become simplified since Controller Church's position of boss of the Evening Telegram was revealed a few nights ago. Nearly a whole page was given to the night-time recapitulation of what "Controller Church charges," and of what is the subject of his "denunciations."

Under this system steamship companies, co-operating with the Canadian Pacific Railway, will come all freight schedules authorized by railway commissions just as they can increase their charges when tariffs are reduced. Unable to raise freight rates without authority from the railway commissions, the representatives of the great corporations will operate through steamship mergers. By this method they can increase ocean charges with every compulsory reduction and charges. Thus the common interest of carrying corporations will be protected and the common policy of the Canadian Pacific Railway Company will not our neighbor journey with us a step further? Will it not admit that the head and front of this illegal combination to extort is the Canadian Pacific Railway Company? Will it deny that that great corporation is the dominating factor in Canadian transportation on land and lake, river and sea?

But we regret to observe that The News, while admitting the essential facts of the present situation, has no counsel but the counsel of despair, and we are told:

Nor does it seem likely that any single country can exercise an adequate control over this new form of combination. If Canada should declare by act of parliament that ocean carriers refusing to submit to public regulation should not land at Canadian ports or should be subject to penalties fewer vessels would come to Canada and a far larger proportion of the Canadian tonnage would be done thru the ports of the United States. It seems essential, therefore, to have common action at least by Canada, the United States and Great Britain if sea monopoly is to be curbed and the authority of the public over transportation re-established.

So this is the sorry breakdown we have to confess, if The News is right, namely, that Canada cannot deal with its transportation problems, but must appeal for help to Washington. We say Washington because our envoy has already cried from Westminster: "Will not the question be heard at the Thames be repeated on the Potomac?" Have you no parliament in Canada?

Can The News tell us whether parliament will be asked to deal with the transportation combine or does it speak with authority when it utters the counsel of despair?

A BUSINESS AFFAIR.

Mayor Hocken announced yesterday that he proposed laying the account of his negotiations in connection with the proposed purchase of the Street Railway before the City Council on Monday next if possible. As the negotiations have been going on till about a week ago, earlier action was clearly out of the question and to have set the unfinished work before some of the children and fools who have already given evidence of the wisdom of the old proverb, would not have shown the discretion one might expect from the mayor of a city like Toronto. From the confident nature of Mayor Hocken's statements yesterday he appears to think that he has secured the basis of a satisfactory agreement, and we shall be disappointed if the reports of the past few months to have been fruitless.

IT IS A CONVEYANCE, NOT A CONTRACT.

The agreement to buy out the Toronto Railway Company and the Toronto Electric Light Company is sweeping in its character. It is to be a clean-up by which the city will absolutely acquire exclusive control of the distribution of electrical energy within the city, and acquire all street railways and radial railways within the present boundaries of the city, and within those boundaries they may be hereafter from time to time extended.

It seems to us the agreement, covering such a blanket transfer, could be reduced to writing in a short time, and to be expressed in a bill. The Pennsylvania Railway took over the Panhandle lines west of Pittsburg under an agreement written out by the Pennsylvania on one side of a single sheet of foolscap. It involved many millions of dollars.

Of course where there is a contract granting a franchise for an ever a number of years many details have to be considered, and many contingencies anticipated. But where a city buys something like a bank, or a bank, the transaction can be expressed in terms of sweeping universality. The legal gentlemen engaged in drafting the agreement should not lose their bearings because the amount involved is so large. A bill of sale sufficient to convey a wheelbarrow can be effectively used to convey a traction engine and separator; words sufficient to convey a city lot worth two hundred dollars will be sufficient to convey a city lot, with a skyscraper on it, worth two million dollars; a bank cheque for ten dollars is drawn in payment of a bank cheque for ten thousand dollars.

A big railway system sometimes buys up a competing line over night, and a lawyer writes the agreement in short order. How long did it take the Bank of Montreal to complete its deal with the Ontario Bank?

THE TARIFFS ON WHEAT AND FLOUR.

The tariff question grows in importance. One reason why the late John Maclean was such an ardent protectionist when we had few protectionists, was that our neighbors, the Americans, were protectionists. He held that in many things Canadians had of necessity to follow them. This was especially true in the case of wheat and flour. At least he began to be protective. And he always said that inasmuch as the Americans were years ahead of us in the matter of political and economic development, our conditions were much the same as surrounded them, we should, if we looked for the same, look for a similar problem in Canada by searching the records of the States.

What are the people and the papers saying? The western farmers who raise wheat mainly say yes. They want the wider market the American market. Many western papers say the same. They believe, after a rather careful search of the market records, that the price of wheat in Chicago is higher than in Winnipeg, and would be higher if we had free trade in wheat until our prices got on a parity with American.

But many Conservatives say we must keep our protective lines and keep up the duty on wheat. The News, which is very near the influence that are powerful in shaping Conservative public opinion, says three days ago to take off the duty. It and The Mail are now not so certain. In fact The Mail bell-book-and-candle The News yesterday said that on a News special last night and shows a change.

Let us see. The effect of the new American tariff is closely watched by the Finance and Customs Departments. As there will be no session until January, this will give several months to observe the operations before parrying costs of motion. The question whether in the interests of Canada it will be necessary to make any tariff reductions.

FIRST WOMAN MEDICAL GRADUATE. Editor World: An article published in last Sunday's issue (Oct. 6, 1913), stated that Dr. Kathleen Buck was the first woman graduate in medicine in Canada. As secretary of the Medical Alumnae, it is my duty to correct this error. The first Canadian woman to study medicine was Dr. Emily Howard Stowe, who graduated from the Women's Medical College of New York City in the spring of 1868. Dr. Stowe returned to her native country and settled in Toronto that same year. The first Canadian woman to study and graduate in medicine in Canada was the daughter of Dr. Stowe—Dr. Augusta Stowe Golden of this city, who graduated in 1883. The Canadian woman to study and graduate in medicine was Dr. Elizabeth Smith, now Dr. E. Smith Short. The third and fourth women to graduate in medicine were Dr. McLaughlin and Dr. Annie Pickering respectively. Dr. Kathleen Buck graduated in the year 1897. Catharine F. Woodhouse, B.A., M.B.

At trial judgment was entered for plaintiff for \$300 and interest and costs, and on ground of failure of consideration for the \$300 paid by plaintiff. Appeal partially argued but not concluded.

FIRST WOMAN MEDICAL GRADUATE. Editor World: An article published in last Sunday's issue (Oct. 6, 1913), stated that Dr. Kathleen Buck was the first woman graduate in medicine in Canada. As secretary of the Medical Alumnae, it is my duty to correct this error. The first Canadian woman to study medicine was Dr. Emily Howard Stowe, who graduated from the Women's Medical College of New York City in the spring of 1868. Dr. Stowe returned to her native country and settled in Toronto that same year. The first Canadian woman to study and graduate in medicine in Canada was the daughter of Dr. Stowe—Dr. Augusta Stowe Golden of this city, who graduated in 1883. The Canadian woman to study and graduate in medicine was Dr. Elizabeth Smith, now Dr. E. Smith Short. The third and fourth women to graduate in medicine were Dr. McLaughlin and Dr. Annie Pickering respectively. Dr. Kathleen Buck graduated in the year 1897. Catharine F. Woodhouse, B.A., M.B.

BALLARD AND MURRAY OFFICIALS FOR ARGONAUT-MONTREAL GAME

Live Notes of the Rugby Clubs and Players — Varsity Squad in Fine Form—College Boys Play Annual Game.

President Ben Simpson of the Big Four has appointed two good officials from his own town for the game between Argos and Montreal at Rosedale tomorrow.

A large number of pupils and old boys witnessed the annual game yesterday on the Varsity campus between the University Schools and the Old Boys. Play was even throughout and finally ended in a win for the Old Boys by 14 to 12.

The Parkdale Canoe Club held a good practice yesterday at Victoria College. Signal practice is the order this evening at 8.30.

Parkdale Collegiate play Technical School this afternoon at Trinity College. P.C.I. and U.S. are undefeated in the Intercollegiate League.

The Hillierites of the North Toronto Rugby League practice tonight at Rosedale Park to round up for their game on Saturday against West End. All players are asked to turn out at 8.30.

Varsity leave for Kingston this morning at 7 o'clock. Coach Wright will take about twenty-five players. How Varsity will line up against R.M.C. is a question that only Honorary Coach Dr. Wright and Captain Maynard can answer.

Montreal will have a strong team, but many new men when it meets the Argonauts at Rosedale tomorrow. During the practice Crankshaw, the team's quarterback, put his shoulder out, while Alex Cameron, the outside wing, broke a toe.

Balm Beach has dropped out of the senior series of the City League.

The Dons will work out with the Capitals Senior City team on Friday at 7 o'clock at Scarborough Beach. A full turnout is required, so everybody be there.

It all depends on where you go in Hamilton to find out what the Hamilton Rowing Club have a Rugby team.

Spectator: The Hamilton Rowing Club is credited with having a practice last evening, but players of note and experience were few and far between.

Becker, the crack All Star of last year, will be a fixture on the Ottawa team this year, as all doubts about him returning to Ottawa were cast to the winds last evening, when he got the \$200 train that left for Ottawa.

According to a published report, he stated that he would not play with Ottawa this season, as the Ottawa Club had not treated him fairly.

Some time ago he was asked by an indiscreet friend how much his gramophone records brought in.

His friend said, tentatively, "£2000."

Prof. Benson, famous British billiard player, is exhibiting tonight at Jake Saunders' billiard parlor.

Backers feel a little blue over the outcome.

This is the seventh year that the Hamilton Tigers have journeyed to Ottawa, and it is a well-known fact that they have always returned home suffering a defeat.

The Central Y.M.C.A. Rugby Club will make their debut in the Interprovincial League on Saturday, when they meet the Tigers at Hamilton on Brantview Field.

The following players will represent Parkview F.C. against Old Country on Saturday next at Lansdowne and Legpin avenue.

The Hillierites of the North Toronto Rugby League practice tonight at Rosedale Park to round up for their game on Saturday against West End.

UHLAN LOWERS THE MILE TROT RECORD

LEXINGTON, Oct. 8.—Uhlan, hitched to a running mate, the world's champion trotter, owned by C. K. G. Billings, today lowered the world record for a mile to 1.54 1/2. Uhlan set the previous record at 1.58 last year.

Uhlan today was driven by Charles Tanner, and was favored with a perfect track and beautiful weather conditions.

Uhlan's record was set in the 2.08 class race, carried over from yesterday. Michigan Queen won the fourth and final heat, the last heat in 2.08 1/2, lowering her own record a second and a quarter.

Commercial Fits & Misfits

The designer is the artist from which the tailor builds the suit. He puts the character, snap, style, and individuality into it, just as the architect puts beauty and utility into a building.

A mere tailor can build a suit that will wear, and by using patterns designed to fit the average stout, slim, or heavy man, and by padding, secure a "commercial" fit.

But the suit will not have the character, or the style, or the real fit of a suit designed and cut to individual measure as Hoberlin Suits are so cut and designed.

That is one of the principal reasons for the good fit of Hoberlin clothes, and yet they cost no more than the kind that is cut on the "average" system.

For example, you can have one of these fancy woreds or chevots, or pure dye serges, made especially to your measure, and it need not cost more than twenty dollars. If you want to go to \$30 or \$35 you can do so.

These Hoberlin Suits at \$20 have a swing and a style and grace that cannot fail to impress society with your personality.

EXTRA ATTRACTION AT MOTOR CYCLE MEET

The officers of the Toronto Motorcycle Club have received a request from Herb Morrison to issue a challenge for a five mile automobile race, to be run at their motor cycle meet on Saturday afternoon. He is willing to make this challenge open to all comers, and as his car is now in fine shape, he believes he can beat Morrison's record of 1.06 for the mile on this track. This means that he will have to travel at Cole's rate of speed. In practice this week he has been making the turns so nicely that it is believed there is not another make of car in Canada which can keep pace with him. This race will be a preliminary for the 10 mile championship to be held on Thanksgiving Day, as the committee have decided that the first four to finish shall be eligible for the championship. As Herb is an old favorite and has not been out for some time, this should be the most exciting event ever programed this year.

His challenge is as follows: I, Herb Morrison, of the Parkdale garage, do hereby challenge all comers for a 5 mile automobile race, to take place at the Toronto Motor Cycle Meet, on Saturday, October 12, at Exhibition Park, Toronto. Witnesses—Fred A. Johnston, Herb Marshall, H. J. Stillaway.

HALF MILE TRACK AT CANNINGTON FOR MR. COWAN'S HARNESS HORSES

New, Up-to-Date Course Now on the Way to Completion on the Maple Stock Farm—Looking Over the Horses.

It was my pleasure on Tuesday last, in company with a number of congenial friends, to visit The Maples, the beautiful stock farm owned and managed by W. J. Cowan of Cannington. This farm comprises 630 acres of good land as the sun shines on, and is in a state of cultivation that reflects credit on its owner. Everywhere there is the appearance of thrift. There are no gates off the hinges, no fences down—everything in its proper place, and a place for everything. When the party arrived there (by motor) they were met by Mr. Cowan, who the very busy with a large staff of men and teams, constructing an all-weather track, was taken over the place and shown the many points of interest. The different barns with the different classes of horses, the Maples is a genuine stock farm in every sense of the word, containing cattle, hogs and the different breeds of horses. The Clydesdale down to the diminutive ponies. This large block of land is right in the Town of Cannington, as to speak. The residence, or home, is situated on the edge of the town, overlooking the old fair grounds which had at one time a very fast half-mile track, but like many country towns the fair has grown beautifully.

Mr. Cowan's home is a large brick residence surrounded by grand old maple trees, and the picturesque part shows the hand of the lady of the house. Mrs. Cowan is passionately fond of flowers and shrubs, and also late in the season it was evident that the gardens and lawns had been a mass of bloom. Even at this late date roses were in bloom. The family residence is all that anyone could desire, being large, roomy and with all conveniences. The family stable is at the place where Mr. Cowan keeps his favorite driving horses; also a hackney-coach pony that would be hard to beat in Canada. The driving shed has all classes of rigs, show carriages, runabouts, phaetons, top buggies, road wagons; in fact, everything in keeping with a first-class family farm.

Building a Track.
On the day of our visit, Mr. Cowan had twelve teams working on the half-mile track, which he is constructing for use of his trainer, William Flemming, so well and favorably known by harness horsemen. It was Mr. Flemming who drove Joe Patchen II. in all his races during a season of 1912, when he was the largest money winner among the pacers of that year. Mr. Flemming will develop a number of colts bred by Mr. Cowan, as well as look after the string that has raced this summer. I am getting away from the subject of the track, which lies directly opposite Mr. Cowan's residence, and as he is an adept in the business of grading one can rest assured that there will be no better half-mile track in Canada than will be at The Maples. He has been particularly careful about the drainage, and the soil is the best for a track for trotting and pacing.

Just north of the track complete in less than two weeks, with fencing around the barn is located, and it is a model of completeness. The ground floor has four-teen beautiful stalls, airy stalls with all modern appliances. There is an office nicely fitted up on this floor, and cases for the harness and other racing equipment. At the rear of this barn there is a nice river, and 300 to 350 yards back a large house has been constructed, and Mr. Cowan is stocking this with brook trout spawn, so that his friends, when they go to visit him in the trout season and who are disciples of Zak Walton, will be able to fish with bait or cast the fly. On the fact of the trout, but what is bought together) complete farm houses and grand barns are in evidence.

Mr. Cowan's choice of the Clydesdale, an imported stallion weighing 2240 lbs.—a splendid type of the breed. Also, established here are several Canadian-bred colts from imported stock and a round dozen of imported brood mares. Off from this barn is the cattle barn, with every up-to-date appliance, running water in all the barns, electric lighting and an electric motor for power for choppings.

The Standard-Bred.
At the head of the stud of standard-bred is Peter Wilson, ch. b., by Peter the Great, dam Marie W., by Wilton II., dam of Ralph Wilkes (2,064). Peter Wilson is a year old, a beautiful type of the standard-bred, the best of conformation, and, except for an accident, would have been a champion. Two years ago, at the Canadian National Exhibition, with little or no training, he won the 2,271, and so impressed was he with him that he induced Mr. Cowan to let him take him to his home in California, where he showed a trial mile in 2:19. Unfortunately he was wrong, and now he lives in retirement at his beautiful home. Quite a number of his colts and he will be a three-year-old filly by Peter Wilson. This filly will be taken in hand at once, and should develop into a champion.

Another filly, another filly sister to the last-named is a weanling. Mr. Cowan is much taken up with these, as after the showing of Peter Volo at Lexington, a mile in 2:04 1/2, a world's record for his age, he naturally feels proud of the fact that he has bred a filly, which is four years younger from Belgrade (2:14 1/2), by Diratlo, by Direct, dam by Sunnison, Belgrade made a break in all his work, or in any of his races, and as Mr. Cowan regarded her as a fighter, he put her out and set the dog on him, and even that would not make him go to break. He seems to enjoy nothing but trot. There are also three yearlings by Quintell (2:13), by Axtell, dam by Red Wilkes.

The horses in training and that have been raced this summer are Prince Wood (2:08 1/2), bred, by Guy Princeton, who faced all the western Canada circuits and was never out of the money, but went wrong when he was shipped east to fill some of his engagements, and had to be let up. He is in first-class shape again, and will get his daily work, K. of K. is a black gelding by Kentucky Fox (2:08 1/2), dam by Mocho. He is a green colt and has been carried for education, he looks very much like his sire. His typical Todd head and looks like he would trot as fast as his sire.

A bay gelding by Mohol, dam by Red Wilkes, is a very promising pacer, and Mr. Cowan looks for great things from him (yellow and he surely looks the part. R. J. McKenzia made a present of this one to Mr. Cowan. Tropic Dawn (2:18 1/2), by Symbalor, dam by Allerton, a full sister to Stroller, is a grand bay mare, a low-headed trotter, and as Mr. Cowan says, she is his favorite mare, and, in fact, the meat ticket. In fact, he is so much taken with her that he would cost more than the price of a good farm to take her from her present quarters. She was started in eight 3/16 stakes, and was never out of the money.

Another Grand Trotter.
Baroness Helen (3:15), former grand trotter. She is owned by Baron Revue, dam by Axtell. This mare did not have a chance this summer. She was wintered in California, and shipped early in the spring to western Canada, and did not seem to get climaxed. However, she was in a very poor preparation in this country, and no doubt Mr. Cowan will have a number for the stake events thru the

ATHLETICS HIT TESREAU HARD

(Continued From Page 10.)

went out on strikes, and Herzog ended the innings by shooting a drive into Collins' waiting hands.

Fourth Was Tame.

There was not much to the fourth inning for either side, both Bush and Tesreau pitching good ball. Schang went out for the second time by the strike-out route. Bush started the inning by striking Schang when he hit to left field for a single. Burns made a hard run to get up to the ball, and it looked as if he caught it, but he only managed to scoop it up after it struck the ground. His stop of the ball probably prevented Bush going to second, and possibly to third. The runner was left stranded on first, however, when Murphy caught a high fly to Shaffer, and Oldring went out, Doyle to Merkle.

For New York, Doyle fouled out to Baker in the fourth, but Fletcher ripped a single over second base. Burns pitched out, and in taking the third strike, Schang shot the ball to McInnis, and Fletcher had a close call at first, but caught napping. With Shaffer fly, Fletcher managed to get a good read and stole second. He was left on the middle sack, as Shaffer was an easy out at first on Collins' throw.

Collins almost got a long extra base hit in the fifth when he hit the right field stand, but the ball was foul. He then went out on a hard drive to Murray. Baker put up a high fly, which Fletcher gathered in, and McInnis was the third out on a fly to Murray. Tesreau's pitching continued to be good, and he was given a hand by the New York rooters as he walked to the bench.

The Giants' First Run.

The National League champions got into the run column in their half of the fifth. Murray drew a base on balls, the first in the game. He stole second cleanly, and Schang, in trying to head him off, threw the ball into centre field, and Murray hot-footed it to third base. The crowd cheered this first real break in the Athletics' defence. Again they cheered as McInnis came to bat, and there was a splendid demonstration when the leadoff hitter made a terrific drive that Baker could not stop, on which Murray scored. Cooper was sent in to run for McInnis, and after Merkle sent up a fly to Murray, the substitute runner made a fine steal of second base. Tesreau went out, Baker to McInnis, on which play Cooper moved up to third. Herzog ended the inning by chopping the ball in front of the plate, Schang pouncing on the ball and throwing him to first.

Wilson here went in to catch for New York. Strunk, the first man up in the sixth, fled out to Murray. Barry singled to right and was left there, Wilson taking Schang's high four and Bush raising a fly to Doyle.

The New Yorkers were quickly off in their half of the sixth, a double play flurrying in the retirement of the side, and McInnis picked up Doyle's grounder and touched first. Fletcher, who appeared to

one of which he played the leading part himself. Of course there had to be a home run hero. This time it was not Baker, but Willie Schang, the young catcher, who, like Bush, is having the unusual experience of being a vital figure in a world's series in his first year in big league baseball.

Willie, in the eighth inning, landed upon a slow curve of old Doc Crandall, who had gone in after Tesreau had been batted out, and lifted it into the uncovered seats in deep right field.

No one was on base. It was the only hit made off Crandall, but it was a homer, and it pulled the populace to its feet, and brought out that wonderful inspiring roar of admiration that always follows the most spectacular feat a ball player can perform.

The Usual Performance

It also called for its peculiar action in which the Athletics indulge in whenever a team-mate "pushes one out." The old players leaped to their feet in front of their bench, mixed them up, threw them in the air, tossed their caps aloft, and then stood in a long line waiting for Schang to come home.

As he romped amiably over the plate and turned to the bench, Baker leaped out of the line and was the first man to grab his hand and shake it. Every other player, regular and substitute, clasped the hand of the happy fellow. Then he was plucked up and carried to his place on the bench.

The Athletics—and this, perhaps, has much to do with their success—are like a lot of college men. They're breezy, enthusiastic, full of loyalty to one another and to the club. A triumph for one is a triumph for all. They leave the bench to go to their fielding positions with arms locked, or with hands upon one another's shoulders. It isn't a paid job with them (or so it would seem) so much as it's a sporting proposition, a pure game. You never see any handshaking on the Giant side of the field. It's business there. Collins, too, was a hero, as indeed he has been all the way through the series. At the rate he's going he'll probably have a higher hitting average for the series than he had for the season—and that was almost enough to satisfy anyone. And, on the field, he was everywhere.

Took Life Out of Giants

The vicious early attack, which netted five runs in the first two innings, seemed to take the life out of the Giants. Nearly all of them, with the possible exception of Charley Herzog, who's always spilling his falsetto chatter over the landscape, no matter how far behind they are, displayed the attitude of men, who, facing a hopeless task, thought they might as well go thru with it as hopelessly as possible.

Still, when they started for Philadelphia tonight, they had braced a little spirit, and predicted that they would beat Bender in the game in the Quaker town

THE VOLUNTEER

(Continued From Page 10.)

The team would sure be down and out with eight men left to play.

We're up against it anyhow, as far as I can see; My boys ain't hitting as they should, and that's what worries me. The luck is with the other side, no pennant will we win; It's mighty tough, but we must take our medicine and grin.

The eighth round opened—one, two, three the enemy went down. The Bugville boys went out the same—the captain wore a frown. The first half of the ninth came round; two men had been put out. When Bugville's catcher broke a thumb and could not go the route.

A deadly silence settled o'er the crowd assembled there. Defeat would be allotted them, they felt it in the air; With only eight men in the field, 'twould be a gruesome fray. Small wonder that the captain cursed the day he learned to play.

"Lend me a man to finish with," he begged the other team. "Lend you a man?" the foe replied. "My boy, you're in a dream. We want to win the pennant, too; that's what we're doing here. There's only one thing you can do: call for a volunteer."

The captain stood and pondered in a listless sort of way. He never was a quitter, and he would not be today. "Is there within the grand stand here," his voice rang loud and clear, "a man who has the sporting blood to be a volunteer?"

Again that awful silence settled o'er the multitude: Was there a man among them with such recklessness imbued? The captain stood, with cap in hand, while hopeless was his glance, And then a short and stocky man cried out: "I'll take a chance!"

Into the field he bounded with a step both firm and light. "Give me the mask and mitt," he said, "let's finish up the fight. The game is now beyond recall: I'll last at least a round, Altho' I'm ancient, you will find me muscular and sound."

His hair was sprinkled here and there with little streaks of gray. Around his eyes and on his brow a bunch of wrinkles lay. The captain smiled despairingly and slowly turned away. When "He's all right," one rooster yelled; another, "Let him play."

"All right, go on," the captain sighed. The stranger turned around, Took off his coat and collar, too, and threw them on the ground. The humor of the situation seemed to hit them all. And as he donned the mask and mitt the umpire called "Play ball."

Three balls the pitcher at him heaved—three balls of lightning speed. The stranger caught them all with ease and did not seem to heed; Each ball had been pronounced a strike—the slide had been put out.

AND THE WORST IS YET TO COME.

(Continued From Page 10.)

tomorrow and make the count 2 to 3 on the series.

Just who would lead forward in this hope had not been decided, but it was practically certain that either Rube Marquard would get a chance to redeem himself, or the slight little Demaree, leading pitcher of the National League for 1913, would have an opportunity to test out his peculiar "sho-pull" delivery against the hardest batters of his other league.

The Giants were away behind in last year's series. It will be remembered, but then came along, evened it up, and almost got away with it.

It will still be a patched-up team. Merkle, after enduring for hours a painful treatment calculated to help his sprained ankle, started today's game, but had to give way to Wittie toward the end. The same thing probably will occur tomorrow. Clear, your waistcoat for the rest of the series with his smash-thump, and Smoother limps so badly because of his wrenched tendon that he cannot be called upon.

Where's There's Hope.

But all the players asserted that they still expect to win out, even with the handicap. They figure Demaree to win the series, and the Old Man to pull out the final game. Clear, as if they were simply as a bunch, and bring about a change of luck.

The third game of the series, like the other two, was fought under leaden skies, and on a slow, sodden field. Before it could be started, the diamond had to be dried out by burning gasoline on all the bare spaces about the base lines. This not only was a successful treatment, but gave a real thrill to the waiting crowds as the flames leaped 8 or 10 feet in the air.

THE VOLUNTEER

The Bugville team was surely up against a rocky game; The chances were they'd win defeat and not undying fame; Three men were hurt and two were benched—the score stood 6 to 4; They had to make three hard-earned runs in just two innings more.

"It can't be done," the captain said, a pallor on his face. "I've got two pitchers in the field, a mutt on second base, and should another man get spiked or crippled in some way,

WIDENING MUST BE ON THE WEST SIDE

Such is Dictum of Railway Commission re Yonge Street Project.

COST WOULD BE LESS

On East Side—Question Was Referred to Street Widening Committee.

Representing a large deputation, Lincoln Hunter declared to the committee on works yesterday afternoon that all the property owners for two miles above Bloor street on Yonge street are against the projected widening of Yonge street, and he asked that consideration be deferred for two weeks to enable the preparation and presentation of a petition against the widening.

"Do you think a petition would change the mind of the men on this committee?" Aid. McBride asked. "It certainly should," Mr. Hunter replied.

Commissioners Harris and Forman had recommended that Yonge street be widened to 36 feet from Bloor street to the northerly limits, on the local improvement plan.

"If the street would be widened by expropriating on the east side, instead of on the west side the cost would be much less," Mr. Hunter contended. "All the business is done on the west side, and it will not cost under ten million dollars to widen the street by expropriating only the west side."

The commissioners' estimate of the cost of the improvement is \$2,100,000. "Undoubtedly the widening of Yonge street would improve the value of the property," said W. Claude Fox, "and it would make Yonge street above Bloor street the best part of the frontage the city should buy the 26-foot strip in the rear of the buildings moved back. This would lessen the cost considerably."

Extend Teraulay. "It would be much wiser to carry Teraulay street right thru, and thus relieve the congestion of Yonge street," said T. A. Staunton. "Any widening of Yonge street should be south of Bloor street. Besides, the 42 per cent. to be charged against the property for the improvement is very unfair. The cost should be borne by the city at large."

The assessment commissioner should also give an estimate on widening the street from the east side," said E. W. B. Butler.

"It would take eight months to get an estimate of cost of widening from the east side," said Aid. McBride. "Why not buy the back end of the lots and shove the buildings back 20 feet?" W. Claude Fox persisted, and none of the committee had an answer for him.

"Those who are opposing the widening of Yonge street are cheap knackers," declared M. J. O'Leary, representing the North End Citizens' Association. "But 42 per cent. is a little stiff. The property owners should not be allotted more than 20 per cent. of the expense. The orders from the north section of the city are to rush the widening. It is impossible now to widen from the east side, as the C. P. R. plans for a union station, and other improvements are now fixed."

No Choice Open. "The railway commission has decided that the widening must be on the west side," Aid. Wickert explained.

Aid. Wanless moved that the matter be deferred a couple of weeks. Controller Foster supported it. Aid. McBride vigorously opposed any delay. "Two weeks to wait a petition means additional delay to the end of the year," he said. "We have a big attendance of the committee today, and for the rest of this year we have had only half a dozen or so. Even Controller Foster is here, altho he has not been at this committee more than three or four times this year."

"I protest against that misstatement," Controller Foster said. "Leave out personalities," Aid. Walton interjected.

"It has squeezed the alderman's throat because Controller Foster has not attended many meetings," Aid. McBride flung back.

"Unalterably opposed to the widening of Yonge street to the railway tracks," said Aid. Anderson, "and I favor the extension of Teraulay street to relieve Yonge street." Compromise Suggested. "We should not widen Yonge street any farther south than Roxborough street," said Aid. Wickert, "and from there use Teraulay and Church streets to relieve lower Yonge street." It was decided to refer the matter to the street widening committee, who will report on Friday of next week upon the propositions made by Aid. Anderson and Wickert.

DOUBLE TRAGEDY ON LONG ISLAND

NEW YORK, Oct. 9.—(Can. Press.)—The Queen's County Jail in Long Island City, just across the East River from New York, was the scene of a midnight double tragedy, which was probably a case of murder and suicide. Henry C. Scatell, who was warden of the jail, returned to his apartments there at an early hour this morning and found his wife and a year-old son dead, each with a bullet wound in the right temple. Near Mrs. Scatell was found a revolver with two chambers empty. Both mother and child were in their night clothes. Scatell could suggest no motive for his wife's act.

EPISCOPAL CHURCH OFFERING.

NEW YORK, Oct. 9.—(Can. Press.)—Chief interest in the general convention of the Protestant Episcopal Church now in session here centered today in the united offering, the amount of which was to be made public at Carnegie Hall this afternoon. Three weeks ago, at the start, the total reached \$243,000. Estimated of the probable amount of this year's offering ran as high as \$500,000.

Stop Giving Your Money to the Landlord

Put your money into a home of your own. Any man who has an ambition to own a home on easy terms should consult with us. You need not be a pioneer—simply do as others have done and are doing—secure a lot in Regents Park. Quite a number of families have already investigated our proposition and have made their homes in

Regents Park

On Dawes Road---South of St. Clair Ave.

You can either build your house yourself or rely upon us to get it done for you. We have already built several attractive little homes which we have disposed of at a moderate price and on very easy terms to those who are now happily settled in them. For a man who wants to feel that he is giving his family the benefit of a home, with home conditions, home interests and home surroundings, no home opportunity ever offered in Toronto is better than our proposition.

The above reproduction was taken a few days ago by our photographer, and shows the inexpensive but comfortable style of homes being built in Regents Park. Those who have not the capital to build homes of this kind at their own expense can make arrangements with us on very satisfactory terms.

This gives another view of the development that is going on in Regents Park, where all circumstances make for comfort and convenience. Only 11 minutes' walk to a car line, and near a school, where children can get a good education. Homes like this will be built by the Company for those who cannot finance for themselves.

More Building and Active Development in Regents Park than Any Other New Property

You Can Secure a Lot for \$15

A first payment of \$15 will be accepted. This gives the buyer possession of his lot, and he can forthwith start to build. The price of lots is \$20 per foot, and the balance payable \$5 monthly, with interest. The opening of the Danforth Avenue car line in a few days will rapidly increase values. Buy now.

The store and the bank on the opposite corners of Dawes Road and Danforth Avenue mark the corner where those wishing to do Regents Park should turn north. These places of business do an excellent trade in the well-settled district in which Regents Park is located.

There's a Sidewalk All the Way

The street cars will be running in a few days on Danforth Avenue right past the corner of Dawes Road, and it only takes 11 minutes' walk to Regents Park. There is a good sidewalk all the way. If you do not feel like walking, we will take you in our motor, if you fill in the coupon for the Motor Car Appointment.

How to Get to Regents Park

It is easy to get to Regents Park. Go to the corner of Dawes Road—you will know the spot by the store and the bank on the corners—then go up Dawes Road, under the viaduct, past the beautiful private estate known as the Massey Estate. Regents Park is the next property.

TURN NOW TO THE EAST END

Mayor Announces Boundaries of Proposed Annexation in Todmorden.

PROFESSOR WRIGHT

Named as New City Architect at a Salary of Six Thousand.

"The aldermen of Ward One have agreed upon a northern boundary of the territory in the northeast proposed to be annexed," Mayor Hocken said at the board of control yesterday. "The boundary takes in Mount Pleasant Cemetery, a line from the east end of the cemetery to St. Clair avenue, along St. Clair avenue to the C.N.R. tracks, and following the tracks southward to the easterly limits of the city."

"It's about time we stopped keeping back the development of the east end," Mayor Hocken added. "The west end has been developed, and so should the east end."

"No territory lends itself better to annexation than Todmorden," Controller O'Neill said.

"I'm opposed," said Controller Foster.

"Area is too large," said Controller Church.

A resolution of expediency to annex the Todmorden district, according to the boundaries given above, will be sent on to the council.

"There's only one name—Professor Wright," Controller Church declared, when the matter of appointing a city architect came up. "His salary will be \$6000 to get him. I move that he be appointed at that salary. This was adopted. Controller O'Neill nominated Assistant City Architect Price, but had no support."

"What about establishing a purchasing department?" Mayor Hocken asked.

"Drop it," said Controller Church.

"The report is ready except signing," said Controller Foster. "We'll have the report without further delay."

"I move that we send on another resolution to increase the salaries of the members of the court of revision," said Controller McGarvey.

The motion carried. Controller Church and Foster opposing. Each of the members now gets \$1200, and the recommended increase is to \$1800.

In further effort to have the board rolls prior to 1912 returned, the controller will have a conference with the collector and Deputy City Treasurer.

Controller McGarvey put thru a motion that lights be placed on all the hydro poles erected and awaiting orders for wiring.

CANAL OPENING WILL BENEFIT B. C.

Fish, Fruit and Timber Traffic Need Panama Route, Says Sandon Perkins.

Mr. Sandon Perkins, F.R.G.S., well known traveler, explorer and lecturer, passed thru the city on Thursday last for London, England, on his return from an extended tour in the west.

Mr. Perkins is most optimistic regarding the outlook in the three western provinces and is surprised at the great increase of settlement since his last visit two years ago.

He is now connected with the lecture and colonization work of the C. P. R. in Great Britain and during his stay in the west he has been gathering material for use in his work during the coming season. He has been delighted with the general air of happiness, contentment and prosperity which seems to prevail amongst the many settlers to prevail amongst the hopes to be the means of influencing the old country to come out to Canada next year.

He has been surprised to see such a number of agriculturists from the middle states flocking into Alberta and Saskatchewan many of them taking advantage of the new twenty-year loan policy of the C.P.R. He is of the opinion that many of these so-called Americans are really of British origin, having gone to the States from either our Dominion or the old country, and of Canada is offering the west turning under the old flag.

"Any matter what they are as long as they are good farmers and citizens; they will soon realize what a good thing it is to be a Canadian."

Mr. Perkins thinks there will be a great thing up in mining matters soon, in British Columbia. What has been needed for years has been transportation, and now the railways which can build the fastest and the most; another factor which will be much to the good of the west, will be the opening of the Panama canal.

This will afford a cheap means of transport for many products such as fish and fruit, which need cold storage, to say nothing of the possibilities of the development of the timber trade.

URGE DAMMING OF CHIPPEWA CREEK

OTTAWA, Oct. 9.—The damming of Chippewa Creek so as to connect the city of Niagara Falls with the new Welland canal was urged upon Hon. Dr. Reid, acting minister of railways, today by a delegation headed by Evan Fraser, M.L.A. The creek enters the Niagara River within a mile of the city, and from the outlet to the new canal is about seven miles. A dam is required to make the creek navigable and furnish Niagara Falls with water transportation like Welland and St. Catharines.

**RALLY IN BRAZILS
 AFTER EARLY DRIVE**

With Weak Holdings Forced Out, the Market Price Advances.

C. P. R. STILL ERRATIC

No Buoyancy on Toronto Exchange and Price Changes Not Important.

The Toronto Stock Market was pretty well monopolized by trading in Brazilians again yesterday. Weak local accounts were responsible for the early decline to 85% at least of 1 1/2 points from the previous. With these accounts cleaned up the shares rallied to over 87. With plentiful supply of floating stock traders are now free to trade in and out on small fluctuations, and it will require some concentrated buying power to maintain any material advance in the shares above this level.

C.P.R. declined 2 1/2 points on the New York market in the early business, and later recovered almost the loss. On the local market scarcity of the stocks of Wall Street movements.

Rumor that financial arrangements had been completed to take care of the Macdonald Company were without influence, and those shares sold at a further advance. Spanish River was quiet and also lower.

The recovery in Brazilians gave a better tone to the late dealings, but as a whole the market lacked snap.

MULTIPLYING MONEY.
 Bankers' Bond Co. Publish Booklet For the Small Investor.

"An interesting story brochure the Bankers' Bond Co., 20 Victoria street, presents the results of compounding interest over a period of years. The method of investment will appeal strongly to those of moderate means, who can only invest in the installment plan, and a copy of the booklet will be found both interesting and profitable.

MARCONI.
 One of the Toronto brokers who has been looking into the merits of the Marconi Communication reports that he has examined the last financial statements of the English, American and Canadian companies, and he is of the opinion that all three of these companies have been well financed for years.

The English or American company has been supplying the funds for the subsidiaries in Canada. The Canadian company has been particularly well provided with cash. The English company paid in dividends on the preferred stock last year about 17 per cent, and on the common 2 1/2 per cent.

The American company paid a dividend of 2 per cent in January last, but since that time a number of companies have been renewed at more profitable figures and the American company has declined to do so.

The Canadian company has made as much progress last year as will be expected to show a big increase in the course of the year. These securities will be listed on the Standard Stock Exchange in due course.

ROCK ISLAND.
 Record earnings are reported by the Chicago, Rock Island & Pacific Railway stock, compared with 5-10 per cent in the previous year.

After allowing for charges and dividends there was a surplus of \$314,529, compared with \$309,252 for the year ended June 30 last of \$302,327. The working capital in surplus equals more than the last year.

Cash on hand June 30 was \$5,120,466, compared with \$15,073,939 on June 30, 1912.

The combined surplus of the Chicago, Rock Island & Pacific Railway and the Chicago, Rock Island & Pacific Railway on June 30 was \$859,271, against \$366,232 the previous year.

The Rock Island company, the holding company for the other two concerns, added \$258,492 to its surplus.

MEXICAN POWER DIVIDENDS.
 The Mexican Light & Power Company has declared the regular quarterly dividend of 1 per cent on the common, payable Oct. 15, to shareholders of record Oct. 6.

The books will be closed from Oct. 6 to 15.

The company has also declared the regular half-yearly dividend of 3 1/2 per cent on the preferred, payable Nov. 1 to shareholders of record Oct. 11.

The books will be closed Oct. 13 to 31, both days inclusive.

ENGLISH BANK STATEMENT.
 LONDON, Oct. 9.—The weekly statement of the Bank of England shows the following changes: Total reserve, decrease £1,482,000; Bullion, decrease £40,000; Other securities, decrease £2,677,000; Public deposits, increase £3,750,000; Notes reserve, decrease £1,457,000; Govt. securities, increase £1,500,000.

The proportion of the £1,500,000 to liability this week is 52.79 per cent; the week it was 52.26 per cent.

**STOCK MARKET IS
 MOS FACILITATING**

Prices Move Up and Down Causelessly in Abrupt Swings.

UNION PACIFIC MELON

Call Money Held Firmly at the Recent High Level.

NEW YORK, Oct. 9.—The stock market of today was a contradiction of terms. Prices moved up and down in abrupt swings during the forepart of the day, although there was nothing in the way of definite news to account for the fluctuations. And when an important development of the day was made known, which might have been expected to find instant reflection in the level of quotations, the market placidly ignored it.

UNION PACIFIC'S CASH BONDS.
 For several weeks the street had heard confident predictions of an extra cash dividend on the Union Pacific out of proceeds of the sale of Southern Pacific stock. It was largely on the strength of these predictions that Union Pacific was pushed up to 15% less than a fortnight ago. But the announcement today by directors, that no action would be taken at present, and that the board had considered no plan which "would have increased the present yield of the stock" had little effect. Recent intimations that no cash bonus would be distributed at 15% partly prepared the market for the action of the board. Straightway Southern Pacific and Rock Island preferred touched new low figures.

Then, on the news that the Union Pacific board would make some sort of announcement later in the day, the market edged up to the earlier high level, presuming that a cash distribution might be made.

The only effect of the announcement is being slight pressure to bear on Union Pacific. The flat dropped slightly, but at the close prices were well toward the top.

The recent turn in the money market was accentuated by a future advance in rates for all fixed periods. Call money was held firmly at the recent high level. Bankers were not only expected to prevail for some time, and that the New York money market would prevail for some time, but that even if the situation is not so strained, conditions might become strained quickly, with low money rates.

Gold to San Francisco was arranged today, and it was expected that several millions of dollars would be forwarded to Pacific Coast within the next few weeks. Bonds were steady.

LAWLESSNESS AT SHUSHANNA CAMP

Strike Proves Rich—Men Shovel One Thousand Dollars a Day.

VANCOUVER, B. C., Oct. 9.—(Can. Press.)—Tragedy, trouble and general lawlessness are the features of pessimistic reports which have come from Dawson and other towns that lie within the 500 mile radius of the Shushanna district, regarding the new gold camp. Claim jumping is going on merrily, food prices are rising, many are leaving the alluring gold fields for the winter.

Word from Fairbanks is to the effect that a Shushanna stamper named Partner, who was arrested and is today awaiting trial. Other reports tell of drownings and other accidental deaths taking their toll of the wealth seekers.

OTTAWA, Oct. 9.—Further official reports of the new gold strike on the headwaters of the White River, Shushanna district, received here, show that the strike is proving to be a rich one, and bids fair to prove true. Men with very little experience are showing in from one or two towns and are being proved to be some Canadian side of the line.

LONDON QUOTATIONS.
 Bondard, Ericksen & Co. received cables from London quoting Brazilian Tractor Company's output in the largest single month's output in the history of the company. This shows an increase of 27,000 tons over the output for the same month of the previous year, and an increase of 60,000 tons over the best month of the year ended in 1912.

The total production from the collieries for the nine months ending Sept. 30 shows an increase over the corresponding period last year, and the corresponding amount to 205,000 tons.

The officials anticipate an output of 4,750,000 tons for this year, which will be a decrease over 1912 of practically 237,000 tons, and \$26,973,197 in 1911.

GENERAL CLEARANCE TRADE FAIRLY GOOD AT ABOUT STEADY QUOTATIONS.

Receipts of live stock at the Union Stock Yards yesterday were 160 car loads, comprising 2024 cattle, 1897 hogs, 1246 sheep and lambs, and 391 calves.

There were no really choice cattle on sale, and the prices ruled as follows: Choice good, \$8.50 to \$7.20; medium to good, \$6.75 to \$6.25; choice poor, \$5.75 to \$5.25; medium to good, \$4.50 to \$5.00; butchers' stock, \$3.50 to \$4.25.

Prices of feeders and stockers were firm for the best grades; choice steers, 1000 to 1150 lbs., \$5.50 to \$6.75; steers, 1200 to 1400 lbs., \$5.00 to \$6.25.

Trade was active generally, excepting for common butchers' helters, which were slow of sale. Butchers' hogs and calves were firm at steady prices.

Choice veal calves are scarce, and prices were very firm. Choice veal calves of good, \$8.50 to \$7.20; medium to good, \$7.50 to \$6.25; choice poor, \$6.50 to \$5.25; medium to good, \$5.50 to \$6.00; rough eastern calves, \$4.50 to \$5.00.

D. A. McDonald sold for McDonald & Halligan on Tuesday, Wednesday and Thursday 44 car loads of stock, as follows: Butcher steers, 1150 to 1250 lbs., \$4.75 to \$5.25.

The Corbett, Hall, Coughlin Company sold on Tuesday, Wednesday and Thursday 44 car loads of stock, as follows: Butcher steers, 1150 to 1250 lbs., \$4.75 to \$5.25.

LONDON, Oct. 9.—(C. A. P.)—The belief of the militant incendiaries that under the act and mouse act they were assured of speedy release from prison by "hunger striking" could not repeat their offence, recalled a rude shock today by the announcement of the Federal Home Office that Miss May Richardson, who has been in prison since October 4 on the charge of arson, and who has refused to accept the offer of a reprieve, would not be given her freedom. The prison authorities have been instructed to resort to forcible feeding, if necessary to prevent the incendiary from starving herself to death.

LONDON, Oct. 9.—(C. A. P.)—The Do-actio of the British Home Office, in fact some three months ago, says the Telegraph's Sydney correspondent, that the government made a definite proposal to the imperial government. Mr. Milner, the Australian minister of defence, declared that in the event of Mr. Asquith's decision, such a conference would be held.
