L.-GOVERNOR SNOWBALL DIES ON WAY TO CHURCH

Seized With Heart Disease in Front of the Parliament Buildings at Fredericton, N.B., and Passes Away on the Street—Had Entertained at State Dinner Previous Evening

Fredericton, N.B., Feb. 24.—(Special.)—Hon. Jabez Bunting Snowball, lieutenant-governor of New Brunswick, dropped dead about 7 o'clock this evening. This morning his honor got up at the usual hour, and after breakfasting was driven to the Methodist Church, where he attended the service, and later on he walked back to the hotel. His agent the afternoon quietly, and at 6 a.m. he left the hotel, closely followed by his valet, to attend service at Christ Church Cathedral. After having walked a block and a half his honor complained of weakness and turned about to retrace his steps to the hotel. Soon after this he grabbed his valet by the arm, and when nearly in front of the parliament buildings, where only on Thursday evening last, with members of the government, he received guests at a public reception in connection with the forestry convention, he suddenly sank to the sidewalk and expired before several members of the legislature and employees of the hotel had time to arrive and carry him back to the hotel. Last night his honor entertained at state dinner at the Queen's Hotel, where he had made his home during the session. It was his honor's intention to have started early next week for Toronto where Mrs. Snowball and Miss Lillian Snowball are.

Wife and One Daughter at Present in This City. Besides a widow, his honor is survived by three sons, W. B. and R. A. Snowball of Chatham and Macdougall of Pasadena, Cal. Three daughters, Miss Frances, who is visiting her brother in California; Miss Laura, who left last week for Chatham after having with her father for a couple of weeks, and Miss Lillian, who is with her mother in Toronto. Mrs. Snowball is one sister, Mrs. J. L. Black of Sackville, N.B.

During the past year his honor's daughter, Miss Anna, who is now in this city; his brother, Judge Snowball, has died in the west; his son, Dickson, his died in New York, and another sister, Mrs. Thompson, wife of Senator Thompson, has died in this city.

The legislature is now in session here, and this is the first time in the history of New Brunswick that a governor has died during the session of the legislature, and it is therefore uncertain as to what action will be taken. Hon. Jabez Bunting Snowball was born in Lunenburg, N.S. in 1837, his father being Rev. John Snowball, Methodist minister. He graduated from McGill University, and became interested in general stock business with John Macdougall, and later entered into fishing and lobster business as well as lumbering. Some years ago the business went into a joint stock company known as the J. B. Snowball Company, Limited, which is one of the largest lumbering concerns in the province, and exports 30,000,000 feet of lumber annually.

As a railroad builder, Mr. Snowball, with Alex. Gibson, built the Canada Eastern Railway, which was sold two years ago to the Intercolonial Railway. His Public Life. In 1874 he offered himself for federal political honors and was defeated, but at the next election he won out. In 1892 he became senator, and on Feb. 5, 1902, he was sworn in as governor of New Brunswick. He acted as inspector of savings banks at Chatham; consular agent for France on the Miramichi; president of St. George's Society, as well as taking an active interest in militia matters. He was captain of a company that was under arms at the time of the Fenian invasion in 1866. He was also drill instructor of the company.

He was twice married, first to Miss McDougall, and second to Miss Archibald of Scotland. It is a sad coincidence that New Brunswick should in the course of a few weeks lose here by sudden death two of her prominent men, the death of Hon. A. G. Blair also occurring in this city.

Former Confidantes Now Helping Jerome Assail Her Character—Request for Lunacy Commission Seems Likely

New York, Feb. 24.—When Evelyn Nesbit Thaw entered the Tombs yesterday to see her imprisoned husband her face lighted with a wan smile as she said that she felt ready to resume her cross-examination in Harry Thaw's trial for murder to-morrow. But some of the girl-wife's recent confidence was gone from her bearing. She knows now that not only has her mother joined the ranks of her enemies and given into Jerome's hands facts with which to confront and condemn her, but that two, at least, of her best and oldest chums of the Broadway chorus and the Broadway cafes are now doing all they can to aid the reluctant district attorney in tearing apart the story she has told of her experiences in Stanford White's hands. These girls are allies to be feared. One of them has been hostile to Evelyn Thaw for months. Another, it is said, only recently went over to the side of the prosecution. The former artist's model fears fresh surprises on Monday, she has more than a suspicion that Jerome's deadly, bottomless black gripstick, from which she has already come her mother's statement, her own private notes, written years ago and forgotten, will give up some more unexpected and mysteriously secured documents when the trial of Stanford White's sayer is resumed.

It is also learned that Jerome is working out a secret plan to discredit the testimony of Evelyn Thaw. In this the prosecutor is being aided by Mazie Follette and Hattie Forsythe, the chorus girls and former intimate friends of Mrs. Thaw. Evelyn Thaw has brought in the name of Mazie Follette more than once during the trial, when she whips out secret notes to Jerome. The testimony was shown to Mazie Follette. What she did not know about Stanford White's attentions to Evelyn Nesbit before her marriage to Thaw she has acquired the district attorney has recruited the district attorney with brutal treatment of Evelyn Nesbit by Thaw before she became his wife.

The importance of Mazie Follette's testimony is such that she is under guard. She is being watched by four or five men. She is being watched by the office of the district attorney. When a name is mentioned by Evelyn Nesbit, she is sure to be called to the stand and asked to give her own account of the matter. The prosecutor hopes, however, to drive the defence into the admission that Thaw may have committed indefinitely to an asylum. Mr. Jerome does not deny that he himself thinks Thaw insane at the time, and that, if true, may have been insane when he killed White. He is yearning to be convinced that he was indisputably insane at that time, and that, if true, his professional opinion that a person whose mind was so unbalanced at that time cannot possibly have recovered by now.

Let Home Suddenly. New York, Feb. 24.—Dr. Burr left his home yesterday afternoon without informing his family as to his destination. He thought that he was on his way to New York in response to a telegram from a friend. He had been suffering from severe attack of grip and had not fully recovered. Among his friends to-night it is the general opinion that he was suddenly attacked by dizziness while passing from one car to another on one of the New York trains and fell to the tracks, where he died about 400 feet.

PETITION FOR AMUSEMENT. Thousands of Cuban Ask Governor to Allow Cock Fighting Again. Havana, Feb. 24.—A procession led by Ex-Senator Montegudo and composed of 500 horsemen, many carriages and bands of music, paraded the streets to-day. A halt was made in front of the palace, where the bands played patriotic airs and much cheering. Governor Magon, in response to cries of "Long live Governor Magon," reviewed the gathering from a balcony of the palace, and afterwards received a committee, which presented a petition signed by many thousands of persons in Havana and other cities requesting the abrogation of the military order of General Leonard Wood, prohibiting cock fights, which Magon promised to give the matter his careful consideration, after which the gathering dispersed.

7 STATES REDUCE FARES SEVEN OTHERS GOING TO

Two Cents a Mile on the Railways is in General Demand—In Minnesota Only One Vote Recorded Against It—Some Get 2 1/2 Cent Rate. Chicago, Feb. 24.—(Special.)—The question of a 2 cent a mile passenger fare on railroads continued to hold chief attention in the legislature of the states of the middle west and south during the last week. In seven states a reduced rate is assured. They are: ALABAMA, NEBRASKA, ARKANSAS, WEST VIRGINIA, INDIANA, WISCONSIN, MISSISSIPPI, IOWA, PENNSYLVANIA, MICHIGAN, NORTH CAROLINA, MINNESOTA.

Indiana is the latest state to join the 2 cent column, the senate last Friday having passed the amended house bill. As amended the measure provides for a 2 1/2 cent fare when no ticket is bought, the extra 1/2 cent, however, will be refunded at any ticket office of the road. The bill now goes to Gov. Hanly for signature. So strong is the sentiment in Minnesota that the bill was railroaded through the legislature. Last night only one vote being recorded against it. The senate has still to act on the bill.

In Illinois a 2 cent fare bill has been introduced in the lower house and advanced to second reading. There is some fear, however, that the measure is not quite so all it seems. The fact that the railroad lobbyists will make no fight against it has given rise to the suspicion that if it becomes law it will not hold water. In view of this fact it is possible the bill may be worked over and its weak points strengthened before it is finally put through.

Action This Week in Iowa. The measure passed by the Iowa house has been reported in the senate and will be taken up this week. It is said there is little doubt of its passage, the railroad interests are fighting it tooth and nail. In Wisconsin the state railroad commission has taken the matter out of the hands of the legislature. Last Tuesday the commission gave a decision ordering a reduction in passenger fares from 3 cents a mile to 2 1/2 cents.

The roads affected by the order are the Chicago and Northwestern, the Chicago, Milwaukee and St. Paul and the Chicago, St. Paul, Minneapolis and Central, however, have announced that they will not accept a similar reduction, and it is believed all the lines in the state will follow suit. Meanwhile the legislature has dropped the passenger fare question. Missouri also fell into line last week, the senate having passed an amended measure, and sent it to the house. That body will pass it, and the gov-

Roosevelt Talks to Harvard Students on Value of College Course to Those in Public Life.

Cambridge, Mass., Feb. 23.—President Roosevelt to-day was the guest of the undergraduates of Harvard and took the opportunity to deliver an address, in which he set forth for them the rules of conduct in college and after-life. The president went to Cambridge primarily to visit his son Theodore and renew old acquaintances. His speech, which was delivered in Harvard Union, was followed by the presentation to him of a bronze medal by the board of trustees of The Harvard Advocate, with which he was associated during his own Harvard days. The president devoted the first part of his address to the undergraduates, advocating a stricter, rougher, the better, as a means of developing courage in the man. He gladdened the Harvard men by championing football, declaring he could see no reason for its abolition. He earnestly urged the undergraduates not to become slaves to athletics in any form.

Over-culture was also held up by the president as something to be shunned. By this he meant specialization in some particular branch of education, which tended in later years to send the man aloof and apart from his fellows, and unfitted him for the broader duties of citizenship. His sympathy for state government. Then Mr. Roosevelt branched off into an attack upon the theorists and idealists, educators and others, who stood aloof from the practical things that the men who are doing the nation's work are achieving. His remarks have been addressed to Chancellor Day and his kind, but no names were mentioned. In this connection, Mr. Roosevelt made a special point of stating that as those who clamor for the inalienability of state rights, he declared that it must be the duty of every citizen to break the contract labor law for the benefit of certain states.

Those who invoke the doctrine of state rights to protect their corporate creations in predatory activities extended thru other states, are as short-sighted as those who insist that people have not the ability to strike against syndicated wealth, and, therefore, in the interests of the people, it must be broken. "Our present warfare is against special privilege. The men—many of

KAISER AND HIS COLONIES. Thinkers Members of Reichstag Should Visit the Possessions. Berlin, Feb. 24.—Emperor William to-day gave an audience to Count Udo von Stolberg-Wernigerode, president of the Reichstag. The emperor expressed his high satisfaction over the result of the recent elections, which, he said, showed that the social democracy had been overthrown. He hoped this spirit among the people would continue.

Regarding the colonies, Emperor William expressed the wish that a large number of the members of the Reichstag would convince themselves as to their value by traveling there. SHOT IN SELF-DEFENSE. Buckingham Trial Ends in Acquittal of Accused—Strikers Started It. Ottawa, Feb. 24.—(Special.)—The trial of Alex. McLaren, Frank Kierman and J. C. Cummings on a charge of manslaughter in connection with the Buckingham lumber strike riots, ended in Hull Saturday evening by the acquittal of the accused. Judge St. Julien decided that the first shots were fired by the strikers, and that the accused merely shot in self-defense.

COLLEGE DESTROYED BY FIRE. Loss \$150,000.—Quebec Village Will Be Hard Hit. Montreal, Feb. 24.—(Special.)—The college at Martville, a small town in the Central Vermont Railway, in the County of Rouville, was completely destroyed by fire on Saturday. The 225 scholars are now billeted with the surrounding farmers. No lives were lost. The damage is valued at \$150,000, \$100,000 of which is covered by insurance.

CITY COUNCIL TO-DAY. James St. Extension Will Be Again Considered.

CITY HALL TO-DAY. 8 p.m.: City Council Meeting.

With adverse reports from both the civic works committee and the board of control, the petition to set aside the bylaw of last year for the extension of James-street, comes before the city council to-day.

It is a significant fact that of the council of 1906, which had opportunity to vote on the extension, only Ald. Vaughan and Ald. McBride have come out in support of the new movement.

There are several interesting issues for to-day's meeting. Whether the city should or should not apply for a charter, will be debated upon with indications pointing to the returning of a negative answer.

News From Want-Adville

The fundamental instincts of men are alike. It is only in their ideals they differ.

"I do not speak as an unbeliever in the principles of evolution which Darwin taught, but I believe those principles are often wrongly applied to this phase of thought, and an unduly pessimistic and depressing view of evolution and life results.

"The survival of the fittest merely changes the animal teeth into the axe and the spear, then we might be justified in concluding that we are justified in getting by on shrewdness and ability and that we can win entire disregard to the claims of others.

"The second place, man's struggle for necessities does not completely satisfy his necessities. Men still die of starvation. Thousands are underfed, and but partially clothed. The men do not struggle for food dogs fight over a bone, yet they struggle and scheme for the jobs which will provide the means of sustaining life.

"In the second place, man is less ferocious than the animals, and his power to regulate the conduct of his race places animals in the struggle for existence. In the third place, whereas in the animal struggle the weak are ruthlessly sacrificed by the strong the public conscience has been educated in the human mind, and the struggle is softened and regulated by custom, law, public opinion and humane sentiment.

"When I hear some speak of the deterioration of the race, I say a wider knowledge of the laws of heredity and a wiser regulation of the institution of marriage will put a check to it.

"When Darwinians say to me that life is only a struggle for an animal existence, I say: 'No! Every age in its art, literature and religion demonstrates that there has ever been a class of workers who sought to give expression to their souls' activities. Life is a struggle for existence; but it need not be merely a struggle for existence.'

HAMILTON HAPPENINGS

GAMBLING HOUSES RAIDED OVER FIFTY ARRESTS MADE

Police Makes Three-Sudden Visits Early Sunday Morning and Haul is a Big One.

Hamilton, Feb. 24. (Special.)—The police made a series of the most sensational raids in the history of the city early Sunday morning, when they made a clean-up of three alleged gambling joints, arresting 54 men and gathering in two or three patrol wagons loads of paraphernalia.

The raid was well planned and carried out without a hitch. The three places cleaned out are 69 Merrick-street, the upper story of the building on the southwest corner of Park and King-streets, and rooms on the second story of the store on the southwest corner of Park and King-streets.

The stakes, as they stand now, make the conviction of gamblers very difficult. The police have to prove that there is a "take-off" for the keeper, but the chief or his deputy must personally conduct every raid made. To fulfil the requirements of the law, Chief Smith conducted the raids at two of the places, and Sergeant Mahon, Pringle and the other.

The chief, the sergeant-major and Inspector McMahon were taken to the chief's office, where they were given instructions to be at one of the three places shortly before 1 o'clock. The chief, the sergeant-major and Inspector McMahon were taken to the chief's office, where they were given instructions to be at one of the three places shortly before 1 o'clock.

The roundup. At the word of the chief, the constables closed in, battered down the doors and invaded the places, placing everyone present under arrest.

At 69 Merrick-street there were six men and 200 dollars worth of paraphernalia. The outfit, including a heavy table, was lugged down to No. 3 police station and locked up. The sergeant-major's office, where it was to be under lock and key until it is wanted for court, is being kept in the meantime.

The prisoners from the different establishments were conveyed, ten at a time, in the patrol wagon to No. 3 police station and locked up. The three obtained the amount of \$20. All but three obtained the amount of \$20.

Long Time Planned. They are still in the cells, but they have no reason to complain of being there. The chief, the sergeant-major and Inspector McMahon were taken to the chief's office, where they were given instructions to be at one of the three places shortly before 1 o'clock.

The Men and the Penalty. The penalty for those found in gambling houses is a fine of not less than \$20 nor more than \$100. For the keeper of a house, the penalty is a fine of \$200 or imprisonment, or both, at the discretion of the court.

Saturday night brought the officers' indoor baseball season to a close. Two special games were put on, the first between the 4th Highlanders and the 2nd Highlanders of Hamilton, and the second between the 4th Highlanders and the 2nd Highlanders of Toronto. The 4th Highlanders of Hamilton were victorious, scoring enough runs in the first two innings to win. After that it was just a case of how many they could score. The game ended in the seventh, the 4th Highlanders having scored 10 runs, the 2nd Highlanders having scored 7 runs. The 4th Highlanders were responsible for the majority of the 4th runs, while E. Bruce and Miller were the pick of the 2nd. The second game was by long odds the best exhibition of baseball put on in the Armeries. The officers' team was the strongest team that ever represented their position, and they certainly upheld their reputation, only making a few errors in the field. The 4th Highlanders were the feature of the evening, and Bruce and Miller were the pick of the 2nd. The second game was by long odds the best exhibition of baseball put on in the Armeries. WOMAN FOUND DEAD IN SHED BODY UNIDENTIFIED 3 DAYS

Identified as Jessie MacGregor, Scotch Immigrant—Body Was Frozen Stiff.

The body of Miss Jessie MacGregor, a young woman of 27 years of age, was found in a shed at rear of 11 Isabella-street on Saturday afternoon, frozen stiff. The body was lying on a pile of straw. She had been seen entering the shed on Wednesday afternoon, having been directed there by Mrs. Honora Sullivan of 11 Isabella-street, where she had called for toilet conveniences. About 4 o'clock Saturday afternoon, Doane's Livery was taking in wood he was accosted by Mrs. Sullivan's mother, an old lady of 85 years of age. She said she saw a woman who was wearing a white dress and a white hat, and who was carrying a bundle on her back. She said she saw her enter the shed and take a look around.

MERITED ENDORSEMENT.

Vin Mariani has been recognized by the literateur, honored in exquisite verse by poets of eminence, sung about in glorious hodennas by the world's greatest musical composers; it has been painted, sculptured, engraved, illuminated, beset with jewels, decorated and made the veritable embodiment of all that is classic and beautiful. And all this, too, by artists of such renown as to be above suspicion of other influence than an impromptu obeisance in recognition of unusual merit. It has been praised by kings, princes and potentates of high degree, and even been blessed by the Pope.

VIN MARIANI

The Canadian Niagara Power Company (Rankin), the oldest of the power companies at the Falls, having a franchise and an act of incorporation from the Province of Ontario, went last session to the Dominion parliament at Ottawa, and without giving any reason, and notwithstanding the opposition of one or two members, secured a short act which declared it to be "a work for the general advantage of Canada."

There is a combined effort being made on the part of some of the big stores to block the extension of James-street, south of Queen, which was decided upon a year ago by the city council.

This extension would relieve the congestion on Yonge-street approaching Queen and would be a benefit to the city as a whole.

The World again directs the attention of the board of trade, the hotels and steamboat companies that cater for tourist travel, that one of the greatest streams of travel in America is likely to set in toward James Bay once it is made accessible by rail.

up to Hudson Bay. At this very moment the Province of Quebec has a project of that kind under consideration and Sir Wilfrid Laurier has announced that the Dominion government intend to build a line from the western provinces to Hudson Bay.

It may or may not be an experiment in Quebec and the same may be said of the federal proposition in the west, but as far as the Ontario road is concerned it has already been demonstrated that it will be a great commercial success.

There is either good agricultural land or timbered land and mineral land between here and Hudson Bay, and once that Bay is in direct touch with Toronto there can be a great expansion of trade in fish, furs, etc., on the bay and up the rivers from the west that flow into the bay.

And then there is the timber trade, the mining business, fishing, and everything else, not only to furnish traffic, but to make it a most profitable undertaking for the people.

The government must also see the necessity of owning its own road or having running rights between North Bay and Toronto. It would be unwise for the government of Ontario to guarantee the bonds of a railway between here and North Bay for any private company and neglect to secure a road for itself.

THE RAILWAYS AND THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA.

"THE FIRST AND PARAMOUNT DUTY OF THE BOARD OF RAILWAY COMMISSIONERS IS THE REGULATION OF RAILWAY RATES."

This was the statement made to the house of commons by the minister of railways in introducing the bill creating the board of railway commissioners, but it is quite evident that the present board do not agree with the government in their view that supervision over railway tariffs is the most important feature of their work.

We have drawn the attention of the government and the board of railway commissioners to the disabilities and discriminations existing in connection with the transportation business of Canada, but apparently neither the government nor the board of railway commissioners are prepared to protect the public against the abuses in connection with the transportation of traffic.

We have drawn the attention of the government to the fact that the present board of railway commissioners are not competent to perform the duties entrusted to them, but up to the present time no action has been taken looking toward a reorganization of the board.

The members of parliament appear to be disinclined to take any action to discipline the carrying companies notwithstanding the fact that the losses to their constituents, thru lack of facilities for the proper conduct of the carrying trade of the country, have been enormous.

The people of Canada should undertake to discipline their representatives in parliament and insist upon them doing their duty.

If the City of Toronto had a few representatives like the members for the United States, what would be the result if he were backed up in his work by a dozen members who had the interest of their constituents at heart?

There is only one way in which anything can be accomplished in the direction of securing proper treatment from the railway companies and that is, for the public thruout the country to demand from their representatives the performance of the work for which they were elected to parliament.

The government must assume responsibility for the incapacity of the members of the board of railway commissioners. It is their duty to see that the men occupying positions on that board are competent to perform the work entrusted to them.

NO HOTEL SYNDICATE. Would Not Be Sanctioned Even if Within the Law.

Concerning a story that gained some circulation on Saturday to the effect that a syndicate was to be formed to take over the hotels now "tied" to the breweries, Dr. Wilson, chairman of the board of license commissioners, said: "Such a report is the wandering of a diseased mind. Under no consideration would it be allowed, for it would benefit no one. Anyway, it would be against the law."

Concerning a story that gained some circulation on Saturday to the effect that a syndicate was to be formed to take over the hotels now "tied" to the breweries, Dr. Wilson, chairman of the board of license commissioners, said: "Such a report is the wandering of a diseased mind. Under no consideration would it be allowed, for it would benefit no one. Anyway, it would be against the law."

MILK AND CREAM DEARER IN FORM OF RAW MATERIAL

But Dairy Industries in U.S. Show Considerable Gains—Starch Business Failing.

Washington, D.C., Feb. 24.—That the cost of milk, and particularly cream, has advanced enormously since 1910 as the result of the curtailment of supply to the large cities, is indicated in a census bulletin issued today relative to the manufacture of butter, cheese, condensed milk, and other dairy products, and starch for 1906.

U.S. RAILWAY FIGURES SHOW LESSENING IN RATES

Tendency to More Careful Financing of the Roads is Also Indicated.

Washington, Feb. 24.—Senator Ellkins of West Virginia has just completed and filed in the senate his minority report on the railroad rate law. The report was nominally submitted June 18 last, but was immediately withdrawn for further elaboration. It is now a comprehensive history of the economic development of American railroads and contains exhaustive statistics which tend to show a constantly decreasing freight and passenger rate, and the relation between such rates and the price of commodities and cost of labor. As to the decline in rates, the report says: "The average passenger rate advanced slightly from 1870 to 1880. During the next 24 years there was a decline amounting to 17.88 per cent. of the average for 1880. The net decline from 1870 to 1904 being 33.14 per cent. The decline in the average rate per ton-mile of freight from 1870 to 1904, during the years from 1870 to 1904, the rate for the earlier year being 1.19 cents, and for the later year being 0.79 cents, a one-half times that of the latter and the net saving to shippers averaging 33.14 per cent. per ton-mile."

Extra Special Value in Our Staple Section

Our staple or household linen section has been receiving large quantities every day of their new stock, and among the shipments are many special lines, which our buyer purchased from the manufacturers at a special price, which in some cases amount to nearly half what it really should be. For example to-morrow we are offering some high-class English finished cotton sheets, hand hemstitched, extra large size for double beds with ample turning back over blankets, and plenty for tucking to make a comfortable and cozy bed, 75 pairs only, on special sale at a pair..... 4.00

Our special line of quilts for to-morrow's selling will be very welcome, as our winter is certainly not over yet, and there are many needs for warm bed clothing yet. These are all very fine quilts which we offer for to-morrow, some have frills, others plain edge satin tops and satin backs, and some all-ateen. Our price is actually lower than the manufacturer's cost. 8.00

Also another offering for cold weather, a lot of Scotch Blankets, with blue or pink borders, very high-class goods and thoroughly shrunken, cut single, and absolutely clear and free from specks or burrs. 25 pairs, size 68x86-inch, will be sold for \$5.75 a pair. 25 pairs, size 72x90-inch, will be sold for \$6.50 a pair.

SPUN SILK VESTS 50c. We have just received a new shipment of Women's Ribbed Cream Spun Silk Vests, Swiss make, with crocheted yokes and straps, no sleeves and silk ribbons, special value at, each..... 50

COLONIAL FINGER BOWLS 75c. 60 dozen Colonial Finger Bowls, with cut bottoms, extra choice, clear glass, and as good as new, nothing will give you as good satisfaction. Our special price, 7.50 a dozen..... 7.50

FINE SPRING FOOTWEAR FOR WOMEN

For to-morrow's special selling in our show section, we have chosen two lines of Women's Vici Kid and Patent Colt, new spring lace walking boots, together with a large variety of button and lace boots, which have been left over from the past season's selling. There are some of our finest and very best makes in the lot, New York and Boston make, light hand turn and Good-year styles, Cuban or military heels, made in the newest and most up-to-date styles for spring wear. All sizes in the lot, regular \$4.00 to \$5.00 a pair, Tuesday, your choice..... 3.35

should be called that Justice Fitzgerald was led to enquire: "Are they your witnesses, Mr. District Attorney, or were they summoned by the defence?"

Some days ago Mr. Jerome was given permission to examine the two physicians in his office, the idea being that their testimony might be taken in the form of depositions. Evidently something occurred during the examination to cause the defence to take a new view of the matter. The district attorney, in insisting that the doctors be heard declared that it was necessary for them to take the stand.

It is held that Mr. Jerome's anxiety to have the doctors testify at the earliest possible moment can have but one meaning, that their evidence has not been so convincing as he had expected, and that he is anxious to get it upon the record.

Authorized Capital \$500,000.00
Treasury Stock - \$200,000.00

We are the only producing mine in the district and have assays running from \$900.00 to \$18,000.00 to the ton. The first shipment of ore will be made early in March to the School of Mines at Kingston, Ont., for treatment.

A limited number of fully paid and non-assessable shares are now being offered to the public at 75c per share, par value \$1.00, and are selling very rapidly. At \$6.00 or \$7.00 to the ton we can pay good dividends; but we expect our ore to average better than \$100, in which case it will be hard to estimate the value of our property. Buy at once before the advance, which is sure to take place early in March. **Just think--one hundred acres, sixty on the richest part of Larder Lake and forty on the Wendigo River.**

THE LESSON OF SAMSON.

Subject of Rev. Dr. Johnson's Address at Downtown Service.

At the services held in the Grand Opera House last night, every seat was occupied almost before the opening hymn, and many were obliged to stand throughout the whole service, all of which goes to show that these Sunday evening services inaugurated by Rev. Mr. Fitzpatrick have outgrown the building in popularity for the churchless and the strangers within the city. The song service has also improved that it has now all the volume and regularity of melodious rhythm which is to be found in the established places of worship.

Rev. C. O. Johnson, the speaker of the evening, delivered an earnest and convincing address, which visibly reach-

EDUCATION OF THE HEARTS OF MANY.

He took as his subject for illustrating the points he desired to make, Samson's career with the Philistines, and by ingenious parallel likened the downfall of the strongest man of the Bible to that of many of this day and generation.

He appealed to all present to beware of the seductive attractions of ungodly pleasures, and to those who were within the enfolding net of dissipation to break away from the toils of sin, which would mean their eternal damnation if they did not throw themselves upon Christ's all-saving mercy.

BOWMANVILLE'S POSTMASTER.

Bowmanville, Feb. 24.--The vacancy in the Bowmanville postoffice, made by the death of J. B. Fairbairn, postmaster, some six months ago, has at last been filled. John McMurtry receiving the appointment.

LICENSE FOR COBALT.

Better to Have Legal Regulations Than Illegal Dispensing.

Cobalt, Feb. 20.--(From the Man on the Spot).--Undoubtedly one of the most perplexing questions that confront the provincial and civic authorities regarding Cobalt is that of liquor licenses. Of course, until the government decides that Cobalt is to have hotels licensed to sell intoxicating beverages, the question cannot be properly termed a "live" one, but it is one that already has received much serious consideration. It is a question regarding which Cobalters are by no means unanimous.

As the law stands, no liquor license can be granted within five miles of a working mine. The mine owners of Cobalt Camp will ask for the continuance of this law.

The Conservative party now in power at Toronto, seems to have been largely influenced by the so-called "Temperance" people of Ontario, who have made a demand that no license shall be granted in New Ontario. This is a somewhat typical of local legislation that New Ontario residents. The people of New Ontario are every bit as capable of exercising self-control, just as intelligent and just as temperate as the people of Ontario, or any other section of old Ontario. The citizens of Cobalt are no exception. It is not the people of Ontario, or any other section of old Ontario, who have caused this and every other section of New Ontario by the "demon drink," but they also have caused this and every other section of New Ontario by the "demon drink."

During the past ten days, as a result of activity on the part of the license inspector and Commissioner Morrison, some 20 raids were made and large quantities of liquor seized. This has led many to think that, after all, it would be better to have a limited number of licenses granted, provided the provisions of the liquor Act were strictly enforced. Would this result in increased drunkenness in Cobalt? It is to be feared that it would, but would this be a greater evil than the evils concomitant with "blind pigs"?

In Latchford there is one with the probability of a second one being granted. The authorities in these places have to contend with much that Cobalt now does not experience. The problem is a big one, and if the government would make a wholesale reduction in the number of licenses granted in the small and almost dead towns and villages in rural old Ontario, and would make a condition rule that the number of licenses should depend entirely upon the population in the municipalities where licenses are sought, their attitude in the matter of "no new licenses" would receive just as much support in the north land as in old Ontario, for we have up here just as temperate and as moral people as there are on the continent of America.

EAST YORK LICENSES.

Claims Equal to Amount of Treasurer Against Hotel Proprietor.

East York license commissioners met at the Clyde on Saturday afternoon and practically decided on the transfer of the license of the Bay View Hotel in East Toronto from C. T. Gates to P. McGeorge. The consideration for the good will is \$3000. Claims aggregating in the neighborhood of \$2000 were presented against Gates, and a long argument ensued between counsel, representing the creditors as to the di-

ELY COPPER DISTRICT

NO CAMP IN THE COUNTRY CAN PRODUCE AND MARKET ITS OUTPUT AS CHEAP.

Ely, Nevada, Feb. 23.--Ely is booming. Every passenger train brings dozens of mining men and investors into the camp, and the recently completed Nevada Northern Railway is already congested with freight for the mines and the new smelter. In the town building operations are in full swing, and even at this early period in the season accommodations are in process of erection, are spending millions in preparation for one of the biggest copper camps in the country. The question of economy in mining, reduction and smelting has never been more carefully worked out than in the case here, and when present plans are completed Ely can market its product more cheaply than any other copper camp in the country. The successful development of the several mines of the neighbourhood by the Nevada Consolidated Companies has given an impetus to development work throughout the district.

Some of the smaller and practically undeveloped properties in the copper belt of the Nevada Consolidated Companies are at prices which would have seemed ridiculous twelve months ago; yet negotiations are under way for the transfer of many of them. Without question, to-day's prices will seem high when the time comes when there are hundreds here who are anxious to fall into line and profit by the extensive copper boom now in progress.

Best Indication of Future.

One of the best indications of the certainty of Ely's future in the mining district best qualified to know from personal touch with the possibilities of the camp, is to be found in the fact that several of the men now making their homes here in Ely are an objective point. Within a few miles of the Nevada Northern Railway, and run through the heart of the copper belt, is Lake City. The Clark line have already been surveyed east from Tonopah and Goldfield toward the big copper camp, and another road is pushing up from the south. Not only is Ely destined to become one of the biggest copper producers in the United States within the next two years, but it is also to become one of the largest railway centres in Nevada. Ely itself has every characteristic of the western mining town. Money is plentiful; no one who would it need be out of employment twenty-four hours, and everyone is boasting for the camp.

Uniformity of Value.

The solid foundation for all this activity is to be found in the nature of the deposits. Every day's work serves to emphasize the enormous extent of the ore bodies. Unlike some of the older copper camps of the country, these ore bodies are remarkably uniform in value. The majority of cases there are no well-defined walls, but the lenses seem to gradually increase in value the further they are from the zone are reached. This zone is now present in the upper part of the Wedge, which has now gone down below the leached zone, and is in sulphide, showing a value of 3 per cent. copper, approximately 20 feet. At the 100-foot level of the Wedge a station has been cut and getting started along the ore body. The Jupiter and Ada shafts on the Cumberland, and the Nevada Consolidated. At the Bureka workings of the Nevada Consolidated steam shovels will be installed as early as possible. The best metallurgical and engineering talent in the country is engaged in working out the problem of production and reduction along the most modern lines, and the necessary machinery and equipment to attain these results are already being installed.

PENNSYLVANIA, BEECH CREEK AND EASTERN COAL CO.

OFFICE OF THE PRESIDENT, WHITEHALL BUILDING.

New York, Jan. 29, 1907.

Gentlemen.--Referring to your request for information with reference to the property and earnings of this Company I beg leave to state the Company controls by lease for a period of 99 years from September 1st, 1906, 106,000 acres of coal land, including the property of the well known and long established Pennsylvania Coal & Coke Co., Beech Creek Coal & Coke Co., Webster Coal and Coke Co. and other subsidiary companies.

The workable, merchantable, bituminous coal underlying these properties conservatively estimated by E. Y. D'Inville, H. M. Chance and William Glyde Wilkins, well known geologists and independent coal experts amounts to between eight and nine hundred million tons of high grade bituminous coal of the best steaming and coking quality. These lands are so situated that the product commands the lowest freight rates to tidewater and New England ports.

The Pennsylvania, Beech Creek & Eastern Coal Company also controls a number of electric light and water companies with valuable rights and franchises. All the stock of the Hooverhurst & Southwestern Railroad and a large majority of the stock in the North River Coal & W'arf Company, the latter company having valuable docks in New York Harbor, known as Port Liberty, which furnish excellent facilities for its harbor and steamship trade.

This Company also owns about 1000 Railroad cars, 937 coke ovens, a large number of dwellings, and has thirty-three shipping points for the coal originating at thirty-nine mining operations as well as a half interest in two other independent coal operations with machinery and all equipment in first-class condition.

It has an annual business of about 4,600,000 tons of coal shipped over the New York Central, Pennsylvania, Philadelphia & Reading and Central Railroad of New Jersey. Notwithstanding the fact that during the first six months this company has been in operation the Railroads have been unable to move the tonnage originating at these properties, and the car supply has been so inadequate as to cause a falling off in the production of the collieries of nearly thirty per cent., the earnings for that period (February estimated) show a surplus over all interest, rentals and other charges, including the interest on the bonds outstanding, equivalent to eight per cent. upon the \$2,250,000 capital stock herein attaching to the bonds as a bonus.

The Pennsylvania, Beech Creek & Eastern Coal Co. has secured contracts for a very large amount of steamship and general coast business for the ensuing year. The proceeds from the sale of these bonds will be utilized for further developments to provide this tonnage.

Yours sincerely,
JAMES KERR, President.

INSIDERS ARE ZEALOUS IN SELLING SECURITIES

New York Stocks Make Further Declines—Canadian Markets Not Counted by Investors.

World Office, Saturday Evening, Feb. 23. The hope that was held out last week of a betterment in the prices of New York securities was again shattered by a renewal of the decline this week. The intensity of the market is the best kind of evidence that the big interests have given over any extensive measures of manipulation. They are exceedingly zealous in disposing of stock, but this has to be done in a very circumspect way if any success is to be achieved, owing to the sparseness of the outside buying power. The incidents of the weak market have simply served to emphasize and confirm former announcements or rumors. The renewed decline in the New York stocks, and for that matter in the Pennsylvania and for short term notes, struck a responsive chord in the minds of those who marvelled at an increased dividend with the hundreds of millions of new securities that are being piled up against this road.

The statement made by President Hill of the new millions that will be required by his system, was supplemented by the declaration that the Louisville and Nashville road will need more money estimated at \$50,000,000 a year for the next five years. The proposed expenditures sound well from an economic standpoint, but the growth of the two-cent-a-mile legislation and the continued increase in costs of operation are not cheering terms to shareholders. Considering which the traffic on the various railroads has been so congested that net earnings are not nearly so favorable as they were it will be difficult to prove to the initiated how any better prospects are to come about, and, in fact, how less satisfactory are to be avoided. Tentative measures are being taken to raise the tariff for freight, but this, under present conditions, will be a hard proposition to get round.

The Harman investigation, which starts on Monday, is expected to prove an eye-opening affair as interesting as the insurance disclosure. It is believed, and with a good deal of circumstantial evidence, that the present market conditions are largely the result of the uncovering of the operations of the largest insurance companies and the attempt of these institutions to put themselves in a position to take advantage of the new legislative restrictions. The whole mystery of the market seems to be as simple as the fact that the immense blocks of securities, much of which was formerly scattered, are being gathered together and sold. The search resulted in the fact that the heavy decline in the New York specialties are taken as meaning that this syndicate is not to be caught as it was in 1905.

The information given out frequently from New York that London was a buyer of so many thousand shares in the day's trading must not be taken literally. The London correspondent of the New York Times last week made the statement that the London money markets were not going to be stringently by American speculation. If such is the sentiment at London, the theory that stocks are being bought from there can only apply to short contracts in the cross operation for market affect. The English market statement was not as strong this week as last. An ominous outpouring of gold from London to the United States and the news that Brazil's finances are slightly improved, may portend more than appears on the surface. The entire situation, viewed in any light, is a mighty delicate one, and one in which no one not conversant can afford to entangle himself without taking big risks.

The optimists now left in the market are holding their hopes up on the Aidrich bill, strange as this may appear to those who regard the matter as one of utter insignificance in relation to the money and other larger questions. The deposit of a few millions of custom revenue money could be at the most only a temporary relief, and seeing that the government has already on special deposit more than the Aidrich bill would provide for, it affords the weakest kind of an argument for benefiting the money market. The New York market certainly prefers little immediate opportunity for the speculator to make money in, as the insiders are too heavily engaged in taking out any surplus that fluctuations are liable to show.

The inertness of speculation and investment in Canadian securities requires no better illustration than that of the present week. The declaration of a 6 per cent. dividend on Nova Scotia Steel, which under any ordinary conditions would have put this issue at or above par, served only to stimulate the price a few points, and even this advance appeared to be held with difficulty. The initiation of dividends on this stock at the rate of 6 per cent. has not received the approval of investors. Payment of a lower rate would likely have done as much to stimulate the stock in price movement, and bettered outside opinion of the security. The net earnings for the year 1906 were the best in the company's history, but the knowledge that a dividend is practically impossible, with a gross earning of \$2,075,073, and net earnings applicable to investment and rental of \$438,720. The board has therefore offered to 90, and carry a bonus of 50 per cent. in stock. The board has realized from the sale of these bonds to be used in developments to take care of the large amount of steamship and general coal business which is now under con-

FRENCH TAXATION SCHEME TO PRODUCE MORE REVENUE

Antiquated Taxes Abolished and Money Will Be Derived From Incomes.

Feb. 23.—(Special.)—Galt malleable iron works, in common with smaller industries of the same kind, are hit hard by the new tariff, which, if adopted, will, it is believed, practically ruin this branch of Canadian manufacture. The Galt Malleable Iron Works, employing hundreds of men, are one of the newest and most flourishing industries. If these shops were to close down, loss of capital would be enormous, and the effect on population and distribution of money would be keenly felt.

President Fryer, interviewed to-day, said: "The situation is certainly very serious, just how grave, I am not prepared to say at present. But I can venture to say one thing, it puts a damper on the company's projected enterprises in extending the shops and further developing the business on a large scale. The tariff changes came on us like a bolt from the sky. The duty originally was 20 per cent., then it was reduced to 15 per cent., and now it is 25 per cent. It is a virtual ruin. It would cut off the rebate practically means. Or our output perhaps 50 per cent. is of castings for agricultural implements, and so you see what it means immediately. It would cut off the situation is very bad."

Feb. 23.—The new system of taxation based upon income from all sources, which the French Government has proposed to parliament, is estimated to produce \$188,800,000 against \$138,000,000 under the old system.

Most of the taxes to be suppressed have been in existence for a hundred years. These antiquated taxes, which the revenue produced under each, were as follows:

Direct taxes upon realty, farms, etc., \$20,250,000; buildings, \$14,250,000; door taxes, \$20,100,000; window and solar taxes, \$13,250,000; licenses, \$27,000,000; four per cent. tax upon income, \$1,250,000; foreign securities, \$14,250,000; other duties upon transfer transactions in French and foreign securities, \$1,000,000.

Under the proposed income tax system, taxes will be levied as follows:

Four per cent. upon income from realty (buildings), \$19,250,000; land, farms, etc., \$10,000,000; income from securities, French, \$14,250,000; foreign securities, \$14,250,000; credits, deposits, guarantees for contracts, \$80,000,000; three and a half per cent. upon the income from commerce, \$2,500,000; interest on securities, \$4,250,000; three per cent. and upward upon the income from pensions, \$9,000,000; liberal professions, \$1,000,000. There is to be a supplementary tax upon incomes of over \$1000, to be levied at the rate of one per cent. and increasing to four per cent. on incomes of \$20,000 and over. This is estimated to produce \$24,000,000, while the five per cent. upon the revenue derived from securities to be replaced the old stamp and other taxes, as estimated to produce \$28,250,000.

AFTER PRESTON FOR EVIDENCE

Money Will Be Derived From Incomes.

On Behalf of O'Grady and O'Grady, Commissioners Issue to Get Evidence.

W. T. Preston, acting commercial agent at Cape Town, South Africa, for the Dominion government will file a statement appointed Saturday by His Honor Judge Winchester, of his collection with the London election.

The application was made by George Wilkie of the firm of J. O'Grady and Woods, on behalf of John O'Grady and the others indicted with him, in irregularities in the connection with the Hyman-Gray elections.

Judge Winchester granted the application on the grounds that the trial of these men should not be delayed. His honor issued the commissions to Hong Kong, Australia, and Hongkong, China, and to the other countries, and was not at one place he might be caught at the other.

Mr. Preston, shall say under oath as he has done already by statement, that Pritchett's evidence was in important particulars, false.

SCRAMBLE FOR SENATORSHIP

There'll Be Some Heart Burning When Award is Made.

Montreal, Feb. 23.—(Special.)—It now looks as if the vacant senatorship for Quebec would be given to Victor Geffroy, M.P. for Charlevoix, who should have been the recipient of the honor, but the friends of J. M. Bolvin and Wilson say he should have been the recipient of the honor. The general impression is that the senatorship will be given to a French-Canadian, and the Irish contingent has by no means given up the struggle. Jas. Moineau, with legal advice, has been advised to address Mr. Guerin his powerful influence at work, and J. C. Walsh, M.P. for St. Ann, and J. D. Kelly, ex-M.P. for St. Ann, are also making a fine hand for a dark horse.

Macdonald and certain Nova Scotia members by two French-Canadian members.

Dukeon of Joliette and Lanctot of Laprairie, who is the fiercest detractor of the fanaticism of the prime minister of finance, declaring that it was a man like Mr. Fielding, who never hope to succeed Sir Wilfrid Laurier.

EXPRESS PARCELS DELIVERY.

Editor World: I wish to draw your attention to the fact that the Canadian Express Co. receive complaints from out of town points addressed to Toronto, and they lay out limits to suit themselves for delivery, have a box at the present time lying in their office, shipped from Montreal, which they refuse to deliver beyond the tracks to the north of the city, and which was recently annexed to the city. I am compelled to engage a carrier to go to the office and get that box and pay about 25 cents for delivery charges, and double the express rate. I think Mr. Macdonald should take this matter up in his fight against those close corporations and compel them, thru the railway board, to give the public relief by delivering right thru to the city limits.

NEW RUSS PARLIAMENT PATTERNED AFTER FIRST

Fully Half the Members Are Peasants—Denial of Another Dissolution.

St. Petersburg, Feb. 23.—Election statistics for the past week show the election of 410 members of parliament, distributed as follows: Seventy-five monarchists, 38 moderates, 24 progressives, 70 constitutional democrats, 150 members of the left party, 40 nationalists and 11 independents.

The group designated as the left party is a vague aggregation; it contains an unprecedented number of socialists, including 47 social democrats and 45 social revolutionists.

The make-up of this parliament is closely patterned upon that of the first body. An official statement has been issued denying the reports published in the press that between Feb. 20 and 22 conferences were held at Tarskoo-Selo between members of the ministry and high officials to discuss the possibility of dissolving parliament as soon as it meets, to bring about conditions for the co-operation of the government and parliament. It is denied also that conferences are contemplated for next week.

MILES OF DRINKING BARS.

Almost Every Hotel in Toronto Busy Building Extensions.

The increased volume of liquor licenses in Toronto is due partly to the limitation in number, partly to the growing population. There are no more licenses than there were many years ago; as a consequence, bars are worth more and are also much longer. There are two to any one in the town you will find them all fully manned and the owners and architect busy in devising a scheme to lengthen them. The average bar is now between 50 and 100 feet long, and there soon will be bars in the city 200 or 300 feet long. So that while there are no more bars, there is a great increase in the bar mileage. There are two to three miles of bars in Toronto, and the way to measure the drinking of Toronto is rather by the bar mileage than the number of bars.

The World met a man yesterday whose scheme was to put a percentage tax on the money taken in at the bars, and to have a state cashier sit at the cash register in every one of the places, who would take toll for the people.

Still another man said to The World yesterday that he had had some experience in hotel business, and as always in the case just as soon as a man starts to make any money, some one wants to take it from him or get a piece of it.

Providence, R. I., Feb. 23.—That Capt. They heard people crying for help for a while and then everything was quiet.

Sick Headaches and Biliousness

Kidney-Liver Pills Cared This Case.

Sickness is to some extent a habit. This is especially true of biliousness and constipation. So long as you neglect to move the bowels, the old trouble returns.

Isn't it worth while to follow up a treatment that has positively cured these ailments in thousands of cases?

Mrs. James Montek, Saurin, Simcoe Co., Ont., writes: "I have used Dr. Chase's Kidney-Liver Pills for liver complaint, biliousness and a terrible sick headache, and have found that they thoroughly remove the cause of these ailments and make you feel fresh and strong and make you feel that you are a new man."

Biliousness, liver complaint, constipation, indigestion, kidney disease, backache, rheumatism, all of these ailments are cured by the use of Dr. Chase's Kidney-Liver Pills. One pill is a dose, 25 cents a box, at all dealers or Edmanston, Bates & Co., Toronto.

St. Petersburg, Feb. 23.—Election statistics for the past week show the election of 410 members of parliament, distributed as follows: Seventy-five monarchists, 38 moderates, 24 progressives, 70 constitutional democrats, 150 members of the left party, 40 nationalists and 11 independents.

The group designated as the left party is a vague aggregation; it contains an unprecedented number of socialists, including 47 social democrats and 45 social revolutionists.

The make-up of this parliament is closely patterned upon that of the first body. An official statement has been issued denying the reports published in the press that between Feb. 20 and 22 conferences were held at Tarskoo-Selo between members of the ministry and high officials to discuss the possibility of dissolving parliament as soon as it meets, to bring about conditions for the co-operation of the government and parliament. It is denied also that conferences are contemplated for next week.

MILES OF DRINKING BARS.

Almost Every Hotel in Toronto Busy Building Extensions.

The increased volume of liquor licenses in Toronto is due partly to the limitation in number, partly to the growing population. There are no more licenses than there were many years ago; as a consequence, bars are worth more and are also much longer. There are two to any one in the town you will find them all fully manned and the owners and architect busy in devising a scheme to lengthen them. The average bar is now between 50 and 100 feet long, and there soon will be bars in the city 200 or 300 feet long. So that while there are no more bars, there is a great increase in the bar mileage. There are two to three miles of bars in Toronto, and the way to measure the drinking of Toronto is rather by the bar mileage than the number of bars.

The World met a man yesterday whose scheme was to put a percentage tax on the money taken in at the bars, and to have a state cashier sit at the cash register in every one of the places, who would take toll for the people.

Still another man said to The World yesterday that he had had some experience in hotel business, and as always in the case just as soon as a man starts to make any money, some one wants to take it from him or get a piece of it.

SAY CAPTAIN WAS COWARD.

Two Men of Larchmont's Crew Say McVey Was All for Self.

Providence, R. I., Feb. 23.—That Capt. McVey was among the first to leave the sinking orders to his crew, he was not giving orders to his crew, was asserted by Mathias Lambert and John Tolen, firemen of the Larchmont, at the examination by the local board of United States steamboat inspectors when they reached it, they asserted, that he was trying to push the boat away from the ship.

They heard people crying for help for a while and then everything was quiet.

Sick Headaches and Biliousness

Only Come When the Liver Becomes Torpid and Stagnant.

Kidney-Liver Pills Cared This Case.

Sickness is to some extent a habit. This is especially true of biliousness and constipation. So long as you neglect to move the bowels, the old trouble returns.

Isn't it worth while to follow up a treatment that has positively cured these ailments in thousands of cases?

Mrs. James Montek, Saurin, Simcoe Co., Ont., writes: "I have used Dr. Chase's Kidney-Liver Pills for liver complaint, biliousness and a terrible sick headache, and have found that they thoroughly remove the cause of these ailments and make you feel fresh and strong and make you feel that you are a new man."

Biliousness, liver complaint, constipation, indigestion, kidney disease, backache, rheumatism, all of these ailments are cured by the use of Dr. Chase's Kidney-Liver Pills. One pill is a dose, 25 cents a box, at all dealers or Edmanston, Bates & Co., Toronto.

TRUST COMPANY FOR QUEBEC

Western Corporation Said to Be Branching Out for Business.

Montreal, Feb. 24.—(Special.)—General Manager Bienvenu of the Banque Provinciale returned to-day from Toronto, and it is understood that his mission has resulted in a western trust company opening its office here with a local board for the Province of Quebec. Up to quite recently, it was believed that the Provincial Bank would start a trust company, but it has been decided to throw in their lot with a concern already in existence.

The local board is composed of Thomas Fyfe, ex-general manager of the Merchants' Bank of Canada, as chairman; Thomas McCreagh, general manager of the Quebec Bank; and Rodolphe Forget, M.P. The new company will be located in the Banque Provinciale edifice, Place d'Armes.

Enquiries made last night of the managers of the various local trust companies did not reveal that any Toronto corporation was interested, nor had any rumor reached them.

A LIVING GHOST!

That is What Her Friends Said About Her

Read how Mrs. James Steele, Waterville, Que., was cured by the use of

MILBURN'S HEART AND NERVE PILLS

she writes: "For the past fourteen months I was nervous all the time, and became so nervous I was unable to walk across the house without getting dizzy. My friends told me I looked like a living ghost and advised me to try Milburn's Heart and Nerve Pills. I got two boxes and within two weeks I had improved wonderfully and after finishing the fourth box I was completely cured. They are the greatest pills I ever used and I can recommend them to all sufferers."

Milburn's Heart and Nerve Pills act directly on the disordered heart and nerves, and restore them to healthy action. They have no equal for reviving and strengthening the heart beat, invigorating the nervous system, and acting as a food for the blood, improving its quality, making it rich and red.

Price 50 cents per box or 3 boxes for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

YORK COUNTY AND SUBURBS

TORONTO JUNCTION.

Toronto Junction, Feb. 24.—Owing to the Dominion Bank purchasing the property where the Standard Fuel Coal Co. held their office, the latter have been compelled to vacate, and on Saturday opened new offices at 8 East Dundas-street.

Building Inspector Leigh has ordered the owner of the block of stores on the southwest corner of Dundas-street and Western-avenue to either remove or repair the metal cornice.

Mayor Baird, ex-Mayor Smith, F. Hartney, J. C. Horner, John McEachern and others held an informal meeting in the town hall, with a view to establishing a branch of the Y.M.C.A. Another meeting will be held this week.

Inspector Leigh has issued permits, one to S. H. Cutts for a two and a half storey brick house on High Park-avenue, to cost \$4600, and to M. H. Beatty for a two storey stone and brick house on Dundas-street, nearly opposite Mealand-street, to cost \$3500.

An shovel was at work on the big coal dump, the king-pin holding the swing-lift on the shovel broke and all the lifting apparatus fell in amongst the coal, also throwing the body of the shovel off the rail. The cranesmen in charge, A. Kipping, had a narrow escape. It was necessary for the auxiliary to pick up the wreck. It is expected to be at work in the morning.

The Y.M.C.A. commission for West York held their first meeting since the appointment of Dr. Charpton of Weston night, in their rooms in East Dundas-street. James Ashman was elected chairman, and arrangements were made to pay the usual spring visit to the different hotels in the country about the beginning of April.

At the corner of Quebec-avenue and Dundas-street, there is a dangerous obstruction in the shape of two large cakes of ice that fell off some team drawing ice from Grenadier Pond, and also a block of stone, a foot square at the corner of Union and Dundas-streets. The police should make an example of some of these careless teamsters.

H. E. Irwin, clerk of the peace, has written a letter to G. C. Royce, manager of the Toronto Suburban Railway, in reference to Thursday's accident, saying:

"You occupy one-half of a roadway, and the other half is being used by the people of Toronto Junction, York and Weston, and they have a right to get transportation over that roadway without impeding their lives to satisfy the greed of yourself and your directors.

"You have had a fair opportunity to do what is right and just. Can you understand that that opportunity has a limit, which most of the people think should end before the present year of grace, 1907?"

"As a citizen of Weston, compelled by business to occasionally use the trolley cars run by your company between Weston and Toronto Junction, notwithstanding that the condition of things is so bad that such a journey is as safe as carrying a brickbat on your head, I write this letter to embody my individual protest against the criminal recklessness and disregard of public safety of which you and such others as may be responsible for the management of your company, are guilty, in that that when the trolley cars come to a stop, you should stand indicted at the bar of public opinion for the death or injury of your passengers, you may not only their warning and protest had not brought the condition of your rolling stock to your attention."

"You are to-day running upon your line, at times crowded with passengers, cars which but a few years ago were condemned as unsafe and unfit to carry passengers. The grand jury of the court of general sessions, after personal investigation, last evening, nearly four years ago, reported against the condition of the rolling stock of your company, which rolling stock you are using to-day."

Indignation meetings will be held this week at Mount Dennis and Weston. Manager Royce explains the accident as follows: "A slight spring of the rails, possibly, caused the car to leave the rails, and the driver threw a pole lashing on the front vestibule against the controller. This put the power on full speed."

TRAIN ROLLS DOWN HILL BUT NO LIVES WERE LOST

Passengers Have Narrow Escape—Only One Received Any Serious Injury.

Pittsburg, Feb. 23.—A statement issued by the Pennsylvania Railroad at 11 o'clock is to the effect that 54 passengers and a train crew of about a dozen persons were injured in the wreck of the Pennsylvania special, the last 18-hour train on the Pennsylvania Railroad between New York and Chicago, which occurred at a sharp curve at Black Diamond, Pa., seven miles east of Johnstown, shortly after midnight.

No one was killed and all the passengers have been accounted for. The engine and combination smoking car remained on the rails, but the three Pullmans plunged over a 50-foot embankment into the Conemaugh River.

Fortunately, the cars were not submerged. A scene of wild confusion resulted. All of the passengers were in their berths and were thrown promiscuously over the cars.

All the persons on the train were injured more or less, but with the exception of John F. Kline of Polet, it is said none of the injuries are dangerous.

The train was running 50 minutes late and was trying to make up lost time.

Cause of the Wreck.

The wreck was caused by what is believed by railroaders an unpreventable accident. The brake rigging on the first Pullman following the combination coach on the train dropped down for a distance of 300 yards, but the four Pullmans following plowed over the embankment to the river bank, 100 feet below, overturning when they reached the bottom.

The "18-hour train" travels at a high rate of speed coming down the mountain. When the brake rigging fell it either stripped the heads off the bolts holding the rails to the ties or tore up the rails themselves.

A Fine Train.

The injured were taken to hospitals at Altoona, Greensburg and this city. The majority of them, however, professedly went on a special train.

The train was the finest on the Pennsylvania Railroad and many prominent passengers were aboard when the wreck occurred.

Much disorder followed the accident, and the number of foreigners were detected plundering the Pullman cars. One was arrested and the others were held away by a display of firearms. Considerable loss of valuable wearing apparel will be lost at the result, however.

All the passengers were thankful and happy that they had escaped death, and the Rev. Edward Cope of Philadelphia conducted brief services on the train. He said he thanked God for their deliverance.

CAIN THE FIRST ANARCHIST.

W. P. Archibald, the Dominion parole officer, gave an instructive address on the life of Cain and the result of his yielding to a wild and disordered passion at College-street Presbyterian Church last night. Mr. Archibald said, in part: "The dignity of human nature is to be found and witnessed even in the life of Cain, the first anarchist, and the whole of human history has ever since been slowly spelling out the full meaning of what has been the outcome to the human family when men have separated themselves from the rest of their fellows and from their Father, God."

Mr. Archibald is in the city on official matters connected with the department of justice, and is quite recovered from his recent accident.

Wintry Chills

Thousands of lives are sacrificed each year through colds that started with "just a chill."

Dr. Hamilton's Pills cause the liver to throw off its bile; they flush out the stomach and bowels, purify the blood and free the entire system of all disease-producing matter.

Cured Colds and Rheumatism.

Mr. John Whitley of Stanwood P.O., Ont., knows the merit of Dr. Hamilton's Pills, and says: "I wouldn't be alive to-day had it not been for Dr. Hamilton's Pills. Last winter I was sick with grippe, and when spring came I was weak, bilious and rheumatic. I used enough medicine to cure twenty times but I didn't get better. They purified my blood, took the yellow color out of my face, put new tone in my stomach, and increased my appetite. The bilious attacks and rheumatic pains gradually departed. I was cured. This made a cure twenty times but I didn't get better. I used enough medicine to cure twenty times but I didn't get better. I used enough medicine to cure twenty times but I didn't get better."

SCIENCE OF CHEESE MAKING

Canadian Cows Should Produce \$30,000,000 More a Year.

Cornwall, Feb. 23.—(Special.)—There was a large gathering of the dairymen of Cornwall and Glengarry this afternoon. Duncan Monroe, president of the Cornwall Cheese Board, presided. Addresses were delivered by Daniel Derbyshire, M.P., Brockville; Prof. J. A. Ruddick, Dominion commissioner of dairying and cold storage; G. G. Puelbow, superintendent of dairying for Eastern Ontario; Mr. Woodward of Montreal, formerly official referee of cheese disputes, and Mr. Eager of Morristown.

Mr. Derbyshire appealed to the farmers to form cheese testing associations, and to pay attention to the quality of their milk. He urged the manufacturers and farmers to strive to turn out only the very best cheese; the price would regulate itself.

Prof. Ruddick predicted that the average price of cheese and butter in the short future would be better than in recent years. This he thought would be due partly to the fact that cheese was becoming more and more a staple food. He advocated more care in the handling of the milk by the farmer, and claimed that it was his forthcoming duty to the Canadian cheese must advance in price. If the farmers continued selling green cheese, and the exporters continued to send green goods to the old country the reputation of Canadian cheese would suffer materially. He thought that the production of the average herd could be increased 2000 pounds per cow per annum. As there are over two million cows in Canada, this means over \$30,000,000 to Canadian farmers. He also thought that the home market could receive more attention and not be made a dumping ground for all the culls.

Mr. Puelbow did not approve of binding a cheesemaker in a hard and fast agreement to make good all losses caused by the cheese being under finest, because often a maker could not make good cheese with the over-ripe milk brought to him. If the maker could not turn out first-class cheese with good milk it was up to the manager.
