## LAURIER & COMPANY AND CANADA'S FOREIGN RELATIONS.

## WILL MR. THORNTON BE DEPARTING OF HIS SEAT?

### Kerosene Lamp Explodes in the Home of John Hayman, St. 49 Nicholas-street, Last Evening With Awful Results.

### Mother Attempts to Rescue Her Babe From Flames and Her Own Clothing Takes Fire—Heroic Conduct of a Ten-Year-Old Boy.

In a fire which occurred a little before 6 o'clock last evening in the home of John Hayman, at 49 St. Nicholas-street, Clarence Hayman, a 13-month-old child, lost his life, and Mrs. Mary Hayman, the mother, was seriously burned in a heroic attempt to rescue her babe from the flames. About 10 o'clock Mrs. Hayman left her two children, Clarence and Edith, in the dining-room, while she prepared the evening meal in the kitchen. Clarence was seated in a high chair alongside the table, while his sister, who is about 2 years old, played about the room. After the children had been there about half an hour, Edith accidentally pulled the cloth off the table, dragging a kerosene lamp with it. The lamp fell into her little brother's lap, and exploded, the oil saturating the child's clothes. Edith fled in terror from the room, and screamed for her mother.

### Charged Body of the Child Found.

When the firemen arrived and had extinguished the flames, the charred body of the infant was found lying in the corner of the room.

### Rescuer Called for Help.

After placing the little girl safely on the stairs, the young rescuer cried aloud for help. His cries were heard by several of the workmen in W. F. Pezzy's carriage works, which is situated in close proximity to the Hayman home on the same street. The workmen carried Mrs. Hayman and her daughter into the home of Mrs. J. W. Congdon at No. 53. In the meantime young Brown had turned in an alarm for the brigade and also summoned Police Constable Wilby.

### Dr. E. M. Cook and William Britton were called to the scene.

Dr. E. M. Cook and William Britton were called to the scene. Mrs. Hayman was removed in the police ambulance to Grace Hospital, where she is now recovering from her injuries. The woman's body is terribly burned from the waist down. Her hands are also burned, and she is suffering from shock.

### Just at the time when Mrs. Hayman was being carried into Mrs. Congdon's home her husband arrived home from Bona Vista.

Just at the time when Mrs. Hayman was being carried into Mrs. Congdon's home her husband arrived home from Bona Vista. He was in the street when he saw the fire, and he rushed to the scene. He was unable to do anything, as the fire was too intense.

### At this time 10-year-old Frank Brown, who lives next door to the Hayman household, came out of his home and saw the woman struggling in the snow.

At this time 10-year-old Frank Brown, who lives next door to the Hayman household, came out of his home and saw the woman struggling in the snow. He rushed to her aid, and he managed to get her to safety. He was severely injured in the process.

Now that the elections are over and the air begins to clear, it is just as well that the Canadian public should have a fuller knowledge of certain things concerning them that have taken place within the past few years, and that they should try to grasp how certain great currents are moving and what the influences of these latter are in regard to our future as a nation.

To begin with, we wish to discuss our relations with the United States and the conduct of certain men who now control the government of this country. Every body will remember the agitation that Erastus Wiman began in this country some 15 years ago, looking toward what was known as the "commercial union," or "continental reciprocity," but which really meant the annexation of Canada by the United States.

Mr. Wiman had no doubt in his own mind what it meant, for he began the movement, as we now know, expressly for the purpose of qualifying himself for the presidency of the Republic. He was Canadian-born, and as long as Canada was not of the Union the chair was out of his reach; if he could bring Canada into the Union he was eligible. He was successful in inducing the whole body of the Reform leaders, including Hon. Wilfrid Laurier, Sir Richard Cartwright, The Globe newspaper and many others, to take up his cause, and while they pretended they were simply trying to get the market of the 90 millions for the Canadian farmer, they were really doing their best to add Wiman to the list of leaders in the United States. The New York Sun was the most active factor in the United States in this movement and for years it championed the cause, and it still champions it. Its great phrase for annexation is "the unification of the English-speaking communities on this continent."

The Wiman conspiracy, for such it is, really had its headquarters in the Sun office, and old Mr. Dana was the most active and far-sighted of those engaged in it. A very considerable sum of money was raised in New York, and some of it came as a pension to a member of the Liberal party, who is now dead, but who had his residence and ramifications in the Province of Quebec. It will be remembered that Hon. Mr. Laurier and Sir Richard Cartwright at the time of this agitation were making visits to the United States and were being treated as "the senators from Canada."

The Americans knew the movement to mean nothing but annexation, and welcomed it. That project indignantly rejected. It was opposed by Sir John A. Macdonald, and his dying message to the Canadian people was against it. As for The World newspaper, it thinks the greatest feather in its record is that from the first day of its movement in this country up to its condemnation in this country. It is still the principal advocate of the absorption of Canada into the United States, and its work is carried on by its son, who is now chief editor of the paper and who is devoting a great deal of the space of the paper to this, the dearest project of his father's heart. Therefore, the views of The New York Sun on the late election in Canada are worthy of more than passing notice. In order that Canadians may understand it fully we give the substantial contents:

[New York Sun editorial of Friday.] "From the returns this far received it seems certain that the general election which took place in the Dominion of Canada on Wednesday, Nov. 7, has resulted in giving the Ministry, headed by Sir Wilfrid Laurier, a majority even larger than the Liberals obtained four years ago. This is an event of consequence not only to Canadians, but to the whole British Empire, for it has killed the project for a customs union between the Mother Country and the great self-governing colonies."

"The effect of this sweeping victory for the Liberal program in Canada upon the British Empire at large is unmistakable. Canada will continue to discriminate in favor of British imports to the extent of 33 1/3 per cent, but it will not admit them duty free, and it will not even request a preference for Canadian products in the United Kingdom at the expense of competitive staples forwarded from the United States, Russia and Argentina. This is to say, the Dominion of Canada will continue to pursue an independent course and will not even try to knit more firmly the bond connecting her with the United Kingdom."

"Nor is this all. The Liberal party, headed by Sir Wilfrid Laurier and conspicuously represented by Sir Richard Cartwright, comprises all the friends of the United States in Canada. It is the party which recognizes the tremendous power of the influences which tend to connect economically and politically British North America with the great British Republic."

"The victory of Sir Wilfrid Laurier means that the Joint High Commission will shortly resume activity and will endeavor to modify the relations of the English-speaking communities upon this continent."

We desire the reader to pause for a moment after this remarkable extract, and allow us to pass on to our relations with the Mother Land and our prospects of getting preferential trade, and after dealing with that, we will return to our relationship with the United States. In the Jubilee year Sir Wilfrid Laurier cut a great figure in the procession, and the opportunity of his life came at that occasion to do something for preferential trade, or what The New York Sun is pleased to call, a British customs union, between the Mother Country and the colonies, and to discuss the products of the United States. Sir Wilfrid Laurier failed to take advantage of that opportunity, he said nothing was to be got, and if it was to be got, that Canada did not want it—Canada was a free trade country like England, and not given to any measure that was discriminatory in its character. He was a free trader of the most out-and-out kind, and received as a recognition of this declaration the now notorious Cobden medal. Events moved along, the Spanish-American war came, and suddenly, in a single night, the Americans found that, while all the rest of the world was against them, Great Britain was their friend, and stood as between them and those hostile Governments which viewed with alarm the rise of the United States as a great power. Then came the war in South Africa, and the Americans in a degree reciprocated the kind offers of England, and the United States and Great Britain got on better terms than ever they had been in the past. While all this was going on, two years or less ago, the Liberal Government at Ottawa passed a law which gave British goods a preference in the Canadian market over products from other countries, and nothing was exacted in return. This was decidedly objected to by the Conservative party in this country, and is still objected to by the Conservative party, and by papers like The World, who believe that to change with it, and that accounts for at least one hundred gentlemen in Parliament who have just added ten cases to their stock in the newest block, with special mention of lines from Youmans, Major and Stetson. Prices \$2 to \$5.

Large first-class up-to-date offices, single or en suite, at low rentals. Lancaster Building, 57-59 Wellington East.

### Better Than Ever

This Green Flag suit is unique. It is the greatest thing in Toronto history. You will find the Green Flag suit in a wonderful bargain's story in every department. Come in today. Read the evening papers for details. F. Jamieson.

### Premier Parent Decides to Appeal to the People Before the Flush of Victory is Gone.

### POLLING TO TAKE PLACE DEC. 7.

### Or Just One Month After the Federal Battle-But It Will Not Be a Walk-Over.

Montreal, Nov. 14.—(Special.)—Premier Parent has done exactly what The World said he would do. He has dissolved the Provincial Legislature of Quebec, and he will have been a very stupid politician had he acted differently. Polling will take place on Friday, Dec. 7, and nomination a week earlier. The idea of the local nomination is to reap the benefit of the Ottawa sweep as did the Federal Liberals, and dollars to doughnuts are being offered, with a taker, that Premier Ross will not follow his brother premier's example and appeal to the electorate of Ontario.

### Patents.—Fetherstonhaugh & Co., King-street West, Toronto, also Montreal, Ottawa and Washington.

There is still another editorial in The New York Sun of this week, reprinted on another page, that will be reading to-day.

And now to come to the third chapter in our story. There are our relations with France, or with the people of France. A gentleman by the name of Tarte, who is in the present Government at Ottawa, has recently been our representative at the Paris Exposition. If Mr. Tarte knows anything, he knows the secrets of Sir Wilfrid Laurier's life, and being cognizant of all that Sir Wilfrid has done in trifling with his loyalty and the future of Canada in regard to the United States, thought he could do something in the same direction in regard to Canada's relations with France.

Mr. Tarte reasoned with himself thus: If Sir Wilfrid can do as he talked in Boston and talked as he now does with Mr. Dana and those other men who were in the same conspiracy in the United States, why cannot I do the same thing in France? And as a matter of fact Mr. Tarte was no more disloyal in the afternoon he made in Paris and the sentiments expressed in this country since his return than was Sir Wilfrid Laurier before 1890, when the Wiman fad was at its height. And, speaking of our relations with France, we do not think we are going out of our way in mentioning the French shoe problem in connection with Newfoundland. That colony has passed through an election crisis, and the Government has been signally defeated by Mr. Bond, who is for a commercial treaty with the United States. Such a treaty would be a menace to Canada. The French shoe question is one of the most ticklish that Mr. Chamberlain has in hand. We believe he is disposed to buy up France's rights, or to trade something off for it; and we can quite conceivably see France will make her demands none the less because of Mr. Tarte's presence in the Canadian Cabinet and the hopes he raised in the minds of Frenchmen when at the Paris Exposition. Nor does Mr. Tarte's championship of the Mender ownership and occupation of Anticosti make the task any easier for Mr. Chamberlain or the Canadian Confederation more feasible.

The outcome of the whole matter is that the Liberal leaders have been more than disloyal to Canada in their relationship with the United States, and have embarrassed the future of Canada by reason of that disloyalty. They were unable to assert Canada's rights in England, and today they are also responsible for the disloyalty that Mr. Tarte has done in connection with attempting to promote the idea that somehow the Province of Quebec is related more closely to the republic of France and the tri-color than to the British Empire and the Union Jack. The deeper the people of Canada study the great facts involved in the above statements and decide on bringing the responsibility home where it belongs, the sooner they will understand the things which are transpiring in this country and out of this country today. We believe that as a result of Sir Wilfrid Laurier's alliance with Wiman and Dana, and his conduct in England, and his surrender on the trade preference, a British customs union is delayed for some time. English statesmen to-day are afraid of demanding it. Come we believe it will, but none the less true is it that Liberal politicians and Liberal leaders in Canada have by reason of their record been the chief instruments in delaying it. And Mr. Tarte has been doing in France, because he thought he could do in France what his chief had done in Boston and New York. The United States has too many friends or allies in the Government of Canada, and France has at least one, who will all be ready to serve their powers thru either fear or affection when their interests are concerned. Canadians had better stop and think—had better find whether they are being led.

And now, to come back to the commercial union end of it, and to show the significance of the New York Sun's words, which we have quoted above in black letters, Sir Wilfrid Laurier to-day knows that he shall give up—shall we say of treason? Or shall we say he was simply guilty of an indiscretion, in attaching himself to the commercial union movement? We very much suspect he is in the hands of those American who backed Erastus Wiman in his project; we very much suspect that in The New York Sun office, and in the private correspondence of old Charles Dana, there are letters of an incriminating character. At all events it is true that certain Americans are in a position to hold the whip over Sir Wilfrid Laurier and Sir Richard Cartwright, and that these Canadian members have really played the part of the United States in preventing a customs union between the Motherland and this country. Had Sir Wilfrid Laurier asked for a customs union between Canada and England, he and his colleagues would have been once exposed as having been foremost movers in the proposal for a commercial union between the United States and Canada, which precisely meant annexation. These men have them in their power, and the best proof of it is the Canadian reader will find in the above extracts from The New York Sun, which should be read over and over again. The United States, it will be seen, fears such a customs union, and Sir Wilfrid Laurier fears to advocate it, because exposure will be the consequence, and anyone who ignores these facts fails to know the history of our own times and how the interests of Canada are affected thereby. We have no more to say as to what the commercial union project with the United States really meant than to read Edward Blake's letter to the electors in West Durham on the day following the elections in 1891. Our charge is—and we wish to bring it right home—that Sir Wilfrid Laurier has had to throw down the customs union—or, as we call it, reciprocal preferential trade—with Great Britain at the instigation of his friends in the United States, with whom he was associated in advocating commercial union with that country. This is the great fact, and we wish to bring it right home to the people of Canada, and to The Globe newspaper and its friends, who were associated with the movement.

And now, to come back to the commercial union end of it, and to show the significance of the New York Sun's words, which we have quoted above in black letters, Sir Wilfrid Laurier to-day knows that he shall give up—shall we say of treason? The United States, it will be seen, fears such a customs union, and Sir Wilfrid Laurier fears to advocate it, because exposure will be the consequence, and anyone who ignores these facts fails to know the history of our own times and how the interests of Canada are affected thereby. We have no more to say as to what the commercial union project with the United States really meant than to read Edward Blake's letter to the electors in West Durham on the day following the elections in 1891. Our charge is—and we wish to bring it right home—that Sir Wilfrid Laurier has had to throw down the customs union—or, as we call it, reciprocal preferential trade—with Great Britain at the instigation of his friends in the United States, with whom he was associated in advocating commercial union with that country. This is the great fact, and we wish to bring it right home to the people of Canada, and to The Globe newspaper and its friends, who were associated with the movement.

And now, to come back to the commercial union end of it, and to show the significance of the New York Sun's words, which we have quoted above in black letters, Sir Wilfrid Laurier to-day knows that he shall give up—shall we say of treason? Or shall we say he was simply guilty of an indiscretion, in attaching himself to the commercial union movement? We very much suspect he is in the hands of those American who backed Erastus Wiman in his project; we very much suspect that in The New York Sun office, and in the private correspondence of old Charles Dana, there are letters of an incriminating character. At all events it is true that certain Americans are in a position to hold the whip over Sir Wilfrid Laurier and Sir Richard Cartwright, and that these Canadian members have really played the part of the United States in preventing a customs union between the Motherland and this country. Had Sir Wilfrid Laurier asked for a customs union between Canada and England, he and his colleagues would have been once exposed as having been foremost movers in the proposal for a commercial union between the United States and Canada, which precisely meant annexation. These men have them in their power, and the best proof of it is the Canadian reader will find in the above extracts from The New York Sun, which should be read over and over again. The United States, it will be seen, fears such a customs union, and Sir Wilfrid Laurier fears to advocate it, because exposure will be the consequence, and anyone who ignores these facts fails to know the history of our own times and how the interests of Canada are affected thereby. We have no more to say as to what the commercial union project with the United States really meant than to read Edward Blake's letter to the electors in West Durham on the day following the elections in 1891. OAK HALL CLOTHERS, 115 TO 121 KING ST. E. and 116 YONGE ST., TORONTO.

HALT TO QUESTIONS OF RIGHT OF WAY

For the Galt-Quelch Electric Road Game Before the Parks Board—Once More

AND STILL IT IS NOT SETTLED.

Young Man Lost a Leg—Halt at the New Royal Meeting of Presbyterians—General News.

Hamilton, Ont., Nov. 14.—(Special.)—The second annual concert of the St. Patrick Literary Society was given in association with the Galt-Quelch Electric Road game before the Parks Board.

The night of the question, the Parks Board met this afternoon and discussed the proposition that a strip of two feet be cut out of the York-street edge of Dundas and Harvey Parks, to make a suitable roadway for the projected Galt-Quelch Electric Road.

The commission were not favorably disposed to this proposal. They, however, were willing to allow about 25 feet to be cut off Dundas at the bend of York-street, near the old Battery building, and an arrangement for the placing back of the sidewalk. If any other plan, varying much from this, is presented, the board will adjourn to meet on the 22nd inst. at 8 o'clock.

At the New Royal. Mrs. J. M. Smitz gave a ball at the New Royal tonight. About 600 couples were present. Anderson's Orchestra furnished the music.

Mrs. Webber's Claim. Hamilton, Nov. 14.—(Special.)—Mrs. Webber's claim, which has occupied the attention of the General Assembly at various times during the past three years, is now before the Board of the Presbyterian Church in Ontario.

At the City Hospital. The Board of the City Hospital has decided to purchase a new building for the hospital, and to enlarge the existing one.

Lectures for the Public. The departmental societies of Toronto University hold lectures, open to the public, every week and there. These may be termed university extension lectures, and are designed to supplement the regular lectures of the various academic courses.

At the Royal Theatre. At the Royal Theatre this week the program commences with a one act farce entitled, "The Doctor's Visit," by the artist who contributes to the performance.

At the Old Mr. Roberts. A Toronto lady who does not want her name made public, has forwarded to St. Paul, Minn., a check for \$100,000, which she had received from the estate of her late husband.

How Books Are Made. Warwick Bros. & Butler, Toronto, have issued a book entitled "The Making of a Book," which describes the wonderful processes through which a book is made, from the selection of the type to the binding of the finished volume.

OSGOWD HALL TOPICS.

Lists for To-Day—The Sifton Will Under Review—Judge Rose Will Preside.

Former Chinese Garrison of Peking Has Been Removed to the Northwest of the City.

ROMAN CATHOLICS THREATENED And a German Expedition Has Been Sent For Their Protection—Word From Morrison.

Berlin, Nov. 14.—The War Office has received the following despatches from Count von Helldorf, dated Peking, Nov. 11: "The former Chinese Garrison of Peking is now between Hsueh and Kuen Hsueh (sic) respectively north of Peking, 52 and 50 miles respectively from the city."

"On the 11th of November, a request from Bishop Pavier for protection for Catholics threatened in that district, an expedition was sent under the command of von Wartenberg, consisting of the First Battalion, First Regiment of the Second Army, a train of mountain artillery, a company of Austrian battalions and Italian troops."

That is the Opinion Expressed by a St. Petersburg Paper—China Cannot Pay.

St. Petersburg, Nov. 14.—The Russian press publishes reports from the German Legation at Peking, dated from Nov. 11 to 13, according to which Baron von Ketteler's despatches described exhaustively the progress of the Boxer movement, demonstrating the growth of the Chinese Government.

Secretary of Legation, von Buelow, dealing with the German Legation at Peking, on the 12th inst., says that with the appointment of Prince Tuan as Premier, the Chinese Government, whom von Ketteler had reported to be in a state of collapse, has been reorganised.

A telegram of Austrian blue jackets, it is added, with 16 German cavalrymen, recently engaged a force of Boxers six miles from Peking, and defeated them.

Belgium's Position. Brussels, Nov. 14.—In the Senate to-day the Minister of Foreign Affairs, M. de Sclimé, read a statement with reference to the intention of Belgium in China.

The Government does not intend to place military contingents in China, nor to form a detachment of German troops, nor to form a detachment of German troops, nor to form a detachment of German troops.

Empire and Dowager. Arc is Return to Peking, it is said—Russians Again Slaughtered Chinese.

Tien Tsin, Nov. 14.—It is reported that an Imperial edict has been issued announcing the return of the Dowager Empress Dowager will return to Peking.

Russians Slaughtered Chinese. A Russian officer, who was killed in the attack on the Chinese, was reported to have been killed by a Chinese soldier.

Tien Tsin Has 600,000 People. The population of the City of Tien Tsin is reported to be 600,000 people.

ASSESSMENT AND VALUE

Is Being Sought After Thru the Assessment Commission Now in Session.

THE CASE OF SUMMER COTTAGES.

Are Tax Sales Insufficiently Advertised as Regards Non-Resident Owners.

The subject of assessment of lands and improvements thereon was again the particular phase of assessments dealt with by the commission yesterday.

Mr. Fullerton's proposal to amend the clause by adding the words, "and such land shall not be assessed as a summer cottage unless it is used for such purposes as are specified in the regulations."

Assessment Commissioner Grant of London endorsed the proposition that all classes of property should be assessed on their value.

Single Tax Ideas Again. This did not meet the views of W. A. Douglas, the single tax man, who pointed out that Mr. Grant did not know what he was talking about.

Equalization of Assessment. James A. Proctor, chairman of the Court of Revision, said that his experience led him to believe that assessments are made from the point of view of a taxpayer.

Tax on Summer Cottages. A. W. Fawcett, librarian of the Ontario Legislative Council, spoke of the inequalities in the assessment of lands and summer cottages.

Toronto Island Assessments. Mr. Fullerton considered that Toronto Island should not be included with lands in the northern part of the province.

Catholic Priest Killed. New York, Nov. 14.—The Rev. Father John C. Barry of St. John's Catholic church in New York was struck and killed by a Broadway cable car.

NO ARGUMENT NEEDED. Every sufferer from Catarrh knows that Salvarsan, Lotions, Washes, Sprays and Douches Do Not Cure.

Stuart's Catarrh Tablets. Powders, lotions, salves, sprays and douches cannot really cure Catarrh, because this disease is a blood disease.

Stuart's Catarrh Tablets. The best and most modern remedies for this purpose are antiseptic, scientifically known as Eucalyptol, Gualcol, Sanguinaria and Hydrastin.

STREET LIGHTING TENDERS REFERRED

Back in the Interests of the Gas Company's Lighters.

WILL THEY BE KEPT IN POSITIONS?

Ald. Graham's Resolution Regarding the Devoeur Road Pavement is Voted Down.

Ald. Hubbard did all the fighting in Council yesterday afternoon for having the street lighting contracts referred back to the Board of Control.

The Council opened with a recessal of the Devoeur-road paving.

On the Board's Report. Council met at a quarter of three, and immediately went into Committee of the Whole.

What is the Deal? Ald. Hubbard, the hero of the week, told the Council that no matter in what way the street lighting contracts were made, they would be a failure.

What is the Deal? Ald. Hubbard, the hero of the week, told the Council that no matter in what way the street lighting contracts were made, they would be a failure.

SLATER SHOE POLISH

Many men use poor dressing on their shoes, and when the shoe suffers as a result, blame the shoe instead of the polish.

"Souvenir" The Best by Test.

"Test and try before you buy" is a homely, old, commercial invitation, but it's good to give and to get in the purchasing of a new range.

Aerated Oven. This is a special feature. Sold everywhere. One will last a lifetime.
