EX-PREMIER SAYS HE KNOWS NOTHING OF CROOKED DEALS

Sir William Hearst on Stand at Timber Limits Investigation.

FALSE RETURNS MADE

A denial by former Premier Hearst, that he had any knowledge of irregularities in connection with crown timber lands, was made before the Riddell-Latchford commission yesterday. On the other hand, Samuel Price, chairman of the workmen's compensation board, and formerly a commissioner of the crown lands department, with headquarters in Northern Ontario, told of several fraudulent transactions he had come across. Mr. Price said that owners of the Fort Frances Lumber Company had made false returns. In another case, a lot of timber had been cut and no returns made. About \$20,000 in dues should have gone to the government.

Mr. Price also stated that false returns were made, in connection with which one Johnson had demanded \$1000 from Mr. Preston, manager of the company, or he would hand over the proper sheet to the government.

Witness said Preston immediately notified the government of this and sent in all the affidavits and reports he had, which led to the investigation. Justice Latchford: "Did the company pay the \$2000 additional, which, according to the original sheets, they ought to have paid?" "I presume they did."

The witness was asked if anyone was prosecuted, and he replied that Johnson was, but he got off before the judge because he said he had not sworn to the affidavits, altho Crown Timber Agent Watts had sworn he had. When Justice Riddell heard that Watts had not been brought before the judge, the commissioner made some caustic comment.

Get Valuable Limit.
Alex Pasken, barrister, testified that the Port Arthur Pulp & Paper Co. was a client of his and had applied for permission to sell timber.

CALL ON MEIGHEN TO STAY INCREASE

Wholesale Grocers Point Out Out Higher Freight Rates Will Prove Hardship.

The Canadian Wholesale Grocers' Association has sent the following wire to Premier Meighen:

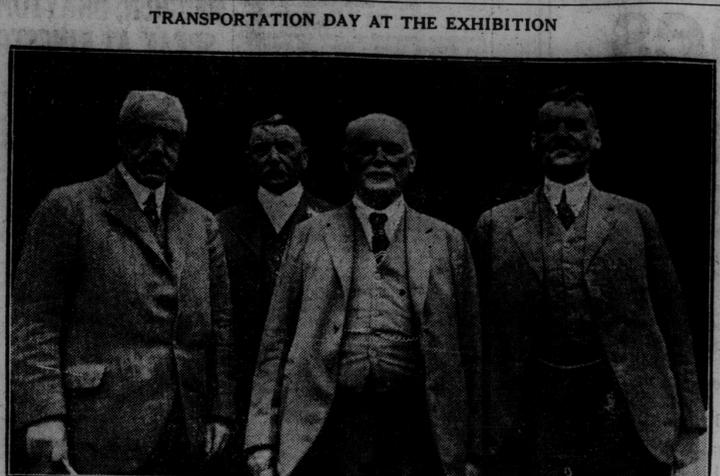

"In our opinion the Canadian Railway Commission are not justified in anticipating a condition that warrants such an enormous increase in freight rates to the railway companies. Prudence in view of the high cost of living, the serious unrest existing and the probability of economic depression in the management of the Canadian National Railway system would seem to dictate caution until business becomes more stabilized. It is impossible in the unsettled state of affairs to accurately forecast requirements. The investigation has not changed the opinion that the Canadian Pacific Railway may still be able to give an efficient service and provide a reasonable dividend to its shareholders. To take perhaps two hundred million dollars in advance under present circumstances is in our opinion premature and should be postponed for at least one year. We therefore appeal from the judgment of the railway commission to your cabinet and request that the decision should be reviewed by the railway committee of the privy council and that interested parties be heard."

FIRST ARRESTS AT THE EXHIBITION

Two Men Charged With Stealing Tickets—Another Alleged Receiver.

P. C. Kinney and P. C. Ellwood arrested Jacob Levy, 118 Lippincott street, and Frank Thompson, 24 Howland road, yesterday afternoon, at the Exhibition grounds, on the charge of stealing a number of grand stand tickets at the ticket wicket, handing them over to Joseph Harber, the booth representative of the O'Keefe Brewery Company.

It is also alleged that a number of O'Keefe tickets were found on the person of the men charged with theft. These are the first arrests made at the Exhibition this year.

The three men in the foreground of the picture are (left to right): D. B. Hanna, president of the Canadian National Railway; Hon. J. D. Reid, minister of railways, and Grant Hall, a vice-president of the C.P.R. President Robert Fleming of the Exhibition is standing slightly in the rear.

POWER INTERESTS TO BE CLEANED UP?

Negotiations Between Sir Adam Beck, Representing the Hydro Commission and City of Toronto, and the Mackenzie Group Reported to Be Nearing Completion—Power, Radials, Light and Toronto Railway Company Involved.

The "big clean up" in regard to power, radials, light, Toronto Street Railway, is said to be about completed. The shares of the Toronto Railway advanced seven or more points within the past few days and this would seem to indicate that the clean up is on the way to a speedy conclusion.

What is the deal and between whom? Between Sir Adam Beck, representing (a) The Ontario Hydro and Radial Commissions (b) The City of Toronto and the Mackenzie group who control:

1. Toronto Railway.
2. Toronto Power Co.
3. Toronto Electric Light.
4. Ontario Electrical Development.
5. York Radials—(a) Metropolitan, Yonge street to Lake Simcoe; (b) Kingston road, Toronto to West Hill; (c) Lake Shore road, Toronto to Port Credit.

All these companies have Sir William Mackenzie for president or on their boards, are all interlocked one with the other, and all securities (bonds, debenture stock, notes), are guaranteed by some or all of the associates.

What is the consideration? The city of Toronto will have to pay cash or its equivalent to an amount representing so much on the dollar for its common stock to the shareholders of the Toronto Railway (say about 50 to 60 cents on the dollar), and assume and discharge all the bonds, and notes issued by the Toronto Railway Co. on account of that undertaking. For this the city will get the balance of the franchise and all the assets, including (Continued on Page 6, Columns 3 and 4).

Bankers Requested to Make Inquiries Where Transactions in Sterling or Foreign Exchange Involve More Than Thousand Dollars—Local Brokers Discuss Outlook.

On the authority of Sir Henry Drayton, minister of finance, who last night attended the demonstration in honor of the prime minister, Hon. Arthur Meighen, in Sir Henry's constituency, Kingston, Ont., the following statement has been issued regarding the financial situation in Canada: "Owing to the financial conditions arising out of the war and the change in Canada in recent months from a favorable trade balance to an adverse trade balance, the minister of finance has requested the Canadian banks to decline to facilitate the importation or carrying of Canadian and other securities which have been held abroad. To that end the minister is requesting the banks to have purchasers of sterling or foreign exchange in amounts of a thousand dollars or over, and drawees of drafts received for collection from outside of Canada, for the like amounts, certify that the exchange so required or the draft from abroad does not represent the purchase outside of Canada of such securities." "The minister is of the opinion that it is impossible for Canada to absorb this portion of its foreign debt or foreign securities at the present juncture without embarrassment to general financial conditions. Every available dollar now in Canada is required for the business of the country, and par-

NEW EARTH SHOCK KILLS RESCUERS

Attempts at Robbing Dead and Looting at Fivizzano Promptly Punished—Italian Royal Family Carries Comfort to Afflicted—Messina Disaster Recalled.

Florence, Sept. 9.—Already some of those working bravely to rescue and help the sufferers from the earthquake have been killed. At Fivizzano, three men, including a carabinieri, were trying to move masonry, from behind which they heard the groans of someone imprisoned, when a new earth shock occurred, the wall falling on all three and crushing them in sight of the onlookers. During the night, while others were engaged in the work of rescue, a determined attempt was made to carry off the strong box of the saved bank at Fivizzano. One of the thieves was attacked by peasants, and before the soldiers could rescue him, he received injuries from which he died.

Two women, living near the barracks, climbed out of a window to a balcony when the first shock occurred. This caused the collapse of all the floors of their building. For more than two hours they stood on the balcony, which was in such a threatening state that it was impossible to scale the wall. Finally they were rescued by means of ropes.

Royalty Aids Afflicted.
King Victor Emmanuel, accompanied by Queen Helena and Princess Yolanda, today passed thru the smaller villages which suffered disaster from the earthquake. In these places, if the tragedy was on a smaller scale, the government's aid was not needed.

Killed in Fall From Factory Scaffold.

MINERS TURN DOWN HORNE'S PROPOSALS
Decline to Appeal to Industrial Court or to Meet Committee of Owners.

London, Sept. 9.—At the conference held today between Sir Robert Horn, president of the board of trade, and a delegation from the miners' organization, Sir Robert is outlining the government's case, and the question of the price of coal was one of policy and concerned parliament. Regarding wages, he suggested that the miners' federation should refer the matter to the industrial court. He also suggested that the miners' committee meet a commission existing wage anomalies and discuss existing wage anomalies and a suggestion that might bear relation to the output.

BONUS GUELPH FIREMEN TO PREVENT WALKOUT
Guelph, Ont., Sept. 9.—(Special.)—The trouble which arose in the Guelph fire department a few weeks ago, when the firemen asked for an increase, has come to an end and the firemen will not go on strike, as was expected. Instead of granting the men a permanent increase, the council have agreed to give them a bonus of \$10 per month until the end of the year, at the expiration of which time the matter will be further adjusted.

ITALIAN PREMIER'S INACTION BLAMED
Did Not Realize Importance of Metal Workers' Movement Till Too Late.

London, Sept. 9.—The Milan correspondent of The London Times thinks that Premier Giolitti failed to realize the magnitude of the metal workers' movement in Italy until too late, and that he tried to bring pressure to bear on the masters. But these remained firm and accused the government of omission of timely action to protect and property, and they argue that to capitulate now would weaken and compromise their position forever.

DEALS WITH INCOME TAX
Dealing with the income taxation, he pointed out that while many believed that not enough had been done in that way, there were many things to consider by those who would go farther. He dwelt on the position of Canada being so close to the United States, which, with its commanding position, could offer better inducements to the investor.

Speaking of the position of the farmers of Canada, he pointed out that (Continued on Page 2, Column 6)

BURNING BARRACKS NOW REPLACED BY RAIDS FOR ARMS

Sinn Feiners Invade Homes, Occasionally With Fatal Results.

NEW ARMS FOR POLICE

Belfast, Sept. 9.—Raids for arms by Sinn Feiners have supplanted barrack burning in various parts of the country. Last night raiders entered the home of Sir Lambert Ormsby, former president of the Royal College of Surgeons in Ireland, held up his daughter at the point of revolver, and secured two guns. At Toombridge, Antrim, another raid on a farmer's house resulted in the death of the farmer's daughter from shock.

At Monymore seekers for arms met with a lively reception at a house they visited, and the police arrived and arrested two of the would-be raiders.

Killed By Armed Raiders.
Dublin, Sept. 9.—John Moriarty, the young son of a farmer at Dingle, county Kerry, was shot and killed by armed raiders last night while he was trying to make his escape with two policemen who were visiting his father. The belief was expressed today at Dublin Castle that the two policemen were subsequently kidnapped by the raiders.

Dublin Houses Raided.
Dublin, Sept. 9.—Numerous Dublin houses, including the city printing works, were raided by the military today. Copies of portraits of MacSwiney and Archbishop Mannix were removed. Five arrests were made, including Councillor McLaughlin, a prominent member of the corporation.

Will Be Better Armed.
Londonderry, Sept. 9.—The Irish constabulary soon will be equipped with up-to-date service rifles and revolvers, quantities of which have arrived here, in Belfast and in Dublin.

Two Constables Killed.
Tullow, County Carlow, Ireland, Sept. 9.—Armed and masked men attacked four police officers there last evening. Two of the constables were shot dead and another seriously injured.

DRAYTON TIGHTENS STOCKS EMBARGO

(Continued From Page 1).
Co., when asked last night to express an opinion on the announcement, said:

"The intention is to tighten the strings, and the general hope is that, in view of the requirements of their investments by these considerations, I suppose there will continue to be a certain amount of speculation by Canadians in the New York market no matter what request is made, but at the same time it is to be hoped that this request will have a sympathetic response. Some months ago when Canadian brokers were asked to help in discouraging dealings in outside securities, the banks were requested to co-operate, but at that time I think that specific methods by which this end would be reached were not definitely arranged."

Another prominent member of the Toronto Stock Exchange said that it had been felt for some time that certain brokers, particularly in Montreal, had not been living up to the pledge given the minister of finance early in the year, and that stocks and dumped upon the market. This had been specially noticeable in the case of Brazilian stock.

A stock broker, head of a house which specializes in New York stocks, said that he didn't see that the instructions to the bankers would prevent orders being put through the banks here, for Toronto traders who deal in New York stocks on margin. It would not be strictly necessary to have such transactions put through the banks here, as cheques could be mailed to the New York house that acted as a correspondent and converted into New York funds there at the current rate of discount.

HANNA MAY YET BUY SHIPS FROM JAPANESE

(San Francisco, Sept. 9.—(Special).—It is believed here that the Canadian National Railways offered to buy from Japanese owners steamships sufficient to establish a fleet on the Pacific, between Canada and Asiatic ports and countries. A large portion of the best ships of Japan are now idle. It is believed the negotiations are still on.

It is estimated that vessels with an aggregate tonnage of more than 350,000 tons are lying idle in Kobe, Japan, because of the acute business depression. A number of Japanese shipping companies are reported to be in difficulties.

SAY CHURCH MUST PROVE PROFITING CHARGE

Ottawa, Sept. 9.—The Retail Merchants' Association of Canada is determined that Mayor T. L. Church, of Toronto, must "show up or shut up" regarding his allegations of profiteering in food and other necessities of life.

The mayor's evidence will be submitted to the Dominion board, and if his charges are proven the members declare that they will make every effort to have the names of the guilty parties made public.

"If no evidence can be produced, we will then ask the mayor to apologize to the members so charged," E. M. Trowen, general secretary of the board, declared.

VETERANS CENSURE MEIGHEN'S SPEECH

Shows Lack of Insight Into Causes of Unrest, They Declare.

J. Fred Marsh, provincial organizer of the G.A.U.V., at a meeting of central branch, G.A.U.V., last night took issue with the remarks made by Premier Meighen at Stirling some weeks ago, when the premier stated that all veterans with the exception of a few grumblers were now settled down happy and contented. "My answer to Premier Meighen," said Mr. Marsh, "is that there are over seventeen thousand paid-up grumblers in the city of Toronto alone, all members of the G.A.U.V., besides the majority of all veterans in Toronto and throughout the Dominion who are not yet re-established. We admit there are a few men re-established and claim that it is up to the men already re-established to help in the fight for those who are not."

Comrade James Higgins, the soldier-labor candidate for Northeast Toronto, also addressed the veterans. The meeting, which was an enthusiastic one, passed unanimous resolutions, condemning Premier Meighen for what was termed his lack of insight into the causes of the unrest prevalent in Canada, endorsing the candidacy of Comrade Higgins and commending the board of control of the city for its decision to endeavor with the co-operation of veterans and citizens to provide an old soldiers' home in Toronto.

CORK'S LORD MAYOR IS STILL CONSCIOUS

Numbness in His Limbs and Dizziness Is Said to Be Increasing.

Dublin, Sept. 9.—The entire tramway service in Dublin will be suspended for two hours tomorrow to enable the employees to march to a mass for Lord Mayor Macswiney.

Arthur Griffith, founder of the Sinn Fein, in a public statement today, repudiates the suggestion of Premier Lloyd George, that the charges against Terence MacSwiney related to murder and cited the actual findings of the court-martial. He denounces as infamous the suggestion that the previous lord mayor (MacCurtain) was killed by his friends, and challenges the premier to accept the proposal of the Bishop of Cork, to establish an impartial tribunal, at which evidence convicting government officials of the MacCurtain-murder would be produced.

MEIGHEN, DRAYTON SPEAK AT KINGSTON

(Continued From Page 1).
The taxes on implements today were about the same as had been in force 20 years ago. There has always been a tendency for all taxes to decrease as time went on, for the reason that people began to import lines of goods which were free, or which carried lower rates of duty. The situation, as it affected the farmers, was as good as they had under past governments.

Speaking of the policy of the government regarding changes in taxation, he said that it was the intention of the cabinet to get from the people the best means of making changes if changes were necessary, and for this purpose a commission was to visit the country and seek the advice of the people. He urged that able business men give the best advice possible to that commission to the end that whatever conclusions were reached they would be for the best interest of Canada.

Speaking of the reduction of rural population in Canada, the premier claimed that the figures showed that even while there had been a slight decrease the situation was not nearly so great as in other countries and that there was no need for alarm.

"The sales tax is a path untrodden by any other country in the world," said Premier Meighen. "Canada is the pioneer in this form of taxation. Then we have the luxury tax, which I am sure has curtailed extravagance. Then there is the tax on improved land, which is fundamentally a local matter. Are the general lines of the policy of the government sound? Are they not sound from the standpoint of argument and experience?"

"If the government goes down," said Premier Meighen, "it will be the gain of the controlling interests which had their birth in the west and which are led by T. A. Crerar and Mr. Woods, of Alberta, bringing back the principles of strain and five times by the people and brought back."

You have to decide between a destructive policy and a protective one. The William Ivens, the Thomas Rickardsons, who misrepresent labor in the country; that sort of representation will be found in the ranks of the opponents. I have faith in the sound thinking of the people of Canada today on whom the government of Canada depends and depends. If the government goes down then Canada will know that she has had the greatest fight, such as never been seen before."

Sir Henry Drayton spoke for only a few minutes. In touching on the taxation of the country today, he stated that the cost of preserving the liberty and freedom of Canada today was \$250,000,000 annually. "If the taxation today is approached in a sane and sound manner, then I have no doubt as to the success of the country. No load is too great for us to carry in furthering this Canada of ours and put it in the front rank, where it so justly belongs."

B. C. RAILWAY CO. SHARES IN RISES

Railway Board Judgment Assistant Chief McLean Issues Statement.

Ottawa, Sept. 9.—(Canadian Press).—In view of the general increase in railway freight rates the railway commission in a judgment handed down today decline to take any application in regard to the application of an Edmonton, Dunvegan and British Columbia Railway Company and the Central Canada Railway Company for a general increase in both freight and passenger rates. The board has decided that the application for a general increase in freight rates should be allowed to be put in force—the same increases to be outlined by the recent judgment for all railways coming within the jurisdiction of the board.

An interesting feature of the judgment is an expression of opinion by the railway board as to conditions under which increased rates should be authorized. "The burden of increased rates," says the judgment, "is one which should be imposed only when there is a thoroughly established justification therefor. At the same time, in the present application, as well as in the application launched by the railways for a general increase in rates, much material was submitted reinforcing what is a matter of common knowledge, namely, that in the period which has elapsed since 1914 railway costs of operation have practically doubled while rate increases have been much less."

ELECTRICAL STRIKE STILL LOOMING UP

Premier Drury Will Meet Representatives, Following Conference's Failure.

Conferences yesterday between union officials and company representatives failed to secure redress of the Mackenzie and Mann interests of the electrical workers' union, machinists and carpenters in their pay. Manager R. J. Fleming of the companies concerned definitely stated that he would take no action until the return on Wednesday next of Chief Drury, secretary of the union, and union officials express doubt as to whether or not their men can be re-employed on previous terms at the interval. In a final effort to adjust matters, Premier Drury is to meet the representatives of the men today.

Following the refusal to take any action, which Manager Fleming expressed at "yesterday morning" conference, Business Agent Jack Munro of the machinists' union, Secretary John O'Connell of the carpenters' union, and Agent J. T. Gunn of the Electrical Workers' Union, and Phil Thomas of the Glasgow Falls workers, met Hon. W. R. Rollo, minister of labor, and reviewed the controversy with him. Mr. Rollo stated that his department would attempt to adjust the dispute, but had received no answer from the Mackenzie and Mann companies to his communications. He suggested that the matter be discussed in conference today with Premier Drury and other members of the cabinet.

COX TO MEDDLE IN IRISH QUESTION

Butte, Mont., Sept. 9.—A definite pledge to "present the Irish cause" to the league of nations in event of his election, was made here tonight by Governor Cox of Ohio in closing his Montana campaign.

"It would be my duty," said the Democratic nominee, "and very quickly availed of, as a friend of peace, asserting the friendly right of any member of the league to present the Irish cause to the attention of the league under the authority given by article eleven and give to Ireland or any other aggrieved people the opportunity to plead their cause before the bar of civilized opinion."

The Irish question, Gov. Cox said, fitted the settlement of the peace between the English-speaking races. Reading article eleven of the league covenant, providing for consideration by the league council or assembly of any international whatever, "which threaten to disturb either the peace or the good understanding between nations," the governor said that under existing conditions the Irish question could not be presented to "the bar of public opinion."

"Under the league it can," he continued. "We have four times as many people of Gaelic blood in the United States as there are in Ireland, and so long as the Irish question is not settled in our domestic relations, but stand like granite between the strengthening hands of England and America. So long as the Irish question remains unsettled, there will be some conflict in America with the idea of world-wide co-operation between the English-speaking nations."

MINISTER OF RAILWAYS DEFENDS RATES BOOST

Intimation by Hon. Dr. Reid That Any Appeal to Cabinet Will Be Fruitless—Reviews Transportation Situation—Thinks National Railways Will Equal C.P.R. Management—Advocates Deepening St. Lawrence for Ocean Boats.

If the minister of railways, Hon. Dr. Reid, voices the views of the government on the question of increased freight and passenger rates, my appeal to the cabinet to disallow the increase authorized by the railway commission will be fruitless.

Addressing a large gathering at the Exhibition directors' luncheon yesterday, Dr. Reid said that so far as he was concerned the people who used the railways should pay the increased cost of operation.

People who heard the speech are giving Dr. Reid credit for considerable courage in launching his carefully worded defence of the railway rate boost, practically in the stronghold of the opposition.

Yesterday was transportation day at the fair and the chairs at the luncheon were filled with railway men from all parts of Canada.

Last year the mines of Canada had \$173,000,000, the forests \$146,000,000, the fisheries \$60,000,000, the farms, \$1,500,000,000, and the factories \$2,500,000,000.

Dealing with the progress that had been made with railway construction in Canada, the minister pointed out that the first road built in Canada had

been working for the best interests of the public.

Dealing with the amalgamations, the minister said a situation had developed in which the Canadian Northern had not been able to carry on, and the government had been obliged to take it over.

Having a government railway, there might be an impression abroad that the government would be prone to quarrel with the C.P.R., but that was not the case.

Besides, these mentioned Canada had other transportation systems on the inland waterways. Starting with a 9-foot canal at Welland, improvements had been gradually made, and had it not been for the war, ocean boats would have by this time been running up the lakes to Port Arthur and Fort William.

Referring then to the National Railways, Dr. Reid said they had a management there that was doing its best for the interests of the country, and, altho it had just got started, he believed it would equal the splendid management of the C.P.R.

There was room, he said, for both great systems, and need of every mile. These systems provided the means of transporting the products of Canada to both oceans, and with adequate shipping would put Canada in a position to carry produce to the best markets of the world.

Reverting again to the rate question, Dr. Reid said it was only fair that the railways should be permitted to pay an adequate return on investment.

The government had been for years subsidizing a steamship line between St. John and the West Indies, and now controlled 12 or 13 ships on that route. The result was that \$21,000,000 worth of Canadian produce had been shipped by these boats last year.

Canada's great future, the minister said in conclusion, justified optimism, and he asked the public not to be too hard on the railways.

WANT STAIRWAYS AS FIRE ESCAPES

Board of Education Administrator to Report—Tangles in Committee.

Toronto's public school tangle was shown up in lively style at the meeting of the property committee of the board of education yesterday afternoon.

Dr. John Noble, chairman of the board, had a series of knockout bouts with the chairman of the committee, Trustee McClelland and Trustee Bell.

Trustee Bell considered their construction was urgent.

Dr. Noble: "There are many other schools just as much in need of fire escape stairways. All the schools should be treated alike. Dufferin School has done without for 40 years, and can wait until all are equipped."

Trustee Bell: "It would only take 40 minutes fire to do the damage."

The administrator was instructed to report on all schools requiring fire escape stairways before proceeding with any special schools.

Trustee Bell declares open war on Dr. Noble over the new Dewson Street School plans. They had been made a football of for months, he declared, because Dr. Noble blocked them every ten minutes.

Dewson Street School had a long period, and unless the new school buildings were started on the spare portion of the old Dewson Street School playgrounds, it would be five years before there would be any relief.

He was tired of all times of the day, complaining of the overcrowding. It was the same at Manning Avenue and had at Givens. The board had adopted the old school site, and new tenders to bring the cost within the reduced appropriations should be immediately called for.

Dr. Noble claimed that Chief Inspector Cowley had recommended a new public school should be built not on Dewson pupils alone, but to relieve Manning and Givens. He moved that the chief inspector be heard.

Trustee Bell protested that the chief inspector had nothing to do with sites, and was upheld by the chairman of the committee.

A motion for new tenders for a building on the present Dewson playground site carried, but Dr. Noble gave the committee warning of renewed opposition at the board meeting.

Opportunity Schools. Excitement increased and criticisms flew from end to end of the table over the opportunity school project.

Dr. Noble charged the committee with taking advantage of his absence and that of Mrs. Groves to kill the Park school transformation scheme. It was passed by this committee and passed by the board. Dr. Noble asserted.

Trustee McClelland said the property committee had never passed it. Dr. Noble had introduced it at a meeting of the property committee, and at his request it had been sent on to the board "without recommendation." It had never been passed by the finance committee, and its adoption by the board had been "quite irregular."

Dr. Noble said that it had been omitted by error from the committee's report to the board, and that was why he forgot it until after the regular end of the board meeting, when he recalled the trustees to vote on it.

Trustee McClelland said that the construction of an auditorium and gymnasium in the new Park school, as at present proposed, was approved

by the municipal and disapproved of by the chief inspector, and no money for it had been provided.

Dr. Noble: "There is the \$7,000 we got for the old Park school, and we can get the rest of it from the maintenance fund."

Trustee McClelland: "That is spent already."

Reasonable and Cheap. Dr. Noble: "It is a reasonable and cheap plan. The auditorium would be in use all day and evenings and the gymnasium and swimming pool a large portion of the time. Six classes could be taught in the auditorium."

Several of the trustees appealed to Dr. Noble to compromise on a motion for a \$50,000 opportunity school as an annex to Park school but he refused to agree, and announced that the fight would be again on at the board meeting.

A proposal to put the cost of an opportunity school building in next year's estimates carried.

ENNISCLARE FARMS CLEAN THE BOARDS

Carry Off Many Ribbons in Hunting and Jumping Classes.

Avon, N.Y., Sept. 9.—Ennisclare Farms continue to sweep the boards at Rochester, following up their great triumph of yesterday. The Ennisclare Farms carried practically all before them in the hunting and jumping classes today. In the thorough hunter class the Canadian horses swept the board with Indian Arrow, Ondremon, Tantalizer and Shot being placed in the order named. In a class of sixteen model middleweight Ennisclare Farms were again very much in evidence, winning first, third and fourth with Cragwood, Greyburn and Mr. Owen. Bateman, owned by Mr. Bates of Oakville, and now owned by Mr. Woodin of Chicago being placed second.

The class for hunt teams brought out a beautiful collection of hunters, and after some keen competition the blue was finally awarded to the Ennisclare team, admirably ridden by Lieut.-Col. Herbert C. Cox, Hinch S. Wilson and R. Mossop. Quanzett, Farm were placed second in this event, third ribbon going to the Ennisclare thoroughbred team, ridden by the same riders. The pen jump brought out 26 good performers; being won by Mr. Levin's burglar, second going to Lady Roberts, owned and ridden by Mr. Henry Bate of Ottawa, third and fourth going to Ennisclare, bringing the total ribbons won by this stable to date up to 21. The Rochester papers are loud in their praise of the magnificent performance put on by the Ennisclare entries, and their success today was most popular with the thousands that encircled the enclosure.

TO TORONTO FOR TRIAL. Vincent Griffin was brought back to Toronto last night by Detective Nichols on a charge of robbery. Griffin is alleged to have stopped Harry Kemp on the street and asked him for a match. While Kemp was looking for a match, it is charged Griffin snatched his tiepin.

CITY POPULATION GROWING RAPIDLY

Toronto Has Now 512,812 People—Big Assessment Figures Shown.

Interesting figures to the citizens of Toronto are made available with the completion of the assessment department's annual task of returning the assessment for the year 1921. According to the assessor's figures there is an increase of the population of the city of 13,517 over last year. His estimate is that the population is now 512,812. Montreal has 706,600. Toronto is the twelfth largest city on the continent, with Montreal ninth.

The value of land continues to soar in the city, as the following figures will demonstrate: Assessment in the eight wards of the city totals \$702,351,851, an increase of \$61,897,195 over last year; the particulars making up this total increase are: (a) land assessment, \$20,984,872; (b) business assessment, \$9,215,361; (c) income assessment, \$14,695,742; (d) building assessment, \$17,101,213.

The increase in exemption from taxation has also taken a jump. The exemptions for 1921 reach a grand total of \$98,271,202, which is an increase of \$5,654,607 over last year. The largest increases are shown in ward two, with wards six and five following closely.

The assessor's figures are, of course, subject to pruning, or otherwise, by the court of revision, but on a fair average, with a 30 1-2 mill tax rate, the increase in revenue which should accrue to the city will be in the neighborhood of one and three-quarter million dollars.

Valuable Downtown Property. That the value of downtown property is certainly not on the wane is apparent from the assessment rolls published yesterday, for ward three. For instance, the G.T.R. at the corner of Yonge and King is assessed at its most valuable part at \$142 per square foot, while on the Royal Bank property, just opposite, the assessment runs to \$128 per foot. The Grand Trunk corner, which is owned by the Imperial Bank, is the highest assessed land in the city. The building is assessed at \$75,000, while the land is valued at \$67,000, an increase of \$7,000 over last year's figures. The Royal Bank building is assessed at the same figure as last year, \$915,000, but the land has been boosted \$66,875, over last year's figure of \$848,125. The Dominion Bank and the C.P.R. lands have been marked up by the assessment department.

The following figures, given for comparison, are instructive:

Huron and Erie...	174,250	194,750
1920	1921	1921
Dominion Bank	\$982,625	\$1,020,375
Michie's	188,500	203,000
Guinane's (Childs)	91,250	100,875
Ford Candies	60,000	60,000
(Childs)	60,000	60,000
C. P. R.	575,207	632,828
Bowles	142,500	156,750
Applegat	117,000	138,750
Standard Reliance	239,187	250,900
Home Bank	235,812	260,125

These figures relate to the land only.

The C. P. R. skyscraper site is assessed \$11,275, \$8,000 and \$5,750 per foot frontage (depending on the distance from the corner), increased from \$10,250, \$7,250 and \$5,250. The Dominion Bank site is \$18,000 per foot frontage, where it was \$16,500 before; \$12,500 where it was \$11,500, and \$9,500 where it was \$8,500.

WOMEN WILL SUPPORT LEAGUE OF NATIONS. Christiania, Norway, Sept. 9.—Speaking at the formal opening of the International Congress of Women today, Lady Aberdeen said that the council would support the league of nations and would demand equal political, financial and judicial rights with men, and the same moral form for men as for women.

Three hundred and fifty delegates, representing twenty nations, were present at the opening session of the International Congress of Women here last night. Rumania, Cuba, Spain and Czechoslovakia are to be admitted to membership, and Uruguay, Ukraine, Russia, Ireland and Mexico were received at the session. Lady Aberdeen presided.

Hugh Guthrie to Attend War Graves Commission. New York, Sept. 9.—(By Canadian Press.)—Hon. Hugh Guthrie, minister of militia and defense, sailed with Mrs. Guthrie on the Imperator today for a trip to England, where on Sept. 21 he will attend the conference of the Imperial war graves commission, composed of delegates from all parts of the British Empire.

Later he will go to France to see the extent of the progress of the work in the erection of eight war memorials for members of the Canadian Expeditionary Force who fell in action. It will be two years before the memorials are completed. At present the work is on the roads and approaches to the memorials.

The minister will, on Sept. 24, attend the first financial conference of the League of Nations, and he will act as the delegate with two financial advisers who are already in London.

after some keen competition the blue was finally awarded to the Ennisclare team, admirably ridden by Lieut.-Col. Herbert C. Cox, Hinch S. Wilson and R. Mossop. Quanzett, Farm were placed second in this event, third ribbon going to the Ennisclare thoroughbred team, ridden by the same riders. The pen jump brought out 26 good performers; being won by Mr. Levin's burglar, second going to Lady Roberts, owned and ridden by Mr. Henry Bate of Ottawa, third and fourth going to Ennisclare, bringing the total ribbons won by this stable to date up to 21. The Rochester papers are loud in their praise of the magnificent performance put on by the Ennisclare entries, and their success today was most popular with the thousands that encircled the enclosure.

Just and Fair!

SUPPOSE a flat rate were charged for gas—so much a month, no matter how much consumed!

For the gas company to continue in business that flat rate would have to be high enough to recoup the company for the expense of serving the big user.

So with the telephone service. Naturally, big users who create the operating load are loath to see the principle "Pay for what you use, and only what you use," applied.

But in all fairness, where else should it rest? Why should telephone users, any more than gas or electric light users, object to paying exactly in proportion to their use of the service?

Message rates for business telephone service are just and fair.

CITIZEN'S WONDER

A good-natured, but nonplussed citizen, who rides a business every morning on an Avenue roadster, cannot understand the formal fare-collecting procedure which holds the car at a dead stop for some time every morning on this side of the city.

SCENE ENACTED BY CAR CONDUCTORS EVERY MORNING IS PUZZLE TO BUSINESS MAN.

The little ceremony requires three officiating conductors. The regular conductor stops the car while two other conductors board it and pass among the passengers with their little banks, collecting the fares. The car meanwhile remains in statu quo until the financial transactions are completed, when the toll-collectors gracefully dismount, the regular conductor gives the signal, and the little, one-truck car rattles away citywards.

AGED V.C. FAVORS ACTION IN POLITICS

"Daddy" Thinks Soldiers Should Be in Parliament Wants Fair Pensions.

Sergeant Richardson, V.C., the 89-year-old veteran, who was a member of the V.C. party visiting Toronto last week, is strongly in favor of soldiers getting into politics as a body.

"I think soldiers should be in parliament," he told The World yesterday, and he added: "If the soldiers stick together they can put their own men in. At any rate, there are enough soldiers to control the balance of power and swing their support to where it will be most effective."

Sergeant Richardson also has some clear-cut views on the matter of soldiers' pensions. "Pensions for total disability should cover living expenses, and pensions for similar degrees of disability should be equal for all men, irrespective of the rank they held in the army," he said.
