ST. JOHN N. B., FRIDAY, MAY 9, 1913

TWELVE PAGES—ONE CENT

INDUCTIVE DAM HEARING BROUGHT TO END TODAY

Two Witnesses Were Heard This Morning ARGUMENT UNNECESSARY

J. Fraser Gregory's Evidence Against Dam—Engineer Holt Takes Different View—Decision Will Be Given By Commission Later

The hearing in the matter of the petitions protesting against the construction of the Inductive dam by the St. John River Hydro-Electric Co., Ltd., was concluded before the St. John River Commission this morning. One witness was called on each side and counsel decided that argument was unnecessary, the hearing was adjourned and the decision will be given later.

J. Fraser Gregory was called by the petitioners and reviewed the objections to the dam on the grounds that it would seriously impede driving loose logs and rafts. He also dealt with the effect of the dam on salmon spawning and said that no fishway could be provided which would be used by the salmon to any great extent.

F. W. Holt, C. E., consulting engineer for the company, was called in rebuttal. He expressed the opinion that the dam would improve navigation and log driving by providing better depth of water above the dam and by making the conditions more uniform. He said that sluiceways for logs and rafts of similar height were in use in other places and that modern fishways the salmon could scale a dam of any height.

Cross-examined by Mr. Baxter the witness modified some of his statements somewhat and at times the passages between the witness and the lawyer were lively.

All the members of the commission, with their counsel and officials, counsel representing the various parties, and others interested in addition to a few spectators, were present.

The evidence J. Fraser Gregory was the first witness and was called by the counsel for the petitioners. He said he was president of the St. John River Log Driving Company, and had been connected with the company since 1886. He knew the site of the proposed dam and often had been over the place with lumber drives. He had given consideration to the effect of a dam and one side on account of the back water caused by it through which the logs would have to be towed. This would probably take double the time.

The logs passing that point each year run from five to sixteen millions on rafts and seventy to one hundred and twenty millions in loose logs. The witness said that a sluiceway would serve the purpose. They might have to run every log and this might reduce the value of the logs by \$7 to \$9.

The witness said he was president of the Fish, Forest and Game Protective Association and he was interested in the protection of the salmon fishing. He believed that no fishway would serve the purpose for which they are built and those over fifteen feet high are absolutely useless. The salmon fishing in St. John river and between Woodstock and Woodville is worth \$60,000 to \$70,000 a year.

There are no steamers operating between Fredericton and Woodstock, but he understood the Dominion government had secured surveys with the intention of improving the channel.

Speaking of the effect on driving above the dam the witness said: "If the current were slowed up and there was a head wind it would cause a hold up."

Mr. Hanson—"Surely you do not mean that?"

Answer—"Backwater is backwater."

Mr. Hanson—"But backwater is not all water."

The witness said that he had no experience in lumbering on other streams than the St. John except as a visitor.

Q.—Can rafts be brought over a dam twenty-five feet high?

A.—Not with the joints we use.

A.—Under any conditions?

A.—At a great cost a slide could be constructed to make the drop easy and under the most favorable circumstances.

MCKENZIE & MANN IN WAR ON PACIFIC

To Compete Against C. P. R. and Grand Trunk Pacific For Steamer Business

Toronto, Ont., May 9.—The proposed C. N. R. Pacific coast fleet, which will, by the end of the year, be plying to the Orient, Sir William McKenzie says, will necessitate an expenditure of millions of dollars. It will run in opposition to both the C. P. R. and the Grand Trunk Pacific steamers.

This means that the Canadian Northern Railway will have vessels sailing to Japan and the Orient and will also have coasters running to Seattle and the Northern sections of British Columbia and Alaska.

The rafts might be brought through safely. Q.—You are unalterably opposed to this project?

A.—I am not prejudiced against it, but I believe it would be detrimental to the lumbering industry of the river.

Mr. Hanson referred to a lecture given by Mr. Gregory in which he had referred to the end of the lumbering industry on the river and predicted that no more mills would be built at St. John.

Mr. Gregory said it was so, but that his objection was based on the increasing number of obstructions in the river.

Q.—It is a question of the survival of the fittest, is it not?

A.—Yes, and I will see the last log (laughter).

The counsel, questioning Mr. Gregory as president of the Fish, Forest and Game Protective Association, asked if it was true the association was not taken very seriously by the government.

Witness—"Not by the present government."

Continuing the witness said that rafting was done during the freshest season, but the lumbermen avoided extreme high water as well as extreme low water.

The construction of a dam which would make rafting possible and not impede the fish might, he said, be a matter of cost.

Much to St. John Mr. Gregory asked the counsel if their company had to secure the approval of the log driving company, saying that other companies had to do so.

Mr. Hanson—"No, thank goodness, we do not have to apply to you for permission."

In reply to Mr. Fellows, the witness said that the cost of rafting would be greatly increased and driving would be stopped.

He said that he expected the quantity of logs to decrease, but did not think that the development of power on the main stream was inevitable, as other power also was available. There might not be other points capable of developing so much power, but combined they would.

The witness refused to estimate the cost of the dam which would be caused by the erection of the dam. It might vary from nothing to an absolute hang-up.

In reply to Mr. Keefe, the witness said that if the river were kept clear he would consider St. John one of the best places on earth to manufacture lumber.

The witness said that he was familiar with the part of the river under discussion. He had selected the site for the dam.

Corrected by counsel, he said he knew where the company had power to build the dam. At the point the stream was from 200 feet wide at low water to 1200 feet at freshets. The banks are steep and rise higher than any dam would exist in one place.

The witness had been familiar with log driving since he was a child and he regarded the present condition of the river as extremely difficult for log driving.

The construction of a dam would improve the river for log driving and boating. It would improve conditions and make them more uniform. The river at present is not navigable except for a certain type of heavy boats which must be poled or towed and towing is very difficult. The dam would greatly improve navigation.

The witness knew of sluiceways of equal height to that proposed and which were used successfully for rafting operations. On the Ottawa River they are now using locks for rafting operations on places at least as bad as this and they work satisfactorily.

The witness said he had made a careful study of fish ways and knew that, with a properly constructed fishway, the dam would not interfere with the fish. The height of the dam would be immaterial. The latest and best type, which has been approved by the Dominion government, is known as the Hocken fishway. One of them is in use at Chambley, P. Q., in a dam at least twenty-five feet high. The problem is just being solved.

To Mr. Baxter the witness said the problem was being solved by Mr. Hocken and Mr. Von Beyer, the United States expert. He had learned of their plans by personal correspondence but had not seen one of the modern type.

He said that the fishway shown in the plans he submitted two years ago was not the same as that now described, but he would not admit that his original plans would not be effective. It was modified after a dam installed at St. George, according to his own design, twenty years ago.

Mr. Baxter—"Then you showed no improvement in twenty years?"

Witness—"That is a legal way or rather a lawyer's way of putting it."

Regarding the series of rolling dams one foot high at the foot of the dam, the witness said that the principle was used in every logging mill in the country, but he had never seen it used in a dam of this size.

He would not definitely recommend a lock as a series of locks in place of a sluiceway.

BORDEN HAS TURNED IMPERIAL NAVAL POLICY TOPSEY TURVEY

Agreement With Australia Broken and the Whole Business Is Put Into Confusion

(Canadian Press) London, May 9.—Although no official confirmation can be obtained here, it is reported that the forthcoming visit of the British postmaster-general to Canada in connection with the subject of a state-owned cable to link up with the Pacific cable. He also will attend a subsidiary conference in the dominion at which other questions of imperial interest will be discussed, the most important being the

problem of defence in its later development. Ministers from other dominions also will attend the conference. Hon. Mr. Fisher, premier of the Australian Commonwealth, has already informed Colonial Secretary Harcourt that his government desires to come to a proper understanding with the home government on the question of adequate protection of British interests in the Pacific and, after consultation with the admiralty, has replied that consideration of the question must be deferred until the conference in the autumn.

This decision has been reached owing to the uncertainty, at present, as to what form of naval policy Canada will eventually adopt. It is pointed out that the original policy of the dominion contemplated co-operation with Australia in the defence of the Pacific, but Premier Borden's policy has altered that. Still, the commonwealth intends to be represented and hopes that First Lord of the Admiralty Churchill and Colonial Secretary Harcourt will attend its meetings as well as Postmaster-General Sargent.

MAY CHANGE STYLE OF WORK ON BREAKWATER

Courtenay Bay Matter Under Consideration—An Official Speaks of the Situation

There will be a change in the construction of the breakwater at Courtenay Bay if the plans which are under consideration are carried out. The contract calls for rubble construction for a certain distance from the shore and then for a foundation of concrete work. It is understood that the proposal has been made that the rubble should be done away with and the whole construction be of rubble.

In reply to a query about the matter, James Gilest, superintendent for Norton Griffiths & Co., Ltd., said this morning that the matter was being considered by the government engineers at Ottawa, but so far they had not heard anything definite about the result. He said that they have almost completed the first section, for which the contract requires the construction of stone, but that they will not be able to commence any rubble work this summer if it is decided to adhere to the plan of rubble.

SAY CONFIDENCE IN FRIEDMANN CURE'S NOT FULLY JUSTIFIED

First Official Statement by United States Health Officials is Given Out Today, After an Examination

(Canadian Press) Washington, May 9.—The public health authorities here, so far as to the condition of the patients inoculated by Dr. Friedmann with his tuberculous vaccine do not "justify that confidence in the spread publicity" in the opinion of the surgeons who have conducted the government investigation. This first authentic and official conclusion from the tests was announced here today before the National Association for the Study and Prevention of Tuberculosis by Dr. John F. Anderson, director of the government's hygienic laboratory and Dr. A. M. Stimson, another public health surgeon who were detailed to observe the progress of the Friedmann patients at Mount Sinai Hospital in New York.

A few loop-puffs of the material used for injection which Doctor Friedmann permitted to be placed on culture media in his presence.

Dr. Friedmann, with a large amount of material for examination, but he has declined to do so. We can state, however, that living acid-fast bacteria are being injected by the intramuscular and intravenous methods, although we are ignorant of what medium they are suspended in or what additional substance or substances may be contained in the final mixture.

On the whole Dr. Friedmann's reluctance to furnish certain details were not satisfactory from a scientific standpoint, but the report says, "in view of the great importance of the matter to tuberculous patients throughout the country and in the hope that a valuable remedy might have at last been found to prevent the disease, the conditions imposed by Doctor Friedmann were accepted."

An additional reason for taking advantage of opportunities to make every study possible was the assurance by Doctor Friedmann that his patients had been inoculated with the vaccine.

One of the conditions imposed by Doctor Friedmann, according to the report, was that he would furnish detailed information of the methods of preparing his vaccine and the dispersal of the inoculated patients.

The board found that under the conditions imposed it would have opportunity only to give a culture of the bacteria said to be used in some way by Doctor Friedmann in the preparation of his vaccine, but to test its pathogenicity on the lower animals and observe the effect of treatment by him of tuberculous patients with his finished vaccine. These limitations, the investigators found unsatisfactory from the scientific standpoint.

The report is careful to say that Doctor Friedmann's reticence has in no way been allowed to interfere with the board's judgment of effects which it has observed. The government investigation is not finished, as the tests being conducted in the hygienic laboratory here and the observations of the persons inoculated will be continued.

"We must take less light of the possible therapeutic value of this preparation one way or the other, and it is necessary to guard against too great an optimism in respect to its merits."

In our series of patients, Doctor Friedmann has not exclusively made use of the intramuscular method alone in pulmonary cases, but a very considerable proportion of them have either developed no considerable infiltrate at all or have suffered from abscess formations. It is evident, therefore, that a very considerable portion of these patients may expect their treatment at the hand of Dr. Friedmann to extend over a long period.

"Concerning the cultures submitted to us, we may state that a series of experiments was made under way. The inocula have been found to be an acid-fast organism, having properties quite different from those of any tubercle bacillus with which we are acquainted. It appears to be identical with an organism cultivated from a patient who had been treated in this way, as he was not sufficiently familiar with the results secured."

He did not know whether there were salmon in the river on which the Chambley dam was built.

To Mr. Fellows the witness said he had known that sluiceways or slides sometimes passed through the locks on rivers.

Mr. Baxter asked if the witness had suggested that salmon could be passed up the river by opening the gates of the dam? And after some hesitation the witness said: "Yes."

This concluded the evidence, and counsel on both sides agreed that argument was not necessary, the chairman announced that the hearing was closed.

The commission will give a brief decision this afternoon, principally to consider the time and place of their next meeting.

SIX SCOWS IN ALL FOR CLEAN UP DAY

M. W. Doherty Offers Use of Two With Tug To Tow Them

Maning W. Doherty of the Maritime Dredging Company, has placed two additional scows and also tugboat service at the disposal of Commissioner McClellan for use on May 15, the civic "clean-up day," and the commissioner wishes to express his appreciation of this courtesy.

The government scows are a number four, so this will give the department half a dozen for use in carrying the refuse out to sea. Announcement will be made later as to where they will be located.

ALAS! FOR FAME

DEGREES FROM MCGILL

L. L. D. For Viscount Haldane, Premier Borden, Hon. Mr. Doherty and Dr. J. A. Temple

Montreal, May 9.—Four distinguished men will receive the honorary degree of doctor of laws from McGill University in the course of the next few months. At a meeting of the corporation yesterday it was decided to confer the LL. D. degree upon Right Hon. Richard Burgoyne, Viscount Haldane, Lord High Chancellor of England, "in special recognition of his constant advocacy of the cause of higher education, to which he has rendered such valuable service, and as a compliment, personal as well as official, on the occasion of his first visit to Canada, to one who has achieved marked distinction as statesman and administrator, philosopher and jurist and who has crowned a brilliant career by attaining to the highest judicial office in the gift of sovereignty."

Premier Borden, Hon. C. J. Doherty, minister of justice, and Dr. James Algonquin Temple will also receive LL. D. The first three will be in September, the fourth in June.

SPORTING NEWS

Philadelphia, May 9.—Mike Murphy, a veteran athletic trainer, who has been ill for some time from a complication of diseases, which physicians think were brought on by too great exertion during his athletic days, now, very seriously ill, with little chance of recovery. It is reported from his bedside that he has been unable to take nourishment and that his condition is alarming.

Murphy has trained the University of Pennsylvania athletes since the fall of 1905, when Pennsylvania got him from Yale after Yale had taken him away from Pennsylvania. The fund has been widely known collegiate trainers in the country, and on two occasions has been named on the American Olympic team. During the last five years he has been the victim of several breakdowns in health. St. Louis, Mo., May 9.—Harry Trendall, St. Louis, Mo., last night was given the light-weight, after eight rounds of snappy fighting.

ASQUITH AND CHURCHILL OFF TO MEDITERRANEAN

DECLARE UNION OF MINE WORKERS TO BE TRUST

Action of Coal Operators to Forestall Possible Demand for Higher Wages

Charleston, W. Va., May 9.—Charging that the United Mine Workers of America is an organization in restraint of trade, a trust and combination, the coal operators of the New River field of West Virginia have asked for an injunction against President John P. White, Vice-President Frank Hays, and other officials of the Miners' union. It is not believed any action will be taken by the court before June.

Suffragette Bomb in St. Paul's Said to Have Contained Dynamite—Love Letters to Militant From Nerve Socialist M. P. Aro Found

Private Trail From Canada Was Giving One Man a Nice View

DOLLAR A HEAD TO GUIDE IMMIGRANTS INTO UNITED STATES

Seattle, Wn., May 9.—A private gateway to the United States through the Canadian boundary, which has been admitting illegals from Russia to Vancouver, and thus being discovered and the collector and twenty-one Russian immigrants a under arrest.

The Russians were taken into custody in Custer, Washington. They told of having crossed the border by a trail near Blaine led by a guide who charged them only \$1 each. The immigrants were ticketed from Russia to Vancouver, and thus were able to land at New York and make a continuous journey from the United States to the point of their destination. The heavy stream of immigrants into Vancouver from Russia led to an official investigation.

It is reported in newspaper circles that the socialist M. P. is Keir Hardie and the lady "General" Flora Drummond.

London, May 9.—The Times says that the bomb found in St. Paul's contained dynamite. Some of the cables on the investigation of the suffragette activities. In a search for documents, there came into their hands a bundle of letters which proved not to be bomb plots, but the outpourings of an overflowing heart. They were notes from a love-sick socialist member of parliament to a lady who had some time has taken a prominent part in the militant movement.

NORTH SHORE STRIKE NOT YET SETTLED

Fair Wage Officer From Ottawa Arrives on Scene

Chatham, N. B., May 9.—According to statements yesterday afternoon the strike of the longshoremen is not yet settled. While the Snowball Company have a sufficient force to load one steamer at a time it is said that the rest of the strikers are not willing to go back for \$3.50 a day.

Instead of the strike being settled at Nelson and Sinclair's, it was declared to be still in force, though under different circumstances.

The captains of the vessels there had hired the men to load the vessels through the regular stevedores, and it was said that there was a difference between the captains of the vessels paying \$4 and the mill owners paying this amount. In the meantime another element has entered into the situation. F. E. Neale on Wednesday received word from Hon. J. D. Hays that the latter, acting on the request of the minister of labor, had sent down Victor Dubreuil, a fair wage officer of the department of labor, Ottawa, to use his endeavors in effecting a settlement.

Mr. Dubreuil arrived on Wednesday and went to Nelson. He will endeavor to see both sides and bring them together.

The funeral of Mrs. John Shirrell was held on Thursday afternoon from St. John's church after the arrival of the body on the Ocean Limited from Montreal. Rev. J. M. MacLean conducted the services. Interment was in the Riverside cemetery.

MOTHER AND SON SHOT AND SLAYER FATALLY WOUNDED

Philadelphia, May 9.—Mrs. Alice Granville, a widow, was shot and killed and her ten year old son was fatally injured early today. According to the police, John Galow, a former sergeant of marine, did the shooting and then fired a bullet into his own breast. He is not expected to recover.

GERMAN BALLOON MISSING; WAS LAST SEEN IN STORM

Koenigsberg, Germany, May 9.—A German military aérostat balloon, the Cassiopeia, which ascended from this city on Wednesday, is missing with its passengers. It was last seen in the neighborhood of Dillau about twenty-five miles from here traversing the Frischer Ebering peninsula in a storm. It was under the command of Captain Von Wobeser.

ORDER CALGARY HOTEL MEN TO SELL OUT BUSINESS

Calgary, May 9.—The King George hotel must change hands, since the hall of the license commissioners, based on complaints of violation of the liquor ordinance. It is ruled that the present proprietors must dispose of their interests by June 1.

FORMER ST. JOHN MAN IS DEAD IN ROXBURY, MASS.

A Boston special to the Times reports the death of Robert Knolton, formerly of St. John, at his home in Roxbury, Mass. He was seventy-two years of age.

SIR CHARLES TUPPER MUGH PLEASED WITH WILSON'S CUTTING OF THE TARIFF

London, May 9.—Sir Charles Tupper arrived at Liverpool last night on the S. S. Empress of Ireland. Speaking of the future of Canada, Sir Charles said that during his long life there, he had seen great and wonderful development but after carefully considering all the essentials that go to make up a great nation, he very happily loved Canada's growth in the past year will prove as nothing to the glory of her future.

He spoke with much gratification of Woodrow Wilson's tariff changes.

SIR MAX AIKEN ILL

London, May 9.—Sir Max Aiken, whose health has been very satisfactory for a long time, will go to Canada under the care of a physician at the end of this month.

British Artist Dead

London, May 9.—Sir Coutts Lindsay, artist and founder of Grosvenor Gallery, who exhibited "Glad Day" He was born in 1824.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis.—A pronounced cool wave is centered in Manitoba promising very cool weather generally; the Grand Banks and American ports, fresh south to west and northwest winds.

Fair and cooler.

Maritime.—Fresh south to west and northwest winds; showery Saturday, generally fair and cooler.

AFTER COUGHING MONTHS

Brooklyn, N. Y., Woman Found Relief In Vinol. Did you ever cough for a week? Then think how distressing it must be to have a cough hang on for three months. Mrs. Maria Primm, of St. Newell street, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough which kept me awake nights for fully three months, and felt tired all the time because my rest was broken. The effect of taking your cod liver and iron remedy Vinol is that my cough is gone. I can now get a good night's rest and feel much stronger in every way." It is the combined action of the medicinal elements cod's livers aided by the blood-making and strength-giving properties of tonic iron which make Vinol so efficient for chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system. Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Watson's 3 Drug stores, King street, Main street and Haymarket square.

Sussex Notes

Fred M. Moore arrived from Springfield, Mass., this week and has commenced to fit up the new hotel, which is intended to be opened up in the old G. H. White home. Improvements being made at the Methodist church will add greatly to the appearance of the edifice and the grounds about it. No appointment has yet been announced to the vacancy at the Sussex station. A widely signed petition was recently forwarded to Ottawa, asking that J. Everett Keith be given the position. The committee having in hand the formation of a Sussex Board of Trade with some of the executive of the old board on Thursday night, and it was decided to hold a public meeting in Medley Memorial Hall on Tuesday night, May 13, to further discuss the matter.

WOMEN'S COUNCIL

The annual meeting of the National Council of Women was brought to a close at Montreal today, Kingston, Ont., was selected as the next place of meeting; the chief officers of the National Council were re-elected and the Duchess of Cornwall and the Countess of Aberdeen were chosen as delegates to represent Canada at the quinquennial meeting of the International Council in Rome next year. Dr. Alex. Johnson of Vinesland, N. J., delivered a lecture on the care of the feeble-minded. When peeling onions hold them under a running, cold tap. This will prevent the eyes from smarting and the fingers from becoming stained.

NO ROOM FOR MILITANTS IN THE UNITED STATES

(Woman's Journal) Mrs. White is afraid that militancy may invade America from England and lead to some prodigious cataclysm hitherto unknown in history. No fear could be more visionary. The equal suffrage movement is world-wide; it is going on actively in every civilized country and in every country but one it is entirely peaceful. Here a minority of opponents in the legislature cannot block equal suffrage throughout a long series of years. If in any state we find that we have not yet converted a majority of the legislature to the justice and expediency of submitting the question, we go to work by peaceful means to elect more friends and defeat more enemies, till we get a majority. When it is submitted, if we find that we have not yet converted a majority of the voters, we again go to work possibly to convert a larger number. And we are getting along so fast and so well by those peaceful means that we have no temptation to resort to others. Full suffrage has been granted to American women in three states and one territory within the last six months. In addition, twelve state legislatures have given majority votes of both houses in favor of its submission to the voters within the past four months—two of them only last week. What inducement is there to resort to violence? If 40 years we had had in the legislature a majority of members who declared themselves in favor of women suffrage but who were elected but afterwards failed to put the measure through, we should be apt to suspect a wholly different proposition. Luckily for us this is not the case. We do not know of a single American suffrage who think that militant methods would be advisable here, nor even of a single English militant who recommends us to try them. Mrs. Pankhurst herself congratulates us upon having no need of them. This country is in no more danger of invasion by militant methods than of an invasion by an army of crocodiles from the banks of the Nile.

AT KING'S, WINDSOR

Windsor, N. S., May 8-A very large gathering of visitors attended the Eccelesia exercises at King's College this afternoon. Thomas Parker, B. A., was the principal speaker and gave an able review of the history of the last four years at King's. Prizes were awarded as follows: The Governor General's Medal, John R. H. Harley, B. A. The Bishop Binney prize—Cuthbert A. Simpson. The Almon Weisford Testimonial—Sidney Jones. The President's prize for general Biblical knowledge—(1st) J. H. A. Holmes; (2nd) D. M. Wiswell. The Crockett prize for Greek—D. M. Wiswell. Rev. H. A. Cady gave the annual oration, which was a masterful discourse on "The Great Wonder Ball of Life." Dr. Powell also gave a capable and inspiring address dealing with "The Philosophy of Life."

MODERN ARMOY FOR SUSSEX

Record—Sussex is to have a modern armory building, which will be built in its heart of the town, provided land can be secured at a reasonable figure. Other ways the building will be located on the camp grounds. The announcement is definitely made by George W. Fowler, M. P., that a start will be made this summer and that the work will be rushed through. The building is intended to serve the interests of local militiamen and will also be used for storage purposes. The building as proposed will be erected on modern lines. It will be 100 feet deep by 72 feet front and will be constructed of brick with stone facings. It is the intention to provide the usual facilities to be found in such a building, but other features of a desirable character will be incorporated. A fully equipped gymnasium will be provided and through it additional interest will be lent to militia life. The plans of the building are now ready and have been approved by the minister, and all that remains to be done is to secure a convenient site.

GEO. W. FOWLER INTERESTED

Sussex Record—A despatch from Calgary announced that Chief Justice Harvey has given judgment in the suit of the Great West Lumber Co. vs. the Northern Crown Bank for \$221,000. The bank was sued for an amount of \$600,000, for which the property of the plaintiff company was sold at a time when it owed \$79,000. The court has ruled that the bank violated section 76 of the bank act and gave judgment accordingly. George W. Fowler, M. P., is largely interested in the suit as one of the plaintiffs. What many need is not wealth, but a kind thought or deed.

WEBSTER'S NEW ILLUSTRATED DICTIONARY COUPON. May 9, 1913. COUPON FOR CONSECUTIVE DATES. CUT OUT THE ABOVE COUPON, WITH FIVE OTHERS OF CONSECUTIVE DATES, AND PRESENT THEM AT THIS OFFICE, WITH THE EXPENSE BOOKS AMOUNT HEREIN SET OPPOSITE ANY STYLE OF DICTIONARY SELECTED (WHICH COVERS THE TERMS OF THE MOST INCLUDING EXPENSE FROM THE FACTORY, CHECKING, CHECK HIRE AND OTHER NECESSARY EXPENSES) AND RECEIVE YOUR CHOICE OF THESE THREE BOOKS: The \$4.00 (Like illustration in the announcements from day to day) WEBSTER'S DICTIONARY. This Dictionary is NOT published by the original publishers Webster's Dictionary or by their successors. Bound in full limp leather, flexible, stamped in gold. Illustrated on back and sides, printed on Bible paper, with red edges. Numerous subjects by monochrome, 16 pages of valuable general contents as described elsewhere there are maps and over 600 subjects beautifully illustrated by three-color process. Numerous subjects by monochrome, 16 pages of valuable charts in two colors, and the latest Census. Present at this office SIX Consecutive Dictionary Coupons and the . . . . . 98c. The \$3.00 It is exactly the same as the \$4.00 book, but in a half leather. Illustrated with square corners. . . . . 81c. The \$2.00 It is in plain cloth binding, stamped in gold and black; but same paper, same illustrations, but all illustrations are in black and white. Illustrated DICTIONARY of the Webster's Consecutive Coupons and the . . . . . 48c. Any Book by Mail, 25c Extra for Postage.

STORIES OF DOGS

Incidents That Would Show Them To Have Reasoning Powers

(London Globe). A remarkable instance of a dog's reasoning powers is given in the "Field" by Mr. W. Carter Platt. The incident occurred some years ago at a sheep dog trial at Otley, of which the writer gives the following account from notes made at the time: "The sheep, which were a trifle wild, broke impetuously away and rushed headlong for a 5 ft. wall which separated the trial ground from the adjoining field. The dog made a great effort to raise them and head them back, but they had too good a start. Over the 5 ft. wall they went like chamois, the dog close at their heels, and all disappeared from view at the other side. We waited for a few seconds, wondering what the sheep were doing to their own discretion, would do. Let us call the point at which the sheep disappeared the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. The sheep limped back into the arena at B, but this time the dog followed them no farther than the top of the wall. The sheep limped quickly succeeded in bringing them back into the ground at B. The third time they stepped the wall and disappeared at A. Yet the dog was in no way discouraged, and he followed them back to the top of the wall. BIRTH. ROMANS—At Bear River, on May 5, to Mr. and Mrs. Walter M. Romas, a son. DEATHS. WHITE—In this city, on May 8, Ella S., beloved wife of Richard E. White, aged 32 years, leaving besides her husband two sons and three daughters, father and mother to mourn. Funeral on Saturday, 10th inst., from the residence of her father, Allan Carson, Military road. She had been ill for several months. She is survived by her husband and five small children. Her father and mother, Mr. and Mrs. Allan Carson, also survive. The funeral will take place on Saturday afternoon from her father's residence. Service at 3:30 o'clock. Mrs. Fleming, wife of Captain R. H. Fleming, laborer, and formerly Miss Catherine Ann Wilson, died yesterday after a lingering illness. Besides her husband she leaves one daughter, Miss Edith, and two sons, Ernest and Fred James, Samuel and Thomas Wilson, of this city, are brothers, and three sisters, Mrs. Thomas Key, of St. John; Mrs. John Murray and Mrs. John Jones, of Moncton, also survive. The death of Mrs. Elizabeth A. Chase, wife of Enoch Chase, occurred yesterday at her home, Sheffield, Sunbury county. She was twice married and is survived by three children by her first husband, one daughter, Mrs. Herbert Worden, of Boston, and two sons, Esakiel, of Manguerville, and William Thorne, of St. John. The death of Mary Jane, wife of Martin White, took place at her home, Little Cape, Westmorland county, on Friday evening at the age of sixty-three years. On Thursday afternoon at the residence of her son, George in Moncton, Huldah, widow of Thomas Vator, died in the 88th year of her age. She leaves two sons and two daughters. The sons are James of Mechanics Settlement, Kings county, and George of the I. C. R., Moncton. The daughters are Mrs. Roland Bannister of Moncton and Mrs. William Bostin of Mechanics Settlement. HON. C. W. ROBINSON'S OFFER. Moncton (Times)—Hon. C. W. Robinson has pledged to give \$50,000 towards the Mount Allison quarter of a million fund provided three other Moncton men will give \$50,000 each. THE STEAMERS. Pickford & Black Line Cruise is expected to sail tonight or tomorrow for the West Indies with general cargo. A CLEANING UP DAY. Sackville and Yarmouth have each decided to have a clean-up day for the town.

Monahan, fine boots and shoes, rubbers, gaiters, etc. Repair work neatly done; 32 Charlotte street. Phone 1823-11. 5-30. WORKING BOOTS. Heavy working boots, made of honest material, outlast the ordinary kind. We manufacture the kind that wear. Steen Bros., 227 Union street. DR. FLEMING. The many friends of Dr. Frank Fleming will be interested to know that he has opened an office at 76 Waterloo street. NOTICE FROM LOCAL UNION 1413. All bench carpenters and machine hands are asked to give St. John a wide berth, as there is a strike on in the factories here. 3176-5-10. LECTURE TONIGHT. The postponed lecture by Rev. Wilford Gaez, 96 "Life on the Labrador," will be given in Zion church tonight. Miss Gaez will sing. Mrs. Kingsley will give a violin solo. DONT FORGET. Tonight is the big night of the St. John Brass Band, 129 Main street; music by Temple of Honor Band; games, amusements and attractions; door prizes every night; admission free. WOODWORKERS. Carpenters and Woodworkers are requested to keep away from Sydney, C.B., pending negotiations with the building contractors for improved conditions. By request of L. U. 108, U. B. of Carpenters and Joiners. H. Gregory, president. 791-11. McCULLUM-CRAFT. An interesting wedding was celebrated on April 30 at the parsonage of Rev. T. J. DePasquale, in Carmarthen street, when he united in marriage James Walter McCullum, of North End, and Miss Ruby B. Craft, of Carleton. They will reside in this city. A CHILD'S DEATH. The many friends of Mr. and Mrs. James Deering, 8 Spigney street, will regret to hear of the death of their infant son, George H., which occurred at his parents' residence this morning after a short illness with whooping cough. The funeral will take place tomorrow afternoon at 2:30 o'clock.

FREE TRIPS. Our next drawing takes place July 1, 1913. Each \$1.00 spent at our Main street or Union street office entitles you to a free chance for our big free return trip or \$40 in gold. Each 25 cents spent for extraction of a tooth or our tooth paste, entitles you to a chance for a free return trip to Boston. Consultations free. Open 9 a.m. until 9 p.m. Boston Dental Parlors 627 Main street, 245 Union street, (Corner Brussels street), Phone 683. DR. J. D. MAHER, Proprietor. Sweet Pea Seed, Nasturtium Tall and Dwarf, Scarlet Runner Beans, Lawn Grass and a general assortment of Garden and Flower Seeds. THE ROYAL PHARMACY 47 King Street. FAREWELL GATHERING. The home of Miss A. M. Bell, in Metcalfe street, last evening was the scene of a pleasant gathering, when the young ladies of the office staff in T. McAvity & Sons', Water street branch, assembled to bid farewell to one of their associates, Miss Grace A. Banks, who will leave next week for Calgary. During the evening there was presented to her a handsome silver mesh bag as a token of remembrance, and those present wished her happiness and success in her new home in the west. An enjoyable time was had in games and music. THE STREET RAILWAY. The city commissioners spent most of this morning in consultation with H. M. Hopper, of the St. John Railway Company, regarding the company's request for permission to lay four additional turnouts in Wentworth street to connect with a new car barn which they wish to erect. The commissioners will visit the site this afternoon before coming to any decision, as it is possible they will want to recommend some change in the location of the catch basins between the rails, and others.

Watches. The Best Quality at a Reasonable Price. Reliability. When you buy a watch it is well to consider the appearance of the case, but a pretty case is not the only thing to think about. The really essential quality which you need in a watch is that it shall be a reliable time-keeper. When you select a watch from our stock you choose one that we know will prove a satisfactory time-piece for we buy only those movements which we know will keep accurate time. The cases are chosen afterwards, come in and select a good movement, and you can have any kind of a case you want put on it. L. L. Sharpe & Son Jewelers and Opticians 21 King Street, St. John, N. B.

A CALL TO LIBERALS

The Liberals in New Brunswick are called upon to organize for a political battle which may come during the summer. It seems highly probable that the naval bill will be thrown out by the senate, in which case Mr. Borden, if he keeps the pledge which he made, will go to the country.

BIRTHDAYS OF NOTABILITIES

FRIDAY, MAY NINTH. D. W. Robb, head of the Robb Engineering Works, Amherst, was born at Amherst fifty-seven years ago today. He is one of the principal manufacturers of the dominion.

LIGHTER VEIN

The schoolmaster at a certain village school asked the following question: "Suppose in a family there are five children, and mother has only four potatoes between them. Now she wants to give every child an equal share. What is she going to do?"

Going Fishing?

Next to the trip itself—comes the fun of getting ready. That's where we come in. When you begin to get your traps in order we want you to see our stock of some of the things you'll want.

FISHING RODS OF LANCEWOOD, SPLIT BAMBOO AND STEEL. The Bamboo Rods \$1.20 to \$7.50. The Lancewood Rods 3.50 to 4.50. The Greenheart Rods 3.75 to 5.00. The Steel Rods 1.50 to 6.00.

**LONDON'S NEW FASHION CENTRE**  
 Westminster is Threatening The Popularity of May Fair  
**HUSBANDS FOR PRINCESSES**  
 Two Daughters of Duchess of Devonshire Have Reached Marriageable Age—The Canadian Governor-Generalship—News of Canadians

(Times' Special Correspondence)  
 London, April 26—London's fashionable acre, known as Mayfair, is threatened with a most serious rival in popularity by the larger, more spacious and more beautiful Westminster, wherein are some of London's most ancient historical associations. Curiously enough, it is the ubiquitous motor-car that has been partly responsible for this.

The presence of many motore means noise and vibration, to say nothing of smell, and to avoid these nuisances, people have been driven to find quiet-places in some of London's less frequented backwaters of traffic, for the tendency of the age is to make the town house more and more a temporary affair. What people want nowadays is some house that is near their business or their pleasure, and another out in the country within five miles of the first tee or their pet golf course, and somebody discovered that Westminster filled the first bill to perfection. This somebody is now known to be Mrs. Reginald McKenna, the pretty young wife of the much maligned and unfortunate minister of the treasury.

When Mrs. McKenna came to examine the district, it soon displayed undoubted advantages. Houses built many years ago, and falling in depth of boarding, some even to the indignity of leasehold, were found on close inspection to be well and substantially built, and capable of being made into really comfortable mansions. Many of them have a distinct Georgian character that makes for comfort. They have deep window seats and handsome paneled walls, not to be found in the modern house—great assets in the hands of a clever housewife and hostess.

One street in particular which long had the reputation of being a dangerous slum, where one went at the risk of one's life after dark, has now been modernized and cleaned up into a spot and span thoroughfare with well-to-do residential houses. In a great many cases two houses have been turned into one, and this has just been done in Catherine street, for Mr. and Lady Agnes Peel, the result being a beautiful and commodious town house where they can entertain more than 100 people without the least crush. Lady Agnes is the half-sister of the handsome Lord Beauchamp, and her husband is the younger son of the late Viscount Peel, a former speaker of the House of Commons. Mr. Beauchamp's wife occupies another of these houses, and indeed the district is eagerly explored by members of parliament, and conveniently situated for "the House."

**Husbands For Princesses**  
 Great efforts will be made this season by the king and queen to find suitable husbands for the Duchess of Devonshire's daughter, Princess Maud, who, by the bye, has recently celebrated her twentieth birthday. The Princess Royal, who is now at law in the royal household, the Princess Royal wants her daughters settled—especially the Princess Maud, who is now at law in the royal household, the Princess Royal wants her daughters settled—especially the Princess Maud, who is now at law in the royal household, the Princess Royal wants her daughters settled—especially the Princess Maud, who is now at law in the royal household.

**Rush Sale of Suede and Leather Shopping Bags**  
 Commencing Saturday Morning

**MANCHESTER ROBERTSON ALLISON, LIMITED.**

moner, thereby setting an example of democratic simplicity for Canada. Miss C. De Thierry boldly states the case for the peer or rather for his wife in an article "English women and the social side of imperialism." Her views are generally supported by those who have mingled and taken part in that side of the social life of London which centres around the "Overseas set" and have observed the natural nervousness on entering into a strange social circle give place under the influence of English titled hostesses to a feeling of being perfectly at home.

"How intimately society and politics are associated," she says, "no society woman needs to be told. Who has not heard of colonial who have arrived in England rabiid particularists and returned home imperialists; of Boers who came amongst us burning with race feeling and left us warm friends; of French-Canadians who landed here without a thought beyond their own province and went back citizens of the empire? They had been capital, a form of education D'Israeli considered essential to the statesman. In nothing did D'Israeli reveal his insight into men and things more clearly than in the precedent he set by appointing the representatives of the crown in the dominions from the peerage. The idea underlying it is that the old land sends to the new the most finished embodiment of all those institutions which do not bear transplanting, in order that their seeds may be sown overseas, and nourished until they bring forth fruit after their kind.

"It is a great mistake to suppose that the colonies—we must use the word till a better is coined—suffer from the disadvantages of birth and rank, but what he will not do is to pay homage to them as rank. To impress him they must be associated with ability, virtue, sympathy and high breeding. Her Excellency is the first lady in the land overseas by a right as unquestioned as the queens in England. The secret of Her Excellency's strength is the example she sets of giving personal service to the community.

She obeys the call of duty in leaving her home and friends, a crowded and vivid life in the very centre of the world's activities, and sometimes one or more of her children, to fill a place in a distant land in which her social relations must be largely formal.

It must be exile to her, and the people with whom her lot is cast are quick to know and respect the sacrifice. When, as is almost invariably the case, she finds pleasure in the new life and makes many friends she is rendered homage in general and whole-hearted devotion. For then she must add to social graces, fine qualities of head and heart. The imperial influence of an English lady who presides over thirty years of age, Lord Brooke has had an extensive military experience. He served in the South African war, and followed the Russo-Japanese war, though not as a combatant. He raised and commanded the Warwickshire Horse Artillery Territorial regiment, and naturally belongs to the Guards.

(Continued on page 8, sixth column.)

ONE OF GREATEST POLITICAL GATHERINGS EVER HELD IN CANADA; THE LAURIER MEETING IN TORY TORONTO

This shows but a small section of the multitude that assembled in Toronto on Monday night to hear Sir Wilfrid Laurier's exposition of the Liberal policy on naval defence. The flashlight discloses the dias on which Sir Wilfrid is standing. The rally was probably the most stirring and greatest in magnitude ever accorded a public man in Canada.

THE GAG TOMORROW

Ottawa, May 8.—In answer to Mr. Borden's motion in the house this afternoon, Premier Laurier said that by tomorrow he hoped to have dealt with the final clauses of the naval bill. He wanted to know if the opposition would consent to pass the bill at any time they might declare, but cries of "no, no" and "after an election" were the only responses given. Mr. Borden admitted that his course was unusual, but said he would allow the Liberals until 2 a.m. Saturday.

Mr. Borden said that the government was placing Canada in a ridiculous position. It was clear that the intention was to adjourn all clauses in the naval bill, then join them all through without discussion, revision or amendment. The speaker said that the clauses should be considered in numerical order, and clauses 4 and 5 should not be disposed of before clauses 2 and 3 are determined, as was proposed by Premier Borden. That would be a national joke, said Mr. Borden.

Hon. Mr. Graham moved that the consideration of clause 2 be resumed and that discussion of clause 4 be postponed, but the deputy speaker, Mr. Borden, would allow no debate, and the faithful benches from the government benches confirmed his decision by a vote of 94 to 53. In the senate Senator Taylor moved the second reading of a bill to regulate cold storage. He said that cold storage had helped the producers, and in some cases the consumers, but it was generally the opinion that the latter class had been compelled to pay more for their products through its being instituted. Sir George Ross and Senator Coffey commended the bill. It was referred to a committee.

The government's bill to regulate wireless telegraphy was also given a second hearing, on motion of Senator Loughheed. He also moved the second reading of the bill voting \$3,000,000 for agricultural education. The motion was passed and the committee stage fixed for next Monday.

WILL WED MAINE MAN.—The Brewer, Me., correspondent of the Bangor Commercial writes—Mr. and Mrs. Robert Murray of Chatham, N. B., announce the engagement of their daughter, Miss Nina Helen Murray to Royce Wilmont Braslow, of South Brewer. The marriage is, it is understood, will take place in June.

CAUGHT BIG TROUT.—Fifteen trout which weighed in the aggregate fifty-four pounds were recently caught by two Canterbury men at Killbuck Falls at the head of the Shogomoc stream.

A Lazy Liver

Upsets the Whole System. Dr. Morse's Indian Root Pills Put Things Right Again.

A bitter taste in the mouth—coated tongue—dizziness on rising—acid—bowels alternately loose and constipated—these mean that the liver is out of order. Instead of flowing into the bowels, to regulate them and aid digestion, the bile has been going all through the system, upsetting digestion, leaving the stomach and bowels and making the sufferer perfectly miserable. This is biliousness.

The quick, safe and certain cure is Dr. Morse's Indian Root Pills. They clear out the clogged-up system, stir up the lazy liver, cleanse the stomach and bowels and purify the blood. The bile returns to its normal course, the food is again digested properly and all the disagreeable symptoms vanish. Doctors prescribe Dr. Morse's Indian Root Pills and they are known throughout the world as a proven cure for all digestive troubles. They are equally effective in strengthening weak kidneys and curing rheumatism.

Made by W. H. Comstock Co., Ltd., Brockville, Ont., and sold by all dealers at 15c a box.

ONE OF THE PEOPLE'S CHAMPIONS

Dr. Michael Clarke, one of the fighting Liberals, who spoke at the recent monster political meeting in Toronto.

Weddall received an invitation from the quarterly board of the Methodist church at St. Andrews to take charge of the church there for the coming year.

Calgary, May 8.—A blanket of snow covers a large proportion of the seeded area of southern Alberta. For forty-eight hours snow has been falling steadily, deferring the opening of the baseball season, but hastening the crop of next fall.

MORNING LOCALS

The legal firm of Tait, McLean and Rive has been dissolved, and the firm hereafter will carry on business under the name of McLean and Rive.

About fifteen motorcycle owners in the city met last evening in the Goodyear Tire and Rubber Company's office and formed the St. John Motor Cycle Club.

The setting off of fire-crackers caused A. C. Monro's horse to run away in Main street yesterday afternoon. The wagon collided with a telegraph pole and considerable damage was done to the wagon.

William Walsh and Harry Ramage, of this city, will receive their B. A. degree at St. Francis Xavier College on next Tuesday afternoon.

It is reported that the St. John Railway Company intends to convert the Seaside Park line into a loop running from St. John street extension to the junction with the Duck Cove Road, thence to Lewis's Corner, where it will rejoin the line along Lancaster avenue.

When William Downie, general superintendent of the Atlantic Division of the C. P. R., accompanied by Mrs. Downie, left last evening for Vancouver, they found their private car beautifully decorated with festoons and wreaths of roses, daffodils, carnations and greenery and many bou-

Many Weak Right Hand Hitters Successful by Changing Hands

By TOM ANDREWS

It has been said many times that baseball players who try to increase their batting by changing from right to left hand usually make a failure of it. However, there are many cases where this does not hold good.

Take the case of "Midget" Reilly of the Indianapolis team. The little fellow was a right hand batter originally, but last year took up the port side style and did fairly well. This spring Mike Kelley, manager of the Hoosiers, encouraged Reilly in his change and coached him when the change offered and at the present time the young right fielder is leading the American association in hitting with an average near the 500 mark. Reilly says the change has benefited him greatly and he can beat bunts where he could not do so hitting right-handed.

Look at Miller Higgins, manager of the St. Louis team. When Miller was playing second base for the St. Paul team under Mike Kelley he was a right-hand hitter, but later tried his luck at the left side and with the greatest success. He batted above .300, something he had never been able to do as a right hand hitter.

Bob Hoehler, a great fielder of the Cincinnati team, was a right hand batter and changed to the port side to try and better his hitting, with the result that today he is one of the stars of the game and is hitting excellently.

Lee Magee, of the St. Louis Nationals, one of the star infielders, was originally a right hand hitter, but switched around and is now considered a regular 300 man.

Harry Hinchman, a St. Paul infielder, was a right hand hitter until induced to try the other side, and since that time has been a big success as a hitter, rivaling his brother Bill. Harry attributes the increase entirely to the change in hitting.

Billy Clingman, who managed the Milwaukee team in 1902, was a right hand hitter when he was with the Pittsburgh club, but the year he joined Milwaukee he took the nearest point toward first base entirely, and that season batted above .300, something he had never done before. Clingman always hit well after that.

Connie Mack, manager of the Philadelphia Athletics, has always been a great hand at changing young hitters around from right to left, especially if they are fast footed. There are dozens of others in the big leagues who might be mentioned who have made a success of hitting by changing, but these few are given only to show that the change can be made with success.

IT LOOKS ALL RIGHT FOR THE GAME IN BANGOR

Bangor Commercial.—With more than \$700 subscribed towards the \$1,000 necessary to start the baseball season in Bangor, the prospects for the local club looked decidedly brighter Wednesday. F. J. Leonard said in the afternoon that the interest was increasing and with the assistance of A. L. Pooler, a local business

man, who is going about with him among the business men, he hopes to have the entire amount subscribed by Thursday night. "After we get \$800 subscribed the remaining \$200 is going to be easy," he said, "and with the way the money is coming in now, I have every reason to believe that we will have no difficulty, whatever, in reaching that mark. There are a few that are skeptical, but with Mr. Pooler's assistance excellent progress is being made."

Joseph H. Page, a Montreal baseball man, who has been in the city the last two days has talked with local fans, explaining to them the plans of the Maine and New Brunswick league and giving them considerable confidence in the proposition.

Mr. Page, by the way, is the inventor of a baseball game that is really about as fascinating a thing in the way of games as can be imagined. It all offers a very liberal education in the national game.

MORNING NEWS OVER THE WIRES

The second jury in the case of Horner man of Steeves Mountain, Westmorland county, charged with incest, failed to agree yesterday.

The Underwood tariff bill was passed in congress at Washington yesterday by a vote of 281 to 139. Five Democrats voted against the bill, as did fourteen Progressives, while four Progressives and two Republicans voted for it. It now goes to the senate, where there will be a hard fight.

An action brought fifty years ago in New York was settled yesterday. The plaintiff, Charles L. Appleby, demanded damages from the city for injury to his property at the corner of Eleventh avenue and Forty-first street during the civil war. He claimed \$2,340 and interest, which would have brought the amount up to \$42,000. Through a compromise the original claim was allowed. The plaintiff is now eighty-eight years old.

LONDON'S NEW FASHIONS CENTRE

(Continued from page 5)

Mrs. Alec Tweedie has returned from Canada and is enthusiastically conveying to her many friends descriptions of the glories of the dominion. She will add to her many publications, one dealing with her experiences in Canada, in the near future.

Dr. J. O. and Mrs. Orr, of Toronto, have arrived in London from Paris, and will return to Canada via New York on the "Hull" on May 1. Dr. Orr is very busy in connection with the Canadian National Exhibition, and will, I understand, present many surprises, one particularly of a naval character, at this year's exhibition.

DOWAGER.

PLEASED WITH FUSILIERS

An unofficial inspection of the 62nd Regt. St. John Fusiliers was made last evening by Major-General W. H. Cotton, attended by Colonel R. B. Rutherford, of Halifax, and Lieutenant Colonel Howard, of Ottawa. Major-General Cotton said afterwards that he was very much pleased with the showing made by the men.

Hair Falling?

Then stop it! Stop it now! You can do it with Ayer's Hair Vigor. Does not color the hair. Ask Your Doctor.

Women are the great buyers of articles for the home—especially the toilet. But when men—America's busy men—trouble themselves to buy Pebecco Tooth Paste we can well afford to learn the "reason why." (It's a fact—Pebecco is introduced into homes chiefly by men.)

But why? Are men quicker to see the true significance and danger of "acid-mouth"—the first to understand the value of the acid-mouth test?

Wife and children are always ready "to be shown"—are quick to grasp the simple truth that the cause of nearly all tooth decay is acid-mouth—are quick to know that Pebecco Tooth Paste absolutely prevents acid-mouth.

Enjoy Pebecco? Everyone delights in the purifying, really refreshing sensation that it gives.

# POPULAR SUBSCRIPTION FOR THE LIBERAL CAUSE; AN APPEAL TO THE WHOLE PARTY

TO THE LIBERALS OF NEW BRUNSWICK:

Efficient organization is the keystone of success in business or politics. The recognition of this fact and the request to their supporters to join in sharing the necessary expense brought success to the Democratic leaders and their party in the United States Presidential elections last year. The funds for legitimate party purposes, such as organization, printing, publicity and travelling expenses, were raised by a popular subscription.

The Liberals of New Brunswick are in need of more thorough organization of committee work, and wider distribution of party literature, for which purposes a considerable sum of money will be required. We believe all loyal supporters of the party will be ready and willing to subscribe to such a fund, and we ask them to do so.

The Liberals are today fighting in the House of Commons for free speech and the people's liberties. We do not know how soon they may be called upon to struggle for their rights at the polls.

We must be ready. The Liberal party must be ready and the only way to be prepared is to organize.

In asking the financial assistance of Liberals for that purpose we are inviting every member of the party to co-operate and stand shoulder to shoulder with us in this memorable struggle. We neither expect nor desire assistance from the trusts, or wealthy corporations, whose interests may clash with the interests of the common people, and this appeal is therefore made to the masses of the electorate, who desire to maintain the rights of the people. It is far more desirable in the interests of the party that the subscriptions should be general, coming from every parish in the province, in other words, that there should be a large number of subscribers for small amounts rather than a small number of subscribers for large amounts.

Subscriptions for any amount from one dollar and upwards will be received by those in the different polling districts in the parishes who are authorized to do so, as well as by the County Treasurers, who will forward all amounts they receive directly, as well as those from parish collectors, to the Provincial Treasurer who will acknowledge the same.

The funds collected will be expended under the direction of the undersigned Provincial Committee representing the Liberal members from New Brunswick in the House of Commons, and subject to the audit of Henry E. Hill, of St. Stephen.

## DUBLIN LETTER

George Bernard Shaw Labels The Liffey - Controversy Over Art Gallery Site

(Times' Special Correspondence)

Dublin, April 26.—George Bernard Shaw, famous Irish playwright and critic of every thing, has been expressing his caustic tongue on Dublin, in general, and particularly on the Liffey, in a letter to the Liffey Corporation which is to be published in the Liffey Review. Shaw has been stirred up—not that he ever requires much incentive to make him talk—but by the controversy over the new art gallery which is to be erected by the corporation to house the magnificent collection of pictures presented to Dublin by Sir Hugh Lane. The corporation has accepted the collection and undertaken to provide a site and an endowment for its upkeep, while the citizens by popular subscription are providing the money for the erection of the gallery. The trouble is all over where that gallery is to be. The corporation and the citizens favor either a site in Merrion Square or near the Mansion House, but Sir Hugh Lane has set his heart on the erection of the gallery on what is known as the "Iron Bridge" over the Liffey. The Iron Bridge is an unsightly structure enough and any thing that might be done to it would im-

prove it, but one of the principal objections to the art gallery project is that the erection of a large building on the bridge would spoil the magnificent view from O'Connell Bridge. Another is that the pictures might suffer from damp and that in case of fire they would be in much greater danger than if they were housed ashore. Sir Hugh Lane, however, is convinced of the romantic idea of an art gallery over Dublin's river and another of his arguments is that the bridge is adjacent to the slums and that the gallery there would be available for the poor much more easily than if it were situated on either of the other suggested sites.

Now Shaw, who has been visiting Dublin, comes forward with another objection, and that is that nothing less than the snail of the Liffey. Some years ago this objection would have been well founded, but the Liffey of today is not the Liffey of the time when Shaw lived in Dublin. Drainage and sanitation schemes have almost completely purified it, and while even the most enthusiastic Dubliner would hardly advocate the establishment of a bathing resort on its banks, it is hardly fair to say that it is so offensive now as to prevent art lovers enjoying the pictures in a gallery over its waters. Shaw, however, thinks otherwise. When he was told the other day that Sir Hugh Lane favored the bridge site he asked: "Has Sir Hugh Lane ever smelt the Liffey?" And when it was explained to him that the Liffey is not what it was he replied: "Pardon me, I crossed the river yesterday. The smell may be dead, but either its death has been followed by decomposition, or its ghost has not yet been laid—for it assailed my nose as violently as ever."

## Constipation and Headache CURED BY Burdock Blood Bitters.

Various kinds of headache exist; for example, nervous, bilious, congestive, and sick headache, headache from constipation or dyspepsia, periodical headache, etc. In all cases of headache the treatment should be directed to remove the cause, and with the cause removed the headache vanishes for all time. It is impossible to find a better remedy for headache of every description than is Burdock Blood Bitters, acting as it does on every organ of the body to purify, strengthen and regulate the whole system.

Miss May Bourdage, New Richmond, N. B., writes:—"For years I was troubled with sick headache, and dizziness, and was also constipated. I was advised to take Burdock Blood Bitters, and I only took three bottles when I felt like a new person. I can recommend it to anyone who suffers the same as I did."

Burdock Blood Bitters has been on the market for over thirty-five years, and is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## Save Your Health BEECHAM'S PILLS

Most sicknesses that impair health have their start in quite ordinary ailments of the organs of digestion or elimination. Stomach, liver, kidneys, and bowels are quickly benefited by the action of BEECHAM'S PILLS.

Electric Restorer for Men Phosphonal restores every nerve in the body to its proper tension; restores vitality; prevents decay and all general weakness asserted as such. Phosphonal will make you a new man. Price \$1.50 per box. Mailed to any address. The Beecham Drug Co., St. Catharines, Ont.

## MURDER CHARGE

Coroner's Jury Inquiry Into Death of A. P. Monahan by Poisoning

Lewiston, Me., May 8.—The coroner's inquest upon the death of Albert P. Monahan of Malden, Mass., who died in this city on last Thursday, after drinking something supposed to contain poison, was held in secret, Coroner Gilbert presiding and County Attorney Hines representing the state.

It is understood that the report of Professor Cram of Bowdoin upon the analysis of the stomach showed the presence of hydrocyanic acid. He also reported the finding of cyanide of potassium in a jar of liquid in which it is alleged that Perley Sawyer washed out a towel through which he strained the whiskey which Monahan drank.

The verdict of the jury was: "That Albert P. Monahan died of the effects of drinking whiskey containing cyanide of potassium given him by Perley F. Sawyer of North Augusta." Sawyer will be arraigned on the charge of murder. Sawyer has retained Frank A. Morby as counsel. The witnesses called at the inquest were Dr. William L. Haskell, state medical examiner; Dr. H. E. Stevens of this city, who assisted in the autopsy; Sgt. Shirley Chapman of the United States Army, with whom Monahan had enlisted; Private Alex Johnson of the recruiting office; Dr. E. S. Cummings, who attended Monahan after he drank the whiskey; Elton H. Timberlake, in whose store Monahan and Sawyer were employed; Asa Fisher, a clerk in the store; Alfred Dussault, a druggist, who says he sold Sawyer cyanide of potassium; City Marshal McCarron and Deputy Marshal Davis.

## Drowned Trying to Save Dog

London, May 8.—Alice Maud Meadows, the novelist, was accidentally drowned at Redhill, a few miles from London, while attempting to rescue her dog, which had fallen into the water.

She began to write when she was fourteen years of age. Her publications include "The Invention of Miracles," "An Innocent Sinner," and "The Moth and the Flame."

## Municipal Milk Depot For Calgary

Calgary, Alberta, May 8.—The establishment of a municipal milk depot is expected to be the next step which Calgary will take along the lines of public ownership. While the infant mortality in Calgary dur-

## Had Rheumatism

WAS CONFINED TO HIS BED FOR FOUR MONTHS.

Mr. W. H. Riley, Ruddell, Sask., writes:—"It is with the greatest pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so laid with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Kidney Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who suffers then would not know the joy of Doan's Kidney Pills and active signs taking your valuable medicine."

Rheumatism is caused by the presence in the blood of uric acid, and the kidneys not working properly is the sole cause of it, and unless you remove the acid by flushing the kidneys, there is no possible chance of getting rid of rheumatism. Doan's Kidney Pills help the kidneys to flush out the acid and poisonous impurities which have collected, and clean out the kidneys, and dispel the rheumatism from the system.

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. In ordering direct, specify "Doan's."

## MOST SICKNESS COMES FROM WEAK, INACTIVE KIDNEYS

Recent Reports Show Hundreds Suffer With Kidney Troubles and Don't Know It

There are scores of nervous, tired, run-down people throughout the city, suffering with pains in the back and sides, dizzy spells, weakness of the bladder (frequently raising annoyance at night), who fail to realize the seriousness of their troubles until such conditions as chronic rheumatism, bladder troubles, drowsy, diabetes or even Bright's disease result. All this is due to weak, inactive kidneys. The kidneys are the filters of the blood, and no one can be well and healthy unless the kidneys work properly. It is even more important than that the bowels move regularly. If you suffer with such symptoms don't neglect yourself another day, and run the risk of serious complications. Secure an original package of the new discovery, Croxone, which costs but a trifle, and commence its use at once. When you have taken a few doses, you will be surprised how differently you will feel. Croxone cures the worst cases of kidney, bladder, uronic, and rheumatism, because it removes the cause. It cleans out the kidneys, and makes them filter out all the poisonous waste matter and uric acid, last lodge in the joints and muscles, causing rheumatism, sciatica, and weak the bladder, and quickly relieves you of all your misery. You will find Croxone different from all other remedies. It matters not how old you are or how long you have suffered, it is so prepared that it is practically impossible to take it into the human system without results. An original package of Croxone costs but a trifle, and all druggists are authorized to return the purchase price if it fails to give the desired results the very first time you use it.

ing the summer months has never been great, the city is now growing at such a rate that a hot summer with an indifferent milk supply might result in the death of a large number of little ones.

For this reason Dr. Stanley Mahood, the medical health officer, has decided to establish such a depot if he can get the city council to coincide with his opinion.

## Strangest Lake in the World

Near Lorzach, in the Black Forest, is the strangest lake in the world. It is called the Eichenher See, and is perfectly dry for from ten to thirteen years at a time, after which periods subterranean springs refill the lake without any previous warning, flooding and destroying any crops that have been planted.

The soil in the bed of the lake is very productive, but the farmers and peasants never know in what year their work will be useless and their crops "drowned." A few weeks ago the Eichenher See, after having been dry for the last ten

years, began refilling with water, which in the deepest part is now 15 feet, and the average depth being 12 feet. The water of the lake generally remains a year or so on earth, leaving a rich soil behind.

**Mental Exhaustion**

School children feel the pressure of examinations and the strain of long evenings passed in study. Growing boys and girls are already predisposed to weakness and the additional effort caused by arduous studies often wrecks the nervous system.

The use of a good reconstituent such as **VIN ST. MICHEL** is imperative in all such cases. BECAUSE—it forms rich, red blood without which perfect health is impossible—it quickens the cerebral action, brightens and increases all faculties—it imparts energy and a capacity for superior effort. Medical authorities prescribe Vin St. Michel in such cases, confident that by its use an entirely new and superior race will be created.

Vin St. Michel should be taken in doses of a wineglassful before meals and whenever the need of a tonic is felt. SOLD EVERYWHERE.

FOOLHARDY MEN TO PLAY WITH DEATH

Two Plan Attempt to Shoot Mighty Falls of Spokane River

Spokane, Wash., May 9.—Competition among daredevils is growing keen, as evidenced by proposals made by two of the fiercest fraternity to shoot the mighty falls of the Spokane river early next month.

Only once before has the feat been proposed, about ten years ago, and the police refused to permit the attempt. The river winds through a rocky gorge in the heart of the city, and has two abrupt drops totalling 150 feet in a distance of 300 yards. Always a foaming cataract, the waters at this time are greatly swollen by the melting snows, causing spray to ascend 100 feet.

A. C. Garside offers to shoot the falls in a specially constructed double-ribbed aluminum boat. He said he would enclose himself in a cocoon-shaped revolving case. Claude Sherwood, a mill worker of Bridgeport, Wash., has placed \$1,000 as a guarantee that he would make the dangerous trip in a specially-constructed boat in which he would be visible from beginning to end of the cruise, barring only those moments when the waters might engulf him temporarily.

The propositions will be accepted and two attempts to accomplish a feat never before essayed by man will be made in one day, probably June 16.

Building Futures

During the growing period young people must have food containing the right kind of nourishment, not only to repair the everyday wear and tear of play and study, but for building the growing body into sturdy manhood and comely womanhood.

This means double duty, and mothers must pay heed to the children's diet.

A regular morning dish of

Grape-Nuts and cream

helps wonderfully in developing youthful strength of mind and muscle because this food contains the true brain and body making essentials required by Nature.

Grape-Nuts food—made from choice wheat and malted barley—is rich in the vital grain phosphate, especially required for nourishing the child's rapidly developing brain and nerves.

The crisp golden granules have a delicate sweet taste and, being easily and quickly digested, are readily acceptable to the most sensitive stomach—making a most appetizing breakfast for both young and old.

"There's a Reason" for Grape-Nuts

Sold by grocers everywhere.

Made by Canadian Postum Cereal Co., Ltd., Windsor, Ont.

A CHANCE FOR YOU TO HELP

Tag Day Tomorrow for These Little Ones.

The free kindergarten of this city are doing a fine work among the smaller children from those homes unable to send their children to day-schools of this kind.

They are teaching foreign children their first lessons in the proper use of English; teaching courtesy, handwork, deportment and punctuality. This movement is kept alive and active by self-sacrificing ladies and a corps of diligent teachers.

Tag day—such as tomorrow—is one of the biggest sources of income for the work.

IT'S THE COMING DOWN THAT HURTS

Joseph Brucker, Editor and Birdman, Wants Balloon Trip Over The Atlantic, But is Cautious

It isn't the going up into the air, loosely and somewhat unscientifically, through the medium of a few lumps of gas that disturbs the balloonist—it's the coming down. If some means could be invented that would ease one down so that the jolt of hitting the earth would be absorbed, there'd be nothing to it.

And that is why Joseph Brucker is taking his German-American time about making a trip across the Atlantic ocean in his dirigible balloon "Sachal II." Brucker is not at all troubled about going up, but he realizes the discouragement of coming down on the friendless ocean wave when there is nobody around. Wrapping your hopes and a few square feet of hydrogen gas in the frail covering of silk and rubber is in the nature of a gamble, at most, and Brucker can probably be pardoned for taking all the precautions possible to make his stay in the air as permanent as he wants it to be.

And there are few people who have better qualifications for taking a trip in an airship than Mr. Brucker. Leaving entirely out of consideration the fact that most of his training was secured conducting German newspapers in the United States—one might point out that Brucker also knows all there is to know about dirigible balloons, theoretically and practically.

Joseph Brucker came into the world at Ischl, Austria. He is one of those internationally educated persons who started to learn his way through the world by a course in the schools of his native country, shipping to Belgium for a litte secondary instruction, graduating later from at Vienna university and traveling to America for a post-graduate course.

Chicago, Milwaukee, St. Louis and New York were the scenes of his activities. He conducted German newspapers or worked on them in all of those cities for thirty years. He was a member at large of the State Republican Committee of Illinois and served as commissioner to Germany for the St. Louis World's Fair.

A few years ago he went to Berlin as the representative of a commercial house and at the same time was made managing director of the German-American club.

Joseph Brucker

in the Kaiser's capital which are organized for the purpose of promoting good relations between the United States and Germany. He has always been interested in balloons and he secured capital in Europe for his proposition to cross the Atlantic just before Wellman made his attempt.

Nerves on Edge Every Sound Annoys

Weak, worn-out nerves keep on in a constant state of irritability and excitement, the eyes are sensitive to light, and every noise jars on the overworked nerves. If children are about they are a constant source of annoyance and irritation. Every door seems to slam, and a little extra excitement or exertion leads to wakeful nights, nervous headache or indigestion.

In this condition women are likely to be hysterical, and suffer greatly at regular periods. The nerves must be nourished back to vigor by such treatment as Dr. Chase's Nerve Food. Being gentle and natural in action, this food cure is highly

prized by women, and used with most remarkable results in building up the broken-down nerve cells. In a few days after beginning this treatment you will find yourself resting and sleeping naturally and taking your food with a greater relish. As vigor is restored to the system it will be apparent in improved complexion and building up of the tissues of the body.

With the nerve revitalized the organs of the body resume their natural functions, and weakness and disease give way to new hope and confidence, new vigor and health.

Dr. Chase's Nerve Food

worry and regret. They're about as near the country as the most of us will get.

In connection with the great celebration to be held at the Crystal, London, on Dominion Day, under the auspices of the Imperial Choir, of which Lord Strathcona is president, when 6,000 voices will unite in a grand patriotic demonstration, a visit is to be paid to England by the famous national chorus of Toronto.

Dr. Oster Tells Yale Men How to Live

Speaking before a Yale University religious meeting recently, Sir William Osler, of London expounded his "way of life."

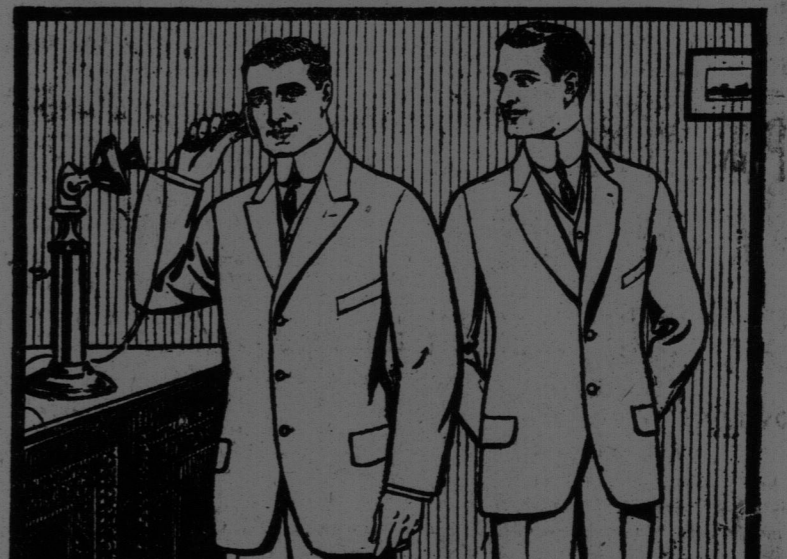

"Forget the past and the future, live in strict compartment; make the limit of your life the 24 hours of the day and live earnestly and you will have a lifetime that will insure you against all morbid thoughts," he said.

"The control of the mind as a working machine is the end of all education. This can be accomplished with deliberation, too. Quit tobacco and liquor and stop romping with the younger Aphrodite.

"The first two hours of the day determine that day, and those two hours will be lost if you are as bleary-eyed as a fish in the morning because you have been indulging freely in wine, woman and song the night before."

When Elden Herriman of Seaport, Me., opened a beehive, this spring he found that the queen been laid dead and that the other bees had stood her up straight on the bottom of the hive and had built a wall of wax around her. All the bees had left the hive.

PORT NEWS OF A DAY, HOME AND ABROAD

OWLING
On Black's Alley.
Two men matches on Black's alley were particularly interesting. Black and Mor won from Jordan and Cosman and Ilvan and Armstrong took all six points on Masters and Sullivan. The details are as follows:
Total Ave.
Black 88 90 90 111 98 413 94.5
Mor 81 89 92 84 87 433 86.5
Jordan 167 179 183 195 182 906
Cosman 86 89 89 83 83 416 83.5
Ilvan 97 93 91 92 84 457 91.5
Armstrong 183 192 171 187 190 873
Masters 80 76 78 86 79 394 78.4
Sullivan 75 72 69 72 71 359 71.4
Hawley 153 148 142 158 150 753
Payne 78 93 81 76 80 408 81.3
Duggan 65 62 55 60 51 283 66.5
Hawley 143 145 136 136 131 691
The matches tonight are: Foshay and Ward vs. Black and Gilmore; Harry Sloum vs. Cogrove and Harley; Beebe and McLeod vs. Cogrove and Harley.

THE TURF

Frederick Races.
Glennier—Seven to enter and five to start will be the protective conditions that the Frederick Park Association will incorporate in their announcement of the midsummer race meeting on June 30 and July 1. The Gallagher horses which were to have been sent here from Woodstock to be trained will undergo their course of sprouts at Houlton track instead.

BASEBALL

Cubs Defeated Stars.
The Stars went down to defeat before the Cubs in an interesting baseball game last evening by the score of 8 to 2. The game was played on the Orange street diamond. The batteries were for the winners Massey and Cox, for the losers H. Lawson and McFarty.

Stovall's Case.

George Stovall, deposed as manager of the St. Louis American League team and definitely suspended as a player by Ban D. Johnson, president of the league, as a result of Stovall's attack on Umpire Ferguson, may get permission to play again this season and also may be reinstated in his managerial berth, according to Mr. Johnson.

White Knight's Case.

The White Knight was one of the great stayers of the last decade. He ran unopposed in the memorable Derby won by Sparrows in 1906, but his subsequent triumphs included the Ascot Gold Cup twice, the Goodwood Cup, and the Coronation Cup at Epsom. One of his best performances was in the Cesarewitch of 1907, when, carrying the heavy burden of nine stone, 12 pounds, he ran second to William Clark's Demure.

Guinness is the latest candidate, and he will meet Con Clacken in a 10-round go.

Guinness is the latest candidate, and he will meet Con Clacken in a 10-round go. Jim Flynn, Pueblo fireman, and Jim Coffey, "Dublin Giant," have been matched to meet in a 10-round bout at the Garden A. C., New York, on May 23.

**LOCAL NEWS**  
**A. P. HAZEN, BANK MANAGER, DEAD**

**End Came at Early Hour This Morning**

**PROMINENT IN FINANCE**

**Had Risen to Second Position in Canada in Service of the Bank of British North America—But Few Weeks Ago Wife Passed Away**

Although unfavorable reports of his condition during the last few days had somewhat prepared his friends for the worst, the news of the death of Arthur P. Hazen, which occurred at 4:25 o'clock this morning at the home of his mother, Mrs. William Hazen, City road, will come as a great shock to all his numerous friends.

By his death at the age of forty-four years, a brilliant career has been cut short. Although still a young man Mr. Hazen had attained the office second in importance throughout the domain of the Bank of British North America, and had lived, there was no doubt that the future would have brought him greater things for one of his marked ability.

Mr. Hazen returned to the city from Montreal only about three weeks ago with the body of his wife, formerly Miss Agnes Isabel Blizard, of St. John, who had died a day or two before, and soon after her funeral he was himself confined to the house. For a few days it was not thought that his illness was of a serious nature, but about a week ago his condition began to cause grave anxiety to his friends. Until the middle of the week, however, it was not thought that his illness would be fatal, but on Tuesday it was seen that the greatest precautions were necessary, so a specialist, Dr. LaSueur, was summoned hurriedly. Dr. LaSueur arrived on Wednesday and left again the same day. He regarded Mr. Hazen's condition as very serious, and on Thursday it became critical and last evening it was only a question of time before the end came.

Mr. Hazen leaves two children, one a boy of about two years of age, and the other an infant of only a few weeks. He is survived also by his mother, Mrs. William Hazen, of City road, two brothers, Ward C. Hazen, manager of the Quebec Bank, St. John, Hugh Hazen, government engineer, Fort Nelson, and two sisters, Miss Laura Hazen, and Miss Harriet Hazen.

At the time of his death Mr. Hazen was manager of the Bank of British North America, Montreal, an office which ranks second to that of the general manager of the bank in Canada. He was only in Montreal last year that he received the important appointment to the management of the Montreal branch of the bank and left for Montreal at the beginning of June.

His abilities as a banker were widely recognized not only in St. John, but throughout the maritime provinces, and his keen judgment of business conditions and his promptness in action were often sought by those who knew and valued the discriminating financial ability which had built up the bank's business in St. John.

Mr. Hazen was born at Truro, N. S., and was brought to St. John when only five years old. He entered the service of the Bank of British North America in St. John twenty-eight years ago. For some years he remained here, showing considerable promise of the financial ability which developed later. He was moved to the Montreal branch, and after spending some time there, was sent to the New York office, from which he returned to take up the appointment of accountant at the Montreal office. About twelve years ago he returned to this city as manager of the local branch, and until his appointment to the management of the Montreal branch remained here as manager. He rapidly built up a substantial business in St. John, and gained the confidence of the business men of the city with his quick and sound judgment of local business conditions, and his able financing of many growing business concerns in the city and throughout the province. Among the influences which have contributed to the present development of the city's business, that of Mr. Hazen was not the least.

Both Mr. and Mrs. Hazen were much esteemed in the city, and when it was learned that it was likely Mr. Hazen's illness would have a fatal termination, there were many sincere expressions of sympathy for the little children, who would thus be left fatherless and motherless.

Mr. Hazen was a keen clubman, a member of the various clubs of the city, and a little time before he left for Montreal was elected president of the Union Club of this city.

The funeral will be held on Sunday afternoon, services to be conducted in St. Paul's church at 2:30 o'clock.

Store open tonight till 8 o'clock

**How About Your Underwear?**

**HOME FROM OTTAWA**  
**St. John Delegates Hopeful Over the Sand Point Situation**

Members of the St. John delegation who went to Ottawa this week to interview the government respecting improved facilities for the harbor, returned to the city today. They reported having had a very satisfactory interview with Hon. Mr. Hazen and Hon. Mr. Rogers. The needs of the port were gone into extensively and the ministers promised to expedite the work now under construction, and provide for further expansion.

Tenders, closing on May 29, have been called for the new berth to the southward, and work on the extension of the breakwater to Partridge Island is provided for. The grain conveyor extension and the additional breakwater to the eastward of the island will be pushed forward, and the delegation was assured, and there is great hope that these improvements will be undertaken at an early date.

Evidence of the co-operation with St. John by the big shipping interests was shown in the fact that Mr. Gear of the Robert Reford Co., Mr. Ward of the Australian Service, Secretary Robb of the Shipping Federation and Mr. Harris of the C. P. R. went to Ottawa with the local delegation, and aided them in urging their claims before the ministers. They will next three weeks tenders will be called for the sheds on No. 8 berth, and Hon. Mr. Rogers agreed to call for tenders for extending the breakwater to Partridge Island, and to have plans prepared for two more wharves beyond the one for which tenders are being called.

Commissioner H. B. Schofield, T. E. G. Armstrong, and P. Thompson, who returned this morning, while J. M. Robinson, Mr. Clement, Jas. H. Doody and H. G. G. field, will leave Montreal for home tonight.

**BARRETT SHOULD HAVE HAD DECISION, SAYS "DANNY" SMITH**

Sydney Manager Says St. John Man Won From National Champion

"I think Barrett should have been given the decision," said "Danny" Smith, of Sydney, C. B., formerly of St. John, who passed through the city from Boston this morning after having taken Charles McDonald of the Cape Breton town to the "Hub" to take part in the National Amateur Championships meet this week.

"Barrett outclassed his opponent Askins, in my opinion, and there were a great many who thought likewise, and that was why they hissed when the referee awarded the bout to Askins."

"Tom put up a splendid battle, showed good form throughout, and seemed to have the better of the match, but there's an old saying, 'If you want to get a decision in Boston you've got to make a knockout.' That may or may not be so, but it certainly looked that way."

"Danny" also said that his man, McDonald had shown up well in the matter, and he thought he had the better of his opponent on points. He said it was a great sporting event and had attracted large crowds of people.

Wm. Baxter, of this city, also returned home today, while others are expected this evening. Barrett and some friends went to New York and will probably not return until Tuesday.

The local boxer received a silver medal for his successful showing at the matches.

**PROBATE COURT**

In the probate court today the matter of the estate of Miss Elizabeth Young was taken up. She died intestate, leaving three nieces, Mrs. Rebecca A. Woodley, of St. John, widow, Miss Elizabeth J. Young, of St. John, and Mrs. Eliza J. Brown, of Atlantic City, New Jersey, widow; and three nephews, Harry Young, of Philadelphia, employed in a toy factory; William Young, of Philadelphia, a spinner; and Harry Young, a son of the late James Young, and nephew of the late Elizabeth Young. On the petition of those resident here, Rebecca A. Woodley was appointed administratrix. There is no real estate; personal estate \$1,500.

Clarence H. Ferguson, a proctor.

The will of William H. Parks, manufacturer, was proved. He gives all his estate to his wife, Annie Marie Parks, and nominates her as executrix. She was sworn in as such. There is no real estate; personal estate \$400. H. H. Pickett, a proctor.

The court took up the matter of the estate of Miss Agnes Ross. She died intestate, leaving two brothers, Malcolm and Robert S. Cowan; George Ross and Jean, wife of Valentine A. Harding. On the petition of those residing here, Isabella Cowan was appointed administratrix. There is no real estate; personal estate \$1,000. James E. Cowan, a proctor.

**SAY 52 MEN WERE LIVING IN THE HOUSE**

Pond Street Matters Brought Up in Police Court

Living in the lower flat of an old junk shop in Pond street and surrounded by broken bottles, scrap iron and refuse, Edward Corbett, seventy years old, was found by Policeman Sullivan yesterday and brought to central station. Upstairs in the same building is the place of Louis Fader, which the police have reported as being in a filthy condition, and in which they say that there were fifty-two men living.

The authorities called at the place yesterday and cleaned up and the owner has been given twenty-four hours in which to do the work.

In the police court this morning, Magistrate Ritchie ordered that Corbett be sent to the Municipal Home, the evidence being that he was in delicate circumstances with no visible means of support. The Fader case will come up tomorrow morning.

William Spiveng, who says he hails from Portland, Me., was remanded on a charge of drunkenness and begging in the streets. One man charged with drunkenness, was fined \$8 or two months in jail. Another forfeited a deposit of \$8.

**TARTANS WON**

On Victoria Square last evening the Tartans defeated the Adelaide street Stars 10 to 0. The batteries were: for the winners, H. Flowers and S. Johnson and for the losers A. Mueller and K. Armstrong.
