POWER CO. OFFERS AID TO MUSQUASH

COUNCIL SENDS LETTER TO N. B. COMMISSION

Says Company Wrong In Addressing City Hall

TERMS OF OFFER

Mayor and Commissioners Express Views and Refer Communication

The New Brunswick Power Co. through its secretary, John A. Olive, on Saturday afternoon addressed to Mayor Potts and the city commissioners a letter in which they offered to supply current to the city and the hydro customers, under certain conditions, in case Musquash fails to function because of the long cold spell.

The letter was read by Mayor Potts this morning at a meeting of the council in committee and after some discussion was referred to the New Brunswick Electric Power Commission on the ground that it was from that body the city was securing current at present.

Power Company Letter.

The Power Company's letter was as follows:

February 7, 1935.

To His Worship, the Mayor, and Commissioners of the City of St. John, N. B.

Dear Sirs—

Recent statements of Dr. E. A. Smith, chairman of the New Brunswick Electric Power Commission, which have appeared in the newspapers, would indicate that there is a probability of a shortage of water at Musquash which may cause an interruption in the supply of power.

With the weather, the duration of this interruption, should it occur, would be extremely serious to the communities dependent upon Musquash for their power supply.

We take this opportunity of informing you and the citizens of St. John that the most serious result of such an interruption would be the lack of street lighting, and the consequent danger to life and property of the citizens.

We wish to state that this company stands ready and willing to furnish the energy necessary for the operation of the city's street lighting system, and that necessary arrangements, we believe, could be made within a few days to provide this service. We are willing to furnish it at the same rates that the city is now paying for hydro service.

As regards service to industrial, commercial and domestic consumers who are now using hydro, we are prepared to receive applications from these consumers for our energy which, under the necessary conditions, will make the necessary connections, install our meters and furnish service as expeditiously as possible, under rates which are now in force.

We wish to make it clear that we will deal directly with the individual consumer, and will not furnish service for private consumers through the civic distribution system, unless some satisfactory arrangement can be made.

When Musquash failed before, the resources of this company were placed at the disposal of the New Brunswick Electric Commission without any restrictions, but the unfair advantage that was taken of the company's generosity, the financial resources of the city to which we have been receiving and the apparent disposition in the past of the Common Council to use the financial resources of the city to wreck this company, we cannot justify our supplying electric energy without a definite arrangement which is acceptable to all parties.

We feel that this matter is of such vital importance to the citizens of St. John that we are sending a copy of this letter to the newspapers, in order that the public may be forewarned as to what may happen in the near future.

Yours very truly,

FOR THE BOARD OF DIRECTORS OF NEW BRUNSWICK POWER COMPANY.

John A. Olive, secretary.

Mayor's Statement.

Mayor Potts said the city had had many communications from the New Brunswick Power Company, but he felt this latest should have been addressed to the New Brunswick Electric Power Commission.

The city had a contract with the provincial commission, and until they repudiated it he felt the city could not take it for granted, but they would not be taken by the throat by anyone.

Moves It to Commission.

Commissioner Harding moved that the letter be referred to the New Brunswick Electric Power Commission and suggested that the Civic Power Commission be asked to furnish the council with a statement of the operations to (Continued on page 2, column 1.)

GENEROSITY OF GOVERNMENT IS COMMENDED

Paris Writers Believe Doubts May Be Cleared Up

OUTLINE OF PLAN

London Chronicle Thinks The United States Will Not Be So Lenient

Canadian Press Despatch. LONDON, Feb. 9.—John Bull, through the editorial columns of this morning's paper, is proclaimed a very generous fellow for the manner in which he has offered to treat France with reference to her war debts. Here and there, the writers are even of the conviction that he has been too generous at the expense of his own people.

Terms of Note. The British note in brief declines to agree that France's payments should be dependent upon Germany's full payment of the Dawes plan annuities, declares that Great Britain is willing to accept fixed annual payments, irrespective of the Dawes proceeds, with a further annual charge on the French share in those proceeds, and makes known that Great Britain will devote any surplus beyond the requirements of meeting her United States indebtedness, to diminish the burdens upon her allies.

What Papers Say. The Times, while approving the British offer, describes it as extraordinarily generous. The Morning Post expresses gratification that "France is to receive the full benefit of this sacrifice."

The Daily News comments: "The amount France is called upon to pay is ludicrously small in proportion to the debt she incurred. She has yet to reckon with America, who will not be so lenient."

Approved by People. The Daily Telegraph is convinced that the British people strongly approve of Chancellor Churchill's offer and the Westminster Gazette says Mr. Churchill has done well to insist that Great Britain's claims cannot be made entirely dependent upon the success or failure of the Dawes scheme.

The Daily Express recalls with dissatisfaction the "sequence of surrenders," which it says led to Mr. Churchill's note, and describes this as another link in the splendid generosity of British statesmanship toward foreign taxpayers.

PARIS, Feb. 9.—The friendly phrasing and conciliatory tone of the British note on the debt question, are welcomed by the French commentators, but its terms cause considerable doubts, and it is generally admitted, by the writers, that such doubts, and misgivings, may well disappear in the course of the forthcoming negotiations.

C. G. M. M. In North Atlantic Ship Combine

OTTAWA, Ont., Feb. 9.—The Canadian Government Merchant Marine is in the North Atlantic combine, according to the Preston report, tabled in the Commons this afternoon. Mr. Preston gives a list of 25 steamship companies which make up the combine.

The Weather Report

SYNOPSIS—A depression which was over the southwest states, Saturday now covers the lake region, causing snow and sleet in Northern Ontario. In other parts of the Dominion, the weather has been fair. It is quite mild from Ontario eastward and a little colder in Manitoba.

FORECASTS: Mild; Showers Likely. Maritime—Moderate winds and mostly cloudy. Tuesday, increasing southeast to south winds, cloudy, and mild, probably followed by showers towards night.

New England—Rain tonight, and probably Tuesday morning. Warmer tonight, colder Tuesday. Fresh south shifting to west and north-west winds.

Table with 3 columns: Location, Highest, Lowest. Rows include Toronto, Victoria, Calgary, Edmonton, Winnipeg, Toronto, Montreal, St. John, Halifax, and New York.

COUNCIL SENDS LETTER TO N. B. COMMISSION

(Continued from page 1) The end of December, 1924, which he felt would answer part of the propaganda which, he said, was being spread around the city and show that the Civic Commission was very nearly paying its way.

Commissioner Frink said he did not think there was any need for worry. The chairman of the New Brunswick Commission had been reported as saying there was seven weeks' water in Musquash about two weeks ago and they had carried out their contract to supply current to date.

Commissioner Bullock supported the idea of a report from the Civic Commission, and recalled that up to the time of employing Price, Waterhouse & Company to audit the accounts of the commission there had been monthly reports submitted to the council.

Former Letter. Mayor Potts said there appeared to have been a misunderstanding in connection with a recent letter from the New Brunswick Power Company, and he would like to have a motion by some member of the Council that the Mayor be authorized to inform the Power Company that the council would be glad to hear them at some convenient time.

Commissioner Frink said no motion was necessary, as the Mayor had the necessary authority by virtue of his office. No action was taken.

SHIPPING COMBINE IS CONDEMNED

Preston Report, Tabled Today, Says Organization Against Canadian Prosperity.

OTTAWA, Feb. 9.—The North Atlantic shipping combine, is an obvious menace to the natural development of the export trade of the country, and an evident deterrent to the prosperity and welfare of the population of the Dominion. The moving spirit in this gigantic world-wide maritime organization, has conspired, combined, agreed and arranged to unduly limit the facilities for ocean transportation. They are preventing, limiting, and lessening competition in ocean transportation, to and from Canadian ports.

In these words, W. T. B. Preston, who was appointed by the government "to enquire into the operation of an alleged North Atlantic steamship combine," summarized some of the conclusions he has reached as the result of his investigation. His report, which was tabled in the House of Commons, this afternoon by Hon. T. A. Low, Minister of Trade and Commerce, constitutes a scathing indictment of one section of an organization, which, he says, is now endeavoring to control all the great shipping interests of the world.

THIEF OF COAT CHARGED. Harry Brown was arrested early this afternoon by Detective Biddiscombe on a charge of theft of an overcoat.

FLOUR CHEAPER. Flour dropped 30 cents a barrel on Saturday. Manitoba now wholesales at \$12.30 a barrel, and Ontario at \$12.10.

TAKEN AS STOWAWAY. Police Sgt. R. Dykeman was called to the steamer Sydfoed at the Atlantic Sugar Refinery wharf at noon today and arrested a youth on charge of being a stowaway. He is Lorenzo Hayes, aged 21, from Barbadoes.

NO SIGN OF FIRE. The fire alarm bell connected with the sprinkler system of S. Hayward & Co. Ltd., in Canterbury street started ringing this morning about 5.40 o'clock. The Salvage Corps truck answered, and members of the corps and police entered the building, but found no trace of fire. Men looked the system over this morning, but could not find the cause of the alarm. The water from the system was not turned on by what ever started the alarm ringing.

Schooner Owned by J. Splane And Company Is Abandoned

Captain and Crew of Nettie C. Rescued and Taken to Halifax.

The schooner Nettie C, owned by J. Splane & Co., of this city, has been abandoned at sea, sinking, according to despatches from Halifax. The vessel was en route here from New York at the time with a cargo of coal and had been a prey of the wind and waves for five days before Captain Richards and seven members of the crew were taken off by the schooner Fieldwood last Wednesday of Yarmouth, and taken to Halifax.

From New York. The Nettie C. sailed from New York on Jan. 24 and after six days of battling was dismasted and started leaking. Two steamers passed her during the next five days but apparently did not see or at any rate did not respond to distress signals. Captain Richards reported that he expected the vessel to sink in a few hours after she was abandoned.

The Nettie C. is well known in this port as she has been here many times since she was built in 1919 by F. P. Comeau at Saint-Jovite, N. S. She was a three-masted schooner of 882 tons net register and her port of registration was Weymouth, N. S. She has been owned and operated for several years by the local concern. She is partly insured.

A feature of the rescue is that the Fieldwood was herself reported as missing in December while en route from Farnborough to Philadelphia. She later reported after being blown many miles from her course by severe storms. There are no St. John men among the Nettie C. crew.

Meet To Deal With Licenses For Plumbers

A meeting of the board appointed to consider the applications for registration of plumbers under the new act passed last year, is being held here today in the Health Centre. The board consists of Dr. G. G. Melvin, chairman, W. J. Crawford and Joseph P. Henneberry, with E. J. Shea, of Fredericton, as secretary. There are between 250 and 300 applications.

The new act ordered all master plumbers, journeymen and apprentices to apply for registration before Feb. 5 and failing to do so they would have to take a regular examination unless a satisfactory cause could be given for this failure, to apply for registration. The act is a provincial one and all plumbers working in the province must secure this license.

END OF WORLD PREDICTED

Mrs. Rowan and Dr. Fuller State World Should Have Ended Last Week.

Forecasting the end of the world is a good deal like forecasting an election. Statements can only be proved the day after. However, the prophetes who forecasted the end of the world last week can no doubt give a reason why the prophecy was not fulfilled, just as election experts can explain why the sure candidate did not win.

St. John ladies do not have to be prophetesses to know that milk would go up in price if the Purity Company withdrew from their policy of giving the citizens of St. John cheap milk. That Purity compelled every competitor to reduce the price of milk is an old story, and housewives are well aware of the fact that twelve cent milk depends upon this company.

Purity cut down the price, knowing that with increased patronage they could hold it down. The demand for Purity milk has greatly increased, but more customers are needed to make the low price secure. If you are determined to keep milk down in price, phone Main 4000 and tell Purity to leave your daily supply. This is a safe and sure method of always obtaining cheap milk.

REV. DR. D'WOLFE TELLS HERE OF BAPTIST PLANS

Publication of Canadian Sunday School Helps is Considered.

FUTURE LIFE IS SERMON TOPIC

Rev. J. S. Bonnell's Series—Rev. C. T. Clark Speaks of Convention.

Returning after attending the meeting of the Sunday School Board of three Baptist conventions which were held in Toronto, Rev. Dr. H. T. De Wolfe, principal of Acadia Ladies' Seminary at Wolfville, was in the city yesterday.

He said the convention had brought the conviction that Christianity was the biggest enterprise that the world had ever seen. It had also shown missions to be the chief business of the church because of the command of Christ, the need of the world and the adequacy of the gospel to salvation.

Exchange Pulpits. An exchange of pulpits was made on Sunday morning by Rev. Dr. David Hutcheson, pastor of the Main Street Baptist church, and Rev. E. E. Styles, pastor of the Esplanade Street Methodist church.

Biggest Enterprise. He said the convention had brought the conviction that Christianity was the biggest enterprise that the world had ever seen.

Dr. DeWolfe was the preacher in the German street Baptist church last night and the pulpit was occupied in the morning by Rev. R. O. Morse, the pastor, Rev. Dr. S. S. Poole, its expectant pastor, Rev. Dr. S. S. Poole, its expectant pastor, Rev. Dr. S. S. Poole, its expectant pastor.

Rev. J. S. Bonnell. "The Future Life in the Light of the War," was the theme of the sermon given by Rev. J. S. Bonnell in St. Andrew's church last night as the sixth sermon in a series on the rediscovery of religion.

Mr. Bonnell said that never in the world's history had there been more people interested in the future life than there were today. He felt that this was in some respects due to the fact that 10,000,000 of the world's manhood had passed from the battle-field of earth into eternity and people were unwilling to accept annihilation as the solution of that translation.

Future Life. Mr. Bonnell quoted from Rupert Brooke, the English soldier poet; Allan Seeger, American soldier poet; the letters of a French pilot and the diary of Donald Hankey as well as some letters from one who had been his own chum. All of these writings showed an unconquerable assurance in the future life.

Bonnell declared Christians of today in their attitude towards sorrow should emulate the attitude of these men who recognized that death was not an ending but a triumph. Their triumph over death, he said, had been immortalized in the unforgettable words of Hankey: "One by one they smiled in his grim visage and refused to be dismayed. They found the faith that led them home. When at last they laid their lives at the feet of the Good Shepherd what could they do but smile."

During the service Miss Blenda Thompson sang most sympathetically "A Prayer from the Trenches," written by Sergeant Somers, V.C.

Washington Convention. Large congregations attended in the Fairville Baptist church yesterday when Rev. C. T. Clark spoke of his impressions of the Foreign Missions Conventions of the United States and Canada, from which he had recently returned.

During the course of his sermons Mr. Clark declared that the convention was the greatest tribute to Jesus Christ that had ever been paid. He said it was impossible to over-estimate the significance of 4,000 men and women having traveled from many parts of the continent at great expense in mid-winter, to spend six days in taking stock of the present world situation and in planning and praying in order to discover how best to relate themselves and their churches to the Kingdom of God in its worldwide extension.

A New Electric Range—Specially Designed to Fit the Modern Kitchen. HERE it is at last! A complete, full-sized Moffats Electric Range, yet so cleverly designed and compactly built it takes up far less space in the kitchen.

Open Type Elements Positively Superior. Elements enclosed in cast iron, clay or other material heat much slower, use more power and double the cost of renewals, yet making it impossible to even toast a piece of bread properly.

It Roasts to Perfection. There's a minimum of shrinkage to meat or fowl roasted in this oven, thanks to scientific and even heating. And the flavor—well, you'll have to try it yourself to find out!

Do You Crave More Leisure? This new Moffat will give it to you. You can put a whole meal on, go out shopping, to the theatre or visiting and when you come home the Moffat Electric will have it all ready for serving.

Ask to See the Heat Deflector. Here's a new thing—the Moffats Heat Deflector in the oven (patent applied for). It directs the heat, distributing it evenly to all parts of the oven.

ST. JOHN, N. B., FEBRUARY 9, 1925

IT SOUNDS WELL.

Railroads and ships are not enough in themselves to complete the sum of traffic-handling necessities. There must be a bridge—many bridges in fact—between the cars and the ships.

People in the Maritime Provinces, reading this morning's Ottawa news, may fairly believe that a change for the better is coming rapidly.

Hon. George P. Graham, Minister of Railways and Canals, in the course of a speech delivered in Ottawa on Saturday, made several statements which must excite no little interest and which must arouse a considerable degree of expectation in the Maritime Provinces.

"In the near future the present Federal Government will take steps toward solving the transportation and other problems of peculiar and vital concern to that section that will ensure a larger advantage from their place in Confederation."

"This, it is evident, refers not only to transportation, but to the whole Maritime case."

St. John is about to send to Ottawa a delegation representing the Common Council and the Port Committee, consisting of Mayor Potts, Commissioner Bullock, Hon. W. E. Foster and Mr. A. P. Paterson. This delegation is to join Sir Henry Thornton in Montreal, together with him will interview Hon. W. L. Mackenzie King and his ministers, and impress upon them the urgent need for the construction in the Courtenay Bay area of the facilities which it has been amply demonstrated are necessary if the C. N. R. is to have here the terminal equipment without which it cannot carry a pound of winter tidewater the volume of traffic that it must handle through this port if we are to have, actually and in good faith, a real all-Canadian transportation policy.

The Times-Star and The Telegraph-Journal have presented to the public within the last few weeks a striking cross-section of public opinion in Canada with respect to the use of Canadian ports for Canadian business, and it has been shown, very clearly, that Canadian shippers, manufacturers, merchants, men of all walks of life whose attention has been turned upon this question, are convinced that the traffic of this country should be handled by its own railways and ports, and that business and patriotic conditions alike make this the only sound plan for the future.

It takes time to construct piers, sheds and elevators and to provide terminal trackage. Because these things are not done in a day, it is all the more necessary that delay should be eliminated. The country is told that it is entering upon a period of expanding business, which certainly is overdue, and one outcome of the forward movement in Canadian and world business will necessarily be a constantly increasing volume of national export and import traffic.

The Government has a plan to bring the necessary shipping to Canadian ports to handle cargo at reasonable rates. Hitherto, even though the world has been long on tonnage, successive governments have omitted an essential link—the terminal facilities which constitute the bridges between the C. N. R. cars and the waiting ships, or the ships which would be waiting for the piers and handling machinery were there.

The whole question is demanding action on this question—speedy, resolute action on the bold and broad lines required by the national interest. The past few weeks must be fruitful.

Hesitation or delay would be resented by the whole Dominion, which now expects a national transportation policy and wants to see it in the estimates.

OUR SKATERS.

During the last few years athletes from this city and this province have won for us and for themselves a great measure of fame on the ice, on the water, and on the field, contesting against the best talent on this continent. The public here, which recently—and it is happily so—has given greater support and wider recognition to these athletes, young in most cases, although we must not forget that Hilton Belyea is a noteworthy exception, should find in the records of our representatives at this year's skating meets, compelling reasons why their support of clean sport and their recognition of what these native sons have done should be more generous than ever before.

What they have done properly ministers to our native pride, and it is advertising of high value. More than that, it demonstrates once more the magnificent character of the material we have in this city and in these Maritime Provinces, and when we consider the great cities and the vast population from which contestants for these meetings have been drawn, when we consider also how the St. John boys have acquitted themselves, the results are all the more admirable. As the home of skaters, St. John stands at the top of the list.

The news from day to day has carried details, but let us keep in mind some of the outstanding points: Willie Logan's piling up of eighty points and his winning the international championship for boys under eighteen; in the same class Clement O'Connor received thirty points, and Edward Snodgrass twenty; in the sixteen-year-old class, Tommy Tebo won fifty points; and in the fourteen-year-old class, George Fowler received seventy points. Frankie Logan won premier honors in the competition for boys under twelve years, receiving ninety points. Charlie Gorman has had luck, but while he was it he won the senior quarter mile and took second in the two hundred and twenty yards, and barring accidents he might well have been invincible. In other words St. John boys were the outstanding figures of the Saranac International meet.

So, let us give the boys full credit for really great work, and do not let us forget them when the contests are over. They have done the city great service, and their performances should surely make it easy hereafter to secure from the New Brunswick public generous and enthusiastic backing for the development of promising athletes. We have in New Brunswick many undeveloped champions. Let us see that they get a real chance for proper training and, when the preliminaries are over, that they have early opportunity to show themselves on the fringing line. What they will do there we may surmise in advance because of the performances of our skaters and other athletes this year and for some years past.

Surely the men of Canada are not growing less gallant. A Canadian writer, who perhaps keeps his seat in a street car and gives women and children the first right to stand, offers these engaging remarks on the subject. With what a grace, with what an air of fine old world courtesy some men can offer their seats to ladies in street cars when they are through with them and about to get off. How greatly they add to the charm of life, and yet it costs them nothing, as amused spectators sometimes observe. Does a fellow in a case like that jolly himself into the belief that he is doing a generous deed, or does he do it because he is a hummer?

At the recent British Liberal Conference, where Lord Grey, the Earl of Oxford and Mr. Lloyd George prophesied a great Liberal revival, the goal of British Liberalism and some of its principles were thus defined: The aim of Liberalism is to bring about a state of society in which all men and women shall have a real opportunity of making the most of their own powers, in their own way, so long as they do not interfere with the rights of others. This is what we mean by liberty; and we believe that liberty in this sense is a condition of human happiness and the motive force of progress. It is an essential part of this country has the chance to grow up healthy and well educated—able to play a man's or a woman's part in the world. Nor shall we be content so long as there exists any class that can be described as outcast or disinherited.

The world spent \$3,360,000,000 for new motor vehicles in 1924, according to Washington statisticians. These gentlemen say that the United States owns and operates 82.5 per cent. of the world's total of automobiles. Man-kind's fleet of passenger automobiles is given as 18,615,000 at the end of last year.

"Don't We Pity the Poor Civilian"

An interesting and authentic forecast of what the next war will be like was given in New York city last week at a luncheon of the foreign policy association by a group of close students of aerial and chemical warfare, headed by Brigadier-General Lord Thomson, late chief of the Air Ministry in the Labor government of Great Britain, says the New Republic.

The consensus of the experts was that in the next war the airplane will be the chief weapon both for offense and defense; that the only real defense will be an attempt to raid the enemy's capital before he raids yours; and that the chief weapon both for offense and defense; that the only real defense will be an attempt to raid the enemy's capital before he raids yours; and that the chief weapon both for offense and defense; that the only real defense will be an attempt to raid the enemy's capital before he raids yours.

A Fire of Pride.

(By Ernest H. A. Home) We should walk reverently who walk abroad Upon the land our forebears cleared of old. There, by yon little creek, a chapel stood, And here is hallowed mound. We should with thankfulness behold the fields And fruitful orchards leaning to the sun. And think of them whose courage, strength and faith These from the forest won. We should walk humbly, we who know the tale, So truly told of those old pioneers; Moved by the living words at times to joy, At times perchance to tears. We should walk humbly for our lesser selves; Waited: from east to west, from sea to sea. In us there burns a new fire of pride That of their blood are we!

SECOND SERMON
IN SERIES
GIVEN SUNDAY

Stone Church Rector Speaks
on Position of Church
of England.

RE-ORDINATION IS
PART OF SUBJECT

The Apostolic Succession
and Other Phases—West-
ern Church Next Sunday.

In St. John's Stone church yesterday morning Rev. A. L. Fleming continued his series of sermons on the position of the Church of England. He spoke as follows:

Eph. V. 32. "I speak concerning Christ and the Church."

Last week we considered the great question of re-ordination of Free Church ministers by a bishop.

I ventured to mention that Bishop Headlam, in his Brampton lectures in 1920, makes clear that the theory of apostolic succession is untrue to history, and that the Lambeth Joint Committee, under the chairmanship of his Grace the Archbishop of York, held that "These various Ministries of Word and Sacraments" had been abundantly used of the Holy Spirit and hence we have the sign and seal of the divine approval resting upon "these various ministries." It seems clear, therefore, that whatever be required of these men upon entering a united church it cannot be re-ordination but some other form of commission.

The Latin church, however, would insist upon re-ordination since she ordained by a Roman Bishop as other than laymen. That is doubles the reason why she declines to reply to the Lambeth Appeal.

When the late Bishop of Zanzibar sent a telegram from the Anglo-Catholic Conference in London to the Bishop of Rome, he received no reply because the Pope would not recognize him as other than a layman, and a heretic at that.

Re-ordination.

Let us understand just what is involved in this matter of re-ordination, for I am satisfied that there are many of the laity who desire that it should be made clear.

To insist that the policy I have suggested is contrary to the practice of our church away back in the beginning of the 17th century, is, I submit, false.

In the year 1610 ministers of the Scottish church who had received no ordination from a bishop were "re-ordained" by the Scottish church. (See Spotswood, "History of Church and State of Scotland," Page 314; London, 1877. "The Church of England," A. C. Headlam, Chap. VI, Sects. IV and V.)

Again Bishop Joseph Hall, who was a strong upholder of the episcopacy, wrote a treatise entitled "Episcopacy by Divine Right Asserted." In it he fully recognized that he could advance it no higher than the Apostles, where, as Archbishop Laud desired that it should be derived from Christ Himself. (Jones, "Life of Bishop Hall," pp. 161, 162, and "Christian Unity," N. Dimock, Chapter III.)

The same Bishop Hall, in an address to the clergy, said, "Blessed be God! There is no difference in any essential matter between the Church of England and her sisters of the Reformation—the only difference is the form of outward administration."

Again, he was at pains to point out that he did not maintain episcopacy as essential to the being of a church.

The same position was taken by other churchmen, like Archbishops Ussher, Wake, Sharp, Tenison, and Secker, besides many of the bishops.

We see, then, that the ancient position of the Church of England is in harmony with the New Testament.

Spirit of Unity.

Let us labor to bring about a right and proper understanding in this matter. Let us never fail to raise our voices in protest against that other attitude which is detrimental to the well-being of the Catholic church. Let us seek by sweet reasonableness to emphasize the true spirit of unity even amid our present diversity, for, as the Archbishop of York said in his sermon at the Church Congress at Sheffield, "Can we describe the central experience of Christianity in a single phrase? And answered his own question by asking this other, which I leave with you at this point, 'Is it not Union with a Living Christ?'"

We have given consideration to this great subject with special reference to the problems connected with our own church and its relationship to other reformed churches. We have seen that the matter is one of vital importance and calls for the exercise of the spirit of love, coupled with a sane, reasonable, and sympathetic attitude of mind.

We are conscious of the fact that unity of organization cannot be obtained, and is not desirable, until there be first the spirit of unity.

Further, it has been shown from the Lambeth Joint Report that, while Free Churchmen in England were agreed upon the historic episcopate, they demanded that all ambiguity be removed from the terms connected with re-ordination.

Now we must face what is, in many ways, a much more difficult side of the question.

First Step.

It seems to me only reasonable that the first step towards Christian unity should be the drawing together of all the reformed sections of the Christian Church; then, we would be in a position to approach the un-reformed sections. As pointed out last Sunday, however, we must be willing to give consideration to the un-reformed sections and find out, at least, wherein we differ and what should be our attitude towards them. We must follow the principle adopted by Archbishop Cranmer and his associates at the time of the Reformation, viz., "Whatever we may learn from them that is agreeable to the pure Word of God written, should be retained. Other points must

In a frame of mind to complain. The war left us in that mental condition. We have grievances and our minds are apt to magnify them.

"Down in the Maritime Provinces they have a Maritime Rights Association. I have nothing to say against that organization, for we all recognize that those provinces are in a peculiar situation.

Rightly Expected Market.
"It must be said that those provinces evinced no great enthusiasm to enter Confederation but when they did enter with the peoples farther west, they properly expected to get the market in central Canada which had been dealt them in New England, and they also understood that they would get the facilities to reach that west market."

"Just and Reasonable."
"The story of the Intercolonial Railway is a long story," said Mr. Graham, "and no useful purpose can be served in going over that history, but this much is certain, that the Maritime Provinces deserve a long step in advance to balance their requirements, which are just and reasonable."

"It is notable that shipping facilities at St. John and Halifax have been greatly improved, and I will add this word:

"This Liberal Government, in the near future, will take steps that will enable those provinces to reap a larger advantage from their place in Confederation."

Addresses Women.
OTTAWA, Feb. 8.—"What has the Government accomplished," asked Hon. George P. Graham, Minister of Railways and Canals, addressing the Ottawa-St. Lawrence Federation of Liberal Women here Saturday. "Everything being considered, the Dominion Government, outside its own controllable expenditures, has managed more economically than any since Confederation. It has balanced the budget and better. Taxation of the people has been reduced. The sales tax alone has been curtailed by \$24,000,000, and under this Government the Canadian dollar has reached par, while before we came into power it was worth 85 cents."

National Status.
"Hon. Ernest Lapointe, as representative of the King, has signed two treaties on behalf of Canada, establishing the Canadian national status. We are in the frame of mind, following the war, to complain," continued Mr. Graham. "The remedy for any grievances is to let the Liberal party a greater number in the House next time, so that we will have a working majority," he declared.

"Our friends in Montreal," stated the Minister, "think that the world rises and sets in one part of the city. I could describe the boundary."

Raps Montreal Group.
"This group is sorry for itself. It does not see any good in the rest of us. It criticizes the King Government week and the next week says Premier King can save the nation. If a gentleman could be selected by this group who would see that they got everything before any one else, then he would be the man to lead the country in their estimation—selfishness, whose great goal is their bank account, and who worship at the foot of their deity as they worship the tax exempt bonds

be dismissed, or at least left open for debate.

First of all let us remind ourselves of the position of our church in its relationship to the others.

First of the 13th century was a revolt against the ever increasing number of foreign monks and orders flooding England who had to be maintained by the English people. It was at this time that Dr. John Wycliffe, Master of Balliol College, Oxford, a devoted churchman and the greatest scholar of his day, raised his voice openly against the abuses of the day, and advocated reform in the discipline and doctrine of the church, and the open Bible to the people's own tongue.

Following that there came the Renaissance, or revival of learning. Scholars began to read the Bible in Greek and great scholars, like Erasmus, emphasized the need of linking up faith with reason, and theology with scholarship.

Throughout the Christian church there seems to have been a desire to return to the Scriptures. This was on the part of the cultured classes only, for the common people had no learning. So it came about that the work was done which inevitably led to the Reformation—first on the Continent of Europe, and then in England. The details are of intense interest, but are not necessary for us to take up at this time. Suffice it to say that in 1532 the Church of England was Roman in its communion, allegiance, ritual, and doctrine. This was the growth of 1500 years, during 900 of which Rome had been gaining in her influence over the English church.

Reformation.
Then came the Reformation which restored freedom to the Church of England—the "Ecclesia Anglicana" as it was called. This meant excommunication as far as the Latin church was concerned.

One of the first actions of the liberated church was in their mother tongue instead of in Latin which they did not understand. Beginning with the Litany in 1544, the work of bringing the church into line with the New Testament practice was continued until the Book of Common Prayer was developed in 1549, and revised in 1552, which is for all practical purposes the book we use today.

We see, then, that in dealing with unity with the Church of Rome certain grave and momentous difficulties loomed

and could now see that our problem is really one the Dominion as a whole should attempt to solve. The business men of these western cities are alert and progressive and get quickly to the heart of the matter under discussion. The Edmonton Journal today says: "More business for the Maritime Province ports is desirable. It will be

up, such as are not felt in dealing with the Eastern or Greek Church. Indeed it may be sufficient to say that the Greek Church has recently recognized Anglican orders, which is a most important step towards unity. Since the contact between the Anglican and

Eastern churches is so slight it would seem as if mutual recognition of orders, was sufficient to meet the case for the present.

Next Sunday we shall consider our position in relation to the Western or Roman Church.

given here to especially in view of the conditions under which they entered Confederation.

THERE has been talk of Nova Scotia and New Brunswick seceding from Confederation, and not without reason. Their people are just as anxious for a place in the sun as the rest of us, and if they find that by existing arrangements or conditions they are losing population and are unable to develop their natural resources or build up industry, then they must certainly have a change or re-orientation.

Feeling in those provinces in regard to being given a free hand to work out their own salvation in much stronger than people in other provinces realize, and were they to break away from Confederation, one can easily foresee the very valuable asset to the United States, being so close to that country both by water and by land.

Can it therefore be wondered at that a representative of those provinces finds it necessary to visit the large centres of the Dominion to place before representative organizations and for consideration of the claims of these provinces down by the sea? Our vision is too often bounded only by the immediate horizon to the detriment of our national welfare.

in their safety deposit boxes. We are not going to be dictated to."

Comments on Meighen.
Reviewing the situation in each province, Mr. Graham said Manitoba has been crying for lower tariffs but let go the opportunity to attain this by reciprocity.

"Tell your people," he humorously declared, turning to Senator Watson, "that they got what they deserved." All Canada benefited by a big wheat crop, and what has occurred this year in the price of wheat might happen again soon.

"Mr. Meighen has issued a manifesto calling for economy and increased expenditures," stated Mr. Graham. "I do not know how you can make this harmonize. But if we lack courage at this time to proceed with the development of our resources along rational lines, we may lose our opportunities."

DEATHS

Hazel B. Rose

Friends of Mr. and Mrs. George B. Rose, 13 Harding street, Fairville, will be sorry to learn of the death of their 12-year-old daughter, Hazel Beatrice, who died suddenly on Saturday evening at their residence. Besides her parents she is survived by four sisters, Mrs. W. H. Oliver, Fairville and Ellen, Lucilla and Margaret at home. She was a pupil of the Fairville Superior school and a particularly bright child who was very popular amongst her school companions. The funeral will be held on Tuesday afternoon at 2 o'clock from her parents' residence.

William Garret.

SUSSEX, Feb. 8.—Mrs. William Garret, an old and respected resident of Sussex Corner, passed away at Cambridge, Mass. The body will arrive at Sussex Monday afternoon. The funeral will be Tuesday afternoon at 2:30 o'clock. Interment will be at Sussex Corner cemetery. Rev. A. V. Morash officiating.

Miss Margaret McWha.

ST. STEPHEN, Feb. 8.—(Special)—The death occurred here early this morning of Miss Margaret McWha,

Miss McWha was 32 years of age, a daughter of the late Mr. and Mrs. George McWha. She had been for several years in the employ of Miss A. Fitzmaurice, milliner, of this town, but for the last few months had been confined to her home. She leaves two sisters, Mrs. Ray Wilson and Mrs. Robert Nixon, both of St. Stephen.

FUNERALS

The funeral of Allan F. C. Worden was held yesterday afternoon at 3:30 service being conducted at his late residence, 811 King street, West St. John, Rev. F. T. Bertram, of the Carleton Methodist church, officiating. Interment was made in Cedar Hill cemetery. There were many relatives and friends in attendance and a large display of floral tributes.

The funeral of Malcolm H. Campbell was held yesterday afternoon at 3:30 service being conducted at his late residence, 162 Water street, West St. John, at 3:30 o'clock. Rev. W. A. Robbins, of Ludlow street Baptist officiating. There were many people in attendance and a large display of floral tributes.

The funeral of Mrs. Mary Louise Jackson took place yesterday afternoon from O'Neill's undertaking rooms to the Methodist cemetery. Services at the house and grave were conducted by Rev. C. J. Markham. Many beautiful floral tributes were received, among them a large wreath of roses from her daughter, Mrs. J. O'Brien.

PRESENTED TO SCHOOL.
Presentation of dumbbells and an electric lantern to the new Albert school by the West St. John branch of the W. C. T. U. took place Friday afternoon. Miss Lydia Fullerton, president, made the presentation and H. Coiby Smith, trustee, voiced the thanks of the school. Miss Harriet Smith presided.

AT OLD LADIES' HOME.
Mrs. H. S. Wannamaker's class, of the Central Baptist Sunday school, visited the Old Ladies' Home yesterday afternoon and sang hymns which were greatly enjoyed. Dencom J. J. Bennett gave a short address and also sang a solo.

Younger M. P. S.
LONDON, Feb. 8.—Younger men are taking their places in the British House of Commons. In 1911 the average age of the members was 51. Now it is only 40.

Mrs. Daisy Ponny, 40 Sewell street, aged 72 years, fell on the stairs at the corner of Charlotte and Union streets about 9:30 last evening. She was conveyed to the General Public Hospital where it was found she has sustained a fracture of the hip.

ADVENTURES OF THE TWINS

By Olive Roberts Barton.

THE LITTLE PIG'S WISH.

Oink! Oink!" he grunted. "Nothing here."

"Now then," said the Fairy Queen to the pig, "do you know any other little pig wish for unless it is something to eat?"

"Lots!" said Nancy. "Who now? I thought I had about everybody fixed," said the Queen.

"Oh, no," said Nick. "I know lots of people."

"Who?" said the Queen again, stroking Two Spot's soft velvet wing with her wand.

"A little pig," said Nick. "Pig?" cried the Fairy Queen. "A little pig! What in the world could a pig wish for?"

"All three flew away on Two Spot, the Fairy Queen's butterfly, and soon they came to a pig sty where one little pig was nosing about in a trough.

"Oink! Oink!" he grunted. "Nothing here. Now I'll have to wait till supper time to get another bite. Oh, dear, if I was only a big pig I could eat more. Wouldn't it be grand?"

The Fairy Queen waved her wand and he turned from a little pig to a big pig quicker than you could sneeze.

Then the three adventurers and their unusual steed flew off to a place where they could see and be seen—and waited.

By and by the farmer came along and happening to glance into his pig yard dropped his pitchfork like a hot potato.

"By Jimminy!" he shouted. "What's happened? Here I leave a little pig no bigger than a coal bucket and find a pig as big as a vinegar barrel. Hi there, Jake, bring two buckets of buttermilk and a bucket of bran. And throw in a few armfuls of sweet clover. Here's a pig that's fit for a king."

After he had gone the little pig—or I mean the big pig—ate and ate and ate. He ate until he stuck out like a boiled dumpling on both sides.

"Oink! Oink!" said he. "Isn't this grand! Oh, my, I wish I had a stomach like one of those big balloons I saw up in the sky. I could just die eating."

"His words may be truer than he thinks," said the Fairy Queen gravely to the Twins. "We'll just wait here and see what happens. Most people don't know what they are doing when they wish themselves to be different from what they are. The little pig has a lesson to learn. Now be quiet. Here comes the farmer with another man. It looks like the butcher from the nearest town. I think I know what he came for."

CHILDREN ENJOY CENTENARY SUPPER

Seventy-five at Delightful Event on Saturday Afternoon in Church Hall.

Centenary Hall was prettily decorated on Saturday afternoon, when 75 guests sat down to a delicious supper. The occasion was the annual supper and party of the Juniors of the Sunday school. Games and contests were carried on in the auditorium upstairs, while the church parlor downstairs was transformed into a banquet hall.

Rev. Robert G. Fulton, pastor; Mrs. Fulton, Grant Smith, superintendent of the Sunday school, and Mrs. Smith, Miss Margaret Evans and Miss Pauline Jenkins, who established the department, and Miss Dorothy Nice, pianist, were special guests. These sat at the head table with Mrs. Chasley H. Kinney, superintendent of the department, and her assistant, Mrs. James MacLean, and some of their staff, Mrs. C. D. Colpitts, Miss Jean McLaughlin, Miss Mary Marnie, and the others, as follows: Miss Annie Broadbent, Miss Annie Tait, Miss Vivien Fowler, Miss Frances Elkin, Miss Agnes Robertson and Messrs. Harold Barker, Charles Barker and John Angevine.

Mrs. George Seely and Mrs. M. D. Austen were the conveners of the supper. Mrs. Alexander Paul and Mrs. George Jenkins assisted in the kitchen and several of the mothers of the graduating class were waitresses, as follows: Mrs. George Moore, Mrs. Gordon Likely, Mrs. J. E. Angevine, Mrs. Kenneth Crichton, Mrs. Morley McLaughlin, Mrs. C. H. Leonard, Mrs. Horace Black and Mrs. W. H. Hayward.

Short addresses were made by Mrs. Kinney, Rev. Mr. Fulton and Mr. Smith, after which the games were resumed and prizes awarded.

IS MISS ST. JOHN This Is Solution of Saturday's Puzzle

Choice of Judges at Arena is Miss Thelma Cheeseman of Dunn Avenue.

Miss Thelma Cheeseman of 5 Dunn avenue, Lancaster, was chosen as Miss St. John for 1925, by a committee of women at the Arena Saturday afternoon. After having made a careful survey of the large number of entries, the judges narrowed their choice to twelve young ladies and finally selected Miss Cheeseman. His Worship Mayor Potts, accompanied by the little princess, who carried a beautiful bouquet, the gift of the St. John Hockey Club, made the presentation of a wrist watch to Miss St. John. Mrs. D. Mallin, Mrs. F. T. Dunlop, Mrs. F. S. White and Mrs. D. C. Malcolm, were the judges. There was a very large crowd of interested spectators present.

Oklahoma Youth Takes Bride Home and Meets His Death.

WALTERS, Okla., Feb. 8.—George Hicks, 19, who eloped with Cora Forrest, 16, several months ago, was shot and killed by the girl's mother, Mrs. A. D. Forrest, as he returned to her home with his wife. Five bullets penetrated his body. Mrs. Forrest is in jail.

When the youth eloped with Miss Forrest her parents caused his arrest on a charge of having falsified her age in obtaining a license. The girl testified, however, that he stated her age as she had represented it to him, and he was acquitted.

Following the trial Hicks went with his bride to Atoka, and the couple had been at the home of his parents there until they returned here.

Harley, Mr. Neville Mackenzie, Mr. Murray Vaughan, Mr. Duolos, Mr. Douglas McKean and Mr. Currie.

Miss Iva Alexander and Miss Greta McCurdy held a skating party at Lily Lake Friday night, afterwards returning to the home of the hostesses, where refreshments were served and dancing and games enjoyed.

Little Miss Beatrice Calnek, daughter of Dr. and Mrs. S. H. Calnek, Princess street, celebrated her fourth birthday last Friday afternoon at her parents' home. The special interest in this event is that Beatrice was the one who named the Telegraph-Journal doll "Carrie Joy." The guests who enjoyed the afternoon's pleasure were: Aileen Smith, Martha McCafferty, Eva McAvity, Joan LeLachur, Janet Maunsell, Billy Heine, Donald Reid, Douglas McAvity, Beverly Howard and David Estay.

Mr. Lisle Isaacs left for New York last Friday evening to be present at the funeral of his cousin, Miss Olga Lewis, who was buried there yesterday.

Mrs. Allan G. McAvity, who went to Montreal for minor medical treatment and was obliged to undergo an operation for appendicitis at the Royal Victoria Hospital, is recovering nicely, much to the delight of her many friends here and elsewhere.

Miss Alice G. Hca, organist of Centenary church, is ill at her home, Orange street. Dr. Harry Dunlop took her place at the organ yesterday.

M. Hill Gilchrist, accountant for the Maple Leaf Milling Co., left on Saturday for Halifax to attend to business at the sub office there.

R. L. Logan, of the Western Union staff, Truro, arrived in the city on Saturday, accompanied by his wife. Mr. Logan will leave today for Boston on a business trip, and Mrs. Logan will be the guest of her parents, Mr. and Mrs. George E. Gregory, Bentley street.

Speed—but nourishing porridge

In these days of rush and hurry, minutes saved in the morning put you ahead of your schedule all day. Quick Quaker makes hot, nourishing porridge in 3 to 5 minutes—less time than it takes to make toast. The same delicious flavour as the regular Quaker Oats you have always used, but cooked quick. Your grocer has both kinds. Ask him to send you a carton of Quick Quaker to-day. Costs but a cent a meal.

Advertisement for Instant Postum. The favorite drink in two million homes. DRINK SAFELY. NORMALLY, you have a store of reserve energy, a "margin of safety," intended for life's emergencies. Each time your tired nerves lead head for rest it is their warning signal. Tannin and Caffeine in tea and coffee have the power to deaden this warning signal. They appear to give new energy. Actually, they rob this energy from the nervous system. Tannin and Caffeine are harmful. With you these agents may work fast or slow. Yet sooner or later their poisonous effects are certain, sure! The system, harassed by headaches, indigestion—all that company of trivial ills—pleads hard for freedom from these harmful elements. Don't cut down your margin of safety. There is a better way. Let Instant Postum satisfy your need for a hot drink—delicious, sustaining, economical. Sleeplessness and indigestion caused by tea or coffee disappear wherever Postum becomes the family beverage. Instantly made in the cup with boiling water at a cost of half-a-cent—Economy. Or there is Postum Cereal, made by boiling twenty minutes. Ask for Postum at your club, restaurant or on the train. Carrie Blanchard, famous food demonstrator and diet expert, makes you her free offer. Send the coupon now.

Advertisement for Instant Postum. "There's a Reason". You know how many children do not like the taste of milk. You know how they like to have the same drink as the "grown-ups". You know, too, how good it is for them to have a hot drink! Make Instant Postum for them, using hot milk instead of boiling water! They'll like the taste immediately! And they'll get the food elements of the wheat, plus the nourishment of milk, in a hot drink that is economical and so easy to make!

How to Practice Floor Economy

Dominion Battleship LINOLEUM

When you install Dominion Battleship Linoleum floors, economy naturally follows. With this durable material you are sure of long wear and freedom from costly repairs. RIVALS THE BEAUTY OF THE SCARLET TANGER

Its Full-Handed Grip Feels Like Real Business

Its 25-Year Point Has a Smooth Speedy Gait And Its Color Makes It Hard to Mislaid

RIGHT from the moment this Over-size barrel nestles in your fingers, your hand seems to know that here is a pen that stays where it's put. A pen that never wiggles to escape, that never provokes a troubled tenseness of mind or of muscle. But rather, a pen that leaves your brain unfettered to focus on your subject, and goes ahead speedily with its work, recording your best thought in a hand that will win the world's respect. A size that holds an extra supply of ink to tide you over until the work is done. A point so smooth it needs no "breaking in"—so life-enduring that we guarantee it for 25 years' wear. And, as no style of writing can distort it, a pen you can lend without a tremor. A handsome pen to own, but not an easy pen to lose. For its black-tipped lacquer-red collar calls out, "Don't forget your Duofold!" if you start to leave without picking it up. We pay a neat premium to make you a pen like this. So look for this honest stamp on the barrel—"Geo. S. Parker—DUOFOLD—Lucky Curve."

LEADING MARITIME PROVINCE HOCKEY TEAMS MAY PLAY HERE

WILL DEPEND ON SUPPORT GIVEN TO LOCAL CLUB

St. Johns Eager to Keep Game Going Until Close Of Season

The Western section of the Maritime Province Hockey Association will be brought to a close next Friday night when the St. Johns clash with Sussex.

To date the locals have won seven games and lost five and when it is considered that in several of these games they were very seriously handicapped by the absence of their regular goal keeper and had to fill in with intermediates and juniors in this position, the showing is unquestionably mighty good.

Among the teams mentioned for games here are Truro, Moncton and the Crystals of Summerside. There is also some talk of having a Halifax team as well, but this will require support from the fans.

Chance For Second Place

The game on Friday night gives St. John a chance to emerge in second position as they have only lost two games to date, while Fredericton has lost three.

Suggests Play-off

In the event of St. John winning a play-off with the two series might be in order. Fredericton expressed the opinion that the team winning both series should play off with the runners up.

TEX RICKARD IS TO ENTER TEAM IN BIG LEAGUE

Has Secured Franchise In International Pro. Hockey Circuit

Professional ice hockey will be inaugurated in New York City next winter. This became definitely established when Tex Rickard, Madison Square Garden promoter, and Tom Duggan, Montreal promoter and sportsman, announced at the conclusion of a conference in the Garden last week that they had closed terms whereby a professional circuit will be put in the field next season.

International League

The league will virtually be an enlargement of the present National Professional Hockey League of Canada, which became an international body this season with the entry of the Boston Bruins Hockey Club. Rickard became interested in professional hockey a year ago and at that time offered a franchise to operate in the National League this season, but changed his plans when it became definitely clear that the league already has been proposed to be torn down. Rickard figured that the expense for installing an ice plant in his arena would be too great to warrant its construction for only a single season.

Teams In League

The present teams in the Canadian National League are, in addition to the Boston club, the Canadiens of Montreal, present world's champions; a tenth club, it is understood, will be located either in Detroit or Cleveland.

MEN'S RALLIES
ARRANGED FOR
SUNDAY NIGHT

Holy Name Society Members
From Four Parishes
at Cathedral.

BISHOP SPEAKS
OF LENTEN SEASON

Reception of Members at St.
Peter's—Preparing for
St. Patrick's Day.

A rally of the Holy Name Society of all the parishes in the city in which it is established will be held next Sunday evening in the Cathedral of the Assumption. It is the first well-attended assembly to be held here. After services there will be solemn Benediction sung in the presence of the Blessed Sacrament. There will be a special sermon for the occasion and the speaker will be Rev. Miles P. Howland of Kingsclear, formerly of the Cathedral and so well remembered as a pulpit lecturer and orator in the days when he was a resident of St. John.

It is expected that there will be a very large gathering of men, as the Holy Name Society is now operating a four of the city parishes, the Cathedral, St. Peter's, St. John the Baptist and Church of the Assumption. Yesterday was Holy Name Sunday and there were hundreds of men attending at their Communion day. Rev. Charles Boyd, chaplain of the cathedral Holy Name Society, addressed the members of the society of the church of the Assumption. In West John last night. The service was largely attended by the men. Father J. took for his subject the Bible, explaining the origin of the inspired orks and the various books and parts.

Speaks of Lent. Speaking in the Cathedral yesterday His Lordship Bishop LeBlanc made reference to the approach of the Lenten season. Yesterday was Septuagesima Sunday. Bishop LeBlanc explained that in the days of the primitive church some began the period of Lenten fasting 70 days before Easter in other places, 60 days, and in others, 40 days. And so in the church calendar now this was marked by the observance of Septuagesima, Sexagesima and Quinquagesima. Sundays. His Lordship said many made a practice of giving way to a round of pleasures at this time prior to the beginning of Lent, but it was the wish of the church on the contrary, that they should begin now to prepare by prayer and mortification for the Lenten time.

It was announced that next Sunday, the third of the month, the collection at all the masses would be for the fund to pay for the Cathedral renovation and the new altar, and His Lordship asked that the generosity that marked the first months be maintained. The high mass of next Saturday will be for the intentions of this work.

Join Holy Family. More than 250 women of St. Peter's parish were solemnly received into membership in the Society of the Holy Family by Rev. James A. Cloran, C. S. R., last night at the closing services of the triduum. Rev. T. O'Sullivan, C. S. R., preached a forceful and impressive sermon on the Blessed Virgin. The church was filled to capacity. Father Cloran was assisted by Rev. James Woods, C. S. R., and Rev. Edward Mehan, C. S. R.

Feast Day Observed. At the Monastery of the Good Shepherd, Waterloo street, yesterday, the Feast of the Holy Heart of Mary, a specially observed day in the Order of the Good Shepherd, was marked by the celebration of high mass by Rev. W. M. Duke at 8 o'clock and in the evening by solemn benediction, at which Rev. E. Reynolds officiated, assisted by Rev. W. M. Duke and Rev. James Brown.

St. Patrick's Day. It was reported yesterday that work was begun for the St. Patrick's Day theatrical performance for the orphans under the direction of the Y. M. C. I. literary and dramatic committee of which Cyril Moore is chairman. The play selected is "A Girl From Colorado." It will be presented in the auditorium of the Cliff street school and here will be four performances. The first will be a matinee on the afternoon of March 16.

Debate Planned. The Y. M. C. I. members yesterday discussed the matter of holding a de-

bate and it was left to a committee to arrange for one on Sunday afternoon, Feb. 22.

Mock Trial. There was a good attendance at a mock trial held by the Young Men's Association of St. John's Baptist church in their rooms, St. James street, last evening. Robert Fulton was charged with the murder of his brother, Morris. Hon. R. J. Hitchie acted as judge, Leo Killorn and John Butler represented the Crown, while Harold Matthews and James O'Brien appeared for the defence. The case was well handled and the jury brought in a verdict of guilty. Fred L. Barrett acted as clerk of the court and Bart Anlie as sheriff.

London Physician Says Tongue
Twisters Only For
Elocutionists.

LONDON, Feb. 9.—Tongue-twister tests as applied by the English police to persons arrested on suspicion of having imbibed too freely are "not fair," in the opinion of Sir Purves-Stewart, senior physician at Westminster Hospital.

Speaking before the Society for the Study of Inebriety, he declared that such catch phrases as "terminological inexactitudes" or the "Lith police dismissthes" were all right in the cases of elocutionists, schoolmasters, lawyers or others of the learned professions, but would not do for the ordinary man in the street who comes into the hands of the police.

How Fat Actress Became Slender

Many stage people now depend entirely upon Marmola Prescription Tablets for reducing and controlling fat. One clever actress tells the story of her steady and easily by using this new method of America. The intensity of sunlight in June has been found as high as 9,600 foot-candles, a report of the Council said yesterday. This intensity shrinks almost to 4,000 foot-candles in December.

"The number of fatal accidents is less in the month of greatest daylight," the report stated. A survey of the iron and steel industries of the United States covering five years shows that 40 per cent. of the accidents occur in the daytime and 60 per cent. at night. In yards having deep shadows, 80 per cent. occur by day, and 70 per cent. at night.

Is Freed of Murder Of Ailing Fiance

PARIS, Feb. 8.—Mlle Stanislawna Umiska, beautiful and talented young Polish actress, was unanimously acquitted Saturday of the charge of murder in killing her fiance, Jean Zyganowski, writer and war veteran, last July. Her defence was that she shot him to release him from his sufferings from an incurable illness. The jury was out only three minutes.

DEAD DOG FOUND. A party of young people enjoying a snowshoe tramp near one of the lakes back of Rockwood Park on Saturday afternoon came upon the remains of a big collie dog, who had evidently been thrown in a fight with wild animals. The conflict had been recent, as the marks of blood were comparatively fresh. The dog had been literally torn to pieces. The young people buried what remained of the dog in the snow, which was deep at that place.

IF BACK HURTS FLUSH KIDNEYS

Drink Plenty Water and Take Glass of Salts Before Breakfast Occasionally

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean by flushing them with a mild, harmless salt which helps to remove the body's urinous waste and stimulate them to their normal activity.

Prizes Awarded at Interesting
Jewish School Session Here

Suggestion of Hebrew Speaking Club in St. John is Made.

The members of the Jewish community in the city assembled in large numbers yesterday afternoon for the examination exercises of the children of the Hebrew school. I. Ellman acted as chairman and the judges were Rev. Mr. Saltzberg, Hyman Jacobson, William Webber, Eli Boyaner and Mrs. M. Goldman. The exercises were conducted by A. Babbi, principal of the school, and examinations were conducted in Jewish history, Hebrew, Bible study, reading and grammar. In his opening remarks the chairman stressed the importance of education and the need of supporting the Hebrew school. Interspersed in the examination programme were musical numbers given under the direction of Rev. O. Mandellblat, who also gave several vocal selections. Beh Guss, who represented the Young Jews, spoke of the importance of the Hebrew language as a means of uniting dispersed Jewry in its efforts to establish once more in Palestine a spiritual centre for the nation. He advocated the establishment of a Hebrew speaking club in St. John.

Principal's Address. Mr. Babbi spoke of the various problems that had to be solved in the education of the Jewish youth and in his address touched upon the psychology of children and of education; the great necessity of co-operation between the parents and the teacher and the need

of the creation of a school environment in the home in order to obtain the best results in the child's education.

Prize Winners. Eli Boyaner read the list of winners of prizes, which the judges then distributed. The prizes for general studies were donated by the Ladies' Auxiliary of the Hebrew school and the Young Jews and a prize for best attendance was donated by Mrs. Boyaner. Those receiving prizes were as follows: Best attendance, Sylvia Rozovsky, 100 per cent attendance for general studies, first prizes, Joseph Guss, Helen Selick, Harry Selick, Jacob Guss and Sylvia Rozovsky; second prizes, Leah Babbi, Mary Selick, Sydney Bershtsky, Louis Zebberman and Rose Rozovsky; third prizes, Ethel Fine, Helen Selick, Annie Meltzer, Ben Cohen and Alfred Stern.

The exercises closed with the singing of the Hebrew national anthem and God Save the King. The Hebrew school of St. John is an old institution but during the last few years has been developed to a high degree of efficiency. The building in Carlton street formerly used as a synagogue has been remodelled into modern class rooms equipped with blackboards and school desks. The school conducted here has an enrollment of about 100 pupils who are divided into five graded classes. Classes are conducted daily excepting Friday and Saturday and are held from 4 to 7 o'clock. The pupils attending after the regular public school hours. On Saturday services are conducted by the junior congregation, which is composed of pupils of the school.

ACCIDENTS MORE AS LIGHT WANES

Number of Fatalities is Less in the Month of Greatest Daylight.

NEW YORK, Feb. 9.—More workers are killed during December, when daylight is least, than in any other month, according to the Eyeight Conservation Council of America. The intensity of sunlight in June has been found as high as 9,600 foot-candles, a report of the Council said yesterday. This intensity shrinks almost to 4,000 foot-candles in December.

"The number of fatal accidents is less in the month of greatest daylight," the report stated. A survey of the iron and steel industries of the United States covering five years shows that 40 per cent. of the accidents occur in the daytime and 60 per cent. at night. In yards having deep shadows, 80 per cent. occur by day, and 70 per cent. at night.

SAY CATTLE KILLING METHODS NOT HUMANE

TORONTO, Feb. 9.—"Extreme fear in animals prior to being killed must be a detrimental effect on the meat for human consumption," declared J. M. Wilson, manager of the Toronto Humane Society in his report presented to the annual meeting of the organization. "The killing of animals in abattoirs in Toronto is a blot on civilization," he said. It was his belief that not one per cent. advance in humane methods of killing had been made during the past century.

JOE TEBO SAYS GORMAN ROUNDS INTO GOOD FORM

St. John Man, Home From Saranac, Tells of Races.

THINKS WELL OF CHARLIE'S CHANCES

Declares City Juniors Have Made Big Hit on Circuit.

Joseph Tebo and his son, Tommy, returned home yesterday after attending the big skating meets at Toronto and Saranac Lake. Tommy made an excellent showing both in the Canadian National and International championships. Mr. Tebo, who has attended these classic skating events for several years, says citizens of St. John have every reason to be proud of their boys. The showing of the St. John contingent was the best in skating history and was one of the sensations of the two meets.

In Toronto the skaters had a hard, fast sheet of ice, but at Saranac Lake the weather was warm and the ice was lumpy, soft and heavy. Owing to the high temperature, he said, those in charge had no opportunity either to flood or sprinkle the surface, and these conditions were responsible for slow time and many falls.

Likes Gorman's Chances.

That Charlie Gorman will be in good condition and should stand a good chance to win premier honors at Lake Placid was an opinion expressed by Mr. Tebo. He said he had not been in good condition, but when he left Saranac Lake he was rounding into shape and was confident of making a good showing in the diamond meet.

St. John Juniors.

That Clement O'Connor made a remarkable showing for a boy of his age was generally conceded, said Mr. Tebo. In the mile event for boys under 18 he won the lap prize, which was \$10 worth of clothing, and in the 220 yards he sprinted from the line right to the tape. Willie and Frankie Logan, he said, are the talk of the circuit and their performance has been outstanding. George Fowler also has shown great speed and won consistently. In fact, he said, the entire entry from St. John have won signal honors and are very popular with both officials and fans.

When asked about his son Tommy, he said that he had been skating under a handicap. He had ordered new skates for him, and they were to be awaiting him at Toronto. Instructions were misinterpreted and they were sent to St. John. They were shipped and are now somewhere between here and Saranac Lake. The skates Tommy was using were not suitable, but due to the help of the Smythe of Moncton for second place in the International meet. In the 220 yards he was leading and, when only a few yards from the tape, he was overtaken by the event in the exceptionally fast time of 22-5 seconds.

ST. JOHN MAY GET 1926 CONVENTION

Canadian Barristers' Association Council Recommends Annual Meeting Held Here.

A resolution recommending to the incoming council of the Canadian Barristers' Association, who will be elected at the annual meeting in Winnipeg next August, that the annual meeting for 1926 be held in St. John was passed at a meeting of the council held last week at the Chateau Laurier at Ottawa, according to word from the host of the afternoon by L. P. D. Tilley, who was one of the members from this province at the meetings.

Well Equipped.

Winnipeg was decided on for 1925 as a result of a recommendation of the previous council. The new resolution, he thought, would go a long way towards bringing the convention here. C. F. Sanford, vice-president of the local branch, who was also present, in placing the claims of this city before the council, emphasized the fact that St. John would have a splendidly equipped hotel to handle such a convention. S. A. M. Skinner and M. N. Cockburn of St. Stephen were the other members from the province who attended the council meeting.

PORT CHAPLAIN SPEAKS ON WORK

Methodist Ministers Addressed This Morning by Rev. Dr. Farquharson.

Rev. Dr. Farquharson, port chaplain, addressed the Methodist Ministers' Association, in Centenary Hall, this morning. Rev. E. E. Styles, vice-president, presided in the absence of Rev. Robert G. Fulton, president, who left for Fredericton this morning and expects to return this evening. The other clergymen present were Rev. Hugh Miller, secretary; Rev. A. D. MacLeod, Rev. J. M. Rice, Rev. George Ormish, Rev. William Pepper, Rev. Henry Penna, Rev. John K. King, Rev. William Lawson.

Rev. Dr. Farquharson told the meeting of the number of immigrants arriving from European countries, as well as from the British Isles and gave details of problems connected with the work, especially at the port of Quebec in summer. He told of the distribution of the people throughout Canada and gave interesting facts concerning the religious represented in the numbers entering this country.

Holmes, rector of St. Jude's church, officiating at the marriage of Miss Elsie Lillian Lavinia Baker, daughter of Mr. and Mrs. Hamlin William Baker, of Brighton, England, and Ernest Hammett, son of Mr. and Mrs. Bentley Hammett, of Rapid City, Manitoba, on Saturday afternoon at 4:30 o'clock, in St. Jude's church. The bride, who arrived on the Montclair from her English home, was met here by the groom, who came from his home in the west to claim her. They will leave on Tuesday for their home. The bride wore a smart suit of brown with hat to match. Several traveling companions assembled at the church to witness the ceremony.

New Consul Takes Over Office And Makes Official Calls

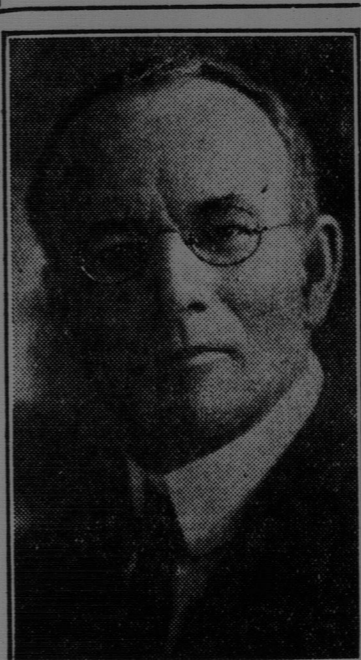

Mr. Wormuth Pays Respects to Mayor Potts and Other Officials.

Romeyn Wormuth, the new United States consul here, spent a busy morning today in making calls and familiarizing himself with the details of the local office. Accompanied by E. H. Carter, who has been acting consul since the retirement of Henry S. Culler, Mr. Wormuth made his first call on Mayor Potts and the city commissioners at their regular Monday morning committee session at City Hall. In a few well-chosen words, he warmly greeted Mr. Wormuth in the name of the city, Mr. Wormuth replying.

Other calls made this morning were on C. B. Lockhart, collector of Customs; Capt. A. J. Mulcahy, port warden; R. E. Armstrong, secretary of the Board of Trade; Alexander Thompson, Postmaster, and James V. Lantieri, Dominion Immigration agent. Mr. Wormuth expects to complete his calls within a few days.

"I have not seen much of St. John since my arrival on Saturday, but since I have seen leads me to think I shall like it," Mr. Wormuth remarked to a reporter for The Times-Star this morning. "Of course, there is a wide difference between the climates here and in New South Wales. Nevertheless, I enjoy my family and myself in the city. The work here also is considerably different from that of his former post, Mr. Wormuth said. Here, a large share of the duties is taken up with immigration matters, whereas at Newcastle, N. S. W., where Mr. Wormuth was previous to coming here, immigration played a small part.

BUILDING MATTER AGAIN DISCUSSED

Committee Will Decide About Fire District Question—Sprinkler System Advocated.

Alterations to the building of E. P. Watson, King Square, also sprinkler systems, were discussed by the city council members in committee this morning.

E. L. Jarvis, James Sproul and E. P. Watson, appeared in support of the appeal of Mr. Watson from a decision of the building inspector that desired alterations to his building could not be carried out in No. 1 fire district.

Mr. Watson had asked that he be allowed to build the house up to the height of the eaves and put on a flat roof instead of the present sloping shingle roof.

Insurance Man's Statement.

Mr. Jarvis said that from an insurance point of view the proposed alteration would make the building less of a fire hazard than present.

Mr. Sproul said that he did not see why the request of Mr. Watson could not be granted when Mr. Lawton had said several firms had been looking into this matter and it was said that quite a saving could be made. One estimate was that, of \$8,876 paid now annually for insurance, about \$5,500 could be saved.

The members of the council expressed the opinion that no harm would be done by having firms interested submit figures.

Commissioner Bullock said that before any purchase was made, public tenders would be called for.

THORNE LODGE OFFICERS.

At the quarterly meeting of Thorne Lodge, I. O. G. T., with the Junior P. C. T., Wm. R. Steen, president, the degree was conferred on a member. Applications were received from six others wishing to enter the order. Election of officers resulted as follows:—Donald Stockford, C. T.; Miss Bessie Thomas, V. P.; D. Owens, secretary; Miss Hazel Roberts, assistant; Wm. R. Steen, F. S.; R. A. Brown, treasurer; Wm. R. Roberts, man; Ed. Cuthbertson, D. M.; Mel. Wade, chaplain; John J. Fitzgerald, guard; Reuben Garland, sentinel; Miss Helen Wheaton, organist; Alfred Garland, P. C. T.; H. P. Gardiner, S. J. W. The officers were installed by the lodge deputy, John McEachern, assisted by E. N. Stockford and R. Stackhouse.

Relatives Here Receive News of Passing of Mrs. Margaret Wynn in Calgary.

St. John relatives have received the sad news of the sudden death of Mrs. Margaret Wynn, widow of Charles Wynn, which took place in Calgary on February 4. Mrs. Wynn was a daughter of the late Patrick and Margaret Murphy of Millstream, N. B., and leaves to mourn one sister, Julia, matron of the General Public Hospital, Calgary, and three brothers, John, George and Frank. Mrs. P. Murphy of 185 Waterloo street is an aunt. The funeral took place in Calgary on the 7th inst. Mrs. Wynn had many friends in this city, who will regret to hear of her death.

Hiram on Tour

SASKATOON, Feb. 8.—Well, sir, I run into one of them here today. "Chinooks" out here yesterday. They was a change of about forty degrees in the weather in no time. Down to Calgary they say it was sixty degrees. Here it was with my rabbit-fur cap an' big overshoes an' heavy coat—sweatin' around like a good feller when I orto 'ave hed on a spring overcoat. When I said so, Walter Murray, he says to me, says he "You may need 'em afore the week's out— that's a wally weather he's up here."

Well, sir—Walter took me to supper tonight an' we herd a great talk over old times when his folks tramped up to English Settlement in March. The funner took place in Calgary on the 7th inst. an' started in to make a home. Walter talked about the Scotch folks that come out to New Bruns'wick in the lumber ships way back in the thirties of the last century an' settled on the St. Croix an' around St. John an' in Kent an' the Merimachi an' Resi-guiche—an' helped to build up the province. An' here he is the head of a college—that's cost over three million dollars—an' he's near a thousand scholars besides five or six hundred in day classes. Hooley for English Settlement—By Hen!
