C. Humphrey Taylor

THE OREGON MANILLA IS SAFE VICTORY.

No Engagements Yesterday.

LISBON, May 9.—The newspapers state that the Spanish fleet consisting of nine vessels passed Cape Espichel twenty one miles south by west of this port at about 1.30 yesterday. The vessels were steering a southerly course.

ST. THOMAS, West Indies, May 9.—The Spanish cruiser Isabella II an iron vessel of 1930 displacement and carrying a crew of about 130 men arrived here at six this morning. Her commander communicated with the Spanish governor at this port and the cruiser cleared immediately destination unknown. No news has been received here of any engagement yesterday.

BAHIA, Brazil, May 9.—Battleship Oregon arrived here at 6.40 a. m.

Fight Tomorrow.

There will probably be a terrible naval battle off Manilla tomorrow. There are about 17 Spanish vessels and Admiral Sampson's great fleet to come together in a fearful bombardment. The conflict may be decisive in its results.

The Manilla battle was one of the most remarkable in the world's history, resulting in total destruction of the one party and not a single fatality in the other. The Spanish vessels were all destroyed and 1000 men were killed. No American vessel was injured and only six men were wounded. The Spaniards circulated the word in Cavite that the Americans intended massacring the city, and as the latter landed, priests and sisters came and implored mercy.

The Americans won a complete victory in Manilla.

Fire at Knowlesville.

Yesterday (Sunday) forenoon the dwelling and outbuildings, including three barns, belonging to Leonard Doucette of Knowlesville, were burned to the ground. The contents of the outbuildings and all his farm machinery were destroyed. The household effects were saved in a more or less damaged condition. The origin of the fire is the same old story of children and matches and a straw mow. There was no insurance, and Mr. Doucett estimates his loss at \$3,000. A granary was the only building saved.

Married Today.

John Avery of Knowlesville and Miss Ida May Coates of St. John were married at the residence of W. S. Henderson, Hartland, this afternoon, and departed for their future home at Knowlesville. Rev. J. B. Daggett performed the ceremony.

MANILA, May 1.—The squadron arrived at Manila at daybreak this morning. Immediately engaged the enemy and destroyed the following Spanish vessels: Reina Christina, Castilla, Ulloa, Isle De Cuba, General Lozo, he Euro, Corre, Valasco, Mindanec, one transport and the water battery at Cavite. The squadron is uninjured, and only a few men were slightly wounded. The only means of telegraphing is to the American consul at Hong Kong. I shall communicate with him.

(Signed) DEWEY.

WASHINGTON, May 7.—Assistant Secretary Vanderlip has received a cablegram from a friend who was on the McCulloch during the great naval engagement at Manila, in which he says: "The Spanish fleet of eleven warships was destroyed totally. Best of all, no American ship was lost or even damaged. No American was killed and only six Americans were injured."

In brief, Dewey states that he has silenced the batteries completely, but he cut the cable himself and he has the bay and everything else completely at his mercy. But he has been unable to take possession of the town of Manila for the lack of men.

WASHINGTON, May 7.—A second despatch from Admiral Dewey announces that he has taken the fortifications and had effected a landing at Cavite. He had 256 wounded Spaniards as his prisoners, and the town of Manila was at his mercy and could be taken at any time. He said he was not in serious need of anything at present.

WASHINGTON, May 9.—The House passed the Senate bill authorizing the army to feed Cubans and to arm the people on the Island of Cuba.

NEW YORK, May 9.—A special cable despatch to the World from Hong Kong says despatches signed by Dewey have been sent to Washington recommending surrender of Manila be demanded.

MADRID, May 9.—A special despatch from Madrid says orders have been sent to Governor Hagner at Augusti to resist to the death an attack on Manilla.

Died this Morning.

Dona, little daughter of George Cox died very suddenly this morning of heart disease. She had been ill for some years, and there was no prospect of her recovery from the first. However her physician said she might live some years, with the possibility of dropping off unexpectedly. This she did this morning, having been particularly unwell since last evening. She was 12 years of age.

The funeral will be held tomorrow at 2 p. m. Rev. W. B. Beliss, curate of Woodstock will conduct the services.

PUBLISHED TRI WEEKLY.

SUBSCRIPTION RATES:—This paper will be sent to any address for \$100 a year always providing the amount is paid in advance; otherwise \$1.50 will be charged and collected.

FRED H. STEVENS, - Editor & Publisher

HARTLAND, Carleton Co., N. B.

P. O. Box. 17.

Facts and figures concerning Cuba, "the bone of contention," makes interesting reading nowadays. The Island which is but 90 miles from the American coast, is 730 miles long, of an irregular crescent shape. Its average width is 80 miles. Its area in square miles is 41,319, or with its adjacent islands, nearly 44,000 square miles. Therefore it is about half as large again as New Brunswick. Characteristics of the Island are the mountain districts in the interior, and the low, flat nature of much of the coast, which is difficult of access on account of the reefs and small islands. But it has many excellent harbors, including Havana, Matanzas, Bahia Honda, Mariel, Neuvitas, Nipe and Cardenas on the north and Santiago de Cuba, Trinidad, Guantanamo and Cienfuegos on the south side. Before the insurrection the population of the island was 1,600,000. Nearly 20,000,000 acres has never been explored, being a dense forest, but the soil is wonderfully rich and productive.

The highest temperature is rarely above 82 degrees, while the average the year around is 77, therefore it is one of the most equable climates in the world.

The chief exports are sugar, coffee tobacco, but there are unrivalled resources for iron, coal, hardwoods, and even gold.

The population is divided into 1,000,000 whites, about 500,000 negroes, and 50,000 Chinese.

APHORISMS

The mind grows narrow in proportion as the soul grows corrupt.—Rousseau
Any man may make a mistake, but none but a fool will continue it.—Cicero

I mean to make myself, and if I succeed in that I shall succeed in everything else.—James A. Garfield

It is impossible to live pleasantly without living prudently and honorably and justly without living pleasantly.—Epicurus

Wall paper in beautiful patterns, with borders to match at R. P. & Co's.

Want to Fight.

Herbert Lovett, a well known character of Gibson, who recently did up a couple of local constables, is now anxious to exercise his fighting powers on the belligerent Spaniards. He took his departure for Houlton this morning for the purpose of offering his services to Uncle Sam, through the governor of the State of Maine.—Fredericton Herald.

Large line of sponges for school: 1, 2, 3, 3. & 5c.; baby sponges, 3c. up; toiled and bath sponges 12c. to \$1.25; carriage sponges 15 to 75c.—Estey & Curtis.

Feminine Dairy Wisdom.

Farmers that feed just enough to keep their animals alive are losing money every day.

The market in most places is not properly supplied with freshly made butter during the winter months.

One-half pound prints are very neat and a convenient size to use.

Fold each print in parchment paper or new cheesecloth. Be sure and give full weight.

If you supply a dealer see to it that he keeps your prints in proper place, i. e., not mixed up with cheese, bad butter, and all sorts of contaminating articles.

Handle your product so well that when your name is seen on a package it will be a guarantee of perfection. If you do this, and you can, your fortune is made.

Keep the dairy cattle in a stable by themselves. The heifers should never be put off in a dark, cold stable.

Remember that in winter cows eat more dry feed than in summer and consequently need more water. It should be accessible at all times: pure, fresh but not too cold.

Never employ an ignorant lunkhead of a man to care for cows.

The cattle will soon tell you of their treatment in your absence if you are a little observing.

The milker should be clean, and should not use tobacco.

Milk with dry hands always.

Do not leave the milk standing in the stable until the "chores" are all done, but take it at once to the dairy-room and strain it.

Never mix fresh, warm milk with that which has been cooled.

Never close a can tightly which contains fresh, warm milk or cream. It should first be aerated.

Never use old and rusty cans or pails. It is an economy to throw them away and get fresh bright ones.—Dorothy Tucker, in Farm Journal.

Local News

AND OTHER MATTERS

The river is still at freshet height with good prospect for the corporation drive.

The much needed work of constructing new sidewalks commences this week.

L. E. McFarland has erected a verandah in front of his residence making a marked improvement in the appearance of the building.

Last evening Rev. J. B. Daggett, of the Free Baptist church, delivered an impressive sermon: Scenes and Incidents in the life of Samson, with their Accompanying Lessons.

The annual meeting of the British and Foreign Bible society will be held in the Methodist Church on Wednesday evening, 11th inst., Mr. McKelvie the great agent will be present and address the meeting.

Prof. P. V. Fox, of Milltown, N. B., has been employed as instructor by the Band. He is a man well qualified for the position, and is liked by the boys.

Prof. Fox is also a skilled violinist, and a tenor singer. Tomorrow night he will endeavour to form a class in vocal instruction in the vestry of the Baptist church.

There was an interesting entertainment at the Baptist Sunday School yesterday afternoon, the occasion being the first anniversary of the organization. Singing and recitations formed the principle part of the program. It was shown that in its first year the school had made good progress, its membership having greatly increased. Much credit is due Miss Effie Reid for the assistance she rendered in the preparation of the program.

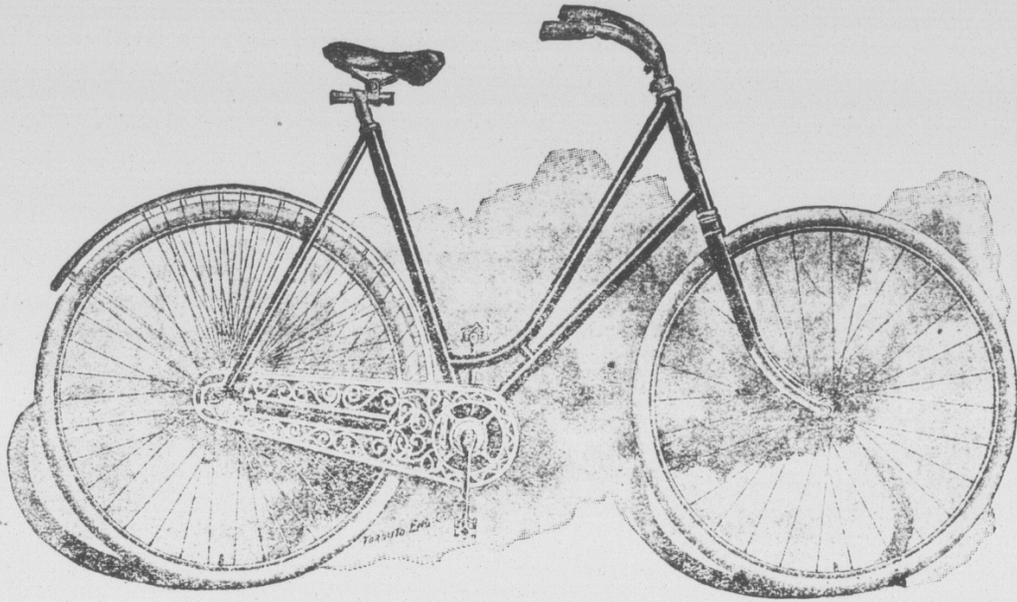

The condition of the main highway road at a point immediately this side of the Becaguimac bridge is in a wretched condition, such that it menaces the safety of those who pass with horses or bicycles. There is a dangerous wash-out and a culvert has collapsed. The matter should be attended to by the proper authorities.

Commencing on May 16th, the Canadian Pacific Express leaving Halifax at 7.00 a. m., and St. John at 4.10 p. m, daily except Sunday, will connect at Montreal Jet. next morning, Sundays excepted, with through train for Chicago, arriving Chicago early following morning, and running time being from Halifax to Chicago, about forty eight hours.

The editor of Butler's Journal is having a hard time this week. His whole family, consisting of his wife and baby and his wife's daughter, are down with the measles. Martin has to nurse them and get the Journal out besides, having tried in every available place, and being unable to find a soul disposed to lend a helping hand.—Fredericton Gleaner.
