ALDERMEN OPPOSE
FENTON LOAN CO. BILL

Don't Want Any More Corporatious Bossing St. John

Stirling Co.'s Application Also Referred to Sub-committee—Lancaster Loan Co.'s Bill Approved.

FREDERICTON, Mar. 10.—St. John men filled the committee rooms this morning, the day having been set aside for the consideration of the city's legislation. In the absence of Mr. Shipp, Mr. Burchill presided in the corporation committee. Three bills were taken up, "The Fenton Loan Company," "The Sterling Loan Company," and "The Lancaster Loan Company."
The last bill received the unanimous support of all. Ald. Baxter stating on behalf of the city that the council had no objection to offer. The other bills brought forth some lively speeches. AM. Potts, Mr. Wilson and Recorder Skinner being the chief spokesmen. Ald. Potts took strong objection to the bills on the ground that the council had no information regarding the legislation sought. He claimed that Saint John was one of the cities that suffered most from legislation. Those companies were owning everything under the earth above the earth and in the earth. Recorder Skinner thought there was no serious objection to the bills except the last section which gave too much privilege. Mr. Wilson said that though he had introduced the bills he had only done so because he did not want to be considered the promoter. He said copies of the bills had been sent to the aldermen, but Ald. Potts replied he had never received one. Ald. Baxter said that it often transpired that bills were introduced into the legislature of which the council had not sufficient knowledge and he would suggest that it would be a good plan for the standing rules committee to make a rule that copies of all bills in which a city or municipality is interested should be filed with either twenty days previous to the opening of the legislature. By that means the localities affected would know what was sought. This idea met with unanimous approval and there is little doubt but that it will be made.
The chairman said that there was little objection on the whole to the substance of the bills and that they could be so amended as to make them acceptable to all parties. He appointed a committee consisting of the members of the city and the county of St. John to amend the bills, such committee to have power to add to its number and report back.
FREDERICTON, N. B., March 10.—The corporations committee, which was formed to consider the Fenton Loan Building Co. Ltd. Some discussion took place on the question of powers sought by the proposed company to acquire and maintain the public streets, in which Messrs. C. Skinner, J. B. M. Baxter and J. King Kelley took part from the legal standpoint.
Petition was read from the St. John City Council asking that the company be excluded from exercising any of its powers within the city.
Mr. Lowell looked upon the proposals of the bill with a good deal of suspicion and wanted for the appointment of a sub-committee to prepare some amendments in accordance with views suggested by the discussion.
Mr. J. E. Wilson took a very strong stand on the matter in which bills of this nature were brought before the legislature.
Public rights might be seriously affected by the fact that these authorities were often in ignorance of the petition to apply for legislation until the last minute and he thought that the standing rules committee before taking up consideration of these bills or petitions in support of them should require evidence that a copy of the proposed bill had been in the hands of the municipalities affected at least two weeks before the opening of the legislature.
Ald. Potts also spoke in opposition to the bill, remarking that St. John was already so full of companies and corporations which wanted everything between them that ordinary citizens could scarcely obtain even enough air to breathe.
After Ald. Vanwart had also been heard in opposition to the bill it was decided to refer it to a sub-committee for further consideration.
A bill to incorporate the Sterling Realty, Limited, was taken up and referred to the sub-committee appointed on the preceding bill for similar reasons.
The bill to incorporate the Lancaster Loan, Ltd., was agreed to with some small amendments.

FARMER AND TEAM
FROZEN TO DEATH

Three of One Family Dead, and Another Dying

How School Organizers Prosper in Manitoba — Workman Spilled Two Pails of Acid on Himself.

WINNIPEG, Man., March 10.—Before the public accounts committee a man named Baderaki, employed by the Government as a school organizer among Bulgarians and Poles, but in reality a political organizer with a salary of \$75 per month, admitted he had organized only three districts in two years and that during the last year he had been out of the city only thirty-two days. One of the three districts referred to is also claimed by another organizer who acts in a similar capacity.
LONDON, Ont., March 10.—Three children dead within a week and the fourth dying in the terrible devastation that scarlet fever has made in the family of R. H. Ciesse of this city. The third death took place last night. Of the several cases in hospital only one probably will recover.

PROVINCIAL HOSPITAL
ACCOUNTS PUT THROUGH

No Objection Taken to Any Expenditures — Dr. Anglin Present to Explain the Items.

FREDERICTON, N. B., March 10.—The public accounts committee met this morning and went through the bill relating to the Provincial Hospital. The superintendent, Dr. Anglin, was present and when requested gave an explanation of the several items of certain charges. He explained that tenders were called for in all cases.
Mr. Labonté said that he thought that the correctness of the management of the institution depended entirely upon the judgment and reliability of the superintendent and that the committee had little to pass upon, all the papers and the accounts were passed and the meeting adjourned.

ALMS HOUSE BURNED;
ONE AGED INMATE DEAD

Nurse Vainly Risked Her Life to Rescue the Victim—Panicked When Fire Broke Out.

NEW YORK, March 10.—Burned out of house and home was the ill fate added to the affliction of poverty of the inmate of the almshouse at Hemlock, N. B., which was destroyed by the fire today. One aged inmate was killed and another seriously injured. The fire broke out at 10 o'clock and was extinguished at 11 o'clock. The fire was caused by a gas stove in the kitchen. The fire spread rapidly and the inmates were ordered to evacuate the building. A nurse risked her life to rescue the victim, but she was unable to do so. The fire destroyed the almshouse and the inmates were taken to the hospital.

APPOINTMENTS IN THIS
WEEK'S ROYAL GAZETTE

FREDERICTON, N. B., March 10.—This week's Gazette contains the appointments of G. W. Palmer to be a member of and chairman of the Board of Commissioners of Kings County Municipality, in place of James A. Moore, deceased; also of W. H. McLaughlin, M. D., as chairman of the school trustees of Milltown, in place of Dr. Deacon, deceased.
Edward J. Grondin, trader, of Grand Falls, has assigned to Sheriff Tibbatts of Victoria.

WESTINGHOUSE PLANT
DAMAGED BY FIRE

PITTSBURGH, March 10.—Fire caused by crossed electric wires early this morning destroyed the storage battery department of the Westinghouse Machine Company plant at West Pittsburg causing a loss of \$75,000. Besides the buildings, several engines, a large number of storage batteries and many motors were destroyed.

LITTLE INFORMATION
ON BANK SITUATION

Looking for Bad News When Any is Given Out

Brothers of Cashier of Defunct Institution Only Ours to Assign So Far—Other Merchants Will Weather Storm

ST. STEPHEN, N. B., March 10.—The bank situation remains unchanged since Monday morning. Not a word has been given to the people so vitally concerned by the uncertainty and only surmise can be indulged in as to the actual condition, but the feeling gains ground that the management of affairs has been very slack, to call it by no other name, and that not much of comfort can be expected from the official report.
To the present time only two business concerns have been unable to continue. C. C. Whitlock, who did a grocery business in Chatham, assigned with liabilities of \$45,000 and assets of \$10,000. W. H. Whitlock's livery stable is out of operation, due to an attachment issued yesterday for rent due on the premises occupied. Both of these are brothers of the recent cashier of the defunct bank and that institution has been carrying them for a long time.
All the other concerns have ridden the first waves of the storm successfully and, as the banks are showing a commendable desire to assist, it is believed that there will be no serious difficulties.

TAXES MUST BE PAID
BEFORE MARCH 20TH

To Qualify for Vote in Civic Elections

\$4,000 for Rockwood Park Too Much—Other Sections St. John Bill Agreed to—Monotous Election Bill.

FREDERICTON, N. B., March 10.—The municipalities committee met this morning, Mr. Munro in the chair. Representatives of the Labor Council and City Council of Moncton stood by the bill relating to the qualification of electors in the Moncton civic elections.
The St. John bill relating to civic elections was next taken up and was agreed to with an amendment proposed by Ald. Kelly to fix March 20th as the last date for paying taxes to qualify for voting in the civic elections and an amendment proposed by Mr. Lowell and favored by Ald. Sprout, Potts and Kelly to make it possible to provide additional polling places in the larger wards it being pointed out that in Prince ward at the last election the facilities were insufficient for all the electors to exercise their franchise.
The bill relating to levying and assessing rates and taxes in St. John was also taken up and Hon. Robert Maxwell and Mr. Wilson urged that \$1,000 be specified in the bill as the annual contribution from the city to Rockwood Park. Ald. Baxter also favored such a provision but it was opposed by Mr. Lowell.
Other resolutions were agreed to also without amendments. Ald. Baxter speaking on the excellent financial position of the city and the bill was intended to authorize what had been done and to allow the good work to continue.

CHIPMAN DENIES
JEWELRY CO.'S FAILURE

Issues Statement From His Boston Office That the St. Croix Co. Has Not Suspended.

BOSTON, March 10.—J. D. Chipman, vice-president and director of the St. Stephen Bank, who has an office at 45 Milk street, this city, issued a statement today in which he denies the report that the St. Croix Jewelry Company had assigned for the benefit of its creditors, Mr. Chipman and Julius T. Whitlock, cashier of the bank, comprise the Jewelry Company.

LUPU'S FRIENDS DEMANDED
MONEY FROM GARUSO

NEW YORK, March 10.—Detectives assigned to investigate the Black Hand letters recently sent to Enrico Garuso, the tenor, say they have discovered a clue which indicates that the Black Handers were pals of Ignazio Lupu and his band of confederates recently sentenced to prison and that the money if given was to have been used in an effort to free the men.
The sum of \$15,000 which was demanded of Garuso under pain of death would be quite sufficient to defray the lawyers' fees for the effort to get a new trial for the counterfeiters.

DUEZ'S DEFALCATIONS
TOTAL \$2,000,000

No Further Arrests in French Scandal

Prisoner Was an Expert in Juggling His Work—Quick Turnovers at Large Profits.

FARIS, March 10.—No further arrests had been made today in connection with the discovery of a shortage of something like \$2,000,000 in the accounts of M. Duez, one of the liquidators of the church properties taken over by the state. The severe criticism of the judicial authorities for the lax control exercised over the liquidators, continues, however, and the prosecuting attorney's office especially is being attacked sharply. The most fantastic details of the methods employed by Duez are published. According to these he obtained a commission of \$3,000 on the sale of the Stanislas College property and gave a long lease of another property for \$2,000 which lease was immediately sub-let for \$8,000.
The Journal gives some interesting figures regarding the deterioration of the property of non-authorized congregations and teaching order which former Premier Waldeck-Rousseau originally estimated would realize \$200,000,000 for the state. After inventories had been made the estimated figures were reduced to \$100,000,000 and subsequently to \$50,000,000, when the church issued a decree of excommunication against the purchasers.
As a matter of fact the gross receipts thus far from the property amount to only \$15,000,000, of which latter sum \$13,000,000 has been expended in the adjudication of claims against the property and in other costs including attorney's fees, expenditures and commissions to the liquidators.

MOTHER AND FIVE
CHILDREN DEPORTED

Husband in South Africa is Missing and They Were Destitute—Nine Others Arrived Today.

Fifteen persons who are to be deported and two other proteges arrived in the city today from Upper Canada and western zones in charge of Mrs. Killeen, Mr. Blanchard and another official.
A very pathetic story accounts for the deportation of one family which was among the party. The family, whose name is Harris, consists of a mother, a sweet faced little child of evident refinement, and five small children, the oldest of whom is not more than ten years old. They belong to Leeds, England, and some time ago the husband and father left for South Africa to seek his fortune. While he was away his family came to Canada to visit his mother and await his return. For some time now no word has been received from Mr. Harris and his wife had reached the end of their resources. The mother-in-law was not anxious to keep them with her longer, and as the care required by the children made it impossible for the mother to earn a living it became necessary under the law to deport them.
They go back to England now with a very dreary prospect ahead of them. Another sad sight was presented by an aged woman who accompanies the party of her own will in order to care for her demented son who is being deported.
A young man who lost a leg in an accident and thus threatened to become a public charge to his relatives. One woman and five men, all more or less affected mentally, compose the balance of the deportees. An old Anglican clergyman who is returning to England, also accompanied the party, but was not at St. John by friends who took charge of him.

GERMAN SPY WATCHING
THE NAVAL DEBATE?

OTTAWA, March 10.—That a secret service agent in the employ of the German government has been watching the naval debate and sent particulars to Germany leaked out last night. The man has been in daily communication with his home government. Throughout the entire debate he forwarded the opinions of the leading members. He has been doing this work during the last five weeks.

RIFLE ASSOCIATION
PLANS YEAR'S WORK

At the annual meeting of the City Rifle Association, held last evening, the following officers were elected for the ensuing term: Captain, N. J. Morrison; secretary treasurer, James G. Sullivan; managing committee, Herman Sullivan, L. A. Langstroth, R. A. C. Brown and E. S. H. Murray. The secretary's report showed the total receipts for the year to be \$354.62. It was decided to have the regular weekly matches this summer with three classes, viz: Class A, 25 points and over; class B, 75 points and over; class C, all under 75 points. The season's shooting will open with a match at the range on Good Friday afternoon at 1.30.

HE DIED WITHIN TWO
FEET OF FRESH AIR

Another Snowslide at Field Buries Locomotive

Wild Taik From Quebec Orangemen—Mailing Letters in Garbage Tins—Italian Murdered.

VANCOUVER, B. C., March 10.—After dodging another snowslide which all but nipped them, the coroner's jury chosen to investigate the Rogers Pass slide returned to Revelstoke yesterday. The inquiry developed one pathetic feature. Foreman McDonald, one of the victims of the slide, was an exceptionally heavy and strong man, and after being buried in the slide he evidently retained enough consciousness to start to fight his way to the surface. He had gained two feet and a shell of only two feet of snow remained between him and the open air when he suffocated. There was not a bruise on his body.
An avalanche descended at Field yesterday and engulfed a switch engine. Engineer Howard McKee and Fireman Leanderman escaped and Foreman Lalprairie was buried but rescued. He sustained a broken leg.
MONTREAL, March 10.—The provincial Grand Lodge of Quebec of the Royal Orange Association closed its annual meeting here yesterday. David Madden, Montreal, being elected and installed as grand master. The meeting strongly opposed the civic grant of fifty thousand dollars towards the coming Eucharistic Congress. The retiring grand master, Singleton, in his address stated that the real meaning of the holding of this congress was the annual meeting here yesterday, David Madden, Montreal, being elected and installed as grand master. The meeting strongly opposed the civic grant of fifty thousand dollars towards the coming Eucharistic Congress. The retiring grand master, Singleton, in his address stated that the real meaning of the holding of this congress was the annual meeting here yesterday, David Madden, Montreal, being elected and installed as grand master. The meeting strongly opposed the civic grant of fifty thousand dollars towards the coming Eucharistic Congress. The retiring grand master, Singleton, in his address stated that the real meaning of the holding of this congress was the annual meeting here yesterday, David Madden, Montreal, being elected and installed as grand master.

PONTIFICAL MASS
AT THE CATHEDRAL

On the Ninth Anniversary of the Death of Bishop Sweeney.

There was a very large congregation at the Cathedral this morning when a pontifical high mass of requiem was celebrated for the late Rev. Dr. John Sweeney, former bishop of the diocese of St. John. The office commenced at 9.30 o'clock, the mass shortly before 10 o'clock. His Lordship Bishop Casey was the celebrant. Rev. A. W. Meahan, master of ceremonies, St. O'Keefe, sub-deacon; and Rev. V. Chapman, V. G. high priest, and Rev. William Duke, master of ceremonies.
After the mass Bishop Casey made a few remarks, in which he spoke of the zeal of the late bishop. He urged his hearers to continue their prayers for Bishop Sweeney. He said that Dr. Sweeney's good works would long be cherished by the people of the diocese. Today was the ninth anniversary of the death of Bishop Sweeney.
At the Cathedral tomorrow morning the services of the Forty Hour Devotion will be opened with high mass. Each evening special sermons will be given.

HALLEY'S COMET IS IN
SIGHT EVERY EVENING

Get a Telescope and Take a Look at It, Over in the West, After Sunset.

CAMBRIDGE, Mass., March 10.—Halley's Comet may now be seen on nights when conditions are favorable with the aid of an ordinary field glass. The most favorable time to look for it is between 6.30 and 7.30 p. m. with the glass elevated somewhere above where the sun sets. The Harvard Observatory forces have the wanderer focused nightly on their big telescopes and some interesting photographs of its development are being made.
Prof. E. C. Pickering, director of the Harvard Observatory, says: "The comet is at present in the twilight region. It is in the line of the sun and its brightness is dimmed by the lustre of the great centre of the solar system. Besides it has not yet attained its maximum brilliancy. That will be May 18. It will be visible all through April, but at its brightest in May."
"About that time, if clouds do not obscure it, it will be a dazzling sight. About a third of the heavens will be colored with a fiery glow, its great flashes of light will play from one part of the heavens to another and the night will be remembered for generations. Halley's comet has been noted for its brilliant displays."

THE STAR, ST. JOHN N. B. THURSDAY, MARCH 10 1910

LONDON RACE WILL BE NOTABLE EVENT

Prominent Runners Will Take Part in Big Marathon

Interesting Budget of British Sporting News—Fred Welsh Has a Chance to Box.

LONDON, March 9.—It looks as though the Indoor Marathon race in the Agricultural Hall (London) will be a success.

Followers of running in England are amused at the joke about Alfred Shrubb seeking a position as coach at one of the American universities.

That bright little paper "The Athletic Field," recently referred to in the columns of "The Star," has been published in a new form.

Fred Welsh had a further chance of re-establishing himself this week when the National Sporting Club offered a purse of £1,000 for the contest between the Welshman and Tucky McFarland.

Welsh's best friends will be sorely disappointed, to say the least, while the London Sporting Life makes the following announcement:

The defeat of Battling Nelson by the man he boasted he would relegate to the wood pile, is a mystery.

Mention of Willie Lewis recalls his contest with his namesake Harry at Paris last Saturday.

A boy died recently from blood-poisoning in a wound which had only been inflicted a few days.

The microscopic germs, which are able to cause blood-poisoning and death, cannot be seen by the human eye.

GREAT BRITAIN'S NAVY ESTIMATES

Expenditure of \$203,018,500, an Increase Over 1909

Five Armored Ships, Five Cruisers, 20 Destroyers and Submarines—Plan for Retort of Lords Monday.

LONDON, Mar. 9.—The navy estimates for 1910, which were issued by the admiralty tonight, provide for an expenditure of £203,018,500, an increase of £27,865,000 over 1909.

The new programme provides for five large armored ships, five protected cruisers, twenty destroyers and a considerable number of submarines.

The estimates further provide for an increase of 3,000 men in the personnel of the navy and the completion during 1911 of two floating docks to accommodate the largest battleships.

Reginald McKenna, first lord of the admiralty, in an explanatory statement, announced the formation of a new naval mobilization department, and a permanent navy war council.

Lord Rosebery has been in consultation with a majority of the members of the upper house, there is little question of the resolutions presented the general views of the Lords on the subject of re-organization.

The first resolution will affirm the necessity for a strong and efficient second chamber for the well-being of the state.

But have you realized that as a means of clearing and beautifying the skin, it is the most effective remedy for pimples, blackheads, roughness and redness of the skin.

The cold winds of winter and spring bring about a condition of the skin which is often called "winter itch."

Willie Keeler, the veteran outfielder released by New York Americans, says that he will either play with Toronto or New York Giants this season.

WAS STUNG AT THE PARK AVENUE

Drummer Drops \$250 at the Musty Coin Game

California Man Meets the "Manager" and the Highest Liver of All—They Match.

NEW YORK, March 9.—Kenneth F. Willis, a travelling salesman from Oakland, Cal., came to town last Friday and stopped at Hugh Steyer's hotel at Fourteenth street and Seventh avenue.

At the Park Avenue Mr. Hall chose a secluded table where was an impressive person walking around in a dress suit and twitching the tablecloth.

Then the \$500 a night man said, "Let's match for \$1,000." Mr. Willis, receiving the humor of the situation, matched and won.

Dr. Rudd Tells Advertising Forum That the President Should Have One.

NEW YORK, March 7.—In an address at a public meeting of the advertising forum in the West Side Young Men's Christian Association last night, Dr. Channing Rudd said that it would be to the advantage of the country to have a president who was a trained press agent.

UNNATURAL THINNESS EASILY CORRECTED

By Clever Prescription Which Can Be Filled at Any Drug Store

NO NEED TO BE THIN NOW AS REPORTS SHOW THIS METHOD EFFECTIVE.

People who are very thin and scrawny ought not to be so. Undoubtedly they are more subject to disease and contagion than those who are normally fleshy.

COAL—American Anthracite, Scotch Anthracite, Old Mines Sydney Reserve. Delivered in bulk or in bags. Prices Low. R. P. & W. F. STARR, Ltd. 49 SMYTH ST., 14 CHARLOTTE ST.

GETTING RID OF A NAVY.

While Canada is planning to acquire a navy the Government of the United States faces a problem of equal magnitude in its efforts to get rid of one. The policy which has led it to keep up a fleet of antiquated hulks of various kinds in order to make a good showing on paper has led to a situation which must be faced and which demands the display of considerable courage in the process. Speaking of the need of naval reform the New York Sun says:—
"Secretary Meyer, who is urging a sale of obsolete naval vessels, for which the authority of Congress must be had, says by way of illustration that the gunboat Detroit has been out of commission for several years because it costs too much to navigate her. The Detroit should have been sold some time ago to anybody who could find a use for her. Doubtless Mr. Meyer has also in mind more than one of our converted cruisers which would return a profit as carriers in the banana trade but are a joke in the navy. There are auxiliary—yachts, tugs, etc.—that are not worth keeping for naval purposes. "Perhaps several scores of superfluous vessels could be found on the naval list. They should be sold or broken up. "We must show some courage in approaching this question," says the Secretary. "and condemn a lot of obsolescent vessels on which we are lavishing money needlessly. "Hitherto sounds severe, but the American people must face the fact that the list of obsolescent vessels is growing rapidly increasing."

FUTURE OF PHILIPPINES

A new phase of the Asiatic problem is shown in the desire of the Philippine insurgents to hitch up with Japan in the hope of ultimately securing their independence from their little yellow brethren. That such a hope is unduly optimistic is the opinion of those who have followed the policy which has guided the Japs since they started on their career as a world power. Commenting on the situation the Montreal Star says:—
"Not in ten years nor in many more, if one may judge from present indications, are the United States to see the solution of the problem which began with the taking over of the Philippine Islands. Education, etc., and there is no doubt that wonders have been accomplished in this line—has not reconciled the Filipino to the loss of his independence, nor the many new liberties he enjoys blinded him to the realization that America, as far as his national aspirations are concerned, is quite as remote and as uncomprehending as Spain herself. "The latest machinations of the Filipino Junta, which still busies itself in Hong Kong, have to do with what would eventually form a war between Japan and the United States, and is based upon the belief that Japan would, in case of victory, be willing to "guarantee the independence" of the islands. It is possible that the Filipino patriots have had exceptional opportunities for understanding the Japanese national character and forecasting what attitude Japan would take under these circumstances, but what recent history has taught us of Japanese methods and Japanese ambitions, right or wrong, however, it does show the existence of a sentiment which may and very probably will, have far-reaching economic effects. Japan, as the champion of the Occident, would be much more dangerous as an antagonist than Japan, which was waging industrial war and busy itself with the intricacies of diplomacy for her own aggrandisement."

PATRIOTISM VS. PROFIT.

The influence which are at work to cause the people of the United States to demand the construction of warships on the great lakes are indicated in a recent article in the Toronto Globe, which reads as follows:—
"A movement in the United States Congress looking toward the building of war vessels on the lakes is a reminder that the wisdom and beneficial results of a law or a treaty are no assurance of permanence. As soon as public intelligence falls below the level that established a good system there will be a move to undo what has been accomplished. It is not likely that the present average intelligence in the United States, the indifference of the scattered and diversified millions, the extensive foreign population, and the dangerous activity of concentrated wealth would now adopt any treaty as wisely in the public interest as that which keeps the lakes free from the perpetual menace of naval armament. And it would be over-sanguine to expect this same diversity of interests and indifference to preserve without interruption the good arrangement inherited from a time of higher general intelligence."

Dangerous for cheap labor and for the sake that crowding gives to property has brought a cheaper grade of

citizenship and a lower average of political intelligence. The classes who have profited by the change will be made to pay the penalties in many indirect ways. The shipbuilders and the various interests commercially related to them are behind the movement for the building of war vessels on the lakes. No one else takes any special interest in the matter. But this active and organized force can easily influence a great mass of popular indifference and ignorance. There is not a countervailing intelligent patriotism such as would under better circumstances drive from public life any politician who would openly lend his aid toward the terminating of the present beneficial treaty. It has continued until now as one of the world's greatest influences for peace. It has been an example to the nations. It is still possible to preserve it, but all who recognize its importance and appreciate its good influence must make every possible effort to frustrate the dangerous influences that are now in evidence.

N. B. EXHIBIT WILL GO TO CHICAGO

Moose and Bear Make Big Strike in New York—Chicago Manager Takes Trip East to Secure Them.

Edward Mensies, of Strathadam, Northumberland County, was in the city yesterday on his return from New York, where he attended the Sportsman's Show. Mr. Mensies said that the provincial exhibit proved the most attractive at the show. He was especially pleased over the success of the exhibit, which was the best that has been seen for several years. Leading American and Canadian sportsmen were in attendance. The New Brunswick exhibit of moose and bear will be one of the chief attractions at the big Chicago show, which opens on March 12. J. W. Gilch will superintend the removal of the exhibit from New York. Mr. Harry Allan will accompany the exhibit. The manager of the Chicago show made the trip to New York with the special purpose of procuring the New Brunswick exhibit.

TO SAVE TROUBLE

When the housewife is preparing home-made dishes with cold meat which has been left over, she tries to give a new relish to the dish by adding various kinds of spices and seasonings. How frequently the result is a failure! Just a little too much pepper and the dish is too hot, or a delicious blending of the choicest Oriental fruits and spices, and pure mull-winger, is not beyond the mark to say that a bottle of H. P. is a crust in itself. Just a spoonful of what's in a hat—and the success of the dish is assured. What trouble it saves! No wonder the best housewives always keep a bottle of H. P. Sauce handy. It is useful in so many ways. Just a few drops in the soup, or with hot or cold meat, fish, or even bread and cheese, it is delicious and gives quite a new enjoyment to the meal.

SPORTING SWINDLE INVOLVES EIGHTY

Charge Brought by Easy Mark Who Lost \$24,000 on a Fake Wrestling Match.

COUNCIL BLUEPRINTS. Iowa, March 9. Pleading guilty to a charge of conspiracy to defraud in respect to the wide-spread athletic and sport swindling operations, charged against John C. Maybray and eighty other defendants in the United States District Court today, Bert R. Shores, Win. S. Harris and Frank N. Marsh threw themselves on the mercy of the court. The case was deferred. Early in the day these three men had been arraigned with 13 other defendants who pled not guilty. Marsh declared that he would not turn government witness, but it is believed that Harris and Shores will do so. Marsh is a wrestling promoter at Seattle. Shores also lives there, while Harris gives Spokane as his home. Marsh and Harris were charged with having induced J. C. Kavanaugh to bet \$24,000 on a "fake" wrestling match.

Today is the time set for a statement from Mike Donlin to President Brush as to his willingness to return to the Giants. In Cincinnati last week Donlin was quoted as saying that he had decided to remain on the stage and was permanently out of baseball.

The Evening Chit-Chat

By RUTH CAMERON

"The inner side of every cloud is bright and shining, I therefore turn my cloud about, And always wear them inside out, To show the lining."

—Ellen Thorneycroft Fowler.
A friend of mine, a very successful poultry raiser, says that the most important feature in connection with the business is to have the yards where the birds range on the sunny side of a sandy slope.
Most of us at sometime have had experience trying to raise plants where there was no sun. They might, by careful attention exist, but they could not flourish.
Sun is so essential to the best development of our lives as it is to birds or plants. A business friend of mine divides all people into two classes—sheep and wolves. My division is just as sweeping—optimists and pessimists. The optimist lives on the sunny slope—the pessimist in the shadow. Both have a right to live where they choose and both are correct in their view of life, and it is optional with us all which view we will take.

There is a lady I know who never leaves the house when there is a cloud in the sky without her umbrella and rubbers. To be sure she is never caught unprepared, but think of the trouble of always carrying that umbrella.
The optimistic person who always thinks that the clouds are going to clear up instead of grow bigger, and accordingly usually leaves her umbrella at home, may get caught occasionally, but I think on the whole she has the best of it.

I stopped to buy a paper from a little newsboy one bitterly cold morning. He had on a pair of gloves very much the worse for wear and I suggested that his fingers must be cold.
"Aw gee, loidy, that ain't nuttin'. My pal ain't got no mits at all," was his prompt reply.

There is no condition in life so good that it could not be improved, and none so bad that it might not be worse.
One thing, however, is certain, that we cannot improve a bad condition by living in the shadow and discontent of pessimism.

In these days of "new thought" almost every one admits that what we think about affects what we are.
One of Van Dyke's guide posts on the footpath to peace was to "think seldom of your enemies, often of your friends, and every day of Christ."

If tomorrow you definitely try to think seldom of your troubles and often of the pleasant things that have happened or may happen to you, and to live all day on the sunny slope of your existence, I am pretty sure that the night time will find you in a happier frame of mind than if you had made no such effort.

As perhaps you have heard—
The difference between the optimist
And pessimist is small,
The optimist sees the doughnut,
The pessimist the hole.

Ruth Cameron

The Lighter Side of Life

WOULDN'T KNOW THE DIFFERENCE.

The wise housewife has recently made up her mind that the ideal way of serving all made-up dishes, soups, etc., is to have a bottle of real H. P. Sauce at hand, for the express purpose of enriching soups and gravies. In each bottle there is a delicious blending of the choicest Oriental fruits and spices, and pure mull-winger, it is not beyond the mark to say that a bottle of H. P. is a crust in itself. Just a spoonful of what's in a hat—and the success of the dish is assured. What trouble it saves! No wonder the best housewives always keep a bottle of H. P. Sauce handy. It is useful in so many ways. Just a few drops in the soup, or with hot or cold meat, fish, or even bread and cheese, it is delicious and gives quite a new enjoyment to the meal.

SEEN AND GONE.

"I couldn't get a box."
"Then we shall have to sit in the orchestra."
"I'm afraid so, dear. Try it once. You can get just as poor a view of the stage if you sit sideways."

TOO CONFIDENT.

"What does a 'driving license cost'?" asked the young man.
"Two dollars," answered the official.
"Then I've lost," muttered the other, turning away. "I bet a man that the price had gone up 25 per cent, since the Aldrich tariff went into effect."

HIS NEW MACHINE.

"I see that Willie Blahfield has a new automobile."
"Yes, five oborus-giri power."
"Father" asked Little Rolle, "what is a prospectus?"
"The kind I am mostly acquainted with, my son, is a sort of fairy tale adapted to the tastes of adults instead of children."

"Our splendid cook left today and I had to take her place," said Mrs. Sledge. "I hope I shall be successful in imitating her."
"Our country hope you will be successful in following in her footsteps," suggestively remarked old man Sledge as he chewed on a crisp-baked potato.
Jane-Why, Mabel, your hair is in frightful disorder. Did you forget to brush it?
Mabel (coldly)—If you knew a little more, you wouldn't be so hasty. This is the latest thing in coiffures—and it took me two hours to get it.

Mrs. Homebody—Why did you send your husband's coat to his tailor when all it needed was a button?
Mrs. Outley—Well, the fact is, my husband married so young he never learned how to sew on buttons.

Reasons Why Particular Women Buy Re Indo Shoes

Re Indo Shoes add to the grace and charm of every lady wearing them. That easy gliding walk so characteristic of graceful lines is a sure evidence of shoe comfort.
Re Indo Shoes embody every point that makes shoe perfection—besides having many exclusive features.
The last on which every Re Indo Shoe is made is moulded from the human foot, thus insuring perfect fit, comfort and style. The exclusive characteristic of the Re Indo shoe is its "Nerve Ease" pneumatic heel.
The heel is honeycombed with air cells. You literally walk on air when you wear Re Indo Shoes. The cushion heel being Nilless also aids considerably to the life of your hobby. The soles of Re Indo Shoes are flexible, yielding readily to every movement of the foot. That's why dainty women call Re Indo Shoes "Gloves for the feet!"

Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

THOUSANDS OF WILD ELK ARE STARVING

CHEYENNE, Wyo., March 9.—Led by Governor Brooks and bound on an errand of mercy which will necessitate a journey of ten days over snow-covered and ice-encrusted mountain passes a little expedition of four State officials left today for the Jackson Hole country. Their object is to look after the thousands of wild elk said to be starving there. The animals are reported to be dying in great numbers after much suffering because of their inability to procure food, owing to the imperiously frozen blanket of snow which covers the country.
The expedition led by Governor Brooks cannot do much, it is feared, in the way of immediate succor, but information will be gained which will be used, if possible, to ameliorate such conditions in the future.
The journey is fraught with possibilities of mishap to the little party, owing to the great depth of snow which in many places is encrusted. Snowshoes and sledges will be utilized over much of the distance.

CHANGING SENTIMENT.

OLIVER GOLDSMITH'S "DESERTED VILLAGE."
Goldsmith in his "Deserted Village," spoke of a certain chapel where those who died in battle, remained to pray. So in life one often laughs at what he does not understand and later, when he comes to understand, he laughs to scorn. There were some who doubted the merits of Newbrow's "Herpicide," the scalp restorative and hair-dressing, but since they have tried it, they are now among its best friends and ardent endorsers. Herpicide kills the germ that eats the hair out at the root, and the hair then grows again. As a hair restorative it is incomparable, try it, sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
ONE DOLLAR BOTTLES GUARANTEED.

Amland Bros. Ltd., 19 WATERLOO STREET

A COLUMN FOR WOMEN

Fashions and Fads

Puffings and thin shirtings are to be used as trimmings on some of the spring gowns with filmy laces and gauzes.
Self-colored dots of various sizes will be seen on some of the handsome dress fabrics of this spring.
Cuban heels, quite high, seem to predominate among shoes, and there are also many military heels, quite as high. Shoes are a bit less pointed, and the new pumps are very short, the effect being to make the foot look rather shorter.
Colored correspondence stationery is once more in vogue. The delicate gray, dove and pearl shades are exquisite. Black net collars, studded with small beads or embroidered with jet beads, are being worn with black waists.
Loose weaves and heavy threads are characteristic notes of many of the popular materials for walking suits. Many of the new Swiss muslins have most unusual figures in place of the dots to which we have been accustomed.

Household Hints

Hot chocolate, unswartened wafers and crystallized pines form a dainty course for luncheon or supper.
Always line a cake pan with medium weight yellow paper. Grease the paper, not the pan, except the edges.
Leather-covered furniture can be cleaned with pure milk rubbed on with a piece of flannel. Rub gently until dry.
Fats and pans to which foodstuffs cling will soak much more effectively if filled with cold water than if hot is used.
If silk ties or waists are wanted stiff, iron them while quite damp; if they are wanted soft and silky, iron when almost dry.
Sprinkle salt with flour before chopping it or running it through the food chopper. They the task will be an easy one.
Some people put the meringue on a pie or pudding while it is still hot. This causes the egg to liquify and quite spoils the dish.
Water that has stood for a little while in the sun is best for watering house plants. Fresh cold water will retard their growth.
Never grate lemon rind without first scrubbing well with a clean vegetable brush. The dirt that comes off will show the reason.
Fish cakes made from the smothered Finnan haddock, slightly freshened, are delicious. They should be mixed with mashed potato, the same as codfish.
Peas and beans should never be swimming in water. They should be cooked with as little liquid as possible to retain the flavor of the vegetables.

LADIES' DRESS IN SEMI-PRINCESS STYLE

Paris Pattern No. 210.
All Seams Allowed.
Russian blue diagonal cheviot is the material selected for the pictured development of this stylish dress, with black silk for the band trimming and all-over lace for the yoke. Small jet buttons close the waist. The waist of the dress is arranged in groups of tucks at each shoulder, those of the back continuing to the belt, while those of the front terminate at yoke depth. The closing is effected at the front, and the right front is shaped at the closing edge. The sleeves are close-fitting and the neck of the waist is cut in horseshoe outline, displaying the yoke facing, or may be made plain, as shown in the small front view. The skirt is one of the new gored models with an inverted box plait at the back. Serge, cheviot, mohair, silk-faced cloth, foulard, rellish, pongee, panna cloth, linen, crash, duck, gingham or chambray may be used with good effect for a dress of this kind. The pattern is cut in six sizes—32 to 42 inches bust measure. The 36 bust requires for the dress 7 yards of material 38 inches wide, with, as illustrated in the large view, 1 1/2 yards of silk 20 inches wide and 1/2 yard of all-over lace is inches wide. Width of lower edge is about 2 1/2 yards.
Price of pattern, 10 cents.

Robert Rees of Ferriville called on The Sun office yesterday and wished it to be stated that his sons Robert and Harold, who were reported to have run away a few days ago, did not run away but went with his permission to Cape Breton to enter the employ of the Dominion Coal Company. He also stated that the two were not boys, Robert being 27 years of age and the other 25, and that both were well able to take care of themselves.

Proven Quality
Fuller assurance of obtaining silver of beauty and proven quality is yours if you ask for "1847 ROGERS BROS."
Recognized everywhere as the world's standard in silver plate.
Best sets, dishes, wafers, MERIDEN BRITA CO. "Silver Plate that Wears"

Nothing has been heard of James Stratton, the young Ferriville lad who mysteriously disappeared from his home a few days ago and who was thought to have run away. A gentleman in conversation with The Sun yesterday stated that the boy's mother claimed to be able to see into the future, but that her reputation as a seer has gone down considerably in account of her failure to see and provide for the evil that befell her.

LONDON, March 10.—The rate of discount of the Bank of England remained unchanged at 2 per cent. today.

REFORMER SPENDS AN AFTERNOON IN JAIL

PHILADELPHIA, Pa., March 9.—Logan M. Bullitt, son of the father of Philadelphia's charter, the Bullitt bill, and himself a prominent worker in civil reform movements, was arrested today by the order of Mayor Resburn and locked in a cell in the City Hall when he endeavored to serve the mayor with a subpoena in an equity suit, brought by a committee of citizens against the city official.

Bullitt is the head of a committee which has been making an exhaustive investigation of the city's financial affairs and has threatened to tie up all further expenditures by two bills in equity filed some time ago in the local courts. Hearings on these bills were set for next Saturday, and by order of the court, subpoenas were issued for the heads of the various city departments to bring in the records in their charge.

Later in the evening Bullitt was released on an order signed by Magistrate Gorman.

ATLANTIC FEARS NOT NAUGHTY CARD PROBE

Let Comstock, of New York City, Come—Had Postals Gone, Say Officials.

ATLANTIC CITY, N. J., March 9.—Twice officials of this resort, informed tonight of the coming visit of Anthony Comstock, promised during his address before ministers in Philadelphia today, declared their belief that the head of the Vice Society for Suppression of Vice would find little to condemn in the stock of postal cards and other boardwalk pictures which he claims are in need of reform.

Although Comstock told the Presbyterian ministers whom he addressed in the Witherspoon Building today that he had received an appeal to enter into a crusade against naughty postals sold in boardwalk shops, local officials claim that the objectionable cards have all been driven from sale by recent active police crusades backed by women residents, and that Comstock will find little or nothing to engage his attention.

Local reform association officials say they know nothing of the visit of the New York reformer, and that they have already carried out the work of clearing the boardwalk of obscene pictures. Half a score of offenders charged with sale of obscene postals have been arrested and punished in the past two years.

STAR WANT ADS. BRING RESULTS

DRIVING STUDENTS TO ROB GRAVEYARDS

Sensational Statements Made by Dean of Medical Faculty—Traffic in Bodies.

TORONTO, March 9.—Some very serious statements were made by Dr. J. C. Connell, dean of the medical faculty of Queen's University, Kingston, in opposing the incorporation of the Hamilton School of Anatomy before the private bills committee today. Dr. Connell stated that Hamilton is advocating the measure pointed out that incorporation would give necessary authority for dissection and anatomical work on human bodies. The proposal aroused a vigorous opposition from Kingston. There was some plain speaking by the medical dean.

"The truth might as well be frankly spoken if the scarcity of bodies continues," said Dr. Connell, "it will drive students to rob graveyards. At the present time," he continued, "inspectors are trafficking in bodies, collecting all the way from \$35 to \$75 per body."

Dr. Connell referred to the small number of bodies which had been turned over to Kingston during the past two years, only ten per cent. or less of what they had to use.

"You ask how we got them," he added, "it is unnecessary to ask, and those who administer law should be the last to ask. We are loath to do anything of the kind. We therefore urge the authorities to give us a fair trial."

TRY THEM BEFORE YOU BUY THEM

Gin Pills Sent Free

Yes, we send Gin Pills free to every sufferer from Kidney and Bladder Trouble, Rheumatism and Lame Back. We want all sufferers to test Gin Pills, and see for themselves that these pills actually cure all such diseases. No matter what your experience has been with doctor's medicine and advertised remedies, we want you to try Gin Pills. And we let you see how much good they will do you by sending you a free sample, because we think your experience will be exactly like that of Mr. Webster's.

Do the same. Write the National Drug & Chemical Co., Limited, Dept. R. S., Toronto, for a free sample. Then you will be in a position to decide whether Gin Pills are the right remedy for you.

TO KIDNEY AND BLADDER TROUBLE, RHEUMATISM AND LAME BACK, WRITE THE NATIONAL DRUG & CHEMICAL CO., LIMITED, DEPT. R. S., TORONTO, FOR A FREE SAMPLE.

ALAMEDA, CAL., MARCH 9.—Sewage emptying into the ship basin of the Alaska Packers' Association in the estuary off the north end of Sherman street has saved thousands of dollars annually to the big salmon-canning corporation, according to a representative of the concern. The sewage matter, mixed with the fresh water that conveys it through the conduits into the ship basin, is said to destroy the destructive teredo and other animal and marine growths that attach themselves to the hulls of the vessels. Ships that have been towed into the basin increased with a heavy animal and vegetable growth have, after lying for a time in the sewage-impregnated water, become almost as clean as if the vessels had been scraped on a drydock or marine railway.

SEWAGE CLEANSES HULLS OF VESSELS

Ordinarily Useless Refuse Found to Kill Marine Vegetable and Animal Growth.

MR. COPP CRITICIZES PROVINCIAL FINANCES

Money Wasted on Roads and Bridges for P. Ideal Purposes, Declares Member for Westmorland.

KILLED CO-OPERATIVE SOCIETIES' BILL

OTTAWA, March 9.—The banking and commerce committee of the Commons by a vote of 10 to 8 yesterday killed Mr. Lloyd Harris's bill respecting co-operative societies. The bill goes further than Mr. Monk's bill which was reported on Monday by the committee and which deals only with co-operative credit societies. Mr. Harris's bill seeks to give legislative authority for co-operative societies generally. The bill was vigorously opposed by Messrs. Nesbitt and Gervais who declared that there was no popular demand at present for any such far-reaching and radical legislation. Messrs. Monk, Harris and Smith of Middlesex supported the bill and after an hour's discussion the committee killed it on the above vote.

PARIS, MARCH 10.—The Societe Nationale Des Beaux Arts and the Societe Des Artistes Francais have decided not to participate in the universal exposition to be held in Rome in 1911, because of the adoption by the managers of a regulation prejudicial to the impressionistic school.

SEWAGE CLEANSSES HULLS OF VESSELS

Ordinarily Useless Refuse Found to Kill Marine Vegetable and Animal Growth.

ALAMEDA, CAL., March 9.—Sewage emptying into the ship basin of the Alaska Packers' Association in the estuary off the north end of Sherman street has saved thousands of dollars annually to the big salmon-canning corporation, according to a representative of the concern. The sewage matter, mixed with the fresh water that conveys it through the conduits into the ship basin, is said to destroy the destructive teredo and other animal and marine growths that attach themselves to the hulls of the vessels. Ships that have been towed into the basin increased with a heavy animal and vegetable growth have, after lying for a time in the sewage-impregnated water, become almost as clean as if the vessels had been scraped on a drydock or marine railway.

The value of sewage in ridding ships of marine animal and vegetable parasites has been known to shipping men on the estuary for some time, but it was not until recently, when there was a general discussion as to where the proposed south side sewer should empty, that the value of sewage in cleaning ships was learned by city officials.

While City Engineer I. N. Chapman was seeking a route for the proposed sewer he engaged a representative of the Alaska packers in conversation concerning the matter. Chapman was surprised when the packers said that the association would be pleased to have all of the sewage drained from the estuary. The packer said that the sewage which has for years emptied into the estuary had proved an economical cleanser of the bottom of ships, and asserted that enough sewage could be emptied into the ship basin to please the packing association.

In proof of the fact that the teredo does not like sewage-impregnated water, City Engineer Chapman cites the fact that the old wooden wharves laid out into the estuary on the north side years ago are still intact and free of teredo.

MR. COPP CRITICIZES PROVINCIAL FINANCES

Money Wasted on Roads and Bridges for P. Ideal Purposes, Declares Member for Westmorland.

FREDERICTON, March 10.—The budget debate was continued in the House yesterday. A strong criticism of the Government's finances was made by Mr. Copp in the course of a vigorous address.

The debate was resumed by Mr. Jones on a number of items in the report. He congratulated the Government on their excellent school book policy. Mr. Jones defended the Government's agricultural policy and gave praise to the chief commissioners of public works. The member from Kings a rowt at length on the St. John Valley Road project.

Mr. Copp said that it was true there was an increased revenue, but the present government had not given credit to the old administration for adding \$130,000 annually to the revenue in Dominion subsidies.

The leader of the Government, when in opposition, had stated that \$200,000 was too great an expenditure, yet the Tory administration had increased it to \$425,000. The speaker also showed that in other matters the present Government was acting directly opposite to their policy when in opposition.

Resuming after recess, Mr. Copp continued his criticism of the provincial finances, taking up expenditures relating to roads and bridges and the Government's extravagance. The public works department came under particular attack on account of the money wasted on roads and bridges for political purposes. He was informed that a gentleman who handled the patronage in Albert county had told the electors in Coverdale at the time of the last federal election that if they did not vote for the Conservative candidate they would never have another dollar spent on their roads thereafter. In Albert county one man was given carte blanche to go out and build bridges and his bill for a few months' services was \$4,000. Mr. Copp was followed by Mr. Dickson of Albert.

DIVORCE PROBLEM STILL COMPLEX

Extensive Practitioner Suggests That District Registrars be Empowered to Grant Divorces.

LONDON, March 9.—At today's session of the Royal Commission which is investigating the whole subject of divorce with a view to suggesting reforms, W. I. Barnard, K. C., an extensive practitioner before the Divorce Court, opposed the extension of jurisdiction over divorce cases to the County Courts, on the ground that it would lead to an increase in the number of such suits. Actions, he said, would be brought without any certainty of obtaining success. If the object, however, was to extend the grounds for divorce in order to make it cheap and easy, he thought there could be no objection to transferring jurisdiction over such cases to any court. In fact it would not be necessary to have a court at all. There might, in the opinion of the witness, be a registrar in each district who could grant divorces to applicants. There would be no need of England something similar to what obtained in some of the states of the union.

ALBERTA GOV'T FALLS, PREMIER HAS RESIGNED

Latest Report Says Cushing Has Been Asked to Form Ministry.

EDMONTON, March 9.—Hon. W. A. Buchanan, minister without portfolio resigned to-day, joining Attorney General Cross. It is expected that Duncan Marshall and Lessard will also resign before night. Sydney H. Woods, deputy attorney general, has also resigned. It is freely stated that Cushing, who threw up his portfolio of public works at the beginning of the crisis, over the great Waterways Railway, will be called upon to form a ministry, and the legislature will then adjourn.

CALGARY, March 9.—Vigorous effort is being made by prominent Liberals to induce Hon. Arthur Sifton to resign the Chief Justiceship of Alberta, and take over the leadership of provincial Liberalism, which is badly disrupted by the resignation of W. H. Cushing, Minister of Public Works; C. W. Cross, Attorney General, and W. A. Buchanan, minister without portfolio. It is believed that Sifton could reunite the party and reduce chaos at Edmonton to something like order, as he would be acceptable to all liberals as premier.

The latest report from Edmonton states that Premier Rutherford has resigned and Cushing has been asked to form a government.

DECLARE CARS AWAKE

COWS; FARMERS TO SUE

Frightened Bosses Fat to "Ow" Owa" Milk, It is Said—Noise Like Thunder.

AURORA, Ill., March 9.—One of the oddest complaints ever made against an electric railway may find its way into the civil courts of Kane county, Ill. It is the complaint of a farmer who complains that the Aurora and Chicago Railroad, which runs through his farm, is so noisy that it keeps his cows from milking. The farmer claims that the noise of the train is so loud that it keeps his cows from milking. The farmer claims that the noise of the train is so loud that it keeps his cows from milking.

TRAFFIC RUSH FOR CANADA WILL BE BIG

Immigration Will be Unprecedented in Shipping History

Railway Officials Also Estimate That 100,000 Farmers Will Come From States.

MONTREAL, March 8.—Unprecedented in the shipping history of Canada is the demand for berths on steamships running to Montreal from European ports. Before the New Year opened space was taken up in vessels for March sailings, and Montreal ocean passenger agents look for the greatest movement through the St. Lawrence waterway ever before recorded. In 1907, the year previous to the financial crisis in Canada and the United States, the influx of immigrants was the greatest in history, but this year from agents' reports throughout Europe which have been forwarded on to Montreal, the rush will be even greater. The spring sailings of all lines running to Montreal, Halifax and St. John are already practically closed to further applications for passage, and the bright outlook for passenger shipping companies is taken as a reflection of trade and industrial conditions throughout Canada and the United States. But the ocean passenger movement is not entirely westward, and not entirely confined to third and second cabin. United States and Canadian tourists, according to Mr. George Hannah, Montreal passenger manager of the Allan line, have been preparing for U.S. season to visit Europe.

GREAT BARGAIN CLEARANCE SALE OF ORGANS

CALL OR WRITE AT ONCE. 1—STAINER (piano case) 4 sets of reeds, 14 stops, slightly shop worn, mouse proof. Original price \$300.00, now \$98.00. A Single Cup Correctly Brewed

Proves the merit and satisfaction there is in Postum. But it is often only half brewed and the result is often unjust condemnation.

There are no "grades" of Postum. Every package is the same. It is the steady boiling, for at least fifteen minutes after boiling begins, that gives a cup of Postum its fine, snappy flavour.

POSTUM

Was not satisfactory, the fault was in the brewing—it must be boiled until it is dark and rich—don't attempt to make it as you would make coffee, but remember—

The longer Postum is boiled the better it is? Well-made Postum served with good cream, has a flavour distinctly its own, and not unlike that of mild, high-grade Java coffee.

The best proof of the value of Postum is found in the clear brain and steady nerves which follow its use as the regular daily beverage in place of coffee or tea.

Postum—made of clean hard wheat (including the bran-coat) with its "vital phosphates" grown in the grain—quickly assists in rebuilding the worn-out body cells, because it contains these valuable elements in liquid form; in fact, it is a very palatable liquid food.

After all arguments, 10 days' trial proves.

"There's a Reason" for Postum

Postum Cereal Co. Ltd., Battle Creek, Mich.

WOMEN SUFFER NEEDLESS PAIN

Many Mysterious Aches May be Cured by Curing the Kidneys

Every woman has so much pain, work and worry in life that any needless daily suffering from backache, dizziness, languor or other kidney life is unfortunate, indeed. Booth's Kidney Pills have brought new life, health and strength to thousands of women afflicted in this way, by curing the kidneys. If you don't just understand your condition, don't forget that it may be the kidneys. Women easily fall victim to kidney trouble. The continuing work a woman does, the tight, heavy clothing she wears, the constant bending, reaching and lifting of housework, the cares of tending up children, are all trying. Any fever, a chill, cold, strain may weaken the kidneys, and set up congestion, with backache and disturbances of the urine.

PRINCIPAL GORDON WILL NOT RESIGN

KINGSTON, March 9.—Principal Gordon, the big-hearted head of Queen's University, has no intention of retiring, and he cannot conceive how the report became public. The suggestion has led to many telegrams of inquiry and regret, and all Canadians will be glad to know the report is unfounded.

Hon. Florence MacNaughton of England passed through the city last evening en route to Ottawa, where she will visit her brother.

WOMEN SUFFER NEEDLESS PAIN

Many Mysterious Aches May be Cured by Curing the Kidneys

How can I endure this?

Mrs. B. L. Dyarst, of 129 St. Patrick St., St. John, N. B., says:— "Heavy, dull pains had settled across my back in the region of the kidneys. I had doctor for five years but could find no relief. I became nervous and run down and finally I could not sleep. Doctors pronounced Bright's disease and said there was little hope of my recovery. My eyes were affected and I could read but a few minutes at a time. A friend advised me to try Booth's Kidney Pills and I procured a supply at Mr. Wasson's pharmacy. I found they helped me after the first week's treatment, and in two months I was well again. I have had no return of the trouble since, and I am glad to recommend Booth's Kidney Pills." For sale by Chas. R. Wasson, 100 King St. and 24 Dock St., St. John.

COMMERCIAL

LONDON, Mar. 10.—The weekly statement of the Bank of England shows the following changes:

Total reserve decreased £488,000; circulation decreased £278,000; bullion decreased £713,885; other securities decreased £2,913,000; other deposits increased £1,922,000; public deposits decreased £23,877,000; notes reserve decreased £237,000; government securities, unchanged. The proportion of the bank's reserve to liability this week is 60.82 per cent; last week it was 60.73 per cent.

NEW YORK, Mar. 10.—Cotton futures opened steady, March 14.80 bid; May 14.82; July 14.83; Aug. 14.79-74; Sept. offered, 11.80; Oct., 12.48; Dec., 12.35; January offered, 12.35.

NEW YORK, Mar. 10.—Wall Street.—Prices of stocks tended upwards in the opening dealings which were on a large scale. A few exceptions were among the less conspicuous stocks and did not affect the firm tone of the opening market. Union Pacific was a feature with an initial rise of 1-14; Brook Island, Pfd., Brooklyn Transit and Virginia Carolina Chemical rose one, and Southern Pacific, Reading and Louisville and Nashville large fractions. General Elec. and International Paper declined large fractions.

CELEBRATING TWENTY FIFTH ANNIVERSARY

Mr. and Mrs. T. J. McPherson Married in Boston

Mr. and Mrs. T. J. McPherson will this evening observe the twenty-fifth anniversary of their wedding at their residence, 32 Union street, in a manner suitable to the occasion. The couple were married just twenty-five years ago today in the city of Boston by Rev. Mr. Meredith, pastor of the Union Congregational Church of that city. Mr. Adam Dickie of Boston, was groomsmen, and Miss Annie Williams, also of Boston, who has since passed away, was bridesmaid. The bride was formerly Miss Jessie H. Kilpatrick, daughter of Mr. and Mrs. Alexander Kilpatrick, of Glasgow, Scotland. The bride and groom of twenty-five years ago, are still enjoying the best of health, and their many friends will join in wishing them happiness and prosperity ad multos annos.

DEMANDS OF MINERS WILL KILL INDUSTRY

Ohio Coal Operators Say They Fear Extinction—But the Miners Demand the Money.

CINCINNATI, Mar. 10.—General discussion of the demands of the miners was continued today at the conference of operators and miners of coal in the central competitive field, which embraces Ohio, Indiana, and Western Pennsylvania.

The operators as on yesterday declared they could not grant the ten cents per ton increase and any of the other demands made by the miners. L. Chapman, one of the largest Ohio coal operators, presented figures which he used in support of his declaration that if present demands of miners are persisted in it will be only a short time until the Ohio coal industry will be a thing of the past. Ohio coal mines will have to shut down and the 60,000 miners and thousands of other employees dependent upon the coal industry of Ohio will have to seek employment in other states.

The miners in their arguments declared that the higher cost of living compelled them to ask for higher wages.

CHAMBERLAIN'S COUGH REMEDY

that has been in use for nearly forty years and never known to fail.

Mr. Homer Krohn, of Lisbon, Iowa, in a letter to the manufacturer of Chamberlain's Cough Remedy praises this medicine for what it has done for his children. He says: "It has not only saved them once but many a time. Only two weeks ago my boy had the croup so bad in the night that he had not been for having a bottle of Chamberlain's Cough Remedy in the house he would have choked before a doctor could have gotten to the house. It is a medicine that no one should be without at any time." It is pleasant to take and many children like it.

"We guarantee every bottle of Chamberlain's Cough Remedy," says W. M. Parish, Palmerston, Ontario. "Out of the many bottles sold last winter not one was returned. We recommend it especially for children with croup." Chamberlain's Cough Remedy is famous for its prompt cures of coughs, colds and croup. When given soon as the child becomes hoarse an attack of croup may be averted. This medicine is entirely free from narcotics or injurious substances of any kind and may be given to the little ones with absolute safety.

Attacks of croup are most likely to occur during the early winter months, and every family with young children should be prepared for it. Keep a bottle of CHAMBERLAIN'S COUGH REMEDY in your home. It only costs a quarter, large size 50 cents. Your druggist sells it.

REACHES PORT AFTER TERRIBLE VOYAGE

\$400,000 Raise for Pittsburgh's Employees

No International Complications—Col. Of. With \$100 a Month—A Splendid Fight—Unknown Man Killed.

FORTLAND, Me., March 9.—After a terrible voyage of 24 days in which the crew injured, one having his leg and arm broken, the steamer Atlantic, (Captain J. W. ...), arrived in the afternoon with a cargo of china clay, for Portland and Boston parties. For twenty days the ship was under water and the captain's cabin air-flooded, but on the only way the engineers could get out was through the skylight.

PITTSBURGH, Pa., March 9.—Every employe of the city of Pittsburgh will get a raise in salary. From the scrapping of the municipal buildings, 40 pages in the city council, to the departmental heads, and chief clerks, the change is largely to women and growing girls. Its victims are pale; they lose all strength—the least exertion greatly fatigues them and they suffer continually from headaches and depressed spirits. Nothing will cure anemia so quickly as the pills known as Dr. Williams' Pink Pills—they have cured thousands of cases, not only in Canada, but throughout the whole world. They do this because they make good blood. Among those cured by these pills is Mrs. T. Chalmers Bartley, East Ferrisville, N.B., who says: "At the age of sixteen I fell away to a mere shadow. I had scarcely any blood, and suffered from all the distressing symptoms of anemic pills. They did not help me in the least, and acting on the advice of a friend I began taking Dr. Williams' Pink Pills. They effected a remarkable change in my condition; indeed I really believe they saved my life. I had been weak and strong ever since I took them. I also recommended the pills to a neighbour's daughter who was similarly afflicted, and they also completely restored her health."

In addition to ribbons, laces, wires, flowers, vegetables, animals and birds, woman's headgear is armed with the deadly snickers.

"If women care to wear corsets and rosettes on their heads, that is a matter for their own concern, and it can not be interfered with by the city, but when it comes to wearing sword-belt, and the like, that is a different matter. I do not believe there was ever a time in history when women have shown so much eccentricity in their personal adornment as at present," he said. "We have had the tight skirt, the death gown, the March and wave, and now comes the yard-wide hat, with its remarkable accessories."

Dr. Williams' Pink Pills occasionally take Dr. Williams' Pink Pills occasionally. If you are ailing from any of the troubles mentioned above, or if your sex they will cure you; if you are not ailing they will protect your health and keep you well and strong. Dr. Williams' Pink Pills are sold by all dealers in medicine or direct to 60 cents a box or six boxes for \$2.50. Dr. Williams' Medicine Co., Brockville, Ont.

WANTS ALL TO UNITE IN DEVELOPING SPAIN

Without Such a Unity Capitalism Will Dominate the Country, Says Premier.

MADRID, March 10.—Premier Canalejas in an important speech outlining the government's program, made the cortes today appealed for the united support of all the radical and democratic forces in the approaching election to "Europeanize and modernize Spain." Without such support he declared the fight against the growing power of clericalism and reaction was foredoomed to failure.

FROM A SHADOW TO ROBUST HEALTH

is the Charge Dr. Williams' Pink Pills Made in a New Brunswick Woman

Anemia—bloodlessness—is a trouble shared largely by women and growing girls. Its victims are pale; they lose all strength—the least exertion greatly fatigues them and they suffer continually from headaches and depressed spirits. Nothing will cure anemia so quickly as the pills known as Dr. Williams' Pink Pills—they have cured thousands of cases, not only in Canada, but throughout the whole world. They do this because they make good blood. Among those cured by these pills is Mrs. T. Chalmers Bartley, East Ferrisville, N.B., who says: "At the age of sixteen I fell away to a mere shadow. I had scarcely any blood, and suffered from all the distressing symptoms of anemic pills. They did not help me in the least, and acting on the advice of a friend I began taking Dr. Williams' Pink Pills. They effected a remarkable change in my condition; indeed I really believe they saved my life. I had been weak and strong ever since I took them. I also recommended the pills to a neighbour's daughter who was similarly afflicted, and they also completely restored her health."

STRIKE SPREADING NOW TO OPEN SHOPS

Strikers Gain Many More Converts—Company Operating More Cars—Meeting Forbidden.

PHILADELPHIA, March 10.—Encouraged by the success which met the ranks of unorganized labor and persuading several thousand workers to join their ranks, the general strike movement, union labor leaders continued their campaign today to swell the ranks of sympathizing strikers.

At the Locomotive Works, where 2,000 men quit yesterday and which was considered almost impregnable against the attacks of unionism, was again the object of much attention of union sympathizers. They hope to add to the ranks of idle men today. The success in penetrating the Baldwin works is likewise hailed as a campaign against other large industrial plants which are considered "open shops" places.

Aided by recruits secured by its officials from many other cities the Philadelphia Rapid Transit Company today operated more cars than on any day since the strike was declared. The men on the new cars were not serious during the early hours and were confined to the ordinary routes on the improvements was stopped, while trouble, however, may come today if the police and labor leaders clash over the proposed demonstration of strike sympathizers held at the ground meeting today. The director of public safety's decision that the proposed meeting would not be allowed to take place because it was in conflict with the proclamation issued by the mayor forbidding all gatherings on the streets, the strikers' attorney replied that the police power could not abolish the constitutional right of citizens to peacefully assemble for a lawful purpose.

The baseball club is enlarging the seating capacity of the park and work on the improvements was stopped, while the general strike was started.

The managers asked the union leaders to permit the contractor to continue his work and the permission was granted on condition that the club would let the strikers use the grounds for a mass meeting today. This was quickly agreed to and when the city authorities heard of it they declared the meeting would not be permitted to go on.

PHILADELPHIA, March 10.—The baseball management realizing that the city authorities were in earnest in the declaration in the open mass meeting would not be permitted today, decided not to give the strikers the use of the grounds unless permitted by the police department. The call for a mass meeting had gone out, however, and a crowd of strikers and others is expected to gather at the grounds which are at Broad street and Lehigh Avenue, nearly three miles from the centre of the city. The general strike leaders declared today that eight hundred additional men have quit at the Baldwin Locomotive Works. This was again disputed by the superintendent of the works, who said that only four hundred failed to report for work today.

There was a big break in the ranks of the union taxicab chauffeurs who went out in sympathy with the trolley men. The three taxicab companies reported today that 115 out of a total of 164 taxicab drivers have returned to work. The companies are making no attempt to fill the places of the strikers' chauffeurs.

CHICAGO CITY LAW FIXES SIZE OF HATPIN

Women Rally at Public Hearing in Defence of Their Rights

Lost in First Battle—Max Attacks

Shah's Skirt, the March Wave and Armored Millinery.

CHICAGO, March 9.—Women's long hairpins declared to be a "public nuisance" and an anti-hatpin ordinance was ordered drawn up by the judiciary committee of the city council today.

The action followed a week's crusade against the fashion, which culminated today in a public hearing. The ordinance will stipulate that hatpins worn in public places shall not extend more than one-half of an inch beyond the crown of the hat. It is to be drawn up by the corporation counsel and presented for action by council next Monday night.

Nine aldermen, three or four lawyers and a score of protesting women were present at the hearing.

"We want to protest right here against this attempt to regulate women's attire," declared Attorney Francis Hinckley, representing the women. "It does not become the city of Chicago to try to dictate what its women shall wear."

"That's right," said Miss Nan E. Davis, interrupting her counsel. "These hat pins are women's only means of defense. You must not dictate to us women."

"Well, you women want to regulate what we men drink do you?" interrupted Alderman Cermak.

"Amid a chorus of 'boo hoos' from the women, Alderman Herman J. Bauer, who started the agitation in Council, stepped forward, and described what he called "the truth about the whole hatpin situation."

"I do not believe there was ever a time in history when women have shown so much eccentricity in their personal adornment as at present," he said. "We have had the tight skirt, the death gown, the March and wave, and now comes the yard-wide hat, with its remarkable accessories."

"If women care to wear corsets and rosettes on their heads, that is a matter for their own concern, and it can not be interfered with by the city, but when it comes to wearing sword-belt, and the like, that is a different matter. I do not believe there was ever a time in history when women have shown so much eccentricity in their personal adornment as at present," he said. "We have had the tight skirt, the death gown, the March and wave, and now comes the yard-wide hat, with its remarkable accessories."

74 SUPPORT R. L. BORDEN'S NAVY POLICY

OTTAWA, Mar. 9.—After a debate which has lasted since Feb. 28, and which has produced over one hundred hours of speech-making by some sixty members of whom a little over half were members of the Opposition; and which constitutes one of the longest discussions on one subject in the history of Parliament, the naval bill providing for the establishment of a Canadian navy, involving an immediate building programme of eleven vessels with an expenditure of some twelve millions on construction and organization account, and an annual expenditure of something over three millions for maintenance, was given its second reading in the Commons shortly after midnight tonight.

The House's amendment providing for a plebiscite of the electors before the country was committed to any naval bill was defeated by a vote of 175 to 18, and Borden's amendment was turned down by a vote of 123 to 107.

On the latter vote opposition members, namely, Messrs. Blondin, Nantel, Gagne, Lortie, Paquet and Forget voted with the government. When the vote on the second reading of the bill was given, Messrs. Northrup asked the premier to consent to adjournment. Mr. Wilfrid said that if the opposition did not think they could do themselves justice tonight he had no objection to having the vote deferred until tomorrow. The House then adjourned.

OTTAWA, March 9.—Hon. H. R. Emmerson in resuming the debate on the naval bill this afternoon enunciated in the course of a thoughtful and effective speech some original ideas on the question which has been before the Commons for the past six weeks. Disregarding entirely the two main opposition proposals of Messrs. Monk and Borden he declared that at the same time he was in full accord with the government's policy of launching at once upon a naval construction programme involving an ever increasing expenditure perhaps at the expense of the development of pressing transportation needs and other requirements of internal national development. He favored rather the policy of going slow in the matter of building ships until a Canadian naval force had been trained on ships borrowed or purchased from Great Britain. This he believed was a necessary and logical precedent to the establishment of a navy. He also suggested that instead of either contributing Dreadnoughts to the Imperial navy or building ships of our own, Canada might provide for the accumulation of a permanent fund to be held in the Bank of England subject to the call of Britain when a real crisis arose.

He dwelt at some length on the pressing and practical need of the country in the way of developing transportation facilities, the construction of new railways and canals, the encouragement of immigration and the development of all the latest resources of the country. These were wants which must be met and which were paramount considerations in the expenditure of public money, but the launching of a naval construction programme involved a much larger expenditure than most people realize. It meant fortified sea points, naval yards, dry docks, admiralty board and a duplication of all the paraphernalia of the military side of Canadian defense. Instead of all this he urged that the proper policy was first to train men on training ships acquired for the purpose along the same lines as was now being done in Newfoundland. When the time came for the establishment of a Canadian navy it could be then manned and officered by Canadians.

WILL LECTURE BEFORE WOMEN'S CANADIAN CLUB

The executive of the Women's Canadian Club met this morning. It was reported that Mrs. Sexton of Halifax would address the club on Friday, March 18. Her subject will be "Woman and Science." Mrs. Sexton is a graduate of the Boston School of Technology. Her lecture should prove a rare treat. Mrs. O. Marshall of London will speak before the club in April. The following new members were elected this morning: Miss Stevenson, Miss Clark, Mrs. George Carvell, Mrs. E. G. Price and Mrs. Houston.

The general committee in charge of the recent simultaneous evangelistic campaign will meet this evening in St. Andrew's Church parlors. Rev. Dr. Flanders will present a full statement of the receipts and expenditures. This is the final meeting of the committee and a number of resolutions will be passed.

The meeting for men only which was to have been held in the Unique Theatre on Sunday afternoon under the auspices of the Y. M. C. A., has been unavoidably postponed owing to the illness of Mr. Cackley, who was to have given the address.

Charles McFarlane crossed from Greenland today and reports that although the ice is in had condition many others are still trusting their lives on a Mr. McFarlane is an enthusiastic strawberry grower and is making plans for even more extensive cultivation this year. The strawberries, he says, pay much better than general farming.

Daniel George and William Clark, the two deserters from the West India steamer Dahome, were allowed their freedom by Magistrate Ritchie in the police court this afternoon. On condition that they would return to the Dahome which sails this afternoon. John A. Harvey, who is charged with following and assisting a Scotch girl named Maggie Gray, was brought before the court and further remanded.

SPORTING MATTERS

OAKLAND, Cal., March 10.—Jim Barry of Chicago sent a right uppercut to Gunboat Smith's chin in the ninth round of their fight and knocked out the latter in the tenth round.

SAN FRANCISCO, March 10.—Promoters of the Jeffries-Johnson fight announced yesterday that seats would range from \$10 in the bleachers to \$100 at the ring-side.

According to present plans a special arena capable of seating 10,000 persons (50 and 60,000 people will be seated within the Emeryville Race Track, Sam Berger, Jeffries' manager, announced yesterday that the big fight would start at Rowardens, a mountain retreat about ten miles from San Francisco. He will go into camp in about two weeks.

This is another exceptional opportunity to save money and you should call early to avoid disappointment. Sale promptly at 8:30 tomorrow morning in Dress Goods Department—Ground Floor.

THE GEM.

The feature film shown at the Gem last night, "The Wayside Shrine," carries a message to all who witness it. The story of love and devotion of a father for his mother's daughter. Periodically they visit a little wayside shrine, where the little child has grown to womanhood. She meets a young artist at the shrine. The girl falls in love with the stranger. From this point to the conclusion of the story is met by her old father who brings her back to her old home. "The Bandits," the second feature, is a well acted and clearly photographed film, depicting the charity of a dare-devil brigand. A character which is sure to please, not only of the average type, but one of princely air. Other subjects will also be shown which are of interest to Mr. Hatrey will be heard in a late number. This week the matinee have been largely attended. Saturday afternoon will be, as usual, Soudray day for the children. Each boy and girl will receive some presents. Last Saturday's matinee was a splendid one. The numerous children thoroughly enjoyed the show and were noisy but very happy.

GIANTS NEARLY TWENTY FEET TALL

The giant Ferragus, who was slain by Orlando, the nephew of Charlemagne, was, it is alleged, eighteen feet high. He always accompanied the army on foot, there being no horse tall and strong enough to carry him. Pictures in his published writings tell of a giant whom he examined at Lucerne and who had measured nineteen feet four inches and three lines.

Corresponding week last year \$1,121,671.

DIDN'T LIKE THE HUG, BUT BROUGHT IT ON HERSELF

Maggie Gray Grew Tired of Harvey's Attention But Had Poor Luck in Shaking Him.

John A. Haney the Englishman who was last evening arrested by Officer Lucas on a charge of persistently following a Scotch girl named Maggie Gray and putting his arms around her waist, appeared before Police Magistrate Ritchie in the police court this morning.

Edward J. Lane, of the West Side, testified that he saw the prisoner and Maggie in the "Do-drop-in" restaurant last evening.

Officer Lucas gave evidence in the arrest. Two boys from the restaurant summoned him and told about the man following the girl.

Harvey then gave evidence in his own defense. He said the other day when he was being paid off at his ship the Scotch girl came up to him and spoke to him.
