BRITISH DREADNOUGHT SINKS; ARMY OF RUSSIA SWEEPS ON

HEAVY FIGHTING BETWEEN TEUTONS AND RUSSIANS ON A FIFTY MILE FRONT

Great Russian Drive Along Dniester in Galicia
Continues Successfully and Several More Important Heights and Villages Captured.

BATTLE FROM HALICZ TO FOOTHILLS OF THE CARPATHIAN MOUNTAINS

Russian Advance West of Stanislaw Endangers
Austro-German Lines and Threatens Line in
Roumania—Little Doing in France.

Gaining momentum as it moves westward the great Russian drive along the Dniester in Galicia continues successfully. The fighting is progressing on a fifty mile front from Halicz to the foothills of the Carpathians and all along the line the Russians are advancing. Northwest of Halicz on Thursday the Russians enlarged their gains north of the Dniester, capturing important heights between the river and Bukaczowice and occupied two villages. This advance is in the direction of Lemberg.

In the centre and on the southern end of the line the Russians have been victorious in heavy battles for the possession of the crossings of the river Lomnica. They have made progress on the road to Dolina and have captured the crossings of the road to Soborodany, about fifteen miles south of Kalusz, and four miles west of Pershinsko. A probable resumption of heavy fighting on the eastern front north of the Pripiet marshes and in Roumania is indicated. On the Dvina and Shara rivers and near Smorgon, north of Pinsk, there has been more active infantry fighting. No determined attack, however, has yet developed.

Threatens Roumanian Line.
The Russian advance west of Stanislaw besides endangering the Austro-German line immediately north in Galicia, also is a threat against the line in Roumania. The Russian and Roumanian artillery has been hammering the Teuton positions there in the past few days and already advance parties have been thrown forward to test the enemy's strength. No attack in force has been reported. Raids and reconnoitering engagements have occupied the British and Germans on the northern end of the front in France. South of St. Quentin along the Aisne front and on both sides of the Meuse, in the Verdun region the artillery only have been active. In aerial fighting French airplanes have brought down ten German airplanes and driven eight enemy machines down behind their own lines in damaged condition.

French Statement.
Paris, July 13.—The war office issued the following official statement tonight:
"Rather violent artillery fighting took place to the south of St. Quentin and to the south of Pargny, Flain, in the direction of La Rooye Farm. Both the artillery were active on the Argonne and on both banks of the Meuse. Today the Germans violently bombarded Rheims, 1,600 shells falling into the city."
"On July 9 and 10, ten German airplanes were brought down on our front and eight enemy machines fell within the German lines, seriously damaged."
"Belgian communication: Last night the enemy violently bombarded the region of Steenstraete and shelled our communications heavily. During the day there was the usual artillery activity. A few shells fell in the region of Westvliet."

THE STUMPAGE RATE INCREASE Thought that Increased Rates Will Be Made Effective Shortly.

Fredericton, July 13.—The Gleason says it is not unlikely the provincial government will decide to increase the crown land stumpage 50 cents a thousand, making the stumpage rate for the present year \$3 a thousand. It is estimated that this increase in stumpage will this year give the province an increase in revenue from crown lands of about \$125,000. The new figure is still much less than the rate charged on private lands, which rate varies from \$2 to \$5 a thousand, the rate in most instances being more than \$3 and nearer \$5.

ST. JOHN MEN ATTEND COAL CONFERENCE

Coal Operators and Dealers
Meet Fuel Controller
Magrath in Halifax.

Halifax, July 13.—A conference of coal operators of this province, with C. A. Magrath, Dominion fuel controller, and G. S. Hudson, his assistant, was held in the executive council chamber of the province building. The meeting was attended by the managers of practically every coal mining company in the province or their representatives.

Having addressed the operators, Mr. Magrath conferred with representatives of the Nova Scotia and the New Brunswick governments, the mayors of St. John and Halifax, acting city engineer Johnston and G. S. Campbell, national service director for this province. Hon. R. G. Beasley is the Nova Scotia government representative and Dr. Frink of St. John represents the New Brunswick government.

Later in the day Mr. Magrath conferred with some of the retail dealers of this city, in order to secure information as to the consumption here and the needs of the people.

TROUBLE IN CUBA!

Havana, July 13.—President Menocal has suspended the constitutional guarantees and called an extra session of congress.

Rothsay Tag Day.
This is tag day in Rothsay and vicinity being conducted by the Rothsays. Red Cross and the proceeds are in aid of the French wounded. The ladies in charge are Mrs. F. W. Daniel, Miss Alice Davidson and Miss Sophie Robertson, while four members of the Y. W. P. A. will look after tagging the residents of Renforth. The young lady taggers will board trains that arrive at Rothsay station, and it is expected that a good sum of money will be collected.

TWO HOUR FIGHT IN TEMPLE OF HEAVEN

Large Fire Raging in Forbidden
City of Peking and
Fight Continues.

London, July 13.—The British battleship Vanguard blew up and sank on July 9th, says an official statement issued tonight by the British admiralty.

An internal explosion while the ship was at anchor caused the disaster to the Vanguard. Only three men of those on board survived and one of them has since died. Twenty-four officers and seventy-one men were not on board at the time of the explosion.

The official statement reads:
"H. M. S. Vanguard, Captain James D. Dick, blew up while at anchor on the night of July 9th as the result of an internal explosion.

"The ship sank immediately and there were only three survivors among the crew at the time of the disaster—one officer and two men. The officer has since died. There were, however, twenty-four officers and seventy-one men not on board at the time, thus bringing the total number of survivors to ninety-seven.

"A full inquiry has been ordered."

The British battleship Vanguard displaced 19,250 tons and her complement before the war was 870 men. The Vanguard belonged to the St. Vincent class of dreadnoughts and was launched in March, 1902. The Vanguard was 538 feet long with a beam of eighty-four feet and a draft of twenty-seven feet. Her armament consisted of six 16-inch guns, eight 4-inch, and four 3-pounders, in addition to six torpedo tubes.

CANADA CAN GET GOODS FROM U. S.

Embargo Placed on Exports
by Washington Does Not
Apply to Dominion.

Washington, July 13.—An embargo, effective immediately against all shipments intended for export of commodities named in President Wilson's recent export proclamation, except when C. A. Magrath is presented with a federal license, the number furnished or authorized, by the export council at Washington, was ordered today by the American Railway Association Commission on car service.

Arrangements have been made under which all shipments consigned to points in Canada can go forward as heretofore, special licenses covering same having been issued through the customs service.

MESOPOTAMIA CHARGES MAY BE RE-OPENED

Statutory Tribunal Likely to
Hear Probe Case Once
More.

London, July 13.—Although the House of Commons adjourned today without making a decision, it is virtually certain that the government will introduce into parliament a bill to set up a statutory tribunal to investigate the Mesopotamian charges.

At the resumption of the debate today, Andrew Bonar Law, chancellor of the exchequer, and government leader in the house, explained that the government assumed that the sense of the house favored this course and that unless the opinion was altered by the course of the debate today, the government would move to adopt the proposed statutory tribunal.

ENGLISH SOLDIERS FOUGHT BRAVELY ON SAND DUNES

Germans Concentrated Most
Terrific Shell Fire.

BRITISH GARRISON FIGHT TO LAST MAN

Battle Will Be Memorable for
Valor of British
Troops.

British Headquarters in France, July 13.—(By Associated Press)—The German attack along the sand dunes of the Belgian coast on Tuesday evening was in nearly all respects a miniature of the British attack on the Messines Ridge on June 7. It seemed as if the Germans had studied that battle in detail and planned their thrust wholly upon the lessons learned. There was a vast difference in the size of the two operations, however, for while the German attack of Tuesday was limited to 1,400 yards, or to the British support line, where they are now endeavoring to entrench themselves, while the British have fallen back to the west bank of the Yser.

This little battle on the sands of Flanders will live largely through the valor of the deeds of the English troops who met the shock of the German massed formation after having their protecting defenses blown to pieces about them by the greatest concentration of German shell fire seen on this front in more than a year.

The trenches dug among the blowing and shifting sand dunes were speedily obliterated by the storm of high explosive shells the Germans were able to pour upon them.

In this angle, the sands of which are now dyed red with English blood, were Northampton troops and the King's Royal Rifles. The garrison fought to the death and the German report of 1,250 prisoners taken cannot be correct.

THE MOTOR MEN OF MONCTON CLAMOR FOR GOOD ROADS

Automobile Owners of Rail-
way City Will Probably Or-
ganize Soon.

Special to The Standard.
Moncton, July 13.—At a meeting of motor car owners tonight to discuss the question of better roads and the formation of a local automobile association, a committee was appointed for the purpose of getting information in connection with such organization and to report to an adjourned meeting. The feeling was that a strong effort should be made for improved road conditions. A local automobile association is likely to be organized at the next meeting.

GOVERNMENT CONTROLS CROPS.

London, July 13.—Baron Rhodes, the food controller, by an order issued today has taken over the control of the 1917 crops of wheat, barley, oats, rye and potatoes.

Washington, July 13.—President Wilson has given Gen. Goethals full power to commandeer ships on the stocks and hasten their construction.

Comfort for the "Newly Weds"— Allowance for
Women—Divinity Students and Doukhobors to
Be Exempt as Well as Mennonites.

Ottawa, July 13.—Hon. T. W. Crothers laid on the table of the Commons this afternoon, the report of the investigation conducted by Mr. W. F. O'Connor, K. C., the cost of living commissioner, into the cold storage conditions in Canada. He moved that the report, which is a bulky one, be printed. This was agreed to.

Sir Robert Borden stated that on Monday next, he would move the resolution in his name for the extension of the parliamentary term for another year.

Hon. Arthur Meighen, when the House went into committee on the military service bill, moved an amendment to the clause, which states that marriages subsequent to June 11, would not exempt men from being called in the class in which they would be liable for service if unmarried. In response to the suggestion of Mr. A. K. MacLean, he moved that the date be changed to July 6.

DETECTIVE CHIEF BURNS EXONERATED

Charged with Copying Letters
in Investigating Thefts from
Morgan Frim.

New York, July 13.—William J. Burns, the detective, convicted of a misdemeanor for having copied certain letters when trying to solve the theft of munition contract cables from the office of J. P. Morgan & Co., was today exonerated in the appellate division of the supreme court, which reversed the judgment of the lower court.

SERIOUS NEWS FROM BERLIN

Copenhagen, July 17.—Serious news came from Berlin late today. The Reichstag has gone on strike and the members have decided to suspend the labors both of the full house and the main committee until the political situation is cleared up. This leaves ten war credit bills in abeyance.

Emperor William has summoned Field Marshal Von Hindenburg, chief of the general staff, and General Ludendorff, the chief quartermaster general, for a conference.

This news should be interpreted in connection with intimations that the German government has decided to refuse to parliamentarize the cabinet and the difficulties reported in connection with the adoption of a peace resolution.

London, July 13.—British airmen have been victorious in the most severe aerial fighting since the beginning of the war. On the front in France on Thursday fourteen German airplanes were brought down and sixteen driven down out of control, says the official statement from British headquarters in France tonight. Nine British machines are reported to have been lost in the fighting.

The Married Men.

Col. John A. Currie suggested that every unmarried man should go before the married men were called upon.

Separation Allowances.
A debate followed upon the weaknesses of the separation allowance system. Col. Currie said that the failure to provide separation allowances in many cases had done more than any other thing to bring the voluntary system into disrepute.

Rights of Newspapers.

On the new section 16, as amended, to place censorship of anti-conscriptor propaganda in the hands of the central appeal judge, Mr. Oliver contended that under the clause, the rights of property in a newspaper were not protected. A newspaper was given no opportunity to justify its position; there was no provision for evidence or consideration of the case against it.

Sir Robert Borden said that action would only be taken in most flagrant cases. He imagined a newspaper offending would be first warned.

Will Soon Be Law.

The clause to the effect that the act comes into force by proclamation was eliminated by motion of Mr. Meighen, and the act will come in force now when sanctioned by the governor-general.

Sir Robert Borden moved an amendment to the effect that divinity students as well as clergy and members of religious orders be exempted.

Monks Join Army.

Hon. Charles Meighen in agreeing with the premier said that members of a large number of religious orders who had come to France had voluntarily rejoined the French army.

Despite protests, however, the amendment was adopted.

When the final paragraph of the original bill relating to the exemption of Mennonites and Doukhobors was taken up Mr. Meighen said that the honor of the nation was pledged to these people.

BRITISH WIN CASUALTIES IN THE AIR

London, July 13.—British airmen have been victorious in the most severe aerial fighting since the beginning of the war. On the front in France on Thursday fourteen German airplanes were brought down and sixteen driven down out of control, says the official statement from British headquarters in France tonight. Nine British machines are reported to have been lost in the fighting.

SONS OF TEMPERANCE ARE GRATEFUL FOR PROHIBITION

Semi-Annual Session of the Grand Division of New Brunswick Held at Corn Hill, Kings Co.—Most Worthy Associate Among Those Present.

Special to The Standard. Corn Hill, Kings Co., July 15—The semi-annual meeting of the Grand Division Sons of Temperance of New Brunswick was held with Corn Hill division July 12th and 13th.

Among those present were: Sackville Division, No. 46—George A. Fawcett, G. W. P. in the chair. Grand Rock No. 77, St. John—E. C. Hennigar, M. W. A., representing National Division; Rev. W. R. Robinson, G. S. Excelsior, N. 468, St. John—Mr. and Mrs. William H. Macdonald, Mr. A. Moneton Division, No. 183—A. A. McLeod, Grand Conductor. Newcastle, No. 46—James Falconer, Grand Treasurer; Henry Harvey Stuart, Grand Patron. Caledonia, No. 126, Douglastown—Harold C. Stothart, Grand Sentinel. Harcourt, No. 288—Rev. R. H. Stavert, P. M. W. P. Corn Hill, No. 376—F. H. Rouse, G. W. A.; Geo. W. Keith, W. O. Dunlop, J. A. Elliott, Walker T. Stockton, Arthur D. Rouse, Mrs. Mabel Brumhill, Mrs. A. T. Stockton. Britannia, No. 265, Lower Millstream—John E. McAuley, W. T. McKnight, W. W. McAuley, Miss Sadie A. McAuley.

Corn Hill, No. 376 (visitors)—Ella Coates, Ella Bryn, Gladys Rouse, Eva M. Rouse, Nellie M. Coates, Hatie J. Stockton, Mary Stockton, Emily Coates, Thos. H. Middleton, Arthur D. Marr, Austin Rouse, Maurice Brantcombe, Albert Mallery, Oro E. Dunlop, Ross McIsackin, Herbert Rouse, Ernest J. Walsh, George E. Keith, Harley K. Rouse, John H. Rouse, Combe, Warren Rouse, Jack Keith, Ralph E. Pinfield, Raleigh A. DeBow, John E. Brantcombe.

G. W. P.'s Report. The G. W. P.'s report in part was as follows: Dear brothers and sisters, it gives me the greatest pleasure to extend to you all a very cordial welcome to this semi-annual session of our Grand Division, and I am sure I can speak on behalf of Corn Hill Division No. 376 with whom we meet in further extending that welcome. None of us who were here four years ago have forgotten the great kindness of those people and exertions they put forward to advance our comfort and enjoyment.

Confederation. On the first day of this present month all Canada celebrated our 50th anniversary of confederation, and I think it can be said that no event of recent years drew forth a more hearty response from a loyal and contented citizenship. During this period the Dominion has developed at a very rapid rate and generally satisfactory manner, and the foundation of greater prosperity being constantly growing. Social Reform endeavors becoming increasingly practical, technical education advanced, political corruption being frowned upon, charity increasing, religious denominations increasing, missionary and other philanthropic enterprises more liberally supported and general prosperity prevailing.

Prohibition. The first day of May, 1917, was a time that should long be remembered by the people of our province for that day our new Prohibition Law came into effect. This very great event to my mind the most important in the history of New Brunswick, is a direct result of the work of the different Temperance bodies banded together for the advancement of high and noble ideas of Christian citizenship, and the overthrow of that man of all business, the selling to our fellow man that which destroys both body and soul and drags down into shame so many of our women and girls. I say, as the Grand Worthy Patriarch of New Brunswick, all honor to the men of our province who have the nerve, the courage and the interest and welfare of the people to take hold of this question and stamp on it for all time to come this condemnation and give this prohibition one of the best of prohibition measures. I am also pleased to note that the present government have appointed as Chief Inspector the man whom the majority of Temperance workers desired and have also amended the Law where it was thought to be weak. I believe the Law is working well in St. J. A City where licensed saloons have been held away and I think it should be our duty to see that in all the other divisions under the Scott Act, our province under this Prohibition measure.

Visits. During the past six months the work of our order in this province has been most satisfactory. I will leave for the Grand Scribe more detailed statement of our work, but might say that I have visited or written almost all the Divisions in our jurisdiction. It was my great privilege to be at the 67th anniversary of the Golden Rule Division No. 61, one of our oldest. I found this Division in a very strong condition, with our P. G. W. Moore at its head surrounded by a host of strong workers. In March I visited Belle Verte No. 65 and reorganized them. The Division has been a power for good in that place, and I doubt if any division has turned out more noted men and women in public life today. I might say that thirteen of its young have entered the R. N. A. and that was the cause of them ceasing to meet. I was assisted by our Grand Chaplain, Bro. McVey, and our P. G. W. P. Bro. Kirby. On March 28 I had the great pleasure of meeting the brothers and sisters in St. John in their hall. I was struck with seeing so many of the older people in attendance, veterans of our order. Port Elgin 442, Westmorland 60, Life Line 462, Moncton 183, I found in good working order.

Good of Order. On April 28 we had an exceptional meeting at Moncton, which was well attended. The propagation work was carefully gone into and arrangements were made for several of our strong men to go into different parts of our province and hold temperance meetings and organize, which work is now progressing well. Personally I wish to thank our G. S. G. Chaplain McVey, P. G. W. P. Kirby, P. G. W. P. Hennigar, and P. M. W. P. Stavert for their very kind sympathy and help this first six months of my office. I feel that we have done something, but not near what I had hoped for, and that during the present session all matters will receive your best consideration, and the next six months will find our order increased in membership considerably.

Jubilee. In September the National Division meets in annual session in the city of Boston. This is the 75th anniversary of our organization, and will be a very important gathering. Extensive arrangements are being made by the National Division, for the purpose of entertainment and parade celebration of this great event, and I hope this G. D. will at this session consider the matter well and see to it that its full quota of members are elected to go, and that we as a grand division contribute our part as to its cost.

Grand Patron's Report. The Grand Patron reported that there were on June 30, 1917, four Bands of Hope in good standing in the province—the same number as on September 30, 1916. They are: Caledonia No. 5, Douglastown, with 47 members—12 boys and 35 girls. Worthy Patron Clarence McKensie. Fortness No. 53, Middle Backville, 34 members—18 boys and 16 girls. Worthy Patron, Mrs. L. Smith. Westmorland No. 87, Point de Bute, with 23 members—9 boys and 19 girls. Worthy Patron, Mrs. George Orman. Sunshine Band, McKee's Mills, with 23 members—11 boys and 21 girls. Worthy Patron, Mrs. Wm. H. Anderson.

The above shows total of four bands and 141 members on June 30, 1917. The bands at Little Ridgeway, Belle Verte, Richibucto, Harcourt, Millerton, Redbank and Canterbury Station, all of which were dormant at the time of last Grand Division remain so. There is a prospect, however, of a new Band at Grandville. The Worthy Patrons, officers and members of the four active Bands deserve much praise for their faithful and untiring work in keeping up the interest in their particular localities. Hoping to have more grounds for optimism the next time I make a report, I am Yours in L. P. and F., Henry Harvey Stuart, Grand Patron.

Grand Secretary. To the G. W. P. S of T. Officers and Members: It is of more than passing interest and food for congratulation to know that for the first time in the history of our grand old order, since 1865, A. D., we meet in a province under the blessed reign of Prohibition, that for which our predecessors labored, and present generation of Sons of Temperance fought for has come to pass, namely the absolute overthrow of the licensed liquor traffic in the province of New Brunswick. The splendid results already achieved, and the approval of this law, and we are assured by public sentiment and the confidence that never again will we see this cursed stuff sold with legal sanction in our jurisdiction. Your committee on the state of the Order beg to submit their report as follows:

1. We are pleased to notice that in this time of stress when so many of the young men of our country, including many brethren of the Order, are gallantly upholding the freedom of our Empire and of the world on the fields of France and Belgium and elsewhere, and so many of our ladies are

SIR WILFRID: "Now, What Do You Know About That?"

busy with various patriotic work at home, the membership of our Order has not declined during the past half year, but has increased, according to the reports sent in by 16 members, and that the reported membership in New Brunswick is 1,921 with 727 estimated for the Divisions not reporting but known to be living, making a total of 1,194. Under the difficult circumstances we consider this a good showing.

2. While pleased to see that the number and membership of Bands of Hope have not declined since our last meeting, we regret that there is not an active young people's organization in connection with every division in the province, the W. C. T. U. or some other temperance body is not doing the same work.

3. We appreciate very much the services of Grand Officers Fawcett, Robinson, Kirby, Hennigar, Stavert, McVey and others in visiting and encouraging different subordinate divisions. Such visitation is extremely helpful, and there cannot be too much of it done.

4. We rejoice at the great amount of effective temperance work being done by our own order as well as by

the I. O. G. T., Grand Temple of Honor, W. C. T. U. and similar bodies, and by the N. B. Branch of the Dominion Alliance, the Newcastle Town Improvement League, and other organizations, and urge upon our members the continued co-operation with all temperance workers for the good of the common cause.

5. We desire to heartily thank the late government of New Brunswick for the magnificent Temperance Act given us last year, and the present government for the loyal manner in which they have applied it, appointing as chief inspector the nominee of the Temperance Alliance, Rev. W. D. Wilson, and taking all other measures necessary for the honest enforcement of the act.

We hope that all counties now under Scott Act will speedily repeal the same in order to come under the provisions of the New Brunswick Temperance Act, which in our opinion is much the superior and more effective law.

Section 2 was spoken to by Bro. Hennigar, Macdonald, Stuart and John E. McAuley, all urging more work among the children, which in towns is seriously hampered by the moving picture shows. The selling of cigarettes was severely condemned. Mr. Stuart said it was as bad to sell cigarettes as rum. Mr. McAuley said it was worse.

No one thing will improve the farm property as much as Better Roads. Roads are more important to the average inhabitant of New Brunswick than anything else.

Keeping Political "Pull" Out of Draft Exemptions

Political influences in the working of the draft exemption boards in the United States is a peril various journals foresee with alarm, and in their support they have no less an authority than the President himself who sounded a note of caution on this point in his proclamation announcing the rules and regulations governing the selection of men for service in the national war army.

Uncle Dick's C...

After being at large for some three weeks he has been caught by the Children's Corner school girl, Stella M. sex. I have great pleasure in awarding the reward of two dollars and must endeavor to get a way in which you display fitness and patience.

Mr. Fox passed through town, and although with great number of people capturing him remains a member of the Corner. I understand that Mr. Fox really looked like a fox when he was captured. I have great pleasure in awarding the reward of two dollars and must endeavor to get a way in which you display fitness and patience.

Uncle Dick's C... Children's E... A BRAVE BOY... There are many boys and the revolutionary days, who did part in the saving of the country as bravely as their fathers and ours.

Robert, a lad of only eight stood one morning, staring in great displeasure, where he gaped and cracked as brightly and cheerfully as if there were no danger, no sorrow, in this world, so broad and fresh. "I wish I were a hero," said he, stuffing his fists down into his pockets. "I wish I were a hero and go to war!" Robert's mother sighed as she looked at her boy and thought of his father in battle, perhaps, at that hour with the redcoats. I thought only of the fine uniform, the music, the marching and all the parade of war; but Robert's thought of the danger, the suffering and the desolation. "Never mind, my boy," said she, "remember we can all be heroes in everyday life. Just then there came a noise at the door. It was as if someone fell down."

MOFFO: "KINDLY DEEDS MAKE HAPPY LIVES"

Uncle Dick's Chat With the Children

My Dear Kiddles: After being at large in the province for some three weeks, the Fugitive has been caught by a member of the Cornwall Corners, a bright clever school girl, Stella M. LeClair, of Sussex. I have great pleasure in making the award of two dollars to you, Stella, and must compliment you upon the way in which you displayed resourcefulness and patience.

Mr. Fox passed through twenty towns, and although watched for by a great number of people, the honor of capturing him remained for one who is a member of the Corners. Stella is not a subscriber to The Standard, but has been interested in the special page for children for some time, as she has always seen his sister's Standard regularly. I understand that from now she will endeavor to get a copy for herself each Saturday.

The special award for the most correct description of Fox the Fugitive goes to Dora L. Wilson, Harvey Station, as the composition sent in by that little is the best received. It shows that they have been reading the articles in The Standard each day, so as to form some opinion as to what Mr. Fox really looked like. I compliment you also, Dora, on the imaginative power shown in the writing of the description.

This unique form of contest has revealed many traits of character, and possession of the lucky winners, and serves to teach quite a lesson to the members of the Corners. Just you kids read what Mr. Fox told in the Standard of Thursday regarding his capture so that you may be encouraged to do as Stella did on other occasions when such thoughtfulness is required.

You will notice that the fortunate middle used her eyes well, as before Mr. Fox went into the woods she noted that he had acted in rather a strange manner when at the door of her friends, on the other side of the street, and that he put something near the bottom of the house door. Also that she did not let her curiosity prevent her from first of all doing her war service-duty, that of assisting in the school garden. On the other hand she completed her task in the garden, and then turned her attention to the catching of the man who she was sure was being the father whom she was sure of as being the man who she was sure of.

That is still a further point I wish you to notice. She patiently waited for two hours and three-quarters in a place she was used to. Besides she gave attention to the conditions of the capture that of having a copy of the current issue of The Standard to her possession. All these incidents are well worth considering and as you boys and girls grow up, I would like to impress upon you the lesson you have learned. In order they are as follows:

- 1st. Use your eyes.
2nd. Use your memory.
3rd. Wait for your pleasure.
4th. Have patience.
5th. Do what you are told.
6th. Pay attention to these small but important things.
7th. Be engaged in the good results which such bring you.

Now I hope you will watch carefully for the Children's Corners. I have something quite new and interesting to tell you of. Something which I think you will enjoy more than any other. Jolly and brighter than ever, meaning while I should like very much to receive any pictures which you may be taking whilst on your vacation. You will notice this week that I am giving a special prize for the best received. It does not matter whether it is taken with a small or big camera, so long as it is clear and of sufficient interest to publish. Read the conditions and then get busy.

How are you enjoying the stories above him, above this, I am glad to see that they are not suitable for printing in the Corners on that account. To encourage you, I herewith offer a splendid prize, of a valuable book to the kiddie who sends in the best and most original story during the holidays. I shall publish those I consider best, and let the kiddies judge for a change. There is close of the holidays, I shall announce the name of the winner.

Now I shall have to close this long letter with best wishes and hope of love, to all the kiddies, but before I do so I will have to send a kiss to all who send me such messages at the end of your letters, to my dear friend, Uncle Dick.

Uncle Dick's Chat With the Children

Children's Editor. A BRAVE BOY

CHILDREN'S CORNER CONDUCTED BY UNCLE DICK.

THE TWO FATHERS CAUGHT BY MEMBER OF C. C. A KIND GIRL

One Sunday afternoon Jack and his father had gone for a long walk. It was a warm spring day. The apple trees and shrubs were in bloom. Birds sang in the woods. The bees went booming in and out among the flowers. "Take us whole, Father. Why would you do me?" asked Jack. "Rested and strong, and in our characters," replied his father. "We need to grow into our perfect selves, and Sunday was set apart that we might do so."

As they climbed a fence and came into some woods, Jack heard a faint "Peep, peep," down among the leaves. When he came to the place, a mother bird flew up and sat on a branch. Her head, scolding as if she wanted Jack to get away. She was a poor little bird that had fallen out of a big tree. It was too young to fly. The mother and father birds had wings instead of arms, and so they could not carry it.

"Where do you suppose it came from?" "Oh, I see. There is the nest right over there." "Can you reach it? Let's put it back." "Indeed, we will, Jack." His father bent down, lifted the bird gently and laid it back in the nest.

"Now, mister robin, you had better warn your babies not to lean over the fence when you bring those fat worms to them. Only that Jack. Jack once said that not a little bird fall on the ground without God's knowing it. It is good to have such a Father in heaven, isn't it?" "Yes, but I can't see God, Father," said Jack.

"Not there is not an hour, day or night when you see Him, but I am working for you, so that you may have shoes and food and games and all sorts of things. And every time I think when you are asleep, Mother and I tuck you in snug and warm. When you see us or not, it is our love that is watching over you and trying to make you comfortable."

"Yes, but I see you sometimes." "Well, perhaps if you and I were better and wiser, we could see more signs of God, and of His love. He is too great to be seen by our little eyes as we see each other. Still, we know He is in the morning when the light wakes us up. He is in the evening when the sun is in the sky, even though you cannot see it from our bed. Besides, you try to look at the sun, its rays and the beauty of its light. Perhaps God is so bright in His glory, so different from that human eye, were made to look at, that we could not see Him. He gave us a picture of Himself in Jesus who is the greatest of God's loved ones who cared for His brothers and sisters, who loves and cares for us."

"But where do we see signs of God's care," Father asked Jack. "All around us, my boy. Who sends the sun and the moon, the stars and the clouds? Who gives us the wheat to grow, so that you and I can eat bread? Who paints the sunset, and hangs the moon and stars in the sky, and makes the birds sing? And who gave you and Mother and me to love and care for?"

"Why father, I thought you did. Was I ever lost in a great wood. It was your picture of Him that I was looking at. And you were with me all the time." "All the time, Jack. Nurse and I so early left the room. When you were awake and were lying in the bed, when you thought you were alone, I was holding your hand, and know me again. When you were unhappy, I was doing everything in my power to make you happy and well."

"Isn't that strange, Father, now I begin to see how God can be close beside us and caring for us even when we do not see Him at all." "Just then a robin flew up on a tree near the porch. He poured out a song so full of joy that Jack and his father stopped talking. "Isn't that a lovely robin!" said the father. Jack was silent for a moment and then said, "Yes, I wonder if that is one of our robins?" "Why, then, Jack, what baby we put back into the nest?" "Perhaps it is. Who knows but what this is the first of saying 'Thank you' as soon as you are better, we must go together to the doctor's house, and thank him for his skillful services; and when we say our prayers tonight, we must thank the Heavenly Father for His part in making you well." And they did.

ARE YOU ENTERING THE SPECIAL CONTESTS

King set his foot upon his own hand again, and he was riding as fast as he could toward his castle when he saw a crowd of people on the road in front of him. He was all swollen and in a flood, and he could not get across. While he stood on the bank wondering what he should do, a giant appeared and said to him: "What will you give me if I carry you over?" "Why," said the King, "what do you want?" "Not very much," answered the giant. "Just give me a horse, and a bit of gold, and I shall be quite satisfied."

So the giant carried him across the river, and the King thanked him and rode off home quickly, and when he was to see his wife again after so many years, and what a fuss he made of her and her handsome young son. "At this time he said to the Queen, 'Well, my dear, you have not yet told me what our boy's name is.'" "Oh," said the Queen, "he is not christened yet. I wanted to wait until you came home, so I just called him 'Nix Nought Nothing.'" "Well, at that you may fancy what a trouble the poor King was in: 'Oh dear, oh dear,' he cried, 'here's a terrible thing. I promised the giant you would give him Nix Nought Nothing for his pains.'"

His wife soothed him and said, "Do not despair, my husband. When the giant comes we will just give him the hen-wife's boy, and I'll warrant he will never know the difference." "So it was arranged. A day or two later along came the giant, having given me my pay."

At this of course, the giant knew that he had not got the King's son, so he threw the poor lad roughly and ran back to the castle, bawling at the top of his voice, "Give me Nix Nought Nothing! Give me my boy, or it will be the worse for you!"

Well, this time they gave him the little son of the cook, and the giant got with him on his shoulder and ran off with him. After he had gone a mile or two, however, he set the lad on his knee and said, "Sit, pig on my back, tell me, boy, what time is that?" "It is the time my mother begins to get the King's dinner ready."

"Well, what could a poor boy do with a job like that? The next morning, long before breakfast, he set to work upon the stable, but his seven nails, he had cleaned only a small part of it, and seeing how much was still left to do, he bowed his head on his hands, and gave himself up to despair. Now the giant had a daughter, who was no bigger than ordinary folk, and she was so beautiful that even the king himself had a kind word for her. When she brought the lad his breakfast, fast into the stable, and saw him looking so miserable, she asked him, 'What's the matter? Never mind! I'll help you, and it will soon be done.'"

By and by out comes the giant for the first time, and he sees the king's son in the stable, and of course, they did it in no time. "Here you are, Bob," she said. "Mine will wait for you, sure. I shall not skate any more today." "Oh, thank you, Elsie," said Bob. He sat down at once and began to put on his boots. Jack had been watching all the time. He understood what had happened. "Sit on this sled, Elsie," he said. "I'll see that you will give your ride as soon as ever you like." "Of course I will," said Bob. In a few moments Bob had the skates on, and was picking up the rope, he drew Elsie all round the pond.

Bob was a happy boy that day; but I think Elsie was still more happy, even without her skates. "The next day he called the boy to him, and said, 'Close by here there is a lake seven miles long, and seven miles broad, and I want you to go there and work on it. It will be a hard job, but you must do it, and you will be rich for ever.'"

By and by out comes the giant for the first time, and he sees the king's son in the stable, and of course, they did it in no time. "Here you are, Bob," she said. "Mine will wait for you, sure. I shall not skate any more today." "Oh, thank you, Elsie," said Bob. He sat down at once and began to put on his boots. Jack had been watching all the time. He understood what had happened.

NEWS AND COMMENT FROM THE FINANCIAL WORLD

BLUE FRIDAY, THIRTEENTH WALL ST. Peace Rumors, Rise in Call Loans, Decline in War Bonds and Other Things Knocked Stocks Galley West.

New York, July 13.—Extension of the short interest, a rise in call loans to 5 1/4 per cent and the unfavorable sentiment created by further steady declines in Liberty bonds accounted for the bearishness of the market in Wall Street.

Other elements of weakness were represented by Baldwin and American locomotives, coppers, oil, corn leather, American woolens, corn products and the motors in which recessions ran from two to four points.

Total sales amounted to \$80,000 shares. Time money remained its recent rise, ignoring the flurry in call accommodations, due to additional withdrawals of government deposits from local institutions.

CANADIAN MARKET IN HEALTHY STATE New Work Shimp Fails to Leave Stockholders - Detroit United and Other Stocks Advance in Montreal.

(Special to The Standard.) Montreal, July 13.—Further evidence of a healthy position in the Canadian stock markets was afforded today by the absence of selling pressure in face of a decidedly weak market at New York.

The only group in the market to reflect in even a moderate way the weak tone at New York was the Steel.

WORKMAN-ROSS STOCK CONTROLS DOMINION IRON

(Special to The Standard.) Montreal, July 13.—When gossip crops up as it does from time to time about change of control in the Dominion Steel Corporation there are a few facts worth remembering.

These interests would have to be reckoned with by Any Group Attempting to Acquire Control.

Out of the total of about 370,000 shares issued 90,000 can be mustered quickly on the side of the present management. Some of the other directors own from 1,000 to 5,000 shares a piece, and in addition to that could enlist the support of large blocks held in the names of their friends both brokers and private investors.

7 3/4 and the 1913 at 96 both established new high prices for current movement with 3/4 point gain in each case secured on very light buying.

FINANCIAL COMMENT.

(McDOUGALL & COWANS.) New York, July 13.—General Comment.—Financial interests are inclined to doubt whether the government ideas will meet those of manufacturers on the matter of price.

WITNESS FAILS TO APPEAR IN ARSON CASE; ATTORNEY-GENERAL ASKS WARRANT

Mrs. Mary McAleer Did Not Answer Name—Measurements of Hoof Prints at the Crawford House and Those of Horse Used by Prisoners Correspond—Case Adjournd Until Monday.

At yesterday afternoon's session of the arson trial Attorney-General Byrnes asked for the issue of a warrant for Mrs. Esther McAleer, a missing witness. On proof of service of the subpoena his honor gave the desired order with the understanding that an effort would be made to locate her. The attorney-general explained that he had been given to understand that Mrs. McAleer had closed the house where she lived and this was the reason he asked for the warrant.

The case was resumed yesterday morning at the circuit court and occupied the whole day. At the morning session evidence was given by John Johnson, Charles Sweeney, Edmund Gibbons, John S. Coughlan and William R. McKinley. At the afternoon session Frank Saunders was on the stand and at the time of adjournment the direct examination of Police Officer Saunders had just been concluded.

Morning Session.
The first witness called was John Johnson. He gave evidence of being at the fire on the night in question. He drove there in company with two other men. When he got there the house was about burned down. He and Kenneth Molias. His horse would not make the same imprint as was found on the road.

Afternoon Session.
Frank Donnelly was the first witness at the afternoon session. He remembered the night of the Crawford fire. He was not in the stable when the prisoners were given the mare "Kitty". He was in the stable about eleven o'clock and "Kitty" had not yet come in. He had owned this mare about a year or year and a half. He called her Hasen mare. She had a jack or lump on her hind leg and this tended to make her lame when first starting out. He could not say what kind of print her shoe would make. She would wear a jack on her hind leg. He was shot forward on Friday, June 15, but not behind. Did not know just how long before that date she was shot behind.

Give Me a Chance to Cure Your Rheumatism FREE
Mr. Delano took his own medicine. It cured his rheumatism after he had suffered tortures for thirty-six years. He spent thousands of dollars before he discovered the remedy that cured him, but I will give you the benefit of his experience for nothing. If you suffer from rheumatism let me send you a package of this remedy absolutely free. Don't send any money. I want to give it to you. I want you to see for yourself what it will do. The picture shows how rheumatism twists and distorts the bones. Maybe you are suffering the same way. Don't. You do not need to. I have the remedy that I believe will cure you and it's yours for the asking. Write me today. F. H. Delano, 756-C, Delano Building, Syracuse, New York, and I will send you a free package the very day I get your letter.

ROTHESAY

Rothsay, July 13.—An event of great importance and through enjoyment was the delightful outing given on the members of No. 3 Field Ambulance Corps by Captain and Mrs. W. B. McVey, on Saturday last. Preparations for this coming were made well in advance, and the weather was perfect. Arriving at Rothsay by the noon suburban train, the soldiers detained at the picnic grounds and marched to the summer residence of Lady Tilley, where on behalf of the unit Capt. McVey presented to her a silver mounted A. M. C. Red Cross badge, inscribed with a maple leaf and the words "St. F. A. Depot, C.E.F." The design such as worn by the men, with the addition of a "Red Cross" set in white enamel. The party then proceeded to the summer cottage of Captain and Mrs. McVey on the shore in Rothsay Park, where Mrs. McVey addressed the members of the V.A.D., who, together with young ladies of the Y.W.P.A. were invited guests. A fine programme of sports was run on the campus connected with the picnic grounds, which was a contribution to the occasion from the Misses Ballentine, who were greatly appreciated. Staff Sergeant Blace and Drummer and Sergeant Topper, who were successfully directed the programme of sports which included 100 yards dash for men, prize won by Pte. Powell; 100 yards dash for ladies, won by Miss Kihring; 1st and Miss Froese 2nd. Three-legged race won by St. John brothers; boot and puttee race, won by Pte. J. Stutz; bare back horse race, won by Pte. McWilliam. The V.A.D. ladies' race (sweater contest) won by Sister Compton. An exciting tug-of-war was won by Sgt. Smith's team (prizes two boxes of cigars); fat man's race, won by Sgt. Topper. The last item was a baseball game in which Sgt. Major Stocks got seven in the first inning. One of the players was struck in the face by the ball and seriously hurt. This caused sorrow to all present. Nursing Sisters Baskin and Compton were soon beside the injured man, with their Red Cross kit. Capt. McVey was also immediately on hand and after a rest on the McVey's sleeping porch he was able to be among his comrades, two of whom carefully attended him. Delicious supper was served on the shore in front of the cottage and after that the boys enjoyed boating, swimming and a "sing-song," which gave pleasure to everybody. It was intended the party should return by the 3 o'clock suburban but to the joy of all, the 9 o'clock express was taken instead. Hearty cheers were given for Capt. and Mrs. McVey, Lady Tilley, the V.A.D. members, two nurses present and after singing God Save the King the men marched to the station. Dr. and Mrs. McVey had many invited Rothsay guests and everybody was happy.

SEVEN YEARS TORTURE

Nothing Helped Him Until He Took "FRUIT-A-TIVES"

ALBERT VARNER. Buckingham, Que., May 3rd, 1915. For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston, but without benefit. I tried many remedies but nothing did me good. Finally, a friend advised "Fruit-a-tives." I took this grand fruit medicine and it made me well. I am grateful to "Fruit-a-tives" and to everyone who has miserable health with Constipation and Indigestion and Bad Stomach. I say take "Fruit-a-tives" and you get well.

BRITISH FOOD WANTS

British Demand for Canadian Food Products and the Question of Transportation.

Producers of several lines of food products in Canada are faced by a somewhat difficult problem as to what may be required for export to Great Britain and as to the possibilities of tonnage therefor. In so far as these lines of food products are disposed to the British government or the war office by contract, the question of transport is eliminated, the government, of course, taking care to provide for the carriage of its own supplies.

The following tables of imports of these articles into Great Britain for the calendar years 1915 and 1916, and of the exports of the same from Canada during these years will give an idea of the probable call for these commodities during the current and coming calendar years.

Total imports into the United Kingdom of butter, eggs, poultry and bacon during the years ended December 31, 1915 and 1916:

Classification	Quantity	Value
Butter, lbs.	431,831,760	\$121,510,991
Eggs, dozen	192,460,359	\$9,890,187
Poultry, dead	17,521,280	3,184,857
Bacon, lbs.	730,618,224	123,815,105

Classification	Quantity	Value
Butter, lbs.	248,939,248	\$92,356,923
Eggs, doz.	66,064,110	23,074,817
Poultry, dead	15,386,784	2,095,131
Bacon, lbs.	882,826,960	167,324,356

Classification	Quantity	Value

A MERCHANT'S GREETING.

A committee of the Great War Veterans' Association is canvassing merchants in the city for advertisements to be placed in a programme of an entertainment, the proceeds of which are to go to the veterans' benevolent fund. One of the committee stated yesterday that one merchant in the city was anything but pleasant when called on for an ad. The soldier asked the merchant if he would assist the association with a small advertisement, and the reply was rather startling when the merchant looked at the soldier and said: "You go to —." The returned man returned with the words, "You're a gentleman," and left the store, thinking much less of the merchant than he did before he entered.

IN 1910, SAYS ARMOUR

Astrologer Who Predicted Entry of U. S. Sees Trouble for Kaiser in November.

Stuart Armour who in February of this year predicted the entry of the United States into the European war, has since then made very careful mathematical calculations and gives it as his opinion that the war will come to a close in March or April, 1918.

"From the viewpoint of astrology, the entry of the United States into the great war has given us another factor to be taken into consideration in arriving at a conclusion as to the time the war will endure.

"As I stated in my article in the New York Herald of October 22, 1916, there is much evidence that the war will close in 1917, though from the stellar influence of the United States, now to be taken into consideration, it may possibly last until June or July, 1918.

"Gemini has been a fateful sign to the United States and the disturbing, liberty-loving planet Uranus in that sign during the years of the Revolution and the Rebellion, and was in opposition to that sign during the Spanish-American War.

"The question that occurs to an astrologer is, Will this finish the Kaiser and lead to a peace or will events wait until March or April, 1918, when Saturn is stationary in opposition to the Kaiser's sun?"

 Chicago July 13.—An unusual play in the 11th inning gave New York a 6 to 5 victory over Chicago today. After one man was out Peckinpaugh singled and took second on a sacrifice. Pipp then singled to center and Peckinpaugh started home. Felch's throw to the plate was perfect and as Peckinpaugh slid Schalk dropped upon him and also dropped the ball. Schalk, while sitting on the New Yorker recovered the ball and touched Peckinpaugh out. Peckinpaugh was trapped a foot from the base but Umpire Evans ruled him safe claiming that Schalk held him while he was recovering the ball.

 Petrograd, July 13.—The Finnish diet has passed the second reading of a bill virtually establishing Finnish independence. The introduction of the bill has created a serious crisis here and N. C. Tchaidze, president of the council of workmen's and soldiers' delegates, has gone to Helsingfors in an effort to settle the differences.
 The premier and other ministers belonging to the cabinet party refuse to allow Finland to determine her relations with Russia, insisting she must wait until the meeting of the constituent assembly.
 The comment of the newspapers in Petrograd is sharp. The Betch declares it is impossible for Russia to tolerate Finland's move.

 Trouble with Pipe Cleaner.
 Considerable trouble has been experienced by the men who are cleaning the 12-inch water main in the stretch between Portland street and Douglas avenue on Main street and over a week has been spent at this point. The scraper caught and at first it was thought to be somewhere near the head of Sheriff street but was finally located opposite St. Luke's church. The men dug down and librated it and started it on its way again. This time they attached cables with the intention of hauling it through the remaining portion of the pipe. When about twenty feet from the place where it was to come out it stuck again and after breaking the cables in an effort to pull it through

it was decided to dig down to the main. It is thought that a part of the scraper has caught in the cross connection for Douglas avenue. It is hoped to get it clear and that portion of the work finished by tonight.

WANT DEATH OF INDIAN PROBED

Fredericton, July 13.—Relatives of Joseph Francis, the Kingsclear Indian, whose body was found in the St. John river opposite this city on July 2, are not satisfied with the verdict brought in by the coroner's jury, to the effect that the cause of death could not be assigned, as no post mortem examination of the body had been made. It is reported that the department of the Attorney General will be asked to look into the matter.

The Testing Time!

WHEN the test of the world-conflagration called for every ounce of strength in every available man to stem the tide of destruction, one of John Barleycorn's greatest friends, Russia, was the first to abolish the Traffic because it could not meet the test. In good time, when her hour of test arrived, New Brunswick banished the great Drink curse let us hope forever!

After the war, in his turn, John Barleycorn is going to put New Brunswick to the test. Prohibition may again be voted upon after the war.

Every bit of lax enforcement and indifference is just so much ammunition for him to use against us. How does Prohibition meet the test?

Russia—

Some idea of the enormous effect of Prohibition is afforded by the wonderful example of Russia. In spite of the fact that millions of producers are in the army the savings of the people enormously increased. In 1912 and 1913 they were saving, per year, about \$20,000,000. In the first five months under Prohibition they saved \$60,000,000. In 1915 the banks took in \$265,000,000. For the first half of 1916 the Russian people saved \$300,000,000!

The Dakotas—

Town and city population in South Dakota under License increased 168 per cent. in 20 years. In the Prohibition state of North Dakota it increased 494 per cent.!

In "dry" North Dakota, for the year 1900, 2,789 men produced \$19,137,000 worth of manufactured goods. In the "wet" Dakota it required no less than 3,602—813 more men—to produce only \$17,870,000 worth of manufactured goods, or \$1,267,000 less!

In 1890 commitments to insane Asylums in "dry" North Dakota were 40 persons per 100,000 more than South Dakota. After twenty years of Prohibition they were forty less! And the Prohibition State began the period with only about half the population of its neighbor!

South Dakota has since adopted Prohibition.

Russia Prospers

During the first eight months of Prohibition in Russia the Savings Banks reports show savings increased 5,000 per cent. (nat.)

Help to Enforce Prohibition

Permanent Prohibition in New Brunswick demands strict enforcement between now and the day when Prohibition may again be voted upon after the war. The whole task of enforcement must not be left to the officers of the law alone. Everyone should help. Eternal vigilance is the watchword.

Studebaker

Before you buy any car Investigate the Canadian Built Studebaker Car

YOUR car is probably the second most important investment you will ever make. **FIRST**—comes your home. **THEN**—your car. Before you buy that car stop and think. Are you going to be completely satisfied with it? Is it sure to be the comfortable car you want? Motor car comfort has been a thing of slow development. It means more than the physical ease of a fireside chair.

POWER is the first factor of automobile comfort. No man can be thoroughly comfortable in his car if he has to be continually pushing pedals and pulling levers. You want a car that will climb the hills and pull through mud and sand without appreciable effort; a car that will take you anywhere with a minimum shifting of gears.

The Studebaker FOUR has full 40 Horse Power—the Studebaker SIX has full 50 Horse Power. Both cars are built in Studebaker factories at Walkerville, Ontario. They are probably the most powerful cars of their weight on the market today.

ROADABILITY is a point of automobile comfort. You want an easy driving car, one that does not jump and sway and make you work to hold it in the road. The perfect balance of the Studebaker chassis, the basic design of which has been continually improved and refined over a period of four years, makes the Studebaker car one of the most roadable cars in the world. A Studebaker car drives straight as an arrow and has no tendency to jump or sway.

DEPENDABILITY is another point of automobile comfort. Studebaker uses the best vanadium steel in its chassis construction. Studebaker uses drop forgings wherever possible to add strength and lightness.

The use of high grade materials and of skilled, experienced labor makes for the mechanical perfection of Studebaker cars—which in turn makes for unusual durability.

Studebaker brakes are over-size—the area of braking surface is very large. A slight pressure on a Studebaker brake will bring you to a gentle halt, a stronger pressure will stop you within a few feet.

Think how it will add to your comfort to know that yours is a durable car with thoroughly dependable brakes.

ECONOMY is also a factor. It is always comfortable to know that your up-keep bills are going to be low. Studebaker cars with all their power are very economical in their consumption of gasoline. Studebaker owners frequently report from 8,000 to 10,000 miles on a single set of tires.

APPEARANCE. You can never be comfortable in a car that needs apology. Studebaker cars are big and handsome. Their finish of gunmetal gray with ivory striping makes them distinctive in appearance.

FINALLY there is the question of physical convenience and comfort. The driver of a Studebaker car has everything at his finger tips. His hand falls naturally on the levers, the pedals may be adjusted to suit his individual requirements, electric starting and lighting switches are conveniently placed on the dash within easy reach of the driver; the starter pedal is directly under his right heel.

The front seats of Studebaker cars are individual and form-fitting, adjustable forward and back to all leg lengths. The seat next the driver is reversible, its occupant may face the tonneau if desired. The tonneau doors are 21½ inches wide—easy to enter or leave. The tonneau seat is 48 inches wide, the ideal width for three. There are two auxiliary seats under the tonneau seat for your convenience should you want to carry extra passengers.

All cushion work is of the best long curled hair mounted on resilient spiral springs.

All upholstery is of genuine, high grade hand buffed leather. Each seat in a Studebaker car invites rest and relaxation.

You certainly owe it to yourself to investigate the Studebaker car before coming to a decision as to what your car will be.

There will be no change in Studebaker models this year, but the increased cost of materials and labor may force Studebaker to make an advance in prices at any time without notice.

Around the City

A Correction. In the account of the celebration at Lorneville in yesterday's Standard, among the Prentice Boys lodges participating in the parade, it should have read lodge No. 35 instead of No. 27.

Retreat to Close Today. The retreat of the cathedral clergy of the diocese of St. John will be brought to a close at St. Joseph's college today. His Lordship Bishop LeBlanc and the local priests are expected to reach the city this afternoon.

Body Not Found. Boatmen with the city grappling irons have for the past couple of days been engaged in dragging the harbor near the Redds Point wharf, trying to find the body of James Sheridan, who has been missing since a week ago yesterday. The man's hat was found on the wharf, and it is thought that he had fallen into the harbor.

Return to Firing Line. The parents of Harold I Boyer at 73 Stanley street, received a telegram from Ottawa yesterday, stating that the young soldier who had been wounded some weeks ago, had been discharged from a hospital as well and had returned to the firing line. Private Boyer was a member of the Standard's mailing room staff at the time he enlisted for overseas duty.

Ask Consolidation of Deeds. A meeting of the finance committee of the Municipal Council was held yesterday preparatory to the quarterly session which will be held next Tuesday. A number of bills were passed for payment. The law committee and registrar of deeds appeared before the committee and asked that the deeds be consolidated from the year 1912 to date at an estimated cost of \$500. The committee will recommend to the council that this work be done.

St. John Man Injured. Information has been received from Bangor that James Welsh of this city is suffering from concussion of the brain in the Maine town. Welsh was arrested recently on a minor charge and when he was examined in jail it was found that he was suffering severely. It is not known how the man was injured but it is presumed he was accidentally hurt. He has been taken to the Eastern Maine hospital at Bangor.

To Hold Monies on Hand. At a recent meeting of the Belgian Relief Committee it was decided on motion of Senator Daniel, seconded by Daniel Mullin, Belgian Consul, that in accordance with the information received from the National Committee for Relief in Belgium, dated May 21st, 1917, and signed by W. A. M. Gonde, honorary secretary, to the effect that as the United States government has undertaken to provide, at any rate for the present, all the money required for relief in Belgium, that this committee hold any monies it has on hand and which may be received in the future to meet any emergency that may arise in connection with this work.

Y. M. C. A. Summer Camp Notes. About thirty young men leave this morning for the Y. M. C. A. Summer camp at Chipman, where they will spend two weeks roughing it in the country, and forget the cares and worries of city life. The camp leaders, who will accompany the boys, are: Taylor Stratton, Rev. Charles Myers, Rev. P. R. Hayward, Rev. R. T. McKim, Lew Buckley, A. M. Gregg and H. O. Bonk. Last night and Thursday night the younger boys, who have been at the camp for the past two weeks, returned to the city. They were a sunburned, happy lot and their only regret was that the time at camp passed all too quickly.

Returned Soldiers' Reception Committee. A pleasant ceremony of an informal nature took place yesterday afternoon at the meeting of the Returned Soldiers' Reception Committee. This ceremony was the presentation of a badge to the chairman of the committee, S. H. Mayes, in recognition of his untiring efforts on behalf of the soldiers. Ever since the beginning of this work Mr. Mayes has given unflinchingly of his time, and it was in appreciation that this presentation was made. A. O. Skinner made a brief speech and Mrs. H. A. Powell presented Mr. Mayes with the badge which is an enlarged pattern of the one worn by members of the committee but bearing the words Chairman of the R. S. R. C. Mr. Mayes thanked the committee in a few words. Plans for the work were discussed and various committees appointed.

STRAW AND SAWDUST USED TO BUILD ROADS IN QUEENS CO. BY CARTER-FOSTER GOVT.

Roads There Were Never in Worse Condition, Says Local Man Who Has Been Frequent Traveller—Dilapidated Culvert at Outskirts of Gagetown But Supervisor Takes No Action.

Straw and sawdust roads are now being built by the Carter-Foster Government in New Brunswick. A local man who has had occasion to travel over the new roads in Queens county the present week gave The Standard some interesting instances of road repair work. Speaking of the condition of the roads between Young's Cove and Cole's Island, the local man stated that on a section in full view of passengers on the Fredericton and Grand Lake Railway stones as large as tea-kettles and oat straw have been used by the supervisor, R. M. Farris. This class of material has been used on the main road at Young's Cove Station, while on the other section of the roads between the station and Cole's Island another crew are using large stones and sawdust. In the parish of Johnston upwards of \$150 have already been expended in

putting stones of various sizes on a hill which for the most part is ledge with the result that the hill is rougher as well as steeper than before. Little or no attention has been paid to the roads in Gagetown. Even on the outskirts of the village of Gagetown a dilapidated culvert is marked by a large fence pole standing at the end of the road. The pole has been in this position for some weeks, although Road Supervisor Ebbett has motored by the place almost daily in making pleasure trips in his new car to and from Fredericton. The spring of another motor was broken on one trip in front of the supervisor's own house, owing to the rough condition of the roads. It is understood that the resident member in Johnston has secured \$2,000 to expend on the roads of that parish.

People Can Only Look on Measure as Absolute Necessity.

Col. Guthrie Points Out Seriousness of Crisis and Need of Men.

"Conscription should receive the support of every man interested in the preservation of the British Empire. The voluntary system has outlived its usefulness, and the government must of necessity bring compulsory service into effect if Canada's fighting strength on the firing line is not to be completely obliterated." Such was the statement of Lt. Col. P. A. Guthrie before leaving the city for Fredericton last evening. Lt. Col. Guthrie was the first man in Canada to raise his voice in favor of conscription and he is naturally pleased with the success that the measure has encountered. He believes that having entered the war Canada will continue to support her soldiers in a whole-hearted manner. That the system which would bring the greatest number of men to the colors was the system to be followed was his opinion and he declared strongly that the best result could only be achieved by the introduction of compulsory service. "I am pleased that the people of Canada have awakened to a more vivid realization of the crisis with which we are confronted at the present time," said Lt. Col. Guthrie. "I felt I was justified in urging the adoption of conscription as I did after my return to Canada from the front. I saw there the imperative need of more men, which need is even greater to-

2,000 MEN ENLISTED BY N. B. OFFICERS IN UNITED STATES

Kilties Band and Recruiting Officers to Go to New York This Evening.

Captain J. D. Black Gives Figures of Recruiting in Country of Our Ally.

Capt. J. Douglas Black, of Fredericton, who with Lt. Col. Guthrie was in charge of recruiting in the United States for the 236th Kilties, was in the city yesterday. He told The Standard that arrangements had been completed for the Kilties band to proceed to New York for recruiting purposes. Col. Guthrie and Captain Black will return with the band. The party will leave Fredericton this evening and go by train to Boston. They will take the Fall River steamer to New York, the band playing during the trip. After a week's recruiting in New York, the party will go to Chicago.

CLAIMS DAMAGES TO AMOUNT OF \$5,000

Sequel to Alleged Automobile Accident Will Be Heard at This Session of the Circuit Court.

Among the many civil cases to come before the present session of the Circuit Court, Hon. Mr. Justice McKeown presiding, is the matter of Lyman vs. Emery. Considerable interest centers in this case inasmuch as it develops from an accident to the defendant who, it will be remembered, was picked up on July 19, 1916, near the station at Renforth, having apparently been unconscious for some time. It is claimed that he was struck by the defendant's automobile. The plaintiff is claiming damages to the amount of \$5,000 in addition to his expenses. The case is being tried by the judge without a jury. W. B. Wallace, K.C., for the plaintiff and Hon. J. B. M. Baxter, K.C., for the defendant.

JAMES EDWARD HALEY DIED AFTER OPERATION IN MONTREAL HOSPITAL

Young C. P. R. Brakeman of West St. John Married Only Sixteen Days Ago—Operated on for Appendicitis—Died Yesterday Morning.

When a telegram arrived in West St. John yesterday, to the effect that James Edward Haley, a young man who resided with his widowed mother, 17 Queen street, West St. John, had died in a Montreal hospital after an operation, the sad news was received with a shock by the young man's relatives and friends. The young man was a brakeman employed in the C.P.R. yards at West St. John, and the saddest feature of his death is that he was on his wedding trip when he was stricken. On Wednesday, June 27th, James Edward Haley was married in the Cathedral to Miss Mary Ellen Duffy, 23 Sewell street. Mr. and Mrs. Haley went to Montreal on their honeymoon. They were about ready to return to St. John a few days ago when Mr. Haley was taken suddenly ill with appendicitis and was removed to a hospital in that city and was operated on. At first it was thought that he would survive, but he grew weaker and died yesterday morning. His relatives and many friends were waiting for the arrival of a happy young man and bride when the start-

THE FUNERAL OF MR. R. H. ARMSTRONG

ling news of his death was received, and the deepest sympathy is extended to the young bride, now left a widow, as well as to the young man's widowed mother, his sister and brothers. The body, accompanied by the young widow, left Montreal last evening and will arrive in the city today and will be conveyed to the home of the young man's mother, Mrs. Margaret Haley, 17 Queen street, and the funeral will take place tomorrow afternoon at 3 o'clock. Besides his mother and three brothers, the deceased leaves one sister, Mrs. Alexander Golding, whose husband was killed in action in France. It was only last spring that the deceased's father, Cornelius Haley, died. James Edward Haley was a prominent member of the Brotherhood of Railway Trainmen, who will attend the funeral in a body.

A FISHING RECORD FOR BAY OF FUNDY

With Only Six Nets Out on Thursday Night James McCavour of Lorneville Captured 125 Salmon.

The record for one night's fishing in the Bay of Fundy waters goes to James McCavour of Lorneville, who, on Thursday night, netted no less than 121 large salmon and four "fiddlers" (small salmon). The remarkable part of this record catch is that Mr. McCavour had but six nets out. Accordingly the revenue for his day's work is very large.

The greater part of the population of Lorneville celebrated the Twelfth of July with a parade, picnic, and dance, and as soon as the festivities were over the fishermen went to sea in their boats, and every Lorneville boat made extra large hauls of salmon. Two boats captured forty fish each.

Fishermen in Lorneville state that the fishing in the early part of the season was not as good as it might have been owing to the weather conditions, but during this week the men are doing well.

Mr. Gundry, proprietor of the jewelry store, 79 King street, recently sold a diamond and mounted it in the ring, tested for and fitted a pair of glasses, and the regular optician was out, sold a silver cigarette case and engraved a half ribbon monogram on it besides repairing a few watches, as part of his day's work. Mr. Gundry was brought up in the jewelry business and mastered every branch of it before embarking in business for himself, something over seven years ago.
